Notice for Meeting

1. Please note that we are scheduled to hold the 2011 Shareholders' General Meeting on Tuesday, June 28, 2011 at 10:00 a.m. at Chuang-ching Hall, 600, Jia-chang Rd., NEPZ, Nantz Dist., Kaohsiung City.

(1)Status Reports:

1. Business Report of 2010.
2. Report by supervisors on review of the 2010 financial statements.
3. Report on total amount for endorsement, guarantee and amount of loans to third parties.
4. Report on the implementation of buying back shares from open market.

(2)Matters for Ratification:

1. Ratification of the Company's 2010 final financial statements.
2. Ratification of 2010 earnings distribution proposal.

(3)Matters for Discussion:

1. Discussions of issuance of new shares for stockdividends from retained earnings increase.
2. Discussions of authorizing the Board to opt at the optimal time for capital increase in cash by joining the issuance of GDR (Global depository receipts) or domestic capital increase in cash or issuance of domestic or ECB to raise funds.
3. Discussions of revision of the Company's Articles of Incorporation.

(4)Extempore Motions.

2. For the Company's 2010 surplus distribution, the Board of Directors has drafted a shareholder dividend of NT\$10,889,775,552 at NT\$1.8 per share. NT\$3,932,418,952 of the total dividend shall be distributed as cash (at NT\$0.65 per share) and the remaining NT\$6,957,356,600 shall be distributed as shares (115 shares from capital increase issuance shall be distributed nonremuneratively for each 1,000 shares). The above distribution of dividends to shareholders and the cash and stock dividend distribution rates are calculated based on the number (6,049,875,312) of shares recorded in the Register of Shareholders as of March 21, 2011. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentiarily and make the adjustment accordingly.
3. According to Article 165 of the Company Act, stock transfer shall be discontinued from April 30, 2011 to June 28, 2011.

Matters for Ratification

Item 1 (proposed by the Board of Directors)

Proposal: 2010 final accounts for your recognition.

Explanation: 1 The Company's 2010 financial statements have been audited and attested by Deloitte & Touche and reviewed by the Supervisors.

2 Please ratify the financial statements (see Attachment III to this Agenda Manual for details) and the 2010 Business Report (see Attachment I to this Agenda Manual for details).

Resolution:

Item 2 (proposed by the Board of Directors)

Proposal: Please ratify the Company's 2010 proposal for earnings distribution.

Explanation: The Board of Directors has drafted the Company's 2010 proposal for surplus distribution as shown in the table below in accordance with The Company Act and the Company's Articles of Incorporation for your ratification.

Advanced Semiconductor Engineering, Inc.

2010 Surplus Distribution Proposal

	Unit: NT\$
Item	Amount
Prior year retained earnings	2,429,954,392
Add: Current year gross profit	18,337,500,094
Subtract: Provision for 10 % statutory surplus reserve	1,833,750,009
Subtract: Provision for special surplus reserve	1,272,417,273
Current year earnings to be distributed	17,661,287,204
Items for distribution:	
Dividends (Note 1)	10,889,775,552
Current year retained earnings	6,771,511,652

Remark:

NT\$304,200,000 to be distributed for Director
and Supervisor remuneration

NT\$1,523,133,000 to be distributed for
employee bonuses, all in cash

President: Jason C.S. Chang Manager: Richard H.P. Chang Accountant Manager: Joseph Tung

Note A total of NT\$10,889,775,552 is distributed as dividends, NT\$1.8 per share, with NT\$3,932,418,952 in cash (a
1: cash dividend of NT\$0.65 per share) and the remaining NT\$6,957,356,600 in stock (115 shares for each 1,000
shares retained by converting earnings into capital stock). The above distribution of dividends to shareholders
and the cash and stock dividend distribution rates are calculated based on the number (6,049,875,312) of shares
recorded in the Register of Shareholders as of March 21, 2011. Later, if the Company's ECB holders exercise the
right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares
issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or
cancellation of the Company's treasury stocks, which affect the cash distribution rate of the shareholders' bonus,
requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors
to handle the situation plenipotentiarily and make the adjustment accordingly.

Note In order to meet the implementation to Income Tax Integration, earnings of the most recent year will be
2: distributed this time.

Resolution:

Matters for Discussions

Item 1 (proposed by the Board of Directors)

Proposal: Please consider a share issue by converting earnings into equity stock.

Explanation: 1 To fund a factory expansion project, plans are being made to issue 695,735,660 new shares at a face value of NT\$10 each to raise NT\$6,957,356,600 with dividends of the same amount to be distributed in 2010.

