DURING THE YEAR, TELEVISIA CONTINUED TO PRODUCE AND TRANSMIT SEVERAL OF THE LEADING PAY-TV NETWORKS IN MEXICO IN KEY CATEGORIES, INCLUDING GENERAL ENTERTAINMENT, MUSIC AND LIFESTYLE, AND MOVIES. THE DECREASE IS MAINLY EXPLAINED BY A DROP IN REVENUES FROM OUR FEATURE-FILM DISTRIBUTION AND PUBLISHING BUSINESSES, WHICH WAS PARTIALLY COMPENSATED BY AN INCREASE IN THE REVENUES OF OUR RADIO BUSINESS.

FULL YEAR SALES DECREASED BY 1.0% TO PS.8,124.3 MILLION COMPARED WITH PS.8,204.0 MILLION IN 2014. BUSINESSES THAT PERFORMED WELL INCLUDE GAMING AND RADIO. OTHER EXPENSE, NET

OTHER EXPENSE, NET, DECREASED BY PS.4,953.2 MILLION TO PS.328.5 MILLION IN 2015, FROM PS.5,281.7 MILLION IN 2014. THIS DECREASE REFLECTED PRIMARILY THE ABSENCE OF A ONE-TIME NON-CASH LOSS OF PS.4,168.5 MILLION ON DISPOSITION OF OUR FORMER 50% JOINT VENTURE IN THE IUSACELL TELECOM BUSINESS IN THE THIRD QUARTER OF 2014, AS WELL AS A NON-RECURRING CASH INCOME OF US\$67.6 MILLION (PS.1,038.3 MILLION) AS A RESULT OF THE EARLY TERMINATION OF A TECHNICAL ASSISTANCE AGREEMENT WITH UNIVISION IN THE FIRST QUARTER OF 2015. THESE FAVORABLE EFFECTS WERE PARTIALLY OFFSET BY A HIGHER EXPENSE RELATED TO FINANCIAL ADVISORY AND PROFESSIONAL SERVICES, A NON-RECURRENT

SEVERANCE EXPENSE IN CONNECTION WITH DISMISSALS OF PERSONNEL IN OUR CONTENT, CABLE AND OTHER BUSINESSES SEGMENTS, AND A HIGHER LOSS ON DISPOSITION OF PROPERTY AND EQUIPMENT.

THIS FAVORABLE VARIANCE IN OTHER FINANCE INCOME NET, WAS PARTIALLY OFFSET BY (I) A PS.687.9 MILLION INCREASE IN INTEREST EXPENSE TO PS.6,239.4 MILLION IN 2015 COMPARED WITH PS.5,551.5 MILLION IN 2014, DUE PRIMARILY TO A HIGHER AVERAGE PRINCIPAL AMOUNT OF DEBT AND FINANCE LEASE OBLIGATIONS IN 2015; (II) A PS.299.9 MILLION DECREASE IN INTEREST INCOME TO PS.1,027.8 MILLION IN 2015 COMPARED WITH PS.1,327.7 MILLION IN 2014, EXPLAINED PRIMARILY BY THE ABSENCE OF INTEREST INCOME FROM OUR FORMER INVESTMENTS IN CONVERTIBLE DEBENTURES ISSUED BY UHI AS THESE SECURITIES WERE EXCHANGED IN JULY 2015 FOR WARRANTS THAT ARE EXERCISABLE FOR UHI'S COMMON STOCK, AND CONVERTIBLE DEBT INSTRUMENTS ISSUED BY TENEDORA ARES, S.A.P.I. These condensed consolidated financial statements of the Group, as of December 31, 2015 and 2014, and for the years ended December 31, 2015 and 2014, are unaudited, and have been prepared in accordance with the guidelines provided by the International Accounting Standard 34, Interim Financial Reporting. In the opinion of management,

all adjustments necessary for a fair presentation of the condensed consolidated financial statements have been included herein.

These unaudited condensed consolidated financial statements should be read in conjunction with the Group's audited consolidated financial statements and notes thereto for the years ended December 31, 2014 and 2013, which have been prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board, and include, among other disclosures, the Group's most significant accounting policies, which were applied on a consistent basis as of December 31, 2015.

These interim unaudited condensed consolidated financial statements were authorized for issuance on February 22, 2016, by the Group's Chief Financial Officer.

In preparing these unaudited condensed interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended December 31, 2014, with the exception of the change in the useful life of trademarks as mentioned in Note 7, the derecognition of Convertible Debentures and the classification of Warrants as available-for-sale financial assets, as mentioned in Notes 4 and 9.

3. Acquisitions, Investments and Disposition

In August 2014, the Group acquired, pursuant to applicable regulations, all of the equity interest of Cablecom through the conversion of the debt instruments issued by Tenedora Ares, S.A.P.I. de C.V. ("Ares") in the amount of Ps.7,297,292, including accrued interest at the acquisition date, and an additional consideration of Ps.8,550,369, comprised of (i) the capitalization of an outstanding long-term debt issued by Ares in the amount of U.S.\$200.2 million (Ps.2,642,367), including accrued interest at the acquisition date; and (ii) cash in the amount of Ps.5,908,002. The total fair value consideration for this acquisition amounted to Ps.15,847,661, and the Group recognized goodwill, other intangible assets and related deferred income tax liability based on a final purchase price allocation at the acquisition date. The Group began to consolidate the net assets of Cablecom in its consolidated statement of financial position as of August 31, 2014, and therefore, the Group's consolidated statement of income for the year ended December 31, 2014, included results of operations of Cablecom for the four months ended on that date. Through the acquisition of Cablecom, the Group increased its presence in the telecommunications Mexican market, not only by maintaining customers of Cablecom at the date of the acquisition, but also by increasing the number of users of Cablecom services in connection with new market strategies. The following table summarizes the allocation of the purchase price to the tangible and identifiable intangible assets acquired and liabilities assumed at the acquisition date. In January 2015, the Group received proceeds in the aggregate amount of U.S.\$717 million (Ps.10,632,393) in connection with the disposal in 2014 of its investment in GSF Telecom Holdings, S.A.P.I. de C.V. ("GSF"), of which U.S.\$697 million were in cash and U.S.\$20 million were held in escrow for certain contingent litigation costs. As of December 31, 2015, the amount held in escrow was of U.S.\$11.9 million (Ps.204,954). As a result of this disposal, the Group recognized a non-cash loss of Ps.4,168,468 in consolidated other expense in the year ended December 31, 2014.

In July 2015, UHI, the controlling company of Univision, and the Company announced that together with major shareholders of UHI, they had entered into a Memorandum of Understanding ("MOU") and that certain subsidiaries of UHI and the Company entered into an agreement to amend their existing Program Licensing Agreement (the "PLA"). Under the PLA amendment, the terms of the existing strategic relationship between UHI and the Group have been amended among other things, (i) to extend the term of the PLA from its current expiration date of at least 2025 to at least 2030 upon consummation of a qualified public equity offering of UHI; and (ii) to adjust the royalty computation of the PLA by making certain additional revenue subject to royalties in exchange for certain adjustments to the royalty rate. Under the terms of the MOU, UHI, the Group and the major shareholders of UHI agreed to (i) upon a qualifying initial public offering of UHI, an equity capitalization of UHI by which, among other considerations, the Group will hold common stock with approximately 22% of the voting rights of UHI common stock, and the right for the Group to designate a minimum number of directors to UHI's Board of Directors; and (ii) the exchange of U.S.\$1,125 million (Ps.17,634,375) principal amount of Convertible Debentures issued by UHI for Warrants that are exercisable for UHI's common stock, and a cash payment by UHI in the amount of U.S.\$135.1 million (Ps.2,194,981) for such exchange. In July 2015, the Group exercised a portion of these Warrants to increase its equity stake in UHI from 7.8% to 10%.

In July 2015, the Company acquired additional shares of Imagina Media Audiovisual, S.L. (together with its subsidiaries, "Imagina") in the aggregate cash amount of €19.2 million (Ps.341,710) in connection with a reorganization of stockholders of this investee, by which the Company increased its equity stake in Imagina from 14.5% to 19.9% (see Notes 4 and 5).

4. Investments in Financial Instruments

At December 31, 2015 and 2014, the Group had the following investments in financial instruments:

	December 31, 2015	December 31, 2014
Available-for-sale financial assets:		
Convertible Debentures due 2025 issued by UHI ⁽¹⁾	Ps. -	Ps. 10,421,478
Embedded derivative in Convertible Debentures issued by UHI ⁽¹⁾ -	-	17,447,857
Warrants issued by UHI ⁽¹⁾	35,042,577	-
Shares of common stock of Imagina ⁽²⁾	-	836,037
Available-for-sale investments ⁽³⁾	5,873,243	5,511,768
	40,915,820	34,217,140
Held-to-maturity investments ⁽⁴⁾	134,034	461,047
Other	31,620	31,685
	Ps. 41,081,474	Ps. 34,709,872

(1)

Through July 2015, the Group held an investment in Convertible Debentures due 2025 issued by UHI in the principal amount of U.S.\$1,125 million (Ps.17,634,375), with an annual interest rate of 1.5% receivable on a quarterly basis, which were convertible at the Company's option into additional shares equivalent to approximately 30% equity stake of UHI, subject to existing laws and regulations in the United States, and other conditions. These Convertible Debentures were classified as available-for-sale financial assets with changes in fair value recognized in other comprehensive income or loss in consolidated equity. The Group's option of converting these debentures into an equity stake of UHI was accounted for as an embedded derivative with changes in fair value recognized in consolidated income. In July 2015, the Group exchanged in these Convertible Debentures for an investment in Warrants that are exercisable for UHI's common stock, subject to the U.S. Federal Communications Commission's restrictions on foreign ownership, in whole or in part, at an exercise price of U.S.\$0.01 per Warrant share, considering that the original value of U.S.\$1,125 million invested by the Group in Convertible Debentures is part of the Group's investment in Warrants. The Warrants shall expire and no longer be exercisable after the tenth anniversary of the date of issuance (the "Expiration Date"); provided, however, the Expiration Date shall automatically be extended for nine successive ten-year periods unless the Group provides written notice to UHI of its election not to so extend the Expiration Date. The Warrants do not bear interest. The fair value of these Warrants at the date of exchange was U.S.\$1,951 million (Ps.30,582,427). The Group reclassified Ps.4,718,175 from accumulated other comprehensive income in consolidated equity to other finance income in the consolidated statement of income for the year ended December 31, 2015 as a result of derecognizing the Convertible Debentures. In July 2015, the Group exercised a portion of these Warrants in the amount of U.S.\$107.4 million (Ps.1,695,524) to increase its equity stake in UHI from 7.8% to 10%. These Warrants are classified as available-for-sale financial assets with changes in fair value recognized in accumulated other comprehensive income or loss in consolidated equity. Changes in fair value recognized in other comprehensive income will be reclassified to the statement of income within other finance income, net, in the period the Warrants are exercised, in whole or in part (see Notes 3 and 5).

Through June 2015, the Company's investment in common stock of Imagina was accounted for as an available-for-sale equity financial asset with changes in fair value recognized in consolidated other comprehensive income or loss. In July 2015, the Company acquired additional shares of Imagina for the aggregate cash amount of €19.2 million (Ps.341,710) and increased its equity stake in Imagina from 14.5% to 19.9%. As a result of this transaction, beginning in the third quarter of 2015 the Group (i) holds two of 10 seats on the Board of Directors of (2) Imagina; (ii) began to account for this investment under the equity method due to its ability to exercise significant influence over the operating and financial policies of Imagina; (iii) recognized its investment in Imagina as an associate through the fair value as deemed cost at the transaction date; and (iv) reclassified a cumulative gain of Ps.544,402, related to changes in fair value of the investment in Imagina from accumulated other comprehensive income in consolidated equity to consolidated other finance income for the year ended December 31, 2015 (see Notes 3 and 5).

The Group has an investment in an open ended fund that has as a primary objective to achieve capital appreciation by using a broad range of strategies through investments and transactions in telecom, media and other sectors across global markets, including Latin America and other emerging markets. Shares may (3) be redeemed on a quarterly basis at the Net Asset Value ("NAV") per share as of such redemption date. The fair value of this fund is determined by using the NAV per share. The NAV per share is calculated by determining the value of the fund assets and subtracting all of the fund liabilities and dividing the result by the total number of issued shares.

Held-to-maturity investments represent corporate fixed income securities with long-term maturities. These (4) investments are stated at amortized cost. Maturities of these investments subsequent to December 31, 2015, are as follows: Ps.60,683 in 2017, Ps.13,365 in 2018 and Ps.59,986 thereafter. Held-to-maturity financial assets as of December 31, 2015 and 2014 are denominated primarily in Mexican pesos.

A roll forward of available-for-sale financial assets for the year ended December 31, 2015 is presented as follows:

At January 1, 2015	Ps. 34,217,140
Changes in fair value in other comprehensive income	3,947,250

At December 31, 2015	Ps.40,915,820

The maximum exposure to credit risk of the investments in financial instruments as of December 31, 2015 is the carrying value of the financial assets mentioned above.

Ocesa Entretenimiento, S.A. de C.V. and subsidiaries (collectively, "OCEN [®] ")	40%	938,995	867,362
Other		83,220	81,516

		Ps. 9,271,901	Ps. 5,032,447

- (1) The Group accounts for its investment in common stock of UHI, the parent company of Univision, under the equity method due to the Group's ability to exercise significant influence, as defined under IFRS, over UHI's operations. The Group has the ability to exercise significant influence over the operating and financial policies of UHI because the Group (i) as of December 31, 2015 and 2014, owned 1,110,382 and 842,850 Class C shares of common stock of UHI, respectively, representing 10% and 7.8%, respectively, of the outstanding total shares of UHI as of each of those dates; (ii) as of December 31, 2015, held Warrants exercisable for common stock of UHI equivalent to approximately 26% equity stake of UHI on a fully-diluted, as-converted basis, subject to certain conditions, laws and regulations, and as of December 31, 2014, held Convertible Debentures due 2025 issued by UHI with an interest rate of 1.5% per annum receivable on a quarterly basis, which could have been converted into additional 4,858,485 shares (subject to adjustment as provided in the debentures) of common stock of UHI equivalent to approximately 30% equity stake of UHI on a fully-diluted, as-converted basis, at the option of the Group, subject to certain conditions, laws and regulations; (iii) as of December 31, 2015 and 2014, had three officers and one director of the Company designated as members of the Board of Directors of UHI, which was composed of 18 and 20 directors, respectively, of 22 available board seats; and (iv) was party to a program license agreement, as amended, with Univision, an indirect wholly-owned subsidiary of UHI, pursuant to which Univision has the right to broadcast certain Televisa content in the United States ("Program License Agreement"), and to another program license agreement pursuant to which the Group has the right to broadcast certain Univision's content in Mexico ("Mexican License Agreement"),

in each case through the later of 2025 (2030 upon consummation of a qualified public equity offering of UHI) or 90 months after the Group has sold two-thirds of its initial investment in UHI made in December 2010. In January 2014, a group of institutional investors made a capital contribution in UHI, by which the Group's percentage equity stake in UHI decreased from 8% to 7.8%.

OCEN is a majority-owned subsidiary of Corporación Interamericana de Entretenimiento, S.A.B. de C.V., and is (2) engaged in the live entertainment business in Mexico. The investment in OCEN includes a goodwill of Ps.359,613 as of December 31, 2015 and 2014.

In the third quarter of 2015, the Company's management evaluated trademarks in its Cable segment to determine whether events and circumstances continue to support an indefinite useful life for these intangible assets. As a result of such evaluation, the Company identified certain businesses and locations that began migrating from a current trademark to an internally developed trademark between 2015 and 2016, in connection with enhanced service packages offered to current and new subscribers, and estimated that this migration process will take approximately four years. Accordingly, beginning in the third quarter of 2015, the Group changed the useful life assessment from indefinite to finite for acquired trademarks in certain businesses and locations in its Cable segment, and began to amortize a straight line basis the related carrying value of these trademarks when the migration to the new trademark started using an estimated useful life of four years. The Group has not capitalized any amounts associated with internally developed trademarks.

These Senior Notes are unsecured obligations of the Company, rank equally in right of payment with all existing and future unsecured and unsubordinated indebtedness of the Company, and are junior in right of payment to all of the existing and future liabilities of the Company's subsidiaries. Interest on the Senior Notes due 2018, 2025, 2026, 2032, 2037, 2040, 2043, 2045 and 2046, including additional amounts payable in respect of certain Mexican withholding taxes, is 6.31%, 6.97%, 4.86%, 8.94%, 8.93%, 6.97%, 7.62%, 5.26% and 6.44% per annum, respectively, and is payable semi-annually. These Senior Notes may not be redeemed prior to maturity, except (i) in the event of certain changes in law affecting the Mexican withholding tax treatment of certain payments on the securities, in which case the securities will be redeemable, as a whole but not in part, at the option of the Company; and (ii) in the event of a change of control, in which case the company may be required to redeem the securities at (1) 101% of their principal amount. Also, the Company may, at its own option, redeem the Senior Notes due 2018, 2025, 2026, 2037, 2040, 2043 and 2046, in whole or in part, at any time at a redemption price equal to the greater of the principal amount of these Senior Notes or the present value of future cash flows, at the redemption date, of principal and interest amounts of the Senior Notes discounted at a fixed rate of comparable U.S. or Mexican sovereign bonds. The agreement of these Senior Notes contains covenants that limit the ability of the Company and certain restricted subsidiaries engaged in the Group's content segment, to incur or assume liens, perform sale and leaseback transactions, and consummate certain mergers, consolidations and similar transactions. The Senior Notes due 2018, 2025, 2026, 2032, 2037, 2040, 2045 and 2046 are registered with the U.S. Securities and Exchange Commission ("SEC"). The Senior Notes due 2043 are registered with both the U.S. SEC and the Mexican Banking and Securities Commission ("Comisión Nacional Bancaria y de Valores" or "CNBV").

(2) Interest on these Notes ("Certificados Bursátiles") is payable semi-annually for Notes due 2020 and every 28 days for Notes due 2021 and 2022. The Company may, at its own option, redeem the Notes due 2020, in whole or in part, at any semi-annual interest payment date at a redemption price equal to the greater of the principal amount of the outstanding notes and the present value of future cash flows, at the redemption date, of principal and interest amounts of the Notes discounted at a fixed rate of comparable Mexican sovereign bonds. The company may, at its own option, redeem the Notes due 2021 and 2022, in whole or in part, at any date at a redemption price equal to the greater of the principal amount of the outstanding notes and an average price calculated from prices to be provided at the redemption date by two Mexican financial pricing companies. The agreement of these Notes contains covenants that limit the ability of the Company and certain restricted subsidiaries appointed by the Company's board of directors, and engaged in the Group's content segment, to incur or assume liens, perform sale and

leaseback transactions, and consummate certain mergers, consolidations and similar transactions.

Total debt is presented net of unamortized finance costs as of December 31, 2015 and 2014, in the aggregate (3) amount of Ps.1,387,876 and Ps.1,268,856, respectively, and includes interest payable in the aggregate amount of Ps.1,184,221 and Ps.974,904 as of December 31, 2015 and 2014, respectively.

In January 2015, the Group prepaid the principal amount and related accrued interest of a peso-denominated long-term bank loan previously entered into by Telecable, the cable company acquired by the Group in January 2015, in the aggregate amount of Ps.507,362. This prepayment was funded primarily with cash provided by a long-term bank loan arranged by the Company with a Mexican bank in the principal amount of Ps.500,000, with a maturity in 2016, and annual interest of the 28-day interbank equilibrium interest rate ("Tasa de Interés Interbancaria de Equilibrio" or "TIE") plus a range between 0 and 80 basis points.

In May 2015, the Company concluded an offering of Ps.5,000,000 aggregate principal amount of local bonds ("Certificados Bursátiles") due 2022 with an annual interest rate of the 28-day TIE plus 35 basis points, which was registered with the CNBV.

During the year of 2015, TVI refinanced an outstanding long-term loan in the principal amount of Ps.722,020, with an original maturity in 2016, and incurred additional long-term debt in the aggregate principal amount of Ps.1,270,000. The refinanced and additional long-term debt of TVI matures in 2019 (Ps.250,000), 2020 (Ps.250,000) and 2022 (Ps.1,492,020) with an annual interest rate of the 28-day TIE plus a range between 130 and 140 basis points, which is payable on a monthly basis.

In June 2015, the Company and Sky prepaid peso-denominated long-term bank loans in the aggregate principal amount of Ps.1,600,000 and Ps.3,500,000, respectively, with original principal maturities between 2016 and 2021. The aggregate amount paid by the Company and Sky amounted to Ps.1,814,312 and Ps.3,651,712, respectively, which included related accrued interest, the settlement of a related derivative contract, and fees. The prepayment of Sky was funded primarily by a long-term loan made by the Company in the principal amount of Ps.3,500,000, with a maturity in 2022, and an annual interest rate of 7.38%, which is payable on a monthly basis.

In November 2015, the Company issued U.S.\$300 million aggregate principal amount of 4.625% Senior Notes due 2026 and U.S.\$900 million aggregate principal amount of 6.125% Senior Notes due 2046 registered with the U.S. SEC.

The Group has designated as an effective hedge of foreign exchange exposure, a portion of the outstanding principal amount of its U.S. dollar denominated long-term debt in connection with its net investment in shares of common stock of UHI, which amounted to U.S.\$330.5 million (Ps.5,685,748) and U.S.\$237.6 million (Ps.3,507,390) as of December 31, 2015 and 2014, respectively. Consequently, any foreign exchange gain or loss attributable to this designated hedging long-term debt is credited or charged directly to other comprehensive income or loss as a cumulative result from foreign currency translation.

Beginning in the third quarter of 2015, the Group has designated a portion of its U.S. dollar denominated long-term debt as a fair value hedge of foreign exchange exposure related to its investment in UHI Warrants. A portion of the outstanding principal amount of its U.S. dollar denominated long-term debt (hedging instrument, disclosed in the line "Long-term debt, net of current portion" of the consolidated statement of financial position) is hedging its investment in Warrants exercisable for common stock of UHI (hedged item), which amounted to U.S.\$2,035.5 million (Ps.35,042,577) as of December 31, 2015. The other changes in fair value of the Warrants are recognized in other comprehensive income or loss. Consequently, any foreign currency gain or loss attributable to these designated hedged warrants is recognized within foreign exchange gain or loss in the consolidated statement of income, along with the recognition in the same line item of any foreign exchange gain or loss of the designated hedging instrument long-term debt.

As of December 31, 2015, the Group is in compliance with all covenants contained in the debt agreements.

9. Financial Instruments

The Group's financial instruments presented in the condensed consolidated statements of financial position included cash and cash equivalents; temporary investments; accounts and notes receivable; a long-term loan receivable from GTAC; Convertible Debentures issued by UHI with an option to convert these debentures into common stock of UHI, which were converted in July 2015 for Warrants that are exercisable for UHI's common stock; debt securities classified as held-to-maturity investments; investments in securities in the form of an open-ended fund classified as available-for-sale investments; accounts payable; debt; and derivative financial instruments. For cash and cash equivalents, temporary investments, accounts receivable, accounts payable, and short-term notes payable due to banks and other financial institutions, the carrying amounts approximate fair value due to the short maturity of these instruments. The fair value of the Group's long-term debt securities are based on quoted market prices.

The fair value of the long-term loans that the Group borrowed from leading Mexican banks (see Note 8) has been estimated using the borrowing rates currently available to the Group for bank loans with similar terms and average maturities. The fair value of held-to-maturity securities, available-for-sale investments, and currency option and interest rate swap agreements were determined by using valuation techniques that maximize the use of observable market data.

The carrying and estimated fair values of the Group's non-derivative financial instruments as of December 31, 2015 and 2014, were as follows:

UHI Warrants

Debentures due 2025 issued by UHI for Warrants that are exercisable for UHI's common stock.

The Group determined the fair value of its investment in Warrants using the Black-Scholes model ("BSM"). The BSM involves the use of significant estimates and assumptions. These estimates and assumptions include the UHI stock's spot price at valuation date and the stock's expected volatility. The UHI stock's price at valuation date was obtained by using a discounted projected cash flow model. The UHI stock's volatility was obtained from publicly available information of comparable companies' stock through determining an average of such companies' annual volatility. Since the described methodology was an internal model with significant unobservable inputs, the UHI Warrants are classified as Level 3.

Unobservable inputs used as of December 31, 2015 included UHI stock's spot price of U.S.\$443 per share and UHI stock's expected volatility of 29%.

Significant judgment was applied in assessing the qualitative factors mentioned in IAS 39 Financial Instruments: Recognition and Measurement, to determine that the changes in cash flows, the different risk and rewards and contractual terms between the exchange Convertible Debentures due 2025 issued by UHI and the received Warrants issued by UHI resulted in the derecognition of the Convertible Debentures (see Note 4).

The Company's management applied significant judgment to determine the classification of the Warrants issued by UHI. These warrants did not comply with the definition of a derivative financial instrument because the initial investment that the Group paid to acquire the original instrument (Convertible Debentures) was significant and a derivative requires no initial investment or one that is smaller than would be required for a contract with similar response to changes in market factors; therefore, the Group classified the Warrants issued by UHI as available-for-sale financial assets with changes in other comprehensive income or loss in consolidated equity. Significant judgment was applied by the Company's management in assessing that the characteristics of the Warrants are closer to an equity instrument in accordance with the IAS 32 Financial Instruments: Presentation.

10. Capital Stock and Long-term Retention Plan

Seasonality of Operations

The Group's results of operations are seasonal. In 2015 and 2014, the Group recognized 28.3% and 30.0%, respectively, of its annual consolidated net sales in the fourth quarter of the year. The Group's costs, in contrast to its revenues, are more evenly incurred throughout the year and generally do not correlate to the amount of advertising sales.

17. Contingencies

In March 2015, the investigative authority of the IFT issued a preliminary opinion that presumed the probable existence of substantial power in the market of restricted television and audio services in Mexico, with respect to the Company and certain of its subsidiaries. On September 30, 2015, the Governing Board of the IFT determined that the Group does not have substantial power in such market ("IFT Resolution").

Although this resolution is final at the administrative level, certain third parties have filed amparo proceedings challenging the constitutionality of the IFT Resolution; those challenges are still under review by the relevant courts and the Company's managements is unable to predict the outcome of those challenges.

There are several legal actions and claims pending against the Group which are filed in the ordinary course of business. In the opinion of the Company's management, none of these actions and claims is expected to have a material adverse effect on the Group's financial statements as a whole; however, the Company's management is unable to predict the outcome of any of these legal actions and claims.

18. Events after the Reporting Period

In February 2016, the Company's Board of Directors approved a proposal for a dividend of Ps. 0.35 per CPO payable in the second quarter of 2016, subject to the approval of the Company's stockholders.

In March 2016, the Group announced the acquisition of the remaining 50% equity interest of Televisión Internacional, S.A. de C.V. ("TVI") in the aggregate amount of Ps.6,750,000, including the assumption of long-term liabilities in the aggregate amount of Ps.4,750,000 with maturities between 2017 and 2020, and a cash payment of Ps.2,000,000. Until such acquisition is completed in the second half of 2016, a non-controlling interest will participate as a shareholder of Corporativo Vasco de Quiroga, S.A. de C.V. ("CVQ"), a direct subsidiary of the Company. This transaction also provides for the acquisition of the non-controlling interest in CVQ in the amount of Ps.1,258,000. This transaction complies with the guidelines and timetable established in the authorization by the IFT. With the ownership of the 100% of the equity interest of TVI, the Group will better be able to exploit efficiencies and economies of scale among its cable operations throughout Mexico and continue expanding its video, voice and data services. The effect of this transaction in the equity attributable to stockholders of the Company as of March 31, 2016, is estimated as follows:

	Acquisition of a Non-Controlling interest
Carrying value of the non-controlling interest in TVI	\$ 768,703
Consideration for the 50% equity interest of TVI	(5,492,000)
Decrease in retained earnings attributable to stockholders of the Company	(4,723,297)

In March 2016, (i) Sky entered into long-term debt agreements with two Mexican banks in the aggregate principal amount of Ps.5,500,000, with maturities between 2021 and 2023 and interest payable on a monthly basis at an annual rate in the range of 7.0% and 7.13%, and prepaid an intercompany long-term loan in the principal amount of Ps.3,500,000; and (ii) the Company prepaid a portion of its Mexican peso outstanding long-term loans with original maturities between 2016 and 2017 in the aggregate principal amount of Ps.3,532,000.

III. QUALITATIVE AND QUANTITATIVE INFORMATION

i. Management's discussion of the policies concerning the use of financial derivative instruments, and explanation as to whether such policies permit the use of said instruments solely for hedging or also for trading or other purposes. The discussion must include a general description of the objectives sought in the execution of financial derivative transactions; the relevant instruments; the hedging or trading strategies implemented in connection therewith; the relevant trading markets; the eligible counterparties; the policies for the appointment of calculation or valuation agents; the principal terms and conditions of the relevant contracts; the policies as to margins, collateral and lines of credit; the authorization process and levels of authorization required by type of transaction (e.g., full hedging, partial hedging, speculation), stating whether the transactions were previously approved by the committee(s) responsible for the development of corporate and auditing practices; the internal control procedures applicable to the management of the market and liquidity risks associated with the positions; and the existence of an independent third party responsible for the review of such procedures and, as the case may be, the observations raised or deficiencies identified by such third party. If applicable, provide information concerning the composition of the overall risk management committee, its operating rules, and the existence of an overall risk management manual.

Management's discussion of the policies concerning the use of financial derivative instruments, and explanation as to whether such policies permit the use of said instruments solely for hedging or also for trading or other purposes.

In accordance with the policies and procedures implemented by the Vice President of Finance and Risk and the Vice President and Corporate Controller, along with the Vice President of Internal Audit, the Company has entered into certain financial derivative transactions for hedging purposes in both the Mexican and international markets so as to manage its exposure to the market risks associated with the changes in interest and foreign exchange rates and inflation. In addition, the Company's Investments Committee has established guidelines for the investment in structured notes or deposits associated with other derivatives, which by their nature may be considered as derivative transactions for trading purposes. It should be noted that in the fourth quarter of 2015, no such financial derivatives were outstanding. Pursuant to the provisions of International Financial Reporting Standards Board, certain financial derivative transactions originally intended to serve as a hedge and in effect until December 31st, 2015, are not within the scope of hedge accounting as specified in such Standards and, consequently, are recognized in the accounting based on the provisions included in the aforementioned Standards.

General description of the objectives sought in the execution of financial derivative transactions; the relevant instruments; the hedging or trading strategies implemented in connection therewith; the relevant trading markets; the eligible counterparties; the policies for the appointment of calculation or valuation agents; the principal terms and conditions of the relevant contracts; the policies as to margins, collateral and lines of credit; the authorization process and levels of authorization required by type of transaction (e.g., full hedging, partial hedging, speculation), stating whether the transactions were previously approved by the committee(s) responsible for the development of corporate and auditing practices; the internal control procedures applicable to the management of the market and liquidity risks associated with the positions; and the existence of an independent third party responsible for the review of such procedures and, as the case may be, the observations raised or deficiencies identified by such third party.

The Company's principal objective when entering into financial derivative transactions is to mitigate the effects of unforeseen changes in interest and foreign exchange rates and inflation, so as to reduce the volatility in its results and cash flows as a result of such changes.

The Company monitors its exposure to the interest rate risk by: (i) assessing the difference between the interest rates applicable to its debt and temporary investments, and the prevailing market rates for similar instruments; (ii) reviewing its cash flow requirements and financial ratios (interest coverage); (iii) assessing the actual and budgeted-for trends in the principal markets; and (iv) assessing the prevailing industry practices and other similar companies. This approach enables the Company to determine the optimum mix between fixed- and variable-rate interest for its debt.

Foreign exchange risk is monitored by assessing the Company's monetary position in U.S. dollars and its budgeted cash flow requirements for investments anticipated to be denominated in U.S. dollars and the service of its U.S.

dollar-denominated debt.

Financial derivative transactions are reported from time to time to the Audit and Corporate Practices Committee. The Company has entered into master derivatives agreements with both domestic and foreign financial institutions, that are internationally recognized institutions with which the Company, from time to time, has entered into financial transactions involving corporate and investment banking, as well as treasury services. The form agreement used in connection with financial derivatives transactions with foreign financial institutions is the Master Agreement published by the International Swaps and Derivatives Association, Inc. ("ISDA") and with local institutions is the Master Agreement published by ISDA and in some instances, using the form agreement ISDAmex. In both cases, the main terms and conditions are standard for these types of transactions and include mechanisms for the appointment of calculation or valuation agents.

In addition, the Company enters into standard guaranty agreements that set forth the margins, collateral and lines of credit applicable in each instance. These agreements establish the credit limits granted by the financial institutions with whom the Company enters into master financial derivative agreements, which specify the margin implications in the case of potential negative changes in the market value of its open financial derivative positions. Pursuant to the agreements entered into by the Company, financial institutions are entitled to make margin calls if certain thresholds are exceeded. In the event of a change in the credit rating issued to the Company by a recognized credit rating agency, the credit limit granted by each counterparty would be modified.

As of the date hereof, the Company has never experienced a margin call with respect to its financial derivative transactions.

In compliance with its risk management objectives and hedging strategies, the Company generally utilizes the following financial derivative transactions:

1. Cross-currency interest rate swaps (i.e., coupon swaps);
2. Interest rate and inflation-indexed swaps;
3. Cross-currency principal and interest rate swaps;
4. Swaptions;
5. Forward exchange rate contracts;
6. FX options;
7. Interest Rate Caps and Floors contracts;
8. Fixed-price contracts for the acquisition of government securities (i.e., Treasury locks); and
9. Credit Default Swaps.

The strategies for the acquisition of financial derivatives transactions are approved by the Risk Management Committee in accordance with the Policies and Objectives for the Use of Financial Derivatives.

During the quarter from October to December 2015, there were no defaults or margin calls under the aforementioned financial derivative transactions.

The Company monitors on a weekly basis the flows generated by the fair market value of and the potential for margin calls under its open financial derivative transactions. The calculation or valuation agent designated in the relevant Master Agreement, which is always the counterparty, issues monthly reports as to the fair market value of the Company's open positions.

The Risk Management area is responsible for measuring, at least once a month, the Company's exposure to the financial market risks associated with its financings and investments, and for submitting a report with respect to the Company's risk position and the valuation of its financial derivatives to the Finance Committee on a monthly basis, and to the Risk Management Committee on a quarterly basis. The Company monitors the credit rating assigned to its counterparties in its outstanding financial derivative transactions on a regular basis.

The office of the Comptroller is responsible for the validation of the Company's accounting records as related to its financial derivative transactions, based upon the confirmations received from the relevant financial intermediaries, and for obtaining from such intermediaries, on a monthly basis, confirmations or account statements supporting the market valuation of its open financial derivative positions.

As a part of the yearly audit on the Company, the aforementioned procedures are reviewed by the Company's external auditors. As of the date hereof, the Company's auditors have not raised any observation or identified any deficiency therein.

Information concerning the composition of the overall risk management committee, its operating rules, and the existence of an overall risk management manual.

The Company has a Risk Management Committee, which is responsible for monitoring the Company's risk management activities and approving the hedging strategies used to mitigate the financial market risks to which the Company is exposed. The assessment and hedging of the financial market risks are subject to the policies and procedures applicable to the Company's Risk Management Committee, the Finance and Risk Management areas and the Comptroller that form the Risk Management Manual of the Company. In general terms, the Risk Management Committee is comprised of members of the Corporate Management, Corporate Comptroller, Tax Control and Advice, Information to the Stock Exchange, Finance and Risk, Legal, Administration and Finance, Financial Planning and Corporate Finance areas.

ii. General description of the valuation methods, indicating whether the instruments are valued at cost or at their fair value pursuant to the applicable accounting principles, the relevant reference valuation methods and techniques, and the events taken into consideration. Describe the policies for and frequency of the valuation, as well as the actions taken in light of the values obtained therefrom. Clarify whether the valuation is performed by an independent third party, and indicate if such third party is the structurer, seller or counterparty of the financial instrument. As with respect to financial derivative transactions for hedging purposes, explain the method used to determine the effectiveness thereof and indicate the level of coverage provided thereby.

