#### Chairman s Letter

#### to Shareholders

#### Dear Shareholders,

Some of the key assumptions driving the markets higher at the beginning of 2017 have recently come into question. Following the collapse of the health care reform bill in the Senate, investors are concerned about President Trump s ability to accomplish the remainder of his pro-growth fiscal agenda, including tax reform and large infrastructure projects. Economic growth projections, in turn, have been lowered and with inflation recently waning, the markets are expecting fewer rate hikes from the Federal Reserve (Fed) than the Fed itself had predicted. Yet, asset prices continued to rise.

Investors have largely looked beyond policy disappointments and focused instead on the healthy profits reported by U.S. companies during the first two quarters of 2017. U.S. growth has remained slow and steady, European growth has surprised to the upside and concern that China would decelerate too rapidly has eased, further contributing to an optimistic tone in the markets. Additionally, political risk in Europe has moderated, with the election of mainstream candidates in the Dutch and French elections earlier this year.

The remainder of the year could bring challenges to this benign macro environment. The U.S. government voted to temporarily increase the nation s debt limit, but the debate will resume again in December when the current extension of the debt limit expires. In addition, the need for disaster relief and recovery following Hurricanes Harvey and Irma has further muddied the outlook on the White House s promised agenda. Markets will be watching the Brexit negotiations and the North American Free Trade Agreement (NAFTA) talks while assessing the implications for key trade and political partnerships. A tightening of financial conditions in China or a more aggressive-than-expected policy action from the Fed, European Central Bank or Bank of Japan could also turn into headwinds. On the geopolitical front, tensions with North Korea may continue to flare.

Market volatility readings have been remarkably low lately, but conditions can change quickly. As market conditions evolve, Nuveen remains committed to rigorously assessing opportunities and risks. If you re concerned about how resilient your investment portfolio might be, we encourage you to talk to your financial advisor. On behalf of the other members of the Nuveen Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

William J. Schneider

Chairman of the Board

September 20, 2017

Nuveen Senior Income Fund (NSL)

Nuveen Floating Rate Income Fund (JFR)

Nuveen Floating Rate Income Opportunity Fund (JRO)

Nuveen Short Duration Credit Opportunities Fund (JSD)

Nuveen Credit Strategies Income Fund (JQC)

The Funds investment portfolios are managed by Symphony Asset Management, LLC (Symphony), an affiliate of Nuveen, LLC. Gunther Stein, who serves as the firm s Chief Investment Officer and Chief Executive Officer, and Scott Caraher manage NSL, JFR and JRO. JSD is managed by Gunther, Scott and Jenny Rhee, while JQC is managed by Gunther and Sutanto Widjaja.

Here the team discusses U.S. economy and market conditions, their management strategies and the performance of the Funds for the twelve-month reporting period ended July 31, 2017.

# What factors affected the U.S. economy and financial markets during the twelve-month reporting period ended July 31, 2017?

During the twelve-month reporting period, the U.S. economy continued to grow moderately, now ranking the current expansion as the third-longest since World War II, according to the National Bureau of Economic Research. The second half of 2016 saw a short-term boost in economic activity, driven by a one-time jump in exports during the third quarter, but the economy resumed a below-trend pace in the fourth quarter of 2016 and first quarter of 2017. The Bureau of Economic Analysis reported an annual growth rate of 3.0% for the U.S. economy in the second quarter of 2017, as measured by the second estimate of real gross domestic product (GDP), which is the value of goods and services produced by the nation s economy less the value of the goods and services used up in production, adjusted for price changes. Growth in the second quarter was boosted by stronger consumer spending and business investment, which helped offset weaker government spending. By comparison, the annual GDP growth rate in the first quarter of 2017 was 1.2%.

This material is not intended to be a recommendation or investment advice, does not constitute a solicitation to buy or sell securities, and is not provided in a fiduciary capacity. The information provided does not take into account the specific objectives or circumstances of any particular investor, or suggest any specific course of action. Investment decisions should be made based on an investor s objectives and circumstances and in consultation with his or her advisors.

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking

statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

For financial reporting purposes, the ratings disclosed are the highest rating given by one of the following national rating agencies: Standard & Poor s (S&P), Moody s Investors Service, Inc. (Moody s) or Fitch, Inc. (Fitch). This treatment of split-rated securities may differ from that used for other purposes, such as for Fund investment policies. Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings, while BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this section.

