The RBS Gold Trendpilot([TM]) Exchange Traded Notes (RBS ETNs) are unsecured and unsubordinated obligations of The Royal Bank of Scotland N.V. (RBS NV), and are fully and unconditionally guaranteed by RBS Holdings N.V. (RBS Holdings).

RBS ETNs track the RBS Gold Trendpilot([TM]) Index (USD) (the "Index"). The Index utilizes a systematic trend-following strategy to provide exposure to either the price of gold bullion or the yield on a hypothetical notional investment in 3-month U.S. Treasury bills (the "Cash Rate"). The Index is designed to provide exposure to the price of gold bullion in positive trending markets and exposure to the Cash Rate in negative trending markets using an objective and transparent methodology.

RBS GOLD TRENDPILOT([TM]) INDEX METHODOLOGY

If the price of gold bullion is at or above its historical 200-business day simple moving average for five consecutive business days

If the price of gold bullion is below its historical 200-business day simple moving average for five consecutive business days

[GRAPHIC OMITTED]

A positive trend is established: The Index will track the price of gold bullion

A negative trend is established: The Index will track the Cash Rate

If neither of the above conditions is satisfied, the trend of the Index will be the same as the trend of the Index on the immediately preceding Index business day. The Index will implement any trend reversal at the open of trading on the second Index business day immediately following the Index business day on which the Index trend switches from positive to negative or from negative to positive, as the case may be.

RBS Gold Trendpilot(TM) Index(2)	1.98	-	4.35

The chart above presents the actual performance of the Index, the RBS ETNs, and the price of Gold Bullion (the Benchmark Index) over the specified periods. For information regarding the performance of the Trendpilot Index, see pages PS-34 to PS-36 of the pricing supplement to the RBS ETNs filed with the U.S. Securities and Exchange Commission (SEC).

(1) Includes the annual investor fee, which accrues on a daily basis. The annual investor fee will be equal to (i) 1.00% per annum when the Index is tracking the Benchmark Index, and (ii) 0.50% per annum when the Index is tracking the Cash Rate.

(2) Since the inception date of the RBS ETNs, the Index has tracked the Benchmark Index and has remained in a positive trend, without any trend reversal. Consequently, the historical performance of the Index over the time periods specified above is identical to the Benchmark Index. In a negative trending market the Index trend is expected to switch from positive to negative, and the Index is expected to experience trend reversals in volatile markets, switching from a positive to negative or from negative to positive, as the case may be. The Index performance will not always be the same as the Benchmark Index, could underperform the Benchmark Index, and may track the Cash Rate for extended periods of time in a low interest rate environment. Does not include any fees, transaction costs or expenses.

**CERTAIN RISK CONSIDERATIONS:** The RBS ETNs involve risks not associated with an investment in conventional debt securities, including a possible loss of some or all of your investment. The level of the Index must increase by an amount sufficient to offset the aggregate investor fee applicable to the RBS ETNs in order for you to receive at least the principal amount of your investment back at maturity or upon early repurchase or redemption. The Index may underperform the price of gold bullion, and is expected to perform poorly in volatile markets. Liquidity of the market for RBS ETNs may vary over time. The RBS ETNs do not pay interest. Any payment on the RBS ETNs is subject to ability of RBS NV, as the issuer, and RBS Holdings, as the guarantor, to pay their respective obligations when they become due. You should carefully consider whether the RBS ETNs are suited to your particular circumstances before you decide to purchase them. We urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the RBS ETNs.

The RBS ETNs are not suitable for all investors. You should carefully read the relevant pricing supplement and prospectus, including the more detailed explanation of the risks involved in any investment in the RBS ETNs as described in the "Risk Factors" section of the pricing supplement, before investing.
