Chairman's
LETTER TO SHAREHOLDERS

Photo of: Timothy R. Schwertfeger

Timothy R. Schwertfeger | Chairman of the Board

It is with a variety of emotions that $I$ write my last letter to Nuveen Fund shareholders. For a dozen years, it has been my privilege to communicate periodically with you through these annual and semi-annual reports about the performance and uses of your Fund. Over that time, I've tried to emphasize the central role that quality municipal bonds can play in creating attractive opportunities for current tax-free income, long-term return and portfolio diversification. I firmly believe that all our Fund shareholders, working in conjunction with a trusted financial advisor, have the potential to reach their financial objectives by using Nuveen Funds as a core component of a well-balanced portfolio.

As I noted in your Fund's last shareholder report, Nuveen Investments was acquired in November 2007 by a group led by Madison Dearborn Partners, LLC. While this event had no impact on the investment objectives, portfolio management strategies or dividend policies of your Fund, it did provide a convenient point to begin implementing a long-planned transition in the senior management team at Nuveen. As a part of this process, I will be leaving the Board of the Nuveen Funds on June 30, 2008.

In addition, Nuveen and your Fund's Board determined that Fund shareholders would be best served by having an independent director serve as the new chairman of the Fund Board. Therefore, $I$ am very excited and pleased to report that $I$ will be succeeded as chairman of your Nuveen Fund Board by Robert Bremner. A member of the Board since 1997, Bob is a management consultant and private investor not affiliated with Nuveen. Over the years, he has played a critical role on the Fund Board, most recently as the lead independent director, and I know Bob and the other Board members are determined to maintain the standards and commitment to quality that you have come to expect from your Nuveen investment.

Please take the time to review the Portfolio Managers' Comments, the Common Share Dividend and Share Price Information, and the Performance Overview sections of this report. All of us are grateful that you have chosen Nuveen Investments as a partner as you pursue your financial goals, and, on behalf of

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

Bob Bremner and the other members of your Fund's Board, let me say we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,
/s/ Timothy R. Schwertfeger

Timothy R. Schwertfeger
Chairman of the Board
June 16, 2008

Portfolio Managers' COMMENTS
Nuveen Investments Municipal Closed-End Funds

NQM, NQS, NQU,
NPF, NMZ, NMD

Portfolio managers Paul Brennan, Tom Spalding, John Miller, and Johnathan Wilhelm review key investment strategies and the six-month performance of these six national Funds. With 19 years of industry experience, Paul assumed portfolio management responsibility for $N Q M$ and NPF in 2006. A 31-year veteran of Nuveen, Tom has managed NQS and NQU since 2003. John, who has 15 years of municipal market experience, has managed NMZ and NMD since their inceptions in 2003 and November 2007, respectively. Johnathan, who came to Nuveen in 2001 with 18 years of industry experience, joined John as co-portfolio manager for NMZ and NMD in 2007 .

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE SIX-MONTH REPORTING PERIOD ENDED APRIL 30, 2008?

During this six-month period, the municipal market experienced a great deal of volatility, as issues related to the sub-prime mortgage industry had an indirect, but important, influence on the municipal market's performance. Tighter liquidity stemming from problems in the credit markets contributed to a turbulent municipal market environment, as did the continued uncertainty about municipal bond insurers and the flight to quality driven by dislocations in the financial markets. We sought to capitalize on this environment by continuing to focus on relative value, using a fundamental approach to find undervalued sectors and individual credits with the potential to perform well over the long term.

As the market discounted bonds that were out of favor, such as those with lower credit quality and higher yields, we took advantage of opportunities that we considered overlooked and undervalued to selectively add these types of bonds to our portfolios, especially bonds rated BBB. In addition, we believed that the steepening municipal yield curve began to offer better reward opportunities for purchases made further out on the curve. As a result, many of the additions to our portfolios emphasized longer maturities.

Among the credits we added to the Funds were uninsured health care bonds, marking the first time in a while that we found bonds in this sector at attractive levels relative to their credit quality. NQM, NQS and NQU also purchased zero coupon bonds, which we believed offered good long-term potential at discounted prices. In $N Q M$ and NPF, we added exposure to the short end of the yield curve by purchasing variable rate demand obligations (VRDOs) at very attractive yields. VRDOs are floating-rate securities that offer interest rates set daily or weekly based on an index of short-term municipal rates. In NMZ, we added high-grade issues such as Duke University at attractive yields as well as

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

non-rated bonds such as those issued for the Old Palm and Pine Island (Florida)

Discussions of specific investments are for illustrative purposes only and are not intended as recommendations of individual investments. The views expressed in this commentary represent those of the portfolio managers as of the date of this report and are subject to change at any time, based on market conditions and other factors. The Funds disclaim any obligation to advise shareholders of such changes.
community development districts (CDD). Although the market for these CDD, or land-secured, offerings was under pressure due to the housing market slowdown, we used a bottom-up approach to find the strongest credits at attractive prices, adding both yield and price appreciation potential to our portfolio.

To generate cash for purchases, $N Q M, N Q S, N Q U$, and NPF selectively sold some holdings with shorter durations, (1) including pre-refunded bonds, (2) at attractive prices resulting from high demand. Selling shorter duration bonds and reinvesting further out on the yield curve also helped to improve the Funds' overall call protection profiles. NMZ sold bonds with lower embedded yields, particularly subinvestment-grade bonds, to take advantage of situations offering better yields and more upside price potential in both the new issue and secondary markets. In addition, a number of our new purchases were funded with cash generated by bond redemptions and calls, especially in NMZ.

As mentioned earlier, over the course of the entire reporting period, we saw the municipal yield curve steepen, as municipal bond interest rates at the short end of the curve declined and longer rates rose. In this environment, we continued to emphasize disciplined approach to duration management. As part of this strategy, we used inverse floating rate securities, (3) a type of derivative financial instrument, in all six of these Funds. Inverse floaters typically provide the dual benefit of bringing the Funds' durations closer to our strategic target and enhancing their income-generation capabilities. NPF also used forward interest rate swaps, another type of derivative financial instrument. The goal of this strategy was to help us manage NPF's common share net asset value (NAV) volatility without having a negative impact on its income stream or common share dividends over the short term.

In November 2007, we introduced the Nuveen Municipal High Income Opportunity Fund 2 (NMD), which--like NMZ--was established as a high-yield Fund that invests at least $50 \%$ of its portfolio in investment-grade quality municipal securities and up to $50 \%$ in municipal credits that are rated subinvestment-grade quality or that are unrated but judged to be of comparable quality. Our management strategies for NMZ during this time focused on the successful completion of the Fund's initial investment phase. At the end of this reporting period, the Fund was fully invested and had met all of its targeted objectives in terms of individual credit, diversification, and yield expectations. Our focus during the investment phase was primarily on credit-specific analysis and selection, which we believe are critical, especially in the high-yield segment of the market. Potential Fund holdings were analyzed on the basis of credit quality, credit spreads, and relative value. The investment process was facilitated by a market that provided ample supply of the types of bonds we were seeking for NMD's portfolio, including hospitals and long-term care, limited tax obligations, community development districts, charter schools and transportation.
(1) Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.
(2) Advance refundings, also known as pre-refundings or refinancings, occur when an issuer sells new bonds and uses the proceeds to fund principal and interest payments of older existing bonds. This process often results in lower borrowing costs for bond issuers.
(3) An inverse floating rate security is a financial instrument designed to pay long-term tax-exempt interest at a rate that varies inversely with a short-term tax-exempt interest rate index. For the Nuveen Funds, the index typically used is the Securities Industry and Financial Markets (SIFM) Municipal Swap Index (previously referred to as the Bond Market Association Index or BMA). Inverse floaters, including those inverse floating rate securities in which the Funds invested during this reporting period, are further defined within the Notes to Financial Statements and Glossary of Terms Used in This Report sections of this shareholder report.

HOW DID THE FUNDS PERFORM?

Individual results for these Funds, as well as relevant index and peer group information, are presented in the accompanying table.

