NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Global Healthcare REIT, Inc. (the Company or Global), formerly known as Global Casinos, Inc., is presented to assist in understanding the Company's consolidated financial statements. The consolidated financial statements and notes are representations of the Company's management who is responsible for their integrity and objectivity. These accounting policies conform to US generally accepted accounting principles (US GAAP) and have been consistently applied in the preparation of the consolidated financial statements.

Organization and Consolidation

The Company was organized with the intent of operating as a real estate investment trust (REIT) for the purpose of investing in real estate and other assets related to the healthcare industry. Prior to an acquisition on September 30, 2013, Global Casinos, Inc. operated two gaming casinos which were split-off and sold on September 30, 2013.

Simultaneous with the split-off and sale of the gaming operations, the Company acquired West Paces Ferry Healthcare REIT, Inc. (WPF).

The Company intends to make an election as a REIT under sections 856 through 859 of the Internal Revenue Code of 1986, as amended. Such election will be made by the Board of Directors at such time as the Board determines that such election is appropriate.

The Company receives the services of consultants and affiliates for which the service providers are not compensated either through cash or equity, and such costs are not currently recorded in the consolidated financial statements but are necessary for the operation of the business. If the Company had to pay for such services, operating expenses of the Company would have increased and operating cash flows of the Company would have decreased.

Acquisition of West Paces Ferry Healthcare REIT, Inc. (WPF)

On September 30, 2013, Global acquired all of the outstanding common stock of WPF in consideration of \$100. WPF owned a 65% membership interest in Dodge NH, LLC, which owned a skilled nursing facility located in Eastman, Georgia. Upon acquisition of WPF, a new board of directors and executive officers were installed who have the ability to exercise control over the combined entity. WPF's total assets and revenues are the largest of each of the combined entities. US GAAP requires that a company whose board of directors and management are able to control the combined entity and the entity which has the larger assets and revenues be treated as the acquirer for financial reporting purposes. The acquisition was accounted for as a reverse acquisition whereby WPF was deemed to be the accounting acquirer. The results of operations of Global have been included in the consolidated financial statements since the date of the reverse acquisition. The historical financial statements of WPF are presented as the historical financial statements of the Company.

Acquisition of Dodge NH, LLC

WPF acquired a 65% controlling interest in Dodge NH, LLC (Dodge) on March 15, 2013, from Georgia Healthcare REIT, Inc. (Ga. REIT). Ga. REIT is related to WPF through common ownership and control. Dodge was formed for the purpose of acquiring Middle Georgia Nursing Home, a 100 bed nursing home located in Eastman, Georgia. The nursing home acquisition was completed by Dodge effective July 1, 2012. From inception, Dodge has leased the facility to an unrelated third party nursing home operator described more fully in Note 12. The remaining 35% of Dodge is owned by Dodge Investors, LLC (Dodge Investors). Dodge Investors loaned funds totaling \$1,100,000 to Dodge that were used in conjunction with a loan from Colony Bank (Note 7) to acquire the facility on July 1, 2012. Dodge Investors represents a portion of the non-controlling interest in these consolidated financial statements.

Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with US GAAP for interim financial information pursuant to the rules and regulations of the Securities Exchange Commission. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary to make the consolidated financial statements not misleading have been included. Operating results for the three months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the entire year. The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2013 filed with the Securities and Exchange Commission.

The Company's consolidated financial statements include its accounts and the accounts of its subsidiaries over which it has control. Third party equity interests in subsidiaries are recognized as non-controlling interests in the consolidated financial statements. All significant inter-company balances and transactions have been eliminated in consolidation.

The Company's consolidated financial statements include the accounts of its consolidated subsidiaries when the Company is the primary beneficiary for entities deemed to be variable interest entities (VIEs) through which the Company has a controlling interest. Interests in entities acquired are evaluated based on US GAAP, which requires the consolidation of VIEs in which the Company is deemed to have the controlling financial interest. The Company has the controlling financial interest if the Company has the power to direct the activities of the VIE that most significantly impact its economic performance and the obligation to absorb losses or receive benefits from the VIE that could be significant to the Company. If the interest in the entity is determined not to be a VIE, then the entity is evaluated for consolidation based on legal form, economic substance, and the extent to which the Company has control and/or substantive participating rights under the respective ownership agreement. The Company did not have a VIE interest as of March 31, 2014.

There are judgments and estimates involved in determining if an entity in which the Company has an investment is a VIE. The entity is evaluated to determine if it is a VIE by, among other things, determining of the equity investors as a group have a controlling financial interest in the entity and if the entity has sufficient equity at risk to finance its activities without additional subordinated financial support.

Use of Estimates and Assumptions

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates included herein relate to the recoverability of assets and the value of long-lived assets. Actual results may differ from estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Restricted Cash

Restricted cash consisted of the following as of March 31, 2014 and December 31, 2013:

	March 31, 2014	December 31, 2013
Funds held in escrow related	\$3,654,566	\$ -
to construction projects		
Funds held in escrow related to private		
placement of common stock	-	106,500
Funds held in escrow under the terms of a note		
payable for purposes of paying future loan	201,138	201,138
costs		
	\$3,855,704	\$307,638

Concentration of Credit Risk

The Company maintains deposits in financial institutions that at times exceed the insured amount of \$250,000 provided by the US Federal Deposit Insurance Corporation (FDIC). The excess amounts at March 31, 2014 and December 31, 2013 are \$1,734,912 and \$908,281, respectively.

Property and Equipment

In accordance with purchase accounting guidance established for entities under common control, the property and equipment acquired from entities under common control are stated at their carrying value on the date of acquisition. Property and equipment acquired from third parties are recorded at their estimated fair value. Estimated fair value is determined with the assistance from independent valuation specialists using recent sales of similar assets, market conditions and projected cash flows of properties using standard industry valuation techniques.

