

TELESP CELLULAR HOLDING CO /ADR/
Form 6-K
March 25, 2005

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 6-K

Report of Foreign Private Issuer
Pursuant to Rule 13a-16 or 15d-16 of the
Securities Exchange Act of 1934

For the month of March, 2005

Commission File Number 1-14493

TELESP CELULAR PARTICIPAÇÕES S.A.

(Exact name of registrant as specified in its charter)

Telesp Cellular Holding Company

(Translation of Registrant's name into English)

Av. Roque Petroni Jr., no.1464, 6th floor part, "B"building
04707-000 - São Paulo, SP
Federative Republic of Brazil
(Address of principal executive office)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

MANAGEMENT'S REPORT

The management of **Telesp Celular Participações S.A. - TCP**, a company resulting from the joint venture between Telefónica Móviles S.A. and Portugal Telecom, SGPS, S.A., operating under the brand name VIVO, is submitting Management's Report and the Company's financial statements, together with the independent auditors and audit committee reports for fiscal year ended December 31, 2004, in compliance with the provisions in the law and bylaws.

1. POLITICAL AND ECONOMIC ENVIRONMENT

2004 was marked by the strong growth in Brazil 's economy. Not only did preliminary projections point to an increase in GDP ("Produto Interno Bruto") of around 5%, its best performance since 1994, but there was also rise in the levels of employment, consumption and industrial output. But despite the drop in the inflation rate as compared to the year before, it was higher than the goal targeted by the Brazilian Government, albeit still within the 2.5% margin of error established by National Monetary Council. The Consumer Price Index (IPCA) closed the year at 7.6%, as against the targeted 5.5%. In response to the pressure of inflation, Brazilian Central Bank created a very stringent monetary policy characterized by successive increases in the effective basic interest rate (SELIC) throughout the second half of the year, reverting the downward trend of the first half, to 17.74% at year's end, up 1.42% on the 2003 figure.

Main highlights on the international scenario were the devaluation of the U.S. dollar against the euro and main worldwide currencies, the record increase in oil prices, with a slight end-of-year drop, the reelection of the U.S. president and the onset of the proclaimed escalation of U.S. interest rates.

The U.S. dollar rate fell 8% in relation to the Brazilian real, to R\$2.6544 to US\$1.00, this being the second year this appreciation has occurred. The appreciation of the real against the U.S. dollar was due not only to the dollar devaluation on the international market, but also to the entry of new foreign investments into Brazil , and especially to a record surplus trade balance.

The foreign market continued to rate Brazil positively. Brazil 's risk dropped by almost 20% in the year, to 379 points, the lowest score since October 1997. The C-Bond closed the year at a trading value of 102% of its face value, and Global 40 at 119%.

Taking full advantage of the rekindling of the domestic economy and consolidation of mobile phone operators on the Brazilian market and consequent rising competition, the Brazilian mobile phone market grew by a significant 41.5%, boasting over 65.6 million customers.

THE WORLDWIDE MOBILE TELEPHONY BUSINESS

The world mobile telephony market expanded 18.6% and 20.3%, respectively in 2002 and 2003. Growth in 2004 is expected to be about the same, to the tune of 20%. Following the same trend of the year before, Nigeria , Russia and India are expected to be the markets posting the highest growth rates - 130%, 91% and 69%, respectively.

In 2004, worldwide mobile penetration is expected to reach 33%, up 5% on the 2003 figure. In the third quarter of 2004 worldwide mobile penetration was 32%, which is more than the 23% penetration registered by fixed telephones around the world. In some countries mobile penetration has exceeded 100%, such as in Sweden , Italy and Israel , which have been reported 108%, 106% and 105% mobile penetration, respectively.

THE MOBILE TELEPHONY BUSINESS IN BRAZIL

2004 registered a strong expansion in the Brazilian mobile business triggered principally by the strong competition pressure among operators, which broke down the barriers to new services and toppled service prices. The year closed with a total 65.6 million lines, reporting 41.5% growth in the year.

Expectations point to a slight slowdown in the growth of the mobile business in 2005, due mainly to high mobile penetration and operator concern in stepping up business profitability.

VIVO maintained its leadership position on the Brazilian mobile market, with a 40.5% market share at the end of the year.

Net additions in 2004 totaled 19.2 million, up 67% on net additions registered in 2003. The last quarter of the year reported the highest volume of net additions in the year, totaling 7.4 million new lines, up 35% from the last quarter in 2003.

Due to the mobile industry's strong growth in 2004, mobile penetration reached 36.6%, which is higher than in 2003 by 10%. Consequently, mobile penetration was 14% higher than that registered by fixed telephones in Brazil, of 22% at the end of 2004.

Data services usage also rose in Brazil in 2004. Revenues produced in Brazil from data transmission accounted for 2% of ARPU in the third quarter of 2003, but had reached 4% in the third quarter of 2004. As was the case in developed markets like Europe and some Asian countries, demand for data services is expected to continue to grow significantly during 2005. This growth may be spurred by the diversity of solutions and service applications provided by mobile phone access to data.

REGULATORY ENVIRONMENT

No significant changes occurred in the regulatory environment in 2004 other than the alteration in the negotiating system of the SMP operator network usage value (VU-M), introduced in July 2004.

In addition, in order to enhance competition among companies that exploit telecommunication services and promote the diversification of quality services at reasonable prices to the public, the Brazilian Telecommunications Authority (ANATEL) took steps to fix interconnection rates and the prices of products offered based on the cost model. One of the steps taken by ANATEL in June and July 2004 was to submit proposed changes in the regulations governing interconnections, account separation and allocation and industrial dedicated line exploitation to "public consultation". The deadline for accepting suggestions was October 18, 2004, and the Company sent a broad range of discussions on the proposals submitted by ANATEL.

2. MARKETING STRATEGY

The Company's strategy in 2004 was based on two fundamental principles:

Maintenance of its market leadership.

Growth while striving for profitability with a view to a maximization of EBITDA (earnings before interest, taxes, depreciation and amortization) and its margin.

These principles were translated into a marketing strategy that aimed at:

To maintain VIVO's lead position in product and service quality and coverage, and an ongoing focus on capturing new customers and securing high-value customer loyalty.

To reduce the churn rate (number of disconnected customers from the customer base in relation to the average number of active subscribers) through structured and focused actions especially targeted at the corporate, youth and high-potential customer segments, which are continually being targeted by our competitors.

To introduce innovative products and services nationwide and worldwide in order to leverage its institutional image and cause VIVO to become the best known brand on the domestic mobile telecommunication market.

To implement actions that encourage use of services through publicity and promotional campaigns, particularly those aimed at prepaid card recharging.

To streamline the structure and enhancing the quality of call center and local store customer services.

To exploit its competitive edge in coverage by reinforcing actions such as CDMA technology innovation, with TCO migrating from TDMA to CDMA, and adoption of CDMA 1xRTT in several capital cities and municipalities within its geographical operations area.

PLANS AND CAMPAIGNS

The Company developed a strong customer capturing policy based on aggressive mass-oriented promotions and actions targeting specific business segments. Most promotions sought to lure prepaid and postpaid plan customers through combined efforts that stimulate intranet traffic, data services usage, selective handset price rebates (postpaid plan promotions offering rebates pegged to service plan value) and a choice of favorite numbers at discount rates.

During the course of the year several incentives were created to pitch battle against the competition and increase VIVO's market share, the most relevant among which were "*Seja Vivo Agora*" (Be VIVO Now) and "*Mude pra Vivo*" (Change to VIVO), in which progressive discounts on handsets were offered to competitors postpaid plan subscribers.

Simultaneously with the acquisition campaigns, VIVO worked on price perception of the market in general and also of its customer base. There was a complete repositioning of the plan portfolio in view of new players arriving in its area of operations, which offered tariff discounts and aggressive subsidies as a key sales leverage.

2004 started with a summer promotion entitled "*Seu VIVO Pode Sair de Graça*" (You Could Get Your VIVO for Free), whose underlying concept was a handset that would be free since its cost would be refunded in the form of on-net free-call bonus. In March, the campaign "*Te Considero Pra Caramba*" (I Really Dig You) proposed to create an on-net calling habit by offering a free-call bonus and special rates, and stepped up use of SMS, MMS and voice mail services (with a strong impact on the youth segment).

In May, the promotion "*Dia das Mães VIVO*" (Mother's Day VIVO) was designed to create a customer habit of making daily cell phone calls (daily free-call bonus), including to fixed phones in order to stimulate incoming traffic. The Company also launched a postpaid minute plan, "*Atração Irresistível*" (Irresistible Attraction), also in May, designed to attract and capture the loyalty of high-value customers that had been targeted by the competition throughout the year. In mid-June, the campaign "*Te Quero Muito*" (I Want You So Much) has been initiated in an attempt to encourage intranet calls, in line with the "VIVO Community" concept.

As from July, several promotions offering escalating handset rebates pegged to postpaid minute plans ("*Promoção Sonho de Consumo*" - Consumer Dream Promotion) were launched resulting in the acquisition of high-potential customers. This segment was leveraged as a result of the launching of a new portfolio of postpaid plans. "*VIVO Família*" (VIVO Family), launched in July, allows users to share minute-plan and include family dependents, many of which had previously been prepaid plan subscribers. The purpose of this campaign was to take advantage of opportunities offered by the customer base, foster the community concept and capture high-value customer loyalty.

In the prepaid business, "*VIVO Boa Hora*" (VIVO Good Time) has been initiated in August, a plan which provides better rates in periods in which the customers use the phone more often, and also allows customers to choose a day in the week when they can call at reduced rates and also to select five favorite numbers they can call at reduced rates.

