Report of Independent Auditors

(Translation of a report originally issued in Spanish--See Note 2 (b))

To the President of the Board, Shareholders and Directors of
Compañía de Telecomunicaciones de Chile S.A.:

We have reviewed the consolidated balance sheets of Compañía de Telecomunicaciones de Chile S.A. and Subsidiaries as of September 30, 2007 and 2006, and the related consolidated statements of income and cash flows for the nine-month periods then ended. These interim financial statements and the accompanying notes are the responsibility of the management of Compañía de Telecomunicaciones de Chile S.A. The accompanying Management's Discussion and Analysis of the Consolidated Financial Statements is not an integral part of these financial statements, and therefore this report does not cover this item.

We conducted our reviews in accordance with generally accepted auditing standards in Chile for a review of interim financial information. A review of interim financial information consists principally of applying analytical procedures to the financial statements and making inquiries of persons responsible for financial and accounting matters. The scope of this review is substantially less than an audit conducted in accordance with generally accepted auditing standards in Chile, the objective of which is to express an opinion regarding the consolidated financial statement taken as a whole. Accordingly, we do not have the ability to express, and we do not express such an opinion.

Based on our review of the interim consolidated financial statements as of September 30, 2007 and 2006, we are not aware of any material modifications that are required for them to be in conformity with accounting principles generally accepted in Chile.

(e) Price-level restatement:

The consolidated financial statements have been adjusted by applying price-level restatement standards, in accordance with Chilean GAAP, in order to reflect the changes in the purchasing power of the currency during both exercises. The accumulated variation in the Chilean Customer Price Index (CPI) as of September 30, 2007 and 2006, for initial balances, is 5.1% and 2.5%, respectively.

Notes to the Consolidated Financial Statements

2. Summary of Significant Accounting Policies, continued:

(k) Property, plant and equipment:

Property, plant and equipment are carried at their price-level restated acquisition or construction cost.

Property, plant and equipment acquired up through December 31, 1979 are carried at their appraisal value, as stipulated in Article 140 of D.F.L. No. 4. Some assets subsequently acquired were subject to a technical revaluation of their appraisal value recorded as of September 30, 1986, as authorized in SVS Circular No. 550. All these values have been price-level restated.

(l) Depreciation of property, plant and equipment:

Depreciation has been calculated and recorded on a straight-line basis over the estimated useful lives of the assets. The average annual financial depreciation rate of the Company is approximately 8.20% .

The estimated useful lives are summarized as follows:

Assets	Range of years
Buildings	40
Central telephone equipment	7 to 12
Subscriber equipment	4
External networks	20 to 40
Office furniture and equipment	4 to 10
Software	3
Others	4 to 10

(m) Leased assets:

Leased assets with a purchase option, where the contracts satisfy the characteristics of a financial lease, are recorded in a manner similar to the acquisition of property, plant and equipment, recognizing the full obligation and interest on an accrual basis. These assets are not legally owned by the Company; therefore, until the Company exercises the purchase option, such assets cannot be freely disposed of.

(n) Intangibles:

i) Rights to underwater cable:

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

2. Summary of Significant Accounting Policies, continued:

(ñ) Investments in related companies:

These investments are accounted for under the equity method, which recognizes the investor's share of income on an accrual basis. For investments abroad, the valuation methodology as defined in Technical Bulletin No. 64 is applied. Investments in countries deemed to be unstable and whose activities are not an extension of the operations of the Parent Company are controlled in US dollars.

(o) Goodwill:

This account corresponds to the differences originating from adopting the equity method and adjusting the cost of investments, or from the realization of new acquisitions. Goodwill and negative goodwill amortization periods have been determined taking into consideration aspects such as the nature and characteristics of the business and the estimated period of return on the investment (Note 12).

(p) Transactions with repurchase agreements:

Purchases of financial instruments that include repurchase agreements are recorded as fixed rate instruments and are classified as Other Current Assets (Note 8).

(q) Bonds and promissory notes payable:
