The initial seed financing will be put towards developing the company's website, designing and writing the software, and paying for costs related to registering the Company's common stock for public sale. Overview

Revo Ventures Inc. was incorporated in the state of Nevada on April 17, 2006. We intend to commence operations as a software developer which will create parental filter software for restricting computer and Internet access on a personal computer. The initial region we plan to market our website to is the Chinese domestic market. We currently have signed a contract with a Chinese web developer to create and develop our company's web front. We expect that our website will complete the beta phase of development by the end of December 2007. We currently have not advanced beyond the business plan state from our inception until the date of this filing. We plan to raise initial seed financing through the sale of our common shares as described in this offering. The initial seed financing will be put towards developing the company's website, designing and writing the software, and paying for costs related to registering the Company's common stock for public sale. We anticipate that in order for us to begin commercialization and retail sale of our software, we will need to raise additional capital. We currently do not have any specific plans to raise these funds.

Results of Operations

Revenues

There were no revenues generated for the fiscal period ended July 31, 2007 and no revenues have been earned by the Company since its inception. We do not expect to be generating revenues until the 2nd phase of the Company's website is complete and commercialization of the Company's product and services can begin.

General & Administrative Expenses

General and administrative expenses totaled \$27,227 for the fiscal year ended July 31, 2007. This is compared to general and administrative expenses totaling \$2,825 for the period from inception, April 17, 2006 to July 31, 2006. This increase in general and administrative expenses is largely attributed to an increase in fees paid for professional services related to registering the Company for publicly trading. The professional fees incurred are expected to be one-time fees and management does not expect them to be recurring in the future.

We experienced a net loss of \$27,227 for the fiscal year ended July 31, 2006 compared to a net loss of \$2,825 for the period from inception, April 17, 2006 to July 31, 2006.

Liquidity and Capital Resources

As of July 31, 2007, the Company had cash of \$5,078. Management does not expect that the current level of cash on hand will be sufficient to fund our operation for the next twelve month period. In the event that additional funds are required to maintain operations, our officers and directors have agreed to advance us sufficient capital to allow us to continue operations. We may also be able to obtain loans from our shareholders, but there are no agreements or understandings in place currently.

We believe that we will require additional funding to expand our business and ensure its future profitability. We anticipate that any additional funding will be in the form of equity financing from the sale of our common stock. However, we do not have any agreements in place for any future equity financing. In the event we are not successful in selling our common stock, we may also seek to obtain short-term loans from our director.

The financial statements required to be filed pursuant to this Item 7 begin on page F-1 of this report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

REVO VENTURES INC.

(A Development Stage Company)

Chang Chun, China

We have audited the accompanying balance sheet of Revo Ventures, Inc. as of July 31, 2007 and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows for the year then ended and for the period from April 17, 2006 (inception) through July 31, 2007. The financial statements for the period April 17, 2006 (inception) through July 31, 2006, were audited by other auditors whose reports expressed unqualified opinions on those statements. The financial statements for the period April 17, 2006 (inception) through July 31, 2006, include total revenues and net loss of \$0 and \$2,825, respectively. Our opinion on the statements of operations, stockholders' equity (deficit) and cash flows for the period April 17, 2006 (inception) through July 31, 2006, insofar as it relates to amounts for prior periods through July 31, 2006, is based solely on the reports of other auditors. These financial statements are the responsibility of Revo's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting

principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Revo as of July 31, 2007 and the results of its operations and cash flows for the periods described above in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that Revo will continue as a going concern. As discussed in Note 2 to the financial statements, Revo has suffered recurring losses from operations which raises substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters also are described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

REVO VENTURES, INC.

(A Development Stage Company)

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revo Ventures, Inc. (the "Company", "Revo") is a development stage company which was incorporated in the State of Nevada on April 17, 2006. The Company intends to commence operations as a developer of children's educational software and children's monitoring software.

Basis of Presentation

The Company follows accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the periods presented have been reflected herein.

Revenue Recognition

Revenue is recognized when it is realized or realizable and earned. Revo considers revenue realized or realizable and earned when persuasive evidence of an arrangement exists, services have been provided, and collectibility is reasonably assured. Revenue that is billed in advance such as recurring weekly or monthly services are initially deferred and recognized as revenue over the period the services are provided.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. As of July 31, 2007, there were no cash equivalents.

Development Stage Company

The Company complies with Statement of Financial Accounting Standard ("SFAS") No. 7 and the Securities and Exchange Commission Exchange Act 7 for its characterization of the Company as development stage.

Impairment of Long Lived Assets

Long-lived assets are reviewed for impairment in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-lived Assets". Under SFAS No. 144, long-lived assets are tested for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. An impairment charge is recognized or the amount, if any, which the carrying value of the asset exceeds the fair value.

Foreign Currency Translation

The Company is located and operating outside of the United States of America. It maintains its accounting records in U.S. Dollars, as follows:

At the transaction date, each asset, liability, revenue, and expense is translated into U.S. dollars by the use of exchange rates in effect at that date. At the period end, monetary assets and liabilities are remeasured by using the exchange rate

in effect at that date. The resulting foreign exchange gains and losses are included in operations.

The Company's currency exposure is insignificant and immaterial and we do not use derivative instruments to reduce its potential exposure to foreign currency risk.

Fair Value of Financial Instruments

Financial instruments, including cash, receivables, accounts payable, and notes payable are carried at amounts which reasonably approximate their fair value due to the short-term nature of these amounts or due to variable rates of interest which are consistent with market rates. No adjustments have been made in the current period.

Income Taxes The Company accounts for income taxes under the Financial Accounting Standards Board of Financial Accounting Standard No. 109, "Accounting for Income Taxes" ("Statement 109"). Under Statement 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under Statement 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. There was no current or deferred income tax expense or benefits for the periods ending July 31, 2007.

Basic and Diluted Net Loss Per Common Share

Basic and diluted net loss per share calculations are calculated on the basis of the weighted average number of common shares outstanding during the year. The per share amounts include the dilutive effect of common stock equivalents in years with net income. Basic and diluted loss per share is the same due to the anti dilutive nature of potential common stock equivalents.

Website Development Cost The Company adopted EITF 00-2, "Accounting for Website Development Costs," which specifies the appropriate accounting for costs incurred in connection with the development and maintenance of websites. Under the EITF 00-2, website development costs are capitalized when acquired and installed, and are being amortized over its estimated useful life. Recent Accounting Pronouncements

Revo does not expect the adoption of recently issued accounting pronouncements to have a significant impact on its results of operations, financial position or cash flow.

2. GOING CONCERN

Revo's financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities and commitments in the normal course of business for the foreseeable future. Since inception, the Company has accumulated losses aggregating to \$ 30,052 and has insufficient working capital to meet operating needs for the next twelve months as of July 31, 2007, all of which raise substantial doubt about Revo's ability to continue as a going concern.
