EXPLANATORY NOTE

We are filing this Amendment No. 1 on Form 10-Q/A to amend and restate in their entirety the following items of our Quarterly Report on Form 10-Q for the quarter ended June 30, 2013 as originally filed with the Securities and Exchange Commission on August 19, 2013 (the "Original Form 10-Q"): (i) Item 1 of Part I "Financial Information," (ii) Item 2 of Part I, "Management's Discussion and Analysis of Financial Condition and Results of Operations,". The subsequent events footnote to the financial statements has been updated to reflect events that occurred after the filing date of the Quarterly Report. This Form 10-Q/A includes Exhibits 31.1, 31.2, 32.1 and 32.2, new certifications by the company's principal executive officer and principal financial officer as required by Rule 12b-15.

We have determined that our previously reported results for the quarter ended June 30, 2013 did not properly represent certain transactions related to shares and warrants issued for cash and services and accrued compensation and consulting fees. (See Note 12. Restatement). We have made necessary conforming changes in "Management's Discussion and Analysis of Financial Condition and Results of Operations" resulting from other minor changes, none of which were considered material.

(A Nevada Corporation)
Notes to the Condensed Consolidated Financial Statements
June 30, 2013
(Unaudited)

The accompanying condensed consolidated financial statements of HPEV, Inc. (“HPEV” or the “Company”) are unaudited, but in the opinion of management, reflect all adjustments (consisting only of normal recurring adjustments) necessary to fairly state the Company’s financial position, results of operations, and cash flows as of and for the dates and periods presented. The condensed consolidated financial statements of the Company are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information.

These unaudited condensed consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements and footnotes included in the Company’s Annual Report on Form 10-K for the twelve months ended December 31, 2012, filed with the Securities and Exchange Commission (the “Commission”). The results of operations for the three and six months ended June 30, 2013 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2013 or for any future period.

NOTE 1 – DESCRIPTION OF BUSINESS

HPEV, Inc., a Nevada corporation (formerly known as Bibb Corporation and Z3 Enterprises) (hereinafter referred to as “HPEV” or “The Company”), was incorporated in the State of Nevada on July 22, 2002.

The Company’s principal operations were to produce fully integrated multi-media products targeting the marginally literate. The Company changed its focus to educational entertainment and reality show programming; feature films and special event marketing upon entering into a Joint Venture Agreement (the “Joint Venture Agreement”) with Phoenix Productions and Entertainment Group (PPEG) in September 2010.

From September 2010 through March 2011, Z3E pursued business opportunities, but agreements were never fulfilled and the entertainment projects have been terminated.

On March 24, 2011, Z3 Enterprises entered into a Share Exchange Agreement to acquire 100 shares, constituting all of the issued and outstanding shares of HPEV Inc. (“HPEV”) in consideration for the issuance of 22,000,000 shares of Z3E common stock. Upon closing of the Share Exchange on April 15, 2011, HPEV became a wholly owned subsidiary of Z3E.

The terms of the Share Exchange Agreement required the current board of directors of Z3E (the “Board”) to designate Quentin Ponder and Timothy Hassett as directors of Z3E, as well as two other directors to be named later by HPEV.

On April 5, 2012, the Company amended its Articles of Incorporation to change its name from Z3 Enterprises, Inc. to HPEV, Inc. On the same date, the board appointed Timothy Hassett as Chief Executive Officer, Quentin Ponder as Chief Financial Officer (he remains Treasurer), Theodore Banzhaf as President and Judson Bibb as Vice President (he remains Secretary).

On April 6, 2012, the Board of Directors amended the bylaws. Specifically, they voted to increase the number of directors, to enable the filling of vacancies on the board of directors by majority vote of the remaining directors or director and to appoint Timothy Hassett and Quentin Ponder to serve as Chairman of the Board and Vice Chairman, respectively.

Control of Z3E changed hands on April 15, 2011 with the issuance of 21,880,000 shares of Z3E common stock to the original shareholders of HPEV pursuant to the terms of the as amended Share Exchange Agreement. An additional 120,000 shares were issued on December 14, 2011 which completed the issuance of 22,000,000 shares of Z3E common stock to HPEV, Inc. under the terms of the as-amended Share Exchange Agreement.

HPEV, INC.
(A Nevada Corporation)
Notes to the Condensed Consolidated Financial Statements
June 30, 2013

(Unaudited)

For accounting purposes, the acquisition of HPEV, Inc. by Z3 Enterprises, Inc. has been recorded as a reverse acquisition of a public company and recapitalization of Z3 Enterprises, Inc. based on factors demonstrating that HPEV represents the accounting acquirer.

HPEV was incorporated under the laws of the State of Delaware on March 25, 2011 to commercialize the technology from patents developed by two of its shareholders. Activities during its start-up stage were nominal.

Subsequent to the closing of the Share Exchange, Z3E changed its business focus to attempting to commercialize the HPEV technologies in a variety of markets by licensing its heat pipe technologies to electric motor, generator and vehicle component manufacturers. The Company also plans to license its hybrid conversion system to fleet owners and service centers.

Effective April 23, 2012, the Financial Industry Regulatory Authority (“FINRA”) approved the Company’s name change and the symbol change from BIBB to WARM.

Pursuant to the Securities Purchase Agreement with Spirit Bear Limited, (See Note 5), Jay Palmer and Carrie Dwyer were appointed to our board of directors effective February 20, 2013 and Donica Holt was appointed to our board of directors on March 7, 2013.

On May 5, 2011, a total of 7 patents (1 granted, 6 pending) were assigned to HPEV by Thermal Motors Innovations, LLC, a company controlled by the developers of the patents. Since then, additional patents have been awarded and filed. Therefore, as of August 15, 2013, our subsidiary, HPEV, owns the rights to five patents, and five patent-applications pending with two remaining to be assigned. See Note 7 – Intellectual Property.

The patents and patents-pending owned by HPEV cover composite heat pipes and their applications, a parallel power platform and a parallel power gearing system. The utilization of composite heat pipes should increase the horsepower of electric motors and enhance the lifespan and effectiveness of heat-producing vehicle components. The parallel power platform enables vehicles to alternate between two sources of power and forms the basis of the electric load assist delivered to the engine. The parallel power input gearing unit enables vehicles to run an on-board generator to deliver mobile electric power.

The Company intends to license heat pipe technology to manufacturers of electric motors and generators as well as vehicle parts such as brakes, resistors and calipers. It also plans to commercialize the patents by implementing and licensing a plug-in hybrid electric vehicle conversion system based on the parallel vehicle platform.

The Company is currently sourcing or commissioning the components to perform its initial conversion. The conversion, if successful, will be used to showcase the effectiveness of the technology, generate data and function as a marketing tool to generate orders. The target markets include commercial and fleet vehicles ranging from heavy duty pick-ups to tractor-trailer trucks and buses.

The parallel power input gearing unit forms the basis of the Company’s Mobile Generator (MG) system. The Company is currently negotiating with a number of fleet owners and manufacturers to install the MG system into their work vehicles.

HPEV, INC.

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

To facilitate the incorporation of the Company's heat pipe technology in industrial electric motors and generators, the Company has signed product development agreements with two multi-national manufacturers.

To prove the effectiveness of heat pipe technology under extreme conditions, the Company has signed agreements with racing teams to test its technology in high performance vehicle components.

As operations have consisted of general administrative and pre-production activities, HPEV, Inc. is considered a development stage company in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 915.

On December 9, 2011, Z3E and PPEG mutually agreed to dissolve their Joint Venture Agreement. The reason was due to a change in business direction by Z3E as a result of its acquisition of HPEV, Inc. The Joint Venture Agreement did not provide for any termination penalties.

NOTE 2 – GOING CONCERN

The accompanying condensed, consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. The Company incurred net losses of approximately \$7,118,405 during the period from March 24, 2011 (Date of Inception) through June 30, 2013 and has not fully commenced its operations. The Company is still in the development stages, raising substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing from shareholders or other sources to meet its obligations and repay its liabilities arising from normal business operations when they come due. At this time, the Company is seeking additional sources of capital through the issuance of debt, equity, or joint venture agreements, but there can be no assurance the Company will be successful in accomplishing its objectives.

These condensed, consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

As of the filing date of this report on Form 10-Q/A, management believes that it has adequate funding to ensure completion of the initial phases of its business plan: to license its thermal technologies and applications; to license a plug-in hybrid conversion system for heavy duty trucks, buses and tractor trailers; and to license or sell a mobile electric power system powered by the Company's proprietary gearing system.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of HPEV, Inc. is presented to assist in understanding the Company's condensed, consolidated financial statements. The condensed, consolidated financial statements and notes are representations of the Company's management, who are responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the condensed, consolidated financial statements.

Basis of Presentation

The accompanying unaudited condensed interim consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. All references to Generally Accepted Accounting Principles (“GAAP”) are in accordance with The FASB Accounting Standards Codification (“ASC”) and the Hierarchy of Generally Accepted Accounting Principles.

The unaudited condensed interim consolidated financial statements have been prepared by us pursuant to the rules and regulations of the Securities and Exchange Commission. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments) which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. These condensed financial statements should be read in conjunction with the audited financial statements and notes for the year ended December 31, 2012 included in Annual Report on Form 10-K. The results of the six month period ended June 30, 2013 are not necessarily indicative of the results to be expected for the full year ending December 31, 2013.

Cash and Cash Equivalents

The Company considers all highly liquid investments and short-term debt instruments with original maturities of three months or less to be cash equivalents. There are \$49,136 and \$194,721 in cash and no cash equivalents as of June 30, 2013 and December 31, 2012, respectively.

Revenue Recognition

The Company recognizes revenue on arrangements in accordance with Securities and Exchange Commission Staff Accounting Bulletin No. 101, “Revenue Recognition in Financial Statements” and No. 104, “Revenue Recognition”. In all cases, revenue is recognized only when the price is fixed or determinable, persuasive evidence of an arrangement exists, the service is performed and collectability is reasonably assured. For the periods ended June 30, 2013 and 2012, and for the period from inception to June 30, 2013, the Company did not report any revenues.

