Due to the accounting treatment of FASB 133, \$277,000 of the gain was accelerated and recognized in non-interest income.

Total non-interest income increased by \$723,000, or 7.4 percent, during the quarter and total expenses increased by \$2.1 million.

Provision expense increased by \$2.2 million, or 139 percent, during the quarter as charge-offs totaled \$3.0 million. Non-performing assets increased from 73 basis points to 93 basis points during the quarter and the allowance for loan losses as a percent of total loans increased to .99 percent.

Michael C. Rechin, President and Chief Executive Officer, stated that, "First Merchants is a stronger banking company because of the work that has taken place over the last 12 months. Our company is structurally more efficient, our sales teams are better equipped to win in the marketplace and our lending discipline and pricing has improved." Rechin also added that, "Given the volatility in the banking sector First Merchants management team is pleased with the quarter-end results. We are managing our loan portfolio rigorously recognizing the softness in the economy. Our Bankers are working with clients actively to identify deterioration in cash flow and real estate values. It's our goal to build earnings momentum while at the same time adding to our allowance for loan losses."
