(Name and address of agent for service)

registrant's telephone number, including area code: 303-444-5483

Date of fiscal year end: NOVEMBER 30, 2003

Date of reporting period: MAY 31, 2003

Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. ss. 3507.

ITEM 1. REPORTS TO STOCKHOLDERS.

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

BOULDER GROWTH & INCOME FUND, INC.

Semi-Annual Report

May 31, 2003

Dear Shareholder:

The Boulder Growth & Income Fund's net asset value ("NAV") on 5/31/03 was \$5.68 per share. This is down \$.91 from the NAV on 11/30/02, the end of the last fiscal year. While this is a decline of 12.6 % (including the \$.065 dividend paid in March), it's not a yardstick to measure our performance. You'll recall the Fund had a one-for-one rights offering in December 2002 when the Fund issued one new share for each existing share at a price of \$4.34 per share. This was \$2.12 per share lower than the NAV on that date, so the Fund's NAV was diluted by approximately \$1.07 per share. Of course even if you participated in the offering, you incurred the \$1.07 per share dilution, but you were able to buy the new shares at a \$2.12 discount to NAV. If you look solely at the performance of the Fund's assets without taking into account the dilution that occurred, the Fund's assets were up about 9% for the 6 months ending 5/31/03. This beat the S&P 500 Index during the same period which had a return of 3.8%.

Picking stocks for the Fund that appreciated by 9% for the 6 months ending 5/31 is a good result. The stocks in the Fund appreciated in value more than the stocks that make up the S&P 500 Index. But it was a roller coaster ride. At the end of December last year, immediately after issuing the new shares in the rights offering, the NAV was diluted from \$6.46 per share down to about \$5.39 per share. As described above, that's not portfolio performance. That's simple mathematics of issuing new shares below NAV. Exhibit 2 shows that the NAV suffered a 25% loss in the first quarter. Approximately 16.6% is explained by the dilution of the NAV. The remaining part of the loss, about 8.4%, was the decline in value of the assets in the Fund. However, by the end of the quarter ending 5/31/03, the NAV was up to \$5.68, a return on NAV of 16.6%. See Exhibit 2 for the Fund's quarterly returns over the last year vs. the S&P 500 Index. These returns include the affect of the dilution from the rights offering.

The total assets in the Fund increased by just over \$24 million from the proceeds of the rights offering in December, bringing total net assets up to about \$61 million. In April, we leveraged the Fund by borrowing \$20 million. That brought total assets up to about \$80 million, but left shareholder's equity at \$60 million. We used the proceeds to increase our holdings in Berkshire Hathaway by purchasing 151 more 'A' shares at an average price of \$71,577. Berkshire is currently at \$74,900 per share, so we've done well. Berkshire Hathaway stock did get as low as \$62,000 in February, but we weren't buyers then. We felt there was too much uncertainty with the war in Iraq, and didn't want to take unnecessary risks. Several other new additions to the Fund during the period were Sara Lee, H&R Block and Fidelity National Financial.

Most of the new investments in the Fund were in REITs (Real Estate Investment Trusts). We bought about \$17.5 million of various REITs in the last 6 months. A complete listing of all the Fund's holdings can be found in the "Portfolio of Investments" section of this report. REITs now make up 26.7% of the Fund's total assets (including leverage). We bumped up against the 25% limit, but shareholders approved a change to the Fund's fundamental investment policy in April, permitting a concentration in REITs; which simply means we will keep more than 25% of the Fund's assets in REITs all the time.

We still have cash available to invest from the proceeds from the leverage, and we are finding some places to put it to work. But we're taking our time, trying to tread carefully in a volatile market. The very last thing we want to do is to put our money into a company and later have it "blow up" on us because of corporate malfeasance or an accounting scandal.

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

Shareholders also approved a change to the Fund's diversified status making it non-diversified. This means the Fund can have more concentrated positions of 5% or greater than we could have under the diversified banner. Right now, Berkshire Hathaway is our only position greater than 5%-- it's about 25% of total assets.

The overall market had a terrible first quarter in 2003 and has had a very good 2nd quarter--so far. The volatility of the market continues to be very high. The S&P Index was about 930 on 11/30/02. It dropped all

the way down to about 800 by mid-March. That's a drop of 14%. Then from mid-March to the end of May, it climbed back from 800 to 960. That's a gain of 20%. That's volatility!! Do we care about this market volatility? Yes and No.

