QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended June 30, 2011

OR
TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission File No. 000-53235

DIGITILITI, INC.

(Exact name of Registrant as specified in its charter)

Delaware

26-1408538

(State or Other Jurisdiction of
incorporation or organization)

(I.R.S. Employer Identification No.)

266 East 7th Street, 4th Floor
St. Paul, Minnesota 55101

(Address of Principal Executive Offices)

(651) 925-3200

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes +No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (check one):

Large accelerated filer	Accelerated filer	Non-accelerated filer	Smaller reporting company
		(Do not check if smaller reporting company)	

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

Edgar Filing: Digitiliti Inc - Form 10-Q

As of August 22, 2011, the Registrant had 68,846,307 shares of common stock issued and outstanding at \$.001 per share par value.

DIGITILITI, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Basis of Presentation

The accompanying unaudited interim consolidated financial statements of Digitiliti, Inc. (the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and with the instructions to Form 10-Q and Article 8 of Regulation S-X under the Securities Exchange Act of 1934, as amended. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. These consolidated financial statements and notes should be read in conjunction with the consolidated financial statements and notes included in the Company’s Form 10-K for the year ended December 31, 2010, filed with the Securities and Exchange Commission (“SEC”) on April 14, 2011. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

Software Revenue Recognition

The Company derives its revenue from sales of its products and services. Product revenue is derived from sales of the Company’s DigiBak and DigiLibe service.

The DigiBak service provides an offsite storage solution through a “utility based computing philosophy” where customers pay for the gigabytes of data they store in the DigiBak vault.

The DigiLibe service is a multiple element software sales arrangement that is comprised of three key components that act as one: Client Agent, Information Director, and Archive Information Store.

For multiple element software license sales arrangements that do not require significant modification or customization of the underlying software, we recognize revenue when: (1) we enter into a legally binding software arrangement with a customer for the license of software, (2) we deliver the software, (3) price is deemed fixed or determinable and free of contingencies of significant uncertainties and (4) collection is probable.

For sales arrangements with multiple elements, we defer revenue for any undelivered elements, and recognize revenue when the product is delivered or over the periods in which the service is performed. If we cannot objectively determine the fair value of any undelivered element included in bundled arrangements, we defer revenue until all elements are delivered and services have been performed, or until fair value can objectively be determined for any remaining undelivered elements.

Restricted Cash

The restricted cash of \$50,000 as of June 30, 2011 represents funds held in escrow to be released upon the closing of the second tranche of the \$1,500,000 Junior Secured Convertible Debt Offering (see Note 4).

Correction of a Prior Period

During the year ended December 31, 2010, the Company discovered and corrected an error related to options granted to an employee that were inadvertently omitted from the Company’s employee stock option expense from April 2008 through September 30, 2010. The error resulted in an understatement in stock compensation expense and additional

paid in capital. In accordance with the SEC's Staff Accounting Bulletin Nos. 99 and 108 (SAB 99 and SAB 108), the Company evaluated this error and, based on an analysis of quantitative and qualitative factors, determined that the error was immaterial to each of the prior reporting periods affected. However, if the adjustments to correct the cumulative effect of the above error had been recorded in the year ended December 31, 2010, the Company believes the impact would have been significant and would impact comparisons to prior periods. Therefore, as permitted by SAB 108, the Company corrected, in the current filing, previously reported results for the three and six months ended June 30, 2010.

The following table shows the impact of the error to the unaudited Consolidated Statements of Operations for the three and six months ended June 30, 2010:

7

Table of Contents

Weighted average shares outstanding — Basic and Diluted	43,503,332	—	43,503,332

The adjustment to the unaudited Consolidated Statement of Cash Flows for six months ended June 30, 2010 did not result in any changes to the amounts previously reported for net cash from operating activities, investing activities or financing activities.

New Accounting Pronouncements

The Company does not expect the adoption of recently issued or effective accounting pronouncements to have a material impact on the Company's consolidated financial statements.

2. Going Concern

As shown in the accompanying financial statements, the Company incurred net loss of \$(1,728,675) for the six months ended June 30, 2011 and had a working capital deficit of 1,156,165 as of June 30, 2011. These conditions raise substantial doubt as to the Company's ability to continue as a going concern.

The Company continues to be dependent on its ability to generate future revenues, positive cash flows and additional financing. There can be no guarantee that the Company will be successful in generating future revenues, in obtaining additional debt or equity financing or that such additional debt or equity financing will be available on terms acceptable to the Company. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

3. Notes Payable

During the six months ended June 30, 2011, the Company borrowed \$50,000 from a third party. This note is unsecured, bears interest at 12% per annum and matures on October 8, 2011. In connection with the loan, the lender received warrants to purchase an aggregate of 25,000 common shares at an exercise price of \$0.20 per share. The

warrants vested immediately and have a term of five years.

During the six months ended June 30, 2011, the Company borrowed an aggregate of \$50,000 from a member of the Company's Board of Directors. The notes are secured against the Company's accounts receivable and bear interest at 12% per annum. The note amounting to \$25,000 matured on July 29, 2011 and is current past due. The remaining note for \$25,000 matures on September 1, 2011.

During the six months ended June 30, 2011, the Company borrowed \$16,000 from a member of the Company's Board of Directors. The note is secured against the Company's accounts receivable, bears interest at 12% per annum and matured on June 25, 2011. This note is currently past due.

During the six months ended June 30, 2011, the Company repaid a previously issued note payable of \$231,540.