2 Rules governing allotment of new shares: Based on the number of shares recorded in the Company's Register of Shareholders on March 21, 2011, namely 6,049,875,312, each 1,000 shares are eligible for an allotment of 115 shares for earnings converted into capital stock. If the number of shares eligible for dividend distribution changes as a result of conversion of offshore convertible bonds, exercise of stock options by employees, cash capital increases, buyback of company shares, or assignment or cancelation of treasury stock, shareholders are urged to authorize the board of directors to make corresponding adjustments, if any, to per-share dividends. Shareholders allotted fractions of a share will coordinate among themselves to combine and form whole shares within five days after the ex-dividend date. Share fractions failing to combine will be paid fractions of the face value in cash and the president will be authorized by the board to have them purchased by certain persons.

3 Rights and obligations of newly issued shares are the same as those of existing shares.

4 Ex-dividend date: The board is authorized to set the date after it is passed at the AGM and approved by the regulatory authority.

5 The factory expansion plan financed by the capital increase is expected to be completed by December 2014. Implementation of the plan is expected to boost the Company's competitiveness, improve its efficiency, and have a positive impact on shareholders' rights and interests. The board is authorized to make necessary changes if the capital increase must be changed as ordered by the regulatory authority or required by circumstances.

Resolution:

Item 2 (proposed by the Board of Directors)

Proposal: To finance future capacity expansion, provide for working capital increases, repay bank loans, or cope with other needs for funds in the longer term, the AGM is urged to authorize the board to issue GDRs through cash capital increases, conduct domestic cash capital increases, or issue convertible bonds in Taiwan or overseas according to articles of incorporation, relevant regulations and the following rules.

Explanation: 1 The principles to authorize the board of directors to issue new common shares and GDR for capital increase in cash shall be as follows:

- (1) Shares issued via issuance of GDRs through cash capital increases shall not exceed 500 million with the board and president authorized to conduct only one issue and decide how many shares to be issued depending on market circumstances.
- (2) The price at which shares are issued via issuance of GDRs through cash capital increases shall not fall below 90% of the simple arithmetic mean of the share's closing price on the date the issue price is set and its closing price one, three or five days prior to the price-setting date as per "Self-imposed Rules Governing Underwriters Assisting Companies in Issuing Securities" announced by Taiwan Securities Association. If relevant regulations change, the pricing method may be changed accordingly. As share prices often fluctuate substantially in a short time, the president is authorized to set the issue price by following international practices after consulting the underwriter and considering international capital markets' circumstances, domestic market prices, and the book building status. The GDR's issue price is decided based on the fair market price of the company's common stock. Original shareholders may purchase common stock in Taiwan's stock market at a price close to the GDR's issue price without having to assume exchange and liquidity risks. In addition, shares issued via issuance of GDRs through cash capital increases will dilute the original shareholders' equity to a maximum of 8.26%, not a major impact on shareholders' rights and interests.
- (3) 10% of common shares issued for capital increase in cash shall, according to Article 267 of The Company Act, be reserved for subscription by company employees and the remaining 90% will be fully appropriated for open issuance as the securities for GDR as the original shareholders have waived their rights for subscription in accordance with Article 28.1 of the Securities Trading Act. For the part that employees have not subscribed, the chairman of the board is authorized to contact specific party for purchase or, depending on the market requirements, list as the original securities for participation in the issuance of GDR.

(4) Funds raised by shares issued via issuance of GDRs through cash capital increases shall be used to purchase materials overseas, provide for working capital increases, repay bank loans, purchase machinery and equipment and/or invest in other firms. Implementation shall be completed within 2 years after the funds are raised. The project is expected to boost the Company's competitiveness, improve its efficiency, and have a positive impact on shareholders' rights and interests.

(5) The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, source of capital, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR.

(6) Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to proceed with matters related to issuance of new shares.

(7) If the agreement on issuance time, issuance condition, issuance volume, issuance amount of capital increase in cash and participation in issuance of GDR as well as other matters related to capital increase in cash and participation in issuance of GDR needs update in future due to the decision by the competent regulatory authority and on the basis of operation evaluation, or the needs of objective environment, the board of directors shall be authorized to handle at its full discretion.

(8) In conjunction with the issuance method of common shares for capital increase in cash and participation in GDR issuance, the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the participation in the issuance of GDR as well as handling all needed matters related to the participation in the issuance of GDR.

(9) For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

2 The principles to authorize the board of directors to conduct capital increase in cash at home shall be as follows:

(1) Number of new shares issued for capital increase in cash shall not be in excess of 500,000,000 shares.

(2) Face value of shares issued via cash capital increases is NT\$10 per share. The issue price shall be decided by the president after consulting the underwriter as per "Self-imposed Rules Governing Underwriters Assisting Companies in Issuing Securities" announced by Taiwan Securities Association and market conditions at time of issue and approved by the regulatory authority.

(3) Cash capital increases shall be conducted through book building. 10%-15% shall be set aside for subscription by employees as per Article 267 of the Company Act. The remainder, the right to subscribe for which is forfeited by original shareholders as per Article 28.1 of the Securities Exchange Act, shall be made available to the public through book building. In addition, if the Company's employees have not subscribed sufficiently and adequately or waived the right to subscribe, the chairman may contact specific party for purchase.