### **Portfolio Managers** Comments (continued)

Despite the slowdown in early 2017, other data pointed to positive momentum. The labor market continued to tighten, inflation ticked higher, and consumer and business confidence surveys reflected optimism about the economy s prospects. As reported by the Bureau of Labor Statistics, the unemployment rate fell to 4.3% in July 2017 from 4.9% in July 2016 and job gains averaged around 181,000 per month for the past twelve months. Higher oil prices helped drive a steady increase in inflation over this reporting period. The Consumer Price Index (CPI) increased 1.7% over the twelve-month reporting period ended July 31, 2017 on a seasonally adjusted basis, as reported by the Bureau of Labor Statistics. The core CPI (which excludes food and energy) increased 1.7% during the same period, slightly below the Federal Reserve s (Fed) unofficial longer term inflation objective of 2.0%. The housing market also continued to improve, with historically low mortgage rates and low inventory driving home prices higher. The S&P CoreLogic Case-Shiller U.S. National Home Price Index, which covers all nine U.S. census divisions, recorded a 5.8% annual gain in June 2017 (most recent data available at the time this report was prepared). The 10-City and 20-City Composites reported year-over-year increases of 4.9% and 5.7%, respectively.

The U.S. economic outlook struck a more optimistic tone, prompting the Fed s policy making committee to raise its main benchmark interest rate in December 2016, March 2017 and June 2017. These moves were widely expected by the markets and, while the Fed acknowledged in its June 2017 statement that inflation has remained unexpectedly low, an additional increase is anticipated later in 2017 as the Fed seeks to gradually normalize interest rates. Also after the June 2017 meeting, the Fed revealed its plan to begin shrinking its balance sheets by allowing a small amount of maturing Treasury and mortgage securities to roll off without reinvestment. The timing of this is less certain, however, as it depends on whether the economy performs in line with the Fed s expectations. As expected, the Fed left rates unchanged at its July 2017 meeting.

Politics also dominated the headlines in this reporting period with two major electoral surprises: the U.K. s vote to leave the European Union and Donald Trump s win in the U.S. presidential race. Market volatility increased as markets digested the initial shocks, but generally recovered and, in the case of the Trump rally, U.S. equities saw significant gains. Investors also closely watched elections across Europe. To the markets relief, more mainstream candidates were elected in the Dutch and French elections in the spring of 2017. However, Britain s June 2017 snap election unexpectedly overturned the Conservative Party s majority in Parliament, which increased uncertainties about the Brexit negotiation process. Additionally, in the U.S., legislative delays with health care reform dimmed the prospects for President Trump s tax cuts and other fiscal stimulus, while investors braced for a showdown in Congress over increasing the nation s debt limit. Toward the end of the reporting period, escalating tensions between the U.S. and North Korea led to some near-term volatility in global equity shares to the benefit of perceived safe-haven assets such as gold, U.S. Treasury bonds and Japanese yen.

During the reporting period, the loan market benefited from increased investor demand as the Fed initiated a series of interest rate hikes increasing short-term interest rates. Technicals continue to be supportive of the asset class and the outlook for loans remains constructive with default rates anticipated to remain well below their historical averages and fundamentals continue to be supportive as any additional increases to the U.S. Funds rate should provide a positive credit spread to investors. The broad leveraged loan market, as represented by the Credit Suisse Leveraged Loan Index, produced returns of 6.83% for the twelve-month reporting period.

# What strategies were used to manage the Funds during the twelve-month reporting period ended July 31, 2017?

NSL seeks is to achieve a high level of current income, consistent with capital preservation by investing primarily in adjustable rate U.S dollar-denominated secured Senior Loans. The Fund invests at least 80% of its managed assets in

adjustable rate senior secured loans. Up to 20% may include U.S. dollar denominated senior loans of non-U.S. borrowers, senior loans that are not secured, other debt securities and equity securities and warrants. The Fund uses leverage.

JFR seeks is to achieve a high level of current income by investing in adjustable rate secured and unsecured senior loans and other debt instruments. The Fund invests at least 80% of its managed assets in adjustable rate loans, primarily senior loans, though the loans may include unsecured senior loans and secured and unsecured subordinated loans. At least 65% the Fund s managed assets must include adjustable rate senior loans that are secured by specific collateral. The Fund uses leverage.

JRO seeks is to achieve a high level of current income. The Fund invests at least 80% of its managed assets in adjustable rate loans, primarily senior loans, though the loans may include unsecured senior loans and secured and unsecured subordinated loans. At least 65% of the Fund s managed assets must include adjustable rate senior loans that are secured by specific collateral. The Fund uses leverage.

JSD seeks to provide current income and the potential for capital appreciation. The Fund invests at least 70% of its managed assets in adjustable rate corporate debt instruments, including senior secured loans, second lien loans and other adjustable rate corporate debt instruments. Up to 30% of the Fund s assets may include other types of debt instruments or short positions consisting primarily of high yield debt. The Fund maintains a portfolio with an average duration that does not exceed two years. The Fund uses leverage.

JQC s primary investment objective is high current income and its secondary objective is total return. The Fund invests at least 70% of its managed assets in adjustable rate senior secured and second lien loans, and up to 30% opportunistically in other types of securities across a company s capital structure, primarily income-oriented securities such as high yield debt, convertible securities and other forms of corporate debt. The Fund uses leverage.

# How did the Funds perform during this twelve-month reporting period ended July 31, 2017?

The tables in the Performance Overview and Holding Summaries section of this report provide total return performance for each Fund for the one-year, five-year, ten-year and/or since inception periods ended July 31, 2017. Each Fund s total returns at net asset value (NAV) are compared with the performance of a corresponding market index. For the twelve-month reporting period ended July 31, 2017, NSL, JFR, JRO, JSD and JQC outperformed the Credit Suisse Leveraged Loan Index.

Across all five Funds, our top and bottom performing individual security positions and industry groups were relatively similar. As a result, for NSL, JFR, JRO, JSD and JQC, the majority of sectors contributed positively to absolute performance, with the exception of the financials sector, which detracted modestly in JQC. The telecommunication services sector, information technology and consumer discretionary sectors were the strongest contributors to absolute performance.

Specific holdings that contributed to performance included the corporate bonds of consumer discretionary holding Scientific Games Corporation. The leading provider of gaming and lottery systems rallied on the combination of high yield market momentum, modest operating gains and the company s buyback of unsecured debt. We believe the company will benefit further from its corporate restructuring and continue to own the bonds. Also positively contributing were the bonds of telecommunication services holdings IntelSat Limited and Sprint Capital Corporation. The satellite company IntelSat strongly benefitted returns as the company s bonds rose on the announcement of a merger with a peer company. While the news was viewed as positive, the debt remains trading at distressed levels. Lastly, the high yield bonds of Sprint performed well during the reporting period as investors aversion to riskier assets abated.

Several individual positions detracted from performance, including the loans of consumer discretionary holding, Cengage Learning Acquisitions, Inc. The loans of the textbook publishing company hurt performance, as the firm took

leverage up earlier in 2017, and then posted weaker than expected numbers which was not well received by the market. Also detracting from performance were the loans of consumer discretionary holding Gymboree Corporation. The loans of the retail company weighed on returns as poor execution by management led to weakened earnings results

### **Portfolio Managers** Comments (continued)

announced during the reporting period. With the exception of JQC, all the other Funds continue to hold the loans of Gymboree. In addition, the loans of consumer discretionary sector holding Academy Ltd. detracted from performance. The loans were downgraded during the reporting period based on its inability to reverse its 2016 earnings declines in the near term, resulting in continued high leverage and diminished free cash flow generation. All the Funds continue to hold the loans of Academy Ltd. In JQC, a position in the consumer discretionary sector holding, Clear Channel Communication Inc., detracted from performance. While the company has performed well and given its first quarter announcement, it is now pursuing a consensual exchange with creditors in an attempt to deleverage its balance sheet and focus on improving operating margins.

In addition, the use of regulatory leverage positively contributed to the performance of these Funds. Leverage is discussed in more detail later in the Fund Leverage section of this report.

JQC maintained exposure to senior loans during the reporting period, while tactically allocating between high yield corporate bonds, equity securities and convertible bonds. Exposure consisted of mainly U.S. issuers and was focused on companies that, in general, had high levels of tangible assets, predictable revenue streams, significant market share within their respective industries and positive free cash flow.

JSD and JQC invested in credit default swaps. JSD invested in single name credit default swap, while JQC invested in high yield index credit default swaps. These contracts had a positive effect on performance for JQC and a negligible effect on performance for JSD during the reporting period.

All of these Funds have owned, or currently own, loans with the LIBOR floor feature. This feature provided for minimum coupon levels on loans during a time when short term interest rates, which serve as a basis for a loan s floating coupon rate, fell to historic lows in the years following the financial crisis. The floating-rate coupon on most senior loans is reset frequently (typically every three months) based on a short-term interest rate (usually 90-day U.S. LIBOR) plus a fixed spread. For example if the current short-term interest rate is 150 basis points (bp) (1.5%), and the spread is 400 bp, the resulting coupon will be 5.5%. LIBOR floors, as the name suggests, put a floor on the short term interest rate used in this calculation. For instance, in the previous example, if the loan has a 100 bp LIBOR floor the coupon will remain at 5%, even at times when short-term rates are below 100 bp. The coupon will once again begin to float at times when short-term rates are above 100 bp. Although many loans have LIBOR floors (the asset class is one of the few that will float when interest rates begin to rise), we believe the senior loan asset class provides fixed income oriented investors with a potential safeguard from a secular rise in interest rates.

**Fund** 

Leverage

### IMPACT OF THE FUNDS LEVERAGE STRATEGIES ON PERFORMANCE

One important factor impacting the returns of the Funds relative to their benchmarks was the Funds use of leverage through the use of bank borrowings, Variable Rate Term Preferred (VRTP) Shares for NSL, JFR and JRO, Term Preferred Shares (Term Preferred) for NSL, JFR, JRO and JSD and reverse repurchase agreements for JQC. The Funds use leverage because our research has shown that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share NAV and common shareholder total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a Fund generally are rising. The Funds use of leverage had a positive impact on performance during this reporting period.

NSL, JFR, JRO and JSD used interest rate swap contracts to partially hedge the interest cost of leverage, which as mentioned previously, is through bank borrowings and preferred shares. Collectively, these interest rate swap contracts contributed to overall Fund performance during the period.

As of July 31, 2017, the Funds percentages of leverage are shown in the accompanying table.

	NSL	JFR	JRO	JSD	JQC
Effective Leverage*	36.85%	36.37%	36.10%	36.96%	35.81%
Regulatory Leverage*	36.85%	36.37%	36.10%	36.96%	30.72%

<sup>\*</sup>Effective leverage is a Fund s effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative and other investments in a Fund s portfolio that increase the Fund s investment exposure. Regulatory leverage consists of preferred shares issued or borrowings of a Fund. Both of these are part of a Fund s capital structure. A Fund, however, may from time to time borrow on a typically transient basis in connection with its day-to-day operations, primarily in connection with the need to settle portfolio trades. Such incidental borrowings are excluded from the calculation of a Fund s effective leverage ratio. Regulatory leverage is subject to asset coverage limits set forth in the Investment Company Act of 1940.

# THE FUNDS LEVERAGE

Bank Borrowings

As noted above, the Funds employ leverage through the use of bank borrowings. The Funds bank borrowing activities are as shown in the accompanying table.

#### Information

### COMMON SHARE DISTRIBUTION INFORMATION

The following information regarding the Funds distributions is current as of July 31, 2017. Each Fund s distribution levels may vary over time based on each Fund s investment activity and portfolio investment value changes.

During the current reporting period, each Fund s distributions to common shareholders were as shown in the accompanying table.

	Per Common Share Amounts					
<b>Monthly Distribution (Ex-Dividend Date)</b>	NSL	JFR	JRO	JSD	JQC	
August 2016	\$ 0.0360	\$ 0.0615	\$ 0.0645	\$ 0.0970	\$ 0.0515	
September	0.0375	0.0640	0.0670	0.1000	0.0515	
October	0.0375	0.0640	0.0670	0.1000	0.0515	
November	0.0375	0.0640	0.0670	0.1000	0.0515	
December	0.0395	0.0675	0.0705	0.1060	0.0525	
January	0.0395	0.0675	0.0705	0.1060	0.0525	
February	0.0395	0.0675	0.0705	0.1060	0.0525	
March	0.0395	0.0675	0.0705	0.1060	0.0525	
April	0.0395	0.0675	0.0705	0.1060	0.0525	
May	0.0395	0.0675	0.0705	0.1060	0.0525	
June	0.0395	0.0675	0.0705	0.1060	0.0525	
July 2017	0.0395	0.0675	0.0705	0.1060	0.0525	
<b>Total Distributions from Net Investment</b>						
Income	\$ 0.4645	\$ 0.7935	\$ 0.8295	\$ 1.2450	\$ 0.6260	
Current Distribution Rate*	6.94%	6.85%	7.13%	7.17%	7.25%	

<sup>\*</sup>Current distribution rate is based on the Fund s current annualized monthly distribution divided by the Fund s current market price as of the end of the reporting period. The Fund s monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the fiscal year the Fund s cumulative net ordinary income and net realized gains are less than the amount of the Fund s distributions, a return of capital for tax purposes.

Each Fund in this report seeks to pay regular monthly dividends out of its net investment income at a rate that reflects its past and projected net income performance. To permit each Fund to maintain a more stable monthly dividend, the Fund may pay dividends at a rate that may be more or less than the amount of net income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it will hold the excess in reserve as undistributed net investment income (UNII) as part of the Fund s net asset value. Conversely, if a Fund has cumulatively paid in dividends more than it has earned, the excess will constitute a negative UNII that will likewise be reflected in the Fund s net asset value. Each Fund will, over time, pay all its net investment income as dividends to shareholders.

As of July 31, 2017, the Funds had positive UNII balances for tax purposes. NSL had positive UNII balances while JFR, JRO, JSD and JQC had negative UNII balances for financial reporting purposes.

All monthly dividends paid by each Fund during the current reporting period were paid from net investment income. If a portion of the Fund s monthly distributions was sourced from or comprised of elements other than net investment income, including capital gains and/or a return of capital, shareholders would have received a notice to that effect. For financial reporting purposes, the composition and per share amounts of each Fund s dividends for the reporting period are presented in this report s Statement of Changes in Net Assets and Financial Highlights, respectively. For income tax purposes, distribution information for each Fund as of its most recent tax year end is presented in Note 6 Income Tax Information within the Notes to Financial Statements of this report.

**Common Share Information** (continued)

### COMMON SHARE EQUITY SHELF PROGRAMS

During the current reporting period, the following Funds were authorized by the Securities and Exchange Commission (SEC) to issue additional common shares through an equity shelf program (Shelf Offering). Under these programs, the Funds, subject to market conditions, may raise additional capital from time to time in varying amounts and offering methods at a net price at or above each Fund s NAV per common share. Under the Shelf Offerings, each Fund is authorized to issue additional common shares as shown in the accompanying table:

	NSL	JFR	JRO	JSD
Additional authorized common shares	8,800,000	12,900,000	8,500,000	1,000,000

During the current reporting period, the following Funds sold common shares through their Shelf Offering at a weighted average premium to their NAV per common share as shown in the accompanying table.

	JFR	JRO	JSD
Common shares sold through Shelf Offering	1,274,890	1,280,410	362
Weighted average premium to NAV per common share sold	1.62%	2.17%	1.34%
Refer to Notes to Financial Statements, Note 4 Fund Shares, C	Common Shares Equity	Shelf Programs and	Offering

Refer to Notes to Financial Statements, Note 4 Fund Shares, Common Shares Equity Shelf Programs and Offering Costs for further details of Shelf Offerings and each Fund s respective transactions.

#### COMMON SHARE REPURCHASES

During August 2017 (subsequent to the close of the reporting period), the Funds Board of Trustees reauthorized an open-market share repurchase program, allowing each Fund to repurchase an aggregate of up to approximately 10% of its outstanding shares.

As of July 31, 2017, and since the inception of the Funds repurchase programs, the Funds have cumulatively repurchased and retired their outstanding common shares as shown in the accompanying table.

	NSL	JFR	JRO	JSD	JQC
Common shares cumulatively					
repurchased and retired	5,000	147,593	19,400	0	4,804,500
Common shares authorized for					
repurchase	3,860,000	5,515,000	3,850,000	1,010,000	13,575,000
			0 1 1		

During the current reporting period, the Funds did not repurchase any of their outstanding common shares.

#### OTHER COMMON SHARE INFORMATION

As of July 31, 2017, and during the current reporting period, the Funds common share prices were trading at a premium/(discount) to their common share NAVs as shown in the accompanying table.

	NSL	JFR	JRO	JSD	JQC
Common share NAV	\$6.97	\$11.76	\$11.70	\$18.07	\$9.32
Common share price	\$6.83	\$11.83	\$11.87	\$17.75	\$8.69
Premium/(Discount) to NAV	(2.01)%	0.60%	1.45%	(1.77)%	(6.76)%
12-month average premium/(discount) to					
NAV	(3.17)%	(1.49)%	0.18%	(3.58)%	(7.63)%

#### Risk

#### **Considerations**

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation.

### **Nuveen Senior Income Fund (NSL)**

Investing in closed-end funds involves risk; principal loss is possible. There is no guarantee the Funds investment objectives will be achieved. Closed-end fund shares may frequently trade at a discount or premium to their net asset value. **Adjustable Rate Senior Loans** may not be fully secured by collateral, generally do not trade on exchanges, and are typically issued by unrated or below-investment grade companies, and therefore are subject to greater liquidity and credit risk. **Lower credit** debt securities may be more likely to fail to make timely interest or principal payments. **Leverage** increases return volatility and magnifies the Funds potential return and its risks; there is no guarantee a funds leverage strategy will be successful. These and other risk considerations such as **interest rate risk** are described in more detail on the Funds web page at www.nuveen.com/NSL.

### **Nuveen Floating Rate Income Fund (JFR)**

Investing in closed-end funds involves risk; principal loss is possible. There is no guarantee the Funds investment objectives will be achieved. Closed-end fund shares may frequently trade at a discount or premium to their net asset value. **Adjustable Rate Senior Loans** may not be fully secured by collateral, generally do not trade on exchanges, and are typically issued by unrated or below-investment grade companies, and therefore are subject to greater liquidity and credit risk. **Lower credit** debt securities may be more likely to fail to make timely interest or principal payments. **Leverage** increases return volatility and magnifies the Funds potential return and its risks; there is no guarantee a funds leverage strategy will be successful. These and other risk considerations such as **interest rate risk** are described in more detail on the Funds web page at www.nuveen.com/JFR.

# **Nuveen Floating Rate Income Opportunity Fund (JRO)**

Investing in closed-end funds involves risk; principal loss is possible. There is no guarantee the Funds investment objectives will be achieved. Closed-end fund shares may frequently trade at a discount or premium to their net asset value. **Adjustable Rate Senior Loans** may not be fully secured by collateral, generally do not trade on exchanges, and are typically issued by unrated or below-investment grade companies, and therefore are subject to greater liquidity and credit risk. **Lower credit** debt securities may be more likely to fail to make timely interest or principal payments. **Leverage** increases return volatility and magnifies the Funds potential return and its risks; there is no guarantee a funds leverage strategy will be successful. These and other risk considerations such as **interest rate risk** are described in more detail on the Funds web page at www.nuveen.com/JRO.

# **Nuveen Short Duration Credit Opportunities Fund (JSD)**

Investing in closed-end funds involves risk; principal loss is possible. There is no guarantee the Fund s investment objectives will be achieved. Closed-end fund shares may frequently trade at a discount or premium to their net asset value. **Adjustable Rate Senior Loans** may not be fully secured by collateral, generally do not trade on exchanges, and are typically issued by unrated or below-investment grade companies, and therefore are subject to greater liquidity and credit risk. **Lower credit** debt securities may be more likely to fail to make timely interest or principal payments. **Leverage** increases return volatility and magnifies the Fund s potential return and its risks; there is no guarantee a

fund s leverage strategy will be successful. These and other risk considerations such as **interest rate risk** are described in more detail on the Fund s web page at www.nuveen.com/JSD.

**Risk Considerations** (continued)

### **Nuveen Credit Strategies Income Fund (JQC)**

Investing in closed-end funds involves risk; principal loss is possible. There is no guarantee the Fund s investment objectives will be achieved. Closed-end fund shares may frequently trade at a discount or premium to their net asset value. **Adjustable Rate Senior Loans** may not be fully secured by collateral, generally do not trade on exchanges, and are typically issued by unrated or below-investment grade companies, and therefore are subject to greater liquidity and credit risk. **Lower credit** debt securities may be more likely to fail to make timely interest or principal payments. **Common stock** prices have often experienced significant volatility. **Leverage** increases return volatility and magnifies the Fund s potential return and its risks; there is no guarantee a fund s leverage strategy will be successful. These and other risk considerations such as **interest rate risk** are described in more detail on the Fund s web page at www.nuveen.com/JQC.

#### Report of

**Independent Registered Public Accounting Firm** 

To the Board of Trustees and Shareholders of

**Nuveen Senior Income Fund** 

**Nuveen Floating Rate Income Fund** 

**Nuveen Floating Rate Income Opportunity Fund** 

**Nuveen Short Duration Credit Opportunities Fund** 

#### **Nuveen Credit Strategies Income Fund:**

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Senior Income Fund, Nuveen Floating Rate Income Fund, Nuveen Floating Rate Income Opportunity Fund, Nuveen Short Duration Credit Opportunities Fund, and Nuveen Credit Strategies Income Fund (the Funds) as of July 31, 2017, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the three-year period then ended. These financial statements and financial highlights are the responsibility of the Funds management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The financial highlights for the periods presented through July 31, 2014 were audited by other auditors whose reports dated September 25, 2014 expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of July 31, 2017, by correspondence with the custodian and brokers or other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Funds as of July 31, 2017, the results of their operations and cash flows for the year then ended, the changes in their net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the three-year period then ended, in conformity with U.S. generally accepted accounting principles.

# NSL Nuveen Senior Income Fund Portfolio of Investments (continued)

July 31, 2017

For Fund portfolio compliance purposes, the Fund s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Senior loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a borrower to prepay, prepayments of senior loans may occur. As a result, the actual remaining maturity of senior loans held may be substantially less than the stated maturities shown.
- (3) For financial reporting purposes, the ratings disclosed are the highest of Standard & Poor s Group (Standard & Poor s), Moody s Investors Service, Inc. (Moody s) or Fitch, Inc. (Fitch) rating. This treat of split-rated securities may differ from that used for other purposes, such as for Fund investment policies. Ratings below BBB by Standard & Poor s, Baa by Moody s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies. Ratings are not covered by the report of independent registered public accounting firm.
- (4) Senior loans generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR), or (ii) the prime rate offered by one or more major United States banks. Senior loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the agent bank and/or borrower prior to the disposition of a senior loan. The rate shown is the coupon as of the end of the reporting period.
- As of, or subsequent to, the end of the reporting period, this security is non-income producing.

  Non-income producing, in the case of a fixed-income security, generally denotes that the issuer has

  (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal

  Bankruptcy Court or (3) the Fund s Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has ceased accruing additional income on the Fund s records.
- (6) Non-income producing; issuer has not declared a dividend within the past twelve months.

(7)

For fair value measurement disclosure purposes, investment classified as Level 2. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.

- (8)Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board. For fair value measurement disclosure purposes, investment classified as Level 3. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information. (9)A copy of the most recent financial statements for these investment companies can be obtained directly from the Securities and Exchange Commission on its website at the http://www.sec.gov. (10)Borrowings as a percentage of Total Investments is 26.6%. (11)The Fund segregates 100% of its eligible investments (excluding any investments separately pledged as collateral for specific investments in derivatives, when applicable) in the Portfolio of Investments as collateral for borrowings. (12)Term Preferred Shares, net of deferred offering costs as a percentage of Total Investments is 9.8%. (13)Other assets less liabilities includes the unrealized appreciation (depreciation) of certain over-the-counter (OTC) derivatives as presented on the Statement of Assets and Liabilities, when applicable. The unrealized appreciation (depreciation) of OTC-cleared and exchange-traded derivatives is recognized as part of cash collateral at brokers and/or the receivable or payable for variation margin as presented on the Statement of Assets and Liabilities, when applicable. Effective November 1, 2019, the fixed rate paid by the Fund will increase according to a predetermined (14)schedule as specified in the swap contract. Additionally, this fixed rate increase will continue to occur every twelve months on specific dates through the swap contract s termination date. (15)This interest rate swap has an optional early termination date beginning on November 1, 2018 and monthly thereafter through the termination date as specified in the swap contract. (16)Investment, or portion of investment, represents an outstanding unfunded senior loan commitment. See Notes to Financial Statements, Note 8 Senior Loan Commitments for more information. (DD1) Portion of investment purchased on a delayed delivery basis.
- PIK All or a portion of this security is payment-in-kind.

Purchased on a when-issued or delayed delivery basis.

(WI/DD)

- Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.
- TBD Senior loan purchased on a when-issued or delayed-delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, senior loans typically trade without accrued interest and therefore a coupon rate is not available prior to settlement. At settlement, if still unknown, the borrower or counterparty will provide the Fund with the final coupon rate and maturity date.

USD-LIBOR-ICE United States Dollar London Inter-Bank Offered Rate Intercontinental Exchange.

See accompanying notes to financial statements.