Earnings per Share

The Company has adopted the Financial Accounting Standards Board’s (“FASB”) Accounting Standards Codification (“ASC”) 260-10 which provides for calculation of “basic” and “diluted” earnings per share. Basic earnings per share includes no dilution and is computed by dividing net income or loss available to common stockholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity. The calculation of diluted net loss per share gives effect to common stock equivalents; however, potential common shares are excluded if their effect is anti-dilutive. As of June 30, 2013, 200 preferred shares (which can be converted into common shares at a ratio of 1 to 50,000) and 10,020,304 warrants were outstanding.

Fair Value of Financial Instruments

The carrying amounts reflected in the balance sheets for cash, accounts payable, prepaid assets and accrued expenses approximate the respective fair values due to the short maturities of these items. The Company does not hold any investments that are available-for-sale.

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC, fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Income Taxes

The Company provides for federal and state income taxes payable, as well as for those deferred because of the timing differences between reporting income and expenses for financial statement purposes versus tax purposes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recoverable or settled. The effect of a change in tax rates is recognized as income or expense in the period of the change. A valuation allowance is established, when necessary, to reduce deferred income tax assets to the amount that is more likely than not to be realized.

Upon inception, the Company adopted the provisions of ASC 740-10. The Company did not recognize a liability as a result of the implementation of ASC 740-10. A reconciliation of the beginning and ending amount of unrecognized tax benefits has not been provided since there is no unrecognized benefit as of the date of adoption. The Company did not recognize interest expense or penalties as a result of the implementation of ASC 740-10. If there were an unrecognized tax benefit, the Company would recognize interest related to unrecognized tax benefits in interest expense and penalties in other operating expenses.

Employee Stock Based Compensation

ASC 718-10 provides investors and other users of financial statements with more complete and neutral financial information, by requiring that the compensation cost relating to share-based payment transactions be recognized in the condensed, consolidated financial statements. That cost will be measured based on the fair value of the equity or liability instruments issued. ASC 718-10 covers a wide range of share-based compensation arrangements, including share options, restricted share plans, performance-based awards, share appreciation rights and employee share purchase plans. As of June 30, 2013, the Company has not implemented an employee stock based compensation plan.

Non-Employee Stock Based Compensation

The Company accounts for stock based compensation awards issued to non-employees for services, as prescribed by ASC 718-10, at either the fair value of the services rendered or the instruments issued in exchange for such services, whichever is more readily determinable, using the measurement date guidelines enumerated in ASC 505-50. The Company issues compensatory shares for services including, but not limited to, executive, management, accounting, operations, corporate communication, financial and administrative consulting services.

Use of Estimates

The process of preparing condensed, consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the condensed, consolidated financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Recent accounting standards

The Company has evaluated the recent accounting pronouncements through ASU 2014 -05 and believes that none of them will have a material effect on the Company's condensed, consolidated financial statements.

The Company and Spirit Bear also entered into a Registration Rights Agreement, dated December 14, 2012. Pursuant to the Registration Rights Agreement, the Company shall file a registration statement to register the shares issuable upon conversion of the Preferred Stock and the Debenture (described below) and the shares issuable upon the exercise of the Warrants. If the Registration Statement was not filed within thirty days of the Closing Date, then the number of Warrant Shares would be increased by 500,000 to 6,500,000. If the Securities and Exchange Commission had not declared the Registration Statement effective within 120 days of the Closing Date, then the Company would have to pay to each holder of Preferred Shares an amount in cash per Preferred Share held equal to the product of (i) \$5,000 multiplied by (ii) the product of (A) .02 multiplied by (B) the number of months after the Effectiveness Deadline that the Registration Statement is not declared effective by the SEC.

In connection with the sale of the Preferred Stock, on December 17, 2012, the Company filed with the Secretary of State of the State of Nevada a Certificate of Designation of the Rights, Preferences, Privileges and Restrictions, which have not been set forth in the Certificate of Incorporation of the Series A Convertible Preferred Stock (the "Certificate of Designation").

The Preferred Stock has voting rights as if each share of Series A Convertible Preferred Stock were converted into twenty thousand (20,000) shares of Common Stock (subsequently raised to 50,000. shares as described below).

The holders of each share of Preferred Stock then outstanding shall be entitled to be paid, out of the Available Funds and Assets (as defined in the "Certificate of Designation"), and prior and in preference to any payment or distribution (or any setting apart of any payment or distribution) of any Available Funds and Assets (as defined in the "Certificate of Designation") on any shares of Common Stock, an amount per share equal to the Liquidation Price (\$2,500 per share of the Preferred Stock) of the Series A Convertible Preferred Stock.

In the event a Registration Statement has not been declared effective by the United States Securities Exchange Commission within 180 calendar days from and after the Closing Date, the holders of at least two-thirds (2/3) of the then outstanding shares of Series A Convertible Preferred Stock may deliver a written notice to the Company electing the conversion of all Series A Convertible Preferred Stock to Debentures. Upon receipt of such notice, the outstanding shares of Series A Convertible Preferred Stock shall be converted to Debentures and as a result the Company would issue Debentures having a principal amount of up to \$1,000,000.

Pursuant to the Securities Purchase Agreement, which was subsequently amended in an April 12, 2013 Agreement, the Company may sell Spirit Bear up to 200 additional shares of Preferred Stock and warrants to purchase up to 6,000,000 shares of the Company's common stock. The Company shall have the option to require Spirit Bear to purchase up to these additional Two Hundred (200) Preferred Shares and associated Warrants at a Subsequent Closing in the event that written certification ("Certification Notice") shall have been received by the Company from a federally licensed testing facility reasonably acceptable to Spirit Bear (subsequently amended in the April 12, 2013 Agreement to read 'Mohler Technology, Inc., or a similar federally licensed testing facility acceptable to the Company'), evidencing that either (i) three motors or alternators or (ii) two motors and one AMP system (each motor, alternator or AMP system modified and tested pursuant to a distinct Memorandum of Understanding or other form of agreement) incorporating the Company's technology have been comprehensively tested in accordance with applicable NEMA, ANSI and IEEE standards and that the results of these tests meet or exceed the minimum requirements for certification under those standards; that those same motors, alternators or system incorporating the Company's

technology have passed tests with respect to (i) IEEE 112 in Methods E, E1, F or F1 with a maximum horsepower of 4,000 (or to be determined by agreement) for F or F1 , (ii) sound pressure testing to IEEE 85 and NEMA MG1 20 standards, (iii) bearing temperature testing, (iv) speed versus torque/current testing, (v) polarization index testing per IEEE 45 standards, and (vi) IEEE 112 Method B for full efficiency; and that testing evidences an improvement in power density of at least Twelve Percent (12.00%) compared to the same motor not incorporating HPEV technology. The Company shall give Spirit Bear at least seven business days' notice of any subsequent closing. In the event the Company shall not have received the Certification Notice by December 14, 2013, Spirit Bear shall, commencing on December 14, 2013, have a twelve (12) month option, exercisable during such period at its sole discretion by delivery of written notice to the Company, to purchase the additional Two Hundred (200) Preferred Shares and associated Warrants in a Subsequent Closing to be held within seven (7) days of such notice.

In connection with the sale of the Preferred Stock and Warrants, the Company and Spirit Bear entered into a Patent and Securities Agreement. Pursuant to the Patent and Security Agreement, the Company may, under certain circumstances, grant to Spirit Bear a security interest in certain patents set forth in the Patent and Security Agreement.

On February 20, 2013, the Board of Directors, consisting at that time of Tim Hassett, Quentin Ponder and Judson Bibb, voted to decrease the milestone prices of the five options to purchase one million shares that would be granted to the President, Mr. Banzhaf, assuming the respective milestone prices are achieved. The milestone stock prices were reduced to \$2.00, \$3.00, \$4.00, \$4.50 and \$5.00 for 20 consecutive trading days each. These milestone stock prices have been changed from \$2.00, \$3.00, \$5.00, \$7.50 and \$10.00. Once the stock has traded at or above these prices for 20 consecutive trading days, Mr. Banzhaf has the right to exercise an option to purchase 1,000,000 shares of common stock at the closing price on the first day after the stock has traded for 20 consecutive days at or above each milestone stock price. These options expire one year after Mr. Banzhaf has been terminated without cause.

The board, consisting at that time of Tim Hassett, Quentin Ponder and Judson Bibb, also granted Judson Bibb an option to purchase 2,000,000 shares of the Company's common stock, at a purchase price of par value or \$0.001 per share. The options expire one year after Mr. Bibb has been terminated without cause. The options can be exercised on a cashless basis.

Despite electing two new board members at the first board meeting subsequent to the date the SPA was closed, the Company received another letter from counsel to Spirit Bear on March 7, 2013 indicating that the Company was still in default of its obligations under the SPA and the compensation authorized by the Board on February 20, 2013 (as disclosed in the Current Report on Form 8-K filed February 26, 2013) was self-dealing and resulted in the anti-dilution provision provided for in the SPA.

On March 21, 2013, the Company and Judson Bibb signed an agreement rescinding the options granted.

On March 24, 2013, the Company and Ted Banzhaf signed an agreement rescinding the decrease in the milestone price of the five options to purchase one million shares as well as the cashless exercise thereof awarded to the President.

On April 12, 2013, the Company and Spirit Bear Limited reached agreement regarding the settlement of allegations that the Company did not perform certain obligations pursuant to the Securities Purchase Agreement dated December 14, 2012 with Spirit Bear, and with respect to certain actions taken by the Company with respect to providing compensation to its management. Spirit Bear agreed to discharge the Company from all claims Spirit Bear may have had as well as to forgo all actions of any kind related to those claims which existed on or prior to April 12, 2013. Both parties also agreed that the signing of the agreement did not constitute an admission of wrongdoing or liability.

To satisfy the allegations, the Company and Spirit Bear agreed to amend the Certificate of Designation to provide that each share of Series A Convertible Preferred Stock can be converted into 50,000 shares of common stock and have the voting rights equal to 50,000 shares.

On June 24, 2013, as contemplated by the April 12, 2013 Agreement, an Amendment to the Certificate of Designation was filed with the Secretary of State of the State of Nevada. There are currently 200 shares of Series A Preferred Stock issued and outstanding, all which are held by Spirit Bear Limited and its assignees.

