Summary of
Annual Financial
Statements for
GhDS holders

Extract from chairman and chief executive officer's letter

AngloGold Ashanti's 2006 adjusted headline earnings increased by 105% to \$413 million, the highest level in the nine-year history of the company.

During this period, the spot price of gold rose by 36% – the greatest annual gain since 1980. The increase in earnings was achieved during a year in which gold production declined by 9% to 5.6 million ounces. Although total cash costs increased by 10% to \$308/ounce, the cost management programme achieved savings of \$73 million, which is pleasing given the rising prices of global commodity inputs.

AngloGold Ashanti's workplace safety performance is of concern. There had been a steady improvement in safety statistics until 2005 but this was not so in 2006. Regrettably, 37 employees lost their lives in work-related accidents, most of them at our South African operations (in Ghana, Obuasi reported two fatalities). A comprehensive safety review is under way and management has renewed its commitment to improved safety.

AngloGold Ashanti recorded a 6% increase in total ore reserves, after depletion, from 63.3 million ounces in 2005 to 66.9 million ounces in 2006.

This is in line with growth objectives which are central to ensuring sustainable returns for shareholders and benefits for all stakeholders.

A strong pipeline of organic growth projects and both brownfields and greenfields exploration programmes is in place around the world.

This growth strategy places the group in its highest-ever capital investment phase. However, we will continue to balance capital expenditure and dividend allocation on the basis of prudent financial management. In this spirit, a final dividend of 240 SA cents has been declared (equating to 33 US cents per share) for the six months ended 31 December 2006, to give a total dividend for the year of 450 SA cents (62 US cents). The final dividend for 2006 paid to the Government of Ghana was thus \$3.4 million, bringing the total amount paid to the Government of Ghana in dividends since the business combination in 2004 to \$14.3 million.

A key challenge which management continues to address successfully is the health of employees and the communities in which they live. The malaria control programme implemented in April 2006 in the Obuasi district in Ghana is one of the largest private sector malaria control programmes. The number of cases of malaria being treated at the company's hospital has fallen by 50%, and further reductions are expected in 2007 and beyond.

We are pleased to welcome to our board three new directors: Joseph Henry Mensah, Siphon Pityana and Wiseman Nkuhlu. Professor Nkuhlu was also appointed deputy chairman of the Audit and Corporate Governance Committee with effect from 4 August 2006. We also note the resignation of Lazarus Zim and Sam Jonah from the board. Colin Brayshaw and Tony Trahar will retire from the board at the upcoming annual general meeting. We thank them for the contribution made to the company during their tenure.

Looking ahead, gold production is estimated at 5.8 million ounces for 2007 at a total cash cost of \$309/ounce with capital expenditure of around \$1,070 million. This will be managed in line with profitability and cash flow.

We maintain a positive outlook for the gold price and confidently anticipate another year of growth and improved value for our shareholders.

Russell Edey

Bobby Godsell
Chairman
Chief Executive Officer
20 March 2007

•

Total annual gold production declined by 9% to 5.6 million ounces.

•

Total cash costs increased by 10% to \$308/ounce, mainly as a result of lower grades mined and inflationary pressures

•

Ore Reserves and Mineral Resources increased by 6% and 3% respectively.

Key features 2006 – operational
AngloGold Ashanti operation in Ghana

As at the end of 2006, AngloGold Ashanti had two operations in Ghana, Obuasi and Iduapriem, with the sale of the third operation, Bibiani, having been completed on 1 December 2006.

Outlook for 2007

Production for 2007 is planned at approximately 570,000 ounces at a total cash cost of around \$369/oz. Capital expenditure for the year is expected to be \$133 million – \$87 million at Obuasi where a feasibility study on the development of Obuasi Deeps is to be undertaken, and \$46 million at Iduapriem, where a plant expansion project is currently under way and a scoping study is to be conducted to evaluate the viability of low-grade resources of other properties which lie in the Tarkwaian conglomerates below the current economic limit of the pits.

10. Ordinary Resolution No. 10

Authority to issue the company's shares for cash

11. Ordinary Resolution No. 11

Increase in directors' remuneration

12. Special Resolution No. 1

Authority to acquire the company's own shares

Notes:

1.

The right to vote on each of the resolutions need not be exercised, neither need all the votes be cast in the same way.

2.

Any alteration or correction made to this Voting Instruction Form must be signed in full and not initialled by the signatory.

3.

In the case of joint holders of GhDSs, any one holder may sign the Voting Instruction Form.

4.

Documentary evidence establishing the authority of a person signing the Voting Instruction Form in the capacity as Power of Attorney must be attached, unless previously recorded by the Depository.

5.

Signature of this Voting Instruction Form on behalf of a company must be in accordance with that company's constitution and the signatory must state his/her office in the company concerned.

6.

Completed GhDS Voting Instruction Forms should be returned to NTHC Limited, Martco House, off Kwame Nkrumah Avenue, PO Box KIA 9563 Airport, Accra, Ghana by no later than 11:00 Ghana time on Friday, 27 April 2007.
