CN raises full-year 2005 earnings outlook as second-quarter diluted earnings per share rise 30 per cent to \$1.47

MONTREAL, July 20, 2005 □ CN today reported its financial and operating results for the second quarter and six-month period ended June 30, 2005.

Financial highlights, and increased full-year 2005 earnings forecast

Diluted earnings per share of \$1.47 for the second quarter of 2005, up 30 per cent from \$1.13 reported for second-quarter 2004;

Second-quarter 2005 net income of \$416 million, an increase of 28 per cent from second-quarter 2004 net income of \$326 million;

Second-quarter 2005 operating income of \$713 million, an increase of 24 per cent;

Record second-quarter operating ratio of 61.2 per cent, a 4.3-percentage point improvement over second-quarter 2004 performance;

Free cash flow of \$787 million for the first half of 2005, compared with \$587 million for the comparable period of 2004; (1)

- Strong results and solid outlook prompt management to increase full-year 2005 earnings guidance □ diluted earnings per share for the year now expected to rise in the range of 20 to 25 per cent, compared with previous guidance of 10-15 per cent increase over 2004 EPS of \$4.34.

E. Hunter Harrison, president and chief executive officer of CN, said: □CN had a terrific quarter and first half of the year, demonstrating once again the power of the company's business model □ precision railroading and the pursuit of profitable, sustainable growth □ along with the strength of our freight franchise. A key measure of our success was a record second-quarter operating ratio of 61.2 per cent.

□On the revenue side, CN's core merchandise businesses □ including forest products, metals and minerals, and petroleum and chemicals □ continued to register solid gains during the quarter. CN's intermodal business also performed well, benefiting from strong container imports via the Port of Vancouver, as did our coal business, which saw shipments from new metallurgical-coal mines in Western Canada. Grain and fertilizers revenues were affected by decreased availability of high-quality grain in Canada, while our automotive business experienced lower production at some of the southern Ontario production facilities we serve.

□Our free cash flow performance was outstanding and will permit us to reward shareholders with a new share buy-back program effective July 25, 2005. (See accompanying press release.) Under this program, CN plans to purchase for cancellation up to 16 million, or about six per cent, of the issued and outstanding shares of the company.□

2

Second-quarter revenues increased by 10 per cent to \$1,838 million, largely owing to freight rate increases, which included a higher fuel surcharge as a result of increases in crude oil prices, and the inclusion of revenues from the rail and related holdings of Great Lakes Transportation LLC (GLT) and BC Rail. Partly offsetting these gains was the unfavourable \$80-million translation impact of the stronger Canadian dollar on U.S.-dollar denominated revenues.

CN consolidated the operations of GLT and BC Rail on May 10, 2004, and July 14, 2004, respectively.

Operating expenses for the second quarter of 2005 increased by three per cent to \$1,125 million, largely as a result of increased fuel costs and the inclusion of GLT and BC Rail expenses. These expense increases were partly offset by the favourable \$50-million translation impact of the stronger Canadian dollar on U.S.-dollar denominated expenses, and lower labour and fringe benefits expenses.

The continued appreciation of the Canadian dollar reduced the company's second-quarter 2005 net income by approximately \$15 million.

First-half 2005 financial results

Net income for the first six months of 2005 was \$715 million, or \$2.51 per diluted share, compared with \$536 million, or \$1.85 per diluted share, for the comparable period of 2004.

Operating income for the first half of 2005 rose 28 per cent to \$1,239 million.

CN's operating ratio for the first six months of 2005 was 65.0 per cent, an improvement of 3.7 percentage points.

Revenues for the first half of 2005 rose 14 per cent to \$3,544 million, mainly due to freight rate increases, the inclusion of GLT and BC Rail revenues, and a return to normal intermodal volumes following the first quarter 2004 Canadian Auto Workers (CAW) strike. Partly offsetting these gains was the unfavourable \$140-million translation impact of the stronger Canadian dollar on U.S.-dollar denominated revenues.

Operating expenses increased eight per cent to \$2,305 million, primarily due to increased fuel costs and the inclusion of GLT and BC Rail expenses, partly offset by the favourable \$85-million translation impact of the stronger Canadian dollar on U.S.-dollar denominated expenses.

