ROMA FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE A – ORGANIZATION

Roma Financial Corporation (the “Company”) is a federally-chartered corporation organized in January 2005 for the purpose of acquiring all of the capital stock that Roma Bank issued in its mutual holding company reorganization. Roma Financial Corporation’s principal executive offices are located at 2300 Route 33, Robbinsville, New Jersey 08691 and its telephone number at that address is (609) 223-8300.

Roma Financial Corporation, MHC is a federally-chartered mutual holding company that was formed in January 2005 in connection with the mutual holding company reorganization. Roma Financial Corporation, MHC has not engaged in any significant business since its formation. So long as Roma Financial Corporation MHC is in existence, it will at all times own a majority of the outstanding stock of Roma Financial Corporation.

Roma Bank is a federally-chartered stock savings bank. It was originally founded in 1920 and received its federal charter in 1991. Roma Bank’s deposits are federally insured by the Deposit Insurance Fund as administered by the Federal Deposit Insurance Corporation. Roma Bank is regulated by the Office of Thrift Supervision and the Federal Deposit Insurance Corporation. The Office of Thrift Supervision also regulates Roma Financial Corporation, MHC and Roma Financial Corporation as savings and loan holding companies.

RomAsia Bank is a federally-chartered stock savings bank. RomAsia Bank received all regulatory approvals on June 23, 2009 to be a federal savings bank and began operations on that date. The Company invested \$13.4 million in RomAsia Bank and currently holds a 89.55% ownership interest. RomAsia Bank is regulated by the Office of Thrift Supervision. Roma Bank and RomAsia Bank are collectively referred to as (the “Banks”).

The Banks offer traditional retail banking services, one-to four-family residential mortgage loans, multi-family and commercial mortgage loans, construction loans, commercial business loans and consumer loans, including home equity loans and lines of credit. Roma Bank operates from its main office in Robbinsville, New Jersey, and thirteen branch offices located in Mercer, Burlington and Ocean Counties, New Jersey. RomAsia Bank operates from one location in Monmouth Junction, New Jersey. As of December 31, 2009, the Banks had 179 full-time employees and 39 part-time employees. Roma Bank maintains a website at www.romabank.com.

Roma Financial Corporation conducted a minority stock offering during 2006 in which 30% of its outstanding stock was sold to the public in a subscription offering. The offering closed July 11, 2006 and the net proceeds from the offering were approximately \$96.1 million (gross proceeds of \$98.2 million for the issuance of 9,819,562 shares, less offering costs of approximately \$2.1 million). The Company also issued 22,584,995 shares to Roma Financial Corporation, MHC and 327,318 shares to the Roma Bank Community Foundation, Inc., resulting in a total of 32,731,875 shares issued and outstanding after the completion of the offering. A portion of the proceeds were loaned to the Roma Bank Employee Stock Ownership Plan (ESOP) to purchase 811,750 shares of the Company’s stock at a cost of \$8.1 million.

Throughout this document, references to “we,” “us,” or “our” refer to the Banks or the Company, or both, as the context indicates.

NOTE B - BASIS OF PRESENTATION

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiary, Roma Bank and Roma Bank's wholly-owned subsidiaries, Roma Capital Investment Corp. (the "Investment Co.") and General Abstract and Title Agency (the "Title Co."), and the Company's majority owned investment of 89.55% in RomAsia Bank. The consolidated statements also include the Company's 50% interest in 84 Hopewell, LLC (the "LLC"), a real estate investment which is consolidated according to the requirements of Accounting Standards Codification Topic 810, Variable Interest Entities. All significant inter-company accounts and transactions have been eliminated in consolidation. These statements were prepared in accordance with instructions for Form 10-Q and Rule 10-01 of Regulation S-X and, therefore, do not include all information or footnotes necessary for a complete presentation of financial condition, results of operations, and cash flows in conformity with generally accepted accounting principles in the United States of America.

NOTE B - BASIS OF PRESENTATION (Continued)

In the opinion of management, all adjustments, consisting of only normal recurring adjustments or accruals, which are necessary for a fair presentation of the consolidated financial statements have been made at and for the three months ended March 31, 2010 and 2009. The results of operations for the three months ended March 31, 2010 are not necessarily indicative of the results which may be expected for the entire fiscal year or other interim periods.

The December 31, 2009 data in the consolidated statements of financial condition was derived from the Company's audited consolidated financial statements for that date. That data, along with the interim financial information presented in the consolidated statements of financial condition, income, changes in stockholders' equity and cash flows should be read in conjunction with the 2009 audited consolidated financial statements for the year ended December 31, 2009, including the notes thereto included in the Company's Annual Report on Form 10-K.

The Investment Co. was incorporated in the State of New Jersey effective September 4, 2004, and began operations October 1, 2004. The Investment Co. is subject to the investment company provisions of the New Jersey Corporation Business Tax Act. The Title Co. was incorporated in the State of New Jersey effective March 7, 2005 and commenced operations April 1, 2005. The Company, together with two individuals, formed a limited liability company, 84 Hopewell, LLC. The LLC was formed to build a commercial office building in which is located the Company's Hopewell branch, corporate offices for the other LLC members construction company and tenant space. The Company invested \$370,000 in the LLC and provided a loan in the amount of \$3.6 million to the LLC. The Company and the other 50% owner's construction company both have signed lease commitments to the LLC.

The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated statements of financial condition and revenues and expenses for the periods then ended. Actual results could differ significantly from those estimates.

A material estimate that is particularly susceptible to significant change relates to the determination of the allowance for loan losses. The allowance for loan losses represents management's best estimate of losses known and inherent in the portfolio that are both probable and reasonable to estimate. While management uses the most current information available to estimate losses on loans, actual losses are dependent on future events and, as such, increases in the allowance for loan losses may be necessary.

In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Banks' allowance for loan losses. Such agencies may require the Banks to recognize additions to the allowance based on their judgments about information available to them at the time of their examinations.

Effective April 1, 2009, the Company adopted Financial Accounting Standards Board (FASB) guidance now codified as FASB ASC Topic 855, Subsequent Events. This guidance establishes general standards for accounting and for disclosure of events that occur after the balance sheet date but before financial statements are issued. The subsequent event guidance sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition in the financial statements, identifies the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in the financial statements, and the disclosures that should be made about events or transactions that occur after the balance sheet date.

NOTE C - CONTINGENCIES

The Company, from time to time, is a party to routine litigation that arises in the normal course of business. In the opinion of management, the resolution of such litigation, if any, would not have a material adverse effect, as of March 31, 2010, on the Company's consolidated financial position or results of operations.

NOTE D – EARNINGS PER SHARE

Basic earnings per share is based on the weighted average number of common shares actually outstanding adjusted for Employee Stock Ownership Plan (“ESOP”) shares not yet committed to be released. Diluted EPS is calculated by adjusting the weighted average number of shares of common stock outstanding to include the effect of outstanding stock options and unvested stock awards, if dilutive, using the treasury stock method. Shares issued and reacquired during any period are weighted for the portion of the period they were outstanding.

Outstanding stock options and restricted stock grants for the three months ended March 31, 2010 were not considered in the calculation of diluted earnings per share because they were antidilutive.

NOTE E – STOCK BASED COMPENSATION

Equity Incentive Plan

At the Annual Meeting held on April 23, 2008, stockholders of the Company approved the Roma Financial Corporation 2008 Equity Incentive Plan. On June 25, 2008 directors, senior officers and certain employees of the Company were granted, in the aggregate, 820,000 stock options and awarded 222,000 shares of restricted stock.

The 2008 Plan enables the Board of Directors to grant stock options to executives, other key employees and nonemployee directors. The options granted under the Plan may be either incentive stock options or non-qualified stock options. The Company has reserved 1,292,909 shares of common stock for issuance upon the exercise of options granted under the 2008 Plan and 517,164 shares for grants of restricted stock. The Plan will terminate in ten years from the grant date. Options will be granted with an exercise price not less than the Fair Market Value of a share of Common Stock on the date of the grant. Options may not be granted for a term greater than ten years. Stock options granted under the Incentive Plan are subject to limitations under Section 422 of the Internal Revenue Code. The number of shares available under the 2008 Plan, the number of shares subject to outstanding options and the exercise price of outstanding options will be adjusted to reflect any stock dividend, stock split, merger, reorganization or other event generally affecting the number of Company’s outstanding shares. At March 31, 2010, there were 472,909 shares available for option grants under the 2008 Plan and 295,164 shares available for grants of restricted stock.