The Company and the holders of the Series A Preferred Stock also amended the bylaws of the Company to provide that the Board shall, irrespective of the number of members, at all times be composed of an even number of members of which at least 50% shall be individuals designated by Spirit Bear. If Spirit Bear does not respond to a written request to designate one or more nominees to the Board within 10 days, this right shall no longer have any effect until the number of directors of the Board shall change thereafter (whether by resignation, appointment, removal or otherwise). This right survives until the earlier of December 14, 2015 and the date that Spirit Bear ceases to be an affiliate of the Company.

Options

On October 31, 2011, stock options to purchase 200,000 shares at \$0.55 were issued to The Crone Law Group. These options were issued in order to satisfy a penalty for services rendered and payments defrayed. The value of these options was estimated by using the Black-Scholes option pricing model with the following assumptions: expected life of 3 years; risk free interest rate of 0.41%; dividend yield of 0% and expected volatility of 289%. These options were valued at \$108,420 and charged to professional fees.

Mark Crone elected to convert the options by cashless exercise. Therefore, on February 13, 2013, the Board of Directors also approved the issuance of 90,000 shares of common stock to the Crone Law Group.

On February 20, 2013, the board of directors, consisting at that time of Tim Hassett, Quentin Ponder and Judson Bibb, granted Judson Bibb an option to purchase 2,000,000 shares of the Company's common stock, at a purchase price of par value or \$0.001 per share. The options expire one year after Mr. Bibb has been terminated without cause. The options can be exercised on a cashless basis.

Also, on February 20, 2013, the Board of Directors, consisting at that time of Tim Hassett, Quentin Ponder and Judson Bibb, voted to decrease the milestone prices of the five options to purchase one million shares that would be granted to the President, Mr. Banzhaf, assuming the respective milestone prices are achieved. The milestone stock prices were reduced to \$2.00, \$3.00, \$4.00, \$4.50 and \$5.00 for 20 consecutive trading days each. These milestone stock prices were reduced from \$2.00, \$3.00, \$5.00, \$7.50 and \$10.00. Once the stock has traded at or above these prices for 20 consecutive trading days, Mr. Banzhaf has the right to exercise an option to purchase 1,000,000 shares of common stock at the closing price on the first day after the stock has traded for 20 consecutive days at or above each milestone stock price. With the exception of \$70,000 in accrued compensation forgiven by two officers on December 17, 2012, the accruals for all unpaid compensation dating back to May 2012 are reflected in the Consolidated Balance Sheets under "Short term loans - related party".

During the period from inception (March 24, 2011) to June 30, 2013, Judson Bibb, Director, advanced \$22,910 in interest free, unsecured, due on demand funds. As of June 30, 2013, \$22,910 remains due and payable. Consequently, it is also reflected in the Consolidated Balance Sheets under "Short term loans - related party".

As an affiliate with representation on the Board of Directors by three individuals, Spirit Bear Limited is considered a related party. Complete information about Spirit Bear's transactions with the Company can be found under Note 5 -- Capital Stock, Note 6 -- Warrants and Options and Note 8 -- Notes Payable as well as following Note 11 under Certain Relationships and Related Transactions.

In the six months ended June 30, 2013, \$263,750 in consulting fees were incurred as a result of these agreements and payments of \$120,000 were made to these entities. The officers are considered independent contractors under these agreements and therefore no payroll taxes were incurred by the Company for the six months ending June 30, 2013.

NOTE 8 – NOTES PAYABLE

On September 7, 2010, the Company entered into a loan agreement with Phoenix Productions and Entertainment Group ("PPEG") for an interest-free loan up to \$1,000,000 (the "PPEG Loan Agreement"). In April, May, June and July of 2012, Spirit Bear Limited made cash advances for and funded loans to the Company in the total amount of \$186,222, creating direct financial obligations of the Company. On August 8, 2012, the Company and Spirit Bear reached a definitive agreement concerning the terms of the loans, including the Company's obligations to repay Spirit Bear within 180 days from each date of funding, and the Company's obligation to issue warrants to Spirit Bear to purchase 3.5714 shares of common stock per dollar of consideration provided by Spirit Bear, subject to certain adjustments, at the per share price of \$.35, as partial consideration for the loans. In the event payment is not made within 90 days of the receipt of each loan, the Company was required to provide penalty warrants. On December 14, 2012, the penalty warrants for all four loans owed to Spirit Bear totaled 819,223. The value of these warrants was estimated by using the Black-Scholes option pricing model with the following assumptions: expected life of 2 years; risk free interest rate of 0.62%; dividend yield of 0% and expected volatility of 245%. On December 21, 2012, the Company concluded negotiations on a debt settlement agreement by and among the Company, PPEG, Action Media (PPEG and Action Media collectively, the "Debt Holders") and Spirit Bear. Pursuant to the Debt Settlement Agreement, \$911,894 outstanding under the PPEG Loan Agreement was forgiven. Action Media agreed to forgive all outstanding debt and accrued interest under the loan. The Debt Holders also agreed to deposit 4,676,000 shares of common stock in escrow. Upon the filing of a registration statement with the SEC, 3,676,000 shares were to be canceled and returned to treasury (See Note 11). NOTE 9 – INTELLECTUAL PROPERTY

As of June 30, 2013, HPEV Inc.'s wholly owned subsidiary was assigned the rights to five patents and five patents-pending with two remaining to be assigned. The issued patents and the majority of the patents-pending relate to the utilization of heat pipes to remove heat from various types of electric motors, generators and a brake resistor. By removing heat in a more efficient manner, the heat pipes provide lower costs, improved performance benefits and longer product life. Another patent-pending is an electric load assist that makes it possible for plug-in hybrid electric vehicles to utilize power in any combination from the gas or diesel engine and an electric motor installed on-board. The patent-pending for the parallel power input gearbox enables work vehicles to run an on-board generator which

provides mobile electric power. The direct cost (since inception) for legal services related to the patents was \$94,807. This amount was capitalized as an asset.

Certain Relationships and Related Transactions

The following includes a summary of transactions since inception (April 15, 2011), or any currently proposed transaction, in which we were or are to be a participant and the amount involved exceeded or exceeds the lesser of \$120,000 or one percent of the average of our total assets at year end for the last two fiscal years (\$8,382), and in which any related person had or will have a direct or indirect material interest (other than compensation described under “Executive Compensation”). Phoenix Productions and Entertainment Group, LLC, (PPEG), a company with whom Z3 Enterprises, Inc. (“Z3E”, a company with whom HPEV executed a reverse merger with) signed a joint venture agreement and with whom Z3E once shared office space. PPEG was a major shareholder in the Company.

On September 7, 2010, Z3E and PPEG entered into a Loan Agreement pursuant to which PPEG is to lend the Company up to \$1,000,000 (the "PPEG Loan Agreement"). Loans under the PPEG Loan Agreement were interest-free and were not convertible into the common stock of the Company as provided in the PPEG Joint Venture Agreement. All loans through December 11, 2012 from PPEG to the Company were made pursuant to the PPEG Loan Agreement.

As of December 11, 2012, the Company had \$862,094 in loans outstanding under the PPEG Loan Agreement. The proceeds were used for all aspects of the operations of Z3 Enterprises including the acquisition of HPEV, Inc. which was treated as a reverse merger for accounting purposes. In the fiscal year ended December 31, 2011, PPEG loaned the Company \$548,407.

In return for the loans, PPEG was due to receive the full amount of its loans or investment upon receipt of revenues by Z3E. As no revenues had been received by Z3E since the loans were provided, no repayments or interest payments were made.

On March 7, 2012, the Company signed a loan agreement with Action Media Group, LLC (a former shareholder) for \$250,000. The terms of the loan included: 3% annual interest and payment of principal and interest to begin at a mutually agreed upon date in the future. Maturity of the loan was perpetual or upon mutual agreement of both parties or if conditions were breached or in default.

On December 11, 2012, HPEV, Inc. (the "Company") entered into a Debt Settlement Agreement (the "Agreement") with Phoenix Productions and Entertainment Group ("PPEG"), Action Media Group, LLC ("AMG")(PPEG and AMG together, the "Debt Holders"), and Spirit Bear Limited. Prior to execution of the Agreement, the Debt Holders were owed an aggregate of \$1,161,894 in principal and accrued interest (the "Debt") by the Company. The Debt Holders also owned an aggregate of 4,676,000 shares (the "Total Shares") of the Company's common stock.

Pursuant to the Agreement, the Debt Holders agreed (i) to forgive the Debt and (ii) to transfer the Total Shares to the Company's transfer agent to be held in escrow and to be cancelled as provided for in the Agreement. Accordingly, the Debt holders have returned the notes evidencing the Debt, which notes were received by the Company on December 17, 2012; and have delivered the Total Shares to the escrow agent by book-entry transfer on December 20, 2012. As provided for in the Agreement, Debt Holders have released the Company of (i) any future liability or claim related to the Debt, (ii) any future liability or claim related to shares of any class of equity in the Company, and (iii) any obligation or liability of the Company.

The Total Shares will be held in escrow until the Company files a registration statement on Form S-1 with the Securities and Exchange Commission (the "SEC") in connection with the December 14, 2012, purchase by Spirit Bear Limited of unregistered securities of the Company (the "Registration Statement"). Upon the filing of the Registration Statement with the SEC, 3,676,000 shares of the Total Shares will be cancelled and 1,000,000 shares of the Total Shares (the "Consideration Shares") will continue to be held in escrow. The Company, or a nominee of the Company, will then purchase the Consideration Shares at the price of Forty Cents (\$.40) per share. The Consideration Shares will be purchased at the rate of Ten Thousand Dollars (\$10,000.00) per month until the purchase of all of the Consideration Shares shall have been completed. The first purchase will commence within ninety (90) days after HPEV shall have achieved One Million Dollars (\$1,000,000.00) in gross revenues for products or services from business operations.

(Unaudited)

The S-1 was filed January 11, 2013. Therefore, on January 14, 2013, 3,676,000 shares were cancelled and returned to treasury.

In 2010 and part of 2011, Z3E shared office space with PPEG. In consideration for the use of such space, Z3E paid approximately \$1,925 in 2011 through August 31, 2011. The sharing of office space officially ended on February 17, 2012.

