Dividends will be paid only on vested restricted performance shares.

Each grant of stock options and restricted performance shares were made under the Plan pursuant to and consistent with the Company's form of Nonstatutory Stock Option Agreement and form of Restricted Performance Share Grant Agreement, which the Company intends to file as exhibits to its Annual Report on Form 10-K for the fiscal year ended December 31, 2004 on or before March 16, 2005. Item 9.01 Financial Statements and Exhibits

Exhibit 10 Executive Cash Bonus Program

Westamerica Bancorporation's the Company's) executive compensation program generally includes salary, annual cash bonuses, stock options, restricted performance share awards, and Company contributions to non-qualified compensation plans. This description relates to the annual cash bonus element of that program.

The most senior executives participate in the "Group I" or "Senior Management" portion of the program. The Group I program includes annual cash bonuses which are targeted in the range of 35% - 80% of salary if annual corporate performance measures and individual or division-level goals are met. Each position has a designated target within these ranges, with the CEO having the highest percentage and other senior managers at lower points in the range. Other selected senior managers participate in the "Group II" or "Management" portion of this program. The Group II program includes annual cash bonuses which are targeted in the range of 10% - 30% of salary if established goals are met.

The Employee Benefits and Compensation Committee of the Board of Directors (the "Compensation Committee") selects participants for these plans based on recommendations by the Chief Executive Officer ("CEO"). As part of the budgeting process, generally early in the year, the Board or Compensation Committee establishes annual corporate performance objectives. These objectives

include measures related to return on equity, return on assets, earnings per share, credit quality, revenue per share growth, controlling noninterest expenses and improving service quality. Specific criteria for each corporate objective are established for "threshold", "target", and "outstanding" performance. During the first quarter of each year, based on a review with the CEO of corporate and individual performance for the year just completed, the Compensation Committee makes the final decision on actual individual cash bonuses except the Compensation Committee evaluates the CEO's performance and compensation without the participation of the CEO.

Actual cash bonuses for each participant depend on achievement of corporate and other objectives. Weighting of objectives varies by position, with more weight on corporate performance for Group I employees. Failure on a significant element of performance may result in no bonus. This program is established, governed, and may be modified from time to time by the Compensation Committee.
