PROXY STATEMENT

INTRODUCTION

Voting Procedures. This proxy statement (the Proxy Statement) is furnished in connection with the solicitation of proxies by the Global Board of Directors of MasterCard Incorporated (the Company) for use at the 2004 Annual Meeting of Stockholders of the Company to be held on Monday, May 10, 2004 at 9:00 a.m. (local time), or any adjournment thereof (the Annual Meeting). The Company expects to mail this Proxy Statement and the accompanying proxy card on or about March 26, 2004 to the holders of record as of the close of business on March 19, 2004 (the Record Date) of the Company s class A redeemable and class B convertible common stock (the Stockholders).

If a Stockholder attends the Annual Meeting in person or sends a representative to the meeting with a signed and notarized proxy, that Stockholder may vote or its representative may vote on its behalf. Stockholders unable to attend the Annual Meeting can ensure that their votes are cast at the meeting by signing and dating the enclosed proxy card and returning it in the envelope provided or by authorizing the individuals named on the proxy card to vote their shares by calling the toll-free telephone number or by using the Internet as described in the instructions included with the proxy card. When a proxy card is returned properly signed and dated or a Stockholder s vote is authorized by telephone or Internet, the vote of the Stockholder will be cast in accordance with the instructions on the proxy card or authorized by telephone or Internet. If a Stockholder does not return a signed proxy card, authorize its vote by telephone or Internet or attend the meeting in person or by representative and vote, no vote will be cast on behalf of that Stockholder. The enclosed proxy card indicates on its face the number of shares of class A redeemable common stock and class B convertible common stock registered in the name of each Stockholder at the close of business on March 19, 2004.

Stockholders are urged to mark the box on the proxy card to indicate how their vote is to be cast. If a Stockholder returns a signed proxy card but does not indicate on the proxy card how it wishes to vote on a proposal, the vote represented by the proxy card will be cast FOR such proposal.

Pursuant to Section 212(c) of the Delaware General Corporation Law, Stockholders may validly grant proxies over the Internet. Your Internet vote authorizes the named proxies on the proxy card to vote your shares in the same manner as if you had returned your proxy card. In order to vote over the Internet, visit the Company s Internet voting website at <http://proxy.georgeson.com> and, when prompted, enter the Company Number and Control Number that have been assigned to you and indicated on your proxy card. By then following the instructions on your computer screen you will be able to complete the voting process.

Any Stockholder who executes and returns a proxy card or authorizes its vote by telephone or by Internet may revoke the proxy at any time before it is voted by:

notifying in writing Noah J. Hanft, Secretary of MasterCard Incorporated, at 2000 Purchase Street, Purchase, New York 10577;

executing and returning a subsequent proxy;

subsequently authorizing the individuals named on its proxy card to vote its interests by calling the toll-free telephone number or by using the Internet as described in the instructions included with its proxy card; or

appearing in person or by representative with a signed proxy and voting at the Annual Meeting.

Attendance in person or by representative at the Annual Meeting will not in and of itself constitute revocation of a proxy. **If you intend to attend the Annual Meeting in person, kindly notify the Secretary of the Company in writing at the address set forth below under Introduction Solicitation of Proxies. Failure to notify the Secretary will not disqualify you from attending the Annual Meeting in person.**

General. Unless contrary instructions are indicated on the proxy, all shares represented by valid proxies received pursuant to this solicitation (and not revoked before they are voted) will be voted as follows:

FOR the election of the nominees for director named below.

In the event a Stockholder specifies a different choice on the proxy, that Stockholder's shares will be voted in accordance with the specification so made.

