Overview

Benefitfocus provides a leading cloud-based benefits management platform for consumers, employers, insurance carriers, and brokers. The Benefitfocus Platform simplifies how organizations and individuals shop for, enroll in, manage and exchange benefits. Our employer and insurance carrier customers rely on our platform to manage, scale and exchange benefits data seamlessly. Our web-based platform has a user-friendly interface designed to enable the insured consumers to access all of their benefits in one place. Our comprehensive solutions support core benefits plans, including healthcare, dental, life, and disability insurance, and voluntary benefits offerings such as income protection, digital health and financial wellness. As the number of employer benefits plans has increased, with each plan subject to many different business rules and requirements, demand for the Benefitfocus Platform has grown.

The Benefitfocus Platform enables our customers to simplify the management of complex benefits processes, from sales through enrollment and implementation to ongoing administration. It provides consumers with an engaging, highly intuitive, and personalized user interface for selecting and managing all of their benefits via their desktop browsers or mobile devices. Employers use our solutions to streamline benefits processes, keep up with complex and changing regulatory requirements, control costs, and offer a greater variety of plans to attract, retain, and motivate their employees. Insurance carriers use our solutions to more effectively market offerings, simplify billing, and improve the enrollment process. We also provide a network of more than 1,500 benefit provider data exchange connections, which facilitates the otherwise highly fragmented interaction among employees, employers, brokers, and carriers.

We serve two separate but related market segments. The employer market consists of employers offering benefits to their employees. Within this segment, we mainly target large employers with more than 1,000 employees, of which we believe there are over 18,000 in the United States. In our other market segment, we sell our solutions to insurance carriers, enabling us to expand our overall footprint in the benefits marketplace by aggregating many key constituents, including consumers, employers, and brokers. We believe our presence in both the employer and insurance carrier markets gives us a strong position at the center of the benefits ecosystem. We have increased the number of large employer customers utilizing our solutions from 141 as of December 31, 2010 to 948 as of March 31, 2018, and the number of carrier customers from 29 as of December 31, 2010 to 55 as of March 31, 2018.

We sell the Benefitfocus Platform on a subscription basis, typically through annual contracts with our employer customers and multi-year contracts with our insurance carrier customers, with subscription fees paid monthly, quarterly and annually. The multi-year contracts with our carrier customers are generally only cancellable by the carrier in an instance of our uncured breach, although some of our carrier customers are able to terminate their respective contracts without cause or for

convenience. Our software-as-a-service, or SaaS, model provides us significant visibility into our future operating results through increased revenue predictability, which enhances our ability to manage our business.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should consider carefully the risks and uncertainties and all other information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus, including the risks and uncertainties described below and under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2017, as amended, and our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2018, which are incorporated by reference herein, and which may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future, together with the consolidated financial statements and the related notes in our Annual Report on Form 10-K for the year ended December 31, 2017, as amended, and our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2018, before deciding to invest in shares of our common stock. If any of the risks described below or incorporated by reference herein were to materialize, our business, financial condition, results of operations, and future growth prospects could be materially and adversely affected. In that event, the market price of our common stock could decline and you could lose part or all of your investment in our common stock.

Risks Related to this Offering and Ownership of Our Common Stock

Our stock price may be volatile or may decline regardless of our operating performance, and you may not be able to resell your shares at or above the price at which you purchase it.

The stock market historically has experienced extreme price and volume fluctuations. As a result of this volatility, you might not be able to sell your common stock at or above the price at which you purchase it. From our IPO in September 2013 through March 31, 2018, the per share trading price of our common stock has been as high as \$77.00 and as low as \$19.58. It might continue to fluctuate significantly in response to various factors, some of which are beyond our control. These factors include:

our operating performance and the operating performance of similar companies;

the overall performance of the equity markets;

changes in laws or regulations relating to the sale of health insurance;

announcements by us or our competitors of acquisitions, business plans, or commercial relationships;

any major change in our management;

threatened or actual litigation;

publication of research reports or news stories about us, our competitors, or our industry, or positive or negative recommendations or withdrawal of research coverage by securities analysts;

large volumes of sales of our shares of common stock by existing stockholders; and

general political and economic conditions.

In addition, the stock market in general, and the market for Internet-related companies in particular, has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of those companies. These fluctuations might be

Edgar Filing: Benefitfocus,Inc. - Form 424B7

even more pronounced in the relatively new trading market for our stock. Additionally, securities class action litigation has often been instituted against companies following periods of volatility in the overall market and in the market price of a company's securities. This litigation, if instituted against us, could result in substantial costs, divert our management's attention and resources, and harm our business, operating results, and financial condition.

We do not currently intend to pay dividends on our common stock and, consequently, your ability to achieve a return on your investment will depend on appreciation in the price of our common stock.

We have never declared or paid any cash dividends on our common stock and do not currently intend to do so for the foreseeable future. We currently intend to invest our future earnings, if any, to fund our growth. Therefore, you are not likely to receive any dividends on your common stock for the foreseeable future, and the success of an investment in shares of our common stock will depend upon future appreciation in its value, if any. There is no guarantee that shares of our common stock will appreciate in value or even maintain the price at which our stockholders purchased their shares.

Future sales of shares of our common stock by existing stockholders could depress the market price of our common stock.

Following the completion of this offering, based on the number of shares outstanding as of March 31, 2018, 31,339,469 shares of our common stock will be outstanding. All of the 2,500,000 shares being sold in this offering will be freely tradeable immediately after this offering (except for shares purchased by affiliates) and of the remaining 28,839,469 shares outstanding as of March 31, 2018, assuming no exercise of outstanding options after March 31, 2018, 12,154,737 shares may be sold upon expiration of lock-up agreements entered into in connection with this offering 30 days after the date of this offering (subject to volume and other restrictions of Rule 144).

We have also registered an aggregate of 9,099,766 shares of our common stock that we may issue or sell under our stock plans. These shares can be freely sold in the public market upon issuance, subject to any outstanding lock-up agreements, unless they are held by affiliates, as that term is defined in Rule 144 of the Securities Act of 1933, as amended (the Securities Act). If a large number of these shares are sold in the public market, the sales could reduce the trading price of our common stock.

A limited number of stockholders will have the ability to influence the outcome of director elections and other matters requiring stockholder approval.

After this offering, our directors, executive officers, and their affiliated entities will beneficially own approximately 30.1% of our outstanding common stock (assuming no exercise of the underwriter's option to purchase additional shares and no exercise of outstanding options after March 31, 2018). In particular, after this offering, GS Capital Partners VI Parallel, L.P., GS Capital Partners VI Offshore Fund, L.P., GS Capital Partners VI Fund, L.P., and GS Capital Partners VI GmbH & CO. KG, which are affiliates of Goldman, Sachs & Co. LLC and which we refer to as the Goldman Funds, collectively will beneficially own approximately 11.9% of our outstanding common stock (assuming no exercise of the underwriter's option to purchase additional shares and no exercise of outstanding options after March 31, 2018). These stockholders, if they act together, could exert substantial influence over matters requiring approval by our stockholders, including the amendment of our certificate of incorporation and bylaws, and the approval of mergers or other business combination transactions.

Additionally, the Goldman Funds, Mason R. Holland, Jr., our Executive Chairman and a director, and Shawn A. Jenkins, our Senior Advisor for Innovation and a director until April 1, 2018, entered into a voting agreement for the election of directors. After this offering, these stockholders collectively will beneficially own approximately 29.2% of our common stock (assuming no exercise of the underwriter's option to purchase additional shares and no exercise of outstanding options after March 31, 2018). Pursuant to the voting agreement, the parties are obligated to vote all of their shares to elect two directors nominated by the Goldman Funds (for as long as the Goldman Funds hold at least 10% or more of the fully diluted equity interest in the Company's common stock outstanding) and

Table of Contents

each of Messrs. Holland and Jenkins to our board of directors, if requested. As a result, these stockholders will have significant influence on the outcome of director elections. This concentration of ownership might discourage, delay, or prevent a change in control of our company, which could deprive our stockholders of an opportunity to receive a premium for their stock as part of a sale of our company and might reduce our stock price. These actions may be taken even if they are opposed by other stockholders.

Provisions in our restated certificate of incorporation and amended and restated bylaws and Delaware law might discourage, delay, or prevent a change in control of our company or changes in our management and, therefore, depress the trading price of our common stock.

Provisions of our certificate of incorporation and bylaws and Delaware law might discourage, delay, or prevent a merger, acquisition, or other change in control that stockholders consider favorable, including transactions in which you might otherwise receive a premium for your shares of our common stock. These provisions might also prevent or frustrate attempts by our stockholders to replace or remove our management. These provisions include:

limitations on the removal of directors;

advance notice requirements for stockholder proposals and nominations;

limitations on the ability of stockholders to call special meetings;

the inability of stockholders to act by written consent once The Goldman Sachs Group and its affiliates cease to own at least 35% of our voting equity;

the inability of stockholders to cumulate votes at any election of directors;

the classification of our board of directors into three classes with only one class, representing approximately one-third of our directors, standing for election at each annual meeting; and

the ability of our board of directors to make, alter or repeal our bylaws.

Our Board of Directors could designate the terms of and issue new series of preferred stock without stockholder approval. In addition, Section 203 of the Delaware General Corporation Law prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder, generally a person which together with its affiliates owns, or within the last three years has owned, 15% of our voting stock, for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner.

The existence of the foregoing provisions and anti-takeover measures could limit the price that investors are willing to pay in the future for shares of our common stock. They could also deter potential acquirers of our company, thereby reducing the likelihood that you could receive a premium for your common stock in an acquisition.

Our business is subject to changing regulations regarding corporate governance, disclosure controls, internal control over financial reporting, and other compliance areas that will increase both our costs and the risk of noncompliance.

As a public company, we are subject to the reporting requirements of the Securities Exchange Act of 1934 (the Exchange Act), the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, the Dodd-Frank Act, and the rules and regulations of our stock exchange. The requirements of these rules and regulations will increase our legal, accounting, and financial compliance costs, will make some activities more difficult, time-consuming, and costly, and may also place undue strain on our personnel, systems, and resources.

Table of Contents

The Sarbanes-Oxley Act requires, among other things, that we maintain effective disclosure controls and procedures and internal control over financial reporting. Commencing with our fiscal year ending December 31, 2014, we performed system and process evaluation and testing of our internal control over financial reporting to allow management to report on the effectiveness of our internal control over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act. We also are required to disclose changes made to our internal controls and procedures on a quarterly basis. Our ongoing compliance with Section 404 of the Sarbanes-Oxley Act will require that we incur substantial accounting expense and expend significant management efforts.

In addition, we anticipate we will no longer qualify as an emerging growth company as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act, as of December 31, 2018. Accordingly, our independent registered public accounting firm will be required to formally attest to the effectiveness of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act in our Annual Report on Form 10-K for the year ending December 31, 2018. We will also be required to include additional information regarding executive compensation in our 2019 proxy statement and hold a nonbinding advisory vote on executive compensation at our 2019 annual meeting of stockholders. These additional reporting requirements, among others, may increase our legal and financial compliance costs and cause management and other personnel to divert attention from operational and other business matters to devote substantial time to public company reporting requirements. In addition, if we are not able to comply with changing legal requirements in a timely manner, the market price of our stock could decline and we could be subject to sanctions or investigations by the stock exchange on which our common stock is listed, the SEC, or other regulatory authorities, which would require additional financial and management resources.

