Item 2.02 Results of Operations and Financial Condition.

On March 15, 2019, Windstream Holdings, Inc. (“Windstream”, the “Company”, “we”, “us”, or “our”) issued a press release announcing the Company’s 2018 fourth quarter and annual consolidated results of operations. The press release presents our unaudited consolidated results of operations measured under generally accepted accounting principles in the United States (“GAAP”) and certain unaudited adjusted results of operations, which are not calculated in accordance with GAAP. A “non-GAAP financial measure” is defined as a numerical measure of a company’s financial performance, financial position or cash flows that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP in a company’s financial statements. The non-GAAP financial measures used by us may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance or liquidity prepared in accordance with GAAP.

Our press release, and other communications from time to time, include a non-GAAP measure titled operating income before depreciation and amortization (“OIBDA”). OIBDA can be calculated directly from the Company’s consolidated financial statements prepared in accordance with GAAP by taking operating income (loss) and adding back goodwill impairment and depreciation and amortization expense. Management considers OIBDA to be useful to investors because OIBDA provides information specific to the Company’s operating performance.

We also present our unaudited consolidated results on an adjusted basis, which when compared to measures prepared in accordance with GAAP, includes the results of operations of EarthLink Holdings Corp. (“EarthLink”) as if the merger with EarthLink had been completed as of January 1, 2017. Operating results of Broadview Networks Holdings, Inc. (“Broadview”), MASS Communications (“MASS”) and American Telephone Company (“ATC”) are included beginning on July 28, 2017, March 27, 2018 and August 31, 2018, respectively, the dates of acquisition. The adjusted results are based upon the combined historical financial information of Windstream and EarthLink for all periods presented. We have made certain reclassifications to the historical financial information of EarthLink to conform to our presentation.

Adjusted results exclude pension costs, share-based compensation expense, goodwill impairment, restructuring charges, merger, integration and certain other costs. In addition, we have presented certain measures of our operating performance that adjusts for the impact of the annual cash rent payment due under the master lease agreement with Uniti Group, Inc. (“Uniti”), formerly Communications Sales & Leasing, Inc. Windstream’s purpose for presenting its unaudited consolidated results on an adjusted basis is to improve the comparability of results of operations between current and prior periods in order to focus on the true earnings capacity of our core business operations and our ability to generate cash flow. We use adjusted results as a key measure of our operational performance. Windstream management, including the chief operating decision-maker, uses adjusted results consistently for all purposes, including internal reporting, the evaluation of business objectives, opportunities and performance, and the determination of management compensation.

Our press release makes reference to adjusted OIBDA, adjusted OIBDAR, adjusted free cash flow and adjusted capital expenditures, which are non-GAAP measures. As noted above, each of these non-GAAP measures include EarthLink’s historical operating results for periods prior to the merger date of February 27, 2017, and are defined as follows:

- Adjusted OIBDA, defined as operating income plus depreciation and amortization expense, excluding the impacts of pension costs, share-based compensation expense, goodwill impairment, restructuring charges, merger, integration and certain other costs and including the annual cash rent payment due under the master lease agreement with Uniti.
- Adjusted OIBDAR, defined as adjusted OIBDA excluding the impact of the annual cash payment due under the master lease agreement with Uniti.

- Adjusted free cash flow, defined as adjusted OIBDA less adjusted capital expenditures, interest paid on long-term debt obligations, and income taxes paid, net of refunds.

- Adjusted capital expenditures, defined as capital expenditures, including amounts for EarthLink for periods prior to the merger date of February 27, 2017, and excludes post-merger integration capital expenditures related to the acquired EarthLink and Broadview operations and amounts related to Project Excel, a capital program funded entirely using a portion of the proceeds from the sale of the data center business completed in December 2015.

Adjusted OIBDA and adjusted OIBDAR are included to provide investors with useful information about our operating performance before the impacts of certain non-cash items and to enhance the comparability of operating results for the periods presented. Adjusted OIBDAR is also used by rating agencies and lenders to evaluate our operating performance and

---

creditworthiness. Management believes that adjusted free cash flow provides investors with useful information about the ability of the Company's core operations to generate cash flow.

A copy of the press release announcing Windstream's 2018 fourth quarter and annual operating results is attached hereto as Exhibit 99(a).