The Company's 2003 Annual Report, which includes the Company's Form 10-K for the year ended December 31, 2003 as filed with the Securities and Exchange Commission (the SEC), has been distributed to Stockholders in connection with this solicitation. A copy of the Company's Form 10-K for the year ended December 31, 2003 also will be available through the Company's website at <http://www.mastercardintl.com>. **A copy of the Company's Annual Report will be furnished upon request by writing to the Secretary of the Company at the address set forth below under Introduction Solicitation of Proxies.**

Solicitation of Proxies. The Company will bear the costs of solicitation of proxies, including the cost of preparing, printing and mailing this proxy statement. In addition to the solicitation of proxies by use of the mail, proxies may be solicited from Stockholders by directors, officers, employees and agents of the Company in person or by telephone, facsimile or other appropriate means of communication. The Company has engaged Georgeson Shareholder Communications Inc. to solicit proxies on behalf of the Company. The anticipated cost of Georgeson Shareholder's services is estimated to be approximately \$30,000.00 plus reimbursement of reasonable out-of-pocket expenses. No additional compensation, except for reimbursement of reasonable out-of-pocket expenses, will be paid to directors, officers and employees of the Company in connection with the solicitation. PROPOSAL 1

ELECTION OF DIRECTORS

The bylaws of the Company provide that during the three-year transition period beginning July 1, 2002 (the "Transition Period"):

one-third of the members of the Company's Global Board of Directors will be representatives of the Company's European stockholders;

one-third of the members of the Company's Global Board of Directors will be representatives of the Company's U.S. stockholders;

the President and Chief Executive Officer of the Company will be a director; and

the remaining directors will be apportioned among the representatives of stockholders from the Company's other regions in accordance with the percentage of Common Stock owned by the stockholders of those regions.

After the Transition Period, the President and Chief Executive Officer will continue to be a director and all other directors will be apportioned among the representatives of stockholders from the Company's regions according to each region's respective share of the Company's outstanding Common Stock.

The bylaws of the Company also provide that no more than two representatives from any member of MasterCard International Incorporated ("MasterCard International"), including its affiliates and affiliate members, may serve on the Global Board of Directors. In addition, the Company's certificate of incorporation provides that no more than one-third of the Global Board of Directors may be representatives of stockholders from a single region.

Nomination of Directors. The Company is a private share corporation whose stockholders are financial and other institutions that are principal members of MasterCard International, a Delaware non-stock corporation and the Company's principal operating subsidiary. Pursuant to the Company's bylaws, the Company's directors must be selected from officers of member institutions of MasterCard International or must be individuals who are uniquely qualified to provide guidance as to the Company's affairs, subject to certain limitations described in the bylaws. No director may serve on the Company's Global Board of Directors if such director is also a director, officer, employee or consultant of any institution that is represented on the global board of directors or U.S. regional board of directors of a competitor of the Company. These bylaw requirements constitute the minimum qualifications that must be met by nominees to the Global Board of Directors. The Company's directors are generally officers or representatives of the Company's stockholders.

Candidates for nomination to the Global Board of Directors are selected by the Nominating and Corporate Governance Committee (the "Committee"), based upon proposals made by each of the Company's regional boards, which are composed of representatives of the Company's stockholders, and upon consultation with the Company's management (including the President and Chief Executive Officer). The Committee also considers director candidates recommended by individual stockholders. The Company has regional boards covering six geographical regions: United States, Canada, Europe, Asia/ Pacific, Latin America and the Caribbean, and South Asia, Middle East/ Africa. In making nominations, the bylaws of the Company require the Committee to seek, consistent with the qualifications required of directors described herein, to give the stockholders in each geographic region of the Company reasonable representation, taking into account, among other things, the number of shares of Common Stock owned by the stockholders in each region.

The Committee also selects its own candidates for nomination to the Global Board of Directors. The President and Chief Executive Officer consults with the Committee and individual stockholders from time to time about candidates for nomination to the Global Board of Directors.

In selecting nominees, the Committee typically considers the following factors, among others:

the experience and qualifications of the individual nominee, particularly in connection with the bankcard industry;

Table of Contents

the seniority and decision-making authority of the nominee within his or her institution;

the region with which the nominee is associated;

whether the nominee is an officer of or otherwise represents a financial institution that is principally a card issuing or merchant acquiring member of MasterCard International;

the size of the financial institution of which the nominee is an officer or representative, the extent of such institution's business with the Company (in terms of revenues, issuing volumes and/or acquiring volumes), and the degree of such institution's relative dedication to the Company's brands;

whether the financial institution of which the nominee is an officer or representative is of particular strategic importance to the Company;

the overall composition and diversity of the Global Board of Directors; and

the requirements of the Company's bylaws described above.