The continued appreciation of the Canadian dollar reduced the company's first-half 2005 net income by approximately \$30 million.

In the first quarter of 2004, the CAW strike reduced CN's operating income and net income by \$35 million and \$24 million, respectively.

Increased full-year 2005 earnings guidance

Harrison said: "CN's strong first-half financial and operating performance, along with continued improvements in pricing, gives management confidence that the company will exceed previous earnings guidance for full-year 2005.

CN now expects 2005 diluted earnings per share will rise in the range of 20 to 25 per cent over 2004 earnings of \$4.34 per diluted share. This new earnings outlook compares with the Company's previous earnings growth forecast of 10 to 15 per cent for 2005. Our employees are performing strongly and we expect to continue to deliver solid benefits to shareholders."

The financial results in this press release are reported in Canadian dollars and were determined on the basis of U.S. generally accepted accounting principles (U.S. GAAP).

(1) Please see discussion and reconciliation of this non-GAAP adjusted performance measure in the attached supplementary schedule, Non-GAAP Measures.

This news release contains forward-looking statements. CN cautions that, by their nature, forward-looking statements involve risks and uncertainties and that its results could differ materially from those expressed or implied in such statements. Reference should be made to CN's most recent Form 40-F filed with the United States Securities and Exchange Commission, its Annual Information Form filed with the Canadian securities regulators, its 2004 Annual and 2005 Quarterly Consolidated Financial Statements and notes thereto, and Management's Discussion and Analysis, for a summary of major risks.

Canadian National Railway Company spans Canada and mid-America, from the Atlantic and Pacific oceans to the Gulf of Mexico, serving the ports of Vancouver, Prince Rupert, B.C., Montreal, Halifax, New Orleans, and Mobile,

Ala., and the key cities of Toronto, Buffalo, Chicago, Detroit, Duluth, Minn./Superior, Wis., Green Bay, Wis., Minneapolis/St. Paul, Memphis, St. Louis, and Jackson, Miss., with connections to all points in North America.

CANADIAN NATIONAL RAILWAY COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (U.S. GAAP)

Note 1 □ Basis of presentation

In management's opinion, the accompanying unaudited interim consolidated financial statements, expressed in Canadian dollars, and prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP), contain all adjustments (consisting of normal recurring accruals) necessary to present fairly Canadian National Railway Company's (the Company) financial position as at June 30, 2005 and December 31 and June 30, 2004, its results of operations, changes in shareholders' equity and cash flows for the three and six months ended June 30, 2005 and 2004.

These interim consolidated financial statements and notes have been prepared using accounting policies consistent with those used in preparing the Company's 2004 Annual Consolidated Financial Statements. While management believes that the disclosures presented are adequate to make the information not misleading, these interim consolidated financial statements and notes should be read in conjunction with the Company's Interim Management's Discussion and Analysis and Annual Consolidated Financial Statements and notes thereto.

Note 2 □ Acquisitions

Great Lakes Transportation LLC's railroads and related holdings (GLT) and BC Rail Partnership and the former BC Rail Ltd. (collectively BC Rail) were acquired and consolidated effective May 10, 2004 and July 14, 2004, respectively. Accordingly, the Company's results of operations for the quarter and six months ended June 30, 2004 included the results of operations of GLT as of May 10, 2004 and excluded those of BC Rail.

The Company's final cost to acquire GLT of U.S.\$395 million (Cdn\$547 million) and BC Rail of \$991 million, included purchase price adjustments and transaction costs. By the second quarter of 2004, the Company had paid U.S.\$399 million (Cdn\$553 million) for the acquisition of GLT. The Company subsequently received Cdn\$6 million for purchase price adjustments finalized in the third quarter.

The Company had estimated, on a preliminary basis, the fair value of GLT's and BC Rail's assets acquired, owned and leased, and liabilities assumed at acquisition based on then current available information. The Company has since finalized the allocations of the GLT and BC Rail purchase price and has not made any significant adjustments to the preliminary purchase price allocations as presented in Note 3 □ Acquisitions, of the Company's 2004 Annual Consolidated Financial Statements.