4. Convertible Debt

On June 28, 2011, the Company entered into a Junior Secured Convertible Debt Offering that provides for the sale of up to an aggregate principal amount of \$1,500,000 Junior Secured Convertible Promissory Notes (the "Junior Notes") and Warrants. The investors in this Junior Secured Convertible Debt Offering receive five-year warrants to purchase that number of common shares equal to 10% of the principal amount of their Junior Note(s) divided by the exercise price of \$.06 per share. The Junior Notes bear interest at 8% per annum, have a 24-month maturity date and are secured by the assets of the Company with the repayment being subordinated to the repayment of all secured notes previously issued by the Company. The Junior notes also contain a contingent conversion option wherein, at the option of 60% of the investors and twelve months following the closing, all or a portion of the principal amount and accrued interest may be converted into common shares at an exercise price of \$0.06 per share but only if the entire amount of the Junior Secured Convertible Debt Offering has been raised. However, the Junior Notes automatically convert into common shares upon a subsequent equity funding round of at least \$3 million of new equity capital ("Qualified Round") at a per share price equal to the per share price of the qualified round.

In conjunction with the Junior Secured Convertible Debt Offering, the investors received warrants to purchase an aggregate of 833,333 common shares. The warrants vested immediately, have a five year term and an exercise price of \$0.06 per share. The relative fair value of the warrants was measured using the Black-Scholes option pricing model and determined to be \$52,239 and recorded as a debt discount. The warrant discount is being amortized over the life of the notes using the effective interest method. The amortization expense recorded on the discounts for the six months ended June 30, 2011 totaled \$0.

In conjunction with the Junior Secured Convertible Debt Offering, the Company paid consultants fees totaling \$11,250. The fees were paid in cash and were recorded as deferred financing costs and amortized using the effective interest method over the term of the Notes.

The Company analyzed the Junior Secured Convertible Debt Offering for derivative accounting under FASB ASC 815-15 and determined that derivative accounting does not apply to these instruments.

In addition, the Junior Secured Convertible Debt Offering was then evaluated for a beneficial conversion feature and it was determined that a beneficial conversion feature existed. The intrinsic value of the beneficial conversion feature was measured on the date of the agreement and determined to be \$135,572. However, due to the contingent nature of the conversion feature, the beneficial conversion feature will be recognized as an additional discount when the contingency is lifted.

On February 28, 2011, the Company completed the placement of \$1,182,844 Secured Convertible Promissory Note (the "Notes") and Warrants (collectively, the "Secured Convertible Debt Offering"). The Lenders in the Secured Convertible Debt Offering paid a 10% discount for their investment, resulting in a "stepped-up" basis in their individual Notes for a total principal amount of \$1,301,128. The Notes bear interest at the rate of 12% per annum, have an 18-month maturity date and are convertible to common shares at \$0.20 per share. The Notes are secured by a first lien on all assets of the Company; but are subordinate to the lien with respect to up to \$100,000 of original principal amount of other notes against the Company's vault.

In conjunction with the Secured Convertible Debt Offering, the Lenders received warrants to purchase an aggregate of 3,252,821 common shares. The warrants vested immediately, have a five year term, a \$0.30 exercise price and are redeemable by the Company in the event of an acquisition. The Company valued the warrants using the Black-Scholes option pricing model. The warrants include standard antidilution provisions for stock splits, stock dividends and recapitalization.

During November and December of 2010, the Company received \$250,000 of the cash proceeds under the Secured Convertible Debt Offering in the form of advanced convertible notes. These advanced convertible notes originally matured at the earlier of the closing of the Secured Convertible Debt Offering or May and June of 2012, had an interest rate of 12% per annum and were convertible into common shares at \$0.20 per share. The principal and accrued interest amounting to \$250,000 and \$8,844, respectively, were converted into Notes under the Secured Convertible Debt Offering upon closing.

In conjunction with the sale of the 12% Secured Convertible Debt Offering, the Company paid consultants fees totaling \$64,000 and issued 170,000 5-year warrants with an exercise price of \$0.20 per share and 363,000 5-year warrants with an exercise price of \$0.30 per share. The fees were paid through the issuance of Notes in the 12% Secured Convertible Debt Offering. The fees and

Table of Contents

the fair value of the warrants totaling \$143,735 were recorded as deferred financing costs and amortized using the effective interest method over the term of the Notes.

Amortization expense on deferred financing costs for the six months ended June, 2011 and 2010 amounted to \$33,586 and \$36,849, respectively. Unamortized deferred financing costs amounted to \$125,865 as of June 30, 2011.

The Company analyzed the Secured Convertible Debt Offering for derivative accounting under FASB ASC 815-15 and determined that derivative accounting does not apply to these instruments.

The Secured Convertible Debt Offering was then evaluated for a beneficial conversion feature and it was determined that a beneficial conversion feature existed. The intrinsic value of the beneficial conversion feature was determined to be \$126,729. In addition, the relative fair value of the warrants was measured using the Black-Scholes option pricing model and determined to be \$316,226 and recorded as a debt discount. The 10% face discount on the Notes was determined to be \$118,284 resulting in an aggregate discount of \$561,239 being recorded on the Notes. The aggregate discount is being amortized over the life of the Notes using the effective interest method. The amortization expense recorded on these discounts for the six months ended June 30, 2011 totaled \$88,764 resulting in a total unamortized discount of \$472,475 as of June 30, 2011.

On February 28, 2011, the Company entered into an agreement to repay and modify three debt obligations owed to two stockholders. The debt obligations owed to these two stockholders were secured by a first lien on the Company's assets and consisted of the following: a \$250,000 12% secured convertible note issued in November 2008 with a \$0.35 per share conversion rate; a \$50,000 payable that was due on demand and bore interest at 10% per annum; and a \$231,540 6% promissory note that was due on demand. The terms of the agreement provided for the repayment of \$431,540 of principal on the combined debt and payable with the remaining principal balance owed of \$100,000 being converted into a Note under the Secured Convertible Debt Offering. In addition, the outstanding accrued interest owed to these two stockholders of \$103,109 was paid through the issuance 687,393 common shares. Under the agreement, the terms of 350,000 warrants previously granted to these stockholders were modified whereby the exercise price was reduced to \$0.15 and the term changed to 5 years. An additional 200,000 warrants with a 5-year term and a \$0.30 per share exercise price were also granted to these stockholders. Upon final payment of the loan on April 21, 2011, the stockholders released their first lien in the Company's assets in preference to those Lenders associated with the Secured Convertible Debt Offering.

