

ARK RESTAURANTS CORP
Form 10-Q
May 18, 2010

SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended April 3, 2010

Commission file number 0-14030

ARK RESTAURANTS CORP.

(Exact name of registrant as specified in its charter)

New York

(State or other jurisdiction of
incorporation or organization)

13-3156768

(I.R.S. Employer
Identification No.)

85 Fifth Avenue, New York, New York

(Address of principal executive offices)

Registrant's telephone number, including area code: (212) 206-8800

10003

(Zip Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller Reporting Company

Indicate by check mark whether the Registrant is a shell company (as defined in Exchange Act Rule 12b-2).

Yes No

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

Class	Outstanding shares at May 18, 2010
(Common stock, \$.01 par value)	3,489,845

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

We may make statements in this Quarterly Report on Form 10-Q regarding our assumptions, projections, expectations, targets, intentions or beliefs about future events. All statements, other than statements of historical facts, included or incorporated by reference herein relating to management's current expectations of future financial performance, continued growth and changes in economic conditions or capital markets are forward looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934.

Words or phrases such as anticipates, believes, estimates, expects, intends, plans, predicts, projects, targets, will likely continue or similar expressions identify forward looking statements. Forward-looking statements involve risks and uncertainties which could cause actual results or outcomes to differ materially from those expressed. We caution that while we make such statements in good faith and we believe such statements are based on reasonable assumptions, including without limitation, management's examination of historical operating trends, data contained in records and other data available from third parties, we cannot assure you that our projections will be achieved. Factors that may cause such differences include: economic conditions generally and in each of the markets in which we are located, the amount of sales contributed by new and existing restaurants, labor costs for our personnel, fluctuations in the cost of food products, adverse weather conditions, changes in consumer preferences and the level of competition from existing or new competitors.

We have attempted to identify, in context, certain of the factors that we believe may cause actual future experience and results to differ materially from our current expectation regarding the relevant matter of subject area. In addition to the items specifically discussed above, our business, results of operations and financial position and your investment in our common stock are subject to the risks and uncertainties described in Item 1A Risk Factors in Part I of our Annual Report on Form 10-K for the fiscal year ended October 3, 2009 as updated by the information contained under the caption Item 1A. Risk Factors in Part II of this Quarterly Report on Form 10-Q.

From time to time, oral or written forward-looking statements are also included in our reports on Forms 10-K, 10-Q and 8-K, our Schedule 14A, our press releases and other materials released to the public. Although we believe that at the time made, the expectations reflected in all of these forward-looking statements are and will be reasonable, any or all of the forward-looking statements in this Quarterly Report on Form 10-Q, our reports on Forms 10-K and 8-K, our Schedule 14A and any other public statements that are made by us may prove to be incorrect. This may occur as a result of inaccurate assumptions or as a consequence of known or unknown risks and uncertainties. Many factors discussed in this Quarterly Report on Form 10-Q, certain of which are beyond our control, will be important in determining our future performance. Consequently, actual results may differ materially from those that might be anticipated from forward-looking statements. In light of these and other uncertainties, you should not regard the inclusion of a forward-looking statement in this Quarterly Report on Form 10-Q or other public communications that we might make as a representation by us that our plans and objectives will be achieved, and you should not place undue reliance on such forward-looking statements.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. However, your attention is directed to any further disclosures made on related subjects in our subsequent periodic reports filed with the Securities and Exchange Commission on Forms 10-K, 10-Q and 8-K and Schedule 14A.

Unless the context requires otherwise, references to we, us, our, ARKR and the Company refer specifically to Ark Restaurants Corp and its subsidiaries and predecessor entities.