The Company accounts for stock based compensation under FASB ASC Topic 718, “Compensation-Stock Compensation”. ASC Topic 718 covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. ASC Topic 718 requires that compensation cost relating to share-based payment transactions be recognized in the financial statements. The cost is measured based on the fair value of the equity or liability instruments issued.

ASC Topic 718 also requires the Company to realize as a financing cash flow rather than an operating cash flow, as previously required, the benefits of realized tax deductions in excess of previously recognized tax benefits on compensation expense. In accordance with SEC Staff Accounting Bulletin (“SAB”) No. 107, the Company classified share-based compensation for employees and outside directors within “compensation and employee benefits” in the consolidated statement of operations to correspond with the same line item as the cash compensation paid.

The stock options will vest over a five year service period and are exercisable within ten years. Compensation expense for all option grants is recognized over the awards’ respective requisite service period.

Restricted shares, granted on June 25, 2008, vest over a five year service period, management recognizes compensation expense for the fair value of restricted shares on a straight-line basis over the requisite service period of the awards of five years. The number of shares granted and the grant date market price of the Company’s common

stock determines the fair value of the restricted shares under the Company's restricted stock plan.

NOTE E – STOCK BASED COMPENSATION (Continued)

The following is a summary of the status of the Company's stock option activity and related information for the three months ended March 31, 2010:

	Number of Stock Options	Weighted Avg. Exercise Price	Weighted Avg. Remaining Contractual Life	Aggregate Intrinsic Value
Balance at January 1, 2010	820,000	\$13.67		
Granted	-	-		
Exercised	-	-		
Forfeited	-	-		
Balance at March 31, 2010	820,000	\$13.67	8.5 years	\$0.00
Exercisable at March 31, 2010	164,000	\$13.67		

The following is a summary of the status of the Company's restricted shares as of March 31, 2010 and changes during the three months ended March 31, 2010.

	Number of Restricted Shares	Weighted Average Date Fair Value
Non-vested restricted shares at January 1, 2010	177,600	\$ 13.67
Granted	-	-
Forfeited	-	-
Vested	-	-
Non-vested restricted shares at March 31, 2010	177,600	\$ 13.67

Stock option and stock award expenses included in compensation expense was \$300,000 for the three months ended March 31, 2010 and \$300,000 for three months ended March 31, 2009, with a related tax benefit of \$118,000 and \$119,000 respectively. At March 31, 2010, approximately \$3.9 million of unrecognized cost, related to outstanding stock options and restricted shares, which will be recognized over a period of approximately 3.25 years.

Equity Incentive Plan – RomAsia Bank

The stockholders of RomAsia Bank approved an equity incentive plan in 2009. On January 6, 2010, directors, senior officers and certain employees of the RomAsia Bank were granted, in the aggregate, options to purchase 75,500 shares

of RomAsia common stock.

The Plan enables the Board of Directors of RomAsia Bank to grant stock options to executives, other key employees and nonemployee directors. The options granted under the Plan may be either incentive stock options or non-qualified stock options. RomAsia has reserved 225,000 shares of its common stock for issuance upon the exercise of options granted under the Plan. The Plan will terminate in ten years from the grant date. Options will be granted with an exercise price not less than the Fair Market Value of a share of RomAsia's Common Stock on the date of the grant. Options may not be granted for a term greater than ten years. Stock options granted under the Incentive Plan are subject to limitations under Section 422 of the Internal Revenue Code. The number of shares available under the Plan, the number of shares subject to outstanding options and the exercise price of outstanding options will be adjusted to reflect any stock dividend, stock split, merger, reorganization or other event generally affecting the number of Company's outstanding shares. At March 31, 2010, there were 149,500 shares available for option grants under the Plan.

10

NOTE E – STOCK BASED COMPENSATION (Continued)

The stock options will vest over a five year service period and are exercisable within ten years. Compensation expense for all option grants is recognized over the awards' respective requisite service period. The fair value of stock options granted in the three months ended March 31, 2010 was:

Expected life	6.5 years
Risk-free rate	3.33 %
Volatility	25.76 %
Dividend yield	0.0 %
Fair Value	\$ 2.89

The following is a summary of the status of the RomAsia's stock option activity and related information for the three months ended March 31, 2010:

	Number of Stock Options	Weighted Avg. Exercise Price	Weighted Avg. Remaining Contractual Life	Aggregate Intrinsic Value
Balance at January 1, 2010	-	\$-		
Granted	75,500	8.47		
Exercised	-	-		
Forfeited	-	-		
Balance at March 31, 2010	75,500	\$8.47	9.75 years	\$0.00
Exercisable at March 31, 2010	-			

Stock option expense, related to the RomAsia plan included with compensation expense was \$10,000 for the three months ended March 31, 2010, and zero for three months ended March 31, 2009, with a related tax benefit of \$4,300 and zero, respectively. At March 31, 2010, approximately \$208,000 unrecognized cost, related to outstanding stock options, will be recognized over a period of approximately 4.75 years.

Employee Stock Ownership Plan

Roma Bank has an Employee Stock Ownership Plan ("ESOP") for the benefit of employees who meet the eligibility requirements defined in the plan. The ESOP trust purchased 811,750 shares of common stock as part of the stock offering using proceeds from a loan from the Company. The total cost of the shares purchased by the ESOP trust was \$8.1 million, reflecting a cost of \$10 per share. Roma Bank makes cash contributions to the ESOP on a quarterly basis sufficient to enable the ESOP to make the required loan payments to the Company. The loan bears an interest rate of 8.25% with principal and interest payable in equal quarterly installments over a fifteen year period. The loan is secured by the shares of the stock purchased.

Shares purchased with the loan proceeds were initially pledged as collateral for the term loan and are held in a suspense account for future allocation among participants. Contributions to the ESOP and shares released from the

suspense account will be allocated among the participants on the basis of compensation, as described by the Plan, in the year of allocation. As shares are committed to be released from collateral, the Company reports compensation expense equal to the current market price of the shares, and the shares become outstanding for earnings per share computations. Roma Bank made its first loan payment in October 2006. As of March 31, 2010 there were 608,815 unearned shares. The Company's ESOP compensation expense was \$162 thousand and \$157 thousand, respectively, for the three months ended March 31, 2010 and 2009.

NOTE F- REAL ESTATE OWNED VIA EQUITY INVESTMENTS

In 2008, Roma Bank, together with two individuals, formed 84 Hopewell, LLC. The LLC was formed to build a commercial office building which includes Roma Bank's Hopewell branch, corporate offices for the other 50% owners' construction company and tenant space. Roma Bank made a cash investment of approximately \$360,000 in the LLC and provided a loan to the LLC in the amount of \$3.6 million. Roma Bank and the construction company both have signed lease commitments to the LLC. With the adoption of guidance in regards to variable interest entities now codified in FASB ASC Topic 810, "Consolidation", the Company is required to perform an analysis to determine whether such an investment meets the criteria for consolidation into the Company's financial statements. As of March 31, 2010 and December 31, 2009, this variable interest entity met the requirements of ASC Topic 810 for consolidation based on Roma Bank being the primary financial beneficiary. This was determined based on the amount invested by the Bank compared to the other partners to the LLC and the lack of personal guarantees. As of March 31, 2010, the LLC had \$4.0 million in fixed assets and a loan from Roma Bank for \$3.5 million, which was eliminated in consolidation. The LLC had accrued interest payable to the Bank of \$11 thousand at March 31, 2010 and during the three months then ended the Bank had paid \$25 thousand in rent to the LLC. Both of these amounts were eliminated in consolidation. Roma Bank's 50% share of the LLC's net income for the three months ended March 31, 2010 was \$20 thousand.

NOTE G – INVESTMENT SECURITIES

The following summarizes the amortized cost and estimated fair value of securities available for sale at March 31, 2010 and December 31, 2009 with gross unrealized gains and losses therein: (in thousands):

Proceeds from the sale of securities available for sale amounted to \$520 thousand for the three months ended March 31, 2010 with a realized gain of \$23 thousand. There were no sales of securities available for sale for the three months ended March 31, 2009.