Father's Day was also celebrated with a promotion "*Dia dos Pais*" featuring several draws, including a car and on-net free-call bonuses, as well as the offer of services such as SMS, MMS and voice mail. In September, "*500 Minutos por*

R\$1 " (500 Minutes for R\$1) campaign was launched (every month for one year) mainly targeting postpaid subscribers, to buttress the launching of the "family plan".

In October it was the time to support the launching of the " *VIVO Boa Hora* " and its attributes with a " *5 Amigos* " (5 Mates) campaign (local calls with a 50% abatement). In November a customer acquisition campaign was organized featuring special discounts for service-compatible handsets to urge the use of the service " *Vivo Encontra* " (VIVO Locates). The target publics of this action were A/B classes (young adult and high potential user segments). Also in November VIVO made a special long-distance call offer to postpaid subscribers in partnership with Telefônica. This promotion enabled customers subscribing to postpaid plans or exchanging their handsets for new ones to make VIVO-to-VIVO long-distance calls at local rates for one year.

The last campaign of the year was " *Natal VIVO* " (Christmas VIVO), which worked on price perception and the VIVO Community concept (reduced two-way rate and free-call bonus to be given as gifts to VIVO friends), and encouraged on-net calls (bonus). The Christmas campaign was boosted due to the launching of two other plans, " *VIVO Pós-Turbinado* " (Boosted Post VIVO), a mass market oriented minute plan, and " *VIVO Pós-Top* " (Top Post VIVO), in which handsets were provided at escalating discounts according to the plans elected by high-value customers, with the "additional 500-minutes for R\$1.00" promotion included.

In 2004, VIVO centered its efforts on establishing and enhancing its technological competitive edge by launching innovative services. Its portfolio of personal and corporate solutions has expanded significantly. Two of these programs were exclusive worldwide launchings: the alternative reality game " *VIVO em Ação* " (VIVO in Action) and " *VIVO Agenda* " (VIVO Agenda) service.

VIVO em Ação (VIVO in Action): This was the first multimedia alternative reality game (ARG) to be organized on a worldwide scale and lasted 50 days. Approximately 1.5 million subscribers took part in the game as detectives searching for stolen cell prototypes. To find the clues, subscribers accessed VIVO services such as " *Portal de Voz* ", " *Chat Wap* ", " *Cupido SMS* " and " *Quiz SMS* ", as well as the Internet and e-mails.

VIVO Agenda (VIVO Agenda): Enables customers to save their phone book entries with a VIVO server. Thus, if their handsets are lost, stolen or changed they can retrieve the information. Users can also add, exclude or alter phone book entries via the VIVO site and opt for automatic or manual synchronization. The first allows users to configure phone book synchronization intervals without their interference and the other provides for programmed phone book synchronization. Information inputted to the VIVO Agenda are encrypted so that only owners have access to it.

VIVO Encontra (VIVO Finds): Provides high precision locating services through combined use of GPS satellites and VIVO's CDMA 1x network cell stations. This solution comprises three optional services: **a) VIVO Localiza** (VIVO Locates) - provides the exact location of any user on a map, provided the user authorizes the search. **b) VIVO Aqui Perto** (VIVO Nearby) - enables subscribers to locate commercial establishments such as bars, restaurants and movie theaters that are shown on the map. The search can be made by category, name, address or how near the user is to the desired establishment. **c) VIVO Onde Estou?** (VIVO Where Am I?) - locates the user's own handset, giving the street, number, district and city where the handset is located and a map.

Olho VIVO: Provides real time image viewing from certain user-selected web cams. This was the first time videostreaming was applied in Latin America .

VIVO Zap 3G: A step up from the ZAP service, that provides broadband Internet access. It was initially launched in São Paulo , Rio de Janeiro and Curitiba , where the first network sections having Evolution-Data Optimized - EV-DO technology are located, and provides data transmission at a speed of 2.4 megabits per second in laptops or PDAs.

VIVO Avisá (VIVO Informs): This service provides call identification if their phones were disconnected, as well as number of attempted calls, call dates and times.

Mobile Booking & Check-In: This is a service that enables customers to purchase air tickets and check in for Gol Linhas Aéreas from their cell phones.

CORPORATE SERVICES

The principal new services added in 2004 to the portfolio of applications catering especially to corporate customer needs were the following:

VIVO Direto (VIVO Direct) : A quick connection service over the cell phone that is similar to radio communications, but has the benefit of a wider coverage, better prices and enhanced voice and signal quality.

VIVO Ordens de Serviço (VIVO Service Orders): This is the Company's permanent means of contact with its field team members and of sending, updating and following up on service orders.

VIVO Entregas (VIVO Delivery): Designed to automate ordering, sending, updating and management processes at companies engaged in delivery services. It provides delivery routes and enables the Company to follow up on deliveries, change routes and issue new orders.

VIVO Segurança (VIVO Security): A similar service to Olho VIVO but aimed at providing better corporate security, showing the security video images on cell phones.

VIVO Vendas (VIVO Sales): A service whereby salesmen transmit orders to companies from outside Company premises, as well as consult information on customers, products, inventory, etc., from mobile devices such as PDAs.

VIVO Pesquisa (VIVO Research) : Enables researchers to automate data collection and processing and to follow up on results on line.

3. BUSINESS PERFORMANCE

TCP is the holding company that controls operators Telesp Celular S.A. ("TC") and Global Telecom S.A. ("GT"), and on April 25, 2003 it acquired a majority stake in the voting capital of the holding company Tele Centro Oeste Celular Participações S.A. ("TCO"). All its subsidiaries are authorized to provide Personal Communications Services (SMP). TC operates in the State of São Paulo, GT in the States of Paraná and Santa Catarina and TCO in the Federal District and States of Goiás, Tocantins, Mato Grosso, Mato Grosso do Sul, Acre , Rondônia, Roraima, Amapá, Amazonas, Pará and Maranhão.

TC and GT are wholly-owned subsidiaries of TCP and, on December 31, 2004, TCP owned 50.65% of TCO's share capital, and 86.19% of its voting capital (including treasury shares).

OPERATING PERFORMANCE

At the end of 2004, TCP reported a 32.6% increase in its customer base, totaling 17,631,000 customers, including those of TCO, and a 51.4% market share, thus maintaining its lead position and proving the effectiveness of its strategy, which was to invest in coverage, innovation, service quality with a view to guaranteeing customers' high cost-benefit ratio in a market marked by high competition.

The figures below show TCP's operating performance:

The ARPU (average revenue per user) posted in 2004 of R\$33.4 was lower than that registered in 2003 due to the expansion of the total customer base and increase in prepaid customers to total customer base ratio (MIX), as well as a drop in MOU (average monthly minutes of usage per subscriber) of incoming prepaid customers. Total MOU in 2004 was reported at 88.2.

SAC (subscriber acquisition cost) reached R\$136.2 in 2004, with the increase in relation to 2003 due to stronger competition, customized campaigns targeting postpaid subscribers, and technology migration. It is important to mention that in the fourth quarter of the year, the Company registered an increase in the "entry barrier".

The registered penetration level in the TCP area in 2004 was 39.2%, indicating that there is still potential growth in the market.

INFRASTRUCTURE - NETWORK

Great progress was made in 1xRTT technology coverage in 2004. This technology was made available in 327 municipalities of TCP's operations area, 88 of which in municipalities (25 municipalities are situated within the Greater Metropolitan Region of São Paulo and 63 outside this) located in the State of São Paulo, such as São José dos Campos, Bauru, Sorocaba, Mauá, São José do Rio Preto, etc., enjoyed the benefit of this technology through TC; 13 municipalities in Paraná and Santa Catarina States, such as Londrina, Maringá, Joinville, Blumenau, Florianópolis and others through GT; plus another 226 municipalities within the coverage area of TCO (including NBT) that include Cuiabá, Campo Grande, Manaus, Belém, São Luís, Boa Vista, Macapá, Palmas, Porto Velho, Rio Branco and others.

On December 31, 2004, TCP's mobile phone network, which operates on TDMA, CDMA and 1xRTT digital technology and analog technology, covered 49.9% of the municipalities, or 86.8% of the population in its geographical area. Its network included 102 switch centers, 5,401 cell stations and 149 pieces of other equipment.

DISTRIBUTION NETWORK

On December 31, 2004 TCP owned 209 purchase points, in addition to an efficient network of authorized dealers, both exclusive and nonexclusive, comprised of around 5,441 storefronts that can handle sales of services and handsets.

Its own points of purchase represent 4% of TCP's total capillarity, and its authorized dealers, made up of retailers and wholesalers, account for the remaining 96%. Authorized dealers that work exclusively for TCP make up 65% of the points of purchase.

There are over 109,000 points of purchase where users can recharge prepaid cards. These include operator stores, authorized dealers, lottery shops, sundry physical and virtual card distributors such as small shops, drugstores, newspaper stands, bookstores, bakeries, gas stations, bars and restaurants. Electronic recharging is also made by a number of banks. The advantage in this type of recharging lies in the fact that it is easier and more convenient, with less cost to the Company.

ROAMING

Today, VIVO subscribers have free access to over 100 countries. They retain their own phone numbers and make the borrowed handset an extension of their own cell phones, when necessary.

VIVO extended its roaming agreements with companies that operate in other Brazilian states to provide customers with nationwide coverage.

In the particular case of TC, the launching of " *Vivo no Mundo VIP* " (VIVO in a VIP World) benefited customers that frequently flew to Europe and had to borrow (free of charge) a kit with a mobile phone based on a different technology on every trip. As subscribers to " *Vivo no Mundo VIP* ", these customers were given a kit to keep permanently for their trips to Europe or other countries with mobile operations based exclusively on GSM technology. Also with respect to roaming in Europe , a new agreement was signed with TMN (the operator of the Portugal Telecom Group), whereby the rates charged are lower and simpler than those of the competition.

