Notes to Condensed Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The accompanying Condensed Consolidated Financial Statements (Unaudited) of Stage Stores, Inc. and subsidiaries ("Stage Stores" or the "Company") have been prepared in accordance with Rule 10-01 of Regulation S-X and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP" or "U.S. GAAP") for complete financial statements. Those adjustments that are, in the opinion of management, necessary for a fair presentation of the results of the interim periods have been made. The results of operations for such interim periods are not necessarily indicative of the results of operations for a full year. The Condensed Consolidated Financial Statements (Unaudited) should be read in conjunction with the Audited Consolidated Financial Statements and notes thereto filed with Stage Stores' Annual Report on Form 10-K for the year ended February 2, 2013. References to a particular year are to Stage Stores' fiscal year, which is the 52- or 53-week period ending on the Saturday closest to January 31st of the following calendar year. For example, a reference to "2012" is a reference to the fiscal year ended February 2, 2013 and a reference to "2013" is a reference to the fiscal year ending February 1, 2014. References to "current year" pertain to the twenty-six weeks ended August 3, 2013, and references to "prior year" pertain to the twenty-six weeks ended July 28, 2012.

Stage Stores is a Houston, Texas-based retailer, which operates both department stores and off-price stores. Its department stores, which operate under the Bealls, Goody's, Palais Royal, Peebles and Stage nameplates, offer moderately priced, nationally recognized brand name and private label apparel, accessories, cosmetics and footwear for the entire family. Its off-price stores, which are called Steele's, offer brand name family apparel, accessories, footwear and home décor at significant savings to department store prices. As of August 3, 2013, the Company operated 872 stores located in 40 states. The Company also offers its merchandise direct-to-consumer through its eCommerce website and Send program. The eCommerce website features similar merchandise to that found in the Company's stores as well as merchandise which is available only on-line. The Send program allows customers to have merchandise shipped directly to their homes from another store if their size or color is not available in a local store.

Vendor allowances. The Company receives consideration from its merchandise vendors in the form of allowances and reimbursements. Given the promotional nature of the Company's business, the allowances are generally intended to offset the Company's costs of handling, promoting, advertising and selling the vendors' products in its stores. Vendor allowances related to the purchase of inventory are recorded as a reduction to the cost of inventory until sold. Vendor allowances are recognized as a reduction of cost of goods sold or the related selling expense when the purpose for which the vendor funds were intended to be used has been fulfilled and amounts have been authorized by vendors. As part of the Company's South Hill merchandising consolidation, the Company changed the method of collecting advertising allowances from its vendors resulting in only a small portion of these allowances being considered as a reimbursement for specific, incremental, identifiable costs incurred to sell vendors' products. Accordingly, beginning in fiscal 2013, most advertising allowances are now recorded as a reduction to the cost of merchandise purchases.

Recent Accounting Standards. In February 2013, the FASB issued ASU No. 2013-02, which amends ASC Topic 220, Comprehensive Income and requires that entities present information about reclassification adjustments from accumulated other comprehensive income in their interim and annual financial statements. The standard requires that entities present either on the face of the income statement or as a separate note to the financial statements, the effect of significant amounts reclassified from each component of accumulated other comprehensive income. If a component is not required to be reclassified to net income in its entirety, entities are required to cross reference to the related footnote for additional information. For public companies, the standard is effective for fiscal years and interim periods beginning after December 15, 2012. The adoption of this guidance requires changes solely in presentation, and

therefore does not have a significant impact on the Company's condensed consolidated financial statements.

In July 2012, the FASB issued ASU No. 2012-02, Intangibles - Goodwill and Other, which amends the guidance in ASC 350-30 on testing indefinite-lived intangible assets for impairment. The revised guidance permits an entity first to assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test. The ASU is effective for impairment tests performed for fiscal years beginning after September 15, 2012. The Company will adopt this ASU for its 2013 impairment testing. The Company does not expect the adoption of this ASU to have a material impact, if any, on the Company's consolidated financial condition, results of operations or cash flows.

2. South Hill Consolidation

On February 11, 2013, the Company announced its plans to consolidate its South Hill, Virginia operations into its Houston, Texas corporate headquarters (the "South Hill Consolidation"). This action was the culmination of an initiative that the Company began in 2012. The reasons for the South Hill Consolidation were: (i) to have department store functions and processes entirely together in one location, (ii) to strengthen collaboration, teamwork and communications, while streamlining operations, enhancing overall operational efficiency and reducing costs, and (iii) to create consistency in merchandising, marketing and eCommerce. The South Hill Consolidation has been completed from an operational and systems perspective, while the alignment of merchandise assortments in the former South Hill managed stores is expected to be completed by the end of 2013.

Total expenses in the current year associated with the South Hill Consolidation were \$9.0 million of which \$1.3 million remained unpaid and is included in accrued expenses and other current liabilities on the Condensed Consolidated Balance Sheet as of August 3, 2013. The costs, which were primarily for severance and transitional payroll and related benefits, recruiting and relocation costs, and visual presentation supplies and other, were recorded in selling, general and administrative expenses on the Condensed Consolidated Statements of Operations and Comprehensive Income. The Company incurred and paid \$2.7 million in the prior year primarily for transitional payroll and related benefits, recruiting and relocation costs, and property and equipment impairment. Merchandise cost of sales for the current year also includes approximately \$7.2 million related to the South Hill Consolidation due to inventory liquidation costs associated with discontinued vendors and merchandise and advertising allowances deferred in inventory.

3. Stock-Based Compensation

As approved by the Company's shareholders, the Company established the Amended and Restated 2001 Equity Incentive Plan (the "2001 Equity Incentive Plan") and the Second Amended and Restated 2008 Equity Incentive Plan (the "2008 Equity Incentive Plan" and collectively with the 2001 Equity Incentive Plan, the "Equity Incentive Plans") to reward, retain and attract key personnel. The Equity Incentive Plans provide for grants of nonqualified or incentive stock options, stock appreciation rights ("SARs"), performance shares or units, stock units and stock grants. To fund the 2001 and 2008 Equity Incentive Plans, 12,375,000 and 4,550,000 shares of the Company's common stock were reserved for issuance upon exercise of awards, respectively.

The following table summarizes stock-based compensation expense by type of grant for each period (in thousands):

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	August 3, 2013	July 28, 2012	August 3, 2013	July 28, 2012
Stock options and SARs	\$466	\$673	\$796	\$1,540
Non-vested stock	921	827	1,972	1,455
Performance shares	659	611	1,257	441
Total compensation expense	2,046	2,111	4,025	3,436
Related tax benefit	(745)	(794)	(1,489)	(1,292)
	\$1,301	\$1,317	\$2,536	\$2,144

As of August 3, 2013, the Company had unrecognized compensation cost of \$20.8 million related to stock-based compensation awards granted. That cost is expected to be recognized over a weighted average period of 2.6 years.

Stock Options and SARs

The Company historically granted shares of stock options and SARs to its employees and members of management. The right to exercise stock options and SARs generally vests over four years from the date of grant, with 25% vesting

at the end of each of the first four years following the date of grant. Stock options and SARs are settled by issuance of common stock. Stock options issued prior to January 29, 2005 will generally expire, if not exercised, within ten years from the date of the grant, while stock options and SARs granted after that date will generally expire, if not exercised, within seven years from the date of grant. No stock options or SARs were granted during the twenty-six weeks ended August 3, 2013 or July 28, 2012.

Table of Contents

The following table summarizes information about stock options and SARs outstanding under the Equity Incentive Plans as of August 3, 2013 and changes during the twenty-six weeks ended August 3, 2013:

Forfeited	(61,450) 7.96
Non-vested at August 3, 2013	339,625	\$ 7.97

The aggregate intrinsic value of stock options and SARs, defined as the amount by which the market price of the underlying stock on the date of exercise exceeds the exercise price of the award, exercised during the twenty-six weeks ended August 3, 2013 and July 28, 2012 was \$5.6 million and \$2.9 million, respectively.

Table of Contents

Non-vested Stock

The Company grants shares of non-vested stock to its employees, members of management and independent directors. The non-vested stock converts one for one to common stock at the end of the vesting period at no cost to the recipient to whom it is awarded. The vesting period of the non-vested stock ranges from one to four years from the date of grant.

The following table summarizes information about non-vested stock granted by the Company as of August 3, 2013 and changes during the twenty-six weeks ended August 3, 2013:

Non-vested Stock	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at February 2, 2013	642,409	\$16.21
Granted	308,373	25.30
Vested	(174,617)) 16.37
Forfeited	(85,390)) 15.56
Outstanding at August 3, 2013	690,775	\$20.31

The aggregate intrinsic value of non-vested stock that vested during the current year was \$4.4 million. The payment of the employees' tax liability for a portion of the vested shares was satisfied by withholding shares with a fair value equal to the tax liability. As a result, the actual number of shares issued was 134,099.

Performance Shares

The Company grants performance shares to members of senior management, at no cost to the recipient, as a means of rewarding them for the Company's long-term performance based on shareholder return performance measures. The actual number of shares that could be issued ranges from zero to a maximum of two times the number of granted shares outstanding as reflected in the table below. The actual number of shares issued is determined by the Company's shareholder return performance relative to a specific group of companies over a three-year performance cycle. Compensation expense, which is recorded ratably over the vesting period, is based on the fair value at grant date and the anticipated number of shares of the Company's common stock, which is determined on a Monte Carlo probability model. Grant recipients do not have any shareholder rights until the granted shares have been issued.

The following table summarizes information about the performance shares that remain outstanding as of August 3, 2013:

Period Granted	Target Shares Outstanding at February 2, 2013	Target Shares Granted During Current Year	Target Shares Vested During Current Year	Target Shares Forfeited During Current Year	Target Shares Outstanding at August 3, 2013	Weighted Average Grant Date Fair Value Per Share

Total	277,900	158,400	(4,450)) (30,775)) 401,075	

During the current year, 104,490 shares, with an aggregate intrinsic value of \$2.7 million, vested related to the 2010 performance share grant. The payment of the recipients' tax liability of approximately \$0.9 million for vested shares

was satisfied by withholding shares with a fair value equal to the tax liability. As a result, the actual number of shares issued was 75,176.

4. Debt Obligations

Debt obligations as of August 3, 2013 and February 2, 2013 consist of the following (in thousands):

	August 3, 2013	February 2, 2013
Revolving Credit Facility	\$51,075	\$6,000
Finance lease obligations	5,966	6,329
Total debt obligations	57,041	12,329
Less: Current portion of debt obligations	801	744
Long-term debt obligations	\$56,240	\$11,585

The Company has a \$250.0 million senior secured revolving credit facility that matures on June 30, 2016 (the "Revolving Credit Facility"). The Revolving Credit Facility includes an uncommitted accordion feature to increase the size of the facility to \$350.0 million. The Revolving Credit Facility is used by the Company to provide financing for working capital, capital expenditures and other general corporate purposes. Borrowings under the Revolving Credit Facility are limited to the availability under a borrowing base that is determined principally on eligible inventory as defined by the Revolving Credit Facility agreement. Inventory and cash and cash equivalents are pledged as collateral under the Revolving Credit Facility. The daily interest rates under the Revolving Credit Facility are determined by a prime rate or LIBOR, plus an applicable margin, as set forth in the Revolving Credit Facility agreement. On July 24, 2013, the Revolving Credit Facility agreement was amended to lower the applicable margin rates by 0.25%. In addition, the amendment fixed the commitment fee at 0.25% for the remaining term of the Revolving Credit Facility. For the twenty-six weeks ended August 3, 2013, the weighted average interest rate on outstanding borrowings and the average daily borrowings under the Revolving Credit Facility were 2.02% and \$33.0 million, respectively.

The Company also issues letters of credit under the Revolving Credit Facility to support certain merchandise purchases and to collateralize retained risks and deductibles under various insurance programs. At August 3, 2013, the Company had outstanding letters of credit totaling approximately \$8.8 million. These letters of credit expire within twelve months of issuance. Excess borrowing availability under the Revolving Credit Facility at August 3, 2013, net of letters of credit outstanding and outstanding borrowings, was \$190.1 million.

The Revolving Credit Facility agreement contains covenants which, among other things, restrict, based on required levels of excess availability, (i) the amount of additional debt or capital lease obligations, (ii) the payment of dividends and repurchase of common stock under certain circumstances and (iii) related party transactions. The Revolving Credit Facility agreement also contains a fixed charge coverage ratio covenant in the event excess availability is below a defined threshold or an event of default has occurred. At August 3, 2013, the Company was in compliance with all of the debt covenants of the Revolving Credit Facility agreement and expects to remain in compliance during fiscal year 2013.

5. Earnings per Share

Basic earnings per share is computed using the weighted average number of common shares outstanding during the measurement period. Diluted earnings per share is computed using the weighted average number of common shares as well as all potentially dilutive common share equivalents outstanding during the measurement period.

Under Accounting Standards Codification ("ASC") 260-10, Earnings Per Share, non-vested stock grants that contain non-forfeitable rights to dividends or dividend equivalents are considered participating securities and are included in the calculation of basic and diluted earnings per share pursuant to the two-class method. The two-class method

determines earnings per share for each class of common stock and participating securities according to dividends or dividend equivalents and their respective participation rights in undistributed earnings. Earnings per share has been calculated under the two-class method.

Table of Contents

The following tables show the computation of basic and diluted earnings per share for each period (in thousands, except per share amounts):

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	August 3, 2013	July 28, 2012	August 3, 2013	July 28, 2012
Basic EPS:				
Net income	\$9,607	\$11,662	\$2,751	\$11,244
Less: Allocation of earnings to participating securities	(137) (173) (41) (151

6. Stockholders' Equity

On April 8, 2013, the Company announced that its Board of Directors (the "Board") approved a 25% increase in the Company's quarterly cash dividend rate to \$0.125 cents per share from the previous quarterly rate of \$0.10 cents per share. The quarterly rate of \$0.125 cents per share is applicable to dividends declared by the Board beginning May 23, 2013. In the current year, the Company has paid cash dividends totaling \$7.4 million. On August 22, 2013, the Board declared a quarterly cash dividend of \$0.125 per share of common stock, payable on September 18, 2013 to shareholders of record at the close of business on September 3, 2013.

On March 7, 2011, the Board approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase up to \$200 million of its outstanding common stock. The 2011 Stock Repurchase Program will expire when the Company has repurchased \$200 million of its outstanding common stock, unless terminated earlier by the Board. On June 11, 2012, the Company announced that its Board had chosen not to spend additional capital under the 2011 Stock Repurchase Program for the time being. In addition, the Board authorized the Company to repurchase shares of its outstanding common stock using the proceeds and related tax benefits from the exercise of stock options, SARs and other equity grants. Using such proceeds, the Company repurchased 1,044,193 shares of its common stock for approximately \$20.1 million between the start of the fiscal third quarter on August 4, 2013 and September 11, 2013. Purchases of shares of the Company's common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by the Company's existing cash, cash flow and other liquidity sources, as appropriate.

7. Retirement Plan

The Company sponsors a frozen defined benefit plan. The components of pension cost for each period are as follows (in thousands):

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	August 3, 2013	July 28, 2012	August 3, 2013	July 28, 2012
Employer service cost	\$90	\$—	\$180	\$—
Interest cost	432	471	862	944
Expected return on plan assets	(560)	(563)	(1,119)	(1,126)
Net loss amortization	152	103	305	206
Net periodic pension cost	\$114	\$11	\$228	\$24

The Company's funding policy is to make contributions to maintain the minimum funding requirements for its pension obligations in accordance with the Employee Retirement Income Security Act. The Company may elect to contribute additional amounts to maintain a level of funding to minimize the Pension Benefit Guaranty Corporation premium costs or to cover the short-term liquidity needs of the plan in order to maintain current invested positions. No contributions were made by the Company in the current year.

8. Fair Value Measurements

The Company recognizes or discloses the fair value of its financial and non-financial assets and liabilities on a recurring and non-recurring basis. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities which are required to be recorded at fair value, the Company assumes the highest and best use of the asset by market participants in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability.

The Company applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels, and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs that are both unobservable and significant to the overall fair value measurement reflect the Company's estimates of assumptions that market participants would use in pricing the asset or liability.

Table of Contents

The following tables present the Company's financial assets and liabilities measured at fair value on a recurring basis in the Condensed Consolidated Balance Sheets (Unaudited) (in thousands):

August 3, 2013

	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other assets:				
Securities held in grantor trust for deferred compensation plans (1)(2)	\$22,003	\$22,003	\$—	\$—
Accrued expenses and other current liabilities:				
Deferred non-employee director equity compensation plan liability (2)	\$282	\$282	\$—	\$—

February 2, 2013

	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other assets:				
Securities held in grantor trust for deferred compensation plans (1)(2)	\$18,498	\$18,498	\$—	\$—
Accrued expenses and other current liabilities:				
Deferred non-employee director equity compensation plan liability (2)	\$253	\$253	\$—	\$—

(1) The Company has recorded in other long-term liabilities amounts related to these assets for the amount due to participants corresponding in value to the securities held in the grantor trust.

(2) Using the market approach, the fair values of these items represent quoted market prices multiplied by the quantities held. Net gains and losses related to the changes in fair value in the assets and liabilities under the various deferred compensation plans are recorded in selling, general and administrative expenses and were nil for the twenty-six weeks ended August 3, 2013 and for the fiscal year ended February 2, 2013.

Table of Contents

The following table shows the Company's non-financial assets measured at fair value on a nonrecurring basis in the Condensed Consolidated Balance Sheets (Unaudited) (in thousands):

August 3, 2013

	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Store property, equipment and leasehold improvements (1)	\$3,426	\$—	\$—	\$3,426

February 2, 2013

	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Store property, equipment and leasehold improvements (1)	\$3,024	\$—	\$—	\$3,024

In accordance with ASC No. 360-10, Accounting for the Impairment or Disposal of Long-Lived Assets, using an undiscounted cash flow model, the Company identified certain stores whose cash flow trends indicated that the carrying value of store property, equipment and leasehold improvements may not be fully recoverable and determined that impairment charges were necessary for the current year. The Company uses a discounted cash flow model to determine the fair value of its impaired assets. Key assumptions in determining future cash flows include, (1) among other things, expected future operating performance and changes in economic conditions. Long-lived assets with a carrying amount of \$3.6 million at August 3, 2013 and \$4.0 million at February 2, 2013 were written down to their estimated fair value of \$3.4 million at August 3, 2013 and \$3.0 million at February 2, 2013, resulting in impairment charges of \$0.2 million during the thirteen weeks ended August 3, 2013 and \$1.0 million during fiscal year 2012. The impairment charges are included in cost of sales and related buying, occupancy and distribution expenses in the Condensed Consolidated Statements of Operations and Comprehensive Income (Unaudited).

Financial instruments not measured at fair value are cash and cash equivalents, payables and debt obligations. The Company believes that the Revolving Credit Facility approximates fair value since interest rates are adjusted to reflect current rates.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

Certain statements in this Form 10-Q contain forward-looking statements that are subject to known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Forward-looking statements reflect the Company's expectations regarding future events and operating performance and often contain words such as "believe," "expect," "may," "will," "should," "could," "anticipate," "plan" or similar words.

Forward-looking statements are based on various assumptions and factors that could cause actual results to differ materially from those in the forward-looking statements. These factors include, but are not limited to, the ability of the Company and its subsidiaries to maintain normal trade terms with vendors, the ability of the Company and its subsidiaries to comply with the various covenant requirements contained in the Company's Revolving Credit Facility agreement, the demand for apparel, and other factors. The demand for apparel and sales volume can be affected by significant changes in economic conditions, including an economic downturn, employment levels in the Company's markets, consumer confidence, energy and gasoline prices and other factors influencing discretionary consumer spending. Other factors affecting the demand for apparel and sales volume include unusual weather patterns, an increase in the level of competition in the Company's market areas, competitors' marketing strategies, changes in fashion trends, changes in the average cost of merchandise purchased for resale, availability of product on normal payment terms and the failure to achieve the expected results of the Company's merchandising and marketing plans as well as its store opening plans. The occurrence of any of these factors could have a material and adverse impact on the Company's business, financial condition, operating results, or liquidity. Most of these factors are difficult to predict accurately and are generally beyond the Company's control.

Readers should consider the risks and uncertainties described in the Company's Annual Report on Form 10-K for the year ended February 2, 2013 ("Form 10-K"). Readers should carefully review the Form 10-K in its entirety including, but not limited to, the Company's financial statements and the notes thereto and the risks and uncertainties described in Item 1A - "Risk Factors" of the Form 10-K. Forward-looking statements contained in this Form 10-Q are as of the date of this Form 10-Q. The Company does not undertake to update its forward-looking statements.

General

Stage Stores, Inc. (the "Company" or "Stage Stores") is a Houston, Texas-based retailer, which operates both department stores and off-price stores. Its department stores, which operate under the Bealls, Goody's, Palais Royal, Peebles and Stage nameplates, offer moderately priced, nationally recognized brand name and private label apparel, accessories, cosmetics and footwear for the entire family. Its off-price stores, which are called Steele's, offer brand name family apparel, accessories, shoes and home décor at significant savings to department store prices. The Company also offers its merchandise direct-to-consumer through its eCommerce website and Send program. The eCommerce website features similar merchandise to that found in the Company's stores as well as merchandise which is available only on-line. The Send program allows customers to have merchandise shipped directly to their homes from another store if their size or color is not available in a local store.

The Company's principal focus is on consumers in small and mid-sized markets which the Company believes are under-served and less competitive. In those small town markets where it operates a department store and an off-price store, the Company targets a different customer for each store and, therefore, believes that customer overlap between the two formats is minimal. At August 3, 2013, the Company operated 872 stores located in 40 states.

Table of Contents

The Company made progress on a number of its key initiatives during the twenty-six weeks ended August 3, 2013 (the "current year"). The Company completed the consolidation of its South Hill operations (the "South Hill Consolidation"), announced on February 11, 2013, from an operational and systems perspective and expects to complete the alignment of merchandise assortments in the former South Hill managed stores by the end of 2013. In addition to projected annual savings of \$5 million, the South Hill Consolidation is expected to increase productivity, create synergies, strengthen collaboration, enhance the Company's purchasing power, provide for a consistent message to customers and accelerate sales growth. Also, growing the Company's cosmetic business through the installation of additional Estee Lauder and Clinique counters continues to be a top priority. During the current year, the Company added 17 new Estee Lauder and 19 new Clinique counters, and expects to roll out another 18 of each type of counter prior to Thanksgiving. New prototype fixture packages were rolled out to 43 of the Company's largest department stores in the current year, with the expectation of reaching approximately 80 department stores by year end. In addition, the Company opened 10 new department stores in the current year and plans to open an additional 18 department stores and one Steele's store during the last half of 2013. The Company also moved forward on replatforming and enhancing its eCommerce website, which is expected to be completed in time for the holiday shopping period in the fourth quarter.

The financial information, discussion and analysis that follow should be read in conjunction with the Company's Consolidated Financial Statements as included in the Form 10-K.

Non-GAAP Financial Measures

The following supplemental information presents the results of operations for the second fiscal quarter of 2013 and 2012 as well as for the current year and prior year periods. All periods are presented on a basis in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and on a non-U.S. GAAP basis to show earnings with and without charges associated with the South Hill Consolidation and the former Chief Executive Officer's resignation. Management believes this supplemental financial information enhances an investor's understanding of the Company's financial performance as it excludes those items which impact comparability of operating trends. The non-U.S. GAAP financial information should not be considered in isolation or viewed as a substitute for net income, cash flow from operations or other measures of performance as defined by U.S. GAAP. Moreover, the inclusion of non-U.S. GAAP financial information as used herein is not necessarily comparable to other similarly titled measures of other companies due to the potential inconsistencies in the method of presentation and items considered. The following tables set forth the supplemental financial information and the reconciliation of U.S. GAAP disclosures to non-U.S. GAAP financial metrics (in thousands, except diluted earnings per share):

Thirteen Weeks Ended August 3, 2013 Compared to Thirteen Weeks Ended July 28, 2012

Sales for the thirteen weeks ended August 3, 2013 (the "current year second quarter") increased 3.6% to \$395.3 million from \$381.6 million for the thirteen weeks ended July 28, 2012 (the "prior year second quarter"). The sales increase was primarily driven by increased promotions as well as the Company's new stores and an increase in eCommerce sales. Comparable store sales, which are sales in stores that are open for at least 14 full months prior to the reporting period, including eCommerce sales, increased 1.7% in the current year second quarter compared to a 5.4% increase in the prior year second quarter. Excluding eCommerce sales, comparable store sales were 1.2% in the current year second quarter as compared to 5.0% in the prior year second quarter. There was a large disparity in comparable store sales between the Houston stores and the former South Hill managed stores during the current year second quarter. Merchandise assortments in the former South Hill managed stores not yet being fully aligned with the Houston stores contributed to the more than 500 basis point difference. A slow start to the quarter, which hurt sales in full-priced seasonal categories, and the promotional environment in the current year second quarter negatively affected merchandise pricing, while incentivizing customers to buy more merchandise. The 1.7% increase in comparable store sales for the current year second quarter reflects a 4.1% decrease in average unit retail, offset by a 1.2% increase in number of units sold and 4.5% increase in the number of transactions.

Table of Contents

On a market population basis, utilizing a ten-mile radius from each store, the mid-sized and large market stores outperformed the small market stores. The Company's mid-sized market stores (populations of 50,000 to 150,000) and large market stores (populations greater than 150,000) achieved comparable store sales increases of 2.5% and 4.7%, respectively, while the small market stores (populations less than 50,000) achieved a comparable store sales increase of 0.3%. Geographically, the Southwest region was the best performing region, followed by the South Central and Northwest regions, which all outperformed the Company average.

On a merchandise category basis, the strongest trends for the quarter were in the men's and young men's categories. That was followed by gains in the children's, junior's, cosmetics, footwear and home & gifts, which all exceeded the Company's comparable store sales average. Activewear was the strongest trending area across multiple merchandise categories. The Company continues to focus on growing its cosmetics line of business through the installation of cosmetic counters and rolled out 17 new Estee Lauder and 17 new Clinique counters during the current year second quarter. The Company also continues to focus on sales growth through the introduction of new product offerings and the expansion of existing sought-after brand names.