Failure to develop and maintain adequate financial controls could cause us to have material weaknesses, which could adversely affect our operations and financial position.

As previously reported, in the first quarter of 2014, we identified a material weakness in internal controls over the accounting for leasing transactions which resulted in the identification of a material error in the accounting for our headquarters lease executed in May 2005. We might in the future discover other material weaknesses that require remediation. In addition, an internal control system, no matter how well-designed, cannot provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud will be detected. If we are not able to comply with the requirements of Section 404 of the Sarbanes-Oxley Act in a timely manner, or if we are unable to maintain proper and effective internal controls, we might not be able to produce timely and accurate financial statements. If that were to happen, the market price of our stock could decline and we could be subject to sanctions or investigations by the stock exchange on which our common stock is listed, the SEC, or other regulatory authorities.

Any failure to develop or maintain effective controls, or any difficulties encountered in their implementation or improvement, could harm our operating results or cause us to fail to meet our reporting obligations. Any failure to implement and maintain effective internal controls also could adversely affect the results of periodic management evaluations regarding the effectiveness of our internal control over financial reporting that we are required to include in our periodic reports filed with the SEC under Section 404 of the Sarbanes-Oxley Act. Ineffective disclosure controls and procedures or internal control over financial reporting could also cause investors to lose confidence in our reported financial and other information, which would likely have a negative effect on the trading price of our common stock. Implementing any appropriate changes to our internal controls may require specific compliance training of our directors, officers, and employees, entail substantial costs in order to modify our existing accounting systems, and take a significant period of time to complete. Such changes may not be effective, however, in maintaining the adequacy of our internal controls, and any failure to maintain that adequacy, or consequent inability to produce accurate financial statements on a timely

Table of Contents

basis, could increase our operating costs and could materially impair our ability to operate our business. In the event that we are not able to demonstrate compliance with Section 404 of the Sarbanes-Oxley Act in a timely manner, that our internal controls are perceived as inadequate, or that we are unable to produce timely or accurate financial statements, investors may lose confidence in our operating results and our stock price could decline.

While we remain an emerging growth company, we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our common stock less attractive to investors.

We anticipate we will no longer qualify as an emerging growth company as of December 31, 2018. Under the JOBS Act, emerging growth companies can delay adopting new or revised accounting standards until such time as those standards apply to private companies. We have irrevocably elected not to avail ourselves of this exemption from new or revised accounting standards and, therefore, we continue to be subject to the same new or revised accounting standards as other public companies that are not emerging growth companies.

For as long as we continue to be an emerging growth company, we intend to take advantage of certain other exemptions from various reporting requirements that are applicable to other public companies including, but not limited to, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved, and exemptions from the requirements of auditor attestation reports on the effectiveness of our internal control over financial reporting. We cannot predict if investors will find our common stock less attractive while we continue to rely on these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for our common stock and our stock price may be more volatile.

If securities or industry analysts do not publish research or reports about our business, or publish inaccurate or unfavorable research or reports about our business, our stock price and trading volume could decline.

The trading market for our common stock depends, to some extent, on the research and reports that securities or industry analysts publish about us and our business. We do not have any control over these analysts. If one or more of the analysts who cover us downgrade our common stock or change their opinion of our common stock, our stock price would likely decline. If one or more of these analysts cease coverage of our company or fail to regularly publish reports on us, we could lose visibility in the financial markets, which could cause our stock price or trading volume to decline.

The following is a summary of material U.S. federal income and estate tax considerations related to the purchase, ownership, and disposition of our common stock that are applicable to a non-U.S. holder (defined below). This section does not address all potential U.S. federal income tax and estate tax considerations relating thereto nor does it address tax considerations applicable to other investors, such as U.S. persons (defined below). This summary:

is applicable only to non-U.S. holders who hold the shares as capital assets within the meaning of section 1221 of the Code (generally, property held for investment);

does not discuss the applicability of any U.S. state or local taxes, non-U.S. taxes or any other U.S. federal tax except for U.S. federal income tax and estate tax; and

does not address all aspects of U.S. federal income taxation that might be relevant to holders in light of their particular circumstances or who are subject to special treatment under U.S. federal income tax laws, including but not limited to:

U.S. expatriates and former citizens and long-term residents of the United States;

banks, financial institutions, investment funds, insurance companies, brokers, dealers or traders in securities, or other financial services entities;

insurance companies;

We have not and will not seek any rulings from the Internal Revenue Service, or IRS, regarding the matters discussed below. There can be no assurance that the IRS will not take positions concerning the tax consequences of the purchase, ownership or disposition of shares of our common stock that are different from those discussed below.

Table of Contents

Non-U.S. Holder Defined

For purposes of this discussion, a non-U.S. holder is a beneficial owner of common stock that is neither a U.S. person nor a partnership or entity or arrangement treated as a partnership for U.S. federal income tax purposes. A U.S. person is:

an individual citizen or resident of the United States;

a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, that is created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if it (1) is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

An individual non-U.S. citizen generally is treated as a resident for U.S. tax purposes if the individual was a lawful resident during the year, as evidenced by having a valid United States permanent resident card, USCIS Form I-511 (or green card). In addition, a non-U.S. citizen may in many cases be deemed to be a resident alien, as opposed to a nonresident alien, if he or she is present in the United States (as determined pursuant to the Code and applicable Treasury regulations promulgated thereunder) for at least 31 days in the calendar year and for an aggregate of at least 183 days during a three-year period ending in the current calendar year. For these purposes, all the days present in the current year, one-third of the days present in the immediately preceding year, and one-sixth of the days present in the second preceding year are counted. Resident aliens are subject to U.S. federal income tax as if they were U.S. citizens. Such an individual is urged to consult his or her own tax advisor regarding the U.S. federal income tax consequences of the ownership or disposition of our common stock.

