Daleen Reports Second Quarter Operating Results  
-----

BOCA RATON, Fla. - August 2, 2004 - Daleen Technologies, Inc. (OTCBB: DALN.OB), a global provider of licensed and outsourced billing and customer management, operational support systems (OSS) and revenue assurance solutions for traditional and next generation service providers, today reported that its net loss for the second quarter of 2004 was \$3.5 million, or \$.07 per share, as compared to \$1.3 million\*, or \$.03 per share in the first quarter. Revenues were \$3.8 million for the second quarter of 2004, as compared to revenues of \$4.3 million for the first quarter. The decrease in revenues was primarily due to delays in anticipated contract signings and an overall lower level of new business than expected. Total expenses for the second quarter, excluding costs associated with the company's proposed investment and acquisition, were \$5.3 million, compared to \$5.4 million\* in the first quarter. For the three months ended March 31, 2004 and June 30, 2004, transaction costs were approximately \$185,000 and \$2.0 million, respectively. The company's restricted cash decreased by \$159,000 in the second quarter from \$506,000 at March 31, 2004, due to the payment of insurance premiums that are the subject of a letter of credit associated with the restricted cash.

"While our sales results were not up to our expectations this quarter, the revenue shortfall appears to be more affected by the delay of customer decisions rather than by a decrease in demand for our solutions," said Gordon Quick, president and CEO of Daleen.

Second Quarter Highlights

- o On May 7, Daleen announced investment agreements of \$25 million and \$5

## Edgar Filing: DALEEN TECHNOLOGIES INC - Form 8-K

million, respectively, with Quadrangle Capital and Behrman Capital, into Daleen Holdings, Inc., a newly-formed holding company. Daleen Holdings will acquire Daleen Technologies and Protek Telecommunications Solutions Limited, a UK-based software company, combining the two organizations to create a more diversified global service provider with billing, network management, real-time inventory, revenue assurance, mediation, and event management products. As part of this transaction, Daleen will become a private company.

- o Daleen signed a new license agreement for its Asuriti(TM) event management software with an existing RevChain(R) customer to provide enhanced mediation and event management capabilities across its customer base. Asuriti will be integrated with the RevChain billing system to provide greater control of and flexibility in managing operational data.

p 2 of 4

- o Daleen reached new milestones in the implementation of its RevChain software for ETB in Bogota, Colombia. With Phase I of the project completed, Daleen has completed the tests and requirements to begin User Acceptance Testing on Phase II.
- o Total operating expenses for the second quarter were \$7.3 million, including approximately \$2.0 million in costs that were directly associated with Daleen's proposed investment transaction and acquisition. Excluding these transaction-related costs, the company's operating expenses remain consistent with or below previous quarters.
- o Behrman Capital extended a \$5.1 million bridge loan to Daleen to cover costs related to the acquisition and to assist the company with its working capital needs prior to the close of the transaction. To date, Daleen has borrowed approximately \$2.2 million against this loan. Of the total amount borrowed, \$1.1 million was used by Daleen to provide a bridge loan to Protek for its working capital needs prior to the closing of the proposed transaction.

\* NOTE: As reported on Form 10-Q filed by Daleen on May 17, 2004 for the period ended March 31, 2004.

### About Daleen

Daleen Technologies, Inc. is a global provider of high performance billing and customer care, OSS and revenue assurance software, with a comprehensive outsourcing solution for traditional and next generation service providers. Daleen's solutions utilize advanced technologies to enable providers to reach peak operational efficiency while driving maximum revenue from products and services. Core products include its RevChain(R) billing and customer management software, Asuriti(TM) event management and revenue assurance software, and BillingCentral(R) ASP outsourcing services. assumptions on which these statements are based. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. Important factors currently known to management that could cause actual results to differ materially from those in forward-looking statements include risks associated with the proposed investment and merger transactions; business concentration; the Company's ability to continue as a going concern; the Company's ability to successfully implement the transactions and its aggregation strategy generally; the Company's inability to achieve profitability; the consequences of any default on the SVB operating loan; customers' and potential customers' market position and lack of financial resources; the costs and success of the Company's international expansion; the ability of the Company to develop and protect its intellectual property; the Company's relationship with third party software vendors and service providers; competition; the Company's ability to retain senior management and other key personnel; low price and volatility of the Company's common stock and the impact of the delisting from The Nasdaq SmallCap Market; the on-going securities class action against the Company; claims related to liabilities associated with the Abiliti acquisition; and the rights and preferences of the series F convertible preferred stock. These factors and others are described in the Company's most recent SEC filings including its most recently filed Form 10-K. The Company undertakes no obligation to update the forward-looking statements in this news release.