Management evaluates securities for other-than-temporary-impairment (“OTTI”) at least on a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation.

In determining OTTI under the ASC Topic 320, management considers many factors, including: (1) the length of time and the extent to which the fair value has been less than amortized cost; (2) the financial condition and near term prospects of the issuer; (3) whether the market decline was affected by macroeconomic conditions, and (4) whether the entity has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. The assessment of whether an other-than-temporary-impairment decline exists involves a high degree of subjectivity and judgment and is based on information available to management at a point in time. An

OTTI is deemed to have occurred if there has been an adverse change in the remaining expected future cash flows.

NOTE G – INVESTMENT SECURITIES (Continued)

When OTTI for debt securities, occurs under the model, the amount of the OTTI recognized in earnings depends on whether an entity intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis. If an entity intends to sell or more likely than not will be required to sell the security before recovery of its amortized cost basis, the OTTI shall be recognized in earnings equal to the entire difference between the investment's amortized cost basis and its fair value at the balance sheet date. If any entity does not intend to sell the security and it is not more likely than not that the entity will be required to sell the security before recovery of its amortized cost basis, the OTTI shall be separated into the amount representing the credit loss and the amount related to all other factors. The amount of the total OTTI related to the credit loss is determined based on the present value of cash flows expected to be collected and is recognized in earnings. The amount of the total OTTI related to other factors shall be recognized in other comprehensive income, net of applicable tax benefit. The previous amortized cost basis less the OTTI recognized in earnings shall become the new amortized cost basis of the investment.

At March 31, 2010, the Company's available for sale and held to maturity debt securities portfolio consisted of 172 securities, of which 167 were in an unrealized loss position for less than twelve months and 5 were in a loss position for more than twelve months. No OTTI charges were recorded for the three months ended March 31, 2010. The Company does not intend to sell these securities and it is not more likely than not that we will be required to sell these securities. Unrealized losses primarily relate to interest rate fluctuations and not credit concerns.

The available for sale mutual funds are a CRA investment and currently have an unrealized loss of approximately \$63 thousand. They have been in a loss position for the last two years with the greatest unrealized loss being approximately \$184 thousand. Management does not believe the mutual fund securities available for sale are OTTI due to reasons of credit quality. Accordingly, as of March 31, 2010, management believes the impairments are temporary and no impairment loss has been realized in the Company's consolidated income statement.

Approximately \$110.0 million of securities held to maturity are pledged as collateral for Federal Home Loan Bank of New York ("FHLB NY") advances, borrowings, and deposits at March 31, 2010.

The following tables set forth the composition of our mortgage-backed securities portfolio as of March 31, 2010 and December 31, 2009 (in thousands):

	March 31, 2010			
	Carrying Value (In Thousands)	Gross Unrealized Gains	Gross Unrealized Gains	Estimated Fair Value
Government National Mortgage Association	\$6,634	\$241	\$-	\$6,875
Federal Home Loan Mortgage Corporation	116,898	5,219	1,130	120,987
Federal National Mortgage Association	133,985	5,453	320	139,118
Collateralized mortgage obligations-GSE's	9,688	444	-	10,132
	\$267,205	\$11,357	\$1,450	\$277,112

NOTE G – INVESTMENT SECURITIES (Continued)

	December 31, 2009			
	Carrying Value	Gross	Gross	Estimated Fair Value
		Unrealized Gains	Unrealized Losses	
		(In Thousands)		
Government National Mortgage Association	\$7,148	\$149	\$21	\$7,276
Federal Home Loan Mortgage Corporation	123,244	5,190	721	127,713
Federal National Mortgage Association	107,294	5,299	23	112,570
Collateralized mortgage obligations	10,740	459	-	11,199
	\$248,426	\$11,097	\$765	\$258,758

The unrealized losses, categorized by the length of time of continuous loss position, and the fair value of related mortgage-backed securities held to maturity are as follows:

	Less than 12 Months		More than 12 Months		Total	
	Fair	Unrealized	Fair	Unrealized	Fair	Unrealized
	Value	Losses	Value	Losses	Value	Losses
	(In Thousands)					
March 31, 2010						
Federal Home Loan Mortgage Corporation	\$12,603	\$1,063	\$2,781	\$67	\$15,384	\$1,130
Federal National Mortgage Association	22,896	320	9	-	22,905	320
	\$35,516	\$1,383	\$2,790	\$ 67	\$38,306	\$1,450

NOTE G – INVESTMENT SECURITIES (Continued)

	Less than 12 Months		More than 12 Months		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
	(In Thousands)					
December 31, 2009						
Government National Mortgage Association	\$994	\$20	\$52	\$1	\$1,046	\$21
Federal Home Loan Mortgage Corporation	5,230	224	1,549	497	6,779	721
Federal National Mortgage Association	-	-	1,131	23	1,131	23
	\$6,224	\$244	\$2,732	\$521	\$8,956	\$765

Management does not believe that any of the individual unrealized losses represent an other-than-temporary impairment. The unrealized losses on mortgage-backed securities relate primarily to fixed interest rate and, to a lesser extent, adjustable interest rate securities. Such losses are the result of changes in interest rates and not credit concerns. The Bank, Investment Co. and RomAsia Bank does not intend to sell these securities and it is not more likely than not that they will be required to sell these securities, therefore, no OTTI is required. As of March 31, 2010, there were 0 Government National Mortgage Association, 20 Federal Home Loan Mortgage Corporation, 11 Federal National Mortgage Association, and zero collateralized mortgage obligations, in unrealized loss positions compared to 5, 13, 3 and zero, respectively, in unrealized loss positions as of December 31, 2009.

NOTE H - LOANS RECEIVABLE, NET

Loans receivable, net at March 31, 2010 and December 31, 2009 were comprised of the following (in thousands):

	March 31, 2010	December 31, 2009
Real estate mortgage loans:		
Conventional 1-4 family	\$256,529	\$251,937
Commercial and multi-family	172,076	172,334
Construction	428,605	424,271
Consumer:		
Equity and second mortgages	25,709	26,162
Other	133,278	133,199
Commercial	1,034	1,024
	134,312	134,223
	12,671	12,302
Total loans	601,297	596,958
Less:		
Allowance for loan losses	6,506	5,243
Deferred loan fees	430	432
Loans in process	5,191	5,524
	12,127	11,199
Total loans receivable, net	\$589,170	\$585,759

Impaired loans and related amounts recorded in the allowance for loan losses are summarized as follows:

	March 31, 2010	December 31, 2009
	(In Thousands)	
Recorded investment in impaired loans without specific allowance	\$22,330	\$16,842
Recorded investment in impaired loans with specific allowance	9,339	7,783
Related allowance for loan losses	(3,635)	(2,483)
	\$28,034	\$22,142

Non-accrual loans increased \$4.0 million to \$18.8 million at March 31, 2010 compared to \$14.8 million at December 31, 2009. Included in the increase is \$3.9 million of commercial loans and \$181 thousand of residential mortgages and equity loans. Approximately 80% of the loans added to the commercial non-performing category represent loans to builder developers. The remaining loan added to commercial non-performing loans was to a restaurant. The Company is taking a proactive approach in identifying loans at an early stage that may be experiencing cash flow deterioration or collateral weakening even though the loan remains current. The Company is in the process of obtaining new appraisals on all substandard real estate loans and any other loans that are identified as having early warning signs of weakening.

