THE VALSPAR CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
 JANUARY 24, 2014
 DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

NOTE 1 BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of The Valspar Corporation have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the quarter ended January 24, 2014 are not necessarily indicative of the results that may be expected for the year ending October 31, 2014.

Certain amounts in the 2013 financial statements have been reclassified to conform to the 2014 presentation. Such reclassifications had no effect on net income (loss), cash flows or stockholders' equity as previously reported.

The Condensed Consolidated Balance Sheet at October 25, 2013 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in our annual report on Form 10-K for the year ended October 25, 2013.

NOTE 2 ACQUISITIONS

On August 1, 2013, we purchased all the outstanding shares of Inver Holding S.r.l. (Inver Group), for total consideration of approximately \$210,000, including the assumption of Inver Group's existing debt. Inver Group is an Italian-based industrial coatings company serving customers in Italy, France, the UK, Germany and other countries. The acquisition strengthens our presence in the large European industrial coatings market and broadens our range of technologies for the general industrial product line. Inver Group had net sales of approximately \$200,000 in 2012. The acquisition was recorded in our Coatings segment in the fourth quarter of fiscal year 2013 at fair value and an allocation of the purchase price has been completed, with the exception of certain tax items. The assets, liabilities and operating results have been included in our financial statements from the date of acquisition.

On December 28, 2012, we purchased Ace Hardware Corporation's paint manufacturing business, including two manufacturing facilities near Chicago, IL for approximately \$35,000. We manufacture and supply paint to Ace Hardware Corporation for sale at Ace retail locations. The acquisition was recorded in our Paints segment at fair value and an allocation of the purchase price has been completed. The assets, liabilities and operating results have been included in our financial statements from the date of acquisition.

Pro forma results of operations for the acquisitions noted above are not presented, as they were immaterial to the reported results.

NOTE 3 INVENTORIES

The major classes of inventories consist of the following:

	January 24, 2014	October 25, 2013	January 25, 2013
Manufactured products	\$ 321,615	\$ 267,680	\$ 250,932
Raw materials, supplies and work-in-progress	182,536	171,302	174,658
Total Inventories	\$ 504,151	\$ 438,982	\$ 425,590

NOTE 4 GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amount of goodwill as of January 24, 2014 was \$1,147,356, an increase of \$2,686 from the end of fiscal year 2013. The increase was primarily due to foreign currency translation.

Total intangible asset amortization expense for the three months ended January 24, 2014 was \$2,044, compared to \$1,636 for the same period last year. Estimated annual amortization expense for each of the five succeeding fiscal years based on the intangible assets as of January 24, 2014 is expected to be approximately \$9,000.

NOTE 5 GUARANTEES AND CONTRACTUAL OBLIGATIONS

Furniture Protection Plans and Warranties: In the U.S., we sell extended furniture protection plans and offer warranties for certain products. Revenue related to furniture protection plans is deferred and recognized over the contract life. Historical claims data is used to forecast claims payments over the contract period and revenue is recognized based on the forecasted claims payments. Actual claims costs are reflected in earnings in the period incurred. Anticipated losses are charged to earnings when identified. For product warranties, we estimate the costs that may be incurred under these warranties based on historical claims data and record a liability in the amount of such costs at the time revenue is recognized. Anticipated losses are charged to earnings when identified.

We periodically assess the adequacy of these recorded amounts and adjust as necessary. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses can be estimated. The extended furniture protection plans that we enter into have fixed prices. To the extent the actual costs to complete contracts differ from the amounts estimated as of the date of the financial statements, gross margin would be affected in future periods when we revise our estimates.

Changes in the recorded amounts included in other liabilities, both short-term and long-term, during the period are as follows:

	Three Months Ended	
	January 24, 2014	January 25, 2013
Beginning balance, October	\$ 78,818	\$ 80,272
Additional net deferred revenue/warranty accrual made during the period	3,542	4,107
Warranty payments made during the period	(1,318)	(2,353)
Ending Balance	\$ 81,042	\$ 82,026

Contractual Purchase Commitments: We are obligated to make payments under contractual purchase commitments, including unconditional purchase obligations. The majority of our unconditional purchase obligations relate to the supply of raw materials with a five-year term. The contracts require the purchase of minimum quantities of raw materials, at current market prices. We have estimated our payment obligations under existing contracts using current market prices. Payments for contracts with remaining terms in excess of one year are summarized below:

	January 24, 2014
Remainder of 2014	\$
2015	66,468
2016	76,592
2017	
2018	
Thereafter	
Total	\$ 143,060

Total payments relating to unconditional purchase obligations were approximately \$15,014 in the three months ended January 24, 2014, compared to \$13,017 in the three months ended January 25, 2013.

NOTE 6 FAIR VALUE MEASUREMENT

We measure certain assets and liabilities at fair value or disclose the fair value of certain assets and liabilities recorded at cost in the Condensed Consolidated Financial Statements on both a recurring and non-recurring basis. Fair value is defined as an exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value accounting rules establish a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs must be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability based on market data obtained from independent sources. Unobservable inputs are inputs that reflect our assumptions about the factors market participants would use in valuing the asset or liability based upon the best information available. Assets and liabilities measured at fair value are to be categorized into one of the three hierarchy levels based on the inputs used in the valuation. We classify assets and liabilities in their entirety based on the lowest level of input significant to the fair value measurement. Transfers of instruments between levels are recorded based on end of period values. There were no transfers between levels for all periods presented. The three levels are defined as follows:

Level 1: Observable inputs based on quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Observable inputs based on quoted prices for similar assets and liabilities in active markets, or quoted prices for identical assets and liabilities in inactive markets.

Level 3: Unobservable inputs that reflect an entity's own assumptions about what inputs a market participant would use in pricing the asset or liability based on the best information available in the circumstances.

Recurring Fair Value Measurements

The following tables provide information by level for assets and liabilities that are recorded at fair value on a recurring basis:

Total Debt	\$ 1,424,643	\$ 1,155,541	\$ 269,102	\$

³ Debt is recorded at carrying value of \$1,552,516, \$1,478,557 and \$1,269,583 on the Condensed Consolidated Balance Sheet as of January 24, 2014, October 25, 2013 and January 25, 2013, respectively. The fair value of our publicly traded debt is based on quoted prices (unadjusted) in active markets. The fair market value of our non-publicly traded debt was estimated using a discounted cash flow analysis based on our current borrowing costs for debt with similar maturities. In addition, the carrying values of our commercial paper included in non-publicly traded debt approximate the financial instrument's fair value as the maturities are less than three months. See Note 8 for additional information on debt.

Nonrecurring Fair Value Measurements

We measure certain assets at fair value on a nonrecurring basis. These assets primarily include assets acquired and liabilities assumed as part of an acquisition. See Note 2 for further information on our acquisitions.

NOTE 7 DERIVATIVE FINANCIAL INSTRUMENTS

We use derivative financial instruments to manage interest rate and foreign currency exchange risks. We enter into derivative financial instruments with high-credit quality counterparties and diversify our positions among such counterparties to reduce our exposure to credit losses. We do not have any credit-risk-related contingent features in our derivative contracts as of January 24, 2014.

At January 24, 2014, we had \$21,133 notional amount of foreign currency contracts that mature during fiscal year 2014. These foreign currency contracts have been designated as cash flow hedges with unrealized gains or losses recorded in accumulated other comprehensive income (loss).

Edgar Filing: VALSPAR CORP - Form 10-Q

Gains and losses are reclassified from accumulated other comprehensive income (loss) to other expense (income) in the Statement of Operations when the underlying hedged item is realized. At January 25, 2013, we had \$6,412 notional amount of foreign currency contracts maturing in fiscal year 2013. There was no material ineffectiveness related to these hedges during the quarters ended January 24, 2014 or January 25, 2013.

At January 24, 2014 and January 25, 2013, we had no treasury lock contracts in place. The accumulated other comprehensive loss amount in our Condensed Consolidated Balance Sheets as of January 24, 2014 and January 25, 2013 represents the unamortized gains and losses, net of tax, from treasury lock contracts settled in the first quarter of 2012. Unamortized gains and loss are reclassified ratably to interest expense in our Condensed Consolidated Statements of Operations over the term of the related debt.

NOTE 8 DEBT

Our debt consists of the following:

	January 24, 2014	October 25, 2013	January 25, 2013
Short-term debt	\$ 540,162	\$ 441,165	\$ 217,283

Edgar Filing: VALSPAR CORP - Form 10-Q

Total Debt \$ 1,552,516 \$ 1,478,557 \$ 1,269,583

The increase in short-term debt from October 25, 2013 was primarily due to commercial paper borrowings to fund share repurchases and normal seasonal cash flow requirements.

Our credit facilities have covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of January 24, 2014. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

We maintain an unsecured revolving credit facility with a syndicate of banks. On December 16, 2013, we entered into an amended and restated \$750,000 credit facility with a syndicate of banks with a maturity date of December 14, 2018 to replace the previous \$550,000 credit facility that was scheduled to expire December 31, 2014.

To ensure availability of funds, we maintain uncommitted bank lines of credit sufficient to cover outstanding short-term borrowings. These arrangements are reviewed periodically for renewal and modification.

NOTE 9 STOCK-BASED COMPENSATION

Compensation expense associated with our stock-based compensation plans was \$4,708 (\$2,904 after tax) for the three months ended January 24, 2014, compared to \$7,954 (\$5,095 after tax) for the three months ended January 25, 2013.

NOTE 10 PENSIONS AND OTHER POSTRETIREMENT BENEFITS

We sponsor a number of defined benefit pension plans for certain hourly and salaried employees. The benefits for most of these plans are generally based on stated amounts for each year of service. We fund the plans in amounts consistent with the limits of allowable tax deductions.

The net periodic benefit cost of the pension benefits was as follows:

	Three Months Ended	
	January 24, 2014	January 25, 2013
Service cost	\$ 1,090	\$ 1,405

NOTE 11 INCOME TAXES

At October 25, 2013, we had a \$15,363 liability recorded for gross unrecognized tax benefits (excluding interest and penalties). Of this total, \$14,485 represents the amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate. During the first quarter of fiscal year 2014, we recorded a \$1,200 income tax benefit related to a lapse in the statute of limitations for certain foreign unrecognized tax benefits. There were no material adjustments to our recorded liability for unrecognized tax benefits during the first quarter of fiscal year 2013. We recognize interest and penalties related to unrecognized tax benefits in income tax expense. As of October 25, 2013, we had accrued approximately \$4,461 of interest and penalties relating to unrecognized tax benefits.

During the first quarter of fiscal year 2014, we recorded tax expense of \$300 relating to foreign tax law changes. During the first quarter of fiscal year 2013, we recorded a \$1,750 income tax benefit related to the retroactive extension of the U.S. Research and Development Credit and a \$1,260 benefit for changes in the prior-year tax accrual estimates.

The company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and numerous state and foreign jurisdictions. With few exceptions, we are no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2008. We are currently under audit in several state and foreign jurisdictions. We also expect various statutes of limitation to expire during the next 12 months. While we do not expect any material adjustments in the next 12 months due to the pending audit activity or expiring statutes, we are unable to estimate a range of outcomes at this time.

NOTE 12 NET INCOME (LOSS) PER COMMON SHARE

The following table presents the net income (loss) per common share calculations for the three months ended January 24, 2014 and January 25, 2013:

	Three Months Ended	
	January 24, 2014	January 25, 2013
Basic		
Net income (loss)	\$ 53,553	\$ 55,029
Weighted-average common shares outstanding basic	85,147,728	89,477,591
Net Income (Loss) per Common Share Basic	\$ 0.63	\$ 0.62
Diluted		
Net income (loss)	\$ 53,553	\$ 55,029
Weighted-average common shares outstanding basic	85,147,728	89,477,591
Dilutive effect of stock options and unvested restricted stock	2,493,576	2,919,837
Equivalent average common shares outstanding diluted	87,641,304	92,397,428
Net Income (Loss) per Common Share Diluted	\$ 0.61	\$ 0.60

Basic earnings per share are based on the weighted-average number of common shares outstanding during each period. In computing diluted earnings per share, the number of common shares outstanding is increased by common stock options with exercise prices lower than the average market prices of common shares during each period and reduced by the number of shares assumed to have been purchased with proceeds from the exercised options. If we are in a net loss position, these shares are excluded as they are antidilutive. Potential common shares of 282,551 and 213,210 related to our outstanding stock options were excluded from the computation of diluted earnings per share for the three months ended January 24, 2014 and January 25, 2013, respectively, as inclusion of these shares would have been antidilutive.

Balance, January 25, 2013	\$ 164,475	\$ (99,407)	\$ (9,755)	\$ 55,313

¹ We deem our foreign investments to be permanent in nature and therefore do not provide for taxes on foreign currency translation adjustments.

² Taxes on benefit obligations are recorded in the fourth quarter of each fiscal year.

³ Amounts reclassified from accumulated other comprehensive income for financial instruments were net of taxes of \$123 for financial instruments for the first quarter of 2014.

Amounts related to financial instruments are reclassified to net income based on the nature of the adjustment. See Note 7 for further information on financial instrument reclassifications.

Amounts related to pension and post-retirement medical adjustments are reclassified to pension cost, which is allocated to cost of sales and operating expenses based on salaries and wages, approximately as follows (in thousands):

	Three Months Ended January 24, 2014
Cost of sales	\$ 673
Research and Development	222
Selling, General and Administrative	828
Total Before Income Taxes	\$ 1,723

NOTE 14 SEGMENT INFORMATION

Based on the nature of our products, technology, manufacturing processes, customers and regulatory environment, we aggregate our operating segments into two reportable segments: Coatings and Paints. We are required to report segment information in the same way that management internally organizes its business for assessing performance and making decisions regarding allocation of resources. We evaluate the performance of operating segments and allocate resources based on profit or loss from operations before interest expense and taxes (EBIT).

The Coatings segment aggregates our industrial product lines and our packaging product line. Industrial products include a broad range of decorative and protective coatings for metal, wood and plastic. Packaging products include both interior and exterior coatings used in metal packaging containers, principally food containers and beverage cans. The products of this segment are sold throughout the world.

Edgar Filing: VALSPAR CORP - Form 10-Q

The Paints segment aggregates our consumer paints and automotive refinish product lines. Consumer paint products include interior and exterior decorative paints, stains, primers, varnishes, high performance floor paints and specialty decorative products, such as enamels, aerosols and faux finishes primarily distributed for the do-it-yourself and professional markets in Australia, China and North America. Automotive paint products include refinish paints and aerosol spray paints sold through automotive refinish distributors, body shops and automotive supply distributors and retailers in many countries around the world.

Our remaining activities are included in Other and Administrative (formerly All Other). These activities include specialty polymers and colorants that are used internally and sold to other coatings manufacturers, as well as related products and furniture protection plans. Also included within Other and Administrative are our corporate administrative expenses. The administrative expenses include expenses not directly allocated to any other reportable segment.

In the following table, sales between segments are recorded at selling prices that are below market prices, generally intended to recover internal costs. Segment EBIT includes income realized on inter-segment sales. Comparative segment data for the first quarter of 2014 and 2013 was as follows:

	Three Months Ended	
	January 24, 2014	January 25, 2013

It is not practicable to obtain the information needed to disclose revenues attributable to each of our identified product lines within our reportable segments.

NOTE 15 RESTRUCTURING

Restructuring charges in the first quarter of fiscal year 2014 related primarily to initiatives that began in fiscal year 2013, including the following: (i) actions in the Paints segment to consolidate manufacturing and distribution operations following the acquisition of Ace Hardware Corporation's paint manufacturing business, and ongoing profit improvement plans in Australia, (ii) actions in our Coatings segment to consolidate manufacturing operations in Europe following the acquisition of the Inver Group, and other actions to rationalize manufacturing operations and lower operating expenses, and (iii) overall initiatives to improve our global cost structure, including non-manufacturing headcount reductions. These restructuring activities resulted in pre-tax charges of \$11,806 in the first quarter of fiscal year 2014. These restructuring activities resulted in pre-tax charges of \$36,433 for the full fiscal year 2013. There were no restructuring charges in the first quarter of fiscal 2013. Included in restructuring charges in the first quarter of fiscal year 2014 is \$5,265 in non-cash pre-tax asset impairment charges. The restructuring reserve balances presented are considered adequate to cover committed restructuring actions. The restructuring expenses recorded are included in the Condensed Consolidated Statements of Operations. For the three months ended January 24, 2014, \$6,106 was charged to cost of sales and \$5,700 was charged to selling, general and administrative (SG&A) expenses. For the three months ended January 25, 2013 there were no restructuring charges recorded.

NOTE 16 RECENTLY ISSUED ACCOUNTING STANDARDS

Edgar Filing: VALSPAR CORP - Form 10-Q

In July 2013, the Financial Accounting Standards Board (FASB) issued guidance on classification of an unrecognized tax benefit. An unrecognized tax benefit should be presented as a reduction of a deferred tax asset for a net operating loss carry-forward or other tax credit carry-forward when settlement in this manner is available under the tax law. The change is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013, which means the first quarter of our fiscal year 2015, and is to be applied prospectively. We do not expect the adoption of this accounting guidance to have an effect on our consolidated financial statements.

In March 2013, the FASB issued guidance on a parent's accounting for the cumulative translation adjustment (CTA) under certain circumstances. The new guidance requires a transfer from CTA into net income when a parent either sells a part or all of its investment in a foreign entity, or no longer holds a controlling financial interest in a subsidiary or group of assets that is a business. This update aims to resolve diversity in practice in accounting for the CTA transfer into net income. The change is effective for fiscal years, and interim reporting periods within those years, beginning after December 15, 2013, which means the first quarter of our fiscal year 2015, and is to be applied prospectively. We do not expect the adoption of these updated disclosure requirements to have an effect on our consolidated results of operations, financial condition or liquidity.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS**

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide a reader of our financial statements with a narrative from the perspective of management on our financial condition, results of operations, liquidity and certain other factors that may affect our future results. Unless otherwise noted, transactions, trends and other factors significantly impacting our financial condition, results of operations and liquidity are discussed in order of magnitude. In addition, unless expressly stated otherwise, the comparisons presented in this MD&A refer to the same period in the prior year. Our MD&A is presented in seven sections:

- Overview
- Results of Operations
- Financial Condition
- Non-GAAP Financial Measures
- Critical Accounting Estimates
- Off-Balance Sheet Arrangements
- Forward Looking Statements

Our MD&A should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended October 25, 2013, as well as our reports on Forms 10-Q and 8-K and other publicly available information. All amounts herein are unaudited.

OVERVIEW

The Valspar Corporation is a global leader in the paint and coatings industry. Our strong consumer brands and leading technologies, together with our technical expertise and customer service, differentiate us from our competition and allow us to grow and create value with customers in a wide variety of geographic and end-use markets. We operate our business in two reportable segments: Coatings and Paints. Our Coatings segment aggregates our industrial product lines and our packaging product line. Our Paints segment aggregates our consumer paints and automotive refinish product lines. See Note 14 in Notes to Condensed Consolidated Financial Statements for further information on our reportable segments.

We operate in over 25 countries, and approximately 52% of our total net sales for the first three months of 2014 were generated outside of the U.S. In the discussions of our operating results, we sometimes refer to the impact of changes in foreign currency exchange rates or the impact of foreign currency exchange rate fluctuations, which are references to the differences between the foreign currency exchange rates we use to convert international operating results from local currencies into U.S. dollars for reporting purposes. The impact of foreign currency exchange rate fluctuations is calculated as the difference between current period activity translated using the current period's currency exchange rates and the comparable prior-year period's currency exchange rates. We use this method to calculate the impact of changes in foreign currency exchange rates for all countries where the functional currency is not the U.S. dollar.

Our fundamental business objective is to create long-term value for our shareholders. We intend to accomplish this by:

- focusing on our customers and delivering coatings products and solutions based on a deep understanding of their needs;
- investing in our brands and developing innovative, proprietary technologies;
- expanding our global presence;
- enhancing the productivity of our business by maximizing efficiencies in procurement, manufacturing and process adherence;
- maintaining operational discipline and prudent cost control;
- generating strong cash flow; and
- allocating our capital to maintain and grow the business, fund internal growth initiatives and strategic acquisitions and increase shareholder value.

In addition to creating value for our shareholders, we are committed to:

Edgar Filing: VALSPAR CORP - Form 10-Q

adhering to our values, ethical business conduct and doing business with integrity;

improving the safety and reducing the environmental footprint of our business and the products we manufacture while also delivering coatings solutions that enable our customers to meet their environmental and safety objectives; and

demonstrating our corporate citizenship by supporting the communities in which we work and live through volunteer efforts and philanthropy.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

The following discussion of financial condition and results of operations should be read in the context of this overview.

RESULTS OF OPERATIONS*Overview*

Net sales grew 9.2% for the first quarter of 2014, primarily due to the effect of our 2013 acquisitions of Inver Holdings S.r.l. (Inver Group) and the paint manufacturing business of Ace Hardware (Ace paints), and new business wins in both our Coatings and Paints segments. Net income as a percent of sales declined to 5.6% from 6.3% in the prior year, primarily due to restructuring charges and a higher effective income tax rate.

Restructuring

Restructuring charges in the first quarter of fiscal year 2014 related primarily to initiatives that began in fiscal year 2013, including the following: (i) actions in the Paints segment to consolidate manufacturing and distribution operations following the acquisition of Ace Hardware Corporation's paint manufacturing business, and ongoing profit improvement plans in Australia, (ii) actions in our Coatings segment to consolidate manufacturing operations in Europe following the acquisition of the Inver Group, and other actions to rationalize manufacturing operations and lower operating expenses, and (iii) overall initiatives to improve our global cost structure, including non-manufacturing headcount reductions. We expect the majority of the restructuring activities commenced in fiscal year 2013 and fiscal year 2014 to be completed by the end of fiscal year 2014. These restructuring activities resulted in pre-tax charges of \$11,806 or \$0.09 per share in the first quarter of fiscal year 2014, and we expect the total pre-tax cost of all restructuring activities to be approximately \$32,000 to \$38,000 or \$0.27 to \$0.32 per share in fiscal 2014. These restructuring activities resulted in pre-tax charges of \$36,433 or \$0.32 per share for the full fiscal year 2013. There were no restructuring charges in the first quarter of fiscal 2013. Included in restructuring charges in the first quarter of fiscal year 2014 is \$5,265 in non-cash pre-tax asset impairment charges. See Note 2 in Notes to Condensed Consolidated Financial Statements for further information on our Inver Group acquisition and Note 15 in Notes to Condensed Consolidated Financial Statements for further information on restructuring. See reconciliation in Management's Discussion and Analysis of Financial Condition and Results of Operations Non-GAAP Financial Measures for more information on the per share impact of restructuring charges.

Financial Results

The following tables present selected financial data for the three months ended January 24, 2014 and January 25, 2013.

Net Sales

	Three Months Ended			% Change
	January 24, 2014	January 25, 2013		
Coatings	\$ 548,585	\$ 497,616		10.2%
Paints	361,405	329,079		9.8%
Other and Administrative	46,129	48,547		(5.0)%
Consolidated Net Sales	\$ 956,119	\$ 875,242		9.2%

Consolidated Net Sales Consolidated net sales for the first quarter of 2014 increased 9.2%, including a positive impact of 7.2% from the Inver Group and Ace paints acquisitions and a negative impact of 1.2% from foreign currency. Excluding acquisitions and foreign currency exchange, the increase in sales was primarily due to new business in both our Coatings and Paints segments.

Coatings Segment Net Sales Our Coatings segment net sales for the first quarter of 2014 increased 10.2%, including a positive impact of 10.9% from our Inver Group acquisition and a negative impact of 0.9% from foreign currency. Excluding acquisitions and foreign currency exchange, the increase in sales was primarily due to growth in our wood product line due to new business wins and continuing improvement in the North American housing market, partially offset by declines in our general industrial and coil product lines, which were affected by soft end markets in North America.

Paints Segment Net Sales Our Paints segment net sales for the first quarter of 2014 increased 9.8%, including a positive impact of 2.5% from our Ace paints acquisition and a negative impact of 2.0% from foreign currency. Excluding acquisitions and foreign

Edgar Filing: VALSPAR CORP - Form 10-Q

currency exchange, the increase in sales was driven by new business in all regions, growth in our North America consumer product line due to an improved housing market and higher sales in China.

Other and Administrative Net Sales The Other and Administrative category includes the following product lines: resins, furniture protection plans and colorants. Other and Administrative net sales for the first quarter of 2014 decreased 5.0%, due to lower sales of resins and furniture protection plans, including a positive impact of 0.1% from foreign currency.

Due to the seasonal nature of portions of our business, sales for the first quarter are not necessarily indicative of sales for subsequent quarters or for the full year.

Consolidated Gross Profit	\$ 319,053	\$ 294,351
As a percent of Net Sales	33.4%	33.6%

Gross Profit The gross profit rate decreased slightly due to our 2013 investments in strategic acquisitions which had lower initial margins and restructuring charges incurred in 2014, partially offset by an improved sales mix and slightly lower raw material costs. Restructuring charges of \$6,106 or 0.6% of net sales were included in the first quarter of 2014. There were no restructuring charges included in gross profit in the first quarter of 2013.

<u>Operating Expenses</u>	Three Months Ended

¹ Includes research and development, selling, general and administrative and restructuring charges. For breakout, see Condensed Consolidated Statements of Operations.

Consolidated Operating Expenses (dollars) Consolidated operating expenses increased \$22,673 or 11.3%, primarily due to our 2013 Inver Group acquisition and investments to support growth initiatives, as well as restructuring charges in 2014, partially offset by continued productivity improvements. Restructuring charges of \$5,700 or 0.6% of net sales were included in the first quarter of 2014. There were no restructuring charges included in operating expenses in the first quarter of 2013.

<u>EBIT</u>	Three Months Ended	
	January 24, 2014	January 25, 2013
Coatings	\$ 69,975	\$ 74,340
As a percent of Net Sales	12.8%	14.9%
Paints	\$ 30,997	\$ 22,543

As a percent of Net Sales	(12.5)%	(8.9)%
Consolidated EBIT	\$ 95,189	\$ 92,581
As a percent of Net Sales	10.0%	10.6%

Consolidated EBIT EBIT for the first quarter of 2014 increased \$2,608 or 2.8% from the prior year. Restructuring charges of \$11,806 or 1.2% of net sales were included in the first quarter of 2014. There were no restructuring charges in the first quarter of 2013. Foreign currency exchange fluctuation had an immaterial effect on Consolidated EBIT, as well as EBIT of the segments discussed below.

Coatings Segment EBIT EBIT as a percent of net sales for the first quarter decreased primarily due to the effect of restructuring costs and our Inver Group acquisition. Restructuring charges of \$8,620 or 1.6% of net sales were included in the first quarter of 2014. There were no restructuring charges in the first quarter of 2013.

Paints Segment EBIT EBIT as a percent of net sales for the first quarter increased primarily due to sales growth in the global consumer product line and slightly improved raw material costs in certain geographic markets, partially offset by investments to support growth initiatives and restructuring costs. Restructuring charges of \$2,819 or 0.8% of net sales were included in the first quarter of 2014. There were no restructuring charges in the first quarter of 2013.

Other and Administrative Other and Administrative EBIT includes corporate expenses. EBIT as a percent of net sales for the first quarter was unfavorable compared to the first quarter of 2013 primarily due to decreased sales. EBIT included restructuring charges of \$367 or 0.8% of net sales in the first quarter of 2014. There were no restructuring charges in the first quarter of 2013.

Due to the seasonal nature of portions of our business, EBIT for the first quarter is not necessarily indicative of EBIT for subsequent quarters or for the full year.

FINANCIAL CONDITION

We had \$192,591 in cash and cash equivalents and \$334,098 in unused committed bank credit facilities, providing total committed liquidity of \$526,689 at the end of our 2014 first quarter, compared to \$643,667 at the end of fiscal year 2013. Our cash and cash equivalent balances consist of high quality, short-term money market instruments and cash held by our international subsidiaries that are used to fund those subsidiaries day-to-day operating needs. Those balances have also been used to finance acquisitions. Our investment policy on excess cash is to preserve principal. As of January 24, 2014, \$174,865 of the \$192,591 of cash (on the Condensed Consolidated Balance Sheets) was held by foreign subsidiaries.

Cash Flow Cash provided by operations was \$9,317 for the three months ended January 24, 2014, compared to cash provided by operations of \$1,864 for the same period last year.

During the first quarter of 2014, we used our borrowing capacity to fund \$69,178 in share repurchases, \$20,991 in capital expenditures and our seasonal working capital needs. We used cash on hand to fund \$22,226 in dividend payments.

Edgar Filing: VALSPAR CORP - Form 10-Q

Debt and Capital Resources Our debt classified as current was \$540,162 at January 24, 2014 compared to \$441,165 and \$257,020 at October 25, 2013 and January 25, 2013, respectively. The ratio of total debt to capital was 58.8% at January 24, 2014, compared to 56.8% at October 25, 2013 and 51.3% at January 25, 2013. On December 16, 2013, we entered into an amended and restated \$750,000 credit facility with a syndicate of banks with a maturity date of December 14, 2018 to replace the previous \$550,000 credit facility scheduled to expire December 31, 2014. Under certain circumstances we have the option to increase this credit facility to \$1,000,000.

To further ensure availability of funds, we maintain uncommitted bank lines of credit sufficient to cover outstanding short-term borrowings. These arrangements are reviewed periodically for renewal and modification. Our credit facilities have covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of January 24, 2014. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

We believe future cash flow from operations, existing lines of credit, access to credit facilities and access to debt and capital markets will be sufficient to meet our current liquidity needs. In the current market conditions, we have demonstrated continued access to capital markets. We have committed liquidity and cash reserves in excess of our anticipated funding requirements.

We use derivative instruments with a number of counterparties principally to manage foreign currency exchange risks. We evaluate the financial stability of each counterparty and spread the risk among several financial institutions to limit our exposure. We will continue to monitor counterparty risk on an ongoing basis. We do not have any credit-risk related contingent features in our derivative contracts as of January 24, 2014.

Share Repurchases Weighted average common shares outstanding diluted for the first quarter of 2014 were 87,641,304, down 4,756,124 from the same period in the prior year. During the quarter, we repurchased 974,700 shares for \$69,178. On December 5, 2012, the board approved a new share repurchase authorization of 15,000,000 shares, with no predetermined end date. As of January 24, 2014, 8,749,855 shares remained available for purchase under the authorization.

NON-GAAP FINANCIAL MEASURES

This section includes financial information prepared in accordance with accounting principles generally accepted in the United States (GAAP), as well as certain non-GAAP financial measures such as adjusted gross profit, adjusted operating expense, adjusted earnings before interest and taxes (EBIT), adjusted net income and adjusted net income per common share diluted. Generally, a non-GAAP financial measure is a numerical measure of financial performance that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP. The non-GAAP financial measures should be viewed as a supplement to, and not a substitute for, financial measures presented in accordance with GAAP. Non-GAAP measures as presented herein may not be comparable to similarly titled measures used by other companies.

We believe that the non-GAAP financial measures provide meaningful information to assist investors in understanding our financial results and assessing prospects for future performance without regard to restructuring and acquisition-related charges. We believe adjusted gross profit, adjusted operating expense, adjusted EBIT, adjusted net income and adjusted net income per common share diluted are important indicators of our operations because they exclude items that may not be indicative of or are unrelated to our core operating results and provide a baseline for analyzing trends in our underlying business. To measure adjusted gross profit, adjusted operating expense and adjusted EBIT, we remove the impact of before-tax restructuring and acquisition-related charges. Adjusted net income and adjusted net income per common share diluted are calculated by removing the after-tax impact of restructuring and acquisition-related charges from our calculated net income and net income per common share diluted. Since non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures. These non-GAAP financial measures are an additional way to view aspects of our operations that, when viewed with our GAAP results and the reconciliations to corresponding GAAP financial measures below, provide a more complete understanding of our business. We strongly encourage investors and shareholders to review our financial statements and publicly filed reports in their entirety and not to rely on any single financial measure.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

CRITICAL ACCOUNTING ESTIMATES

The discussion and analysis of our financial condition and results of operations are based upon our Condensed Consolidated Financial Statements, which have been prepared in accordance with generally accepted accounting principles in the United States (GAAP). The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosure of any contingent assets and liabilities at the date of the financial statements. We regularly review our estimates and assumptions, which are based on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

A comprehensive discussion of our critical accounting estimates is included in the Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended October 25, 2013. There were no material changes to our critical accounting estimates in the first quarter of fiscal year 2014.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

FORWARD LOOKING STATEMENTS

Certain statements contained in Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements.

Forward-looking statements are based on management's current expectations, estimates, assumptions and beliefs about future events, conditions and financial performance. Forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside our control and could cause actual results to differ materially from such statements. Any statement that is not historical in nature is a forward-looking statement. We may identify forward-looking statements with words and phrases such as expects, projects, estimates, anticipates, believes, could, may, will, plans to, intend, should and similar expressions.

These risks, uncertainties and other factors include, but are not limited to, deterioration in general economic conditions, both domestic and international, that may adversely affect our business; fluctuations in availability and prices of raw materials, including raw material shortages and other supply chain disruptions, and the inability to pass along or delays in passing along raw material cost increases to our customers; dependence of internal sales and earnings growth on business cycles affecting our customers and growth in the domestic and international coatings industry; market share loss to, and pricing or margin pressure from, larger competitors with greater financial resources; significant indebtedness that restricts the use of cash flow from operations for acquisitions and other investments; dependence on acquisitions for growth, and risks related to future acquisitions, including adverse changes in the results of acquired businesses, the assumption of unforeseen liabilities and disruptions resulting from the integration of acquisitions; risks and uncertainties associated with operations and achievement of profitable growth in developing markets, including Asia and Central and South America; loss of business with key customers; damage to our reputation and business resulting from product claims or recalls, litigation, customer perception and other matters; our ability to respond to technology changes and to protect our technology; possible interruption, failure or compromise of the information systems we use to operate our business; changes in governmental regulation, including more stringent environmental, health and safety regulations; our reliance on the efforts of vendors, government agencies, utilities and other third parties to achieve adequate compliance and avoid disruption of our business; unusual weather conditions adversely affecting sales; changes in accounting policies and standards and taxation requirements such as new tax laws or revised tax law interpretations; the nature, cost and outcome of pending and future litigation and other legal proceedings; and civil unrest and the outbreak of war and other significant national and international events.

We undertake no obligation to subsequently revise any forward-looking statement to reflect new information, events or circumstances after the date of such statement, except as required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our foreign sales and results of operations are subject to the impact of foreign currency fluctuations. As most of our underlying costs are denominated in the same currency as our sales, the effect has not been material. We have not hedged our exposure to translation gains and losses; however, we have reduced our exposure by borrowing funds in local currencies. A 10% adverse change in foreign currency rates is not expected to have a material effect on our results of operations or financial position.

We are also subject to interest rate risk. At January 24, 2014, approximately 35.6% of our total debt consisted of floating rate debt. From time to time, we may enter into interest rate derivatives to hedge a portion of either our variable or fixed rate debt. Assuming the current level of borrowings, a 10% increase in interest rates from those in effect at the end of the first quarter would not have a material impact on our results of operations or financial position.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of January 24, 2014. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during the quarter ended January 24, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

During the period covered by this report, there were no legal proceedings instituted that are reportable, and there were no material developments in any of the legal proceedings that were previously reported on our Form 10-K for the year ended October 25, 2013.