ARK RESTAURANTS CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

April 3, 2010

(Unaudited)

1. CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

The consolidated condensed balance sheet as of October 3, 2009, which has been derived from audited financial statements included in the Form 10-K, and the unaudited interim consolidated and condensed financial statements, have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). All adjustments that, in the opinion of management, are necessary for a fair presentation for the periods presented have been reflected as required by Regulation S-X, Rule 10-01. Such adjustments are of a normal, recurring nature. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These consolidated condensed financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company s annual report on Form 10-K for the year ended October 3, 2009. The results of operations for interim periods are not necessarily indicative of the operating results to be expected for the full year or any other interim period.

PRINCIPLES OF CONSOLIDATION The consolidated condensed interim financial statements include the accounts of the Company and all of its wholly-owned subsidiaries, partnerships and other entities in which it has a controlling interest. Also included in the consolidated condensed interim financial statements are certain variable interest entities. All significant intercompany balances and transactions have been eliminated in consolidation.

RECLASSIFICATIONS Certain reclassifications of prior period balances have been made to conform to the current period presentation.

SEASONALITY The Company has substantial fixed costs that do not decline proportionally with sales. The first and second fiscal quarters, which include the winter months, usually reflect lower customer traffic than in the third and fourth fiscal quarters. In addition, sales in the third and fourth fiscal quarters can be adversely affected by inclement weather due to the significant amount of outdoor seating at the Company s restaurants.

CASH AND CASH EQUIVALENTS Cash and cash equivalents, which primarily consist of money market funds, are stated at cost, which approximates fair value. For financial statement presentation purposes, the Company considers all highly liquid investments having original maturities of three months or less to be cash equivalents. Outstanding checks in excess of account balances, typically vendor payments, payroll and other contractual obligations disbursed on or near the last day of a reporting period are reported as a current liability in the accompanying consolidated condensed balance sheets.

AVAILABLE-FOR-SALE SECURITIES Available-for-sale securities consist primarily of US Treasury Bills and Notes, all of which have a high degree of liquidity and are reported at fair value, with unrealized gains and losses recorded in accumulated other comprehensive income (loss). The cost of investments in available-for-sale securities is determined on a specific identification basis. Realized gains or losses and declines in value judged to be other than temporary, if any, are reported in Other income, net. The Company evaluates its investments periodically for possible impairment and reviews factors such as the length of time and extent to which fair value has been below cost basis and the Company s ability and intent to hold the investment for a period of time which may be sufficient for anticipated recovery in market value.

FAIR VALUE OF FINANCIAL INSTRUMENTS The carrying amount of cash and cash equivalents, investments, receivables, accounts payable and accrued expenses approximate fair value due to the immediate or short-term maturity of these financial instruments. The fair value of notes payable is determined using current applicable rates for similar instruments as of the balance sheet date and approximates the carrying value of such debt.

NEW ACCOUNTING STANDARDS ADOPTED IN FISCAL 2010 In December 2007, the Financial Accounting Standards Board (FASB) issued authoritative guidance which establishes principles and requirements for the reporting entity in a business combination, including recognition and measurement in the financial statements of the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree. This guidance also establishes disclosure requirements to enable financial statement users to evaluate the nature and financial effects of the business combination. This guidance applies to business combinations for which the acquisition date is on or after the

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

beginning of the first annual reporting period beginning on or after December 15, 2008, which corresponds to the Company's fiscal year beginning October 4, 2009 and has not had any impact as the Company has not completed any acquisitions since its effectiveness.

- 7 -

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

In December 2007, the FASB issued authoritative guidance to establish accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. This guidance defines a non-controlling interest, previously referred to as minority interest, as the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. It also requires, among other items, that a non-controlling interest be included in the consolidated balance sheet within equity separate from the parent's equity; consolidated net income to be reported at amounts inclusive of both the parent's and non-controlling interest's shares and, separately, the amounts of consolidated net income attributable to the parent and non-controlling interest all on the consolidated statement of operations; and if a subsidiary is deconsolidated, any retained non-controlling equity investment in the former subsidiary be measured at fair value and a gain or loss be recognized in net income (loss) based on such fair value. This guidance is effective for fiscal years beginning after December 15, 2008 and, accordingly, was adopted as of October 4, 2009. As a result of the adoption, the Company has reported non-controlling interests as a component of equity in the consolidated condensed balance sheets and the net losses attributable to non-controlling interests have been separately identified in the consolidated condensed statements of operations. The prior periods presented have also been retrospectively restated to conform to the current classification requirements. Other than the change in presentation of non-controlling interests, the adoption of this guidance had no impact on the consolidated condensed financial statements.