Any subsequent betterments and improvements are stated at historical cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets. Useful lives of the assets are summarized as follows:

Land Improvements	15 years
Building and Improvements	30 years
Furniture, Fixtures and Equipment	10 years

Impairment of Long Lived Assets

When circumstances indicate the carrying value of property may not be recoverable, the Company reviews the asset for impairment. This review is based on an estimate of the future undiscounted cash flows, excluding interest charges, expected to result from the property's use and eventual disposition. This estimate considers factors such as expected future operating income, market and other applicable trends and residual value, as well as the effects of leasing demand, competition and other factors. If impairment exists, due to the inability to recover the carrying amount of the property, an impairment loss is recorded to the extent that the carrying value exceeds the estimated fair value of the property. Estimated fair value is determined with the assistance from independent valuation specialists using recent sales of similar assets, market conditions and projected cash flows of properties using standard industry valuation techniques.

Advances Due To and From Related Parties

The Company will periodically advance cash to and from various related parties as a part of the normal course of business. The Company plans to monitor these non-interest bearing advances on a continual basis, evaluating the creditworthiness of the related party and its ability to repay the advance, generally using the strength and projected cash flows of the underlying related party operations as a basis for extending credit. The Company records allowances for collection against the advances or writes off the account directly, when indisputable factors are present that indicate the related party will not be able to repay the advance.

Notes Receivable – Related Party

The Company evaluates its note receivable for impairment when it is probable the payment of interest and principal will not be made in accordance with the contractual terms of the note receivable agreement. Once a note has been determined to be impaired, it is measured to establish the amount of the impairment, if any, based on the fair value of the note determined using present value of expected future cash flows discounted at the note's effective interest. If the fair value of the impaired note receivable is less than the recorded investment in the note, a valuation allowance is recognized.

Deferred Loan Costs

Deferred loan costs are amortized over the life of the related loan using the straight-line method which approximates the effective interest method. Amortization expense for the three month period ended March 31, 2014 and the period from March 13, 2013 through March 31, 2013 totaled \$12,186 and \$1,774, respectively. Accumulated amortization totaled \$76,060 and \$63,874 as of March 31, 2014 and December 31, 2013, respectively. Deferred loan cost amortization is included as a component of interest expense in the consolidated statements of operations.

Deferred Lease Incentive

Dodge provided the lessee with an incentive to execute the lease on July 1, 2012, valued at \$20,000. This amount has been capitalized and is being amortized over the life of the lease. Amortization of this intangible asset is expected to total approximately \$4,000, per year through the initial term of the lease.

Goodwill

Goodwill represents the excess of the Company's purchase price over the fair values of the respective identifiable assets acquired and liabilities assumed in business combinations. Goodwill resulting from acquisitions is not amortized, but is tested for impairment annually or whenever events change and circumstances indicate that it is more likely than not that an impairment loss has occurred using specific methods described in US GAAP. As allowed by US GAAP, management initially performs a qualitative analysis of goodwill using qualitative factors to determine if it is more likely than not that the fair value of the Company is less than its carrying amount including goodwill. Such qualitative factors include macroeconomic conditions, industry and market considerations, cost factors, overall financial performance and other relevant entity-specific events. If after assessing the totality of events or circumstances, the Company determines through the qualitative assessment that the fair value of a reporting unit more likely than not exceeds its carrying value, no further evaluation is necessary, and performing the two-step impairment test outlined in US GAAP is not required. There were no triggering events that required a test of impairment of goodwill during the period ended March 31, 2014.

Revenue Recognition

The Company's leases may be subject to annual escalations of the minimum monthly rent required under each lease. The accompanying consolidated financial statements reflect rental income on a straight-line basis over the term of each lease. Cumulative adjustments associated with the straight-line rent requirement are reflected as a long-term asset and totaled \$33,000 and \$30,000 as of March 31, 2014 and December 31, 2013, respectively. Adjustments to reflect rent income on a straight-line basis totaled \$3,000 for the three month period ended March 31, 2014 and \$1,000 for the period from March 13, 2013 through March 31, 2013.

Income Taxes

The Company will elect to be taxed as a REIT at such a time as the Board of Directors, with the consultation of professional advisors, determines the Company qualifies as a REIT under applicable provisions of the Internal Revenue Code. The Company cannot predict for which tax year that election will be made. Therefore, applicable taxes have been recorded in the accompanying consolidated financial statements. To qualify as a REIT, the Company must meet a number of organizational and operational requirements including a requirement that it distribute at least

90% of its taxable income to its stockholders. As a REIT, the Company generally will not be subject to corporate level federal income tax on net income it distributes currently to its stockholders. The Company may be subject to certain state and local taxes on its income and property and to federal income and excise tax on its undistributed taxable income.

The Company uses the asset and liability method of accounting for income taxes. Accordingly, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected

to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates resulting from new legislation is recognized in income in the period of enactment. A valuation allowance is established against deferred tax assets when management concludes that the more likely than not realization criteria has not been met. The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained.

Earnings (Loss) Per Common Share

Basic loss per share is computed by dividing the net loss attributable to common shareholders for the period by the weighted average number of common shares outstanding during the period. Diluted net loss per share is computed based on the weighted average number of common shares and potentially dilutive common shares outstanding. The calculation of diluted net loss per share excludes potential common shares if the effect would be anti-dilutive. Potential common shares consist of incremental common shares issuable upon the exercise of warrants and shares issuable upon the conversion of preferred stock.

Potentially dilutive shares of 4,555,000 were not included in the calculations of diluted earnings per share for the period from March 13, 2013 (date of inception) through March 31, 2013, as their inclusion would have been anti-dilutive due to the loss recorded for the periods, and represent stock purchase warrants and shares issuable upon conversion of preferred stock.

Comprehensive Income

For the periods presented, there were no differences between reported net income (loss) and comprehensive income (loss).