The Joint Venture Agreement with PPEG was dissolved on December 9, 2011 by mutual agreement.

In October 2011, Judson Bibb, Director, received a gift of 5,000,000 shares from PPEG a significant shareholder. This gift was deemed as compensation. The shares were subsequently returned on April 13, 2012 and no financial benefit was accrued.

On April 12, 2011, Judson Bibb, the Secretary and a Director of the Company, provided an interest-free loan to the Company in the amount of \$22,910, which remains outstanding. The loan was secured by the placement of a mortgage lien in favor of Mr. Bibb on real property owned by Harvest Hartwell while it was a subsidiary of the Company. On August 10, 2011, Mr. Bibb executed the necessary documents to discharge the mortgage lien in order to facilitate the rescission of the acquisition agreement pursuant to which Z3E acquired Harvest Hartwell. The rescission took place on September 2, 2011. The Secretary/Director and the Company have yet to make new arrangements for repayment of the loan.

On February 20, 2013, the board of directors, consisting at that time of Tim Hassett, Quentin Ponder and Judson Bibb, voted to establish compensation levels for the officers of the Company.

Starting to accrue on January 15, 2013, compensations of (i) \$ 13,500 per month for Timothy Hassett, the Chairman and Chief Executive Officer, (ii) \$10,000 per month for Quentin Ponder, the Chief Financial Officer and Treasurer, (iii) \$ 12,500 per month for Theodore Banzhaf, the President, and (iv) \$8,000 per month for Judson Bibb, the Vice-President and Secretary.

The board, consisting at that time of Tim Hassett, Quentin Ponder and Judson Bibb, also resolved that when and if the Company achieves certain milestones, the compensation to the officers shall be increased. The milestones are as follows: (1) generating \$1 million in additional funding, (2) generating \$100,000 in revenue or an additional \$1 million in funding, (3) achieving profitability (which is defined as being cash flow positive for three consecutive months) and (4) maintaining profitability for four consecutive quarters. With the achievement of the first milestone, the compensation for the President and the Chief Technical Officer will increase to \$17,500 per month. With the achievement of the second milestone, the compensation for the Chief Executive Officer shall increase to \$17,500 per month, the compensation for the Chief Financial Officer and Treasurer shall increase to \$12,000 per month, the compensation for the President and the Chief Technical Officer shall increase to \$20,000 per month, and the compensation for the Vice President and Secretary shall increase to \$10,000 per month. With the achievement of the third milestone, the compensation for the Chief Executive Officer shall increase to \$25,000 per month, the compensation for the Chief Financial Officer and Treasurer shall increase to \$18,000 per month, the compensation for the President shall increase to \$24,000 per month, the compensation for the Chief Technical Officer shall increase to \$25,000 per month, and the compensation for the Vice President and Secretary shall increase to \$12,000 per month.

HPEV, INC.

(Unaudited)

With the achievement of the fourth milestone, the compensation for the Chief Executive Officer shall increase to \$30,000 per month, the compensation for the Chief Financial Officer and Treasurer shall increase to \$24,000 per month, the compensation for the President shall increase to \$29,000 per month, the compensation for the Chief Technical Officer shall increase to \$30,000 per month, and the compensation for the Vice President and Secretary shall increase to \$15,000 per month.

Spirit Bear contests the validity of the February 20, 2013, resolutions concerning officer compensation; such compensation levels are not accepted by the three directors of the Company appointed by Spirit Bear. This dispute is currently pending in the Lawsuit, described herein below. (For additional details please see Note. 13 - Subsequent Events.)

In addition, the board authorized the Chief Executive Officer to make quarterly bonuses of \$50,000 and/or 50,000 shares of, or options for common stock available for each officer plus, special payments from 5% of the Company's net income to be given for individual contributions, such as the awarding of patents or the signing of major customer contracts.

As of July 24, 2013, the Company has raised \$1 million. Therefore, as per the board resolution passed on February 20, 2013, the President, Ted Banzhaf's, compensation increased from \$12,500 to \$17,500 per month in consulting fees. Compensation for the other officers, which began accruing on January 15, 2013 remained the same. Specifically, Tim Hassett is to receive \$13,500 per month in consulting fees, Quentin Ponder is to receive \$10,000 per month in consulting fees and Judson Bibb is to receive \$8,000 per month in consulting fees. Entities under the control of certain officers and directors hold consulting agreements with the Company and will receive this compensation. In the six months ended June 30, 2013, \$263,750 in consulting fees were incurred as a result of these agreements and payments of \$120,000 were made to these entities. The unpaid compensation as of June 30, 2013 has been accrued as accounts payable- related parties. The officers are considered independent contractors under these agreements and therefore no payroll taxes were incurred by the Company for the six months ending June 30, 2013.

Spirit Bear Limited Transaction

HPEV entered into a Securities Purchase Agreement on December 14, 2012 (the "Closing Date"), pursuant to which it sold to Spirit Bear Limited (i) 200 shares of the Company's Series A Convertible Preferred Stock, \$.001 per share (the "Preferred Stock") and (ii) warrants to purchase (i) 2,000,000 shares of the Company's common stock at an exercise price of \$0.35 per share (subject to adjustment as provided in the warrant); (ii) 2,000,000 shares of the Company's common stock at an exercise price of \$.50 per share (subject to adjustment as provided in the warrant); (iii) 2,000,000 shares of the Company's common stock at an exercise of \$.75 per share (subject to adjustment as provided in the warrant). The purchase price for sale of the preferred stock and warrants was \$500,000, of which \$313,777.62 was paid in cash and \$186,222.38 was paid by cancelation of \$186,222.38 in outstanding indebtedness held by the Spirit Bear.

The Company and the Spirit Bear also entered into a Registration Rights Agreement, dated December 14, 2012 (the "Registration Rights Agreement"). Pursuant to the Registration Rights Agreement, the Company shall file a registration statement to register the shares issuable upon conversion of the Preferred Stock and the Debenture (described below) and the shares issuable upon the exercise of the Warrants. If the Registration Statement is not filed within thirty days of the Closing Date, then the number of Warrant Shares shall be increased by 500,000 to 6,500,000. If the Securities and Exchange Commission has not declared the Registration Statement effective within 120 days of the Closing Date, then the Company shall pay to each holder of Preferred Shares an amount in cash per Preferred Share held equal to the product of (i) \$5,000 multiplied by (ii) the product of (A) .02 multiplied by (B) the number of months after the Effectiveness Deadline that the Registration Statement is not declared effective by the SEC.

Each share of the Preferred Stock is convertible into 20,000 shares of Company's common stock and under certain circumstances the Preferred Stock is convertible into Senior Convertible Notes. The Conversion Price of the Preferred Stock is equal to the \$2,500.

In connection with the sale of the Preferred Stock, on December 17, 2012, the Company filed with the Secretary of State of the State of Nevada a Certificate of Designation of the Rights, Preferences, Privileges and Restrictions, which have not been set forth in the Certificate of Incorporation of the Series A Convertible Preferred Stock (the "Certificate of Designation").

The Preferred Stock has rights as if each share of Series A Convertible Preferred Stock were converted into twenty thousand (20,000) shares of Common Stock.

The holders of each share of Preferred Stock then outstanding shall be entitled to be paid, out of the Available Funds and Assets (as defined in the "Certificate of Designation"), and prior and in preference to any payment or distribution (or any setting apart of any payment or distribution) of any Available Funds and Assets (as defined in the "Certificate of Designation") on any shares of Common Stock, an amount per share equal to the Liquidation Price (\$2,500 per share of the Preferred Stock) of the Series A Convertible Preferred Stock.

In the event a Registration Statement has not been declared effective by the United States Securities Exchange Commission within 180 calendar days from and after the Closing Date, the holders of at least two-thirds (2/3) of the then outstanding shares of Series A Convertible Preferred Stock may deliver a written notice to the Company electing the conversion of all Series A Convertible Preferred Stock to Debentures. Upon receipt of such notice, the outstanding shares of Series A Convertible Preferred Stock shall be converted to Debentures and as a result the Company would issue Debentures having a principal amount of up to \$1,000,000.

The warrants may be exercised on a cashless basis in which the holder may be entitled to obtain a certificate of shares of the Company's common stock equal to the quotient obtained by dividing $[(A-B) (X)]$ by (A), where:

(B) = the Exercise Price of this Warrant, as adjusted; and

(X) = the number of Warrant Shares issuable upon exercise of this Warrant in accordance with the terms of this Warrant by means of a cash exercise rather than a cashless exercise.

Pursuant to the Securities Purchase Agreement, the Company may sell the Spirit Bear up to 200 additional shares of Preferred Stock and warrants to purchase up to 6,000,000 shares of the Company's common stock. The Company shall have the option to require Spirit Bear to purchase up to these additional Two Hundred (200) Preferred Shares and associated Warrants at a Subsequent Closing in the event that written certification ("Certification Notice") shall have been received by the Company from a federally licensed testing facility reasonably acceptable to Spirit Bear (subsequently amended in the April 12th Agreement to read 'Mohler Technology, Inc., or a similar federally licensed testing facility acceptable to the Company'), evidencing that either (i) three motors or alternators or (ii) two motors and one AMP system (each motor, alternator or AMP system modified and tested pursuant to a distinct Memorandum of Understanding or other form of agreement) incorporating the Company's technology have been comprehensively tested in accordance with applicable NEMA, ANSI and IEEE standards and that the results of these tests meet or exceed the minimum requirements for certification under those standards; that those same motors, alternators or system incorporating the Company's technology have passed tests with respect to (i) IEEE 112 in Methods E, E1, F or F1 with a maximum horsepower of 4,000 (or to be determined by agreement) for F or F1, (ii) sound pressure testing to IEEE 85 and NEMA MG1 20 standards, (iii) bearing temperature testing, (iv) speed versus torque/current testing, (v) polarization index testing per IEEE 45 standards, and (vi) IEEE 112 Method B for full efficiency; and that testing evidences an improvement in power density of at least Twelve Percent (12.00%) compared to the same motor not incorporating HPEV technology. The Company shall give the Spirit Bear at least seven business days' notice of any subsequent closing. In the event the Company shall not have received the Certification Notice by December 14, 2013, Spirit Bear shall, commencing on December 14, 2013, have a twelve (12) month option, exercisable during such period at its sole discretion by delivery of written notice to the Company, to purchase the additional Two Hundred (200) Preferred Shares and associated Warrants in a Subsequent Closing to be held within seven (7) days of such notice.

In connection with the sale of the Preferred Stock and Warrants, the Company and the Spirit Bear entered into a Patent and Securities Agreement. Pursuant to the Patent and Security Agreement, the Company may, under certain circumstances, grant to the Spirit Bear a security interest in certain patents set forth in the Patent and Security Agreement.

(Unaudited)

On February 6, 2013, the Company received a letter from Spirit Bear which stated that the Company was in default of the Stock Purchase Agreement. According to Spirit Bear, the Company had not acted promptly to make 50% of the board of directors Spirit Bear designees. In addition, Spirit Bear stated that the company had not amended its bylaws with respect to Special Meetings and Meeting Adjournments nor had it provided a certified copy of its Articles of Incorporation within 10 days of the closing of the Stock Purchase Agreement. Pursuant to the Securities Purchase Agreement with Spirit Bear Limited, ("Spirit Bear"), the bylaws relating to Special Meetings and Meeting Adjournments were amended, effective February 20, 2013, verbatim with what was required in the Stock Purchase Agreement. Jay Palmer and Carrie Dwyer were appointed to the board of directors on the same date and Donica Holt was appointed to the board of directors on March 7, 2013.

On February 20, 2013, the Board of Directors, consisting at that time of Tim Hassett, Quentin Ponder and Judson Bibb, voted to decrease the milestone prices of the five options to purchase one million shares that would be granted to the President, Mr. Banzhaf, assuming the respective milestone prices are achieved. The milestone stock prices were reduced to \$2.00, \$3.00, \$4.00, \$4.50 and \$5.00 for 20 consecutive trading days each. These milestone stock prices have been changed from \$2.00, \$3.00, \$5.00, \$7.50 and \$10.00. Once the stock has traded at or above these prices for 20 consecutive trading days, Mr. Banzhaf has the right to exercise an option to purchase 1,000,000 shares of common stock at the closing price on the first day after the stock has traded for 20 consecutive days at or above each milestone stock price. These options expire one year after Mr. Banzhaf has been terminated without cause.

The board, consisting at the time of Tim Hassett, Quentin Ponder and Judson Bibb, also granted Judson Bibb an option to purchase 2,000,000 shares of the Company's common stock, at a purchase price of par value or \$0.001 per share. The options expire one year after Mr. Bibb has been terminated without cause. The options can be exercised on a cashless basis.

Despite electing two new board members at the first board meeting subsequent to the date the SPA was closed, the Company received another letter from counsel to Spirit Bear on March 7, 2013 indicating that the Company was still in default of its obligations under the SPA and the compensation authorized by the Board on February 20, 2013 (as disclosed in the Current Report on Form 8-K filed February 26, 2013) was self-dealing and resulted in the anti-dilution provision provided for in the SPA.

On March 21, 2013, the Company and Judson Bibb signed an agreement rescinding the options granted.

On March 24, 2013, the Company and Ted Banzhaf signed an agreement rescinding the decrease in the milestone price of the five options to purchase one million shares as well as the cashless exercise thereof awarded to the President.

On April 12, 2013, the Company and Spirit Bear Limited reached agreement regarding the settlement of allegations that the Company did not perform certain obligations pursuant to the Securities Purchase Agreement dated December 14, 2012 with Spirit Bear, and with respect to certain actions taken by the Company with respect to providing compensation to its management. Spirit Bear agreed to discharge the Company from all claims Spirit Bear may have had as well as to forgo all actions of any kind related to those claims which existed on or prior to April 12, 2013. Both parties also agreed that the signing of the agreement did not constitute an admission of wrongdoing or liability.

To satisfy the allegations, the Company and Spirit Bear agreed to amend the Certificate of Designation to provide that each share of Series A Convertible Preferred Stock can be converted into 50,000 shares of common stock and have the voting rights equal to 50,000 shares.

The Company and Spirit Bear also agreed to change the terms of the option provided to Spirit Bear in the Securities Purchase Agreement. The new language provides that the Company can sell up to 200 additional preferred shares and warrants to Spirit Bear or other qualified investors designated by Spirit Bear, if before December 14, 2013, written certification (“Certification Notice”) shall have been received by the Company from Mohler Technology, Inc., or a similar federally licensed testing facility reasonably acceptable to the Company, evidencing that either the Company’s technology incorporated in (i) three motors or alternators or (ii) two motors and one auxiliary mobile power system is comprehensively tested in accordance with applicable standards and the results of those tests meet or exceed minimum requirements for certification under those standards. If the milestones are not met prior to such date, Spirit Bear retains its right to purchase 200 additional preferred shares and warrants until December 14, 2014.

On June 24, 2013, an Amendment to the Certificate of Designation of Rights, Preferences, Privileges and Restrictions of the Series A Convertible Preferred Stock (the “Certificate of Designation”) issued by the Company was filed with the Secretary of State of the State of Nevada. The amendment effectuated the change (i) to the conversion rate of each share of Series A Convertible Preferred Stock from being convertible at the rate of 20,000 shares of common stock of the Company to 50,000 and (ii) to the voting right of each share of Preferred Stock from 20,000 to 50,000 shares of the common stock of the Company. There are currently 200 shares of the Preferred Stock issued and outstanding, all which are held by Spirit Bear Limited and its assignees.

The amendment to the Certificate of Designation was contemplated as a result of the agreement entered into on April 12, 2013 between the Company and Spirit Bear Limited.

On June 24, 2013, the Company and the holders of the Preferred Stock also amended the bylaws of the Company to provide that the Board of Directors of the Company shall, irrespective of the number of members, at all times be composed of an even number of members of which at least 50% shall be individuals designated by Spirit Bear Limited. Such amendment was contemplated by the Securities Purchase Agreement entered into between Spirit Bear Limited and the Company December 14, 2012.

The amendment to the Bylaws provides that Spirit Bear Limited shall have the right to nominate half of the members of the Board, which shall consist of an even number of directors. If Spirit Bear Limited does not respond to a written request to designate one or more nominees to the Board within 10 days, this right shall no longer have any effect until the number of directors of the Board shall change thereafter (whether by resignation, appointment, removal or otherwise). This right survives until the earlier of December 14, 2015 and the date that Spirit Bear Limited ceases to be an affiliate of the corporation.

In connection with the foregoing, the Company relied upon the exemption from securities registration afforded by Rule 506 of Regulation D as promulgated by the United States Securities and Exchange Commission under the Securities Act of 1933, as amended (the “Securities Act”) and/or Section 4(2) of the Securities Act. No advertising or general solicitation was employed in offering the securities. The offerings and sales were made to one investor who is an accredited investor, and transfer was restricted by the Company in accordance with the requirements of the Securities Act.

The accredited investor's stock subscription agreement included a reset provision which stated that if on the ninetieth business day from the closing date of May 16, 2013, the market price per share of the Common Stock is not trading at \$0.77 or higher, the Company will issue to the investor up to either 336,956 shares of common stock or the amount of common shares that the investor would have received had he invested \$577,500 on May 16, 2013, whichever is the lower.

As a result of the fact that the market price per share of the Common Stock did not trade at \$0.77 or higher on the ninetieth business day from the closing date, the accredited investor was awarded an additional 336,956 shares of restricted common stock on August 14, 2013. On August 16, 2013, the Company received a Demand for Documents and Demand to Cease and Assist from Nevada counsel representing Spirit Bear and Jay Palmer, one of the three directors of the Company who was appointed by Spirit Bear. Such notice requires the Company to provide Mr. Palmer all books and records regarding all equity or debt issued by the Company since January 1, 2013 and an accounting of all compensation disbursed to Company executive officers since such date. Spirit Bear contends that management of the Company issued equity or debt without authority, and established compensation levels for the Company's officers and paid compensation to its officers in violation of its agreements with Spirit Bear and the Company's public filings.

On August 21, 2013, the Company issued 55,555 shares of restricted common stock valued at \$0.45 per share to an accredited investor in exchange for \$25,000 in funding. The investor also received warrants to purchase 55,555 shares of common stock at a purchase price of thirty seven cents (\$0.37) per share. The Company agreed that all investments made subsequent to achievement of the \$1,000,000 threshold and before the filing of the Form S-1 would be included in the registration statement.

On August 27, 2013 the Company filed a complaint in the United States District Court against Spirit Bear, Jay Palmer, Carrie Dwyer and Donica Holt (Case 2:13-cv-01548) (the "Lawsuit") seeking judicial declaration that the Board resolutions from February 2013 authorizing the compensation of management and the issuance of debt and equity is valid and the defendants are bound by the April 12, 2013 Agreement. The defendants have indicated that they will seek indemnification from the Company as a result of the Company initiating this Lawsuit. The Company amended its complaint and dismissed Mr. Palmer and Mrs. Dwyer and Holt from the Lawsuit and sought an emergency summary judgment motion requesting declaratory relief that the February resolutions are valid. Defendant Spirit Bear objected to the Company's designation of its motion as a purported emergency because it improperly denies Spirit Bear the opportunity to respond to the Company's amended complaint, conduct discovery and investigate the Company's claims. On October 28, 2013, Spirit Bear responded to the Company's amended complaint and asserted derivative third-party claims in the Lawsuit on behalf of HPEV against Tim Hassett, Ted Banzhaf, Quentin Ponder, Judson Bibb and Mark Hodowanec.

Spirit Bear contests the validity of the Company issuing common stock in connection with the capital raises described herein commencing on May 17, 2013, as well as the compensation taken or accrued by the Company's management pursuant to the February 20, 2013, resolutions passed by the board of directors, consisting at that time of Tim Hassett, Quentin Ponder, and Judson Bibb. Such disputes are currently pending in the Lawsuit described below. Therefore, neither the capital raise and stock issuance nor the accrued compensation are accepted by the three directors of the Company appointed by Spirit Bear.

On September 8, 2013, an accredited investor was awarded an additional 196,875 shares of restricted common stock. On June 10, 2013, the Company issued 225,000 shares of restricted common stock valued at \$0.44 per share to an accredited investor in exchange for \$100,000 in funding.

The accredited investor's stock subscription agreement included a reset provision which stated that if on the ninetieth business day from the closing date of June 10, 2013, the market price per share of the Common Stock is not trading at \$0.75 or higher, the Company will issue to the investor up to 200,000 shares, or an amount such that the investor would have received had he invested \$168,750 on June 10, 2013, whichever amount is lower. Additional warrants will also be due the investor pending the determination of the reset.

As a result of the fact that the market price per share of the Common Stock did not trade at \$0.75 or higher on the ninetieth business day from the closing date, the accredited investor was awarded the additional 196,875 shares of restricted common stock. The additional shares awarded lowered the stock purchase price to \$0.237 per share.

On September 16, 2013, Jay Palmer brought an emergency petition for a writ ordering the Company to allow him to inspect the books and records of the Company. On October 1, 2013 the court granted Mr. Palmer the right to inspect the books and records regarding (a) all equity or debt issued by Company management since January 1, 2013 and (b) all compensation disbursed to the Company's executive officers since January 1, 2013, with an accounting of disbursements.

On September 18, 2013, the Securities and Exchange Commission served HPEV, Inc. with a subpoena entitled In the Matter of HPEV, Inc. The subpoena requested documents relating to several matters, including Spirit Bear Limited, Robert Olins and all of their respective affiliates. HPEV must produce the documents by October 3, 2013. At this time, it is unclear what conclusions the SEC will reach upon the conclusion of its investigation.

When the Company signed a Registration Rights Agreement with Spirit Bear Limited on December 14, 2012, it obligated the Company to file a Registration Statement on Form S-1 and keep it effective. The Registration Statement that was declared effective by the SEC on January 23, 2013 ceased to be effective with the restatement of the Company's financials in a Form 10-K/A filed on May 21, 2013.

Pursuant to the Warrant Agreement covering warrants issued as part of the Stock Purchase Agreement and also falling under the terms of the Registration Rights Agreement the company signed with Spirit Bear on December 14, 2012, Spirit Bear Limited shall be due a 25% increase in the number of warrants issued in the event the Registration Statement ceased to be effective.

On August 7, 2013, the Company and Spirit Bear Limited agreed that Spirit Bear would forego the additional warrants Spirit Bear was due if the Company filed a Post-Effective Amendment to the Registration Statement within two business days of the filing of the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2013. The Company did not file a Post-Effective Amendment within two business days after the filing of the Form 10-Q for the second quarter.

Therefore, on October 5, 2013, Spirit Bear Limited was awarded a warrant for 500,000 shares of common stock.

On October 10, 2013, an accredited investor purchased 222,222 shares of common stock and warrants in a private offering at a purchase price of \$0.45 per share in consideration for \$100,000. On January 13, 2014, the Company held its annual meeting (the "Meeting") of stockholders at the offices of the Company located at 8875 Hidden River Pkwy, Suite 300, Tampa, Florida. On February 5, 2014, an accredited investor purchased 88,889 shares of common stock and warrants in a private offering at a purchase price of \$0.45 per share in consideration for \$40,000. The warrants enable the investor to purchase, up to February 14, 2019, an aggregate of 88,889 shares of common stock at an exercise price of \$0.60. The warrants may be exercised on a cashless basis. The Company agreed that within 45 days of the consummation of the offer and sale of \$1,000,000 of shares and warrants, it will file a registration statement with the Securities and Exchange Commission covering the securities.

On February 10, 2014, an accredited investor purchased 88,889 shares of common stock and warrants in a private offering at a purchase price of \$0.45 per share in consideration for \$40,000. The warrants enable the investor to purchase, up to February 14, 2019, an aggregate of 88,889 shares of common stock at an exercise price of \$0.60. The warrants may be exercised on a cashless basis. The Company agreed that within 45 days of the consummation of the offer and sale of \$1,000,000 of shares and warrants, it will file a registration statement with the Securities and Exchange Commission covering the securities.

On February 5, 2014, HPEV, Inc. (the "Company") completed the sale of \$930,000 of units (the "Units") in a private placement (the "Offering") pursuant to subscription agreements (each a "Subscription Agreement", and collectively, the "Subscription Agreements") with 17 accredited investors (the "Investors"). Each Unit consists of shares of the Company's common stock priced at \$0.45 per share (the "Common Stock"), and (ii) a five-year warrant to purchase up to the identical amount of shares of Common Stock purchased at an exercise price of \$0.60 per share (each individually a "Warrant", and collectively, the "Warrants"). The Warrants (and Placement Agent Warrants described below) contain a provision for cashless exercise.

A total of 2,066,668 shares of Common Stock were sold, and Warrants to purchase up to an additional 2,066,668 shares of Common Stock (the "Warrant Stock") were issued to the Investors in the Offering.

The Company agreed to file a registration statement (the "Registration") with the Securities and Exchange Commission (the "SEC") within 45 days of closing for the Common Stock sold in the Offering and the Warrant Stock underlying the Warrants.

In connection with the Offering, the Company paid a placement agent fee of \$74,400 to the "Placement Agent", and issued a five-year warrant to the Placement Agent (the "Placement Agent Warrant") to purchase up to an aggregate of 261,333 shares of Common Stock at an exercise price of \$.60 per share pursuant to the placement agent agreement ("Placement Agreement") with the Placement Agent. Under the Placement Agreement, the Placement Agent was also issued a 5-year warrant to purchase 1,500,000 shares of common stock with an exercise price of \$.56 per share. The warrants issued to the Placement Agent provide for cashless exercise and piggyback registration rights.

The form of Subscription Agreement and Warrant Agreement and the Placement Agreement are filed herewith as exhibits 10.38 and 10.39, respectively. The foregoing summary descriptions of the Subscription Agreement, Warrant and Placement Agreement are qualified in their entirety by reference to the full texts of each such exhibit.

The Units, Common Stock, Warrants and Common Stock issuable upon exercise of the Warrants (collectively, the "Securities") have not been registered under the Securities Act of 1933, as amended (the "Securities Act"), and were issued and sold in reliance upon the exemption from registration contained in Section 4(2) of the Securities Act and

Rule 506 of Regulation D promulgated thereunder. These Securities may not be offered or sold by the investors in the United States in the absence of an effective registration statement or an applicable exemption from registration requirements.

On February 10, 2014, an accredited investor purchased 55,555 shares of common stock and warrants in a private offering at a purchase price of \$0.45 per share in consideration for \$25,000. The warrants enable the investor to purchase, up to February 14, 2019, an aggregate of 55,556 shares of common stock at an exercise price of \$0.60. The warrants may be exercised on a cashless basis. The Company agreed that within 45 days of the consummation of the offer and sale of \$1,000,000 of shares and warrants, it will file a registration statement with the Securities and Exchange Commission covering the securities.

On February 14, 2014 HPEV, Inc. (the "Company") and Mark M. Hodowanec entered into an employment agreement pursuant to which Mr. Hodowanec was appointed as the Chief Technical Officer of the Company. Pursuant to said agreement, Mr. Hodowanec is entitled to an annual salary of \$175,000, which will increase to \$210,000 with the achievement of the full commercialization of the 25/50KW MG. The base salary will also increase (i) \$20,000 per month upon the Company generating \$100,000 in revenue or an additional \$1 million in financing after February 14, 2014; (ii) to \$25,000 per month upon the Company achieving profitability; and (iii) to \$30,000 per month upon the Company maintaining profitability for four consecutive quarters.

Although the employment by the Company is at will, if Mr. Hodowanec is terminated without cause by the Company, he will be entitled to a severance payment equal to two year's salary. If there is a change of control of the Company and as a result Mr. Hodowanec is terminated without cause, such severance payment shall be made upon the consummation of the event.

On February 19, 2014, HPEV, Inc. (the "Company") and Lincoln Park Capital Fund, LLC ("Lincoln Park") entered into a purchase agreement (the "Purchase Agreement"), together with a registration rights agreement (the "Registration Rights Agreement"), pursuant to which the Company has the right to sell to Lincoln Park up to \$10,000,000 in shares of its common stock, par value \$0.001 per share ("Common Stock"), subject to certain limitations.

Under the terms and subject to the conditions of the Purchase Agreement, Lincoln Park is obligated to purchase up to \$10,000,000 in shares of Common Stock (subject to certain limitations) from time to time over the 36-month period commencing on the date that a registration statement (the "Initial Registration Statement"), which the Company agreed to file with the Securities and Exchange Commission (the "SEC") pursuant to the Registration Rights Agreement, is declared effective by the SEC and a final prospectus in connection therewith is filed. The Company may direct Lincoln Park, at its sole discretion and subject to certain conditions, to purchase up to 75,000 shares of Common Stock in regular purchases.

In addition, the Company may direct Lincoln Park to purchase additional amounts as accelerated purchases if on the date of a regular purchase the closing sale price of the Common Stock equals or exceeds \$0.60 per share. The purchase price of shares of Common Stock related to the future funding will be based on the prevailing market prices of such shares at the time of sales (or over a period of up to 12 business days leading up to such time), but in no event will shares be sold to Lincoln Park on a day the Common Stock closing price is less than the floor price of \$0.25, subject to adjustment. The Company will control the timing and amount of any sales of Common Stock to Lincoln Park.

The Company's sales of shares of Common Stock to Lincoln Park under the Purchase Agreement are limited to no more than the number of shares that would result in the beneficial ownership by Lincoln Park and its affiliates, at any single point in time, of more than 9.99% of the then outstanding shares of the Common Stock.

(Unaudited)

As consideration for its commitment to purchase shares of Common Stock pursuant to the Purchase Agreement, the Company agreed to issue to Lincoln Park 671,785 shares of Common Stock upon execution of the Purchase Agreement.

The Purchase Agreements and the Registration Rights Agreement contain customary representations, warranties and agreements of the Company and Lincoln Park and customary conditions to completing future sale transactions, indemnification rights and obligations of the parties. Except that Lincoln Park is not obligated to purchase more than \$500,000 of Common Stock in any single regular purchase, there is no upper limit on the price per share that Lincoln Park could be obligated to pay for shares of Common Stock under the Purchase Agreement.

