## 1. Organization

The Company designs, transforms, and runs intelligent business operations, including those that are complex and specific to a set of chosen industries. The result is advanced operating models that assist the Company s clients in becoming more competitive by supporting their growth and managing cost, risk, and compliance across a range of functions, such as finance and procurement, financial services account servicing, claims management, regulatory affairs, and industrial asset optimization. The Company s Smart Enterprise Processes (SEPM) proprietary framework helps companies reimagine how they operate by integrating effective Systems of Engagement<sup>TM</sup>, core IT, and Data-to-Action Analytics<sup>SM</sup>. The Company s hundreds of long-term clients include more than one-fourth of the Fortune Global 500. The Company has a unique history: behind its passion for process and operational excellence is the Lean and Six Sigma heritage of a former General Electric division that has served GE businesses for more than 16 years.

Prior to December 30, 2004, the business of the Company was conducted through various entities and divisions of the General Electric Company (GE). On December 30, 2004, in a series of transactions referred to as the 2004 Reorganization, GE transferred such operations to the Company. In August 2007, the Company completed an initial public offering of its common shares, pursuant to which the Company and certain of its existing shareholders each sold 17,647,059 common shares. On March 24, 2010, the Company completed a secondary offering of its common shares pursuant to which GE s shareholding in the Company decreased to 9.1% and it ceased to be a significant shareholder, although it continued to be a related party. During the year ended December 31, 2012, GE s shareholding declined to less than 5.0%, as a result of which GE is no longer considered a related party.

#### 2012 Recapitalization

On August 1, 2012, affiliates of GA and OH entered into an agreement to sell 67,750,678 common shares of the Company to Glory Investments A Limited, formerly known as South Asia Private Investments, an affiliate of Bain Capital Investors, LLC (Bain Capital). On October 25, 2012, Bain Capital and its affiliated assignees, along with two additional co-investors (RGIP, LLC, an investor in certain investment funds which are affiliated with Bain Capital, and Twickenham Investment Private Limited, an affiliate of the Government of Singapore Investment Corporation Private Limited), completed the purchase of the Company s common shares covered by the share purchase agreement.

On December 14, 2012, a secondary offering of the Company's common shares by affiliates of General Atlantic (GA) and Oak Hill Capital Partners (OH) was completed. Upon the completion of the secondary offering, GA and OH each owned approximately 2.4% of the Company's common shares outstanding, and they ceased to be significant shareholders and related parties.

On August 30, 2012, the Company terminated its previous credit facility of \$380,000 and entered into a new credit facility of \$925,000. Net proceeds from the credit facility along with cash on hand were partially used to fund the payment of a special cash dividend in the amount of \$2.24 per share in the third quarter of 2012. The share purchase transaction described above, the entry into a new credit facility and the payment of the special cash dividend are referred to collectively as the 2012 Recapitalization. In June 2013, the Company amended its credit facility as described in Note 12.

## Edgar Filing: Genpact LTD - Form 10-Q

## 2. Summary of significant accounting policies

#### (a) Basis of preparation and principles of consolidation

The unaudited interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information and the rules and regulations of the Securities and Exchange Commission for reporting on Form 10-Q. Accordingly, they do not include certain information and note disclosures required by generally accepted accounting principles for annual financial reporting and should be read in conjunction with the consolidated financial statements included in the Company s Annual Report on Form 10-K for the year ended December 31, 2014.

The unaudited interim consolidated financial statements reflect all adjustments that management considers necessary for a fair presentation of the results of operations for these periods. The results of operations for the interim periods are not necessarily indicative of the results for the full year.

#### 2. Summary of significant accounting policies (Continued)

The accompanying unaudited interim consolidated financial statements have been prepared on a consolidated basis and reflect the financial statements of Genpact Limited, a Bermuda company, and all of its subsidiaries that are more than 50% owned and controlled. When the Company does not have a controlling interest in an entity but exerts significant influence on the entity, the Company applies the equity method of accounting. All intercompany transactions and balances are eliminated in consolidation.

