THERE ARE IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE EXPRESSED OR IMPLIED BY THESE FORWARD-LOOKING STATEMENTS, INCLUDING OUR PLANS, OBJECTIVES, EXPECTATIONS AND INTENTIONS AND OTHER FACTORS.

PART I

Item 1. Description of Business

Vita Spirits Corp.'s primary operations began in April 2006. The Company intends to change its primary operations from an e-commerce focus to a producer of vitamin and other mineral enriched alcoholic beverages, which will be marketed directly in China and Taiwan. As part of the change in operations, the Company has undergone a name change from Revo Ventures Inc. to Vita Spirits Corp. to better reflect the Company's new focus. We expect that an initial trial product will complete development by the end of June 2010. We currently have not advanced beyond the business plan state from our inception until the date of this filing. We anticipate that in order for us to begin commercialization and retail sale of any of our intended products, we will need to raise additional capital. We currently do not have any specific plans to raise these funds.

Competition

The alcoholic beverage market in China and Taiwan is highly fragmented and populated with many different developers specializing in different niche segments. Other than a few multinational brands, most of these manufacturers are small in size and service only a limited amount of customers and product segment.

Insurance

Currently, we have no insurance coverage.

Government Regulation

We are currently not subject to any government regulations.

Offices

The Company's headquarters and executive offices are located at Post Office 020, Lu Yuan District, Chang Chun, Jin Lin, China, 130062. Our telephone number is 604 269 6622.

Employees

We currently do not have any employees.

Subsidiaries

We do not have any subsidiaries

Bankruptcy, Receivership, or Similar Proceedings

There has been no bankruptcy, receivership, or similar proceedings

Patents and Trademarks

We do not have any patents or trademarks

Legal Proceedings

We are not a party to any material legal proceeding, nor are any of our officers, directors or affiliates' a party adverse to us in any legal proceeding.

Item 1A: Risk Factors

In addition to the other information in this report and our other filings with the SEC, you should carefully consider the risks described below. These risks are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also impair our business operations. If any of the following risks occur, our business, financial condition or operating results could be materially and adversely affected.

Risks associated with Vita Spirits Corp.:

- 1. Our auditors have issued a going concern opinion.** This means we may not be able to achieve our objectives and may have to suspend or cease operations. Our auditors have issued a going concern opinion as at July 31, 2009. This means that there is substantial doubt that we can continue as an ongoing business without additional financing and/or generating profits. If we are unable to do so, we will have to cease operations and you will lose your investment.
- 2. Because all of our assets and our officers and directors are located outside the United States of America, it may be difficult for an investor to enforce within the United States any judgments obtained against us or any of**

our officers and directors. All of our assets are located outside of the United States and we do not currently maintain a permanent place of business within the United States. In addition, our directors and officers are nationals and/or residents of countries other than the United States, and all or a substantial portion of such persons' assets are located outside the United States. As a result, it may be difficult for an investor to effect service of process or enforce within the United States any judgments obtained against us or our officers or directors, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state thereof. In addition, there is uncertainty as to whether the courts of Canada and other jurisdictions would recognize or enforce judgments of United States courts obtained against us or our director and officer predicated upon the civil liability provisions of the securities laws of the United States or any state thereof, or be competent to hear original actions brought in Canada or other jurisdictions against us or our director and officer predicated upon the securities laws of the United States or any state thereof.

3. Because we have only one officer and director who are responsible for our managerial and organizational structure, in the future, there may not be effective disclosure and accounting controls to comply with applicable laws and regulations which could result in fines, penalties and assessments against us. We have only one officer and director. He is responsible for our managerial and organizational structure which will include preparation of disclosure and accounting controls under the Sarbanes Oxley Act of 2002. When these controls are implemented, they will be responsible for the administration of the controls. Should they not have sufficient experience, they may be incapable of creating and implementing the controls which may cause us to be subject to sanctions and fines by the SEC which ultimately could cause you to lose your investment.

4. Because our sole executive officer will only be devoting limited time to our operations, our operations could be sporadic which may result in periodic interruptions or suspensions of operations and a lack of revenues which may cause us to cease operations. Mr. Tie Ming Li, our sole executive officer will only be devoting limited time to our operations. Mr. Li will be devoting approximately twenty five hours a week to our operations. Because Mr. Li will only be devoting limited time to our operations, our operations may be sporadic and occur at times which are convenient to Mr. Li. As a result, operations may be periodically interrupted or suspended which could result in a lack of revenues and a possible cessation of operations.

5. Because we do not maintain any insurance, if a judgment is rendered against us, we may have to cease operations. We do not maintain any insurance and do not intend to maintain insurance in the future. Because we do not have any insurance, if we are made a party to a lawsuit, we may not have sufficient funds to defend the litigation. In the event that we do not defend the litigation or a judgment is rendered against us, we may have to cease operations.

6. If we are not able to effectively respond to competition, our business may fail. There are many small companies in Asia and around the world which are developing similar products to our proposed business venture. Most of these competitors have established businesses with an established customer base. We will attempt to compete against these groups by offering a much higher quality product compared to our competitors products with a more customizable product. However, we cannot assure you that such a strategy will be successful, or that competitors will not copy our business strategy. Our inability to achieve sales and revenues due to competition will have an adverse effect on our business operations and financial condition.

7. We need to raise additional investment capital in the future in order to commence our business operations. If we are unable to raise the required investment capital, you may lose all of your investment in the current economic environment; it is extremely difficult for companies without profits or revenues, such as us, to raise capital. We currently do not have a specific plan of how we will obtain such funding; however, we anticipate that additional funding will be in the form of equity financing from the sale of our common stock. In the event we are not successful in selling our common stock, we may also seek to obtain short-term loans from our director, although no such arrangement has been made. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our director to meet our initial capital

requirement needs. If we are unable to raise the required financing, we will be unable to proceed with our business plan and you may lose your entire investment.

8. Our principal shareholder controls the majority of our common stock; investors will have little control over our management or other matters requiring shareholder approval. Mr. Tie Ming Li currently owns 37,500,000, or approximately 70.42%, of our outstanding common stock if the offering is completely sold, giving him the ability to control all matters submitted to our stockholders for approval and to control our management and affairs, including the election of our directors; the acquisition or disposition of our assets, the future issuance of our shares and approval of other significant corporate transactions. Our principal shareholder may also have interests that differ from yours and may vote in a way with which you disagree and which may be adverse to your interests.

9. Because our articles of incorporation authorize the issuance of 75,000,000 shares of common stock, an investor faces the risk of having their percentage ownership diluted in the future. We anticipate that any additional funding will be in the form of equity financing from the sale of our common stock. In the future, if we do sell more common stock, your investment could be subject to dilution. Dilution is the difference between what you pay for your stock and the net tangible book value per share immediately after the additional shares are sold by us. These shares may also be issued without security holder approval and, if issued, may be granted voting powers, rights, and preferences that differ from and may be superior to those of the registered shares.

10. The market price for our Common Stock may be volatile. In the future, there may be volatility in the market price for our Common Stock. Furthermore, the market price of our Common Stock could fluctuate substantially in the future in response to a number of factors, including the following:

- * fluctuations in our quarterly operating results or the operating results of our competitors;
- * changes in general conditions in the economy, the financial markets, or our industry;
- * announcements of significant acquisitions, strategic alliances or joint ventures by us, our customers or our competitors;
- * introduction of new products or services;
- * increases in the price of energy sources and other raw materials; and
- * other developments affecting us, our industry, customers or competitors.

In addition, in recent years the stock market has experienced extreme price and volume fluctuations. This volatility has had a significant effect on the market prices of securities issued by many companies for reasons unrelated to their operating performance. These broad market fluctuations may materially adversely affect our Common Stock price, regardless of our operating results. Given its relatively small public float and average daily trading volume, our Common Stock may be relatively more susceptible to volatility arising from any of these factors. There can be no assurance that the price of our Common Stock will increase in the future or be maintained at its recent levels.

11. Future sales of our Common Stock could depress its market price. Future sales of shares of our Common Stock could adversely affect its prevailing market price. If our officers, directors or significant stockholders sell a large number of shares, or if we issue a large number of shares, the market price of our Common Stock could significantly decline. Moreover, the perception in the public market that stockholders might sell shares of Common Stock could depress the market for our Common Stock. Our Common Stock's relatively small public float and average daily trading volume may make it relatively more susceptible to these risks.

Item 7: Management's Discussion and Analysis or Plan of Operation

The following discussion and analysis provides information which management of Vita Spirits Corp. (the "Company") believes to be relevant to an assessment and understanding of the Company's results of operations and financial condition. This discussion should be read together with the Company's financial statements and the notes to financial statements, which are included in this report.

Overview

Vita Spirits Corp.'s primary operations began in April 2006. The Company intends to change its primary operations from an e-commerce focus to a producer of vitamin and other mineral enriched alcoholic beverages, which will be marketed directly in China and Taiwan. As part of the change in operations, the Company has undergone a name change from Revo Ventures Inc. to Vita Spirits Corp. to better reflect the Company's new focus. We expect that an initial trial product will complete development by the end of June 2010. We currently have not advanced beyond the business plan state from our inception until the date of this filing. We anticipate that in order for us to begin commercialization and retail sale of any of our intended products, we will need to raise additional capital. We currently do not have any specific plans to raise these funds.

Results of Operations

Revenues

There were no revenues generated for the fiscal period ended July 31, 2009 and no revenues have been earned by the Company since its inception.

General & Administrative Expenses

General and administrative expenses totaled \$7,682 for the fiscal year ended July 31, 2009. This is compared to general and administrative expenses totaling \$17,973 for the fiscal year ended July 31, 2008. This decrease in general and administrative expenses is largely attributed to a decrease in fees paid for professional services related to registering the Company for publicly trading.

We experienced a net loss of \$7,682 for the fiscal year ended July 31, 2009 compared to a net loss of \$17,973 for the fiscal year ended July 31, 2008.

Liquidity and Capital Resources

As of July 31, 2009, the Company had cash of \$14. Management does not expect that the current level of cash on hand will be sufficient to fund our operation for the next twelve month period. In the event that additional funds are required to maintain operations, our officers and directors have agreed to advance us sufficient capital to allow us to continue operations. We may also be able to obtain loans from our shareholders, but there are no agreements or understandings in place currently.

We believe that we will require additional funding to expand our business and ensure its future profitability. We anticipate that any additional funding will be in the form of equity financing from the sale of our common stock. However, we do not have any agreements in place for any future equity financing. In the event we are not successful in selling our common stock, we may also seek to obtain short-term loans from our director.

Item 7A: Quantitative and Qualitative Disclosures about Market Risk

Please see Item 1A above, "Risk Factors," for a discussion of these and other risks and uncertainties we face in our business.

Item 8: Financial Statements

The financial statements required to be filed pursuant to this Item 8 begin on page F-1 of this report.

Item 9: Changes In Disagreements With Accountants on Accounting and Financial Disclosure

The Financial Statements of the Company have been audited by M&K CPAS, PLLC for the fiscal year ended July 31, 2009 and July 31, 2008. There have been no changes in or disagreements with either M&K CPAS, PLLC on accounting and financial disclosure matters at any time.

Item 9A: Controls and Procedures

Managements Evaluation of Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our chief executive officer and chief financial officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (the Exchange Act). Based on that evaluation, our chief executive officer and chief financial officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, and summarized and reported within the time periods specified in the Securities and Exchange Commissions rules and forms and (2) accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Our Principal Executive Officer and Principal Financial Officer do not expect that our disclosure controls or internal controls will prevent all error and all fraud. Although our disclosure controls and procedures were designed to provide

reasonable assurance of achieving their objectives and our principal executive and financial officer have determined that our disclosure controls and procedures are not effective at doing so, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute assurance that the objectives of the system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented if there exists in an individual a desire to do so. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Furthermore, smaller reporting companies face additional limitations. Smaller reporting companies employ fewer individuals and find it difficult to properly segregate duties. Often, one or two individuals control every aspect of the Company's operation and are in a position to override any system of internal control. Additionally, smaller reporting companies tend to utilize general accounting software packages that lack a rigorous set of software controls.

Managements Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Exchange Act. Our internal control system was designed to provide reasonable assurance to our management and board of directors regarding the preparation and fair presentation of published financial statements. Our management assessed the effectiveness of our internal control over financial reporting as of June 30, 2009. In making this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control Integrated Framework. Based on our assessment we believe that, as of June 30, 2009, our internal control over financial reporting was effective based on those criteria.

Changes in Internal control Over Financial Reporting

There have been no changes in the Companys internal control over financial reporting through the date of this report or during the quarter ended June 30, 2009, that materially affected, or is reasonably likely to materially affect, the Companys internal control over financial reporting.

Independent Registered Accountants Internal Control Attestation

This annual report does not include an attestation report of the Companys registered public accounting firm regarding internal control over financial reporting. Managements report was not subject to attestation by the Companys registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only managements report in this annual report.

Item 10: Directors, Executive Officers, Promoters and Control Persons; Compliance with Section 16(a) of the Exchange Act

Officers and Directors

Each of our directors serves until his or her successor is elected and qualified. Each of our officers is elected by the board of directors to a term of one (1) year and serves until his or her successor is duly elected and qualified, or until he or she is removed from office. The board of directors has no nominating, auditing or compensation committees.

The name, age, and position of our present officers and directors are set forth below:

Name	Age	Position Held
Tie Ming Li	41	President, Principal Executive Officer, Principal Financial Officer, Principal Accounting Officer, Treasurer, Secretary, and Director

Each director serves until our next annual meeting of the stockholders or unless they resign earlier. The Board of Directors elects officers and their terms of office are at the discretion of the Board of Directors.

Background of officers and directors

Tie Ming Li is a successful entrepreneur in the hospitality and spirits industry, and for the past five years, has owned and managed several restaurants and nightclub establishments in the province of Shandong, China.

Audit Committee Financial Expert

We do not have an audit committee financial expert. We do not have an audit committee financial expert because we believe the cost related to retaining a financial expert at this time is prohibitive. Further, because we are only beginning our commercial operations, at the present time, we believe the services of a financial expert are not warranted.

Conflicts of Interest

The only conflict that we foresee is that our officers and directors devote time to projects that do not involve us.

SECTION 16(A) BENEFICIAL OWNER REPORTING COMPLIANCE

Section 16(a) of the Securities and Exchange Act of 1934 requires that the Company's directors, executive officers, and persons who own more than 10% of registered class of the Company's equity securities, or file with the Securities and Exchange Commission (SEC), initial reports of ownership and report of changes in ownership of common stock and other equity securities of the Company. Officers, directors, and greater than 10% beneficial owners are required by SEC regulation to furnish the Company with copies of all Section 16(a) reports they file. As of the fiscal year ending July 31, 2009, Form 3 reports were not timely filed by Jianbin Chen, the Company's President.

Code of Ethics

The Company has adopted code of ethics for all of the employees, directors and officers which is attached to this Annual Report as Exhibit 14.1.

Item 11: Executive Compensation

The following table sets forth information with respect to compensation paid by us to our officers and directors during the four most recent fiscal years. This information includes the dollar value of base salaries, bonus awards and number

of stock options granted, and certain other compensation, if any.

Option/SAR Grants

There are no stock option, retirement, pension, or profit sharing plans for the benefit of our officers and directors.

Long-Term Incentive Plan Awards

We do not have any long-term incentive plans.

Compensation of Directors

We do not have any plans to pay our directors any money.

Indemnification

Under our Articles of Incorporation and Bylaws of the corporation, we may indemnify an officer or director who is made a party to any proceeding, including a law suit, because of his position, if he acted in good faith and in a manner

he reasonably believed to be in our best interest. We may advance expenses incurred in defending a proceeding. To the extent that the officer or director is successful on the merits in a proceeding as to which he is to be indemnified, we must indemnify him against all expenses incurred, including attorney's fees. With respect to a derivative action, indemnity may be made only for expenses actually and reasonably incurred in defending the proceeding, and if the officer or director is judged liable, only by a court order. The indemnification is intended to be to the fullest extent permitted by the laws of the State of Nevada.

Regarding indemnification for liabilities arising under the Securities Act of 1933, which may be permitted to directors or officers under Nevada law, we are informed that, in the opinion of the Securities and Exchange Commission, indemnification is against public policy, as expressed in the Act and is, therefore, unenforceable.

Item 12: Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth, as of the date of this prospectus, the total number of shares owned beneficially by each of our directors, officers and key employees, individually and as a group, and the present owners of 5% or more of our total outstanding shares. The table also reflects what their ownership will be assuming completion of the sale of all shares in this offering. The stockholders listed below have direct ownership of his/her shares and possess sole voting and dispositive power with respect to the shares. The address for each person is our address at Post Office 020, Lu Yuan District, Chang Chun, Jin Lin, China, 130062.

Name of Beneficial Owner	Direct Amount of Beneficial Owner	Position	Percent of Class
Jianbin Chen	37,500,000	Greater than 5% shareholder	70.4%

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders, Audit Committee and Board of Directors

Vita Spirits Corp.

(A Development Stage Company)

Chang Chun, China

We have audited the accompanying balance sheets of Vita Spirits Corp. as of July 31, 2009 and 2008, and the related statements of operations, stockholders' deficit and cash flow for the years then ended and the period from April 17, 2006 (inception) through July 31, 2009. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal controls over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Vita Spirits Corp. as of July 31, 2009 and the results of their operation and their cash flow for the periods noted, in conformity with U.S. generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has suffered recurring losses from operations, has a net stockholders' deficit and there is substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might reflect these uncertainties.

Vita Spirits Corp.

(A Development Stage Company)

NOTES TO FINANCIAL STATEMENTS

For the year ended July 31, 2009

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Vita Spirits Corp.'s primary operations began in April 2006. The Company intends to change its primary operations from an e-commerce focus to a producer of vitamin infused alcoholic beverages. As part of the change in operations, the Company has undergone a name change from Revo Ventures Inc. to Vita Spirits Corp. to better reflect the Company's new focus.

Basis of Presentation

The Company follows accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the periods presented have been reflected herein.

Revenue Recognition

Revenue is recognized when it is realized or realizable and earned. Vita considers revenue realized or realizable and earned when persuasive evidence of an arrangement exists, services have been provided, and collectability is reasonably assured. Revenue that is billed in advance such as recurring weekly or monthly services are initially deferred and recognized as revenue over the period the services are provided.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. As of July 31, 2009 and 2008, there were no cash equivalents.

Development Stage Company

The Company complies with Statement of Financial Accounting Standard ("SFAS") No. 7 and the Securities and Exchange Commission Exchange Act 7 for its characterization of the Company as development stage.

Impairment of Long Lived Assets

Long-lived assets are reviewed for impairment in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-lived Assets". Under SFAS No. 144, long-lived assets are tested for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. An impairment charge is recognized or the amount, if any, which the carrying value of the asset exceeds the fair value.

Fair Value of Financial Instruments

Financial instruments, including cash, receivables, accounts payable, and notes payable are carried at amounts which reasonably approximate their fair value due to the short-term nature of these amounts or due to variable rates of interest which are consistent with market rates. No adjustments have been made in the current period.

Income Taxes

The Company accounts for income taxes under the Financial Accounting Standards Board of Financial Accounting Standard No. 109, "Accounting for Income Taxes" ("Statement 109"). Under Statement 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under Statement 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. There was no current or deferred income tax expense or benefits for the periods ending July 31, 2009 and 2008.

Basic and Diluted Net Loss Per Common Share

Basic and diluted net loss per share calculations are calculated on the basis of the weighted average number of common shares outstanding during the year. The per share amounts include the dilutive effect of common stock equivalents in years with net income. Basic and diluted loss per share is the same due to the anti dilutive nature of potential common stock equivalents.

Website Development Cost

The Company adopted EITF 00-2, "Accounting for Website Development Costs, which specifies the appropriate accounting for costs incurred in connection with the development and maintenance of websites. Under the EITF 00-2, website development costs are capitalized when acquired and installed, and are being amortized over its estimated useful life. For the period ended July 31, 2009, the website development has not yet commenced and no cost has been incurred.

Stock Based Compensation

The Company has adopted SFAS No. 123(R), Accounting for Stock Based Compensation, to account for its stock issuances. SFAS No. 123(R) requires all share-based payments to employees (which includes non-employee Board of Directors), including employee stock options, warrants and restricted stock, be measured at the fair value of the award and expensed over the requisite service period (generally the vesting period). The fair value of common stock options or warrants granted to employees is estimated at the date of grant using the Black-Scholes option pricing model by using the historical volatility of comparable public companies. The calculation also takes into account the common stock fair market value at the grant date, the exercise price, the expected life of the common stock option or warrant, the dividend yield and the risk-free interest rate.

Restricted stock, options or warrants issued to other than employees or directors are recorded on the basis of their fair value, which is measured as of the date required by Emerging Issues Task Force (EITF) Issue 96-18, Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services. In accordance with EITF 96-18, the options or warrants are valued using the Black-Scholes option pricing model on the basis of the market price of the underlying equity instrument on the valuation date, which for options and warrants related to contracts that have substantial disincentives to non-performance, is the date of the contract, and for all other contracts is the vesting date. Expense related to the options and warrants is recognized on a straight-line basis over the shorter of the period over which services are to be received or the vesting period.

The Company did not grant any stock options during the period ended July 31, 2009 and 2008.

Advertising Expenses

The company expenses advertising costs as incurred. There was no advertising expense incurred by the company during the period ended July 31, 2009 and 2008.

Recent Accounting Pronouncements

In March 2008, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities. The new standard is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company does not expect the adoption of this accounting pronouncement to have a significant impact on its results of operations, financial position or cash flow.

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 162, The Hierarchy of Generally Accepted Accounting Principles (statement No. 162). Statement No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in preparation of the financial statements of non government entities that are presented in conformity with U.S. GAAP (the GAAP hierarchy). Statement No. 162 will become effective sixty days following the Securities and Exchange Commission's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles. The adoption of Statement No. 162 is not expected to materially impact the Company's financial position or results of operations.

2. GOING CONCERN

Vita's financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities and commitments in the normal course of business for the foreseeable future. Since inception, the Company has accumulated losses aggregating to \$55,707 and has insufficient working capital to meet operating needs for the next twelve months as of July 31, 2009, all of which raise substantial doubt about Vita's ability to continue as a going concern.

3. COMMON STOCK TRANSACTIONS

On July 14, 2006, the Company sold 5,000,000 common shares at \$0.001 per share to the sole director of the Company for total proceeds of \$5,000.

On May 6, 2007, the Company sold 2,100,000 common shares pursuant to a registration statement at \$0.01 per share for total proceeds of \$21,000.

On April 22, 2008, the Company approved a forward split a 15 for 2 forward stock split to our stockholders of record as of April 23, 2008. The Company increased the authorized shares from 50,000,000 to 75,000,000. The Company did not change the par value of the shares. All references to share value in these financial statements have been restated to reflect this split. Subsequent to the forward split, the Company had 53,250,000 common shares issued and outstanding.

4. COMMITMENTS

The Company leases office space on a month to month basis at \$450 per month.

5. RELATED PARTY TRANSACTIONS

An officer has loaned the Company \$16,000, without interest and fixed term of repayment. Imputed interest in the amount of \$368 has been included in additional paid in capital.

6. INCOME TAXES

The Company uses the liability method, where deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes. During fiscal 2009 and 2008, the Company incurred net losses and, therefore, has no tax liability. The net deferred tax asset generated by the loss carry forward has been fully reserved. The cumulative net operating loss carry forward is approximately \$55,000 and \$48,000 at July 31, 2009 and 2008, respectively, and will expire in the years 2026 through 2028.

At July 31, 2009 and 2008, deferred tax assets consisted of the following:

	2009	2008
Net operating loss carry forward	\$ 18,940	\$ 16,329
Valuation allowance	(18,940)	(16,329)
Net future income tax assets	\$ -	\$ -