For comparative purposes only, if the Company had acquired both GLT and BC Rail on January 1, 2004, based on their respective historical amounts, net of the amortization of the difference between the Company's cost to acquire GLT and BC Rail and their respective net assets (based on preliminary estimates of the fair value of GLT's and BC Rail's assets and liabilities), revenues, net income, and basic and diluted earnings per share would have been \$1,761 million, \$338 million, \$1.19 per basic share and \$1.17 per diluted share, respectively, for the three months ended June 30, 2004 and \$3,318 million, \$550 million, \$1.93 per basic share and \$1.90 per diluted share, respectively, for the six months ended June 30, 2004.

The pro forma figures for both GLT and BC Rail do not reflect synergies, and accordingly, do not account for any potential increases in operating income, any estimated cost savings or facilities consolidation.

Note 3 □ Note receivable from English Welsh and Scottish Railway (EWS)

On April 28, 2005, EWS fully redeemed the Company's 8% note receivable due 2009. The Company received £26 million (Cdn\$61 million), which included principal and accrued but unpaid interest at the date of redemption.

Note 4 □ Financing activities

In January 2005, the Company repaid its borrowings of U.S.\$90 million (Cdn\$108 million) outstanding at December 31, 2004 under its U.S.\$1,000 million revolving credit facility. On March 29, 2005, the Company refinanced, by way of amendment, its revolving credit facility, which was scheduled to mature in December 2005, for a five-year period to March 2010. The credit facility is available for general corporate purposes, including back-stopping the Company's commercial paper program. The credit facility provides for borrowings at various interest rates, including the Canadian prime rate, bankers' acceptance rates, the U.S. federal funds effective rate and the London Interbank Offer Rate, plus applicable margins. The amended credit facility agreement retains customary limitations on debt as a percentage of total capitalization, but eliminates the requirement for maintaining tangible net worth above pre-defined levels. The Company has been in compliance with these covenants throughout the period. As at June 30, 2005, the Company had letters of credit of \$301 million under its revolving credit facility and outstanding borrowings of U.S.\$323 million (Cdn\$397 million) under its commercial paper program.

In May 2005, the Company repaid U.S.\$100 million (Cdn\$125 million) of 7.75% 10-year Notes with cash on hand.

**CANADIAN NATIONAL RAILWAY COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (U.S. GAAP)**

The Company has an accounts receivable securitization program, expiring in June 2006, under which it may sell, on a revolving basis, a maximum of \$500 million (\$450 million prior to February 2005) of eligible freight trade and other receivables outstanding at any point in time, to an unrelated trust. The Company has a contingent residual interest of approximately 10% of receivables sold, which is recorded in Other current assets. At June 30, 2005, pursuant to the agreement, \$492 million had been sold, compared to \$445 million at December 31, 2004.

On July 20, 2005, the Board of Directors of the Company approved a new share repurchase program which allows for the repurchase of up to 16.0 million common shares between July 25, 2005 and July 24, 2006 pursuant to a normal course issuer bid, at prevailing market prices.

In the second quarter of 2005, the Company completed its 14.0 million share repurchase program, which began November 1, 2004, repurchasing the remaining 5.4 million common shares for \$401 million, at an average price of \$74.30 per share. The total cost of the program was \$1,021 million (average price per share of \$72.94), with 10.0 million shares repurchased in 2005 for \$748 million (average price per share of \$74.78).

Note 5 □ Stock-based compensation

For the three and six months ended June 30, 2005 and 2004, the Company recorded total compensation cost for awards under all plans of \$13 million and \$41 million, respectively, and \$21 million and \$25 million, respectively, for the same periods in 2004.

(a) Restricted share units

In the first half of 2005, the Company granted approximately 0.4 million restricted share units (RSUs) to designated

management employees entitling them to receive payout in cash based on the Company's share price. The RSUs granted are scheduled for payout after three years and vest upon the attainment of targets relating to return on invested capital over the three-year period and to the Company's share price during the three-month period ending December 31, 2007. At June 30, 2005, the Company had approximately 1.6 million RSUs outstanding under the Plan. For the three and six months ended June 30, 2005, the Company recorded compensation cost of \$12 million and \$31 million, respectively, compared to \$4 million and \$7 million, for the same 2004 periods.