If a partnership (or an entity or arrangement treated as a partnership for U.S. federal income tax purposes) owns our common stock, then the U.S. federal income tax treatment of a partner in that partnership generally will depend on the status of the partner and the partnership's activities. Partners and partnerships should consult their own tax advisors with regard to the U.S. federal income tax treatment of an investment in our common stock.

Distributions to Non-U.S. Holders

Distributions of cash or property, if any, paid to a non-U.S. holder of the common stock will constitute dividends for U.S. federal income tax purposes to the extent paid out of our current or accumulated earnings and profits, as determined for U.S. federal income tax purposes. If the amount of a distribution exceeds both our current and accumulated earnings and profits, such excess will first constitute a nontaxable return of capital, which will reduce the holder's tax basis in the common stock, but not below zero, and thereafter will be treated as gain from the sale of the common stock (see Sale or Taxable Disposition of Common Stock by Non-U.S. Holders below).

Subject to the following paragraphs, dividends on the common stock generally will be subject to U.S. federal withholding tax at a 30% gross rate, subject to any exemption or lower rate as may be specified by an applicable income tax treaty. We may withhold up to 30% of either (1) the gross amount of the entire distribution, even if the amount of the distribution is greater than the amount

Table of Contents

constituting a dividend, as described above, or (2) the amount of the distribution we project will be a dividend, based upon a reasonable estimate of both our current and our accumulated earnings and profits for the taxable year in which the distribution is made. If tax is withheld on the amount of a distribution in excess of the amount constituting a dividend, then you may obtain a refund of that excess amount by timely filing a claim for refund with the IRS.

To claim the benefit of a reduced rate of or an exemption from U.S. federal withholding tax under an applicable income tax treaty, a non-U.S. holder will be required (1) to satisfy certain certification requirements, which may be made by providing us or our agent with a properly executed and completed IRS Form W-8BEN or W-8BEN-E (or other applicable form) certifying, under penalty of perjury, that the holder qualifies for treaty benefits and is not a U.S. person, or (2) if the common stock is held through certain non-U.S. intermediaries, to satisfy the relevant certification requirements of the applicable Treasury regulations. Special certification and other requirements apply to certain non-U.S. holders that are pass-through entities. A non-U.S. holder eligible for a reduced rate of U.S. withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. You should consult your own tax advisor regarding your entitlement to benefits under a relevant income tax treaty.

Dividends that are effectively connected with the conduct of a trade or business by the non-U.S. holder within the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment, or a fixed base in the case of an individual non-U.S. holder, that is maintained by the non-U.S. holder in the United States) (effectively connected dividends) are not subject to the U.S. federal withholding tax, provided that the non-U.S. holder certifies, under penalty of perjury, that the dividends paid to such holder are effectively connected dividends on a properly executed and completed IRS Form W-8ECI (or other applicable form). Instead, any such dividends will be subject to U.S. federal income tax on a net income basis in a manner similar to that which would apply if the non-U.S. holder were a U.S. person. Corporate non-U.S. holders who receive effectively connected dividends may also be subject to an additional branch profits tax at a gross rate of 30% on their earnings and profits for the taxable year that are effectively connected with the holder's conduct of a trade or business within the United States, subject to any exemption or reduction provided by an applicable income tax treaty.

Sale or Taxable Disposition of Common Stock by Non-U.S. Holders

Any gain realized on the sale, exchange, or other taxable disposition of the common stock by a non-U.S. holder generally will not be subject to U.S. federal income tax unless:

the gain is effectively connected with the conduct of a trade or business by the non-U.S. holder within the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment, or fixed base in the case of an individual non-U.S. holder, that is maintained by the non-U.S. holder in the United States);

the non-U.S. holder is a nonresident alien individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or

we are or have been a United States real property holding corporation for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of such disposition and the non-U.S. holder's holding period in the common stock. A non-U.S. holder described in the first bullet point above generally will be subject to U.S. federal income tax on the net gain derived from the sale or disposition under regular graduated U.S. federal income tax rates as if the holder were a U.S. person. If the non-U.S. holder is a corporation, then the gain may also, under certain circumstances, be subject to the branch profits tax, which is discussed above.

Table of Contents

An individual non-U.S. holder described in the second bullet point above will be subject to a tax at a 30% gross rate, subject to any reduction or reduced rate under an applicable income tax treaty, on the net gain derived from the sale, which may be offset by U.S.-source capital losses, even though the individual is not considered a resident of the United States for U.S. federal income tax purposes, provided the non-U.S. holder has timely filed U.S. federal income tax returns with respect to such losses.

We believe we are not, have not been and will not become a United States real property holding corporation for U.S. federal income tax purposes. In the event that we are or become a United States real property holding corporation at any time during the applicable period described in the third bullet point above, any gain recognized on a sale or other taxable disposition of the common stock may be subject to U.S. federal income tax, including any applicable withholding tax, if (1) the non-U.S. holder beneficially owns, or has owned, more than 5% of our common stock at any time during the applicable period, or (2) our common stock ceases to be traded on an established securities market within the meaning of the Code. Non-U.S. holders who intend to acquire more than 5% of our common stock are encouraged to consult their tax advisors with respect to the U.S. tax consequences of a disposition of the common stock.

Information Reporting and Backup Withholding

We must report annually to the IRS and to each non-U.S. holder the amount of dividends and other distributions paid to the holder and the tax withheld, if any, from those payments. These reporting requirements apply regardless of whether withholding was reduced or eliminated by any applicable income tax treaty. Copies of the information returns reporting such dividends and the tax withheld may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty or other agreement for the exchange of such information.