The Company evaluated the modification of the \$100,000 owed to these two stockholders into the 12% Secured Convertible Debt Offering under FASB ASC 470-50 and determined that the modification was substantial and qualified as a debt extinguishment. The incremental increase in the fair value of the 350,000 modified warrants of \$384, the fair value of the additional 200,000 warrants issued of \$30,000 and the fair value of the 275,000 warrants issued under the terms of the Secured Debt Offering of \$41,250 were recorded as a loss on the extinguishment of debt for the six months ended June 30, 2011.

A summary of the changes in convertible debt for the six months ended June 30, 2011, is as follows:

Convertible debt, net at December 31, 2010	\$1,032,941
Add: Notes issued	1,501,128
Less: 10% discount on the Notes	(118,284)
Less: discount due to relative fair value of warrants	(368,465)
Less: discount due to beneficial conversion feature	(126,729)
Less: principal payments	(150,001)
Add: amortization of debt discounts	95,390

5. Common Stock

During the six months ended June 30, 2011, the Company:

- a) issued 781,826 common shares for services valued at \$67,528,
- b) issued 687,393 common shares to repay accrued interest of \$103,109 (see also Note 4),
- c) issued 277,335 common shares for the conversion of 55,467 Series A preferred shares,
- d) issued 1,400,000 common shares for total cash proceeds of \$63,000, net of issuance costs of \$7,000.

6. Stock Options

During the six months ended June 30, 2011, options to purchase 1,050,000 common shares were granted by the Company to executive management and key employees at an exercise price of \$0.08 per share. These options have a contractual term of 5 years and a vesting term of 3 years. The options have a fair value of \$81,553 which was calculated using the Black-Scholes option-pricing model. Variables used in the valuation include (1) discount rate of 1.44%, (2) expected life ranging between 3.0 to 4.0 years (3) expected volatility ranging from 209.63% to 359.11% and (4) zero expected dividends.

During the six months ended June 30, 2011, options to purchase 235,000 common shares were granted by the Company to certain members of the Board of Directors at exercise prices ranging from \$0.06 to \$0.09 per share. These options have contractual terms ranging from 5 to 10 years and vesting terms ranging from 12 months to 3 years. The options have a fair value of \$19,680 which was calculated using the Black-Scholes option-pricing model. Variables used in the valuation include (1) discount rate of 1.44%, (2) expected life ranging from 3.0 to 4.0 years (3) expected volatility ranging from 359.11% to 372.09% and (4) zero expected dividends.

During the six months ended June 30, 2011, options to purchase 1,200,000 common shares were granted by the Company to certain employees at an exercise price of \$0.19 per share. These options have a contractual term of 5 years and a vesting term of 3 years with 154,566 of the options fully vested at grant date. The options have a fair value of \$227,872 which was calculated using the Black-Scholes option-pricing model. Variables used in the valuation include (1) discount rate of 1.44%, (2) expected life of 4.0 years (3) expected volatility of 344.12% and (4) zero expected dividends.

During the six months ended June 30, 2011, options to purchase 200,707 common shares were granted by the Company to certain officers, as payment of a portion of their salaries, at an exercise price of \$0.19 per share. These options have a contractual term of 5 years and vest monthly through June 30, 2011. The options have a fair value of \$38,014 which was calculated using the Black-Scholes option-pricing model. Variables used in the valuation include (1) discount rate of 1.05%, (2) expected life ranging from 2.51 to 2.72 years (3) expected volatility of 366.57% and (4) zero expected dividends.

During the six months ended June 30, 2011, options to purchase 250,000 common shares were granted by the Company to three employees at an exercise price of \$0.19 per share. These options have a contractual term of 5 years, and a vesting term of 3 years. The options have a fair value of \$47,473 which was calculated using the Black-Scholes option-pricing model. Variables used in the valuation include (1) discount rate of 1.44%, (2) expected life of 4.0 years (3) expected volatility of 344.12% and (4) zero expected dividends.

A summary of option activities for the six months ended June 30, 2011 is reflected below:

	Options	Weighted- Average Exercise Price	Weighted Average Remaining Life (yrs)
Outstanding at December 31, 2010	2,990,000	\$0.34	
Granted	2,935,707	0.14	
Canceled	—	—	
Forfeited	(1,335,000)	\$(0.30)	
Outstanding at June 30,2011	4,590,707	\$0.22	4.0
Exercisable at June 30, 2011	1,891,605	\$0.30	3.10

The weighted average grant date fair value of options granted in 2011 was \$0.13. The outstanding options at June 30, 2011 have an intrinsic value of zero.

Stock option expense for the six months ended June 30, 2011 and 2010 amounted to \$227,041 and \$147,085 respectively. As of June 30, 2011, there was approximately \$201,377 of unrecognized cost which is expected to be recognized through January 2014.

7. Stock Warrants

Table of Contents

During the six months ended June 30, 2011, 25,000 warrants with an exercise price of \$0.20 per share were granted to an third party who provided a short term loan to the Company (see Note 3). These warrants have a term of five years and vested immediately. The warrants have a fair value of \$2,000 which was calculated using the Black-Scholes option pricing model. Variables used in the valuation include (1) discount rate of 2.31%, (2) a warrant life of five years, (3) expected volatility of 401.22% and (4) zero expected dividends. The relative fair value of these warrants of \$1,923 was recorded as a discount to the short term loan provided by this third party.