Total Returns on Common Share Net Asset Value*

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

For the six months ended April 30, 2008, the cumulative returns on common share NAV for NQM, NQS, NQU and NPF underperformed the return on the Lehman Brothers Municipal Bond Index. The performance of $N Q M$, NQS, and $N Q U$ exceeded the average return for their Lipper General Leveraged Municipal Debt Funds Average, while NPF slightly trailed the average. NMZ underperformed both the Lehman Brothers High-Yield Municipal Bond Index and the Lipper High-Yield Municipal Debt Funds Average. Because its results are based on less than six months, NMD's return should not be compared directly with the six-month returns for the Lehman Brothers High-Yield Municipal Bond Index and Lipper High-Yield Municipal Debt Funds Average. However, these returns can serve as relative guidelines for NMD's performance over this period.

One of the major factors impacting the six-month performance of $N Q M, N Q S, N Q U$, NPF and NMZ in relation to those of their respective unleveraged Lehman Brothers

* Six-month returns are cumulative; returns for one-year, five-year, and ten-year are annualized.
** NMD's cumulative return represents the period from its inception on November 15, 2007, through April 30, 2008; the six-month returns for the Lehman Brothers High-Yield Municipal Bond Index and the Lipper High-Yield Municipal Debt Funds Average represent the period November 1, 2007, through April 30, 2008.

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the individual Performance Overview for your Fund in this report.
(4) The Lipper General Leveraged Municipal Debt Funds Average is calculated using the returns of all closed-end funds in this category for each period as follows: six months, 54; 1 year, 54; 5 years, 52; and 10 years, 38. Fund and Lipper returns assume reinvestment of dividends. The Lipper High-Yield Municipal Debt Funds Average is calculated using the returns of all 15 closed-end funds in this category for the six-month and one-year periods. Fund and Lipper returns assume reinvestment of dividends.
(5) The Lehman Brothers Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. The Lehman High-Yield Municipal Bond Index is an unleveraged, unmanaged national index comprising municipal bonds rated below investment grade (i.e., below Baa by Moody's Investors Service and below BBB by Standard \& Poor's or Fitch Ratings). Results for the Lehman indexes do not reflect any expenses.
(6) NMD is an unleveraged Fund; the remaining five Funds in this report are leveraged.

Municipal Bond Indexes was the use of financial leverage. While leverage provides opportunities for additional income and total returns for common shareholders, the benefits of leveraging are tied in part to the short-term

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

rates that leveraged Funds pay their preferred shareholders. During this period, as the yields on longer-term bonds rose and their prices correspondingly fell, declining valuations had a negative effect on performance that was magnified by the use of leverage. In addition, the Funds' borrowing costs remained relatively high, negatively impacting their total returns.

Other key factors that influenced the Funds' returns included yield curve and duration positioning, the use of derivatives, credit exposure and sector allocations and holdings of bonds backed by certain municipal bond insurers.

During this six-month period, bonds in the Lehman Brothers Municipal Bond Index with maturities of eight years or less, especially those maturing in two to six years, benefited the most from changes in the interest rate environment. As a result, these shorter maturity bonds generally outperformed credits with longer maturities. Bonds having the longest maturities (22 years and longer) posted the worst returns. As previously noted, one of our strategies during this period focused on adding longer bonds to our portfolios as the yield curve steepened, based on our belief that these bonds offered solid long-term potential. This purchase activity helped to extend the Funds' durations, which generally had a negative impact on performance during these past six months. While NQU benefited from having the shortest duration among these Funds, on the whole the Funds were overexposed to the underperforming longer part of the yield curve, with NMZ and NMD having the longest durations.

As mentioned earlier, NPF used forward interest rate swaps to synthetically shorten duration and move the Fund closer to our strategic duration target. During this period, in contrast to historical trends, the U.S. Treasury market and the municipal market moved in the opposite directions. As municipal market performance lagged the significant gains made by Treasuries, these forward interest rate swaps performed poorly, hurting NPF's performance. In addition, the inverse floaters used by all six of these Funds had a negative impact on performance. This resulted from the fact that the inverse floaters effectively increased the Funds' exposure to longer maturity bonds during a period when shorter maturities were in favor in the market. However, the inverse floaters also benefited the Funds by helping to support their income streams.

As credit spreads widened, bonds rated $B B B$ or below posted poor returns. The underperformance of the lower credit quality sector was largely the result of risk-averse investors' flight to quality as disruptions in the financial and housing markets deepened. As of April 30, 2008, holdings of bonds rated BBB ranged from $7 \%$ in NQU and $10 \%$ in NQM to $11 \%$ in NPF and $14 \%$ in NQS. These allocations were generally higher than that of the Lehman Brothers Municipal Bond Index, and the negative impact of this
greater exposure to credit risk accounted for some of the performance differential between these Funds and the index.

In addition to its holdings of approximately $16 \%$ in bonds rated BBB, NMZ held $15 \%$ in bonds rated $B B$ or lower (subinvestment-grade) and $41 \%$ in non-rated bonds, some of which Nuveen has determined to be of investment-grade quality. NMD's lower-rated holdings comprised $28 \%$ in $B B B$ rated bonds, $11 \%$ in bonds rated $B B$ or lower, and $35 \%$ in non-rated bonds. Overall, conditions in the high-yield market were poor due to the flight to quality, low demand for high-yield paper, and credit spreads that widened significantly. These factors were the main drivers behind the performance of these Funds' holdings of higher-yielding credits.

In general, bonds that carried any credit risk, regardless of sector, tended to

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

perform poorly. Revenue bonds as a whole, and especially the industrial development and health care sectors that had ranked among the top performers in the Lehman Brothers Municipal Bond Index over the past few years, underperformed the general municipal market. The housing sector also performed poorly, as did bonds backed by the 1998 master tobacco settlement agreement, which comprised approximately $4 \%$ to $5 \%$ of the portfolios of these Funds as of April 30, 2008. NMZ also held two credits that experienced some financial stress, which resulted in declines in valuation: Pontiac Hospital Finance Authority for North Oakland Medical Center in Michigan and the Las Vegas monorail project in Nevada. The four-year-old monorail project, which has been struggling to build ridership and turn a profit, was penalized by the market for dipping into its debt service reserve fund to cover scheduled bond principal and interest payments.

Sectors of the market that generally contributed positively to the Funds' performances included general obligation bonds, water and sewer, electric utilities and special tax issues. Pre-refunded bonds performed exceptionally well, due primarily to their shorter effective maturities and higher credit quality. Among these Funds, NQU had the heaviest allocation of bonds that had been advance refunded, while NPF had the fewest. (As a newly established Fund, NMD did not hold any bonds pre-refunded as of April 30, 2008.) NMZ continued to see positive contributions from advance refunding activity, which benefited the Fund through price appreciation and enhanced credit quality. Some of the larger advance refundings included bonds issued by New Jersey Tobacco Settlement Financing Corporation, West Penn Allegheny Health System, and Nataki Talibah Schoolhouse in Michigan.

Another factor that had an impact on the performance of these Funds was their position in bonds backed by certain municipal insurers. As concern increased about the balance sheets of municipal bond insurers, prices on bonds insured by these companies declined, detracting from the performance of the Funds. On the whole, the holdings of all of our Funds continued to be well diversified not only between insured and uninsured bonds, but also within the insured bond category.

## RECENT DEVELOPMENTS REGARDING BOND INSURANCE COMPANIES

The portfolios of investments reflect the ratings on certain bonds insured by AMBAC, CIFG, FGIC, MBIA and XLCA as of April 30, 2008. During the period covered by this report, at least one rating agency reduced the rating for AMBAC-insured and MBIA-insured bonds to AA and at least one rating agency further reduced the ratings for FGIC-insured and XLCA-insured bonds to BB. Subsequent to April 30, 2008, and at the time this report was prepared, at least one rating agency further reduced the rating for CIFG-insured bonds to BB and MBIA-insured bonds to A. As of April 30, 2008, at least one rating agency has placed XLCA-insured bonds on "negative credit watch" and one or more rating agencies have placed each of these insurers on "negative outlook", which may presage one or more rating reductions for such insurer or insurers in the future. If one or more insurers' ratings are reduced by these rating agencies, it would likely reduce the effective rating of many of the bonds insured by that insurer or insurers. It is important to note that municipal bonds historically have had a very low rate of default.

## RECENT DEVELOPMENTS IN THE AUCTION RATE PREFERRED MARKETS

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the preferred shares issued by these Funds than there

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

#### Abstract

were offers to buy. This meant that these auctions "failed to clear'' and that many or all auction preferred shareholders who wanted to sell their shares in these auctions were unable to do so. This decline in liquidity in auction preferred shares did not lower the credit quality of these shares, and auction preferred shareholders unable to sell their shares received distributions at the "maximum rate'' applicable to failed auctions as calculated in accordance with the pre-established terms of the auction preferred shares. At the time this report was prepared, the Funds' managers could not predict when future auctions might succeed in attracting sufficient buyers for the shares offered, if ever. The Funds' managers are working diligently to refund the auction preferred shares, and have made progress in these efforts, but at present there is no assurance that these efforts will succeed. These developments generally do not affect the management or investment policies of these Funds. However, one implication of these auction failures for common shareholders is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future common share earnings may be lower than they otherwise would have been.

For current, up-to-date information, please visit the Nuveen CEF Auction Rate Preferred Resource Center at: http://www. nuveen.com/ResourceCenter/AuctionRatePreferred.aspx.

Common Share
Dividend and Share Price
INFORMATION

As previously noted, all of the Funds in this report except NMD use leverage to potentially enhance opportunities for additional income for common shareholders. This strategy continued to provide support for the leveraged Funds' income streams during this turbulent period. As a result, the dividends of NQM, NQS, NQU, NPF and NMZ remained stable throughout the six-month reporting period ended April 30, 2008. NMD, which was introduced in November 2007, paid its first regular monthly dividend in January 2008, and its dividend continued to be stable during the remainder of this period.

Due to capital gains generated by normal portfolio activity, common shareholders of the following Funds received capital gains and/or net ordinary income distributions at the end of December 2007 as follows:

Long-Term Capital Gains
(per share)

| NQM | -- | $\$ 0.0041$ |
| :--- | ---: | ---: |
| NMZ | $\$ 0.0905$ | $\$ 0.0028$ |

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's common share NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's common share NAV. Each Fund will, over time,

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

pay all of its net investment income as dividends to shareholders. As of April 30, 2008, all of the funds in this report had positive UNII balances, based upon our best estimate, for tax purposes. NQM, NQS, NQU and NPF,
had negative UNII balances while NMZ and NMD had positive UNII balances for financial statement purposes.

As of April 30, 2008, the Funds' common share prices were trading at premiums or discounts to their common share NAVs as shown in the accompanying chart:

|  | $4 / 30 / 08$ | Six-Month Average <br> Premium/Discount |
| :--- | ---: | ---: |
|  | Premium/Discount |  |
| NQM | $-5.12 \%$ | $-6.31 \%$ |
| NQS | $-0.90 \%$ | $-3.59 \%$ |
| NQU | $-7.87 \%$ | $-8.27 \%$ |
| NPF | $-8.53 \%$ | $-10.64 \%$ |
| NMZ | $+12.56 \%$ | $+5.99 \%$ |
| NMD | $+7.06 \%$ | $+4.76 \%$ |

## COMMONSHARE REPURCHASE AND SHARE PRICE INFORMATION

On July 10, 2007, the Board of Directors of NPF approved an open market share repurchase program, as part of a broad, ongoing effort designed to support the market prices of the Fund's common shares. Repurchases not only help to support the market price, but because such purchases are made at a discount to NAV, they have the effect of augmenting NAV. Under the terms of the program, NPF may repurchase up to $10 \%$ of its outstanding common shares. As of April 30,2008 , NPF had repurchased 186,800 common shares, representing $0.9 \%$ of the Fund's total common shares outstanding.

## SHELF EQUITY PROGRAM

On September 24, 2007, a registration statement filed by NMZ became effective. This registration statement permits the Fund to issue up to $2,400,000$ of additional shares of common stock through a shelf offering. Under this equity shelf program, the Fund, subject to market conditions, may raise additional equity capital from time to time in varying amounts and offering methods at a net price at or above the Fund's NAV per common share. NMZ issued 297,054 shares during the reporting period at an average price of $\$ 15.75$ and an average premium to NAV of $4.99 \%$ per common share.

```
-------
(1) The percentages shown in the foregoing chart may reflect the ratings on certain bonds insured by AMBAC, CIFG, FGIC, MBIA and XLCA as of April 30, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
(2) Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a federal income tax rate of \(28 \%\). When comparing this Fund to investments that qualified dividend income, the Taxable-Equivalent Yield is lower.
(3) The Fund paid shareholders a net ordinary income distribution in December 2007 of \(\$ 0.0041\) per share.

(1) The percentages shown in the foregoing chart may reflect the ratings on certain bonds insured by AMBAC, CIFG, FGIC, MBIA and XLCA as of April 30, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
(2) Excluding derivative transactions.
(3) Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a federal income tax rate of $28 \%$. When comparing this Fund to investments that qualified dividend income, the Taxable-Equivalent Yield is lower.

| \$ 13,300 | Total Short-Term Investments (cost \$13,300,000) |
|  | Total Investments (cost \$812,349,783) - 160.5\% |
|  | Floating Rate Obligations - (4.8)\% |
|  | Other Assets Less Liabilities - 2.4\% |
|  | Preferred Shares, at Liquidation Value - (58.1)\% (6) |
|  | Net Assets Applicable to Common Shares - 100\% |

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings: Using the higher of Standard \& Poor's Group ("Standard \& Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard \& Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on

```
certain bonds insured by AMBAC, CIFG, FGIC, MBIA and XLCA as
of April 30, 2008. Please see the Portfolio Managers'
Commentary for an expanded discussion of the affect on the
Fund of changes to the ratings of certain bonds in the
portfolio resulting from changes to the ratings of the
underlying insurers both during the period and after period
end.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Investment has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
(6) Preferred Shares, at Liquidation Value as a percentage of total investments is (36.2) \%.
N/R Not rated.
(ETM) Escrowed to maturity.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.
See accompanying notes to financial statements.

\hline
\end{tabular}
(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings: Using the higher of Standard \& Poor's Group ("Standard \& Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard \& Poor's or Baa by Moody's are considered to be below investment grade.
The Portfolio of Investments may reflect the ratings on certain bonds insured by AMBAC, CIFG, FGIC, MBIA and XLCA as of April 30, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Preferred Shares, at Liquidation Value as a percentage of total investments is (36.5) \%.
N/R Not rated.
WI/DD Purchased on a when-issued or delayed delivery basis.
(ETM) Escrowed to maturity.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings: Using the higher of Standard \& Poor's Group ("Standard \& Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard \& Poor's or Baa by Moody's are considered to be below investment grade.
The Portfolio of Investments may reflect the ratings on certain bonds insured by AMBAC, CIFG, FGIC, MBIA and XLCA as of April 30, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Preferred Shares, at Liquidation Value as a percentage of total investments is (34.8)\%.
N/R Not rated.
WI/DD Purchased on a when-issued or delayed delivery basis.

```
(ETM) Escrowed to maturity.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

Citigroup Inc. $\$ 36,000,000$ Receive 3-Month USD-LIBOR $\quad$ 2.299。 Semi-Annually 11/0
USD-LIBOR (United States Dollar-London Inter-bank Offered Rate).
(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings: Using the higher of Standard \& Poor's Group ("Standard \& Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard \& Poor's or Baa by Moody's are considered to be below investment grade.
The Portfolio of Investments may reflect the ratings on certain bonds insured by AMBAC, CIFG, FGIC, MBIA and XLCA as

```
```

of April 30, 2008. Please see the Portfolio Managers'
Commentary for an expanded discussion of the affect on the
Fund of changes to the ratings of certain bonds in the
portfolio resulting from changes to the ratings of the
underlying insurers both during the period and after period
end.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Portion of investment, with an aggregate market value of $\$ 1,711,565$, has been pledged to collateralize the net payment obligations under forward swap contracts.
(6) Investment has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
(7) Preferred Shares, at Liquidation Value as a percentage of total investments is (32.8) \%.
(8) Effective date represents the date on which both the Fund and counterparty commence interest payment accruals on each forward swap contract.
N/R Not rated.
(ETM) Escrowed to maturity.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

\hline
\end{tabular}

Floating Rate Obligations - (13.5) \%
Other Assets Less Liabilities - 4.0\%

Preferred Shares, at Liquidation Value - (47.2) \% (7)
Net Assets Applicable to Common Shares - 100\%
(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to
```

    periodic principal paydowns.
    (3) Ratings: Using the higher of Standard & Poor's Group
        ("Standard & Poor's") or Moody's Investor Service, Inc.
        ("Moody's") rating. Ratings below BBB by Standard & Poor's
        or Baa by Moody's are considered to be below investment
        grade.
        The Portfolio of Investments may reflect the ratings on
        certain bonds insured by AMBAC, CIFG, FGIC, MBIA and XLCA as
        of April 30, 2008. Please see the Portfolio Managers'
        Commentary for an expanded discussion of the affect on the
        Fund of changes to the ratings of certain bonds in the
        portfolio resulting from changes to the ratings of the
        underlying insurers both during the period and after period
    end.
    (4) Backed by an escrow or trust containing sufficient U.S.
        Government or U.S. Government agency securities which ensure
        the timely payment of principal and interest. Such
        investments are normally considered to be equivalent to AAA
        rated securities.
    (5) The issuer has received a formal adverse determination from
        the Internal Revenue Service (the "IRS") regarding the
        tax-exempt status of the bonds' coupon payments. The Fund
        will continue to treat coupon payments as tax-exempt income
        until such time that it is formally determined that the
        interest on the bonds should be treated as taxable.
    (6) On April 14, 2008, the Adviser concluded that the issuer was
        not likely to meet its interest payment obligations and
        directed the custodian to cease accruing additional income
        and "write-off" any remaining recorded balances on the
        Fund's records.
    (7) Preferred Shares, at Liquidation Value as a percentage of
        total investments is (30.1)%.
    N/R Not rated.
    (ETM) Escrowed to maturity.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected
as a financing transaction pursuant to the provisions of
SFAS No. 140.

FINANCIAL STATEMENTS (Unaudited)

## 1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds covered in this report and their corresponding Common share stock exchange symbols are Nuveen Investment Quality Municipal Fund, Inc. (NQM), Nuveen Select Quality Municipal Fund, Inc. (NQS), Nuveen Quality Income Municipal Fund, Inc. (NQU), Nuveen Premier Municipal Income Fund, Inc. (NPF), Nuveen Municipal High Income Opportunity Fund (NMZ) and Nuveen Municipal High Income Opportunity Fund 2 (NMD) (collectively, the "Funds"). Common shares of Investment Quality (NQM), Select Quality (NQS), Quality Income (NQU), Premier Income (NPF) and High Income Opportunity 2 (NMD) are traded on the New York Stock Exchange while Common shares of High Income Opportunity (NMZ) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Prior to the commencement of operations, the High Income Opportunity 2 (NMD) had no operations other than those related to organizational matters, the initial capital contribution of $\$ 100,275$ by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. ("Nuveen"), and the recording of the organization expenses (\$11,000) and their reimbursement by Nuveen Investments, LLC, also a wholly owned subsidiary of Nuveen.

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities or certain U.S. territories.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service may establish fair value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. Prices of forward swap contracts are also provided by an independent pricing service approved by each Fund's Board of Directors/Trustees. Futures contracts are valued using the closing settlement price, or, in the absence of such price, at the mean of the bid and asked prices. If the pricing service is unable to supply a price for a municipal bond, forward swap or futures contract, each Fund may use market quotes provided by major broker/dealers in such investments. If it is determined that the market price for an investment or derivative instrument is unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish fair value in accordance with procedures established in good faith by the Board of Directors/Trustees. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates market value.

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

#### Abstract

losses from transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At April 30, 2008, Select Quality (NQS) and Quality Income (NQU) each had outstanding when issued/delayed delivery purchase commitments of $\$ 1,957,500$. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

Notes to
FINANCIAL STATEMENTS (continued) (Unaudited)

## Professional Fees

Professional fees presented in the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders.

Federal Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter $M$ of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

Effective April 30, 2008, the Funds adopted Financial Accounting Standards Board (FASB) Interpretation No. 48 "Accounting for Uncertainty in Income Taxes" (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the affirmative evaluation of tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether it is "more-likely-than-not" (i.e., a greater than 50-percent likelihood) of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold may result in a tax benefit or expense in the current year.

Implementation of FIN 48 required management of the Funds to analyze all open tax years, as defined by the statute of limitations, for all major jurisdictions, which includes federal and certain states. Open tax years are those that are open for examination by taxing authorities (i.e., generally the

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

```
last four tax year ends and the interim tax period since then). The Funds have no examinations in progress.
For all open tax years and all major taxing jurisdictions through the end of the reporting period, management of the Funds has reviewed all tax positions taken or expected to be taken in the preparation of the Funds' tax returns and concluded the adoption of FIN 48 resulted in no impact to the Funds' net assets or results of operations as of and during the six months ended April 30, 2008.
The Funds are also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.
Dividends and Distributions to Common Shareholders
Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.
Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.
```

## Preferred Shares

High Income Opportunity 2 (NMD) did not issue any Preferred shares during the period November 15, 2007 (commencement of operations) through April 30, 2008. The Funds have issued and outstanding Preferred shares, $\$ 25,000$ stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in more than one Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

|  | INVESTMENT QUALITY <br> (NQM) | SELECT QUALITY <br> (NQS) | QUALITY INCOME (NQU) |
| :---: | :---: | :---: | :---: |
| Number of shares: |  |  |  |
| Series M | 2,500 | 2,000 | 3,000 |
| Series T | 2,500 | 2,000 | 3,000 |
| Series W | 2,500 | 2,800 | 3,000 |
| Series W2 | -- | -- | 2,080 |
| Series TH | 2,040 | 1,560 | 4,000 |
| Series F | 2,500 | 2,800 | 3,000 |
| Total | 12,040 | 11,160 | 18,080 |

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the Preferred shares issued by the Funds than there were offers to buy. This meant that these auctions "failed to clear," and that many Preferred shareholders who wanted to sell their shares in these auctions were unable to do so. Preferred shareholders unable to sell their shares received distributions at the "maximum rate" applicable to failed auctions as calculated in accordance with the pre-established terms of the Preferred shares.

These developments generally do not affect the management or investment policies of the Funds. However, one implication of these auction failures for common shareholders is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future Common share earnings may be lower then they otherwise would have been.

Organization and Offering Costs
Nuveen Investments, LLC has agreed to reimburse all organizational costs (approximately $\$ 11,000$ ) and pay all Common share offering costs (other than the sales load) that exceed $\$ .03$ per Common share of High Income Opportunity Fund 2 (NMD). High Income Opportunity Fund 2's (NMD) share of Common share offering costs $(\$ 472,500)$ were recorded as reductions of the proceeds from the sale of Common shares.

## Common Shares Shelf Offering

On September 24, 2007, a registration statement filed by High Income Opportunity (NMZ) became effective. This registration statement permits the Fund to issue up to 2,400,000 of additional shares of common stock through a shelf offering. Under this equity shelf program, the Fund, subject to market conditions, may raise additional equity capital from time to time in varying amounts and offering methods at a net price at or above the Fund's net asset value per common share.

## Shelf Offering Costs

Costs incurred by High Income Opportunity (NMZ) in connection with the offering of its additional common shares are recorded as a deferred charge which are amortized over the period such additional Common shares are sold.

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

Notes to<br>FINANCIAL STATEMENTS (continued) (Unaudited)

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). A Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a "recourse trust" or "credit recovery swap") with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates, as well as any shortfalls in interest cash flows. The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as an "Inverse floating rate investment". An investment in a self-deposited inverse floater, recourse trust or credit recovery swap is accounted for as a financing transaction in accordance with Statement of Financial Accounting Standards (SFAS) No. 140 "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities". In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as an "Underlying bond of an inverse floating rate trust", with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in Investment Income the entire earnings of the underlying bond and accounts for the related interest paid to the holders of the short-term floating rate certificates as "Interest expense on floating rate obligations" in the Statement of Operations.

During the six months ended April 30, 2008, each Fund invested in externally deposited inverse floaters and/or self-deposited inverse floaters.

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the six months ended April 30, 2008, were as follows:

|  | INVESTMENT QUALITY (NQM) | $\begin{array}{r} \text { SELECT } \\ \text { QUALITY } \\ (N Q S) \end{array}$ | $\begin{gathered} \text { QUALITY } \\ \text { INCOME } \\ \text { (NQU) } \end{gathered}$ | PREMIER <br> INCOME (NPF) |
| :---: | :---: | :---: | :---: | :---: |
| Average floating rate obligations | \$21,399, 231 | \$6,733,736 | \$49,837,967 | \$53, 210,615 |
| Average annual interest rate and fees | $2.92 \%$ | $2.91 \%$ | $2.92 \%$ | $2.92 \%$ |

Forward Swap Transactions

Each Fund is authorized to invest in forward interest rate swap transactions. Each Fund's use of forward interest rate swap transactions is intended to help the Fund manage its overall interest rate sensitivity, either shorter or longer,

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

generally to more closely align the Fund's interest rate sensitivity with that of the broader municipal market. Forward interest rate swap transactions involve each Fund's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Fund a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of the Fund's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for bonds having a maturity of the swap's termination date increases or decreases. The Funds may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Each Fund intends, but is not obligated, to terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. To reduce such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above
a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate, either up or down, by at least the predetermined threshold amount. Premier Income (NPF) was the only Fund to invest in forward interest rate swap transactions during the six months ended April 30, 2008.

## Futures Contracts

Each Fund is authorized to invest in futures contracts. Upon entering into a futures contract, a Fund is required to deposit with the broker an amount of cash or liquid securities equal to a specified percentage of the contract amount. This is known as the "initial margin." Subsequent payments ("variation margin") are made or received by a Fund each day, depending on the daily fluctuation of the value of the contract.

During the period the futures contract is open, changes in the value of the contract are recognized as an unrealized gain or loss by "marking-to-market" on a daily basis to reflect the changes in market value of the contract. When the contract is closed or expired, a Fund records a realized gain or loss equal to the difference between the value of the contract on the closing date and value of the contract when originally entered into. Cash held by the broker to cover initial margin requirements on open futures contracts, if any, is recognized in the Statement of Assets and Liabilities. Additionally, the Statement of Assets and Liabilities reflects a receivable or payable for the variation margin, when applicable. High Income Opportunity 2 (NMD) was the only Fund to invest in futures contracts during the period November 15, 2007, (commencement of operations) through April 30, 2008.

Risks of investments in futures contracts include the possible adverse movement of the securities or indices underlying the contracts, the possibility that

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

there may not be a liquid secondary market for the contracts and/or that a change in the value of the contract may not correlate with a change in the value of the underlying securities or indices.

Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. Such securities are included in the Portfolios of Investments with a $0.000 \%$ coupon rate in their description. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Borrowings from Custodian

In anticipation of the issuance of preferred shares in January 2008, High Income Opportunity 2 (NMD) purchased securities with the intent of funding the settlement of the purchases with the proceeds from the preferred stock issuance. During January 2008, credit issues associated with sub-prime mortgages and municipal bond insurers caused the postponement of the Fund's preferred shares offering, and subsequent failed auctions of the preferred shares issued by other closed-end funds have extended that postponement indefinitely. Consequently, the Fund overdrew its bank account with the custodian bank. Management has determined that leveraging the Fund with taxable debt such as a bank loan would be advantageous to Fund shareholders and has secured a commitment to obtain long-term financing to replace the bank overdraft. The Fund's cash account continues to be overdrawn at April 30, 2008, in anticipation of the loan closing in the near term. Management believes that the bank overdraft with the custodian should be viewed as a Borrowing from Custodian much like a formal bank loan and has reclassified it accordingly on the Statement of Assets \& Liabilities. In addition, the Fund has reclassified its custodian overdraft charges related to this balance during this period to "Interest expense on borrowings from custodian" on the Statement of Operations. Overdraft charges are calculated at the Federal Funds Rate plus . 15\%, which is the same rate to be paid on the prospective long-term financing. For the period November 15, 2007 (commencement of operations) through April 30, 2008, the average daily balance outstanding on such Borrowings from Custodian and weighted average interest rate for the Fund were $\$ 29,839,790$ and $3.61 \%$, respectively.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

## Indemnifications

Under the Funds' organizational documents, their Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

#### Abstract

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

Notes to
FINANCIAL STATEMENTS (continued) (Unaudited)

#### Abstract

2. FUND SHARES

On July 10, 2007, the Board of Directors of Premium Income (NPF), approved an open-market share repurchase program, as part of a broad, ongoing effort designed to support the market prices of the Fund's Common shares. Under the terms of the program, the Fund may repurchase up to $10 \%$ of its outstanding Common shares.

Transactions in Common shares were as follows:

| INVESTMENT | LITY (NQM) | SELECT QUALITY (NQS) |  | QUA |
| :---: | :---: | :---: | :---: | :---: |
| SIX MONTHS |  | SIX MONTHS |  | SIX MON |
| ENDED | YEAR ENDED | ENDED | YEAR ENDED | EN |
| 4/30/08 | 10/31/07 | 4/30/08 | 10/31/07 | $4 / 30$ |

| Sales and maturities | 33,015,116 | 54,583,026 | 68,193,638 | 37,830,474 | 49,165 |

* For the period November 15, 2007 (commencement of operations) through April 30, 2008.

## 4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate transactions subject to SFAS No.140. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At April 30, 2008, the cost of investments was as follows:

| INVESTMENT | SELECT | QUALITY | PREMIER |
| :---: | :---: | :---: | :---: |
|  | QUALITY | QUALITY | INCOME |

Gross unrealized appreciation and gross unrealized depreciation of investments at April 30, 2008, were as follows:

* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on October 1, 2007, paid on November 1, 2007.
** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the Funds' last tax year ended October 31, 2007, was designated for purposes of the dividends paid deduction as follows:

| INVESTMENT | SELECT | QUALITY | PRE |
| :---: | :---: | :---: | ---: |
| QUALITY | QUALITY | INCOME | IN |
| $($ NQM $)$ | $(N Q S)$ | (NQU) | $($ |

Distributions from net tax-exempt income $\$ 39,550,444$ \$38,224,899 \$56,796,248 $\$ 19,389$
Distributions from net ordinary income ** -- --
Distributions from net long-term capital gains -- --

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

Notes to
FINANCIAL STATEMENTS (continued) (Unaudited)

At October 31, 2007, the Funds' last tax year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

|  | INVESTMENT QUALITY (NQM) | SELECT QUALITY <br> (NQS) | QUALITY <br> INCOME <br> (NQU) | PREMIER <br> INCOME <br> (NPF) |
| :---: | :---: | :---: | :---: | :---: |
| Expiration: |  |  |  |  |
| October 31, 2011 | \$ | \$ | \$11,423,918 | \$ -- |
| October 31, 2012 | -- | -- | -- | -- |
| October 31, 2013 | -- | -- | -- | 156,324 |
| October 31, 2014 | 379,755 | 1,047,056 | -- | -- |
| Total | \$379, 755 | \$1,047,056 | \$11, 423,918 | \$156,324 |

## 5. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual Fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

| AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS | QUALITY INCOME (NQU) <br> PREMIER INCOME (NPF) <br> FUND-LEVEL FEE RATE |  |  |
| :---: | :---: | :---: | :---: |
|  |  |  |  |
| ATTRIBUTABLE TO PREFERRED SHARES) |  |  |  |
| For the first $\$ 125$ million |  |  | . $4500 \%$ |
| For the next $\$ 125$ million |  |  | . 4375 |
| For the next $\$ 250$ million |  |  | . 4250 |
| For the next $\$ 500$ million |  |  | . 4125 |
| For the next \$1 billion |  |  | . 4000 |
| For the next \$3 billion |  |  | . 3875 |
| For net assets over \$5 billion |  |  | . 3750 |
| AVERAGE DAILY NET ASSETS | HIGH | INCOME OPPORTUNITY | (NMZ) |
| (INCLUDING NET ASSETS | HIGH INCOME | OPPORTUNITY FUND 2 | (NMD) |
| ATTRIBUTABLE TO PREFERRED SHARES) |  | FUND-LEVEL FEE | E RATE |
| For the first \$125 million |  |  | . $5500 \%$ |
| For the next \$125 million |  |  | . 5375 |
| For the next $\$ 250$ million |  |  | . 5250 |
| For the next $\$ 500$ million |  |  | . 5125 |
| For the next \$1 billion |  |  | . 5000 |
| For net assets over \$2 billion |  |  | . 4750 |

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to preferred stock issued by or borrowings by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

For the first eight years of High Income Opportunity's (NMZ) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts, and for the time periods set forth below:

| YEAR ENDING |  | YEAR ENDING |  |
| :---: | :---: | :---: | :---: |
| NOVEMBER 30, |  | NOVEMBER 30, |  |
| 2003* | . $32 \%$ | 2009 | . $24 \%$ |
| 2004 | . 32 | 2010 | . 16 |
| 2005 | . 32 | 2011 | . 08 |
| 2006 | . 32 |  |  |

| 2008 | . 32 |  |  |

* From the commencement of operations.

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

The Adviser has not agreed to reimburse High Income Opportunity (NMZ) for any portion of its fees and expenses beyond November 30, 2011.

The Adviser has agreed to waive 100\% of High Income Opportunity 2's (NMD) management fee from November 15, 2007 (commencement of operations) through February 29, 2008, 50\% of the management fee for the period March 1, 2008 through May 31, 2008, and $25 \%$ of the management fee for the period June 1, 2008 through August 31, 2008. The Adviser has not agreed to waive any portion of High Income Opportunity 2's (NMD) management fee beyond August 31, 2008.

As of April 30, 2008 and October 31, 2007, Nuveen Investments, LLC received commissions of $\$ 24,212$ and $\$ 17,981$, respectively, related to the sale of common shares as a result of the High Income Opportunity (NMZ) shelf offering.

Notes to
FINANCIAL STATEMENTS (continued) (Unaudited)

## 6. NEW ACCOUNTING PRONOUNCEMENTS

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this standard relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. As of April 30, 2008, management does not believe the adoption of SFAS No. 157 will impact the financial statement amounts; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements included within the Statement of Operations for the period.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 161

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities." This standard is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to understand: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. As of April 30, 2008, management does not believe the adoption of SFAS No. 161 will impact the financial statement amounts; however, additional footnote disclosures may be required about the use of derivative instruments and hedging items.

## 7. SUBSEQUENT EVENTS

Distributions to Common Shareholders

The Funds declared Common share dividend distributions from their tax-exempt net investment income which were paid on June 2, 2008, to shareholders of record on May 15, 2008, as follows:

|  | INVESTMENT QUALITY (NQM) | SELECT QUALITY <br> (NQS) | $\begin{gathered} \text { QUALITY } \\ \text { INCOME } \\ (N Q U) \end{gathered}$ | PREMIER INCOME (NPF) | HIGH IN OPPORTU |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Dividend per share | \$. 0645 | \$. 0670 | \$. 0605 | \$. 0560 | \$ |

Auction Rate Preferred Shares (ARPS)

On June 11, 2008, Nuveen announced the Fund Board's approval of plans to use tender option bonds (TOBs), also known as inverse floating rate securities or inverse floaters, to refinance a portion of the funds' outstanding ARPS, whose auctions have been failing for several months, including an initial phase of approximately $\$ 1$ billion in forty-one funds. Of this amount, Nuveen expects that approximately $\$ 560$ million in $A R P S$ redemption notices will be issued within shortly for thirteen funds, including Investment Quality (NQM), Quality Income (NQU) and Premier Income (NPF).

* Total Return on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period takes place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset

```
value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.
** After custodian fee credit, expense reimbursement and legal fee refund, where applicable.
*** Annualized.
+ The amounts shown are based on Common share equivalents.
++ Ratios do not reflect the effect of dividend payments to Preferred shareholders; income ratios reflect income earned on assets attributable to Preferred shares.
(a) Interest expense arises from the application of SFAS No. 140 to certain inverse floating rate transactions entered into by the Fund as more fully described in Footnote 1 - Inverse Floating Rate Securities.
(b) For the six months ended April 30, 2008.
```

* Total Return on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period takes place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

Annual Investment
Management Agreement
APPROVAL PROCESS

The Board Members are responsible for approving the advisory arrangement for the Nuveen Municipal High Income Opportunity Fund 2 (the "Fund"). At a meeting held on October 16, 2007 (the "Meeting"), the Board Members, including the Independent Board Members, unanimously approved an investment management agreement (the "Investment Management Agreement") between the Fund and Nuveen Asset Management ("NAM"). Earlier in the year, the Board Members were advised of, and in connection with the approval and renewal of investment advisory arrangements for other Nuveen funds had taken into account, the potential acquisition of Nuveen Investments, Inc. ("Nuveen") by Windy City Investments, Inc., a corporation formed by investors led by Madison Dearborn Partners, LLC ("MDP"), a private equity investment firm (the "Transaction"). If the Fund had been launched before the closing of the Transaction, the Investment Management Agreement would have automatically terminated upon the closing of the Transaction. Accordingly, in case the Investment Management Agreement was entered into prior to the closing of the Transaction, the Board Members, including the Independent Board Members, also unanimously approved a new investment management agreement between the Fund and NAM (the "New Investment Management Agreement") to take effect upon the closing of the Transaction.

To assist the Board in its evaluation of an advisory contract with NAM at the Meeting, the Independent Board Members previously had received, in adequate time in advance of the Meeting or at prior meetings, materials which outlined, among other things:
[] the services currently provided by NAM to other Nuveen funds and expected to be provided to the Fund;
[] the organization of NAM, including the responsibilities of various departments and key personnel;
[] the expertise and background of NAM with respect to the Fund's investment strategy;
[] the performance records of NAM and of a similar Nuveen fund (as described below);
[] the profitability of Nuveen (which incorporated Nuveen's wholly-owned subsidiaries);
[] the proposed management fees of NAM, including comparisons of such fees with the management fees of comparable, unaffiliated funds, as well as comparable, affiliated funds, if any;
[] the advisory fees NAM assesses to other types of investment products or clients;
[] the soft dollar practices of NAM, if any; and
[] the expected expenses of the Fund, including comparisons of the Fund's expected expense ratio with the expense ratios of comparable, unaffiliated funds, as well as comparable, affiliated funds, if any.

In addition, in light of the impending Transaction, the Board Members were aware of and considered the impact of the Transaction on the provision of services by

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

NAM and its affiliates on behalf of the Fund. During the Meeting, the Independent Board Members met privately with their legal counsel to review the Board's duties under the Investment Company Act of 1940 (the "1940 Act"), the general principles of state law in reviewing and approving advisory contracts, the standards used by courts in determining whether investment company boards of directors have fulfilled their duties and factors to be considered in voting on advisory contracts. It is with this background that the Board Members considered the advisory agreement with NAM for the Fund. As outlined in more detail below, the Board Members considered all factors they believed relevant with respect to the Fund, including the impact that the Transaction could be expected to have on the following: (a) the nature, extent and quality of the services to be provided by NAM; (b) investment performance, as described below; (c) the profitability of Nuveen and its affiliates; (d) the extent to which economies of scale would be realized; and (e) whether fee levels reflect these economies of scale for the benefit of Fund investors.

## A. NATURE, EXTENT AND QUALITY OF SERVICES

The Board Members considered the nature, extent and quality of NAM's services. As NAM already serves as adviser to other Nuveen funds overseen by the Board Members, the Board has a good understanding of NAM's organization, operations and personnel. In this regard, the Board Members are familiar with and have evaluated the professional experience, qualifications and credentials of NAM's personnel.

At the Meeting and at prior meetings of the Board, including the meeting of the Board held on May 21, 2007 to conduct the Board's annual review of advisory contracts (the "May Meeting"), the Board Members reviewed materials outlining, among other things, Nuveen's organization and business; the types of services that NAM or its affiliates provide to the Nuveen funds; and NAM's experience with the applicable investment strategy. Given the Board Members' experience with Nuveen funds advised by NAM, the Board Members recognized and considered the quality of its investment process in making portfolio management decisions.

In addition to advisory services, the Independent Board Members considered the quality of any administrative or non-advisory services to be provided. In this regard, NAM is expected to provide the Fund with such administrative and other services (exclusive of, and in addition to, any such services provided by others for the Fund) and officers and other personnel as are necessary for the operations of the Fund. In addition to investment management services, NAM and its affiliates will provide the Fund with a wide range of services, including, among other things: product management; preparing shareholder reports; providing daily accounting; overseeing and coordinating the activities of other service providers; administering and organizing Board meetings and preparing the Board materials for such meetings; providing legal support (such as helping to prepare registration statements, amendments thereto and proxy statements and responding to regulatory inquiries); and performing other fund administrative tasks necessary for the operation of the Fund (such as tax reporting and fulfilling regulatory filing requirements, compliance functions and monitoring and overseeing any sub-adviser).

In addition to the foregoing services, the Board Members also noted the additional services that NAM or its affiliates provide to Nuveen's closed-end funds, including, in particular, its secondary market support activities. The Board Members have recognized Nuveen's continued commitment to supporting the secondary market for the common shares of its closed-end funds through a variety of programs designed to raise investor and analyst awareness and understanding

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

```
of closed-end funds. These efforts include:
[] maintaining shareholder communications;
[] providing advertising for the Nuveen closed-end funds;
[] maintaining its closed-end fund website;
[] maintaining continual contact with financial advisers;
[] providing educational symposia;
[] conducting research with investors and financial analysis regarding
    closed-end funds; and
[] evaluating secondary market performance.
If the Fund utilizes leverage through the issuance of preferred shares, the
Board Members have noted Nuveen's continued support for the holders of preferred
shares of its closed-end funds by, among other things:
[] maintaining an in-house trading desk;
[] maintaining a product manager for preferred shares;
[] managing leverage and risk management of leverage; and
[] maintaining systems necessary to test compliance with rating agency
    criteria.
In light of the Transaction, the Board Members also considered the nature, quality and extent of the services expected to be provided by NAM under the New Investment Management Agreement. More specifically, the Independent Board Members considered, among other things, the expected impact, if any, of the Transaction on the operations, facilities, organization and personnel of NAM; the potential implications of regulatory restrictions on the Fund following the Transaction; the ability of NAM and its affiliates to perform their duties after the Transaction; and any anticipated changes to the investment and other practices of the Fund.
```

ANNUAL INVESTMENT MANAGEMENT AGREEMENT
APPROVAL PROCESS (continued)

The Board noted that the terms of the New Investment Management Agreement, including the fees payable thereunder, are substantially identical to those of the Investment Management Agreement. The Board considered that the services to be provided and the standard of care under the New Investment Management Agreement are the same as those under the Investment Management Agreement. The Board Members further noted that key personnel of NAM who will have responsibility for the Fund in each area, including portfolio management, investment oversight, fund management, fund operations, product management, legal/compliance and board support functions, are expected to be the same following the Transaction. The Board also considered certain information regarding any anticipated retention or incentive plans designed to retain key personnel. Further, the Board Members noted that no changes to Nuveen's infrastructure or operations as a result of the Transaction were anticipated

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

other than potential enhancements as a result of an expected increase in the level of investment in such infrastructure and personnel. The Board noted MDP's previous representations that it does not plan to have a direct role in the management of Nuveen, appointing new management personnel, or directly impacting individual staffing decisions. The Board Members also noted that there were not any planned "cost cutting" measures that could be expected to reduce the nature, extent or quality of services. After consideration of the foregoing, the Board Members concluded that no diminution in the nature, quality and extent of services provided to the Fund by NAM is expected.

In addition to the above, the Board Members considered potential changes in the expected operations of the Fund. In this regard, the Board Members considered the potential effect of regulatory restrictions on the Fund's transactions with future affiliated persons. During their deliberations at meetings held earlier during the year, it was noted that, after the Transaction, a subsidiary of Merrill Lynch is expected to have an ownership interest in Nuveen at a level that will make Merrill Lynch an affiliated person of Nuveen. The Board Members have recognized that applicable law would generally prohibit the Nuveen funds from engaging in securities transactions with Merrill Lynch as principal, and would also impose restrictions on using Merrill Lynch for agency transactions. They also recognized that having MDP and Merrill Lynch as affiliates may restrict the Nuveen funds' ability to invest in securities of issuers controlled by MDP or issued by Merrill Lynch and its affiliates even if not bought directly from MDP or Merrill Lynch as principal. They further recognized that various regulations may require the Nuveen funds to apply investment limitations on a combined basis with affiliates of Merrill Lynch. The Board Members also had considered information provided by NAM regarding the potential impact on the Nuveen funds' operations as a result of these regulatory restrictions. In addition to the regulatory restrictions considered by the Board, the Board Members were aware of and had considered potential conflicts of interest that could arise between the Nuveen funds and various parties to the Transaction.

Based on its review, and taking into account considerations from prior meetings, the Board concluded that the Transaction was not expected to adversely affect the nature, quality or extent of services expected to be provided by NAM and that the expected nature, quality and extent of such services, before and after the Transaction, were satisfactory and supported approval of the Investment Management Agreement and the New Investment Management Agreement.

## B. INVESTMENT PERFORMANCE

The Fund is new and therefore did not have its own performance history. However, the Board Members were provided with certain performance information for the one-year, three-year and five-year periods ending June 30, 2007 for a Nuveen fund managed by the same team responsible for the Fund that has a similar structure and investment strategy.

The Board Members are also familiar with NAM's performance record on other Nuveen funds. With respect to performance, the Board also considered that the portfolio management personnel responsible for the management of the Fund's portfolio were expected to continue to manage the portfolio following the completion of the Transaction.

## C. FEES, EXPENSES AND PROFITABILITY

1. FEES AND EXPENSES

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

In evaluating the management fees and expenses that the Fund was expected to bear, the Board Members considered, among other things, the Fund's proposed management fee structure and its expected expense ratios in absolute terms as well as compared with the fees and expense ratios of comparable, unaffiliated funds and comparable, affiliated funds (if any). In this regard, the Board Members also considered the fund-level breakpoint schedule and the complex-wide breakpoint schedule. The complex-wide breakpoint schedule was instituted in 2004 and is described in further detail below in Section D entitled "Economies of Scale and Whether Fee Levels Reflect These Economies of Scale."

With respect to the New Investment Management Agreement, the Board Members noted that the fee schedule is identical to that of the Investment Management Agreement. Based on the information provided, the Board Members did not expect overall Fund expenses would increase as a result of the Transaction.

## 2. COMPARISONS WITH THE FEES OF OTHER CLIENTS

Due to their experience with other Nuveen funds, the Board Members were familiar with the fees NAM assesses to other clients of Nuveen or its affiliates, including separately managed accounts. With respect to separately managed accounts, the advisory fees charged to such separately managed accounts are generally lower than those charged to comparable funds. The Board Members have recognized, however, the additional services that are provided (as described above) and the costs incurred by Nuveen in managing and operating registered investment companies compared to individually managed separate accounts. These services are generally not required to the same extent, if at all, for separate accounts. Accordingly, the Board Members have noted that the nature and number of services provided to operate a fund merit the higher fees than those assessed to the separately managed accounts.

## 3. PROFITABILITY

In conjunction with its review of fees, the Board Members have considered the profitability of Nuveen for advisory activities (which incorporated Nuveen's wholly-owned subsidiaries). At the Meeting or prior meetings, the Board Members reviewed Nuveen's revenues, expenses and profitability margins for advisory activities (on both a pre-tax and after-tax basis). At the May Meeting, the Board Members reviewed data comparing Nuveen's profitability with other investment management companies prepared by three independent third party service providers as well as comparisons of the revenues, expenses and profit margins of various unaffiliated management firms with similar amounts of assets under management prepared by Nuveen. In reviewing profitability, the Board Members recognized the inherent limitations in determining profitability as well as the difficulty in comparing the profitability of other unaffiliated advisers. The Board Members recognized the subjective nature of determining profitability which may be affected by numerous factors, including the allocation of expenses. Further, the Board Members have noted the difficulties in making comparisons as the profitability of other advisers generally is not publicly available and the profitability information that is available for certain advisers may not be representative of the industry and may be affected by, among other things, the adviser's particular business mix, capital costs, types of funds managed and expense allocations. The Board Members further received the 2006 Annual Report for Nuveen Investments as well as its quarterly report ending June 30, 2007. As noted below, the Board Members also recognized the recent changes to the complex-wide fee breakpoint schedule that went into effect August 20, 2007. The Board Members further noted that it is difficult to predict with any degree of certainty the impact of the Transaction on Nuveen's profitability for its

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

advisory services (which includes its affiliated sub-advisers). Based on their review, the Board Members were satisfied that the level of profitability was reasonable in light of the services to be provided.

In evaluating the reasonableness of the compensation, the Board Members also considered any other revenues paid to NAM as well as any indirect benefits (such as soft dollar arrangements, if any) NAM and its affiliates are expected to receive that are directly attributable to their management of the Fund, if any. See Section E below for additional information. Based on their review of the overall fee arrangements of the Fund, the Board Members determined that the advisory fees and expected expenses of the Fund were reasonable.

ANNUAL INVESTMENT MANAGEMENT AGREEMENT
APPROVAL PROCESS (continued)

## D. ECONOMIES OF SCALE AND WHETHER FEE LEVELS REFLECT THESE ECONOMIES OF SCALE

With respect to economies of scale, the Board Members have recognized the potential benefits resulting from the costs of a fund being spread over a larger asset base. To help ensure that shareholders share in these benefits, the Board Members received and considered the breakpoints in the advisory fee schedules that reduce advisory fees. In addition to advisory fee breakpoints, the Board had also approved a complex-wide fee arrangement that was introduced on August 1,2004 and modified in August 2007 to generate additional fee savings. Pursuant to the complex-wide fee arrangement, the fees of the funds in the Nuveen complex, including the Fund, are reduced as the assets in the fund complex reach certain levels. Based on their review, the Board Members concluded that the applicable breakpoint schedules and complex-wide fee arrangement were acceptable and desirable in providing benefits from economies of scale to shareholders of the Fund.

## E. INDIRECT BENEFITS

In evaluating fees, the Board Members also considered any indirect benefits or profits NAM or its affiliates may receive as a result of its relationship with the Fund. In this regard, the Board Members considered any benefits from soft dollar arrangements. The Board Members noted that NAM does not currently have any soft dollar arrangements; however, to the extent certain bona fide agency transactions that occur on markets that traditionally trade on a principal basis and riskless principal transactions are considered as generating "commissions," NAM intends to comply with the applicable safe harbor provisions. The Board Members also recognized that affiliates of NAM receive revenues for serving as agent at Nuveen's preferred trading desk and for serving as co-manager in the initial public offering of new closed-end exchange-traded funds.

With respect to the Transaction, the Board Members also recognized that as the policies and operations of NAM are not anticipated to change significantly after the Transaction, such indirect benefits should remain after the Transaction. The Board Members further considered any additional indirect benefits to be received by NAM or its affiliates after the Transaction. The Board Members noted that other than benefits from its ownership interest in Nuveen and indirect benefits from fee revenues paid by the Nuveen funds under the management agreements and other Board-approved relationships, it was not expected that MDP or its affiliates would derive any benefit from the Nuveen funds as a result of the Transaction or transact any business with or on behalf of the Nuveen funds

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

(other than perhaps potential Nuveen fund acquisitions, in secondary market transactions, of securities issued by MDP portfolio companies); or that Merrill Lynch or its affiliates would derive any benefits from the Nuveen funds as a result of the Transaction (noting that, indeed, Merrill Lynch would stand to experience the discontinuation of principal transaction activity with the Nuveen funds and likely would experience a noticeable reduction in the volume of agency transactions with the Nuveen funds).

## F. OTHER CONSIDERATIONS

In addition to the factors above, the Board Members also considered the following:
[] Nuveen would rely on the provisions of Section $15(\mathrm{f})$ of the 1940 Act. Section $15(f)$ provides, in substance, that when a sale of a controlling interest in an investment adviser occurs, the investment adviser or any of its affiliated persons may receive any amount or benefit in connection with the sale so long as (i) during the three-year period following the consummation of a transaction, at least 75\% of the investment company's board of directors must not be "interested persons" (as defined in the 1940 Act) of the investment adviser or predecessor adviser and (ii) an "unfair burden" (as defined in the 1940 Act, including any interpretations or no-action letters of the Securities and Exchange Commission) must not be imposed on the investment company as a result of the transaction relating to the sale of such interest, or any express or implied terms, conditions or understanding applicable thereto. In this regard, to help ensure that an unfair burden is not imposed on the Nuveen funds, Nuveen has committed for a period of two years from the date of the closing of the Transaction (i) not to increase gross management fees for any Nuveen fund; (ii) not to reduce voluntary expense reimbursement levels for any Nuveen fund from their currently scheduled prospective levels during that period; (iii) that no Nuveen fund whose portfolio is managed by a Nuveen affiliate shall use Merrill Lynch as a broker with respect to portfolio
transactions done on an agency basis, except as may be approved in the future by the Compliance Committee of the Board; and (iv) that NAM shall not cause the Fund and other municipal funds that NAM manages, as a whole, to enter into portfolio transactions with or through the other minority owners of Nuveen, on either a principal or an agency basis, to a significantly greater extent than both what one would expect an investment team to use such firm in the normal course of business, and what NAM has historically done, without prior Board or Compliance Committee approval (excluding the impact of proportionally increasing the use of such other "minority owners" to fill the void necessitated by not being able to use Merrill Lynch).
[] The reputation, financial strength and resources of MDP.
[] The long-term investment philosophy of MDP and anticipated plans to grow Nuveen's business to the benefit of the Nuveen funds.
[] The benefits to the Nuveen funds as a result of the Transaction including:
(i) as a private company, Nuveen may have more flexibility in making additional investments in its business; (ii) as a private company, Nuveen may be better able to structure compensation packages to attract and retain talented personnel; (iii) as certain of Nuveen's distribution partners are expected to be equity or debt investors in Nuveen, Nuveen may be able to take advantage of new or enhanced distribution arrangements with such

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

partners; and (iv) MDP's experience, capabilities and resources that may help Nuveen identify and acquire investment teams or firms and finance such acquisitions.

## G. APPROVAL

The Board Members did not identify any single factor discussed previously as all-important or controlling. The Board Members, including a majority of the Independent Board Members, concluded that the terms of the Investment Management Agreement and New Investment Management Agreement were fair and reasonable, that NAM's fees are reasonable in light of the services to be provided to the fund and that the Investment Management Agreement and New Investment Management Agreement should be and were approved on behalf of the Fund.

```
Reinvest Automatically
    EASILY and CONVENIENTLY
```

NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

## NUVEEN CLOSED-END FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

## EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

## HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or $95 \%$ of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or $95 \%$ of the shares' market value on the last business day immediately prior to the purchase date. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a $\$ 2.50$ service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

NOTES

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

[] AUCTION RATE BOND: An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have "failed", with current holders receiving a formula-based interest rate until the next scheduled auction.
[] AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
[] AVERAGE EFFECTIVE MATURITY: The average of the number of years to maturity of the bonds in a Fund's portfolio, computed by weighting each bond's time to maturity (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions unless an escrow account has been established to redeem the bond before maturity. The market value weighting for an investment in an inverse floating rate security is the value of the portfolio's residual interest in the inverse floating rate trust, and does not include the value of the floating rate securities issued by the trust.
[] INVERSE FLOATERS: Inverse floating rate securities are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond's par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an "inverse floater") to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond's downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond's value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.
[] DURATION: Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds. Modified duration is a formula that expresses the measurable change in the value of a security in response to a change in interest rates.
[] MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD) : An investment's current annualized dividend divided by its current market price.
[] NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any Preferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

```
[] TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable
    investment to equal, on an after-tax basis, the yield of a municipal bond
    investment.
[] ZERO COUPON BOND: A zero coupon bond does not pay a regular interest coupon
    to its holders during the life of the bond. Tax-exempt income to the holder
    of the bond comes from accretion of the difference between the original
    purchase price of the bond at issuance and the par value of the bond at
    maturity and is effectively paid at maturity. The market prices of zero
    coupon bonds generally are more volatile than the market prices of bonds
    that pay interest periodically.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

(a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3 (c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CER 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule $30 \mathrm{a}-3(\mathrm{~b})$ under the 1940 Act (17 CFR $270.30 a-3(b))$ and Rules $13 a-15(b)$ or $15 d-15(b)$ under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or $240.15 d-15(\mathrm{~b}))$.
(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR $270.30 a-3(d)$ ) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.
(a) (1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.
(a) (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule $30 a-2(a)$ under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: See Ex-99.CERT attached hereto.
(a) (3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act ( 17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.
(b) If the report is filed under Section $13(\mathrm{a})$ or $15(\mathrm{~d})$ of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR $270.30 \mathrm{a}-2(\mathrm{~b}))$; Rule $13 \mathrm{a}-14(\mathrm{~b})$ or Rule $15 \mathrm{~d}-14(\mathrm{~b})$ under the Exchange Act (17 CFR $240.13 a-14(b)$ or $240.15 d-14(b))$, and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: See Ex-99.906 CERT attached hereto.
