LHC GROUP, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Organization

LHC Group, Inc. (the “Company”) is a health care provider specializing in the post-acute continuum of care primarily for Medicare beneficiaries. The Company provides home health services, hospice services, community-based services, and facility-based services, the latter primarily through long-term acute care hospitals (“LTACHs”). As of September 30, 2015, the Company, through its wholly-owned and majority-owned subsidiaries, equity joint ventures and controlled affiliates, operated 342 service providers in 28 states within the continental United States.

Unaudited Interim Financial Information

The condensed consolidated balance sheets as of September 30, 2015 and December 31, 2014, and the related condensed consolidated statements of income for the three and nine months ended September 30, 2015 and 2014, condensed consolidated statement of changes in equity for the nine months ended September 30, 2015, condensed consolidated statements of cash flows for the nine months ended September 30, 2015 and 2014 and related notes (collectively, these financial statements and the related notes are referred to herein as the “interim financial information”) have been prepared by the Company. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) have been included. Operating results for the three and nine months ended September 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted from the interim financial information presented. This report should be read in conjunction with the Company’s consolidated financial statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014 as filed with the Securities and Exchange Commission (the “SEC”) on March 11, 2015, which includes information and disclosures not included herein.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenue and expenses during the reporting period. Actual results could differ from those estimates.

Critical Accounting Policies

The Company’s most critical accounting policies relate to the principles of consolidation, revenue recognition and accounts receivable and allowances for uncollectible accounts.

Principles of Consolidation

The interim financial information includes all subsidiaries and entities controlled by the Company. Control is defined by the Company as ownership of a majority of the voting interest of an entity. The interim financial information includes entities in which the Company receives a majority of the entities’ expected residual returns and absorbs a majority of the entities’ expected losses. Third party equity interests in the consolidated joint ventures are reflected as noncontrolling interests in the Company’s interim financial information.

Table of Contents

The following table summarizes the percentage of net service revenue earned by type of ownership or relationship the Company had with the operating entity:

Type of ownership	Three Months Ended		Nine Months Ended			
	September 30,		September 30,			
	2015	2014	2015	2014	2015	2014
Wholly-owned subsidiaries	54.5	% 54.5	% 54.5	% 52.9	% 54.5	% 52.9
Equity joint ventures	43.6	42.9	43.5	44.5		
License leasing arrangements	1.0	1.8	1.1	1.8		
Management services	0.9	0.8	0.9	0.8		
	100.0	% 100.0	% 100.0	% 100.0	% 100.0	% 100.0

All significant intercompany accounts and transactions have been eliminated in the Company's accompanying interim financial information. Business combinations accounted for under the acquisition method have been included in the interim financial information from the respective dates of acquisition.

The following describes the Company's consolidation policy with respect to its various ventures excluding wholly-owned subsidiaries:

Equity Joint Ventures

The members of the Company's equity joint ventures participate in profits and losses in proportion to their equity interests. The Company consolidates these entities as the Company has voting control over the entities.

License Leasing Arrangements

The Company, through wholly-owned subsidiaries, leases home health licenses necessary to operate certain of its home nursing and hospice agencies. The Company owns 100% of the equity of these entities and consolidates them based on such ownership.

Management Services

The Company has various management services agreements under which the Company manages certain operations of agencies and facilities. The Company does not consolidate these agencies or facilities because the Company does not have an ownership interest in, and does not have an obligation to absorb losses of, the entities that own the agencies and facilities or the right to receive the benefits from those entities.

Revenue Recognition

The Company reports net service revenue at the estimated net realizable amount due from Medicare, Medicaid and other commercial or managed care insurance programs for services rendered. The Company assesses the patient's ability to pay for their healthcare services at the time of patient admission based on the Company's verification of the patient's insurance coverage under the Medicare, Medicaid, and other commercial or managed care insurance program. All such payors contribute to the net service revenue of the Company's home health services, hospice services, community-based services, and facility-based services.

The following table sets forth the percentage of net service revenue earned by category of payor for the three and nine months ended September 30, 2015 and 2014:

Payor	Three Months Ended		Nine Months Ended			
	September 30,		September 30,			
	2015	2014	2015	2014	2015	2014
Medicare	74.0	% 75.2	% 74.2	% 76.3	% 74.2	% 76.3
Medicaid	1.5	1.7	1.5	1.4		
Other	24.5	23.1	24.3	22.3		
	100.0	% 100.0	% 100.0	% 100.0	% 100.0	% 100.0

Table of Contents

The following table sets forth the percentage of net service revenue contributed from each reporting segment for the three and nine months ended September 30, 2015 and 2014:

Reporting segment	Three Months Ended		Nine Months Ended	
	September 30,		June 30,	
	2015	2014	2015	2014
Home health services	76.0	% 76.5	% 76.2	% 77.2
Hospice services	9.4	9.1	9.1	9.1
Community-based services	5.2	4.8	5.1	3.4
Facility-based services	9.4	9.6	9.6	10.3
	100.0	% 100.0	% 100.0	% 100.0

Medicare**Home Health Services**

The Company's home nursing Medicare patients are classified into one of 153 home health resource groups prior to receiving services. Based on the patient's home health resource group, the Company is entitled to receive a standard prospective Medicare payment for delivering care over a 60-day period referred to as an episode. The Company recognizes revenue based on the number of days elapsed during an episode of care within the reporting period.

Final payments from Medicare may reflect one of four retroactive adjustments to ensure the adequacy and effectiveness of the total reimbursement: (a) an outlier payment if the patient's care was unusually costly; (b) a low utilization adjustment if the number of visits was fewer than five; (c) a partial payment if the patient transferred to another provider before completing the episode; or (d) a payment adjustment based upon the level of therapy services required. In calculating net service revenue, management estimates the impact of these payment adjustments based on historical experience and records this estimate as the services are rendered using the expected level of services that will be provided.

Hospice Services

The Company is paid by Medicare under a per diem payment system. The Company receives one of four predetermined daily or hourly rates based upon the level of care the Company furnished. The Company records net service revenue from hospice services based on the daily or hourly rate and recognizes revenue as hospice services are provided.

Hospice payments are subject to an inpatient cap and an overall Medicare payment cap. The inpatient cap relates to an individual program receiving more than 20% of its total Medicare reimbursement from inpatient care services and the overall Medicare payment cap relates to individual providers receiving reimbursements in excess of a "cap amount," calculated by multiplying the number of beneficiaries during the period by a statutory amount that is indexed for inflation. The determination for each cap is made annually based on the 12-month period ending on October 31 of each year. The Company monitors its limits on a provider-by-provider basis and records an estimate of its liability for reimbursements received in excess of the cap amount. Beginning with the cap year October 1, 2014, CMS implemented a new process requiring hospice providers to self-report their cap liabilities and remit applicable payment by March 31 of the following year.

Facility-Based Services

The Company is reimbursed by Medicare for services provided under the LTACH prospective payment system. Each patient is assigned a long-term care diagnosis-related group. The Company is paid a predetermined fixed amount intended to reflect the average cost of treating a Medicare patient classified in that particular long-term care diagnosis-related group. For selected patients, the amount may be further adjusted based on length of stay and facility-specific costs, as well as in instances where a patient is discharged and subsequently re-admitted, among other factors. The Company calculates the adjustment based on a historical average of these types of adjustments for claims paid. Similar to other Medicare prospective payment systems, the rate is also adjusted for geographic wage differences. Revenue is recognized for the Company's LTACHs as services are provided.

Table of Contents

Medicaid, Managed Care and Other Payors

The Company's Medicaid reimbursement is based on a predetermined fee schedule applied to each service provided. Therefore, revenue is recognized for Medicaid services as services are provided based on this fee schedule. The Company's managed care and other payors reimburse the Company based upon a predetermined fee schedule or an episodic basis, depending on the terms of the applicable contract. Accordingly, the Company recognizes revenue from managed care and other payors in the same manner as the Company recognizes revenue from Medicare or Medicaid.

Accounts Receivable and Allowances for Uncollectible Accounts

The Company reports accounts receivable net of estimated allowances for uncollectible accounts and adjustments. Accounts receivable are uncollateralized and primarily consist of amounts due from Medicare, other third-party payors and patients. To provide for accounts receivable that could become uncollectible in the future, the Company establishes an allowance for uncollectible accounts to reduce the carrying amount of such receivables to their estimated net realizable value. The credit risk for other concentrations of receivables is limited due to the significance of Medicare as the primary payor. The Company believes the credit risk associated with its Medicare accounts, which have historically exceeded 55% of its patient accounts receivable, is limited due to (i) the historical collection rate from Medicare and (ii) the fact that Medicare is a U.S. government payor. The Company does not believe that there are any other concentrations of receivables from any particular payor that would subject it to any significant credit risk in the collection of accounts receivable.

The provision for bad debts is based upon the Company's assessment of historical and expected net collections, business and economic conditions and trends in government reimbursement. Uncollectible accounts are written off when the Company has determined the account will not be collected.

A portion of the estimated Medicare prospective payment system reimbursement from each submitted home nursing episode is received in the form of a request for anticipated payment ("RAP"). The Company submits a RAP for 60% of the estimated reimbursement for the initial episode at the start of care. The full amount of the episode is billed after the episode has been completed. The RAP received for that particular episode is deducted from the final payment. If a final bill is not submitted within the greater of 120 days from the start of the episode, or 60 days from the date the RAP was paid, any RAP received for that episode will be recouped by Medicare from any other Medicare claims in process for that particular provider. The RAP and final claim must then be resubmitted. For subsequent episodes of care contiguous with the first episode for a particular patient, the Company submits a RAP for 50% instead of 60% of the estimated reimbursement.

The Company's services to the Medicare population are paid at prospectively set amounts that can be determined at the time services are rendered. The Company's Medicaid reimbursement is based on a predetermined fee schedule applied to each individual service it provides. The Company's managed care contracts and contracts with other payors provide for payments based upon a predetermined fee schedule or an episodic basis, depending on the terms of the applicable contract. Because of its payor mix, the Company is able to calculate its actual amount due at the patient level and adjust the gross charges down to the actual amount at the time of billing. This negates the need to record an estimated contractual allowance when reporting net service revenue for each reporting period.

Other Significant Accounting Policies

Earnings per Share

Basic per share information is computed by dividing the relevant amounts from the condensed consolidated statements of income by the weighted-average number of shares outstanding during the period, under the treasury stock method. Diluted per share information is also computed using the treasury stock method, by dividing the relevant amounts from the condensed consolidated statements of income by the weighted-average number of shares outstanding plus potentially dilutive shares.

Table of Contents

The following table sets forth shares used in the computation of basic and diluted per share information:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Weighted average number of shares outstanding for basic per share calculation	17,436,731	17,260,078	17,389,934	17,213,648
Effect of dilutive potential shares:				
Options	2,227	4,367	4,070	4,151
Nonvested stock	171,995	92,471	132,683	71,755
Adjusted weighted average shares for diluted per share calculation	17,610,953	17,356,916	17,526,687	17,289,554
Anti-dilutive shares	8,000	3,500	182,185	173,360

Recently Issued Accounting Pronouncements

On May 28, 2014, the FASB issued ASU No. 2014-9, Revenue from Contracts with Customers, ("ASU 2014-9") which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-9 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company on January 1, 2018. Early adoption is permitted to the original effective date of January 1, 2017. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-9 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

3. Acquisitions and Disposals

The Company acquired the majority-ownership of four home health agencies, one hospice agency, and one community-based services agency during the nine months ended September 30, 2015. The total aggregate purchase prices for the Company's acquisitions were \$4.2 million, of which \$3.9 million was paid in cash. The purchase prices are determined based on the Company's analysis of comparable acquisitions and the target market's potential future cash flows.

Acquired intangible assets consist of a Certificate of Need, Medicare licenses, Medicaid licenses, non-compete agreements, and trade names. The fair value of the acquired intangible assets was \$2.0 million, which are preliminary pending the final valuation of those assets.

The Company's home health services segment, hospice services segment, and community-based services segment recognized goodwill of \$0.6 million, \$1.4 million, and \$0.2 million, respectively. Goodwill generated from the acquisitions was recognized based on the expected contribution of the acquisitions to the overall corporate strategy. The Company expects its portion of goodwill to be fully tax deductible. The acquisitions were accounted for under the acquisition method of accounting, and, accordingly, the accompanying interim financial information includes the results of operations of the acquired entities from the dates of acquisition.

Table of Contents

4. Goodwill and Intangibles

The changes in recorded goodwill by reporting unit for the nine months ended September 30, 2015 were as follows (amounts in thousands):

	Home health reporting unit	Hospice reporting unit	Community-based reporting unit	Facility-based reporting unit	Total
Balance as of December 31, 2014	\$ 196,296	\$ 14,793	\$ 17,339	\$ 11,591	\$ 240,019
Goodwill from acquisitions	560	1,426	204	—	2,190
Goodwill related to noncontrolling interests	14	—	22	—	36
Goodwill related to disposal	(156)	—	(27)	—	(183)
Balance as of September 30, 2015	\$ 196,714	\$ 16,219	\$ 17,538	\$ 11,591	\$ 242,062

Intangible assets consisted of the following as of September 30, 2015 and December 31, 2014 (amounts in thousands):

	September 30, 2015			
	Remaining useful life	Gross carrying amount	Accumulated amortization	Net carrying amount
Indefinite-lived assets:				
Trade names	Indefinite	\$ 55,243	\$—	\$ 55,243
Certificates of need/licenses	Indefinite	20,349	—	20,349
Indefinite-lived balance at end of period		\$ 75,592	\$—	\$ 75,592
Definite-lived assets:				
Trade names	2 years — 5 years	\$ 8,645	\$(4,002)	\$ 4,643
Non-compete agreements	7 months — 3 years	4,458	(3,962)	496

Balance as of September 30, 2015		\$ 88,695	\$(7,964)	\$ 80,731
December 31, 2014				
	Remaining useful life	Gross carrying amount	Accumulated amortization	Net carrying amount
Indefinite-lived assets:				
Trade names	Indefinite	\$ 54,732	\$—	\$ 54,732
Certificates of need/licenses	Indefinite	19,058	—	19,058
Indefinite-lived balance at end of period		\$ 73,790	\$—	\$ 73,790
Definite-lived assets:				
Trade names	2 months — 5 years	\$ 8,230	\$(2,797)	\$ 5,433
Non-compete agreements	3 months — 2 years	4,225	(3,763)	462
Definite-lived balance at end of period		\$ 12,455	\$(6,560)	\$ 5,895
Balance as of December 31, 2014		\$ 86,245	\$(6,560)	\$ 79,685

Table of Contents

Intangible assets of \$66.9 million, net of accumulated amortization, were related to the home health services segment, \$5.6 million were related to the hospice services segment, \$7.3 million were related to the community-based services segment and \$0.9 million were related to the facility-based services segment as of September 30, 2015.

5. Debt

Credit Facility

On June 18, 2014, the Company entered into a Credit Agreement (the "Credit Agreement") with Capital One, National Association, which provides a senior, secured revolving line of credit commitment with a maximum principal borrowing limit of \$225.0 million and a letter of credit sub-limit equal to \$15.0 million. The Credit Agreement replaces the Third Amended and Restated Credit Agreement with Capital One, National Association, dated August 31, 2012. The expiration date of the Credit Agreement is June 18, 2019. Revolving loans under the Credit Agreement bear interest at either a (1) Base Rate, which is defined as a fluctuating rate per annum equal to the highest of (a) the Federal Funds Rate in effect on such day plus 0.5% (b) the Prime Rate in effect on such day and (c) the Eurodollar Rate for a one month interest period on such day plus 1.0%, plus a margin ranging from 0.75% to 1.5% per annum or (2) Eurodollar rate plus a margin ranging from 1.75% to 2.5% per annum. Swing line loans bear interest at the Base Rate. The Company is limited to 15 Eurodollar borrowings outstanding at the same time. The Company is required to pay a commitment fee for the unused commitments at rates ranging from 0.225% to 0.375% per annum depending upon the Company's consolidated Leverage Ratio, as defined in the Credit Agreement. The Base Rate at September 30, 2015 was 4.00% and the Eurodollar rate was 1.95%. As of September 30, 2015, the interest rate on outstanding borrowings was 3.40%.

As of September 30, 2015 and December 31, 2014, respectively, the Company had \$92.0 million and \$60.0 million drawn and letters of credit totaling \$7.1 million outstanding under its credit facilities with Capital One, National Association.

As of September 30, 2015, the Company had \$125.9 million available for borrowing under the Credit Agreement with Capital One, National Association.

6. Income Taxes

As of September 30, 2015, an unrecognized tax benefit of \$3.4 million was recorded in income tax payable, which, if recognized, would decrease the Company's effective tax rate. All of the Company's unrecognized tax benefit is due to the settlement with the United States of America, which was announced September 30, 2011. On July 30, 2014, the Internal Revenue Service ("IRS") issued a notice of proposed adjustment asserting that a portion of the original tax deduction claimed by the Company associated with the settlement with the United States of America should be disallowed. The Company is currently appealing this proposed adjustment with IRS Appeals. The Company intends to vigorously defend its original position of the deductibility of the full settlement amount on its 2011 tax return.

7. Stockholder's Equity

Equity Based Awards

The 2010 Long Term Incentive Plan (the "2010 Incentive Plan") is administered by the Compensation Committee of the Company's Board of Directors. A total of 1,500,000 shares of the Company's common stock are reserved and 491,037 shares are currently available for issuance pursuant to awards granted under the 2010 Incentive Plan. A variety of discretionary awards for employees, officers, directors and consultants are authorized under the 2010 Incentive Plan, including incentive or non-qualified statutory stock options and nonvested stock. All awards must be evidenced by a written award certificate which will include the provisions specified by the Compensation Committee of the Board of Directors. The Compensation Committee determines the exercise price for non-statutory stock options. The exercise price for any option cannot be less than the fair market value of the Company's common stock as of the date of grant.

Share Based Compensation

Nonvested Stock

During the nine months ended September 30, 2015, the Company's independent directors were granted 16,200 nonvested shares of common stock under the 2005 Director Compensation Plan. The shares were drawn from the 1,500,000 shares of

Table of Contents

common stock reserved for issuance under the 2010 Incentive Plan. The shares vest 100% on the one year anniversary date. During the nine months ended September 30, 2015, employees were granted 182,865 nonvested shares of common stock pursuant to the 2010 Incentive Plan. The shares vest over a five year period, conditioned on continued employment. The fair value of nonvested shares of common stock is determined based on the closing trading price of the Company's common stock on the grant date. The weighted average grant date fair value of nonvested shares of common stock granted during the nine months ended September 30, 2015 was \$34.06.

The following table represents the nonvested stock activity for the nine months ended September 30, 2015:

	Number of shares	Weighted average grant date fair value
Nonvested shares outstanding as of December 31, 2014	524,287	\$ 22.56
Granted	199,065	\$ 34.06
Vested	(176,195)	\$ 23.23
Forfeited	(15,880)	\$ 22.44
Nonvested shares outstanding as of September 30, 2015	531,277	\$ 26.65

During the nine months ended September 30, 2015, an independent director of the Company received a share based award, which will be settled in cash at March 1, 2016. The amount of such cash payment will equal the fair market value of 1,800 shares on the settlement date.

As of September 30, 2015, there was \$10.5 million of total unrecognized compensation cost related to nonvested shares of common stock granted. That cost is expected to be recognized over the weighted average period of 3.12 years. The total fair value of shares of common stock vested during the nine months ended September 30, 2015 and 2014 was \$4.1 million and \$3.9 million, respectively. The Company records compensation expense related to nonvested stock awards at the grant date for shares of common stock that are awarded fully vested, and over the vesting term on a straight line basis for shares of common stock that vest over time. The Company recorded \$3.2 million and \$3.1 million of compensation expense related to nonvested stock grants in the nine months ended September 30, 2015 and 2014, respectively.

Employee Stock Purchase Plan

In 2006, the Company adopted the Employee Stock Purchase Plan whereby eligible employees may purchase the Company's common stock at 95% of the market price on the last day of the calendar quarter. There were 250,000 shares of common stock initially reserved for the plan. In 2013, the Company adopted the Amended and Restated Employee Stock Purchase Plan, which reserved an additional 250,000 shares of common stock to the plan.

The table below details the shares of common stock issued during 2015:

	Number of shares	Per share price
Shares available as of December 31, 2014	236,483	
Shares issued during three months ended March 31, 2015	7,068	\$29.62
Shares issued during three months ended June 30, 2015	5,702	\$31.38
Shares issued during three months ended September 30, 2015	4,953	\$36.34
Shares available as of September 30, 2015	218,760	

Stock Options

During the nine months ended September 30, 2015, 9,500 options were exercised at a weighted average exercise price of \$15.21. No options were granted or forfeited. As of September 30, 2015, 5,500 options are outstanding with an exercise price of \$19.75. These options expire on June 14, 2016.

Table of Contents

Treasury Stock

In conjunction with the vesting of the nonvested shares of common stock, recipients incur personal income tax obligations. The Company allows the recipients to turn in shares of common stock to satisfy minimum tax obligations. During the nine months ended September 30, 2015, the Company redeemed 41,550 shares of common stock valued at \$1.4 million, related to these tax obligations.

8. Commitments and Contingencies

Contingencies

The Company is involved in various legal proceedings arising in the ordinary course of business. Although the results of litigation cannot be predicted with certainty, management believes the outcome of pending litigation will not have a material adverse effect, after considering the effect of the Company's insurance coverage, on the Company's interim financial information.

On June 13, 2012, a putative shareholder securities class action was filed against the Company and its Chairman and Chief Executive Officer in the United States District Court for the Western District of Louisiana, styled *City of Omaha Police & Fire Retirement System v. LHC Group, Inc., et al.*, Case No. 6:12-cv-1609-JTT-CMH. The action was filed on behalf of LHC shareholders who purchased shares of the Company's common stock between July 30, 2008 and October 26, 2011, alleging violations of Sections 10(b), 20(a) and 20A of the Securities Exchange Act of 1934, as amended. On June 16, 2014, following mediation, the parties entered into a Stipulation of Settlement. On August 5, 2014, the District Court entered an Order Preliminarily Approving Settlement and Providing for Notice. On March 3, 2015, the District Court entered its Judgments adopting the Report and Recommendation previously issued and dismissing the action with prejudice. The time for appeal has passed and no appeals were filed. This matter is now concluded. The Company's insurance carrier has funded the entire \$7.9 million settlement amount.

On October 18, 2013, a derivative complaint was filed by a purported Company shareholder against certain of the Company's current and former executive officers, employees and members of its Board of Directors in the United States District Court for the Western District of Louisiana, styled *Plummer v. Myers, et al.*, Case No. 6:13-cv-2899-JTT-CMH. The action was brought derivatively on behalf of the Company, which is also named as a nominal defendant. Plaintiff generally alleges that the individual defendants breached their fiduciary duties owed to the Company. The complaint also alleges claims for insider selling and unjust enrichment against the Company's Chairman and Chief Executive Officer and the Company's former President and Chief Operating Officer.

On December 30, 2013, a related derivative complaint was filed by a purported Company shareholder against certain of the Company's current and former executive officers, employees and members of its Board of Directors in the United States District Court of the Western District of Louisiana, styled *McCormack v. Myers, et al.*, Case No. 6:13-cv-3301-JTT-CMH. The action was brought derivatively on the Company's behalf and the Company was also named as a nominal defendant. Plaintiff generally alleges that the individual defendants breached their fiduciary duties owed to the Company and wasted corporate assets. Plaintiff also alleges that the Company's Chairman and Chief Executive Officer caused false and misleading statements to be issued in violation of Section 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder and that the Company's Directors are control persons under Section 20(a) of the Exchange Act. The complaint also alleges claims for insider selling, misappropriation of information and unjust enrichment against the Company's Chairman and Chief Executive Officer and the Company's former President and Chief Operating Officer.

The Company believes the claims made in the *Plummer* and *McCormack* cases are without merit.

On March 25, 2014, the *McCormack* derivative action was consolidated with the *Plummer* derivative action described above and stayed. On October 7, 2015, the parties entered into a Stipulation of Settlement. On October 19, 2015, Plaintiffs filed an Unopposed Motion for Preliminary Approval of Proposed Derivative Settlement. On October 26, 2015, the District Court entered an Order Preliminarily Approving Settlement in the amount of \$0.6 million, and set a final fairness hearing for January 20, 2016. If the settlement is approved by the District Court, the Company's insurance carrier will fund the settlement amount. The Company's balance sheet reflects the entire settlement in current assets as a receivable due from insurance carrier and correspondingly reflects the entire settlement in current liabilities as a legal settlement payable.

Except as discussed above, the Company is not aware of any pending or threatened investigations involving allegations of potential wrongdoing.

15

Table of Contents

Any negative findings in the above described lawsuits could result in substantial financial penalties or awards against the Company. At this time, the Company cannot predict the ultimate outcome of these matters or the potential range of damages, if any.

Joint Venture Buy/Sell Provisions

Most of the Company's joint ventures include a buy/sell option that grants to the Company and its joint venture partners the right to require the other joint venture party to either purchase all of the exercising member's membership interests or sell to the exercising member all of the non-exercising member's membership interest, at the non-exercising member's option, within 30 days of the receipt of notice of the exercise of the buy/sell option. In some instances, the purchase price is based on a multiple of the historical or future earnings before income taxes and depreciation and amortization of the equity joint venture at the time the buy/sell option is exercised. In other instances, the buy/sell purchase price will be negotiated by the partners and subject to a fair market valuation process. The Company has not received notice from any joint venture partners of their intent to exercise the terms of the buy/sell agreement nor has the Company notified any joint venture partners of its intent to exercise the terms of the buy/sell agreement.

Compliance

The laws and regulations governing the Company's operations, along with the terms of participation in various government programs, regulate how the Company does business, the services offered and its interactions with patients and the public. These laws and regulations, and their interpretations, are subject to frequent change. Changes in existing laws or regulations, or their interpretations, or the enactment of new laws or regulations could materially and adversely affect the Company's operations and financial condition.

The Company is subject to various routine and non-routine governmental reviews, audits and investigations. In recent years, federal and state civil and criminal enforcement agencies have heightened and coordinated their oversight efforts related to the health care industry, including referral practices, cost reporting, billing practices, joint ventures and other financial relationships among health care providers. Violation of the laws governing the Company's operations, or changes in the interpretation of those laws, could result in the imposition of fines, civil or criminal penalties, and/or termination of the Company's rights to participate in federal and state-sponsored programs and suspension or revocation of the Company's licenses. The Company believes that it is in material compliance with all applicable laws and regulations.

9. Noncontrolling Interest**Noncontrolling Interest-Redeemable**

A majority of the Company's equity joint venture agreements include a provision that requires the Company to purchase the noncontrolling partner's interest upon the occurrence of certain triggering events, such as death or bankruptcy of the partner or the partner's exclusion from the Medicare or Medicaid programs. These triggering events and the related repurchase provisions are specific to each individual equity joint venture; if the repurchase provision is triggered in any one equity joint venture, the remaining equity joint ventures would not be impacted. Upon the occurrence of a triggering event, the Company would be required to purchase the noncontrolling partner's interest at either the fair value or the book value at the time of purchase, as stated in the applicable joint venture agreement. Historically, no triggering event has occurred, and the Company believes the likelihood of a triggering event occurring is remote. The Company has never been required to purchase the noncontrolling interest of any of its equity joint venture partners. According to authoritative guidance, redeemable noncontrolling interests must be reported outside of permanent equity on the consolidated balance sheet in instances where there is a repurchase provision with a triggering event that is outside the control of the Company.

The following table summarizes the activity of noncontrolling interest-redeemable for the nine months ended September 30, 2015 (amounts in thousands):

Balance as of December 31, 2014	\$11,517
Net income attributable to noncontrolling interest-redeemable	5,566
Noncontrolling interest-redeemable distributions	(5,193)
Balance as of September 30, 2015	\$11,890

Table of Contents

10. Allowance for Uncollectible Accounts

The following table summarizes the activity in the allowance for uncollectible accounts for the nine months ended September 30, 2015 (amounts in thousands):

Balance as of December 31, 2014	\$18,582
Additions	14,873
Deductions	(7,524)
Balance as of September 30, 2015	\$25,931

11. Fair Value of Financial Instruments

The carrying amounts of the Company's cash, receivables, accounts payable and accrued liabilities approximate their fair values. The estimated fair value of intangible assets acquired was calculated using level 3 inputs based on the present value of anticipated future benefits. For the nine months ended September 30, 2015, the carrying value of the Company's long-term debt approximates fair value as the interest rates approximates current rates.

12. Segment Information

The Company's reportable segments consist of home health services, hospice services, community-based services, and facility-based services. The accounting policies of the segments are the same as those described in the summary of significant accounting policies.

During the first quarter of 2015, the Company had a change in the composition of segments due to the community-based services meeting the criteria of qualitative thresholds established by ASC 280, Segment Reporting. Prior-period segment data has been restated to reflect the newly reportable segment. Community-based services were previously included in home-based services.

The following tables summarize the Company's segment information for the three and nine months ended September 30, 2015 and 2014 (amounts in thousands):

	Three Months Ended September 30, 2015				Total
	Home health services	Hospice services	Community-based services	Facility-based services

During the nine months ended September 30, 2015, the Company's internal allocation methodology for recording income tax expense was changed to record each segment's respective tax expense on pretax net income at the Company's effective tax rate of 41.0%. Prior to this year, income tax expense was allocated to each segment based on their respective percentage of equity. There is no impact on the Company's consolidated income tax expense.

13. Subsequent Event

On October 1, 2015, the Company closed on the acquisition of Halcyon Hospice, LLC and its operating subsidiaries, resulting in the purchase of 16 hospice agencies across three states for \$58.5 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY NOTICE REGARDING FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis of Financial Condition and Results of Operations contains certain statements and information that may constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements relate to future plans and strategies, anticipated events or trends, future financial performance and expectations and beliefs concerning matters that are not historical facts or that necessarily depend upon future events. The words "may," "should," "could," "would," "expect," "plan," "intend," "anticipate," "believe," "project," "predict," "potential" and similar expressions are intended to identify forward-looking statements. Specifically, this report contains, among others, forward-looking statements about:

- our expectations regarding financial condition or results of operations for periods after September 30, 2015;
- our critical accounting policies;
- our business strategies and our ability to grow our business;
- our participation in the Medicare and Medicaid programs;
- the impact of healthcare reform;

OVERVIEW

We provide quality cost-effective post-acute health care services to our patients. As of September 30, 2015, we have 342 service providers in 28 states: Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Illinois, Kentucky, Louisiana, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Nevada, North Carolina, Ohio, Oregon,

Table of Contents

Rhode Island, South Carolina, Tennessee, Texas, Virginia, Washington, West Virginia and Wisconsin. Our services are classified into four segments: (1) home health services; (2) hospice services; (3) community-based services and (4) facility-based services offered through our long-term acute care hospitals (“LTACHs”).

Through our home health services segment, we offer a wide range of services, including skilled nursing, medically-oriented social services, and physical, occupational and speech therapy. As of September 30, 2015, we operate 278 home health services locations, of which 163 are wholly-owned, 109 are majority-owned through equity joint ventures, three are under license lease arrangements and the operations of the remaining three locations are only managed by us.

Through our hospice services segment, we offer a wide range of services, including pain and symptom management, emotional and spiritual support, inpatient and respite care, homemaker services, and counseling. As of September 30, 2015, we operate 41 hospice locations, of which 28 are wholly-owned, 11 are majority-owned through equity joint ventures and two are under license lease arrangements.

Through our community-based services segment, our services are performed by paraprofessional personnel, and include assistance to the elderly, chronically ill, and disabled patients with activities of daily living. As of September 30, 2015, we operate 13 community-based services locations, of which 12 are wholly-owned and one is majority-owned through an equity joint venture.

We provide facility-based services principally through our LTACHs. As of September 30, 2015, we operate six LTACHs with eight locations, of which all but one are located within host hospitals. Of these facility-based services locations, three are wholly-owned and five are majority-owned through equity joint ventures. We also wholly-own and operate a family health center and a pharmacy.

The Joint Commission is a nationwide commission that establishes standards relating to the physical plant, administration, quality of patient care and operation of medical staffs of health care organizations. Currently, Joint Commission accreditation of home nursing and hospice agencies is voluntary. However, some managed care organizations use Joint Commission accreditation as a credentialing standard for regional and state contracts. As of September 30, 2015, the Joint Commission had accredited 243 of our 278 home health services locations and 32 of our 41 hospice agencies. Those not yet accredited are working towards achieving this accreditation. As we acquire companies, we apply for accreditation 12 to 18 months after completing the acquisition.

The percentage of net service revenue contributed from each reporting segment for the three and nine months ended September 30, 2015 and 2014 was as follows:

Type of segment	Three Months Ended		Nine Months Ended	
	September 30, 2015	September 30, 2014	September 30, 2015	September 30, 2014
Home health services	76.0	76.5	76.2	77.2
Hospice services	9.4	9.1	9.1	9.1
Community-based services	5.2	4.8	5.1	3.4
Facility-based services	9.4	9.6	9.6	10.3
	100.0	100.0	100.0	100.0

Recent Developments**Home Health Services**

When the Patient Protection and Affordable Care Act (“PPACA”) was enacted in 2010, it changed a number of Medicare payment rates, including the reinstatement of the 3% home health rural add-on, which began on April 1, 2010 (expiring January 1, 2016). Other changes from PPACA that took effect on or after January 1, 2011 are:

- reducing the market basket adjustment to be determined by CMS for each of 2011, 2012 and 2013 by 1%,
- instituting a full productivity adjustment beginning in 2015, and

Table of Contents

rebasement of the base payment rate for Medicare beginning in 2014 and phasing in over a four year period.

On November 22, 2013, CMS issued a final rule (effective January 1, 2014) regarding payment rates for home health services provided during 2014, which includes the following elements:

- decreased base payment rate by 1.05%, which is made up of a market basket increase of 2.3%, rebasing decrease of 2.75% and HH PPS Grouper refinements decrease of 0.6%,
- reduced the average case-mix weight for 2014 from 1.3464 to 1.0000. To offset the effect of resetting the case mix average to 1.000, CMS upwardly-adjusted the national, standardized 60-day episode payment rate by the same factor that it used to decrease the case-mix weights from \$2,137.73 in 2013 to \$2,869.27 in 2014.
- removed 170 diagnosis codes from assignment to diagnosis groups within HH PPS Grouper, begin using ICD-10-CM codes within HH PPS Grouper. On April 1, 2014, the “Protecting Access to Medicare Act of 2014” HR4302 was signed, a provision of which delayed the conversion of ICD-10 by one year, to October 1, 2015, and
- reduced rebasing amounts for 2014 through 2017 by an aggregate of \$80.95, which is 3.5% of 2010 rates or 2.75% of 2013 rates.

On October 30, 2014, CMS issued a Final Rule (effective January 1, 2015) regarding payment rates for home health services provided during 2015. The net impact of all policies in the rule is a reduction in Medicare payments of 0.3%. CMS estimates that freestanding proprietary agencies will have a 0.9% reduction in Medicare reimbursement compared with 2014 levels. The final rule includes the following elements:

The national, standardized 60-day episode payment rate will increase from \$2,869.27 in 2014 to \$2,961.38 in 2015. This is a net 3.2% increase in standardized rate, due to application of (1) a wage index budget neutrality factor (+.24%) and (2) a case mix budget neutrality factor (+ 3.66%) to the 2014 standard rate which is offset by a recalibration of the case mix, then subtracting the rebasing adjustment of -\$80.95 (2.82% of 2014 rates), then applying the net market basket adjustment of +2.1% (Market Basket=+2.6%, Productivity Adjustment=-0.5%).

- The 2013 Office of Management and Budget (“OMB”) core-based statistical area (“CBSA”) designations for calculating wage indexes will be adopted. The proposed rule would update the HHA wage index using a 50/50 blend of the existing CBSA designations and the new CBSA designations outlined in a February 28, 2013, Office of Management and Budget bulletin, respectively. Nationally, 37 counties will shift from urban to rural and 105 counties will shift from rural to urban.

The face-to-face narrative requirement was eliminated. CMS will only consider medical records from the patient’s certifying physician or discharging facility in determining initial eligibility for Medicare’s home health benefit. Physician claims for certification/re-certification of eligibility (not the face-to-face encounter visit) will be considered a non-covered service if the HHA claim was non-covered because the patient was ineligible for the home health benefit.

The scheduling and administration of therapy reassessments will be modified to every 30 calendar days as opposed to tracking and counting therapy visits, especially for multiple-discipline therapy episodes.

The 3% rural add-on will only apply to counties that are classified as rural under the 2013 CBSA designation. Nationally, 37 counties will shift from urban to rural and pick up the rural add-on, and 105 counties will shift from rural to urban and will lose the rural add-on, but may offset some of that loss by a positive increase in wage index. CMS also made several minor policy changes, which will not affect reimbursement.

On April 14, 2015, legislation was passed which limits any increase in home health payments to 1% for fiscal year 2018, and extends the 3% rural home health safeguard for two years through December 31, 2017.

On October 30, 2015, CMS released a Final Rule (effective January 1, 2016) regarding payment rates for home health services provided during calendar year 2016. The national, standardized 60-day episode payment rate will increase to \$2,965.12 in 2016. The rural rate will be \$3,054.07. This is a net 0.01% increase in the national, standardized 60-day episode payment rate, due to application of (1) rebasing decrease of 2.75%, (2) case-mix adjustment decrease of 0.97%, (3) net market basket increase of 1.9%, (4) case-mix recalibration budget neutrality adjustment increase of 1.87%, and (5) wage index budget

Table of Contents

neutrality adjustment increase of 0.11%. The home health market basket percentage increase for 2016 is 2.3% and the multifactor productivity adjustment is 0.4% for a net home health market based of 1.9%. CMS reduced its estimate of nominal case-mix growth between 2012 and 2014 from 3.41% to 2.88% (0.53%) and spread the adjustment over three years at 0.97% each year to account for nominal case-mix growth. The finalized payment policies result in a 1.4% reduction in Medicare payments for all home health agencies.

In addition, CMS finalized its proposal implement a Home Health Value-Based Purchasing ("HHVBP") program that is intended to incentivize the delivery of high-quality patient care. The HHVBP program would withhold 3% to 8% of Medicare payments, which would be redistributed to participating home health agencies depending on their performance relative to specified measures. The HHVBP would apply to all home health agencies in Arizona, Florida, Iowa, Massachusetts, Maryland, Nebraska, North Carolina, Tennessee, and Washington.

Hospice Services

On August 22, 2014, CMS released a Final Rule for hospice for fiscal year 2015, which increased Medicare reimbursement payments by 1.4% over fiscal year 2014. The 1.4% increase consists of a 2.9% inflationary market basket update offset by a 0.7% reduction related to the wage index changes and the sixth year of CMS's seven-year phase-out of its wage index budget neutrality adjustment factor, a 0.5% reduction for the productivity adjustment, and a 0.3% reduction to the market basket as defined by PPACA. The following table shows the hospice Medicare payment rates for fiscal year 2015, which began on October 1, 2014 and ended September 30, 2015:

Description	Rate per patient day
Routine Home Care	\$159.34
Continuous Home Care	\$929.91
Full Rate = 24 hours of care	
\$38.75 = hourly rate	
Inpatient Respite Care	\$164.81
General Inpatient Care	\$708.77

On July 31, 2015, CMS released a Final Rule that would update the Medicare hospice payment rates and wage index for fiscal year 2016, which is estimated to be an increase in payment rates of 1.1%. Beginning January 1, 2016, CMS is finalizing its proposal for two routine home care rates, in a budget-neutral manner, to provide separate payment rates for the first 60 days of care and care beyond 60 days. In addition to the two routine home care rates, CMS is implementing a service intensity add-on payment that would help to promote and compensate for the provision of skilled visits at end of life. As finalized, fiscal year 2016 will be the seventh and final year of the Budget Neutrality Adjustment Factor for hospice. CMS is updating the aggregate hospice cap to \$27,382.63 for the cap year ending October 31, 2015 and to \$27,820.75 for the 2016 cap year. CMS is also changing the hospice inpatient and aggregate cap year to coincide with the fiscal year (October 1 to September 30) beginning October 1, 2017. The following table shows the hospice Medicare payment rates for fiscal year 2016, which began on October 1, 2015 and will end September 30, 2016:

Description	Rate per patient day
Routine Home Care (October 1, 2015 through December 31, 2015)	\$161.89
Routine Home Care days 1-60 (effective January 1, 2016)	\$186.84
Routine Home Care days 60+ (effective January 1, 2016)	\$146.83
Continuous Home Care	\$944.79
Full Rate = 24 hours of care	
\$39.37 = hourly rate	
Inpatient Respite Care	\$167.45
General Inpatient Care	\$720.11

Community-Based Services

Table of Contents

Community-based services are care services, which are primarily performed by paraprofessional personnel, and include assistance to the elderly, chronically ill, and disabled patients with activities of daily living. Revenue is generated on an hourly basis and our current primary payors are TennCare Managed Care Organization and Medicaid. Approximately 82% of our net service revenue in this segment was generated in Tennessee.

Facility-Based Services

On December 26, 2013, President Obama signed into law the Bipartisan Budget Act of 2013 (Public Law 113-67). This new law prevents a scheduled payment reduction for physicians and other practitioners who treat Medicare patients from taking effect on January 1, 2014. Included in the legislation are the following changes to LTACH reimbursement:

- Medicare discharges from LTACHs will continue to be paid at full LTACH PPS rates if:
 - the patient spent at least three days in a short-term care hospital (“STCH”) intensive care unit (“ICU”) during a STCH stay that immediately preceded the LTACH stay, or
 - the patient was on a ventilator for more than 96 hours in the LTACH (based on the MS-LTACH DRG assigned) and had a STCH stay immediately preceding the LTACH stay.
- Also, the LTACH discharge cannot have a principal diagnosis that is psychiatric or rehabilitation.
- All other Medicare discharges from LTACHs will be paid at a new “site neutral” rate, which is the lesser of:
 - the IPPS comparable per diem amount determined using the formula in the short-stay outlier regulation at 42 C.F.R. § 412.529(d)(4) plus applicable outlier payments, or
 - 100% of the estimated cost of the services involved.

The above new payment policy will not be effective until LTACH cost reporting periods beginning on or after October 1, 2015, and the site neutral payment rate will be phased-in over three years.

For cost reporting periods beginning on or after October 1, 2015, discharges paid at the site neutral payment rate or by a Medicare Advantage plan (Part C) will be excluded from the LTACH average length-of-stay (“ALOS”) calculation. For cost reporting periods beginning in fiscal year 2016 and later, CMS will notify LTACHs of their “LTACH discharge payment percentage” (i.e., the number of discharges not paid at the site neutral payment rate divided by the total number of discharges).

For cost reporting periods beginning in fiscal year 2020 and later, LTACHs with less than 50% of their discharges paid at the full LTACH PPS rates will be switched to payment under the IPPS for all discharges in subsequent cost reporting periods. However, CMS will set up a process for LTACHs to seek reinstatement of LTACH PPS rates for applicable discharges.

MedPAC will study the impact of the above changes on quality of care, use of hospice and other post-acute care settings, different types of LTACHs and growth in Medicare spending on LTACHs. MedPAC is to submit a report to Congress with any recommendations by June 30, 2019. The report is to also include MedPAC’s assessment of whether the 25 Percent rule should continue to be applied.

25 Percent rule relief for freestanding LTACHs, HWHs and satellite facilities will be extended without interruption for cost reporting periods beginning on or after December 29, 2007 through December 28, 2016. Grandfathered HWHs will be permanently exempt from the 25 Percent rule. CMS must report to Congress by December 18, 2015 on whether the 25 Percent rule should continue to be applied.

The moratorium on new LTACH facilities and increases in LTACH beds will be renewed for the period from April 1, 2014 to September 30, 2017. Although the introductory language only refers to a moratorium extension for LTACH bed increases, the amendment to the Medicare, Medicaid, and SCHIP Extension Act (“MMSEA”) would extend both moratoriums. No exceptions will apply during this extension of the moratoriums. The original rule renewed the moratorium for the period beginning January 1, 2015; however, a provision within HR4302 accelerated the moratorium period beginning on April 1, 2014.

Not later than October 1, 2015, CMS will establish a new functional status quality measure for change in mobility of ventilator patients.

Table of Contents

As part of the fiscal year 2015 or 2016 rulemaking, CMS is to study payment rates and regulations that apply to the special category of neoplastic disease LTACHs and may adjust such payment rates.

On August 4, 2014, CMS released its final rule for LTACH Medicare reimbursement for fiscal year 2015, which began on October 1, 2014 and ended on September 30, 2015. In the aggregate, payments for fiscal year 2015 increased by 1.1% over fiscal year 2014 rates. The 1.1% increase consisted of a 2.9% inflationary market basket update, offset by a 0.5% reduction for the productivity adjustment, and a 0.2% reduction to the market basket as defined by PPACA. LTACH payment rates were also be reduced by approximately 1.3% for the "one-time" budget neutrality adjustment factor under the last year of a three-year phase-in and increased by 0.2% for wage index budget neutrality adjustment.

On July 31, 2015, CMS issued a final rule to update fiscal year 2016 payment policies and rates under the IPPS and LTACH PPS, which affects discharges occurring in cost reporting periods beginning on or after October 1, 2015. CMS projects that LTACH PPS rates would decrease by 4.6%. This estimated decrease is primarily attributable to the statutory decrease in payment rates for site neutral LTACH PPS cases that do not meet the clinical criteria to qualify for higher LTACH rates in cost reporting years beginning on or after October 1, 2015. Cases that do qualify for higher LTACH PPS rates will see a payment rate increase of 1.7% (based on a market basket update of 2.4% adjusted by a multi-factor productivity adjustment of -0.5 percentage point and an additional adjustment of -0.2 percentage point in accordance with the Affordable Care Act). CMS also finalized its proposal to implement a transitional blended payment rate (50% site neutral rate and 50% LTACH PPS rates) for site neutral discharges occurring in fiscal years 2016 and 2017.

On October 1, 2015, CMS ICD-10 requirements for electronic billing transactions went into effect. In preparation, we have formally trained coding staff, invested in technology system upgrades, and provided compliance education for all ICD-10 changes. At this early stage of implementation, we are not able to predict the financial impact that ICD-10 may have on our overall financial position due to possible delays in reimbursement, underpayment for services, or possible denials of payments from payors.

None of the above described estimated changes to Medicare payments for home health, hospice and LTACHs for 2016 include the deficit reduction sequester cuts to Medicare that began on April 1, 2013, which reduced Medicare payments by 2% for patients whose service dates ended on or after April 1, 2013.

RESULTS OF OPERATIONS

Three months ended September 30, 2015 compared to three months ended September 30, 2014

Consolidated financial statements

The following table summarizes our consolidated results of operations for the three months ended September 30, 2015 and 2014 (amounts in thousands, except percentages, which are percentages of consolidated net service revenue, unless indicated otherwise):

	2015		2014		Increase (Decrease)	Percentage change of net service revenue
Net service revenue	\$204,122		\$187,713		\$16,409	
Cost of service revenue	120,873	59.2 %	113,122	60.3 %	7,751	(1.1)%
Provision for bad debts	4,809	2.4	3,974	2.1	835	0.3
General and administrative expenses	60,748	29.8	58,197	31.0	2,551	(1.2)
Income tax expense	6,148	41.0	3,924	38.9	2,224	2.1
Noncontrolling interest	2,265		1,679		586	
Total non-operating income (expense)	(434)		(643)		(209)	
Net income attributable to LHC Group, Inc.'s common stockholders	\$8,845		\$6,174		\$2,671	

(1)

Percentage of income tax from continuing operations attributable to LHC Group, Inc.'s common stockholders plus noncontrolling interest.

Hospice services									
Revenue	\$ 18,347	\$ 816	\$ 19,163	12.3	% \$ 42	\$ 19,205	12.5	%	
Revenue Medicare	\$ 16,962	\$ 800	\$ 17,762	13.6	\$ 42	\$ 17,804	13.9		
New Admissions	1,556	24	1,580	7.0	4	1,584	7.3		
New Medicare Admissions	1,352	23	1,375	8.1	4	1,379	8.4		
Average Census	1,464	61	1,525	9.8	3	1,528	10.0		
Average Medicare Census	1,350	58	1,408	10.8	3	1,411	11.0		
Patient days	134,767	5,519	140,286	9.7	306	140,592	10.0		
Community-based services									
Revenue	\$ 10,377	\$ —	\$ 10,377	15.6	% \$ 251	\$ 10,628	18.4	%	
Billable hours	313,980	—	313,980	7.8	5,015	318,995	9.5		
Facility-based services									
LTACHs									
Revenue	\$ 18,118	\$ —	\$ 18,118	4.9	% \$ —	\$ 18,118	4.9	%	
Patient days	15,422	—	15,422	0.4	—	15,422	0.4		

(1) Same store — location that has been in service with us for greater than 12 months.

(2) De Novo — internally developed location that has been in service with us for 12 months or less.

(3) Organic — combination of same store and de novo.

(4) Acquired — purchased location that has been in service with us for 12 months or less.

Total organic revenue for all four services segments for the three months ended September 30, 2015 increased as compared to the same period in 2014 due to an increase in patients on census, patient days, and billable hours and the successful execution of same store growth strategies.

Organic growth is primarily generated by population growth in areas covered by mature agencies and by increased market share in acquired and developing agencies. Historically, acquired agencies have the highest growth in admissions and average census in the first 24 months after acquisition, and have the highest contribution to organic growth, measured as a percentage of growth, in the second full year of operation after the acquisition.

Cost of service revenue

The following table summarizes cost of service revenue (amounts in thousands, except percentages, which are percentages of the segment's respective net service revenue):

Table of Contents

	Three Months Ended			
	September 30,		2014	
	2015			
Home health services				
Salaries, wages and benefits	\$81,165	52.4 %	\$75,975	52.9 %
Transportation	5,428	3.5	5,936	4.1
Supplies and services	3,420	2.2	3,394	2.4
Total	\$90,013	58.1 %	\$85,305	59.4 %
Hospice services				
Salaries, wages and benefits	\$8,068	42.0 %	\$7,081	41.5 %
Transportation	830	4.3	813	4.8
Supplies and services	2,793	14.6	2,537	14.9
Total	\$11,691	60.9 %	\$10,431	61.2 %
Community-based services				
Salaries, wages and benefits	\$7,129	67.1 %	\$6,105	68.0 %
Transportation	71	0.7	52	0.6
Supplies and services	76	0.7	44	0.5
Total	\$7,276	68.5 %	\$6,201	69.1 %
Facility-based services				
Salaries, wages and benefits	\$7,584	39.4 %	\$7,415	41.2 %
Transportation	72	0.4	72	0.4
Supplies and services	4,237	22.0	3,698	20.6
Total	\$11,893	61.8 %	\$11,185	62.2 %

Consolidated cost of service revenue for the three months ended September 30, 2015 was \$120.9 million compared to \$113.1 million for the same period in 2014, an increase of \$7.8 million, or 6.9%; however, as a percentage of net service revenue, it is a decrease of 1.1%. For home health services, hospice services, and community-based services, the increase was due to agencies acquired since September 30, 2014 and growth in our same store agencies. For facility-based services, supplies and services increased due to the increase in usage of pharmaceutical supplies needed to support higher patient acuity.

Provision for bad debts

Consolidated provision for bad debts for the three months ended September 30, 2015 was \$4.8 million compared to \$4.0 million for the same period in 2014, an increase of \$0.8 million, or 20%, and as a percentage of net service revenue, it is an increase of 0.3%.

Accounts receivable that are aged over 365 days have increased during the period by \$4.5 million. For home health services and facility-based services, an increase of \$2.5 million was due to the continued backlog of Medicare Administrative Contractor audit claims awaiting appeals hearing. Appeals have historically experienced a substantial success rate in claim recovery. In addition, aged accounts receivable in our home health services and community-based services increased by \$1.3 million due to a legacy system transition for prior year acquisitions. All aged accounts receivable have been reserved for any estimated uncollectible accounts.

General and administrative expenses

The following table summarizes general and administrative expenses (amounts in thousands, except percentages, which are percentages of the segment's respective net service revenue):

Table of Contents

	Three Months Ended September 30,			
	2015		2014	
Home health services				
General and administrative	\$45,627	29.4 %	\$44,721	31.1 %
Depreciation and amortization	2,039	1.3	1,780	1.2
Total	\$47,666	30.7 %	\$46,501	32.3 %
Hospice services				
General and administrative	\$5,033	26.2 %	\$4,446	26.0 %
Depreciation and amortization	365	1.9	275	1.6
Total	\$5,398	28.1 %	\$4,721	27.6 %
Community-based services				
General and administrative	\$2,056	19.4 %	\$1,867	20.8 %
Depreciation and amortization	35	0.3	33	0.4
Total	\$2,091	19.7 %	\$1,900	21.2 %
Facility-based services				
General and administrative	\$5,149	26.8 %	\$4,702	26.1 %
Depreciation and amortization	444	2.3	373	2.1
Total	\$5,593	29.1 %	\$5,075	28.2 %

Consolidated general and administrative expenses for the three months ended September 30, 2015 was \$60.7 million compared to \$58.2 million for the same period in 2014, an increase of \$2.5 million, or 4.4%; however, as a percentage of net service revenue, it is a decrease of 1.2%. Depreciation and amortization expense increased in the home health services segment and hospice services segment due to the capitalization of Point of Care licenses. In 2014, we successfully completed the roll out of our Point of Care technology. These licenses are amortized over their estimated useful life, which is 36 months. Depreciation in the facility-based services segment increased due to the purchases of patient care equipment, which occurred during the latter part of 2014.

Income tax expense

Consolidated income tax expense for the three months ended September 30, 2015 was \$6.1 million compared to \$3.9 million for the same period in 2014. Income tax expense increased in direct correlation to the increase in income before income taxes and noncontrolling interest.

Noncontrolling interest

Consolidated noncontrolling interest for the three months ended September 30, 2015 was \$2.3 million compared to \$1.7 million for the same period in 2014, an increase of \$0.6 million. Noncontrolling interest increased due to the overall growth in same store agencies, and overall operational efficiencies gained through the joint ventures use of our Point of Care platform.

Nine months ended September 30, 2015 compared to nine months ended September 30, 2014

Consolidated financial statements

The following table summarizes our consolidated results of operations for the nine months ended September 30, 2015 and 2014 (amounts in thousands, except percentages, which are percentages of consolidated net service revenue, unless indicated otherwise):

Table of Contents

	2015			2014			Increase (Decrease)	Percentage change of net service revenue
Net service revenue	\$597,373			\$540,261			\$57,112	
Cost of service revenue	351,938	58.9	%	321,983	59.6	%	29,955	(0.7)%
Provision for bad debts	14,873	2.5		11,699	2.2		3,174	0.3
General and administrative expenses	180,416	30.2		172,499	31.9		7,917	(1.7)
Income tax expense	17,097	41.0	(1)	11,199	40.7	(1)	5,898	0.3
Noncontrolling interest	6,916			4,717			2,199	
Total non-operating income (expense)	(1,533)			(1,861)			(328)	
Net income attributable to LHC Group, Inc.'s common stockholders	\$24,600			\$16,303			\$8,297	

(1) Percentage of income tax from continuing operations attributable to LHC Group, Inc.'s common stockholders plus noncontrolling interest.

Net service revenue

The following table sets forth the growth or loss of each of our segment's revenue and patient statistical data for the nine months ended September 30, 2015 and the related change from the same period in 2014 (revenue amounts are in thousands):

	Same Store(1)	De Novo(2)	Organic(3)	Organic Growth (Loss) %	Acquired(4)	Total	Total Growth %
Home health services							
Revenue	\$432,700	\$1,228	\$433,928	4.0	% \$20,983	\$454,911	9.0
Revenue Medicare	\$332,440	\$899	\$333,339	2.8	\$17,851	\$351,190	8.3
New Admissions	102,414	286	102,700	4.0	4,248	106,948	8.3

(1) Same store — location that has been in service with us for greater than 12 months.

(2)De Novo — internally developed location that has been in service with us for 12 months or less.

29

Table of Contents

(3) Organic — combination of same store and de novo.

(4) Acquired — purchased location that has been in service with us for 12 months or less.

Total organic revenue for all four services segments for the nine months ended September 30, 2015 increased as compared to the same period in 2014 due to an increase in patients on census, patient days, and billable hours and the successful execution of same store growth strategies.

Organic growth is primarily generated by population growth in areas covered by mature agencies and by increased market share in acquired and developing agencies. Historically, acquired agencies have the highest growth in admissions and average census in the first 24 months after acquisition, and have the highest contribution to organic growth, measured as a percentage of growth, in the second full year of operation after the acquisition.

Cost of service revenue

The following table summarizes cost of service revenue (amounts in thousands, except percentages, which are percentages of the segment's respective net service revenue):

	Nine Months Ended September 30,			
	2015		2014	
Home health services				
Salaries, wages and benefits	\$237,277	52.2 %	\$219,611	52.6 %
Transportation	15,595	3.4	16,173	3.9
Supplies and services	9,732	2.1	9,599	2.3
Total	\$262,604	57.7 %	\$245,383	58.8 %
Hospice services				
Salaries, wages and benefits	\$22,618	41.4 %	\$20,184	40.9 %
Transportation	2,284	4.2	2,280	4.6
Supplies and services	7,732	14.1	7,015	14.2
Total	\$32,634	59.7 %	\$29,479	59.7 %
Community-based services				
Salaries, wages and benefits	\$21,221	69.1 %	\$12,572	68.9 %
Transportation	196	0.6	110	0.6
Supplies and services	215	0.7	108	0.6
Total	\$21,632	70.4 %	\$12,790	70.1 %
Facility-based services				
Salaries, wages and benefits	\$22,725	39.9 %	\$22,652	41.0 %
Transportation	183	0.3	216	0.4
Supplies and services	12,160	21.3	11,463	20.7
Total	\$35,068	61.5 %	\$34,331	62.1 %

Consolidated cost of service revenue for the nine months ended September 30, 2015 was \$351.9 million compared to \$322.0 million for the same period in 2014, an increase of \$29.9 million, or 9.3%; however, as a percentage of net service revenue, it is a decrease of 0.7%. For home health services, hospice services, and community-based services, the increase was due to agencies acquired since September 30, 2014 and growth in our same store agencies.

Provision for bad debts

Consolidated provision for bad debts for the nine months ended September 30, 2015 was \$14.9 million compared to \$11.7 million for the same period in 2014, an increase of \$3.2 million.

Accounts receivable that are aged over 365 days have increased during the period by \$4.5 million. For home health services and facility-based services, an increase of \$2.5 million was due to the continued backlog of Medicare Administrative Contractor audit claims awaiting appeals hearing. Appeals have historically experienced a substantial success rate in claim recovery. In addition, aged accounts receivable in our home health services and community-based services increased

Table of Contents

by \$1.3 million due to a legacy system transition for prior year acquisitions. All aged accounts receivable have been reserved for any estimated uncollectible accounts.

General and administrative expenses

The following table summarizes general and administrative expenses (amounts in thousands, except percentages, which are percentages of the segment's respective net service revenue):

	Nine Months Ended September 30,			
	2015		2014	
Home health services				
General and administrative	\$ 135,466	29.7 %	\$ 133,379	32.0 %
Depreciation and amortization	6,230	1.4	4,977	1.2
Total	\$ 141,696	31.1 %	\$ 138,356	33.2 %
Hospice services				
General and administrative	\$ 14,346	26.2 %	\$ 13,171	26.7 %
Depreciation and amortization	1,051	1.9	783	1.6
Total	\$ 15,397	28.1 %	\$ 13,954	28.3 %
Community-based services				
General and administrative	\$ 6,257	20.4 %	\$ 4,230	23.2 %
Depreciation and amortization	119	0.4	58	0.3
Total	\$ 6,376	20.8 %	\$ 4,288	23.5 %
Facility-based services				
General and administrative	\$ 15,663	27.4 %	\$ 14,845	26.8 %
Depreciation and amortization	1,284	2.3	1,056	1.9
Total	\$ 16,947	29.7 %	\$ 15,901	28.7 %

Consolidated general and administrative expenses for the nine months ended September 30, 2015 was \$180.4 million compared to \$172.5 million for the same period in 2014, an increase of \$7.9 million, or 4.6%; however, as a percentage of net service revenue, it is a decrease of 1.7%. For home health services, hospice services, and community-based services, the increase was due to an increase from agencies acquired since September 30, 2014 and growth in our same store agencies. This increase was partially offset with savings associated with prior year closures. For facility-based services segment, general and administrative expenses increased due to the implementation of management roles in sales and administrative support staff.

Depreciation and amortization expense increased in the home health services segment and hospice services segment due to the capitalization of Point of Care licenses. In 2014, we successfully completed the roll out of our Point of Care technology. These licenses are amortized over their estimated useful life, which is 36 months. Depreciation in the facility-based services segment increased due to the purchase of patient care equipment, which occurred during the latter part of 2014.

Income tax expense

Consolidated income tax expense for the nine months ended September 30, 2015 was \$17.1 million compared to \$11.2 million for the same period in 2014, an increase of \$5.9 million. Income tax expense increased in direct correlation to the increase in income before income taxes and noncontrolling interest.

Noncontrolling interest

Consolidated noncontrolling interest for the nine months ended September 30, 2015 was \$6.9 million compared to \$4.7 million for the same period in 2014, an increase of \$2.2 million. Noncontrolling interest increased due to the overall growth in same store agencies, and overall operational efficiencies gained through the joint ventures use of our Point of Care platform.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Our principal source of liquidity for operating activities is the collection of patient accounts receivable, most of which are collected from governmental and third party commercial payors. We also have the ability to obtain additional liquidity, if necessary, through our credit facility, which provides for aggregate borrowings, including outstanding letters of credit, up to \$225 million.

Our reported cash flows are affected by various external and internal factors, including the following:

Operating Results — Our net income has a significant effect on our operating cash flows. Any significant increase or decrease in our net income could have a material effect on our operating cash flows.

Timing of Acquisitions — We use our operating and/or financing cash flows for acquisitions. When the acquisitions occur at or near the end of a period, our cash outflows significantly increase.

Timing of Payroll — Our employees are paid bi-weekly on Fridays; therefore, operating cash flows decline in reporting periods that end on a Friday.

Medical Insurance Plan Funding — We are self-funded for medical insurance purposes. Any significant changes in the amount of insurance claims submitted could have a direct effect on our operating cash flows.

Medical Supplies — A significant expense associated with our business is the cost of medical supplies. Any increase in the cost of medical supplies, or in the use of medical supplies by our patients, could have a material effect on our operating cash flows.

The following table summarizes changes in cash (amounts in thousands):

	Nine Months Ended September 30,	
	2015	2014
Net cash provided by (used in):		
Operating activities	\$51,619	\$33,451
Investing activities	(15,760)	(78,066)
Financing activities	25,343	35,477

The acquisitions of Deaconess and Elk Valley during 2014 significantly affected cash flows for 2014. There were no similar acquisitions during the nine months ended September 30, 2015.

Accounts Receivable and Allowance for Uncollectible Accounts

For home health services, hospice services, and community-based services, we calculate the allowance for uncollectible accounts as a percentage of total patient receivables. The percentage changes depending on the payor and increases as the patient receivables age. For facility-based services, we calculate the allowance for uncollectible accounts based on a claim by claim review.

As of September 30, 2015, our allowance for uncollectible accounts, as a percentage of patient accounts receivable, was approximately 19.5%, or \$25.9 million, compared to 16.0% or \$18.6 million at December 31, 2014. Days sales outstanding as of September 30, 2015 and December 31, 2014 was 48 and 47 days, respectively.

The following table sets forth as of September 30, 2015, the aging of accounts receivable (based on the end of episode date) (amounts in thousands):

Table of Contents

Payor	0-90	91-180	181-365	Over 365	Total
Medicare	\$60,530	\$7,687	\$5,727	\$4,215	\$78,159
Medicaid	2,063	725	804	415	4,007
Other	29,461	6,751	8,032	6,660	50,904
Total	\$92,054	\$15,163	\$14,563	\$11,290	\$133,070

The following table sets forth as of December 31, 2014, the aging of accounts receivable (based on the end of episode date) (amounts in thousands):

Payor	0-90	91-180	181-365	Over 365	Total
Medicare	\$51,919	\$7,945	\$6,142	\$2,131	\$68,137
Medicaid	2,039	761	666	250	3,716
Other	27,375	6,253	6,164	4,435	44,227
Total	\$81,333	\$14,959	\$12,972	\$6,816	\$116,080

Indebtedness

As of September 30, 2015, we had \$125.9 million available for borrowing under our credit facility, with \$92.0 million drawn under our credit facility and \$7.1 million of letters of credit outstanding. At December 31, 2014, we had \$60.0 million drawn and \$7.1 million of letters of credit outstanding.

For a discussion on our credit facility with Capital One National Association, see Note 5 of the Notes to Condensed Consolidated Financial Statements, which is incorporated herein by reference.

A letter of credit fee equal to the applicable Eurodollar rate multiplied by the face amount of the letter of credit is charged upon the issuance and on each anniversary date while the letter of credit is outstanding. The agent's standard up-front fee and other customary administrative charges will also be due upon issuance of the letter of credit along with a renewal fee on each anniversary date of such issuance while the letter of credit is outstanding. Borrowings accruing interest under our credit facility at either the Base Rate or the Eurodollar rate are subject to the applicable margins set forth below:

Leverage Ratio	Eurodollar Margin	Base Rate Margin	Commitment Fee Rate
≤1.00:1.00	1.75	% 0.75	% 0.225
>1.00:1.00 ≤ 1.50:1.00	2.00	% 1.00	% 0.250
>1.50:1.00 ≤ 2.00:1.00	2.25	% 1.25	% 0.300
>2.00:1.00	2.50	% 1.50	% 0.375

Our credit facility contains customary affirmative, negative and financial covenants. For example, without prior approval of our bank group, we are restricted in incurring additional debt, disposing of assets, making investments, allowing fundamental changes to our business or organization, and making certain payments in respect of stock or other ownership interests, such as dividends and stock repurchases, up to \$50 million. Under our credit facility, we are also required to meet certain financial covenants with respect to minimum fixed charge coverage and leverage ratios. Our credit facility also contains customary events of default. These include bankruptcy and other insolvency events, cross-defaults to other debt agreements, a change in control involving us or any subsidiary guarantor, and the failure to comply with certain covenants.

At September 30, 2015, we were in compliance with all covenants contained in our credit facility.

Contingencies

For a discussion of contingencies, see Note 8 of the Notes to Condensed Consolidated Financial Statements, which is incorporated herein by reference.

Table of Contents

Off-Balance Sheet Arrangements

We do not currently have any off-balance sheet arrangements with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. In addition, we do not engage in trading activities involving non-exchange traded contracts. As such, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in these relationships.

Critical Accounting Policies

For a discussion of critical accounting policies concerning revenue recognition, see Note 2 of the Notes to Condensed Consolidated Financial Statements, which is incorporate herein by reference.

Accounts Receivable and Allowances for Uncollectible Accounts

We report accounts receivable net of estimated allowances for uncollectible accounts and adjustments. Accounts receivable are uncollateralized and primarily consist of amounts due from Medicare, other third-party payors, and patients. To provide for accounts receivable that could become uncollectible in the future, we establish an allowance for uncollectible accounts to reduce the carrying amount of such receivables to their estimated net realizable value. The collection of outstanding receivables is our primary source of cash collections and is critical to our operating performance. Because Medicare is our primary payor, the credit risk associated with receivables from other payors is limited. We believe the credit risk associated with our Medicare accounts, which represent approximately 55% of our patient accounts receivable as of September 30, 2015 and December 31, 2014, respectively, is limited due to (i) the historical collections from Medicare and (ii) the fact that Medicare is a U.S. government payor. We do not believe that there are any other significant concentrations of receivables from any particular payor that would subject it to any significant credit risk in the collection of accounts receivable.

The amount of the provision for bad debts is based upon our assessment of historical and expected net collections, business and economic conditions and trends in government reimbursement. Quarterly, we perform a detailed review of historical writeoffs and recoveries as well as recent collection trends. Uncollectible accounts are written off when we have exhausted collection efforts and concluded the account will not be collected.

Although our estimated reserves for uncollectible accounts are based on historical experience and the most current collection trends, this process requires significant judgment and interpretation of the observed trends and the actual collections could differ from our estimates.

Insurance

We retain significant exposure for our employee health insurance, workers compensation, employment practices and professional liability insurance programs. Our insurance programs require us to estimate potential payments on filed claims and/or claims incurred but not reported. Our estimates are based on information provided by the third-party plan administrators, historical claim experience, expected costs of claims incurred but not paid and expected costs associated with settling claims. Each month we review the insurance-related recoveries and liabilities to determine if any adjustments are required.

Our employee health insurance program is self-funded, with stop-loss coverage on claims that exceed \$0.2 million for any individually covered employee or employee family member. We are responsible for workers' compensation claims up to \$0.5 million per individual incident.

Malpractice, employment practices and general liability claims for incidents which may give rise to litigation have been asserted against us by various claimants. The claims are in various stages of processing and some may ultimately be brought to trial. We are aware of incidents that have occurred through September 30, 2015 that may result in the assertion of additional claims. We currently carry professional, general liability and employment practices insurance coverage (on a claims made basis) for this exposure. We also carry D&O coverage (also on a claims made basis) for potential claims against our directors and officers, including securities actions, with a deductible of \$1.0 million per security claims and \$0.5 million on other claims.

We estimate our liabilities related to these programs using the most current information available. As claims develop, we may need to change the recorded liabilities and change our estimates. These changes and adjustments could be material to our financial statements, results of operations and financial condition.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As of September 30, 2015, we had \$61.7 million of cash. Cash in excess of requirements is deposited in highly liquid money market instruments with maturities less than 90 days. Because of the short maturities of these instruments, we would not expect our operating results or cash flows to be materially affected by the effect of a sudden change in market interest rates on our portfolio. In 2015, the FDIC will insure each depositor up to \$250,000 in coverage at each separately chartered insured depository institution. At times, cash in banks is in excess of the FDIC insurance limit. The Company has not experienced any loss as a result of those deposits in excess of the FDIC insurance limit and does not expect any in the future.

Our exposure to market risk relates to changes in interest rates for borrowings under our credit facility. Our credit facility is a revolving credit facility and, as such, we borrow, repay and re-borrow amounts as needed, changing the average daily balance outstanding under our credit facility.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed by the Company in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, management evaluated the effectiveness of the Company's disclosure controls and procedures as of September 30, 2015. Based on that evaluation, the Company's Chief Executive Officer and its Chief Financial Officer concluded that the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) promulgated of the Exchange Act) were effective as of September 30, 2015.

Changes in Internal Controls Over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rule 13a-15(f) of the Exchange Act) during the Company's fiscal quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

For a discussion of legal proceedings, see Note 8 of the Notes to Condensed Consolidated Financial Statements, which is incorporated herein by reference.

ITEM 1A. RISK FACTORS.

There have been no material changes from the information included in Part I, Item 1A. “Risk Factors” of the Company’s 2014 Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

In October 2010, the Company’s Board of Directors authorized a program to repurchase shares of the Company’s common stock, par value \$0.01 per share, from time to time, in an amount not to exceed \$50.0 million (“Stock Repurchase Program”). During the nine months ended September 30, 2015, no shares were repurchased. In accordance with the terms of the Stock Repurchase Program, it expired on September 4, 2015.