The noncontrolling interest disclosed in the accompanying unaudited interim consolidated financial statements represents the noncontrolling partners interest in the operation of Genpact Netherlands B.V. and the profits or losses associated with such noncontrolling interest. The noncontrolling partners of Genpact Netherlands B.V. are individually liable for the tax obligations on their shares of profit as it is a partnership. Accordingly, noncontrolling interest relating to Genpact Netherlands B.V. has been computed prior to tax and disclosed accordingly in the unaudited interim Consolidated Statements of Income. During the year ended December 31, 2014, the Company purchased such noncontrolling interest, as a result of which the Company has 100% control of the partnership.

## (b) Use of estimates

The preparation of consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements. Significant items subject to such estimates and assumptions include the useful lives of property, plant and equipment, the carrying amount of property, plant and equipment, intangibles and goodwill, reserves for doubtful receivables, valuation allowances for deferred tax assets, the valuation of derivative financial instruments, measurements of stock-based compensation, assets and obligations related to employee benefits, and income tax uncertainties and other contingencies. Management believes that the estimates used in the preparation of the consolidated financial statements are reasonable. Although these estimates are based upon management s best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the Company s consolidated financial statements.

#### (c) Business combinations, goodwill and other intangible assets

The Company accounts for its business combinations using the acquisition method of accounting in accordance with ASC 805, Business Combinations, by recognizing the identifiable tangible and intangible assets acquired, liabilities assumed, and any noncontrolling interest in the acquired business, measured at their acquisition date fair values. Contingent consideration is included within the acquisition cost and is recognized at its fair value on the acquisition date. A liability resulting from contingent consideration is remeasured to fair value as of each reporting date until the contingency is resolved. Changes in fair value are recognized in earnings. All assets and liabilities of the acquired businesses, including goodwill, are assigned to reporting units. Acquisition related costs are expensed as incurred

#### Edgar Filing: Genpact LTD - Form 10-Q

under Selling, General and Administrative Expenses.

Goodwill represents the cost of acquired businesses in excess of the fair value of identifiable tangible and intangible net assets purchased. Goodwill is not amortized but is tested for impairment at least on an annual basis on December 31, based on a number of factors, including operating results, business plans and future cash flows. The Company performs an assessment of qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. Based on the assessment of events or circumstances, the Company performs the quantitative assessment of goodwill impairment if it determines that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, based on the quantitative impairment analysis, the carrying value of the goodwill of the reporting unit exceeds the fair value of that goodwill, an impairment loss is recognized in an amount equal to the excess. In addition, the Company performs the qualitative assessment of goodwill impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. See Note 10 for information and related disclosures.

#### **Notes to the Consolidated Financial Statements**

(Unaudited)

(In thousands, except per share data and share count)

#### 2. Summary of significant accounting policies (Continued)

Intangible assets acquired individually or with a group of other assets or in a business combination are carried at cost less accumulated amortization based on their estimated useful lives as follows:

Customer-related intangible assets

Marketing-related intangible assets

Other intangible assets

1-14 years
1-10 years
3-9 years

Intangible assets are amortized over their estimated useful lives using a method of amortization that reflects the pattern in which the economic benefits of the intangible assets are consumed or otherwise realized.

In business combinations, where the fair value of identifiable tangible and intangible net assets purchased exceeds the cost of the acquired business, the Company recognizes the resulting gain under Other operating (income) expense, net in the Consolidated Statements of Income.

#### (d) Financial instruments and concentration of credit risk

Financial instruments that potentially subject the Company to concentration of credit risk are reflected principally in cash and cash equivalents, short term deposits, derivative financial instruments and accounts receivable. The Company places its cash and cash equivalents and derivative financial instruments with corporations and banks with high investment grade ratings, limits the amount of credit exposure with any one corporation or bank and conducts ongoing evaluations of the creditworthiness of the corporations and banks with which it does business. To reduce its credit risk on accounts receivable, the Company conducts ongoing credit evaluations of its clients. GE accounted for 25% and 22% of receivables as of December 31, 2014 and March 31, 2015, respectively. GE accounted for 21% and 19% of revenues for the three months ended March 31, 2014 and 2015, respectively.

