Notes to Consolidated Financial Statements

The accompanying consolidated financial statements have not been audited. The results of operations are not necessarily indicative of the results of operations for the full year or any other interim periods.

The accounting principles followed by FLAG Financial Corporation ("FLAG") and its bank subsidiary and the methods of applying these principles conform with accounting principles generally accepted in the United States of America and with general practices within the banking industry. Certain principles, which significantly affect the determination of financial position, results of operations, and cash flows are summarized below and in FLAG's annual report on Form 10-K for the year ended December 31, 2001.

Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

Note 1. Basis of Presentation

The consolidated financial statements include the accounts of FLAG and its wholly owned subsidiary, FLAG Bank (Vienna, Georgia). All significant inter-company accounts and transactions have been eliminated in consolidation.

The consolidated financial information furnished herein represents all adjustments that are, in the opinion of management, necessary to present a fair statement of the results of operations, and financial position for the periods covered herein and are normal and recurring in nature. For further information, refer to the consolidated financial statements and footnotes included in FLAG's annual report on Form 10-K for the year ended December 31, 2001.

Note 2. Earnings Per Share

Net earnings (loss) per common share are based on the weighted average number of common shares outstanding during each period. The calculation of basic and diluted earnings (loss) per share is as follows:

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The following is a discussion of our financial condition as of September 30, 2002 compared to December 31, 2001 and the results of our operations for the quarter and nine months ended September 30, 2002 compared to the quarter and nine months ended September 30, 2001. These comments should be read in conjunction with our consolidated financial statements and accompanying footnotes appearing in this report. This report contains "forward-looking statements" relating to, without limitation, future economic performance, plans and objectives of management for future operations, and projections of revenues

Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

and other financial items that are based on the beliefs of our management, as well as assumptions made by and information currently available to our management. The words "expect", "estimate", "anticipate", and "believe", as well as similar expressions, are intended to identify forward-looking statements. Our actual results may differ materially from the results discussed in the forward-looking statements, and our operating performance each quarter is subject to various risks and uncertainties. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to:

- (1) the strength of the U.S. economy in general and the strength of the local economies in which operations are conducted;
- (2) the effects of and changes in trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System;
- (3) inflation, interest rate, market and monetary fluctuations;
- (4) the timely development of and acceptance of new products and services and perceived overall value of these products and services by users;
- (5) changes in consumer spending, borrowing and saving habits;
- (6) technological changes;
- (7) acquisitions;
- (8) the ability to increase market share and control expenses;
- (9) the effect of changes in laws and regulations (including laws and regulations concerning taxes, banking, securities and insurance) with which the Company and its subsidiary must comply;
- (10) the effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies as well as the Financial Accounting Standards Board;
- (11) changes in the Company's organization, compensation and benefit plans;
- (12) the costs and effects of litigation and of unexpected or adverse outcomes in such litigation; and
- (13) the Company's success at managing the risks involved in the foregoing.

Forward-looking statements speak only as of the date on which they are made. We undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made to reflect the occurrence of unanticipated events.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Financial Condition

Assets and Funding

Total assets were \$558.8 million at September 30, 2002, a decrease of \$11.4 million or 2.0% from December 31, 2001. The Company has worked during 2002 to reduce the level of lower yielding assets (loans and investment securities) as well as similar amounts of funding identified as relatively expensive (CDs and fixed FHLB advances). Resulting from these efforts are lower levels of earning

Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

assets and deposits that are producing slightly higher net interest income. While total assets reflected a decrease of \$11.4 million, earning assets during the same period decreased only \$3.6 million.

Gross loans outstanding at September 30, 2002 were \$383.9 million compared to \$376.3 million at December 31, 2001. Loans outstanding, while up 2.0% over prior year amounts, have just recently begun to grow. The Company's efforts at reducing lower earning and higher risk assets during 2002 trimmed loans outstanding to as low as \$344.9 million during the second quarter. Loans outstanding at September 30, 2002 represent growth of approximately \$46.5 million or 13.4% from the lower balances experienced during the second quarter of 2002.

Investment securities at September 30, 2002 totaled \$125.2 million versus \$137.4 million at December 31, 2001. While the Company has reinvested some of the funds that have resulted from maturities and sales during 2002, a portion of those proceeds have been used to offset decreases in certain funding sources as well as to fund loan growth.

Non-interest-bearing deposits have decreased by \$9.2 million compared to December 31, 2001 levels. This decrease is attributable to the divestiture of two branches in December 2001 as well as the closure of five branches during 2002. Interest bearing transaction accounts have increased over the same period by \$11.7 million and largely results from the Company's focus on this type of funding as opposed to time deposits. Time deposits have decreased substantially over the same period, from \$270.7 million at September 30, 2001 to \$232.3 million at September 30, 2002.

Liquidity and Capital Resources

The Company maintains borrowing lines with various other financial institutions including the Federal Home Loan Bank. At September 30, 2002, the Company had total borrowing agreements of approximately \$101 million of which approximately \$62.0 million was advanced.

The Company's Board of Directors approved a private placement of 1.3 million shares of common stock and 1.3 million warrants to purchase common stock during the first quarter of 2002. At September 30, 2002, 1,272,000 shares and 1,272,000 warrants to purchase common stock had been sold for an aggregate of \$12.9 million. All shares and warrants issued in the private placement were issued to members of the Company's management team and other employees under Rule 506 under the Securities Act of 1933, as amended.

The funds provided from the private placement contributed to an increase of 11.5% in stockholders' equity to \$60.2 million over December 31, 2001 levels. The increase provided by the private placement funds was partially offset by the net loss of \$3.5 million and an increase in treasury stock of \$3.0 million. Stockholders' equity as a percentage of total assets was 10.8% at September 30, 2002 versus 9.5% at December 31, 2001.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Results of Operations

Overview of nine month period ending September 30, 2002

Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

Net loss for the nine month period ending September 30, 2002 was \$3.5 million or \$0.43 per share compared to net income of \$3.4 million or \$0.43 per share for the first nine months of 2001. The net loss in 2002 includes an after tax restructuring charge of \$3,380,000, a one-time after tax provision for loan losses of \$2,483,000, and an after tax extraordinary charge of \$165,000 related to the prepayment of a portion of the Company's Federal Home Loan Bank borrowings.

Net interest income for the nine months ending September 30, 2002 was \$18.2 million, a decrease of \$600,000 or 3.1% from the same period in 2001. This decrease is primarily attributed to the significant decrease in interest rates as well as a slight contraction in earning assets during 2002.

Non-interest income for the nine month period ending September 30, 2002 decreased 1.6% to \$5.4 million when compared to the nine months ending September 30, 2001. While income from mortgage banking activities increased \$185,000 or 11.1% for the period, FLAG experienced a decrease in fees and service charges on deposit accounts of \$418,000 or 14.2%. This decrease was mainly attributed to FLAG's decision to sell two branches in December 2001 with approximately \$37 million in deposits.

Excluding the one-time charges mentioned above, the Company would have earned approximately \$2.5 million with non-interest expenses of approximately \$19.6 million for the nine month period ending September 30, 2002. This level of non-interest expenses represents an increase of approximately \$600,000 and is largely comprised of higher salaries and benefits.

Results of operations for quarter ending September 30, 2002

Net income for the quarter ended September 30, 2002 was \$1,358,000 or \$0.16 per diluted share. This level of net income represents an increase of 16.5% compared to net income of \$1,166,000 for the comparable period in 2001. Diluted earnings per share also increased from 2001 levels of \$0.15 per share.

Net interest income for the quarter ending September 30, 2002 increased approximately \$728,000 or 12.1% over the comparable quarter in 2001. For these periods, net interest margin increased to 5.30% from 4.63%. The Company attributes most of the decrease in interest income and interest expense to the lower rate environment that has persisted during 2002. The decrease in interest expense has been more significant than the decrease in interest income, resulting in increased net interest income.

Interest income for the third quarter of 2002 was \$9.6 million, a decrease of \$1.5 million or 13.6% over the same quarter in 2001. Interest and fees on loans decreased from \$9.0 million to \$7.9 million, a decrease of 12.7%. FLAG's yield on loans during the quarter ended September 30, 2002 decreased to 8.35% from 9.46% in the third quarter of 2001. Average loans outstanding during the third quarter of 2002 were \$374.0 million, a decrease of \$4.1 million or 1.1% compared to the comparable quarter a year ago. At September 30, 2002, gross loans accounted for 68.7% of total assets and approximately 74.3% of interest earning assets. This compares favorably with the quarter ended September 30, 2001 ratios of 66.1% and 73.2%, respectively.

Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

Interest income on investment securities decreased by \$268,000 during the quarter ending September 30, 2002 to \$1.7 million when compared to the same quarter in 2001. The yield on the investment portfolio decreased from 5.86% to 5.24% over this period. For the quarters ended September 30, 2002 and 2001, FLAG had average investment securities of \$129.6 million and \$134.0 million, respectively.

FLAG aggressively manages earning assets in order to maintain a balanced combination of credit and market risk, as well as yield. In the current rate environment, FLAG has attempted to maintain a very low level of federal funds sold, relying on borrowing lines with other financial institutions, including but not limited to the FHLB. During the third quarter of 2002, FLAG was successful in averaging only \$1.3 million of federal funds sold and interest bearing deposits with other banks, compared to \$3.3 million during the third quarter of 2001. Federal funds sold and interest-bearing deposits with other banks averaged 0.25% and 0.64% of total interest earning assets for the quarters ending September 30, 2002 and 2001, respectively.

FLAG uses customer deposits and borrowings from other financial institutions as its two primary sources to fund interest earning assets. Total funding for FLAG at September 30, 2002 was \$490.8 million with an overall cost for the quarter of 2.36%, compared to \$500.6 million, costing 4.10% in the comparable quarter of 2001. The decreases in costs and balances resulted in a savings of \$2.2 million or 43.8% for the quarter, and allowed FLAG to improve total net interest income with lower levels of interest earning assets.

Interest expense on customer deposits for the third quarter of 2002 decreased by \$1.9 million to \$2.6 million when compared to the quarter ended September 30, 2001. This 42% decrease was mainly attributable to aggressive repricing efforts on all elements of FLAG's deposit base. Interest bearing demand deposits averaged \$126.7 million with an average cost of 1.53% for the quarter ending September 30, 2002 compared to \$108.6 million costing an average of 2.15% for the comparable quarter of 2001. Time deposits averaged \$233.3 million and \$266.7 million with average costs of 3.45% and 5.62% for the third quarter of 2002 and 2001, respectively.

Interest expense on other borrowings consists of interest on FHLB advances, other borrowings and federal funds purchased. For the third quarter of 2002, interest expense on other borrowings was approximately \$295,000 compared to \$660,000 for the same quarter in 2001. This decrease of 55.3% is the result of the early repayment and refinancing of fixed FHLB advances in recent quarters. This refinancing allowed FLAG to reduce the overall cost on other borrowings to 1.97% for the third quarter of 2002 compared to 5.25% a year ago.

Non-Interest Income and Expense

Non-interest income grew 2.8% during the third quarter of 2002 compared to the same period in 2001. The decrease in non-interest bearing balances discussed earlier contributed to a decrease in service charges of 13.2% to \$848,000. Income from mortgage banking activities (origination fees, gain on sale of loans and service release premiums) grew \$220,000 to \$808,000 in the third quarter of 2002, mostly the result of very favorable interest rates on home mortgages. Non-interest income as a percent of total revenue decreased to 22.7% from the 2001 level of 24.3%.

Financial Condition and Results of Operations

Non-interest expenses increased during the quarter ended September 30, 2002 to \$6.6 million from \$6.3 million in the same quarter of 2001. This 4.9% increase includes an \$13,000 increase in occupancy expense, a \$239,000 decrease in other operating expense and a \$600,000 increase in salaries and benefits. A significant portion of the increase in salaries and benefits is attributed to increased commissions related to improved production in the mortgage, insurance and investment groups.