Yes, we care because the volatility in the overall market means there is volatility in the individual stocks that make up these indices. And there are a handful of these individual stocks that we care about. If the volatility causes the price of a good company to go down in sympathy with the rest of the market, and it's a company that we like, we will take that opportunity and be a buyer.

On the flip side, no, we don't care. If the volatility causes a market rise, and happens to take one of the companies we own to a level that is higher than we bought it, we'll likely say, "so what." Unless the market takes the price of one of our stocks to a level that is so ridiculously high that it bears no resemblance to the intrinsic value, we will generally hold onto our investments over a long period of time, riding the market up and down. We'll never make any real money flipping hamburgers or stocks, so we won't.

Within BIF's portfolio, some of the better performers (having an impact) during the 6 months ending 5/31/03 were USG Corporation up 49%, Provident Financial up 48%, and Alliant Energy up 23%. On the downside, some of the under-performers were Northwestern, Safeway and Schering-Plough down 67%, 21% and 19% respectively. REITs, which make up over 25% of the Fund's assets, were the strongest performing sector in the portfolio. On a principal basis, not including dividends, REITs were up about 7% in the period. We're down to only a few remaining bonds left over from when we started as advisors to the Fund in January 2002. The handful of bonds that we did hang onto performed well during the period, rebounding from lows reached last year. We will eventually sell all the remaining bonds that we inherited.

INTEREST RATES

Interest rates are at historical lows. The 10-year US Treasury Note is currently yielding 3.36%, and a 3 year is yielding 1.54%. Anything under one year is below 1%. We haven't seen rates this low since the administration of Dwight D. Eisenhower back in 1958. Now this may all change. No doubt that it will. But nobody knows when, or how quickly, or even which direction. Capital has become cheap, and the demand for money, which drives interest rates, has dwindled. When the market declined in 2000, 2001 and 2002, people (including pension fund managers and corporate treasurers) figured out that earning 2 or 3% on their money is far better than losing 30 or 40% in the market. But as history tells us, their memories will fade.

For many corporations, these low interest rates are providing a very good financing source. Done properly, this financing rewards shareholders of those corporations over a long period.

BIF shareholders are getting great benefits from these low rates through the leverage that was issued. The recent cost of this line of credit was just over

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

2%. We have to pay a little bit higher rate than the US Government gets on their short term T-Bills, but not by much.

Our website at www.boulderfunds.net is an excellent source for information on the Fund. If you've lost your annual report it's there on the site. You will also see on the website information about the Boulder Growth & Income's sister Fund - the Boulder Total Return Fund.

BOULDER GROWTH & INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Boulder Growth & Income Fund, Inc. (the "Fund"), is registered under the Investment Company Act of 1940, as amended, as a closed-end, non-diversified management investment company. The policies described below are followed consistently by the Fund in the preparation of its financial statements in conformity with accounting principles generally accepted in the United States of America.

PORTFOLIO VALUATION: The net asset value of the Fund is determined by the Fund's administrator no less frequently than on the last business day of each week and month. It is determined by dividing the value of the Fund's net assets by the number of shares of Common Stock outstanding. The value of the Fund's net assets is deemed to equal the value of the Fund's total assets less the Fund's liabilities. Securities listed on a national securities exchange are valued on the basis of the last sale on such exchange or the NASDAQ Official Close Price ("NOCP") on the day of valuation. In the absence of sales of listed securities

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

and with respect to securities for which the most recent sale prices are not deemed to represent fair market value and unlisted securities (other than money market instruments), securities are valued at the mean between the closing bid and asked prices, or based on a matrix system which utilizes information (such as credit ratings, yields and maturities) from independent sources. Investments for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including reference to valuations of other securities which are considered comparable in quality, maturity and type. Investments in money market instruments, which mature in 60 days or less at the time of purchase, are valued at amortized cost.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on ex-dividend dates. Interest income is recorded on the accrual basis, with premiums and discounts being amortized or accreted, respectively.

Cash distributions received from the Fund's investment in real estate investment trust ("REITs") and registered investment companies ("RICs") are recorded as income. If the Fund is subsequently informed that such distributions received or a portion thereof are designated as returns of capital, the Fund will reclassify such amounts from income and reduce the cost basis of such securities.