#### (e) Recently adopted accounting pronouncements

There are no recent accounting pronouncements issued by authoritative bodies that have been adopted by the Company.

#### 3. Business acquisitions and divestitures

#### A. Acquisitions

(a) Acquisition of wealth management operations in the U.S.

On January 16, 2015, the Company acquired certain assets and assumed certain liabilities of Citibank, N.A. comprising a portion of its U.S. wealth management operations for cash consideration of \$11,678. In connection with the transaction, the Company hired certain employees of the seller s U.S. wealth management business. With this transaction, the Company has acquired an end-to-end, technology-enabled wealth management service offering. There are no contingent consideration arrangements in connection with the acquisition.

The Company recorded \$9,100 in customer related intangible assets which have a weighted average amortization period of five years. Goodwill arising from the acquisition amounted to \$3,400, has been allocated to the Company s India reporting unit and is deductible for tax purposes. The Company also assumed a pre-existing liability of the seller amounting to \$822 in connection with the acquisition. Acquisition-related costs amounting to \$798 have been included in selling, general and administrative expenses as incurred. The results of operations of the business acquired and the fair value of the assets acquired and liabilities assumed are included in the Company s Consolidated Financial Statements with effect from January 16, 2015, the date of the acquisition.

#### (b) Acquisition of delivery center in Japan.

On November 4, 2014, the Company acquired finance and accounting service delivery centre in Japan. In connection with the acquisition, the Company entered into a five-year Business Process Outsourcing (BPO) Agreement. The purchase consideration for the acquisition is set forth below:

Cash consideration after preliminary adjustment for pension	
underfunding and closing net assets value	\$ 10,599
Fair value of contingent earn-out consideration (ranging from \$0	
to \$15,750)	11,198
Total preliminary estimated purchase consideration	\$ 21,797

The contingent earn-out consideration will be determined based on additional services contracted by the delivery center for the period from November 4, 2014 to November 4, 2021. The total consideration paid by the Company at closing for the acquisition was \$7,108, net of cash acquired of \$3,491. With this acquisition, the Company expands its presence in Japan and strengthens its finance and accounting services offerings.

As of the date of these financial statements, the purchase consideration is pending final adjustment for pension underfunding and closing date net assets value in accordance with the terms of the agreement which may result in a

## Edgar Filing: Genpact LTD - Form 10-Q

corresponding adjustment to goodwill during the measurement period. The Company is also evaluating certain pension assets and liabilities and tax positions with respect to this acquisition which, when determined, may result in the recognition of additional assets and liabilities as of the acquisition date. Changes to the preliminary recorded assets and liabilities may result in a corresponding adjustment to goodwill. The measurement period will not exceed one year from the acquisition date.

The following table summarizes the initial allocation of the preliminary estimated purchase price based on the fair value of the assets acquired and the liabilities assumed as of the date of the acquisition:

Preliminary estimated purchase price	\$ 21,797
Acquisition related costs included in selling, general and	
administrative expenses as incurred	796
Recognized amounts of identifiable assets acquired and liabilities	
assumed	
Net assets acquired	(323)
Customer related intangible assets	7,522
Deferred tax asset/(liability), net	(2,496)
Total identifiable net assets acquired	\$ 4,703
Goodwill	17,094
Total	\$ 21,797

## 3. Business acquisitions and divestitures (Continued)

Goodwill has been allocated to the China reporting unit and is non-deductible for tax purposes as the company has not recorded any tax benefit for amortization. The customer-related intangible assets in the table above have a weighted average amortization period of 7 years.

The results of operations of the delivery center and the fair value of its assets and liabilities are included in the Company s Consolidated Financial Statements with effect from November 4, 2014, the date of the acquisition.

## (c) Pharmalink Consulting Limited and Pharmalink Consulting Inc.

On May 29, 2014, the Company acquired 100% of the outstanding equity interest in each of Pharmalink Consulting Limited, a company incorporated under the laws of England and Wales, and Pharmalink Consulting Inc., a California corporation (collectively referred to as Pharmalink). The purchase consideration for the acquisition is set forth below:

Cash consideration after preliminary adjustment for net debt and	
working capital	\$ 125,901
Fair value of contingent earn-out consideration (ranging from \$0	
to \$27,405)	12,730
Total preliminary estimated purchase consideration	\$ 138,631

The contingent earn-out consideration is based on gross profits and order bookings of sustainable outsourcing contracts for the period from June 1, 2014 to June 30, 2016. The total consideration paid at closing for the Company s acquisition of Pharmalink was \$123,701, net of cash acquired of \$2,200. Pharmalink is a provider of regulatory affairs services to the life sciences industry. With this acquisition, the Company adds regulatory consulting, outsourcing and operations capabilities for clients in the life sciences industry.

As of the date of these financial statements, the purchase consideration and the allocation for the acquisition are pending final adjustment for working capital and net debt in accordance with the terms of acquisition agreement which may result in a corresponding adjustment to goodwill during the measurement period. Changes to the preliminary recorded assets and liabilities may result in a corresponding adjustment to goodwill. The measurement period will not exceed one year from the acquisition date.

During the quarter ended December 31, 2014, the Company recorded a measurement period adjustment that resulted in a non-current liability of \$585 and a corresponding indemnification asset with no impact on goodwill. The measurement period adjustment did not have a significant impact on the Company s Consolidated Statements of Income, Balance Sheets or Cash Flows in any period and, thus, was recorded during the period ended December 31,

#### 2014.

The following table summarizes the preliminary allocation of the preliminary estimated purchase price based on the fair value of the assets acquired and the liabilities assumed as of the date of acquisition including measurement period adjustments:

Preliminary estimated purchase price	\$ 138,631
Acquisition related costs included in selling, general and administrative expenses as incurred	1,977

#### 7. Derivative financial instruments

The Company is exposed to the risk of rate fluctuations on foreign currency assets and liabilities, and foreign currency denominated forecasted cash flows. The Company has established risk management policies, including the use of derivative financial instruments to hedge foreign currency assets and liabilities, and foreign currency denominated forecasted cash flows. These derivative financial instruments are largely deliverable and non-deliverable forward foreign exchange contracts. The Company enters into these contracts with counterparties which are banks or other financial institutions, and the Company considers the risk of non-performance by the counterparties not to be material. The forward foreign exchange contracts mature between zero and sixty-nine months and the forecasted transactions are expected to occur during the same period.

The following table presents the aggregate notional principal amounts of outstanding derivative financial instruments together with the related balance sheet exposure:

- (a) Notional amounts are key elements of derivative financial instrument agreements but do not represent the amount exchanged by counterparties and do not measure the Company s exposure to credit or market risks. However, the amounts exchanged are based on the notional amounts and other provisions of the underlying derivative financial instrument agreements.
- (b) Balance sheet exposure is denominated in U.S. dollars and denotes the mark-to-market impact of the derivative financial instruments on the reporting date.

FASB guidance on Derivatives and Hedging requires companies to recognize all derivative instruments as either assets or liabilities at fair value in the statement of financial position. In accordance with the FASB guidance on Derivatives and Hedging, the Company designates foreign exchange forward contracts as cash flow hedges for forecasted revenues and the purchase of services. In addition to this program, the Company has derivative instruments that are not accounted for as hedges under the FASB guidance in order to hedge the foreign exchange risks related to balance sheet items such as receivables and intercompany borrowings denominated in currencies other than the underlying functional currency.

The fair value of the derivative instruments and their location in the Company s financial statements are summarized in the table below:

#### Cash flow hedges

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain (loss) on the derivative instrument is reported as a component of other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction is recognized in the consolidated statements of income. Gains (losses) on the derivatives representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in earnings as incurred.

In connection with cash flow hedges, the gains (losses) recorded as a component of other comprehensive income (loss), or OCI, and the related tax effects are summarized below:

### 11. Short-term borrowings (continued)

- (b) A fund-based and non-fund based revolving credit facility of \$250,000, which was initially entered into in August 2012 and amended in June 2013 as described in note 12. A portion of this facility was initially used to fund the special cash dividend paid in September 2012 and for the acquisition of the Jawood Business Process Solutions, LLC and Felix Software Solutions Private Limited in February 2013. Additionally, this facility was utilized in part to fund the Company s stock purchase pursuant to its March 2014 self-tender offer and its acquisition of Pharmalink, each in the second quarter of 2014. As of both December 31, 2014 and March 31, 2015, a total of \$137,224 was utilized, of which \$135,000 constituted funded drawdown and \$2,224 constituted non-funded drawdown. This facility expires in August 2017. The funded drawdown amount bears interest at LIBOR plus a margin of 2.50% as of both December 31, 2014 and March 31, 2015. The unutilized amount on the facility bears a commitment fee of 0.50%. Indebtedness under the facility is secured by certain assets of the Company, and the credit agreement contains certain covenants, including a maximum leverage covenant that becomes effective only if the revolving facility is drawn for \$50,000 or more. For the three months ended March 31, 2015, the Company is in compliance with all of the financial covenants.
- (c) On January 27, 2015 and March 23, 2015, the Company obtained short-term loans in the amount of \$672,500 and \$737,500, respectively, from Morgan Stanley Senior Funding, Inc. in connection with certain internal reorganization transactions. These loans bore interest at a rate of 2.00% per annum and were fully repaid on January 30, 2015 and March 26, 2015, respectively. The Company recorded \$1,045 in debt issuance expenses and \$235 in interest with respect to the amounts borrowed under the short-term loans.

#### 12. Long-term debt

In August 2012, the Company obtained credit facilities aggregating \$925,000 from a consortium of financial institutions to (i) finance the repayment of the \$380,000 balance outstanding under the previous existing credit facility, (ii) fund a portion of its special cash dividend and (iii) for general corporate purposes of the Company, including working capital requirements. The credit agreement provides for a term loan of \$675,000 and a revolving credit facility of \$250,000.

In June 2013, the Company amended this credit facility. Under the amended facility, the applicable margin on the term loan and the revolving credit facility has been reduced from 3.25% p.a. to 2.75% p.a. and 2.50% p.a., respectively. In addition, the LIBOR floor on the term loan was reduced from 1% under the earlier facility to 0.75% under the amended facility. As of the amendment date, the gross outstanding term loan amounted to \$671,625. The amendment did not result in a substantial modification of \$553,589 of the outstanding term loan under the previous credit facility. Further, as a result of the amendment, the Company extinguished \$118,036 of the outstanding term loan under the previous credit facility and obtained additional funding amounting to \$121,410, increasing the total term loan outstanding to \$675,000. As a result, the Company expensed \$3,103 representing partial acceleration of the

amortization of the existing unamortized debt issuance costs and an additional fee paid to the lenders in respect of the extinguished amount. The overall borrowing capacity under the revolving facility did not change. The amendment of the revolving facility resulted in accelerated amortization of \$54 relating to the existing unamortized debt issuance cost. The remaining unamortized costs and an additional third party fee paid in connection with the amendment of the term loan and revolving facility will be amortized over the term of the term loan and revolving facility, which end on August 30, 2019 and August 30, 2017, respectively.

As of December 31, 2014 and March 31, 2015, the outstanding term loan, net of debt amortization expense of \$11,274 and \$10,664 was \$653,602 and \$652,522, respectively. As of December 31, 2014 and March 31, 2015, the term loan bore interest at LIBOR (LIBOR floor of 0.75%) plus an applicable margin of 2.75% p.a. Indebtedness under the loan facility is secured by certain assets of the Company. The amount outstanding on the term loan as of March 31, 2015 will be repaid through quarterly payments of 0.25% of the principal amount of \$675,000, and the balance will be repaid upon the maturity of the term loan on August 30, 2019.

The maturity profile of the term loan, net of debt amortization expense, is as follows:

### 15. Stock-based compensation

The Company has issued options under the Genpact Global Holdings 2005 Plan (the 2005 Plan ), Genpact Global Holdings 2006 Plan (the 2006 Plan ), Genpact Global Holdings 2007 Plan (the 2007 Plan ) and Genpact Limited 2007 Omnibus Incentive Compensation Plan (the 2007 Omnibus Plan ) to eligible persons who are employees and directors and certain other persons associated with the Company.

With respect to options granted under the 2005, 2006 and 2007 Plans before the date of adoption of the 2007 Omnibus Plan, if an award granted under any such plan is forfeited or otherwise expires, terminates, or is cancelled without the delivery of shares, then the shares covered by the forfeited, expired, terminated, or cancelled award will be added to the number of shares otherwise available for grant under the respective plans.

From the date of adoption of the 2007 Omnibus Plan on July 13, 2007, shares underlying options forfeited, expired, terminated, or cancelled under any of the plans will be added to the number of shares otherwise available for grant under the 2007 Omnibus Plan. The 2007 Omnibus Plan was amended and restated on April 11, 2012 to increase the number of common shares authorized for issuance by 5,593,200 shares to 15,000,000 shares.

On August 30, 2012, the Company s Board of Directors declared a special cash dividend of \$2.24 per share. The special cash dividend resulted in an adjustment to stock-based awards under both the 2007 Omnibus Plan and the 2005 Plan. Accordingly, effective September 24, 2012, the payment date of the special cash dividend, the number of common shares authorized for issuance under the 2007 Omnibus Plan was increased by 2,544,327 shares. The number of common shares authorized for issuance under the 2005 Plan was increased by 495,915 shares.

Further, as of December 31, 2012, the number of common shares authorized for issuance under the 2007 Omnibus Plan had been increased by 6,314,496 shares as a result of the termination, expiration or forfeiture of options granted under the Company s stock incentive plans other than the 2007 Omnibus Plan.

In accordance with the anti-dilutive provisions of the 2005 Plan, 2006 Plan, 2007 Plan and 2007 Omnibus Plan, the Company adjusted both the exercise price and the number of stock based awards outstanding as of the record date of the special cash dividend. The aggregate fair value, intrinsic value and the ratio of the exercise price to the market price were approximately equal immediately before and after the adjustments. Therefore, in accordance with the equity restructuring guidance under ASC 718, Compensation-Stock Compensation, no incremental compensation expense was recognized for the adjustment to the outstanding stock-based awards as a result of the special cash dividend.

Stock-based compensation costs relating to the foregoing plans during the three months ended March 31, 2014 and 2015, were \$4,902 and \$4,579, respectively, and have been allocated to cost of revenue and selling, general, and administrative expenses.

#### **Stock options**

Options granted are subject to a vesting requirement. Options granted under the plan are exercisable into common shares of the Company, have a contractual period of ten years and vest over four to five years unless specified otherwise in the applicable award agreement. The Company recognizes compensation cost over the vesting period of the option. Compensation cost is determined at the date of grant by estimating the fair value of an option using the Black-Scholes option-pricing model.

The following table shows the significant assumptions used in connection with the determination of the fair value of options granted in the three months ended March 31, 2015. No options were granted in the three months ended March 31, 2014.

As of March 31, 2015, the total remaining unrecognized stock-based compensation cost for options expected to vest amounted to \$19,193, which will be recognized over the weighted average remaining requisite vesting period of 3.1 years.

#### **Restricted Share Units**

The Company has granted restricted share units, or RSUs, under the 2007 Omnibus Plan. Each RSU represents the right to receive one common share at a future date. The fair value of each RSU is the market price of one common share of the Company on the date of the grant. The RSUs granted to date have graded vesting schedules of three

months to four years. The compensation expense is recognized on a straight-line basis over the vesting term.

A summary of RSUs granted during the three months ended March 31, 2015 is set out below:

61,057 RSUs vested in the year ended December 31, 2013, in respect of which 59,827 were issued in January 2015 after withholding shares to the extent of the minimum statutory withholding taxes.

92,692 RSUs vested in the year ended December 31, 2014, shares in respect of which will be issuable on December 31, 2015 after withholding shares to the extent of the minimum statutory withholding taxes.

As of March 31, 2015, the total remaining unrecognized stock-based compensation cost related to RSUs amounted to \$3,490, which will be recognized over the weighted average remaining requisite vesting period of 2.0 years.

### **Performance Units**

The Company also grants stock awards in the form of performance units, or PUs, under the 2007 Omnibus Plan.

Each PU represents the right to receive one common share at a future date based on the Company s performance against specified targets. PUs granted to date have vesting schedules of six months to three years. The fair value of each PU is the market price of one common share of the Company on the date of grant and assumes that performance targets will be achieved. The PUs granted under the plan are subject to cliff vesting. The compensation expense for such awards is recognized on a straight-line basis over the vesting terms. Over the performance period, the number of shares to be issued is adjusted upward or downward based upon the probability of achievement of the performance targets. The ultimate number of shares issued and the related compensation cost recognized is based on a comparison of the final performance metrics to the specified targets.

A summary of PU activity during the three months ended March 31, 2015 is set out below:

- (c) PUs expected to vest are based on the probable achievement of the performance targets after considering an estimated forfeiture rate.
- (d) 1,329,270 PUs granted in March 2012 vested as of December 31, 2014 based on the compensation committee s certification of the achievement of the performance goals for the performance period based on the Company s audited financial statements. Shares in respect of such PUs were issued in January 2015 (845,524 shares after withholding shares to the extent of the minimum statutory withholding taxes).

As of March 31, 2015, the total remaining unrecognized stock-based compensation costs related to PUs amounted to \$22,029, which will be recognized over the weighted average remaining requisite vesting period of 2.2 years.

### **Employee Stock Purchase Plan (ESPP)**

On May 1, 2008, the Company adopted the Genpact Limited U.S. Employee Stock Purchase Plan and the Genpact Limited International Employee Stock Purchase Plan (together, the ESPP).

The ESPP allows eligible employees to purchase the Company s common shares through payroll deductions at 90% of the closing price of the Company s common shares on the last business day of each purchase interval. The dollar amount of common shares purchased under the ESPP must not exceed 15% of the participating employee s base salary, subject to a cap of \$25 per employee per calendar year. With effect from September 1, 2009, the offering periods commence on the first business day in March, June, September and December of each year and end on the last business day in the subsequent May, August, November and February of each year. 4,200,000 common shares have been reserved for issuance in the aggregate over the term of the ESPP.

During the three months ended March 31, 2014 and 2015, 40,534 and 34,162 common shares, respectively, were issued under ESPP.

The ESPP is considered compensatory under the FASB guidance on Compensation-Stock Compensation.

The compensation expense for the employee stock purchase plan is recognized in accordance with the FASB guidance on Compensation-Stock Compensation. The compensation expense for ESPP during the three months ended March 31, 2014 and 2015 was \$71 and \$81, respectively, and has been allocated to cost of revenue and selling, general, and administrative expenses.

#### 16. Capital Stock

### **Stock Repurchase Plan**

In February 2015, the Company s Board of Directors authorized a program to repurchase up to \$250,000 in value of the Company s common shares. The Company s share repurchase program does not obligate it to acquire any specific number of shares. Under the program, shares may be repurchased in privately negotiated and/or open market transactions, including under plans complying with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended. During the three months ended March 31, 2015 the Company purchased 590,713 of its common shares at a weighted average price of approximately \$22.51 per share for an aggregate cash amount of approximately \$13,298. The purchased shares have been retired.

The Company records repurchases of its common shares on the settlement date of each transaction. Shares purchased and retired are deducted to the extent of their par value from common stock and from retained earnings for the excess over par value. Direct costs incurred to acquire the shares are included in the total cost of the shares purchased. For the three months ended March 31, 2015, \$12 was deducted from retained earnings as direct costs related to share repurchases.

### 17. Earnings per share

The Company calculates earnings per share in accordance with FASB guidance on Earnings per Share. Basic and diluted earnings per common share give effect to the change in the number of common shares of the Company. The calculation of basic earnings per common share was determined by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the respective periods. The potentially dilutive shares, consisting of outstanding options on common shares, restricted share units, performance units and common shares to be issued under the employee stock purchase plan, have been included in the computation of diluted net earnings per share and the weighted average shares outstanding, except where the result would be anti-dilutive.

The number of stock options outstanding but not included in the computation of diluted earnings per common share because their effect was anti-dilutive is 3,379,764 and 3,928,000 for the three months ended March 31, 2014, and 2015, respectively.

#### Three Months Ended March 31, 2015 Compared to the Three Months Ended March 31, 2014

Net revenues. Our net revenues were \$587.2 million in the first quarter of 2015, up \$59.0 million, or 11.2%, from \$528.2 million in the first quarter of 2014. The growth in net revenues was primarily driven by an increase in business process outsourcing, or BPO, services delivered to our Global Clients, including the impact of revenues derived from large, transformational deals. This increase also includes \$9.5 million in revenues derived from the operations of Pharmalink Consulting Limited and Pharmalink Consulting Inc., which we acquired in the second quarter of 2014 and refer to as our regulatory affairs acquisition. Adjusted for foreign exchange, which had an adverse impact on our net revenues in the first quarter of 2015, our net revenues grew \$67.9 million, or 12.9%, compared to the first quarter of 2014. Our average headcount increased by 5.8% to approximately 66,000 in the first quarter of 2015 from approximately 62,400 in the first quarter of 2014. Our annualized net revenues per employee were \$35,600 in the first quarter of 2015, up from \$33,800 in the first quarter of 2014.

Net revenues from Global Clients in the first quarter of 2015 were \$473.5 million, up \$55.5 million, or 13.3%, from \$418.0 million in the first quarter of 2014. This increase was primarily driven by growth in many of our targeted verticals namely, consumer product goods, insurance, life sciences, high tech and banking and by revenues derived from our regulatory affairs acquisition. As a percentage of total net revenues, net revenues from Global Clients increased from 79.1% in the first quarter of 2014 to 80.7% in the first quarter of 2015.

Net revenues from GE were \$113.6 million in the first quarter of 2015, up \$3.4 million, or 3.1%, from the first quarter of 2014 primarily as a result of growth in BPO services delivered to GE. Net revenues from GE declined as a percentage of our total net revenues from 20.9% in the first quarter of 2014 to 19.3% in the first quarter of 2015.

Net revenues from BPO services for the first quarter of 2015 were \$461.1 million, up \$63.1 million, or 15.9%, from \$398.0 million in the first quarter of 2014. This increase was primarily attributable to an increase in services delivered to our Global Clients particularly finance and accounting services, core vertical operations, and analytics and consulting services and to revenues from our regulatory affairs acquisition. Net revenues from IT services were \$126.1 million in the first quarter of 2015, down \$4.1 million, or 3.2%, from \$130.2 million in the first quarter of 2014 due to a decrease in IT services delivered to our Global Clients.

Net revenues from BPO services as a percentage of total net revenues increased to 78.5% in the first quarter of 2015 from 75.3% in the first quarter of 2014 with a corresponding decline in the percentage of total net revenues attributable to IT services.

Net revenues by geographic region based on the location of our service delivery centers are as follows:
