A Letter to Shareholders

Dear Shareholder

Over the past several months, financial markets have been buffeted by the housing recession, the credit market unraveling and related liquidity freeze and steadily rising commodity prices. Counterbalancing these difficulties were booming export activity, a robust non-financial corporate sector and, notably, aggressive and timely monetary and fiscal policy actions.

Amid the market tumult, the Federal Reserve Board (the Fed) intervened with a series of moves to bolster liquidity and ensure financial market stability. Since September 2007, the central bank slashed the target federal funds rate 325 basis points (3.25%), bringing the rate to 2.0% as of period-end. Of greater magnitude, however, were the Fed's other policy decisions, which included opening the discount window directly to broker dealers and investment banks and backstopping the unprecedented rescue of Bear Stearns.

The Fed's response to the financial crisis helped to improve credit conditions and investor mood. After hitting a low point on March 17 (coinciding with the collapse of Bear Stearns), equity markets found a welcome respite in April, when the S&P 500 Index of U.S. stocks posted positive monthly performance for the first time since October 2007. International markets, which outpaced those of the U.S. for much of 2007, saw a reversal in that trend, as effects of the credit crisis and downward pressures on growth were far-reaching.

In contrast to equity markets, Treasury securities rallied (yields fell as prices correspondingly rose), as a broad flight-to quality theme persisted. The yield on 10-year Treasury issues, which touched 5.30% in June 2007 (its highest level in five years), fell to 4.04% by year-end and to 3.77% by April 30. Treasury issues relinquished some of their gains in April, however, as investor appetite for risk returned and other high-quality fixed income sectors outperformed.

Problems within the monoline insurance industry and the failure of auctions for auction rate securities plagued the municipal bond market, driving yields higher and prices lower across the curve. However, in conjunction with the more recent shift in sentiment, the sector delivered strong performance in the final month of the reporting period.

Overall, the major benchmark indexes generated results that generally reflected heightened investor risk aversion:

| Total Returns as of April 30, 2008 | 6-month | 12-month |
|--|----------------|-----------------|
| U.S. equities (S&P 500 Index) | -9.64% | -4.68% |
| Small cap U.S. equities (Russell 2000 Index) | -12.92 | -10.96 |
| International equities (MSCI Europe, Australasia, Far East Index) | -9.21 | -1.78 |
| Fixed income (Lehman Brothers U.S. Aggregate Index) | +4.08 | +6.87 |
| Tax-exempt fixed income (Lehman Brothers Municipal Bond Index) | +1.47 | +2.79 |
| High yield bonds (Lehman Brothers U.S. Corporate High Yield 2% Issuer Capped Index) | -0.73 | -0.80 |

Trust Summary as of April 30, 2008

BlackRock Investment Quality Municipal Trust

Investment Objective

BlackRock Investment Quality Municipal Trust (BKN) (the Trust) seeks to provide high current income which, in the opinion of bond counsel to the issuer, is exempt from regular federal income tax consistent with the preservation of capital.

Performance

For the six months ended April 30, 2008, the Trust returned -0.03% based on market price, with dividends reinvested. The Trust's return based on net asset value (NAV) was -3.85%, with dividends reinvested. For the same period, the closed-end Lipper General Municipal Debt Funds (Leveraged) category posted an average return of -2.54% on a NAV basis. Detracting from results for the period were the Trust's holdings in longer-dated issues, which proved more volatile as risk spreads increased and the municipal yield curve steepened. Positive contributors to performance included the Trust's greater-than-average distribution rate and its largely neutral duration positioning during a period of municipal bond relative underperformance and increasing rates.

BlackRock Municipal Income Trust

Investment Objective

BlackRock Municipal Income Trust (BFK) (the Trust) seeks to provide current income which, in the opinion of bond counsel to the issuer, is exempt from regular federal income tax.

Performance

For the six months ended April 30, 2008, the Trust returned -2.40% based on market price, with dividends reinvested. The Trust's return based on NAV was -4.94%, with dividends reinvested. For the same period, the closed-end Lipper General Municipal Debt Funds (Leveraged) category posted an average return of -2.54% on a NAV basis. Detracting from the Trust's performance was its effectively neutral duration positioning during a period of rising municipal bond yields. A greater exposure to lower-rated issues also hindered results, although the incremental income generated by these issues enabled the Trust to maintain a distribution yield above that of its Lipper peer average.

Trust Summary as of April 30, 2008

BlackRock Long-Term Municipal Advantage Trust

Investment Objective

BlackRock Long-Term Municipal Advantage Trust (BTA) (the Trust) seeks to provide current income which, in the opinion of bond counsel to the issuer, is exempt from regular federal income tax.

Performance

For the six months ended April 30, 2008, the Trust returned -1.49% based on market price, with dividends reinvested. The Trust's return based on NAV was -7.21%, with dividends reinvested. For the same period, the closed-end Lipper General & Insured Municipal Funds (Unleveraged) category posted an average return of -0.70% on a NAV basis. Notably, the Lipper category contains a mix of both insured and uninsured funds that do not employ leverage. This stands in sharp contrast to the Trust, which utilizes a high degree of leverage. An emphasis on non-investment grade credits and long duration positioning further differentiates the Trust from its Lipper peers. Accordingly, the Trust's relative performance will pale in times of rising interest rates and wider credit spreads, which we saw during this period.

BlackRock California Investment Quality Municipal Trust

Investment Objective

BlackRock California Investment Quality Municipal Trust (RAA) (the Trust) seeks to provide high current income which, in the opinion of bond counsel to the issuer, is exempt from regular federal and California income tax consistent with preservation of capital.

Performance

For the six months ended April 30, 2008, the Trust returned +4.16% based on market price, with dividends reinvested. The Trust's return based on NAV was -1.77%, with dividends reinvested. For the same period, the closed-end Lipper California Municipal Debt Funds category posted an average return of -1.42% on a NAV basis. Widening credit spreads for lower-rated bonds and those insured by the monoline insurance companies contributed to the decline in the Trust's NAV. Management's effort to moderate the contribution of current yield to the total return was partially negated by higher short-term borrowing costs. The Trust's duration remained neutral.

BlackRock California Municipal Income Trust

Investment Objective

BlackRock California Municipal Income Trust (BFZ) (the Trust) seeks to provide high current income which, in the opinion of bond counsel to the issuer, is exempt from regular federal income tax and California income taxes.

Performance

For the six months ended April 30, 2008, the Trust returned +3.87% based on market price, with dividends reinvested. The Trust's return based on NAV was -0.72%, with dividends reinvested. For the same period, the closed-end Lipper California Municipal Debt Funds category posted an average return of -1.42% on a NAV basis. A slightly defensive duration stance and a higher cash equivalent reserve position versus its Lipper peers provided the Trust's NAV some cushion against volatility from widening credit spreads and rising long-term investment rates. Management's strategy is to balance total return by opportunistically improving current yield, while maintaining a neutral duration.

BlackRock Florida Investment Quality Municipal Trust

Investment Objective

BlackRock Florida Investment Quality Municipal Trust (RFA) (the Trust) seeks to provide high current income which, in the opinion of bond counsel to the issuer, is exempt from regular federal income tax and to provide an exemption from Florida intangible personal property taxes consistent with preservation of capital.

Performance

For the six months ended April 30, 2008, the Trust returned -2.62% based on market price, with dividends reinvested. The Trust's return based on NAV was -3.41%, with dividends reinvested. For the same period, the closed-end Lipper Florida Municipal Debt Funds category posted an average return of -1.18% on a NAV basis. Problems within the monoline insurance industry had a negative impact on the entire insured municipal market, detracting from the Trust's performance for the period. Healthcare, tax increment financing, housing and corporate-backed bonds were the weakest performers. Conversely, an overweight in pre-refunded bonds benefited results, as the yield curve steepened and shorter-maturity issues outperformed.

BlackRock Florida Municipal Income Trust

Investment Objective

BlackRock Florida Municipal Income Trust (BBF) (the Trust) seeks to provide high current income which, in the opinion of bond counsel to the issuer, is exempt from regular federal income tax and Florida intangible personal property tax.

Performance

For the six months ended April 30, 2008, the Trust returned -0.04% based on market price, with dividends reinvested. The Trust's return based on NAV was -0.80%, with dividends reinvested. For the same period, the closed-end Lipper Florida Municipal Debt Funds category posted an average return of -1.18% on a NAV basis. The Trust's significant overweight in pre-refunded bonds, which tend to have intermediate maturities, benefited performance for the period, as the yield curve steepened and these issues outperformed. Conversely, problems within the monoline insurance industry had a negative impact on the entire insured municipal market, hampering the performance of the Trust and its peers.

BlackRock New Jersey Investment Quality Municipal Trust

Investment Objective

BlackRock New Jersey Investment Quality Municipal Trust (RNJ) (the Trust) seeks to provide high current income which, in the opinion of bond counsel to the issuer, is exempt from regular federal income tax and New Jersey gross income tax consistent with preservation of capital.

Performance

For the six months ended April 30, 2008, the Trust returned +6.91% based on market price, with dividends reinvested. The Trust's return based on NAV was -4.56%, with dividends reinvested. For the same period, the closed-end Lipper New Jersey Municipal Debt Funds category posted an average return of -1.91% on a NAV basis. The Trust's relatively long duration posture and holdings in lower-rated issues hindered comparative performance for the period. The Trust's BMA (a short-term municipal market benchmark rate) hedges also detracted as cash positions underperformed swap rates. Management has been unable to restructure the portfolio, as new issuance of New Jersey securities has declined significantly.

Investment Objective

BlackRock New Jersey Municipal Income Trust (BNJ) (the Trust) seeks to provide high current income which, in the opinion of bond counsel to the issuer, is exempt from regular federal income tax and New Jersey gross income tax.

Performance

For the six months ended April 30, 2008, the Trust returned +1.87% based on market price, with dividends reinvested. The Trust's return based on NAV was -2.14%, with dividends reinvested. For the same period, the closed-end Lipper New Jersey Municipal Debt Funds category posted an average return of -1.91% on a NAV basis. The Trust's overweight in lower-rated issues was the primary detractor from comparative performance, as these securities underperformed amid continued widening in credit spreads. However, the incremental income these holdings generated continued to enhance the Trust's above-average dividend yield. A relatively neutral duration posture during a period of rising interest rates in the municipal market also contributed positively.

For the six months ended April 30, 2008, the Trust returned -3.85% based on market price, with dividends reinvested. The Trust's return based on NAV was -1.12%, with dividends reinvested. For the same period, the closed-end Lipper New York Municipal Debt Funds category posted an average return of -0.95% on a NAV basis. The relative return was hampered by the Trust's longer-dated holdings, which proved more volatile as risk spreads increased and the municipal yield curve steepened. Conversely, the Trust's above-average distribution yield and neutral duration position during a period of rising interest rates in the municipal market benefited comparative performance.

The Benefits and Risks of Leveraging

The Trusts utilize leverage to seek to enhance the yield and NAV of their Common Shares. However, these objectives cannot be achieved in all interest rate environments.

To leverage, the Trusts may issue Preferred Shares, which pay dividends at prevailing short-term interest rates, and invest the proceeds in long-term municipal bonds. The interest earned on these investments is paid to Common Shareholders in the form of dividends, and the value of these Portfolios' holdings is reflected in the per share NAV of the Trusts' Common Shares. However, in order to benefit Common Shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit Common Shareholders. **If either of these conditions change, then the risks of leveraging will begin to outweigh the benefits.**

To illustrate these concepts, assume a fund's Common Share capitalization of \$100 million and the issuance of Preferred Shares for an additional \$50 million, creating a total value of \$150 million available for investment in long-term municipal bonds. If prevailing short-term interest rates are approximately 3% and long-term interest rates are approximately 6%, then the yield curve has a strongly positive slope. The fund pays dividends on the \$50 million of Preferred Shares based on the lower short-term interest rates. At the same time, the fund's total portfolio of \$150 million earns the income based on long-term interest rates.

In this case, the dividends paid to Preferred Shareholders are significantly lower than the income earned on the fund's long-term investments, and therefore the Common Shareholders are the beneficiaries of the incremental yield. However, if short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, **the incremental yield pickup on the Common Shares will be reduced or eliminated completely.** At the same time, the market value on the fund's Common Shares (that is, its price as listed on the New York Stock Exchange or American Stock Exchange) may, as a result, decline. Furthermore, **if long-term interest rates rise, the Common Shares' NAV will reflect the full decline in the price of the portfolio's investments, since the value of the fund's Preferred Shares does not fluctuate.** In addition to the decline in NAV, the market value of the fund's Common Shares may also decline.

In addition, the Trusts may from time to time leverage their assets through the use of tender option bond (TOB) programs. In a typical TOB program, the Trust transfers one or more municipal bonds to a TOB trust, which issues short-term variable rate securities to third-party investors and a residual interest to the Trust. The cash received by the TOB trust from the issuance of the short-term securities (less transaction expenses) is paid to the Trust, which invests the cash in additional portfolio securities. The distribution rate on the short-term securities is reset periodically (typically every seven days) through a remarketing of the short-term securities. Any income earned on the bonds in the TOB trust, net of expenses incurred by the TOB trust, that is not paid to the holders of the short-term securities is paid to the Trust. In connection with managing the Trusts' assets, the Trusts investment advisor may at any time retrieve the bonds out of the TOB trust typically within seven days. **TOB investments generally will provide the Trust with economic benefits in periods of declining short-term interest rates, but expose the Trust to risks during periods of rising short-term interest rates similar to those associated with Preferred Shares issued by the Trust, as described above. Additionally, fluctuations in the market value of municipal securities deposited into the TOB trust may adversely affect the Funds' NAVs per share.** (See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOB trusts.)

Under the Investment Company Act of 1940, the Trusts are permitted to issue Preferred Shares in an amount of up to 50% of their managed assets at the time of issuance. Each Trust also anticipates that its total economic leverage will not exceed 50% of its total managed assets. Economic leverage includes Preferred Shares and TOBs. As of April 30, 2008, the Trusts had economic leverage amounts of managed assets as follows:

| | Percent of Leverage |

Swap Agreements

The Trusts may invest in swap agreements, which are over-the-counter contracts in which one party agrees to make periodic payments based on the change in market value of a specified bond, basket of bonds, or index in return for periodic payments based on a fixed or variable interest rate or the change in market value of a different bond, basket of bonds or index. Swap agreements may be used to obtain exposure to a bond or market without owning or taking physical custody of securities. Swap agreements involve the risk that the party with whom each Trust has entered into a swap will default on its obligation to pay the Trusts and the risk that the Trusts will not be able to meet its obligation to pay the other party to the agreement.

Notes to Financial Statements (Unaudited)

1. Significant Accounting Policies:

BlackRock Investment Quality Municipal Trust Inc. (Investment Quality Municipal), BlackRock California Investment Quality Municipal Trust Inc. (California Investment Quality), BlackRock New Jersey Investment Quality Municipal Trust Inc. (New Jersey Investment Quality) and BlackRock New York Investment Quality Municipal Trust Inc. (New York Investment Quality) were organized as Maryland corporations. BlackRock Florida Investment Quality Municipal Trust (Florida Investment Quality) was organized as a Massachusetts business trust. Investment Quality Municipal, California Investment Quality, Florida Investment Quality, New Jersey Investment Quality and New York Investment Quality are herein referred to as the Investment Quality Trusts. BlackRock Municipal Income Trust (Municipal Income), BlackRock California Municipal Income Trust (California Income), BlackRock Florida Municipal Income Trust (Florida Income), BlackRock New Jersey Municipal Income Trust (New Jersey Income), BlackRock New York Municipal Income Trust (New York Income) (collectively the Income Trusts) and BlackRock Long-Term Municipal Advantage Trust (Long-Term Municipal) were organized as Delaware statutory trusts. The Investment Quality Trusts, Income Trusts and Long-Term Municipal are referred to herein collectively as the Trusts. Investment Quality Municipal and Municipal Income are registered under the Investment Company Act of 1940, as amended (the 1940 Act), as diversified, closed-end management investment companies. California Investment Quality, California Income, Florida Investment Quality, Florida Income, Long-Term Municipal, New Jersey Investment Quality, New Jersey Income, New York Investment Quality and New York Income are registered under the 1940 Act, as non-diversified, closed-end management investment companies. The Trusts financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. Actual results may differ from these estimates. Each Trust determines, and makes available for publication, the net asset value of its Common Shares on a daily basis.

The following is a summary of significant accounting policies followed by the Trusts:

Valuation of investments: Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of prices provided by dealers or pricing services selected under the supervision of each Trust's Board of Trustees (the Board). In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments and various relationships between investments. Swaps are valued by quoted fair values received daily by the Trusts' pricing service. Short-term securities are valued at amortized cost. Investments in open-end investment companies are valued at net asset value each business day.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment, the investment will be valued by a method approved by the Board as reflecting fair value (Fair Value Assets). When determining the price for Fair Value Assets, the investment advisor and/or sub-advisor seek to determine the price that each Trust might reasonably expect to receive from the current sale of that asset in an arm's-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deem relevant. The pricing of all Fair Value Assets is subsequently reported to the Board or a committee thereof.

Derivative Financial Instruments: Each Trust may engage in various portfolio investment strategies to increase the return of the Trust and to hedge, or protect, its exposure to interest rate movements and movements in the securities markets. Losses may arise if the value of the contract decreases due to an unfavorable change in the price of the underlying security, or if the counterparty does not perform under the contract.

Financial Futures Contracts: The Trusts may purchase or sell financial futures contracts and options on such financial futures contracts. Financial futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Upon entering into a contract, the Trust deposits, and maintains as collateral, such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Trust agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recorded by the Trust as unrealized gains or losses. When the contract is closed, the Trust records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Forward Interest Rate Swaps: The Trusts may enter into forward interest rate swaps. In a forward interest rate swap, the Trust and the counterparty agree to make periodic net payments on a specified notional contract amount, commencing on a specified future effective date, unless terminated earlier. These periodic payments received or made by the Trust are recorded in the accompanying Statements of Operations as realized gains or losses, respectively. Gains or losses are also realized upon termination of the swap agreements. Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation). When a swap is terminated, the Trusts will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any. The Trusts generally intend to close each forward interest rate swap before the accrual date specified in the agreement and therefore avoid entering into the interest rate swap underlying each forward interest rate swap.

Forward Commitments and When-Issued Delayed Delivery Securities: The Trusts may purchase securities on a when-issued basis and may purchase or sell securities on a forward commitment basis. Settlement of such transactions normally occurs within a month or more after the purchase or sale commitment is made. The Trusts may purchase securities under such conditions only with the intention of actually acquiring them, but may enter into a separate agreement to sell the securities before the settlement date. Since the value of securities purchased may fluctuate prior to settlement, the Trusts may be required to pay more at settlement than the security is

Notes to Financial Statements (continued)

worth. In addition, the purchaser is not entitled to any of the interest earned prior to settlement. Upon making a commitment to purchase a security on a when-issued basis, the Trust will hold liquid assets worth at least the equivalent of the amount due.

Municipal Bonds Transferred to Tender Option Bond Trusts: Long-Term Municipal leverages its assets through the use of tender option bond trusts (TOBs). A TOB is established by a third party sponsor forming a special purpose entity, into which one or more funds, or an agent on behalf of the funds, transfers municipal securities. Other funds managed by the investment advisor may also contribute municipal securities to a TOB into which Long-Term Municipal has contributed securities. A TOB typically issues two classes of beneficial interests: short-term floating rate certificates, which are sold to third party investors, and residual certificates (TOB Residuals), which are generally issued to the participating funds that made the transfer. The TOB Residuals held by Long-Term Municipal include the right of Long-Term Municipal (1) to cause the holders of a proportional share of the floating rate certificates to tender their certificates at par, and (2) to transfer, within seven days, a corresponding share of the municipal securities from the TOB to Long-Term Municipal. The cash received by the TOB from the sale of the short-term floating rate certificates, less transaction expenses, is paid to Long-Term Municipal, which typically invests the cash in additional municipal securities. Long-Term Municipal's transfer of the municipal securities to a TOB is accounted for as a secured borrowing, therefore the municipal securities deposited into a TOB are presented in Long-Term Municipal's Schedule of Investments and the proceeds from the transaction are reported as a liability of Long-Term Municipal.

Interest income from the underlying securities is recorded by Long-Term Municipal on an accrual basis. Interest expense incurred on the secured borrowing and other expenses related to remarketing, administration and trustee services to a TOB are reported as expenses of Long-Term Municipal. The floating rate certificates have interest rates that generally reset weekly and their holders have the option to tender certificates to the TOB for redemption at par at each reset date. At April 30, 2008, the aggregate value of the underlying municipal securities transferred to TOBs was \$140,396,746, the related liability for trust certificates was \$144,470,000 and the range of interest rates on the liability for trust certificates was 2.41% to 3.84%.

Financial transactions executed through TOBs generally will underperform the market for fixed rate municipal bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable. Should short-term interest rates rise, Long-Term Municipal's investment in TOBs likely will adversely affect Long-Term Municipal's net investment income and distributions to shareholders. Fluctuations in the market value of municipal securities deposited into the TOB may adversely affect Long-Term Municipal's net asset value per share.

Zero-Coupon Bonds: The Trusts may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than similar maturity debt obligations which provide for regular interest payments.

Segregation: In cases in which the 1940 Act, and the interpretive positions of the Securities and Exchange Commission (the SEC) require that each Trust segregate assets in connection with certain investments (e.g., when-issued securities, futures or forward starting swaps), each Trust will, consistent with certain interpretive letters issued by the SEC, designate on its books and records cash or other liquid debt securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

Investment Transactions and Investment Income: Investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual method. The Trusts amortize all premiums and discounts on debt securities.

Dividends and Distributions: Dividends from net investment income are declared daily and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates. Dividends and distributions to holders of Preferred Shares are accrued and determined as described in Note 4.

Income Taxes: It is each of the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Effective April 30, 2008, the Fund implemented Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes the minimum recognition

threshold a tax position must meet in connection with accounting for uncertainties in income tax positions taken or expected to be taken by an entity, including investment companies, before being measured and recognized in the financial statements. The investment advisor has evaluated the application of FIN 48 to each Trust, and has determined that the adoption of FIN 48 does not have a material impact on each Trust's financial statements. Each Trust files U.S. federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Trusts' U.S. federal tax returns remains open for the years ended October 31, 2004 through October 31, 2006. The statutes of limitations on the Trusts' state and local tax returns may remain open for an additional year depending upon the jurisdiction.

Bank Overdraft: Florida Investment Quality recorded a bank overdraft which resulted from a bank error. Florida Income recorded a bank overdraft which resulted from management estimates of available cash.

Recent Accounting Pronouncements: In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The impact on the Trusts' financial statements disclosures, if any, is currently being assessed.

Notes to Financial Statements (continued)

In addition, in February 2007, Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (FAS 159), was issued and is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FAS 157. FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. FAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. The impact on the Trusts' financial statement disclosures, if any, is currently being assessed.

In March 2008, Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (FAS 161) was issued and is effective for fiscal years beginning after November 15, 2008. FAS 161 is intended to improve financial reporting for derivative instruments by requiring enhanced disclosure that enables investors to understand how and why an entity uses derivatives, how derivatives are accounted for, and how derivative instruments affect an entity's results of operations and financial position. The investment advisor is currently evaluating the implications of FAS 161 and the impact on the Trusts' financial statement disclosures, if any, is currently being assessed.

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by the Trusts' Board, non-interested Trustees (Independent Trustees) may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts have been invested in common shares of other certain BlackRock Closed-End Funds selected by the Independent Trustees. This has approximately the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts directly in other certain BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of each Trust. Each Trust may, however, elect to invest in common shares of other certain BlackRock Closed-End Funds selected by the Independent Trustees in order to match its deferred compensation obligations. Investments to cover each Trust's deferred compensation liability, are included in other assets on the Statement of Assets and Liabilities.

Other: Expenses directly related to each Trust are charged to that Trust. Other operating expenses shared by several funds are pro-rated among those funds on the basis of relative net assets or other appropriate methods.

2. Investment Advisory Agreement and Other Transactions with Affiliates:

Each Trust entered into an Investment Advisory Agreement with BlackRock Advisors, LLC (the Advisor), an indirect, wholly owned subsidiary of BlackRock, Inc., to provide investment advisory and administration services. Merrill Lynch & Co., Inc. (Merrill Lynch) and The PNC Financial Services Group, Inc. are principal owners of BlackRock, Inc.

The Advisor is responsible for the management of each Trust's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of each Trust. For such services, each Trust pays the Advisor a monthly fee at an annual rate of 0.35% for the Investment Quality Trusts and 0.60% for the Income Trusts of the average weekly value of the Trust's net assets including proceeds from the issuance of preferred shares and TOBs. The Advisor has voluntarily agreed to waive a portion of the investment advisory fee on the Income Trusts as a percentage of net assets including proceeds from the issuance of preferred shares and TOBs as follows: 0.25% for the first five years of each of the Trust's operations from 2001 through July 31, 2006, 0.20% through July 31, 2007, 0.15% through July 31, 2008, 0.10% through July 31, 2009 and 0.05% through July 31, 2010.

Long-Term Municipal pays the Advisor a monthly fee at an annual rate of 1.00% of the average weekly value of the Trust's net assets. The Advisor has voluntarily agreed to waive a portion of the investment advisory fee on Long-Term Municipal as a percentage of the average weekly value of the net assets of 0.40% for the first five years of the Trust's operations from 2006 through 2011 and for declining amounts for the following three years, 0.30% in 2012, 0.20% in 2013 and 0.10% in 2014.

For the six months ended April 30, 2008, the advisor waived the fees, which is shown on the Statements of Operations as fees waived by advisor, as follows:

| | Waived by the Advisor |
|---------------------|----------------------------------|
| Municipal Income | \$ 736,727 |
| Long-Term Municipal | \$ 342,326 |
| California Income | \$ 263,620 |
| Florida Income | \$ 116,056 |
| New Jersey Income | \$ 131,960 |
| New York Income | \$ 220,947 |

The administration fee to the Advisor is computed weekly and payable monthly based on an annual rate of 0.15% for Investment Quality Municipal and 0.10% for California Investment Quality, Florida Investment Quality, New Jersey Investment Quality and New York Investment Quality of the Trusts average weekly value of the net assets including proceeds from the issuance of Preferred Shares and TOBs.

The Advisor has agreed to waive its advisory fees by the amount of investment advisory fees each Trust pays to the Advisor indirectly through its investment in affiliated money market funds. This amount is shown on the Statements of Operations as fees waived by advisor. For the six months ended April 30, 2008, the amounts were as follows:

Notes to Financial Statements (continued)

| | Waived by the Advisor |
|-------------------------------|----------------------------------|
| Investment Quality Municipal | \$ 16,544 |
| Municipal Income | \$ 13,208 |
| Long-Term Municipal | \$ 2,925 |
| California Investment Quality | \$ 2,012 |
| California Income | \$ 37,456 |
| Florida Investment Quality | \$ 1,567 |
| Florida Income | \$ 6,811 |
| New Jersey Investment Quality | \$ 1,298 |
| New Jersey Income | \$ 8,620 |
| New York Investment Quality | \$ 788 |
| New York Income | \$ 7,423 |

In addition, the Advisor has entered into a separate sub-advisory agreement with BlackRock Financial Management, Inc. (BFM), an affiliate of the Advisor, with respect to each Trust, under which the Advisor pays BFM for services it provides, a monthly fee that is a percentage of the investment advisory fee paid by each Trust to the Advisor.

Pursuant to the terms of their custody agreement, each Trust received earnings credits from its custodian for positive cash balances maintained, which are used to offset custody fees. These credits are shown on the Statements of Operations as fees paid indirectly.

Certain officers and/or trustees of the Trusts are officers and/or directors of BlackRock, Inc. or its affiliates.

3. Investments:

Purchases and sales of investments, excluding short-term securities, for the six months ended April 30, 2008 were as follows:

| New Jersey Investment Quality | 1,261,399 | 2,321,297 |
| New Jersey Income | 8,237,035 | 14,829,560 |
| New York Investment Quality | 1,382,751 | 2,158,870 |
| New York Income | 8,028,297 | 15,909,610 |

4. Capital Share Transactions:

Each Investment Quality Trust is authorized to issue 200,000,000 shares of shares, including Preferred Shares, par value \$0.01 per share, all of which were initially classified as Common Shares. There are an unlimited number of \$0.001 par value common shares authorized for the Income Trusts and Long-Term Municipal. The Board is authorized, however, to reclassify any unissued shares without the approval of the Common Shareholders. As of April 30, 2008, the shares owned by an affiliate of the Advisor of

Edgar Filing: BLACKROCK INVESTMENT QUALITY MUNICIPAL TRUST INC - Form N-CSRS

Long-Term Municipal were 9,704.

Shares issued and outstanding for the six months ended April 30, 2008 and the year ended October 31, 2007 increased by the following amounts as a result of dividend reinvestment:

| | Six Months Ended April 30, 2008 | Year Ended October 31, 2007 |
|-------------------------------|---------------------------------------|--------------------------------|
| Investment Quality Municipal | 87,230 | 83,554 |

Each Trust pays commissions to certain broker-dealers at the end of each auction at an annual rate of 0.25%, calculated on the aggregate principal amount. For the six months ended April 30, 2008, Merrill Lynch, Pierce, Fenner & Smith Incorporated earned commissions as follows:

Commissions

| | | |
|------------------------------|----|--------|
| Investment Quality Municipal | \$ | 65,679 |
| Municipal Income | | 78,338 |
| California Income | | 27,699 |
| Florida Income | | 22,469 |
| New Jersey Income | | 10,888 |
| New York Income | | 34,877 |

Preferred Shares issued and outstanding for each of the Trusts during the six months ended April 30, 2008 and the year ended October 31, 2007 remained constant.

Dividends on seven-day Preferred Shares are cumulative at a rate which is reset every seven days based on the results of an auction. If the Preferred Shares fail to clear the auction on an auction date, each Trust is required to

Notes to Financial Statements (continued)

pay the maximum applicable rate on the Preferred Shares to holders of such shares for each successive dividend period until such time as the shares are successfully auctioned. The maximum applicable rate on the Preferred Shares is the higher of 110% of the AA commercial paper rate or 110% of 90% of the Kenny S&P 30-day High Grade Index rate divided by 1.00 minus the marginal tax rate. During the six months ended April 30, 2008, the Preferred Shares of each Trust was successfully auctioned at each auction date until February 13, 2008. The low, high and average dividend rates on the Preferred Shares for each Trust for the six months ended April 30, 2008 were as follows:

| | Series | Low | High | Average |
|-------------------------------|--------|--------|--------|---------|
| Investment Quality Municipal | T7 | 2.833% | 4.600% | 3.624% |

Since February 13, 2008 the Preferred Shares of the Trusts failed to clear any of its auctions. As a result, the Preferred Shares dividend rates were reset to the maximum applicable rate which ranged from 2.40% to 4.508%. A failed auction is not an event of default for the Trusts but it is a liquidity event for the holders of the Preferred Shares. A failed auction occurs when there are more sellers of a fund's auction rate preferred shares than buyers. It is impossible to predict how long this imbalance will last. An auction for the Trusts' Preferred Shares may not occur for some time, if ever, and even if liquidity does resume, holders of the Preferred Shares may not have the ability to sell the Preferred Shares at its liquidation preference.

A Trust may not declare dividends or make other distributions on Common Shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares is less than 200%.

The Preferred Shares are redeemable at the option of each Trust, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated unpaid dividends whether or not declared. The Preferred Shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of a Trust, as set forth in each Trust's Statement of Preferences/Certificate of Designation/Articles Supplementary, are not satisfied.

Edgar Filing: BLACKROCK INVESTMENT QUALITY MUNICIPAL TRUST INC - Form N-CSRS

The holders of Preferred Shares have voting rights equal to the holders of Common Shares (one vote per share) and will vote together with holders of Common Shares (one vote per share) as a single class. However, holders of Preferred Shares, voting as a separate class, are also entitled to elect two Trustees for each Trust. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Shares, (b) change a Trust's sub-classification as a closed-end investment company or change its fundamental investment restrictions or (c) change its business so as to cease to be an investment company.

5. Capital Loss Carryforward:

As of October 31, 2007, the following Trusts had a capital loss carryforward available to offset future realized capital gains through the indicated expiration dates:

| | Capital Loss Carryforward Amount | Expires |
|-------------------------------|--|---------|
| Investment Quality Municipal | \$ 728,359 | 2014 |

6. Concentration Risk:

Each Trust's investments are concentrated in certain states, which may be affected by adverse financial, social, environmental, economic, regulatory and political factors.

Many municipalities insure repayment of their bonds, which reduces the risk of loss due to issuer default. The market value of these bonds may fluctuate for other reasons and there is no assurance that the insurer will meet its obligation.

Notes to Financial Statements (concluded)

7. Subsequent Events:

The Trusts paid an ordinary income dividend in the following amounts per share on June 2, 2008 to shareholders of record on May 15, 2008:

| | Common Dividend Per Share |

Additional Information

Availability of Quarterly Schedule of Investments

Each Trust files their complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. Each Trust s Forms N-Q are available on the SEC s website at <http://www.sec.gov> and may also be reviewed and copied at the SEC s Public Reference Room in Washington, DC.

Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330. Each Trust s Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762.

Electronic Delivery

Electronic copies of most financial reports are available on the Trusts website or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports and prospectuses by enrolling in the Trusts electronic delivery program.

Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

General Information

The Trusts will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called householding and it is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be househanded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact the Trusts at (800) 441-7762

Quarterly performance, semi-annual and annual reports and other information regarding each Trust may be found on BlackRock s website, which can be accessed at <http://www.blackrock.com>. This reference to BlackRock s website is intended to allow investors public access to information regarding each Trust and does not, and is not intended to, incorporate BlackRock s website into this report.

Section 19 Notices

These amounts are sources of distributions reported are only estimates and are not being provided for tax reporting purposes. The actual amounts and source for tax reporting purposes will depend upon the Trust s investment experience during the remainder of its fiscal year end and may be subject to changes based on the tax regulations. The Trust will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

Additional Information (concluded)

Deposit Securities

Effective May 30, 2008, following approval by the Trusts Board and the applicable ratings agencies, the definition of Deposited Securities in the Trusts Statement of Preference/Certificate of Designation/Articles Supplementary was amended in order to facilitate the redemption of the Trusts Preferred Shares. The following phrase was added to the definition of Deposit Securities found in the Trusts Statement of Preference/Certificate of Designation/Articles Supplementary:

; provided, however, that solely in connection with any redemption of AMPS, the term Deposit Securities shall include (i) any committed financing pursuant to a credit agreement, reverse repurchase agreement facility or similar credit arrangement, in each case which makes available to the Corporation, no later than the day preceding the applicable redemption date, cash in an amount not less than the aggregate amount due to Holders by reason of the redemption of their shares of AMPS on such redemption date; and (ii) cash amounts due and payable to the Corporation out of a sale of its securities if such cash amount is not less than the aggregate amount due to Holders by reason of the redemption of their shares of AMPS on such redemption date and such sale will be settled not later than the day preceding the applicable redemption date.

BlackRock Privacy Principles

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, Clients) and to safeguarding their nonpublic personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal nonpublic information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to nonaffiliated third parties any nonpublic information about its Clients, except as permitted by law or as necessary to service Client accounts. These nonaffiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to nonpublic personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the nonpublic personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

This report is transmitted to shareholders only. It is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Trusts have leveraged their Common Shares, which creates risks for Common Shareholders, including the likelihood of greater volatility of net asset value and market price of the Common Shares and the risk that fluctuations in the short-term dividend rates of the Preferred Shares, currently set at the maximum reset rate as a result of failed auctions, may affect the yield to Common Shareholders. Statements and other information herein are as dated and are subject to change.

A description of the policies and procedures that the Trusts use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free (800) 411-7762; (2) at www.blackrock.com; and (3) on the Securities and Exchange Commission's website at <http://www.sec.gov>. (b) Effective March 1, 2008, Timothy T. Browse joined the Registrant's portfolio management team. Messrs. Theodore R. Jaeckel, Jr. and Walter O'Connor, previously identified in response to paragraph (a) of this item in the Registrant's most recent annual report, continue as members of the Registrant's portfolio management team.

(a)(1) BlackRock Investment Quality Municipal Trust, Inc. is managed by a team of investment professionals. As of March 1, 2008, the lead members of this team are Timothy T. Browse, Vice President at BlackRock, Theodore R. Jaeckel, Jr., CFA, Managing Director at BlackRock, and Walter O'Connor, Managing Director at BlackRock. Each is a member of BlackRock's municipal tax-exempt management group. Mr. Jaeckel, Mr. O'Connor and Mr. Browse are responsible for the day-to-day management of the Fund's portfolio, including setting the Fund's overall investment strategy, overseeing the management of the Fund and/or selecting the Fund's investments. Messrs. Jaeckel and O'Connor have been members of the Fund's management team since 2006 and Mr. Browse has been the Fund's portfolio manager since 2008.

Mr. Browse joined BlackRock in 2006. Prior to joining BlackRock, he was a Vice President (Municipal Tax-Exempt Fund Management) of MLIM from 2004 to 2006. He has been a portfolio manager with BlackRock or MLIM since 2004. From 2000 to 2003, he was a Vice President, portfolio manager and team leader of the Municipal Investment Team with Lord Abbott & Co.

(iv) Potential Material Conflicts of Interest

BlackRock has built a professional working environment, firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. BlackRock has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, BlackRock furnishes investment management and advisory services to numerous clients in addition to the Fund, and BlackRock may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to BlackRock, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made for the Funds. In addition, BlackRock, its affiliates and any officer, director, stockholder or employee may or may not have an interest in the securities whose purchase and sale BlackRock recommends to the Fund. BlackRock, or any of its affiliates, or any officer, director, stockholder, employee or any member of their families may take different actions than those recommended to the Fund by BlackRock with respect to the same securities. Moreover, BlackRock may refrain from rendering any advice or services concerning securities of companies of which any of BlackRock's (or its affiliates') officers, directors or employees are directors or officers, or companies as to which BlackRock or any of its affiliates or the officers, directors or employees of any of them has any substantial economic interest or possesses material non-public information. Each portfolio manager also may manage accounts whose investment strategies may at times be opposed to the strategy utilized for a Fund. In this regard, it should be noted that Mr. Jaeckel currently manages certain accounts that are subject to performance fees. In addition, Mr. Jaeckel assists in managing certain hedge funds and may be entitled to receive a portion of any incentive fees earned on such funds and a portion of such incentive fees may be voluntarily or involuntarily deferred. Additional portfolio managers may in the future manage other such accounts or funds and may be entitled to receive incentive fees.