Income Taxes

Income tax expense for the quarter ending September 30, 2002 was \$607,000 compared to \$438,000 for the same quarter in 2001. FLAG's effective tax rate for the quarter ended September 30, 2002 was 30.9% compared to 27.3% for the quarter ended September 30, 2001.

Loans

FLAG engages in a full complement of lending activities, including real estate-related, commercial and financial loans and consumer installment loans. FLAG generally concentrates lending efforts on real estate related loans. As of September 30, 2002, FLAG's loan portfolio consisted of 84.3% real estate-related loans, 11.1% commercial and financial loans, and 4.4% consumer installment loans. While risk of loss is primarily tied to the credit quality of the various borrowers, risk of loss may also increase due to factors beyond the FLAG's control, such as local, regional and/or national economic downturns. General conditions in the real estate market may also impact the relative risk in the real estate portfolio. Of the target areas of lending activities, commercial and financial loans are generally considered to have a greater risk of loss than real estate loans or consumer installment loans.

Loans are stated at unpaid balances, net of unearned income and deferred loan fees. Balances within the major loans receivable categories are represented in the following table: (000's omitted)

Management's Discussion and Analysis of Financial Condition and Results of Operations

Provision and Allowance for Loan and Lease Losses

FLAG maintains an allowance for loan losses appropriate for the quality of the loan portfolio and sufficient to meet anticipated future loan losses. FLAG utilizes a comprehensive loan review and risk identification process and the analysis of FLAG's financial trends to determine the adequacy of the allowance. Many factors are considered when evaluating the allowance. The analysis is based on historical loss trends; trends in criticized and classified loans in the portfolio; trends in past due and non-accrual loans; trends in portfolio volume, composition, maturity, and concentrations; changes in local and regional economic market conditions; the accuracy of the loan review and risk identification system, and the experience, ability, and depth of lending personnel and management.

Management evaluates the allowance on a quarterly basis. Through this evaluation, the appropriate provision for loan losses is determined by considering the current allowance level, actual loan losses and loan recoveries.

The provision for loan losses for the third quarter of 2002 was \$195,000 versus \$84,000 for comparable period in 2001. The allowance for loan and lease losses at September 30, 2002 was \$7.3 million, approximately the same as December 31, 2001. The ratio of the allowance for loan losses to net outstanding loans at September 30, 2002 and December 31, 2001 was 1.94% and 1.99%, respectively.

The following table summarizes the changes in the allowance for loan losses arising from loans charged off and recoveries on loans previously charged off by loan category, and additions to the allowance that have been charged to operations in the Company's consolidated statements of operations. Management's Discussion and Analysis of
Financial Condition and Results of Operations

Non-Performing Assets

Non-performing assets (nonaccrual loans, real estate owned and repossessions) totaled approximately \$12.5 million at September 30, 2002 compared to \$18.9 million at December 31, 2001 and \$9.6 million at September 30, 2001. These levels as a percentage of net loans outstanding represented 3.33%, 5.14% and 2.62%, respectively.

FLAG has a loan review function that continually monitors selected accruing loans for which general economic conditions or changes within a particular industry could cause the borrowers financial difficulties. The loan review function also identifies loans with high degrees of credit or other risks. The focus of loan review is to maintain a low level of non-performing assets and return current non-performing assets to earning status.

Non-performing assets (000's omitted)	September 30, 2002	December 31, 2001	Septem 200
	-----	-----	-----
Loans on nonaccrual	\$9,464	17,122	6,97

Item 3. Quantitative and Qualitative Disclosures about Market Risk

As of September 30, 2002, there were no substantial changes in the composition of the Company's market-sensitive assets and liabilities or their related market values from that reported as of December 31, 2001. The foregoing disclosures related to the market risk of the Company should be read in conjunction with the Company's audited consolidated financial statements, related notes and management's discussion and analysis of financial condition and results of operations for the year ended December 31, 2001 included in the Company's 2001 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Within 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) that is required to be included in the Company's periodic filings with the Securities and Exchange Commission. There have been no significant changes in the Company's internal controls or, to the company's knowledge, in other factors that could significantly affect those internal controls subsequent to the date the Company carried out its evaluation, and there have been no corrective actions with respect to significant deficiencies or material weaknesses.