Because the size of stockholders and their dedication to the Company are important factors considered by the Committee, it is possible that a director associated with a stockholder whose business with the Company declines relative to others may not be proposed for reelection by the Committee. Similarly, officers of stockholders that make large and growing contributions to the Company's revenues and transaction volumes are more likely to be considered for nomination to the Global Board of Directors. When considering the qualifications of a nominee, the Committee may take into account other factors such as strength of character, maturity of judgment, career specialization and the extent of international experience. The Committee also seeks individuals who may satisfy the definition of an audit committee financial expert under the rules of the SEC. For additional information on the nomination process, see the Company's Corporate Governance Guidelines which are located on its website at <http://www.mastercardintl.com>.

To nominate individuals for the 2005 Annual Meeting, stockholders may submit recommendations for nomination in writing to the Secretary of the Company at the address set forth above under Introduction Solicitation of Proxies by the first deadline set forth herein for submitting proposals for the 2005 Annual Meeting. The Secretary will forward all bona fide recommendations received by such date to the Committee for its consideration. Stockholder recommendations should include: (i) a statement from the proposed nominee consenting to be named in the proxy statement and proxy card if selected and to serve on the Global Board of Directors if elected; (ii) a summary of the proposed nominee's biographical data, including a description of the nominee's qualifications under the guidelines described herein; (iii) a statement whether the proposed nominee has a material interest in any proceedings involving the Company; (iv) a description of the proposed nominee's relationship with the stockholder, if any; and (v) information regarding whether the stockholder or the proposed nominee (or their affiliates) have any plans or proposals for the Company, including any plans or proposals to advance special interests not shared by the stockholders at large. The Committee may request such additional information from the nominee or the stockholder as it deems appropriate.

At the 2004 Annual Meeting, 18 directors—six representatives of U.S. Stockholders, six representatives of European Stockholders, three representatives of Stockholders from the Asia/Pacific region, one representative of Canadian Stockholders, one representative of Stockholders from the Latin America and Caribbean region, and the President and Chief Executive Officer of the Company—are to be elected, each to serve until the Annual Meeting in 2005 or until his successor is elected and qualified. The directors elected will also constitute the board of directors of MasterCard International pursuant to that company's bylaws.

The 18 nominees for director are William F. Aldinger, Silvio Barzi, Augusto M. Escalante, Richard D. Fairbank, Baldomero Falcones Jaquotot, Bernd M. Fieseler, Iwao Iijima, Donald H. Layton, Michel Lucas, Norman C. McLuskie, Robert W. Pearce, Michael T. Pratt, Robert W. Selander, Dato Tan Teong Hean, Jac Verhaegen, Lance L. Weaver, Robert B. Willumstad and Mark H. Wright.

The 18 nominees receiving the greatest number of votes cast by the Stockholders will be elected as directors of the Company. Abstentions will be disregarded and will have no effect on the vote for directors.

Table of Contents

Except as stated in the following sentence, the persons specified on the enclosed proxy card intend to vote for the nominees listed below, each of whom has consented to being named in this Proxy Statement and to serving if elected. In the event that any nominee would be unable to serve, the persons designated as proxies reserve full discretion to vote for another person.

The Global Board of Directors unanimously recommends a vote FOR all nominees.

Nominees for Election to the Global Board of Directors. Each of the following nominees for election to the Global Board of Directors of the Company has been approved by the Committee following consultations by the Company's management with the regional board for his respective region. Other than the President and Chief Executive Officer of the Company, all nominees for voting directors are officers of Stockholders of the Company.