NEW ACCOUNTING STANDARDS NOT YET ADOPTED In June 2009, the FASB issued a new accounting pronouncement, which is included in ASC Topic 810: Consolidation, which amends the consolidation guidance applicable to variable interest entities and is effective as of the beginning of the first annual reporting period that begins after November 15, 2009, which corresponds to the Company's fiscal year beginning October 3, 2010. The Company is currently evaluating the impact that the adoption of this guidance may have on its consolidated financial statements and required disclosures.

2. RECENT RESTAURANT EXPANSION

In June 2008, the Company entered into an agreement to design and lease a restaurant, *Robert*, at The Museum of Arts & Design at Columbus Circle in New York City. The initial term of the lease for this facility will expire on December 31, 2024 and has two five-year renewals. This restaurant opened during the first quarter of fiscal 2010 and as a result the consolidated condensed statement of operations for the 26 weeks ended April 3, 2010 includes \$439,000 of pre-opening and early operating losses related to this facility. These losses were incurred during the Company's first quarter of fiscal 2010 which ended January 2, 2010.

3. INVESTMENT SECURITIES

The fair values of the Company's investment securities are determined in accordance with GAAP, with fair value being defined as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the Company utilizes the three-tier value hierarchy, as prescribed by GAAP, which prioritizes the inputs used in measuring fair value as follows:

Level 1 - inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2 - inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

The following available-for-sale securities (which all mature within one year) are re-measured to fair value on recurring basis and are valued using Level 1 inputs:

	<u>Amortized Cost</u>	<u>Gross Unrealized Holding Gains</u>	<u>Gross Unrealized Holding Losses</u>	<u>Fair Value</u>
At April 3, 2010				
Available for sale short-term:				
Government debt securities	\$ 1,978,000	\$ 5,000	\$	\$ 1,983,000
At October 3, 2009				
Available for sale short-term:				
Government debt securities	\$ 8,168,000	\$	\$ (29,000)	\$ 8,139,000

Proceeds from the sale and redemption of investment securities amounted to \$9,927,000 and \$7,343,000 for the 26-week periods ended April 3, 2010 and March 28, 2009, respectively. Proceeds from the sale and redemption of investment securities amounted to \$5,439,000 and \$2,099,000 for the 13-week periods ended April 3, 2010 and March 28, 2009, respectively. Included in Other income (expense), net are realized losses in the amounts of \$53,000 and \$52,000 for the 26-week periods ended April 3, 2010 and March 28, 2009, respectively, related to these sales and redemptions. No realized gains or losses were included in Other income (expense), net for the 13-week period ended April 3, 2010 related to these sales and redemptions. Included in Other income (expense), net are realized losses in the amount of \$17,000 for the 13-week period ended March 28, 2009 related to these sales and redemptions.

4. RECEIVABLES FROM EMPLOYEES IN RESPECT OF STOCK OPTION EXERCISES

Receivables from employees in respect of stock option exercises includes amounts due from officers and directors totaling \$29,000 and \$76,000 at April 3, 2010 and October 3, 2009, respectively. Such amounts, which are due from the exercise of stock options in accordance with the Company's Stock Option Plan, are payable on demand with interest at ½% above prime (3.25 % at April 3, 2010).

5. RELATED PARTY TRANSACTIONS

Receivables due from officers and employees, excluding stock option receivables, totaled \$274,000 at April 3, 2010 and \$584,000 at October 3, 2009. Such loans bear interest at the minimum statutory rate (0.64% at April 3, 2010).

6. COMMITMENTS AND CONTINGENCIES

In the ordinary course of its business, the Company is a party to various lawsuits arising from accidents at its restaurants and worker's compensation claims, which are generally handled by the Company's insurance carriers. The employment by the Company of management personnel, waiters, waitresses and kitchen staff at a number of different restaurants has resulted in the institution, from time to time, of litigation alleging violation by the Company of employment discrimination laws. Included in Accrued Expenses and Other Current Liabilities is approximately \$500,000 related to the potential settlement of various claims against the Company.

In February 2010, the Company entered into an amendment to its lease for the food court space at the *New York New York Hotel and Casino* in Las Vegas, Nevada. Pursuant to this amendment, the Company agreed to, among other things, commit no less than \$3,000,000 to remodel the food court by March 2012. In exchange for this commitment the landlord agreed to extend the food court lease for an additional four years.

7. COMMON STOCK REPURCHASE PLAN

On March 25, 2008, the Board of Directors authorized a stock repurchase program under which up to 500,000 shares of the Company's common stock may be acquired in the open market over the two years following such authorization at the Company's discretion.

The Company did not purchase any shares pursuant to our stock repurchase program during the quarter ended April 3, 2010. Such plan has not been renewed.

8. STOCK OPTIONS

The Company has options outstanding under two stock option plans, the 1996 Stock Option Plan (the 1996 Plan) and the 2004 Stock Option Plan (the 2004 Plan). In 2004 the Company terminated the 1996 Plan. This action terminated the 257,000 authorized but unissued options under the 1996 Plan but it did not affect any of the options previously issued under the 1996 Plan.

Options granted under the 1996 Plan are exercisable at prices at least equal to the fair market value of such stock on the dates the options were granted. The options expire five years after the date of grant and are generally exercisable as to 25% of the shares commencing on the first anniversary of the date of grant and as to an additional 25% commencing on each of the second, third and fourth anniversaries of the grant date.

The 2004 Stock Option Plan, which was approved by shareholders, is the Company's only equity compensation plan currently in effect. Under the 2004 Stock Option Plan, 450,000 options were authorized for future grant. Options granted under the 2004 Plan are exercisable at prices at least equal to the fair market value of such stock on the dates the options were granted. The options expire ten years after the date of grant. During fiscal 2005, options to purchase 194,000 shares of common stock were granted and are exercisable as to 50% of the shares commencing on the first anniversary of the date of grant and as to an additional 50% commencing on the second anniversary of the date of grant. During fiscal 2007, options to purchase 105,000 shares of common stock were granted and are exercisable as to 25% of the shares commencing on the first anniversary of the date of grant and as to an additional 25% commencing on each of the second, third and fourth anniversaries of the grant date. During fiscal 2009, options to purchase 176,600 shares of common stock were granted and are exercisable as to 50% of the shares commencing on the first anniversary of the date of grant and as to an additional 50% commencing on the second anniversary of the date of grant. No options were granted during the 26-week periods ended April 3, 2010 and March 28, 2009.

The fair value of each of the Company's stock options is estimated on the date of grant using a Black-Scholes option-pricing model that uses assumptions that relate to the expected volatility of the Company's common stock, the expected dividend yield of our stock, the expected life of the options and the risk free interest rate.

A summary of stock option activity is presented below:

Options	Shares	Weighted Average Exercise Price	Weighted Average Fair Value	Weighted Average Contractual Term (Yrs.)	Aggregate Intrinsic Value
Outstanding as October 3, 2009	422,100	\$ 22.86	\$ 6.87	7.52	
Granted					
Exercised					
Forfeited/Cancelled					
Outstanding at April 3, 2010	422,100	\$ 22.86	\$ 6.87	7.03	\$
Exercisable at April 3, 2010	245,500	\$ 30.64	\$ 9.27	5.53	\$

Compensation cost is recognized on a straight-line basis over the vesting period during which employees perform related services. As of April 3, 2010, there was approximately \$413,000 of unrecognized compensation cost related to unvested stock options, which is expected to be recognized over a period of approximately two years.

Compensation cost for stock options is included in general and administrative expenses in the Company's consolidated condensed statements of operations. Compensation cost for stock options was approximately \$312,000 and \$156,000 for the 26-week periods ended April 3, 2010 and March 28, 2009, respectively. Compensation cost for stock options was approximately \$156,000 and \$78,000 for the 13-week periods ended April 3, 2010 and March 28, 2009, respectively.

9. INCOME TAXES

The income tax provisions operations for the 26-week periods ended April 3, 2010 and March 28, 2009 reflect effective tax rates of 25.0% and 53.6% (including the tax benefit disclosed below), respectively. The Company expects its effective tax rate for its current fiscal year to be approximately 23.0% to 27.0%, which is significantly lower than the statutory rate as a result of the utilization of tax credits on lower projected

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

taxable income levels. The final annual tax rate cannot be determined until the end of the fiscal year; therefore, the actual tax rate could differ from our current estimates.

- 10 -

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

During the thirteen weeks ended March 28, 2009, the Company recognized a tax benefit of \$97,000 principally as a result of reducing its long term income tax liability for unrecognized tax benefits due to the resolution of a tax audit.

10. INCOME (LOSS) PER SHARE OF COMMON STOCK

Net income (loss) per share is calculated on the basis of the weighted average number of common shares outstanding during each period plus, for diluted earnings per share, the additional dilutive effect of potential common stock. Potential common stock using the treasury stock method consists of dilutive stock options.

For the 13 and 26-week periods ended April 3, 2010, options to purchase 176,600, 145,500 and 100,000 shares of common stock at exercise prices of \$12.04, \$29.60 and \$32.15 per share, respectively, were not included in diluted loss per share as their impact was antidilutive.

For the 13 and 26-week periods ended March 28, 2009, options to purchase 152,500 and 100,000 shares of common stock at exercise prices of \$29.60 and \$32.15 per share, respectively were not included in diluted earnings per share as their impact was antidilutive.

11. DIVIDENDS

On December 1, 2009 and March 1, 2010, our Board of Directors declared quarterly cash dividends in the amount of \$0.25 per share. We intend to continue to pay such quarterly cash dividends for the foreseeable future, however, the payment of future dividends is at the discretion of our Board of Directors and is based on future earnings, cash flow, financial condition, capital requirements, changes in U.S. taxation and other relevant factors.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company had a loss from operations of (\$1,372,000) in the second fiscal quarter of 2010 compared to an operating loss of (\$1,461,000) in the second fiscal quarter of 2009. This improvement resulted primarily from an increase in management fees of \$567,000 combined with improved performance at our non-gaming properties, partially offset by a decrease in performance at our gaming properties.

The Company has substantial fixed costs that do not decline proportionally with sales. The first and second fiscal quarters, which include the winter months, usually reflect lower customer traffic than in the third and fourth fiscal quarters. In addition, sales in the third and fourth fiscal quarters can be adversely affected by inclement weather due to the significant amount of outdoor seating at the Company's restaurants.

Certain reclassifications of prior period balances have been made to conform to the current period presentation.

Revenues

During the Company's second fiscal quarter of 2010, total revenues of \$25,113,000 increased 5.7% compared to total revenues of \$23,756,000 in second fiscal quarter of 2009. The increase in revenues was primarily attributable to sales from our new restaurant, *Robert*, in New York City and higher management fees.

Food and Beverage Sales

On a Company-wide basis, same store sales decreased 2.4% during the second fiscal quarter of 2010 as compared to the same period last year. Same store sales in Las Vegas, which decreased \$708,000 or 5.4% in the second fiscal quarter of 2010 as compared to the second fiscal quarter of 2009, were negatively affected by the continued unwillingness of the public to engage in gaming activities and a decrease in tourism and convention business. Same store sales in New York, which increased \$508,000 or 12.9% during the second fiscal quarter as compared to the second fiscal quarter of 2009, were positively impacted by the unusually mild March which allowed for the early opening of the Company's outdoor seating facilities. Same store sales in Washington D.C. decreased \$359,000 or 11.7% during the second quarter of fiscal 2010 as compared to the same period last year. During the second fiscal quarter of 2009 significant revenue was generated as a result of the inauguration of the President which negatively impacts the quarter to quarter comparison. In addition, Washington D.C. had significant snow storms during the second fiscal quarter of fiscal 2010. Same store sales in Atlantic City decreased \$33,000 or 5.6% while same store sales in Connecticut decreased \$13,000 or 3.5%. Both locations were negatively affected by the continued unwillingness of the public to engage in gaming activities. Boston same store sales increased \$86,000 or 13.4% during the second fiscal quarter of 2010.

During the Company's 26-week period ended April 3, 2010, total revenues of \$50,689,000 were relatively consistent when compared to total revenues of \$50,549,000 in the 26-week period ended March 28, 2009, primarily as a result of: (i) a

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

\$983,000 decrease in revenues at our Washington D.C. properties due to a decrease in catered events and poor weather, and (ii) an \$852,000 decrease in revenues at our Las Vegas properties due to the continued unwillingness of the public to engage in gaming activities and a decrease in tourism and conventions, offset by revenues of \$1,300,000 from our new restaurant, *Robert*, in New York City which opened in December 2009 and an increase in management fees of \$555,000.

Other Income

Other income for the second fiscal quarter of 2010 was \$1,226,000 compared to \$598,000 in the second fiscal quarter of 2009; an increase of 105% due primarily to an increase in management fees from the Company's unconsolidated managed restaurants.

Costs and Expenses

Food and beverage costs for the second quarter of 2010 as a percentage of total revenues were 25.8% and have remained relatively consistent as compared to 25.6% in the second quarter of 2009. These costs for the 26-weeks ended April 3, 2010 as a percentage of total revenues were 25.7% compared to 25.3% in the 26-week period ended March 28, 2009.

Payroll expenses as a percentage of total revenues were 35.0% for the second quarter of 2010 as compared to 34.5% in the second quarter of 2009. Payroll expenses as a percentage of total revenues were 35.1% for the 26-week period ended April 3, 2010 as compared to 33.7% for the 26-week period ended March 28, 2009. The increase in payroll expenses as a percentage of revenue, for the 13 and 26-week periods ended April 3, 2010, was primarily due to the opening of our new restaurant, *Robert*, in New York City, salary increases and increased unemployment insurance costs.

Occupancy expenses as a percentage of total revenues were 15.3% for the second quarter of 2010 as compared to 17.3% in the second quarter of 2009. Occupancy expenses as a percentage of total revenues were 15.9% for the 26-week period ended April 3, 2010 as compared to 16.3% for the 26-week period ended March 28, 2009. These decreases were due primarily to a one-time expense of \$220,000 in the second fiscal quarter of 2009 for a real estate tax adjustment related to a restaurant in Washington D.C.

Other operating costs and expenses remained relatively stable as a percentage of total revenues and were 14.8% for the second quarter of 2010 as compared to 14.6% in the second quarter of 2009 and 14.4% for the 26-week period ended April 3, 2010 as compared to 14.1% for the 26-week period ended March 28, 2009.

General and administrative expenses as a percentage of total revenues were 10.5% for the second quarter of 2010 as compared to 10.5% in the second quarter of 2009 as additional costs of \$78,000 associated with share-based compensation charges were offset by an increase in total revenues. General and administrative expenses as a percentage of total revenues were 10.0% for the 26-week period ended April 3, 2010 as compared to 9.2% for the 26-week period ended March 28, 2009. This increase in general and administrative expenses as a percentage of revenue was primarily due to increased professional fees of \$100,000 and additional share-based compensation of \$156,000.

