UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D. C. 20549
FORM 10-Q

(MARK ONE)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2008

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 0-120152

HEALTHCARE SERVICES GROUP, INC.

(Exact name of registrant as specified in its charter)

Pennsylvania

23-2018365

(State or other jurisdiction of
incorporation or organization)

(IRS Employer Identification
number)

3220 Tillman Drive-Suite 300, Bensalem, Pennsylvania 19020

(Address of principal executive office) (Zip code)

Registrant's telephone number, including area code: 215-639-4274

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated
filer

Accelerated
filer

Non-accelerated filer
(Do not check if a smaller reporting
company)

Smaller reporting
company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES NO

APPLICABLE ONLY TO CORPORATE ISSUERS:

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. Common Stock, \$.01 Par Value: 42,945,000 shares outstanding as of July 18, 2008.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1 Basis of Reporting

The accompanying financial statements are unaudited and do not include certain information and note disclosures required by accounting principles generally accepted in the United States for complete financial statements. However, in our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The balance sheet shown in this report as of December 31, 2007 has been derived from, and does not include, all the disclosures contained in the financial statements for the year ended December 31, 2007. The financial statements should be read in conjunction with the financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2007. The results of operations for either the quarter or the six month period ended June 30, 2008 are not necessarily indicative of the results that may be expected for the full fiscal year.

In preparing financial statements in conformity with generally accepted accounting principles, we make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates are used for, but not limited to, our allowance for doubtful accounts, accrued insurance claims, asset valuations and review for potential impairment, share-based compensation, and deferred tax benefits. The estimates are based upon various factors including current and historical trends, as well as other pertinent industry and regulatory authority information. We regularly evaluate this information to determine if it is necessary to update the basis for our estimates and to compensate for known changes.

Certain prior period amounts have been reclassified to conform to current year presentation.

Inventories and supplies include housekeeping, linen and laundry supplies, as well as food provisions. Inventories and supplies are stated at cost to approximate a first-in, first-out (FIFO) basis. Linen supplies are amortized over a 24 month period.

Note 2 Three-For-Two Stock Split

On July 17, 2007, our Board of Directors declared a three-for-two stock split in the form of a 50% stock dividend which was paid on August 10, 2007 to holders of record at the close of business on August 3, 2007. The effect of the stock dividend was to increase Common Shares outstanding by approximately 14,200,000 shares. All share and earnings per common share information for all periods presented in this report have been adjusted to reflect the three-for-two stock split.

-7-

Table of Contents**Note 3 Goodwill and Other Intangible Assets**

We apply the provisions of SFAS No. 141, Business Combinations and SFAS No. 142, Goodwill and Other Intangible Assets in accounting for our goodwill and other identifiable intangible assets. SFAS No. 141 addresses the initial recognition and measurement of goodwill and other intangible assets acquired in a business combination. SFAS No. 142 addresses the initial recognition and measurement of intangible assets acquired outside of a business combination, whether acquired individually or with a group of other assets, and the accounting and reporting for goodwill and other intangible assets subsequent to their acquisition.

The following table sets forth the amounts of our identifiable intangible assets subject to amortization, which were acquired in the Summit acquisition, and the amortization expense recognized thereon for the quarter and six month period ended June 30, 2008:

	Acquisition Amount	Amortization Expense 2 nd	
		Quarter	Six Months
Customer Relationships	\$ 6,700,000	\$ 240,000	\$ 479,000
Non-compete Agreements	800,000	25,000	50,000
Total	\$ 7,500,000	\$ 265,000	\$ 529,000

The customer relationships have a weighted-average amortization period of seven years and the non-compete agreements have a weighted-average amortization period of eight years. The following table sets forth the estimated amortization expense for intangibles subject to amortization for the remaining six months in our 2008 fiscal year and the following four fiscal years:

Period/Year	Customer Relationships	Non-Compete Agreements	Total
July 1 to December 31, 2008	\$479,000	\$ 50,000	\$ 529,000
2009	\$957,000	\$100,000	\$1,057,000
2010	\$957,000	\$100,000	\$1,057,000
2011	\$957,000	\$100,000	\$1,057,000
2012	\$957,000	\$100,000	\$1,057,000

The following table sets forth the amount of goodwill as of June 30, 2008 which is subject to impairment testing, rather than amortization.

Summit	All other	Total
\$13,409,000	\$1,611,000	\$15,020,000

The following table sets forth by reportable operating segment, as described in Note 5 herein, the amounts of goodwill:

Segment	Amount
Food	\$ 1,401,000
Housekeeping	13,619,000
Total	\$ 15,020,000

Table of Contents

Note 4 Other Contingencies

We have a \$30,000,000 bank line of credit on which we may draw to meet short-term liquidity requirements in excess of internally generated cash flow. Amounts drawn under the line of credit are payable upon demand. At June 30, 2008, there were no borrowings under the line of credit. However, at such date, we had outstanding, in the aggregate, \$26,925,000 irrevocable standby letters of credit which relate to payment obligations under our insurance and purchase card programs. As a result of the letters of credit issued, the amount available under the line of credit was reduced by \$26,925,000 at June 30, 2008. The line of credit requires us to satisfy two financial covenants. We are in compliance with the financial covenants at June 30, 2008 and expect to continue to remain in compliance with such financial covenants. This line of credit expires on June 30, 2009. We believe the line of credit will be renewed at that time.

We provide our services in 47 states and we are subject to numerous local taxing jurisdictions within those states. Consequently, the taxability of our services is subject to various interpretations within these jurisdictions. In the ordinary course of business, a jurisdiction may contest our reporting positions with respect to the application of its tax code to our services, which may result in additional tax liabilities.

At December 31, 2007 we had unsettled tax assessments from state taxing authorities of \$707,000 (\$435,000, net of federal income taxes). With respect to these assessments, we recorded a reserve at December 31, 2007 of \$391,000 (\$240,000 net of income taxes). During the six month period ended June 30, 2008, such assessments were settled with the respective state taxing authorities resulting in an additional charge of approximately \$200,000 (\$123,000 net of income taxes).

In other tax matters, because of the uncertainties related to both the probable outcome and amount of probable assessment due, we are unable to make a reasonable estimate of a liability. We do not expect the resolution of any of these matters, taken individually or in the aggregate, to have a material adverse affect on our consolidated financial position or results of operations based on our best estimate of the outcomes of such matters.

We are involved in miscellaneous claims and litigation arising in the ordinary course of business. We believe that these matters, taken individually or in the aggregate, would not have a material adverse affect on our financial position or consolidated results of operations.

Congress has enacted a number of major laws during the past decade that have significantly altered, or threaten to alter, overall government reimbursement for nursing home services. Because our clients' revenues are generally highly reliant on Medicare and Medicaid reimbursement funding rates and mechanisms, the overall effect of these laws and trends in the long term care industry have affected and could adversely affect the liquidity of our clients, resulting in their inability to make payments to us on agreed upon payment terms. These factors, in addition to delays in payments from clients, have resulted in and could continue to result in significant additional bad debts in the near future.

Note 5 Segment Information

Table of Contents**Reportable Operating Segments**

We manage and evaluate our operations in two reportable segments. The two reportable segments are Housekeeping (housekeeping, laundry, linen and other services), and Food (food services). Although both segments serve the same client base and share many operational similarities, they are managed separately due to distinct differences in the type of service provided, as well as the specialized expertise required of the professional management personnel responsible for delivering the respective segment's services. We consider the various services provided within Housekeeping to be one reportable operating segment since such services are rendered pursuant to a single service agreement and the delivery of such services is managed by the same management personnel.

Differences between the reportable segments' operating results and other disclosed data and our consolidated financial statements relate primarily to corporate level transactions, as well as transactions between reportable segments and our warehousing and distribution subsidiary. The subsidiary's transactions with reportable segments are made on a basis intended to reflect the fair market value of the goods transferred. Additionally, included in the differences between the reportable segments' operating results and other disclosed data are amounts attributable to our investment holding company subsidiary. This subsidiary does not transact any business with the reportable segments. Segment amounts reported are prior to any elimination entries made in consolidation.

Housekeeping provides services in Canada, although essentially all of its revenues and net income, 99% in both categories, are earned in one geographic area, the United States. Food provides services solely in the United States.

	Housekeeping services	Food services	Corporate and eliminations	Total
Quarter Ended June 30, 2008				
Revenues	\$ 119,952,000	\$ 27,592,000	\$ 374,000	\$ 147,918,000
Income before income taxes	\$ 11,227,000	\$ 701,000	\$ (623,000)(1)	\$ 11,305,000
Quarter Ended June 30, 2007				
Revenues	\$ 115,137,000	\$ 27,174,000	\$ 596,000	\$ 142,907,000
Income before income taxes	\$ 11,319,000	\$ 772,000	\$ 143,000(1)	\$ 12,234,000
Six Months Ended June 30, 2008				
Revenues	\$ 239,470,000	\$ 54,833,000	\$ 874,000	\$ 295,177,000
Income before income taxes	\$ 23,043,000	\$ 1,979,000	\$ (2,567,000)(1)	\$ 22,455,000
Six Months Ended June 30, 2007				
Revenues	\$ 228,339,000	\$ 53,726,000	\$ 2,009,000	\$ 284,074,000

-10-

Table of Contents

	Housekeeping services	Food services	Corporate and eliminations	Total
Income before income taxes	\$22,639,000	\$1,953,000	\$(243,000)(1)	\$24,349,000

(1) represents primarily corporate office cost and related overhead, as well as consolidated subsidiaries operating expenses that are not allocated to the reportable segments.

Total Revenues from Clients

The following revenues earned from clients differ from segment revenues reported above due to the inclusion of adjustments used for segment reporting purposes by management. We earned total revenues from clients in the following service categories:

	For the Quarter Ended June 30,	
	2008	2007
Housekeeping services	\$ 82,257,000	\$ 80,431,000
Laundry and linen services	37,365,000	34,636,000
Food Services	27,703,000	27,296,000
Maintenance services and Other	593,000	544,000
	\$ 147,918,000	\$ 142,907,000

	For the Six Months Ended June 30,	
	2008	2007
Housekeeping services	\$ 164,875,000	\$ 159,959,000
Laundry and linen services	74,207,000	68,848,000
Food Services	55,010,000	54,103,000
Maintenance services and Other	1,085,000	1,164,000
	\$ 295,177,000	\$ 284,074,000

Major Client

We have one client, a nursing home chain (Major Client), which accounted for the respective percentages of our revenues as detailed below:

	2008 Six months	2008 2 nd quarter
Total revenues	15%	15%

Edgar Filing: HEALTHCARE SERVICES GROUP INC - Form 10-Q

Housekeeping	14%	14%
Food	19%	18%
	2007	2007
	Six months	2 nd quarter
Total revenues	16%	16%
Housekeeping	15%	15%
Food	22%	22%

Additionally, at both June 30, 2008 and December 31, 2007, amounts due from such client represented less than 1% of our accounts receivable balance. This client completed its previously announced merger on March 14, 2006. Although we expect to continue the relationship with this client, there can be no assurance thereof. The loss of such client, or a

Table of Contents

significant reduction in revenues from such client, would have a material adverse effect on the results of operations of our two operating segments. In addition, if such client changes its payment terms it would increase our accounts receivable balance and have a material adverse effect on our cash flows and cash and cash equivalents.

Note 6 Earnings Per Common Share

A reconciliation of the numerator and denominator of basic and diluted earnings per common share is as follows:

	Quarter Ended June 30, 2008		
	Income (Numerator)	Shares (Denominator)	Per-share Amount
Net income	\$ 6,953,000		
Basic earnings per common share	\$ 6,953,000	43,080,000	\$.16
Effect of dilutive securities:			
Options		882,000	
Diluted earnings per common share	\$ 6,953,000	43,962,000	\$.16

	Quarter Ended June 30, 2007		
	Income (Numerator)	Shares (Denominator)	Per-share Amount
Net income	\$ 7,524,000		
Basic earnings per common share	\$ 7,524,000	42,131,000	\$.18
Effect of dilutive securities:			
Options		1,579,000	(.01)
Diluted earnings per common share	\$ 7,524,000	43,710,000	\$.17

Table of Contents

	Six Months Ended June 30, 2008		
	Income (Numerator)	Shares (Denominator)	Per-share Amount
Net income	\$ 13,810,000		
Basic earnings per common share	\$ 13,810,000	43,048,000	\$.32
Effect of dilutive securities:			
Options		1,040,000	(.01)
Diluted earnings per common share	\$ 13,810,000	44,088,000	\$.31

	Six Months Ended June 30, 2007		
	Income (Numerator)	Shares (Denominator)	Per-share Amount
Net income	\$ 14,974,000		
Basic earnings per common share	\$ 14,974,000	41,895,000	\$.36
Effect of dilutive securities:			
Options		1,793,000	(.02)
Diluted earnings per common share	\$ 14,974,000	43,688,000	\$.34

No outstanding options were excluded from the computation of diluted earnings per common share for either of the three or six month periods ended June 30, 2007 as none have an exercise price in excess of the average market value of our common stock during such periods.

Options to purchase 371,000 and 367,000 shares of common stock at an average exercise price of \$20.89 per common share were outstanding during the three and six month periods ended June 30, 2008, respectively, but not included in the computation of diluted earnings per common share because the options' exercise prices were greater than the average market price of the common shares, and therefore, would be antidilutive.

Note 7 Dividends

We have paid regular quarterly cash dividends since the second quarter of 2003. During the six month period ended June 30, 2008, we paid regular cash dividends totaling \$11,603,000 as follows.

	1 st Quarter	2 nd Quarter
Cash dividend per common share	\$.13	\$.14
Total cash dividends paid	\$5,579,000	\$6,024,000
Record date	February 4	April 25
Payment date	February 15	May 12

On July 15, 2008, our Board of Directors declared a regular quarterly cash dividend payment of \$.15 per common share to be paid on August 8, 2008 to shareholders of record as of July 25, 2008.

Table of Contents**Note 8 Share-Based Compensation****Stock Options**

During the six month period ended June 30, 2008, the stock option activity under our 2002 Stock Option Plan, 1995 Incentive and Non-Qualified Stock Option Plan for key employees, and 1996 Non-Employee Director's Stock Option Plan (collectively the Stock Option Plans), was as follows:

	Weighted Average Price	Number of Shares	Weighted Average Remaining Contractual Life (In Years)	Aggregate Intrinsic Value
Outstanding, January 1, 2008	\$ 6.34	2,412,000		
Granted	20.89	372,000		
Cancelled	7.94	(29,000)		
Exercised	4.39	(556,000)		
Outstanding at June 30, 2008	\$ 9.27	2,199,000	5.07	\$ 15,189,000
Options exercisable as of June 30, 2008		1,830,000	4.18	\$ 15,189,000

The following table summarizes information about stock options outstanding at June 30, 2008.

Exercise Price Range	Number Outstanding	Options Outstanding		Options Exercisable	
		Average Remaining Contractual Life	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
\$ 1.50 - 2.74	445,000	2.25	\$ 2.42	445,000	\$ 2.42
3.01 - 5.53	625,000	5.03	4.77	625,000	4.77
9.10 - 9.10	401,000	6.49	9.10	401,000	9.10
13.81 - 13.81	358,000	2.52	13.81	358,000	13.81
\$ 20.89 - 20.89	370,000	9.51	20.89	0	
	2,199,000	5.07	\$ 9.27	1,829,000	\$ 6.92

Other information pertaining to option activity during the six month periods ended June 30, 2008 and June 30, 2007 was as follows:

	June 30, 2008	June 30, 2007
Weighted average grant-date fair value of stock options granted:	\$2,237,000	Not applicable
Total fair value of stock options vested:	\$ -0-	Not applicable
Total pre-tax intrinsic value of stock options exercised:	\$8,505,000	\$13,389,000

Under our Stock Option Plans at June 30, 2008, in addition to the 2,199,000 shares issuable pursuant to outstanding option grants, an additional 2,392,000 shares of our Common Stock are available for future grants. Options outstanding and exercisable were granted at stock option prices which were not less than the fair market value of our Common Stock on the date the options were granted and no option has a term in excess of ten years. Additionally,

with the exception of the options granted in 2008, options became vested and exercisable either on the date of grant or commencing six months after the option grant date. The options granted in 2008 become vested and exercisable ratably over a five year period on each yearly anniversary date of the option grant.

-14-

Table of Contents

Total pre-tax share-based compensation expensed charged against income for the six month period ended June 30, 2008 for options granted in such period was approximately \$224,000. Additionally, at June 30, 2008, \$2,013,000 of total unrecognized compensation expense related to non-vested options was expected to be recognized through the fourth quarter of 2012. The fair value of options granted was estimated on the date of grant using the Black-Scholes valuation model with the following weighted average assumptions:

Risk-free interest rate	4.2%
Expected volatility	35.9%
Weighted average expected life in years	4.5
Dividend yield	2.0%

Employee Stock Purchase Plan

Total pre-tax share-based compensation expense charged against income for the three and six month periods ended June 30, 2008 and June 30, 2007 for options granted under our Employee Stock Purchase Plan (ESPP) was:

2008		2007	
2nd Quarter	Six Months	2nd Quarter	Six Months
\$91,000	\$158,000	\$89,000	\$192,000

It is estimated, at this time, that the expense attributable to such share-based payments in each of the subsequent quarters of 2008 will approximate the average of the amounts recorded in the 2008 first and second quarter. However, such future expense related to our ESPP will be impacted by, and be dependent on the change in our stock price over the remaining period up to the December 31, 2008 measurement date.

Such expense was estimated on the date of grant using the Black-Scholes valuation model with the following weighted average assumptions:

	2008	
	2nd Quarter	Six Months
Risk-free interest rate	3.6%	3.6%
Expected volatility	38.8%	38.8%
Weighted average expected life (in years)	1.0	1.0
Dividend yield	2.0%	2.0%

	2007	
	2nd Quarter	Six Months
Risk-free interest rate	4.8%	4.8%
Expected volatility	27.5%	27.5%
Weighted average expected life (in years)	.5	.5
Dividend yield	2.0%	2.0%

We may issue new common stock or re-issue common stock from treasury to satisfy our obligations under any of our share-based compensation plans.

Table of Contents

Note 9 Related Party Transactions

One of our directors, as well as the brother of an officer and director (collectively Related Parties), have separate ownership interests in several different client facilities which have entered into service agreements with us. During the six month periods ended June 30, 2008 and June 30, 2007, the service agreements with the client facilities in which the Related Parties have ownership interests resulted in aggregate revenues of \$2,609,000 and \$2,519,000, respectively. At June 30, 2008 and December 31, 2007, accounts and notes receivable from such facilities of \$2,540,000 and \$2,465,000, respectively, are included in the accompanying consolidated balance sheets.

Another of our directors is a member of a law firm which was retained by us. During the six month periods ended June 30, 2008 and June 30, 2007, fees received from us by such firm did not exceed \$100,000 in either period. Additionally, such fees did not exceed, in either period, 5% of such firm's revenues.

Note 10 Cumulative Effect of Adjustment to Deferred Compensation Liability

At December 31, 2006, a cumulative effect of adjusting our deferred compensation liability resulted from applying the provisions of Securities and Exchange Commission Staff Accounting Bulletin No. 108 (SAB No. 108) . We adopted SAB No. 108 at December 31, 2006 and for the year then ended. Historically, the appreciation on our Common Stock held in our Deferred Compensation Plan (the Plan) trust account was not recognized in the reporting of the deferred compensation liability. In accordance with the guidance provided by Emerging Issues Task Force Issue No. 97-14 (EITF No. 97-14), in the year ended December 31, 2006, we increased our recorded deferred compensation liability to reflect the current fair market value of our shares held in the Plan trust account. Prior to the adoption of SAB No. 108, we used the rollover method described therein in evaluating the materiality of financial statements adjustments.

On March 15, 2007, effective May 31, 2007, the Plan document was amended to modify a participant's right to diversify his investment in the Company's common stock. Such amendment eliminates a participant's option to transfer funds in or out of the Company common stock investment option as of the effective date. Any Company common stock investment in a participant's account, as of June 1, 2007, has remained in such account and will be distributed to him in-kind at the time of his payment of benefits. Accordingly, at June 1, 2007, the deferred compensation liability, net of income taxes, related to Company common stock investments was reclassified to stockholders' equity. Subsequent changes to fair value of such investments will not be recognized. The deferred compensation liability, related to the mutual funds or other than Company common stock investment options, continue to be recorded at the fair value of the investments held in the trust and is included in the consolidated balance sheets in deferred compensation liability.

Note 11 Income Taxes

Table of Contents

We adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109 (FIN 48), on January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement 109, Accounting for Income Taxes, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Based on our evaluation, we have concluded that there are no significant uncertain tax positions requiring recognition in our financial statements. Our evaluation was performed for the tax years ended December 31, 2003 through 2007, the tax years which remain subject to examination by major tax jurisdictions as of June 30, 2008.

We may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event we have received an assessment for interest and/or penalties, it has been classified in the financial statements as selling, general and administrative expense.

Note 12 Recently Issued Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS No. 157). Among other requirements, SFAS No. 157 defines fair value and establishes a framework for measuring fair value and also expands disclosure about the use of fair value to measure assets and liabilities. SFAS No. 157 is effective beginning the first fiscal year that begins after November 15, 2007. We have adopted SFAS No. 157 on January 1, 2008. The adoption of SFAS No. 157 did not have a material impact on our financial statements or condition.

In December 2007, the FASB Statement 141R, Business Combinations (SFAS 141R) was issued. SFAS 141R replaces SFAS 141. SFAS 141R requires the acquirer of a business to recognize and measure the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at fair value. SFAS 141R also requires transaction costs related to the business combination to be expensed as incurred. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The effective date for the Company will be January 1, 2009. We have not yet determined the impact of SFAS 141R related to future acquisitions, if any, on our Consolidated Financial Statements.

In February 2007, the FASB issued SFAS No. 159 The Fair Value Option for Financial Assets and Financial Liabilities (SFAS No. 159), which permits entities to elect to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. This election is irrevocable. SFAS No. 159 was effective for us in the first quarter of 2008. The adoption of SFAS No. 159 did not have a material impact on our financial statements or condition.

Table of Contents**ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Cautionary Statement Regarding Forward Looking Statements**

This report and documents incorporated by reference into this report contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934 (the Exchange Act), as amended, are not historical facts but rather based on current expectations, estimates and projections about our business and industry, our beliefs and assumptions. Words such as believes, anticipates, plans, expects, will, goal, and similar expressions are intended to identify forward-looking statements. The inclusion of forward-looking statements should not be regarded as a representation by us that any of our plans will be achieved. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Such forward looking information is also subject to various risks and uncertainties. Such risks and uncertainties include, but are not limited to, risks arising from our providing services exclusively to the health care industry, primarily providers of long-term care; credit and collection risks associated with this industry; one client accounting for approximately 15% of revenues in the six month period ended June 30, 2008-(see Note 5, Major Client in the accompanying Notes to Consolidated Financial Statements); risks associated with our acquisition of Summit Services Group, Inc. (Summit), including integration risks and costs, or such business not achieving expected financial results or synergies or failure to otherwise perform as expected; our claims experience related to workers' compensation and general liability insurance; the effects of changes in, or interpretations of laws and regulations governing the industry, including state and local regulations pertaining to the taxability of our services; and the risk factors described in our Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2007 in Part I thereof under Government Regulation of Clients, Competition, Service Agreements/Collections, and under Item IA Risk Factors. Many of our clients' revenues are highly contingent on Medicare and Medicaid reimbursement funding rates, which Congress has affected through the enactment of a number of major laws during the past decade. These laws have significantly altered, or threatened to alter, overall government reimbursement funding rates and mechanisms. The overall effect of these laws and trends in the long-term care industry have affected and could adversely affect the liquidity of our clients, resulting in their inability to make payments to us on agreed upon payment terms. These factors, in addition to delays in payments from clients, have resulted in, and could continue to result in, significant additional bad debts in the near future. Additionally, our operating results would be adversely affected if unexpected increases in the costs of labor and labor-related costs, materials, supplies and equipment used in performing services could not be passed on to our clients.

In addition, we believe that to improve our financial performance we must continue to obtain service agreements with new clients, provide new services to existing clients, achieve modest price increases on current service agreements with existing clients and maintain internal cost reduction strategies at our various operational levels. Furthermore, we believe that our ability to sustain the internal development of managerial personnel is an important factor impacting future operating results and successfully executing projected growth strategies.

Table of Contents

RESULTS OF OPERATIONS

The following discussion is intended to provide the reader with information that will be helpful in understanding our financial statements including the changes in certain key items in comparing financial statements period to period. We also intend to provide the primary factors that accounted for those changes, as well as a summary of how certain accounting principles affect our financial statements. In addition, we are providing information about the financial results of our two operating segments to further assist in understanding how these segments and their results affect our consolidated results of operations. This discussion should be read in conjunction with our financial statements as of June 30, 2008 and December 31, 2007 and the periods then ended and the notes accompanying those financial statements.

Overview

We provide housekeeping, laundry, linen, facility maintenance and food services to the health care industry, including nursing homes, retirement complexes, rehabilitation centers and hospitals located throughout the United States. We believe that we are the largest provider of housekeeping and laundry services to the long-term care industry in the United States, rendering such services to approximately 2,100 facilities in 47 states as of June 30, 2008. Although we do not directly participate in any government reimbursement programs, our clients' reimbursements are subject to government regulation. Therefore, they are directly affected by any legislation relating to Medicare and Medicaid reimbursement programs.

We provide our services primarily pursuant to full service agreements with our clients. In such agreements, we are responsible for the management and hourly employees located at our clients' facilities. We also provide services on the basis of a management-only agreement for a very limited number of clients. Our agreements with clients typically provide for a one year service term, cancelable by either party upon 30 to 90 days notice after the initial 90-day period.

We are organized into two reportable segments; housekeeping, laundry, linen and other services (Housekeeping), and food services (Food).

The services provided by Housekeeping consist primarily of the cleaning, disinfecting and sanitizing of patient rooms and common areas of a client's facility, as well as the laundering and processing of the personal clothing belonging to the facility's patients. Also within the scope of this segment's service is the laundering and processing of the bed linens, uniforms and other assorted linen items utilized by a client facility.

Food, which began operations in 1997, consists of providing for the development of a menu that meets the patient's dietary needs, and the purchasing and preparing of the food for delivery to the patients.

In addition to Summit (whose operations were fully integrated into Healthcare's on January 1, 2007), we operate two wholly-owned subsidiaries, HCSG Supply, Inc. (Supply) and Huntingdon Holdings, Inc. (Huntingdon). Supply purchases, warehouses and distributes the supplies and equipment used in providing our Housekeeping segment services. Huntingdon invests our cash and cash equivalents.

Table of Contents**Consolidated Operations**

The following table sets forth, for the periods indicated, the percentage which certain items bear to consolidated revenues:

	Relation to Consolidated Revenues			
	For the Quarter Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Revenues	100.0%	100.0%	100.0%	100.0%
Operating costs and expenses:				
Costs of services provided	85.9	85.1	85.7	85.0
Selling, general and administration	6.9	7.0	7.0	7.2
Investment and interest income	.4	.7	.3	.8
Income before income taxes	7.6	8.6	7.6	8.6
Income taxes	2.9	3.3	2.9	3.3
Net income	4.7%	5.3%	4.7%	5.3%

Subject to the factors noted in the Cautionary Statement Regarding Forward Looking Statements included in this report, we anticipate our financial performance for the remainder of 2008 may be comparable to the six month period ended June 30, 2008 percentages presented in the above table as they relate to consolidated revenues.

Housekeeping is our largest and core reportable segment, representing approximately 81% of consolidated revenues for both the quarter and six month period ended June 30, 2008. Food revenues represented approximately 19% of consolidated revenues for such periods.

Although there can be no assurance thereof, we believe that for the remainder of 2008 each of Housekeeping's and Food's revenues, as a percentage of consolidated revenues, will remain approximately the same as their respective percentages noted above. Furthermore, we expect the sources of growth for the remainder of 2008 for the respective operating segments will be primarily the same as historically experienced. Accordingly, although there can be no assurance thereof, the growth in Food is expected to come from our current Housekeeping client base, while growth in Housekeeping is expected to come primarily from obtaining new clients.

2008 Second Quarter Compared with 2007 Second Quarter

The following table sets forth 2008 second quarter income statement key components that we use to evaluate our financial performance on a consolidated and reportable segment basis, as well as the percentage changes of each compared to 2007 second quarter amounts.

	Consolidated	Percent incr(decr)	Corporate and eliminations	Reportable Segments			
				Housekeeping		Food	
				Amount	%incr (decr)	Amount	%incr (decr)
Revenues	\$ 147,918,000	3.5%	\$ 374,000	\$ 119,952,000	4.2%	\$ 27,592,000	1.5%
Cost of services provided	127,074,000	4.5	(8,542,000)	108,725,000	4.7	26,891,000	1.9
Selling, general and administrative expense	10,124,000	.2	10,124,000				
Investment and interest income	585,000	(44.1)	585,000				

Edgar Filing: HEALTHCARE SERVICES GROUP INC - Form 10-Q

Income before income taxes	\$ 11,305,000	(7.6)%	(623,000)	\$ 11,227,000	(.8)%	\$ 701,000	(9.2)%
-------------------------------	---------------	--------	-----------	---------------	-------	------------	--------

-20-

Table of Contents**Revenues****Consolidated**

Consolidated revenues increased 3.5% to \$147,918,000 in the 2008 second quarter compared to \$142,907,000 in the 2007 second quarter as a result of the factors discussed below under Reportable Segments.

Our Major Client accounted for 15% and 16%, respectively of consolidated revenues in the three month periods ended June 30, 2008 and June 30, 2007. This client completed its previously announced merger on March 14, 2006. Although we expect to continue the relationship with our Major Client, there can be no assurance thereof, and the loss of such client would have a material adverse effect on the results of operations of our two operating segments. In addition, if such Major Client changes its payment terms it would increase our accounts receivable balance and have a material adverse effect on our cash flows and cash and cash equivalents.

Reportable Segments

Housekeeping's 4.2% net growth in reportable segment revenues resulted primarily from revenues attributable to service agreements entered into with new clients.

Food's 1.5% net growth in reportable segment revenues is primarily a result of providing this service to existing Housekeeping clients.

We derived 14% and 18%, respectively, of Housekeeping and Food's 2008 second quarter revenues from our Major Client.

Costs of services provided**Consolidated**

Cost of services provided, on a consolidated basis, as a percentage of consolidated revenues for the 2008 second quarter increased to 85.9 % from 85.1 % in the corresponding 2007 quarter. The following table provides a comparison of the primary cost of services provided-key indicators that we manage on a consolidated basis in evaluating our financial performance

	2008 %	2007 %	Incr (Decr) %
Cost of Services Provided-Key Indicators			
Bad debt provision	.2	.6	(.4)
Workers' compensation and general liability insurance	3.9	3.3	.6

The decrease in bad debt provision resulted primarily from the recording in the 2007 second quarter of additional expense related to a nursing home chain which filed for bankruptcy during the 2007 first quarter. The increase in workers' compensation and general liability insurance is primarily due to unfavorable claims experience during the quarter.

Additionally, costs of service provided, on a consolidated basis, were negatively impacted by the increases in Food supplies costs discussed below in Reportable Segments.

Table of Contents**Reportable Segments**

Cost of services provided for Housekeeping, as a percentage of Housekeeping revenues, for the 2008 second quarter increased to 90.6% from 90.2% in the corresponding 2007 quarter. Cost of services provided for Food, as a percentage of Food revenues, for the 2008 second quarter increased to 97.5% from 97.2% in the corresponding 2007 quarter.

The following table provides a comparison of the primary cost of services provided-key indicators, as a percentage of the respective segment's revenues, which we manage on a reportable segment basis in evaluating our financial performance:

	2008 %	2007 %	Incr (Decr) %
Cost of Services Provided-Key Indicators			
Housekeeping labor and other labor costs	81.6	81.6	
Housekeeping supplies	5.6	5.6	
Food labor and other labor costs	53.5	55.0	(1.5)
Food supplies	39.9	38.0	1.9

In addition to the analysis above relating to Housekeeping key indicators, the net .4% increase in Housekeeping cost of services provided in comparing the quarters resulted primarily from unfavorable variances in certain direct expenses which are not deemed to be key indicators.

The decrease in Food labor and other labor costs, as a percentage of Food revenues, resulted from efficiencies achieved in managing such costs at the facility level. The increase in Food supplies, as a percentage of Food revenues, is a result of vendor price increases.

Consolidated Selling, General and Administrative Expense

Although our growth in consolidated revenues was 3.5% for the quarter, selling, general and administrative expenses increased by only .2% or \$19,000 compared to the 2007 second quarter. Therefore, as a percentage of total consolidated revenues, these expenses decreased to 6.9% in the 2008 second quarter compared to 7.0% in the 2007 second quarter. This percentage decrease resulted primarily from our ability to control these expenses and comparing them to a greater revenue base.

Consolidated Investment and Interest Income

Investment and interest income, as a percentage of consolidated revenues, decreased to .4% in the 2008 second quarter compared to .7% in the 2007 second quarter. The net decrease is primarily attributable to reduced rates of return on cash and cash equivalents.

Income before Income Taxes**Consolidated**

As a result of the discussion above related to revenues and expenses, consolidated income before income taxes for the 2008 second quarter decreased to 7.6 %, as a percentage of consolidated revenues, compared to 8.6% in the 2007 second quarter.

Reportable Segments

Although Housekeeping realized a slight .8% decrease in income before income taxes in comparing the three month periods ended June 30, 2008 and June 30, 2007, Housekeeping's income before income taxes, as a percentage of Housekeeping revenues, remained constant at 9.4% in both three month periods.

Food's 2008 second quarter income before income taxes, as a percentage of Food

Table of Contents

revenues decreased to 2.5% compared to 2.8% in the 2007 second quarter primarily as a result of price increases from food supplies vendors.

Consolidated Income Taxes

Our effective tax rate for both of the three month periods ended June 30, 2008 and June 30, 2007 was 38.5%. Our 38.5% effective tax rate differs from the federal income tax statutory rate principally because of the effect of state and local income taxes and estimated tax credits available to the Company.

Consolidated Net Income

As a result of the matters discussed above, consolidated net income for the 2008 second quarter decreased to 4.7%, as a percentage of consolidated revenues, compared to 5.3% in the 2007 second quarter.

2008 Six Month Period Compared with 2007 Six Month Period

The following table sets forth for the six month period ended June 30, 2008 income statement key components that we use to evaluate our financial performance on a consolidated and reportable segment basis, as well as the percentage changes of each compared to the six month period ended June 30, 2007 amounts.

	Consolidated	Percent incr(decr)	Corporate and eliminations	Reportable Segments			
				Housekeeping Amount	%incr	Food Amount	%incr
Revenues	\$295,177,000	3.9%	\$ 874,000	\$239,470,000	4.9%	\$54,833,000	2.1%
Cost of services provided	252,928,000	4.8	(16,353,000)	216,427,000	5.2	52,854,000	2.1
Selling, general and administrative expense	20,703,000	.4	20,703,000				
Investment and interest income	909,000	(60.6)	909,000				
Income before income taxes	\$ 22,455,000	(7.8)%	(2,567,000)	\$ 23,043,000	1.8%	\$ 1,979,000	1.4%

Revenues**Consolidated**

Consolidated revenues increased 3.9% to \$295,177,000 in the six month period ended June 30, 2008 compared to \$284,074,000 in the same 2007 period as a result of the factors discussed below under Reportable Segments.

Our Major Client accounted for 15% and 16%, respectively of consolidated revenues in the six month periods ended June 30, 2008 and June 30, 2007.

Reportable Segments

Housekeeping's 4.9% net growth in reportable segment revenues resulted primarily from an increase in revenues attributable to service agreements entered into with new clients.

Food's 2.1% net growth in reportable segment revenues is a result of providing this service to existing Housekeeping clients.

We derived 14% and 19%, respectively, of Housekeeping and Food's 2008 six month period's revenues from the Major Client.

Table of Contents**Costs of services provided****Consolidated**

Cost of services provided, on a consolidated basis, as a percentage of consolidated revenues for the six month period ended June 30, 2008 increased to 85.7% from 85.0% in the corresponding 2007 period. The following table provides a comparison of the primary cost of services provided-key indicators that we manage on a consolidated basis in evaluating our financial performance

	2008 %	2007 %	Incr (Decr) %
Cost of Services Provided-Key Indicators			
Bad debt provision	.3	1.0	(.7)
Workers compensation and general liability insurance	3.1	3.2	(.1)

The decrease in bad debt provision resulted primarily from the recording in the 2007 six month period of expense related to a nursing home chain which filed for bankruptcy during such period. The decrease in workers compensation and general liability insurance is primarily due to improved claims experience.

Additionally, costs of service provided, on a consolidated basis, were negatively impacted by the costs variances discussed below in Reportable Segments.

Reportable Segments

Cost of services provided for Housekeeping, as a percentage of Housekeeping revenues, for the six month period ended June 30, 2008 increased to 90.4% from 90.1% in the corresponding 2007 period. Cost of services provided for Food, as a percentage of Food revenues, for the 2008 six month period remained constant at 96.4% in comparing it to the 2007 six month period.

The following table provides a comparison of the primary cost of services provided-key indicators, as a percentage of the respective segment's revenues, that we manage on a reportable segment basis in evaluating our financial performance:

	2008 %	2007 %	Incr (Decr) %
Cost of Services Provided-Key Indicators			
Housekeeping labor and other labor costs	81.3	81.4	(.1)
Housekeeping supplies	6.1	5.2	.9
Food labor and other labor costs	53.6	54.5	(.9)
Food supplies	39.6	37.8	1.8

The decrease in Housekeeping labor and other labor costs, as a percentage of Housekeeping revenues, resulted primarily from efficiencies achieved in managing these costs at the facility level. The increase in Housekeeping supplies resulted primarily from vendor price increases and inefficiencies realized in the usage of such items in the 2008 first quarter.

The decrease in Food labor and other labor costs, as a percentage of Food revenues, resulted from efficiencies achieved in managing these costs at all operating levels. The increase in Food segment supplies, as a percentage of Food segment revenues, is a result of vendor price increases.

Consolidated Selling, General and Administrative Expense

Although our growth in consolidated revenues was 3.9% for the 2008 six month period,

Table of Contents

selling, general and administrative expenses increased by .4% or \$87,000 in comparing the six month periods ended June 30, 2008 and June 30, 2007. However, as a percentage of total consolidated revenues, these expenses decreased by .2% to 7.0% in the 2008 period as compared to 7.2% in the 2007 period. This percentage decrease resulted primarily from our ability to control these expenses and comparing them to a greater revenue base.

Consolidated Investment and Interest Income

Investment and interest income, as a percentage of consolidated revenues, decreased to .3% in the 2008 six month period compared to .8% in the same 2007 period. The decrease was primarily a result of decreased investment and interest income earned on participants' deferred compensation plan accounts and reduced rates of return on our cash and cash equivalents.

Income before Income Taxes

Consolidated

As a result of the discussion above related to revenues and expenses, consolidated income before income taxes for the six month period ended June 30, 2008 decreased to 7.6 %, as a percentage of consolidated revenues, compared to 8.6% in the same 2007 period.

Reportable Segments

Housekeeping's 1.8% increase in income before income taxes is primarily attributable to the gross profit earned on the 4.9% increase in reportable segment revenues.

Food's income before income taxes increased of 1.4% on a reportable segment basis is primarily attributable to the gross profit earned on the 2.1% increase in reportable segment revenues.

Consolidated Income Taxes

Our effective tax rate for both of the six month periods ended June 30, 2008 and June 30, 2007 was 38.5%. Our 38.5% effective tax rate differs from the federal income tax statutory rate principally because of the effect of state and local income taxes and estimated tax credits available to the Company.

Consolidated Net Income

As a result of the matters discussed above, consolidated net income for the six months ended June 30, 2008 decreased to 4.7%, as a percentage of consolidated revenues, compared to 5.3% in six month period ended June 30, 2007.

Table of Contents

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting standards generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

We consider the three policies discussed below to be critical to an understanding of our financial statements because their application places the most significant demands on management's judgment. Therefore, it should be noted that financial reporting results rely on estimating the effect of matters that are inherently uncertain. Specific risks for these critical accounting policies and estimates are described in the following paragraphs. For these estimates, we caution that future events rarely develop exactly as forecasted, and the best estimates routinely require adjustment. Any such adjustments or revisions to estimates could result in material differences to previously reported amounts.

The three policies discussed are not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting standards generally accepted in the United States, with no need for our judgment in their application. There are also areas in which our judgment in selecting another available alternative would not produce a materially different result. See our audited consolidated financial statements and notes thereto which are included in our Annual Report on Form 10-K for the year ended December 31, 2007, which contain accounting policies and estimates and other disclosures required by accounting principles generally accepted in the United States.

Allowance for Doubtful Accounts

The Allowance for Doubtful Accounts (the Allowance) is established as losses are estimated to have occurred through a provision for bad debts charged to earnings. The Allowance is evaluated based on our periodic review of accounts and notes receivable and is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

We have had varying collection experience with respect to our accounts and notes receivable. When contractual terms are not met, we generally encounter difficulty in collecting amounts due from certain of our clients. Therefore, we have sometimes been required to extend the period of payment for certain clients beyond contractual terms. These clients include those who have terminated service agreements and slow payers experiencing financial difficulties. In making credit evaluations, in addition to analyzing and anticipating, where possible, the specific cases described above, we consider the general collection risks associated with trends in the long-term care industry. We also establish credit limits, perform ongoing credit evaluations, and monitor accounts to minimize the risk of loss.

In accordance with the risk of extending credit, we regularly evaluate our accounts and notes receivable for impairment or loss of value and when appropriate, will provide in our Allowance for such receivables. We generally follow a policy of reserving for receivables due from clients in bankruptcy, clients with which we are in litigation for collection and other slow paying clients. The reserve is based upon our estimates of ultimate collectibility.

Table of Contents

Correspondingly, once our recovery of a receivable is determined through litigation, bankruptcy proceedings or negotiation to be less than the recorded amount on our balance sheet, we will charge-off the applicable amount to the Allowance.

Our methodology for the Allowance is based upon a risk-based evaluation of accounts and notes receivable associated with a client's ability to make payments. Such Allowance generally consists of an initial amount established based upon criteria generally applied if and when a client account files bankruptcy, is placed for collection/litigation and/or is considered to be pending collection/litigation.

The initial Allowance is adjusted either higher or lower when additional information is available to permit a more accurate estimate of the collectibility of an account.

Summarized below for the six month period ended June 30, 2008 and year ended December 31, 2007 are the aggregate account balances for the three Allowance criteria noted above, net write-offs of client accounts, bad debt provision and allowance for doubtful accounts.

Period Ended	Aggregate Account Balances of Clients in Bankruptcy or In/Pending Collection/Litigation			
	Net Write-Offs of Client Accounts	Bad Debt Provision	Allowance for Doubtful Accounts	
June 30, 2008	\$ 3,000	\$ 850,000	\$ 5,131,000	\$ 9,229,000
December 31, 2007	\$ 4,574,000	\$ 6,142,000	\$ 4,284,000	\$ 9,363,000

At June 30, 2008, we identified accounts totaling \$9,229,000 that require an Allowance based on potential impairment or loss of value. An Allowance totaling \$5,131,000 was provided for these accounts at such date. Actual collections of these accounts could differ from that which we currently estimate. If our actual collection experience is 5% less than our estimate, the related increase to our Allowance would decrease net income by \$126,000.

Notwithstanding our efforts to minimize credit risk exposure, our clients could be adversely affected if future industry trends, as more fully discussed under Liquidity and Capital Resources below, and as further described in our 2007 Annual Report on Form 10-K in Part I under Risk Factors, Government Regulation of Clients and Service Agreements/Collections, change in such a manner as to negatively impact the cash flows of our clients. If our clients experience a negative impact in their cash flows, it would have a material adverse effect on our results of operations and financial condition.

Accrued Insurance Claims

We currently have a Paid Loss Retrospective Insurance Plan for general liability and workers' compensation insurance, which comprise approximately 30% of our liabilities at June 30, 2008. Our accounting for this plan is affected by various uncertainties because we must make assumptions and apply judgment to estimate the ultimate cost to settle reported claims and claims incurred but not reported as of the balance sheet date. We address these uncertainties by regularly evaluating our claims' pay-out experience, present value factor and other factors

Table of Contents

related to the nature of specific claims in arriving at the basis for our accrued insurance claims estimate. Our evaluations are based primarily on current information derived from reviewing our claims experience and industry trends. In the event that our claims experience and/ or industry trends result in an unfavorable change, it would have a material adverse effect on our consolidated results of operations and financial condition. Under these plans, predetermined loss limits are arranged with an insurance company to limit both our per-occurrence cash outlay and annual insurance plan cost.

For workers' compensation, we record a reserve based on the present value of future payments, including an estimate of claims incurred but not reported, that are developed as a result of a review of our historical data and open claims. The present value of the payout is determined by applying an 8% discount factor against the estimated value of the claims over the estimated remaining pay-out period. Reducing the discount factor by 1% would reduce net income by approximately \$32,000. Additionally, reducing the estimated payout period by six months would result in an approximate \$83,000 reduction in net income.

For general liability, we record a reserve for the estimated ultimate amounts to be paid for known claims. The estimated ultimate reserve amount recorded is derived from the estimated claim reserves provided by our insurance carrier reduced by an historical experience factor.

Asset Valuations and Review for Potential Impairment

We review our fixed assets, goodwill and other intangible assets at least annually or whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. This review requires that we make assumptions regarding the value of these assets and the changes in circumstances that would affect the carrying value of these assets. If such analysis indicates that a possible impairment may exist, we are then required to estimate the fair value of the asset and, as deemed appropriate, expense all or a portion of the asset. The determination of fair value includes numerous uncertainties, such as the impact of competition on future value. We believe that we have made reasonable estimates and judgments in determining whether our long-term assets have been impaired; however, if there is a material change in the assumptions used in our determination of fair value or if there is a material change in economic conditions or circumstances influencing fair value, we could be required to recognize certain impairment charges in the future. As a result of our most recent reviews, no changes in asset values were required.

Table of Contents

Liquidity and Capital Resources

At June 30, 2008, we had cash and cash equivalents of \$90,747,000 and working capital of \$173,083,000 compared to December 31, 2007 cash and cash equivalents of \$92,461,000 and working capital of \$167,217,000. We view our cash and cash equivalents as our principal measure of liquidity. Our current ratio at June 30, 2008 increased to 7.6 to 1 compared to 7.0 to 1 at December 31, 2007. This increase resulted primarily from the increase in accounts and notes receivable resulting primarily from our 3.9% increase in revenues. On an historical basis, our operations have generally produced consistent cash flow and have required limited capital resources. We believe our current and near term cash flow positions will enable us to fund our continued anticipated growth.

Operating Activities

The net cash provided by our operating activities was \$9,514,000 for the six month period ended June 30, 2008.

The principal sources of cash flows from operating activities for the six month period ended June 30, 2008 were net income, including non-cash charges to operations for bad debt provisions and depreciation and amortization, and the timing of payments for accrued payroll, accrued and withheld payroll taxes.

The operating activity that used the largest amount of cash during the six month period ended June 30, 2008 was a net increase of \$4,966,000 in accounts and notes receivable and long-term notes receivable resulting primarily from the 3.9% growth in the Company's 2008 six month period revenues, as well as timing of collections. Additionally, operating cash flows were decreased from the timing of accounts payable and other accrued expenses payments of \$1,154,000.

Investing Activities

Our principal use of cash in investing activities for the six month period ended June 30, 2008 was \$729,000 for the purchase of housekeeping equipment, computer software and equipment, and laundry equipment installations. Under our current plans, which are subject to revision upon further review, it is our intention to spend approximately \$1,000,000 during the remainder of 2008 for such capital expenditures.

Financing Activities

Our principal use of cash in financing activities for the six month period ended June 30, 2008 was the expenditure of \$4,551,000 for the repurchase of 288,000 shares of our common stock. We remain authorized to purchase 1,131,000 shares pursuant to previous Board of Directors' actions.

Table of Contents

We have paid regular quarterly cash dividends since the second quarter of 2003. During the six month period ended June 30, 2008, we paid regular cash dividends totaling \$11,603,000 as follows.

	1 st Quarter	2 nd Quarter
Cash dividend per common share	\$.13	\$.14
Total cash dividends paid	\$5,579,000	\$6,024,000
Record date	February 4	April 25
Payment date	February 15	May 12

Additionally, on July 15, 2008, our Board of Directors declared a regular quarterly cash dividend payment of \$.15 per common share to be paid on August 8, 2008 to shareholders of record as of July 25, 2008.

Our Board of Directors reviews our dividend policy on a quarterly basis. Although there can be no assurance that we will continue to pay dividends or the amount of the dividend, we expect to continue to pay a regular quarterly cash dividend. In connection with the establishment of our dividend policy, we adopted a Dividend Reinvestment Plan in 2003.

During the six month period ended June 30, 2008, we received proceeds of \$2,407,000 from the exercise of stock options by employees and directors, as well as recognizing an income tax benefit of \$3,135,000 from such stock option transactions.

Reclassification of Deferred Compensation Plan Obligation

On March 15, 2007, effective May 31, 2007, our Deferred Compensation Plan was amended to modify a participant's right to diversify his investment in the Company's common stock. Such amendment eliminates a participant's option to transfer funds in or out of the Company common stock investment option as of the effective date. Any Company common stock investment in a participant's account, as of June 1, 2007, will remain in such account option and be distributed to him in-kind at the time of his payment of benefits. Accordingly, at June 1, 2007, the deferred compensation liability related to Company common stock investments were reclassified to stockholders equity. Subsequent changes to fair value of such investments will not be recognized. The deferred compensation liability, related to the Mutual Funds or other than Company common stock investment options, continues to be recorded at the fair value of the investments held in the trust and is included in the consolidated balance sheets in deferred compensation liability.

Line of Credit

We have a \$30,000,000 bank line of credit on which we may draw to meet short-term liquidity requirements in excess of internally generated cash flow. Amounts drawn under the line of credit are payable upon demand. At June 30, 2008, there were no borrowings under the line of credit. However, at such date, we had outstanding, in the aggregate, \$26,925,000 of irrevocable standby letters of credit which relate to payment obligations under our insurance programs. As a result of the letter of credit issued, the amount available under the line of credit was reduced by \$26,925,000 at June 30, 2008.

The line of credit requires us to satisfy two financial covenants. Such covenants, and their

Table of Contents

respective status at June 30, 2008, were as follows:

<p>Covenant Description and Requirement</p> <p>Commitment coverage ratio: cash and cash equivalents must equal or exceed outstanding obligations under the line by a multiple of 2.</p>	<p>Status at June 30, 2008</p> <p>Commitment coverage is 3.4</p>
---	--

<p>Tangible net worth: must exceed \$146,000,000.</p>	<p>Tangible net worth is \$179,253,000</p>
---	--

As noted above, we complied with the financial covenants at June 30, 2008 and expect to continue to remain in compliance with such financial covenants. This line of credit expires on June 30, 2009. We believe the line of credit will be renewed at that time.

Accounts and Notes Receivable

We expend considerable effort to collect the amounts due for our services on the terms agreed upon with our clients. Many of our clients participate in programs funded by federal and state governmental agencies which historically have encountered delays in making payments to its program participants. Congress has enacted a number of laws during the past decade that have significantly altered, or may alter, overall government reimbursement for nursing home services. Because our clients' revenues are generally reliant on Medicare and Medicaid reimbursement funding rates and mechanisms, the overall effect of these laws and trends in the long term care industry have affected and could adversely affect the liquidity of our clients, resulting in their inability to make payments to us on agreed upon payment terms. These factors, in addition to delays in payments from clients, have resulted in and could continue to result in significant additional bad debts in the near future. Whenever possible, when a client falls behind in making agreed-upon payments, we convert the unpaid accounts receivable to interest bearing promissory notes. The promissory notes receivable provide a means by which to further evidence the amounts owed and provide a definitive repayment plan and therefore may ultimately enhance our ability to collect the amounts due. At June 30, 2008 and December 31, 2007, we had \$8,913,000 and \$9,473,000, net of reserves, respectively, of such promissory notes outstanding. Additionally, we consider restructuring service agreements from full service to management-only service in the case of certain clients experiencing financial difficulties. We believe that such restructurings may provide us with a means to maintain a relationship with the client while at the same time minimizing collection exposure.

We have had varying collection experience with respect to our accounts and notes receivable. When contractual terms are not met, we generally encounter difficulty in collecting amounts due from certain of our clients. Therefore, we have sometimes been required to extend the period of payment for certain clients beyond contractual terms. These clients include those who have terminated service agreements and slow payers experiencing financial difficulties. In order to provide for these collection problems and the general risk associated with the granting of credit terms, we have recorded bad debt provisions (in an Allowance for Doubtful Accounts) of \$850,000 in the six month period ended June 30, 2008 and \$350,000 in the three month period ended June 30, 2008. These provisions represent approximately .3% and .2%, as a percentage of total revenues for such respective periods. In making our credit evaluations, in addition to analyzing and anticipating, where possible, the specific cases described above, we consider the general collection risk associated with trends in the long-term care industry. We also establish credit limits, perform ongoing credit evaluation and monitor accounts to minimize the risk of

Table of Contents

loss. Notwithstanding our efforts to minimize credit risk exposure, our clients could be adversely affected if future industry trends change in such a manner as to negatively impact their cash flows. If our clients experience a negative impact in their cash flows, it would have a material adverse effect on our results of operations and financial condition.

At June 30, 2008, amounts due from our Major Client represented less than 1% of our accounts receivable balance. If such client changes its payments terms, it would increase our accounts receivable balance and have a material adverse affect on our cash flows and cash and cash equivalents.

Insurance Programs

We have a Paid Loss Retrospective Insurance Plan for general liability and workers compensation insurance. Under these plans, pre-determined loss limits are arranged with an insurance company to limit both our per-occurrence cash outlay and annual insurance plan cost.

For workers compensation, we record a reserve based on the present value of future payments, including an estimate of claims incurred but not reported, that are developed as a result of a review of our historical data and open claims. The present value of the payout is determined by applying an 8% discount factor against the estimated value of the claims over the estimated remaining pay-out period.

For general liability, we record a reserve for the estimated ultimate amounts to be paid for known claims. The estimated ultimate reserve amount recorded is derived from the estimated claim reserves provided by our insurance carrier reduced by an historical experience factor.

We regularly evaluate our claims pay-out experience, present value factor and other factors related to the nature of specific claims in arriving at the basis for our accrued insurance claims estimate. Our evaluation is based primarily on current information derived from reviewing our claims experience and industry trends. In the event that our claims experience and/ or industry trends result in an unfavorable change, it would have an adverse effect on our results of operations and financial condition.

Table of Contents

Capital Expenditures

The level of capital expenditures is generally dependent on the number of new clients obtained. Such capital expenditures primarily consist of housekeeping equipment purchases, laundry and linen equipment installations, and computer hardware and software. Although we have no specific material commitments for capital expenditures through the end of calendar year 2008, we estimate that for the remainder of 2008 we will have capital expenditures of approximately \$1,000,000 in connection with housekeeping equipment purchases and laundry and linen equipment installations in our clients' facilities, as well as expenditures relating to internal data processing hardware and software requirements. We believe that our cash from operations, existing cash and cash equivalents balance and credit line will be adequate for the foreseeable future to satisfy the needs of our operations and to fund our anticipated growth. However, should these sources not be sufficient, we would, if necessary, seek to obtain necessary working capital from such sources as long-term debt or equity financing.

Material Off-Balance Sheet Arrangements

We have no material off-balance sheet arrangements, other than our irrevocable standby letter of credit previously discussed.

Effects of Inflation

Although there can be no assurance thereof, we believe that in most instances we will be able to recover increases in costs attributable to inflation by passing such cost increases through to our clients.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Management does not believe that there is any material market risk exposure with respect to derivative or other financial instruments that would require disclosure under this item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports under the Securities Exchange Act of 1934 (the Exchange Act), such as this Form 10-Q, is reported in accordance with Securities and Exchange Commission (SEC) rules. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Based on their evaluation as of June 30, 2008, pursuant to Exchange Act Rules 13a-15(b), our management, including our Chief Executive Officer and Chief Financial Officer, believe our disclosure controls and procedures (as defined in Exchange Act 13a-15(e) are effective.

In connection with the evaluation pursuant to Exchange Act Rule 13a-15(d) of our internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) by our management, including our Chief Executive Officer and Chief Financial Officer, no changes during the quarter ended June 30, 2008, were identified that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Certifications

Certifications of the Principal Executive Officer and Principal Financial Officer regarding, among other items, disclosure controls and procedures are included as exhibits to this Form 10-Q.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. Legal Proceedings.** Not Applicable**ITEM 1A. Risk Factors**

There has been no material change in the risk factors set forth in Part I, Item 1A, Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007.