REPURCHASE AGREEMENTS: The Fund may engage in repurchase agreement transactions. The Fund's Management reviews and approves periodically the eligibility of the banks and dealers with which the Fund enters into repurchase agreement transactions. The value of the collateral underlying such transactions is at least equal at all times to the total amount of the repurchase obligations, including interest. The Fund maintains possession of the collateral and, in the event of counterparty default, the Fund has the right to use the collateral to offset losses incurred. There is the possibility of loss to the Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS: Dividends from net investment income, if any, are expected to be declared and paid annually. The Fund had been declaring and paying dividends quarterly, however the Fund's Board of Directors changed this policy to an annual payout rather than quarterly at the April 2002 Board of Directors meeting. Distributions to shareholders are recorded on the ex-dividend date. Any net realized short-term capital gains will be distributed to shareholders at least annually. Any net realized long-term capital gains may be distributed to shareholders at least annually or may be retained by the Fund as determined by the Fund's Board of Directors. Capital gains retained by the Fund are subject to tax at the corporate tax rate. Subject to the Fund qualifying as a registered investment company, any taxes paid by the Fund on such net realized long-term gains may be used by the Fund's Shareholders as a credit against their own tax liabilities.

FEDERAL INCOME TAXES: The Fund intends to qualify as a registered investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to RICs and intends to distribute substantially all of its taxable net investment income to its shareholders. Therefore, no Federal income tax provision is required.

Income and capital gain distributions are determined and characterized in accordance with income tax regulations, which may differ from generally accepted accounting principles. These differences are primarily due to (1) differing treatments of income and gains on various investment securities held by the Fund, including timing differences, (2) the attribution of expenses against certain components of taxable investment income, and (3) federal regulations

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

requiring proportional allocation of income and gains to all classes of Shareholders. The Internal Revenue Code of 1986, as amended, imposes a 4% nondeductible excise tax on the Fund to the extent the Fund does not distribute by the end of any calendar year at least (1) 98% of the sum of its net investment income for that year and its capital gains (both long term and short term) for its fiscal year and (2) certain undistributed amounts from previous years.

OTHER: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)--(CONTINUED)

2. INVESTMENT CO-ADVISORY FEES, DIRECTORS' FEES, ADMINISTRATION FEE, CUSTODY FEE AND TRANSFER AGENT FEE

Boulder Investment Advisers, L.L.C. ("BIA") and Stewart Investment Advisers ("SIA") serve as the Fund's Co-Investment Advisers (the "Advisers"). The Fund pays the Advisers a monthly fee at an annual rate of 1.25% of the value of the Fund's average monthly net assets. The equity owners of BIA are Evergreen Atlantic, LLC, a Colorado limited liability company ("EALLC"), and the Lola Brown Trust No. 1B (the "Lola Trust"), each of which is considered to be an "affiliated person" of the Fund as that term is defined in the 1940 Act. Stewart West Indies Trading Company, Ltd. is a Barbados international business company doing business as Stewart Investment Advisers. SIA receives a monthly fee equal to 75% of the fees earned by the Advisers, and BIA receives 25% of the fees earned by the Advisers. The equity owner of SIA is the Stewart West Indies Trust, considered to be an "affiliated person" of the Fund as that term is defined in the 1940 Act. The Advisers agreed to waive one half of their fee on the proceeds from the December 2002 rights offering, and on the proceeds from the \$20 million Line of Credit with Custodial Trust Company of Bear Stearns on April 16, 2003, until such time as more than 50% of the respective proceeds plus cash on hand at the time the proceeds are received, are invested.

Fund Administrative Services, LLC ("FAS") serves as the Fund's Administrator. Under the Administration Agreement, FAS provides certain administrative and executive management services to the Fund including: providing the Fund's principal offices and executive officers, overseeing and administering all contracted service providers, making recommendations to the Board regarding policies of the Fund, conducting shareholder relations, authorizing expenses and other administrative tasks. Under the Administration Agreement, the Fund pays FAS a monthly fee, calculated at an annual rate of 0.30% of the value of the Fund's average monthly net assets out of which FAS is required to pay any fees for outsourcing any administrative, custodial or transfer agency services, which it has done. The equity owners of FAS are EALLC and the Lola Trust, each of which is considered to be an "affiliated person" of the Fund as that term is defined in the 1940 Act.

Effective January 28, 2002, the Fund pays each Director who is not a director, officer or employee of the Advisers or FAS a fee of \$3,000 for each in-person meeting of the Board of Directors and \$500 for each telephone meeting. In addition, the Fund will reimburse all Directors for travel and out-of-pocket expenses incurred in connection with such meetings.