As a fiduciary, BlackRock owes a duty of loyalty to its clients and must treat each client fairly. When BlackRock purchases or sells securities for more than one account, the trades must be allocated in a manner consistent with its fiduciary duties. BlackRock attempts to allocate investments in a fair and equitable manner among client accounts, with no account receiving preferential treatment. To this end, BlackRock has adopted a policy that is intended to ensure that investment opportunities are allocated fairly and equitably among client accounts over time. This policy also seeks to achieve reasonable efficiency in client transactions and provide BlackRock with sufficient flexibility to allocate investments in a manner that is consistent with the particular investment discipline and client base.

(a)(3) As of April 30, 2008:

Portfolio Manager Compensation Overview

BlackRock's financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The principal components of compensation include a base salary, a performance-based discretionary bonus, participation in various benefits programs and one or more of the

incentive compensation programs established by BlackRock such as its Long-Term Retention and Incentive Plan.

Base compensation. Generally, portfolio managers receive base compensation based on their seniority and/or their position with the firm. Senior portfolio managers who perform additional management functions within the portfolio management group or within BlackRock may receive additional compensation for serving in these other capacities.

Discretionary Incentive Compensation

Discretionary incentive compensation is a function of several components: the performance of BlackRock, Inc., the performance of the portfolio manager's group within BlackRock, the investment performance, including risk-adjusted returns, of the firm's assets under management or supervision by that portfolio manager relative to predetermined benchmarks, and the individual's seniority, role within the portfolio management team, teamwork and contribution to the overall performance of these portfolios and BlackRock. In most cases, including for the portfolio managers of the Fund, these benchmarks are the same as the benchmark or benchmarks against which the performance of the Fund or other accounts managed by the portfolio managers are measured. BlackRock's Chief Investment Officers determine the benchmarks against which the performance of funds and other accounts managed by each portfolio manager is compared and the period of time over which performance is evaluated. With respect to the portfolio managers, such benchmarks for the Fund include a combination of market-based indices (e.g., Lehman Brothers Municipal Bond Index), certain customized indices and certain fund industry peer groups.

BlackRock's Chief Investment Officers make a subjective determination with respect to the portfolio managers' compensation based on the performance of the funds and other accounts managed by each portfolio manager relative to the various benchmarks noted above. Performance is measured on both a pre-tax and after-tax basis over various time periods including 1, 3, 5 and 10-year periods, as applicable.

Distribution of Discretionary Incentive Compensation

Discretionary incentive compensation is distributed to portfolio managers in a combination of cash and BlackRock, Inc. restricted stock units which vest ratably over a number of years. The BlackRock, Inc. restricted stock units, if properly vested, will be settled in BlackRock, Inc. common stock. Typically, the cash bonus, when combined with base salary, represents more than 60% of total compensation for the portfolio managers. Paying a portion of annual bonuses in stock puts compensation earned by a portfolio manager for a given year [at risk] based on the BlackRock's ability to sustain and improve its performance over future periods.

Long-Term Retention and Incentive Plan ([LTIP]) [The LTIP is a long-term incentive plan that seeks to reward certain key employees. Beginning in 2006, awards are granted under the LTIP in the form of BlackRock, Inc. restricted stock units that, if properly vested and subject to the attainment of certain performance goals, will be settled in BlackRock, Inc. common stock. Each portfolio manager has received awards under the LTIP.

Deferred Compensation Program [A portion of the compensation paid to eligible BlackRock employees may be voluntarily deferred into an account that tracks the performance of certain of the firm's investment products. Each participant in the deferred compensation program is

permitted to allocate his deferred amounts among the various investment options. Each portfolio manager has participated in the deferred compensation program.

Other compensation benefits. In addition to base compensation and discretionary incentive compensation, portfolio managers may be eligible to receive or participate in one or more of the following:

Incentive Savings Plans BlackRock, Inc. has created a variety of incentive savings plans in which BlackRock employees are eligible to participate, including a 401(k) plan, the BlackRock Retirement Savings Plan (RSP), and the BlackRock Employee Stock Purchase Plan (ESPP). The employer contribution components of the RSP include a company match equal to 50% of the first 6% of eligible pay contributed to the plan capped at \$4,000 per year, and a company retirement contribution equal to 3% of eligible compensation, plus an additional contribution of 2% for any year in which BlackRock has positive net operating income. The RSP offers a range of investment options, including registered investment companies managed by the firm. BlackRock contributions follow the investment direction set by participants for their own contributions or, absent employee investment direction, are invested into a balanced portfolio. The ESPP allows for investment in BlackRock common stock at a 5% discount on the fair market value of the stock on the purchase date. Annual participation in the ESPP is limited to the purchase of 1,000 shares or a dollar value of \$25,000. Each portfolio manager is eligible to participate in these plans.

(a)(4) *Beneficial Ownership of Securities.* As of April 30, 2008, Mr. Browse did not beneficially own any stock issued by the Fund.

Item 9 Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers Not Applicable

Item 10 Submission of Matters to a Vote of Security Holders The registrant's Nominating and Governance Committee will consider nominees to the Board recommended by shareholders when a vacancy becomes available. Shareholders who wish to recommend a nominee should send nominations which include biographical information and set forth the qualifications of the proposed nominee to the registrant's Secretary. There have been no material changes to these procedures.

Item 11 Controls and Procedures

11(a) The registrant's principal executive and principal financial officers or persons performing similar functions have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act")) are effective as of a date within 90 days of the filing of this report based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended.

11(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.