Recently Issued Accounting Pronouncements

During April 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-08, "Presentation of Financial Statements and Property, Plant and Equipment; Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 modifies the requirements for reporting discontinued operations. Under the amendments in ASU 2014-08, the definition of discontinued operation has been modified to only include those disposals of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. ASU 2014-08 shall be applied prospectively for periods beginning on or after December 15, 2014, with early adoption permitted. The Company adopted ASU 2014-08 as of January 1, 2014 on a prospective basis for transactions that have occurred after the adoption date.

2. REVERSE ACQUISITION

On September 30, 2013, Global acquired all of the outstanding common stock of WPF in consideration of \$100 plus the elimination on consolidation of a \$500,000 loan from Global to WPF. Upon acquisition of WPF, a new board of directors and executive officers were appointed who have the ability to exercise control over the combined entity.

WPF's total assets and revenues are the larger of the combined entities. US GAAP requires that a company whose board of directors and management are able to control the combined entity and the entity which has the larger assets and revenues be treated as the acquirer for financial reporting purposes. The acquisition was accounted for as a reverse acquisition whereby WPF was deemed to be the accounting acquirer and Global the accounting acquiree.

The fair value of the consideration effectively transferred is based on what the legal subsidiary (accounting acquirer) would have had to issue to give the owners of the legal parent the same

percentage equity interest in the combined entity that results from the reverse acquisition. The fair value effectively transferred should be based on the most reliable measure. The quoted market price of the Company's shares provide a more reliable basis for measuring the fair value consideration than the estimated fair value of the share in WPF, as WPF's shares were privately-held.

Prior to the transaction, the accounting acquiree had 10,365,553 shares of common stock outstanding of which WPF's shareholders owned 13% and the remaining group of shareholders owned 87%. Upon combination of the entities, the remaining group of shareholders owned 67% of the combined entity. The fair value of the consideration would be what WPF would hypothetically have had to pay to acquire a 20% interest (87% less 67%) in the Company. As such, the fair value of the consideration effectively transferred was determined to be \$2,741,918.

Goodwill is calculated as the consideration effectively transferred less the net recognized values of the accounting acquiree's identifiable assets and liabilities. Goodwill of \$1,300,454 has been calculated by subtracting the accounting acquiree's assets and liabilities from the fair value of the consideration effectively transferred of \$2,741,918. Goodwill represents the benefit to WPF of being a public company post merger and having access to capital markets and stockholder liquidity.

The goodwill recorded as a result of the reverse acquisition is not deductible for tax purposes.

The preliminary purchase allocation is subject to material change pending the completion of the valuation of assets acquired and liabilities assumed. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date.

Cash	\$ 254,880

3. ACQUISITION OF A CONTROLLING INTEREST IN DODGE NH, LLC

WPF completed the acquisition of a controlling 65% equity interest in Dodge on March 15, 2013. The operations of Dodge are presented as if the acquisition occurred on the earliest date presented in the financial statements of the acquirer. Accordingly, the consolidated financial statements reflect rental operations of Dodge for the period from March 13, 2013 through March 31, 2013. Warrenton Nursing Home

On December 31, 2013, the Company acquired a 95% equity interest in ATL/WARR, LLC (Warr LLC) from Christopher Brogdon, a related party, for nominal consideration of \$1.00. On the same date, Warr LLC acquired a 110 bed nursing home located in Warrenton, Georgia at a purchase price of \$3,500,000. The acquisition was funded with a mortgage loan in the amount of \$2,720,000 and with proceeds from the private offering of common stock.

The Company has accounted for the acquisition as a business combination under US GAAP with the assets and liabilities of the acquired property recorded as of the acquisition date, at their respective fair values. Upon acquisition of real estate properties, the Company determines the total purchase price of each property and allocates this price based on the fair value of tangible assets and intangible assets, if any, acquired and any liabilities assumed based on Level 3 inputs. These Level 3 inputs include comparable sales values, discount rates, capitalization rates, and lease-up assumptions from a third party appraisal or other market sources. The preliminary allocation of the purchase price, which approximates fair value of the acquired property is set forth below:

Land	\$ 110,000
Building	3,320,100
Furniture, Fixtures and Equipment	69,900
	\$3,500,000

Wood Moss

On January 27, 2014, the Company acquired a 67.5% membership interest in Wood Moss, LLC (Wood Moss) from Ga. REIT for nominal consideration (\$10). Ga. REIT is a private corporation solely owned by Christopher Brogdon. The Company issued 150,000 shares of common stock for the remaining 32.5% membership interest in connection with the private offering of common stock. Wood Moss owned 100% of the Scottsburg Healthcare Center, a 99 bed skilled nursing facility situated on 3.58 acres in Scottsburg, Indiana. The Company has accounted for the acquisition as a business combination under US GAAP with the assets and liabilities of the acquired property recorded as of the acquisition date, at their respective fair values. Upon acquisition of real estate properties, the Company determines the total purchase price of each property and allocates this price based on the fair value of tangible assets and intangible assets, if any, acquired and any liabilities assumed based on Level 3 inputs. These Level 3 inputs include comparable sales values, discount rates, capitalization rates, and lease-up assumptions from a third party appraisal or other market sources. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date:

Cash	\$ 35,002
Property and Equipment	3,795,395
Restricted Cash	44,908
Accounts Payable and Other Accrued Liabilities	(223,606)

Lease Security Deposit	(28,000)
Notes Payable	(3,480,000)
Fair Value of Assets Acquired and Liabilities Assumed	\$112,500
Fair Value of Consideration Transferred	\$112,500

On March 10, 2014, Scottsburg Healthcare Center was sold for \$3.6 million under a purchase agreement dated October 9, 2008, as amended and assigned which resulted in a loss upon disposition of property and equipment of \$381,395. The Company has also recognized a loss from operations approximating \$35,000 related to Wood Moss. In accordance with ASU 2014-08, the Company has classified these results in income from continuing operations.