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

FAS has hired PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., to serve as the Fund's Sub-administrator and Custodian. As Sub-administrator, PFPC calculates the net asset value of the Fund's shares and generally assists in all aspects of the Fund's administration and operation. FAS pays PFPC a fee on a monthly basis based on average net assets. PFPC Trust company, an indirect subsidiary of The PNC Financial Services Group Inc., serves as the Fund's Custodian. As compensation to PFPC Trust Company, FAS pays PFPC Trust Company a monthly fee based on the Fund's average monthly gross assets.

Mellon Investor Services, LLC ("Mellon"), serves as the Fund's Transfer Agent. FAS pays Mellon an annual Transfer Agent fee as well as certain expenses. The Fund may also pay for certain out-of-pocket expenses.

3. CHANGE IN THE FUND'S INVESTMENT POLICIES, INVESTMENT ADVISERS AND RISKS INVOLVED

CHANGE IN INVESTMENT POLICIES

At a meeting held January 23, 2002, the Board of Directors voted to eliminate the Fund's non-fundamental investment policy which prohibited the Fund from investing for purposes of control or management of any company. Removal of this restriction provides the Fund with flexibility to consider a full range of reasonable investment options when the Advisers consider a particular investment. The Advisers currently do not intend to pursue this type of investment in most circumstances.

The Board also voted to eliminate the Fund's non-fundamental investment policy which prohibited the Fund from investing in other registered investment companies. Under current law, the Fund is able to purchase up to 3% of the voting securities of any one RIC and invest up to an aggregate of 10% of the Fund's assets in RICs.

CHANGE IN PORTFOLIO MANAGER

On April 26, 2002, shareholders approved new advisory agreements with BIA and SIA, resulting in a change to the persons who are primarily responsible for the day-to-day management of the Fund's portfolio. Stewart R. Horejsi is the primary portfolio manager for SIA and is the Fund's primary portfolio manager. He is responsible for the day-to-day strategic management of the Fund's assets. Mr. Horejsi has full discretion regarding specific investment decisions and the Fund's asset allocation among cash, common stocks and fixed income investments. In addition to the Fund, Mr. Horejsi has also managed the Boulder Total Return Fund, Inc. ("BTF")

12

BOULDER GROWTH & INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)--(CONTINUED)

since August 1999. BTF is a closed-end registered investment company traded on the NYSE. Mr. Horejsi was General Manager of Brown Welding Supply, LLC, from April 1994 until the company's sale in 1999; and the President or Manager of various subsidiaries associated with the Horejsi family since the early 1980's. Mr. Horejsi has been the investment adviser for the Horejsi family trusts (i.e., the Lola Brown Trust, the Ernest Horejsi Trust No. 1B, the Stewart R. Horejsi Trust No. 2 and certain other related trusts and affiliates) since the early 1980's. As of July 31, 2002, the size of these trusts' and affiliates' common stock portfolio was approximately \$574 million. Mr. Horejsi has been the Director and President of the Horejsi Family Charitable Foundation, Inc. since

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

1997. Mr. Horejsi received a Masters Degree in Economics from Indiana University in 1961 and a Bachelor of Science Degree in Industrial Management from the University of Kansas in 1959.

Carl D. Johns, the Fund's Vice President and Treasurer, is responsible for managing the bonds in the Fund's portfolio. Mr. Johns has assisted in the management of BTF since August 1999. Prior to joining BIA, he worked at Flaherty & Crumrine Incorporated, an investment adviser, from 1992 to 1998. During that period he was an Assistant Treasurer for three NYSE-listed investment companies. Mr. Johns received a Bachelors Degree in Mechanical Engineering at the University of Colorado in 1985, and a Masters Degree in Finance from the University of Colorado in 1991.

CHANGES IN RISK

Risk is inherent in all investing. Investing in any investment company security involves risk, including the risk that you may receive little or no return on your investment or that you may lose part or all of your investment. Therefore, before investing you should consider carefully the following risks that you assume when you invest.

On April 26, 2002, the Fund's shareholders approved changes to the Fund's investment objective and certain investment restrictions. As a result of the changes to the Fund, the primary risks of investing in the Fund have changed.

The Fund formerly held a substantial amount of non-investment grade bonds ("junk bonds"), many of which the Advisers believe are risky investments. The Fund has substantially transitioned away from these investments and has made substantial investment in common stocks, for capital appreciation, as well as common stocks that pay dividends, including real estate investment trusts ("REITs") and other closed-end investment companies ("RICs"). Investing in common stocks may subject shareholders to more risk than investing in bonds. While both bonds and common stocks are subject to market risk (i.e., the risk that the price of a security (a stock or bond) will rise or fall due to various unpredictable market conditions), common stock price variability has been historically greater than that of bonds.

The Fund is now a "non-diversified management company" as defined by the Investment Company Act of 1940, as amended (the "1940 Act"). This permits the Fund to buy significant positions in stocks of companies that the Advisers find attractive, resulting in the Fund holding larger positions in fewer companies. A more concentrated portfolio may cause the Fund's net asset value to be more volatile than it has been historically and thus may subject shareholders to more risk. The Fund may hold a substantial position (up to 25% of its assets) in the common stock of a single issuer. As of May 31, 2003, the Fund held a significant position in Berkshire Hathaway, Inc., and thus, the volatility of the Fund's common stock, and the Fund's net asset value and its performance in general, depends disproportionately more on the performance of this single issuer than that of a more diversified fund.

At the April 2003 shareholder meeting, Shareholders approved a proposal that permits the Fund to be concentrated in REITs (real estate investment trusts). REITs are securities of companies whose primary objective is investment in real property or providing services to real property interests. The Fund must invest at least 25% of its assets in REIT securities. The Fund intends to invest in REIT securities primarily for income. Risks associated with investing in REITs include the potential for loss of value if there is an underlying decline in value of the properties in which the REIT invests. Property valuations may rise and fall with either local economic conditions or with the national economy. Furthermore, the dividend income paid by a REIT may be reduced or eliminated. In addition, the Fund bears its ratable share of REIT expenses while still paying management fees on the Fund assets so invested.

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

The Fund may now invest up to 10% of its assets in other investment companies registered under the 1940 Act. The Fund may invest in other closed-end RICs when they are trading at a discount, and when market conditions seem appropriate to the Advisers. The Fund intends to normally invest in RICs that pay dividends. The risks associated with investments in RICs include the risk that the dividend paid by the RIC could be reduced or eliminated. As a shareholder in another fund, the Fund will bear its ratable share of that fund's expenses, including management fees, and remains subject to the Fund's advisory and administrative fees with respect to the assets so invested.

13

BOULDER GROWTH & INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)--(CONTINUED)

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of securities for the period ended May 31, 2003, excluding short-term investments, aggregated \$34,190,469 and \$8,120,340 respectively.

5. COMMON STOCK

At May 31, 2003, 250,000,000 of \$0.01 par value Common Stock were authorized.

6. SIGNIFICANT SHAREHOLDERS

On May 31, 2003, trusts and other entities affiliated with the Horejsi family owned 2,467,800 shares of Common Stock of the Fund, representing approximately 21.79% of the total Fund shares.

7. SHARE REPURCHASE PROGRAM

In accordance with Section 23(c) of the Investment Company Act of 1940, as amended, the Fund hereby gives notice that it may from time to time repurchase shares of the Fund in the open market at the option of the Board of Directors and upon such terms as the Directors shall determine.

8. RIGHTS OFFERING

On October 15, 2002 the Fund's shareholders approved a transferable rights offering which would permit shareholders to acquire one new share for each share held. The rights were transferable, which allowed shareholders who did not wish to exercise their rights to sell them on the New York Stock Exchange. The record date for determining shareholders eligible to participate in the rights offering was November 29, 2002. The subscription period was from December 2, 2002 to December 20, 2002. The market price for the shares issued through the rights offering was calculated based on the volume-weighted average closing price of the Fund's shares from December 16 through December 20, 2002. The rights offering was fully subscribed and the Fund issued 5,663,892 new shares at a price of \$4.34 each. The total gross proceeds to the Fund were \$24,581,291. As of May 31, 2003, the expense associated with the rights offering totaled \$159,614.

9. LOAN OUTSTANDING

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

On February 21, 2003 an agreement between the Fund and Custodial Trust Company of Bear Stearns was reached, in which the Fund may borrow from the Custodial Trust Company an aggregate amount of up to the lesser of \$20,000,000 or the maximum amount the Fund is permitted to borrow under the Investment Company Act of 1940. As of May 31, 2003 the Fund had a loan payable in the amount of \$20,000,000 with a daily interest rate of 2.31625%.

10. DEFERRED COMPENSATION

At May 31, 2003, the Fund had a deferred compensation liability to a former Director of the Fund which totaled \$132,437, including any accrued interest.
