Brandywine Operating Partnership, L.P. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Brandywine Realty Trust:

Large accelerated filer Accelerated filer Non-accelerated filer

Smaller reporting company Emerging growth company

Brandywine Operating Partnership, L.P.:

Large accelerated filer Accelerated filer Non-accelerated filer

Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Brandywine Realty Trust Yes No

Brandywine Operating Partnership, L.P. Yes No

A total of 175,389,815 Common Shares of Beneficial Interest, par value \$0.01 per share of Brandywine Realty Trust, were outstanding as of July 21, 2017.

EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended June 30, 2017 of Brandywine Realty Trust (the “Parent Company”) and Brandywine Operating Partnership L.P. (the “Operating Partnership”). The Parent Company is a Maryland real estate investment trust, or REIT, that owns its assets and conducts its operations through the Operating Partnership, a Delaware limited partnership, and subsidiaries of the Operating Partnership. The Parent Company, the Operating Partnership and their consolidated subsidiaries are collectively referred to in this report as the “Company”. In addition, as used in this report, terms such as “we”, “us”, and “our” may refer to the Company, the Parent Company, or the Operating Partnership.

The Parent Company is the sole general partner of the Operating Partnership and, as of June 30, 2017, owned a 99.2% interest in the Operating Partnership. The remaining 0.8% interest consists of common units of limited partnership interest issued by the Operating Partnership to third parties in exchange for contributions of properties to the Operating Partnership. As the sole general partner of the Operating Partnership, the Parent Company has full and complete authority over the Operating Partnership’s day-to-day operations and management.

Management operates the Parent Company and the Operating Partnership as one enterprise. The management of the Parent Company consists of the same members as the management of the Operating Partnership.

As general partner with control of the Operating Partnership, the Parent Company consolidates the Operating Partnership for financial reporting purposes, and the Parent Company does not have significant assets other than its investment in the Operating Partnership. Therefore, the assets and liabilities of the Parent Company and the Operating Partnership are the same on their respective financial statements. The separate discussions of the Parent Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company’s operations on a consolidated basis and how management operates the Company.

The Company believes that combining the quarterly reports on Form 10-Q of the Parent Company and the Operating Partnership into a single report will result in the following benefits:

- facilitate a better understanding by the investors of the Parent Company and the Operating Partnership by enabling them to view the business as a whole in the same manner as management views and operates the business;
- remove duplicative disclosures and provide a more straightforward presentation in light of the fact that a substantial portion of the disclosure applies to both the Parent Company and the Operating Partnership; and
- create time and cost efficiencies through the preparation of one combined report instead of two separate reports.

There are few differences between the Parent Company and the Operating Partnership, which are reflected in the footnote disclosures in this report. The Company believes it is important to understand the differences between the Parent Company and the Operating Partnership in the context of how these entities operate as an interrelated consolidated company. The Parent Company is a REIT, whose only material asset is its ownership of partnership interests of the Operating Partnership. As a result, the Parent Company does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing equity from time to time and guaranteeing the debt obligations of the Operating Partnership. The Operating Partnership holds substantially all the assets of the Company and directly or indirectly holds the ownership interests in the Company’s Real Estate Ventures. The Operating Partnership conducts the operations of the Company’s business and is structured as a partnership with no publicly traded equity. Except for net proceeds from equity issuances by the Parent Company, which are contributed to the Operating Partnership in exchange for partnership units, the Operating Partnership generates the capital required by the Company’s business through the Operating Partnership’s operations, by the Operating Partnership’s incurrence of indebtedness (directly and through subsidiaries) and through the issuance of partnership units of the Operating Partnership or equity interests in subsidiaries of the Operating Partnership.

The equity and non-controlling interests in the Parent Company and the Operating Partnership’s equity are the main areas of difference between the consolidated financial statements of the Parent Company and the Operating

Partnership. The common units of limited partnership interest in the Operating Partnership are accounted for as partners' equity in the Operating Partnership's financial statements while the common units of limited partnership interests held by parties other than the Parent Company are presented as non-controlling interests in the Parent Company's financial statements. The differences between the Parent Company and the Operating Partnership's equity relate to the differences in the equity issued at the Parent Company and Operating Partnership levels.

2

To help investors understand the significant differences between the Parent Company and the Operating Partnership, this report presents the following as separate notes or sections for each of the Parent Company and the Operating Partnership:

• Consolidated Financial Statements; and

• Notes to the Parent Company's and Operating Partnership's Equity.

This report also includes separate Item 4. (Controls and Procedures) disclosures and separate Exhibit 31 and 32 certifications for each of the Parent Company and the Operating Partnership in order to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that the Parent Company and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, as amended, and 18 U.S.C. § 1350.

In order to highlight the differences between the Parent Company and the Operating Partnership, the separate sections in this report for the Parent Company and the Operating Partnership specifically refer to the Parent Company and the Operating Partnership. In the sections that combine disclosures of the Parent Company and the Operating Partnership, this report refers to such disclosures as those of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and real estate ventures and holds assets and incurs debt, reference to the Company is appropriate because the business is one enterprise and the Parent Company operates the business through the Operating Partnership.

BRANDYWINE REALTY TRUST AND BRANDYWINE OPERATING PARTNERSHIP, L.P.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2017

1. ORGANIZATION OF THE PARENT COMPANY AND THE OPERATING PARTNERSHIP

The Parent Company is a self-administered and self-managed real estate investment trust (“REIT”) that provides leasing, property management, development, redevelopment, acquisition and other tenant-related services for a portfolio of office, residential, retail and mixed-use properties. The Parent Company owns its assets and conducts its operations through the Operating Partnership and subsidiaries of the Operating Partnership. The Parent Company is the sole general partner of the Operating Partnership and, as of June 30, 2017, owned a 99.2% interest in the Operating Partnership. The Parent Company’s common shares of beneficial interest are publicly traded on the New York Stock Exchange under the ticker symbol “BDN”.

As of June 30, 2017, the Company owned 99 properties that contain an aggregate of approximately 16.4 million net rentable square feet and consist of 87 office properties, six mixed-use properties, one retail property (94 properties, collectively the “Core Properties”), two development properties and three redevelopment properties (collectively, the “Properties”). In addition, as of June 30, 2017, the Company owned economic interests in 13 unconsolidated real estate ventures (collectively, the “Real Estate Ventures”), seven of which own properties that contain an aggregate of approximately 8.1 million net rentable square feet of office space; four of which own, in aggregate, 5.7 acres of land held for development and two of which own residential towers that contain 345 and 321 apartment units, respectively. As of June 30, 2017, the Company also owned 278 acres of undeveloped land, of which 50 acres was held for sale, and held options to purchase approximately 60 additional acres of undeveloped land. As of June 30, 2017, the total potential development that these land parcels could support, including the parcels under option, under current zoning and entitlements, amounted to an estimated 11.2 million square feet, of which 0.4 million square feet relates to the 50 acres held for sale. The Properties and the properties owned by the Real Estate Ventures are located in or near Philadelphia, Pennsylvania; Metropolitan Washington, D.C.; Southern New Jersey; Wilmington, Delaware and Austin, Texas. In addition to managing properties owned by the Company, as of June 30, 2017, the Company was managing approximately 10.2 million net rentable square feet of office and industrial properties for third parties and Real Estate Ventures.

The Company conducts its third-party real estate management services business primarily through wholly-owned management company subsidiaries. As of June 30, 2017, the management company subsidiaries were managing properties containing an aggregate of approximately 26.6 million net rentable square feet, of which approximately 16.4 million net rentable square feet related to Properties owned by the Company and approximately 10.2 million net rentable square feet related to properties owned by third parties and Real Estate Ventures.

Unless otherwise indicated, all references in this Form 10-Q to square feet represent net rentable area.

2. BASIS OF PRESENTATION

Basis of Presentation

The consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") for interim financial statements. Certain information and footnote disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments (consisting solely of normal recurring matters) for a fair statement of the financial position of the Company as of June 30, 2017, the results of its operations for the three- and six-month periods ended June 30, 2017 and 2016 and its cash flows for the six-month periods ended June 30, 2017 and 2016 have been included. The results of operations for such interim periods are not necessarily indicative of the results for a full year. These consolidated financial statements should be read in conjunction with the Parent Company's and the Operating Partnership's consolidated financial statements and footnotes included in their combined 2016 Annual Report on Form 10-K filed with the SEC on March 1, 2017.

The Company's Annual Report on Form 10-K for the year ended December 31, 2016 contains a discussion of our significant accounting policies under Note 2, "Summary of Significant Accounting Policies". There have been no significant changes in our significant accounting policies since December 31, 2016. Management discusses our significant accounting policies and management's judgments and estimates with the Company's Audit Committee.

Out of Period Adjustment

The Company incorrectly recorded \$1.2 million of impairment charges during quarter ended December 31, 2016, which should have been recorded in the consolidated financial statements for the three-month period ended March 31, 2017 and the six-month period ended June 30, 2017. In addition, the Company incorrectly recorded \$1.9 million of depreciation expense relating to the write-off of tenant improvement assets, during the three-month period ended June 30, 2017, which should have been written-off during the period ended March 31, 2017. Management concluded that these misstatements were not material to any prior period, nor were they material to the consolidated financial statements as of and for the three- and six-month periods ended June 30, 2017.

Reclassifications

During the first quarter of 2017, the Company adopted ASU 2016-09, Improvements to Employee Share-Based Payment Accounting (“ASU 2016-09”), which requires the Company to reclassify employer tax payments on account of employee tax withholdings on share-based awards from operating activities to financing activities. Prior to the issuance of ASU 2016-09, there was no guidance on the classification of cash paid by an employer to the taxing authorities when directly withholding shares for tax withholding purposes. As a result of the adoption, a \$0.9 million cash outflow has been reclassified in the June 30, 2016 consolidated statements of cash flows from operating activities to financing activities. There was no other impact from the adoption of this guidance.

During the quarter ended December 31, 2016, the Company early adopted ASU 2016-15, “Classification of Certain Cash Receipts and Cash Payments” (“ASU 2016-15”), which clarifies that debt prepayment costs should be presented as financing activities in the statement of cash flows. As a result of the adoption, \$53.4 million was reclassified in the consolidated statements of cash flows from the operating activities section to the financing activities section of the consolidated statements of cash flows, within the “Repayment of mortgage notes payable” caption, for the six-months period ended June 30, 2016. There was no other impact from the adoption of this guidance.

Recent Accounting Pronouncements

In May 2017, the Financial Accounting Standards Board (the “FASB”) issued ASU No. 2017-09 (“ASU 2017-09”) to provide guidance to clarify when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the changes in terms or conditions. ASU 2017-09 is effective for all entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. Early adoption is permitted and application is prospective. The Company is in the process of evaluating the impact of this new guidance on its consolidated financial statements.

In February 2017, the FASB issued ASU No. 2017-05 (“ASU 2017-05”) to provide guidance for recognizing gains and losses from the transfer of nonfinancial assets and in-substance nonfinancial assets in contracts with non-customers, unless other specific guidance applies. The standard requires a company to derecognize nonfinancial assets once it transfers control of a distinct nonfinancial asset or distinct in substance nonfinancial asset. Additionally, when a company transfers its controlling interest in a nonfinancial asset, but retains a noncontrolling ownership interest, the company is required to measure any noncontrolling interest it receives or retains at fair value. The guidance requires companies to recognize a full gain or loss on the transaction. As a result of the new guidance, the guidance specific to real estate sales in ASC 360-20 will be eliminated. ASU 2017-05 is effective for annual periods beginning after December 15, 2017, including interim periods within that reporting period. The effective date of this guidance coincides with revenue recognition guidance. The Company expects to utilize the modified retrospective approach.

Under the modified retrospective approach, the Company is required to evaluate incomplete contracts as of December 31, 2017 to determine if the sale recognition of nonfinancial assets under ASU 2017-05 differs from ASC 360-20. The Company has identified three potential sale contracts that may not be considered completed contracts, as defined under ASU 2017-05 by December 31, 2017. Based on our initial assessment of these sale contracts, the revenue and remaining gain on sale for each of these property sales will be recognized when the Company fulfills its performance obligations under each contract. Accordingly, the derecognition of nonfinancial assets and revenue recognition patterns are not expected to change under ASU 2017-05 when compared to ASC 360-20.

In May 2016, the FASB issued guidance amending the revenue from contracts with customers standard issued in May 2014, which is not yet effective. The amendments are intended to address implementation issues that were raised by stakeholders and discussed by the Joint Transition Resource Group, and provide additional practical expedients on collectability, noncash consideration, presentation of sales tax and contract modifications and completed contracts at transition. In accordance with the FASB election to defer the effective date of the revenue recognition standard by one year, reporting entities may choose to adopt the standard as of its original effective date or for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. Calendar year-end reporting entities are therefore required to apply the new revenue guidance beginning in their 2018 interim and annual financial statements. The Company has evaluated the impact of this new guidance and has determined that the impact of the adoption of this guidance is not material to its financial results. In order to evaluate this standard the Company analyzed all of its revenue streams except for rental revenue because rental revenue recognition is not covered by revenue from contracts with customers. The results of the initial assessment are as follows:

18

- The Company analyzed its tenant reimbursement revenue and determined that the performance obligations set forth in the Company’s lease agreements will not change the revenue recognition pattern.
- The Company identified similar performance obligations under this standard as compared with deliverables and separate units of account previously identified for leasing commissions, management fees, parking revenue, hotel and restaurant revenues and other sundry revenues. As a result, the Company determined that the timing of its leasing commissions, management fees, parking revenue, hotel and restaurant revenues and other sundry revenues will remain the same.
- The Company determined that its revenue recognition pattern for development fee revenues will change under the revenue from contracts with customers standard. For all contracts that are not complete as of December 31, 2017, the Company will adopt the input method under the accounting standard. This methodology replaces the percentage of completion method under the current revenue recognition accounting guidance. Although the accounting under the input method is similar to the percentage of completion method, variable income components are evaluated differently under revenue with contracts from customers when compared to the current revenue recognition standard. Additionally, the Company currently recognizes development fee revenue related to its development services provided for certain third party customers under the completed contract method of accounting. This concept is no longer relevant under the new standard because the Company can measure the inputs that are included in the construction services provided to third party customers and will recognize development fee revenue over time rather than at a point in time. The Company is currently analyzing all of the contracts that will not be complete as of December 31, 2017 and expects the restatement of development fee revenues to be immaterial to its consolidated financial statements.
- Currently, the Company is evaluating the disclosure requirements in the guidance and has not determined the impact on the footnote disclosures to its consolidated financial statements.

3. REAL ESTATE INVESTMENTS

As of June 30, 2017 and December 31, 2016, the gross carrying value of the properties was as follows (in thousands):

	June 30, 2017	December 31, 2016
Land	\$462,743	\$ 469,522
Building and improvements	2,861,180	2,683,087
Tenant improvements	445,755	433,686
Operating properties	3,769,678	3,586,295
Assets held for sale - real estate investments (a)	-	73,591
Total	\$3,769,678	\$ 3,659,886

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

(a) Real estate investments related to assets held for sale above represents gross real estate assets and does not include accumulated depreciation, land held for development or other assets on the balance sheet of the property held for sale. See “Held for Sale” below in this Note 3.

Dispositions

The Company sold the following twelve office properties, one retail property and one mixed-use property during the six-month period ended June 30, 2017 (dollars in thousands):

Disposition Date	Property/Portfolio Name	Location	Type	Number of Properties	Rentable Square Feet	Sales Price	Net Proceeds on Sale	Gain/(Loss) on Sale (a)
June 27, 2017	Two, Four A, Four B and Five Eves Drive (Evesham Corporate Center)	Marlton, NJ	Office	4	134,794	\$9,700	\$8,650	\$(325) (b)
June 12, 2017	7000 Midlantic Drive	Mount Laurel, NJ	Retail	1	10,784	8,150	7,714	1,413
March 30, 2017	200, 210 & 220 Lake Drive East (Woodland Falls)	Cherry Hill, NJ	Office	3	215,465	19,000	17,771	(249) (c)
March 15, 2017	Philadelphia Marine Center (Marine Piers)	Philadelphia, PA	Mixed-use	1	181,900	21,400	11,182	6,498 (d)
March 13, 2017	11700, 11710, 11720 & 11740 Beltsville Drive (Calverton)	Beltsville, MD	Office	3	313,810	9,000	8,354	- (e)
February 2, 2017	1200 & 1220 Concord Avenue (Concord Airport Plaza)	Concord, CA	Office	2	350,256	33,100	32,010	551 (f)
Total Dispositions				14	1,207,009	\$100,350	\$85,681	\$7,888

(a) Gain/(Loss) on Sale is net of closing and other transaction related costs.

(b) During the first quarter of 2017, the Company recognized a \$1.0 million impairment related to these properties. The loss on sale represents closing costs.

(c) During the fourth quarter of 2016, the Company recognized a \$7.3 million impairment related to these properties. The loss on sale represents closing costs.

(d) On March 15, 2017, the Company sold its sublease interest in the Piers at Penn’s Landing (the “Marine Piers”), which includes leasehold improvements containing 181,900 net rentable square feet, and a marina, located in Philadelphia, Pennsylvania for an aggregate sales price of \$21.4 million, which will be paid in two installments. On the closing date, the buyer paid \$12.0 million in cash. On the second purchase price installment date, the buyer will pay \$9.4 million. The second purchase price installment is due on (a) January 31, 2020, in the event that the tenant at the Marine Piers does not exercise its existing option to extend the term of the sublease or (b) January 15, 2024, in the event that the tenant does exercise its current extension option to extend the term of the sublease. In accordance with ASC 360-20, Real Estate Sales, the Company determined that it is appropriate to account for the sales transaction under the cost recovery method. The Company received cash proceeds of \$11.2 million, after closing costs and prorations, and the net book value of the Marine Piers was \$4.7 million, resulting in a gain on sale of \$6.5 million. The remaining gain on sale of \$9.4 million will be recognized on the second purchase price

installment date.

- (e) During the fourth quarter of 2016, the Company recognized a \$3.0 million impairment related to these properties. During the first quarter of 2017, there was a price reduction of \$1.7 million under the agreement of sale and an additional impairment of \$1.7 million was recognized.
- (f) This sale is designated as a like-kind exchange under Section 1031 of the Internal Revenue Code (“IRC”) and, as such, the proceeds, totaling \$32.0 million after closing costs and prorations, were deposited with a Qualified Intermediary, as defined under the IRC. The proceeds received at closing were recorded as “Other assets” in the Company’s consolidated balance sheet. During the fourth quarter of 2016, the Company recognized an \$11.5 million impairment related to these properties.

In addition to the amounts in the table above, the Company recorded \$0.5 million gain during the first quarter of 2017 from the receipt of additional cash from the disposition of Cira Square during 2016. For further information relating to this sale, see Note 3, “Real Estate Investments,” in the notes to the audited financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

The Company sold the following land parcels during the six-month period ended June 30, 2017 (dollars in thousands):

20

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

Disposition Date	Property/Portfolio Name	Location	Number of Parcels	Acres	Sales Price	Net Proceeds on Sale	Gain on Sale
April 28, 2017	Garza Ranch - Multi-family	Austin, TX	1	8.4	\$11,800	\$11,560	\$ - (a)
February 15, 2017	Gateway Land - Site C	Richmond, VA	1	4.8	1,100	1,043	- (b)
January 30, 2017	Garza Ranch - Hotel	Austin, TX	1	1.7	3,500	3,277	- (a)
Total Dispositions			3	14.9	\$16,400	\$15,880	\$ -

(a) The Company has a continuing involvement through a completion guaranty, which requires the Company as developer to complete certain infrastructure improvements on behalf of the buyers of the land parcels. The cash received at settlement was recorded as “Deferred income, gains and rent” on the Company’s consolidated balance sheet and the Company will recognize the sale once the infrastructure improvements are complete. See Item 2., “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Contractual Obligations” for further discussion of the infrastructure improvements.

(b) During the fourth quarter of 2016, the Company recognized a nominal impairment related to this land parcel. Held for Sale

As of June 30, 2017, the Company had land held for development, consisting of a 50-acre parcel of land located in the Company’s Other segment, classified as held for sale but which did not meet the criteria to be classified within discontinued operations. Accordingly, as of June 30, 2017, \$5.6 million was reclassified from ‘Land held for development’ to ‘Assets held for sale, net’ on the consolidated balance sheets. There were no other reclassifications related to this parcel of land.

As the fair value less anticipated costs to sell was less than the carrying value for the land parcel, the Company recorded an impairment of \$0.3 million at June 30, 2017. See “Land Impairment” below in this Note 3.

As of December 31, 2016, the Company classified three office properties in its Metropolitan Washington, D.C. segment, two office properties in its Other segment and a five-acre parcel of land in its Other segment as held for sale. As of December 31, 2016, \$40.7 million and \$1.0 million was reclassified from ‘Operating real estate investments, net’ and ‘Land held for development’, respectively, to ‘Assets held for sale, net’ on the consolidated balance sheets; an immaterial amount was reclassified from ‘Other liabilities’ to ‘Liabilities related to assets held for sale’.

Land Impairment

As of June 30, 2017, the Company determined that it would not recover the carrying value, less cost of sale, of one land parcel, consisting of 50 acres that was classified as held for sale as of June 30, 2017. Accordingly, the Company recorded an impairment charge of \$0.3 million at June 30, 2017, reducing the aggregate carrying value of the land parcel from \$5.9 million to its estimated fair value of \$5.6 million. The fair value measurement is based on pricing in the purchase and sale agreement for the property. As the pricing in the purchase and sale agreement is unobservable, the Company determined that the input utilized to determine fair value for the property falls within Level 3 in accordance with the fair value hierarchy established by Accounting Standards Codification (ASC) Topic 820, "Fair Value Measurements and Disclosures".

Held for Use Impairment

As of June 30, 2017, the Company evaluated the recoverability of the carrying value of its properties that triggered assessment. Based on the analysis, no impairment charges were identified.

As of March 31, 2017, the Company evaluated the recoverability of the carrying value of its properties that triggered assessment under the undiscounted cash flow model. Based on the Company's evaluation, it was determined that due to the reduction in the Company's intended hold period of four properties located in the Other segment, the Company would not recover the carrying values of these properties. Accordingly, the Company recorded impairment charges on these properties of \$1.0 million at March 31, 2017, reducing the aggregate carrying values of the properties from \$10.2 million to their estimated fair value of \$9.2 million. The Company measured these impairments based on a discounted cash flow analysis, using a hold period of 10 years and residual capitalization rates and discount rates of 9.00% and 9.25%, respectively. The results were comparable to indicative pricing in the market. The assumptions used to determine fair value under the income approach are Level 3 inputs in accordance with the fair value hierarchy established by Accounting Standards Codification (ASC) Topic 820, "Fair Value Measurements and Disclosures."

During the three and six-month periods ended June 30, 2016, the Company recognized provisions for impairment of \$5.7 million \$13.1 million, respectively. For further information relating to these impairments, see Note 3, "Real Estate Investments," in the notes to the audited financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

The sales of properties, land and the land parcel held for sale do not represent a strategic shift that has a major effect on the Company's operations and financial results. Accordingly, the operating results of these properties remain classified within continuing operations for all periods presented.

4. INVESTMENT IN UNCONSOLIDATED REAL ESTATE VENTURES

As of June 30, 2017, the Company held ownership interests in 13 unconsolidated Real Estate Ventures for an aggregate investment balance of \$262.1 million. The Company formed or acquired interests in these Real Estate Ventures with unaffiliated third parties to develop or manage office, residential, and/or mixed-use properties or to acquire land in anticipation of possible development of office, residential and/or mixed-use properties. As of June 30, 2017, seven of the real estate ventures owned properties that contain an aggregate of approximately 8.1 million net rentable square feet of office space; four real estate ventures owned 5.7 acres of land held for development and two real estate ventures owned residential towers that contain 345 and 321 apartment units, respectively.

The Company accounts for its unconsolidated interests in the Real Estate Ventures using the equity method. The Company's unconsolidated interests range from 20% to 70%, subject to specified priority allocations of distributable cash in certain of the Real Estate Ventures.

The Company earned management fees from its Real Estate Ventures of \$1.6 million and \$3.2 million for the three- and six-month periods ended June 30, 2017, respectively, and \$1.6 million and \$3.1 million for the three- and six-month periods ended June 30, 2016, respectively.

The Company earned leasing commission income from its Real Estate Ventures of \$1.5 million and \$2.8 million for the three- and six-month periods ended June 30, 2017, respectively, and \$0.5 million and \$1.3 million for the three- and six-month periods ended June 30, 2016, respectively.

The Company has outstanding accounts receivable balances from its Real Estate Ventures of \$2.0 million and \$1.4 million as of June 30, 2017 and December 31, 2016, respectively.

The amounts reflected in the following tables (except for the Company's share of equity and income) are based on the financial information of the individual Real Estate Ventures. The Company does not record operating losses of a Real Estate Venture in excess of

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

its investment balance unless the Company is liable for the obligations of the Real Estate Venture or is otherwise committed to provide financial support to the Real Estate Venture.

The following is a summary of the financial position of the Real Estate Ventures in which the Company held interests as of June 30, 2017 and December 31, 2016 (in thousands):

	June 30, 2017	December 31, 2016
Net property	\$1,405,573	\$1,483,067
Other assets	216,142	231,972
Other liabilities	114,829	129,486
Debt, net	946,057	989,738
Equity	560,829	595,815
Company's share of equity (Company's basis) (a)	\$262,107	\$281,331

(a) This amount includes the effect of the basis difference between the Company's historical cost basis and the basis recorded at the Real Estate Venture level, which is typically amortized over the life of the related assets and liabilities. Basis differentials occur from the impairment of investments, purchases of third party interests in existing Real Estate Ventures and upon the transfer of assets that were previously owned by the Company into a Real Estate Venture. In addition, certain acquisition, transaction and other costs may not be reflected in the net assets at the Real Estate Venture level.

The following is a summary of results of operations of the Real Estate Ventures in which the Company held interests during the three- and six-month periods ended June 30, 2017 and 2016 (in thousands):

	Three-month periods ended June 30,		Six-month periods ended June 30,	
	2017	2016	2017	2016
Revenue	\$58,819	\$53,406	\$113,098	\$99,931
Operating expenses	(25,172)	(27,088)	(50,338)	(53,755)
Interest expense, net	(11,272)	(10,928)	(22,101)	(19,917)
Depreciation and amortization	(20,371)	(20,242)	(41,133)	(40,403)
Net income (loss) (a)	\$2,004	\$(4,852)	\$(474)	\$(14,144)
Equity in income (loss) of Real Estate Ventures	\$1,084	\$(1,666)	\$336	\$(2,069)

(a) The six-month period ended June 30, 2016 amount includes \$7.1 million of acquisition deal costs related to the formation of the MAP Venture.

The Parc at Plymouth Meeting Venture

On January 31, 2017, the Company sold its 50% interest in TB-BDN Plymouth Apartments, L.P., a 50/50 real estate venture with Toll Brothers, at a gross sales value of \$100.5 million, of which the Company was allocated 50% for its interest. The venture developed and operated a 398-unit multi-family complex in Plymouth Meeting, Pennsylvania encumbered by a \$54.0 million construction loan. The construction loan was repaid commensurate with the sale of the Company's 50% interest. As a result, the Company is no longer subject to a \$3.2 million payment guarantee on the construction loan. The cash proceeds, after the payment of the Company's share of the debt and closing costs, were \$27.2 million. The carrying amount of the Company's investment at the time of sale was \$12.6 million, resulting in a \$14.6 million gain on sale of interest in the real estate venture.

Guarantees

As of June 30, 2017, the Company's unconsolidated real estate ventures had aggregate indebtedness to third parties of \$952.7 million. These loans are generally mortgage or construction loans, most of which are non-recourse to the Company. As of June 30, 2017, the loans for which there is recourse to the Company consist of the following: (i) a \$55.4 million payment guaranty on the term loan for evo at Cira Centre South; (ii) a joint and several cost overrun guaranty on the \$88.9 million construction loan for the development project undertaken by 1919 Market Street LP; and (iii) a \$0.4 million payment guarantee on a loan provided to PJP VII. In addition, during construction undertaken by real estate ventures, the Company has provided and expects to continue to provide cost overrun and completion guarantees, with rights of contribution among partners or members in the real estate ventures, as well as customary environmental indemnities and guarantees of customary exceptions to nonrecourse provisions in loan agreements. For additional information regarding these real estate ventures, including their indebtedness, see Note 4, "Investment in Unconsolidated Real Estate Ventures," in the notes to the audited financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

5. INTANGIBLE ASSETS AND LIABILITIES

As of June 30, 2017 and December 31, 2016, the Company's intangible assets/liabilities were comprised of the following (in thousands):

	June 30, 2017		Intangible
	Total	Accumulated	Assets,
	Cost	Amortization	net
Intangible assets, net:			
In-place lease value	\$99,338	\$ (44,364)	\$ 54,974

Total unsecured indebtedness	\$ 1,592,767	\$ 1,691,563		
Total Debt Obligations	\$ 1,912,172	\$ 2,013,112		

(a) This loan was assumed upon acquisition of the related properties on December 19, 2013. On December 29, 2015, the Company refinanced the debt increasing the principal balance to \$130.0 million and extended the scheduled maturity date from January 6, 2016 to April 5, 2023. The effective interest rate as of December 31, 2015 was 3.64%. A default under this loan will also constitute a default under the loan secured by Two Commerce Square. This loan is also secured by a lien on Two Commerce Square.

- (b) This loan was assumed upon acquisition of the related property on December 19, 2013. The interest rate reflects the market rate at the time of acquisition. A default under this loan will also constitute a default under the loan secured by One Commerce Square. This loan is also secured by a lien on One Commerce Square.
- (c) On May 1, 2017, the entire principal balance of the unsecured 5.70% Guaranteed Notes was repaid upon maturity. Available cash balances and the Credit Facility (see below) were used to fund the repayment of the unsecured notes.

As of June 30, 2017 and December 31, 2016, the Company's weighted-average effective interest rates on its mortgage notes payable were both 4.03%.

The Company utilizes its four-year unsecured revolving credit facility (the "Credit Facility") borrowings for general business purposes, including acquisition, development and redevelopment properties and the repayment of other debt. The Credit Facility provides for borrowings of up to \$600.0 million and the per annum variable interest rate on the outstanding balances is LIBOR plus 1.20%. The interest rate and facility fee are subject to adjustment upon a change in the Company's unsecured debt ratings. As of June 30, 2017, the Company had \$200.0 million of borrowings and \$12.4 million in letters of credit outstanding, leaving \$387.6 million of unused availability under the Credit Facility. During the six months ended June 30, 2017, the weighted-average interest rate on Credit Facility borrowings was 2.30%. As of June 30, 2017, the effective interest rate on Credit Facility borrowings was 2.37%. As of and during the six-month period ended June 30, 2016, the Company had no borrowings under the Credit Facility.

The Parent Company unconditionally guarantees the unsecured debt obligations of the Operating Partnership (or is a co-borrower with the Operating Partnership) but does not by itself incur unsecured indebtedness. The Parent Company has no material assets other than its investment in the Operating Partnership.

The Company was in compliance with all financial covenants as of June 30, 2017. Management continuously monitors the Company's compliance with and anticipated compliance with the covenants. Certain of the covenants restrict the Company's ability to obtain alternative sources of capital. While the Company currently believes it will remain in compliance with its covenants, in the event that the economy deteriorates in the future, the Company may not be able to remain in compliance with such covenants, in which case a default would result absent a lender waiver.

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial assets and liabilities recorded on the consolidated balance sheets are categorized based on the inputs to the valuation techniques as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access;

Level 2 inputs are inputs, other than quoted prices included in Level 1, which are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals; and

Level 3 inputs are unobservable inputs for the asset or liability, which is typically based on an entity's own assumptions, as there is little, if any, related market activity or information.

The Company determined the fair values disclosed below using available market information and discounted cash flow analyses as of June 30, 2017 and December 31, 2016, respectively. The discount rate used in calculating fair value is the sum of the current risk free rate and the risk premium on the date of measurement of the instruments or obligations. Considerable judgment is necessary to interpret market data and to develop the related estimates of fair value. Accordingly, the estimates presented are not necessarily indicative of the amounts that the Company could

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

realize upon disposition. The use of different estimates and valuation methodologies may have a material effect on the fair value amounts shown. The Company believes that the carrying amounts reflected in the consolidated balance sheets at June 30, 2017 and December 31, 2016 approximate the fair values for cash and cash equivalents, accounts receivable, other assets (except for the note receivable disclosed below), accounts payable and accrued expenses. The following are financial instruments for which the Company's estimates of fair value differ from the carrying amounts (in thousands):

	June 30, 2017		December 31, 2016	
	Carrying Amount (a)	Fair Value	Carrying Amount (a)	Fair Value
Unsecured notes payable	\$1,065,894	\$1,089,765	\$1,364,854	\$1,372,758
Variable rate debt	\$526,873	\$508,284	\$326,709	\$307,510
Mortgage notes payable	\$319,405	\$316,204	\$321,549	\$328,853
Note receivable (b)	\$3,349	\$3,872	\$3,380	\$3,717

- (a) In April 2015, the FASB issued guidance requiring that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct reduction from the carrying amount of the corresponding debt liability, consistent with debt discounts. As a result, the carrying amounts presented in the table above are net of deferred financing costs of \$4.9 million and \$5.5 million for unsecured notes payable, \$1.7 million and \$1.9 million for variable rate debt and \$0.6 million and \$0.7 million for mortgage notes payable as of June 30, 2017 and December 31, 2016, respectively.
- (b) The inputs to originate the note receivable are unobservable and, as a result, are categorized as Level 3. The Company determined fair value by calculating the present value of the cash payments to be received through the maturity date of the loan. See Note 2, "Summary of Significant Accounting Policies," to the Company's 2016 Annual Report on Form 10-K for the year ended December 31, 2016 for further information regarding the note origination.

The inputs utilized to determine the fair value of the Company's unsecured notes payable are categorized as Level 2. This is because the Company valued these instruments using quoted market prices as of June 30, 2017 and December 31, 2016. For the fair value of the Company's unsecured notes, the Company uses a discount rate based on the indicative new issue pricing provided by lenders.

The inputs utilized to determine the fair value of the Company's mortgage notes payable and variable rate debt are categorized as Level 3. The fair value of the variable rate debt was estimated using a discounted cash flow analysis valuation on the borrowing rates currently available to the Company for loans with similar terms and maturities, as applicable. The fair value of the mortgage debt was determined by discounting the future contractual interest and principal payments by a blended market rate for loans with similar terms, maturities and loan-to-value. These inputs have been categorized as Level 3 because the Company considers the rates used in the valuation techniques to be unobservable inputs.

For the Company's mortgage loans, the Company uses an estimate based discounted cash flow analyses and its knowledge of the mortgage market. The weighted average discount rate for the combined variable rate debt and mortgage loans used to calculate fair value as of June 30, 2017 and December 31, 2016 was 4.075% and 4.353%, respectively. An increase in the discount rate used in the discounted cash flow model would result in a decrease to the fair value of the Company's long-term debt. Conversely, a decrease in the discount rate used in the discounted cash flow model would result in an increase to the fair value of the Company's long-term debt.

Disclosure about the fair value of financial instruments is based upon pertinent information available to management as of June 30, 2017 and December 31, 2016. Although management is not aware of any factors that would significantly affect the fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since June 30, 2017, and current estimates of fair value may differ from the amounts presented herein.

8. LIMITED PARTNERS' NON-CONTROLLING INTERESTS IN THE PARENT COMPANY

Non-controlling interests in the Parent Company's financial statements relate to redeemable common limited partnership interests in the Operating Partnership held by parties other than the Parent Company and properties which are consolidated but not wholly owned.

Operating Partnership

The aggregate book value of the non-controlling interests associated with the redeemable common limited partnership interests in the accompanying consolidated balance sheet of the Parent Company was \$14.7 million and \$14.9 million as of June 30, 2017 and December 31, 2016, respectively. Under the applicable accounting guidance, the redemption value of limited partnership units are carried at, on a limited partner basis, the greater of historical cost adjusted for the

allocation of income and distributions or fair value. The Parent Company believes that the aggregate settlement value of these interests based on the number of units outstanding and the closing price of the common shares on the balance sheet dates as of June 30, 2017 and December 31, 2016 was approximately \$25.9 million and \$24.4 million, respectively.

9. FAIR VALUE OF DERIVATIVE FINANCIAL INSTRUMENTS

The following table summarizes the terms and fair values of the Company's derivative financial instruments as of June 30, 2017 and December 31, 2016. The notional amounts provide an indication of the extent of the Company's involvement in these instruments at that time, but do not represent exposure to credit, interest rate or market risks (amounts presented in thousands and included in other assets and other liabilities on the Company's consolidated balance sheets).

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

Hedge Product	Hedge Type	Designation	Notional Amount		Strike	Trade Date	Maturity Date	Fair value	
			6/30/2017	12/31/2016				6/30/2017	12/31/2016
Assets									
Swap	Interest Rate	Cash Flow	(a) \$250,000	\$ 250,000	3.718%	October 8, 2015	October 8, 2022	\$3,233	\$ 3,733
Liabilities									
Swap	Interest Rate	Cash Flow	(a) 25,774	25,774	3.300%	December 22, 2011	January 30, 2021	(287)	(300)
Swap	Interest Rate	Cash Flow	(a) 25,774	25,774	3.090%	January 6, 2012	October 30, 2019	(154)	(214)
Swap	Interest Rate	Cash Flow	(a) 27,062	27,062	2.750%	December 21, 2011	September 30, 2017	(14)	(83)
			\$328,610	\$ 328,610					

(a) Hedging unsecured variable rate debt.

The Company measures its derivative instruments at fair value and records them gross in the consolidated balance sheet in other assets or other liabilities. Additionally, the Company recorded its share of the fair value of derivative financial instruments held by its unconsolidated real estate ventures, as of June 30, 2017.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

10. BENEFICIARIES' EQUITY OF THE PARENT COMPANY

Earnings per Share (EPS)

The following tables detail the number of shares and net income used to calculate basic and diluted earnings per share (in thousands, except share and per share amounts; results may not add due to rounding):

	Three-month periods ended June 30,

Redeemable common limited partnership units totaling 1,479,799 at both June 30, 2017 and June 30, 2016, were excluded from the diluted earnings per share computations because they are not dilutive.

Unvested restricted shares are considered participating securities which require the use of the two-class method for the computation of basic and diluted earnings per share. For the three- and six-month periods ended June 30, 2017 and 2016, earnings representing nonforfeitable dividends as noted in the table above were allocated to the unvested restricted shares issued to the Company's executives and other employees under the Company's shareholder-approved long-term incentive plan.

Common and Preferred Shares

On May 18, 2017, the Parent Company declared a distribution of \$0.16 per common share, totaling \$28.4 million, which was paid on July 21, 2017 to shareholders of record as of July 7, 2017.

On April 11, 2017, the Parent Company redeemed all of its outstanding 4,000,000 Series E Preferred Shares at an aggregate redemption price of \$25.51 per share, which includes \$2.0 million of dividends accrued through the redemption date. The redemption was funded with existing cash balances on hand.

Also on April 11, 2017, the Parent Company recognized a \$3.2 million charge related to the underwriting discount and related expenses incurred at issuance of the Series E Preferred Shares on April 11, 2012. This charge is included in the earnings per share calculations above, as well as within the Parent Company's consolidated income statements as a reduction in net income to arrive at net income attributable to common shareholders under the caption "Preferred share redemption charge." There were no comparable charges for the prior year.

11. PARTNERS' EQUITY OF THE OPERATING PARTNERSHIP

Earnings per Common Partnership Unit

The following tables detail the number of units and net income used to calculate basic and diluted earnings per common partnership unit (in thousands, except unit and per unit amounts; results may not add due to rounding):

	Three-month periods ended June 30,			
	2017 Basic	Diluted	2016 Basic	Diluted

Total weighted-average units outstanding	176,735,363	177,960,179	176,432,877	177,355,730
Earnings per Common Partnership Unit:				
Net income attributable to common unitholders	\$0.13	\$0.13	\$0.23	\$0.23

Unvested restricted units are considered participating securities which require the use of the two-class method for the computation of basic and diluted earnings per share. For the three- and six-month periods ended June 30, 2017 and 2016, earnings representing nonforfeitable dividends as noted in the table above were allocated to the unvested restricted units issued to the Parent Company in connection with awards to the Parent Company's executives and other

employees under the Parent Company's shareholder-approved long-term incentive plan.

Common Partnership Units and Preferred Mirror Units

On May 18, 2017, the Operating Partnership declared a distribution of \$0.16 per common partnership unit, totaling \$28.4 million, which was paid on July 21, 2017 to unitholders of record as of July 7, 2017.

On April 11, 2017, the Operating Partnership redeemed all of its outstanding 4,000,000 Series E-Linked Preferred Mirror Units at an aggregate redemption price of \$25.51 per unit, which includes \$2.0 million of dividends accrued through the redemption date. The redemption of preferred units was funded with existing cash balances on hand.

Also on April 11, 2017, the Operating Partnership recognized a \$3.2 million charge related to the underwriting discount and related expenses incurred at issuance of the Series E-Linked Preferred Mirror Units on April 11, 2012. This charge is included in the earnings per share calculations above, as well as within the Operating Partnership's consolidated income statements as a reduction in net income to arrive at net income attributable to common partnership unitholders under the caption "Preferred unit redemption charge." There were no comparable charges for the prior year.

12. SEGMENT INFORMATION

As of June 30, 2017, the Company owns and manages properties within five segments: (1) Philadelphia Central Business District (CBD), (2) Pennsylvania Suburbs, (3) Metropolitan Washington, D.C., (4) Austin, Texas and (5) Other. The Philadelphia CBD segment includes properties located in the City of Philadelphia in Pennsylvania. The Pennsylvania Suburbs segment includes properties in Chester, Delaware, and Montgomery counties in the Philadelphia suburbs. The Metropolitan Washington, D.C. segment includes properties in the District of Columbia, Northern Virginia and southern Maryland. The Austin, Texas segment includes properties in the City of Austin, Texas. The Other segment includes properties located in Camden county in New Jersey and properties in New Castle county in Delaware. On February 2, 2017, the Company sold its last two remaining properties located in California, which were previously included in the Other segment. See Note 3, "Real Estate Investments," for further information. In addition to the five segments, the corporate group is responsible for cash and investment management, development of certain real estate properties during the construction period, and certain other general support functions. Land held for development and construction in progress are transferred to operating properties by region upon completion of the associated construction or project.

The following tables provide selected asset information and results of operations of the Company's reportable segments (in thousands):

Real estate investments, at cost:	June 30, 2017	December 31, 2016
Philadelphia CBD	\$1,536,488	\$ 1,320,974
Pennsylvania Suburbs	1,024,252	1,005,446

(a) The MAP Venture represents a joint venture formed between the Company and MAP Ground Lease Holdings LLC, an affiliate of Och-Ziff Capital Management Group, LLC, on February 4, 2016. The MAP Venture’s business operations, including properties in Richmond, Virginia; Metropolitan Washington, D.C.; New Jersey/Delaware and Pennsylvania Suburbs, are centrally managed with the results reported to management of the Company on a consolidated basis. As a result, the investment in the MAP Venture is separately presented. All other unconsolidated real estate ventures are managed consistently with the Company’s regional segments.

Net operating income (“NOI”) is a non-GAAP financial measure defined as total revenue less property operating expenses, real estate taxes and third party management expenses. Property operating expenses that are included in determining NOI consist of costs that are necessary and allocable to our operating properties such as utilities, property-level salaries, repairs and maintenance, property insurance, management fees and bad debt expense. General and administrative expenses that are not reflected in NOI primarily consist of

corporate-level salaries, amortization of share awards and professional fees that are incurred as part of corporate office management. All companies may not calculate NOI in the same manner. NOI is the measure that is used by the Company to evaluate the operating performance of its real estate assets by segment. The Company believes NOI provides useful information to investors regarding the financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level. While NOI is a relevant and widely used measure of operating performance of real estate investment trusts, it does not represent cash flow from operations or net income as defined by GAAP and should not be considered as an alternative to those measures in evaluating our liquidity or operating performance. NOI does not reflect interest expenses, real estate impairment losses, depreciation and amortization costs, capital expenditures and leasing costs. The Company believes that net income (loss), as defined by GAAP, is the most appropriate earnings measure. The following is a reconciliation of consolidated net income (loss), as defined by GAAP, to consolidated NOI, (in thousands):

	Three-month periods ended June 30,		Six-month periods ended June 30,	
	2017	2016	2017	2016

Consolidated net operating income	\$77,173	\$76,960	\$157,012	\$158,687

13. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is involved from time to time in litigation on various matters, including disputes with tenants, vendors and disputes arising out of agreements to purchase or sell properties. Given the nature of the Company's business activities, these lawsuits are considered routine to the conduct of its business. The result of any particular lawsuit cannot be predicted, because of the very nature of litigation, the litigation process and its adversarial nature, and the jury system. The Company will establish reserves for specific legal proceedings when it determines that the likelihood of an unfavorable outcome is probable and when the amount of loss is reasonably estimable. The Company does not expect that the liabilities, if any, that may ultimately result from such legal actions will have a material adverse effect on the consolidated financial position, results of operations or cash flows of the Company.

Letters-of-Credit

Under certain mortgages, including mortgages held by Real Estate Ventures, the Company may be required to fund required leasing and capital reserve accounts for the benefit of the mortgage lenders with a letter-of-credit. As of June 30, 2017, there is an associated \$10.0 million letter of credit for a mortgage lender. Certain of the tenant rents at properties that secure these mortgage loans are deposited into the loan servicer's depository accounts, which are used to fund debt service, operating expenses, capital expenditures and the escrow and reserve accounts, as necessary. Any excess cash is included in cash and cash equivalents.

Environmental

As an owner of real estate, the Company is subject to various environmental laws of federal, state, and local governments. The Company's compliance with existing laws has not had a material adverse effect on its financial condition and results of operations, and the Company does not believe it will have a material adverse effect in the future. However, the Company cannot predict the impact of unforeseen environmental contingencies or new or changed laws or regulations on its current Properties or on properties that the Company may acquire.

Ground Rent

Future minimum rental payments by the Company under the terms of all non-cancelable ground leases of land on which properties in the Company's consolidated portfolio are situated are expensed on a straight-line basis regardless of when payments are due. The Company's ground leases have remaining lease terms ranging from 12 to 72 years. Minimum future rental payments on non-cancelable leases at June 30, 2017 are as follows (in thousands):

Year	Minimum Rent
2017 (six months remaining)	\$ 605
2018	1,210
2019	1,210
2020	1,210
2021	1,210
Thereafter	57,524
Total	\$ 62,969

The Company obtained ground tenancy rights related to three properties in Philadelphia, Pennsylvania, which provide for contingent rent participation by the lessor in certain capital transactions and net operating cash flows of the properties after certain returns are achieved by the Company. Such amounts, if any, will be reflected as contingent rent when incurred. The leases also provide for payment by the Company of certain operating costs relating to the land, primarily real estate taxes. The above schedule of future minimum rental payments does not include any contingent rent amounts or any reimbursed expenses. Reference is made in our Annual Report on Form 10-K for the year ended December 31, 2016 for further detail regarding commitments and contingencies.

Put Agreement

On May 4, 2015, the Company entered into a put agreement in the ordinary course of business that grants an unaffiliated third party the unilateral option to require the Company to purchase a property, at a predetermined price, until May 4, 2018. In addition to the \$35.0 million purchase price, the Company would be responsible for transaction and closing costs. There can be no assurance that the counterparty will exercise the option.

Fair Value of Contingent Consideration

On April 2, 2015, the Company purchased 618 Market Street in Philadelphia, Pennsylvania. The allocated purchase price included contingent consideration of \$2.0 million payable to the seller upon commencement of development. The liability was initially recorded at fair value of \$1.6 million and will accrete through interest expense to \$2.0 million over the expected period until development is commenced. The fair value of this contingent consideration was determined using a probability weighted discounted cash flow model. The significant inputs to the discounted cash flow model were the discount rate and weighted probability scenarios. As the inputs are unobservable, the Company determined the inputs used to value this liability fall within Level 3 for fair value reporting. As of June 30, 2017, the liability had accreted to \$1.8 million. As there were no significant changes to the inputs, the liability remains within Level 3 for fair value reporting.

Debt Guarantees

As of June 30, 2017, the Company's unconsolidated real estate ventures had aggregate indebtedness to third parties of \$952.7 million. These loans are generally mortgage or construction loans, most of which are non-recourse to the Company. In addition, in certain instances, the Company provides non-recourse carve-out guarantees on these non-recourse loans. As of June 30, 2017, the loans for which there is recourse to the Company consists of the

following: (i) a \$55.4 million payment guaranty on the term loan for evo at Cira Centre South; (ii) a joint and several cost overrun guaranty on the \$88.9 million construction loan for the development project undertaken by 1919 Market Street LP; and (iii) a \$0.4 million payment guarantee on a loan provided to PJP VII. See Note 4, "Investment in Unconsolidated Real Estate Ventures," in the notes to the consolidated financial statements above for more information.

Other Commitments or Contingencies

On February 2, 2017, the Company disposed of two properties, known as Concord Airport Plaza, consisting of 350,256 rentable square feet, located in Concord, California. As part of the Company's 2006 merger with Prentiss Properties Trust, the Company agreed not to sell Concord Airport Plaza in a taxable transaction until March 2018. In accordance with the agreement, the Company designated the disposition of the Concord Airport Plaza as a tax free exchange under Section 1031 of the Internal Revenue Code ("1031 Exchange"). As of June 30, 2017, the Company has identified replacement properties in a 1031 Exchange transaction and is required to acquire the

property on or before August 1, 2017. If the Company does not acquire a property by August 1, 2017, it will be required to make a payment of \$13.5 million to satisfy tax liabilities attributable to the sale of Concord Airport Plaza. The acquisition has not occurred prior to the filing date of this Form 10-Q. The Company has not recorded a loss contingency because there are no contingencies prohibiting it from acquiring the replacement property. With the information available to the Company prior to the issuance of its financial statements, management has determined that it is not probable a tax liability will be incurred.

On July 1, 2016, the Company closed on the acquisition of 34.6 acres of land located in Austin, Texas known as the Garza Ranch. As of June 30, 2017, the Company sold two parcels containing 8.4 acres and 1.7 acres (of the 34.6 acres) to two unaffiliated third parties. In connection with the agreements of sale, the Company entered into a development agreement and related completion guarantee to construct certain infrastructure improvements to the land on behalf of each buyer, estimated to cost \$14.3 million. Total estimated costs related to the improvements are included in the sale price of each land parcel. Recognition of the sale of the land parcels is deferred until the improvements are completed. As of June 30, 2017, the costs incurred to complete the infrastructure improvements are not in excess of the fixed sale price included in each sale contract. Accordingly, there are no indicators of impairment.

On December 3, 2015, the Company entered into an agreement as development manager to construct Subaru of America's ("Subaru") corporate headquarters in Camden, New Jersey. The agreement provides the Company with the ability to earn additional profit if total project costs are less than the not-to-exceed ("NTE") amount. The NTE amount, currently at \$79.4 million, may be adjusted by change orders agreed upon by both Subaru and the Company. If construction costs are in excess of the NTE amount, the Company is obligated to pay such cost overruns. The terms of the guarantee do not provide a limitation on the costs the Company may be responsible for. As of June 30, 2017, the Company does not expect to incur costs in excess of the NTE amount.

Also on December 3, 2015, the Company entered into an agreement to construct an 83,000 square foot build-to-suit service center (the "Subaru NSTC Development") on land parcels owned by the Company for Subaru as the single tenant. On such date, Subaru entered into an 18-year lease for the service center. The lease contains a purchase option, which allows Subaru to purchase the property at commencement of the lease, or five years subsequent to inception, at depreciated cost. The Company currently expects to deliver the building during the second quarter of 2018. At June 30, 2017, \$11.3 million of the estimated project costs, totaling \$44.3 million, had been funded, and is recorded in Other assets.

The Company invests in its properties and regularly incurs capital expenditures in the ordinary course of business to maintain the properties. The Company believes that such expenditures enhance its competitiveness. The Company also enters into construction, utility and service contracts in the ordinary course of business which may extend beyond one year. These contracts typically provide for cancellation with insignificant or no cancellation penalties.

14. SUBSEQUENT EVENTS

On July 18, 2017, the Company completed the sale of 50 acres of land known as Bishops Gate, in Mount Laurel, New Jersey for a gross sales price of \$6.0 million. There is no gain or loss on the sale, as the land was impaired to fair value at June 30, 2017. See Note 3, "Real Estate Investments," for further information related to the impairment. The land was classified as held for sale in our balance sheet at June 30, 2017.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Private Securities Litigation Reform Act of 1995 (the "1995 Act") provides a "safe harbor" for forward-looking statements. This Quarterly Report on Form 10-Q and other materials filed by us with the SEC (as well as information included in oral or other written statements made by us) contain statements that are forward-looking, including statements relating to business and real estate development activities, acquisitions, dispositions, future capital expenditures, financing sources, governmental regulation (including environmental regulation) and competition. We intend such forward-looking statements to be covered by the safe-harbor provisions of the 1995 Act. The words "anticipate," "believe," "estimate," "expect," "intend," "will," "should" and similar expressions, as they relate to us, are intended to identify forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be achieved. As forward-looking statements, these statements involve important risks, uncertainties and other factors that could cause actual results to differ materially from the expected results and, accordingly, such results may differ from those expressed in any forward-looking statements made by us or on our behalf. Factors that could cause actual results to differ materially from our expectations are set forth in our Annual Report under the heading "Forward-Looking Statements" in our Annual Report on Form 10-K for the year ended December 31, 2016.

Given these uncertainties, and the other risks identified in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2016, we caution readers not to place undue reliance on forward-looking statements. We assume no obligation to update or supplement forward-looking statements that become untrue because of subsequent events.

The discussion that follows is based primarily on our consolidated financial statements as of June 30, 2017 and December 31, 2016 and for the three- and six-month periods ended June 30, 2017 and 2016 and should be read along with the consolidated financial statements and related notes appearing elsewhere in this report. The ability to compare one period to another may be significantly affected by acquisitions completed, development properties placed in service and dispositions made during those periods.

OVERVIEW

As of June 30, 2017, we owned 99 properties that contain an aggregate of approximately 16.4 million net rentable square feet and consist of 87 office properties, six mixed-use properties, one retail property (94 properties, collectively the "Core Properties"), two development properties and three redevelopment properties (collectively, the "Properties"). In addition, as of June 30, 2017, we owned economic interests in 13 unconsolidated real estate ventures (collectively, the "Real Estate Ventures"), seven of which own properties that contain an aggregate of approximately 8.1 million net rentable square feet of office space; four of which own 5.7 acres of land held for development and two of which own residential towers that contain 345 and 321 apartment units, respectively. As of June 30, 2017, we also owned 278 acres of undeveloped land, of which 50 acres were held for sale, and held options to purchase approximately 60 additional acres of undeveloped land. As of June 30, 2017, the total potential development that these land parcels could support, including the parcels under option, under current zoning and entitlements, amounted to an estimated 11.2 million square feet, of which 0.4 million square feet relates to the 50 acres held for sale. The Properties and the properties owned by the Real Estate Ventures are located in or near Philadelphia, Pennsylvania; Metropolitan Washington, D.C.; Southern New Jersey; Wilmington, Delaware; Richmond, Virginia and Austin, Texas. In addition to managing properties that we own, as of June 30, 2017, we were managing approximately 10.2 million net rentable square feet of office and industrial properties for third parties and Real Estate Ventures.

We conduct our third-party real estate management services business primarily through wholly-owned management company subsidiaries. As of June 30, 2017, the management company subsidiaries were managing properties containing an aggregate of approximately 26.6 million net rentable square feet, of which approximately 16.4 million net rentable square feet related to Properties that we own and consolidate and approximately 10.2 million net rentable square feet related to properties owned by third parties and the Real Estate Ventures.

During the six months ended June 30, 2017, we owned and managed properties within five markets; (1) Philadelphia Central Business District (“CBD”), (2) Pennsylvania Suburbs, (3) Metropolitan Washington, D.C. (4) Austin, Texas and (5) Other. The Philadelphia CBD segment includes properties located in the City of Philadelphia in Pennsylvania. The Pennsylvania Suburbs segment includes properties in Chester, Delaware and Montgomery counties in the Philadelphia suburbs. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia, Washington, D.C. and southern Maryland. The Austin, Texas segment includes properties in the City of Austin, Texas. The Other segment includes properties in Camden county in New Jersey and properties in New Castle county in Delaware. On February 2, 2017, we sold our last two remaining properties located in California, which was previously included in our Other segment. See Note 3, “Real Estate Investments,” to our Consolidated Financial Statements for further information. In addition to the five markets, our corporate group is responsible for cash and investment management, development of certain real estate properties during the construction period, and certain other general support functions.

We generate cash and revenue from leases of space at our Properties and, to a lesser extent, from the management of properties owned by third parties and from investments in the Real Estate Ventures. Factors that we evaluate when leasing space include rental rates, costs of

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

tenant improvements, tenant creditworthiness, current and expected operating costs, the length of the lease term, vacancy levels and demand for office space. We also generate cash through sales of assets, including assets that we do not view as part of our Core Properties, either because of location or expected growth potential, and assets that are commanding premium prices from third party investors.

Our financial and operating performance is dependent upon the demand for office and other commercial space in our markets, our leasing results, our acquisition, disposition and development activity, our financing activity, our cash requirements and economic and market conditions, including prevailing interest rates.

Adverse changes in economic conditions could reduce the availability of financing and potentially increase borrowing costs; lead to declines in demands for office and other commercial space and result in rental rate declines; and adversely impact tenant credit quality.

Overall economic conditions, including but not limited to deteriorating financial and credit markets, could have a dampening effect on the fundamentals of our business, including increases in past due accounts, tenant defaults, lower occupancy and reduced effective rents. These conditions would negatively affect our future net income and cash flows and could have a material adverse effect on our financial condition. We believe that the quality of our assets and the strength of our balance sheet will enable us to raise debt capital, if necessary, in various forms and from different sources, including traditional term, secured or unsecured loans from banks, pension funds and life insurance companies. However, there can be no assurance that we will be able to borrow funds on terms that are economically attractive or at all.

We continue to seek revenue growth throughout our portfolio by increasing occupancy and rental rates. Occupancy at our Core Properties at June 30, 2017 was 92.2% compared to 92.1% at June 30, 2016.

The table below summarizes selected operating and leasing statistics of our wholly owned properties for the three- and six-month periods ended June 30, 2017 and 2016:

	Three Months Ended June 30,		Six Months ended June 30,	
	2017	2016	2017	2016
Leasing Activity				
Core Properties (1):				
Total net rentable square feet owned	15,031,671	16,531,049	15,031,671	16,531,049
Occupancy percentage (end of period)	92.2 %	92.1 %	92.2 %	92.1 %
Average occupancy percentage	92.3 %	92.4 %	92.5 %	92.4 %
Total Portfolio, less properties in development (2):				
Retention rate	77.4 %	73.0 %	69.9 %	63.2 %
New leases and expansions commenced (square feet)	191,989	204,923	335,873	493,493
Leases renewed (square feet)	780,540	391,861	864,285	551,756
Net absorption (square feet)	(59,577)	(98,638)	(166,113)	(215,370)
Percentage change in rental rates per square feet (3)				
New and expansion rental rates	7.1 %	16.2 %	7.4 %	19.7 %
Renewal rental rates	1.1 %	12.1 %	2.0 %	10.3 %
Combined rental rates	1.3 %	13.1 %	2.7 %	13.1 %
Capital Costs Committed (4):				
Leasing commissions (per square foot)	\$2.52	\$2.77	\$3.21	\$3.19
Tenant Improvements (per square foot)	\$5.82	\$6.68	\$8.33	\$6.55

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

Weighted average lease term (years)	6.4	5.2	6.4	5.3
Total capital per square foot per lease year	\$0.95	\$1.59	\$1.34	\$1.79

(1) Includes all Core Properties and does not include properties under development, redevelopment or held for sale or sold.

(2) Includes leasing related to completed developments and redevelopments, as well as sold properties.

(3) Rental rates include base rent plus reimbursement for operating expenses and real estate taxes.

(4) Calculated on a weighted average basis.

In seeking to increase revenue through our operating, financing and investment activities, we also seek to minimize operating risks, including (i) tenant rollover risk, (ii) tenant credit risk and (iii) development risk.

Tenant Rollover Risk

We are subject to the risk that tenant leases, upon expiration, will not be renewed, that space may not be relet, or that the terms of renewal or reletting (including the cost of renovations) may be less favorable to us than the current lease terms. Leases that accounted for approximately 2.1% of our aggregate final annualized base rents, which assumes the base rent at the end of the lease term, as of June 30, 2017 (representing approximately 2.6% of the net rentable square feet of the properties) are scheduled to expire without penalty in 2017. We maintain an active dialogue with our tenants in an effort to maximize lease renewals. For our Core Properties, the retention rate for the three- and six-month periods ended June 30, 2017 was 77.4% and 69.9% compared to a retention rate of 73.0% and 63.2% for the three- and six-months period ended June 30, 2016. If we are unable to renew leases or relet space under expiring leases, at anticipated rental rates, or if tenants terminate their leases early, our financial position, net income and cash flow would be adversely impacted.

Tenant Credit Risk

In the event of a tenant default, we may experience delays in enforcing our rights as a landlord and may incur substantial costs in protecting our investment. We regularly evaluate our accounts receivable reserve policy in light of our tenant base and general and local economic conditions. Our accounts receivable allowance was \$16.8 million or 8.9% of total receivables (including accrued rent receivables) as of June 30, 2017 compared to \$16.1 million or 9.0% of total receivables (including accrued rent receivables) as of December 31, 2016.

If economic conditions deteriorate, we may experience increases in past due accounts, defaults, lower occupancy and reduced effective rents. This condition would negatively affect our future net income and cash flows and could have a material adverse effect on our financial condition.

Development Risk

Development projects are subject to a variety of risks, including construction delays, construction cost overruns, inability to obtain financing on favorable terms, inability to lease space at projected rates, inability to enter into construction, development and other agreements on favorable terms, and unexpected environmental and other hazards.

As of June 30, 2017, the following development properties and real estate venture development projects remain under construction (in thousands, except square footage/acreage and number of buildings):

Wholly Owned Developments/Redevelopments:

Construction Commencement Date	Expected Completion	Activity Type	Property/Portfolio Name	Location	Number of Buildings	Square Footage/ Units	Estimated Costs	Amount Funded
Q2 2014	(a)	Development	30th & Walnut Streets (FMC Tower at Cira Centre South)	Philadelphia, PA	1	625,000 / 268 units	\$400,000	\$386,400
Q3 2017	Q2 2018	Development	Subaru National Training Center	Camden, NJ	1	83,000	44,300	11,300
Q4 2016	Q4 2017	Redevelopment	Broadmoor - Building 6	Austin, Texas	1	144,000	6,600	(b) 2,200
TBD	Q1 2018	Redevelopment	500 North Gulph Road	King Of Prussia, PA	1	100,000	16,800	(c) 100

	Total	4	952,000	\$467,700	\$400,000
(a)	The office component was substantially completed during the third quarter of 2016. During 2017, we began placing into service the residential component, comprised of 103 flexible stay units, 60 furnished extended stay units and 105 luxury apartment residences. As of June 30, 2017, 81 flexible stay units, 39 extended stay units and 77 luxury apartment residences were in service.				
(b)	Building vacated by anchor tenant in the office complex as part of an overall lease restructuring. We are renovating the property as the first step in the repositioning of the Broadmoor Campus. Total project costs exclude \$9.2 million of existing property basis.				
(c)	Building was vacated during the fourth quarter of 2016. Current plans are to renovate and amenitize the property. Total project costs exclude \$4.6 million of existing property basis.				

In addition, the above table does not include amounts related to the Schuylkill Yards Project. See below under “Other Development Activities” for further details.

Other Development Activities:

On December 3, 2015, we entered into an agreement as development manager to construct Subaru of America's ("Subaru") corporate headquarters (the "Subaru Headquarters Development"), an office property containing five floors and approximately 250,000 square feet, on land owned by Subaru and located in Camden, New Jersey. In addition to development fees, the agreement provides us the ability to earn additional profit if total project costs are less than the not-to-exceed ("NTE") amount. As of June 30, 2017, we estimate that we will earn \$2.0 million of residual profit upon completion of the Subaru Headquarters Development, of which \$1.3 million was recognized as of June 30, 2017. For the three- and six-month periods ended June 30, 2017, we earned \$0.5 million and \$0.8 million, respectively. The NTE amount, currently at \$79.4 million, may be adjusted by change orders agreed upon by both Subaru and us. If construction costs exceed the NTE amount, we are obligated to pay the excess and the residual profit recognized will be reversed. As of June 30, 2017, \$46.9 million of the project costs had been funded, and we do not expect to incur costs in excess of the NTE amount.

Also on December 3, 2015, we entered into an agreement to construct an 83,000 square foot build-to-suit service center (the "Subaru NSTC Development") on land parcels owned by us for Subaru as the single tenant. We currently expect to deliver the building during the second quarter of 2018. At June 30, 2017, \$11.3 million of the project costs, totaling \$44.3 million, had been funded. This project is currently consolidated in our financial statements, whereas the Subaru Headquarters Development is a third party development and is not consolidated in our financial statements. See Item 1., "Business – Other Development Activities," included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 for further information on this development.

As of June 30, 2017, we remain in the planning phase of our master developer agreement with Drexel University for the Schuylkill Yards Project. For further information relating to this development see Item 1., "Business - Developments" included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

Reference is made to our Annual Report on Form 10-K for the year ended December 31, 2016 for project overviews, as well as risks associated with these development projects. See Item 2., "Liquidity and Capital Resources – Contractual Obligations" below in this Item 2 for contractual commitments relating to our ongoing development projects.

Land Holdings

As of June 30, 2017, we owned approximately 278 acres of undeveloped land, of which 50 acres were held for sale, and held options to purchase approximately 60 additional acres of undeveloped land. As market conditions warrant, we will seek to opportunistically dispose of those parcels that we do not anticipate developing. For parcels of land that we ultimately develop, we will be subject to risks and costs associated with land development, including building moratoriums and the inability to obtain necessary zoning, land-use, building, occupancy and other required governmental approvals, construction cost increases or overruns and construction delays, and insufficient occupancy rates and rental rates. As of June 30, 2017, the total potential development that these land parcels could support, under current zoning and entitlements, amounted to 11.2 million square feet of development, inclusive of 0.4 million related to the 50 acres held for sale and the options to purchase approximately 60 additional acres of undeveloped land.

Impairments and Disposal of Long-Lived Assets

We review our long-lived assets for impairment following the end of each quarter using cash flow projections and estimated fair values for each of the properties included within our impairment analysis. We update leasing and other assumptions regularly, paying particular attention to properties where there is an event or change in circumstances that indicates an impairment in value. Additionally, we consider strategic decisions regarding the future development plans for property under development and other market factors. For long-lived assets to be held and used, we analyze recoverability based on the estimated undiscounted future cash flows expected to be generated from the operations and

eventual disposition of the assets over, in most cases, a 10-year hold period. If there is significant possibility that we will dispose of assets earlier, we analyze the recoverability using a probability weighted analysis of the undiscounted future cash flows expected to be generated from the operations and eventual disposition of each asset using various possible hold periods. If the recovery analysis indicates that the carrying value of the tested property is not recoverable, the property is written down to its fair value and an impairment loss is recognized. In such case, an impairment loss is recognized in the amount of the excess of the carrying amount of the asset over its fair value. If and when our plans change, we revise our recoverability analysis to use cash flows expected from operations and eventual disposition of each asset using hold periods that are consistent with our revised plans.

Estimated cash flows used in such analysis are based on our plans for the property and our views of market economic conditions. The estimates consider factors such as current and future rental rates, occupancies for the tested property and comparable properties, estimated operating and capital expenditures and recent sales data for comparable properties. Most of these factors are influenced by market data obtained from real estate leasing and brokerage firms and our direct experience with the properties and their markets.

We generally consider assets to be “held for sale” when the transaction has been approved by our Board of Trustees, or by officers vested with authority to approve the transaction and there are no known significant contingencies relating to the sale of the property within one

year of the consideration date and the consummation of the transaction is otherwise considered probable. When a property is designated as held for sale, we stop depreciating the property and estimate the property's fair value, net of selling costs. If the determination is made that the estimated fair value, net of selling costs, is less than the net book value of the property, an impairment loss is recognized equal to the difference and reduces the net book value of the property. For periods in which a property is classified as held for sale, we classify the assets of the property as held for sale on the consolidated balance sheet for such periods.

The relevant accounting guidance for impairments requires that qualifying assets and liabilities and the results of operations that have been sold, or otherwise qualify as "held for sale," be presented as discontinued operations in all periods presented if the disposal represents a strategic shift that has, or will have, a major effect on our operations and financial results. If deemed a discontinued operation, then the components of the property's net income that are reflected as discontinued operations include net gain (or loss) on disposition of real estate, operating results, depreciation and interest expense (if the property is subject to a secured loan).

Impairments of Land Held for Development

When demand for development declines and the ability to sell land held for development deteriorates, or other market factors indicate a possible impairment in the recoverability of land held for development, it is reviewed for impairment by comparing its fair value to its carrying value. If the estimated sales value is less than the carrying value, the carrying value is written down to its estimated fair value.

Equity Method Investments in Unconsolidated Real Estate Ventures

Under the equity method, investments in unconsolidated Real Estate Ventures are recorded initially at cost, as Investments in unconsolidated Real Estate Ventures, and subsequently adjusted for equity in earnings, cash contributions, distributions and impairments. For Real Estate Ventures that are constructing assets to commence planned principal operations, we capitalize interest expense using our weighted average interest rate of consolidated debt and our investment balance as a basis. Planned principal operations commence when a property is available to lease and at that point in time we cease capitalizing interest to our investment basis. During the six-month periods ended June 30, 2017 and 2016, we capitalized \$0.4 million and \$1.1 million, respectively.

On a periodic basis, management also assesses whether there are any indicators that the value of our investments in unconsolidated real estate ventures may be other than temporarily impaired. An investment is impaired only if the value of the investment, as estimated by management, is less than the carrying value of the investment and the decline is other than temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the fair value of the investment, as estimated by management. Our estimates of value for each investment (particularly in commercial real estate joint ventures) are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and operating costs. These factors are difficult to predict and are subject to future events that may alter management's assumptions; accordingly, the values estimated by management in its impairment analyses may not be realized.

RECENT PROPERTY TRANSACTIONS

Dispositions

We sold the following twelve office properties, one retail property and one mixed-use property during the six-month period ended June 30, 2017 (dollars in thousands).

Disposition Date	Property/Portfolio Name	Location	Type	Number of Properties	Net Rentable Square Feet	Sales Price	Net Proceeds on Sale	Gain (Loss) on Sale (a)	Occupancy % at Date of Sale (b)
June 27, 2017	Two, Four A, Four B and Five Eves Drive (Evesham Corporate Center)	Marlton, NJ	Office	4	134,794	\$9,700	\$8,650	\$(325)	(b) 91.6%

(a) Gain/(Loss) on Sale is net of closing and other transaction related costs.

(b) During the first quarter of 2017, we recognized a \$1.0 million impairment related to these properties. The loss on sale represents closing costs.

(c) During the fourth quarter of 2016, we recognized a \$7.3 million impairment related to these properties. The loss on sale represents closing costs.

(d) On March 15, 2017, we sold our sublease interest in the Piers at Penn's Landing (the "Marine Piers"), which includes leasehold improvements containing 181,900 net rentable square feet, and a marina, located in Philadelphia, Pennsylvania for an aggregate sales price of \$21.4 million, which will be paid in two installments. On the closing date, the buyer paid \$12.0 million in cash. On the second purchase price installment date, the buyer will pay \$9.4 million. The second purchase price installment is due on (a) January 31, 2020, in the event that the tenant at the Marine Piers does not exercise its existing option to extend the term of the sublease or (b) January 15, 2024, in the

event that the tenant does exercise its current extension option to extend the term of the sublease. In accordance with ASC 360-20, Real Estate Sales, we determined that it is appropriate to account for the sales transaction under the cost recovery method. We received cash proceeds of \$11.2 million, after closing costs and prorations, and the net book value of the Marine Piers was \$4.7 million, resulting in a gain on sale of \$6.5 million. The remaining gain on sale of \$9.4 million will be recognized on the second purchase price installment date. The Marine Piers was classified as mixed-use within our property count.

- (e) During the fourth quarter of 2016, we recognized a \$3.0 million impairment related to these properties. During the first quarter of 2017, there was a price reduction of \$1.7 million under the agreement of sale. As such, an additional impairment of \$1.7 million was recognized during the first quarter of 2017.
- (f) This sale is designated as a like-kind exchange under Section 1031 of the IRC and, as such, the proceeds, totaling \$32.0 million after closing costs and prorations, were deposited with a Qualified Intermediary, as defined under the IRC. The proceeds received at closing were recorded as "Other assets" in our consolidated balance sheet. During the fourth quarter of 2016, we recognized an \$11.5 million impairment related to these properties.

In addition to the amounts in the table above, we recorded \$0.5 million gain during the first quarter of 2017 from the receipt of additional cash from the disposition of Cira Square during 2016. For further information relating to this sale, see Note 3, "Real Estate Investments," in the notes to the audited financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

We sold the following land parcels during the six-month period ended June 30, 2017 (dollars in thousands):

Disposition Date	Property/Portfolio Name	Location	Number of Parcels	Acres	Sales Price	Net Proceeds on Sale	Gain on Sale
April 28, 2017	Garza Ranch	Austin, TX	1	8.4	\$11,800	\$ 11,560	\$ - (a)
February 15, 2017	Gateway Land C	Richmond, VA	1	4.8	1,100	1,043	- (b)
January 30, 2017	Garza Ranch	Austin, TX	1	1.7	3,500	3,277	- (a)
Total Dispositions			3	14.9	\$16,400	\$ 15,880	\$ -

(a) We have a continuing involvement through a completion guaranty, which requires us as developer to complete certain infrastructure improvements on behalf of the buyers of the land parcels. The cash received at settlement was recorded as “Deferred income, gains and rent” on our consolidated balance sheet and we will recognize the sale once the infrastructure improvements are complete.

(b) During the fourth quarter of 2016, we recognized a nominal impairment related to this land parcel.
Held for Sale

As of June 30, 2017, we had land held for development, consisting of a 50-acre parcel of land located in our Other segment, classified as held for sale but which did not meet the criteria to be classified within discontinued operations. Accordingly, as of June 30, 2017, \$5.6 million was reclassified from ‘Land held for development’ to ‘Assets held for sale, net’ on the consolidated balance sheets. There were no other reclassifications related to this parcel of land.

As the fair value less anticipated costs to sell was less than the carrying value for the land parcel, we recorded an impairment of \$0.3 million at June 30, 2017. See “Land Impairment” below.

As of December 31, 2016, we classified three office properties in our Metropolitan Washington, D.C. segment, two office properties in our Other segment and a five-acre parcel of land in our Other segment as held for sale. As of December 31, 2016, \$40.7 million and \$1.0 million was reclassified from ‘Operating real estate investments, net’ and ‘Land held for development’, respectively, to ‘Assets held for sale, net’ on the consolidated balance sheets; an immaterial amount was reclassified from ‘Other liabilities’ to ‘Liabilities related to assets held for sale’.

Land Impairment

As of June 30, 2017, we determined that we would not recover the carrying value, less cost of sale, of one land parcel, consisting of 50 acres that was classified as held for sale as of June 30, 2017. Accordingly, we recorded an impairment charge of \$0.3 million at June 30, 2017, reducing the aggregate carrying value of the land parcel from \$5.9 million to its estimated fair value of \$5.6 million. The fair value measurement is based on pricing in the purchase and sale agreement for the property.

Held for Use Impairment

As of June 30, 2017, we evaluated the recoverability of the carrying value of our properties that triggered assessment. Based on the analysis, no impairment charges were identified.

As of March 31, 2017, we evaluated the recoverability of the carrying value of our properties that triggered assessment under the undiscounted cash flow model. Based on our evaluation, it was determined that due to the reduction in our intended hold period of four properties located in the Other segment, we would not recover the carrying values of these properties. Accordingly, we recorded impairment charges on these properties of \$1.0 million

at March 31, 2017, reducing the aggregate carrying values of the properties from \$10.2 million to their estimated fair value of \$9.2 million. We measured these impairments based on a discounted cash flow analysis, using a hold period of 10 years and residual capitalization rates and discount rates of 9.00% and 9.25%, respectively. The results were comparable to indicative pricing in the market.

During the three and six-month periods ended June 30, 2016, we recognized provisions for impairment of \$5.7 million and \$13.1 million, respectively. For further information relating to these impairments, see Note 3, "Real Estate Investments," in the notes to the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

The sales of properties, land and the land parcel held for sale do not represent a strategic shift that has a major effect on our operations and financial results. Accordingly, the operating results of these properties remain classified within continuing operations for all periods presented.

Parc at Plymouth Meeting Venture

On January 31, 2017, we sold our 50% interest in TB-BDN Plymouth Apartments, L.P., a 50/50 real estate venture with Toll Brothers, at a gross sales value of \$100.5 million. The venture developed and operated a 398-unit multi-family complex in Plymouth Meeting, Pennsylvania encumbered by a \$54.0 million construction loan. The construction loan was repaid commensurate with the sale of our 50% interest. As a result, we are no longer subject to a \$3.2 million payment guarantee on the construction loan. The cash proceeds, after the payment of our share of the debt and closing costs, were \$27.2 million. The carrying amount of our investment at the time of sale was \$12.6 million, resulting in a \$14.6 million gain on sale of interest in the real estate venture.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's Discussion and Analysis of Financial Condition and Results of Operations discuss our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of these financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Certain accounting policies are considered to be critical accounting policies, as they require management to make assumptions about matters that are highly uncertain at the time the estimate is made and changes in accounting estimate are reasonably likely to occur from period to period. Management bases its estimates and assumptions on historical experience and current economic conditions.

Our Annual Report on Form 10-K for the year ended December 31, 2016 contains a discussion of our critical accounting policies. There have been no significant changes in our critical accounting policies since December 31, 2016. See also Note 2, "Basis of Presentation," in our unaudited consolidated financial statements for the six-month period ended June 30, 2017, set forth herein.

RESULTS OF OPERATIONS

The following discussion is based on our consolidated financial statements for the three- and six-month periods ended June 30, 2017 and 2016. We believe that presentation of our consolidated financial information, without a breakdown by segment, will effectively present important information useful to our investors.

Net operating income ("NOI") as presented in the comparative analysis below is a non-GAAP financial measure defined as total revenue less property operating expenses, real estate taxes and third party management expenses. Property operating expenses that are included in determining NOI consist of costs that are necessary and allocable to our operating properties such as utilities, property-level salaries, repairs and maintenance, property insurance, management fees and bad debt expense. General and administrative expenses that are not reflected in NOI primarily consist of corporate-level salaries, amortization of share awards and professional fees that are incurred as part of corporate office management. NOI is a non-GAAP financial measure that we use internally to evaluate the operating performance of our real estate assets by segment, as presented in Note 12, "Segment Information," to our consolidated financial statements, and of our business as a whole. We believe NOI provides useful information to investors regarding our financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level. While NOI is a relevant and widely used measure of operating performance of real estate investment trusts, it does not represent cash flow from operations or net income as defined by GAAP and should not be considered as an alternative to those measures in evaluating our liquidity or operating performance. NOI does not reflect interest expenses, real estate impairment losses, depreciation and amortization costs, capital expenditures and leasing costs. We believe that net income, as defined by GAAP, is the most appropriate earnings measure. See Note 12, "Segment Information," to our consolidated financial statements for a reconciliation of NOI to our consolidated net income as defined by GAAP.

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

Comparison of the Three-Month Periods Ended June 30, 2017 and June 30, 2016

The table below shows selected operating information for the “Same Store Property Portfolio” and the “Total Portfolio.” The Same Store Property Portfolio consists of 93 properties containing an aggregate of approximately 14.9 million net rentable square feet, and represents properties that we owned for the entire three-month periods ended June 30, 2017 and 2016. The Total Portfolio includes the effects of other properties that were either placed into service, acquired or redeveloped after January 1, 2016 and disposed of prior to June 30, 2017 or classified as held for sale as of June 30, 2017. A property is excluded from our Same Store Property Portfolio and moved into the redevelopment column in the period that we determine that a redevelopment would be the best use of the asset, and when said asset is taken out of service or is undergoing re-entitlement for a future development strategy. This table also includes a reconciliation from the Same Store Property Portfolio to the Total Portfolio net income (i.e., all properties owned by us during the three-month periods ended June 30, 2017 and 2016) by providing information for the properties which were acquired, placed into service, under development or redevelopment and administrative/elimination information for the three-month periods ended June 30, 2017 and 2016.

The Total Portfolio net income presented in the table is equal to the net income of the Parent Company and the Operating Partnership.

Comparison of three months ended June 30, 2017 to the three months ended June 30, 2016

	Same Store Property Portfolio			Recently Completed/Acquired/Development/Redevelopment/Other (Eliminations)						Total Portfolio		Increase/ (Decrease)

EXPLANATORY NOTES

- (a) Results include: one property completed/acquired and placed in service.
- (b) Results include: two developments and three redevelopment properties.
- (c) Represents certain revenues and expenses at the corporate level as well as various intercompany costs that are eliminated in consolidation, third-party management fees and provisions for impairment. It also includes properties sold that do not qualify as discontinued operations and properties classified as held for sale.
- (d) Held for use impairment charges are excluded from Same Store Property Portfolio operating income and presented in Other (Eliminations). See Note 3, "Real Estate Investments" to the consolidated financial statements for further information.
- (e) Pertains to Core Properties (i.e. not under development, redevelopment, or re-entitlement).

44

Total Revenue

Cash rents from the Total Portfolio decreased by \$0.8 million during the second quarter of 2017 compared to the second quarter of 2016, primarily attributable to:

\$6.8 million decrease due to the disposition of 23 properties from the second quarter of 2016 through the second quarter of 2017 (the “Q2 2016 and 2017 Dispositions”); offset by, \$1.0 million increase from Development/Redevelopment Properties for the second quarter of 2017 compared to the first quarter of 2016 primarily related to the residential component of the FMC Tower being placed into service; and \$5.0 million increase in the Same Store Property Portfolio due to positive cash rent growth and free rent converting to cash rent across our portfolio in 2017 compared to 2016.

Above/below market rent amortization decreased by \$0.9 million from the second quarter of 2017 to the second quarter of 2016, primarily attributable to a \$1.2 million decrease in the Same Store Property Portfolio from the Austin, Texas segment, offset by an increase of \$0.3 million from Development/Redevelopment Properties, primarily 1900 Market Street in Philadelphia, Pennsylvania.

Tenant reimbursements from the Total Portfolio increased by \$2.1 million during the second quarter of 2017 compared to the second quarter of 2016 primarily attributable to a \$2.0 million increase in the Same Store Portfolio and \$0.7 million increase from Development/Redevelopment Properties. These increases were partially offset by a \$0.6 million decrease due to the Q2 2016 and 2017 Dispositions. Expense recoveries at the Same Store Portfolio increased modestly resulting from a reimbursement percentage increase to 40.0% during the second quarter of 2017 compared to 36.1% in the second quarter of 2016.

Third party management fees, labor reimbursement and leasing increased by \$0.9 million for the second quarter of 2017 compared to the second quarter of 2016, primarily due to an increase of lease commission income earned from the DRA Austin real estate venture.

Property Operating Expenses

Property operating expenses across our Total Portfolio increased \$1.1 million for the second quarter of 2017 compared to the second quarter of 2016, of which \$3.0 million relates to Development/Redevelopment Properties primarily related to the residential component of the FMC Tower being placed into service and \$0.9 million from the Same Store Property Portfolio. These increases were offset by a \$2.8 million decrease from the Q2 2016 and 2017 Dispositions.

Depreciation and Amortization

Depreciation and amortization expense decreased by \$2.6 million for the second quarter of 2017 compared to the second quarter of 2016, of which \$4.2 million of the decrease relates to the Same Store Property Portfolio from the timing of intangible asset amortization, primarily in our Austin, Texas segment, and a \$2.3 million decrease relating to the Q2 2016 and 2017 Dispositions. These decreases were offset by a \$3.8 million increase in depreciation expense from Development/Redevelopment Properties, primarily relating to the office component of FMC Tower being placed into service during the second half of 2016.

Provision for Impairment

As of June 30, 2017, we assessed the fair value of the land parcels within our Other segment that we intend to sell in the short-term and, based on that assessment, we determined that we would not recover the carrying value of one land parcel, consisting of 50 acres. Accordingly, we recorded an impairment charge of \$0.3 million at June 30, 2017.

As of June 30, 2016, a held for use impairment charge of \$3.9 million was recorded on a property in our Metropolitan D.C. segment. The impairment calculation was based on our recoverability of the carrying value of the property under a discounted cash flow model. Also during the second quarter of 2016, in connection with the disposition of the office property at 1120 Executive Boulevard located in Mount Laurel, New Jersey, we recognized a held for sale impairment loss totaling approximately \$1.8 million, which approximates the estimated loss on sale.

Interest Expense

Interest expense increased \$0.5 million from the second quarter of 2017 to the second quarter of 2016 primarily due to the following:

- \$2.9 million decrease in capitalized interest due to placing portions of the FMC project into service subsequent to the second quarter of 2016; and

- \$0.7 million related to interest expense incurred related to the Credit Facility, which had no balance during the second quarter of 2016.

45

The increase of \$3.6 million in interest expense described above was offset by the following:

\$2.8 million decrease related to the repayment of the 2017 Unsecured Notes on May 1, 2017; and

\$0.2 million decrease related to the refinance of Two Logan Square mortgage debt in 2016.

Equity in Income (Loss) of Real Estate Ventures

The increase in equity in income from Real Estate Ventures of \$2.8 million for the second quarter of 2017 compared to the second quarter of 2016 is primarily due to the following:

\$2.1 million increase in operating income recognized from the DRA Austin venture primarily from termination fee income recognized in the second quarter of 2017 with no comparable termination fees in the second quarter of 2016;

\$0.3 million increase in operating income from the 1919 Market Street Venture related to an increase in average occupancy from 31.0% during the second quarter of 2016 to 87.7% during the second quarter of 2017;

\$0.3 million increase in operating income from Brandywine – AI Venture related to an increase in average occupancy from 80.8% during the second quarter of 2016 to 81.6% during the second quarter of 2017; and

Net Gain (Loss) on Disposition of Real Estate

The net gain on disposition of real estate recognized in the second quarter of 2017 resulted from a gain of \$1.4 million on the sale of the retail property at 7000 Midlantic in Mount Laurel, New Jersey. This gain of \$1.1 million was offset by a loss of \$0.3 million, representing closing costs, on the sale of four office properties located in Marlton, New Jersey known as the Evesham Corporate Center.

The loss on disposition of \$0.7 million for the second quarter of 2016 represents additional closing costs that were recognized at settlement on properties known as Herndon Metro Plaza I and II, located in Herndon, Virginia.

Net Gain from Real Estate Venture Transactions

The gain of \$3.2 million recognized during the second quarter of 2016 resulted from the disposition of the office property held by the 1000 Chesterbrook real estate venture. There was no such sale during the second quarter of 2017.

Comparison of the Six-Month Periods Ended June 30, 2017 and June 30, 2016

The table below shows selected operating information for the “Same Store Property Portfolio” and the “Total Portfolio.” The Same Store Property Portfolio consists of 93 properties containing an aggregate of approximately 14.9 million net rentable square feet, and represents properties that we owned for the entire six-month periods ended June 30, 2017 and 2016. The Total Portfolio includes the effects of other properties that were either placed into service, acquired or redeveloped after January 1, 2016 and disposed of prior to June 30, 2017 or classified as held for sale as of June 30, 2017. A property is excluded from our Same Store Property Portfolio and moved into the redevelopment column in the period that we determine that a redevelopment would be the best use of the asset, and when said asset is taken out of service or is undergoing re-entitlement for a future development strategy. This table also includes a reconciliation from the Same Store Property Portfolio to the Total Portfolio net income (i.e., all properties owned by us during the six-month periods ended June 30, 2017 and 2016) by providing information for the properties which were acquired, placed into service, under development or redevelopment and administrative/elimination information for the six-month periods ended June 30, 2017 and 2016.

The Total Portfolio net income presented in the table is equal to the net income of the Parent Company and the Operating Partnership.

Total Revenue

Cash rents from the Total Portfolio decreased by \$7.2 million during the six months ended June 30, 2017 compared to the six months ended June 30, 2016, primarily attributable to:

- \$18.1 million decrease due to the disposition of 82 properties from the second quarter of 2016 through the second quarter of 2017 (the “YTD 2016 and 2017 Dispositions”); and
- \$0.3 million decrease from Other/(Elimination) Properties, primarily due to a surface parking lot in the Philadelphia CBD segment taken out of service for improvements during the six months ended June 30, 2017; offset by,
- \$1.2 million increase from Development/Redevelopment Properties, primarily due to the residential component of the FMC Tower being placed into service, during the six months ended June 30, 2017; and
- \$10.0 million increase in the Same Store Property Portfolio due to positive cash rent growth and free rent converting to cash rent across the portfolio in the six months ended June 30, 2017 compared to the six months ended June 30, 2016.

Above/below market rent amortization decreased by \$1.8 million from the six months ended June 30, 2017 to the six months ended June 30, 2016, attributable to a \$1.9 million decrease in the Same Store Property Portfolio, primarily related to the Austin, Texas segment.

Tenant reimbursements from the Total Portfolio increased by \$0.6 million during the six months ended June 30, 2017 compared to the six months ended June 30, 2016 primarily attributable to an increase of \$2.4 million from the Same Store Portfolio, \$1.0 million from Development/Redevelopment Properties. These increases were offset by a \$2.8 million decrease due to the YTD 2016 and 2017 Dispositions. Expense recoveries at the Same Store Portfolio increased modestly with a reimbursement percentage of 39.7% during the six months ended June 30, 2017 compared to 37.2% during the six months ended June 30, 2016.

Termination fees increased \$1.0 million due to the timing of tenant terminations. The termination fees for the six months ended June 30, 2017 primarily related to the termination of one tenant in the Same Store Portfolio from our Philadelphia CBD region.

Third party management fees, labor reimbursement and leasing increased by \$2.1 million for the six months ended June 30, 2017 compared to the six months ended June 30, 2016, primarily due to an increase of \$1.4 million of lease commission income earned from the DRA Austin real estate venture and \$1.1 million in construction management fees, primarily related to the Subaru Headquarters Development. These increases were offset by \$0.3 million of decreases from a third party property no longer managed in Richmond, Virginia.

Property Operating Expenses

Property operating expenses across our Total Portfolio decreased \$2.9 million for the six months ended June 30, 2017 compared to the six months ended June 30, 2016, of which \$7.8 million relates to the YTD 2016 and 2017 Dispositions. This decrease was partially offset by an increase of \$4.9 million from Development/Redevelopment Properties.

Real Estate Taxes

Real estate taxes decreased \$0.5 million for the six months ended June 30, 2017 compared to the six months ended June 30, 2016, of which \$1.2 million relates to the YTD 2016 and 2017 Dispositions. This decrease was partially offset by increases of \$0.3 million from Development/Redevelopment Properties and \$0.4 million in the Same Store Property Portfolio due to assessments.

Depreciation and Amortization

Depreciation and amortization expense decreased by \$5.6 million for the six months ended June 30, 2017 compared to the six months ended June 30, 2016, of which \$7.2 million of the decrease relates to the Same Store Property Portfolio from the timing of intangible asset amortization, primarily in our Austin, Texas segment, and a \$3.8 million decrease relating to the YTD 2016 and 2017 Dispositions. These decreases were offset by a \$5.9 million increase in depreciation expense from Development/Redevelopment Properties, primarily relating to the office component of FMC Tower being placed into service during the second half of 2016.

General and Administrative Expenses

General and administrative expenses increased by \$0.5 million for the six months ended June 30, 2017 compared to the six months ended June 30, 2016, due to a \$1.7 million increase in professional fees and a \$0.3 million increase in marketing costs primarily related to the new Company logo. These increases were offset by a \$1.5 million decrease in payroll and related benefits due to the lower employee headcount.

Provision for Impairment

As of June 30, 2017, we determined that we would not recover the carrying value of one land parcel, consisting of 50 acres, in the Other segment. Accordingly, we recorded an impairment charge of \$0.3 million at June 30, 2017. As of March 31, 2017, we determined that we would not recover the carrying value of four office properties in the Other segment. Accordingly, we recorded an impairment charge of \$1.0 million at March 31, 2017.

As of December 31, 2016, based on our held for sale impairment analysis, we determined that we would not recover the carrying value of three office properties located in the Metropolitan Washington D.C. segment. Because we determined that the carrying value of these properties exceeded their fair value, a \$2.6 million impairment charge was recorded. Subsequent to our December 31, 2016 impairment review, there was a purchase price reduction of \$1.7 million under the agreement of sale, which resulted in an additional impairment charge of \$1.7 million during the quarter ended March 31, 2017.

As of March 31, 2017, based on our held for use impairment analysis, we determined that we would not recover the carrying value of four office properties located in the Other segment. Because we determined that the carrying value of these properties exceeded their fair value, a \$1.0 million impairment charge was recorded.

During the six-month period ended June 30, 2016, we recognized a \$13.1 million provision for impairment. During the first quarter of 2016, we recognized a held for use impairment loss totaling \$7.4 million. This impairment charge resulted from our held for use impairment analysis, which determined that we would not recover the carrying value of two properties located in our Metropolitan D.C. segment. As of June 30, 2016, a held for use impairment charge of \$3.9 million was recorded on a property in our Metropolitan D.C. segment. The impairment calculation was based on our recoverability of the carrying value of the property under a discounted cash flow model. Also during the second quarter of 2016, in connection with the disposition of the office property at 1120 Executive Boulevard located in Mount Laurel, New Jersey, we recognized a held for sale impairment loss totaling approximately \$1.8 million, which approximates the estimated loss on sale.

Interest Expense

Interest expense decreased \$1.8 million from the six months ended June 30, 2017 compared to the six months ended June 30, 2016 primarily due to the following:

- \$2.8 million decrease related to the repayment of the 2017 Unsecured Notes on May 1, 2017;
- \$2.2 million decrease related to the repayment of the 2016 Unsecured Notes on April 1, 2016;

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

\$1.4 million decrease related to the refinance of Two Logan Square mortgage debt in 2016; and

- \$0.5 million decrease related to the repayment of the IRS Philadelphia Campus and Cira South Garage mortgage debt during 2016.

The decrease of \$6.9 million in interest expense described above was offset by the following:

\$4.8 million decrease in capitalized interest due to placing a portion of the FMC Tower into service during the second quarter of 2016; and

\$0.3 million related to interest on the line as the average outstanding balance was higher in 2017 as compared to 2016.

49

Interest Expense – Financing Obligation

Interest expense from financing obligations decreased \$0.5 million from the six months ended June 30, 2017 to the six months ended June 30, 2016 due to the deconsolidation of 3141 Fairview Park Drive. For further information, see Item 1., “Business – 2016 Transactions” to our annual report on Form 10-K for 2016.

Equity in Income (Loss) of Real Estate Ventures

The increase in equity in income from Real Estate Ventures of \$2.4 million for the six months ended June 30, 2017 compared to the six months ended June 30, 2016 is primarily due to the following:

- \$2.0 million increase in operating income recognized from the DRA Austin venture because of termination fee income recognized during the six-month period ended June 30, 2017, with no comparable termination fees in the six-month period ended June 30, 2016; and

- \$1.2 million increase in operating income recognized from the Brandywine – AI Venture related to an increase market rental rates received during the six-month period ended June 30, 2017 compared to the six-month period ended June 30, 2016.

The increases of \$3.2 million were partially offset by the following:

- \$0.3 million increase in operating losses from the MAP Venture because of a decrease in average occupancy from 91.4% to 90.2% for the six-month period ended June 30, 2017 compared to the six-month period ended June 30, 2016;

- \$0.2 million decrease in operating income from Invesco, L.P., as we sold our residual profits interest in the real estate venture subsequent to June 30, 2016; and

- \$0.2 million decrease in operating income from the 1000 Chesterbrook Venture, which was sold during the six-month period ended June 30, 2016.

Net Gain on Disposition of Real Estate

The net gain on disposition of real estate of \$8.4 million recognized in the six months ended June 30, 2017 resulted from a gain of \$0.5 million on the sale of two office properties located in Concord, California, a gain of \$6.5 million from the sale of the Marine Piers located in Philadelphia, Pennsylvania, an additional \$0.5 million gain recognized on Cira Square, which was disposed of in the first quarter of 2016, a gain of \$1.4 million on the sale of the retail property at 7000 Midlantic in Mount Laurel, New Jersey. These gains were partially offset by a loss of \$0.2 million, representing closing costs, on the sale of three office properties located in Cherry Hill, New Jersey and a loss of \$0.3 million, representing closing costs, on the sale of four office properties located in Marlton, New Jersey known as the Evesham Corporate Center.

The \$115.5 million net gain on disposition of real estate recognized for the six-month period ended June 30, 2016 resulted from the sale in February 2016 of an office property known as Cira Square, located in Philadelphia, Pennsylvania, consisting of 862,692 square feet. The sale of the MAP Venture properties in February 2016 did not have a material impact on the gain on sale because of an impairment charge of \$45.4 million recorded during the fourth quarter of 2015. During the first quarter of 2016, we recognized an impairment loss totaling approximately \$7.4 million on the properties known as Metro Plaza I & II located in Herndon, Virginia. The loss on disposition of \$0.8 million represents additional closing costs that were recognized at settlement during the second quarter of 2016.

Net Gain from Real Estate Venture Transactions

The \$14.6 million gain recognized during the six-month period ended June 30, 2017 resulted from the sale of our entire 50% interest in TB-BDN Plymouth Apartments, L.P.

A \$5.9 million gain was recognized during the first quarter of 2016 from the sale of our entire 50% interest in the Coppel Associates real estate venture. A \$3.2 million gain was recognized during the second quarter of 2016 from the disposition of the office property held by the 1000 Chesterbrook real estate venture.

Loss on Early Extinguishment of Debt

On January 14, 2016, we used borrowings from our \$600.0 million unsecured revolving credit facility to fund the repayment of our \$176.9 million mortgage and our \$35.5 million mortgage that encumbered Cira Square and Cira South Garage, respectively. Each mortgage was repaid ahead of its scheduled maturity date of September 10, 2030, which resulted in prepayment penalties and non-cash charges for the write-off of deferred financing costs totaling \$66.6 million. We subsequently repaid in full the advances under our

unsecured revolving credit facility with the proceeds from the dispositions of real estate that occurred during the first quarter of 2016. There were no comparable extinguishments of debt incurred during six months ended June 30, 2017.

LIQUIDITY AND CAPITAL RESOURCES

General

Our principal liquidity needs for the next twelve months are as follows:

- fund normal recurring expenses,
- fund capital expenditures, including capital and tenant improvements and leasing costs,
- fund repayment of certain debt instruments when they mature,
- fund current development and redevelopment costs,
- fund commitments to unconsolidated real estate ventures,
- fund distributions to shareholders to maintain REIT status, and
- fund common repurchases.

As of June 30, 2017, the Parent Company owned a 99.2% interest in the Operating Partnership. The remaining interest of approximately 0.8% pertains to common limited partnership interests owned by non-affiliated investors who contributed property to the Operating Partnership in exchange for their interests. As the sole general partner of the Operating Partnership, the Parent Company has full and complete responsibility for the Operating Partnership's day-to-day operations and management. The Parent Company's source of funding for its dividend payments and other obligations is the distributions it receives from the Operating Partnership.

We believe that our liquidity needs will be satisfied through available cash balances, our revolving line of credit and cash flows generated by operations, financing activities, including access to equity financing, including through "at-the-market" equity program and selective property sales. Rental revenue, expense recoveries from tenants, and other income from operations are our principal sources of cash to pay operating expenses, debt service, recurring capital expenditures and the minimum distributions required to maintain our REIT qualification. We seek to increase cash flows from our properties by maintaining quality standards for our properties that promote high occupancy rates and permit increases in rental rates while reducing tenant turnover and controlling operating expenses. Our revenue also includes third-party fees generated by our property management, leasing, development and construction businesses. We believe that our revenue, together with proceeds from property sales and debt financings, will continue to provide funds for our short-term liquidity needs. However, material changes in our operating or financing activities may adversely affect our net cash flows. With uncertain economic conditions, vacancy rates may increase, effective rental rates on new and renewed leases may decrease and tenant installation costs, including concessions, may increase in most or all of our markets throughout the remainder of 2017 and possibly beyond. As a result, our revenues and cash flows could be insufficient to cover operating expenses, including increased tenant installation costs, pay debt service or make distributions to shareholders over the short-term. If this situation were to occur, we expect that we would finance cash deficits through borrowings under our unsecured credit facility and other sources of debt and equity financings. In addition, a material adverse change in cash provided by operations could adversely affect our compliance with financial performance covenants under our unsecured credit facility, including unsecured term loans and unsecured notes. As of June 30, 2017, we were in compliance with all of our debt covenants and requirement obligations.

We use multiple financing sources to fund our long-term capital needs. When needed, we use borrowings under our unsecured credit facility for general business purposes, including to meet debt maturities and to fund distributions to shareholders as well as development and acquisition costs and other expenses from time to time as necessary. In light of the volatility in financial markets and economic uncertainties, it is possible, that one or more lenders under our unsecured revolving credit facility could fail to fund a borrowing request. Such an event could adversely affect our

ability to access funds from our unsecured credit facility when needed to fund distributions or pay expenses.

Our ability to incur additional debt is dependent upon a number of factors, including our credit ratings, the value of our unencumbered assets, our degree of leverage and borrowing restrictions imposed by our lenders. If one or more rating agencies were to downgrade our unsecured credit rating, our access to the unsecured debt market would be more limited and the interest rate under our unsecured credit facility and unsecured term loan would increase.

The Parent Company unconditionally guarantees the Operating Partnership's secured and unsecured obligations, which, as of June 30, 2017, amounted to \$322.6 million and \$1,603.6 million, respectively. However, the Parent Company has no material assets other than the investment in the Operating Partnership.

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

On April 11, 2017 the Parent Company used available cash balances to redeem all 4,000,000 shares of its then outstanding 6.900% Series E Preferred Shares at a redemption price of \$100.0 million plus \$2.0 million of dividends accrued through the redemption date.

The Parent Company recognized \$3.2 million of charges associated with the aforementioned redemption as a reduction in net earnings to arrive at net income applicable to common shares. These costs are shown within the Parent Company's consolidated statements of operations as "Preferred share redemption charge".

On May 1, 2017 the Parent Company repaid the entire \$300.0 million principal balance of the unsecured 5.70% Guaranteed Notes upon maturity. Available cash balances and the Credit Facility were used to fund the repayment of the unsecured notes. As of June 30, 2017, the credit facility has an outstanding balance of \$200.0 million.

We maintain a shelf registration statement that has registered the offering and sale of common shares, preferred shares, depositary shares, warrants and unsecured debt securities. Subject to our ongoing compliance with securities laws, and if warranted by market conditions, we may offer and sell equity and debt securities from time to time under the shelf registration statement.

The Parent Company maintains a share repurchase program under which the Board of Trustees has authorized the Parent Company to repurchase shares of its preferred and common stock with no expiration date. On July 22, 2015, the Parent Company's Board of Trustees authorized additional share repurchases of up to \$100.0 million. We expect to fund the share repurchases with a combination of available cash balances and availability under our Credit Facility. As of June 30, 2017, 5,209,437 common shares have been repurchased and retired at an average purchase price of \$12.90 per share and totaling \$67.3 million. The timing and amounts of any purchases will depend on a variety of factors, including market conditions, regulatory requirements, share prices, capital availability and other factors as determined by our management team. The repurchase program does not require the purchase of any minimum number of shares and may be suspended or discontinued at any time without notice. There were no shares repurchased under the program during the six months ended June 30, 2017 or the six months ended June 30, 2016.

The Parent Company, other than acting as the sole general partner of the Operating Partnership, also issues equity from time to time, the proceeds of which it contributes to the Operating Partnership in exchange for additional interests in the Operating Partnership, and guarantees debt obligations of the Operating Partnership. The Parent Company's ability to sell common shares and preferred shares is dependent on, among other things, general market conditions for REITs, market perceptions about the Company as a whole and the current trading price of the Parent Company's shares.

The Operating Partnership also considers net sales of selected properties and recapitalization of unconsolidated real estate ventures as additional sources of managing its liquidity.

With approximately \$37.9 million of cash on hand and \$387.6 million of unused availability under our Credit Facility, as of June 30, 2017, we believe we have sufficient capital to fund our operations and development projects. We believe that our strong liquidity, which includes availability under the Credit Facility, along with proceeds from debt financings and asset sales, provides sufficient ability to fund our remaining capital requirements on existing development and redevelopment projects and allows us to pursue additional attractive investment opportunities. We also have the ability to access capital under our 16,000,000 common shares under our at-the-market equity offering program ("ATM Program"). The ATM Program expires March 20, 2020. We have not issued any common shares under the ATM Program through the date of this Form 10-Q.

Cash Flows

The following discussion of our cash flows is based on the consolidated statement of cash flows and is not meant to be a comprehensive discussion of the changes in our cash flows for the periods presented.

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

As of June 30, 2017 and December 31, 2016, we maintained cash and cash equivalents of \$37.9 million and \$193.9 million, respectively. The following are the changes in cash flow from our activities for the six-month periods ended June 30, 2017 and 2016 (in thousands):

Activity	2017	2016
Operating	\$82,248	\$83,380
Investing	24,845	600,285
Financing	(263,112)	(474,762)
Net cash flows	\$(156,019)	\$208,903

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

Our principal source of cash flows is from the operation of our properties. Our properties provide a relatively consistent stream of cash flows that provides us with the resources to fund operating expenses, debt service and quarterly dividends. We do not restate our cash flows for discontinued operations.

The net decrease of \$1.1 million in cash from operating activities for the six months ended June 30, 2017 compared to the six months ended June 30, 2016 is due to the timing of cash receipts and cash expenditures in the normal course of operations.

The net decrease of \$575.4 million in cash provided by investing activities during the six months ended June 30, 2017 to the six months ended June 30, 2016 primarily relates to the 2016 property portfolio repositioning efforts. Quantitatively, the decrease resulted from the following:

\$646.3 million decrease in net proceeds from the disposition of 14 properties and three land parcels during the six months ended June 30, 2017 compared to the sale of 61 office properties and a land parcel during the six months ended June 30, 2016; and

\$39.0 million increase in escrow cash due to timing of payments and the disposition of the Concord Airport Plaza in Concord, California, on February 2, 2017. The net proceeds on sale of \$32.0 million were recorded as Other assets in our consolidated balance sheet as the sale was designated as a like-kind exchange under Section 1031 of the IRC. As the transaction proceeds were also included in the "Proceeds from the sales of properties" caption on the statement of cash flows, the transaction had no impact on investing cash flows during the six months ended June 30, 2017.

The decrease in cash provided by investing activities was primarily offset by the following transactions:

\$71.4 million decrease in capital expenditures for tenant improvements, developments/redevelopments and leasing commissions, primarily related to less tenant improvement expenditures from the reduced number of properties from the portfolio repositioning and reduced development expenditures from the slower level of development spend related to FMC Tower, in Philadelphia, PA, as the project nears completion;

\$22.4 million increase in proceeds from real estate venture sales as a result of the sale of our interest in TB-BDN Plymouth Apartments, L.P., from which we received net proceeds of \$27.2 million during the six months ended June 30, 2017 compared to \$4.8 million in proceeds from the sale of Coppell Associates during the six months ended June 30, 2016;

\$10.3 million decrease of investments in unconsolidated Real Estate Ventures primarily due to contributions for the six months ended June 30, 2017 of \$4.0 million to the DRA Austin real estate venture and \$1.0 million to the JBG real estate venture compared to contributions of \$12.8 million to evo at Cira to increase our ownership interest from 30% to 50%, \$2.3 million to the JBG real estate ventures and \$0.2 million to the Seven Tower Bridge venture during the six months ended June 30, 2016;

\$2.5 million increase in receipts related to advances made for the purchase of tenant assets, net of repayments;

\$2.1 million increase in cash distributions in excess of cumulative equity in income from Real Estate Ventures;

\$0.7 million increase in deposits; and

\$0.4 million decrease in leasing costs paid.

The net decrease of \$211.7 million in cash used in financing activities for the six months ended June 30, 2017 compared to the six months ended June 30, 2016 reflects our efforts during 2016 to decrease overall leverage by using cash flows from property sales in connection with the repositioning of the portfolio to repay debt. Quantitatively, the decrease resulted from the following:

\$265.4 million net decrease from the repayments of mortgage notes payable during the six-month period ended June 30, 2017 compared to the six-month period ended June 30, 2016, primarily due to the early repayment of \$212.4 million of mortgage notes payable and the related \$53.4 million of prepayment penalties for Cira Square and Cira South Garage and the repayment of an \$86.6 million mortgage note payable for Two Logan Square using the proceeds from a \$86.9 million first mortgage financing on that property during the six months ended June 30, 2016;

\$200.0 million net decrease from credit facility proceeds/repayments as we had an outstanding balance on our Credit Facility at June 30, 2017 and no outstanding balance at June 30, 2016;

\$0.5 million decrease in debt financing costs paid; and

\$0.2 million decrease in shares used for employee taxes upon vesting of share awards.

The decrease in cash used in financing activities was offset by the following transactions:

53

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

\$150.0 million increase resulting from the repayments of unsecured notes, as we repaid \$300.0 million for the entire principal balance of the unsecured 5.70% Guaranteed Notes upon maturity on May 1, 2017 compared to \$149.9 for the repayment of the 2016 6.00% Guaranteed Unsecured Notes upon maturity on April 1, 2016;

\$100.0 million from the redemption of our outstanding 6.900% Series E Preferred Shares at par during the six months ended June 30, 2017;

\$4.0 million increase in distributions paid to shareholders and on non-controlling interests due to a \$2.0 million dividend accrued through the redemption date for the Series E Preferred Shares and the 6.7% increase of our dividend from \$0.15 per share to \$0.16 per share during 2016; and

\$0.4 million decrease in proceeds from the exercise of stock options.

Capitalization

Indebtedness

The table below summarizes indebtedness under our mortgage notes payable and our unsecured debt at June 30, 2017 and December 31, 2016:

	June 30, 2017	December 31, 2016		
	(dollars in thousands)			
Balance: (a)				
Fixed rate	\$ 1,726,205	\$ 2,028,648		
Variable rate - unhedged	200,000	-		
Total	\$ 1,926,205	\$ 2,028,648		
Percent of Total Debt:				
Fixed rate	89.6	%	100.0	%
Variable rate - unhedged	10.4	%	-	
Total	100.0	%	100.0	%
Weighted-average interest rate at period end:				
Fixed rate	4.3	%	4.5	%
Variable rate - unhedged	2.4	%	-	
Total	4.1	%	4.5	%
Weighted-average maturity in years:				
Fixed rate	6.4		5.9	
Variable rate - unhedged	1.9		-	
Total	5.9		5.9	

(a) Consists of unpaid principal and does not include premium/discount or deferred financing costs.

Scheduled principal payments and related weighted average annual effective interest rates for our debt as of June 30, 2017 are as follows (in thousands):

Period	Scheduled amortization	Principal maturities	Total	Weighted Average Interest Rate of
--------	---------------------------	-------------------------	-------	--

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

				Maturing Debt	
2017	\$ 2,488	\$-	\$2,488	3.75	%
2018	6,601	325,000	331,601	5.11	%
2019	7,360	200,000	207,360	2.43	%

54

The indenture under which the Operating Partnership issued its unsecured notes contains financial covenants, including (i) a leverage ratio not to exceed 60%, (ii) a secured debt leverage ratio not to exceed 40%, (iii) a debt service coverage ratio of greater than 1.5 to 1.0 and (iv) an unencumbered asset value of not less than 150% of unsecured debt. The Operating Partnership is in compliance with all covenants as of June 30, 2017.

The Operating Partnership has mortgage loans that are collateralized by certain of its properties. Payments on mortgage loans are generally due in monthly installments of principal and interest, or interest only. The Operating Partnership intends to refinance or repay its indebtedness as it matures, subject to tax guarantees, through the use of proceeds from selective property sales and secured or unsecured borrowings. However, in the current and expected future economic environment one or more of these sources may not be available on attractive terms or at all.

Equity

On May 18, 2017, the Parent Company declared a distribution of \$0.16 per common share, totaling \$28.4 million, which it paid on July 21, 2017 to its shareholders of record as of July 7, 2017. On May 18, 2017, the Operating Partnership declared a distribution of \$0.16 per common partnership unit, totaling \$28.4 million, which was paid on July 21, 2017 to unitholders of record as of July 7, 2017. In order to maintain its qualification as a REIT, the Parent Company is required to, among other things, pay dividends to its shareholders of at least 90% of its REIT taxable income.

On April 11, 2017, the Parent Company redeemed all of its outstanding 4,000,000 Series E Preferred Shares at an aggregate redemption price of \$25.51 per share, which includes \$2.0 million of dividends accrued through the redemption date. The redemption was funded with cash from existing cash balances on hand.

Also on April 11, 2017, the Parent Company recognized a \$3.2 million charge related to the underwriting discount and related expenses incurred at issuance of the Series E Preferred Shares on April 11, 2012. This charge is included in the earnings per share calculations above, as well as within the Parent Company's consolidated income statements as a reduction in net income to arrive at net income attributable to common shareholders under the caption 'Preferred share redemption charge.' There were no comparable charges for the prior year.

Inflation

A majority of our leases provide for tenant reimbursement of real estate taxes and operating expenses either on a triple net basis or over a base year or stop amount. In addition, many of our office leases provide for fixed base rent increases. We believe that inflationary increases in expenses will be partially offset by expense reimbursement and contractual rent increases.

Contractual Obligations

The following table outlines the timing of payment requirements related to our contractual obligations as of June 30, 2017:

	Payments by Period (in thousands)				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Mortgage notes payable (a)	\$322,595	\$5,513	\$94,949	\$12,200	\$209,933
Credit Facility	200,000	-	200,000	-	-
Unsecured term loan (a)	250,000	-	-	-	250,000
Unsecured debt (a)	1,153,610	325,000	-	-	828,610

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

Ground leases (b)	62,969	1,210	2,420	2,420	56,919
Development contracts (c)	109,702	108,049	1,653	-	-
Interest expense (d)	415,415	68,006	109,575	88,090	149,744
Other liabilities (e)	28,730	2,348	7,415	8,001	10,966
	\$2,543,021	\$510,126	\$416,012	\$110,711	\$1,506,172

55

- (a) Amounts are gross of deferred financing costs and do not include unamortized discounts and/or premiums.
- (b) Future minimum rental payments under the terms of all non-cancelable ground leases under which we are the lessee are expensed on a straight-line basis regardless of when payments are due. The table also does not include the future minimum rental payments related to two ground leases in Philadelphia, Pennsylvania.
- (c) Represents contractual obligations for wholly owned development projects and does not contemplate all costs expected to be incurred for such developments. This table does not include contractual obligations for our real estate venture developments, which are referenced below.
- (d) Variable rate debt future interest expense commitments are calculated using June 30, 2017 interest rates.
- (e) Other liabilities consists of (i) our deferred compensation liability, (ii) the interest accretion on the anticipated transfer tax liability on Two Logan Square in Philadelphia, Pennsylvania, (iii) the contingent consideration associated with the purchase of 618 Market Street in Philadelphia, Pennsylvania and (iv) the deferred payment associated with the purchase of 2100 Market Street in Philadelphia, Pennsylvania.

The above table does not include amounts related to the JBG Ventures at 51 N 50 Patterson and 1250 First Street in Washington, D.C., the 1919 Ventures development of the property located at 20th and Market Street in Philadelphia, Pennsylvania or the 4040 Wilson development in Arlington, Virginia. For further discussion of real estate venture developments, see Item 1. "Business – Developments," included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 and section "Overview – Development Risk," within Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations," for further details.

We provide customary guarantees for certain development projects of our unconsolidated real estate ventures. See Note 4, "Investment in Unconsolidated Real Estate Ventures," to the consolidated financial statements for further details on payment guarantees provided on the behalf of real estate ventures.

In addition, the above table does not include amounts related to the Schuylkill Yards Project. See Item 1. "Business - Developments" included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 for further details.

On July 1, 2016, we closed on the acquisition of 34.6 acres of land located in Austin, Texas known as the Garza Ranch. As of June 30, 2017, we sold two parcels containing 8.4 acres and 1.7 acres (of the 34.6 acres) to two unaffiliated third parties. In connection with the agreements of sale, we entered into a development agreement and related completion guarantee to construct certain infrastructure improvements to the land on behalf of each buyer, estimated to cost \$14.3 million. Total estimated costs related to the improvements are included in the sale price of each land parcel. Recognition of the profit earned upon sale of the land parcels is deferred until the improvements are completed. The unfunded portion of these infrastructure costs are not included in the above table within the 'Development contracts' caption.

As of December 31, 2016, we provided a cost overrun guarantee on the Subaru Headquarters Development (See Note 13, "Commitments and Contingencies" in our Consolidated Financial Statements for further information) for amounts in excess of the NTE amount. The NTE amount, currently at \$79.4 million, may be adjusted by change orders agreed upon by both Subaru and us. We are obligated to pay for construction costs in excess of the NTE amount. The terms of the guarantee do not provide a limitation on the costs we may be responsible for. The above table does not include any costs related to this cost overrun guarantee.

As of June 30, 2017, we were obligated to pay a maximum of \$52.8 million for tenant improvements not yet completed and expect to incur \$18.0 million for capital improvements to operating properties, which are not included in the above table. We expect that most of the obligations will be paid within one year.

1031 Exchange

On February 2, 2017, we disposed of two properties, known as Concord Airport Plaza, consisting of 350,256 rentable square feet, located in Concord, California. As part of the Company's 2006 merger with Prentiss Properties Trust, we agreed not to sell Concord Airport Plaza in a taxable transaction until March 2018. In accordance with the agreement, we designated the disposition of the Concord Airport Plaza as a tax free exchange under Section 1031 of the Internal Revenue Code ("1031 Exchange"). As of June 30, 2017, we have identified replacement properties in a 1031 Exchange transaction and is required to acquire the property on or before August 1, 2017. If we do not acquire a property by August 1, 2017, we will be required to make a payment of \$13.5 million to satisfy tax liabilities attributed to Concord Airport Plaza. The acquisition has not occurred prior to the filing date of our report on this Form 10-Q. We have not recorded a loss contingency because there are no contingencies prohibiting us from acquiring the replacement property. With the information available to us prior to the issuance of our financial statements, management has determined that it is not probable a tax liability will be incurred.

Put Option

On May 4, 2015, we entered into a put agreement in the ordinary course of business that grants an independent third party the unilateral option to require us to purchase a property, at a predetermined price, until May 4, 2018. In addition to the \$35.0 million purchase price, we would be responsible for transaction and closing costs. There can be no assurance that the counterparty will exercise the option.

Funds from Operations (FFO)

Pursuant to the revised definition of FFO adopted by the Board of Governors of the National Association of Real Estate Investment Trusts (“NAREIT”), we calculate FFO by adjusting net income/(loss) attributable to common unit holders (computed in accordance with GAAP) for gains (or losses) from sales of properties, impairment losses on depreciable consolidated real estate, impairment losses on investments in unconsolidated real estate ventures driven by a measurable decrease in the fair value of depreciable real estate held by the unconsolidated Real Estate Ventures, real estate related depreciation and amortization, and after similar adjustments for unconsolidated Real Estate Ventures. FFO is a non-GAAP financial measure. We believe that the use of FFO combined with the required GAAP presentations, has been beneficial in improving the understanding of operating results of REITs among the investing public and making comparisons of REITs’ operating results more meaningful. We consider FFO to be a useful measure for reviewing comparative operating and financial performance because, by excluding gains or losses related to sales of previously depreciated operating real estate assets and real estate depreciation and amortization, FFO can help the investing public compare the operating performance of a company’s real estate between periods or as compared to other companies. Our computation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently.

We consider net income, as defined by GAAP, to be the most comparable earnings measure to FFO. While FFO and FFO per unit are relevant and widely used measures of operating performance of REITs, FFO does not represent cash flow from operations or net income as defined by GAAP and should not be considered as alternatives to those measures in evaluating our liquidity or operating performance. We believe that to further understand our performance, FFO should be compared with our reported net income/(loss) attributable to common unit holders and considered in addition to cash flows in accordance with GAAP, as presented in our consolidated financial statements.

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

The following table presents a reconciliation of net income (loss) attributable to common unit holders to FFO for the three- and six-month periods ended June 30, 2017 and 2016:

	Three-month periods ended		Six-month periods ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
	(amounts in thousands, except share information)			
Net income (loss) attributable to common unitholders	\$4,129	\$(3,131)	\$23,571	\$41,347
Add (deduct):				
Amount allocated to unvested restricted unitholders	73	79	172	184
Net gain on real estate venture transactions	-	(3,128)	(14,582)	(9,057)
Net (gain) loss on disposition of real estate	(1,088)	727	(8,411)	(114,729)
Provision for impairment (a)	-	5,679	2,730	13,069
Depreciation and amortization:				
Real property — continuing operations	35,948	33,577	69,598	66,852
Leasing costs including acquired intangibles — continuing operations	8,131	13,231	20,249	28,745
Company's share of unconsolidated real estate ventures	10,449	10,549	20,689	19,554
Partners' share of consolidated real estate ventures	(64)	(59)	(123)	(118)
Funds from operations	\$57,578	\$57,524	\$113,893	\$45,847
Funds from operations allocable to unvested restricted shareholders	(151)	(161)	(349)	(115)
Funds from operations available to common share and unit holders (FFO)	\$57,427	\$57,363	\$113,544	\$45,732
Weighted-average shares/units outstanding — fully diluted (b)	178,236,397	177,688,180	177,960,179	177,355,730

(a) In accordance with the NAREIT definition of FFO, impairment on land held for development is excluded.

(b) Weighted-average shares/units outstanding comprise our common shares and partnership units that are outstanding as of the three and six months ended June 30, 2017 and 2016, respectively.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the exposure to loss resulting from changes in interest rates, commodity prices and equity prices. In pursuing our business plan, the primary market risk to which we are exposed is interest rate risk. Changes in the general level of interest rates prevailing in the financial markets may affect the spread between our yield on invested assets and cost of funds and, in turn, our ability to make distributions or payments to our shareholders. While we have not experienced any significant credit losses, in the event of a significant rising interest rate environment and/or continued economic slowdown, defaults could increase and result in losses to us which would adversely affect our operating results and liquidity.

Interest Rate Risk and Sensitivity Analysis

The analysis below presents the sensitivity of the market value of the Operating Partnership's financial instruments to selected changes in market rates. The range of changes chosen reflects its view of changes which are reasonably

possible over a one-year period. Market values are the present value of projected future cash flows based on the market rates chosen.

Our financial instruments consist of both fixed and variable rate debt. As of June 30, 2017, our consolidated debt consisted of mortgage loans with an outstanding principal balance of \$322.6 million and unsecured notes with an outstanding principal balance of \$1,075.0 million, all of which are fixed rate borrowings. We also have variable rate debt consisting of trust preferred securities with an outstanding principal balance of \$78.6 million and an unsecured term loan with an outstanding principal balance of \$250.0 million, all of which have been swapped to fixed rates, and \$200.0 million of LIBOR based variable rate debt outstanding under our Credit Facility. All financial instruments were entered into for other than trading purposes and the net market value of these financial instruments is referred to as the net financial position. Changes in interest rates have different impacts on the fixed and variable rate portions of our debt portfolio. A change in interest rates on the fixed portion of the debt portfolio impacts the net financial position, but has no impact on

interest incurred or cash flows. A change in interest rates on the variable portion of the debt portfolio impacts the interest incurred and cash flows, but does not impact the net financial position.

If market rates of interest increase by 100 basis points, the fair value of our outstanding fixed-rate mortgage debt would decrease by approximately \$13.2 million. If market rates of interest decrease by 100 basis points, the fair value of our outstanding fixed-rate mortgage debt would increase by approximately \$13.9 million.

As of June 30, 2017, based on prevailing interest rates and credit spreads, the fair value of our unsecured notes was \$1,089.8 million. For sensitivity purposes, a 100 basis point change in the discount rate equates to a change in the total fair value of our unsecured notes of approximately \$10.8 million at June 30, 2017.

From time to time or as the need arises, we use derivative instruments to manage interest rate risk exposures and not for speculative or trading purposes. The total outstanding principal balance of our variable rate debt (including variable swapped to fixed) was approximately \$528.6 million at June 30, 2017. The total fair value of our debt was approximately \$508.3 million at June 30, 2017. At June 30, 2017, the weighted-average interest rates of our variable swapped to fixed borrowings were approximately 3.56%. At June 30, 2017, the effective interest rate of our Credit Facility was 2.37%. For sensitivity purposes, if market rates of interest increase by 100 basis points the fair value of our variable rate debt would decrease by approximately \$23.0 million at June 30, 2017. If market rates of interest decrease by 100 basis points the fair value of our outstanding variable rate debt would increase by approximately \$25.1 million.

These amounts were determined solely by considering the impact of hypothetical interest rates on our financial instruments. Due to the uncertainty of specific actions we may undertake to minimize possible effects of market interest rate increases, this analysis assumes no changes in our financial structure.

Item 4. Controls and Procedures

Controls and Procedures (Parent Company)

- (a) Evaluation of disclosure controls and procedures. Under the supervision and with the participation of its management, including its principal executive officer and principal financial officer, the Parent Company conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this quarterly report. Based on this evaluation, the Parent Company's principal executive officer and principal financial officer have concluded that the Parent Company's disclosure controls and procedures are effective as of the end of the period covered by this quarterly report.
- (b) Changes in internal control over financial reporting. There was no change in the Parent Company's internal control over financial reporting that occurred during the period covered by this quarterly report that has materially affected, or is reasonably likely to materially affect, the Parent Company's internal control over financial reporting.

Controls and Procedures (Operating Partnership)

- (a) Evaluation of disclosure controls and procedures. Under the supervision and with the participation of its management, including its principal executive officer and principal financial officer, the Operating Partnership conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act as of the end of the period covered by this quarterly report. Based on this evaluation, the Operating Partnership's principal executive officer and principal financial officer have concluded that the Operating Partnership's disclosure controls and procedures are effective as of the end of the period covered by this quarterly report.
- (b) Changes in internal control over financial reporting. There was no change in the Operating Partnership's internal control over financial reporting that occurred during the period covered by this quarterly report that has materially affected, or is reasonably likely to materially affect, the Operating Partnership's internal control over financial

reporting.

59

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the following risk factor as well as the other factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

Our development projects are dependent on strategic alliances with unaffiliated third parties

The challenge of managing our strategic alliances is rising. As our development projects become more complex, the need for trust, collaboration, and equitable risk-sharing is essential to the success of these projects. The alliances we engage in are driven by the complementary skills and capabilities of our partners. Despite the diligence performed establishing these alliances, our objectives may not completely align with those of our partners throughout the development project or projects. Disagreements with one or more third parties with whom we partner in the development of one or more of the development components may restrict our ability to act exclusively in our own interests. In addition, failure of one or more third parties with whom we partner to fulfill obligations to us could result in delays and increased costs to us associated with finding a suitable replacement partner. Increased costs could require us to revise or abandon our activities entirely with respect to one or more components of the project and, in such event, we would not recover, and would be required to write-off, costs we had capitalized in development.

If a transaction intended to qualify as a Section 1031 Exchange is later determined to be taxable, or if we are unable to identify and complete the acquisition of a suitable replacement property to effect a Section 1031 Exchange, we may face adverse consequences.

From time to time we seek to dispose of properties in transactions that are intended to qualify as tax-deferred “like kind exchanges” under Section 1031 of the Internal Revenue Code of 1986, as amended (a “Section 1031 Exchange”). It is possible that the qualification of a transaction as a Section 1031 Exchange could be successfully challenged and determined to be currently taxable. It is also possible that we are unable to identify and complete the acquisition of a suitable replacement property to effect a Section 1031 Exchange. In any such case, our taxable income and earnings and profits would increase. This could increase the dividend income to our shareholders by reducing any return of capital they received. In some circumstances, we may be required to pay additional dividends or, in lieu of that, corporate income tax, possibly including interest and penalties. As a result, we may be required to borrow funds in order to pay additional dividends or taxes, and the payment of such taxes could cause us to have less cash available to distribute to our shareholders. In addition, if a Section 1031 Exchange were later to be determined to be taxable, we may be required to amend our tax returns for the applicable year in question, including any information reports we sent our shareholders. Moreover, it is possible that legislation could be enacted that could modify or repeal the laws with respect to Section 1031 Exchanges, which could make it more difficult or not possible for us to dispose of properties on a tax deferred basis.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

- (a) None.
- (b) Not applicable.
- (c)

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

There were no common share repurchases under the Parent Company's share repurchase program, or other repurchases of equity securities of the Parent Company or the Operating Partnership, during the fiscal quarter ended June 30, 2017. As of June 30, 2017, \$32.7 million remained available for repurchases under our share repurchase program.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.