Southern Hills Retirement Center

Effective February 7, 2014, the Company acquired the real property and improvements comprising a 100% interest in the Southern Hills Retirement Center, a skilled nursing facility located in Tulsa, Oklahoma. The facility is comprised of a senior living campus offering 116 nursing beds, 86 independent living units, and 32 assisted living beds. At the time of acquisition, the nursing facility was operating; however, the independent and assisted living facilities were vacant. The purchase price of \$2.0 million was funded through a \$1.5 million bridge loan and from proceeds of the private offering of common stock. As part of the purchase, the Company

assumed an operating lease which will expire in June 2016. Upon acquisition of real estate properties, the Company determines the total purchase price of each property and allocates this price based on the fair value of tangible assets and intangible assets, if any, acquired and any liabilities assumed based on Level 3 inputs. These Level 3 inputs include comparable sales values, discount rates, capitalization rates, and lease-up assumptions from a third party appraisal or other market sources. The fair value of the real property and improvements acquired was determined to be \$5.0 million based on independent appraisals. The preliminary purchase price allocation resulted in a bargain purchase gain as the seller was motivated to sell these assets since they were no longer a part of the seller's intended ongoing business. The preliminary purchase price allocation is as follows:

Property and Equipment	
Land	\$ 710,000
Buildings and Improvements	4,216,200
Furniture, Fixtures and Equipment	73,800

The remaining 75% membership interest in Limestone LLC is owned by Connie Brogdon (5%) and unaffiliated third parties (70%).

The Company also extended a loan to Limestone LLC as described in Note 6.

The Company records this investment using the equity method since the Company has the ability to exercise significant influence, but not control, over Limestone LLC. Under the equity method, the Company has recorded the initial investment at cost and will adjust the carrying amount to reflect the Company's share of the earnings or losses of Limestone LLC.

Note Receivable Gemini Gaming, LLC

The note bears interest at 4.0% and is payable in quarterly installments of \$17,495 beginning on January 1, 2014 through maturity of the note on October 1, 2033. On the acquisition date, the fair value of the note receivable was estimated by discounting the expected cash flows at a rate of 10.0%, a rate at which management believes a similar loan with similar terms and maturity would be made. As a result, the note receivable was discounted by \$362,225 to its fair value of \$600,148. The discount will be accreted into earnings using the interest method over the term of the note. The valuation allowance at March 31, 2014 and December 31, 2013 was primarily related to federal net operating loss carryforwards that, in the judgment of management, are not more-likely-than-not to be realized. In assessing the realizability of deferred tax assets, management considers whether it is more-likely-than-not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities (including the impact of available carryback and carryforward periods), projected future taxable income, and tax-planning strategies in making this assessment. In order to fully realize the deferred tax asset, the Company will need to generate future taxable income of approximately \$7,389,000 prior to the expiration of the net operating loss carryforwards beginning in 2018. Taxable loss for the three month period ended March 31, 2014 was \$574,832. Based upon the level of historical taxable income and

projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more-likely-than-not that the Company will not realize the benefits of these deductible differences, net of the existing valuation allowance at March 31, 2014.

When more than a 50% change in ownership occurs, over a three-year period, as defined, the Tax Reform Act of 1986 limits the utilization of net operating loss carry forwards in the years

following the change in ownership. No determination has been made as of March 31, 2014, as to what implications, if any, there will be in the net operating loss carry forwards of the Company.

14. FAIR VALUE MEASUREMENTS

Financial accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs have the highest priority, and Level 3 inputs have the lowest priority. In some cases, the inputs used to measure fair value might fall in different levels of the fair value hierarchy. When this happens, the level in the fair value hierarchy that the asset or liability falls under is based on the lowest input level that is significant to the fair value measurement in its entirety.

Level 1 Inputs - Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the Company has the ability to access at the measurement date.

Level 2 Inputs - Fair values are based on inputs other than quoted prices included within Level 1 that are observable for valuing the asset or liability, either directly or indirectly (i.e. interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted prices for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

Level 3 Inputs - Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability, based on the best information available in the circumstances.

We generally determine or calculate the fair value of financial instruments using quoted market prices in active markets when such information is available or using appropriate present value or other valuation techniques, such as discounted cash flow analyses, incorporating available market discount rate information for similar types of instruments and our estimates for non-performance and liquidity risk. These techniques are significantly affected by the assumptions used, including the discount rate, credit spreads, and estimates of future cash flow.

Our balance sheets include the following financial instruments: cash and cash equivalents, advances to related parties, notes receivable, restricted cash, accounts payable and accrued liabilities, notes payable and lease security deposit. We consider the carrying values of our financial instruments to approximate fair value because they generally expose the Company to limited credit risk, because of the short period of time between origination of the financial assets and liabilities and their expected settlement, or because of their proximity to acquisition date fair values. The carrying value of notes payable approximates fair value based on borrowing rates currently available for debt of similar terms and maturities.

Upon acquisition of real estate properties, the Company determines the total purchase price of each property and allocates this price base on the fair value of the tangible assets and intangible assets, if any, acquired and any liabilities assumed based on Level 3 inputs. These Level 3 inputs include comparable sales values, discount rates, capitalization rates, and lease-up assumptions from a third party appraisal or other market sources.

