LABOR SMART, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the nine months ended September 25, 2015

(Unaudited)

NOTE 1 – NATURE OF OPERATIONS

Nature of Business

Labor Smart, Inc. (the “Company”) was incorporated in the State of Nevada on May 31, 2011. Labor Smart, Inc. provides temporary blue-collar staffing services. It supplies general laborers on demand to the light industries, including manufacturing, logistics, and warehousing, skilled trades’ people, and general laborers to commercial construction industries.

NOTE 2 – GOING CONCERN

The accompanying condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company requires capital for its contemplated operational and marketing activities. The Company’s ability to raise additional capital through the future issuances of common stock is unknown. At September 25, 2015, the Company had an accumulated deficit of \$10,899,740 and negative working capital of \$5,189,814. Also, the Company had a net loss of \$2,586,456 for nine months ended September 25, 2015. Additionally, the operating activities of the Company used \$311,828 net cash during the same nine month period. The obtainment of additional financing and increasingly profitable operations are necessary for the Company to continue operations. The ability to successfully resolve these factors raise substantial doubt about the Company’s ability to continue as a going concern. These condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

These condensed consolidated financial statements are presented in United States dollars and have been prepared in accordance with generally accepted accounting principles in the United States of America (“US GAAP”). On January

Edgar Filing: Labor Smart, Inc. - Form 10-Q

20, 2015, the Company incorporated a 100% owned subsidiary, Skill Corp, Inc. On March 2, 2015, the Company incorporated the following 100% owned subsidiaries: LSI Corp, LLC, Labor Smart TN, LLC, Labor Smart SE, LLC, Labor Smart SE II, LLC, Labor Smart NAT, LLC, Labor Smart GA, LLC and Labor Smart MW, LLC which are included in these condensed consolidated financial statements. All significant inter-company accounts and transactions have been eliminated.

The Company has a 52-53 week fiscal year ending on the Friday closest to December 31. This change was effective with the end of the registrant's fiscal second quarter ended June 27, 2014. The change to a 52-53 week fiscal year was retroactively applied as if it was adopted as of January 1, 2014. The registrant's current fiscal year ends on December 25, 2015 and comprises 52 weeks.

Pursuant to the rules and regulations of the Securities and Exchange Commission for Form 10-Q, the condensed consolidated financial statements, footnote disclosures and other information normally included in condensed consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. The condensed consolidated financial statements contained in this report are unaudited but, in the opinion of management, reflect all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the condensed consolidated financial statements.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC (“ASC 820-10”), fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The three levels of the fair value hierarchy are described below:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;
- Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Pursuant to ASC 825, the fair value of cash and marketable securities is determined based on “Level 1” inputs, which consist of quoted prices in active markets for identical assets. The Company believes that the recorded values of cash, accounts receivables, marketable securities, accounts payable and accrued liabilities, and notes payable approximate their current fair values because of their nature and respective relatively short maturity dates or durations.

Assets measured at fair value on a recurring basis were presented on the Company’s balance sheets as of September 25, 2015 and December 26, 2014 as follows:

Closing balance at September 25, 2015	\$113,784

Equity securities comprise publicly traded shares of common stock. The warrant gives the Company, the right but not the obligation, to purchase 100,000 shares of Science to Consumers, Inc. (formerly Argon Beauty Corp.) (OTCBB:BEUT). The warrant is valued at the end of each accounting period using the Black Scholes option valuation model using the following inputs at September 25, 2015: stock price \$0.43, exercise price \$0.50, expected life 1.98 years, volatility 202%, dividends 0% and discount rate 1.08%.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and short-term investments with original maturities of less than 90 days. Cash equivalents are placed with high credit quality financial institutions and are primarily in money market funds. The carrying value of those investments approximates fair value. The Company maintains its cash in bank deposit accounts which may exceed federally insured limits. As of September 25, 2015, the Company's accounts are insured for \$250,000 by FDIC for US bank deposits.

Investments

Available for sale securities are recorded at fair value. Unrealized holding gains and losses on available for sale securities are excluded from earnings and included in other comprehensive income (loss).

On September 18, 2015, the Company purchased 560 B Ordinary Shares, 2.5% interest, of TempBuddy Limited for \$100,000 in cash. The investment is recorded as cost, which approximates fair value given the short period the Company has held the investment.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment. Deferred income taxes are reported for timing differences between items of income or expense reported in the consolidated financial statements and those reported for income tax purposes in accordance with FASB ASC 740-10, "Income Taxes," which requires the use of the asset/liability method of accounting for income taxes.

The Company provides for deferred taxes for the estimated future tax effects attributable to temporary differences and carry-forwards when realization is more likely than not.

Revenue Recognition

The Company recognizes revenues and the related costs when persuasive evidence of an arrangement exists, delivery and acceptance has occurred or service has been rendered, the price is fixed or determinable, and collection of the resulting receivable is reasonably assured. Amounts invoiced or collected in advance of product delivery or providing services are recorded as deferred revenue. The Company accrues for customer credits, bad debts, and other allowances based on its historical experience. Staffing revenue is recognized as the services are performed. Revenue also includes billable travel and other reimbursable costs and is recorded net of sales tax.

Deferred Financing Costs

Deferred financing costs consist of costs incurred to obtain debt financing, including legal fees, origination fees and administration fees. Costs associated with the Convertible Promissory Notes are deferred and amortized in our statements of operations using the straight-line method, which approximates the effective interest method, over the terms of the respective financing instrument.

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. These estimates and judgments are based on historical information, information that is currently available to the Company, and on various other assumptions that the Company believes to be reasonable under the circumstances. Actual results could differ from those estimates.

Factoring Agreements and Accounts Receivable

On July 31, 2013 the Company entered into a Purchase and Sale Agreement with Transfac Capital, Inc. (“Transfac”). Advances to the Company from Transfac are with recourse and are secured by assets of the Company and are treated as a secured financing arrangement. As of September 25, 2015 and December 26, 2014, factored accounts receivable total \$1,743,284 and \$1,638,771, respectively.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Allowance for Doubtful Accounts

The Company allows for an estimated amount of receivables that may not be collected. The Company estimates its allowance for doubtful accounts based on historical experience and customer relationships. As of September 25, 2015 and December 26, 2014, the Company has recorded an allowance of \$388,526 and \$110,605, respectively.

Property and Equipment

Property and equipment are stated at the lower of cost or fair value. Depreciation is provided on a straight-line basis over the estimated useful lives of the assets, as follows:

Description	Estimated Life
Office equipment and furniture	3 years

The estimated useful lives are based on the nature of the assets as well as current operating strategy and legal considerations such as contractual life. Future events, such as property expansions, property developments, new competition, or new regulations, could result in a change in the manner in which the Company uses certain assets requiring a change in the estimated useful lives of such assets.

	September 25, 2015	December 26, 2014

Depreciation expense was \$11,836 and \$7,147 for the three months ended September 25, 2015 and September 26, 2014, respectively and \$35,120 and \$14,693 for the nine months ended September 25, 2015 and September 26, 2014, respectively.

Customer Relationships

Customer relationships comprise customer lists acquired from Qwik Staffing Solutions, Inc. on April 29, 2013 with an estimated fair value of \$294,100, from Shirley's Employment Service, Inc. on April 9, 2014 with an estimated fair value of \$162,461 and from Kwik Jobs on September 26, 2014 with an estimated fair value of \$141,529. NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Amortization expense was \$49,704 and \$36,692 for the three months ended September 25, 2015 and September 26, 2014, respectively and \$149,113 and \$99,409 for the nine months ended September 25, 2015 and September 26, 2014, respectively.

Earnings (loss) per share

Basic earnings (loss) per common share is computed by dividing net income (loss) available to common shareholders by the weighted-average number of shares of common stock outstanding during the period. Diluted earnings per common share is computed by dividing income available to common shareholders by the weighted-average number of shares of common stock outstanding during the period increased to include the number of additional shares of common stock that would have been outstanding if potentially dilutive securities had been issued. Potentially dilutive common shares outstanding stock options assumed to be exercised or vested and paid out of shares of common stock and warrants assumed to be exercised. Outstanding stock options and warrants are disclosed in Note 11 Stockholders' Deficit.

Convertible Notes Payable

i) Beneficial Conversion Feature

If the conversion features of conventional convertible debt provides for a rate of conversion that is below market value, this feature is characterized as a beneficial conversion feature ("BCF"). A BCF is recorded by the Company as a debt discount pursuant to ASC Topic 470-20 "Debt with Conversion and Other Options." In those circumstances, the convertible debt is recorded net of the discount related to the BCF and the Company amortizes the discount to interest expense over the life of the debt using the effective interest method.

ii) Debt Discount

The Company determines if the convertible debenture should be accounted for as liability or equity under ASC 480, Liabilities — Distinguishing Liabilities from Equity. ASC 480, applies to certain contracts involving a company's own

equity, and requires that issuers classify the following freestanding financial instruments as liabilities. Mandatorily redeemable financial instruments, obligations that require or may require repurchase of the issuer's equity shares by transferring assets (e.g., written put options and forward purchase contracts), and certain obligations where at inception the monetary value of the obligation is based solely or predominantly on:

- A fixed monetary amount known at inception, for example, a payable settleable with a variable number of the issuer's equity shares with an issuance date fair value equal to a fixed dollar amount,
- Variations in something other than the fair value of the issuer's equity shares, for example, a financial instrument indexed to the S&P 500 and settleable with a variable number of the issuer's equity shares, or
- Variations inversely related to changes in the fair value of the issuer's equity shares, for example, a written put that could be net share settled.

If the entity determined the instrument meets the guidance under ASC 480 the instrument is accounted for as a liability with a respective debt discount. The Company records debt discounts in connection with raising funds through the issuance of convertible debt (see Note 7). These costs are amortized to non-cash interest expense over the life of the debt. If a conversion of the underlying debt occurs, a proportionate share of the unamortized amounts is immediately expensed.

iii)

Derivative Financial Instruments

Derivative financial instruments, as defined in ASC 815, "Accounting for Derivative Financial Instruments and Hedging Activities", consist of financial instruments or other contracts that contain a notional amount and one or more underlying (e.g. interest rate, security price or other variable), require no initial net investment and permit net settlement. Derivative financial instruments may be free-standing or embedded in other financial instruments. Further, derivative financial instruments are initially, and subsequently, measured at fair value and recorded as liabilities or, in rare instances, assets.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Company does not use derivative financial instruments to hedge exposures to cash-flow, market or foreign-currency risks. However, the Company has issued financial instruments including senior convertible promissory notes payable and freestanding stock purchase warrants with features that are either (i) not afforded equity classification, (ii) embody risks not clearly and closely related to host contracts, or (iii) may be net-cash settled by the counterparty. As required by ASC 815, in certain instances, these instruments are required to be carried as derivative liabilities, at fair value, in our consolidated financial statements.

Stock-based compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 505 and 718 which requires the Company to recognize expenses related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with FASB ASC 718-10 and the conclusions reached by the FASB ASC 505-50. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by FASB ASC 505-50.

Recent Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (“FASB ASU 2014-09”). This standard update clarifies the principles for recognizing revenue and develops a common revenue standard for U.S. generally accepted accounting principles (GAAP) and International Financial Reporting

Standards. The standard update intends to provide a more robust framework for addressing revenue issues; improve comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets; and provide more useful information to users of consolidated financial statements through improved disclosure requirements. Upon adoption of this standard update, the Company expects that the allocation and timing of revenue recognition will be impacted. The provisions of FASB ASU 2014-09 are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, and are to be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of adoption. Early application is not permitted. The Company is currently evaluating the impact that this standard update will have on its consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements - Going Concern. The new standard requires management of public and private companies to evaluate whether there is substantial doubt about the entity's ability to continue as a going concern and, if so, disclose that fact. Management will also be required to evaluate and disclose whether its plans alleviate that doubt. The standard requires management to evaluate, for each reporting period, whether there are conditions or events that raise substantial doubt about a company's ability to continue as a going concern within one year from the date the financial statements are issued. The new standard is effective for annual periods ending after December 15, 2016, and interim periods within annual periods beginning after December 15, 2016. Early adoption is permitted. The Company does not expect the adoption of the ASU to have a significant impact on our consolidated financial statements.

The Company has implemented all new accounting pronouncements that are in effect and that may impact its consolidated financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its consolidated financial statements.

NOTE 4 – PREPAID EXPENSES

As of September 25, 2015 and December 26, 2014, the Company had prepaid expenses of \$64,017 and \$322,855, respectively. Prepaid expenses at September 25, 2015 comprised primarily of prepaid lease payments, insurance and services.

NOTE 5 – AGREEMENT FOR PURCHASE AND SALE OF ASSETS

On August 5, 2015, the Company and Christopher Ryan Schadel, the Chief Executive Officer of the Company, (“Schadel”) entered into an Agreement for Purchase and Sale of Assets (the “Asset Purchase Agreement”) with Harris Ventures, Inc., a Georgia corporation (“Harris Ventures”), effective as of July 31, 2015. Under the terms of the Asset Purchase Agreement, Harris Ventures will purchase the following branch offices of the Company: Augusta, Georgia, Charleston, South Carolina, Columbia, South Carolina, Denver, Colorado, and Greenville, South Carolina (the “Branch Offices”), and all assets associated with the Branch Offices, excluding open accounts receivable. The purchase price for the Branch Offices was \$1,025,000 in cash, of which \$135,000 was due upon the execution of the Agreement and the remaining \$890,000 due on August 12, 2015. The entire purchase price has been received in full. The Company and Schadel also agreed that, for a period of five (5) years (except for the branch offices located in South Carolina, in which the restricted period shall be three (3) years) not to compete within a forty (40) mile radius of the Branch Offices.

NOTE 6 – FACTORING AGREEMENT

On July 31, 2013 the Company entered into a Purchase and Sale Agreement with Transfac Capital, Inc. (“Transfac”). Under the terms of the Purchase and Sale Agreement, Transfac shall have the right, but not the obligation, to purchase up to Two Million Dollars (\$2,000,000) worth of accounts receivable (the “Maximum Advances”) of the Company. For each account receivable purchased, Transfac shall advance ninety percent (90%) of the face value of the account and the balance after receipt of full payment on the account. As consideration, the Company shall pay Transfac two percent (2%) of the average monthly balance of the outstanding accounts purchased, with a minimum of one half of one percent (0.5%) of the Maximum Advances per month, as long as the Purchase and Sale Agreement remains in

effect.

The factoring line of credit with Transfac has been treated as a secured financing arrangement. As of September 25, 2015 and December 26, 2014 under the agreement with Transfac, the Company had factored receivables in the amounts of \$1,743,284 and \$1,699,900, recorded reserve deposits of \$275,640 and \$448,968 included in other current assets, and recorded a liability of \$1,467,644 and \$1,638,771, respectively. Discounts and interest provided during factoring of the accounts receivable have been expensed on the statements of operations as interest expense. Interest expense related to the factoring arrangement was \$120,105 and \$94,333 for the three months ended September 25, 2015 and September 26, 2014, respectively and \$398,405 and \$218,916 for the nine months ended September 25, 2015 and September 26, 2014, respectively.

NOTE 7 – RELATED PARTY

On April 25, 2013, the Company entered into a loan agreement with the CEO of the Company in the amount of \$175,768. This loan is payable on demand, unsecured, and bears 0% interest per annum. This loan consolidates all previous loans issued. As of September 25, 2015, \$170,043 of this note has been repaid and \$5,725 (December 26, 2014 - \$14,725) of this note remains outstanding.

NOTE 10 – CONVERTIBLE NOTE PAYABLE DERIVATIVE LIABILITY

The Convertible Promissory Notes with Gemini Master Fund Ltd. with an issue date of March 27, 2014, JMJ Financial Tranche 1 with an issue date of May 27, 2014, Tonaquint, Inc. with an issue date of April 16, 2014, Tonaquint, Inc. with an issue date of July 11, 2014, Redwood Fund III, Ltd. with an issue date of August 18, 2014, Redwood Management LLC with an issue date of August 18, 2014, JMJ Financial Tranche 2 with an issue date of August 19, 2014 and RDW Capital, LLC with an issue date of September 19, 2014 have an initial conversion price that is subject to anti-dilution adjustments that allow for the reduction in the Conversion Price in the event the Company subsequently issues equity securities including common stock or any security convertible or exchangeable for shares of common stock for no consideration or for consideration less than original conversion price.

The Company’s convertible promissory note derivative liabilities due to anti-dilution adjustments has been measured at fair value at September 25, 2015 using a binomial model. Since the Conversion Price contains an anti-dilution adjustment, the probability that the Conversion Price of the Notes would decrease as the share price decreased was

incorporated into the valuation calculation.

The inputs into the binomial models are as follows:

Conversion price	\$0.15 - \$0.30	
Risk free rate	0.03% - 0.11	%
Expected volatility	561% - 1326	%
Dividend yield	0	%
Expected life	0.13 years – 0.50 years	

Additionally, the Convertible Promissory Notes with KBM Worldwide, Inc. with an issue date of October 1, 2014, Tailwind Partner 3, LLC with an issue date of October 31, 2014, LG Capital Funding, LLC with an issued date of November 12, 2014 and Daniel James Management, Inc. with an issued date of June 1, 2015 were all accounted for under ASC 815. The variable conversion price is not considered predominately based on a fixed monetary amount settleable with a variable number of shares due to the volatility and trading volume of the Company's common stock.

NOTE 11 – WARRANT DERIVATIVE LIABILITY

On July 11, 2014, in conjunction with the issuance of the Convertible Promissory Note issued to Tonaquint, Inc. on July 11, 2014, the Company issued a warrant to purchase 271,084 shares of common stock with an exercise price of \$0.45 per share and a life of five years.

The warrant is subject to anti-dilution adjustments that allow for the reduction in the conversion price in the event the Company subsequently issues equity securities including common stock or any security convertible or exchangeable for shares of common stock for no consideration or for consideration less than \$0.45 a share. The Company accounted for the warrants in accordance with ASC Topic 815. Accordingly, the warrants is not considered to be solely indexed to the Company's own stock and, as such, is recorded as a liability.

The warrant derivative liability has been measured at fair value at December 31, 2014 and September 25, 2015 using a binomial model. Since the Conversion Price contains an anti-dilution adjustment, the probability that the exercise price of the Notes would decrease as the share price decreased was incorporated into the valuation calculation.

The inputs into the binomial model are as follows:

Risk free rate	1.75	%
Expected volatility	561	%
Dividend yield	0	%
Expected life	4.00	years

At September 25, 2015 and December 26, 2014, the number of warrants granted and assumed is calculated to be 562,500,000 and 1,339,286, respectively. The initial exercise price of the warrants is \$0.45 per common share subject to adjustment for dilutive issuances. As September 25, 2015, the exercise price was \$0.0001 per share.

All warrants outstanding as of September 25, 2015 are exercisable.

NOTE 14 – CONTINGENCIES AND COMMITMENTS

On June 4, 2015, the Company filed a lawsuit against Command Center, Inc. (“Command Center”) in the State of Washington for tortious interference with contractual relationships and business relations, defamation, intentional interference with prospective advantage or business expectancy, and breach of contract. Further, the Company requested a declaratory judgement on the promissory note Command Center purchased from Gemini Master Fund,

Ltd. (“Gemini”). The Company believes that prior to the sale of the promissory note by Gemini to Command Center, the terms of the promissory note were amended by Gemini and Company to allow the Company to make monthly payments under the promissory note. On June 18, 2015, Command Center filed a lawsuit against the Company in the State of New York, claiming the promissory note they purchased from Gemini is in default and have demanded payment in full, plus penalties and fees. On July 10, 2015, the Company and Command Center agreed to consolidate and transfer these two actions into one case, which will be argued in the State of New York. The action is in its very preliminary stages. As a result, we are unable to estimate a potential gain or loss or range of gain or loss, if any, at this time.

From time to time we are involved in various legal proceedings. We believe that the outcome of these proceedings, even if determined adversely, will not have a material adverse effect on our business, financial condition or results of operations. There have been no material changes in our legal proceedings since September 25, 2015.

The Company leases office premises under 26 operating leases with terms from month to month to five years. Rental expenses was \$109,509 and \$94,744 for the three months ended September 25, 2015 and September 26, 2014, respectively and was \$269,054 and \$170,145 for the nine months ended September 25, 2015 and September 26, 2014, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this report, unless the context indicates otherwise, the terms "Labor Smart," "Company," "we," "us," and "our" refer to Labor Smart, Inc., a Delaware corporation.

Special note regarding forward-looking statements

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, or the "Securities Act," and Section 21E of the Securities Exchange Act of 1934 or the "Exchange Act." All statements other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including, but not limited to, any projections of earnings, revenue or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements concerning proposed new services or developments; any statements regarding future economic conditions of performance; and statements of belief; and any statements of assumptions underlying any of the foregoing. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

In some cases, you can identify forward looking statements by terms such as "may," "intend," "might," "will," "should," "could," "would," "expect," "believe," "anticipate," "estimate," "predict," "potential," or the negative of these terms. These terms and similar expressions are intended to identify forward-looking statements. The forward-looking statements in this report are based upon management's current expectations and belief, which management believes are reasonable. However, we cannot assess the impact of each factor on our business or the extent to which any factor or combination of factors, or factors we are aware of, may cause actual results to differ materially from those contained in any forward-looking statements. You are cautioned not to place undue reliance on any forward-looking statements. These statements represent our estimates and assumptions only as of the date of this report. Except to the extent required by federal securities laws, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

You should be aware that our actual results could differ materially from those contained in the forward-looking statements due to a number of factors, including:

- uncertainties relating to general economic and business conditions;
- industry trends; changes in demand for our products and services;
- uncertainties relating to customer plans and commitments and the timing of orders received from customers;
- announcements or changes in our pricing policies or that of our competitors;

unanticipated delays in the development, market acceptance or installation of our products and services; changes in government regulations; availability of management and other key personnel; availability, terms and deployment of capital; relationships with third-party equipment suppliers; and worldwide political stability and economic growth.

(table of contents)

Other risks and uncertainties include such factors, among others, as market acceptance and market demand for our products and services, pricing, the changing regulatory environment, the effect of our accounting policies, potential seasonality, industry trends, adequacy of our financial resources to execute our business plan, our ability to attract, retain and motivate key technical, marketing and management personnel, and other risks described from time to time in periodic and current reports we file with the United States Securities and Exchange Commission, or the “SEC.” You should consider carefully the statements under “Item 1A. Risk Factors” and other sections of this report, which address additional factors that could cause our actual results to differ from those set forth in the forward-looking statements and could materially and adversely affect our business, operating results and financial condition. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the applicable cautionary statements.

Overview

Labor Smart, Inc. was incorporated in the State of Nevada on May 31, 2011. We are an emerging provider of temporary employees to the construction, manufacturing, hospitality, restoration and retail industries. We provide unskilled and semi-skilled temporary workers to our customers. At the end of the 3rd Quarter 2015, the Company operated 20 branch office locations primarily throughout the Southeast and Midwest US.

Our mission is to be the provider of choice to our growing community of customers, with a service-focused approach, that positions us as a resource and partner for their business.

Seasonality

Generally, we expect our revenues to be higher and gross margin percent to be higher during the second and third fiscal quarters as compared to the first and fourth fiscal quarters each year. During the second and third quarters we receive the majority of our contracts to supply labor to construction firms. Contracts for construction work tends to be both larger in dollar amount and to be more profitable than our other contracts.

Growth Strategy

Historically, our growth strategy has been heavily focused on new branch office openings, growth in revenue from existing offices, and closing one small acquisition per year. On June 14, 2014, we secured a large deductible worker’s compensation insurance policy which resulted in us becoming substantially self-insured. We have adjusted our growth strategy based on this significant change to the fundamentals of our business. This policy was renewed on June 14, 2015 with reduced insurance rates and lower collateral requirements from the prior policy period, further reinforcing our shift to grow through acquisitions. The large deductible policy does not cover South Carolina or Colorado, resulting in lower gross profit margins for our branches with operations in these states. In order to obtain our target gross profit margins we sold the five branch locations with operations in South Carolina and Colorado on July 31, 2015 for a purchase price of \$1,025,000.

During the remainder of fiscal 2015 we do not expect to open new branch office locations, however, we are aggressively pursuing acquisitions that fit well with our culture and will continue to seek more acquisition opportunities than in prior years. This major shift in focus is directly related to our new large deductible worker's compensation policy. Our industry is very fragmented. We have invested heavily in our corporate infrastructure in the last three years. We believe we can execute acquisitions with an investment of one to four times EBITDA of the seller and immediately recognize economies of scale and a reduced cost of sales for the acquired customer lists as it is integrated into our operations. We have limited our acquisition search to states covered by our large deductible worker's compensation policy.

(table of contents)

For the balance of fiscal 2015, we will no longer seek opportunities to open new branches, as we shift our expansion strategy to pursuing acquisitions. Additionally, during the 2nd and 3rd Quarter 2015, the Company closed 4 and 1 under-performing branch locations respectively, and will continue to close branch locations that fail to become profitable within our expected timeline or seek opportunities to sell the operating assets when possible.

At December 26, 2014, we had 30 branches and at September 25, 2015, we had 20 branches. We will consider closing under-performing branches on a case by case basis.

Use of Non-GAAP Financial Information

In addition to GAAP results, this quarterly report on Form 10-Q also includes certain non-GAAP financial measures as defined by the Securities and Exchange Commission. The Company defines EBITDA as net income, plus interest and finance expense net of interest income, provision for income taxes, depreciation and amortization. The Company defines Adjusted EBITDA as these items plus non-recurring acquisition and expansion costs, pretax. EBITDA and Adjusted EBITDA are measures used by management to evaluate ongoing operations and as a general indicator of its operating cash flow (in conjunction with a cash flow statement that also includes, among other items, changes in working capital and the effect of non-cash charges). Management believes these measurements are useful to investors because they are frequently used by securities analysts, investors and other interested parties in the comparative evaluation of companies. Because not all companies use identical calculations, Labor Smart's presentation of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies. EBITDA and Adjusted EBITDA are not recognized terms under GAAP, do not purport to be alternatives to, and should be considered in addition to, and not as a substitute for or superior to, net income (loss) as a measure of operating performance or to cash flows from operating activities or any other performance measures derived in accordance with GAAP as a measure of liquidity. Additionally, EBITDA and Adjusted EBITDA are not intended to be measures of free cash flow for management's discretionary use as they do not reflect certain cash requirements, such as interest payments, tax payments and debt service requirements.

Pursuant to the requirements of Regulation G, a reconciliation of EBITDA and Adjusted EBITDA to GAAP net loss has been provided in the table below.

Results of Operations – Three Months Ended September 25, 2015

Summary of Operations:

Revenue for the three months ended September 25, 2015 was \$5,749,548 as compared to \$6,847,744 for the three months ended September 26, 2014. The decrease in revenue for the three months ended September 25, 2015 was \$1,098,196 or 16.0%. This decrease was due to the sale of branch offices in Augusta, Georgia, Charleston, South Carolina, Columbia, South Carolina, Denver, Colorado and Greenville, South Carolina on July 31, 2015 and to a strategic decision to remove high risk, low margin accounts from our revenue stream during the 2nd and 3rd quarters of 2014.

Cost of Services:

Cost of services was 73.4% of revenue for the three months ended September 25, 2015 and 75.0% for the three months ended September 26, 2014. Cost of services mainly consists of payroll and worker's compensation expense for our laborers which was \$3,989,174 or 69.4% and \$231,311 or 4.0% of revenues, respectively for the three months ended September 25, 2015 and \$4,925,231 or 72.0% and \$207,505 or 3.0% of revenues, respectively for the three months ended September 26, 2014.

Selling, General and Administrative Expenses (SG&A):

General and administrative fees were 14.6% of revenue for the three months ended September 25, 2015 and 15.5% for the three months ended September 26, 2014.

For the three months ended September 25, 2015, of our total \$2,405,468 in operating expenses, \$141,231 is attributable to professional fees including legal, accounting, and consulting services, \$5,135 in stock based compensation, \$1,000,714 to staff payroll expenses, \$567,987 to bad debts, and \$690,401 to other general and administrative fees.

For the three months ended September 26, 2014, of our total \$1,816,435 in operating expenses, \$83,130 is attributable to professional fees including legal, accounting, and consulting services, \$26,260 in stock based compensation related to vesting of stock options, \$738,563 to staff payroll expenses, \$17,329 to bad debts, and \$951,153 to general and administrative fees.

Payroll expense increased primarily due to a \$220,000 one-time bonus paid to Ryan Schadel, the Chief Executive Officer of the Company, during the three months ended September 25, 2015.

Bad debt expense increased primarily due to further refinement of our methodology to estimate the allowance for doubtful accounts based on past experience. In previous periods we relied on internal staff to exhaust collection efforts prior to referring overdue balances to a collections agency at 120 days. Based on our experience with collections, in the current period, we started to allow for all balances owed on trade accounts with any balances due beyond 90 days upon referring to a collection agency. Additionally, we are now using the aging method to determine the allowance for doubtful accounts as we believe this provides a more accurate allowance.

Results of Operations – Nine months Ended September 25, 2015

Summary of Operations:

(table of contents)

Revenue for the nine months ended September 25, 2015 was \$16,831,139 as compared to \$18,078,661 for the nine months ended September 26, 2014. The decrease in revenue for the nine months ended September 25, 2015 was \$1,247,522 or 7.4%. This decrease was due to the sale of branch offices in Augusta, Georgia, Charleston, South Carolina, Columbia, South Carolina, Denver, Colorado and Greenville, South Carolina on July 31, 2015 and to a strategic decision to remove high risk, low margin accounts from our revenue stream during the 2nd and 3rd quarters of 2014.

Cost of Services:

Cost of services was 73.4% of revenue for the nine months ended September 25, 2015 and 76.8% for the nine months ended September 26, 2014. Cost of services mainly consists of payroll and worker's compensation expense for our laborers which was \$11,725,503 or 69.7% and \$621,850 or 3.7% of revenues, respectively for the nine months ended September 26, 2015 and \$13,137,228 or 72.6% and \$752,965 or 4.2% of revenues, respectively for the nine months ended September 26, 2014.

Selling, General and Administrative Expenses (SG&A):

General and administrative fees were 15.5% of revenue for the nine months ended September 25, 2015 and 15.6% for the nine months ended September 26, 2014.

For the nine months ended September 25, 2015, of our total \$6,058,195 in operating expenses, \$297,144 is attributable to professional fees including legal, accounting, and consulting services, \$(12,222) in stock based compensation related to current period stock compensation expense netted by reversal of expense related to forfeited shares, \$2,700,198 to staff payroll expenses, \$749,503 to bad debts, and \$2,323,572 to other general and administrative fees.

For the nine months ended September 26, 2014, of our total of \$4,702,170 in operating expenses, \$212,272 is attributable to professional fees including legal, accounting, and consulting services, \$119,257 in stock based compensation related to vesting of stock options, \$1,773,150 to staff payroll expenses, \$113,375 to bad debts, and \$2,484,116 to general and administrative fees.

Payroll expense increased primarily due to additional staff hired to manage new branch offices opened during the 1st and 2nd quarter of fiscal 2015. Also, a \$220,000 one-time bonus was paid to Ryan Schadel, the Chief Executive Officer of the Company, during the nine months ended September 25, 2015.

Bad debt expense increased primarily due to further refinement of our methodology to estimate the allowance for doubtful accounts based on past experience. In previous periods we relied on internal staff to exhaust collection efforts prior to referring overdue balances to a collections agency at 120 days. Based on our experience with collections, in

the current period, we started to allow for all balances owed on trade accounts with any balances due beyond 90 days upon referring to a collection agency. Additionally, we are now using the aging method to determine the allowance for doubtful accounts as we believe this provides a more accurate allowance. We wrote down \$749,503 in bad debt included in operating expenses during the nine months ended September 25, 2015.

Liquidity and Capital Resources

(table of contents)

We have funded our operations to date primarily through the sale of equity, invoice factoring, convertible notes payable and shareholder loans. Based on our current operating plan, we anticipate that we have sufficient cash and cash equivalents to fund our operations into the coming months. We will require additional cash to fund our operating plan past that time. If the level of sales anticipated by our financial plan are not achieved or our working capital requirements are higher than planned, we will need to raise additional cash sooner or take actions to reduce operating expenses. We are implementing plans to reduce our costs of capital and improve our revenue. If we cannot generate adequate cash by implementing these steps, we plan to obtain additional cash through the issuance of equity or debt securities. There can be no assurance that additional cash will be available or that, if available, it will be available on terms acceptable to us on a timely basis. If adequate funds are not available on a timely basis, we intend to limit our operations to extend our funds as we pursue other financing opportunities and business relationships. This limitation of operations could include reducing our planned investment in working capital to fund revenue growth and result in reductions in staff, operating costs, and capital expenditures.

Net cash used in operations was \$311,828 during the nine months ended September 25, 2015. Net cash used in operating activities for the nine months ended September 25, 2015 mainly consisted of a net loss of \$2,586,456 adjusted for stock based compensation of \$(12,222), financing fees of \$1,540,099, bad debt expense of \$749,503, by a decrease of \$258,838 in prepaid expense and deposits and an increase of \$723,466 in payroll taxes payable.

Net cash used in operations was \$2,902,451 during the nine months ended September 26, 2014. Net cash flows used in operating activities for the nine months ended September 26, 2014 mainly consisted of a net loss of \$3,084,683 adjusted for stock based compensation of \$119,257, financing fees of \$2,389,537, by an increase of \$1,760,776 in accounts receivable and an increase of \$162,507 in payroll taxes payable.

Cash used in investing activities totaled \$791,301 for the nine months ended September 25, 2015. Net cash flows used in investing activities consists of the purchase of fixed assets of \$22,257 and \$254,575 in the purchase of marketable securities offset by \$43,133 in proceeds from the sale of marketable securities and \$1,025,000 in proceeds from the sales of five branch offices.

Cash used in investing activities totaled \$238,699 for the nine months ended September 26, 2014. Net cash flows used by investing activities consists of assets acquired in asset purchase agreement of \$120,797, the purchase of fixed assets of \$75,754 and \$99,339 in the purchase of marketable securities offset by \$57,191 in proceeds from the sale of marketable securities.

Net cash used in financing activities totaled \$420,966 for the nine months ended September 25, 2015. Net cash flows from financing activities consisted of payments on a convertible note payable of \$589,430, proceeds from notes payable of \$175,000, net amount received from factor of \$104,513 and payments towards a contingent liability of \$63,535.

Edgar Filing: Labor Smart, Inc. - Form 10-Q

Net cash provided by financing activities totaled \$3,402,792 for the nine months ended September 26, 2014. Net cash flows from financing activities consisted of proceeds from convertible notes payable of \$3,844,823, offset by payments on a convertible note payable of \$941,039, payments on related party notes of \$27,581, net amount received of \$618,031 from factor and payments towards a contingent liability of \$91,442.

Our continued capital needs will depend on branch operating performance, our ability to control costs, and the continued impact from our expansion plans in 2014.

Assets and Liabilities:

At September 25, 2015, we had total current assets of approximately \$3,289,452 and current liabilities of approximately \$8,479,266. Included in current assets are trade accounts receivable of approximately \$2,530,064 and prepaid expenses of \$64,017. Accounts receivable are recorded at the invoiced amounts. We regularly review our accounts receivable for collectability. During the quarter ended September 25, 2015, we further refined our methodology to estimate the allowance for doubtful accounts based on past experience. In previous periods we relied on internal staff to exhaust collection efforts prior to referring overdue balances to a collections agency at 120 days. Based on our experience with collections, in the current period, we started to allow for all balances owed on trade accounts with any balances due beyond 90 days upon referring to a collection agency. Additionally, we are now using the aging method to determine allowance for doubtful accounts as we believe this provides a more accurate allowance. We wrote down \$749,503 in bad debt included in operating expenses during the nine months ended September 25, 2015. As our business matures, we will continue to monitor and seek to improve our historical collection ratio and aging experience with respect to trade accounts receivable. As we grow, our historical collection ratio and aging experience with respect to trade accounts receivable will continue to be important factors affecting our liquidity.

Financing:

On July 31, 2013 the Company entered into a Purchase and Sale Agreement with Transfac Capital, Inc. (“Transfac”). Under the terms of the Purchase and Sale Agreement, Transfac shall have the right, but not the obligation, to purchase up to Two Million Dollars (\$2,000,000) worth of accounts receivable (the “Maximum Advances”) of the Company. For each account receivable purchased, Transfac shall advance ninety percent (90%) of the face value of the account and the balance after receipt of full payment on the account. As consideration, the Company shall pay Transfac two percent (2%) of the average monthly balance of the outstanding accounts purchased, with a minimum of one half of one percent (0.5%) of the Maximum Advances per month, as long as the Purchase and Sale Agreement remains in effect.

Our total financing costs through our facility with Transfac for the three months ended September 25, 2015 and September 26, 2014 was \$120,105 and \$94,333, respectively and for the nine months ended September 25, 2015 and September 26, 2014 was \$398,405 and \$218,916, respectively, which is reflected on our Statements of Operations as interest and finance expense. As collateral for repayment of any and all obligations, we granted Transfac a security interest in all our property, including, but not limited to, accounts receivable, intangible assets, contract rights, investment property, deposit accounts, and other such assets.

Off-Balance Sheet Arrangements

As of September 25, 2015, we do not have any off-balance sheet arrangements except for our factored receivables under our agreements with Transfac Capital, Inc. The cash received from our factored receivables finance the Company's operating expenses and is a significant source of liquidity for the Company. For more information about the factoring terms, see "Financing" discussion above.

Inflation

Inflation has not had a material impact on our business and we do not expect inflation to have an impact on our business in the near future

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

This item is not applicable as we are currently considered a smaller reporting company.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As required by Rule 13a-15 of the Securities Exchange Act of 1934, our principal executive officer and principal financial officer evaluated our company's disclosure controls and procedures (as defined in Rules 13a-15(e) of the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer concluded that as of the end of the period covered by this report, these disclosure controls and procedures were not effective to ensure that the information required to be disclosed by our company in reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities Exchange Commission and to ensure that such information is accumulated and communicated to our company's management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure. The conclusion that our disclosure controls and procedures were not effective was due to the presence of the following material weaknesses in internal control over financial reporting which are indicative of many small companies with small staff: (i) we do not have an audit committee of the Board of Directors or a financial expert serving on the Board of Directors (ii) inadequate segregation of duties and effective risk assessment; and (iii) insufficient written policies and procedures for accounting and financial reporting with respect to the requirements and application of both US GAAP and SEC guidelines (iv) deficient design of our management information systems and information technology because the potential for unauthorized access to certain information systems and software applications existed during 2014 in several departments, including corporate accounting. Certain key controls for maintaining the overall integrity of systems and data processing were not properly designed and operating effectively.

We plan to take steps to enhance and improve the design of our internal controls over financial reporting. During the period covered by this quarterly report on Form 10-Q, we have not been able to remediate the material weaknesses identified above. To remediate such weaknesses, we plan to implement the following changes during our fiscal year ending December 25, 2015, subject to obtaining additional financing: (i) appoint additional qualified personnel to address inadequate segregation of duties and ineffective risk management; and (ii) adopt sufficient written policies and procedures for accounting and financial reporting. The remediation efforts set out in (i) and (ii) are largely dependent upon our securing additional financing to cover the costs of implementing the changes required. If we are unsuccessful in securing such funds, remediation efforts may be adversely affected in a material manner.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended September 25, 2015 that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

PART II--OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On June 4, 2015, the Company filed a lawsuit against Command Center, Inc. (“Command Center”) in the State of Washington for tortious interference with contractual relationships and business relations, defamation, intentional interference with prospective advantage or business expectancy, and breach of contract. Further, the Company requested a declaratory judgment on the promissory note Command Center purchased from Gemini Master Fund, Ltd. (“Gemini”). The Company believes that prior to the sale of the promissory note by Gemini to Command Center, the terms of the promissory note were amended by Gemini and Company to allow the Company to make monthly payments under the promissory note. On June 18, 2015, Command Center filed a lawsuit against the Company in the State of New York, claiming the promissory note they purchased from Gemini is in default and have demanded payment in full, plus penalties and fees. On July 10, 2015, the Company and Command Center agreed to consolidate and transfer these two actions into one case, which will be argued in the State of New York.

From time to time we are involved in various legal proceedings. We believe that the outcome of these proceedings, even if determined adversely, will not have a material adverse effect on our business, financial condition or results of operations. There have been no material changes in our legal proceedings since September 25, 2015.

Other than as described above, the Company not aware of any other material pending legal proceedings.

No director, officer, or affiliate of the issuer and no owner of record or beneficiary of more than five percent of the securities of the issuer, or any security holder is a party adverse to the small business issuer or has a material interest adverse to the small business issuer.

ITEM 1A. RISK FACTORS

There are no material changes since the filing of the Company’s Form 10-K with the Securities and Exchange Commission on April 10, 2015.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES

During the three months ended September 25, 2015, the holders of Convertible Promissory Notes converted 1,964,913,130 shares of common stock of the Company with a fair value of \$196,491 to settle \$119,419 of principal and interest.

The Company issued the foregoing securities in reliance on an exemption from registration under the Securities Act of 1933 set forth in Section 4(2) thereof and Rule 506 of Regulation D promulgated thereunder.

Issuer Purchases of Equity Securities

We did not repurchase any of our securities during the quarter ended September 25, 2015.