(b) Stock options

In the first half of 2005, the Company granted approximately 0.7 million conventional stock options to designated senior management employees, that vest over a period of four years of continuous employment. The total number of options outstanding at June 30, 2005, including conventional, performance, and performance-accelerated options was 11.5 million. For the three and six months ended June 30, 2005, the Company recorded compensation cost of \$4 million and \$11 million, respectively, compared to \$3 million and \$5 million, respectively, for the same 2004 periods. At June 30, 2005, 8.1 million options remained authorized for future issuances.

(c) Vision 2008 Share Unit Plan

In the first quarter of 2005, the Board of Directors of the Company approved a special share unit plan with a four-year term to December 2008, entitling designated senior management employees to receive payout in cash in January 2009. The Company granted 0.4 million share units which vest conditionally upon the attainment of targets relating to the Company's share price during the six-month period ending December 31, 2008. Payout is also conditional upon the attainment of targets relating to return on invested capital over the four-year period and to the Company's share price during the 20-day period ending on December 31, 2008. Award payout will be equal to the number of share units vested on December 31, 2008 multiplied by the Company's 20-day average share price ending on such date. Due to the nature of the vesting conditions, no compensation cost was recorded for the three and six months ended June 30, 2005.

**CANADIAN NATIONAL RAILWAY COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (U.S. GAAP)**

The Company follows the fair value based approach for stock option awards and had prospectively applied this method of accounting to all awards granted, modified or settled on or after January 1, 2003. The Company follows the intrinsic value method for cash settled awards. If compensation cost had been determined based upon fair values at the date of grant for awards under all plans, the Company's pro forma net income and earnings per share would have been as follows:

	Three months ended June 30		Six months ended June 30	
	2005	2004	2005	2004
<i>In millions, except per share data</i>				
Net income, as reported	\$ 416	\$ 326	\$ 715	\$ 536

Add (deduct) compensation cost, net of applicable taxes, determined under:

Fair value method for all awards granted after

Edgar Filing: CANADIAN NATIONAL RAILWAY CO - Form 6-K

Jan 1, 2003 (SFAS No. 123)	10	6	31	10
Intrinsic value method for performance-based awards granted prior to 2003 (APB 25)	-	9	-	9
Fair value method for all awards (SFAS No. 123)	(16)	(22)	(43)	(34)
Pro forma net income	\$ 410	\$ 319	\$ 703	\$ 521
Basic earnings per share, as reported	\$ 1.50	\$ 1.14	\$ 2.55	\$ 1.88
Basic earnings per share, pro forma	\$ 1.47	\$ 1.12	\$ 2.51	\$ 1.83
Diluted earnings per share, as reported	\$ 1.47	\$ 1.13	\$ 2.51	\$ 1.85
Diluted earnings per share, pro forma	\$ 1.45	\$ 1.10	\$ 2.46	\$ 1.80

Compensation cost related to stock option awards granted in the current period under the fair value based approach was calculated using the Black-Scholes option-pricing model with the following assumptions:

	Three months ended June 30		Six months ended June 30	
	2005	2004(1)	2005	2004(1)
Expected option life (years)	5.2	-	5.2	-

Expected stock price volatility	25%	-	25%	-
Average dividend per share	\$ 1.00	-	\$ 1.00	-
Weighted average fair value of options granted	\$ 18.71	\$ -	\$ 18.48	\$ -

(1) In the first half of 2004, the Company did not grant any stock option awards.