NOTE I - DEPOSITS

A summary of deposits by type of account as of March 31, 2010 and December 31, 2009 is as follows (dollars in thousands):

	March 31, 2010		December 31, 2009	
	Amount	Weighted Avg. Int. Rate	Amount	Weighted Avg. Int. Rate
Demand:				
Non-interest bearing checking	\$34,632	0.00 %	\$32,481	0.00 %
Interest bearing checking	129,692	0.44 %	129,505	0.44 %
	164,324	0.35 %	161,986	0.35 %
Savings and club	293,234	0.93 %	275,990	0.91 %
Certificates of deposit	594,098	2.20 %	577,779	2.47 %
Total	\$1,051,656	1.56 %	\$1,015,755	1.71 %

At March 31, 2010, the Company had contractual obligations for certificates of deposit that mature as follows (in thousands):

One year or less	\$ 418,562
After one to three years	150,065
After three years	25,471
Total	\$ 594,098

NOTE J – PREMISES AND EQUIPMENT

Premises and equipment consisted of the following as of March 31, 2010 and December 31, 2009 (in thousands):

	Estimated Useful Lives	December	
		March 31, 2010	31, 2009
Land for future development	-	\$1,054	\$1,054
Construction in progress	-	276	220
Land and land improvements	-	5,428	5,428
Buildings and improvements	20-50 yrs	35,538	35,299
Furnishings and equipment	3-10 yrs.	9,824	9,543
Total premises and equipment		52,120	51,544
Accumulated depreciation		12,895	12,415
Total		\$39,225	\$39,129

NOTE K – FEDERAL HOME LOAN BANK ADVANCES AND SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE

At March 31, 2010 and December 31, 2009, the Banks had outstanding Federal Home Bank of New York (FHLBNY) advances as follows (dollars in thousands):

	March 31, 2010		December 31, 2009	
	Amount	Interest Rate	Amount	Interest Rate
Maturing:				
September 30, 2010	\$1,285	4.49 %	\$1,826	4.49 %

Scheduled principal payments are follows (in thousands):

One year or less	\$1,285
More than one year through three years	-
	\$1,285

At March 31, 2010 and December 31, 2009, Roma Bank and RomAsia Bank also had outstanding FHLBNY advance totaling \$30.0 million and \$23.0 million, respectively. The borrowings are as follow (in thousands):

03/31/010	12/31/2009	Interest Rate	Maturity Date	Call Date
\$ 23,000	\$ 23,000	3.90 %	10/29/2017	10/29/2010
500	-	0.67 %	09/20/2010	-
1,500	-	0.90 %	03/21/2011	-
3,500	-	1.47 %	03/19/2012	-
1,500	-	2.09 %	03/19/2013	-
\$ 30,000	\$ 23,000			

Securities sold under agreements to repurchase are treated as financing and are reflected as a liability in the consolidated statements of financial condition. Securities sold under an agreement to repurchase amounted to \$40.0 million at March 31, 2010 and December 31, 2009. The maturities and respective interest rates are as follows: \$10.0 million maturing in 2015 with a two year call at 3.22%; \$20.0 million maturing in 2018 with a three year call at 3.51%; and \$10.0 million maturing in 2018 with a five year call at 3.955%. The agreement is collateralized by securities described in the underlying agreement which are held in safekeeping by the FHLBNY. At March 31, 2010, the fair value of the mortgage-backed securities used as collateral under the agreement was approximately \$47.1 million.

NOTE L – RETIREMENT PLANS

Components of net periodic pension cost for the three months ended March 31, 2010 and 2009 were as follows (in thousands):

Three Months Ended	
March 31,	
2010	2009

Service cost	\$96	\$97
Interest cost	155	147
Expected return on plan assets	(144)	(123)
Amortization of unrecognized net loss	61	89
Amortization of unrecognized past service liability	4	4
Net periodic benefit expense	\$172	\$214

NOTE M – CONTRACTUAL OBLIGATIONS AND OFF-BALANCE SHEET ARRANGEMENTS

In the normal course of business, the Company enters into off-balance sheet arrangements consisting of commitments to fund residential and commercial loans and lines of credit. Outstanding loan commitments at March 31, 2010 were as follows (in thousands):

	March 31, 2010
Residential mortgage and equity loans	\$13,068
Commercial loans committed not closed	5,684
Commercial lines of credit	31,343
Consumer unused lines of credit	40,578
Commercial letters of credit	4,209
	\$94,882

In the ordinary course of business to meet the financial needs of the Company's customers, the Company is party to financial instruments with off-balance-sheet risk. These financial instruments include unused lines of credit and involve, to varying degrees, elements of credit risk in excess of the amount recognized in the consolidated financial statements. The contract or notional amounts of these instruments express the extent of involvement the Company has in each category of financial instruments.

The Company's exposure to credit loss from nonperformance by the other party to the above-mentioned financial instruments is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments. The contract or notional amount of financial instruments which represent credit risk at March 31, 2010 and December 31, 2009 is as follows (in thousands):

	March 31, 2010	December 31, 2009
Standby by letters of credit	\$4,209	\$4,210
Outstanding loan and credit line commitments	\$90,673	\$67,791

Standby letters of credit are conditional commitments issued by the Company which guarantee performance by a customer to a third party. The credit risk and underwriting procedures involved in issuing letters of credit are essentially the same as that involved in extending loan facilities to customers. These are irrevocable undertakings by the Company, as guarantor, to make payments in the event a specified third party fails to perform under a non-financial contractual obligation. Most of the Company's performance standby letters of credit arise in connection with lending relationships and have terms of one year or less. The current amount of the liability related to guarantees under standby letters of credit issued is not material as of March 31, 2010.

Outstanding loan commitments represent the unused portion of loan commitments available to individuals and companies as long as there is no violation of any condition established in the contract. Outstanding loan commitments generally have a fixed expiration date of one year or less, except for home equity loan commitments which generally have an expiration date of up to 15 years. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral, if any, obtained, upon extension of credit is based upon management's credit evaluation of the customer. While various types of collateral may be held, property is primarily obtained as security. The credit risk involved in these financial instruments is essentially the same as that involved in extending loan facilities to customers.

NOTE M – CONTRACTUAL OBLIGATIONS AND OFF-BALANCE SHEET ARRANGEMENTS (Continued)

The Banks have non-cancelable operating leases for branch offices. The following is a schedule by years of future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year at March 31, 2010: (In thousands)

Year Ended March 31:

2010	\$	491
2011		499
2012		508
2013		525
2014		533
Thereafter		7,006
Total Minimum Payments Required	\$	9,562

Included in the total required minimum lease payments is \$1,831,000 of payments to the LLC. The Company eliminates these payments in consolidation.

NOTE N – FAIR VALUE MEASUREMENTS AND DISCLOSURES

The Company follows the guidance on fair value measurements now codified as FASB ASC Topic 820, “Fair Value Measurements and Disclosures”. Fair value measurements are not adjusted for transaction costs. ASC Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Management uses its best judgment in estimating the fair value of the Company’s financial instruments; however, there are inherent weaknesses in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates herein are not necessarily indicative of the amounts the Company could have realized in a sales transaction on the dates indicated. The estimated fair value amounts have been measured as of their respective period ends and have not been re-evaluated or updated for purposes of these financial statements subsequent to those respective dates. As such, the estimated fair values of these financial instruments subsequent to the respective reporting dates may be different than the amounts reported at each period-end.

The fair value measurement hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability.

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported with little or no market activity).

An asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

NOTE N –FAIR VALUE MEASUREMENTS AND DISCLOSURES (Continued)

For financial assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used at March 31, 2010, were as follows:

Description	(Level 1) Quoted Prices in Active Markets for Identical Assets	(Level 2) Significant Other Observable Inputs	(Level 3) Significant Unobservable Inputs	Total Fair Value March 31, 2010
	(In Thousands)			
Securities available for sale	\$-	\$31,997	\$ -	\$31,997

For financial assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy, used at December 31, 2009 were as follows:

Description	(Level 1) Quoted Prices in Active Markets for Identical Assets	(Level 2) Significant Other Observable Inputs	(Level 3) Significant Unobservable Inputs	Total Fair Value December 31, 2009
	(In Thousands)			
Securities available for sale	\$-	\$30,144	\$ -	\$30,144

For financial assets measured at fair value on a nonrecurring basis, the fair value measurements by level within the fair value hierarchy used at March 31, 2010, were as follows:

Description	(Level 1) Quoted Prices in Active Markets for Identical Assets	(Level 2) Significant Other Observable Inputs	(Level 3) Significant Unobservable Inputs	Total Fair Value March 31, 2010
	(In Thousands)			
Impaired loans	\$-	\$-	\$ 5,704	\$5,704
Real estate owned	\$-	\$-	\$ 2,439	\$2,439

NOTE N –FAIR VALUE MEASUREMENTS AND DISCLOSURES (Continued)

For financial assets measured at fair value on a nonrecurring basis, the fair value measurements by level within the fair value hierarchy used at December 31, 2009, were as follows:

Description	(Level 1) Quoted Prices in Active Markets for Identical Assets	(Level 2) Significant Other Observable Inputs	(Level 3) Significant Unobservable Inputs	Total Fair Value March 31, 2010
	(In Thousands)			
Impaired loans	\$-	\$-	\$ 5,300	\$5,300
Real estate owned	\$-	\$-	\$ 1,928	\$1,928

The following information should not be interpreted as an estimate of the fair value of the Company since a fair value calculation is only provided for a limited portion of the Company assets and liabilities. Due to a wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparisons between the Company disclosures and those of other companies may not be meaningful. The following methods and assumptions were used to estimate the fair values of the Company's financial instruments at March 31, 2010, and December 31, 2009.

Cash and Cash Equivalents (Carried at Cost)

The carrying amounts reported in the balance sheet for cash and short-term instruments approximate those assets' fair values.

Securities

The fair value of securities available for sale (carried at fair value) and held to maturity (carried at amortized cost) are determined by obtaining quoted market prices on nationally recognized securities exchanges (Level 1), or matrix pricing (Level 2), which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted market prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted prices. For certain securities which are not traded in active markets or are subject to transfer restrictions, valuations are adjusted to reflect illiquidity and/or non-transferability, and such adjustments are generally based on available market evidence (Level 3). In the absence of such evidence, management's best estimate is used. Management's best estimate consists of both internal and external support on certain Level 3 investments. Internal cash flow models using a present value formula that includes assumptions market participants would use along with indicative exit pricing obtained from broker/dealers (where available) were used to support fair values of certain Level 3 investments.

Loans Receivable (Carried at Cost)

The fair values of loans are estimated using discounted cash flow analyses, using market rates at the balance sheet date that reflect the credit and interest rate-risk inherent in the loans. Projected future cash flows are calculated based upon contractual maturity or call dates, projected repayments and prepayments of principal. Generally, for variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values.

Impaired Loans (Generally Carried at Fair Value)

Impaired loans carried at fair value are those impaired loans in which the Company has measured impairment generally based on the fair value of the loan's collateral. Fair value is generally determined based upon independent third-party appraisals of the properties, or discounted cash flows based upon the expected proceeds. These assets are included as Level 3 fair values, based upon the lowest level of input that is significant to the fair value measurements. The fair

NOTE N –FAIR VALUE MEASUREMENTS AND DISCLOSURES (Continued)

value at March 31, 2010 consists of the loan balances of \$9.3 million, net of a valuation allowance of \$3.6 million. The fair value at December 31, 2009 consists of the loan balances of \$7.8 million, net of a valuation allowance of \$2.5 million.

Other Real Estate Owned

Real estate owned assets are adjusted to fair value less estimated selling costs upon transfer of the loans to real estate owned. Subsequently, real estate owned assets are carried at the lower of carrying value or fair value. Fair value is based upon independent market prices, appraised values of the collateral or management's estimation of the value of the collateral. These assets are included as Level 3 fair values.

Federal Home Loan Bank Stock and ACBB Stock (Carried at Cost)

The carrying amount of this restricted investment in bank stock approximates fair value, and considers the limited marketability of such securities.

Accrued Interest Receivable and Payable (Carried at Cost)

The carrying amount of accrued interest receivable and accrued interest payable approximates its fair value.

Deposit Liabilities (Carried at Cost)

The fair values disclosed for demand deposits (e.g., interest and noninterest checking, passbook savings and money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts). Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered in the market on certificates to a schedule of aggregated expected monthly maturities on time deposits.

Federal Home Loan Bank of New York Advances and Securities Sold Under Agreements to Repurchase (Carried at Cost)

Fair values of FHLB advances and securities sold under agreements to repurchase are estimated using discounted cash flow analysis, based on quoted prices for new FHLB advances with similar credit risk characteristics, terms and remaining maturity. These prices obtained from this active market represent a market value that is deemed to represent the transfer price if the liability were assumed by a third party.

Off-Balance Sheet Financial Instruments (Disclosed at Cost)

Fair values for the Company's off-balance sheet financial instruments (lending commitments and letters of credit) are based on fees currently charged in the market to enter into similar agreements, taking into account, the remaining terms of the agreements and the counterparties' credit standing. The fair value of these off-balance sheet financial instruments are not considered material as of March 31, 2010 and December 31, 2009.

NOTE N –FAIR VALUE MEASUREMENTS AND DISCLOSURES (Continued)

The carrying amounts and estimated fair values of financial instruments are as follows:

	March 31, 2010		December 31, 2009	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
	(In Thousands)			
Financial assets:				
Cash and cash equivalents	\$ 101,560	\$ 101,560	\$ 50,895	\$ 50,895
Securities available for sale	31,997	31,997	30,144	30,144
Investment securities held to maturity	287,354	286,702	305,349	301,673
Mortgage-backed securities held to maturity	267,205	277,113	248,426	258,758
Loans receivable, net	589,170	595,840	585,759	594,853
Federal Home Loan Bank of New York Stock and ACBB stock	3,491	3,491	3,045	3,045
Interest receivable	7,771	7,771	6,468	6,468
Financial liabilities:				
Deposits	1,051,656	1,055,369	1,015,755	1,032,497
Federal Home Loan Bank of New York Advances	31,285	29,002	24,826	27,097
Securities sold under agreements to repurchase	40,000	37,290	40,000	42,737
Accrued interest payable	995	995	1,226	1,226

Limitations

The fair value estimates are made at a discrete point in time based on relevant market information and information about the financial instruments. Fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates. Further, the foregoing estimates may not reflect the actual amount that could be realized if all or substantially all of the financial instruments were offered for sale. This is due to the fact that no market exists for a sizable portion of the loan, deposit and off balance sheet instruments.

In addition, the fair value estimates are based on existing on-and-off balance sheet financial instruments without attempting to value anticipated future business and the value of assets and liabilities that are not considered financial instruments. Other significant assets that are not considered financial assets include premises and equipment. In addition, the tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in any of the estimates.

Finally, reasonable comparability between financial institutions may not be likely due to the wide range of permitted valuation techniques and numerous estimates which must be made given the absence of active secondary markets for many of the financial instruments. This lack of uniform valuation methodologies introduces a greater degree of subjectivity to these estimated fair values.

NOTE O –OTHER COMPREHENSIVE INCOME

Components of accumulated other comprehensive (loss) at March 31, 2010 and December 31, 2009 were as follows (in thousands):

	March 31, 2010	December 31, 2009	
	(in Thousands)		
Net unrealized (loss) on securities available for sale	\$ 123	\$(127)
Tax effect	(49)	56
Net of tax amount	74	(71)
Minimum pension liability	(3,745)	(3,745
Tax effect	1,503		1,503
Net of tax amount	(2,242)	(2,242
Accumulated other comprehensive loss	\$(2,168)	\$(2,313

The components of other comprehensive income for the three months ended March 31, 2010 and 2009 and their related tax effects are presented in the following table:

	March 31, 2010	March 31, 2009	
	(in Thousands)		
Unrealized holding gains on available for sale securities:			
Unrealized holding gains (losses) arising during the year	\$ 274	\$ 195	
Reclassification adjustment for			
Realized gains on sales	(23)	-
Net unrealized gains on securities available for sale	251	195	
Tax effect	(106)	(81
Other comprehensive income	\$ 145	\$ 114	

NOTE P – PROPOSED MERGER

On March 17, 2010, the Company, Roma Bank, Sterling Banks, Inc., and its wholly owned subsidiary, Sterling Bank, entered into an Agreement and Plan of Merger pursuant to which Sterling Banks, Inc. will merge with and into Roma Financial Corporation. Concurrent with the merger Sterling Bank will merge into Roma Bank. Under the terms of the Merger Agreement, Roma will acquire all the outstanding shares of Sterling at \$2.52 per share for a total purchase price of approximately \$14.7 million in cash, subject to adjustment in certain circumstances.

The transaction is subject to customary closing conditions, including the receipt of regulatory approvals and the approval by the shareholders of Sterling, and certain financial and other contingencies. Certain executive officers and directors of Sterling have agreed to support the approval of the Merger Agreement at Sterling's shareholder meeting to be held to vote on the proposed transaction. If the merger is not consummated under certain circumstances, Sterling has agreed to pay the Company a termination fee of \$745,000. The merger is currently expected to be completed early in the third quarter of 2010.

For more information regarding the proposed merger please see the Company's Current Report on Form 8-K filed with the SEC on March 18, 2010 and the Merger Agreement attached thereto as Exhibit 2.1.

ITEM 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations

This Form 10-Q contains forward-looking statements, which can be identified by the use of words such as "believes," "expects," "anticipates," "estimates" or similar expressions. Forward – looking statements include:

- Statements of our goals, intentions and expectations;
- Statements regarding our business plans, prospects, growth and operating strategies;
- Statements regarding the quality of our loan and investment portfolios; and
- Estimates of our risks and future costs and benefits.

These forward-looking statements are subject to significant risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements due to, among others, the following factors:

- General economic conditions, either nationally or in our market area, that are worse than expected;
- Changes in the interest rate environment that reduce our interest margins or reduce the fair value of financial instruments;
- Our ability to enter into new markets and/or expand product offerings successfully and take advantage of growth opportunities;
 - Increased competitive pressures among financial services companies;
 - Changes in consumer spending, borrowing and savings habits;
 - Legislative or regulatory changes that adversely affect our business;
 - Adverse changes in the securities markets;
 - Our ability to successfully manage our growth; and
- Changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Financial Accounting Standards Board or the Public Company Accounting Oversight Board.

Any of the forward-looking statements that we make in this report and in other public statements we make may turn out to be wrong because of inaccurate assumptions we might make, because of the factors illustrated above or because of other factors that we cannot foresee. Consequently, no forward-looking statement can be guaranteed.

Comparison of Financial Condition at March 31, 2010 and December 31, 2009

General

Total assets increased by \$58.3 million to \$1.4 billion at March 31, 2010 compared to \$1.3 billion at December 31, 2009. Total liabilities increased \$57.0 million to \$1.2 billion at March 31, 2010 compared to \$1.1 billion at December 31, 2009. Total stockholders' equity increased \$1.3 million to \$217.5 million at March 31, 2010. The increase in assets was primarily funded by deposit growth of \$35.9 million, and calls of investment securities held to maturity in excess of repurchases of \$18.0 million, the proceeds of which were primarily held in cash and cash equivalents at March 31, 2010.

Deposits

Total deposits increased \$35.9 million to \$1.1 billion at March 31, 2010, compared to \$1.0 billion at December 31, 2009. Non-interest bearing demand deposits increased \$2.2 million to \$34.6 million at March 31, 2010, and interest bearing demand deposits increased \$187 thousand to \$129.7 million. Savings and club accounts increased \$17.2 million to \$293.2 million, and certificates of deposit increased \$16.3 million to \$594.1 million at March 31, 2010.

Investments (Including Mortgage-Backed Securities)

The investment portfolio increased \$2.6 million to \$586.6 million at March 31, 2010, compared to \$583.9 million at December 31, 2009. Securities available for sale increased \$1.9 million to \$32.0 million at March 31, 2010, compared to \$30.1 million at December 31, 2009, primarily due to investments made by RomAsia Bank. Investments held to maturity decreased \$18.0 million to \$287.3 million at March 31, 2010, compared to \$305.3 million at December 31, 2009, primarily due to calls. Mortgage-backed securities decreased \$18.8 million to \$267.2 million at March 31, 2010, compared to \$248.4 million at December 31, 2009.

Loans

Net loans increased by \$3.4 million to \$589.2 million at March 31, 2010, compared to \$585.8 million at December 31, 2009. Commercial and multi-family real estate mortgages decreased \$258 thousand to \$172.1 million at March 31, 2010, compared to \$172.3 million at December 31, 2009. Gross construction loans decreased \$453 thousand to \$25.7 million at March 31, 2010, compared to \$26.2 million at December 31, 2009. Residential and consumer loans increased \$4.7 million from December 31, 2009 to March 31, 2010. The poor economy has caused loan demand to languish.

Other Assets

All other asset categories, except cash and cash equivalents, increased by \$1.6 million from December 31, 2009 to March 31, 2010. This increase was primarily caused by an increase of \$1.3 million in accrued interest receivable, an increase of \$511 thousand in real estate owned, and an increase of \$446 thousand in Federal Home Loan Bank of New York and ACBB stock. This was offset to some degree by a decrease in other assets in this category.

Borrowed Money

The \$6.5 million increase in Federal Home Loan Bank of New York (FHLB NY) advances during the three months ended March 31, 2010 was due to \$7.0 million in borrowings by RomAsia Bank offset by principal repayments of \$541 thousand on Roma bank FHLB NY advances. At March 31 2010, the outstanding FHLB NY borrowings were \$31.3 million, compared to \$24.8 million at December 31, 2009.

Other Liabilities

Other liabilities increased \$14.7 million to \$29.9 million at March 31, 2010. The net increase was primarily due to \$16.7 million in securities purchased and not settled at March 31, 2010.

Stockholders' Equity

Stockholders' equity increased \$1.3 million to \$217.5 million at March 31, 2010 compared to \$216.2 million at December 31, 2009. The net increase was primarily caused by net income of \$1.6 million, which was offset by \$603

thousand in dividend payments and \$328 thousand in stock repurchases.

Comparison of Operating Results for the Three Months Ended March 31, 2010 and 2009

General

Net income increased \$703 thousand to \$1.6 million for the quarter ended March 31, 2010, compared to \$895 thousand and for the prior year period. The increase was primarily due to an increase of \$1.9 million in net interest income after provision for loan losses, reduced by an increase of \$934 thousand in non-interest expense and an increase of \$905 thousand in the provision for loan losses.

30

Interest Income

Interest income increased by \$2.3 million to \$14.9 million for the three months ended March 31, 2010 compared to \$12.6 million for the prior year period. Interest income from loans increased \$913 thousand to \$8.2 million for the three months ended March 31, 2010. Interest income from residential mortgage loans increased \$114 thousand over the comparable quarter ended March 31, 2009, while interest income from equity loans decreased \$72 thousand. The weighted average interest rates for mortgage and equity loans at March 31, 2010 were 5.42% and 5.47%, respectively, compared to 5.67% and 5.67%, respectively, in the prior year. Interest income from commercial and multifamily mortgage loans and commercial loans increased \$816 thousand from period to period. The weighted average interest rate for commercial and multi-family mortgage loans and commercial loans was 6.15% at March 31, 2010, and 6.06% at March 31, 2009.

Interest income from mortgage-backed securities decreased \$748 thousand over the comparable quarter in 2009. The decrease was primarily due to the decrease in the portfolio from year to year of \$17.5 million. Interest income from investments held to maturity increased \$2.4 million for the quarter ended March 31, 2010. This increase was primarily due to an increase in the portfolio from year to year of \$161 million. Interest income on securities available for sale changed minimally from period to period. Interest income from other interest earning assets decreased \$243 thousand for the three months ended March 31, 2010, compared to the same period in 2009. This decrease was primarily due to a slight decrease in the average balance of overnight funds from year to year, and by a decrease in overnight rates during the comparable periods.

Interest Expense

Interest expense decreased \$497 thousand for the three month period ended March 31, 2010 to \$4.8 million compared to \$5.3 million for the three months ended March 31, 2009. The decrease was primarily due to a \$452 thousand decrease in interest paid on deposits. Total deposits increased \$204.9 million over the twelve month period ended March 31, 2010. The effect of the increased portfolio was offset by a decrease in the weighted average interest rate of 88 basis points to 1.56% at March 31, 2010.

Provision for Loan Losses

The loan loss provision for the three months ended March 31, 2010 increased \$905 thousand to \$1.3 million. The increase is representative of the risk profile of the loan portfolio and loan growth in each period. Non-performing loans increased \$7.9 million to \$18.8 million at March 31, 2010, compared to \$10.9 million at March 31, 2009. Commercial loans represented \$6.6 million of the increase. These loans remain well collateralized and where needed, appropriate specific reserves have been established. The Company is taking a proactive approach in identifying loans at an early stage that may be experiencing cash flow deterioration or collateral weakening even though the loan remains current. The Company obtains new appraisals at least annually on substandard assets.

Non-Interest Income

Non-interest income increased \$156 thousand to \$1.3 million for the three months ended March 31, 2010, compared to \$1.1 million for the three months ended March 31, 2009. The net increase was chiefly derived from increases in income fees on deposits of \$29 thousand, fees on loans of \$19 thousand, gains on sale of loans of \$26 thousand, gains on sale of available for sale securities of \$23 thousand, income from securities that were called of \$26, and other smaller increases.

Non-Interest Expense

Non-interest expense increased \$934 thousand to \$7.7 million for the three months ended March 31, 2010 compared to \$6.7 million for the three months ended March 31, 2009. Salaries and employee benefits increased \$340 thousand to \$4.4 million for the three months ended March 31, 2010 compared to the same period in the prior year. This increase represents an increase in salaries primarily due to annual wage adjustments of \$242 thousand, an increase in employee benefits of \$50 thousand and other small increases. Net occupancy of premises expense decreased \$52 thousand for the three month period ended March 31, 2010. Other non-interest expenses increased by \$603 thousand to \$1.5 million for the three months ended March 31, 2010, compared to \$890 thousand for the same period in the prior year. Federal deposit insurance premiums increased \$272 thousand, commercial loan expense related to collection efforts increased \$143 thousand, and merger related expenses contributed \$114 thousand to the increase.

Provision for Income Taxes

Income tax expense increased by \$390 thousand to \$773 thousand for the three months ended March 31, 2010 compared to \$383 thousand for the three months ended March 31, 2009 primarily as a result of higher pre-tax income. Income tax expense, represented an effective rate of – 32.2% for the three months ended March 31, 2010, compared to 30.2% in the prior year quarter. The Company pays a state tax rate of 3.6% on the taxable income of our investment company and 9.0 % on the taxable income of the other entities.

Critical Accounting Policies

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, and could potentially result in materially different results under different assumptions and conditions. We believe that the most critical accounting policy upon which our financial condition and results of operation depend, and which involves the most complex subjective decisions or assessments, is the allowance for loan losses.

The allowance for loan losses is the amount estimated by management as necessary to cover credit losses in the loan portfolio both probable and reasonably estimable at the balance sheet date. The allowance is established through the provision for loan losses which is charged against income. In determining the allowance for loan losses, management makes significant estimates and has identified this policy as one of our most critical. The methodology for determining the allowance for loan losses is considered a critical accounting policy by management due to the high degree of judgment involved, the subjectivity of the assumptions utilized and the potential for changes in the economic environment that could result in changes to the amount of the recorded allowance for loan losses.

As a substantial amount of our loan portfolio is collateralized by real estate, appraisals of the underlying value of property securing loans is critical in determining the amount of the allowance required for specific loans. Assumptions for appraisals are instrumental in determining the value of properties. Overly optimistic assumptions or negative changes to assumptions could significantly affect the valuation of a property securing a loan and the related allowance determined. The assumptions supporting such appraisals are carefully reviewed by management to determine that the resulting values reasonably reflect amounts realizable on the related loans.

Management performs a monthly evaluation of the adequacy of the allowance for loan losses. We consider a variety of factors in establishing this estimate including, but not limited to, current economic conditions, delinquency statistics, geographic and industry concentrations, the adequacy of the underlying collateral, the financial strength of the borrower, results of internal loan reviews and other relevant factors. This evaluation is inherently subjective as it requires material estimates by management that may be susceptible to significant change based on changes in economic and real estate market conditions.

The evaluation has a specific and general component. The specific component relates to loans that are delinquent or otherwise identified as problem loans through the application of our loan review process. All such loans are evaluated individually, with principal consideration given to the value of the collateral securing the loan. Specific allowances are established as required by this analysis. The general component is determined by segregating the remaining loans by type of loan. We also analyze historical loss experience, delinquency trends, general economic conditions and geographic and industry concentrations.

Actual loan losses may be significantly more than the allowances we have established which could have a material negative effect on our financial results.

The Company uses the asset and liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. If current available information raises doubt as to the realization of the deferred tax assets, a valuation allowance is established. The Company considers the determination of this valuation allowance to be a critical accounting policy because of the need to exercise significant judgment including projections of future taxable income. These judgments and estimates are reviewed on a continual basis as regulatory and business factors change. A valuation allowance for deferred tax assets may be required if the amount of taxes recoverable through loss carry-back declines, or if the Company projects lower levels of future taxable income. Such a valuation allowance would be established through a charge to income tax expense, which would adversely affect the Company's operating results.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly (FSP FAS 157-4) which is now codified in FASB ASC Topic 820, Fair Value Measurements and Disclosures, defines fair value as the price that would be received to sell the asset or transfer the liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. The guidance provides additional guidance on determining when the volume and level of activity for the asset or liability has significantly decreased. It also includes guidance on identifying circumstances when a transaction may not be considered orderly.

The guidance provides a list of factors that a reporting entity should evaluate to determine whether there has been a significant decrease in the volume and level of activity for the asset or liability in relation to normal market activity for the asset or liability. When the reporting entity concludes there has been a significant decrease in the volume and level of activity for the asset or liability, further analysis of the information from that market is needed and significant adjustments to the related prices may be necessary to estimate fair value.

This guidance clarifies that when there has been a significant decrease in the volume and level of activity for the asset or liability, some transactions may not be orderly. In those situations, the entity must evaluate the weight of the evidence to determine whether the transaction is orderly. The guidance provides a list of circumstances that may indicate that a transaction is not orderly. A transaction price that is not associated with an orderly transaction is given little, if any, weight when estimating fair value.

This guidance is effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The Company adopted the guidance for the quarter ended June 30, 2009. The adoption of the guidance had no impact on the Company's consolidated financial statements although additional disclosures were required and are included in Note 18.

In November 2008, the SEC released a proposed roadmap regarding the potential use by U.S. issuers of financial statements prepared in accordance with International Financial Reporting Standards (IFRS). IFRS is a comprehensive series of accounting standards published by the International Accounting Standards Board ("IASB"). Under the proposed roadmap, the Company may be required to prepare financial statements in accordance with IFRS as early as 2014. The SEC will make a determination in 2011 regarding the mandatory adoption of IFRS. The Company is currently assessing the impact that this potential change would have on its consolidated financial statements, and it will continue to monitor the development of the potential implementation of IFRS.

In October 2009, the FASB issued ASU 2009-16, Transfers and Servicing (Topic 860) – Accounting for Transfers of Financial Assets. This Update amends the Codification for the issuance of FASB Statement No. 166, Accounting for Transfers of Financial Assets-an amendment of FASB Statement No. 140. The amendments in this update improve financial reporting by eliminating the exceptions for qualifying special-purpose entities from the consolidation guidance and the exception that permitted sale accounting for certain mortgage securitizations when a transferor has not surrendered control over the transferred financial assets. In addition, the amendments require enhanced disclosures about the risks that a transferor continues to be exposed to because of its continuing involvement in transferred financial assets. Comparability and consistency in accounting for transferred financial assets will also be improved through clarifications of the requirements for isolation and limitations on portions of financial assets that are eligible for sale accounting. This update is effective at the start of a reporting entity's first fiscal year beginning after November 15, 2009. Early application is not permitted. The adoption of this standard did not have a material impact on our financial position or results of operation.

In October 2009, the FASB issued ASU 2009-17, Consolidations (Topic 810) – Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities. This Update amends the Codification for the issuance of FASB Statement No. 167, Amendments to FASB Interpretation No. 46(R). The amendments in this update replace the quantitative-based risks and rewards calculation for determining which reporting entity, if any, has a controlling financial interest in a variable interest entity with an approach focused on identifying which reporting entity has the power to direct the activities of a variable interest entity that most significantly impact the

New Accounting Pronouncements (Continued)

entity's economic performance and (1) the obligation to absorb losses of the entity or (2) the right to receive benefits from the entity. An approach that is expected to be primarily qualitative will be more effective for identifying which reporting entity has a controlling financial interest in a variable interest entity. The amendments in this Update also require additional disclosures about a reporting entity's involvement in variable interest entities, which will enhance the information provided to users of financial statements. This update is effective at the start of a reporting entity's first fiscal year beginning after November 15, 2009. Early application is not permitted. The adoption of this standard did not have a material impact on our financial position or results of operation.

In January 2010, the FASB issued ASU 2010-01, Equity (Topic 505) – Accounting for Distributions to Shareholders with Components of Stock and Cash. The amendments in this update clarify that the stock portion of a distribution to shareholders that allows them to elect to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected in earnings per share prospectively and is not a stock dividend. This update codifies the consensus reached in EITF Issue No. 09-E, “Accounting for Stock Dividends, Including Distributions to Shareholders with Components of Stock and Cash.” This update is effective for interim and annual periods ending on or after December 15, 2009, and should be applied on a retrospective basis. The implementation of this standard did not have a material impact on our consolidated financial statements.

In January 2010, the FASB issued ASU 2010-02, Consolidation (Topic 810) – Accounting and Reporting for Decreases in Ownership of a Subsidiary – A Scope Clarification. This update clarifies that the scope of the decrease in ownership provisions of Subtopic 810-10 and related guidance applies to:

- A subsidiary or group of assets that is a business or nonprofit activity;
- A subsidiary that is a business or nonprofit activity that is transferred to an equity method investee or joint venture; and
- An exchange of a group of assets that constitutes a business or nonprofit activity for a noncontrolling interest in an entity (including an equity method investee or joint venture).

This update also clarifies that the decrease in ownership guidance in Subtopic 810-10 does not apply to (a) sales of in substance real estate; and (b) conveyances of oil and gas mineral rights, even if these transfers involve businesses.

The amendments in this update expand the disclosure requirements about deconsolidation of a subsidiary or derecognition of a group of assets to include:

- The valuation techniques used to measure the fair value of any retained investment;
- The nature of any continuing involvement with the subsidiary or entity acquiring the group of assets; and
- Whether the transaction that resulted in the deconsolidation or derecognition was with a related party or whether the former subsidiary or entity acquiring the assets will become a related party after the transaction.

This update is effective beginning in the period that an entity adopts FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB 51 (now included in Subtopic 810-10). If an entity has previously adopted Statement 160, the amendments are effective beginning in the first interim or annual reporting period ending on or after December 15, 2009. The amendments in this update should be applied retrospectively to the first period that an entity adopts Statement 160. The implementation of this standard did not have a material impact on our consolidated financial statements.

The FASB has issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. This ASU requires some new disclosures and clarifies some existing disclosure requirements about fair value measurements as set forth in Codification Subtopic 820-10. The FASB's objective is to improve these disclosures and, thus, increase the transparency in financial reporting. Specifically, ASU 2010-06 amends Codification Subtopic 820-10 to now require:

A reporting entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers; and

In the reconciliation for fair value measurements using significant unobservable inputs, a reporting entity should present separately information about purchases, sales, issuances, and settlements.

New Accounting Pronouncements (Continued)

In addition, ASU 2010-06 clarifies the requirements of the following existing disclosures:

For purposes of reporting fair value measurement for each class of assets and liabilities, a reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities; and
A reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements.

ASU 2010-06 is effective for interim and annual reporting period beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Early adoption is permitted. We do not expect the adoption of this standard to have a material impact on our financial position or results of operation.

ITEM 3 – Quantitative and Qualitative Disclosures About Market Risk

Asset and Liability Management

The majority of the Company's assets and liabilities are monetary in nature. Consequently, the Company's most significant form of market risk is interest rate risk. The Company's assets, consisting primarily of mortgage loans, have generally longer maturities than the Company's liabilities, consisting primarily of short-term deposits. As a result, a principal part of the Company's business strategy is to manage interest rate risk and reduce the exposure of its net interest income to changes in market interest rates. Management of the Company does not believe that there has been a material adverse change in market risk during the three months ended March 31, 2010.

Net Portfolio Value

The Company's interest rate sensitivity is monitored by management through the use of the OTS model which estimates the change in the Company's net portfolio value ("NPV") over a range of interest rate scenarios. NPV is the present value of expected cash flows from assets, liabilities, and off-balance sheet contracts. The NPV ratio, under any interest rate scenario, is defined as the NPV in that scenario divided by the market value of assets in the same scenario. The OTS produces its analysis based upon data submitted on the Company's quarterly Thrift Financial Reports. The following table sets forth Roma Bank's NPV as of December 31, 2009, the most recent date the NPV was calculated by the OTS (in thousands):

Change In Interest rates In Basis Points (Rate Shock)	Amount	NPV		NPV as Percent of Portfolio		Value of Assets	
		Dollar Change	Percent Change	NPV Ratio	Change in Basis Points		
+300 bp	\$135,266	\$(93,981)	(41)%	11.68	%	(636)	bp
+200 bp	164,644	(59,603)	(26)%	14.16	%	(388)	bp

Edgar Filing: ROMA FINANCIAL CORP - Form 10-Q

+100	bp	201,121	(28,126)	(12)%	16.27	%	(176)	bp
0	bp	229,247	-	0 %	18.04	%	-	
-100	bp	251,350	22,103	(10)%	19.34	%	130	bp

35

The following table sets forth RomAsia Bank's NPV as of December 31, 2009, the most recent date the NPV was calculated by the OTS (in thousands):

Change In Interest rates In Basis Points (Rate Shock)	Amount	NPV as Percent of Portfolio			
		NPV		Value of Assets	
		Dollar Change	Percent Change	NPV Ratio	Change in Basis Points
+300 bp	\$7,506	\$(8,099)	(52)%	8.79 %	(770)bp
+200 bp	10,634	(4,971)	(32)%	11.96 %	(452)bp
+100 bp	13,244	(2,360)	(15)%	14.42 %	(207)bp
0 bp	15,605	-	- %	16.49 %	-
-100 bp	17,773	2,169	14 %	18.30 %	181 bp

Management of the Company believes that there has not been a material adverse change in the market risk during the three months ended March 31, 2010.

ITEM 4 – Controls and Procedures

An evaluation was performed under the supervision, and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended) as of March 31, 2010. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective as of March 31, 2009.

No change in the Company's internal controls over financial reporting (as defined in Rule 13a-15(f) promulgated under the Securities Exchange Act of 1934, as amended) occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1 – Legal Proceedings

There were no material pending legal proceedings at March 31, 2010 to which the Company or its subsidiaries is a party other than ordinary routine litigation incidental to their respective businesses.

ITEM 1A – Risk Factors

Management does not believe there were any material changes to the risk factors presented in the Company's Form 10-K for the year ended December 31, 2009 during the most recent quarter.

ITEM 2 – Unregistered Sales of Equity Securities and Use of Proceeds

On March 18, 2010, the Company announced a five percent open market stock repurchase program, equivalent to 360,680 shares, in open market, based on stock availability, price and the Company's financial performance. As of March 31, 2010, 26,000 shares were repurchased under the current plan. The following table reports information regarding repurchases of the Company's common stock during the quarter ended March 31, 2010.

Period	Total Number of Shares Repurchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans	Maximum Number of shares that may Yet Be Purchased Under the Plan
March 22-31, 2010	26,000	\$12.60	26,000	327,480

ITEM 3 – Defaults Upon Senior Securities

ITEM 4 – (Reserved)

None

ITEM 5 – Other Information

On March 17, 2010, the Company, Roma Bank, Sterling Banks Inc., and its wholly owned subsidiary, Sterling Bank, entered into an Agreement and Plan of Merger pursuant to which Sterling Banks Inc. will merge with and into Roma Financial Corporation. Concurrent with the merger Sterling Bank will merge into Roma Bank. Under the terms of the Merger Agreement, Roma will acquire all the outstanding shares of Sterling at \$2.52 per share for a total purchase price of approximately \$14.7 million, in cash, subject to adjustment in certain circumstances.

The transaction is subject to customary closing conditions, including the receipt of regulatory approvals and the approval by the shareholders of Sterling, and certain financial and other contingencies. Certain executive officers and directors of Sterling have agreed to support the approval of the Merger Agreement at Sterling's shareholder meeting to be held to vote on the proposed transaction. If the merger is not consummated under certain circumstances, Sterling has agreed to pay the Company a termination fee of \$745,000. The merger is currently expected to be completed early in the third quarter of 2010.

For more information regarding the proposed merger, please see the Company's Current Report on Form 8-K filed with the SEC on March 18, 2010 and their Merger Agreement attached thereto as Exhibit 2.1.

ITEM 6 – Exhibits

31.1 Certifications of the Chief Executive Officer pursuant to Rule 13a-14(a)

31.2 Certifications of the Chief Financial Officer pursuant to Rule 13a-14(a)

32 Certifications of Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
