**Data I/O Reports 2014 Fourth Quarter Results**

***Return to full-year profitability on 17% revenue growth and new product momentum***

**Redmond, WA, Thursday, Feb. 26, 2015** – Data I/O Corporation (NASDAQ: DAIO), the leading global provider of advanced programming and IP management solutions for flash, flash-memory based intelligent devices and microcontrollers, today announced financial results for the quarter and year ended December 31, 2014.

**2014 Fourth-Quarter Highlights** (on a year-over-year basis unless noted):

- Net sales of \$5.3 million, up 59%
- Net income of \$349,000, or \$0.04 per diluted share compared to a net loss of \$1.6 million, or \$0.21 per share
- Adjusted EBITDA excluding equity compensation was \$528,000
- Bookings of \$5.4 million
- Five customer wins for PSV7000 in the automotive market during the quarter
- First customer win for PSV3000 to an industrial customer in China

**2014 Full-Year Highlights** (on a year-over-year basis unless noted):

- Net sales of \$21.9 million, up 17%

- Net income of \$1.1 million, or \$0.14 per diluted share compared to a net loss of \$2.6 million, or \$0.33 per share
- Adjusted EBITDA excluding equity compensation was \$1.9 million
- Significant growth in automotive market

“I am pleased to report a return to full-year profitability in 2014. The positive momentum we experienced throughout 2014 continued in the fourth quarter, driven by strong demand for our PSV7000 programming system,” stated Anthony Ambrose, President and CEO. “The PSV7000 has exceeded our expectations since we launched the system in September 2013 and has helped us secure eight of the top nine automotive electronics companies as customers. The PSV7000 is uniquely positioned for the automotive industry as the system combines high throughput, fast changeover and extreme flexibility, which allows manufacturers to use one PSV7000 to program what previously required multiple systems to produce. We expect continued strength in the automotive market throughout 2015 as manufacturers continue to develop increasingly sophisticated infotainment and instrument cluster applications.”

---

Net sales in the 2014 fourth quarter were \$5.3 million, compared with \$3.3 million in the 2013 fourth quarter. The 59% increase in fourth quarter sales was primarily a result of higher shipments of the company's PSV7000 Automated Programming System. For 2014, net sales were \$21.9 million, an increase of 17% from \$18.7 million last year.

For the 2014 fourth quarter, gross margin as a percentage of sales, was 55.1%, compared to 44.3% for the 2013 fourth quarter. The significant improvement in gross margin was primarily a result of increased factory utilization, due to higher product shipments, and a more profitable mix of products. For 2014, gross margin as a percentage of sales was 53.9%, compared to 50.8% for 2013.

Net income in the 2014 fourth quarter was \$349,000, or \$0.04 per diluted share, compared with a net loss of \$1.6 million, or \$0.21 per share, in the 2013 fourth quarter. Net income for 2014 was \$1.1 million, or \$0.14 per diluted share, compared with a net loss of \$2.6 million, or \$0.33 per share, for 2013.

Earnings Before Interest, Taxes, Depreciation, and Amortization ("EBITDA") was \$429,000 in the 2014 fourth quarter, compared to a loss of \$1.5 million in the 2013 fourth quarter. Adjusted EBITDA excluding equity compensation (a non-cash item) and restructure charge was \$528,000 in the 2014 fourth quarter, compared to a loss of \$0.9 million in the 2013 fourth quarter. For 2014, EBITDA was \$1.5 million, compared to a loss of \$2.1 million for 2013. Adjusted EBITDA excluding equity compensation and restructure charge was \$2.0 million for 2014, compared to a loss of \$0.5 million for 2013.

Bookings in the 2014 fourth quarter were \$5.4 million, up 44% compared to \$3.7 million in the 2013 fourth quarter, and \$5.4 million in the 2014 third quarter. Backlog at December 31, 2014 was \$1.9 million, compared to \$1.9 million at December 31, 2013, and \$2.0 million at September 30, 2014. Deferred revenue was \$1.8 million at December 31, 2014, compared to \$1.2 million at December 31, 2013, and \$1.8 million at September 30, 2014.

Mr. Ambrose continued: "With the success of the PSV7000, as well as the recent launch and initial customer of the PSV3000, I am encouraged by the market's acceptance of the PSV family of products. The PSV3000 opens new markets and customers, which Data I/O has not traditionally served. The market size for the PSV3000 is approximately \$10 million and with the initial order of a PSV3000, we are increasingly optimistic we will grow our market share

within this segment. Our plan for 2015 is to build on the positive sales momentum we experienced in 2014, while continuing to proactively manage our cost structure and maintain a strong balance sheet. We ended 2014 with \$9.4 million of cash on our balance sheet and excellent liquidity, which provides us with the flexibility to invest in growth producing initiatives. Product development continues to be an important area of focus for the company as we create compelling products for a variety of different programming requirements that lower the total cost of programming for our customers.”

---

## **Conference Call Information**

A conference call discussing the financial results for the fourth quarter ended December 31, 2014 will follow this release today at 2:00 pm PT/5:00 pm ET. To listen to the conference call, please dial (800) 230-1766, passcode: DAIO. A replay will be made available approximately one hour after the conclusion of the call and will remain available for one week. To access the replay, please dial (800) 475-6701, access code: 353846. The conference call will also be simultaneously webcast over the Internet; visit the News and Events section of the Data I/O Corporation website at [www.dataio.com](http://www.dataio.com) to access the call from the site. This webcast will be recorded and available for replay on the Data I/O Corporation website approximately two hours after the conclusion of the conference call.

## **About Data I/O Corporation**

Since 1972 Data I/O has developed innovative solutions to enable the design and manufacture of electronic products for automotive, wireless, consumer electronics, industrial controls, medical, and military/aerospace markets. Today, our customers manufacture tens of millions of products each year using Data I/O programming solutions to reliably, securely, and cost-effectively deliver their Intellectual Property into programmable devices. Data I/O provides programming solutions for devices in any package, whether programmed in a socket or on a circuit board. Our expertise in programmable integrated circuits, global supply chain processes, and IP management and protection helps bring innovative new products to life. These solutions are backed by a global network of Data I/O support and service providers, assuring success for our customers.

## **Forward Looking Statement and Non-GAAP financial measures**

Statements in this news release concerning economic outlook, expected revenue, expected margins, expected results, orders, deliveries, backlog and financial positions, as well as any other statement that may be construed as a prediction of future performance or events are forward-looking statements which involve known and unknown risks, uncertainties and other factors which may cause actual results to differ materially from those expressed or implied by such statements. These factors include uncertainties as to the ability to record revenues based upon the timing of product deliveries, installations and acceptance, accrual of expenses, changes in economic conditions and other risks including those described in the Company's filings on Forms 10K and 10Q with the Securities and Exchange Commission (SEC), press releases and other communications.

Non-GAAP financial measures, such as EBITDA and adjusted EBITDA excluding equity compensation and restructure charge, should not be considered a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. We believe that these non-GAAP financial measures provide meaningful supplemental information regarding the Company's results and facilitate the comparison of results.