CANADIAN NATIONAL RAILWAY COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (U.S. GAAP)

Note 6 □ Derivative instruments

Fuel
At June 30, 2005, the Company had hedged approximately 48% of the estimated remaining 2005 fuel consumption, representing approximately 98 million U.S. gallons at an average price of U.S.\$0.79 per U.S. gallon, and approximately 17% of the estimated 2006 fuel consumption, representing approximately 69 million U.S.

gallons at an average price of U.S.\$0.89 per U.S. gallon. These derivative instruments are carried at market value on the balance sheet and are accounted for as cash flow hedges whereby the effective portion of the cumulative change in the market value of the derivative instruments has been recorded in Other comprehensive income (loss). At June 30, 2005, Accumulated other comprehensive loss included unrealized gains of \$139 million, \$94 million after tax (\$92 million, \$62 million after tax at December 31, 2004), of which \$133 million relates to derivative instruments that will mature within the next twelve months and are presented in Other current assets.

Note 7 ☐ Pensions and other post-retirement benefits

For the three and six months ended June 30, 2005 and 2004, the components of net periodic benefit cost for pensions and other post-retirement benefits were as follows:

(a) Components of net periodic benefit cost for pensions

<i>In millions</i>	Three months ended June 30		Six months ended June 30	
	2005	2004	2005	2004

Amortization of prior service cost	5	5	10	10
Expected return on plan assets	(221)	(208)	(442)	(416)
Recognized net actuarial loss	1	1	1	1
<i>Net periodic benefit cost</i>	\$ 6	\$ 8	\$ 11	\$ 14

(b) Components of net periodic benefit cost for post-retirement benefits

<i>In millions</i>	Three months ended June 30		Six months ended June 30	
	2005	2004	2005	2004
Service cost	\$ 2	\$ 2	\$ 4	\$ 4
Interest cost	5	5	10	9
Amortization of prior service cost	1	1	1	2
Recognized net actuarial loss (gain)	(1)	1	(2)	1
<i>Net periodic benefit cost</i>	\$ 7	\$ 9	\$ 13	\$ 16

For the 2005 funding year, the Company expects to make total contributions of \$120 million for all its defined benefit plans of which \$54 million had been made at June 30, 2005.

CANADIAN NATIONAL RAILWAY COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (U.S. GAAP)

Note 8 □ Major commitments and contingencies

A. Commitments

As at June 30, 2005, the Company had commitments to acquire railroad ties, rail, freight cars, locomotives and other equipment at an aggregate cost of \$554 million (\$194 million at December 31, 2004). The Company also had outstanding information technology service contracts of \$14 million and agreements with fuel suppliers to purchase approximately 78% of the estimated remaining 2005 volume, 50% of its anticipated 2006 volume, and 12% of its anticipated 2007 volume at market prices prevailing on the date of the purchase.

B. Contingencies

In the normal course of its operations, the Company becomes involved in various legal actions, including claims relating to personal injuries, occupational disease and damage to property.

In Canada, employee injuries are governed by the workers' compensation legislation in each province whereby employees may be awarded either a lump sum or future stream of payments depending on the nature and severity of the injury. Accordingly, the Company accounts for costs related to employee work-related injuries based on actuarially developed estimates of the ultimate cost associated with such injuries, including compensation, health care and administration costs. For all other legal actions, the Company maintains, and regularly updates on a case-by-case basis, provisions for such items when the expected loss is both probable and can be reasonably estimated based on currently available information.

In the United States, employee work-related injuries, including occupational disease claims, are compensated according to the provisions of the Federal Employers' Liability Act (FELA), which requires either the finding of fault through the U.S. jury system or individual settlements, and represent a major expense for the railroad industry. The Company follows an actuarial-based approach and accrues the expected cost for personal injury and property damage claims and asserted occupational disease claims, based on actuarial estimates of their ultimate cost. A liability for the minimum amount of unasserted occupational disease claims is also accrued to the extent they can be reasonably estimated. The amount recorded reflects a 25-year horizon, as the Company expects that a large majority of these cases will be received over such period. An actuarial study is conducted on an annual basis by an independent actuarial firm. On an ongoing basis, management reviews and compares the assumptions inherent in the latest actuarial study with the current claim experience and, if required, adjustments to the liability are recorded.

As at June 30, 2005, the Company had aggregate reserves for personal injury and other claims of \$679 million (\$642 million at December 31, 2004). Although the Company considers such provisions to be adequate for all its outstanding and pending claims, the final outcome with respect to actions outstanding or pending at June 30, 2005, or with respect to future claims, cannot be predicted with certainty, and therefore there can be no assurance that their resolution will not have a material adverse effect on the Company's financial position or results of operations in a particular quarter or fiscal year.