Income Taxes

The income tax provisions for the 26-week periods ended April 3, 2010 and March 28, 2009 reflect effective tax rates of 25.0% and 53.6% (including the tax benefits previously disclosed), respectively. The Company expects its effective tax rate for its current fiscal year to be approximately 23.0% to 27.0%, which is significantly lower than the statutory rate as a result of the utilization of tax credits on lower projected taxable income levels. The final annual tax rate cannot be determined until the end of the fiscal year; therefore, the actual tax rate could differ from our current estimates.

The Company's overall effective tax rate in the future will be affected by factors such as the level of losses incurred at the Company's New York facilities, which cannot be consolidated for state and local tax purposes, pre-tax income earned outside of New York City, the utilization of state and local net operating loss carryforwards and the utilization of FICA tax credits. Nevada has no state income tax and other states in which the Company operates have income tax rates substantially lower in comparison to New York. In order to utilize more effectively tax loss carryforwards at restaurants that were unprofitable, the Company has merged certain profitable subsidiaries with certain loss subsidiaries.

Liquidity and Capital Resources

Our primary source of capital has been cash provided by operations. We have, from time to time, also utilized equipment financing in connection with the construction of a restaurant and seller financing in connection with the acquisition of a restaurant. We utilize cash from operations primarily to fund the cost of developing and opening new restaurants, acquiring existing restaurants owned by others and remodeling existing restaurants we own.

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

Net cash provided by investing activities for the 26-week period ended April 3, 2010 was \$5,286,000 and resulted from net proceeds from the sales of investment securities partially offset by purchases of fixed assets at existing restaurants and the construction of *Robert* in New York City.

Net cash provided by investing activities for the 26-week period ended March 28, 2009 was \$2,578,000 and resulted from net proceeds from the sales of investment securities partially offset by purchases of fixed assets at existing restaurants and the construction of *Yolos*, a Mexican restaurant located at the Planet Hollywood Resort and Casino located in Las Vegas, Nevada.

Net cash used in financing activities for the 26-week periods ended April 3, 2010 and March 28, 2009 of \$5,291,000 and \$2,104,000, respectively, was principally used for the payment of dividends and purchases of treasury stock.

The Company had a working capital surplus of \$3,268,000 at April 3, 2010 as compared to a working capital surplus of \$5,883,000 at October 3, 2009.

A quarterly cash dividend in the amount of \$0.44 per share was declared on October 12, 2007 and January 11, April 11, July 11 and October 10, 2008. On September 16, 2009, our Board of Directors declared a special cash dividend in the amount of \$1.00 per share. On December 1, 2009 and March 1, 2010, our Board of Directors declared a quarterly cash dividend in the amount of \$0.25 per share. We intend to continue to pay such quarterly cash dividend for the foreseeable future, however, the payment of future dividends is at the discretion of our Board of Directors and is based on future earnings, cash flow, financial condition, capital requirements, changes in U.S. taxation and other relevant factors.

In February 2010, the Company entered into an amendment to its lease for the food court space at the *New York-New York Hotel and Casino* in Las Vegas, Nevada. Pursuant to this amendment, the Company agreed to, among other things, commit no less than \$3,000,000 to remodel the food court by March 2012. In exchange for this commitment the landlord agreed to extend the food court lease for an additional four years.

Recent Restaurant Expansion

In June 2008, the Company entered into an agreement to design and lease a restaurant, *Robert*, at The Museum of Arts & Design at Columbus Circle in New York City. The initial term of the lease for this facility will expire on December 31, 2024 and has two five-year renewals. This restaurant opened during the first quarter of fiscal 2010 and as a result the consolidated condensed statement of operations for the 26 weeks ended April 3, 2010 includes \$439,000 of pre-opening and early operating losses related to this facility.