The Company has the right to terminate the Purchase Agreements at any time, at no cost or penalty. Actual sales of shares of Common Stock to Lincoln Park under the Purchase Agreements will depend on a variety of factors to be determined by the Company from time to time, including (among others) market conditions, the trading price of the Common Stock and determinations by the Company as to the appropriate sources of funding for the Company and its operations.

For all investments received in the 2nd, 3rd and 4th quarters of 2013 as well as in the first seven weeks of 2014, the cash received from the investors was for the value of both the common stocks and warrants. The common stock value was known per the subscription agreements. As that was equal to the total cash received from the investor; no additional value for the warrants was recorded.

ITEM Management's Discussion and Analysis of Financial Condition and Results of Operations

2

Our Management's Discussion and Analysis contains not only statements that are historical facts, but also statements that are forward-looking (within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934). Forward-looking statements are, by their very nature, uncertain and risky. These risks and uncertainties include international, national and local general economic and market conditions; demographic changes; our ability to sustain, manage, or forecast growth; our ability to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other risks that might be detailed from time to time in our filings with the Securities and Exchange Commission.

Although the forward-looking statements in this Quarterly Statement reflect the good faith judgment of our management, such statements can only be based on facts and factors currently known by them. Consequently, and because forward-looking statements are inherently subject to risks and uncertainties, the actual results and outcomes may differ materially from the results and outcomes discussed in the forward-looking statements. You are urged to carefully review and consider the various disclosures made by us in this report and in our other reports as we attempt to advise interested parties of the risks and factors that may affect our business, financial condition, and results of operations and prospects.

The following discussion and analysis of financial condition and results of operations of the Company is based upon, and should be read in conjunction with, its unaudited financial statements and related notes elsewhere in this Form 10-Q, which have been prepared in accordance with accounting principles generally accepted in the United States.

Background/Plan of Operation

We have not generated any revenues to date. We expect to begin to generate revenues in the first quarter of 2014, and anticipate that we will also be cash flow positive in the second quarter of 2014.

We have developed and intend to commercialize thermal dispersion technologies in various product platforms, a parallel power input gearbox around which we have designed a mobile generator system and an electric load assist technology around which we have designed a vehicle retrofit system. In preparation, we have applied for trademarks for some of our technologies and their acronyms including 'Totally Enclosed Heat Pipe Cooled', 'TEHPC', 'Electric Load Assist', 'ELA', 'Mobile Generator' and 'MG'.

We believe that our proprietary technologies, including our patent portfolio and trade secrets, can help increase the efficiency and change the manufacturing cost structure in several large industries beginning with fleet vehicles and the motor/generator industries.

The markets for products utilizing our technology include consumer, industrial and military markets, both in the U.S. and worldwide. Our initial target markets include those involved in moving materials and moving people, such as:

Motors/Generators,
Mobile Generators
Compressors,
Turbines (Wind, Micro),
Bearings,
Electric Vehicles: rail, off-highway, mining, delivery, refuse,
Brakes/rotors/calipers,
Pumps/fans,
Passenger vehicles: auto, bus, train, aircraft,
Commercial vehicles: SUV, light truck, tram,
Military: boats, Humvee, truck, aircraft, and
Marine: boats ranging in size from 30 feet to 120 feet and beyond.

Our Technologies

Our technologies are divided into three distinct but complementary categories: heat dispersion technology, mobile electric power and electric load assist technology.

Heat Dispersion Technology

Heat is an undesirable byproduct of anything that moves, especially motors and generators. Historically, a large percentage of the cost of manufacturing any motor has been in the technology necessary to remove heat during its operation to prevent failure and increase power. Heat can destroy motors, generators and many other types of machinery, and the energy necessary to remove heat can limit output.

Our thermal dispersion technology removes heat via patented heat pipe technologies. Heat pipes have been utilized for more than 50 years, but we have a proprietary process and design technology that makes our heat pipes usable in many applications that have previously not been effective. The key is that our heat pipes move heat in ANY direction in a system that requires little or no maintenance and can be applied to almost any motor, generator or industrial product. This allows for more efficient, smaller, and higher output machines, resulting in cooler motors and a longer operating life.

Our patent portfolio covers the application and integration of our heat pipes into various cooling schemes for enhanced heat removal in motors, generators and numerous other industrial applications including marine, aviation and military. We believe that our technologies have the potential to deliver power output increases and cost reductions, depending on the machine type or motor/generator size, as follows:

Increase power density of current motor platforms by 20% to 50%,
Reduce total product cost by 12.5% to 25%,
Increase motor and generator efficiency by 1% to 2%, and
Increase motor and generator life.

We believe that products produced with our technologies have the potential to deliver operational savings as well, including:

Savings from reduced maintenance costs,
Savings from the standardization of multiple platforms down to a single platform,
Savings from the standardization of drawings and data around existing platforms,
Savings from the ability to use standard designs and standard insulation systems vs. custom, and
Savings from the ability to integrate and produce on existing production lines with no retooling and no additional or minimum capital investment.

Our revenue model for the heat dispersion technology is to license the technology in exchange for royalties.

We have entered into product development and commercialization agreements with manufacturing partners. We anticipate that we will begin to enter into license agreements, subject to successful completion of our initial product development, when the product is ready to be manufactured on the licensee's regular production line, after all development and testing has been completed.

We currently expect to have two applications for the technology approved by potential licensees by the end of 2013. As a result, we expect to begin to generate revenues from our heat dispersion technology business in the first quarter of 2014.

Mobile Electric Power

A proprietary gearing system the Company developed for our electric load assist (see below) can also be used to power an on-board generator with the result that commercial vehicles no longer need to tow a mobile generator to a work site. Management believes it has uncovered an immediate need for on-board, continuous generation of up to 250 kW of power to remote jobsites as well as the mobile generation of emergency power in the event of an outage or disaster. Consequently, we intend to offer an on-board generator installation kit as a stand-alone (Mobile Generator) and as part of a hybrid conversion (the Ultimate Work Truck).

Based upon the anticipated final testing of the technology by the end of the year, we currently expect to begin to generate revenues from our mobile electric power technology business in the first quarter of 2014.

Electric Load Assist (ELA) Technology

We have also developed proprietary Electric Load Assist (ELA) technology. The technology is the centerpiece of our vehicle retrofit system (separate and apart from our heat pipe technology and heat dispersion product development partnerships), which also relies on the benefits of heat removal and is protected by patents and patents-pending.

With ELA, a vehicle engine does not have to work as hard, as some of the work that was done by the engine is now performed by an electric motor running in parallel. The vehicle still drives and feels the same, and our ELA controller allows full acceleration and braking control; however, the engine runs much more efficiently and burns significantly less fossil fuel. The ELA controller enables the vehicle operator to determine the amount of load assist during operation, ranging from all-fuel to all-electric. We believe that our ELA system will provide a significant difference and improvement from, and competitive advantage over, current market offerings such as the Toyota Prius. If either the electrical system or the internal combustion engine fails, the ELA vehicle can operate on the remaining system. In current market offerings, if either system fails, the vehicle fails.

Our ELA technology is compatible with any manufacturer as well as any power source, including traditional gasoline/diesel engines, compressed natural gas, batteries and fuel cells. We also believe that our technology will have a wide range of marine, aviation, industrial and military applications.

Initially, our ELA system business will implement a simple version of its technology for on-board mobile generator and we hope to generate revenue from transport companies and other businesses which own and/or manage fleets of Class 2, 3, 4 and 6 vehicles or light to medium-duty trucks. Our revenue model for the ELA technology will be to license the technology in exchange for royalties based on fuel savings.

Going Concern

As a result of our financial condition, we have received a report from our independent registered public accounting firm for our financial statements for the period from March 24, 2011 (Inception) to December 31, 2012 that includes an explanatory paragraph describing the uncertainty as to our ability to continue as a going concern. In order to continue as a going concern we must effectively balance many factors and begin to generate revenue so that we can fund our operations from our sales and revenues. If we are not able to do this, we may not be able to continue as an operating company.

Results of Operations

Comparison for the Three Months Ended June 30, 2013 and 2012

Revenues

During the three months ended June 30, 2013, we had no revenues. We did not generate any revenues during the three month period ended June 30, 2012.

Operating Expenses

Total operating expenses for the three months ended June 30, 2013 were \$ 788,779, consisting of consulting fees (\$ 595,314), professional fees (\$38,853), research and development (\$87,700), and general and administrative expenses (\$ 66,912) as we worked to raise capital to fund operations and secure the equipment and software necessary to implement the requirements of the memoranda of understanding that had been negotiated with global manufacturers.

This is compared to our operating expenses for the three months ended June 30, 2012 of \$890,546, consisted of consulting fees (\$533,775), professional fees (\$211,937), research and development (\$105,898), and general and administrative expenses (\$38,936) as we filed new patents, created proposals and negotiated memoranda of understanding with global manufacturers as well as continued to raise capital to fund operations and to implement the requirements of the memoranda.

We have tried to minimize our operating expenses. The expenses for the second quarter of 2013 consisted primarily of payments to independent contractors and general and administrative expenses. For the three months ended June 30, 2013 and 2012, our total operating expenses were \$788,779 and \$890,546, respectively. The majority of the decrease in operating expenses from 2012 to 2013 was due to an increase in consulting fees as a result of the working to raise capital, a decrease in research and development of \$18,198 as a result of budget tightening and the shift in focus from planning and engineering for our initial hybrid conversion to the incorporation of our thermal technology into electric motors manufactured by two different companies. Otherwise, professional fees decreased by \$173,084 due to new legal representation and the resignation of our auditors whereas general and administrative costs rose by \$27,976 as the company began to incur increased administrative cost.

Net Loss

For the three months ended June 30, 2013, we had a net loss of \$788,779. For the three months ended June 30, 2012, we incurred a net loss of \$1,090,789.

Our basic loss per common share during the three months ended June 30, 2013 was \$0.02 per share. During the three months ended June 30, 2012, we our basic loss per common share was \$0.02 per share.

Comparison for the Six Months ended June 30, 2013 and 2012

Revenues

For the six months ended June 30, 2013 and June 30, 2012, we had no revenues.

