**ITEM 2.05 COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES**

On October 25, 2018, Tenneco Inc. approved a restructuring plan involving the closure of its original equipment (OE) ride control plants in Owen Sound, Ontario and Hartwell, Georgia as part of an initiative to realign its manufacturing footprint to enhance operational efficiency and respond to changing market conditions and capacity requirements.

The company expects to begin transferring current customer business primarily to its ride control facility in Kettering, Ohio, later this year. Tenneco expects to complete the closure of the two facilities near the end of the second quarter of 2020.

The company estimates that these restructuring actions will generate between \$20 million and \$25 million in annualized savings beginning by the end of 2020. Restructuring and related charges are expected to be in the range of \$70 million and \$85 million, with \$20 million to \$30 million occurring in the fourth quarter of 2018. The charges comprise between \$40 million and \$50 million of cash expenditures (including severance payments to employees, the cost of decommissioning and starting up equipment, and other costs associated with this action) and between \$30 million and \$35 million of non-cash asset write-downs and other costs.

A copy of the company's press release, dated October 26, 2018, is filed as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.
