LETTER TO STOCKHOLDERS

[PHOTO]

Douglas G. Ober,
Chairman, President and Chief
Executive Officer

The year 2008 will go down as one of the worst years in history for stock market returns. The energy sector and Petroleum & Resources Corporation performed roughly in line with the poor returns of the overall market. The total return on the net assets of the Fund was -39.8%, whereas the Dow Jones U.S. Oil and Gas Index (DJOGI) returned -35.8% and the S&P 500 returned -37.0%. The Fund's energy investments, on average 85.7% of the portfolio, provided a disappointing -41.2% return.

A Review of 2008

The dramatic increase in energy prices experienced in 2007 accelerated in the first half of 2008, as the demand for all major forms of energy -- oil, natural gas, coal, and electricity -- expanded to keep up with world economic growth and as supplies were constrained by production capacity. It is also believed that speculation played a part in the rapid price increases, though its direct role is difficult to pin down. The price of a barrel of oil rose nearly 50% to \$140. Natural gas reached \$13.35 per thousand cubic feet (up 80%), and thermal coal hit \$132/ton (up 135%). As the economic recession in this country began to take its toll in July and the credit crisis worsened, demand for energy began to decline even faster than it had grown, and prices went into free-fall. By year end, oil was down 68% from its peak to \$44.60 per barrel, despite two announced cuts in production by OPEC totaling 4.2 million barrels per day. Natural gas producers terminated drilling programs, with an estimated 300 rigs ceasing work by the end of December. Many drilling programs were too far along to stop, however, resulting in a steady rise in the amount of gas going into storage and in even lower prices.

In the first six months of 2008, the impact of increasing energy prices was seen in the 10.1% rise in the DJOGI despite an 11.6% decline in the S&P 500. Earnings expectations for energy companies were not rising as fast as the prices of the commodities because production costs were also rising rapidly, thus containing stock price increases. When commodity prices fell in the second half, energy stocks sold off rapidly, down 25% in the third quarter and another 22% in the final quarter.

The principal difference between the Fund's performance and the return of the DJOGI is the weighting of the integrated oil companies such as Exxon Mobil and Chevron. The DJOGI had an average weighting of 52.1% for the integrated companies during the year compared to the Fund's 36.6%. Our holdings of integrated companies returned -27.1%, whereas the DJOGI's holdings returned -23.4%. During periods of rising commodity prices, the large integrated companies often do not perform as well as more commodity-leveraged companies, and the heavy weighting drags down the performance of the DJOGI. In 2008, though, with rapidly falling commodity prices in the second half of the year, the integrated oil companies held up better than other segments of the

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

industry. Thus, like most investors in the sector, Petroleum & Resources' performance trailed that of the DJOGI.

The exploration and production companies in the portfolio, with an average weighting of 17.6%, performed better than the E&P companies in the DJOGI, returning -31.3% compared to the -40.6% return of the index companies. Within the oil services segment, the Fund's equipment and services stocks performed in line with the sub-sector of the DJOGI. Our drilling stocks underperformed by 3.6%, with an absolute return of -65.5%. The utilities in the portfolio were beneficial to our relative performance, with a return of -32.8%. Our holdings of coal stocks outperformed the coal producers in the Dow Jones U.S. Basic Materials Index (DJBMI) and our chemicals holdings performed in line with the chemicals sub-sector of the DJBMI.

INVESTMENT RESULTS

Net assets of the Corporation on December 31, 2008 were \$538,936,942 or \$22.49 per share on 23,958,656 shares outstanding. This compares with \$978,919,829 or \$42.99 per share on 22,768,250 shares outstanding a year earlier.

Net investment income for 2008 was \$9,651,706 compared to \$10,070,758 for 2007. These earnings are equivalent to \$0.43 and \$0.46 per share, respectively, on the average number of shares outstanding throughout each year. Our expense ratio (expenses to average net assets) for 2008 was 0.51% compared to 0.54% for 2007 and was once again at a low level compared to the industry.

2

LETTER TO STOCKHOLDERS (continued)

Net realized gains amounted to \$57,867,203 during the year, while the unrealized appreciation on investments decreased from \$606,901,290 at December 31, 2007 to \$151,455,732 at year end.

DIVIDENDS AND DISTRIBUTIONS

Total dividends and distributions paid in 2008 were \$2.99 per share compared to \$4.31 in 2007. The table on page 18 shows the history of our dividends and distributions over the past fifteen years, including the annual rate of distribution as a percentage of the average daily market price of the Corporation's Common Stock. In 2008, the annual rate of distribution was 8.88% compared to 11.61% in 2007. As announced on November 13, 2008, a year-end distribution consisting of investment income of \$0.08 per share and capital gains of \$2.52 per share was made on December 27, 2008, both realized and taxable in 2008. On January 8, 2009, an additional distribution of \$0.13 per share was declared to shareholders of record February 13, 2009, payable March 1, 2009, representing undistributed net investment income and capital gains earned in 2008 and an initial distribution from 2009 net investment income, taxable to shareholders in 2009.

OUTLOOK FOR 2009

With the domestic economy as well as those of many other countries in recession, it is unlikely that the fundamentals of supply and demand in the energy industry will change much during 2009. With refineries operating at about 85% of capacity, there is ample crude oil to meet their needs. The refineries do not need to operate at higher levels because there is plenty of gasoline, diesel, and heating oil to satisfy consumer and industrial demand. The second production cut by the members of OPEC, announced in December, will begin to be felt in deliveries in February, assuming the producers have the discipline to follow through. Given the budgetary constraints of many OPEC countries, their cutting back is in question. Until the worldwide economy resumes its growth, we expect that oil prices will remain in the \$40-\$50 range,

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

with possible spikes both up and down depending on factors such as increased Iraqi production, a resumption of the conflict in Israel, and further significant cuts from the OPEC cartel.

Our expectation is that the stimulus programs being put together by governments around the world will begin to have an effect on their economies in the third quarter of the year. By the end of the year, economic growth should resume in this country, but that could be tempered by the timing of recoveries elsewhere. Depending on how much inventories have been built up by then, it will still take time to draw them down before prices begin to move up in response to increased economic activity. Many companies have announced that projects to build productive capacity have been shelved in this period of lower prices in order to conserve cash. Until adequate returns can be earned on such projects, and in some cases financing is made available, those projects will not go forward, and we will once again find ourselves in short supply with little or no surplus capacity. Over a period of two to three years, we could see the price of oil rise significantly, depending on how responsive the world economy is to stimulus. Alternative fuels, hybrid vehicle use, and higher fuel efficiency in the transportation sector are also likely to impact the demand for oil in the intermediate term.

The situation with natural gas is much the same as that with oil, but is more dependent on domestic actions. As mentioned, the number of gas-oriented rigs in operation, both onshore and offshore the U.S., has declined. We expect that the number will decline much further, but gas production is still climbing at a rate approaching 10% due to drilling completions. This can be seen in the weekly storage statistics, which show much less draw than normal for the relatively cold weather experienced thus far this winter. With an expected rapid response to the drilling decline, production is expected to flatten out by mid-year. Depending on the weather, storage facilities are likely to be filled well above historic levels by that time. As with oil, production will have to be flat to down for several months before prices can strengthen. We therefore expect that natural gas prices will remain in the \$4-\$5 range for most of the year. There is very little impact that liquefied natural gas (LNG) will have on the domestic situation. Prices overseas, particularly in Europe, are higher than in the U.S., attracting most of the cargoes coming out of Middle East and Far East LNG-exporting facilities. We do anticipate that, due to the natural production decline rates of gas-producing fields in the U.S. and increased economic activity, drilling will have to pick up by 2010 in order to satisfy domestic demand. Then gas prices will strengthen again.

The coal industry benefited in 2008 from strong export markets for both metallurgical (for steel-making) and thermal/steam coal (for electricity generation). Further, in 2008 nuclear electricity-generating stations were closed in Japan, Australian ports were having logistical problems, and there was strong demand for steel in China for the Olympics on top of everything else. The second half of 2008 saw the end of most of these extraordinary demand

3

LETTER TO STOCKHOLDERS (continued)

drivers, and coal prices fell as sharply as crude oil and natural gas prices. Most coal producers have a good percentage of their 2009 production under contract, though not at the spot prices of six months ago. They should therefore do reasonably well until their current contracts are fulfilled.

At this time, the prices of energy and basic materials stocks reflect spot prices of commodities and large earnings declines for 2009. Current weak conditions, combined with the possibility of legislation favoring alternative fuels and carbon reductions, have seemingly outweighed any longer term

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

potential recovery of commodity prices, earnings, and reserve values. We believe, however, that there is a solid long-term outlook for traditional energy companies. Therefore, while we have made some sales to reflect current conditions, we are looking for opportunities to invest the Fund's cash in these areas. In addition, companies involved in alternative sources of energy may, at some point, become profitable without subsidies and thus attractive for investment, so we are keeping a close eye on them.

Historically, the benchmark against which we have measured the Fund's performance has been a combination of the DJOGI (80%) and the S&P 500 (20%). Since our holdings in companies active in areas outside the energy sector have been limited, we have concluded that the inclusion of the S&P 500 in our benchmark is no longer warranted. In recognition of the Fund's ability to invest in a wide variety of natural resources, we have decided that a more appropriate benchmark for the future is a measurement weighted 80% with the Dow Jones U.S. Oil & Gas Index and 20% with the Dow Jones U.S. Basic Materials Index. Basic materials have held a place in the Corporation's portfolio in the past, but the allocation has typically been well below 20%. It is our view that the raw materials required for infrastructure building and industrial production will experience price recoveries as the economic stimulus plans become a reality, and this will make basic materials companies such as chemical and mining companies attractive investments. Therefore, we are likely to place more emphasis on basic materials companies.

SHARE REPURCHASE PROGRAM

On December 11, 2008, the Board of Directors authorized the repurchase by management of up to 6% of the outstanding shares of the Corporation over the ensuing year. The repurchase program is subject to the restriction that shares can only be repurchased when the discount of the market price of the shares from the net asset value is 6.5% or greater.

From the beginning of 2009 through January 23, 2009, 60,400 shares have been repurchased at a total cost of \$1,187,136 and a weighted average discount from net asset value of 10.0%.

This Annual Report, along with the proxy statement for the Annual Meeting of Stockholders to be held in Baltimore on March 19, 2009, are expected to be mailed on or about February 17, 2009.

By order of the Board of Directors,

/s/ Douglas G. Ober
Douglas G. Ober,

Chairman, President and
Chief Executive Officer

NOTES TO FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES

Petroleum & Resources Corporation (the Corporation) is registered under the Investment Company Act of 1940 as a non-diversified investment company. The Corporation is an internally-managed fund emphasizing petroleum and other natural resource investments. The investment objectives of the Corporation are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates made by Corporation management. Management believes that estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Corporation ultimately realizes upon sale of the securities.

Security Transactions and Investment Income -- Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to shareholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation -- Investments in securities traded on national security exchanges are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options and money market funds) are valued at amortized cost, which approximates fair value. Purchased and written options are valued at the last quoted bid and asked price, respectively. Money market funds are valued at net asset value on the day of valuation.

The Corporation adopted Financial Accounting Standard Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"), effective January 1, 2008. There was no impact on the fair value of assets individually or in aggregate upon adoption. In accordance with FAS 157, fair value is defined as the price that the Corporation would receive upon selling an investment in an orderly transaction to an independent buyer. FAS 157 established a three-tier hierarchy to establish classification of fair value measurements, summarized as follows:

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

- . Level 1 -- fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,
- . Level 2 -- fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,
- . Level 3 -- fair value is determined using the Corporation's own assumptions, developed based on the best information available in the circumstances.

The Corporation's investments at December 31, 2008 were classified as follows:

Investment in securities	

Level 1	\$602,074,869
Level 2	16,977,238*
Level 3	--

Total	\$619,052,107

* Consists of short-term investments other than money market funds.

2. FEDERAL INCOME TAXES

The Corporation's policy is to distribute all of its taxable income to its shareholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at December 31, 2008 was \$467,566,552, and net unrealized appreciation aggregated \$151,485,555, of which the related gross unrealized appreciation and depreciation were \$240,671,187 and \$89,185,632, respectively. As of December 31, 2008, the tax basis of distributable earnings was \$1,375,994 of undistributed ordinary income and \$1,202,727 of undistributed long-term capital gain.

Distributions paid by the Corporation during the year ended December 31, 2008 were classified as ordinary income of \$9,486,049 and long-term capital gain of \$57,828,484. In comparison, distributions paid by the Corporation during the year ended December 31, 2007 were classified as ordinary income of \$11,559,594 and long-term capital gain of \$81,989,740. The distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Accordingly, periodic reclassifications are made within the Corporation's capital accounts to reflect income and gains available for distribution under income tax regulations. Any

8

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

income tax-related interest or penalties would be classified as income tax expense.

3. INVESTMENT TRANSACTIONS

The Corporation's investment decisions are made by a committee of management and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

investments, during the year ended December 31, 2008 were \$145,261,038 and \$215,709,864, respectively. Options may be written (sold) or purchased by the Corporation. For written options, covered calls or collateralized puts require deposits of securities or cash to be segregated with the custodian to guarantee delivery or payment if the options are exercised. When the Corporation writes an option, an amount equal to the premium received by the Corporation is recorded as a liability and is subsequently adjusted to the current fair value of the option written. Premiums received from unexercised options are treated as realized gains from investments on the expiration date. Premiums received from exercised put options reduce the cost basis of the securities purchased, and premiums received from exercised call options are added to the proceeds from the sale of the underlying security in determining whether there is a realized gain or loss. The Corporation as writer of an option bears the risks of possible illiquidity of the option markets and the unfavorable change in the price of the security underlying the written option. The risk associated with purchasing an option is limited to the premium originally paid for the option. There were no outstanding option contracts as of December 31, 2008.

Transactions in written covered call and collateralized put options during the year ended December 31, 2008 were as follows:

	Covered Calls		Collateralized Puts	
	Contracts	Premiums	Contracts	Premiums
Options outstanding, December 31, 2007	725	\$ 87,378	650	\$ 69,304
Options written	4,008	583,341	900	110,049
Options terminated in closing purchase transactions	(1,300)	(132,419)	(750)	(89,944)
Options expired	(2,833)	(451,135)	(800)	(89,409)
Options exercised	(600)	(87,165)	--	--
Options outstanding, December 31, 2008	--	\$ --	--	\$ --

4. CAPITAL STOCK

The Corporation has 5,000,000 authorized and unissued preferred shares, \$0.001 par value.

On December 27, 2007, the Corporation issued 1,109,759 shares of its Common Stock at a price of \$37.825 per share (the average market price on December 10, 2007) to stockholders of record November 21, 2007 who elected to take stock in payment of the distribution from 2007 capital gain and investment income. In addition, 446 shares were issued at a weighted average price of \$36.09 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

On December 27, 2008, the Corporation issued 1,557,059 shares of its Common Stock at a price of \$18.62 per share (the average market price on December 8, 2008) to stockholders of record November 21, 2008 who elected to take stock in payment of the distribution from 2008 capital gain and investment income. In addition, 725 shares were issued at a weighted average price of \$26.28 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

The Corporation may purchase shares of its Common Stock from time to time at such prices and amounts as the Board of Directors may deem advisable. Transactions in Common Stock for 2008 and 2007 were as follows:

	Shares		Amount	
	2008	2007	2008	2007
Shares issued in payment of distributions	1,557,784	1,110,205	\$ 29,006,338	\$ 41,992,828
Shares purchased (at an average discount from net asset value of 12.3% and 9.9%, respectively)	(381,979)	(538,375)	(12,721,842)	(19,224,514)
Net activity under the 2005 Equity Incentive Compensation Plan	14,601	15,553	595,171	477,259
Net change	1,190,406	587,383	\$ 16,879,667	\$ 23,245,573

5. RETIREMENT PLANS

The Corporation's non-contributory qualified defined benefit pension plan covers all employees with at least one year of service. In addition, the Corporation has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in

9

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur.

The Corporation uses a December 31 measurement date for its plans.

	2008	2007
Change in benefit obligation		
Benefit obligation at beginning of year	\$7,035,705	\$6,290,842
Service cost	240,432	348,352
Interest cost	313,509	374,693
Actuarial loss	290,539	86,279

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

Benefits paid	(69,266)	(64,461)
Plan changes	21,149	--

Benefit obligation at end of year	\$7,832,068	\$7,035,705

	2008	2007
	-----	-----
Change in plan assets		
Fair value of plan assets at beginning of year	\$ 5,038,930	\$ 4,673,247
Actual return on plan assets	(1,225,422)	98,936
Employer contribution	531,208	331,208
Benefits paid	(69,266)	(64,461)

Fair value of plan assets at end of year	\$ 4,275,450	\$ 5,038,930

Funded status	\$ (3,556,618)	\$ (1,996,775)

Items recognized in accumulated other comprehensive income:

	2008	2007
	-----	-----
Prior service cost	\$ 62,200	\$ 76,955
Net loss	3,616,064	1,979,937

Accumulated other comprehensive income	\$3,678,264	\$2,056,892

In 2009, the Corporation estimates that \$17,069 of prior service cost and \$369,363 of net losses, for a total of \$386,432, will be amortized from accumulated other comprehensive income into net periodic pension cost.

The accumulated benefit obligation for all defined benefit pension plans was \$6,435,218 and \$5,642,374 at December 31, 2008 and 2007, respectively.

	2008	2007
	-----	-----
Components of net periodic pension cost		
Service cost	\$ 240,432	\$ 348,352
Interest cost	313,509	374,693
Expected return on plan assets	(284,143)	(368,752)
Prior service cost component	35,904	37,717
Net loss component	163,977	226,165

Net periodic pension cost	\$ 469,679	\$ 618,175

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

	2008	2007
	-----	-----
Changes recognized in accumulated other comprehensive income		
Net loss	\$1,801,129	\$ 353,799
Prior service cost	20,124	--
Amortization of net loss	(163,977)	(226,165)
Amortization of prior service cost	(35,904)	(37,717)
	-----	-----
Change in accumulated other comprehensive income	\$1,621,372	\$ 89,917
	-----	-----

Assumptions used to determine benefit obligations are:

	2008	2007
	-----	-----
Discount rate	6.30%	6.00%
Rate of compensation increase	7.00%	7.00%

The assumptions used to determine net periodic pension cost are:

	2008	2007
	-----	-----
Discount rate	6.00%	5.75%
Expected long-term return on plan assets	7.25%	8.00%
Rate of compensation increase	7.00%	7.00%

The assumption used to determine expected long-term return on plan assets was based on historical and future expected returns of multiple asset classes in order to develop a risk-free real rate of return and risk premiums for each asset class. The overall rate for each asset class was developed by combining a long-term inflation component, the risk-free real rate of return, and the associated risk premium. A weighted average rate was developed based on those overall rates and the target asset allocation of the plan.

The asset allocations at December 31, 2008 and 2007, by asset category, were as follows:

	2008	2007
	----	----
Asset Category		
Equity Mutual Funds & Securities	43%	42%
Fixed Income Mutual Funds	57%	58%

Equity securities included common stock of The Adams Express Company, the

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

Corporation's non-controlled affiliate, in the amount of \$144,866 (3% of total plan assets) and \$241,170 (5% of total plan assets) at December 31, 2008 and 2007, respectively. The primary objective of the Corporation's pension plan is to provide capital appreciation, current income, and preservation of capital through a diversified portfolio of stocks and fixed income securities.

The Corporation's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Corporation deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. The Corporation contributed \$531,208 to the plans in 2008 and anticipates contributions of approximately \$500,000 in 2009.

The following benefit payments, which reflect expected future service and certain assumptions, are eligible to be paid in the years indicated:

Pension Benefits	

2009	\$2,590,000
2010	211,000
2011	212,000
2012	202,000
2013	203,000
Years 2014-2018	4,020,000

10

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The Corporation also sponsors a defined contribution plan that covers substantially all employees. The Corporation expensed contributions to this plan of \$118,460 and \$105,301 for the years ended December 31, 2008 and December 31, 2007, respectively. The Corporation does not provide postretirement medical benefits.

6. EQUITY-BASED COMPENSATION

Although the Stock Option Plan of 1985 ("1985 Plan") has been discontinued and no further grants will be made under this plan, unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Corporation during subsequent years. All options and related stock appreciation rights terminate 10 years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of December 31, 2008, and changes during the year then ended is presented below:

Options	Weighted- Average Exercise Price	Weighted- Average Remaining Life (Years)
-----	-----	-----

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

Outstanding at December 31, 2007	49,681	\$11.53	3.68
Exercised	(17,341)	10.05	
Cancelled	--	--	

Outstanding at December 31, 2008	32,340	\$ 9.68	3.34

Exercisable at December 31, 2008	6,787	\$ 7.68	3.66

The options outstanding as of December 31, 2008 are set forth below:

Exercise price	Options Outstanding	Weighted Average Exercise Price	Weighted Average Remaining Life (Years)
-----	-----	-----	-----
\$5.00-\$6.99	10,370	\$ 6.62	4.00
\$7.00-\$8.99	--	--	--
\$9.00-\$10.99	9,508	9.79	3.00
\$11.00-\$12.99	12,462	12.14	3.05

Outstanding at December 31, 2008	32,340	\$ 9.68	3.34

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost/(credit) recognized for the year ended December 31, 2008 was \$(341,764).

The 2005 Equity Incentive Compensation Plan ("2005 Plan"), adopted at the 2005 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 872,639 shares of the Corporation's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on achieving certain performance targets. If performance targets are not achieved, all or a portion of the performance-based restricted shares are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. Payment of awards may be deferred, if elected. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards were granted at fair market value on grant date. The number of shares of Common Stock which remain available for future grants under the 2005 Plan at December 31, 2008 is 815,767 shares.

A summary of the status of the Corporation's awards granted under the 2005 Plan as of December 31, 2008, and changes during the year then ended is presented below:

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

Awards	Shares/ Units	Weighted Average Grant-Date Fair Value
Balance at December 31, 2007	32,162*	\$33.00
Granted:		
Restricted stock	9,220	37.50
Restricted stock units	4,000	36.85
Deferred stock units	1,263	30.09
Vested & issued	(3,542)	31.63
Forfeited	--	--
Balance at December 31, 2008 (includes 31,934 performance-based awards and 11,169 nonperformance-based awards)	43,103	\$31.83

* Includes 2,000 units previously denoted as vested that were deferred.

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not

11

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

recognized and any previously recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the year ended December 31, 2008 were \$393,911. The total compensation costs for restricted stock units granted to non-employee directors for the year ended December 31, 2008 were \$153,089. As of December 31, 2008, there were total unrecognized compensation costs of \$358,094, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.56 years. The total fair value of shares vested and issued during the year ended December 31, 2008 was \$137,207.

7. OFFICER AND DIRECTOR COMPENSATION

The aggregate remuneration paid during the year ended December 31, 2008 to officers and directors amounted to \$2,637,962, of which \$345,357 was paid as fees to directors who were not officers. These amounts represent the taxable income to the Corporation's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

8. PORTFOLIO SECURITIES LOANED

The Corporation makes loans of securities to approved brokers to earn additional income. It receives as collateral cash deposits, U.S. Government securities, or bank letters of credit valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Corporation on the next business day. Cash deposits are placed in a registered money market fund. The Corporation accounts

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Corporation also continues to receive interest or dividends on the securities loaned. Gain or loss in the fair value of securities loaned that may occur during the term of the loan will be for the account of the Corporation. At December 31, 2008, the Corporation had securities on loan of \$76,089,513 and held cash collateral of \$76,988,162; additional collateral was delivered the next business day in accordance with the procedure described above. The Corporation is indemnified by the Custodian, serving as lending agent, for loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.

9. NEW ACCOUNTING PRONOUNCEMENTS

In March 2008, the Financial Accounting Standards Board issued the Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities ("FAS 161"), which is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about derivative and hedging activities, including how such activities are accounted for and their effect on financial position, performance and cash flows. Application of the standard is not expected to materially impact the Corporation's financial statements and related disclosures.

This report, including the financial statements herein, is transmitted to the stockholders of Petroleum & Resources Corporation for their information. It is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Corporation or of any securities mentioned in the report. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost. Past performance is not indicative of future investment results.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Petroleum & Resources Corporation:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Petroleum & Resources Corporation (the "Corporation") at December 31, 2008, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Corporation's management; our responsibility is to express an opin

ion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2008 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

ILLUSTRATION OF AN ASSUMED 15 YEAR INVESTMENT OF \$10,000
(unaudited)

Investment income dividends and capital gains distributions are taken in additional shares. This chart covers the years 1994-2008. Fees for the reinvestment of interim dividends are assumed as 2% of the amount reinvested (maximum of \$2.50) and commissions of \$0.05 per share. There is no charge for reinvestment of year-end distributions. No adjustment has been made for any income taxes payable by stockholders on income dividends or on capital gains distributions or the sale of any shares. These results should not be considered representative of the dividend income or capital gain or loss which may be realized in the future.

OTHER INFORMATION

STATEMENT ON QUARTERLY FILING OF COMPLETE PORTFOLIO SCHEDULE

In addition to publishing its complete schedule of portfolio holdings in the First and Third Quarter Reports to shareholders, the Corporation also files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Corporation's Forms N-Q are available on the Commission's website at www.sec.gov. The Corporation's Forms N-Q may be reviewed and copied at the Commission's Public Reference Room, and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Corporation also posts its Forms N-Q on its website at: www.peteres.com, under the heading "Financial Reports" and then "All Other SEC Filings".

ANNUAL CERTIFICATION

The Corporation's CEO has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

PROXY VOTING POLICIES AND RECORD

A description of the policies and procedures that the Corporation uses to determine how to vote proxies relating to portfolio securities owned by the

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

Corporation and information as to how the Corporation voted proxies relating to portfolio securities during the 12 month period ended June 30, 2008 are available (i) without charge, upon request, by calling the Corporation's toll free number at (800) 638-2479; (ii) on the Corporation's website by clicking on "Corporate Information" heading on the website; and (iii) on the Securities and Exchange Commission's website at www.sec.gov.

FORWARD-LOOKING STATEMENTS

This report contains "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. By their nature, all forward-looking statements involve risks and uncertainties, and actual results could differ materially from those contemplated by the forward-looking statements. Several factors that could materially affect the Corporation's actual results are the performance of the portfolio of stocks held by the Corporation, the conditions in the U.S. and international financial, petroleum and other markets, the price at which shares of the Corporation will trade in the public markets, and other factors discussed in the Corporation's periodic filings with the Securities and Exchange Commission.

PRIVACY POLICY

In order to conduct its business, the Corporation, through its transfer agent, currently American Stock Transfer & Trust Company, collects and maintains certain nonpublic personal information about our stockholders of record with respect to their transactions in shares of our securities. This information includes the stockholder's address, tax identification or Social Security number, share balances, and dividend elections. We do not collect or maintain personal information about stockholders whose shares of our securities are held in "street name" by a financial institution such as a bank or broker.

We do not disclose any nonpublic personal information about you, our other stockholders or our former stockholders to third parties unless necessary to process a transaction, service an account or as otherwise permitted by law.

To protect your personal information internally, we restrict access to nonpublic personal information about our stockholders to those employees who need to know that information to provide services to our stockholders. We also maintain certain other safeguards to protect your nonpublic personal information.

19

STOCKHOLDER INFORMATION AND SERVICES

WE ARE OFTEN ASKED --

How do I invest in Petroleum & Resources?

Petroleum & Resources Common Stock is listed on the New York Stock Exchange. The stock's ticker symbol is "PEO" and may be bought and sold through registered investment security dealers. Your broker will be able to assist you in this regard. In addition, stock may be purchased through our transfer agent, American Stock Transfer & Trust Company's INVESTORS CHOICE Plan (see page 21).

Where do I get information on the stock's price, trading and/or net asset value?

The daily net asset value (NAV) per share and closing market price may be obtained from our website at www.peteres.com. The daily NAV is also available on the NASDAQ Mutual Fund Quotation System under the symbol XPEOX. The week-ending NAV is published on Saturdays in various newspapers.

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

Petroleum's daily trading is shown in the stock tables of many daily newspapers, often with the abbreviated form "PetRes." Local newspapers determine, usually by volume of traded shares, which securities to list. If your paper does not carry our listing, please telephone the Corporation at (800) 638-2479 or visit our website.

How do I replace a lost certificate(s) or how do I correct a spelling error on my certificate?

Your Petroleum stock certificates are valuable documents and should be kept in a safe place. For tax purposes, keep a record of each certificate, including the cost or market value of the shares it covers at the time acquired. If a certificate is lost, destroyed or stolen, notify the transfer agent immediately so a "stop transfer" order can be placed on the records to prevent an unauthorized transfer of your certificate. The necessary forms and requirements to permit the issuance of a replacement certificate will then be sent to you. A certificate can be replaced only after the receipt of an affidavit regarding the loss accompanied by an open surety bond, for which a small premium is paid by the stockholder.

In the event a certificate is issued with the holder's name incorrectly spelled, a correction can only be made if the certificate is returned to the transfer agent with instructions for correcting the error. Transferring shares to another name also requires that the certificate be forwarded to the transfer agent with the appropriate assignment forms completed and the signature of the registered owner Medallion guaranteed by a bank or member firm of The New York Stock Exchange, Inc.

Is direct deposit of my dividend checks available?

Yes, our transfer agent offers direct deposit of your interim dividend and year-end distribution checks. You can request direct deposit with American Stock Transfer either on-line or by calling them at the phone number provided on page 21.

Who do I notify of a change of address?

The transfer agent.

We go to Florida (Arizona) every winter. How do we get our mail from Petroleum & Resources?

The transfer agent can program a seasonal address into its system; simply send the temporary address and the dates you plan to be there to the transfer agent.

I want to give shares to my children, grandchildren, etc., as a gift. How do I go about it?

Giving shares of Petroleum is simple and is handled through our transfer agent. The stock transfer rules are clear and precise for most forms of transfer. They will vary slightly depending on each transfer, so write to the transfer agent stating the exact intent of your gift plans and the transfer agent will send you the instructions and forms necessary to effect your transfer.

How do I transfer shares held at American Stock Transfer (AST)?

There are many circumstances that require the transfer of shares to new registrations, e.g., marriage, death, a child reaching the age of maturity, or giving shares as a gift. Each situation requires different forms of documentation to support the transfer. You may obtain transfer instructions and download the necessary forms from our transfer agent's website:

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

www.amstock.com. Click on Shareholder Services, then General Shareholder Information and Transfer Instructions.

20

STOCKHOLDER INFORMATION AND SERVICES (CONTINUED)

DIVIDEND PAYMENT SCHEDULE

The Corporation presently pays dividends four times a year, as follows: (a) three interim distributions on or about March 1, June 1, and September 1 and (b) a "year-end" distribution, payable in late December, consisting of the estimated balance of the net investment income for the year and the net realized capital gain earned through October 31. Stockholders may elect to receive the year-end distribution in stock or cash. In connection with this distribution, all stockholders of record are sent a dividend announcement notice and an election card in mid-November.

Stockholders holding shares in "street" or brokerage accounts may make their elections by notifying their brokerage house representative.

INVESTORS CHOICE

INVESTORS CHOICE is a direct stock purchase and sale plan, as well as a dividend reinvestment plan, sponsored and administered by our transfer agent, American Stock Transfer & Trust Company (AST). The plan provides registered stockholders and interested first time investors an affordable alternative for buying, selling, and reinvesting in Petroleum & Resources shares.

The costs to participants in administrative service fees and brokerage commissions for each type of transaction are listed below.

Initial Enrollment and Optional Cash Investments Service Fee	\$2.50 per investment
Brokerage Commission	\$0.05 per share
Reinvestment of Dividends*	
Service Fee	2% of amount invested (maximum of \$2.50 per investment)
Brokerage Commission	\$0.05 per share
Sale of Shares	
Service Fee	\$10.00
Brokerage Commission	\$0.05 per share
Deposit of Certificates for safekeeping (waived if sold)	\$7.50
Book to Book Transfers	Included

To transfer shares to another participant or to a new participant

Fees are subject to change at any time.

Minimum and Maximum Cash Investments

Initial minimum investment (non-holders)	\$500.00
Minimum optional investment	

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

(existing holders)	\$50.00
Electronic Funds Transfer	
(monthly minimum)	\$50.00
Maximum per transaction	\$25,000.00
Maximum per year	NONE

A brochure which further details the benefits and features of INVESTORS CHOICE as well as an enrollment form may be obtained by contacting AST.

For Non-Registered Stockholders

For stockholders whose stock is held by a broker in "street" name, the AST INVESTORS CHOICE Direct Stock Purchase and Sale Plan remains available through many registered investment security dealers. If your shares are currently held in a "street" name or brokerage account, please contact your broker for details about how you can participate in AST's Plan or contact AST.

Item 2. Code of Ethics.

On June 12, 2003, the Board of Directors adopted a code of ethics that applies to Registrant's principal executive officer and principal financial officer. The code of ethics is available on Registrant's website at: www.peteres.com. Since the code of ethics was adopted there have been no amendments to it nor have any waivers from any its provisions been granted.

Item 3. Audit Committee Financial Expert.

The board of directors has determined that at least one of the members of Registrant's audit committee meets the definition of audit committee financial expert as that term is defined by the Securities and Exchange Commission. The director on the Registrant's audit committee whom the board of directors has determined meets such definition is Enrique R. Arzac, who is independent pursuant to paragraph (a)(2) of this Item.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees. The aggregate fees for professional services rendered by its independent auditors, PricewaterhouseCoopers LLP, for the audits of the Corporation's annual and semi-annual financial statements for 2008 and 2007 were \$69,116 and \$65,825, respectively.

(b) Audit-Related Fees. There were no audit-related fees in 2008 and 2007.

(c) Tax Fees. The aggregate fees to Registrant for professional services rendered by PricewaterhouseCoopers LLP for the review of Registrant's excise tax calculations and preparations of federal, state and excise tax returns for 2008 and 2007 were \$10,710 and \$10,200, respectively.

(d) All Other Fees. The aggregate fees to Registrant by

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

PricewaterhouseCoopers LLP other than for the services referenced above for 2008 and 2007 were \$4,770 and \$3,534, respectively, which related to the Corporation's cash incentive plan and the 2005 Equity Incentive Compensation Plan, and preparation of a report to the Corporation's Compensation Committee.

(e) (1) Audit Committee Pre-Approval Policy. As of 2008, all services to be performed for Registrant by PricewaterhouseCoopers LLP must be pre-approved by the audit committee. All services performed in 2008 were pre-approved by the committee.

(2) Not applicable.

(f) Not applicable.

(g) The aggregate fees for non-audit professional services rendered by PricewaterhouseCoopers LLP to Registrant for 2008 and 2007 were \$15,480 and \$13,734, respectively.

(h) The Registrant's audit committee has considered the provision by PricewaterhouseCoopers LLP of the non-audit services described above and found that they are compatible with maintaining PricewaterhouseCoopers LLP's independence.

Item 5. Audit Committee of Listed Registrant's.

(a) The Registrant has a standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the audit committee are: Enrique R. Arzac, Chair, Frederic A. Escherich, Thomas H. Lenagh, and Craig R. Smith.

(b) Not applicable.

Item 6. Schedule of Investments.

(a) This schedule is included as part of the report to stockholders filed under Item 1 of this form.

(b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

PROXY VOTING GUIDELINES

Petroleum & Resources Corporation (Petroleum) follows long-standing general guidelines for the voting of portfolio company proxies and takes very seriously its responsibility to vote all such proxies. The portfolio company proxies are evaluated by our research staff and voted by our portfolio management team, and we annually provide the Board of Directors with a report on how proxies were voted during the previous year. We do not use an outside service to assist us in voting our proxies.

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

As an internally-managed investment company, Petroleum uses its own staff of research analysts and portfolio managers. In making the decision to invest in a company for the portfolio, among the factors the research team analyses is the integrity and competency of the company's management. We must be satisfied that the companies we invest in are run by managers with integrity. Therefore, having evaluated this aspect of our portfolio companies' managements, we give significant weight to the recommendations of the company's management in voting on proxy issues.

We vote proxies on a case-by-case basis according to what we deem to be the best long-term interests of our shareholders. The key over-riding principle in any proxy vote is that stockholders be treated fairly and equitably by the portfolio company's management. In general, on the election of directors and on routine issues that we do not believe present the possibility of an adverse impact upon our investment, after reviewing whether applicable corporate governance requirements as to board and committee composition have been met, we will vote in accordance with the recommendations of the company's management. When we believe that the management's recommendation is not in the best interests of our stockholders, we will vote against that recommendation.

Our general guidelines for when we will vote contrary to the recommendation of the portfolio company management's recommendation are:

Stock Options

Our general guideline is to vote against stock option plans that we believe are unduly dilutive of our stock holdings in the company. We use a general guideline that we will vote against any stock option plan that results in dilution in shares outstanding exceeding 4%. Most stock option plans are established to motivate and retain key employees and to reward them for their achievement. An analysis of a stock option plan can not be made in a vacuum but must be made in the context of the company's overall compensation scheme. In voting on stock option plans, we give consideration to whether the stock option plan is broad-based in the number of employees who are eligible to receive grants under the plan. We generally vote against plans that permit re-pricing of grants or the issuance of options with exercise prices below the grant date value of the company's stock.

Corporate Control/Governance Issues

Unless we conclude that the proposal is favorable to our interests as a long-term shareholder in the company, we have a long-standing policy of voting against proposals to create a staggered board of directors. In conformance with that policy, we will generally vote in favor of shareholder proposals to eliminate the staggered election of directors.

Unless we conclude that the proposal is favorable to our interests as a long-term shareholder in the company, our general policy is to vote against amendments to a company's charter that can be characterized as blatant anti-takeover provisions.

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

With respect to so-called golden parachutes and other severance packages, it is our general policy to vote against proposals relating to future employment contracts that provide that compensation will be paid to any director, officer or employee that is contingent upon a merger or acquisition of the company.

We generally vote for proposals to require that the majority of a board of directors consist of independent directors and vote against proposals to establish a retirement plan for non-employee directors.

We have found that most stockholder proposals relating to social issues focus on very narrow issues that either fall within the authority of the company's management, under the oversight of its board of directors, to manage the day-to-day operations of the company or concern matters that are more appropriate for global solutions rather than company-specific ones. We consider these proposals on a case-by-case basis but usually are persuaded managements position is reasonable and vote in accordance with managements recommendation on these types of proposals.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a) (1) As of the date of this filing, Douglas G. Ober, Chairman, Chief Executive Officer, and President, Joseph M. Truta, Executive Vice President, and Robert E. Sullivan, Executive Vice President, comprise the 3 person portfolio management team for the Registrant. Mr. Ober and Mr. Truta have served as portfolio managers for the Registrant since 1991 and Mr. Sullivan since 2008. Mr. Sullivan served as Vice President-Research from April 2006 to January 2008 and as a research analyst from 2004 to April 2006. Mr. Ober is the lead member of the portfolio management team. Messrs. Ober, Truta and Sullivan receive investment recommendations from a team of research analysts and make decisions jointly about any equity transactions in the portfolio. Concurrence of the portfolio managers is required for an investment recommendation to be approved.

(2) As of the date of this filing, Mr. Ober and Mr. Truta also serve on the portfolio management team for Registrant's non-controlling affiliate, The Adams Express Company (Adams), a registered investment company with total net assets of \$840,012,143 as of December 31, 2008. Mr. Ober is Chairman and Chief Executive Officer of Adams and Mr. Truta is President. The Registrant is a non-diversified fund focusing on the energy and natural resources sectors and Adams is a diversified fund with a different focus, and there are few material conflicts of interest that may arise in connection with these portfolio managers' management of both funds. The funds do not buy or sell securities or other portfolio holdings to or from the other, and procedures and policies are in place covering the sharing of expenses and the allocation of investment opportunities, including bunched orders and investments in initial public offerings, between the funds.

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

(3) The portfolio managers are compensated through a three-component plan, consisting of salary, annual cash incentive compensation, and equity incentive compensation. The value of each component in any year is determined by the Compensation Committee, comprised solely of independent director members of the Board of Directors ("Committee"). The Committee has periodically employed a compensation consultant to review the plan and its components. Salaries are determined by using appropriate industry surveys and information about the local market as well as general inflation statistics. Cash incentive compensation is based on a combination of absolute and relative fund performance, with a two-thirds weighting, and individual success at meeting goals and objectives set by the Board of Directors at the beginning of each year, with a one-third weighting. Target incentives are set annually based on 80% of salary for the Chief Executive Officer and 60% of salary for the Executive Vice Presidents. The fund performance used in determining cash incentive compensation is measured over both a one-year period, accounting for two-thirds of the calculation, and a three-year period, which accounts for one-third. The total return on net asset value of the Fund over each of the two periods is used to determine a base percentage of target, which, for 2008, is then adjusted by performance relative to a hypothetical portfolio comprised of an 80/20 blend of the Dow Jones U.S. Oil and Gas Index and the S&P 500 Index ("Hypothetical Portfolio"). Using these calculations, the cash incentive compensation can range from 0% to a maximum of 200% of the established target. Equity incentive compensation, based on a plan approved by shareholders in 2005, can take several forms. Following approval of the plan, grants of restricted stock were made to the portfolio managers in April 2005, with vesting in equal proportions over a three year period. The size of the grants was determined by the Committee with the assistance of an outside compensation consultant. Grants of restricted stock were also made on January 10, 2008, (previous grants had been made on January 11, 2007, and January 12, 2006), which vest three years after grant, but only upon the achievement of specified performance criteria. For the 2008 grants, the target number of restricted shares will vest if, on the January 1 prior to the vest date ("measurement date"), the Registrant's total three year net asset value ("NAV") return meets or exceeds the three year total NAV return of a performance benchmark comprised of, for year 2008, the Hypothetical Portfolio, and for years 2009 and 2010, a hypothetical portfolio consisting of an 80/20 blend of the Dow Jones U. S. Oil and Gas Index and the Dow Jones U. S. Basic Materials Index. Depending on the level of Registrant's outperformance or underperformance of the performance benchmark on the measurement date, an additional number of shares, a lesser percentage, or no shares will be earned and vest.

(4) Using a valuation date of December 31, 2008, Mr. Ober beneficially owns equity securities in Registrant valued over \$1,000,000. Mr. Truta beneficially owns equity securities in Registrant valued between \$500,001 and \$1,000,000. Mr. Sullivan beneficially owns equity securities in Registrant valued between \$100,001 and \$500,000.

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

(b) Not applicable.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
Jan. 2008	41,400	\$34.05	41,400	1,009,120
Feb. 2008	25,600	\$34.49	25,600	983,520
Mar. 2008	17,200	\$36.24	17,200	966,320
Apr. 2008	14,200	\$40.50	14,200	952,120
May 2008	28,400	\$41.03	28,400	923,720
June 2008	14,700	\$42.71	14,700	909,020
Jul. 2008	143,500	\$38.71	143,500	765,520
Aug. 2008	0	\$0	0	765,520
Sep. 2008	0	\$0	0	765,520
Oct. 2008	0	\$0	0	765,520
Nov. 2008	0	\$0	0	765,520
Dec. 2008	96,979	\$19.41	96,979	1,252,893 (2)
Total	381,979 (1)	\$33.31	381,979 (2)	

(1) There were no shares purchased other than through a publicly announced plan or program.

(2.a) The Plan was announced on December 13, 2007.

(2.b) The share amount approved for 2008 was 5% of outstanding shares, or approximately 1,084,620 shares.

(2.c) The Plan was set to expire December 2008, but was extended by the Board on December 11, 2008 for twelve months, authorizing purchases of up to 6% of the outstanding shares, or approximately 1,349,872 shares, through December 2009.

(2.d) None.

(2.e) None.

Item 10. Submission of Matters to a Vote of Security Holders.

There were no material changes to the procedures by which shareholders may recommend nominees to the Registrant's board of directors made or implemented after the Registrant last provided disclosure in response to the requirements of Item 7(d)(2)(ii)(G) of Schedule 14A (17 CFR 240.14a-101), or this Item.

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSR

Item 11. Controls and Procedures.

Conclusions of principal officers concerning controls and procedures.

(a) The Registrant's principal executive officer and principal financial officer have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) are effective based on their evaluation of the disclosure controls and procedures as of a date within 90 days of the filing date of this report.

(b) There have been no significant changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the Registrant's second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) Not applicable. See Registrant's response to Item 2 above.

(2) Separate certifications by the Registrant's principal executive officer and principal financial officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 and required by Rule 30a-2(a) under the Investment Company Act of 1940, are attached.

(3) Written solicitation to purchase securities: not applicable.

(b) A certification by the Registrant's principal executive officer and principal financial officer, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 and required by Rule 30a-2(b) under the Investment Company Act of 1940, is attached.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