Operating Expenses

Total operating expenses for the six month period ended June 30, 2013 were \$ 1,317,308, consisting of consulting fees (\$ 1,022,317), professional fees (\$86,369), research and development (\$89,700), and general and administrative expenses (\$118,922) as we worked to raise capital to fund operations and secure the equipment and software necessary to implement the requirements of the memoranda of understanding that had been negotiated with global manufacturers.

This is compared to our operating income for the six months ended June 30, 2012 of \$992,191 consisting of a gain due to a director returning shares gifted to a director from a shareholder 2,650,000, consulting fees (\$906,079), professional fees (\$242,733), research and development (\$449,131), and general and administrative expenses (\$59,866) as we filed new patents, created proposals and negotiated memoranda of understanding with global manufacturers as well as continued to raise capital to fund operations.

The increase in net operating loss for 2013 is due to an increase in consulting fees of \$116,238 as a result of the working to raise capital, a decrease in research and development of \$359,431 as a result of budget tightening and the shift in focus from planning and engineering for our initial hybrid conversion to the incorporation of our thermal technology into electric motors manufactured by two different companies. Otherwise, professional fees decreased by \$156,364 due to new legal representation and the resignation of our auditors whereas general and administrative costs

rose by \$ 59,056 as the company began to incur increased administrative cost.

Other income and expenses

Total other income and expenses for the six months ended June 30, 2013 was \$19,475, consisting of a gain on debt settlement of legal fees as compared to our other income and expenses for the six months ended June 30, 2012 of 200,754, which consisted mainly of finance expenses incurred as a result of issuing warrants for loans payable.

Net (Income) Loss

For the six month period ended June 30, 2013, we incurred a net loss of \$1,297,833. For the six months ended June 30, 2012, we reported net income of \$791,437, which represents a decrease of approximately 164% between 2012 and 2013.

Our loss per share during the first half of 2013 was \$0.03 per share. During the first half of 2012, we had net income of \$0.02 per share.

Liquidity and Capital Resources

Introduction

During the six months ended June 30, 2013, because we did not generate any revenues, we had negative operating cash flows. Our cash on hand as of June 30, 2013 was \$49,136, which came primarily from the issuance of common stock for cash. Our monthly cash flow burn rate is approximately \$115,000. As a result, we have significant cash needs. We anticipate that these needs will be satisfied through the sale of our securities until such time as our cash flows from operations will satisfy our cash flow needs.

Our cash, current assets, total assets, current liabilities, and total liabilities as of June 30, 2013 and December 31, 2012, respectively, are as follows:

	June 30, 2013 (Unaudited)	December 31, 2012	Change
Cash	\$ 49,136	\$ 194,721	\$ (145,585)
Total Current Assets	49,136	568,400	(519,264)
Total Assets	143,943	641,982	(498,039)
Total Current Liabilities	357,619	263,695	(93,924)
Total Liabilities	\$ 357,619	\$ 263,695	\$ (93,924)

Our cash decreased by \$145,585 as of June 30, 2013 as compared to December 31, 2012 due to the purchases of electric motors. Our total current assets, and total assets, decreased by \$519,264 and \$498,039, respectively, during the same period, partly because of our decrease in cash, but also as a result of amortization of prepaid expenses which were fully amortized as of June 30, 2013.

Our current liabilities increased by \$93,924 as of June 30, 2013 as compared to December 31, 2012 primarily because of accounts payable due to related party of \$174,979. Our total liabilities increased by the same \$93,924 for the same reasons.

In order to repay our obligations in full or in part when due, we will be required to raise significant capital from other sources. There is no assurance, however, that we will be successful in these efforts.

Sources and Uses of Cash

Operations

Our net cash used by operating activities for the six month period ended June 30, 2013 was (\$463,160) which consisted of our net loss from operations of \$1,297,833, offset by an increase in accounts payable of \$ 8,425, an increase in accounts payable from a related party of \$122,674, stock issued for services of \$373,679, and warrants issued for services of \$349,370 and a gain on settlement of debt of (\$19,475).

Investments

Our net cash used by investing activities for the six month period ended June 30, 2013 totaled (\$21,225) and consisted of an increase in intangible assets of (\$21,225).

Financing

Our net cash provided by financing activities for the three month period ended June 30, 2013 was \$338,800, which consisted of proceeds from the sales of equity securities to two accredited investors of \$350,000, \$900 in proceeds from notes payable from a related party, offset by payments on notes payable to a related party of \$12,100.

ITEM Quantitative and Qualitative Disclosures About Market Risk

3

As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM Controls and Procedures

4

The Company's management does not expect that its internal controls over financial reporting will prevent all error and all fraud. Control systems, no matter how well conceived and managed, can provide only reasonable assurance that the objectives of the control system are met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake.

Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, based on the material weaknesses discussed below, our disclosure controls and procedures were not effective to ensure that information required to be disclosed by us in reports filed or submitted under the Securities Exchange Act were recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Act Commission's rules and forms and that our disclosure controls are not effectively designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act is accumulated and communicated to management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

(b) Management's Quarterly Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act.

Internal control over financial reporting is defined under the Exchange Act as a process designed by, or under the supervision of, our CEO and CFO and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because we have only four officers, the Company's internal controls are not effective for the following reasons, (1) there are no entity level controls because of the limited time and abilities of the four officers, and (2) there is no separate audit committee. As a result, the Company's internal controls have an inherent weakness which may increase the risks of errors in financial reporting under current operations and accordingly are not effective as evaluated against

the criteria set forth in the Internal Control – Integrated Framework issued by the committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation, our management concluded that our internal controls over financial reporting were not effective as of February 20, 2014.

Even though there are inherent weaknesses, management has taken steps to minimize the risk. As for bank cash, an outside accountant reconciled the bank accounts and they were found to be accurate. The uses of the infusion of cash from the investments of accredited investors were accounted for by the outside accountant and were appropriate under GAAP. A forensic accountant who is a certified fraud examiner reviewed the financials and agreed they fairly represented the financial results in the first and second quarters.

(c) Remediation of Material Weaknesses

To remediate the material weakness in our documentation, evaluation and testing of internal controls we have engaged a third-party firm to assist us in remedying this material weakness. This third party firm will review our transactions and provide management with guidance on how to properly report and disclose our transactions.

(d) Changes in Internal Control over Financial Reporting

There were no changes in our internal controls over the financial reporting during our second quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1 Legal Proceedings

On August 16, 2013, the Company received a Demand for Documents and Demand to Cease and Assist from Nevada counsel representing Spirit Bear Limited (“Spirit Bear”) and Jay Palmer, a former director and one of the three directors of the Company who was appointed by Spirit Bear. Such notice required the Company to provide Mr. Palmer all books and records regarding all equity or debt issued by the Company since January 1, 2013 and an accounting of all compensation disbursed to Company executive officers since such date. Spirit Bear contends that management of the Company issued equity or debt without authority, and established compensation levels for the Company’s officers and paid salaries to its officers in violation of its agreements with Spirit Bear and the Company’s public filings.

On August 27, 2013, the Company filed a complaint in the United States District Court against Spirit Bear, Jay Palmer, and the two other former directors and Spirit Bear Board appointees, Carrie Dwyer and Donica Holt (Case 2:13-cv-01548) (the “Lawsuit”) seeking judicial declaration that the Board resolutions from February 2013 authorizing the compensation of management and the issuance of debt and equity is valid and that the defendants are bound by the Settlement Agreement, dated April 12, 2013. The defendants have indicated that they will seek indemnification from the Company as a result of the Company initiating the Lawsuit. The Company amended its complaint and dismissed Mr. Palmer and Mrs. Dwyer and Holt from the Lawsuit and sought an emergency summary judgment motion requesting declaratory relief that the February resolutions are valid. Defendant Spirit Bear objected to the Company's designation of its motion as a purported emergency because it improperly denied Spirit Bear the opportunity to respond to the Company's amended complaint, conduct discovery and investigate the Company's claims. On October 28, 2013, Spirit Bear responded to the Company's amended complaint and asserted derivative third-party claims in the Lawsuit on behalf of HPEV against Timothy Hassett, Theodore Banzhaf, Quentin Ponder, Judson Bibb and Mark Hodowanec.

Spirit Bear contests the validity of the Company issuing common stock in connection with the capital raises described herein commencing on May 17, 2013, as well as the compensation taken or accrued by the Company's management pursuant to the February 20, 2013 resolutions passed by the Board of Directors, consisting at that time of Messrs. Hassett, Ponder and Bibb. Such disputes are currently pending in the Lawsuit.

On September 16, 2013, Jay Palmer brought an emergency petition for a writ ordering the Company to allow him to inspect the books and records of the Company. On October 1, 2013 the court granted Mr. Palmer the right to inspect the books and records regarding (a) all equity or debt issued by Company management since January 1, 2013 and (b) all compensation disbursed to the Company's executive officers since January 1, 2013, with an accounting of disbursements. On October 16, 2013, the Company received a letter from counsel to Spirit Bear identifying twenty five (25) categories of documents to be produced for Mr. Palmer’s review. Company’s counsel responded to this letter on November 8, 2013, and has yet to hear any response in connection with Mr. Palmer’s emergency petition.

On September 18, 2013, the Securities and Exchange Commission served the Company with a subpoena entitled In the Matter of HPEV, Inc. The subpoena requested documents relating to several matters, including Spirit Bear, Robert Olins and all of their respective affiliates. Although the company has not heard anything further concerning the investigation, the Company continues to comply with the subpoena, providing documents in its possession to the SEC on a rolling basis.

On October 15, 2013, the Company filed a motion for declaratory relief to streamline the litigation as delay could have a negative impact on the business, including meeting contractual milestones by December 14, 2013. In the motion, the Company sought a declaration that the resolutions are valid, the Company’s capital raises are authorized and the settlement agreement signed with Spirit Bear on April 14, 2013 is valid and enforceable. Spirit Bear opposed

the Company's motion for partial summary judgment.

On January 22, 2014 Spirit Bear's counsel filed a motion to withdraw from representing Spirit Bear. The Company filed a motion on February 7, 2014 dismissing the lawsuit against the individuals for failure of Spirit Bear to serve notice of process on said individuals. On February 21, 2014, the magistrate granted Spirit Bear until March 24th to obtain new counsel and serve the individuals. [The Company is considering action to vacate such order.]
