PRESS RELEASE

FOR IMMEDIATE RELEASE

## CGI becomes ISO 9001 quality-certified for management of all three stakeholder programs

**Montreal, Quebec, December 2, 2004** CGI Group Inc. (CGI) (TSX: GIB.SV.A; NYSE: GIB) is proud to announce that it has achieved ISO 9001 quality certification for the management of its shareholders program thus completing certification for all three of its stakeholder programs namely with its clients, its members (employees) and its shareholders. To the best of CGI's knowledge, it is possibly the first company in the world to achieve this certification for all three distinct groups of stakeholders.

Quality processes have always been at the forefront of CGI's operations. In 1994, CGI became the first information technology (IT) services company in North America to become ISO 9001 certified for the way it manages its operations by applying best-in-class processes to deliver high quality services to its clients. Since that time, CGI has evolved its operations into an end-to-end information technology and business process services company. During this period, it has grown from 1,200 to 25,000 members and increased the scope of its quality system to include all aspects of the management of its partnership with its clients. Meanwhile, CGI obtained ISO 9001 certification for the management of its relationship with its members to finally obtain the ISO 9001 certification for the management of its relationship with its shareholders.

Paule Doré, executive vice-president and chief corporate officer of CGI highlights: Our total quality system, as embodied in the CGI Management Foundation, helps us serve the needs of all stakeholders. It represents our management approach, and is deeply rooted in our corporate DNA, as it is the foundation of our culture and what differentiates us. Our adherence to these management practices ensures that we deliver projects on-time, on-budget and exceeding client satisfaction, that we have one of the lowest member turnover rates in our industry and that we provide our shareholders with fundamental performance while providing a high level of transparency.

This management foundation includes continuous improvement processes that are supported by the documentation and the systematic, audited application of CGI's best practices. These processes are also constantly driven by client, member and shareholder evaluations of CGI's activities and performance. To maintain this certification, CGI must demonstrate every year, to external quality auditors, that its quality policy is applied across all of its operations.
