ANNEX 1

CHIEF EXECUTIVE OFFICER REPORT

Consolidated

Final printing

Highlights

3rd Quarter 2007

- At the end of the third quarter, the number of lines in service reached 18 million 157 thousand where TELMEX's estimated participation in the telecommunications market is as follows:

Market	Market Share*	Number of Services
Fixed, mobile and voice services of cable companies	21%	More than 85 million
Fixed voice services including the ones provided by mobile and cable companies	85%	More than 21 million

*Estimated

- Of TELMEX's lines, approximately 9.8 million (46% of the fixed services market) are in areas with competition and where cable companies have presence. The remaining 8.3 million lines (39% of fixed services market) are in communities that are not served by competition (CONAT). These customers generated revenues of approximately 5.8 billion pesos and an operating loss of 708 million pesos in the third quarter. Given the particular characteristics of this market where competition has no presence, TELMEX established a new business unit called "Dirección para Comunidades no Atendidas por la Competencia" (CONAT) that will operate and report in an independent manner with the objective of satisfying the telecommunications services needs in these communities.
- TELMEX continues to offer computers with financing for up to 3 years, offering choices starting at monthly payments of 183 pesos (211 pesos VAT included), so that, customers can choose the computer that best fits their needs. Additionally, customers who sign up for our Internet service receive a 20% discount on their computer payments. These efforts contribute to growth in broadband services, recognizing that low computer penetration in the country is one of the main obstacles for growth in that market since 4 out of 5 homes do not have a computer. Throughout the year, we have sold more than 240 thousand computers.
- In Mexico during the third quarter, 296 thousand broadband Infinitem (ADSL) accounts were added, bringing the total to approximately 2.7 million services. Of the total of 3.1 million Internet users, **85% are broadband Infinitem users**. Currently, close to 13% of homes have access to broadband services and in TELMEX's case, Infinitem services increased 68.2%. Mexico has one of the highest growth rates in this type of service among all countries that are members of the OECD. (*OECD Communications Outlook 2007*)
- In the third quarter, TELMEX launched the **Todo México sin límites** (All Mexico without limits) package that includes fixed line rent, broadband Infinitem service, unlimited local calls and domestic long distance minutes, as well as digital services for 869 pesos (999 pesos per month 15% VAT included).

- Mexico has 397 Local Service Areas (LSA) each one with an average surface of 5 thousand square kilometers where more than 260 thousand inhabitants are served. That compares favorably with LSA figures in other countries.

Country	Mexico	USA	Canada	Spain	Brazil	Argentina	Colombia
N u m b e r o f LSA	397	25,000	3,010	508	5,360	2,904	1,048
T h o u s a n d inhabitants/ LSA	262.3	12.0	10.8	86.9	34.8	13.4	44.6

- Those favorable comparisons notwithstanding, we have established a program to offer a DLD price per minute of 0.50 pesos (0.575 pesos VAT included) in 174 adjacent cities. That reduces domestic the long distance cost for the inhabitants in those cities approximately 58%.
- The October 3, 2006 "Acuerdo de Convergencia" (Convergence Agreement), establishes the bases for the convergence of networks and related requirements. As part of achieving interconnection and interoperability of networks, TELMEX has signed 16 interconnection agreements to date with different cable companies. **TELMEX has carried out investments and modifications in its telecommunications network** in a timely manner to meet these requirements. The objectives established by the Federal Government regarding Competition, Convergence and Coverage are desirable for the rapid development of telecommunications and will surely increase investments and penetration of telecommunications services, thereby increasing the offering and improving prices for consumers in Mexico. The achievement of these objectives will reduce the significant lag in offering integrated services (convergence), coverage and penetration of data and video in Mexico.
- In Brazil, the major revenue generators continue to grow. At Embratel, local service access increased 31.5% compared with the third quarter of 2006 and line equivalents of 64 Kbps increased 29.9%.
- In the third quarter, consolidated revenues rose to 48.1 billion pesos, 2.1% higher than the same period of the previous year. Revenues from the operations in Mexico totaled 33.3 billion pesos, an increase of 0.7% compared with last year's third quarter. In Brazil, revenues totaled 13.0 billion pesos (2.2 billion reais) in the quarter, **5.8% higher than the same quarter of 2006**. In the other Latin American operations total revenues were the equivalent of 1.8 billion pesos.
- Consolidated EBITDA (1) totaled 20.5 billion pesos, an increase of 11.0% compared with the third quarter of last year. The operations in Mexico represent 16.8 billion pesos or 81.8% of total EBITDA and Brazil had EBITDA equivalent to 3.4 billion pesos (575 million reais) or 16.6% of total EBITDA.
- Consolidated operating income totaled 14.1 billion pesos, an increase of 17.9 % compared with the third quarter of 2006.
- Majority net income in the quarter totaled 9.3 billion pesos. In the third quarter, earnings per share were 47 Mexican cents, an increase of 42.4% compared with the same period of last year, and earnings per ADR were 87 US cents, an increase of 61.1%, compared with the third quarter of 2006.

- In the quarter, consolidated net debt (3) decreased the equivalent of 375 million dollars to a total of 7.172 billion dollars.
- Consolidated capital expenditures (Capex) were equivalent to 1.204 billion dollars for the nine months. Share repurchases totaled 2.653 billion pesos during the third quarter.

Consolidated Income Statements

Revenues:

In the third quarter, consolidated revenues increased 2.1% compared with the same period of the previous year, reaching 48.146 billion pesos. Major contributors were increases of 8.7% in Internet revenues, 6.2% in corporate networks, 16.3% in interconnection revenues, related to domestic and international calling party pays service, and 34.0% in other revenues, comprised primarily of Tiendas TELMEX (TELMEX stores) and Yellow Pages. For the period, local service revenues and international long distance revenues decreased 7.8% and 6.3%, respectively.

Costs and expenses

: In the third quarter, costs and expenses decreased 3.3% compared with the same period of 2006, totaling 34.003 billion pesos. The previous year's period included a non-recurring charge equivalent to 3.1 billion pesos (515 million reais) related to the ICMS tax (Imposto Sobre Circulação de Mercadoria e Prestação de Serviços) in Brazil. Other significant cost factors in the third-quarter comparison were the increase in interconnection expenses in Mexico from domestic and international calling party pays, higher costs related to computer sales and the integration of cable TV companies in Colombia. These effects were partially offset by initiatives to control costs and optimize resource use. If the non-recurring charge in 2006 were eliminated, costs and expenses would have increased 5.9%.

EBITDA (1) and operating income:

Consolidated EBITDA (1) totaled 20.483 billion pesos in the third quarter, an increase of 11.0% compared with the same period of 2006. The EBITDA margin was 42.5%. Consolidated operating income totaled 14.143 billion pesos, 17.9% higher than the third quarter of 2006, producing a margin of 29.4%.

Other revenues and expenses:

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

Other revenues of 264 million pesos were primarily related to the market value of the company's financial investments.

Comprehensive financing result:

Comprehensive financing cost produced a charge of 658 million pesos in the quarter. This resulted from: i) net interest charge of 1.384 billion pesos, 42.8% lower than the same period of 2006, due to recognition of the market value of interest rate swaps, offset by the increase in the level of indebtedness ii) a net exchange loss of 308 million pesos from the third-quarter exchange rate devaluation of 0.1277 pesos per dollar, offset by the 6.140 billion dollars in dollar-peso hedges (weighted average exchange rate: 10.9844 pesos per dollar) and 1.111 billion dollars in dollar-reais hedges (weighted average exchange rate: 2.0144 reais per dollar), and iii) a gain of 1.034 billion pesos in the monetary position.

Majority net income:

Majority net income in the third quarter totaled 9.3 billion pesos, 38.4% higher than the same period of the previous year. Earnings per share were 47 Mexican cents, an increase of 42.4% compared with the same period of the previous year, and earnings per ADR were 87 US cents, an increase of 61.1% compared with the same period of 2006.

Investments:

For the nine months, consolidated capital expenditures (capex) was the equivalent of 1.204 billion dollars, of which 77.2% was used for growth projects in the voice, data and transport infrastructure, 21.5% for operational support projects and operating needs, and 1.3% for social telephony.