Each of the nominees is standing for re-election and has served on the Global Board of Directors since the Annual Meeting in May 2003, except for Messrs. Fieseler, Iijima, Lucas and Tan, who were elected by the Global Board of Directors to fill previous vacancies at a meeting held on March 18, 2004. Messrs. Fieseler and Lucas were each recommended for nomination by a stockholder, a non-management director and the President and Chief Executive Officer, as well as the Europe region board of the Company. Mr. Hoch is currently the President of MasterCard's Europe region. In addition, under the Company's bylaws the Global Board of Directors may elect a Chairman Emeritus, which position automatically serves as a non-voting director of the Global Board of Directors. COMMITTEES OF THE GLOBAL BOARD OF DIRECTORS

The Audit, Compensation and Nominating and Corporate Governance Committees of the Global Board of Directors are described below.

Audit. The Audit Committee assists the Global Board of Directors in fulfilling its oversight responsibilities. Among other things, it reviews the activities, results and effectiveness of internal and external auditors, confirms the independence of the external auditors and recommends to the Global Board of Directors the appointment of the external auditors. The Audit Committee also reviews the Company's key risks and controls and its quarterly and annual financial statements. The Audit Committee operates under a written charter, a copy of which is attached hereto as Appendix A. The members of the Audit Committee are Messrs. Wright (Chairman), Falcones, Boudreau, Layton, McLuskie and Pearce. The Audit Committee held seven meetings during 2003. No member of the Audit Committee simultaneously serves on the audit committees of more than three public companies.

In 2003 the Global Board of Directors, acting upon the recommendation of the Audit Committee, determined that Mr. Boudreau's experience and qualifications satisfied the definition of "audit committee financial expert" under the SEC rules. Mr. Boudreau is a non-voting advisory director of the Company. As described more fully below, the Global Board of Directors has not determined Mr. Boudreau to be independent under the rules of the New York Stock Exchange, the American Stock Exchange or NASDAQ.

Compensation. The Compensation Committee establishes the compensation policies and criteria of the President and Chief Executive Officer and other executive officers of the Company. The members of the Compensation Committee are Messrs. Falcones, Aldinger, Boudreau, Pearce and Weaver. The Compensation Committee held four meetings and acted by written consent twice during 2003.

Nominating and Corporate Governance. The Nominating and Corporate Governance Committee considers and nominates individuals to serve as directors of the Company, taking into account proposals made by each regional board of the Company, and performs the other functions set forth in its charter, which is available to Stockholders through our website at <http://www.mastercardintl.com>. The members of the Nominating and Corporate Governance Committee are Messrs. Falcones (Chairman), Boudreau, Weaver and Willumstad. Additional directors are expected to be appointed to the Nominating and Corporate Governance Committee following the 2004 Annual Meeting. The Nominating and Corporate Governance Committee held six meetings during 2003 and acted by written consent once.

The Common Stock is not listed on any securities exchange or quoted on any dealer quotation system. Accordingly, neither the Global Board of Directors nor any Committee thereof is required to be comprised of a majority of (or in the case of Committees, composed exclusively of) independent directors, as defined in the SEC rules or the rules of the New York Stock Exchange, the American Stock Exchange or NASDAQ. The Global Board of Directors has not determined whether any directors of the Company are independent under these rules. Under the Company's bylaws, voting directors other than the President and Chief Executive Officer are representatives of the Company's stockholders, and generally serve as senior officers of these

institutions. In turn, the Company's stockholders are principal members of MasterCard International and, in this capacity, constitute the Company's principal customers. Because the Company's private share structure, as embodied in its bylaws, provides for extensive representation of the Company's customers on the Global Board of Directors, the Company has not considered it appropriate to apply the independence standards applicable to public listed companies to its Global Board of Directors. Accordingly, Stockholders should not consider the Company's directors (including directors serving on the Audit and Nominating and Corporate Governance Committees) to be independent under the rules of the New York Stock Exchange, the American Stock Exchange or NASDAQ.

ATTENDANCE AT MEETINGS

Attendance at Meetings by Directors. The Global Board of Directors held six meetings during 2003. During 2003, each director, except for Mr. Pratt, attended 75 percent or more of the aggregate of (a) the total number of meetings of the Global Board held during the period when he was a director and (b) the total number of meetings held by all Committees of the Global Board on which he served during the period when he was a director. The number of meetings held by each Committee during 2003 is set forth above.

Executive Sessions. The Global Board of Directors holds regularly scheduled meetings in executive session without management present. The non-executive Chairman of the Global Board of Directors ordinarily presides at such sessions.

Attendance at Annual Meetings. Historically, stockholders have participated in the Annual Meetings of the Company solely by proxy, and have not attended in person. For this reason, the Global Board of Directors has not established a policy encouraging directors to attend Annual Meetings. One member of the Global Board of Directors attended the 2003 Annual Meeting, although there were no stockholders present in person at that meeting.

STOCKHOLDER COMMUNICATIONS WITH THE GLOBAL BOARD OF DIRECTORS

Stockholders and other third parties may send confidential communications directly to the Global Board of Directors by providing such communications in writing to the Secretary of the Company at the address set forth above under "Introduction Solicitation of Proxies." The Secretary, who is also the General Counsel of the Company, is responsible for keeping a docket of all communications received from stockholders of the Company and other third parties summarizing the nature of each communication. The docket must be disclosed to the Global Board of Directors at its next regularly scheduled meeting. Communications regarding accounting, internal accounting controls and auditing matters, including violations of the Company's Supplemental Code of Ethics, are transmitted by the Secretary to the Audit Committee in accordance with the Company's Whistleblower Procedures. The Company's Whistleblower Procedures can be found on its website at <http://www.mastercardintl.com>. Communications (or a reasonable summary thereof) regarding director nominations and corporate governance matters are transmitted by the Secretary to the Nominating and Corporate Governance Committee. All other communications (or a reasonable summary thereof) are transmitted by the Secretary to the Audit Committee, which determines which communications are to be transmitted to the Global Board of Directors or to another Committee of the Global Board. If warranted, the Global Board of Directors or any of its Committees may take appropriate action in connection with a stockholder or third party communication.

- (1) The performance units were granted under the Company's Executive Incentive Plan. Each performance unit has a target value equal to \$100. The actual value of each unit will be calculated based on the Company's performance over a three-year period based on a combination of qualitative and quantitative measures that include: improving profitable share with key members in key markets; improving customer focused strategy; achieving corporate financial targets and enhancing organizational capabilities. Each unit will be valued at target (\$100) if, on a weighted-average basis, target performance is achieved for all of the performance measures. Each unit will be valued at threshold (\$50) if, on a weighted-average basis, threshold performance is achieved. Each unit will be valued at maximum (\$200) if, on a weighted-average basis, superior performance is achieved. The units will have no value if performance is below threshold. Determinations as to the achievement of performance levels shall be made by the Compensation Committee in its sole discretion. The Compensation Committee will determine the unit value based on interpolation in the event that performance between threshold and target or target and superior is achieved. The values above are meant to be a framework and not an absolute, and beginning with awards granted effective on or after January 1, 2004, the Compensation Committee may make negative adjustments to the unit value of any of the performance units awarded to reflect additional or amended performance measures or criteria or the impact of a significant event, occurrence, or charge to earnings.

The performance units described in the preceding table vest in annual increments according to the following schedule if the participant completes 1,000 hours of service and is employed by the Company on the last day of the respective twelve-month cycle:

| 2nd Anniversary | 26 2/3% |
| 3rd Anniversary | 26 2/3% |
| 4th Anniversary | 0% |
| 5th Anniversary | 20% |

Upon completion of the three-year performance period, participants will receive a payout equal to 80% of the award earned. The remaining 20% of the award will be paid upon completion of two additional years of service, (i.e., five years of service in total). Special provisions apply upon certain terminations of employment.

Compensation is defined as base pay plus annual incentive compensation. These accounts also receive investment credits based on the yield on 30-Year Treasury securities. When a participant terminates employment, the vested amount credited to the participant's account is paid in a lump sum or converted into an annuity.

Supplemental Retirement Benefits

Supplemental retirement benefits are provided to all Named Executive Officers and certain other participants under various funded and unfunded nonqualified plans. Benefits are provided to certain employees whose benefits are limited by compensation or amount under applicable federal tax laws and regulations. Designated employees, including all Named Executive Officers, may also receive an annual benefit at retirement (SERP) equal to a designated percentage of their final average base compensation reduced by the amount of all benefits received under the MAP, nonqualified arrangements and social security benefits.

Annuity Bonus Plan

The Annuity Bonus Plan is a non-qualified, after-tax savings plan designed to provide employees with benefits and contributions to the extent amounts under MasterCard's qualified plans are capped by IRS limitations. Each year, MasterCard pays participants a bonus distributed in the form of a premium payment to a tax-deferred annuity contract. Annual contributions and reimbursement for tax obligations in connection with the plan are reported and separately reflected in the Summary Compensation Table for each of the Named Executive Officers.

Employees who participate in the plan may contribute from 2% to 6% of base pay on a tax-deferred basis or after-tax basis. In addition, effective January 1, 2003, the Company established an opportunity for participants to receive a profit-sharing contribution in the range of 0-10% of base pay. The target contribution is 7%, and the 2003 contribution was 7%.

Compensation of Directors

In the year ended December 31, 2003, directors who were not employees of the Company were paid an annual retainer of \$35,000. The Chairman of the Global Board of Directors received an annual retainer of \$40,000. Non-employee directors also received an annual retainer of \$5,000 for serving as a chairperson of a standing committee; a \$1,500 meeting fee for attendance at board meetings; a \$1,000 meeting fee for attendance at committee meetings and a \$500 meeting fee for telephonic meetings. In addition, customary expenses for attending board and committee meetings were reimbursed.

Under the MasterCard Deferral Plan, up to 100% of non-employee director's meeting fees and annual retainer may be deferred and invested among several investment return options. In general, deferred amounts are not paid until after the director retires from the board. The amounts are then paid, at the director's option, either in a lump sum or in five or ten annual installments.

REPORT OF COMPENSATION COMMITTEE

ON EXECUTIVE COMPENSATION

The Committee's Responsibilities

The Compensation Committee is responsible for setting and administering the policies that govern executive compensation and benefits. The Compensation Committee is comprised of five members of the Global Board of Directors, each of whom is an outside director, as defined under Section 162(m) of the tax code.

The Compensation Committee regularly reviews the Company's executive compensation policies and practices and will continue to do so in response to new rules and evolving best practices. The Compensation Committee has retained its own outside compensation consultant to provide advice and assistance. During 2003, the Compensation Committee met four times and held at least one executive session, without management present, at each meeting.

More information about the Compensation Committee can be found above under Committees of the Global Board of Directors Compensation and the Compensation Committee's charter is available on the Company's website at <http://www.mastercardintl.com>.

The purpose of this report is to summarize the philosophical principles, specific program elements and other factors considered by the Compensation Committee in making decisions about executive compensation.

Compensation Philosophy

The Compensation Committee's compensation decisions are based on the following core principles.

Executive officer goals should be linked with member, customer and shareholder interests. The Company's compensation and reward systems serve as a tool for reinforcing the link between rewards and the achievement of business results consistent with the organization's expected values and behaviors.

Pay should be performance-based. The Company provides a total compensation program consisting of fixed and variable pay, with an emphasis on variable pay to reward short- and long-term performance versus established goals and objectives.

Compensation opportunities must be competitive to attract and retain talented employees. Each year, the Compensation Committee assesses the competitiveness of total compensation levels for executives as more fully described below.

Program Elements

The Company's executive compensation program consists of base salary, annual incentive and long-term incentive compensation. The Compensation Committee's philosophy generally is to target compensation levels to be between the median and 75th percentiles of the blended peer groups for the executive officers as described below. For purposes of establishing a competitive market for the named executives, the Company considers companies representative of the types of organizations from which it recruits and loses executive talent, e.g., a custom group of companies comprised of major financial services companies, comparable financial services companies and premier brand value companies, as well as, where appropriate, a broader group of financial services and general industry companies. The blended peer group is generally consistent with that used to measure performance as illustrated in the Performance Graph.