The Company values its financial derivative instruments based upon the standard models and calculators provided by recognized market makers. In addition, the Company uses the relevant market variables available from online sources. The financial derivative instruments are valued at a reasonable value pursuant to the applicable accounting provisions. In the majority of cases, the valuation at a reasonable value is carried out on a monthly basis based on valuations of the counterparties and the verification of such reasonable value with internal valuations prepared by the Risk Management area of the Company. Accounting wise, the valuation of the counterparty is registered.

The Company performs its valuations without the participation of any independent third party.

The method used by the Company to determine the effectiveness of an instrument depends on the hedging strategy and on whether the relevant transaction is intended as a fair-value hedge or a cash-flow hedge. The Company's methods take into consideration the prospective cash flows generated by or the changes in the fair value of the financial derivative, and the cash flows generated by or the changes in the fair value of the underlying position that it seeks to hedge to determine, in each case, the hedging ratio.

iii. Management's discussion of the internal and external sources of liquidity that could be used to satisfy the Company's requirements in connection with its financial derivatives.

As of the date hereof, the Company's management has not discussed internal and external sources of liquidity so as to satisfy its requirements in connection with its financial derivatives since, based upon the aggregate amount of the Company's financial derivative transactions, management is of the opinion that the Company's significant positions of cash, cash equivalents and temporary investments, and the substantial cash flows generated by the Company, would enable the Company to respond adequately to any such requirements.

iv. Explanation as to any change in the issuer's exposure to the principal risks identified thereby and in their management, and any contingency or event known to or anticipated by the issuer's management, which could affect any future report. Description of any circumstance or event, such as any change in the value of the underlying assets or reference variables, resulting in a financial derivative being used other than as originally intended, or substantially altering its structure, or resulting in the partial or total loss of the hedge, thereby forcing the Issuer to assume new obligations, commitments or changes in its cash flows in a manner that affects its liquidity (e.g., margin calls). Description of the impact of such financial derivative transactions on the issuer's results or cash flows. Description and number of financial derivatives maturing during the quarter, any closed positions and, if applicable, number and amount of margin calls experienced during the quarter. Disclosure as to any default under the relevant contracts.

Changes in the Company's exposure to the principal risks identified thereby and in their management, and contingencies or events known to or anticipated by the Company's management, which could affect any future report.

Since a significant portion of the Company's debt and costs are denominated in U.S. dollars, while its revenues are primarily denominated in Mexican pesos, depreciation in the value of the Mexican peso against the U.S. dollar and any future depreciation could have a negative effect on the Company's results due to exchange rate losses. However, the significant amount of U.S. dollars in the Company's treasury, and the hedging strategies adopted by the Company in recent years, have enabled it to avoid significant foreign exchange losses.

Circumstances or events, such as changes in the value of the underlying assets or reference variables, resulting in a financial derivative being used other than as originally intended, or substantially altering its structure, or resulting in the partial or total loss of the hedge, thereby forcing the Company to assume new obligations, commitments or changes in its cash flows in a manner that affects its liquidity (e.g., margin calls). Description of the impact of such financial derivative transactions on the Company's results or cash flows.

As of the date hereof, no circumstance or event has given rise to a significant change in the structure of a financial derivative transaction, caused it to be used other than as originally intended, or resulted in a partial or total loss of the relevant hedge requiring that the Company assume new obligations, commitments or variations in its cash flow such that its liquidity is affected.

Description and number of financial derivatives maturing during the quarter, any closed positions and, if applicable, number and amount of margin calls experienced during the quarter. Disclosure as to any default under the relevant contracts.

During the relevant quarter, one "Knock-out Option Call" agreement through which Televisa hedged against severe Mexican Peso depreciation for a notional amount of U.S.\$15,000,000.00 (Fifteen Million U.S. Dollars 00/100) by paying a premium, expired. This option was entered in December 2012 and expired in November 2015, without being exercised by Televisa.

Likewise there were no defaults or margin calls under financial derivative transactions.

v. Quantitative Information. Attached hereto as Table 1 is a summary of the financial derivative instruments purchased by Televisa and Televisión Internacional, S.A. de C.V., whose aggregate fair value represents or could represent one of the reference percentages set forth in Section III (v) of the Official Communication.

IV. SENSITIVITY ANALYSIS

Considering that the Company has entered into financial derivative transactions for hedging purposes, and given the low amount of the financial derivative instruments that proved ineffective as a hedge, the Company has determined that such transactions are not material and, accordingly, the sensitivity analysis referred to in Section IV of the Official Communication is not applicable.

In those cases where the derivative instruments of the Company are for hedging purposes, for a material amount and where the effectiveness measures were sufficient, the measures are justified when the standard deviation of the changes in cash flow as a result of changes in the variables of exchange rate and interest rates of the derivative instruments used jointly with the underlying position is lower than the standard deviation of the changes in cash flow of the underlying position valued in pesos and the effective measures are defined by the correlation coefficient between both positions for the effective measures to be sufficient.