15. SUPPLEMENTAL DISCLOSURE OF CASH FLOW INFORMATION

The Company acquired a controlling 65% interest in Dodge NH, LLC on March 15, 2013. On this acquisition date, unrestricted cash and cash equivalents held by Dodge and included in the

Overview

Global Healthcare REIT, Inc. (Global or we or the Company) was organized for the purpose of investing in real estate related to the long-term care industry. Prior to the Company changing its name to Global Healthcare REIT, Inc. on September 30, 2013, the Company was known as Global Casinos, Inc. Global Casinos, Inc. operated two gaming casinos which were split-off and sold on September 30, 2013. Simultaneous with the split-off and sale of the gaming operations, the Company acquired West Paces Ferry Healthcare REIT, Inc. (WPF). We plan to elect to be treated as a real estate investment trust (REIT) in the future; however, we do not plan to make that election for the 2013 fiscal year.

The Company will invest primarily in real estate serving the healthcare industry in the United States. We plan to acquire, develop, lease, manage and dispose of healthcare real estate. Our

portfolio will be comprised of investments in the following five healthcare segments: (i) senior housing, (ii) life science, (iii) medical office, (iv) post-acute/skilled nursing and (v) hospital. We will make investments within our healthcare segments using the following five investment products: (i) properties under lease, (ii) mortgage debt investments, (iii) developments and redevelopments, (iv) investment management and (v) RIDEA, which represents investments in senior housing operations utilizing the structure permitted by the Housing and Economic Recovery Act of 2008.

The delivery of healthcare services requires real estate and, as a result, tenants and operators depend on real estate, in part, to maintain and grow their businesses. We believe that the healthcare real estate market provides investment opportunities due to the following:

.

Compelling demographics driving the demand for healthcare services;

.

Specialized nature of healthcare real estate investing; and

.

Ongoing consolidation of a fragmented healthcare real estate sector.

Acquisition of West Paces Ferry Healthcare REIT, Inc. (WPF)

On September 30, 2013, Global acquired all of the outstanding common stock of WPF in consideration of \$100. WPF owns a 65% membership interest in Dodge NH, LLC, which owns a skilled nursing facility located in Eastman, Georgia.

Concurrently with the consummation of the split-off of gaming operations and the stock purchase, Clifford Neuman, Pete Bloomquist and Leonard Nacht resigned as Directors, and Mr. Neuman and Todd Huss resigned as executive officers of the Company. Also concurrently, the Board of Directors of Global Casinos was reconstituted to consist of Christopher Brogdon, Steven Bathgate and John Sheehan, Jr. The executive officers were also changed to consist of Mr. Brogdon as CEO and President and Ryan Scates, as Secretary.

Acquisition of Middle Georgia Nursing Home

Effective July 1, 2012, Georgia Healthcare REIT, Inc., (Ga. REIT) a private company owned and controlled by Mr. Brogdon, consummated its first acquisition: the Middle Georgia Nursing Home. Middle Georgia Nursing Home is located in Eastman, Georgia (Middle Georgia or the Facility). The Facility was acquired through Dodge NH, LLC, a limited liability company formed for the purpose of acquiring Middle Georgia that was initially wholly-owned by Ga. REIT. Dodge Investors, LLC was formed and organized as a financing entity to raise \$1.1 million in funding to complete the financing required to complete the acquisition, as more fully described below.

The terms of the acquisition of Middle Georgia were as follows: The purchase price together with deferred financing costs was \$5.2 million, of which \$4.2 million was paid with the proceeds of a commercial mortgage with Colony Bank, as senior lender, which accrues interest at 6.25% per annum; and the balance of \$1.0 million was provided by Dodge Investors, LLC. Dodge Investors funded Dodge NH, LLC with \$1.1 million in consideration of 13% unsecured notes and a carried 35% membership interest in Dodge NH, LLC. Of the \$1.1 million raised by Dodge Investors, LLC, \$125,000 was invested by Ga. REIT from loan proceeds from the Company, representing a 4% membership interest of the total 35% membership interest held by Dodge Investors, LLC. The Dodge NH, LLC notes purchased by Dodge Investors, LLC accrue interest at the rate of 13% per annum, interest payable monthly, with the outstanding balance of principal and accrued and unpaid interest due July 1, 2014. The 35% membership interest of Dodge Investors, LLC will continue as a carried interest after the repayment of the notes.

Dodge NH, LLC has an operating lease agreement with Eastman Healthcare and Rehab, LLC, owned by a professional skilled nursing facility operator, having an initial term of five years with an option to renew for an additional five-year period. The rent begins at \$45,000 per month and increases by \$1,000 per month on each lease anniversary, thereafter.

Effective March 15, 2013, Ga. REIT conveyed its entire 65% membership interest in Dodge NH, LLC to WPF.

Acquisition of Warrenton Nursing Home

Effective December 31, 2013, the Company consummated the purchase of the 110 bed Warrenton Nursing Home (Warrenton) located in Warrenton, Georgia. Warrenton was purchased by ATL/WARR, LLC, a single purpose Georgia limited liability company (Warr LLC) previously owned 95% by Christopher Brogdon and 5% by an unaffiliated investor. Concurrently, Mr. Brogdon conveyed his 95% membership interest in Warr LLC to the Company for nominal consideration.

Warr LLC entered into a Purchase and Sale Agreement dated April 3, 2013 (the PSA) with Providence Health Care, Inc., as seller, covering the Warrenton facility. The purchase price of Warrenton was \$3.5 million, of which \$2.72 million was provided by a commercial senior bank loan, and approximately \$984,500 was provided by the Company.

Pursuant to the PSA, Warr LLC acquired (i) the land on which the facility is located, (ii) all buildings and other structures situated on or appurtenant to the land, (iii) all appliances, furniture, fixtures and equipment, and (iv) all transferable intangible assets and property related to the facility.

Warr LLC has assumed an operating lease (Lease) with a multi-unit skilled nursing home operator (Operator). The Operator (i) owns the facility records, residential agreements, resident trust funds and inventory, (ii) is the licensed operator of the facility, and (iii) operates the facility as a skilled nursing facility. The operating lease will expire in June 2016.

Neither Warr LLC nor the Company (i) owns a direct equity interest in the skilled nursing facility business operated by the Operator, (ii) is subject to a beneficial participating or residual interest in such business, or (iii) is entitled to participate in, or otherwise influence, any decision related to such business, except for customary provisions under the Lease with regard to the use, regulatory compliance, maintenance, alteration and preservation of the real property and FF&E.

Acquisition of Southern Hills Retirement Center

Effective February 7, 2014, the Company acquired the real property and improvements comprising a 100% interest in the Southern Hills Retirement Center, a skilled nursing facility located in Tulsa, Oklahoma (Southern Hills). To complete the acquisition, the Company formed and organized Southern Tulsa, LLC, a Georgia limited liability company, a new wholly-owned subsidiary of WPF.

The Southern Hills facility is comprised of a senior living campus of three buildings totaling 104,192 square feet sitting on a 4.36 acre parcel. The Center offers 116 nursing beds, 86 independent living units, and 32 assisted living beds.

The purchase price for Southern Hills was \$2.0 million, of which \$1.5 million was provided by a bridge loan with First Commercial Bank, with the balance of \$500,000 provided by Global. Global also provided a guaranty of the bridge loan from First Commercial Bank. The preliminary purchase price allocation resulted in a bargain purchase gain of \$3.0 million as the seller was motivated to sell these assets since they were no longer a part of the seller's intended ongoing business.

In the purchase of the property, Southern Tulsa, LLC acquired (i) the land on which the facility is located, (ii) all buildings and other structures situated on or appurtenant to the land, (iii) all appliances, furniture, fixtures and equipment, and (iv) all transferable intangible assets and property related to the facility.

As part of the purchase, Southern Tulsa, LLC assumed an operating lease with SH CCRC, LLC, a professional skilled nursing home operator (Tulsa Operator). The Tulsa Operator (i) owns the facility records, residential agreements, resident trust funds and inventory, (ii) is the licensed operator of the facility, and (iii) operates the facility as a skilled nursing facility. The operating lease will expire in June 2016.

Neither Southern Tulsa, LLC nor the Company (i) owns a direct or indirect equity interest in the skilled nursing facility business operated by the Operator, (ii) is subject to a beneficial participating or residual interest in such business, or (iii) is entitled to participate in, or otherwise influence, any decision related to such business, except for customary provisions under the Lease with regard to the use, regulatory compliance, maintenance, alteration and preservation of the real property and FF&E.

On March 1, 2014, the Tulsa County Industrial Authority issued \$5.7 million of its First Mortgage Revenue Bonds and lent the net proceeds to the Company. The Company will use the proceeds to pay off the \$1.5 million bridge loan, to pay certain costs of the bond issuance, to renovate the 86 independent living units and 32-bed assisted living facility, and to establish a debt service reserve fund and other initial deposits as required by the bond indenture. The debt is secured by a first mortgage lien on the independent living units and assisted living facility (facilities), an assignment of the facilities leases, a first lien on all personal property located in the facilities, and a guaranty by the Company. Debt in the amount of \$4,325,000 bears interest at a fixed rate of 7.0% and matures on March 1, 2044. The remaining \$750,000 of debt matures on March 1, 2023 and bears interest at a fixed rate of 8.5%. The loan agreement also contains financial covenants required to be maintained by the Company.

Acquisition of Interest in Limestone Assisted Living

Effective March 5, 2014, WPF consummated a Membership Interest Purchase Agreement providing for the purchase from Connie Brogdon, spouse of Christopher Brogdon, President and Director of the Company, for nominal consideration (\$10.00) a 25% membership interest in Limestone Assisted Living, LLC (Limestone LLC). The other 75% membership interest in Limestone LLC is owned by Connie Brogdon (5%) and unaffiliated third parties (70%). The Company also extended a loan to Limestone LLC in the principal amount of \$550,000 (the Limestone Loan), which is repayable, together with interest at the rate of 10% per annum, on or before the earlier of (i) August 31, 2014

or (ii) from the proceeds of the sale of the Limestone Assisted Living facility. The obligation of Limestone LLC to repay the Limestone Loan is secured by the personal Guaranty of Christopher Brogdon. All of the proceeds of the Limestone Loan were used by Limestone LLC to repay and retire a loan in the principal amount of \$500,000, plus accrued and unpaid interest, owed to an unaffiliated third party. That \$500,000 loan had matured on February 1, 2013.

Acquisition of Scottsburg Healthcare Center

Effective January 27, 2014, the Company consummated a Membership Interest Purchase Agreement providing for the purchase from Ga. REIT, for nominal consideration (\$10.00), a 67.5% membership interest in Wood Moss, LLC (Wood Moss). The remaining 32.5% membership interest in Wood Moss is owned by Scottsburg Investors, LLC (Scottsburg Investors). Scottsburg Investors sold an aggregate of \$500,000 in promissory notes to its members, and used the proceeds to extend a loan to Wood Moss evidenced by a 13% \$500,000 unsecured note payable by Wood Moss.

Wood Moss owned 100% of the Scottsburg Healthcare Center (Scottsburg), a 99 bed skilled nursing facility situated on 3.58 acres in Scottsburg, Indiana. The purchase price paid by Wood Moss for Scottsburg was \$3.415 million, consisting of \$500,000 from Scottsburg Investors and a conventional first mortgage in the principal amount of \$2.915 million.

Scottsburg is leased to Waters of Scottsburg, an affiliate of Infinity HealthCare Management under an operating lease that expires December 31, 2014. Base rent under the lease was \$31,000 per month through December 31, 2013 and increased to \$32,000 per month beginning January 1, 2014.

Disposition of Scottsburg Healthcare Center

Effective March 10, 2014, Wood Moss sold its 100% interest in Scottsburg. The purchaser was 1350 N. Todd Drive, LLC, an Indiana limited liability company, under a Purchase Agreement originally dated October 9, 2008, as amended and assigned. The sales price was \$3.6 million, which included retirement of the first mortgage, subject to closing adjustments.

