DRC Resources Receives Exploration Safety Award

July 26, 2004, Vancouver, British Columbia -

DRC Resources Corporation is a recipient of the BC and Yukon Chamber of Mines' Exploration Safety Award for 2003.

"With the growing activities in the exploration sector during the past year, the management of DRC Resources is very proud to be recognized by the BC and Yukon Chamber of Mines for the safe working environment DRC has provided for its employees and visitors," said President and CEO John Kruzick.

The award is presented to those companies engaged in mineral exploration in Western Canada who have reported one year without a lost workday accident following a minimum of 800 hours of exploration activity. Last year, DRC Resources had no lost day accidents for 24,800 hours of exploration work.

DRC Resources' policies manual reaffirms the Company's commitment to ensuring the health and safety of its employees and visitors to all DRC work sites, as well as protection of the environment under its stewardship.

According to the BC and Yukon Chamber of Mines' Safety Report, the annual workforce in Western Canada currently averages an estimated 2,000 to 3,000 explorationists, of which the Chamber's safety-related statistics probably represents 60 to 80 percent. Exploration spending in BC and the Yukon increased from \$40 million to \$60 million between 2002 and 2003.

About DRC Resources Corporation (TSX: DRC)

DRC Resources Corporation is a natural resource company with its head office in Vancouver and a field office in Kamloops, B.C. The main focus of DRC Resources is the exploration and development of the Afton Copper-Gold Project, located 10 km west of Kamloops, B.C.

According to the British Columbia Ministry of Energy & Mines, the Afton Project is the largest advanced exploration project in South Central B.C. To date the Company had expended over \$5 Million on exploration on the Afton Mineral Zone, outlining a 68.7 Million Tonne Measured and Indicated Mineral Resource of 1.68% Copper Equivalent

or 2.61g/t Gold Equivalent (1.08% Cu, 0.85 g/t Au, 2.62 g/t Ag, 0.12 g/t Pd). The Company is also exploring for mineral potentials at the nearby Ajax and Pothook properties within its 100% owned claim boundary.