A non-U.S. holder will generally be subject to backup withholding, currently at a 24% rate, for dividends paid to the holder unless the holder certifies under penalty of perjury that it is not a U.S. person on a properly executed IRS Form W-8BEN or W-8BEN-E (or other applicable form) or the holder otherwise establishes an exemption (provided that the payor does not have actual knowledge or reason to know that such holder is a U.S. person or that the conditions of any other exemptions are not in fact satisfied, in which case backup withholding and information reporting obligations will be applicable).

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale of the common stock by a non-U.S. holder within the United States or conducted through certain U.S.-related financial intermediaries, unless the holder certifies under penalty of perjury that it is not a U.S. person on a properly executed IRS Form W-8BEN or W-8BEN-E (or other applicable form) or the holder otherwise establishes an exemption (provided that neither the broker nor intermediary has actual knowledge or reason to know that such holder is a U.S. person or that the conditions of any other exemptions are not in fact satisfied).

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder's U.S. federal income tax liability, if any, provided the required information is timely furnished to the IRS. Non-U.S. holders should consult their own tax advisors to determine their ability to obtain a refund or credit in the event that backup withholding applies to them.

Table of Contents

Federal Estate Tax

Individual non-U.S. holders and entities the property of which is potentially includible in such an individual's gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers) should note that, absent an applicable treaty benefit, the common stock will be treated as U.S.-situs property subject to U.S. federal estate tax. A unified credit amount may be available to reduce the net tax liability of a nonresident alien's estate, but the unified credit for a nonresident alien is generally much smaller than the applicable credit for computing the estate tax of a U.S. resident. Nonresident aliens should consult their personal tax advisors regarding specific or potential implications to them of the U.S. federal estate tax.

Withholding on Payments to Certain Foreign Entities

Sections 1471 to 1474 of the Code (commonly referred to as FATCA) and the Treasury regulations thereunder impose information reporting and withholding tax requirements for dividends and, after December 31, 2018, gross proceeds of dispositions of our common stock, paid to certain non-U.S. entities that hold shares in U.S. corporations, unless such holder has satisfied various U.S. information reporting and due diligence requirements generally relating to its U.S. owners and account holders or otherwise qualifies for an exemption from these rules. These FATCA requirements are different from, and in addition to, the beneficial owner certification requirements described above. If a non-U.S. holder is located in a jurisdiction that has an intergovernmental agreement with the United States governing FATCA, such holder may be subject to different rules. In general, to avoid a 30% withholding tax under these FATCA provisions, (1) foreign financial institutions that hold shares in U.S. corporations will be required to identify for the IRS each U.S. account owner who is a beneficial owner of such shares and to provide certain information regarding the account, and also to agree to comply with certain other diligence and reporting requirements established under FATCA and, if applicable, certain intergovernmental agreements entered into between the United States and the applicable foreign jurisdiction, and (2) other foreign entities (aside from public companies) that are beneficial owners of shares will be required to identify U.S. persons who are substantial owners (as defined in the Code) in such foreign entity or certify that they have no such owners. Foreign entities, and other foreign persons who plan to have their shares of our common stock held through a foreign financial institution, should consider the potential applicability of these provisions by consulting with their own tax advisors.

The preceding discussion of U.S. federal income and estate tax considerations is for general information only, and is not a complete discussion of all potential tax considerations for a non-U.S. holder. It is not tax or legal advice. Each prospective investor should consult its own tax advisor regarding the particular tax consequences of purchasing, holding, and disposing of our common stock, including the consequences of any proposed change in applicable law, as well as tax consequences arising under any state, local, non-U.S., or U.S. federal tax laws.

UNDERWRITING

J.P. Morgan Securities LLC is acting as underwriter of the offering. Subject to the terms and conditions set forth in an underwriting agreement among us, the selling stockholder and the underwriter, the selling stockholder has agreed to sell to the underwriter, and the underwriter has agreed to purchase 2,500,000 shares of common stock. We will file the underwriting agreement as an exhibit to a current report on Form 8-K and incorporate it by reference in this prospectus supplement and the accompanying prospectus.

The underwriting agreement provides that the underwriter's obligation to purchase shares of common stock depends on the satisfaction of the conditions contained in the underwriting agreement including, but not limited to:

the obligation to purchase all of the shares of common stock offered hereby if any of the shares are purchased;

the representations and warranties made by us and the selling stockholder to the underwriter are true;

there is no material change in our business or the financial markets; and

we and the selling stockholder deliver customary closing documents to the underwriter.

Commissions and Discounts

The underwriter proposes to offer the shares of common stock from time to time for sale in one or more transactions on the NASDAQ, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. After the initial offering of the shares, the underwriter may change the offering price and the other selling terms. The offering of the shares by the underwriter is subject to receipt and acceptance and subject to the underwriter's right to reject any order in whole or in part.

The expenses of the offering are estimated at \$325,000. We have agreed to pay expenses incurred by the selling stockholder in connection with the offering, other than the underwriting discounts and commissions.

Option to Purchase Additional Shares

The selling stockholder has granted an option to the underwriter, exercisable for 30 days after the date of this prospectus supplement, subject to the conditions contained in the underwriting agreement, to purchase up to 375,000 additional shares of common stock from the selling stockholder at the price set forth on the cover page of this prospectus supplement.

Lock-Up Agreements

In connection with this offering, we, our executive officers, directors, the selling stockholder and certain beneficial owners of 5% or more of our securities agreed, subject to certain exceptions, not to sell, transfer or otherwise dispose of any shares of our common stock for 30 days after the date of this prospectus supplement without first obtaining the written consent of the underwriter. Specifically, we and these other persons have agreed, with certain limited exceptions, not to directly or indirectly: (1) offer, sell, contract to sell, pledge, grant any option to purchase, make any short sale or otherwise dispose of any shares of common stock, or any options or warrants to purchase any shares of common stock, or any securities convertible into, exchangeable for or that represent the right to receive shares of common stock; or (2) make any demand for, or exercise any right with respect to, the registration of any shares of our common stock or any security convertible into or exercisable or exchangeable for our common stock. In addition, we have agreed that, without the prior written consent of the underwriter, we will not, during the restricted period, voluntarily effect any public report or filing with the SEC relating to the offering of any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock.

The restrictions described in the immediately preceding paragraph do not apply to: (i) transfers of shares of our common stock as a bona fide gift or gifts; (ii) transfers of shares of our common stock to any trust for the direct or indirect benefit of the undersigned or the immediate family of the signatory, or if the signatory is a trust, to its grantor or beneficiaries pursuant to its terms; (iii) transfers of shares of our common stock as a distribution to limited partners, members or stockholders of the signatory; (iv) transfers of shares of our common stock to another corporation, partnership or other business entity that controls, is controlled by or is under common control with, the signatory; (v) transfers of shares of our common stock to us pursuant to the exercise of stock options for shares that have been granted by us prior to, and are outstanding as of the date of the underwriting agreement under employee benefit plans on the terms of such plans as described in the final prospectus relating to this offering, where the shares received upon any such exercise are held by the undersigned, individually or as fiduciary, in each case on a cashless or net exercise basis (which, for the avoidance of doubt shall not include cashless exercise programs involving a broker or other third party); (vi) transfers of shares of our common stock to us to satisfy withholding taxes for any equity award granted prior to the date of the underwriting agreement, such as upon exercise, vesting, lapse of substantial risk of forfeiture, or other similar taxable event, in each case on a cashless or net exercise basis (which, for the avoidance of doubt shall not include cashless exercise programs involving a broker or other third party); provided that the donee, trustee, distributee, or transferee thereof, as applicable, agrees to be bound in writing by the same terms and conditions as agreed to by us, and provided further that any such donation, distribution or transfer shall not involve a disposition for value (vii) sales of common stock by certain of our executive officers and directors under trading plans established prior to the date of the lock-up agreement pursuant to Rule 10b5-1 under the Exchange Act; or (viii) us if we exercise our right to repurchase, at any time after the termination of employment or consulting relationship by an employee or consultant for any reason, any shares purchased pursuant to the exercise of options.

The underwriter in its sole discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time. When determining whether or not to release common stock and other securities from lock-up agreements, the underwriter will consider, among other factors, the holder's reasons for requesting the release, the number of shares of common stock and other securities for which the release is being requested and market conditions at the time.

Indemnification

We and the selling stockholder have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriter may be required to make for these liabilities.

Stabilization and Short Positions

The underwriter may engage in stabilizing transactions, short sales and purchases to cover positions created by short sales, and purchases for the purpose of pegging, fixing or maintaining the price of the common stock, in accordance with Regulation M under the Exchange Act:

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

A short position involves a sale by the underwriter of shares in excess of the number of shares the underwriter is obligated to purchase in the offering, which creates the syndicate short position. The underwriter may close out any short position by purchasing shares in the open market. A short position is more likely to be created if the underwriter is concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions.

These stabilizing transactions may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of the common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the Nasdaq Global Market or otherwise and, if commenced, may be discontinued at any time.

Neither we nor the underwriter make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor the underwriter make any representation that the underwriter will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Passive Market Making

In connection with the offering, the underwriter and selling group members may engage in passive market making transactions in the common stock on the Nasdaq Global Market in accordance with Rule 103 of Regulation M under the Exchange Act during the period before the commencement of offers or sales of common stock and extending through the completion of distribution. A passive market maker must display its bids at a price not in excess of the highest independent bid of the security. However, if all independent bids are lowered below the passive market maker's bid that bid must be lowered when specified purchase limits are exceeded.

Electronic Distribution

A prospectus supplement in electronic format may be made available on the Internet sites or through other online services maintained by the underwriter and/or selling group members participating in this offering, or by their affiliates. In those cases, prospective investors may view offering terms

online and, depending upon the underwriter or a particular selling group member, prospective investors may be allowed to place orders online. The underwriter may agree with us to allocate a specific number of shares for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriter on the same basis as other allocations.

Other than the prospectus supplement in electronic format, the information on the underwriter's or selling group member's web site and any information contained in any other web site maintained by the underwriter or a selling group member is not part of the prospectus supplement or the registration statement of which this prospectus supplement forms a part, has not been approved and/or endorsed by us or the underwriter or any selling group member in its capacity as underwriter or selling group member and should not be relied upon by investors.

Table of Contents**SELLING STOCKHOLDER**

Beneficial ownership is determined in accordance with the rules of the SEC and includes voting or investment power with respect to the securities. For purposes of the table below, applicable percentage ownership prior to and after the completion of an offering is based on 29,155,926 shares of our common stock outstanding as of November 30, 2015 and assumes the sale of all the shares held by the selling stockholder and no other purchases or sales of our common stock. However, because the selling stockholder may offer, from time to time, all, some or none of such shares under this prospectus, or in another permitted manner, no assurances can be given as to the actual number of shares that will be sold by the selling stockholder or that will be held by it after the completion of the sales.