During the six months ended June 30, 2011, a total of 500,000 warrants with an exercise price of \$0.08 were granted to a third party consulting firm that provided services in connection with the \$500,000 Equity Raise (see Note 4). These warrants have a term of five years and vested immediately. The warrants have a fair value of \$25,000 which was calculated using the Black-Scholes option pricing model. Variables used in the valuation include (1) discount rate of 2.05%, (2) warrant life of five years, (3) expected volatility of 402.61% and (4) zero expected dividends. The fair value of these warrants was recorded as stock issuance cost in additional paid in capital during the six months ended June 30, 2011.

During the six months ended June 30, 2011, a total of 140,000 warrants with an exercise price of \$0.05 were granted to third party consulting firm that provided services in connection with the \$500,000 Equity Raise (see Note 4). These warrants have a term of five years and vested immediately. The warrants have a fair value of \$10,500 which was calculated using the Black-Scholes option pricing model. Variables used in the valuation include (1) discount rate of 1.81%, (2) warrant life of five years, (3) expected volatility of 403.02% and (4) zero expected dividends. The fair value of these warrants was recorded as stock issuance costs in an entry to additional paid in capital during the six months ended June 30, 2011.

In conjunction with the Company's Junior Secured Convertible Debt Offering (see Note 4), the Company issued an aggregate of 833,333 warrants with an exercise price of \$0.06 per share. These warrants have a term of 5 years, vested immediately and have a fair value of \$58,333 as calculated using the Black-Scholes option pricing model. Variables used in the valuation include: (1) discount rate of 1.62%, (2) warrant life of five years, (3) expected volatility of 405.90% and (4) zero expected dividends. The relative fair value of these warrants of \$52,239 and was recorded as a debt discount to the \$500,000 Junior Secured Convertible Debt Offering.

As a condition associated with the closing on the Company's Junior Secured Convertible Debt Offering (see Note 4), the Company granted 200,000 warrants to the Company's former President and Chief Executive Officer with an exercise price of \$0.06 per share. These warrants have a term of 5 years, vested immediately and have a fair value of \$17,000 as calculated using the Black-Scholes option pricing model. Variables used in the valuation include: (1) discount rate of 1.70%, (2) warrant life of five years, (3) expected volatility of 406.07% and (4) zero expected dividends. The fair value of the warrants was recorded as stock based compensation for the six months ended June 30, 2011.

As an additional condition associated with the closing on the Company's Junior Secured Convertible Debt Offering (see Note 4), the Company granted 150,000 warrants to the Company's Interim President and Chief Executive Officer with an exercise price of \$0.06 per share. These warrants have a term of 5 years, vested immediately and have a fair value of \$12,750, as calculated using the Black-Scholes option pricing model. Variables used in the valuation include: (1) discount rate of 1.70%, (2) warrant life of five years, (3) expected volatility of 406.07% and (4) zero expected dividends. The fair value of the warrants was recorded as stock based compensation for the six months ended June 30, 2011.

In conjunction with the Company's Secured Convertible Debt Offering (see Note 4), the Company issued an aggregate of 3,252,821 warrants with an exercise price of \$0.30 per share. These warrants have a term of 5 years, vested immediately and have a fair value of \$487,918 as calculated using the Black-Scholes option pricing model. Variables

used in the valuation include: (1) discount rate of 2.13%, (2) warrant life of five years, (3) expected volatility of 400.26% and (4) zero expected dividends. The relative fair value of the 2,977,821 warrants of \$316,226 was recorded as a debt discount and the fair value of the 275,000 warrants of \$41,250 was included in the calculation of the loss on the extinguishment of debt during the six months ended June 30, 2011.

In addition, the Company issued 200,000 warrants with an exercise price of \$0.20 per share to the two stockholders whose outstanding note of \$100,000 was converted into the Secured Convertible Debt Offering (see Note 4). These warrants have a term of 5 years, vested immediately and have a fair value of \$30,000 as calculated using the Black-Scholes option pricing model. Variables used in the valuation include: (1) discount rate of 2.13%, (2) warrant life of five years, (3) expected volatility of 335.62% and (4) zero expected dividends. The fair value of these warrants was included in the calculation of the loss on the extinguishment of debt during the six months ended June 30, 2011.

During the six months ended June 30, 2011, a total of 170,000 warrants with an exercise price of \$0.20 per share were granted to an individual who provided services in connection with the Company's Secured Convertible Debt Offering (see Note 4). These warrants have a term of five years and vested immediately. The warrants have a fair value of \$25,500 which was calculated using

Table of Contents

the Black-Scholes option pricing model. Variables used in the valuation include (1) discount rate of 1.18%, (2) warrant life of five years, (3) expected volatility of 400.26% and (4) zero expected dividends. The fair value of these warrants was recorded as deferred financing costs during the six months ended June 30, 2011.

During the six months ended June 30, 2011, 363,000 warrants with an exercise price of \$0.30 were granted to an individual who provided services in connection with the Company's Secured Convertible Debt Offering (see Note 4). These warrants have a term of five years and vested immediately. The warrants have a fair value of \$54,235 which was calculated using the Black-Scholes option pricing model. Variables used in the valuation include (1) discount rate of 1.18%, (2) warrant life of five years, (3) expected volatility of 344.35% and (4) zero expected dividends. The fair value of these warrants was recorded as deferred financing costs during the six months ended June 30, 2011.

During the six months ended June 30, 2011, a total of 40,000 warrants with an exercise price of \$0.20 per share were issued to an individual who provided consulting services to the Company ratably over a four month period. These warrants have a term of five years and vested immediately. The warrants have a fair value of \$3,059 as calculated using the Black-Scholes option-pricing model. Variables used in the valuation include (1) discount rate of 1.18%, (2) warrant life of five years, (3) expected volatility ranging between 400.90% and 406.24% and (4) zero expected dividends.

During the six months ended June 30, 2011, the Company modified the terms of 350,000 previously granted warrants whereby the exercise price was reduced to \$0.15 per share and the term was changed to 5 years. The incremental increase in the fair value of the warrants was determined to be \$384 using the Black-Scholes option-pricing model. Variables used in the valuation include (1) discount rate of 1.18%, (2) expected terms ranging from 2.7 to 5.0 years, (3) expected volatility of 344.22% and (4) zero expected dividends. The incremental increase in the fair value of these warrants was included in the calculation of the loss on the extinguishment of debt during the six months ended June 30, 2011.

A summary of warrant activities for the six months ended June 30, 2011 is as follows:

	Warrants	Weighted-Average Exercise Price	Weighted Average Remaining Life (yrs)
Outstanding at December 31, 2010	8,683,348	\$0.64	
Granted	5,874,155	0.22	
Forfeited	—	—	
Outstanding at June 30, 2011	14,557,503	\$0.47	3.77
Exercisable at June 30, 2011	14,557,503	\$0.47	3.77

The weighted average grant date fair value of warrants granted during 2011 was \$0.12. The outstanding warrants at June 30, 2011 have an intrinsic value of zero.

Warrants expense for the six months ended June 30, 2011 and 2010 was \$49,548 and \$387,959, respectively.

8. Commitments and Contingencies

From time to time, Digitiliti may be subject to routine litigation, claims, or disputes in the ordinary course of business. In the opinion of management; no pending or known threatened claims, actions or proceedings against Digitiliti are expected to have a material adverse effect on Digitiliti's consolidated financial position, results of operations or cash flows. Digitiliti cannot predict with certainty, however, the outcome or effect of any of the litigation or investigatory

matters specifically described above or any other pending litigation or claims. There can be no assurance as to the ultimate outcome of these lawsuits and investigations.

In June 2011, the Company was made a party to a lawsuit initiated by one of its preferred stockholders seeking recovery of their investment in the Company based on, among other claims, an alleged breach of the state's securities regulations. The Company believes the preferred stockholder's claim lacks factual basis and is without merit. Accordingly, the Company has not accrued any manner of loss contingency related to this claim and litigation is currently pending.

On May 6, 2011, the Company entered into a Confidential Settlement Agreement with one of its unsecured convertible note holders reflecting repayment of their convertible note totaling \$37,100, on a discounted basis, that involves an extended payment and the conversion of the outstanding principal balance based on an above-market conversion rate. Digitiliti evaluated the modification

Table of Contents

under FASB ASC 470-50 and determined that the modification was not substantial and did not qualify as a debt extinguishment.

Some of the Company's convertible note holders have not accepted offers to convert their notes under the terms of the Modification Proposal issued in 2009 and Incentive Offer from 2010, or otherwise. The Company is presently in arrears in principal and accrued interest payments in an aggregate total of \$380,174 as of June 30, 2011. Although the Company is continuing to discuss payment and/or conversion or extension of these notes with note holders, these outstanding obligations pose a risk to the Company's ongoing operations.

9. Subsequent Events

During July 2011, the Company entered into Confidential Settlement Agreements with one of its secured convertible note holders and one of its unsecured convertible note holders reflecting repayment of their convertible notes with extended payment terms.

On July 18, 2011, the Company made a payment of \$15,000 on one of its secured convertible notes.

On August 16, 2011, the Company borrowed \$50,00 from a third party. This note is unsecured, bears interest at 12% per annum, matures February 16, 2011 and is convertible into common stock at \$0.07 per share. In connection with the loan, the Company issued 50,000 common stock warrants exercisable at \$0.07 per share. The warrants vest immediately and have a term of five years.

Item 2. Management's Discussions and Analysis of Financial Condition and Results of Operations.

Forward-looking Statements

This quarterly report contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements concern goals, beliefs, plan objectives, intentions, expectations, financial condition, results of operations, future performance, business strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. Such forward-looking statements are preceded by, followed by or include the words “may,” “would,” “could,” “should,” “expects,” “projects,” “anticipates,” “believes,” “estimates,” “plans,” “intends,” “targets” or similar expressions.

Forward-looking statements involve inherent risks and uncertainties, and important factors (many of which are beyond our control) that could cause actual results to differ materially from those set forth in the forward-looking statements, including the following: general economic or industry conditions, nationally and/or in the communities in which we may conduct business, changes in the interest rate environment, legislation or regulatory requirements, conditions of the securities markets, our ability to raise capital, changes in accounting principles, policies or guidelines, financial or political instability, acts of war or terrorism, other economic, competitive, governmental, regulatory and technical factors affecting our current or potential business and related matters. Accordingly, results actually achieved may differ materially from expected results in these statements.

The information in this quarterly report is as of June 30, 2011, or, where clearly indicated, as of the date of this filing. Forward-looking statements speak only as of the date they are made. We do not undertake, and specifically disclaim, any obligation to update any forward-looking statements to reflect events or circumstances occurring after the date of such statements. We also may make additional disclosures in our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K that we may file from time to time with the SEC. Please also note that we provide a cautionary discussion of risks and uncertainties under the section entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2010. These are factors that could cause our actual results to differ materially from expected results. Other factors besides those listed could also adversely affect us.

Plan of Operation

The Business

Our business is developing and delivering superior information management technologies and methodologies enabling our customers to manage, control, protect and access their information and data simply and cost effectively. Our traditional business is providing a cost effective on-line data protection solution to the small to medium business (“SMB”) and small to medium enterprise (“SME”) markets through our DigiBAK service.”. This on-line cloud storage management solution helps organizations properly manage and protect their entire network from one centralized location.

Our emerging business product, released in the first quarter of 2010, is called DigiLIBE. We believe that DigiLIBE is a game-changing product that addresses the significant need for a fiscally responsible, integrated system to manage the increasing growth, volume, and diversity of unstructured data that now represents up to 85% of enterprise information and continues to grow rapidly. Content chaos is overwhelming many companies’ ability to meet compliance, utilize collaboration tools and optimize storage needs for their virtualized infrastructures.

DigiBAK and DigiLIBE are complementary products — DigiBAK provides cloud storage backup and recovery of structured data and operating system files and DigiLIBE offers information management and life-cycle control of unstructured data from end-user through archiving and back to the end user.

Growing both Business Segments:

We believe the benefits of seeking to grow both the DigiBAK and DigiLIBE businesses are:

- (i) solving a major industry and customer problem of managing continually growing information volume and associated cost of storage and retrieval;
- (ii) being able to access a larger share of opportunity in the information management storage business;
- (iii) offering significant technological advantages in corporate policy level control of information and ability to leverage knowledge from the information it creates; and
- (iv) optimizing how we synergistically allocate capital and resources between both business.

13

Table of Contents

DigiLIBE has received excellent feedback on the capability, performance, and function it delivers since its initial release. Our sales and prospecting efforts have also reaffirmed the potential of selling DigiBAK services as part of a DigiLIBE sale.

“The first company to demonstrate that it can genuinely bridge the gap between storage and information management will make existing products look archaic by comparison”

Joseph Martins, Managing Director, Data Mobility Group LLC

We believe DigiLIBE is a fiscally responsible solution at a price, performance, and ease of use level that alters the current competitors' point solution landscape and positions while exceeding customers' expectations and needs. We also believe this product represents a significant step toward our goal of becoming a technology leader in the information content and context management marketplace.

Liquidity and Capital Resources

Our liquidity is dependent, in the short term, on proceeds from newly issued debt and the sale of our common stock for cash. In the long term, we may need to continue expanding our capacity of the Data Storage Center by investing in property and equipment and software licenses.

We have financed our operations, debt service and capital requirements through cash flows generated from operations, the issuance of secured and unsecured convertible debt financing, capital leases and issuance of equity securities. We had a working capital deficit of \$1,686,465 at December 31, 2010, and at June 30, 2011 we had a working capital deficit of \$1,156,165. We had cash of \$206,915 as of June 30, 2011, compared to cash of \$27,557 as of December 31, 2010.

On June 28, 2011, the Company initiated a placement of up to \$1,500,000 in a Junior Secured Convertible Promissory Note and Warrants Offering (the “Junior Secured Convertible Debt Offering”). On June 28, 2011, the Company closed on the first tranche of three potential closings of this Junior Secured Convertible Debt Offering resulting in the receipt of \$500,000 of proceeds.

On June 28, 2011, the Company entered into a Junior Secured Convertible Debt Offering that provides for the sale of up to an aggregate principal amount of \$1,500,000 Junior Secured Convertible Promissory Notes (the "Junior Notes") and Warrants. The investors in the Junior Secured Convertible Debt Offering received five-year warrants to purchase that number of common shares equal to 10% of the principal amount of their Junior Note(s) divided by the exercise price of \$.06 per share. The Junior Notes bear interest at 8% per annum, have a 24-month maturity date and are secured by the assets of the Company with the repayment being subordinated to the repayment of all secured notes previously issued by the Company. The Junior Notes also contain a contingent conversion option wherein, at the option of 60% of the investors and twelve months following the closing, all or a portion of the principal amount and accrued interest may be converted into common shares at an exercise price of \$.06 per share but only if the entire amount of the Junior Secured Convertible Debt Offering has been raised. However, the Junior Notes automatically convert into common shares upon a subsequent equity funding round of at least \$3 million of new equity capital ("Qualified Round") at a per share price equal to the per share price of the qualified round. All of the securities issued in conjunction with the Junior Secured Convertible Debt Offering were sold to “accredited investors” as those terms are defined on Rule 501 of Regulation D of the Securities and Exchange Commission, and each such person had prior access to all material information about the Company. The offer and a sale of these securities were exempt from the registration requirements of the Securities Act of 1933, as amended (the “Securities Act”), pursuant to, among other reasons, Section 4(2) and 4(6) thereof, and Rule 506 of Regulation D of the Securities and Exchange Commission.

Registration of sales to “accredited investors” are preempted from state regulation.

On February 28, 2011, the Company completed the placement of \$1,182,844 Secured Convertible Promissory Notes and Warrants (the “Secured Convertible Debt Offering”). All of the securities issued in conjunction with the Secured Convertible Debt Offering were sold to “accredited investors” as those terms are defined on Rule 501 of Regulation D of the Securities and Exchange Commission, and each such person had prior access to all material information about the Company. The offer and a sale of these securities were exempt from the registration requirements of the Securities Act of 1933, as amended (the “Securities Act”), pursuant to, among other reasons, Section 4(2) and 4(6) thereof, and Rule 506 of Regulation D of the Securities and Exchange Commission. Registration of sales to “accredited investors” are preempted from state regulation.

The Lenders in the Secured Convertible Debt Offering paid 90% of the principal amount for their investment, resulting in a “stepped-up” basis in their individual Secured Convertible Promissory Notes. The Secured Convertible Promissory Notes bear interest at the rate of 12% per annum, have an 18-month maturity date and a \$.20 per share conversion rate in the Company’s common stock. The Secured Convertible Promissory Notes are secured by a first lien on all assets of the Company; provided, however, that the Lenders agreed to subordinate to a lien with respect to up to \$100,000 of original principal amount of other notes

Table of Contents

against the Company's vault.

On February 28, 2011, the Company entered into an agreement with two stockholders to repay and modify three debt obligations owed to the two stockholders, (the "Miner Debt"). The debt obligations owed to these two stockholders were secured by a first lien on the Company's assets and consisted of the following: a \$250,000 12% secured convertible note issued in November 2008 with a \$0.35 per share conversion rate; a \$50,000 note payable that was due on demand and bore interest at 10% per annum; and a \$231,540 6% promissory note that was due on demand. The terms of the agreement provided for the repayment of \$431,540 of principal on the combined debt and payable with the remaining principal balance owed of \$100,000 being converted into a secured promissory note under the Secured Convertible Debt Offering. In addition, the outstanding accrued interest of \$103,109 owed to these two stockholders was paid through the issuance 687,393 common shares of the Company. Under the agreement, the terms of 350,000 common stock warrants previously granted to these stockholders were modified whereby their exercise price was reduced \$0.15 and their term was changed to 5 years. An additional 200,000 common stock warrants with a five year term and a \$0.30 per share exercise price were also granted to these stockholders. As of March 31, 2011, there remained an outstanding a balance of \$2,371 on the \$250,000 12% secured convertible note, which was satisfied in full on April 21, 2011. After this final payment of \$2,371 and completion of all documentation reflecting the repayment of the Miner Debt, the Miners released their first lien in the Company's assets in preference to those Lenders associated with the Secured Convertible Debt Offering.

The Company evaluated the modification of the \$100,000 owed to these two stockholders into the 12% Secured Convertible Debt Offering under FASB ASC 470-50 and determined that the modification was substantial and qualified as a debt extinguishment. The incremental increase in the fair value of the 350,000 modified warrants of \$384, the fair value of the additional 200,000 warrants issued of \$30,000 and the fair value of the 275,000 warrants issued under the terms of the Secured Debt Offering of \$41,250 were included in the calculation of the loss on extinguishment of debt resulting in a total loss on the extinguishment of debt of \$71,634 for the six months ended June 30, 2011.

We used \$838,677 of net cash in operating activities for the six months ended June 30, 2011, compared to using \$870,251 for the six months ended June 30, 2010. Cash used in operating activities during the six months ended June 30, 2011, funded a net loss of \$1,728,675. This net loss was offset by non-cash charges of \$200,118 for amortization and depreciation, \$227,041 associated with stock options expense, \$49,548 associated with warrant expense, \$71,634 related to a loss on the extinguishment of debt, \$129,609 related to amortization of the discount on our convertible debt and deferred financing costs and \$67,528 related to common stock issued for services. Cash used in operating activities during the six months ended June 30, 2010, funded a net loss of \$4,388,304. This net loss was offset by non-cash charges of \$316,200 for amortization and depreciation, \$68,342 associated with stock options expense, \$354,054 related to amortization of discounts on our convertible debt and deferred financing costs, \$387,959 of warrant expense, \$1,478,707 of amortization pertaining to the beneficial conversion feature associated with the convertible notes that were converted, \$318,294 loss on extinguishment of debt and \$113,495 related to shares issued for services. In addition, the Company's operating activities during the six months ended June 30, 2010, generated \$52,641 from a decrease in accounts receivable.

Net cash flows used in investing activities was \$4,870 for the six months ended June 30, 2011, compared to net cash flows used in investing activities of \$46,134 for the six months ended June 30, 2010. During 2011, the total consisted mainly of \$50,000 or restricted cash plus \$4,870 paid for the purchase of property and equipment. During 2010, the total was attributed to our purchase of property and equipment and software licenses.

Net cash flow provided by financing activities was \$1,072,902 for the six months ended June 30, 2011, compared to net cash provided by financing activities of \$1,230,439 for the six months ended June 30, 2010. During six months ended June 30, 2011, cash provided by financing activities is primarily due to proceeds of \$1,310,000 received from

the sale of convertible notes. We used these proceeds to make \$23,308 in capital lease payments, \$231,540 in payments on notes payable and \$150,000 of payments on convertible debt. During six months ended June 30, 2010, cash provided by financing activities is primarily due to proceeds of \$1,214,050 received from issuance of our common stock, net of related issuance costs and \$500,900 from the exercise of warrants. We used these proceeds to make \$24,939 in capital lease payments, \$364,572 in payments on notes payable and \$95,000 of payments on convertible debt.

As of June 30, 2011, the Company had \$284,630 of debt and accrued interest outstanding from the \$5.5 million offering and \$124,200 of debt and accrued interest outstanding from the \$750,000 secured offering.

Results of Operations

For the three month periods ended June 30, 2011 and 2010

Gross sales of \$481,714 for the three months ended June 30, 2011 is comprised of \$137,485 in a single DigiLIBE sale and \$344,229

Table of Contents

in DigiBAK sales. This resulted in a 37% decrease in DigiBAK revenues from sales of \$344,229 for the three months ended June 30, 2011 compared to \$539,007 for the three months ended June 30, 2010. This decrease in DigiBAK revenues of \$194,778 is almost offset by the single DigiLIBE sale of \$137,485. Beginning in 2008, the Company anticipated increasing competitive pricing pressures on its DigiBAK product as a result of an ever-expanding range of alternative archiving storage services and a struggling economy. In response to these challenges, we restructured our resources, strengthened our DigiBAK VAR and customer relationships to reposition and rebrand our DigiBAK offering, initiated targeted sales efforts, took pricing actions and refined other aspects of the DigiBAK business to sustain our margins and attract new customers. Despite this decrease in DigiBAK revenue, we increased our customer count from 831 as of June 30, 2010 to 915 as of June 30, 2011 and our current customer base remains highly satisfied with our DigiBAK service offering.

During the three months ended June 30, 2011, our gross margin was negatively impacted by modifications and repairs made to our vault facilities that could not be capitalized and charged over future periods. Our DigiLIBE product extends our capability from the price competitive storage management market to the value priced information market and serves to increase our overall gross margin of our combined product offerings.

Research and development expenses for the three months ended June 30, 2011 were \$131,289 compared to \$262,241 for the three months ended June 30, 2010. During the second quarter of 2010, we incurred significant expenditures to finalize our in-house product development efforts, which allowed us to bring our new DigiLIBE product to market during 2010. These efforts in 2010 allowed us to improve the installation process and broadening the scalability of the product. As a result of these actions, we were able to reduce our research and development overhead and personnel resources during the three months ended June 30, 2011, thus lowering our actual expenditures when compared to the three months ended June 30, 2010.

Given the release and roll-out of our new DigiLIBE product in the first quarter of 2010, we have incurred lower sales and marketing expenses for the three months ended June 30, 2011 of \$95,981 compared to \$201,285 incurred during the three months ended June 30, 2010. This decrease in sales and marketing expenditure directly relates to our DigiLIBE market launch actions during 2010, which include; establishment of regional and national reseller processes and agreements, and retaining a public relations and industry trade group to create market and industry awareness through product promotion within the industry analyst community, trade publications, and target market segments.

Our general and administrative expenses were reduced 52% from \$1,117,976 incurred during the three months ended June 30, 2010 compared to \$540,468 for the three months ending June 30, 2011. The improvement is attributable to our conscious efforts to reduce costs, streamline administration expenses and contain executive salaries. The business restructuring undertaken midway through 2010 resulted in targeted efforts to reduce general overhead expenses through personnel realignment to priorities and goals, vendor contract negotiations, stock based compensation alternatives, insurance costs and a daily/weekly focus on expenditures between the CEO and CFO.

The decrease of \$1,708,154 in interest expense between the comparative three months ended June 30, 2011 and June 30, 2010 is attributed to the conversion of convertible notes under the terms of the Incentive Offer for which we are no longer required accrue interest. The loss on extinguishment of debt results from the conversion of secured convertible notes into the Company Series A Preferred Convertible Stock Company's incurred under the terms of the Company's Incentive Offer that closed on June 30, 2010.

For the six month periods ended June 30, 2011 and 2010

Sales for the six months ended June 30, 2011 decreased 23% to \$892,743 compared to \$1,164,134 for the six months ended June 30, 2010 reflecting a \$271,391 decrease in revenue. This decrease in revenue is primarily a result of increasing competitive pricing pressure from an ever-expanding range of alternative archiving storage services

impacting our DigiBAK product and a struggling economy. Our DigiLIBE product broadens our product offerings into new markets with higher margins. Our actions to restructure resources, strengthen our VAR and customer relationships, reposition and rebrand our overall offerings, initiated stronger sales efforts and refined other aspects of the DigiBAK business are also intended to sustain and enhance our margins. Despite this decrease in revenue, we increased our customer count from 831 as of June 30, 2010 to 915 as of June 30, 2011 and our current customer base remains highly satisfied with our DigiBAK service offering.

Gross margin for the six months ended June 30, 2011 was \$12,412 compared to a gross margin of \$483,766 for the six months ended June 30, 2010. This significant decrease in margin results from a one-time charge of approximately \$277,000 the Company incurred during the first quarter of 2011, along with continued modifications and repairs required of our vault facilities incurred during the second quarter of 2011 that could not be capitalized and charged over future periods. At present, we believe we will recover all or a portion of the approximate cost of these modification and repair costs under our property and casualty insurance.

Research and development expenses for the six months ended June 30, 2011 were \$279,142 compared to \$531,983 for the six

Table of Contents

months ended June 30, 2010. During the first quarter of 2010, we incurred significant expenditures to finalize our in-house product development efforts, which allowed us to bring our new DigiLIBE product to market during late 2010. These efforts in 2010 allowed us to improve the product by enhancing the installation process and broadening the scalability of the product. As a result of these actions, we were able to reduce our research and development overhead and personnel resources during the six months ended June 30, 2011, thus lowering our actual expenditures when compared to the six months ended June 30, 2010.

Given the release and roll-out of our new DigiLIBE product during late 2010, we have incurred lower sales and marketing expenses for the six months ended June 30, 2011 of \$239,046 compared to \$376,578 incurred during the six months ended June 30, 2010. This decrease in sales and marketing expenditure directly relates to our DigiLIBE market launch actions during 2010, which include; establishment of regional and national reseller processes and agreements and retaining a public relations and industry trade group to create market and industry awareness through product promotion within the industry analyst community, trade publications, and target market segments.

Our general and administrative expenses were reduced 44% from \$1,615,979 incurred during the six months ended June 30, 2010 compared to \$904,043 for the six months ending June 30, 2011. The improvement is attributable to our conscious efforts to reduce costs, streamline administration and contain executive salaries. The business restructuring undertaken midway through 2010 resulted in targeted efforts to reduce general overhead expenses through personnel realignment to priorities and goals, vendor contract negotiations, stock based compensation alternatives, insurance costs and a daily/weekly focus on expenditures between the CEO and CFO.

The decrease of \$1,860,757 in interest expense between the comparative six months ended June 30, 2011 and June 30, 2010 is attributed to the conversion of a substantial number of convertible notes under the terms of the 2010 Incentive Offer for which we are no longer required to accrue interest. The loss on extinguishment of debt results from the conversion of secured convertible notes into the Company Series A Preferred Convertible Stock Company's incurred under the terms of the Company's Incentive Offer that closed on June 30, 2010.

Off-Balance Sheet Arrangements

We had no off-balance sheet arrangements during 2011 and 2010.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities and Exchange Commission reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Our disclosure controls and procedures are also designed to accumulate and communicate information to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Accordingly, management must apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

We conducted our evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) under the Exchange Act as of the end of the period covered by this

report. Based on their review of our disclosure controls and procedures, the Chief Executive Officer and the Chief Financial Officer have concluded that our disclosure controls and procedures are not effective in providing reasonable assurance that information required to be disclosed by us in the reports we file under the Exchange Act were recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules, regulations and forms. In particular, we have identified the following material weakness in our disclosure controls:

We did not maintain sufficient personnel with an appropriate level of technical accounting knowledge, experience, and training in the application of generally accepted accounting principles commensurate with our complexity and (a) our financial accounting and reporting requirements. We have limited experience in the areas of financial reporting and disclosure controls and procedures. As a result, there is a lack of monitoring of the reporting process and there is a reasonable possibility will not be detected or made known to permit us to report on a timely basis.

Table of Contents

Changes in internal control over financial reporting

Our management, with the participation of our chief executive officer and chief financial officer, has concluded there were no significant changes in our internal controls over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