C. Environmental matters

The Company's operations are subject to federal, provincial, state, municipal and local regulations under environmental laws and regulations in Canada and the United States concerning, among other things, emissions into the air; discharges into waters; the generation, handling, storage, transportation, treatment and disposal of waste, hazardous substances, and other materials; decommissioning of underground and aboveground storage tanks; and soil and groundwater contamination. A risk of environmental liability is inherent in railroad and related transportation operations; real estate ownership, operation or control; and other commercial activities of the Company with respect to both current and past operations. As a result, the Company incurs significant compliance and capital costs, on an ongoing basis, associated with environmental regulatory compliance and clean-up requirements in its railroad operations and relating to its past and present ownership, operation or control of real property.

While the Company believes that it has identified the costs likely to be incurred for environmental matters in the next several years, based on known information, the Company's ongoing efforts to identify potential

environmental concerns that may be associated with its properties may lead to future environmental investigations, which may result in the identification of additional environmental costs and liabilities. The magnitude of such additional liabilities and the costs of complying with environmental laws and containing or remediating contamination cannot be reasonably estimated due to:

- (i) the lack of specific technical information available with respect to many sites;
- (ii) the absence of any government authority, third-party orders, or claims with respect to particular sites;

15

CANADIAN NATIONAL RAILWAY COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (U.S. GAAP)

- (iii) the potential for new or changed laws and regulations and for development of new remediation technologies and uncertainty regarding the timing of the work with respect to particular sites;

(iv) the ability to recover costs from any third parties with respect to particular sites; and therefore, the likelihood of any such costs being incurred or whether such costs would be material to the Company cannot be determined at this time. There can thus be no assurance that material liabilities or costs related to environmental matters will not be incurred in the future, or will not have a material adverse effect on the Company's financial position or results of operations in a particular quarter or fiscal year, or that the Company's liquidity will not be adversely impacted by such environmental liabilities or costs. Although the effect on operating results and liquidity cannot be reasonably estimated, management believes, based on current information, that environmental matters will not have a material adverse effect on the Company's financial condition or competitive position. Costs related to any future remediation will be accrued in the year in which they become known.

As at June 30, 2005, the Company had aggregate accruals for environmental costs of \$117 million (\$113 million as at December 31, 2004).

D. Guarantees and indemnifications

In the normal course of business, the Company, including certain of its subsidiaries, enters into agreements that may involve providing certain guarantees or indemnifications to third parties and others, which extend over the term of the agreement. These include, but are not limited to, residual value guarantees on operating leases, standby letters of credit and surety bonds, and indemnifications that are customary for the type of transaction or for the railway business.

Effective January 1, 2003, the Company is required to recognize a liability for the fair value of the obligation undertaken in issuing certain guarantees on the date the guarantee is issued or modified. In addition, where the Company expects to make a payment in respect of a guarantee, a liability will be recognized to the extent that one has not yet been recognized.

Guarantee of residual values of operating leases

The Company has guaranteed a portion of the residual values of certain of its assets under operating leases with expiry dates between 2006 and 2012, for the benefit of the lessor. If the fair value of the assets, at the end of their respective lease term, is less than the fair value, as estimated at the inception of the lease, then the Company must, under certain conditions, compensate the lessor for the shortfall. At June 30, 2005, the maximum exposure in respect of these guarantees was \$96 million of which \$8 million has been recorded. Of that amount, \$6 million represents the expected cash outlay for such guarantees, while the remaining \$2 million represents the Company's obligation to stand ready and honor the guarantees that were entered into subsequent to January 1, 2003. There are no recourse provisions to recover any amounts from third parties.

Other guarantees

The Company, including certain of its subsidiaries, has granted irrevocable standby letters of credit and surety bonds, issued by highly rated financial institutions, to third parties to indemnify them in the event the Company does not perform its contractual obligations. As at June 30, 2005, the maximum potential liability under these guarantees was \$449 million of which \$358 million was for workers' compensation and other employee benefits and \$91 million was for equipment under leases and other. The Company has granted guarantees for which no liability has been recorded, as they relate to the Company's future performance.