Base Salary. Base salaries are generally positioned at the median of the competitive market. All salaried employees earning less than a predetermined amount are eligible for annual merit increases based primarily on fulfillment of their job responsibilities and position relative to market. Base salaries are held constant for senior level incumbents for at least three years, subject to market movement and/or changing job responsibilities.

Annual Incentive. The Company provides its executives with an opportunity to earn cash incentive awards through the Annual Incentive Compensation Plan (AICP). The Company generally positions target

Table of Contents

annual incentive opportunities between the median and 75th percentiles of the competitive markets described previously based on actual performance against goals. Each Named Executive Officer's target AICP opportunity is determined based on competitive market practices and internal equity considerations.

The AICP is funded based on overall corporate performance (the corporate score could result in incentive pool funding ranging from 0% to 150% of target incentive pool). Funding is allocated to each division based on corporate and business unit/region performance. For the President and Chief Executive Officer, the funding is determined based 100% on the achievement of corporate goals. For the other Named Executive Officers, the funding is determined based 75% on the achievement of corporate goals and 25% on the achievement of business unit/regional performance. Actual awards are based on corporate, business unit/region and individual performance against goals.

For fiscal year 2003, corporate performance was based on improvement of profitable market share, progress against customer-focused strategy, achievement of corporate financial targets and enhancing organizational capabilities. Business unit/region performance was based on the achievement of goals defined in each group's annual business plan that were directly linked to corporate objectives. Based on the Company's fiscal year 2003 performance, the AICP was funded below target. Business unit/region performance results varied—some business unit/region performance results were below target and others were above target, but below maximum.

Long-Term Incentive. Executives participate in the Executive Incentive Plan (EIP), a performance unit plan tied to three-year corporate performance. Generally, units are awarded annually and target opportunities are positioned at the median of the competitive markets described above.

For awards made in 2003 (covering the 2003-2005 performance period), the ultimate value of the units will be determined based upon the following measures: improving profitable share with key members in key markets; improving customer focused strategy; achieving corporate financial targets and enhancing organizational capabilities. See, Executive Compensation Long-Term Incentive Plan Awards In Fiscal Year 2003 for a detailed description of the EIP and the number of units awarded in 2003.

Based on the Company's performance over the 2001-2003 performance period, performance units were valued between target and maximum levels.

CEO Compensation and Performance

Mr. Selander's fiscal year 2003 compensation consisted of base salary, an annual incentive award, a long-term incentive award and the second payment of a special award for services related to the conversion and integration of Europay awarded in 2002. The Compensation Committee determined the level for each of these elements using methods consistent with those used for other Named Executives, except that Mr. Selander did not have a target annual incentive.

For 2003, Mr. Selander's base salary remained constant. He received an AICP award of \$1,900,000 based on performance against corporate goals. He also received a grant of 41,000 units under the EIP for the 2003-2005 performance period and a payout for the 2001-2003 performance period that reflected above target, but below maximum, performance. In addition, he received the second payment of a special award of \$333,333 based on MasterCard's sustained performance and progress to date on its post-integration of Europay objectives.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code requires that public companies meet specific criteria in order to deduct, for federal income tax purposes, compensation over \$1 million paid to the Named Executive Officers. The Company is currently covered by the transition rules for newly public companies under Section 162(m) and will receive a deduction for all compensation paid to those executive officers in fiscal year 2003. When the transition period ends, the Compensation Committee intends to pay compensation that would be deductible. However, the Compensation Committee believes that its primary responsibility is to provide a compensation program that attracts, retains and rewards the executive talent needed for the Company's success. Consequently, in any year the Compensation Committee may authorize compensation in excess of

Table of Contents

\$1,000,000 that is not performance-based under Section 162(m). The Compensation Committee recognizes that the loss of a tax deduction may be unavoidable in these circumstances.
