NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2005 AND 2004
(UNAUDITED)

NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION

The condensed unaudited interim financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. The condensed financial statements and notes are presented as permitted on Form 10-QSB and do not contain information included in the Company's annual statements and notes. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed financial statements be read in conjunction with the September 30, 2004 audited financial statements and the accompanying notes thereto. While management believes the procedures followed in preparing these condensed financial statements are reasonable, the accuracy of the amounts are in some respects dependent upon the facts that will exist, and procedures that will be accomplished by the Company later in the year.

These condensed unaudited financial statements reflect all adjustments, including normal recurring adjustments which, in the opinion of management, are necessary to present fairly the operations and cash flows for the periods presented.

The Company was incorporated on May 10, 1998, under the laws of the State of Delaware. The business purpose of the Company was originally to engage in environmental monitoring and testing. However, on December 31, 2001, the Company liquidated its operating assets and currently has no operations. The Company has adopted a fiscal year ending September 30.

The Company filed a Form 8-K with the Securities and Exchange Commission requesting a name change for the Company. The Company has changed its name to Netchoice, Inc., effective February 3, 2005.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments and other short-term investments with an initial maturity of three months or less to be cash equivalents.

Income Taxes

The income tax benefit is computed on the pretax loss based on the current tax law. Deferred income taxes are recognized for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end based on enacted tax laws and statutory tax rates. The Company has not established a provision due to the losses sustained.

Earnings (Loss) Per Share of Common Stock

Historical net (loss) per common share is computed using the weighted average number of common shares outstanding. Diluted earnings per share (EPS) include additional dilution from common stock equivalents, such as stock issuable pursuant to the exercise of stock options and warrants. Common stock equivalents were not included in the computation of diluted earnings per share when the Company reported a loss because to do so would be antidilutive for periods presented.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The following is a reconciliation of the computation for basic and diluted EPS:

	For the Nine Months Ended		For the Three Months	
	June 30,		Ended	
	2005	2004	2005	2004
Net Loss	\$ (11,250)	\$ (26,407)	\$ (3,750)	\$ -
Weighted-average common shares outstanding (Basic)	3,785,183	3,785,183	3,785,183	3,785,183
Weighted-average common stock equivalents:

Warrants	-	-	-	-
Weighted-average common shares outstanding (Diluted)	3,785,183	3,785,183	3,785,183	3,785,183

Options and warrants outstanding to purchase stock were not included in the computation of diluted EPS because inclusion would have been antidilutive.

There were no options and warrants outstanding to purchase stock at June 30, 2005 and 2004.

Reclassifications

Certain amounts for the nine and three months ended June 30, 2005 and 2004, respectively have been reclassified to conform to the presentation of the nine and three months ended June 30, 2005 and 2004 amounts. The reclassifications have no effect on net income for the nine and three months ended June 30, 2005 and 2004, respectively.

NOTE 3 - STOCKHOLDERS' EQUITY (DEFICIT)

On December 3, 2004, the Company increased the authorized number of shares of common stock from 30,000,000 shares to 90,000,000 shares and also changing the par value from \$0.01 to \$0.001.

As of December 31, 2004, there were 90,000,000 shares authorized and 6,184,000 shares issued and 3,785,183 shares outstanding of the Company's common stock with a par value of \$0.001.

Preferred Stock

On December 3, 2004 the Company changed the number of Preferred Stock from one class of stock consisting of 10,000,000 shares with a par value of \$0.01 to three separate series of preferred stock and changing the par value to \$0.001. They are as follows:

Preferred Stock Series A

990,000 shares with a par value of \$0.001 per share, participating, voting and convertible with a liquidation value of \$1,000 each.

NOTE 3 - STOCKHOLDERS EQUITY (DEFICIT) (Continued)

Preferred Stock Series B

9,000,000 shares with a par value of \$0.001 per share, participating; voting and convertible with a liquidation value of \$3 each.

Preferred Stock Series C

10,000 shares with a par value of \$0.001 per share, with a liquidation value of \$10 each.

All preferred stock series A, B and C are convertible to 4,000 common shares as well as 4,000 votes for each share held. In addition, in all cases, the holders of the Preferred Stock C will vote cumulatively at least fifty one percent (51%) of all votes cast regardless of the amount of series C shares issued, at any meeting of shareholders or any major issue put before the Company for voting of shareholders.

NOTE 4 - INCOME TAXES

There was no income tax benefit recognized at June 30, 2005 and 2004.

The net deferred tax assets in the accompanying balance sheet include benefit of utilizing net operating losses of approximately \$2,071,000 (at June 30, 2005), however due to the uncertainty of utilizing the net operating losses, an offsetting valuation allowance has been established.

NOTE 5 - COMMITMENT AND CONTINGENCY

Included in the accounts payable and accrued expenses is an accrual of \$3,000 representing the fair market of value of stock to be issued to former directors of the Company.