To provide roaming in the United States, TC entered into a roaming agreement with U.S. operator Verizon Wireless (the world's leading CDMA operator) according to which Telesp Celular offers a new set of rates for U.S. roaming that are far lower and simpler than those of its competitor companies.

Today, any TC subscriber may use his or her own handset in the United States , Canada , Mexico , Porto Rico, Dominican Republic , Chile , Peru Argentina, Uruguay , China and South Korea , an amenity that is made available to them in more than 2,500 cities. Subscribers also have access to over 100 countries in which mobile telephony is based on GSM technology (Global System for Mobile), and although they require a different handset, the phone number continues the same and the GSM handset just becomes an extension of their own cell phones.

INFORMATION SYSTEMS

In 2004, Information Systems area focused on projects aimed at reinforcing information systems, developing products and services for personal and corporate markets, and enhancing infrastructure.

All major applications are either currently being consolidated as in the case of billing, front-office, prepaid, data warehouse , accounting and management, among others, or have already been concluded as in the case of mediation, interconnection and co-billing. We have also finished our new Data Processing Center, where the new systems are installed and where some of the unconsolidated applications migrated to, offering a modern, safe and efficient technological environment.

QUALITY PROGRAM

One of the strategic goals established by the Company was to implement a process management system that would be awarded ISO 9001:2000 certification. The model implemented has the following features:

A process management base that uses the ISO 9001:2000 benchmark with a stress on performance measurement.

Development of a corporate culture that drives for process improvement as a means of increasing customer satisfaction.

Skills upgrading of more than 13% of the employees through courses such as Quality Coordinator, Internal Quality Auditor and Problem Analysis and Solution Method.

Our Quality Policy is in line with our Mission statement, and serves as a guideline for initiatives related to Quality Program, Process and Improvement Management. As put by the CEO, its content is the main focal point for all collaborators: *" To satisfy and capture the loyalty of customers through the quality and innovation of products and services offered by dedicated and skilled professionals. To maintain a leadership position with increasing profitability, while generating shareholder value and driving for an ongoing improvement in processes and results. To strengthen the image of a Company that contributes towards the development of the society "*.

On November 30, 2004, the Company was recommended by Bureau Veritas Quality International - BVQI for ISO 9001:2000 certification, and is certified by Brazilian INMETRO and internationally by UKAS in England for "Planning, Product and Service Development and Mobile Communications Customer Services, involving: Customer Capturing and Service, Revenue Management, Network Implementation, Management and Maintenance, Finance, Budget and Management Control".

Quality management adopted a system whereby it undergoes internal and external quality audits every six months.

In addition, we also managed to retain the quality certification for the collection, consolidation and sending of personal communication services quality indicators (PGMQ SMP) awarded in August 2003 by BVQI . This certificate complies with the requirements for migration to SMP, the basic guidelines of which are found in the Regulations on Personal Communications Service Quality Indicators provided for under the ANATEL Resolution .

4. CUSTOMER SERVICES

Generally, 2004 was marked by increasing competition on the mobile telephony market, which was felt by the customer services department due to the significant increase in the number of calls made to the call centers as a result of intensified promotions and actions designed to capture customer loyalty, retention and profitability. In 2004 the average monthly number of calls made to the TCP customer relations center was 21.8 million.

To meet this growing demand, the Company created new forms of optimizing services. The Voice Answering Unit (URA), which was implemented to provide information on prepaid plan credits and balances, received an average 53.5 million inquiries every month, with a 100% electronic retention rate. The promotional URA was introduced in 2004, having registered 12.2 million calls in December, when demand was very high.

As part of its strategy to standardize VIVO operators' customer relations, 100% of our customer services was outsourced, although we still have full control and manage these service so as to ensure the quality of services provided around 24 hours per day by call centers.

The National VIVO Portal on the Internet, which was created in 2004, received an average 2.9 million visitors a month at the TCP page, lending greater agility and facility to customer relations with VIVO.

In 2004, VIVO's customer services were a mark of distinction because of the prizes this department was awarded: "Best Internet System" and "Best Own and Outsourced Active/Receiving Call Center Operation", by the Brazilian

Telemarketing Association (ABT); "B2B Quality Standard", by B2B magazine; and "Modern Consumer Prize for Customer Service Excellence" by Consumidor Moderno magazine.

To measure its customers' level of satisfaction with VIVO's customer services, the Company hired a specialized company, Indicator GFK, to conduct a broad study on the Company. TCP scored 8.24, which is more than the average 7.98 points registered by the mobile telephony market.

5. ECONOMIC AND FINANCIAL PERFORMANCE

In R\$ million	2004	2003	Var. (%)
Net operating revenue	7,341.0	6,046.4	21.4
Operating costs and expenses	6,026.1	4,991.7	20.7
EBITDA	2,588.9	2,275.4	13.8
Income for current year	(490.3)	(640.2)	(23.4)
Loans and financing	4,963.2	6,279.2	(21.0)
OPERATING REVENUE			

The net operating revenue of TCP increased by 21.4%, totaling R\$7,341.0 million in 2004 against R\$6,046.4 million in 2003, including TCO's income relating to the period from May to December (eight months). For purpose of comparison to 2003, the income relating to the period from January to April (four months) should be included, resulting in R\$6,614.3, thus recording an 11% increase in the operating revenue in 2004.

The net operating revenue from services increased by 22.7%, totaling R\$6,156.6 million in 2004, against R\$5,023.8 in 2003, including TCO's income for the period from May to December (eight months). By adding TCO's income for the period from January to April (four months) to 2003' income, it would total R\$5,539.1 million, representing an 11.3% increase in 2004. Such increase reflects growth in the average customer base and traffic, offering of new data services and "right planning" (profile adequacy plans), and should also take into consideration the change in the customers mix, with increased market share of prepaid customers, as well as the SMP effect as from July 2003.

The net operating revenue from sales of products in 2004 was R\$1,175.4 million, a 14.9% increase in relation to 2003, of R\$1,022.6 million. 2003 revenue includes TCO's transactions for the period from May to December (eight months), which considering the period from January to April (four months) would total R\$1,075.2 million, representing a 9.3%

increase in 2004. Such increase is related to the amount of sales of handsets added by a reduction in the cost of handsets, which was caused by the appreciation in Brazilian real in 2004.

OPERATING COSTS AND EXPENSES

The operating costs increased by 20.7% (therefore, less than the growth in the net operating revenue), totaling R\$6,026.1 million in 2004, against R\$4,991.7 million in 2003, which consolidated TCO's income for the period from May to December (eight months). By adding TCO's income for the period from January to April (four months) to 2003' income, it would total R\$5,394.6 million, representing an 11.7% increase in 2004, which occurred mainly in commercial expenses and in the cost of products sold, respectively due to the intense commercial activity and to the increase in the volume of handsets sold.

EBITDA

The EBITDA was R\$2,588.9 million, 13.8% higher than in 2003, despite the strong commercial activity in the year. The 35.3% margin on the net operating revenue was 2.3% lower than the margin recorded for 2003.

EBITDA is calculated as follows:

	R\$ thousand
Operating income (*)	219,623
Financial income (*)	1,095,426
Depreciation and amortization (**)	1,273,874
	2,588,923

(*) See statement of loss.

(**) See statement of changes in financial position.

LOSS FOR THE CURRENT YEAR

The consolidation of TCO's income for all the months during the fiscal year and the reduction in financial expenses in 2004 were key factors that answered for the 23.4% reduction in the Company's loss, which decreased from R\$640.2 million in 2003 to R\$490.3 million in 2004.

LOANS AND FINANCING

By the end of 2004, the Company's debt was R\$4,963.2 million, of which 56% was denominated in foreign currency and entirely protected by hedge transactions, while in the end of 2003 it recorded R\$6,279.2 million. The reduction in the Company's debt was mainly due to the capital increase effected in December 2004, which, after deduction of the investment made through the TCO's OPA (Public Offering of Shares), in October 2004, made possible the settlement of financial liabilities.

The indebtedness recorded on December 31, 2004 was offset by cash and financial investments (R\$1,180.9 million) and by derivative assets and liabilities (R\$26.9 million in net liabilities), resulting in a net debt of R\$3,809.2 million.

6. INVESTMENTS - CAPEX (CAPITAL EXPENDITURES)

The Company continued with its projects for improvement and expansion of the capacity of services rendered, increase of the CDMA 1xRTT network in substitution for the TDMA network in TCO, evolution and expansion of the covered area of 1xRTT in GT, expansion of own transmission routes, systems centralization and integration (invoicing, collection and CRM, among others), development of new data transmission services and opening and renovation of sales points, recording a total investment of R\$1,395.0 million during the year.

7. CAPITAL MARKET

The São Paulo Stock Exchange index (IBOVESPA) posted 26,196 at the year end. In 2004, the IBOVESPA increased by 17.8%, while the Dow Jones Industrial Average - DJIA increased by 3.2%. The average daily volume of transactions traded at São Paulo Stock Exchange (BOVESPA) in 2004 was R\$1,221.3 million, recording a 49.3% increase in relation to 2003.

TCP shares started being traded at BOVESPA on September 21, 1998, under codes TSPP3 (common shares) and TSPP4 (preferred shares), and at New York Stock Exchange - NYSE on November 16, 1998, under the code TCP (American Depositary Receipts - ADRs).

The market value of the registered common shares and of the registered preferred shares was, respectively, R\$5.00 and R\$7.19 per lot of one thousand shares, at the trading session of December 30, 2004. In 2004, TCP shares recorded a daily average trading volume of R\$245.15 thousand for common shares and R\$23,716.5 thousand for preferred shares at the BOVESPA.

At NYSE, the ADRs were traded at the year end for the price of US\$6.64, recording a total trading volume of 119,052,778 outstanding ADRs. A total of 208.6 million ADRs were traded in 2004, representing an average amount of US\$1,507.3 million and appreciation of 3.3%.

Per thousand shares	2004	2003
Loss (R\$)	(0.3994)	(0.5464)
Equity value (R\$)	2.48	2.90
ADR prices in US\$ (1:2,500 preferred shares)	6.74	6.58
Preferred share prices (R\$)*	7.19	7.57
Common share prices (R\$)*	5.00	5.90

(*) Closing price in the last session of the year at BOVESPA.

The Company's capital stock in December 2004 was R\$4,373,661,469.73, represented by 409,383,864,536 common shares and 762,400,487,973 preferred shares .

CORPORATE RESTRUCTURING

The corporate restructuring involving Tele Centro Oeste Celular Participações S.A. and its controlled companies Telegoiás Celular S.A., Telems Celular S.A., Telemat Celular S.A., Teleacre Celular S.A. and Teleron Celular S.A. was completed on June 30, 2004. Such restructuring allows an advance in the capitalization conditions of TCO and its respective operators, as well as an improvement in the companies' cash flow, as a result of the tax benefit, in the approximate amount of R\$511 million, which was generated by the amortization, in the next five years, of the premium paid by TCP upon the acquisition of TCO. The transaction did not entail any change in the ownership structure of TCO and its operators, except for the fact that the operators became wholly-owned subsidiaries of TCO.

PUBLIC OFFERING OF SHARES

The Voluntary Public Offering of Shares (OPA) for acquisition of preferred shares in TCO by TCP was completed on October 8, 2004. The number of shares offered in the OPA auction exceeded the maximum number to be acquired by TCP (84,252,534,000). Considering this fact, each shareholder who adhered to the OPA received, by reason of the apportionment, for each share being offered, 0.5547 preferred share issued by TCO and acquired by the Company. After the OPA, TCP held 32.76% of all the preferred shares, representing an increase from 28.86% to 50.65% of its interest in the total capital stock of TCO.

CAPITAL INCREASE

On November 9, 2004, TCP announced a capital increase of up to R\$2,053,895,871.47, upon private subscription, with issuance of 410,779,174,294 new shares, of which 143,513,066,618 are common shares and 267,266,107,676 are preferred shares, for the issuance price of R\$5.00 per lot of one thousand shares, for both types of shares of the Company, identical in every aspect to those currently existing.

The capital increase was carried out in three subscription stages, with due regard to the preemptive rights, and ended by an auction of the remaining shares held on January 4, 2004, which was confirmed by the Board of Directors at a meeting held on January 7, 2005, whereby the capital stock was increased to R\$6,427,557,341.20, represented by 1,582,563,526,803 shares, of which 552,896,931,154 are common shares and 1,029,666,595,649 are preferred shares.

OWNERSHIP STRUCTURE AFTER THE CAPITAL INCREASE

8. CORPORATE GOVERNANCE

INVESTOR RELATIONS

TCP has been working with the constant purpose of improving its corporate governance practices, upon promoting a professional management and awarding equal treatment to all its shareholders.

In order to keep the capital market informed about the Company's operations, meetings were conducted along the year 2004 with analysts and investors, as well as several events have been accomplished. Further, TCP keeps information and communication channels available by telephone, e-mail and website (www.vivo.com.br/ri), which was reformulated, containing updated information about the Company's operations.

SARBANES-OXLEY

This law applies to companies that trade securities on the U.S. market. To this effect, the Company has been taking the necessary actions in order to comply with its requirements.

CODE OF ETHICS

Upon adopting the Code of Ethics for Financial Officers, the Company aims at enforcing the compliance with laws, regulations and other applicable rules, on an honest, accurate and ethical basis. Said code applies only to the Vice-President of Finance, Planning and Control, the Chief Financial Officer, the Accounting Officer, the Controller, and/or persons exercising similar duties in the Company (collectively referred to as "Financial Officers").

POLICY FOR DISCLOSURE OF RELEVANT ACT OR FACT AND DISCLOSURE COMMITTEE

The Policy for Disclosure of Relevant Act or Fact was set up by the Board of Directors of TCP in compliance with article 16 of CVM Instruction No. 358, of January 3, 2002.

The ultimate responsibility for the disclosure of relevant information, act or fact is incumbent upon the CEO, the CFO and the Investor Relations Officer, the first two of them being responsible for authorizing the information to be disclosed, while the Investor Relations Officer is responsible for the communication itself of the relevant information, under the terms of the provisions in the Relevant Act or Fact Policy and in CVM Instructions No. 358/02 and No. 369/02.

Said disclosures are reviewed by the Disclosure Committee in support to the CEO and CFO. The Disclosure Committee is responsible for processing the disclosure of information, Relevant Acts and Facts of the Company, ensuring quality disclosure of information, as well as for the implementation of the Disclosure Procedures and Controls.

The Disclosure Committee reports directly to the CEO and to the CFO and comprises one coordinator and ten members (representing the Investor Relations, Controls, Corporate Communication, Accounting, Financial, Mergers and Acquisitions, Communication and Publicity and Compliance Officers, as well as the General Secretary and the Legal Officer), and has the duty of evaluating the need to outsource services (such as auditors, legal counsels and other independent consultants), in order to warrant adequate support to the disclosure process.

AUDIT AND CONTROL COMMITTEE

The Audit and Control Committee is a collegiate body, subordinated to the Board of Directors of the Company, made up of four of its effective members and being governed by the rules set forth in its bylaws, in conformity with the resolutions made by the Board of Directors, and under the terms and limits of the applicable laws and of the articles of incorporation of the Company.

BOARD OF DIRECTORS

The Board of Directors of TCP is made up of eleven members. The directors are elected for three-year terms of office by the General Meeting of Shareholders, which is also empowered to dismiss them. Reelection is permitted.

Meetings of the Board of Directors are regularly held once in every quarter period and specially held whenever necessary. None of its members occupies an executive position and one of its members is an independent director.

STATUTORY AUDIT COUNCIL

The Statutory Audit Council comprises three members elected by the General Meeting of Shareholders for a one-year term of office.

The Statutory Audit Council has a nonpermanent nature, being installed upon request from the shareholders, holds regular meetings once in every quarter period and special meetings whenever called by the chairman of the Board of Directors or by two members of the Statutory Audit Council.

EXECUTIVE OFFICERS' COMMITTEE

The Company has eight Executive Officers, who may or may not be shareholders, all Brazilian residents elected by the Board of Directors, for a three-year term of office, for the positions of Chief Executive Officer, Executive Vice-President of Operations, Executive Vice-President of Finance, Planning and Control, Executive Vice-President of Marketing and Innovation, Vice-President of Technology and Networks, Vice-President of Compliance and Corporate Relations, Vice-President of IT, Product and Services Engineering, and Vice-President of Customers. One same executive officer may hold more than one position, but no executive officer may be a member of the Board of Directors.

9. RESEARCH AND DEVELOPMENT

VIVO has entered into agreements with the CEFET-RS university and with the Federal University of Rio Grande do Sul State (UFRGS). Such agreements allow VIVO laboratories to be created at the university premises, wherein new technology research and development projects are performed, providing support/stimulation to the Company's technological innovation processes. In addition, said agreements make the relationship between VIVO and the Brazilian society closer.

Another agreement was entered into in the end of 2004 with the Research and Development Center (CPqD), for evaluation and studies of new technologies.

10. HUMAN RESOURCES

The Company believes that personal realization is the basis for the development of its strategies and for achieving differentiated results.

As a result of a co-participation process, which involved all the leaderships, the Company managed to conclude the review of its Corporate Guidelines in August 2004.

TALENT ATTRACTION AND RETENTION

Marked by a significant attraction appeal, the Company is holding its 3rd Trainees Program, which allows potential young workers to become acquainted with the main areas of activity of the Company. In order to retain talents, actions have been carried out such as the Coaching Program, which is implemented with a group of executives/key position employees of the organization towards developing organizational and personnel management competences, programs for international training of key workers of the Company made possible by the technical-cultural integration between the two shareholder groups - Portugal Telecom and Telefónica Móviles. The achievement of new performance levels is shared by means of variable compensation and profit-sharing programs, which totaled about R\$50 million in 2004, for all the companies operating under "VIVO" brand, for fiscal year 2003.

PROFESSIONAL QUALIFICATION AND DEVELOPMENT

The highly competitive market and the need to keep leadership have continued to demand efforts and investments from the Company in continuously developing its professionals, with some R\$6.5 million being invested by "VIVO" companies in 2004. This was one of the most significant factors that contributed to the increased competitiveness of "VIVO" companies.

IN-COMPANY ENVIRONMENT

Special attention has been devoted to the organizational environment, as it became evident with the creation of the Endomarketing area, which has the mission of strategically unifying and consolidating internal communication and internal marketing actions. Due to the diversity of workers, the Company focused its efforts on finding a "North" for the communication, based on carefully and specially prepared diagnosis.

Actions towards reinforcing corporate culture are designed to consolidate the Company's image as a large plural community. Internal integration is a key factor for achieving such goal and, therefore, several events have been held involving workers of different hierarchic levels.

Essential for establishing a good internal environment, health and life quality have continued to deserve special attention, since the Company believes that its workers' welfare is a critical factor for the Company's success, for which reason investments are effected with the purpose of making all employees aware of prevention practices. The Company's health management policy was awarded the ADVB 2004 Top RH prize, thus evidencing the effectiveness of said policy with the Company's workers and their families, not only due to the quality of the health plans made available to the workers but also to the assistance based on pro-activity and personal care through preventive actions and campaigns.

Workers are also asked to answer questions in connection with a climate research, which is a powerful communication tool in which they freely voice their opinion about labor relations and in-company environment. The action plan arising out of the research started being gradually applied throughout 2004, as an advance in the purpose of joint work between the top management and the labor staff in the search for excellence and leadership.

LABOR STAFF

The total labor count in the end of 2004 was 4,214, against 4,045 in December 2003, as a result of the strong increase in Marketing and Sales activities, partially offset by a reduction in the labor count of the other areas, which was performed on a criterion basis, in order to avoid quality loss.

The distribution per activity is as follows:

Area of Activity	2004	2003	Var. (%)
Technical and Operations	948	998	(5.0)
Marketing and Sales	1,941	1,540	26.0

Customer Assistance	542	673	(19.5)
Financial and Administrative Support	786	834	(5.8)
TOTAL	4,217	4,045	4.3

Adhesion to the Private Pension Plans represented 54.3% of the total labor count, which means 2,291 workers.

11. SOCIAL RESPONSIBILITY

VIVO Institute is an association made up by VIVO operators. Having succeeded to the projects that were developed through former Telefônica Foundation's Instituto Brasil Digital, VIVO Institute was born in July 2004, with the purpose of being aligned with and extend VIVO's social responsibility work to all the States in which the Company operates.

After VIVO Institute was created, the focus of VIVO's actions in the social area was redefined; as a result, education and environment became priority areas. Today, there are some 50 projects in progress and more than 200 thousand people directly assisted by them.

2004 SUMMARY

Launching of VIVO Institute.

Publication of the first VIVO Corporate Responsibility Report (in a summary version, distributed to all VIVO workers).

About 40 projects have been supported and more than 200 thousand people assisted. Among them, the following are worthy of mention: " *SuperAção Jovem* " (Young Super Action) in partnership with Ayrton Senna Institute (SP, SC, PA, MS and DF); " *Pastoral da Criança* " (Children's Pastoral Program) (MA, PA, GO, RO, AM, TO, MT and MS) ; " *Eco-Vídeo Biblioteca* " (Eco-Video Library) (GO); " *Cooperativa de Mulheres Costureiras de São Bartolomeu* " (Co-operative Society of Sewing Women of São Bartolomeu) (BA); " *Acelera Goiás* " (Speed-up Goiás), " *Acelera Tocantins* " (Speed-up Tocantins) and " *Se Liga Tocantins* " (Wake-up Tocantins), all of them in partnership with Ayrton Senna Institute; " *Banco da Providência* " (Providence Bank) (RJ); " *Projeto Água Viva* " (Live Water Project) (RJ); " *Jovens Talentos* " (Young Talent) (ES); " *Projeto de Esporte na Ilha Criança* " (Sports Program in Children's Island) (SC); and " *Projeto Guri* " (Guri Project) (SP).

Launching of VIVO Voluntary Program, with its action focused on visual deficiency and performance of Vaccination, Clothing, Children's Day and Christmas campaigns.

Support and participation of VIVO Institute in the industry events, among them the 10 th National Forum of Entrepreneurial Citizenship (RJ), Environment Quality Symposium (RS), II Environment Education Exhibition and Workshop (PR), Unesco 2004 Prize (DF), II Companies' Social Responsibility Workshop (MS), and I Social Responsibility Workshop (RJ).

12. PRIZES

The Company was awarded several prizes in 2004, among which the following are worthy of mention:

Top RH 2004 ADVB - VIVO SP won the prize with the case "The Strategic Role Played by Medical Assistance in Building a Healthy and Solidary Company".

ANEFAC 2004 Prize - Telesp Celular S.A. was awarded a prize as one of the best 10 financial statements of Brazil among closely-held companies.

Modern Consumer Prize 2004 - VIVO was awarded a prize for the quality of its customer assistance in the cellular telephone industry.

Top of Marketing ADVB 2004 - VIVO was awarded prizes for four success "cases" ("*São Paulo Fashion Week*", "*VIVO Open Air*", "*Recarga Premiada*" (Rewarded Reload) and "*VIVO ao VIVO*" (Live VIVO)) by ADVB.

Top of Mind 2004 Prize - VIVO is the mostly remembered brand in its branch of activity pursuant to Folha de São Paulo newspaper.

August 2004 Reliable Brands Prize - Vivo was elected the most reliable brand in the cellular phone industry by the readers of Seleções magazine.

13. INDEPENDENT AUDIT

The policy of Telesp Celular Participações S.A. towards its independent auditors as regards respect to the rendering of services not related to external audit is substantiated on principles that protect auditor's independence. Such principles are based on the fact that the auditor should not audit his own work, nor exercise management functions or act as a legal counsel for his customer.

In fiscal year 2004, Telesp Celular Participações S.A. assigned to these auditors other works that were not directly related to the auditing of the financial statements, the amount of which did not exceed 5% of the total fees related to the independent audit services.

The independence of these auditors is ensured to the extent that the referred works were carried out by an independent staff in relation to the group in charge of the external audit works. Decision making about the adopted procedures was established by Company's management.

POLICIES AND PROCEDURES

The Company's and its controlled companies' policies prohibit their independent auditors to be retained for rendering services that entail conflict of interest or loss of objectiveness thereof. Additionally, any relationship between the Company (or its Directors/Officers) and the independent auditors causing loss of independence is forbidden.

14. OUTLOOKS AND FUTURE PLANS

From a macroeconomic viewpoint, it is anticipated that Brazilian economy in 2005 will keep the upward trend of growth started in 2004, stimulated by the increase in employment level and internal demand and by the world economy growth.

As far as cellular telephony is concerned, it is estimated that the growth will, once again, exceed by far the average growth of the economy. A strong competition scenario is expected for 2005, as a consequence of consolidation of the current competitors, continuance of the focus on the data business, aiming at increasing the ARPU, search for synergies and scale economies and customer retention and fidelity campaigns and actions.

Within this context, the Company intends to keep a leadership position on the Brazilian market, stimulating its growth, attempting to provide differentiated services through the constant development of new technologies and integrated solutions and minimize the strong competition effects through excellence of services and leadership in price, coverage area and innovation, in addition to offering high quality services and products designed to meet and exceed our customers' expectations.

15. ACKNOWLEDGMENTS

The management of Telesp Celular Participações S.A. wishes to thank our shareholders, customers, suppliers and financial institutions for their cooperation and faith in us, and the employees, in particular, to whose devotion to the job and efforts we owe the results we have presented above.

Management

INDEPENDENT AUDITORS' REPORT

To the Shareholders and Board of Directors of

Telesp Celular Participações S.A.

São Paulo - SP

1. We have audited the accompanying individual (holding company) and consolidated balance sheets of Telesp Celular Participações S.A. and subsidiaries as of December 31, 2004 and 2003, and the related statements of loss, changes in shareholders' equity (holding company), and changes in financial position for the years then ended, all expressed in Brazilian reais and prepared under the responsibility of Company's management. Our responsibility is to express an opinion on these financial statements.
2. Our audits were conducted in accordance with auditing standards in Brazil and comprised: (a) planning of the work, taking into consideration the significance of the balances, volume of transactions, and the accounting and internal control systems of the Company and its subsidiaries; (b) checking, on a test basis, the evidence and records that support the amounts and accounting information disclosed; and (c) evaluating the significant accounting practices and estimates adopted by Company's management and its subsidiaries, as well as the presentation of the financial statements taken as a whole.
3. In our opinion, the financial statements referred to in paragraph 1 present fairly, in all material respects, the individual and consolidated financial position of Telesp Celular Participações S.A. and its subsidiaries as of December 31, 2004 and 2003, the results of their operations, the changes in shareholders' equity (holding company) and the changes in financial position for the years then ended, in conformity with the accounting practices adopted in Brazil.
4. The additional information for the years ended December 31, 2004 and 2003 in respect to the statements of cash flows are presented to allow additional analyses and are not required as a part of the basic financial statements. We have audited such information according to the auditing procedures mentioned in paragraph 2 and, in our opinion, they are properly presented, in all material respects, with regard to the financial statements taken as a whole.
5. The accompanying financial statements are an adaptation and a translation of the financial statements originally issued in Portuguese and have been prepared into English for the convenience of readers outside Brazil .

TELESP CELULAR PARTICIPAÇÕES S.A.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2004 AND 2003

(Amounts expressed in thousands of Brazilian reais, unless otherwise indicated)

1. OPERATING CONTEXT

Telesp Celular Participações S.A. ("TCP" or "Company") is a publicly-held company whose controlling shareholders, on December 31, 2004, are Brasilcel N.V. (57.26% of the total capital stock) and Portelcom Participações S.A. (7.86% of the total capital stock), which is a wholly-owned subsidiary of Brasilcel N.V.

The controlling shareholders of Brasilcel N.V. are Telefónica Móviles S.A. (50% of the total capital stock), PT Móveis, Serviços de Telecomunicações, SGPS, S.A. (49.999% of the total capital stock) and Portugal Telecom, SGPS, S.A. (0.001% of the total capital stock).

TCP is the controlling shareholder of Telesp Celular S.A. ("TC"), Global Telecom S.A. ("GT") and Tele Centro Oeste Celular Participações S.A. ("TCO"), which provide cellular telecommunication services in the States of São Paulo, Paraná and Santa Catarina and Federal District, respectively, and exercise activities necessary or useful to perform such services, in accordance with the authorizations granted to them.

The authorizations granted to TC, GT and TCO shall be in force up to August 5, 2008, April 8, 2013 and July 24, 2006, respectively, and may be renewed once for a 15-year term by means of the payment of rates of approximately 1% of operators annual revenues.

In addition, TCO is the controlling shareholder of the following operators:

Operator	TCO interest - %	Operation area	Expiration date of authorization
Telegoiás Celular S.A.	100	Góias and Tocantins	10.29.08
Telemat Celular S.A.	100	Mato Grosso	03.30.09
Telems Celular S.A.	100	Mato Grosso do Sul	09.28.09
Teleron Celular S.A.	100	Rondônia	07.21.09
Teleacre Celular S.A.	100	Acre	07.15.09
Norte Brasil Telecom S.A. (NBT)	100	Amazonas, Roraima, Amapá, Pará and Maranhão	11.29.13

As of July 6, 2003, the operators implemented the Carriers Selection Code (CSP) ("Código de Seleção da Prestadora"), by which customers may now choose their carrier for national and international long-distance services, in compliance with the rules of Personal Mobile Service (SMP) ("Serviço Móvel Pessoal"). The subsidiaries no longer

receive revenue from national and international long-distance calls; instead, they receive interconnection fees for the use of their network on these calls.

The subsidiaries' business, including the services they may provide, are ruled by the National Telecommunications Agency (ANATEL) ("Agência Nacional de Telecomunicações"), the telecommunication industry regulator, in accordance with Law No. 9,472, of July 16, 1997, and relevant regulations, decrees, decisions and plans.

Increase in TCO interest

The Tender Offer (OPA) ("Oferta Pública Voluntária") carried out by TCP for acquisition of preferred shares of TCO was completed on October 8, 2004. The total settlement of the Offer represented 32.76% of aggregate preferred shares, by means of the payment of R\$901.5 million. Upon such acquisition, TCP became owner of 90.22% of the voting capital stock of TCO (51.42% of the total capital stock).

2. PRESENTATION OF FINANCIAL STATEMENTS

The financial statements of the holding company and consolidated companies on December 31, 2004 and 2003 have been prepared pursuant to accounting practices established by the Brazilian corporate law, rules applicable to telecommunication service providers and accounting rules and procedures set forth by the Brazilian Securities Commission (CVM) ("Comissão de Valores Mobiliários").

In addition to balances and transactions of the Company, the consolidated financial statements include balances and transactions of TC, GT and TCO and respective subsidiaries and indirectly controlled companies, Telesp Celular International Ltd. and Telesp Celular Overseas. On December 31, 2003, the consolidated income includes transactions of TCO and its subsidiaries for the period from May 2003 to December 2003.

All balances and transactions among the above-mentioned companies have been eliminated in the consolidation.

The financial statements as of December 31, 2003 have been reclassified, as applicable, for comparability.

3. SUMMARY OF PRINCIPAL ACCOUNTING PRACTICES

a) Cash and cash equivalents

Represent the balances existing in cash and banks and financial investments with immediate liquidity, showed at cost, added by earned gains until balance sheet date.

b) Accounts receivable

Billed amounts are appraised at charge value on the date the service is rendered. Unbilled services rendered to customers until balance sheet date and receivables related to handsets and accessories sales are also included.

c) Provision for doubtful accounts

It is constituted for credits which chances of recovery are considered remote.

d) Conversion of transactions in foreign currency

Transactions in foreign currency are recorded using the exchange rate on transaction date and the relevant balances are adjusted until balance sheet date, and the exchange variation is recorded as income. The exchange variation and gains on foreign currency derivative contracts are determined and recorded monthly, irrespective of the settlement term.

e) Inventories

They are represented by cellular handsets and accessories appraised at purchase average cost. A provision has been constituted to adjust the realization amount over costs of those cellular handsets considered obsolete or which amount exceed that usually traded by the subsidiaries within a reasonable period of time.

f) Prepaid expenses

They are showed by the amounts actually disbursed but not yet incurred.

g) Other assets

The subsidies practiced on sales of terminals to accredited agents are deferred and recognized as income as those terminals are enabled.

h) Investments

The permanent corporate interest in subsidiaries is recorded by equity pick-up method. The financial statements of companies indirectly owned located abroad are adjusted by the exchange rate on the date of balance sheet closing. The accounting practices of companies directly and indirectly owned are consistent with those adopted by the holding company.

i) Property, plant and equipment

It is showed by acquisition or construction cost less accrued depreciation, calculated on a straight-line basis, which relevant rates are in accordance with the estimated useful lives of the assets. The net financial expenses on loans to finance construction works in progress are recognized at their respective cost. The expenses incurred for repair and maintenance representing improvement, capacity increase or useful life are capitalized, while others are recorded in the income of the year. The provisions for cost to be incurred for disassembling towers and equipment in leased property, discounted at current value, is capitalized and depreciated over the equipment useful life, which shall not exceed the term of the agreement.

j) Deferred

Preoperating expenses have been recorded at implementation cost of GT, NBT and TCO IP amortized on a straight-line basis over five and ten years (GT and NBT).

The goodwill determined for acquisition, on December 27, 2000, of Ceterp Celular S.A. by TC, which was subsequently merged, is being amortized over ten years.

It was recorded as deferred assets the goodwill concerning own stores, which are amortized over the lease agreement term.

k) Income and social contribution taxes

They are calculated and recorded based on tax rates in force on the date the financial statements are prepared on an accrual basis. Deferred taxes attributable to temporary differences, tax loss and social contribution carryforwards are recorded by subsidiaries TC and TCO as assets assuming their future realization.

l) Loans and financing

They are adjusted by the monetary and/or exchange variation and interest incurred until balance sheet date.

m) FISTEL rate

The amount of FISTEL rate ("Fundo de Fiscalização das Telecomunicações") paid on validation service to new customers, generated monthly over the year, is deferred and amortized over the estimated period of customer loyalty, equal to 24 months.

n) Provision for contingencies

They are determined based on legal counsels and management opinions, as to the probable outcome of pending issues, and are adjusted until balance sheet date at probable loss value, subject to the nature of each contingency.

o) Provision for pension plan

The actuarial liabilities are calculated based on the projected unit credit cost method, and the fund assets are presented at their fair market value. Actuarial gains and losses were recorded immediately in the income for the year (Note 28).

p) Recognition of revenues

Services revenue is recognized as services are rendered, being the billing made monthly. Unbilled revenue between the last billing date and the end of the month is recognized in the month in which the service is actually rendered. The revenues concerning sales of prepaid cellular minutes are deferred and recognized as income as such credits are actually used.

q) Financial income and expenses

They represent interest and monetary and exchange variations resulting from financial investment, loan and financing obtained or granted. Exchange gains and losses in forward, option and swap contracts are included.

r) Derivatives

TCP and its subsidiaries have derivative contracts with the purpose of managing their exposure to interest rate and exchange rates fluctuation regarding their cash flow in foreign currency. Those derivatives are recorded at the exchange rates in force on balance sheet date and the premiums prepaid or received are deferred for amortization over the term of respective contracts. Gains and losses, whether realized or not, calculated exclusively based on agreed conditions, are recorded as financial expense or income.

s) Employees' profit sharing

Provisions are made to recognize expense regarding employees' profit sharing program.

t) Use of estimate

The preparation of the financial statements requires management to make estimates and adopt assumptions at its reasonable discretion that affect the amounts presented as assets and liabilities, as well as revenue, costs and expenses amounts. Actual amounts may differ from those estimated.

u) Loss per thousand shares

It is calculated based on the number of outstanding shares on the balance sheet date.

4. CASH AND CASH EQUIVALENTS

	Holding Company		Consolidated	
	12.31.04	12.31.03	12.31.04	12.31.03
Cash and banks	1,231	564	111,324	94,800
Financial investment	93,191	-	1,069,531	1,064,049
Total	94,422	564	1,180,855	1,158,849

The investments refer, mostly, to fixed rate transactions, indexed at CDI ("Certificado de Depósitos Interbancários", a Brazilian interbank market rate) variation, with immediate liquidity.

5. TRADE ACCOUNTS RECEIVABLE, NET

	Consolidated	
	12.31.04	12.31.03
Unbilled amounts for services rendered	182,690	204,302
Billed amounts	707,609	447,387
Interconnection	389,021	353,272
Goods sold	374,184	343,354
Provision for doubtful accounts	(169,685)	(135,841)
Total	1,483,819	1,212,474

There are no customers who contribute to with more than 10% of accounts receivable, net at December 31, 2004 and 2003, except for amounts receivable from Telecomunicações de São Paulo S.A. - TELESP, which represent approximately 11% and 15% of trade accounts receivable, net at December 31, 2004 and 2003, respectively.

Changes in the provision for doubtful accounts are as follows:

	Consolidated	
	2004	2003
Beginning balance	135,841	120,135
Complementary provision	183,508	85,460
Initial consolidation Tele Centro Oeste Celular Participações S.A.	-	29,597
Write-offs	(149,664)	(99,351)
Ending balance	169,685	135,841

6. INVENTORIES

	Consolidated	
	12.31.04	12.31.03
Cellular handsets	460,674	167,100
Accessories	26,567	19,184
Provision for obsolescence	(30,731)	(28,988)
Total	456,510	157,296

7. DEFERRED AND RECOVERABLE TAXES

	Holding Company		Consolidated	
	12.31.04	12.31.03	12.31.04	12.31.03
Prepaid income and social contribution taxes	188,743	146,759	303,217	229,481
Withholding income tax	101,162	61,021	220,945	116,216
Recoverable ICMS (State VAT)	-	-	245,447	140,536
Recoverable PIS and COFINS and other	39,981	2,003	140,171	2,679
Total recoverable taxes	329,886	209,783	909,780	488,912
ICMS on deferred sales	-	-	21,055	30,635
Deferred income and social contribution taxes	419	419	1,337,281	969,830
Total	330,305	210,202	2,268,116	1,489,377
Current	118,824	2,598	871,281	595,745
Noncurrent	211,481	207,604	1,396,835	893,632

The main components of deferred income and social contribution taxes are as follows:

	Holding Company		Consolidated	
	12.31.04	12.31.03	12.31.04	12.31.03
Merged tax credit (corporate restructuring)	-	-	985,155	642,272
Merged tax credit TCO	-	-	-	21,943
Tax credits:				
Obsolescence	-	-	8,388	8,005
Contingencies	-	-	74,842	59,125
Doubtful accounts	-	-	42,688	31,628
Derivative instruments	-	-	4,602	7,211
Other	-	-	63,069	41,829
Tax loss and social contribution carryforwards	419	419	158,537	157,817
Total deferred taxes	419	419	1,337,281	969,830
Current	-	-	237,924	351,648
Noncurrent	419	419	1,099,357	618,182

Deferred taxes have been recorded based on the assumption of their future realization, as follows:

a) Tax loss carryforwards: principally related to TC, will be offset up to a limit of 30% per year on future taxable income. Based on projections of future results, the subsidiary estimates that its tax loss carryforwards will be fully offset in two years.

b) Merged tax credit: consists of net balance of goodwill and provision to maintain the integrity of shareholders' equity (Note 29); its realization occurs with the amortization of its subsidiaries goodwill, which will occur between five and ten years. Opinions of external consultants used in the corporate restructuring process give grounds to the recovery of the amount within such term.

c) Temporary differences: will be realized upon payment of accruals, effective losses on bad debts or realization of inventories.

Technical studies of feasibility approved by the Company's Board of Directors indicate the full recovery of recognized deferred tax amounts, in accordance with the definition of CVM Instruction No. 371. The estimate schedule for realization of deferred taxes is as follows:

Year	Consolidated
2005	237,924
2006	343,948
2007	210,765
2008	320,636
2009	224,008
Total	1,337,281

The holding company and its subsidiaries GT and TCO IP do not recognize deferred income and social contribution taxes on tax loss and temporary differences, due to the absence of taxable profit projections in the short term.

8. PREPAID EXPENSES

	Holding Company		Consolidated	
	12.31.04	12.31.03	12.31.04	12.31.03
FISTEL rate	-	-	103,422	49,223
Financial charges	2,609	5,001	4,034	7,142

Ending balance	517,148	517,148	25,436		

The goodwill determined in GT acquisition, in the amount of R\$1,077,020, will be amortized over ten years based on the estimated future profitability as of generation of positive results anticipated for 2005.

TC holds interest in Telesp Celular International Ltd. and Telesp Celular Overseas, located abroad, in order to obtain and onlend funds by means of international loans.

On May 31, 2004, the tax benefit resulting from the goodwill paid for acquisition of TCO was transferred to that company and its subsidiaries. Consequently, R\$510,790 (net of loss in interest of R\$271) have been transferred as advance for future capital increase, provided that shares will be issued on behalf of TCP upon realization of such benefit by TCO and its subsidiaries. The remaining goodwill, in the amount of R\$992,060, was recorded as future earnings and will be amortized over five years.

On March 30, 2004, TCP increased its interest in TCO capital stock, using a portion of the advance for future capital increase. The minority interest in such capital increase resulted in a reimbursement to TCP in the amount of R\$1,132.

On October 8, 2004, TCP acquired 32.76% of the preferred shares of TCO in the amount of R\$901,502; as a result, the total interest in TCO increased from 29.30% to 51.42%.

11. PROPERTY, PLANT AND EQUIPMENT, NET

2010	-	24,357
2011	-	14,332
Total	1,293,647	2,066,169

c) Restrictive covenants

GT entered into a loan agreement with "Banco Nacional de Desenvolvimento Econômico e Social - BNDES", whose balance on December 31, 2004 was R\$304,305. On such date, GT reached several economical and financial indexes established in agreement.

TCO entered into a loan agreement with BNDES and Export Development Canada - EDC, whose balances on December 31, 2004 were R\$137,213 and R\$71,158, respectively. On such date, TCO reached several economical and financial indexes established in agreement.

d) Hedge

On December 31, 2004, the Company and its subsidiaries have exchange contracts with notional amounts of US\$1,078,180 thousand, ¥6,879,947 thousand and €25,247 thousand, to cover its obligations and its subsidiaries' obligations against exchange fluctuation. As of December 31, 2004, the Company and its subsidiaries recorded accumulated loss of R\$26,935 (gains of R\$1,002,776 in 2003) on these contracts represented by a balance of R\$393,100 in assets (R\$1,438,311 in 2003), of which R\$7,803 (R\$994,223 in 2003) classified as current and R\$385,297 (R\$444,088 in 2003) as noncurrent and a balance of R\$420,035 (R\$435,535 in 2003) in liabilities, of which R\$266,200 (R\$404,465 in 2003) in current liabilities and R\$153,835 (R\$31,070 in 2003) in long-term liabilities. In addition, the Company have hedge contracts to cover local interest, in the reference amount of R\$1,510 million, on which recorded gains of R\$7,803.

e) Guarantees

TC loans and financing in local currency amount to R\$152,377 represent financing with BNDES and are guaranteed by its accounts receivable.

GT loans and financing in local currency, amounting to R\$304,305, represent financing guaranteed by the pledge on account receivable, of which may be withheld up to 140% of the monthly installment and with guarantee of TC.

TCO guarantees comprise the following:

Banks	Guarantees
BNDES TCO Operators	In the event of default, 15% of receivables and Bank Certificates Deposits (CDB) equivalent to the next installment payable are pledged
BNDES NBT	In case of default, 100% of receivables and CDB's equivalent to the amount of the next installment payable during the first year and two installments payable in the remaining period are pledged
EDC	TCO and other subsidiaries guarantee
Other loans and financing	TCO guarantee

16. OTHER OBLIGATIONS

	Holding Company		Consolidated	
	12.31.04	12.31.03	12.31.04	12.31.03
Prepaid services	-	-	102,159	110,158

Total	20,998	38,396	174,102	169,269
Current	20,998	22,841	134,824	165,536
Noncurrent	-	15,555	39,278	3,733

TC, GT and TCO have loyalty programs in which the calls are transformed into points for future exchange for handsets. Accumulated points are reserved as they are obtained considering redemption historical data, accumulated points and point average cost. Upon return of handsets by customers, the reserve is reduced.

17. PROVISION FOR CONTINGENCIES

The holding company and its subsidiaries have administrative and judicial contingencies including labor, tax and civil claims, which relevant accounting provision was made in relation to claims considered as probable losses.

The components of the provision balance are as follows:

	Holding Company		Consolidated	
	12.31.04	12.31.03	12.31.04	12.31.03
Labor	-	-	17,982	9,600

Total	58,987	51,082	319,730	279,627

Current	58,987	51,082	124,296	126,145
Noncurrent	-	-	195,434	153,482

Changes in the provision for contingencies at year ended on December 31, 2004 are as follows:

	Consolidated	
Beginning balance		279,627
Additional provision, net of reversal		14,322
Monetary variation		30,631
Payments, net of reclassifications		(4,850)
Total		319,730

17.1. Tax claims

17.1.1. Probable loss

a) State VAT (ICMS)

The subsidiary Global Telecom, based on the opinion of its legal counsels, reserved an amount of R\$1,088, concerning ICMS delinquency notices.

b) Social Contribution on Billing (COFINS)

The subsidiary Telesp Celular has been notified (case No. 19515.000.700/2003-97) taking into account the offset of COFINS in January and February 2000 against credits resulting from the surplus of 1/3 of COFINS collected in 1999, after the offset against Social Contribution on Net Income (CSLL). At December 31, 2004, the provision amounted to R\$14,887.

c) National Institute of Social Security (INSS)

The indirect subsidiary NBT, based on the opinion of its legal counsels and tax consultants, recognized a provision in the amount of R\$1,445, on December 31, 2004, for Delinquency Notices issued by INSS, which have been challenged by NBT.

17.1.2. Probable loss

Based on the opinion of its legal counsels and tax consultants, management believes that settlement of the following issues shall not represent a relevant adverse affect on its financial situation and, therefore, it did not recognize any provision in the financial statements as of December 31, 2004.

a) State VAT (ICMS)

The subsidiaries Global Telecom, TCO and the indirect subsidiaries NBT, Teleacre, Telems and Telegoiás received delinquency notices amounting to R\$23,992, which main objects are: (i) ICMS on certain services unrelated to telecommunication services; (ii) ICMS on international calls, originated in Brazil; (iii) lack of proportional reversal of ICMS credit concerning permanent assets used to provide communication services and/or outflow of exempted or nontaxable goods; (iv) ICMS on gratuitous provision of telecommunication services, characterized by credit gifts to be used in prepaid service plan; (v) noninclusion in ICMS tax basis of the fine and delay interest charged to defaulting customers; (vi) alleged noncompliance with accessory obligations; and (vii) others related to goods sold.

b) Employees' Profit Sharing Program (PIS) and Social Contribution on Billing (COFINS)

b.1) Law No. 9,718/98

On November 27, 1998, Law No. 9,718 changed the calculation of PIS and COFINS, as follows: (i) increased COFINS rate from 2% to 3%; (ii) authorized the deduction of up to 1/3 of the amount of COFINS from the amount of the CSLL; and, as well as, (iii) indirectly increased COFINS and PIS payable by subsidiaries, establishing the inclusion of surplus revenue in COFINS and PIS tax basis.

In the opinion of legal counsels, this increase is based on nonconstitutional grounds, considering that: (i) article 195 of the Brazilian Constitution, in force upon publication of Law No. 9,718/98, set forth that PIS and COFINS would only be levied on payroll, billing and profits; (ii) the Federal Government used an inadequate means to increase PIS and COFINS, an ordinary law instead of a complementary law; and (iii) the period of 90 days as of publication to enforce the law failed to be observed.

The holding company and Telesp Celular have been awarded favorable judicial decision at lower court, confirming the injunction authorizing the exclusion of surplus revenue from PIS and COFINS tax basis, as well as collection of COFINS at a rate of 2%.

At the appellate court the mentioned decision has been reversed, thus, the injunction was repealed. Accordingly, the subsidiary Telesp Celular recognized a reserve and made a deposit in court in the amount of R\$9,529, exclusively for the rate increase of February and March 2000.

In connection with the surplus revenue contingency, in spite of being classified as "probable" loss, management recognized a reserve of relevant amounts, equivalent to: Telesp Celular Participações: R\$58,987, of which R\$54,559 refers to COFINS and R\$4,428 to PIS; and Telesp Celular: R\$53,388, of which R\$47,243 refers to COFINS and R\$6,145 to PIS.

TCO petitioned a writ of mandamus challenging the legality of the requirements provided for in Law No. 9,718/98, and, with the purpose of suspending the credit liability, the amounts determined have been recognized and a deposit in court has been made amounting to approximately R\$9,525.

Global Telecom also challenged the change introduced by Law No. 9,718/98, however, taking into account that no injunction has been awarded, it made a deposit in court in the corresponding amounts.

In view of the changes introduced by Laws No. 10,637/02 and No. 10,833/03, the holding company and its direct or indirect subsidiaries now include surplus revenue in PIS and COFINS tax basis.

b.2) Increase in tax basis

The subsidiary Telesp Celular received delinquency notices (cases No. 19515.000701/2003-28 and No. 19515.000699/2003-97) in the amount of R\$2,196 (PIS - R\$391, and COFINS - R\$1,805), due to the increase in PIS and COFINS taxes introduced by Law No. 9,718/98. The mentioned delinquency notices have been challenged by the holding company at administrative level.

c) Tax on Services (ISS)

The indirect subsidiary NBT received a delinquency notice issued by the Municipality of Boa Vista (PR), in which the ISS payment on related services (detailed account, choice of a specific line, line replacement, line transfer, call waiting, conference, call identification, call blocking, contract transfer, temporary transfer - follow-me), for the period from October 2000 to May 2002. The amount of this contingency, at December 31, 2004, is equivalent to R\$543.

The indirect subsidiary Telems received a delinquency notice similar to that of NBT issued by the Municipality of Campo Grande (MS) concerning to the period from May 1998 to March 2001, whose amount, at December 31, 2004, is equivalent to R\$370.

Likewise, the indirect subsidiary Telemat received a delinquency notice in the amount of R\$295.

d) Corporate Income Tax (IRPJ)

The indirect subsidiary Telems received a delinquency notice in the amount of R\$2,529, in which the amount paid to FINOR throughout civil year 1998 was not recognized as utilization of tax payable in tax incentive, but as utilization in own resources and/or voluntary subscription, which, therefore, became liability as for tax income purposes, pursuant to article 4 of Law No. 9,532/97. The legality of such notice has been challenged by Telems.

17.2 Labor and civil

Include several labor and civil claims, for which a reserve has been provided as shown above, in an amount considered to be sufficient to cover probable losses.

In the cases in which the chance of loss is classified as possible, the aggregate amount involved is R\$34,560 for civil claims and R\$32,009 for labor claims, as follows:

	Civil	Labor
Telesp Celular Participações	5	281
Telesp Celular	12,407	22,922
Global Telecom	6,930	3,988
TCO	15,218	4,818
Total	34,560	32,009

18. LEASING

TC and TCO have leasing agreements. The expenses recorded in 2004 were R\$17,678 (R\$30,163 in 2003). The amount to be paid as a result of such agreements adjusted at the exchange rate in force on December 31, 2004 is R\$617 (R\$16,181 in 2003). The balance will be paid in monthly, bimonthly and quarterly installments up to June 2005.

19. SHAREHOLDERS' EQUITY

a) Capital stock

On December 31, 2004 and 2003, the capital stock is composed by shares without par value as follows:

	Lot per thousand shares
Common shares	409,383,864
Preferred shares	762,400,488
Total	1,171,784,352

On November 8, 2004, the Company informed to shareholders the capital increase of up to R\$2,053,895, of which R\$2,000,000 in cash and the portion in the amount of R\$53,895, equivalent to the tax benefit of merged goodwill effectively realized in 2003, to be subscribed by Portelcom Participações S.A.

Until December 31, 2004, shares in the aggregate amount of R\$1,999,941 were subscribed, which are represented as advance for future capital increase until ratification of the process.

On January 7, 2005, the ratification was determined for the capital increase and new 410,775,084,810 shares were issued, of which 143,512,975,688 common shares and 267,266,107,676 preferred shares, at a price of R\$5.00 per thousand shares. At the auction of leftovers new 4,089,484 shares were subscribed and paid up, of which 90,930 common shares, at the price of R\$5.00 per thousand shares, and 3,998,554 preferred shares, at the price of R\$6.95 per thousand shares.

Taking into account that the preferred shares offered in the auction of leftovers were subscribed at a price of R\$6.95 per thousand shares, there was an additional subscription of R\$8. The Company will recognize the difference as goodwill reserve.

Thus, the capital stock, that on December 31, 2004 was R\$4,373,661, now is R\$6,427,556, represented by 552,896,931 common shares and 1,029,666,596 preferred shares without par value.

As a result of the capital increase, Brasicel N.V. and its associated entities now hold an interest of 59.88% in the Company.

b) Dividends

Unless otherwise provided for in articles 9 and 10 of the bylaws, preferred shares has no voting right, being assured to them the priority in capital reimbursement, without premium, right to receive dividend to be paid, equivalent to at least 25% of the net income of the year, calculated pursuant to article 202 of the Corporate Law, with priority to receive nonaccumulative minimum dividends, equivalent to the higher of: (a) 6% per year on the amount resulting from the division of the subscribed capital by the aggregate amount of the Company's shares; or (b) 3% per year on the amount resulting from the division of the shareholders' equity by the aggregate amount of the Company's shares, as well as the right to profit sharing paid in conditions equal to common shares, after being assured to them a dividend equal to the preferred minimum established to preferred shares.

Since the Annual Meeting held on March 27, 2004, the preferred shares have full voting right, taking into account the nonpayment of the minimum dividend to preferred shares during the last three consecutive years, pursuant to article 111, paragraph 1, of Law No. 6,404/76.

c) Special goodwill reserve

This reserve refers to the constitution of a special reserve of goodwill resulting from the corporate restructuring of the Company, which will be capitalized in favor of the holding company, upon effective realization of the tax benefit.

20. NET OPERATING REVENUE

	Consolidated	
	2004	2003
Subscription	242,588	207,427
Usage	3,803,020	3,190,144
Additional call charges	113,320	68,332

Edgar Filing: TELESP CELLULAR HOLDING CO /ADR/ - Form 6-K

Interconnection	3,142,011	2,497,770
Data services	333,930	55,476
Other services	167,388	281,141
Total gross revenue from services	7,802,257	6,300,290
ICMS	(1,170,662)	(887,808)
PIS and COFINS	(280,896)	(225,024)
ISS	(2,416)	(856)
Discounts granted	(182,653)	(162,799)

26. INCOME AND SOCIAL CONTRIBUTION TAXES

The holding company and its subsidiaries estimate and pay monthly the installments of income and social contribution taxes on accrual basis. Deferred taxes are recognized on temporary differences pursuant to Note 7. The composition of the expenses of income and social contribution taxes is the following:

	Consolidated	
	2004	2003
Income tax	(256,503)	(79,947)
Social contribution	(93,572)	(29,946)
Deferred income tax	16,922	(123,574)
Deferred social contribution	6,092	(44,478)
Total	(327,061)	(277,945)

The reconciliation of taxes on income reported and the amounts calculated at the combined statutory rate of 34% are as follows:

	Holding Company		Consolidated	
	2004	2003	2004	2003
Income (loss) before taxes	(173,914)	(415,364)	128,601	(198,669)

Equity pick-up	156,424	46,055	-	-
Other exclusions	-	-	9,339	-
Tax loss and unrecognized temporary differences	(215,406)	(187,265)	(277,627)	(336,604)
Tax expense	-	-	(327,061)	(277,945)

27. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONSOLIDATED)

a) Risk considerations

TCP is the controlling shareholder of TC, GT and TCO and its subsidiaries, which provide mobile telephone services in accordance with the authorizations granted by the Federal Government. The operators are also engaged in the purchase and sale of handsets through their own sales networks and distribution channels, thus fostering their essential activities.

The major market risks to which TCP, TC, GT and TCO are exposed in exercising their activities include:

Credit risk: resulting from any difficulty in collecting telecommunication services provided to customers and revenues from sale of handsets to distribution networks, as well as the risk relating to swap transactions.

Interest rate risk: resulting from debt and premiums on derivative instruments contracted at floating rates and involving the risk of financial expenses as a result of an unfavorable upward trend in interest rates (mainly LIBOR, EURIBOR, TJLP and CDI).

&n
