Siebert Financial Corp. & Subsidiaries
Notes to Condensed Consolidated Financial Statements
Nine Months Ended September 30, 2012 and 2011
(Unaudited)

1. Organization and Basis of Presentation:

The consolidated financial statements include the accounts of Siebert Financial Corp. (the Company) and its wholly owned subsidiaries Muriel Siebert & Co., Inc. (Siebert) and Siebert Women 's Financial Network, Inc. (WFN). All material intercompany balances and transactions have been eliminated. Investment in two entities in which the Company has ownership interests of 49% and 33.33%, respectively, are accounted for by the equity method and included in investment in and advances to affiliates in the consolidated statements of financial condition.

The condensed consolidated interim financial statements presented herein are unaudited and include all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations of the interim periods pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles (GAAP) in the United States of America (U.S.) have been condensed or omitted pursuant to SEC rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. The balance sheet at December 31, 2011 has been derived from the audited consolidated statements of financial condition at that date, but does not include all information and footnotes required by U.S. GAAP for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements included in the Company 's Annual Report on Form 10-K for the year ended December 31, 2011. Because of the nature of the Company 's business, the results of operations for the three and nine months ended September 30, 2012 are not necessarily indicative of operating results for the full year.

2. Securities:

Securities owned are carried at fair value with realized and unrealized gains and losses reflected in trading profits. Siebert clears all its security transactions through unaffiliated clearing firms on a fully disclosed basis. Accordingly, Siebert does not hold funds or securities for, or owe funds or securities to, its customers. Those functions are performed by the clearing firms.

3. Fair Value of Financial Instruments:

Authoritative accounting guidance defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. Fair value measurements are not adjusted for transaction costs. The fair value hierarchy prioritizes inputs to valuation techniques used to measure fair value into three levels:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Inputs other than quoted prices that are observable, either directly or indirectly, and reasonably available.

Level 3 Unobservable inputs which reflect the assumptions that management develops based on available information about the assumptions market participants would use in valuing the asset or liability.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-Q

The classification of financial instruments valued at fair value at September 30, 2012 is as follows:

Financial Instruments	Level 1	Total
Cash equivalents	\$ 20,103,000	\$ 20,103,000
Securities	238,000	238,000
	\$ 20,341,000	\$ 20,341,000

Securities consist of common stock valued on the last business day of the period at the last available reported sales price on the primary securities exchange (Level 1). As of September 30, 2012, the Company did not hold any level 2 or level 3 financial instruments.

In May 2011, the Financial Accounting Standards Board issued guidance to expand disclosures for Level 3 measurements based on unobservable inputs. The Company adopted this standard in January 2012. The adoption of this standard did not have any impact on the Company's disclosures.

4. Per Share Data:

Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average outstanding common shares during the period. Diluted earnings per share is calculated by dividing net income by the number of shares outstanding under the basic calculation and adding all dilutive securities, which consist of options. There were no dilutive options for the three and nine months ended September 30, 2012. Accordingly, basic and diluted net income (loss) per common share are the same for each period. The Company incurred a net loss for the three and nine months ended September 30, 2011. Accordingly, basic and diluted net loss per common share are the same for each period as the effect of stock options is anti-dilutive. Shares of underlying stock options not included in the diluted computation amounted to 478,200 at September 30, 2012 and 1,228,200 at September 30, 2011.

5. Net Capital:

Siebert is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. Siebert has elected to use the alternative method, permitted by the Rule, which requires that Siebert maintain minimum net capital, as defined, equal to the greater of \$250,000 or two percent of aggregate debit balances arising from customer transactions, pursuant to the Rule. As of September 30, 2012, Siebert had net capital of approximately \$17,603,000 as compared with net capital requirements of \$250,000.

6. Revenue:

Commissions and fees earned on customer trades together with related clearing expenses are recorded on a trade-date basis. Fees, consisting principally of revenue participation with the Company's clearing broker in distribution fees and interest, are recorded as earned.

Trading profits are also recorded on a trade-date basis.

Investment banking revenue includes gains and fees, net of syndicate expenses, arising from underwriting syndicates in which the Company participates. Investment banking management fees are recorded on the offering date, sales concessions on the settlement date and underwriting fees at the time the underwriting is completed and the income is reasonably determinable.

Interest is recorded on an accrual basis and dividends are recorded on the ex-dividend date.

7. Capital Transactions:

On January 22, 2008, the Board of Directors of the Company authorized a buy back of up to 300,000 shares of common stock. Shares will be purchased from time to time, at management's discretion, in the open market and in private transactions. During the nine months ended September 30, 2012, the Company purchased 7,277 shares at an average price of \$1.67.

A summary of the Company's stock option transactions for the nine months ended September 30, 2012 is presented below:

		Shares	Weighted Average Exercise Price
Outstanding	January 1, 2012	1,228,200	\$ 3.88
Expired		(750,000)	\$ 4.30
Outstanding	September 30, 2012 (a)	478,200	\$ 3.21

(a) Shares are fully vested and exercisable.

As of September 30, 2012, there was no unrecognized compensation cost.

8. Investment in and Advances to Affiliates: Siebert,

Brandford, Shank & Co., L.L.C. (SBS)

Siebert holds a 49% ownership interest in SBS which is engaged in municipal bond underwritings. Income or loss from SBS is considered to be integral to Siebert's operations and material to its results of operations.

Summarized financial data of SBS is set forth below.

Siebert's share of net income (loss) for the three months ended September 30, 2012 and 2011 amounted to \$186,000 and \$973,000, respectively, and for the nine months ended September 30, 2012 and 2011 amounted to \$888,000 and \$(392,000), respectively.

Siebert received distributions from SBS of \$95,000 during the nine months ended September 30, 2012, and Siebert's share of undistributed earnings from SBS amounted to \$8,638,000 at September 30, 2012. Such amount may not be immediately available for distribution to Siebert for various reasons including the amount of SBS's available cash, the provisions of the agreement among Siebert and the principals of SBS and SBS's continued compliance with its regulatory and net capital requirements.

SBS Financial Products Company, LLC (SBSFPC)

The Company has a 33.33% ownership interest in, and the two individual principals of SBS have an aggregate 66.66% ownership interest in, SBSFPC which engages in derivatives transactions related to the municipal underwriting business. Income and loss from SBSFPC is considered to be integral to the Company's operations and material to the results of operations.

Summarized financial data of SBSFPC is set forth below.

	September 30,	
	2012	2011
Total assets	\$ 173,860,000	
Total liabilities	172,767,000	
Total members' capital	1,093,000

The Company's share of net income of SBSFPC for the three months ended September 30, 2012 and 2011 amounted to \$58,000 and \$2,000, respectively. The Company's share of net income (loss) of SBSFPC for the nine months ended September 30, 2012 and 2011

amounted to \$42,000 and \$(10,000), respectively.

At September 30, 2012, SBSFPC had cumulative distributions in excess of cumulative earnings in the amount of \$107,000 of which the Company's share was \$36,000. The Company received a distributions from SBSFPC of \$2,000 during the nine months ended September 30, 2012.

9. Contingent Liabilities:

Retail customer transactions are cleared through clearing brokers on a fully disclosed basis. If customers do not fulfill their contractual obligations, the clearing broker may charge Siebert for any loss incurred in connection with the purchase or sale of securities at prevailing market prices to satisfy the customer obligations. Siebert regularly monitors the activity in its customer accounts for compliance with its margin requirements. Siebert is exposed to the risk of loss on unsettled customer transactions if customers are unable to fulfill their contractual obligations. There were no material losses for unsettled customer transactions for the nine months ended September 30, 2012 and 2011.

As previously discussed in our Annual Report on Form 10-K for the year ended December 31, 2011 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2012 and the quarter ended June 30, 2012, in 2009, Siebert was named as one of the defendants in a class action pending in the United States District Court, Southern District of New York. The complaint was brought on behalf of a class of purchasers in a public offering by Lehman Brothers Holdings, Inc. of \$1,500,000,000 of 6.75% Subordinated Notes due 2017 (the Notes) as to Siebert and certain smaller issuances of other securities. The complaint asserted that Siebert and other underwriters of the Notes violated Section 11 of the Securities Act of 1933 in that relevant offering materials were false and misleading. Siebert had agreed to purchase \$15 million of the Notes and \$462,953 of the other securities as an underwriter in the offerings. Siebert and the plaintiffs class agreed to resolve all claims against Siebert in consideration of a \$1 million payment by Siebert. The settlement was accrued as of December 31, 2011, paid into an escrow account during the first quarter of 2012 and approved by the court on May 2, 2012. As certain plaintiffs did not agree to a settlement or purchased securities that were not covered by the settlement, additional liability to the Company is possible. At present, the Company is uncertain as to the potential liability, if any, in connection with these plaintiffs.

Siebert is party to certain other claims, suits and complaints arising in the ordinary course of business. In the opinion of management all such claims, suits and complaints are without merit, or involve amounts which would not have a material effect on the financial position or results of operations of the Company.

Siebert is party to a Secured Demand Note Collateral Agreement, as amended on July 27, 2012, with SBS which obligates Siebert to lend SBS, on a subordinated basis, up to \$1,200,000. The secured demand note payable held by SBS and a related \$1,200,000 receivable due from SBS are included in investments in and advances to equity investees in the accompanying consolidated statement of financial condition. Amounts that Siebert is obligated to lend under this arrangement are collateralized by cash equivalents of \$1,532,000. Any amounts loaned will bear interest at 4% per annum and are repayable on August 31, 2014.

10. Income Taxes:

Income tax provision for the periods presented represent various minimum state taxes based on capital, and with respect to the three and nine months ended September 30, 2012, include a state tax assessment of \$34,000 relating to years 2007, 2008 and 2009 based on a tax examination. There is no provision for income taxes for the nine months ended September 30, 2012 because the Company incurred a loss for income tax purposes, during such period attributable to a deductible temporary difference related to litigation arising during 2011, the benefit of which was fully reserved at the beginning of the year. No tax benefit related to pre-tax losses incurred during the three and nine months ended September 30, 2011 has been recognized due to the recording of the valuation allowance to offset related deferred tax assets arising from such losses. Due to cumulative losses incurred by the Company and its subsidiaries during the prior three years, the Company has concluded that it is more likely than not that it will not realize its net deferred tax asset and, accordingly, has recorded a valuation allowance to fully offset its net deferred tax asset at September 30, 2012, which amounted to \$4,209,000.

11. Impairment of Fixed Assets:

On June 30, 2012, the Company discontinued its relationship with a software vendor, which had developed and maintained the Company's website. As a result, the Company wrote off its remaining unamortized carrying value of development costs of \$433,000. Effective July 1, 2012, such services are being provided by the Company's clearing broker.

12. Significant Customer:

During the nine months ended September 30, 2012, commission income earned from one customer accounted for approximately 10% of total overall revenue.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with our audited consolidated financial statements as of and for the year ended December 31, 2011, and the unaudited consolidated financial statements and the notes thereto contained elsewhere in this Quarterly Report.

Business Environment

Our working capital is invested primarily in money market funds, so that liquidity has not been materially affected. The recent financial crisis did have the effect of reducing participation in the securities market by our retail and institutional customers, which had an adverse effect on our revenues. However the stock market has improved in the nine months ended September 30, 2012 consequently so have our revenues. Our affiliate, Siebert, Brandford, Shank & Co., L.L.C. (SBS) had income for the current nine month period of approximately \$1.8 million as a result of industry volumes increasing in the current period this year as compared to a loss of \$800,000 for the same period last year due to municipalities struggling with the fiscal crisis, concerns about defaults at the state and local level and the expiration of the Build America Bonds program in 2011. This increase in SBS's income resulted in income to the Company of \$888,000 for the current nine month period. Our expenses include the costs of an arbitration proceeding commenced by a former employee following the termination of his employment, which remains unresolved. The Company believes that the action is without merit, but the costs of defense, which are included as professional expenses, have adversely affected the Company's results of operations and may continue to affect the results of operations until the action is completed. Competition in the brokerage industry remains intense.

The following table sets forth certain metrics as of September 30, 2012 and 2011 and for the three and nine months ended September 30, 2012 and 2011, respectively, which we use in evaluating our business.

Description:

Total retail trades represent retail trades that generate commissions.

Average commission per retail trade represents the average commission generated for all types of retail customer trades.

Retail customer net worth represents the total value of securities and cash in the retail customer accounts before deducting margin debits.

Retail customer money market fund value represents all retail customers accounts invested in money market funds.

Retail customer margin debits balances represent credit extended to our customers to finance their purchases against current positions.

Retail customer accounts with positions represent retail customers with cash and/or securities in their accounts.

Like other securities firms, we are directly affected by general economic and market conditions including fluctuations in volume and prices of securities, changes and prospects for changes in interest rates and demand for brokerage and investment banking services, all of which can affect our relative profitability. In periods of reduced market activity, profitability is likely to be adversely affected because certain expenses, including salaries and related costs, portions of communications costs and occupancy expenses, remain relatively fixed. Earnings, or loss, for any period should not be considered representative of any other period.

Recent Developments

Critical Accounting Policies

We generally follow accounting policies standard in the brokerage industry and believe that our policies appropriately reflect our financial position and results of operations. Our management makes significant estimates that affect the reported amounts of assets, liabilities, revenues and expenses and the related disclosure of contingent assets and liabilities included in the financial statements. The estimates relate primarily to revenue and expense items in the normal course of business as to which we receive no confirmations, invoices, or other documentation at the time the books are closed for a period. We use our best judgment, based on our knowledge of these revenue transactions and expenses incurred, to estimate the amounts of such revenue and expense. We are not aware of any material differences between the estimates used in closing our books for the last five years and the actual amounts of revenue and expenses incurred when we subsequently receive the actual confirmations, invoices or other documentation. Estimates are also used in determining the useful lives of intangible assets, and the fair market value of intangible assets and securities. Our management believes that its estimates are reasonable.