NOTE 6 - GOING CONCERN

As shown in the accompanying condensed financial statements, the Company incurred substantial net losses for the nine and three months ended June 30, 2005 and 2004 and for the years ended September 30, 2004 and 2003, respectively. There is no guarantee whether the Company will be able to generate enough revenue and/or raise capital to support those operations. This raises substantial doubt about the Company's ability to continue as a going concern. Management believes the Company's capital requirement will depend on many factors, including the success of the Company to raise money. The Company continues to search for acquisition candidates to fund operations. The condensed financial statements do not include any adjustments that might result from the outcome of these uncertainties

Item 2. Management's Discussion and Analysis or Plan of Operation

Forward-Looking Statements

Historical results and trends should not be taken as indicative of future operations. Management's statements contained in this report that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934 (the "Exchange Act"), as amended. Actual results may differ materially from those included in the forward-looking statements. The Company intends such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of complying with those safe-harbor provisions. Forward-looking statements, which are based on certain assumptions and describe future plans, strategies and expectations of the Company, are generally identifiable by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project," "prospects," or similar expressions. The Company's to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on the operations and future prospects of the Company on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Further information concerning the Company and its business, including additional factors that could materially affect the Company's financial results, is included herein and in the Company's other filings with the SEC.

Management's Discussion and Analysis or Plan of Operation

Overview

The Company had no sales, operations or income for the quarter ending June 30, 2005. The Company is in the process of reorganizing at the present moment and there are no plans to operate until the reorganization is completed. Management said it is expected that the reorganization will be completed this year.

The Company was incorporated on May 10, 1998, under the laws of the State of Delaware under the original name Environmental Monitoring & Testing Corporation. The business purpose of the Company was originally to engage in environmental monitoring and testing. However, on December 31, 2001, the Company liquidated its operating assets and currently has no operations. The Company has adopted a fiscal year ending September 30. The Company has changed its corporate name to Netchoice, Inc. effective February 3, 2005

Plan of Operation

We intend to devote substantially all of our time identifying a merger or acquisition candidate and consummating a merger or acquisition transaction thereafter. In the event we identify an acceptable merger or acquisition candidate, we intend to effect the transaction utilizing any combination of our common stock, cash on hand, or marketable securities, or other funding sources available to us. Until we identify a suitable merger or acquisition candidate, we intend to offer consulting services to businesses engaged in or otherwise servicing the environmental industry.

Results of Operations

Revenues were \$0 for the nine months ended June 30, 2005, as compared to \$0 for the nine months ended June 30, 2004.

Operating expenses for the nine months ended March 31, 2005 were \$11,250 compared to \$26,407 for the nine months ended June 30, 2004. This decrease was due to the fact that the Company reduced its professional fees.

Loss from operations for the nine months ended June 30, 2005 was \$11,250 compared to \$26,407 for the nine months ended June 30, 2004.

Interest expense was \$0 and \$0 for the nine months ended June 30, 2005 and 2004, respectively.

Net loss applicable to Common Stock was \$11,250 for the nine months ended June 30, 2005, compared to \$26,407 for the nine months ended June 30, 2004.

Liquidity And Capital Resources

The Company continues to experience losses from operations and is primarily dependent on outside sources of funding to continue its operations.

At June 30, 2005, the Company's cash and cash equivalents on hand were \$0. Management recognizes that the Company has a continuing need to raise capital to fund its daily operations and research and development activities.

Obligations are being met on a month-to-month basis as cash becomes available. There can be no assurances that the Company's present flow of cash will be sufficient to meet current and future obligations. The Company has incurred losses since its inception, and continues to require additional capital to fund operations and development. As such, the Company's ability to pay its already incurred obligations is mostly dependent on the Company achieving its sales goal or raising additional capital in the form of equity or debt.

The Company's short-term and long-term liquidity requirements are expected to result from working capital needs to retire existing trade liabilities and to pay other operating expenses. Although the Company cannot accurately predict the precise timing of its future capital expenditures, the Company estimates that it will need to expend over \$25,000, primarily for general and administrative and operating expenses, within the next twelve months.

Fiscal 2005 Plan of Operation

The company's strategy to satisfy its cash requirements currently include a plan to borrow funds from its director and officer. The Company believes that it can borrow sufficient funds to meet its current cash needs. The Company currently has no plans to conduct any research and development, to purchase or sell any significant equipment or to make any significant changes in its number of employees.

Item 3. Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of June 30, 2005. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Ms. Patricia Wiata. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2005, our disclosure controls and procedures are effective. There have been no significant changes in our internal controls over financial reporting during the quarter ended June 30, 2005 that have materially affected or are reasonably likely to materially affect such controls.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We are not a party to any pending legal proceeding. We are not aware of any pending legal proceeding to which any of our officers, directors, or any beneficial holders of 5% or more of our voting securities are adverse to us or have a material interest adverse to us.