Critical Accounting Policies

The preparation of financial statements requires the application of certain accounting policies, which may require the Company to make estimates and assumptions of future events. In the process of preparing its consolidated condensed financial statements, the Company estimates the appropriate carrying value of certain assets and liabilities, which are not readily apparent from other sources. The primary estimates underlying the Company's consolidated condensed financial statements include allowances for potential bad debts on accounts and notes receivable, leases, the useful lives and recoverability of its assets, such as property and intangibles, fair values of financial instruments, the realizable value of its tax assets and other matters. Management bases its estimates on certain assumptions, which they believe are reasonable in the circumstances, and actual results could differ from those estimates. Although management does not believe that any change in those assumptions in the near term would have a material effect on the Company's consolidated financial position or the results of operations, differences in actual results could be material to the consolidated condensed financial statements.

The Company's critical accounting policies are described in the Company's Form 10-K for the year ended October 3, 2009. There have been no significant changes to such policies during fiscal 2010, other than the implementation of new authoritative guidance to establish accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary.

Recently Adopted and Issued Accounting Standards

See Note 1 to the Consolidated Condensed Financial Statements for a description of recent accounting pronouncements, including those adopted in fiscal 2010 and the expected dates of adoption and the anticipated impact on the Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company purchases commodities such as chicken, beef, lobster and shrimp for the Company's restaurants. The prices of these commodities may be volatile depending upon market conditions. The Company does not purchase forward commodity contracts because the changes in prices for these items have historically been short-term in nature and, in the Company's view, the cost of the contracts is in excess of the benefits.

The Company's business is also highly seasonal and dependent on the weather. Outdoor seating capacity, such as terraces and sidewalk cafes, are available for dining only in the warm seasons and then only in clement weather.

Item 4T. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this annual report as such term is defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act). Based on this evaluation, our management, including our principal executive officer and principal financial officer, concluded that our disclosure controls and procedures were effective as of April 3, 2010 to ensure that all material information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to them as appropriate to allow timely decisions regarding required disclosure and that all such information is recorded, processed, summarized and reported as specified in the SEC's rules and forms.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during the second quarter of fiscal 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Limitations of the Effectiveness of Internal Control

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system are met. Because of the inherent limitations of any internal control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

- 14 -

PART II
OTHER INFORMATION

Item 1. Legal Proceedings

The Company is not subject to any other pending legal proceedings, other than ordinary routine claims incidental to its business, which the Company does not believe will materially impact results of operations.

Item 1A. Risk Factors

The most significant risk factors applicable to the Company are described in Part I, Item 1A (Risk Factors) of the Company's Annual Report on Form 10-K for the fiscal year ended October 3, 2009 (the 2009 Form 10-K). There have been no material changes to the risk factors previously disclosed in the 2009 Form 10-K. The risks described in the 2009 Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to management may materially adversely affect the Company's business, financial condition, and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth information regarding purchases of our common stock by us and any affiliated purchasers during the 13 weeks ended April 3, 2010.

ISSUER PURCHASES OF EQUITY SECURITIES

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs(1)
Month #1 January 3, 2010 through February 2, 2010	0	Not Applicable	0	393,043
Month #2 February 3, 2010 through March 5, 2010	0	Not Applicable	0	393,043
Month #3 March 6, 2010 through April 3, 2010	0	Not Applicable	0	393,043
Total	0	Not Applicable	0	393,043

(1) On March 25, 2008, our Board of Directors authorized a stock repurchase program under which up to 500,000 shares of our common stock may be acquired in the open market over the two years following such authorization at our discretion. In periods prior to the second fiscal quarter of 2010 we purchased an aggregate 106,957 shares of our common stock. Such program has not been renewed.

Item 3. Defaults upon Senior Securities

None.

Item 5. Other Information

None.
