**Report of Independent Registered Public Accounting Firm**

To the Participants and Administrator of  
Savings Plan for Union Employees of Unilever

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Savings Plan for Union Employees of Unilever (the Plan ) as of December 31, 2005 and 2004, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at year end) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Administration**

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting standards generally accepted in the United States of America.

**Valuation of Plan Investments and Income Recognition**

The assets of the Plan have been commingled in the Master Trust with the assets of Good Humor-Breyers Savings Plan and Unicare Savings Plan for investment and administrative purposes. The investment in the Master Trust represents the Plan's interest in the net assets of the Master Trust. The Plan's investment is stated at fair value and is based on the beginning of the year value of the Plan's interest in the Master Trust plus contributions and allocated investment income less distributions and allocated expenses. Participants' loans are valued at cost plus accrued interest, which approximates fair value.

**Savings Plan for Union Employees of Unilever  
Notes to Financial Statements  
December 31, 2005 and 2004**

The Plan presents in the Statement of Changes in Net Assets Available for Plan Benefits the investment income for Plan interest in the Master Trust, which consists of its allocated share of investment income, realized gains and losses and the unrealized appreciation (depreciation) from the Master Trust.

The Plan's interest in the Master Trust represents more than 5 percent of the Plan's net assets as of December 31, 2005 and 2004.

**Benefit Payments**

Benefit payments are recorded when paid.

**Administrative Expenses**

Investment management fees for all funds, excluding the Unilever N.V. Stock Fund, are paid by the Plan. All other administrative expenses are paid by the Company.

**Use of Estimates**

The preparation of financial statements in conformity with accounting standards generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. These significant estimates include fair market values of investments. Actual results could differ from those estimates.

**Risks and Uncertainties**

The Plan provides for various investment options in any combination of stocks, commingled funds, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

The Master Trust is exposed to credit loss in the event of non-performance by the companies with whom guaranteed investment contracts are placed. However, the Plan administrator does not anticipate non-performance by these companies. The Plan administrator believes that the risk to the Master Trust portfolio from credit loss is not material due to the diversified nature of assets held.

**3. Tax Status of the Plan**

The Plan received a favorable tax determination letter, effective October 5, 2005 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**4. Investments Held by the Master Trust**

The Master Trust comprises the assets of the Unicare Savings Plan, the Savings Plan for Union Employees of Unilever and the Good Humor-Breyers Savings Plan, affiliated plans of UNUS. The

The Plan has an undivided interest in the assets of the Master Trust. Certain investment assets of the Master Trust and related earnings are allocated to the plans participating in the Master Trust based upon the total of each individual participant's share of the Master Trust. On an overall basis, the Plan has an 8.1% and 8.1% interest in the investments of the Master Trust as of December 31, 2005 and 2004, respectively.

mutual and commingled funds are valued at the net asset value of shares held at year end. Unilever N.V. common stock is valued at the last close price at end of the year. Short-term investments are valued at amortized cost, which is cost plus accrued interest, which approximates fair value.

Purchases and sales of securities are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date and interest is recorded on the accrual basis.

Investment income for the Master Trust includes net appreciation (depreciation) of investments, as well as, interest and dividends from investments. The net appreciation (depreciation) of investments held in the Master Trust consists of the realized gains (losses) and the unrealized appreciation (depreciation) on these investments.

**Investment Contracts**

The Master Trust entered into benefit-responsive investment contracts, such as traditional guaranteed investment contracts ( GICs ) and synthetic guaranteed investment contracts, with various third party financial institutions. These benefit-responsive investment contracts are held through the PRIMCO Interest Income Fund. Contract values represent contributions made to the investment contract plus earnings, less participant withdrawals and administrative expenses.

A synthetic GIC provides for a fixed return on principal over a specified period of time through fully benefit-responsive wrapper contracts issued by third party financial institutions which are backed by underlying assets owned by the Master Trust. The contract values of the synthetic GICs were \$430 million and \$442 million at December 31, 2005 and 2004, respectively. Included in the contract values of the synthetic GICs are \$1.4 million and \$12.0 million at December 31, 2005 and 2004, respectively, attributable to wrapper contract providers representing the amounts by which the value of the investment contracts are less than the value of the underlying assets. Fully benefit-responsive investment contracts are reported at contract value, which approximates fair value.

On December 29, 2005, The Financial Accounting Standards Board ( FASB ) released FASB Staff Position ( FSP ) Nos. AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans. The FSP clarifies the definition of fully benefit-responsive investment contracts for contracts held by defined contribution plans. The FSP also establishes enhanced financial statement presentation and disclosure requirements for defined contribution plans subject to the FSP effective for financial statements issued for periods ending after December 15, 2006.

Management intends to adopt the FSP for the plan year ending December 31, 2006. The effect of the FSP on the Plan's financial statements is expected to enhance financial statement presentation and disclosure requirements including the following:

Benefit-responsive investment contracts and investments in bank collective investment funds that hold benefit-responsive investment contracts will be presented at fair value on the statement of net assets available for benefits and the amount representing the difference between fair value and contract value of the investment contracts shall be presented on the face of the statement of net assets available for benefits as a single amount, calculated as the sum of the amounts necessary to adjust the portion of net assets attributable to each fully benefit-responsive investment contract from fair value to contract value. The

statement of changes in net assets available for benefits shall be prepared on a basis that reflects income credited to participants in the Plan and net appreciation or depreciation in the fair value of only those investment contracts that are not deemed to be fully benefit-responsive.

**5. Transactions with Related Parties and Parties-in-Interest**

The Unilever N.V. Stock Fund invests in shares of Unilever N.V. Stock. This fund is designed as a means for employees to participate in the potential long-term growth of Unilever.

Certain Master Trust investments consist of units in investment funds managed by Fidelity. Fidelity owns these investment funds, and is a party-in-interest as defined by ERISA. In the opinion of the Plan administrator, fees paid during the year for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

**6. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, the participant's rights to their accrued benefits are nonforfeitable. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.