Results of Operations

The following discussion of the financial condition, results of operations, cash flows, and changes in our financial position should be read in conjunction with our audited financial statements and notes included in our audited financial statements and the Company's Annual Report on Form 10-K/A for the period from March 13, 2013 (date of inception) to December 31, 2013 filed with the Securities and Exchange Commission.

Results of Operations Three Months Ended March 31, 2014 Compared to the Period from March 13, 2013 (date of inception) to March 31, 2013

The Company has recently completed a reverse acquisition with a company with an inception date of March 13, 2013; therefore data for the period from March 13, 2013 to March 31, 2013 is not comparable to quarterly amounts for the three months ended March 31, 2014.

Rental revenues for the three month period ended March 31, 2014 totaled \$233,279 from the lease of our Eastman, Georgia, Warrenton, Georgia, and Scottsburg, Indiana nursing home properties. We recognize no rental revenues related to our Tulsa, Oklahoma property for the three months ended March 31, 2014. Rental revenues for our Tulsa, Oklahoma properties will be recognized once the lessee of the skilled nursing facility becomes properly licensed and after renovations have been completed for the independent living and assisted living facilities. Rental revenues for the period from March 13, 2013 (date of inception) to March 31, 2013 totaled \$23,333 from the lease of our Eastman, Georgia nursing home property.

General and administrative expenses were \$118,262 and \$4,370 for the three month period ended March 31, 2014 and for the period from March 13, 2013 (date of inception) to March 31, 2013, respectively. This classification primarily consisted of legal, accounting and other professional fees.

We expense acquisition costs for operating properties as incurred. Acquisition costs for the three month period ended March 31, 2014 totaled \$180,455 related to our acquisition of Southern Hills Retirement Center, a skilled nursing facility located in Tulsa, Oklahoma. We did not incur acquisition costs related to our acquisition of the membership interest in Wood Moss, LLC which was acquired for nominal consideration (\$10) and issuance of common stock.

Depreciation expense totaled \$71,081 and \$8,097 for the three months ended March 31, 2014 and for the period from March 13, 2013 (date of inception) to March 31, 2013, respectively. Depreciation is provided using the straight-line method over the estimated useful lives of land improvements, buildings and improvements and furniture, fixtures and equipment.

On February 7, 2014, we acquired Southern Hills Retirement Center for a purchase price of \$2 million. The excess of the fair value of the assets acquired gave rise to a gain on bargain purchase of \$3.0 million for the three months ended March 31, 2014.

On January 27, 2014, we acquired a 100% membership interest in Wood Moss, LLC which owned Scottsburg Healthcare Center in Scottsburg, Indiana. We accounted for the acquisition as a business combination under US GAAP. On March 10, 2014, Scottsburg Healthcare Center was sold for cash proceeds of \$3.4 million under a purchase agreement dated October 9, 2008, as amended and assigned. For the three months ended March 31, 2014, we recognized a loss on the sale of property and equipment of \$381,395 resulting from the disposal.

Net interest expense totaled \$190,415 and \$20,677 for the three months ended March 31, 2014 and for the period from March 13, 2013 (date of inception) to March 31, 2013, respectively, and primarily represents interest incurred on notes and bonds payable and amortization of deferred loan costs.

Liquidity and Capital Resources

Throughout its history, the Company has experienced shortages in working capital and has relied, from time to time, upon loans from affiliates to meet immediate cash demands. There can be no assurance that these affiliates or other related parties will continue to provide funds to the Company in the future, as there is no legal obligation to provide such loans.

At March 31, 2014, the Company had cash and cash equivalents of \$2,277,770 on hand. Our liquidity is expected to increase from potential equity offerings and decrease as net offering proceeds are expended in connection with the acquisition of properties.

Cash used in operating activities was \$4,187,951 and \$0 for the three months ended March 31, 2014 and for the period from March 13, 2013 (date of inception) to March 31, 2013, respectively. Cash flows used in operations was primarily impacted by restrictions on cash of approximately \$3.5 million which occurred during the quarter ended March 31, 2014.

Cash provided by investing activities was \$806,735 for the three month period ended March 31, 2014 compared to cash used in investing activities of \$100 for the period from March 13, 2013 (date of inception) through March 31, 2013. For the three months ended March 31, 2014, we issued notes receivable of \$650,000 to related parties, paid \$2.0 million in the acquisition of property and equipment in Tulsa, Oklahoma, and received approximately \$3.4 million related to the sale of property and equipment in Scottsburg, Indiana.

Cash provided by financing activities was \$4,478,794 and \$100 for the three months ended March 31, 2014 and for the period from March 13, 2013 (date of inception) through March 31, 2013, respectively. The increase in cash flow is primarily attributable to approximately \$3.2 million in gross cash proceeds from our private placement of common stock and proceeds of approximately \$7.1 million from the issuance of notes payable offset by payments on notes payable of approximately \$4.9 million.

On March 14, 2014, the Company completed its private offering of common stock. The Company sold an aggregate of 4,776,115 shares of common stock at \$0.75 per share for gross proceeds of \$3,190,717 during the three months ended March 31, 2014. Of the total subscriptions, \$153,432 in principal and accrued interest of notes were exchanged for shares, 150,000 shares were issued in consideration for a 100% membership interest in Scottsburg Investors, LLC, which initially owned a 32.5% membership interest in Wood Moss, and the balance was received in cash. After

deducting \$285,501 for placement agent fees, non-accountable expense allowance, and expense reimbursements, the Company realized net cash proceeds of \$2,905,216 during the three months ended March 31, 2014. In addition, the Company granted to the placement agent warrants equal to 10% of the number of shares sold in the offering, exercisable for five years at an exercise price of \$0.75 per share of common stock.

We entered into a note payable with Dodge Investors, LLC in the amount of \$1,100,000 which was used in conjunction with the loan from Colony Bank to acquire our Eastman nursing home property. On December 31, 2013, the note was reduced to \$412,500 by a cash payment and \$275,000 through conversion into common stock in connection with the private offering.

In December 2013, we entered into a note payable in the amount of \$2,720,000 which was used to acquire our Warrenton, Georgia nursing home property. The note payable bears interest at 5% and is

payable in monthly installments of \$17,951 with a final balloon payment of the remaining principal and interest approximating \$2,288,000 on December 20, 2018.

On March 1, 2014, the Tulsa County Industrial Authority issued \$5.7 million of its First Mortgage Revenue Bonds and lent the net proceeds to the Company. The Company used the proceeds to pay off the \$1.5 million bridge loan, to pay certain costs of the bond issuance, to renovate the 86 independent living units and 32-bed assisted living facility of the Southern Hills Retirement Center, and to establish a debt service reserve fund and other initial deposits as required by the bond indenture. The debt bears interest at rates ranging from 7.0% to 8.5% with principal and interest due monthly beginning in May 2014 through maturity on March 1, 2044.

The Company receives the services of consultants and affiliates for which the service providers are not compensated either through cash or equity, and such costs are not currently recorded in the consolidated financial statements but are necessary for the operation of the business.

Contractual Obligations

As of March 31, 2014, we had the following contractual obligations:

	Total	Less Than 1 Year	1 - 3 Years	3 - 5 Years	More Than 5 Years
Notes and Bonds Payable (Principal and Interest)	\$22,964,782	\$1,374,417	\$6,242,753	\$3,429,480	\$11,918,132

Off-Balance Sheet Arrangements

We have a contingent liability for rental payments on a long-term lease related to the casino operations split-off and sold to Gemini Gaming, LLC. The total minimum rentals under this lease total \$228,258 for the period from April 1, 2014 through December 31, 2014 and \$177,534 for the period from January 1, 2015 through termination of the lease agreement in July 2015. No payments on the contingency have been required to date.

Critical Accounting Policies

Set forth below is a summary of the accounting policies that management believes are critical to the preparation of the consolidated financial statements. Certain of these accounting policies are particularly important for an understanding of the financial position and results of operations presented in the consolidated financial statements set forth elsewhere in this report. These policies require that application of judgment and assumptions by management and, as a result, are subject to a degree of uncertainty. Actual results could differ as a result of such judgment and assumptions.

Property Acquisitions

We allocate the purchase price of acquired properties to net tangible and identified intangible assets based on relative fair values. Fair value estimates are based on information obtained from independent appraisals, other market data, information obtained during due diligence and information related to the marketing and leasing at the specific property. Acquisition-related costs such as due diligence, legal and accounting fees are expensed as incurred and not applied in determining the fair value of an acquired property.

Impairment of Long Lived Assets

When circumstances indicate the carrying value of property may not be recoverable, the Company reviews the asset for impairment. This review is based on an estimate of the future undiscounted cash flows, excluding interest charges, expected to result from the property's use and eventual disposition. This estimate considers factors such as expected future operating income, market and other applicable trends and residual value, as well as the effects of leasing demand, competition and other factors. If impairment exists, due to the inability to recover the carrying amount of the property, an impairment loss is recorded to the extent that the carrying value exceeds the estimated fair value of the property. Estimated fair value is determined with the assistance from independent valuation specialists using recent sales of similar assets, market conditions and projected cash flows of properties using standard industry valuation techniques.

Goodwill

Goodwill represents the excess of the Company's purchase price over the fair values of the respective identifiable assets acquired and liabilities assumed in business combinations. Goodwill resulting from acquisitions is not amortized, but is tested for impairment annually or whenever events change and circumstances indicate that it is more likely than not that an impairment loss has occurred using specific methods described in US GAAP. As allowed by US GAAP, management initially performs a qualitative analysis of goodwill using qualitative factors to determine if it is more likely than not that the fair value of a reporting unit is less than its carrying amount including goodwill. Such qualitative factors include macroeconomic conditions, industry and market considerations, cost factors, overall financial performance and other relevant entity-specific events. If after assessing the totality of events or circumstances, the Company determines through the qualitative assessment that the fair value of a reporting unit more likely than not exceeds its carrying value, no further evaluation is necessary, and performing the two-step impairment test outlined in US GAAP is not required. For the three months ended March 31, 2014, there were no triggering events that required a test of impairment of goodwill.

Note Receivable

The Company evaluates its note receivable for impairment when it is probable the payment of interest and principal will not be made in accordance with the contractual terms of the note receivable agreement. Once a note has been determined to be impaired, it is measured to establish the amount of the impairment, if any, based on the fair value of the note determined by using present value of expected future cash flows discounted at the note's effective interest rate. If the fair value of the impaired note receivable is less than the recorded investment in the note, a valuation allowance is recognized.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates, foreign currency exchange rates and commodity prices. Our primary exposure to market risk is interest rate risk associated with our short-term money market investments. The Company does not have any financial instruments held for trading or other speculative purposes and does not invest in derivative financial instruments, interest rate swaps or other investments that alter interest rate exposure. The Company does not have any credit facilities with variable interest rates.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our senior management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. Our Chief Executive Officer and Chief Financial Officer have reviewed the effectiveness of our disclosure controls and procedures and have concluded that the disclosure controls and procedures were not effective as of the end of the period covered by this report. Due to the consummation of the split-off

and acquisition of WPF, there was a change in the Company's officers and consultants in charge of financial reporting, which change resulted in inefficiencies that led to our inability to file this report in a timely manner. Now that the personnel in charge of disclosure controls and procedures are fully engaged and in place, we believe this deficiency has been remedied on a going forward basis.

There have been no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