The following is a summary of the changes in the components of the cost of sales rate between the current year second quarter and the prior year second quarter, expressed as a percent of sales:

	Increase/ (Decrease)	
Merchandise cost of sales rate	1.1	%
Buying, occupancy and distribution expenses rate	(0.1)	
Cost of sales rate	1.0	%

Gross profit for the current year second quarter was \$115.5 million, an increase of 0.3% from \$115.2 million in the prior year second quarter. Gross profit, as a percent of sales, decreased to 29.2% in the current year second quarter from 30.2% in the prior year second quarter primarily as a result of the heavily promotional environment. In addition, merchandise cost of sales for the current year second quarter includes approximately \$4.4 million, or approximately 1.1% of sales, related to the South Hill Consolidation due to inventory liquidation costs associated with discontinued vendors and merchandise and advertising allowances deferred in inventory.

Selling, general and administrative ("SG&A") expenses in the current year second quarter increased \$4.6 million to \$99.3 million from \$94.7 million in the prior year second quarter. As a percent of sales, SG&A expenses increased to 25.1% in the current year second quarter from 24.8% in the prior year second quarter. The increase in SG&A expenses reflects charges of approximately \$2.1 million incurred in the current year second quarter related to the South Hill Consolidation. In addition, the increase in SG&A reflects incremental costs to operate 38 net additional stores as compared to the prior year second quarter and deleverage from increased store expenses and advertising. These higher costs were partially offset by higher credit income associated with the Company's private label credit card portfolio and lower incentive compensation costs.

Store opening costs of \$0.1 million in the current year second quarter include costs related to the relocation of two stores. During the prior year second quarter, the Company incurred \$0.6 million in store opening costs related to the opening of 7 new stores and the relocation of 4 stores. Store opening costs are expensed as incurred and include costs of stores opening in future quarters.

Net interest expense was \$0.7 million in the current year second quarter compared to \$1.0 million in the prior year second quarter. Interest expense is primarily comprised of interest on borrowings under the Revolving Credit Facility (see "Liquidity and Capital Resources"), related letters of credit and commitment fees, amortization of debt issuance costs and interest on finance lease obligations.

The Company's effective tax rate for the current year second quarter was 37.3%, resulting in an estimated tax expense of \$5.7 million. This compares to an effective tax rate of 38.3% and income tax expense of \$7.2 million in the prior year second quarter.

As a result of the foregoing, the Company had net income of \$9.6 million for the current year second quarter as compared to net income of \$11.7 million for the prior year second quarter.

Twenty-Six Weeks Ended August 3, 2013 Compared to Twenty-Six Weeks Ended July 28, 2012

Sales for the twenty-six weeks ended August 3, 2013 (the “current year”) increased 3.6% to \$774.0 million from \$747.3 million for the twenty-six weeks ended July 28, 2012 (the “prior year”). The sales increase was primarily driven by increased promotions as well as the Company's new stores and an increase in eCommerce sales. The unseasonably cool weather in the spring and weakness in the overall apparel market negatively impacted sales in the current year compared to the prior year. Comparable store sales, which are sales in stores that are open for at least 14 full months prior to the reporting period, including eCommerce sales, increased 1.2% in the current year compared to a 4.0% increase in the prior year. Excluding eCommerce sales, comparable store sales increased 0.6% in the current year as compared to a 3.5% increase in the prior year. The 1.2% increase in comparable store sales for the current year reflects a 4.7% decrease in average unit retail, offset by a 1.6% increase in number of units sold and 4.2% increase in the number of transactions.

On a market population basis, utilizing a ten-mile radius from each store, the mid-sized and large market stores outperformed the small market stores. The Company's mid-sized market stores (populations of 50,000 to 150,000) and large market stores (populations greater than 150,000) achieved comparable store sales increases of 2.3% and 3.6%, respectively, while the small market stores (populations less than 50,000) had a comparable store sales decrease of 0.1%. Geographically, the Southwest region was the best performing region, followed by the South Central and Northwest regions, which all outperformed the Company average.

On a merchandise category basis, home and gifts, accessories, men's and young men's, junior sportswear, cosmetics, and footwear all outperformed the Company's comparable store sales increase. Home and gifts had double-digit increases as it benefited from new product launches such as Keurig and Cuisinart. The increase in accessories was driven by the strength in handbags. Activewear has been the strongest trending area across multiple merchandise categories. The Company continues to focus on growing its cosmetics line of business through the installation of cosmetic counters and rolled out 17 Estee Lauder and 19 Clinique counters in the current year. The Company also continues to focus on sales growth through the introduction of new product offerings and the expansion of existing sought-after brand names.

The following is a summary of the changes in the components of the cost of sales rate between the current year and the prior year, expressed as a percent of sales:

	Increase/ (Decrease)	
Merchandise cost of sales rate	1.6	%
Buying, occupancy and distribution expenses rate	(0.2)	
Cost of sales rate	1.4	%

Gross profit was \$205.7 million, a decrease of 1.6% from \$209.0 million in the prior year. Gross profit, as a percent of sales, decreased to 26.6% in the current year from 28.0% in the prior year. The decline in the gross profit rate reflects a 1.6% increase in the merchandise cost of sales rate and a 0.2% decrease in the buying, occupancy and distribution expenses rate. The increase in the merchandise cost of sales rate is primarily a result of a more promotional business environment in the current year as compared to the prior year. The decrease in buying, occupancy and distribution expenses rate was mainly due to improved leverage from higher sales in the current year as compared to the prior year. Merchandise cost of sales for the current year also includes approximately \$7.2 million, or approximately 0.9% of sales, related to the South Hill Consolidation due to inventory liquidation costs associated with discontinued vendors and merchandise and advertising allowances deferred in inventory.

Selling, general and administrative (“SG&A”) expenses in the current year increased \$11.4 million to \$198.9 million from \$187.5 million in the prior year. As a percent of sales, SG&A expenses increased to 25.7% in the current year

from 25.1% in the prior year. The increase in SG&A expenses reflects charges of approximately \$9.0 million incurred in the current year related to the South Hill Consolidation, while the prior year included \$3.0 million of charges associated with the resignation of the Company's former Chief Executive Officer. In addition, the increase in SG&A reflects incremental costs to operate 38 net additional stores as compared to the prior year and deleverage from increased store expenses and advertising. These higher costs were partially offset by higher credit income associated with the Company's private label credit card portfolio and lower incentive compensation costs.

Store opening costs of \$1.1 million in the current year include costs related to the opening of 10 new stores and the relocation of two stores. During the prior year, the Company incurred \$1.5 million in store opening costs related to the opening of 22 new stores and the relocation of six stores.

Table of Contents

Net interest expense was \$1.3 million in the current year and \$1.8 million in the prior year. Interest expense is primarily comprised of interest on borrowings under the Revolving Credit Facility (see "Liquidity and Capital Resources"), related letters of credit and commitment fees, amortization of debt issuance costs and interest on finance lease obligations.

The Company's effective tax rate for the current year was 37.0%, resulting in an estimated tax expense of \$1.6 million. This compares to an income tax expense of \$7.0 million in the prior year at an effective rate 38.3%.

As a result of the foregoing, the Company had net income of \$2.8 million for the current year as compared to net income of \$11.2 million for the prior year.

Seasonality and Inflation

Historically, the Company's business is seasonal and sales are traditionally lower during the first three quarters of the fiscal year (February through October) and higher during the last quarter of the fiscal year (November through January). The fourth quarter usually accounts for slightly more than 30% of the Company's annual sales, with the other quarters accounting for approximately 22% to 24% each. Working capital requirements fluctuate during the year and generally reach their highest levels during the third and fourth quarters. The Company does not expect inflation will have a material impact on its operations. However, there can be no assurance that the Company's business will not be affected by inflation in the future.

Liquidity and Capital Resources

The Company's liquidity is currently provided by (i) existing cash balances, (ii) operating cash flows, (iii) normal trade credit terms from the vendor and factor community and (iv) the Revolving Credit Facility. The Company's primary cash requirements are for capital expenditures related to new stores, store relocations and remodeling, and seasonal and new store inventory purchases.

Key components of the Company's cash flows for the current year and the prior year are summarized below (in thousands):

	Twenty-Six Weeks Ended	
	August 3, 2013	July 28, 2012
Net cash provided by (used in):		
Operating activities	\$(829) \$26,402
Investing activities	(29,926) (22,621
Financing activities	46,964	225

Operating Activities

During the current year, the Company used \$0.8 million in cash from operating activities. Net income, adjusted for non-cash expenses, provided cash of approximately \$38.2 million. Changes in operating assets and liabilities used net cash of approximately \$40.4 million, which included a \$28.3 million increase in merchandise inventories primarily due to planned investments in inventory, the seasonal build of inventories and higher number of open stores, an increase in other assets of \$11.8 million, and a decrease in accounts payable and other liabilities of \$0.3 million. Additionally, cash flows from operating activities included construction allowances from landlords of \$1.4 million, which funded a portion of the capital expenditures related to store leasehold improvements in new and relocated stores. The increase in cash used in operating activities compared to the prior year is reflective of the increase in incentive bonus paid related to fiscal 2012, timing of rent payments due to the later fiscal period end date, and an

increase in income taxes paid.

During the prior year, the Company generated \$26.4 million in cash from operating activities. Net income, adjusted for non-cash expenses, provided cash of approximately \$44.5 million. Changes in operating assets and liabilities used net cash of approximately \$19.5 million, which included a \$48.6 million increase in merchandise inventories due to the seasonal build in inventories and higher number of open stores, partially offset by a decrease in other assets of \$4.4 million and an increase in accounts payable and other liabilities of \$24.7 million. Additionally, cash flows from operating activities included construction allowances from landlords of \$1.4 million, which funded a portion of the capital expenditures related to store leasehold improvements in new and relocated stores.

Table of Contents

Investing Activities

Capital expenditures were \$29.9 million in the current year as compared to \$22.6 million in the prior year. For the current year, the Company opened 10 new department stores, reopened one store due to a fire and relocated two stores, as compared to 8 new department stores, 14 new off-price stores and 6 relocated stores in the prior year. As noted above, the Company received construction allowances from landlords of \$1.4 million in both the current year and prior year to fund a portion of the capital expenditures related to store leasehold improvements in new and relocated stores. These funds are recorded as a deferred rent credit on the balance sheet and are recognized as an offset to rent expense over the lease term commencing with the date the allowances are earned.

Management currently estimates that capital expenditures in 2013, net of construction allowances to be received from landlords, will be approximately \$57 million. The expenditures will principally be for the opening of new stores and investments in eCommerce, systems, logistics and existing stores.

Financing Activities

The Company has a \$250.0 million senior secured revolving credit facility that matures on June 30, 2016 (the "Revolving Credit Facility"). The Revolving Credit Facility includes an uncommitted accordion feature to increase the size of the facility to \$350.0 million. The Revolving Credit Facility is used by the Company to provide financing for working capital, capital expenditures and other general corporate purposes. Borrowings under the Revolving Credit Facility are limited to the availability under a borrowing base that is determined principally on eligible inventory as defined by the Revolving Credit Facility agreement. Inventory and cash and cash equivalents are pledged as collateral under the Revolving Credit Facility. The daily interest rates under the Revolving Credit Facility are determined by a prime rate or LIBOR, plus an applicable margin, as set forth in the Revolving Credit Facility agreement. On July 24, 2013, the Revolving Credit Facility agreement was amended to lower the applicable margin rates by 0.25%. In addition, the amendment fixed the commitment fee at 0.25% for the remaining term of the Revolving Credit Facility. For the twenty-six weeks ended August 3, 2013, the weighted average interest rate on outstanding borrowings and the average daily borrowings under the Revolving Credit Facility were 2.02% and \$33.0 million, respectively.

The Company also issues letters of credit under the Revolving Credit Facility to support certain merchandise purchases and to collateralize retained risks and deductibles under various insurance programs. At August 3, 2013, the Company had outstanding letters of credit totaling approximately \$8.8 million. These letters of credit expire within twelve months of issuance. Excess borrowing availability under the Revolving Credit Facility at August 3, 2013, net of letters of credit outstanding and outstanding borrowings, was \$190.1 million.

The Revolving Credit Facility agreement contains covenants which, among other things, restrict, based on required levels of excess availability, (i) the amount of additional debt or capital lease obligations, (ii) the payment of dividends and repurchase of common stock under certain circumstances and (iii) related party transactions. The Revolving Credit Facility agreement also contains a fixed charge coverage ratio covenant in the event excess availability is below a defined threshold or an event of default has occurred. At August 3, 2013, the Company was in compliance with all of the debt covenants of the Revolving Credit Facility agreement and expects to remain in compliance during fiscal year 2013.

On April 8, 2013, the Company announced that its Board of Directors (the "Board") approved a 25% increase in the Company's quarterly cash dividend rate to \$0.125 cents per share from the previous quarterly rate of \$0.10 cents per share. The quarterly rate of \$0.125 cents per share is applicable to dividends declared by the Board beginning May 23, 2013. In the current year, the Company has paid cash dividends totaling \$7.4 million. On August 22, 2013, the Board declared a quarterly cash dividend of \$0.125 per share of common stock, payable on September 18, 2013 to shareholders of record at the close of business on September 3, 2013.

On March 7, 2011, the Board approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase up to \$200 million of its outstanding common stock. The 2011 Stock Repurchase Program will expire when the Company has repurchased \$200 million of its outstanding common stock, unless terminated earlier by the Board. On June 11, 2012, the Company announced that its Board had chosen not to spend additional capital under the 2011 Stock Repurchase Program for the time being. In addition, the Board authorized the Company to repurchase shares of its outstanding common stock using the proceeds and related tax benefits from the exercise of stock options, SARs and other equity grants. Using such proceeds, the Company repurchased 1,044,193 shares of its common stock for approximately \$20.1 million between the start of the fiscal third quarter on August 4, 2013 and September 11, 2013. Purchases of shares of the Company's common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by the Company's existing cash, cash flow and other liquidity sources, as appropriate.

While there can be no assurances, management believes that there should be sufficient liquidity to cover both the Company's short-term and long-term funding needs. The Company anticipates that it has adequate cash flows to cover its working capital needs, planned capital expenditures and debt service requirements for the remainder of 2013 and the foreseeable future.

None.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act"), the term "disclosure controls and procedures" means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management of the Company, with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures and concluded that the Company's disclosure controls and procedures were effective as of August 3, 2013.

Internal Control Over Financial Reporting

As defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act, the term "internal control over financial reporting" means a process designed by, or under the supervision of, the issuer's principal executive and principal financial officers, or persons performing similar functions, and effected by the issuer's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the issuer;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the issuer are being made only in accordance with authorizations of management and directors of the issuer; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the issuer's assets that could have a material adverse effect on the financial statements.

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. There were no changes in the Company's internal control over financial reporting during the quarter ended August 3, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

During the current year second quarter ended August 3, 2013, the Company did not have any material legal proceedings brought against it, its subsidiaries or their properties.

ITEM 1A. RISK FACTORS

There have not been any material changes from the risk factors as previously disclosed in the Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On March 7, 2011, the Board of Directors (the "Board") approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase up to \$200 million of its outstanding common stock. The 2011 Stock Repurchase Program will expire when the Company has repurchased \$200 million of its outstanding common stock, unless terminated earlier by the Board. On June 11, 2012, the Company announced that its Board had chosen not to spend additional capital under the 2011 Stock Repurchase Program for the time being. In addition, the Board authorized the Company to repurchase shares of its outstanding common stock using the proceeds and related tax benefits from the exercise of stock options, SARs and other equity grants. Using such proceeds, the Company repurchased 1,044,193 shares of its common stock for approximately \$20.1 million between the start of the fiscal third quarter on August 4, 2013 and September 11, 2013. Purchases of shares of the Company's common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by the Company's existing cash, cash flow and other liquidity sources, as appropriate.