The information in the table below with respect to the selling stockholder has been obtained from that selling stockholder. Based on information provided to us, while the selling stockholder is an affiliate of a broker-dealer, it did not purchase shares of our common stock outside the ordinary course of business or at the time of its acquisition of shares of our common stock, have any agreements, understandings, or arrangements with any other persons, directly or indirectly, to dispose of the shares. Except as indicated in footnotes to this table, we believe that the selling stockholder named in this table has sole voting and investment power with respect to all shares of our common stock shown to be beneficially owned by it, based on information provided to us by such stockholder.

Our

board may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of our common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring, or preventing a change in our control or the removal of management and might adversely affect the market price of our common stock and the voting and other rights of the holders of our common stock. We have no current plans to issue any shares of preferred stock.

As of November 30, 2015, total stock awards, including options and stock rights, to exchange or purchase a total of 4,272,903 shares of common stock remain available for future issuance under our stock plans.

Warrant

On February 24, 2015, we entered into a Securities Purchase Agreement with Mercer LLC, or Mercer. At the same time, we also issued Mercer a warrant, or the Warrant, for the purchase of 580,813 shares of our common stock for \$26.50 per share at any time during the 30-month term of the Warrant. Mercer is entitled to exercise the Warrant in whole or in part at any time, or from time to time, at or prior to the expiration of the 30-month term of the Warrant. In addition, the Warrant provides anti-dilution protections to Mercer, including protection in the event that we declare or pay a dividend or make a distribution of our common stock payable in our common stock, subdivide or split the outstanding shares of our common stock into a greater number of shares, or combine or reclassify the outstanding shares of our common stock into a smaller number of shares.

Registration Rights

As of November 30, 2015, stockholders holding approximately 16,219,601 shares of our common stock had the right, subject to various conditions and limitations, to include their shares in Registration Statements relating to our securities. The holders of at least 66-2/3% of the then outstanding shares subject to these registration rights have the right to demand that we register such shares on Form S-1 under the Securities Act with respect to shares having an aggregate offering price of at least \$5,000,000, and subject to other limitations. In addition, these holders are entitled to piggyback registration rights with respect to the registration under the Securities Act of shares of common stock. In the event that we propose to register any shares of common stock under the Securities Act either for our account or for the account of other security holders, the holders of shares having piggyback registration rights are entitled to receive notice of such registration and to include shares in any such registration, subject to limitations. Further, the holders of at least 5% of the shares subject to these registration rights may require us to file registration statements under the Securities Act on Form S-3 with respect to shares of common stock having an aggregate offering price, net of selling expenses, of at least \$5,000,000. To the extent that we qualify as a well-known seasoned issuer at the time a requisite number of holders demand the registration of shares subject to these registration rights, we will file an automatic shelf registration statement covering the shares for which registration is demanded if so requested by the holders of such shares. These registration rights are subject to conditions and limitations, among them the right of the underwriters of an offering to limit the number of shares of common stock held by such security holders to be included in such registration. We are generally required to bear all of the expenses of such registrations, including reasonable fees of a single counsel acting on behalf of all selling holders, except underwriting discounts, selling commissions, and stock transfer taxes applicable to the sale. Registration of any of the shares of common stock held by security holders with registration rights would result in such shares becoming freely tradable without restriction under the Securities Act immediately upon effectiveness of such registration.

Right of First Offer

In connection with the Securities Purchase Agreement that we entered with Mercer, we granted Mercer a right of first offer with respect to certain new issuances of our equity securities, as have our majority stockholder and other large stockholders with respect to sales of their shares of our common stock pursuant to a Right of First Offer Agreement. In general, we and the applicable stockholders are required to offer Mercer the right to purchase any shares of our common stock or other equity securities of our company that we or such stockholders propose to issue or sell, at a price we or the stockholders, as applicable, specify, and if Mercer declines to purchase such shares or other securities at such price, we or the stockholders may issue or sell such securities to one or more third parties at a price no less than the price offered to Mercer within a specified time period. These rights of first offer are subject to the limitation on acquisitions of additional shares of common stock by Mercer under certain standstill restrictions, and are also subject to certain other exceptions, including only applying to 50% of shares or other securities proposed to be sold by any stockholder in a registered offering or certain other similar forms of sales. These rights of first offer will remain in effect until the earlier of (i) the expiration or termination of the Mercer Exchange Software as a Service Agreement between Mercer Health & Benefits LLC and us and (ii) the first date on which Mercer and its affiliates own less than (A) 75% of the shares of our common stock acquired on February 24, 2015 or (B) 5% of our common stock outstanding, in each case in this clause (ii), for a period of at least 45 consecutive days.

Certain Provisions of our Certificate of Incorporation and Bylaws

The provisions of Delaware law, our certificate of incorporation, and our bylaws may have the effect of delaying, deferring, or discouraging another person from acquiring control of our company.

Delaware Law. We are governed by the provisions of Section 203 of the Delaware General Corporation Law. In general, Section 203 prohibits a public Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder unless:

prior to such time, our board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding shares owned by persons who are directors and also officers and by specified employee stock plans; or

at or subsequent to the date of the transaction, the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the interested stockholder.

A business combination includes mergers, asset sales, or other transactions resulting in a financial benefit to the stockholder. In general, an interested stockholder is a person who, together with affiliates and associates, owns, or within three years did own, 15% or more of the corporation's outstanding voting stock. These provisions may have the effect of delaying, deferring, or preventing a change in our control. Because the Goldman Funds beneficially held more than 15% of our shares at the time we became subject to Delaware law, our restated certificate of incorporation exempts the Goldman Funds and their affiliates from being an interested stockholder within the meaning of Section 203.

Certificate of Incorporation and Bylaw Provisions. Various provisions of our certificate of incorporation and bylaws could deter hostile takeovers or delay or prevent changes in control of our management team, including the following:

Board of Directors Vacancies. Our certificate of incorporation and bylaws authorize only our board or the stockholders at a duly called meeting for that purpose to fill vacant directorships. In addition, the number of directors constituting our board is permitted to be set only by a resolution adopted by a majority of our board. These provisions would prevent a stockholder from increasing the size of our board and then gaining control of our board by filling the resulting vacancies with its own nominees.

