This proxy statement is furnished in connection with the solicitation by the Board of Directors (the "Board") of Applied Signal Technology, Inc., a California corporation (the "Company"), of proxies for use at the Annual Meeting of Shareholders ("Annual Meeting") to be held on March 15, 2006, or any adjournment or postponement thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders. This proxy statement and accompanying proxy are first being sent to shareholders on approximately February 15, 2006. The cost of the solicitation of proxies will be borne by the Company. The Board may use the services of the Company's directors, officers, and others to solicit proxies, personally or by telephone. The Board may also arrange with brokerage houses and other custodians, nominees, and fiduciaries to forward solicitation material to the beneficial owners of the stock held of record by such persons, and the Company may reimburse them for their reasonable out-of-pocket expenses incurred in so doing. The Annual Report to Shareholders for the fiscal year ended October 31, 2005, including financial statements, is being mailed to shareholders concurrently with the mailing of this proxy statement.

Voting Rights

Voting Rights. The voting securities of the Company entitled to vote at the Annual Meeting consist of shares of common stock. Only shareholders of record at the close of business on January 24, 2006, are entitled to notice of, and to vote at, the Annual Meeting. On that date, there were 11,675,594 shares of the Company's common stock issued and outstanding. Each shareholder of record as of that date is entitled to one vote for each share of common stock held by him or her. The Company's bylaws provide that a majority of all of the shares of common stock entitled to vote, whether present in person or by proxy, shall constitute a quorum for the transaction of business at the meeting. Votes for and against, abstentions, and "broker non-votes" will each be counted as present for purposes of determining the presence of a quorum. If an executed proxy is submitted without any instruction for the voting of such proxy, the proxy will be voted in favor of the proposals described.

Voting of Proxies. All shares represented by valid proxies received prior to the Annual Meeting will be voted, and where a shareholder specifies by means of the proxy a choice with respect to any matter to be acted upon, the shares will be voted in accordance with the specifications so made. A shareholder who signs and returns a proxy will have the power to revoke it at any time before it is voted. A proxy may be revoked by filing with the Secretary of the Company a written revocation or duly executed proxy bearing a later date, or by appearing at the Annual Meeting and electing to vote in person.

Broker Non-Votes. A broker non-vote occurs when a broker submits a proxy card with respect to shares held in a fiduciary capacity (typically referred to as being held in "street name") but declines to vote on a particular matter because the broker has not received voting instructions from the beneficial owner. Under the rules that govern brokers who are voting with respect to shares held in street name, brokers have the discretion to vote such shares on routine matters, but not on non-routine matters. Routine matters include the election of directors and ratification of auditors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, directors, and persons who beneficially own more than 10 percent of the Company's common stock to file initial reports of ownership and reports of changes in ownership with the SEC. Such persons are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms filed by them.

Based solely on our review of such forms furnished to the Company and written representations from certain reporting persons, the Company believes that during fiscal year 2005, all such filing requirements applicable to our executive officers, directors, and more-than-10-percent shareholders were complied with, except that Mr. Roscher and Dr. Ready each filed one late Form 4.

Proposal One: Election of Directors

We have a classified Board of Directors consisting of two classes of directors, with each director serving a two-year term. The articles of incorporation and bylaws of the Company, as amended to date, provide that the number of directors shall be not less than six (6) nor more than eight (8), with the exact number of directors fixed within the limits specified by a resolution of the Board of Directors. The Board of Directors has set the number of directors at seven (7). The minimum or maximum number of directors may be changed only by amendment to the bylaws duly adopted by the affirmative vote of a majority of the outstanding shares of capital stock entitled to vote and by a resolution duly adopted by the Board of Directors. Vacancies in the Board of Directors may be filled by a majority of the directors then in office, whether or not less than a quorum, or by a sole remaining director. A director elected by the Board of Directors to fill a vacancy shall serve for the remainder of the full term of the class of directors in which the vacancy occurred and until such director's successor is elected and qualified.

At the 2006 Annual Meeting, the term of the three Class II directors are up for election. The Board has designated three current directors as nominees for election at this meeting as Class II directors (Milton E. Cooper, Dr. John R. Treichler, and Stuart G. Whittelsey, Jr.). Directors elected at this meeting will serve until the 2008 Annual Meeting or until their respective successors are duly elected and qualified.

Management knows of no reason why any nominee should be unable or unwilling to serve. However, if any nominee(s) should for any reason be unable or unwilling to serve, the proxies will be voted for such substitute nominees as the Board may designate.

Edgar Filing: APPLIED SIGNAL TECHNOLOGY INC - Form DEFR14A

If a quorum is present and voting, the three nominees for Class II director receiving the highest number of votes will be elected as Class II directors. Abstentions and “broker non-votes” will be counted as present for purposes of determining the presence of a quorum but will have no affect on the outcome of the vote.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” THE NOMINEES NAMED ABOVE.

Set forth below is certain information with respect to the age and background for each of the nominees to be elected at this meeting:

Name	Positions with the Company	Age	Director Since
<i>Class II directors:</i>

The Board has determined that all of the members of the Board continuing in office after this Annual Meeting are "independent directors" within the meaning of Rule 4200 of the National Association of Securities Dealers, Inc. ("NASD"), other than Mr. Gary L. Yancey and Dr. John R. Treichler, who are not considered independent because each is an executive officer of the Company.

Meetings of the Board of Directors and Board Committees

During fiscal year 2005, the Board of Directors held four meetings. The Board of Directors has an Audit Committee, Compensation Committee, and a Nominating and Governance Committee. During fiscal year 2005, the Audit Committee held nine meetings, the Compensation Committee held five meetings, and the Nominating and Governance Committee held four meetings. No director serving on the Board in fiscal year 2005 attended less than 75 percent of such meetings of the Board and the committees on which he serves.

Audit Committee. The members of the Audit Committee during fiscal year 2005 were Stuart G. Whittelsey, Jr. (Chairman), Milton E. Cooper, David Elliman, and Robert Richardson. The Audit Committee meets at least quarterly with the Company's management and its independent registered public accounting firm to, among other things, review the results of the annual audit and quarterly reviews and discuss the financial statements, review the adequacy of accounting and financial controls, review the Company's critical accounting policies, and review and approve any related party transactions. In addition, the functions of the Audit Committee include retaining the independent registered public accounting firm, reviewing their independence, reviewing and approving the planned scope of the Company's annual audit, reviewing and approving any related fee arrangements, and reviewing and pre-approving any non-audit services that may be performed by the independent registered public accounting firm. The Audit Committee meets separately, at least once each quarter, with the independent registered public accounting firm. The Company maintains procedures for the receipt, retention, and handling of complaints, which the Audit Committee oversees. All of the members of the Audit Committee are independent directors within the meaning of applicable rules of the NASD and the Securities and Exchange Commission. The Board of Directors has determined that Mr. Whittelsey is an audit committee financial expert, within the meaning of Rule 4350 of the NASD.

A copy of the Audit Committee Charter adopted by the Board of Directors is filed herewith as Appendix A and is also available through our website at www.appsig.com/investor/charter_audit.htm.

Compensation Committee. The members of the Compensation Committee during fiscal year 2005 were David Elliman (Chairman), Stuart G. Whittelsey, Jr., John P. Devine, Robert Richardson, and Milton E. Cooper. The Compensation Committee sets the salary and bonus earned by

Edgar Filing: APPLIED SIGNAL TECHNOLOGY INC - Form DEFR14A

the Chief Executive Officer, directors, and other executive officers of the Company; evaluates executive officer performance; approves all severance, retention, and change-in-control agreements with executive officers; and sets, reviews, and administers the compensation program for the executive officers and directors of the Company, including the grant of stock options to executive officers and directors. All of the members of the Compensation Committee are independent directors within the meaning of Rule 4200 of the NASD.

Nominating and Governance Committee. The members of the Nominating and Governance Committee during fiscal year 2005 were John P. Devine (Chairman), Robert Richardson, and Milton E. Cooper. The Nominating and Governance Committee determines the criteria for selecting new directors, considers qualified candidates for appointment and nomination for election to the Board of Directors, including candidates validly nominated by shareholders, and reviews and makes recommendations concerning qualification, appointment, and removal of committee members. In addition, the Committee oversees compliance with the Company's Code of Business Conduct and Ethics, reviews compliance with corporate governance listing requirements established by NASDAQ, assists with annual Committee and Board self-assessments, and assists the Board in new and continuing director orientation and education. All of the members of the Nominating and Governance Committee are independent directors within the meaning of Rule 4200 of the NASD.

Director Nominations

The Company's bylaws contain provisions that address the process by which a shareholder may nominate an individual to stand for election to the Board of Directors at the Company's Annual Meeting. The Nominating and Governance Committee has adopted a policy regarding director nominations and regarding communications by shareholders with directors, including the process for evaluating director nominees proposed by shareholders. To date, the Company has not received any recommendations from shareholders requesting that the Nominating and Governance Committee (or any predecessor) consider a candidate for inclusion among the Committee's slate of nominees in the Company's proxy statement.

In evaluating director nominees, the Nominating and Governance Committee considers the following factors:

- the appropriate size of the Company's Board of Directors and its Committees;
- the perceived needs of the Board for particular skills, background, and business experience;
- the skills, background, reputation, and business experience of nominees compared to the skills, background, reputation, and business experience already possessed by other members of the Board;
- nominees' independence from management;
- applicable regulatory and listing requirements, including independence requirements and legal considerations, such as antitrust compliance;
- the benefits of a constructive working relationship among directors; and
- the desire to balance the considerable benefit of continuity with the periodic injection of the fresh perspective provided by new members.

Other than the foregoing, there are no stated minimum criteria for director nominees, and the Nominating and Governance Committee may also consider such other factors as it may deem are in the best interests of the Company and its shareholders. The Nominating and Governance Committee does, however, believe it appropriate for at least one member of the Board to meet the criteria for an "audit committee financial expert," that a majority of the members of the Board meet the definition of "independent director" under NASDAQ rules, and that one or more key members of management participate as members of the Board.

The Nominating and Governance Committee identifies nominees by first evaluating the current members of the Board of Directors willing to continue in service. Current members of the Board with skills and experience that are relevant to the Company's business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board with that of obtaining a new perspective. If any member of the Board does not wish to continue in service or if the Nominating and Governance Committee or the Board decides not to re-nominate a member for re-election, the Nominating and Governance Committee identifies the desired skills and experience of a new nominee, and discusses with the Board suggestions as to individuals that meet the criteria. In addition, the Committee has in the past engaged third parties to identify, evaluate, or assist in identifying potential nominees.

The Nominating and Governance Committee will evaluate any recommendation for director nominee proposed by a stockholder. In order to be evaluated in connection with the Nominating and Governance Committee's established procedures for evaluating potential director nominees, any recommendation for director nominee submitted by a stockholder must be sent in writing to the Corporate Secretary, 400 West California Avenue, Sunnyvale, CA 94086, 120 days prior to the anniversary of the date proxy statements were mailed to stockholders in connection with the prior year's annual meeting of stockholders and must contain the following information:

- the candidate's name, age, contact information, and present principal occupation or employment; and
- a description of the candidate's qualifications, skills, background, and business experience during, at a minimum, the last five years, including his/her principal occupation and employment and the name and principal business of any corporation or other organization in which the candidate was employed or served as a director.

Communication with Directors

Shareholders who wish to communicate with the Board of Directors may do so by writing to: Applied Signal Technology, Inc., Attention: Board of Directors, 400 West California Avenue, Sunnyvale, CA 94086. The Corporate Secretary shall maintain a log of such communications and transmit as soon as practicable such communications to the identified director addressee(s), unless there are safety or security concerns that mitigate against further transmission of the communication or the communication contains commercial matters not related to the stockholder's stock ownership, as determined by the Corporate Secretary in consultation with the Chief Executive Officer and legal counsel. The Board of Directors or individual directors so addressed shall be advised of any communication withheld for any reason as soon as practicable.

Director Attendance at Annual Meetings

The Company makes every effort to schedule its Annual Meeting at a time and date to maximize attendance by directors taking into account the directors' schedules. The Company believes that annual meetings provide an opportunity for shareholders to communicate with directors and has adopted a policy requesting that all directors make every effort to attend the Company's Annual Meeting. Historically, more than a majority of the directors have done so; for example, 100% of the directors attended the 2005 Annual Meeting.

Committee Charters and Other Corporate Governance Materials

The Board has adopted a charter for each of the committees described above, as well as a Code of Business Conduct and Ethics that applies to all of our employees, officers, and directors. Links to these materials are now available on our website at www.appsig.com/investor/ethics.htm. To date, there have not been any waivers by the Company of the code of ethics. Any amendments to, or waivers under, the code of ethics that are required to be disclosed by the rules of the SEC will be disclosed on the Company's website.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

The members of the Compensation Committee, Messrs. Elliman, Cooper, Devine, Richardson, and Whittelsey, are each independent directors and are not and have never been employees or officers of the Company or of any company on which an executive officer of the Company serves as a member of the board of directors.

Report of the Audit Committee of the Board of Directors for Fiscal Year 2005

The Audit Committee consists of four directors, each of whom, in the judgment of the Board, is an "independent director" as defined in the listing standards for the NASDAQ Stock Market and the applicable rules of the Securities and Exchange Commission. The Audit Committee assists the Board in the general oversight of the Company's financial reporting process, internal controls, and audit functions. The Audit Committee has responsibility for retaining the independent registered public accounting firm, reviewing their independence, reviewing and approving the planned scope of the Company's annual audit, reviewing and approving any related fee arrangements with them, reviewing and pre-approving any non-audit services that may be performed by them, reviewing the adequacy of the Company's accounting and financial controls, reviewing the Company's critical accounting policies, and reviewing and approving any related party transactions. The Audit Committee acts pursuant to a written charter that has been adopted by the Board of Directors. A copy of the charter is attached to this Proxy Statement as Appendix A.

Proposal Two: Ratification of Appointment of the Independent Registered Public Accounting Firm

The Audit Committee of the Board of Directors has selected Ernst & Young LLP to serve as the independent registered public accounting firm to audit the financial statements of the Company for fiscal year 2006. Representatives of Ernst & Young LLP who will be present at the Annual Meeting will be given the opportunity to make a statement if the representatives desire and will be available to respond to appropriate questions.

Shareholder ratification of the selection of Ernst & Young LLP as the Company's independent registered public accounting firm is not required by the Company's bylaws or otherwise. However, the Board is submitting the selection of Ernst & Young LLP to the shareholders for ratification as a matter of good corporate practice. If the shareholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee in their discretion may appoint a different firm at any time during the year if they determine that such a change would be in the best interests of the Company and its shareholders.

Non-employee directors are eligible to participate in the 2001 Stock Option Plan and 2004 Stock Incentive Plan, and employee-directors are able to participate in the 1993 Employee Stock Purchase Plan, 2001 Stock Option Plan, 2004 Stock Incentive Plan, and 401(k) Plan. Options granted to non-employee directors are not intended to qualify as incentive stock options under the Internal Revenue Code. Each newly hired non-executive director of the Company is entitled to an initial grant of options to purchase 22,500 shares of the Company's common stock upon his or her initial election to the Board of Directors at an exercise price equal to the fair market value on such date. The initial and any annual options granted to non-executive directors vest annually in three equal annual installments on the anniversary date of such grant and accelerate in full upon a change of control of the Company. A director who ceases to be a director for any reason may exercise the vested portion of his or her options within 12 months following such termination, to the extent not previously exercised. All options granted to non-employee directors under the 2001 Stock Option Plan expire ten years following the date of grant, and under the 2004 Stock Incentive Plan, expire eight years following the date of grant. In addition, all options granted to non-employee directors immediately vest in full upon a change in control of the Company.

Employment Contracts and Termination of Employment and Change-in-Control Arrangements

Executive Retention and Severance Plan

On August 18, 2004, the Compensation Committee adopted the Executive Retention and Severance Plan (the "Executive Severance Plan"), which provides certain benefits to the Company's executive officers and key employees upon involuntary termination of employment and in connection with a change in control of Applied Signal Technology, Inc.

A participant who is terminated without cause or resigns following certain adverse changes in employment circumstances, including any such termination or resignation that occurs during a period from the first public announcement of a change in control and ending 12 months after a change in control will be entitled to specified severance benefits. In addition to accrued compensation, including any earned but unpaid prior year bonus, and benefits earned under the Company's employee benefit and equity compensation plans, the terminated participant will receive cash severance payments equal to the aggregate of the participant's base salary for a period of 24 months in the case of the chief executive officer, and 12 months in the case of other executive officers, plus an amount equal to the participant's annual bonus for one year. In addition, participants will be entitled to receive for the same respective periods employer-paid health benefits substantially similar to those provided immediately prior to the termination. Provision of all such benefits is conditioned upon the participant's execution of a release of claims against the Company and entry into a covenant not to compete with the Company set forth in a restrictive covenants agreement. The participant may elect to terminate the restrictive covenants agreement, including the termination of the non-competition agreement, in exchange for forfeiting any additional severance payments payable after such termination.

The Executive Severance Plan provides that if, in the event of a change in control of the Company, the company acquiring Applied Signal Technology does not assume the outstanding Applied Signal Technology stock options of the participants in the Executive Severance Plan or substitute equivalent options for the acquiring company's stock, then the vesting and exercisability of the participants' options will be accelerated in full ten days prior to, but conditioned upon, the consummation of the change-in-control transaction. Furthermore, upon a change in control, any restricted stock or restricted stock unit awards held by participants in the Executive Severance Plan will vest in full. The treatment of any other stock options or other stock-based awards held by Executive Severance Plan participants upon a change-in-control will be determined under the plans or agreements providing for such options or awards.

Following a participant's termination of employment, the participant will be indemnified by the Company to the fullest extent permitted under applicable law and will be provided with directors' and officers' liability insurance (if applicable) for a period of six years, each as set forth in the Executive Severance Plan. If any payment or benefit received or to be received by the executive officer pursuant to the Executive Severance Plan or otherwise would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code, then the Company will pay the executive officer only such amounts as will not exceed the amount that produces the greatest after-tax benefit to the participant.

Acceleration of Director Options upon a Change in Control

Options to purchase our common stock granted to our non-employee directors provide that in the event of a change in control of the Company, each outstanding option held by a non-employee whose service as a director has not terminated prior to such date shall be immediately exercisable and vested in full as of the date ten days prior to the change in control.

The Compensation Committee has the authority to retain any independent, third party compensation consultant and to obtain independent advice and assistance from legal, accounting, and other advisors.

The Compensation Committee approves the compensation paid to the Chief Executive Officer and other executive officers of the Company, including salary, bonus, and any stock options or other long-term incentive compensation granted to executive officers, and approves the compensation of and options granted to directors of the Company. Recommendations for annual salary for the executive officers other than the Chief Executive Officer are made to the Compensation Committee by the Company's Chief Executive Officer ("CEO"), the Chief Operations Officer, and the Company's Human Resources Manager. The Committee also reviews data provided by independent consultants on compensation practices at peer corporations.

Compensation Philosophy

The Compensation Committee establishes a compensation and benefits philosophy and programs designed to assure that the Company's policies will attract, motivate, and retain key individuals necessary to support the Company's growth and success, and reward contributions to the Company's success. Salaries are generally set for the executive officers by evaluating their performance, the goals established for their function, and the importance of each position to the achievement of the Company's strategic goals. In addition, the Compensation Committee compares compensation for the same positions at similarly-sized defense and electronics companies operating in similar employment markets.

Annual Base Salary and Incentive Bonuses

The compensation of the Company's executive officers has consisted of salaries that are set toward the upper end of the appropriate salary ranges observed at similarly sized defense and electronics companies and relatively modest annual performance bonuses compared to similarly sized companies. This has resulted in total cash compensation paid to the Company's executive officers within the range of the total cash compensation paid by similarly situated companies to executive officers at other defense and electronics companies.

With this philosophy as background, the Compensation Committee used the following criteria to establish compensation for its executive officers for fiscal year 2005. First, the Committee considered the current importance of each position held by the executive officer to the ability of the Company to achieve its strategic objectives, including the importance of the function of the group managed by the executive officer as well as the group's management needs considering its organization and operation. Second, the Committee received and considered compensation survey data covering the total cash compensation (salary and bonus) paid by companies in the electronics industry with annual revenues similar to the Company. Finally, the Committee reviewed the evaluations of each executive officer and the CEO's annual review of all other executive officers. All such evaluations are made in the context of the Company's overall operating performance.

The Committee met in January 2005 to review the Company's fiscal year 2004 financial performance and specific compensation data in order to set salaries for the executive officers for fiscal year 2005. In view of the Company's fiscal year 2004 performance, the outlook for fiscal year 2005, and competitive market practices, the Committee approved competitive salary increases for all executive officers for fiscal year 2005.

At the beginning of fiscal year 2005, the Compensation Committee approved the continuation of the annual incentive plan and established the parameters against which executive officer performance would be evaluated for fiscal year 2005. Under the annual incentive plan, executive officers of the Company are entitled to payment of bonuses after the fiscal year end determined by using a common objective formula based upon the entire Company's performance. Bonuses are paid under the incentive plan upon the achievement of a threshold performance goal, based upon the Company's expected earnings before interest and taxes, depreciation, and amortization set forth in the operating plan for the fiscal year, with maximum award multipliers of 0% and 180% of credited levels of attainment of performance goals for the fiscal year.

After reviewing the year-end performance of the Company for fiscal year 2005 in January 2006, the Committee ratified the payment of bonuses to the executive officers, including the CEO, following the fiscal year end pursuant to the annual incentive plan, resulting in bonus payments to the executive officers for fiscal year 2005 equal to between 19% and 30% of each such executive officer's annual base salary. The Company's financial performance dictated that executive officer bonuses were awarded at the maximum threshold amount under the terms of the annual incentive plan.

Long-Term Incentive Compensation

Part of the Committee's compensation philosophy is to grant stock options for executive compensation, as well as to substantially all of the Company's employees. The Committee believes that this will more closely align the compensation of Company executives with Company performance and the interests of shareholders, as well as with the compensation packages offered executives at other similarly sized electronics companies. The Company typically grants incentive stock options and non-qualified stock options to executive officers following the end of the fiscal year, at an exercise price equal to the fair market value of the Company's common stock on the date of grant. Options vest at the rate of 20% on each anniversary of the date of grant, and are fully vested at the end of five years, and have a term of eight years, so long as the optionee remains an employee of the Company. At its January 2005 meeting, in recognition of the performance of the executive officers for fiscal year 2004, the Compensation Committee approved grants of stock options to the Company's executive officers. Details of option grants to executive officers made in fiscal year 2005 are disclosed in the table of "Stock Option Grants in Last Fiscal Year" on page 19. The Compensation Committee will continue to consider stock option grants as well as awards of restricted stock in future periods.

Executive Employment Agreements

The Company's employees, including our executive officers, are employed "at will" and do not have employment agreements; provided, however, that our executive officers are participants in our Executive Retention and Severance Plan, which provides certain benefits to the Company's executive officers upon involuntary termination of employment and in connection with a change in control of the Company. The provisions of this Agreement are discussed above in this proxy under "Employment Contracts and Termination of Employment and Change-in-Control Arrangements – Executive Retention and Severance Plan."

Compliance with Section 162(m) of the Internal Revenue Code

The Company's policy with respect to compensation paid to its executive officers is to deduct compensation that qualifies under Section 162(m) of the Internal Revenue Code, as amended, as an expense. Section 162(m) of the Internal Revenue Code and related Treasury Department regulations restrict deductibility of executive compensation paid to the Company's Chief Executive Officer and each of the four other most highly compensated executive officers holding office at the end of any year to the extent such compensation exceeds \$1,000,000 for any of such officers in any year and does not qualify for an exception under the statute or regulations. Income from options granted under the Company's stock option plans would generally qualify for an exemption from these restrictions so long as the options are granted by a committee whose members are non-employee directors, such as this Compensation Committee. Accordingly, grants made by the Committee to executive officers qualify for the exemption. The Company expects that the Compensation Committee will generally be comprised of non-employee directors, and that to the extent such Committee is not so constituted for any period of time, the options granted during such period will not be likely to result in compensation exceeding \$1,000,000 in any year. The Committee does not believe that other components of the Company's compensation will be likely to exceed \$1,000,000 for any executive officer in the foreseeable future and therefore concluded that no further action with respect to qualifying such compensation for deductibility was necessary at this time. In the future, the Committee will continue to evaluate the advisability of qualifying its executive compensation for deductibility of such compensation.

Chairman and Chief Executive Officer Compensation

The Compensation Committee followed the same philosophy described above in determining compensation for the Company's CEO, Gary Yancey, in fiscal year 2005. In January 2005, the Committee evaluated Mr. Yancey's performance during fiscal year 2004 with respect to the Company's revenues, profit margin, the size and progress of the Company's research and development efforts, and the quality of the CEO's management of his line managers. As a result of the favorable performance review, and in light of the Company's financial and operating results and profitable growth and positioning for sustained long-term growth made during fiscal year 2004, in January 2005, the Compensation Committee increased Mr. Yancey's base salary to \$410,000 and made him a grant of options to purchase 40,000 shares of the Company's common stock at an exercise price of \$32.19 per share. In consideration of the performance of the Company during fiscal year 2005 and in accordance with the terms of the annual incentive plan, in November 2005, the Compensation Committee approved a bonus payable to Mr. Yancey of approximately \$125,000 concurrent with the bonuses payable to the other executive officers of the Company. In addition, after reviewing the financial and operating performance of the Company for fiscal year 2005, the successful acquisition and integration of Dynamics Technology, Inc. during the year, and the strategic diversification of the Company's business implemented during the fiscal year, in November 2005, the Compensation Committee approved an increase in the base salary payable to Mr. Yancey to \$462,160, with a target bonus of 30% of annual salary, as well as increases in the base salaries payable to the other executive officers of the Company.