(4) Funds raised through cash capital increases shall be used to purchase materials from overseas, provide for working capital increases, repay bank loans, purchase machinery and equipment and/or invest in other firms. Implementation shall be completed within 2 years after the funds are raised. The project is expected to boost the Company's competitiveness, improve its efficiency, and have a positive impact on shareholders' rights and interests.

(5) The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR. If a cash capital increase must be changed as ordered by the regulatory authority or required by circumstances, the board is authorized to make corresponding changes.

(6) Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to set the base date for capital increase.

(7) With respect to the manner of issuance as mentioned in Section 2.3 above, the board of directors is authorized to make the amendment at its full discretion if amendment becomes necessary due to update of laws or regulations or the objective environment dictates the amendment.

(8) For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

3 The principles to authorize the board of directors to conduct capital increase in cash by issuance of convertible corporate bond at home and ECB overseas:

(1) Estimated number of shares for conversion: Not to exceed the number of shares registered in the application for update of the Company's profit-seeing registration card.

- (2) Time of issuance: It depends on the capital needs by the Company and the market condition.
- (3) Interest rate: In principle, it shall be by the market interest rate then prevailing in the marketplace and reasonable, if possible.
- (4) Issuance duration: It depends on the capital needs by the Company.
- (5) Issuance condition: Subject to negotiation with the lead underwriter and existing laws and regulations.
- (6) Funds raised through issuance of convertible bonds in Taiwan or overseas shall be used to purchase materials from overseas, provide for working capital increases, repay bank loans, purchase machinery and equipment and/or invest in other firms. Implementation shall be completed within 2 years after the funds are raised. The project is expected to boost the Company's competitiveness, improve its efficiency, and have a positive impact on shareholders' rights and interests.
- (7) The board of directors is authorized to set the issuance measures, amount of fund raised, plan items, estimated progress as well as estimated probable effect generated.
- (8) In conjunction with the issuance of the convertible corporate bond the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the issuance of the convertible corporate bond as well as handling all needed matters related to the issuance of the convertible corporate bond.
- (9) For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

Resolution:

Item 3 (proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Articles of Incorporation.

Explanation: 1 To accommodate the Company's operating requirements, plans are being made to revise certain provisions in the articles of incorporation.

Advanced Semiconductor Engineering, Inc.
Business Report

In 2010, the global economy continued the trend of recovery that had begun in 2009 and finally returned to prosperity. The economic growth in 2010 is expected to reach 4.8%. According to the report issued by the IEK ITIS project of Industrial Technology Research Institute, the output of Taiwan's semiconductor industry in 2010 experienced a significant growth of 41.5% compared with 2009, which was higher than the 31.6% growth rate of global semiconductor industry. The output of the assembly industry was NT\$297 billion, a growth of 48.8% over 2009, whereas the output of the testing industry amounted to NT\$132.7 billion, a growth of 51.5% compared with 2009. Although the economy has returned to the level before the eruption of the financial crisis, advanced nations and emerging economies have been growing at very different pace, the former moderately and the latter much more aggressively. Following the recovery from the crisis, exchange rate fluctuations, surging gold prices and credit crisis of EU member states were still among major concerns. The Company endeavored to achieve growth and performance while adopting prudent response measures to address a variety of challenges and changes in the industry landscape. The following is our report on the company's operation for the past year:

"2010 Operating Results"

1. Implementation results for the 2010 business plan

The Company's combined revenues for 2010 were NT\$188.7 billion, an increase of NT\$103 billion over 2009, equivalent to a 120% growth. For semiconductor assembly and testing services, the Company's revenue in 2010 was NT\$123 billion, a growth of 47%. Overall, 2010 was a very successful year for the Company. Apart from higher growth in performance compared to competitors and the industry as a whole, the Company's market share in the global assembly and testing foundry market increased by 2%. The proportion of IDM customers was also rising by the quarter and was now in the range of 38-39%. Meanwhile, a China-based chip maker also become one of our top ten customers. Furthermore, major Japanese IDMs continued to engage the Company in back-end services, and they accounted for 10% of our revenues. The Company's capital expenditures in 2010 was a record high, pushing copper wire bond assembly revenue as high as 18% of total revenues. In addition, the Company also achieved substantial gains in the expansion of production sites: During the second half of 2010, the Company acquired the Singapore plant of EEMS to enhance our market share in Southeast Asia and strengthen our competitiveness in the region; The Kaohsiung operations also expanded production capacity by acquisitions and by constructing new plants; Our plans for the second half of the year include capital increase for the subsidiary ASE Weihai in China, significantly expanding the assembly and testing capacity of discrete devices. We look forward to a substantial growth next year. Finally, the inauguration of the ASE Kunshan plant is also expected to contribute considerably to the Company's future profitability.

2. Budget performance

No financial forecast was disclosed in 2010.

3. Analysis of financial accounts and profitability

As of the end of 2010, the Company's paid-in capital was NT\$60,519,872 thousands and shareholders' equity NT\$88,556,369 thousands accounting for 55% of total assets of NT\$161,626,460 thousands Its long-term capital are 350% of fixed assets and current ratio 69%. This year's ratios are at about the same levels as those in the preceding year. The Company's financial structure and ability to repay debts are relatively sound. This year's after-tax net profit rose to NT\$18,337,500,000, a 172% increase over 2009. The Company's overall operating results and profitability are excellent, with performance greatly exceeding the level in 2009 and has brought the Company back to the profitability level before the global economic downturn, a significant achievement indeed.

4. R&D overview

New technologies successfully developed by the Company in 2010 developed are categorized as follows: (1) For flip-chip assembly, 40 nano copper process / 40 nano copper process with tin and lead-free flip-chip assembly and wire-bond assembly of wafers with an ultra-low dielectric coefficient / lead-free flip-chip stacking assembly of wafers with a low dielectric coefficient, 40 μm nano pitch mixed flip-chip and wire-bond stacking assembly, copper process/ concealed laser cutting for thin wafers with a low dielectric coefficient, and fine pitch non-conductive flip-chip thin film substrate. (2) For wire-bond assembly, 32 nano copper / gold wire-bond assembly of wafers with an ultra-low dielectric coefficient, 45 nano copper / copper wire-bond assembly of wafers with an ultra-low dielectric coefficient, high-density aQFN assembly. (3) For system packaging, 200 mm through silicon wafer (TSV), 200 mm silicon substrate assembly, integrated passive component QFN/ LGA assembly, substrate embedded with active, passive components, RF wireless communications modules, and fan out flip-chip Map PoP. (4) For wafer assembly, 200 mm fan out WLP and 40 μm Pitch Cu Pillar Bump. The Company will continue to invest in equipment and advanced assembly and testing R&D, thus maintaining our position as the global leader in semiconductor assembly and testing.

"Outline of 2011 Business Plan"

1. Operating policy

(1) Providing customers service of “ultimate quality” (2) creating long-term, stable profits for the Company and customers (3) working with partner firms to jointly create a prosperous future (4) being as flexible as possible in its business dealings.

2. Projects sales volume and references

In light of current industry dynamics, future market demand and ASE’s capacity, the projected sales volume for 2011 is as follows:

Item	Project Sales
Assembly	Approx. 10.1 billion chips
Test	Approx. 1.4 billion chips

3. Important production and sales policies

The popularity of consumer electronics products such as smart phones, tablet PCs, smart TVs and game consoles in recent years is expected to drive the continuing growth of the semiconductor industry. These products represent the impetus for the future growth of the Company's revenues. Tablet computers are especially significant since most of our customers are suppliers of tablet PC-related devices and components. Meanwhile, the Company will also focus on the conversion of copper processes to improve cooperation in the semiconductor industry supply chain and to reduce costs in keeping pace with the enormous demand for communications products in emerging markets as well as the trend toward lower costs in the production of smart phones. We continue to develop packaging and testing services with high added-value and high unit prices as well as sophisticated and innovative high-end integrated circuits, while delegating packaging and testing services for discrete components, which are of lower unit prices, less sophisticated and technologically less advanced, to our mainland operations. The purpose is to increase the Company's competitiveness and achieve a balance of development between cross strait.

"Development Strategy"

According to estimates provided by the IEK ITIS project of Industrial Technology Research Institute, in 2011 the semiconductor industry will continue to grow but at a slower rate, which is projected to be 8.7%. The assembly and testing sectors are estimated to grow at about 10.3% and 11.1%, respectively. With the price of gold rising substantially, our competitors' copper wire bonding process capability is also catching up, and with local IC manufacturers and major overseas component integration vendors becoming more willing to adopt copper processing, the Company will be investing a significant amount of capital expenditure to expand our copper wire bonding machines in order to achieve a 35% proportion of wire bonding for the entire year. The continuing expansion of operations outsourced by integrated device manufacturers (IDMs) in 2011 is the main driving force behind the high growth of Taiwan's IC packaging and testing industry. The Company is committed to raising the proportion of revenues from IDM customers. In addition, China's economic growth in 2010 ranked highest among East Asian emerging markets, and aggressive pursuit of the expansion of our China operations is also the niche of the Company's continued growth.

"Impacts of Competition, Legislation and Operating Environment"

The improving global economy has helped to materialize the benefits from the programs introduced by the Company during the financial crisis of the past two years on human resources, production lines, cost planning and integrated solutions; we have since achieved unprecedented revenues and profits. With the government's liberalization and encouragement of establishing presence in China by Taiwanese enterprises and with the signing of ECFA, the Company has invested in and set up production plants in China, utilizing the vast amount of human resources available locally to improve our product lines and increase our competitiveness. Our improved market share has further accelerated the Company's growth. Faced with the fluctuations in the New Taiwan dollar exchange rate and the rise of the IC packaging and testing industry in China, the Company is committed to improving our position constantly and the adoption of adequate risk management and control measures. The Company and the management team are not complacent with past achievements. In stead we strive to further improve our competitiveness and set the goal of creating higher profits for our shareholders in appreciation of their support.

Financial Statements for the
Years Ended December 31, 2010 and 2009 and
Independent Auditors' Report

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying balance sheets of Advanced Semiconductor Engineering, Inc. (the "Company") as of December 31, 2010 and 2009, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2010 and 2009, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 9 to the accompanying financial statements, the Company and its subsidiaries completed the tender offerings for the common shares of Universal Scientific Industrial Co., Ltd. ("USI") in February and August 2010, respectively. Thereafter, the USI shareholdings held by the Company and its subsidiaries are increased to 98.9%.

As discussed in Note 3 to the accompanying financial statements, starting from January 1, 2009, the Company adopted Statements of Financial Accounting Standards No. 10 "Accounting for Inventories".

We have also audited the consolidated financial statements of the Company and its subsidiaries as of and for the years ended December 31, 2010 and 2009, and have issued a modified unqualified opinion with an explanatory paragraph.

Years Ended December 31, 2008, 2009 and 2010 and
Report of Independent Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc. (a corporation incorporated under the laws of the Republic of China) and its subsidiaries (collectively, the “Company”) as of December 31, 2009 and 2010, and the related consolidated statements of income, changes in shareholders’ equity and cash flows for each of the three years in the period ended December 31, 2010, all expressed in New Taiwan dollars. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants, auditing standards generally accepted in the Republic of China (“ROC”) and the Standards of the Public Company Accounting Oversight Board (United States). Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2009 and 2010, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2010, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the ROC.

As discussed in Note 2 to the consolidated financial statements, the Company completed the tender offerings for the common shares of Universal Scientific Industrial Co., Ltd. (“USI”) in February and August 2010, respectively. Thereafter, the USI shareholdings held by the Company were increased to 98.9%. As a result, the consolidated results of operations of USI and its subsidiaries from the date of acquisition to December 31, 2010 have been included in the consolidated financial statements referred to above.

As discussed in Note 3 to the consolidated financial statements, starting from January 1, 2009, the Company adopted the newly revised ROC Statement of Financial Accounting Standards (“SFAS”) No.10, “Accounting for Inventories”. Besides, starting from January 1, 2008, the Company changed its method of accounting for bonuses paid to employees, directors and supervisors upon adoption of Interpretation 96-052, “Accounting for Bonuses to Employees, Directors and Supervisors” issued by the ROC Accounting Research and Development Foundation (“ARDF”) in March 2007.

Accounting principles generally accepted in the ROC differ in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 32 to the consolidated financial statements.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of the readers.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2010, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 28, 2011 expressed an unqualified opinion on the Company's internal control over financial reporting.

Rules of Procedure for the Shareholders' Meeting

1. The Shareholders' Meeting of the Company shall be conducted in accordance with the Rules specified herein.
2. Attending shareholders (or their proxies) shall wear attendance badges, and shall submit sign-in cards in lieu of signing in.
3. Unless specified in Article 179 of The Company Act whereas no voting right is entitled, a shareholder of the Company shall be entitled to one vote for each share held. When a shareholder is unable to attend the shareholders' meeting for whatever the reason, the shareholder may present a proxy statement printed by the Company that states the scope of authorization to entrust a proxy to attend the shareholders' meeting. With the exception of trust enterprises or stock affair agencies approved by competent securities authorities concerned, the votes that may be cast by one proxy representing two or more shareholders shall not exceed three percent of the votes of total shares issued; any votes in excess of that limit shall not be counted.
4. Venue of AGMs shall be where the Company is located or a different location convenient for shareholders to attend and for the meeting to be held with the commencement no earlier than 9am or later than 3pm.
5. Unless otherwise stipulated in the Company Act, AGMs shall be called by the board and chaired by the president. Article 208.3 of the Company Act shall be followed if the president is absent. If an AGM is called by someone other than the president who has the right to call the meeting, the said person shall chair the meeting. If more than one person has the right to call the meeting, one shall be elected to chair the meeting.
6. The Company may appoint the retained lawyers, certified public accountants or relevant personnel to attend the shareholders' meeting. The staff handling administrative affairs of the shareholders' meeting shall wear identification badges or arm-bands.
7. The Company shall record the whole course of the shareholders' meeting on audio tape or video tape, and shall keep the tapes on file for at least one year.

8. The chairperson shall announce that the meeting begins when it is time to begin. If shareholders representing more than half of all voting rights are not present, the chairperson may delay the meeting. A meeting may be delayed twice for a combined maximum of one hour. If after two postponements the number of shareholders present is still insufficient while the shareholders present do represent at least one third of the total issued shares, provisional resolutions may be adopted in accordance with Article 175 Paragraph 1 of the Company Act. If prior to the end of the meeting the shareholders present have represented at least half of the total issued shares, the chairperson may resubmit the provisional resolutions adopted by the meeting for a vote in accordance with Article 174 of The Company Act.
9. Agenda of an AGM called by the board shall be decided by the board. The meeting shall proceed according to the agenda unless changed by an AGM resolution.
If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the rules of the preceding paragraph shall apply mutatis mutandis.
Unless by the resolution of the shareholders' meeting, the chairperson may not declare the meeting ended until all items on the agenda (including extemporaneous motions) arranged in the preceding two paragraphs have been completed.
After the meeting is declared ended, shareholders may not elect a chairperson to resume the meeting at the original location or other premises, unless such declaration by the chairperson has violated the rules of procedure, whereas one person may be elected the chairperson with the consent of one half of the votes represented by shareholders present to resume the Meeting.
10. When the shareholders' meeting is in session, the chairperson may in his/her discretion allocate and announce time for breaks.

11. Before a shareholder present at the meeting speaks, he/she shall first fill out a statement slip stating therein the main points of the statement, the shareholder's account number (or the attendance identification number) and account name, so that the chairperson may determine the order of speaking. The shareholder present at the meeting that merely submits a statement slip without speaking is considered not having spoken. If the contents of the statement do not conform to the contents of the statement slip, the contents of the statement shall govern. Unless given consent by the chairperson and the speaking shareholder, the other shareholders may not speak to interrupt when a shareholder is speaking; otherwise the chairperson shall stop the interruption.
12. Unless permitted by the chairperson, no shareholder may speak for more than twice regarding the same proposal, and shall not last for more than five minutes each time.
If a shareholder violates rules under the preceding paragraph or goes beyond the scope of topics for discussion in speaking, the chairperson may stop him/her from speaking.
13. When an institutional person attends the shareholders' meeting as a proxy, the institutional person may assign only one representative to attend the meeting. When an institutional shareholder assigns two or more representatives to attend the shareholders' meeting, only one of them may speak for any single proposal.
14. After a shareholder present at the meeting speaks, the chairperson may reply in person or assign concerned personnel to reply.
15. With respect to discussions of a proposal, if the chairperson feels that a consensus has been reached where a vote can be taken on the proposal, he/she may announce that the discussions shall cease and the proposal be submitted for a vote.
16. The chairperson shall appoint monitors and ballot counters for voting on proposals. For qualifications, monitors must be shareholders. The results of each vote shall be announced on the spot and made into the minutes.
17. Unless otherwise provided by The Company Act or the Company's Articles of Incorporation, a proposal shall be approved by the consent of more than half of the votes of shares represented by shareholders present. In voting, a proposal is considered approved if the chairperson receives no dissenting opinions after requesting, which has the same effect as does voting by ballot.

18. Where there is an amendment or an alternative for a proposal, the chairperson shall determine the order in which they are to be voted on with the original proposal. If any of the proposals has been approved, the other shall be treated as rejected and not be voted on separately.
19. The chairperson may instruct the inspectors (or security personnel) to assist in maintaining order in the meeting venue. While assisting in maintaining order at the venue, the inspectors (or security personnel) shall wear arm-bands reading "Inspector."
20. All matters not provided by these Rules herein shall be handled in accordance with The Company Act, relevant laws and regulations, as well as the Company's Articles of Incorporation.
21. These Rules shall come into force given the approval of the shareholders' meeting, and so shall be the amendment.

- Article 14: If a shareholder is unable to attend the shareholders' meeting for whatever the reason, he/she may present a proxy statement printed by the Company, stating therein the scope of authorization to entrust a proxy to appear on his/her behalf. The above proxy statement shall be delivered to the Company five days in advance before the shareholders' meeting is held.
- Article 15: Unless otherwise stipulated in the Company Act, AGMs shall be called by the board and chaired by the president. Article 208.3 of the Company Act shall be followed if the president is absent. If an AGM is called by someone other than the president who has the right to call the meeting, the said person shall chair the meeting. If more than one person has the right to call the meeting, one shall be elected to chair the meeting.

Chapter IV Directors and Supervisors

- Article 16: The Company shall have seven to nine Directors, of which there shall be two independent Directors and five to seven non-independent Directors, and also five to seven Supervisors to be elected by the shareholders' meeting from candidates with legal capacity. Each director and supervisor shall hold office for a term of three years, and may continue to serve in the office if re-elected.
At the time of election of Directors and Supervisors, it should be handled according to Article 198 of the Company Act and the relevant laws and regulations.
When handling the aforementioned election of Directors, the election of independent Directors and non-independent Directors should be held together, with the names of the elected separately calculated, and those that receive more ballots that represent voting rights will be elected as independent Directors or non-independent Directors.
- Article 16.1: Shareholders retaining at least 1% of all outstanding shares and the board may nominate candidates for independent directorship. A list of candidates determined at board meetings to meet the criteria for being elected independent directors are submitted by the board to the AGM for consideration. If the Shareholder's Meeting is convened by another person with the authority to convene the meeting, after the person with the authority to convene the meeting examines the qualifications of the candidate(s) for serving as an independent Director, the names are sent to the Shareholder's meeting for election. All matters regarding the acceptance method and announcement of the nomination of candidates for independent Director will be handled according to the Company Act, the Securities Exchange Law, and other relevant laws and regulations.
- Article 16.2: Independent directors shall be remunerated NT\$2 million per person per year. If an independent serves on the board for less than a year, s/he shall be paid part of that amount for the number of days served.
- Article 17: The board of directors shall be organized by the directors whose functions are as follows:
- (1) Preparing the business plan.

 - (5) Appointing and dismissing the president of the Company.
 - (6) Establishing and dissolving branch organizations of the Company.
 - (7) Reviewing and approving budgets and actual budget.
 - (8) Other functions vested by The Company Act or by the resolution of the shareholders' meeting.
- Article 18: The board is formed by directors. The president shall be elected from the directors with 2/3 attending and over half of those attending voting for

him/her. A vice president may be elected in the same way. The president represents the Company in its dealings with third parties. When the chairperson is on leave or unable to exercise his/her official functions for whatever the reason, the acting chairperson shall be designated in accordance with Article 208 of The Company Act.

Article 19: Unless otherwise provided by The Company Act, the board meeting shall be convened by the chairperson according to law. The meeting may be held at any location at home, or by video conference.

Article 19.1: Board meetings shall be notified to directors and supervisors seven days in advance with the reason indicated. In an emergency, a board meeting may be called at any time.
Notifications of board meetings may be in writing or via email or fax.

Article 20: A director may present a written proxy statement to entrust another director as the proxy to attend the board meeting and exercise the voting right on his/her behalf, but each director may act as a proxy for only one other director.

Chapter V Manager

Article 21: The Company shall have one president, whose appointment, dismissal and remuneration shall be handled in accordance with Article 29 of The Company Act.

Chapter VI Accounting

Article 22: The Company's fiscal year shall run from January 1 to December 31 each year. At the end of each fiscal year, the board of directors shall prepare the various statements and reports as required by The Company Act and submit them to the shareholders' general meeting for ratification according to law.

Article 23: The Company's net profits each year after the actual budget shall be distributed in the following order:

- (1) Replenishment of losses.
- (2) Allocation of 10% as the legal surplus reserve.
- (3) Allocation of a special surplus reserve in accordance with laws or regulations set forth by the authorities concerned.
- (4) For the unrealized portion of long-term investment profits calculated by the equity method that is not cash dividends, it may be listed as the special surplus reserve under the item of current profits, to be included for profit distribution after being realized.

Any remaining profits, if any, shall be distributed as follows:

- (5) Allocation of 2%, inclusive, or less from the balance after the amounts mandated by Subparagraphs 1 to 4 above have been deducted as the remuneration for directors and supervisors.

(6) 7%-10% of the remainder after deducting the amounts indicated in (1)-(4) above shall be set aside for distribution as employees bonuses. 7% of the amount earmarked for employee bonuses shall be distributed according to the rules governing distribution of employee bonuses, with the remainder distributed by the board among employees based on their individual contributions.

(7) The board of directors shall be delegated to draw up a plan to distribute the remaining profits to shareholders pro rata according to the percentage of shares held by each shareholder.

Employees referred to in Subparagraph 6 of the preceding paragraph include employees of subsidiary companies that meet certain conditions, which are to be prescribed by the board of directors.

Article 24: The Company is now at the stage of steady growth. To provide the Company with the funds it needs to expand and satisfy shareholders' desire for cash inflow, the Company adopts a Residual Dividend Policy. With which, cash dividends shall not fall below 30% of all dividends, with the remainder distributed in the form of stock dividends. Dividend distribution proposals shall be drafted by the board and approved by the AGM before they are implemented.

Information Concerning Employee Bonus and Information Remuneration for Directors and Supervisors

2010 resolution to distribute earnings was passed at the board meeting held on March 30, 2011. Distribution of earnings passed at the board meeting is as follows:

1. Distribution of employee cash bonus of NT\$1,523,133,000.
2. NT\$304,200,000 is distributed as remuneration to directors and supervisors.
3. The difference between the amount to be distributed and the combined amount of employee bonuses of NT\$1,523,133,281 and remuneration to directors and supervisors of NT\$304,626,656 already expensed is NT\$426,937.
 1. Reason for the difference: The result of rounding off accounting estimates.
 2. Handling of the difference: The difference was recognized as changes in accounting estimates at the time the board passed the resolution. If the amount still changes on the day shareholders pass the resolution, it shall be treated as changes in accounting estimates and entered into accounts in the year shareholders pass the resolution.