Classified Board. Our bylaws provide that our board is classified into three classes of directors. This could delay a successful tender offeror from obtaining majority control of our board of directors, and the prospect of that delay might deter a potential offeror.

Stockholder Action; Special Meeting of Stockholders. Under our bylaws, our stockholders may no longer take action by written consent, and may only take action at annual or special meetings of our stockholders. Our bylaws further provide that special meetings of our stockholders may be called only by a majority of our board, the chairman of our board, by such other person the board expressly authorizes to call a special meeting, or by stockholders representing at least 35% of the votes entitled to be cast on any issue proposed to be considered at such special meeting.

Advance Notice Requirements for Stockholder Proposals and Director Nominations. Our bylaws provide advance notice procedures for stockholders seeking to bring business before our annual meeting of stockholders, or to nominate candidates for election as directors at our annual meeting of stockholders. To be timely, a stockholder's notice must be delivered to, or mailed and received at, our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary of the date of our notice of annual meeting provided with respect to the previous year's annual meeting of stockholders; provided, that if no annual meeting of stockholders was held in the previous year or the date of the annual meeting of stockholders has been changed to be more than 30 calendar days earlier or 60 days later than such anniversary, notice by the stockholder, to be timely, must be received not earlier than the 120th day nor later than the 90th day prior to the date of such annual meeting or, if later, the 10th day following the date we publicly disclose the date of the annual meeting. Our bylaws also specify certain requirements regarding the form and content of a stockholder's notice. These provisions might preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders.

Issuance of Undesignated Preferred Stock. Our board has the authority, without further action by our stockholders, to issue up to 5,000,000 shares of undesignated preferred stock with rights and preferences, including voting rights, designated from time to time by our board. Our board may utilize these shares for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions, and employee benefits plans. The existence of authorized but unissued shares of preferred stock would enable our board to render more difficult or to discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest, or other means. If we issue such shares without stockholder approval and in violation of limitations imposed by any stock exchange on which our stock may then be trading, our stock could be delisted.

The securities may be distributed from time to time in one or more transactions:

at a fixed price or prices, which may be changed from time to time;

Each time that the selling stockholder sells securities covered by this prospectus, we will provide a prospectus supplement or supplements that will describe the method of distribution and set forth the terms and conditions of the offering of such securities, including: (1) the name or names of any underwriters, dealers or agents and the amounts of securities underwritten or purchased by each of them; (2) the public offering price of the securities and the proceeds to the selling stockholder; (3) any options under which underwriters may purchase additional securities; (4) any underwriting discounts or commissions or agency fees and other items constituting underwriters or agents compensation; (5) terms and conditions of the offering and (6) any discounts, commissions or concessions allowed or reallocated or paid to dealers.

Offers to purchase the common stock being offered by this prospectus may be solicited directly. Agents may also be designated to solicit offers to purchase the common stock from time to time. Any agent involved in the offer or sale of our common stock, and any commissions paid to them, will be identified in a prospectus supplement. We may engage in at the market offerings into an existing trading market in accordance with Rule 415(a)(4) under the Securities Act.

If a dealer is utilized in the sale of the securities being offered by this prospectus, the securities will be sold to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale.

If an underwriter is utilized in the sale of the securities being offered by this prospectus, an underwriting agreement will be executed with the underwriter at the time of sale and the name of any underwriter will be provided in the prospectus supplement that the underwriter will use to make resales of the securities to the public. In connection with the sale of the securities, the selling stockholder or the purchasers of securities for whom the underwriter may act as agent, may compensate the underwriter in the form of underwriting discounts or commissions. The underwriter may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for which they act as agent. Unless otherwise indicated in a prospectus supplement, an agent will be acting on a best efforts basis and a dealer will purchase securities as a principal, and may then resell the securities at varying prices to be determined by the dealer.

Any compensation paid to underwriters, dealers or agents in connection with the offering of the securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers, will be disclosed in the applicable prospectus supplement. Underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions. The selling stockholder may enter into agreements to indemnify underwriters, dealers and agents against

civil liabilities, including liabilities under the Securities Act, or to contribute to any payments they are required to make in respect thereof and to reimburse those persons for certain expenses.

Our common stock is listed on NASDAQ. To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than were sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

If indicated in the applicable prospectus supplement, underwriters or other persons acting as agents may be authorized to solicit offers by institutions or other suitable purchasers to purchase the securities at the public offering price set forth in the prospectus supplement, pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. These purchasers may include, among others, commercial and savings banks, insurance companies, pension funds, investment companies and educational and charitable institutions. Delayed delivery contracts will be subject to the condition that the purchase of the securities covered by the delayed delivery contracts will not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which the purchaser is subject. The underwriters and agents will not have any responsibility with respect to the validity or performance of these contracts.

If at the time of any offering made under this prospectus a member of FINRA participating in the offering has a conflict of interest as defined in FINRA Rule 5121 (Rule 5121), that offering will be conducted in accordance with the relevant provisions of Rule 5121.

The specific terms of any lock-up provisions in respect of any given offering will be described in the applicable prospectus supplement.

The underwriters, dealers and agents may engage in other transactions with us, or perform other services for us, in the ordinary course of business for which they receive compensation.

Selling stockholder may also sell securities under Rule 144 under the Securities Act, if available, or pursuant to other available exemptions from the registration requirements under the Securities Act, rather than under this prospectus. Registration of the common stock covered by this prospectus does not mean that any shares of common stock will be offered or sold.