As at June 30, 2005, the Company had not recorded any additional liability with respect to these guarantees, as the Company does not expect to make any additional payments associated with these guarantees. The guarantee instruments mature at various dates between 2005 and 2010.

CN Pension Plan, CN 1935 Pension Plan and BC Rail Ltd Pension Plan

The Company has indemnified and held harmless the current trustee and the former trustee of the Canadian National Railways Pension Trust Funds, the trustee of the BC Rail Ltd Pension Trust Fund, and the respective officers, directors, employees and agents of such trustees, from any and all taxes, claims, liabilities, damages, costs and expenses arising out of the performance of their obligations under the relevant trust agreements and trust deeds, including in respect of their reliance on authorized instructions of the Company or for failing to act in the absence of authorized instructions. These indemnifications survive the termination of such agreements or trust deeds. As at June 30, 2005, the Company had not recorded a liability associated with these indemnifications, as the Company does not expect to make any payments pertaining to these indemnifications.

**CANADIAN NATIONAL RAILWAY COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (U.S. GAAP)**

General indemnifications

In the normal course of business, the Company has provided indemnifications, customary for the type of transaction or for the railway business, in various agreements with third parties, including indemnification provisions where the Company would be required to indemnify third parties and others. Indemnifications are found in various types of contracts with third parties which include, but are not limited to, (a) contracts granting the Company the right to use or enter upon property owned by third parties such as leases, easements, trackage rights and sidetrack agreements; (b) contracts granting rights to others to use the Company's property, such as leases, licenses and easements; (c) contracts for the sale of assets and securitization of accounts receivable; (d) contracts for the acquisition of services; (e) financing agreements; (f) trust indentures, fiscal agency agreements, underwriting agreements or similar agreements relating to debt or equity securities of the Company and engagement agreements with financial advisors; (g) transfer agent and registrar agreements in respect of the Company's securities; (h) trust agreements relating to pension plans and other plans, including those establishing trust funds to secure the payment to certain officers and senior employees of special retirement compensation arrangements; (i) pension transfer agreements, (j) master agreements with financial institutions governing derivative transactions; and (k) settlement agreements with insurance companies or other third parties whereby such insurer or third party has been indemnified for any present or future claims relating to insurance policies, incidents or events covered by the settlement agreements. To the extent of any actual claims under these agreements, the Company maintains provisions for such items, which it considers to be adequate. Due to the nature of the indemnification clauses, the maximum exposure for future payments may be material. However, such exposure cannot be determined with certainty.

The Company has entered into various indemnification contracts with third parties for which the maximum exposure for future payments cannot be determined with certainty. As a result, the Company was unable to determine the fair value of the guarantees and accordingly, no liability was recorded. As at June 30, 2005, the

carrying value for guarantees for which the Company was able to determine the fair value, was \$1 million. There are no recourse provisions to recover any amounts from third parties.

**CANADIAN NATIONAL RAILWAY COMPANY
NON-GAAP MEASURES (U.S. GAAP)**

Free cash flow

The Company believes that free cash flow is a useful measure of performance as it demonstrates the Company's ability to generate cash after the payment of capital expenditures and dividends. Free cash flow does not have any standardized meaning prescribed by GAAP and may, therefore, not be comparable to similar measures presented by other companies. The Company defines free cash flow as cash provided from operating activities, excluding changes in the level of accounts receivable sold under the securitization program, less investing activities and dividends paid, and adjusted for significant acquisitions as they are not indicative of normal day-to-day investments in the Company's asset base, calculated as follows:

<i>In millions</i>	Three months ended June 30		Six months ended June 30	
	2005	2004	2005	2004
Cash provided from operating activities	\$ 785	\$ 590	\$ 1,368	\$ 895
Less:				
Investing activities	(249)	(781)	(398)	(765)
Dividends paid	(69)	(56)	(140)	(111)
Cash provided (used) before financing activities	467	(247)	830	19
Adjustments:
