This half year financial report has been prepared in accordance with International Financial Reporting Standards (IFRS). Throughout this report, all percentages are calculated based on amounts in thousands .

The half year financial report as of June 30, 2007 is unaudited.

**Table of Contents**

**Pfeiffer Vacuum Share Performance**

The shares of Pfeiffer Vacuum Technology AG have been traded in New York since July 16, 1996, and in Frankfurt since April 15, 1998.

Deutsche Börse, Prime Standard, Frankfurt	Trading Symbol: PFV
International Securities Identification Number:	ISIN DE0006916604
Reuters Symbol:	PV.DE
New York Stock Exchange (NYSE), New York	Trading Symbol: PV
International Securities Identification Number:	ISIN US7170671025
Number of shares issued:	8,970,600 (including 127,076 treasury shares)
Free-float as of June 30, 2007:	100%
Market capitalization as of June 30, 2007:	639.2 million

On the stock exchange in Frankfurt, the Pfeiffer Vacuum share price development was very positive during the first six months of 2007. On January 2, 2007, the shares opened at 64.89 and closed at 71.25 on June 29, 2007. This represents an increase by 6.36 or 9.8%. They reached their low for the period of 56.72 on February 28, 2007. The high for the period of

78.00 was recorded on April 26, 2007. This was also the highest stock price ever recorded for Pfeiffer Vacuum shares.

The prices of Pfeiffer Vacuum ADRs on the NYSE, which are traded in U.S. dollars, reflect changes in the share price and changes in the exchange rate parity between the euro and the U.S. dollar over the course of the year 2007. On January 3, 2007, the ADRs opened at a price of US\$ 88.33 and closed on June 29, 2007, at US\$ 96.13. The highest price in the first six months was US\$ 103.50 on April 30, 2007 and the low for period of US\$ 78.06 was recorded on March 5, 2007.

In June 2007 for the ninth time in a row, Pfeiffer Vacuum paid a dividend to its shareholders. Amounting to 2.50 per share or 22.1 million in total, the shareholders agreed to a record level dividend. This emphasizes Pfeiffer Vacuum's position as one of the highest dividend issuers in the TecDAX.

**Table of Contents**

**Consolidated Interim Management Report**

Following 85.7 million in the first six months of 2006, Pfeiffer Vacuum increased its sales by 5.1 million or 5.9% to 90.8 million in the first half year of 2007. Amounting to 23.5 million and 17.8 million, operating profit and net income were up significantly by 11.8% or 37.1%, respectively.

**Overall Economic Environment and Industry Situation**

With 4.9%, the growth rate of world economy in 2007 is expected to decrease slightly from the 2006 rate. This slow down of economic development is mainly due to the weakening economic situation in the U.S. and Asia (excluding Japan). While the U.S. economy grew by 3.3% in 2006, the increase in 2007 will be approximately 2.5%. This rate is equal to development of European economies where the growth rate is flat compared to the year 2006. In Germany, the business development is slightly below the rate in 2006 but still on a comfortable rank within Europe. The Asian region is still growing on a high level of approximately 8.6% which means a slight slow down as compared to 2006. There, especially the Indian and South-Korean business development recorded slight decreases. The Chinese economic growth rate stands stable on a two digit number.

The competitive situation and the competitive pressure in the vacuum industry remained on the previous year's level. Additionally, the weakness of the U.S. dollar and the Japanese yen make it more and more difficult for European companies to achieve sales in these regions. Nevertheless, due to permanent enhancements and new developments of our products, we were able to increase our business in the first six months of 2007.

**Business**

Our business operations include the development, manufacture, sale and service of vacuum pumps, vacuum measurement, components and analysis equipment and instruments, as well as vacuum systems.

**Sales**

Presented below are net sales by segment, by region and by product for the periods ended June 30, 2007 and 2006. It should be noted with respect to net sales by segment that the sales shown in this presentation were allocated on the basis of the location that invoiced the sales. The segment-based presentation thus shows net sales by subsidiaries. Net sales by region, on the other hand, include all sales in a given region, regardless of which subsidiary within the Pfeiffer Vacuum Group actually invoiced the sales. Net sales by segment and by region can thus differ from one another to a greater or lesser extent. Net sales in the Asian

**Table of Contents****Consolidated Interim Management Report**

segment, for example, differ from those shown for the Asian region, as the Asian segment includes only the sales of our two Asian subsidiaries in India and Korea. The presentation for the Asian region, on the other hand, additionally includes sales generated directly with Asian customers by the German company. Net sales in the U.S. region and the U.S. segment, on the other hand, are nearly identical, because virtually all sales in this region are handled by our American subsidiary.

**Sales by Segment (Companies)**

Pfeiffer Vacuum's subsidiaries in the individual countries are independent legal entities with their own management which distribute the products and provide services. Accordingly, we identify our operating segments geographically. Due to the similarity of their economic characteristics, including nature of products sold, type of customers, method of product distribution and economic environment, we aggregate our European subsidiaries outside Germany into one reportable segment, Europe (excluding Germany).

**Sales by Segment**

K	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
<b>Net sales</b>				
Germany	22,452	18,110	44,340	37,319
Europe (excluding Germany)	10,565	12,373	23,353	24,922
United States	9,824	10,475	21,042	21,344
Asia	1,194	1,069	2,017	2,104
<b>Total</b>	<b>44,035</b>	<b>42,027</b>	<b>90,752</b>	<b>85,689</b>

In the first six months of 2007, sales only increased in the Germany segment. However, sales here increased significantly by 7.0 million or 18.8% to 44.3 million. The closing down of the sales companies in Belgium and the Netherlands and the related start-up of the sales region Euregio led to a sales movement from the segment Europe (excluding Germany) to Germany. Adjusted for these effects, the development in Europe, too, would have been positive. Especially Austria (+ 1.5 million) and Sweden (+ 0.5 million) contributed to this. The moderate sales decrease by 0.3 million in the U.S. was mainly caused by a negative exchange rate effect of 1.7 million. Expressed in U.S. dollars, sales increased by 1.7 million or 6.5% from 26.3 million to 28.0 million. In the first half year of 2007, sales in the Asian segment of 2.0 million are slightly below the comparable period in 2006 (2.1 million). The Germany segment continues to be the segment with the highest share of total sales. Due to the effects discussed before, the percentage increased from 43.5% in the first half of 2006 to 48.9% in 2007. At the same time, the percentage of Europe (excluding Germany) decreased to 25.7% whereas the segments U.S. and Asia with 23.2% and 2.2% roughly stood at the previous year's levels.

**Table of Contents****Consolidated Interim Management Report****Sales by Region**

To provide additional information, we are also presenting sales by region in the following table. It includes all sales in a given region, regardless of which company in the Pfeiffer Vacuum Group actually generated these sales.

**Sales by Region**

K	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
<b>Net sales</b>				
Europe (excluding Germany)	13,962	12,565	28,385	25,375
Germany	12,086	10,444	25,479	22,594
United States	9,766	10,394	20,892	21,223
Asia	7,877	7,877	15,080	15,551
Rest of world	344	747	916	946
<b>Total</b>	<b>44,035</b>	<b>42,027</b>	<b>90,752</b>	<b>85,689</b>

Analysis of the sales by region shows the positive development in Germany and Europe (excluding Germany). In the first six months of 2007 and in Q2/2007 the growth rates were significantly two-digit. With 12.8% in the first half year of 2007, the sales growth rate in Germany was the highest within the group while sales in Europe (excluding Germany) in the same period of time increased by 11.9%. The weak U.S. dollar is the main reason for the slightly decreasing development in the U.S. because sales expressed in U.S. dollars increased significantly.

**Sales by Product****Sales by Product**

K	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
<b>Net sales</b>				
Turbopumps	19,628	18,509	41,058	38,162
Measurement/analysis equipment	10,959	9,735	21,871	21,605
Backing pumps	6,314	5,675	13,337	11,185
Service	6,226	6,006	12,550	11,861
Systems	757	1,976	1,634	2,607
Other	151	126	302	269
<b>Total</b>	<b>44,035</b>	<b>42,027</b>	<b>90,752</b>	<b>85,689</b>

**Table of Contents**

**Consolidated Interim Management Report**

The table above shows that the sales increase by 5.1 million or 5.9% was basically achieved by an expansion in all product groups. Only in the project driven systems business sales decreased from 2.6 million in the first six months of 2006 to 1.6 million in 2007. Turbopumps continue to have an overriding importance to us. In the first half year of 2007 sales generated with this product group amounted to 41.1 million. This represents an increase by 2.9 million or 7.6% as compared to 2006. Turbopumps generated 45.2% of our total sales (2006: 44.6%). Sales of measurement/analysis equipment increased by 0.3 million to 21.9 million by the end of June 2007. Significant sales increases were recorded in backing pumps (+ 2.2 million or +19.2%) while service sales increased by 0.7 million.

**Order Intake and Order Backlog**

Amounting to 109.9 million, new orders for the first six months of 2007 are on an outstanding level. Compared to the first six months of 2006 ( 86.8 million), this represents an increase by 23.1 million or 26.6%. This enjoyable development is not limited to a single product group but can be seen throughout all product areas. The main reason for this increase is the big order received from the systems business. But for turbopumps as well, new orders increased by 6.2 million to 44.2 million in 2007. On June 30, 2007, the book-to- bill ratio, the quotient of new orders and sales amounted to 121.1%.

The already mentioned big order also impacts the orders on hand. They increased by 14.1 million from 30.6 million on June 30, 2006 to 44.7 million on June 30, 2007. This gives us enough visibility for the upcoming months of 2007. Contracts are only recorded as orders when they are based upon binding contracts. The value of orders on hand should not be used to predict future sales and order volumes.

**Cost of Sales and Gross Profit**

The cost of sales incurred in the six months ended June 30, 2007, totaled 46.4 million. Following 43.0 million in the previous year's period, this represents an increase by 3.4 million or 7.9%. In the second quarter, cost of sales comparably increased from 21.5 million to 23.0 million. The increase during the year and in the quarter is predominantly caused by the higher sales. At the same time, increased purchase prices and the product mix lead to cost of sales rising stronger than sales. Indeed, the gross profit increased from 42.7 million to 44.3 million in the first half year of 2007 and from 20.6 million to 21.0 million in the second quarter 2007, respectively. Yet, our gross margin (gross profit as percentage of sales) decreased from 49.8% in the first half-year 2006 to 48.8% in the current year's period.

**Table of Contents**

**Consolidated Interim Management Report**

**Selling and Marketing Expenses**

Selling and marketing expenses decreased significantly. They amount to 10.5 million for the six months ended June 30, 2007, down 1.0 million or 8.5% from the previous year's level of 11.5 million. In 2006 selling and marketing expenses included costs for various marketing measures that did not occur to that extent in 2007. Additionally, the new sales organization Euregio led to decreased selling and marketing expenses. Relative to sales, the ratio decreased from 13.4% in the first six months of 2006 to 11.6% in 2007.

**General and Administrative Expenses**

Totalling 6.9 million in the first six months of 2007, general and administrative expenses increased by 0.1 million from the previous year (6.8 million). In the second quarter 2007 and 2006 the general and administrative expenses stood at the same level of 3.0 million. Relative to sales, the ratio for the first six months 2007 decreased from 7.9% in 2006 to 7.6%.

**Research and Development Expenses**

Research and development expenses amounted to 3.4 million in both, the first half-year of 2007 and the first half-year of 2006. As a result of higher sales, however, the expense ratio declined in the same periods from 3.9% in 2006 to 3.8% in 2007. In the second quarter, too, the research and development expenses were flat to the previous year (1.7 million).

**Operating Profit**

As compared to the prior year the operating profit in the first six months of 2007 rose sharply by 2.5 million or 11.8% from

21.0 million to 23.5 million. With 11.3 million, the Company's operating profit in the second quarter of 2007 was also up significantly from 2006 (+ 1.0 million or 9.4%). The EBIT margin, the ratio between operating profit and sales, totaled 25.9% for the first six months of the year 2007, up 1.4 percentage points from prior year.

**Table of Contents**

**Consolidated Interim Management Report**

**Financial Result**

Financial result comprises financial expenses, financial income and exchange rate gains or losses. In the first half year of 2007, financial result totaled 3.9 million, as opposed to 0.3 million for the comparable period in 2006. Gains on disposals of investment securities amounting to 2.3 million realized in the second quarter of 2007 are the main reason for the increase in financial result.

**Income Taxes**

The Company's effective tax rate was 35.0% for the first six months of 2007 and 39.0% for the first six months of 2006. The effective tax rate for the second quarter 2007 was 32.3% (second quarter 2006: 39.0%).

**Net Income**

Net income in the six months ended June 30, 2007 totaled 17.8 million (2006: 13.0 million). This represents an increase of outstanding 4.8 million or 37.1%. In the second quarter 2007, net income of 9.8 million was also up significantly from the prior year period (6.4 million). The after tax return on sales was 19.6% in the first half year of 2007 and, thus, marks international top class results (2006: 15.2%).

**Financial Position**

The financial position of the Pfeiffer Vacuum Group continues to be characterized by cash and cash equivalents on the assets side of the balance sheet and by shareholders' equity on the liabilities side. As compared to December 31, 2006, balance sheet total slightly decreased by 0.8 million to 167.9 million. On the asset side, the decrease in the balance sheet total was predominantly attributable to the 5.4 million decrease in investment securities and the increase in inventories and cash and cash equivalents by 1.6 million and 1.5 million, respectively. The cash flow statement shows the development of liquid assets.

Total shareholders' equity decreased by 5.8 million to 133.1 million. The main reason is the dividend payment of 22.1 million in June 2007, which was partly offset by the net income of 17.8 million for the six months period 2007. Besides, the customer deposits and the income tax liabilities increased by 4.0 and 2.2 million, respectively. The equity ratio decreased from 82.4% on December 31, 2006, to 79.3% on June 30, 2007. Our higher-than-average shareholders' equity continues to enable us to finance our investments and operations without having to resort to bank debt.

**Table of Contents****Consolidated Interim Management Report****Cash Flow**

Further on, we are able to generate required cash from operating activities to fund our day-to-day business and investment projects.

Following a cash flow from operating activities totaling 11.4 million for the first six months of 2006, this number was significantly increased in 2007 and now stands at 19.1 million. This is an increase by 7.7 million which is predominantly attributable to the increased net income. Besides, the development of provisions had a positive effect of 3.4 million on the cash flow from operating activities.

During the first six months of 2007 there was a cash inflow from investing activities in the amount of 4.7 million. In the prior year period we recorded net cash used in investing activities totaling 3.4 million. The main reason for this development was the cash received resulting from the disposal of investment securities ( 6.5 million). Capital expenditures in 2007 totaled 1.9 million (2006: 3.5 million). In 2006, 1.9 million were spent one-time to purchase factory halls.

The cash used in financing activities during the first half year of 2007 was only impacted by the dividend payment to the Pfeiffer Vacuum Technology AG shareholders amounting to 22.1 million (2006: 11.7 million). At the Annual Shareholders Meeting on May 31, 2007, a dividend for the year 2006 amounting to 2.50 per share was resolved. The amount paid to the shareholders totaled 22,108,810.00. In 2006, besides the dividend payment, the purchase of treasury shares led to an additional cash outflow of 1.0 million. We also received payments of 1.0 million in connection with the conversion of convertible bonds in 2006.

**Workforce**

As of June 30, 2007, the Company employed a workforce of 667 people, 505 of them in Germany and 162 in other countries.

**Workforce**

	Germany		Other Countries		Total	
	2007	2006	2007	2006	2007	2006
Manufacturing and Service	273	272	48	55	321	327
Research and Development	75	74			75	74
Sales and Marketing	107	100	93	96	200	196
Administration	50	58	21	29	71	87
<b>Total</b>	<b>505</b>	<b>504</b>	<b>162</b>	<b>180</b>	<b>667</b>	<b>684</b>

Mainly due to the more efficient organizational structure in the sales region Euregio (North-West Germany, the Benelux countries), the number of employees decreased by 2.5%.

**Table of Contents**

**Consolidated Interim Management Report**

**Risk Report**

During the first six months of the 2007 fiscal year, there were no changes in the risks as described in our Annual Report (Geschäftsbericht) and our Annual Report on Form 20-F for the year ended December 31, 2006. Both reports are available on our homepage at [www.pfeiffer-vacuum.net](http://www.pfeiffer-vacuum.net).

**Major Events in Fiscal 2007**

Since the beginning of the 2007 fiscal year, there have not been any significant changes in the Company's position or the industry environment.

**Outlook**

According to the latest forecasts, the world economic growth in 2007 is expected to lag slightly behind the 2006 rate. Correspondingly, we expect a growth rate in the vacuum industry paralleling or lagging slightly behind the 2006 development. Given our orders on hand and rising customer demand, we anticipate that our sales in 2007 will again grow faster than the market and will lie within the target corridor of 195 to 200 million as announced on this year's Annual Shareholders Meeting. In total, we expect an EBIT margin for 2007 of at least 25%. Nevertheless, we cannot exclude negative impacts due to the US dollar exchange rate or significant increases in commodity prices in the next few months.

On July 6, 2007, the German Bundesrat, the upper house of the German parliament, agreed to the corporate tax reform. As there are no interest bearing liabilities within the Pfeiffer Vacuum Group, we expect tax relieves for the German group companies beginning in 2008. However, the deferred tax assets have to be adjusted for the new tax rates already in 2007. Accordingly, impairment losses from the deferred tax assets of approximately 1.0 to 1.2 million will have to be recorded in Q3/2007. This will result in a significantly increased effective tax rate for whole fiscal 2007 as compared to the first six months of 2007 (35.0%).

**Notes to the Interim Financial Statements (unaudited)**

**1. The Company and Basis of Presentation**

The parent company within the Pfeiffer Vacuum Group ( the Company or Pfeiffer Vacuum ) is Pfeiffer Vacuum Technology AG, domiciled at Berliner Strasse 43, 35614 Asslar, Germany. Pfeiffer Vacuum Technology AG is a stock corporation organized under German law and recorded in the Register of Companies at the Local Court of Wetzlar under Number HRB 44. The Company is listed on the Deutsche Börse Stock Exchange in Frankfurt am Main, Germany, where it is included in the TecDAX index. Additionally, the Company's American Depositary Receipts (ADRs) are traded on the New York Stock Exchange (NYSE) in the United States.

Pfeiffer Vacuum is one of the leading full-line vacuum technology manufacturers, offering custom solutions for a wide range of needs in connection with the generation, control and measurement of vacuum. The products developed and manufactured at the Company's production facility in Asslar, Germany, include turbopumps, a range of backing pumps, such as rotary vane, Roots and dry pumps, complete pumping stations, as well as custom vacuum systems and components.

Pfeiffer Vacuum markets and distributes its products through its own network of sales companies and independent marketing agents. Moreover, there are service support centers in all major industrial locations throughout the world.

The Company's primary markets are located in Europe, the United States and Asia.

The Consolidated Financial Statements of Pfeiffer Vacuum Technology AG have been prepared in accordance with International Financial Reporting Standards (IFRS) and the interpretations of the International Financial Reporting Interpretations Committee (IFRIC) as applicable in the European Union (EU). This includes the International Accounting Standards (IAS), which continue to retain their validity, and the interpretations of the Standing Interpretations Committee (SIC).

Pfeiffer Vacuum prepares its Consolidated Interim Report ( Interim Report ) in euros ( € ). Unless otherwise indicated, the presentation is in thousands of euros ( K € ).

**2. Accounting and Valuation Methods**

In preparing this interim report as of June 30, 2007, IAS 34 Interim Financial Reporting was applied. In doing so, the same accounting and valuation methods as in the Consolidated Financial Statements for the fiscal year ended December 31, 2006 were used. Please refer to the detailed description of these methods in the Notes to the Consolidated Financial Statements 2006, which are available in the internet at [www.pfeiffer-vacuum.net](http://www.pfeiffer-vacuum.net).

**Table of Contents****Notes to the Interim Financial Statements (unaudited)**

In 2007 there were no changes in the consolidated companies. Nor are there any investments in jointly controlled entities or investments in associated companies or investments in companies controlled pursuant to the rules of SIC 12 Special Purpose Entities.

**3. Property, Plant and Equipment**

Property, plant and equipment comprise the following:

**Property, Plant and Equipment**

	<b>June 30,</b>	December
K	<b>2007</b>	31, 2006
Land and buildings	15,088	15,560
Technical equipment and machinery	3,788	3,085
Other equipment, factory and office equipment	3,351	3,469
Construction in progress	970	787
<b>Total property, plant and equipment</b>	<b>23,197</b>	22,901

**4. Investment Securities**

The Company holds fixed-income securities in the total amount of 6.0 million which are classified as held-to-maturity and therefore carried at amortized cost. Fixed-income securities in the amount of 1.0 million are shown as current assets due to the maturity in 2007. The portfolio of equity securities is categorized as available-for-sale with changes in fair value being recorded directly in equity. In 2007, the fair value decreased by 5.4 million to 7.1 million because a part of the holdings was sold. The gains on disposals amounted to 2.3 million and are shown in the financial income line.

**5. Inventories**

Inventories consist of the following:

**Inventories**

	<b>June 30,</b>	December
K	<b>2007</b>	31, 2006
Raw materials	6,724	6,132
Work-in-process	5,053	4,590
Finished products	8,960	8,116
Reserves	(3,601)	(3,318)
<b>Total inventories</b>	<b>17,136</b>	15,520

The Company's positive order situation connected with a high plant utilization led to increased inventories.

**Table of Contents****Notes to the Interim Financial Statements (unaudited)****6. Paid Dividends**

At the Annual Shareholders Meeting on May 31, 2007, the shareholders resolved a dividend of 2.50 per share. Thus, a total of 22,108,810.00 was paid to the shareholders.

**7. Other Equity Components**

The other equity components which do not impact the income statement, developed as follows:

**Other Equity Components**

K	Unrealized Gains/Losses on Hedges	Foreign Currency Translation Adjustments	Revaluation of Available-for- Sale Securities	Total
Balance on January 1, 2006	(196)	(637)		(833)
Changes in fair value of cash flow hedges (net of tax)	233			233
Changes in foreign currency translation		(1,074)		(1,074)
Balance on June 30, 2006	37	(1,711)		(1,674)
Balance on January 1, 2007	259	(2,224)	3,485	1,520
Changes in fair value of cash flow hedges (net of tax)	(80)			(80)
Changes in foreign currency translation		(353)		(353)
Revaluation of securities classified as available-for-sale (net of tax)			(1,096)	(1,096)
Balance on June 30, 2007	179	(2,577)	2,389	(9)

**8. Treasury Shares**

At the Annual Shareholders Meeting on May 31, 2007, the shareholders authorized Pfeiffer Vacuum to acquire treasury shares of the Company pursuant to § 71, Sub-para. 1, No. 8, German Stock Corporation Act. The Company is authorized to acquire treasury shares representing up to 2,296,473.60 of the capital stock (897,060 shares equal to 10% of capital stock at time of resolution) through November 28, 2008. On June 30, 2007, treasury shares totaling approximately 3.7 million were repurchased and consist of 127,076 ordinary shares valued at cost and repurchased within the scope previous authorizations.

**Table of Contents****Notes to the Interim Financial Statements (unaudited)****9. Pension Benefits and Similar Obligations**

**Notes to the Interim Financial Statements (unaudited)**

**13. Income Tax Expense**

Under German corporate tax law, taxes on income are composed of corporate taxes, trade taxes and an additional surtax.

The Company's effective tax rate was 35.0% for the first six months of 2007 and 39.0% for the first six months of 2006. The effective tax rate for the second quarter 2007 was 32.3% (2006: 39.0%).

**14. Management Board**

In its meeting on March 26, 2007, the Supervisory Board of Pfeiffer Vacuum Technology AG appointed Dr. Matthias Wiemer as new Management Board member for the Company with effect from April 1, 2007.

After serving as chief executive officer for a long and successful time, Wolfgang Dondorf stepped down from the Management Board at his own request, effective June 30, 2007. The Supervisory Board appointed Manfred Bender as new chief executive officer.

**15. Independent Auditor**

At the Annual Shareholders' Meeting on May 31, 2007, the Supervisory Board proposed and the Shareholders elected Ernst & Young AG, Wirtschaftsprüfungsgesellschaft/Steuerberatungsgesellschaft, Eschborn, Germany, as the independent auditor of both the accounts of the Company and the consolidated accounts for the 2007 fiscal year.

**16. Major Related Party Transactions**

Besides the transactions with the subsidiaries that are eliminated during the consolidation process and the regular compensation of Management Board members, no material transactions with related parties occurred in the first half year of 2007.

**Table of Contents**

**Certification of the Legal Representatives**

We hereby certify that, to the best of our knowledge and in keeping with the principles of due group interim reporting, the consolidated interim financial statements provide a true and fair view of the Group's net worth, financial position and results of operations, that the consolidated interim management report presents the course of business, including the results of operations and the group's position, such as to provide a true and fair view and that the major opportunities and risks relating to the anticipated development of the group in the remaining financial year are described.