Debt:

Gross total debt at September 30 was the equivalent of 10.413 billion dollars, of which 7.3% is short-term and 92.7% is long-term. Additionally, 79.0% is in foreign currency and 44.7% of the total debt has fixed interest rate that converts to 58.1% if 14.160 billion pesos of interest rate swaps at an average interest rate of 8.563% are included. Consolidated net debt (3) decreased in the quarter the equivalent of approximately 375 million dollars, totaling 7.172 billion dollars.

Repurchase of shares:

For the nine months, the company used 10.481 billion pesos to repurchase its own shares. Of that total, 2.653 billion pesos were applied during the third quarter to repurchase 139,517,900 shares.

(3) Net debt is defined as total debt less cash and cash equivalents and marketable securities.

Mexico Operating Results

At September 30, customers have signed up for more than **3 million telecommunications service packages, 20.8% higher than the same period of 2006**. In addition to providing benefits for our customers, these packages generate a continuous revenue flow for TELMEX, which exceeded the year-earlier total by 41.8%.

Lines in service and local traffic

At the end of the third quarter, there were 18.2 million lines in service, 45 thousand fewer than a year earlier. The decrease was mainly due to more competition in the most attractive segments of the market and the increase in broadband services that in some cases represent a substitution for traditional lines.

During the third quarter, local traffic decreased 6.1% compared with the same period in 2006, with a total of 6.324 billion local calls. Local traffic volume is still affected by competition from local and mobile telephony and by the migration of our switched traffic to corporate networks, a trend that strengthens the data business although it adversely affects local traffic. Also affecting local traffic results is the migration of dial-up Internet services to Infinitum broadband services (ADSL).

At September 30, customers used approximately 1.3 million local service packages that generate a fixed revenue flow. These packages reflected an increase of 66.1% compared with the previous year.

Long distance

Domestic long distance (DLD) traffic decreased 0.9% compared with the third quarter of 2006, totaling 4.632 billion minutes, mainly due to the decrease in termination traffic with long distance operators to the DLD packages as well as to the integration of domestic calling party pays service in November 2006, which registered 634 million minutes in the quarter.

In the quarter, outgoing international long distance (ILD) traffic increased 4.3% compared with last year's third quarter, totaling 499 million minutes. Incoming international long distance traffic, including international calling party pays traffic, increased 5.3% compared with the same period of the previous year, totaling 1.893 billion minutes. The incoming-outgoing ratio was 3.8x.

At September 30, there were 1.5 million packages generating fixed revenues for the long distance business, a decrease of 2.3% compared with 2006.

Interconnection

In the third quarter, interconnection traffic increased 15.7% compared with the third quarter of the previous year, totaling 11.678 billion minutes. Calling party pays traffic increased 60.6% as a result of incorporating traffic from domestic and international calling party pays. If this effect were eliminated, local calling party pays traffic would have increased 5.5%, reflecting mobile telephony growth.

Internet and corporate networks

In Mexico during the third quarter, 296 thousand broadband Infinitem (ADSL) accounts were added, bringing the total to approximately 2.7 million services. Of the total of 3.1 million Internet users, **85% are broadband Infinitem users**. Currently, close to 13% of homes have access to broadband services and in TELMEX's case, Infinitem services increased 68.2%. Mexico has one of the highest growth rates in this type of service among all countries that are members of the OECD. (*OECD Communications Outlook 2007*).

In the third quarter, TELMEX launched the **Todo México sin límites** (All Mexico without limits) package that includes fixed line rent, broadband Infinitem service, unlimited local calls and domestic long distance minutes, as well as digital services for 869 pesos (999 pesos per month VAT included).

In the corporate market, billed line equivalents for data transmission increased 17.2% compared with last year's third quarter, bringing the total to 2.6 million line equivalents of 64 Kbps.

Mexico Financial Results

Revenues:

In the third quarter, revenues from the operations in Mexico totaled 33.295 billion pesos, an increase of 0.7% compared with the same period of the previous year. Revenues from interconnection services increased 27.5% due to domestic and international calling party pays services. Other revenues increased 21.9% mainly due to higher sales in Tiendas TELMEX (TELMEX Stores) and to the Yellow Pages business. The increase in revenues partially offset the reduction in real terms of local, long distance, corporate networks and Internet prices.

- Local:

Local revenues totaled 13.464 billion pesos in the third quarter, a decrease of 6.8% compared with the third quarter of 2006, due to the reduction in real terms of 4.4% of the average revenue per local billed call, to the decrease of public telephony traffic due to competition from both mobile telephony and other public telephony operators, and to the migration of dial-up Internet access to broadband services.

- DLD:

DLD revenues totaled 4.362 billion pesos in the third quarter, 5.7% lower than the third quarter of 2006. The average revenue per minute was 6.3% lower in real terms and traffic decreased 0.9%, affected among other things by the decrease in termination traffic with other long distance operators.

- ILD:

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

In the third quarter, ILD revenues totaled 2.321 billion pesos, a decrease of 10.0% compared with the third quarter of 2006. Revenues from outgoing traffic declined 13.0% to 1.447 billion pesos compared with the third quarter of 2006 due to the 13.9% decrease in the average revenue per minute in real terms. Incoming international long distance revenues totaled 874 million pesos, a decrease of 4.6% compared with the third quarter of 2006.

- Interconnection:

In the third quarter, interconnection revenues increased 27.5% to 5.674 billion pesos compared with the same period of 2006, mainly due to the introduction of domestic and international calling party pays. If this effect were eliminated, interconnection revenues would have decreased 7.7%, because of the 10% reduction of the local calling party pays rate.

- Corporate networks:

In the third quarter, revenues from services related to data transmission through private and managed networks totaled 2.772 billion pesos, 2.2% higher than same period of the previous year. The increase in the number of services was offset by the price reduction of these services.

- Internet:

Revenues from services related to the Internet platform in the third quarter totaled 2.671 billion pesos, 3.5% higher than last year's third quarter. In spite of growth in broadband services, there was no gain in revenues in real terms because of the price reduction that took effect in April 2007.

Costs and expenses:

In the third quarter, total costs and expenses were 21.013 billion pesos, an increase of 4.3% compared with the third quarter of 2006. This increase was mainly due to higher interconnection costs (domestic and international calling party pays) and higher costs of telephone handsets and equipment for customers. If costs from domestic and international calling party pays were eliminated, costs and expenses would have decreased 2.3% compared with last year's third quarter as a result of cost control initiatives and lower depreciation and amortization charges.

- Cost of sales and services:

In the third quarter, cost of sales and services decreased 0.7% compared with the same period of 2006, totaling 7.564 billion pesos, due to higher computer and telecommunications equipment costs related to higher sales, offset by the initiatives that were carried out to optimize resource use.

- Commercial, administrative and general:

Commercial, administrative and general expenses were at a similar level of the same period of the previous year to 4.904 billion pesos due to lower advertising and prepaid cards expenses.

- Transport and interconnection:

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

In the third quarter, transport and interconnection costs totaled 4.063 billion pesos, an increase of 29.7% compared with the same period of 2006 as a result of the new domestic and international calling party pays service, which generated costs of 1.343 billion pesos in the quarter.

- Depreciation and amortization:

In the quarter, depreciation and amortization decreased 0.9% to 4.482 billion pesos compared with the same period of 2006, due to less impact from restatement of the value of fixed assets.

EBITDA (1) and operating income

: EBITDA (1) totaled 16.764 billion pesos in the third quarter, a decrease of 3.9% compared with the same period of last year. The EBITDA margin was 50.3%. Operating income totaled 12.282 billion pesos in the third quarter and the operating margin was 36.9%.

International Operations Results

The following financial information is presented in the local currency of each country, according to that country's generally accepted accounting principles, before eliminating inter-company operations among companies of the TELMEX Group.

Brazil

Embratel's efforts have been focused on consolidating its position in the corporate data business and on increasing the local service offering in the mass market. These efforts increased line equivalents 29.9% and lines in service 31.5% compared with the third quarter of last year. Additionally, at September 30 the company provided Net Fone (triple play services) through Net Serviços to 469 thousand customers.

Revenues

: In the third quarter, revenues totaled 2.2 billion reais, 5.8% higher than the same quarter of the previous year. Higher revenues were mainly due to the 37.1% increase in local service revenues that offset the 1.5% decrease in domestic long distance revenues.

- Local

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

: In the third quarter, local revenues reached 333 million reais, 37.1% higher than the same period of 2006 due to the 31.5% increase in local service users.

- Domestic long distance

: Domestic long distance revenues totaled 1.030 billion reais, 1.5% lower than the third quarter of 2006 due to the 3.6% decrease in traffic, partially offset by a 2.2% increase in the average revenue per long distance minute.

- International long distance

: In the quarter, international long distance revenues totaled 128 million reais, 1.7% higher than the same period of 2006, because the average revenue per long distance minute decreased 2.7%, partially offset by the 4.5% increase in traffic.

Corporate networks and Internet

: The combined effect of the higher number of services and the rate adjustments generated revenues by the data and Internet access of 567 million reais, 0.8% lower than the same period of 2006.

Costs and expenses

: Costs and expenses were 1.892 billion reais in the quarter, a decrease of 20.6% from the 2006 period, which included a non-recurring charge of 515 million reais related to the ICMS tax (Imposto Sobre Circulação de Mercadoria e Prestação de Serviços). If this effect were eliminated, costs and expenses would have been similar to the same period of 2006 mainly due to higher personnel expenses and higher costs of telephone handsets related to growth in local services, offset by the rationalization of resource use.

EBITDA (1) and operating income

: EBITDA (1) totaled 575 million reais in the third quarter compared with a loss of 40 million reais in the same period of 2006, producing a margin of 26.4%. Operating income totaled 294 million reais in the quarter, producing a margin of 13.5%.

Colombia

In Colombia, efforts in the voice and data businesses have been focused on consolidating the corporate and SME segments. Those initiatives are reflected in the increase of 67.1% in line equivalents compared with last year's third quarter. In the cable TV business, we are in the process of integrating the operations of the recently acquired companies. Through these companies' integrated network, we currently cover more than 2.5 million homes.

In Colombia, revenues totaled 127.674 billion Colombian pesos in the third quarter, 185.2% higher than the same period of 2006. Higher revenues were mainly due to expanding relationships with several corporate customers and the integration of the cable TV companies, which contributed 81.614 billion Colombian pesos to third-quarter results.

Costs and expenses increased 292%, totaling 135.400 billion Colombian pesos, mainly due to the incorporation of the cable companies, which accounted for 96.484 billion Colombian pesos, and to higher personnel expenses to serve the small and medium-sized market. In the quarter there was an operating loss of 7.726 billion Colombian pesos compared with operating income of 10.228 billion Colombian pesos in the year-ago third quarter, mainly due to higher depreciation charges related to the update of cable infrastructure. In the third quarter, EBITDA (1) totaled 20.793 billion Colombian pesos with a margin of 16.3%, compared with EBITDA (1) of 18.636 billion Colombian pesos in the same period of the previous year.

Argentina

In the quarter, revenues from the operations in Argentina totaled 102.1 million Argentinean pesos, an increase of 15.0% compared with the same period of the previous year, due to increases in revenues in the corporate and Internet businesses and local services of 28.6% and 56.0%, respectively, partially offset by the decrease in interconnection revenues with other operators.

Operating costs and expenses totaled 99.8 million Argentinean pesos in the quarter, an increase of 11.6% due to higher commissions and network maintenance costs related to growth in local services.

In the quarter, EBITDA (1) totaled 20.2 million Argentinean pesos, an increase of 57.8% compared with the same period of 2006 with a margin of 19.8%. Operating income rose to 2.4 million Argentinean pesos in the quarter compared with a loss of 0.6 million Argentinean pesos in the same period of the previous year.

Chile

Revenues from the operations in Chile reached 18.645 billion Chilean pesos, 11.9% more than the third quarter of 2006. Revenues from the corporate networks and Internet access businesses rose 8.1%, while local services revenues increased 40.2%. Long distance revenues decreased 9.9% as this market declined because of migration to mobile services and private networks.

In the third quarter, costs and expenses totaled 19.417 billion Chilean pesos, an increase of 11.0% compared with the same period of the previous year. Costs of sales and services increased 23.9% due to higher network maintenance costs related to growth in local services. Commercial, administrative and general expenses increased 10.3% due to higher personnel and advertising expenses for the launch of the new multi-service packages over the WiMax platform. In the quarter, there was an operating loss of 772 million Chilean pesos compared with an operating loss of 823 million Chilean pesos in the same period of the previous year. EBITDA (1) totaled 2.431 billion Chilean pesos, producing a margin 13.0%.

Peru

In the third quarter, revenues totaled 66.0 million New Soles, 23.8% higher than the same period of the previous year. The data business, which represents 36.1% of total revenues, increased 36.0%. In the quarter, voice business revenues decreased 2.4% compared with the same period of 2006 since the 13.6% increase in local revenues was offset by the decrease in interconnection revenues with other operators.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

In the third quarter, costs and expenses increased 32.8%, reflecting increases of 12.3% in transport and interconnection costs and 57.7% in commercial, administrative and general expenses due to the integration of the cable TV companies. EBITDA (1) totaled 14.2 million New Soles, 9.0% lower the same period of 2006, with a margin of 21.5%.

ANNEX 2

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Thousands of Mexican Pesos)

Consolidated

Final printing

S 87 OTHERS

In this item there are included the inventories for telephone plant operation that at September 30, 2007 and 2006 rose \$3,107,998 and \$2,658,010, respectively which are valued by the average cost method and are updated based on the specific index method, without exceeding their market value.

S 84 INTANGIBLE ASSETS FOR LABOR OBLIGATIONS

In this item it is included the projected net asset accordingly with Bulletin D-3 Labor Obligations issued by the Mexican Institute of Public Accountants.

PROJECTED NET ASSETS (D-3)

At September 30, 2007 and 2006, the market value of the established pensions and seniority premium fund was greater than the accumulated benefit obligation (ABO) in Mexico, and pursuant to Bulletin D-3, it is not recognized neither any additional liability nor the related intangible asset and effect of labor obligation on stockholders' equity. As a result of the foregoing, the balance sheet presents a projected net asset.

S 23 AND S 28 BANK LOANS

In this item, there are included the banks' credits related to purchase programs to suppliers that have been traditionally reported in the suppliers' credits item of the Balance Sheet because long-term opening to suppliers does not exist in EMISNET.

On October 20, 2005, TELMEX entered into an agreement to restructure the syndicated loan contracted on July 15, 2004 for 2.425 billion dollars to improve the credit conditions and increase the total amount to 2.5 billion dollars in two tranches, the first one for 1.5 billion dollars and has a four-year maturity and the second one for 1 billion dollars and has a six-year maturity. No penalties were assessed for the restructuring of the syndicated loan.

On August 11, 2006 the loan was restructured again in order to improve the credit terms and increasing the total loan amount to 3 billion dollars divided in three tranches, the first one for 1.3 billion dollars with a three-year maturity, the second one for 1 billion dollars with a five-year maturity years and the third one for 700 million dollars with a seven-year maturity

On June 30, 2006 Telmex entered into a syndicated loan agreement in the amount for 500 million dollars divided into two tranches of 250 million dollars each, with a four-year and six-year maturity, respectively.

S 24 AND S 29 STOCK MARKET LOANS

On November 19, 2003, TELMEX issued a bond for U.S.\$ 1.0 billion due 2008, with an annual interest of 4.5%. Interest will be paid semiannually.

On January 27, 2005, TELMEX placed senior notes in aggregate principal amount of U.S.\$1.3 billion in two issuances of U.S.\$650 million each, the first one maturing in 2010 and bearing interest at 4.75% annual and the second one maturing in 2015 and bearing interest at 5.50% annual. Interest will be paid semiannually. On February 22, 2005, there was a reopening of this transaction and the amounts of such issuances increased to U.S. \$950 million and U.S. \$800 million, respectively.

On January 26, 2006, TELMEX placed abroad a senior note in the amount of Ps. 4.5 billion, maturing in 2016 and bearing interest at 8.75% annual. Interest will be paid semiannually.

On april 23, 2007, Telmex placed domestic senior notes "Certificados Bursátiles" for Ps. 9.5 billion in two tranches, the first one for Ps. 5.0 billion due in 30 years at a fixed interest rate of 8.36% annual and the second one for Ps. 4.5 billion due in 5 years at a rate of "TIIE" Interbank rate less 10 basis points.

In the second half of year 2006, the Company entered into cross currency swaps to hedge the exchange rate and interest rate risks related to the issuance of bonds with maturity in 2010 and 2015 for a total of 1.750 billion dollars, with interest rate of 4.75% and 5.5%, respectively, and the 500 million dollars syndicated loan divided in two tranches with maturity in 2010 and 2012 (with interest rates of three-month Libor plus 20 basis points and three-month Libor plus 25 basis points, respectively). These hedges fixed the exchange rate of 10.9275 Mexican pesos per US dollar for the entire life of the bonds and the exchange rate of 10.8458 Mexican pesos per US dollar for the entire life of the syndicated loan. It also allowed Telmex to set a fixed rate of 7.52% and 8.57% for the bonds, respectively, and an interest rate of 28-day "TIIE" interbank rate plus 4 basis points for the syndicated loan.

In June and July, 2007 the Company entered into a cross currency swaps agreements to hedge the exchange rate and interest rate risks related to the syndicated loan with maturity in 2009 for a total amount of 300 million dollars (with interest rate of three-month Libor plus 20 basis points). These hedges allowed to set the exchange rate of 10.7494 mexican pesos per US dollar and an interest rate of 28-day "TIIE" Interbank rate less 10 basis points.

S 29 STOCK MARKET LOANS (LONG-TERM)

D e f e r r e d credits	3,567,085	3,422,500

NOTES TO CONSOLIDATED STATEMENTS OF CHANGES IN FINANCIAL POSITION

C 39 OTHER ITEMS

Includes inventories for operation of the telephone plant, marketable securities and instruments available for sale, deferred assets, as well as decreases of fixed assets.

RATIOS

P 08 INVENTORY TURNOVER RATE-COST

EMISNET automatically calculates the inventory turnover rate-cost by dividing the cost of sales and services (Ref. R 2) by the inventory of goods for sale (Ref. S 6), fact that affects the actual turnover.

RECLASIFICACIONES

Some of the figures of the 2006 financial statements have been reclassified to conform the presentation with the same used in the year 2007.

FINANCIAL LIMITED BASED IN ISSUED DEED AND/OR TITLE

Part of the long-term debt is subject to certain restrictive covenants with respect to maintaining certain financial ratios and the sale of assets, among others.

A portion of the debt is also subject to early maturity or repurchase at the option of the holders in the event of change of control of the Company, as defined in the related instruments. The definition of change of control varies from instrument to instrument; however, no change in control shall be considered to have occurred as long as Carso Global Telecom, S.A.B. de C.V. (TELMEX' controlling company) or its current stockholders continue to hold the majority of the Company's voting shares.
--

CURRENT SITUATION OF FINANCIAL LIMITED
--

At September 30, 2007, the Company has complied with such restrictive covenants.

TRANSACTIONS IN FOREIGN CURRENCY AND EXCHANGE OF FINANCIAL STATEMENTS FROM
FOREIGN OPERATIONS

Consolidated

Final printing

Translation of financial statements of foreign subsidiaries

The financial statements of foreign subsidiaries and affiliates were translated into Mexican pesos, as follows:

The financial statements as reported by the foreign subsidiaries are adjusted to conform to Mexican Financial Reporting Standards, in their local currency, and are subsequently restated to local currency with purchasing power as of the balance sheet date, based on the inflation rate of the country in which the subsidiary operates.

All balance sheet amounts, except for stockholders' equity, are translated into Mexican pesos at the prevailing exchange rate at the end of the period; stockholders' equity accounts are translated at the prevailing exchange rate at

the time capital contributions were made and earnings were generated. The restated amounts of the income statement are translated into Mexican pesos at the prevailing exchange rate at the end of the period being reported.

Exchange rate changes and the monetary position effect derived from intercompany monetary items are included in the consolidated income statements.

The difference resulting from the translation process is called "Effect of translation of foreign entities" and is included in stockholders' equity as part of the caption "Other comprehensive income items".