Item 16G. Corporate Governance

As a company listed on the New York Stock Exchange, or the NYSE, we are subject to certain corporate governance rules of the NYSE. The application of the NYSE's corporate governance rules is limited for foreign private issuers, recognizing that they have to comply with domestic requirements. As a foreign private issuer, we must comply with the following NYSE corporate governance rules: 1) satisfy the audit committee requirements of the SEC; 2) chief executive officer must promptly notify the NYSE in writing upon becoming aware of any material non-compliance with applicable NYSE corporate governance rules; 3) submit annual and interim affirmations to the NYSE regarding compliance with applicable NYSE corporate governance requirements; and 4) provide a brief description of any significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards. The table below sets forth the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.

New York Stock Exchange Corporate Governance Rules Applicable to U.S. Companies

Description of Significant Differences between Our Governance Practices and the NYSE Corporate Governance Rules Applicable to U.S. Companies

Director independence

Listed companies must have a majority of independent directors, as defined under the NYSE listing standards.

Two members of our board of directors are independent as defined in Rule 10A-3 under the United States Securities Exchange Act of 1934, as amended (the "Exchange Act"). We do not assess the independence of our directors under the independence requirements of the NYSE listing standards.

Pursuant to relevant laws and regulations of the Republic of China (the "ROC"), we have two independent directors on our board of directors that were elected through the candidate nomination system at our annual general shareholders meeting on June 25, 2009.

To empower non-management directors to serve as a more effective check on management, the non-management directors of each company must meet at regularly scheduled executive sessions without management.

All of our directors attend the meetings of the board of directors. Our non-management directors do not meet at regularly scheduled executive sessions without management. The ROC Company Law does not require companies incorporated in the ROC to have their non-management directors meet at regularly scheduled executive sessions without management.

Nominating/Corporate governance committee

Listed companies must have a nominating/corporate governance committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.

We do not have a nominating/corporate governance committee. The ROC Company Law does not require companies incorporated in the ROC to have a nominating/corporate governance committee.

Currently, our board of directors performs the duties of a corporate governance committee and regularly reviews our corporate governance principles and practices.

The ROC Company Law requires that directors be elected by shareholders. Under ROC law and regulations, companies that have independent directors are required to adopt a candidate nomination system for the election of independent directors. Our two independent directors were elected through the candidate nomination system provided in our articles of incorporation. All of our non-independent directors were elected directly by our shareholders at our shareholders meetings without a nomination process.

Compensation committee

Listed companies must have a compensation committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.

We do not have a compensation committee. However, a new law in Taiwan law requires a public company with the size like us to establish compensation committee by September 30, 2011. [We will establish our compensation committee by September 30, 2011 which charter will contain similar responsibilities as those provided under NYSE listing standards]

Audit committee

Listed companies must have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act.

We have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act.

Pursuant to the ROC Securities and Exchange Law, beginning January 1, 2007, public companies shall either establish an audit committee satisfying specified requirements or install supervisors. Under

certain circumstances, public companies may be required by the Financial Supervisory Commission (the "FSC") to establish an audit committee. In addition to our Rule 10A-3 audit committee, we currently have supervisors pursuant to the ROC Securities and Exchange Law.

The audit committee must have a minimum of three members.

In addition to any requirement of Rule 10A-3(b)(1), all audit committee members must satisfy the independence requirements for independent directors set out in the NYSE listing standards.

The audit committee must have a written charter that provides for the duties and responsibilities set out in Rule 10A-3 and addresses certain other matters required by the NYSE listing standards.

Each listed company must have an internal audit function.

We currently have two members on our audit committee. Our audit committee members satisfy the independence requirements of Rule 10A-3 under the Exchange Act. We do not assess the independence of our audit committee member under the independence requirements of the NYSE listing standards.

Our audit committee charter provides for the audit committee to assist our board of directors in its oversight of (i) the integrity of our financial statements, (ii) the qualifications, independence and performance of our independent auditor and (iii) our compliance with legal and regulatory requirements and provides for the duties and responsibilities set out in Rule 10A-3. Our audit committee charter does not address all the matters required by the NYSE listing standards beyond the requirements of Rule 10A-3.

Because the appointment and retention of our independent auditor are the responsibility of our entire board of directors under ROC law and regulations, our audit committee charter provides that the audit committee shall make recommendations to the board of directors with respect to these matters.

We have an internal audit function. Under the ROC Regulations for the Establishment of Internal Control Systems by Public Companies, a public company is required to set out its internal control systems in writing, including internal audit implementation rules, which must be approved by the board of directors.

Our entire board of directors and the Chief Executive Officer are responsible for the establishment of the internal audit functions, compliance with the internal audit implementation rules and oversight of our internal control systems, including the appointment and retention of our independent auditor.

standards.

CEO certification

Each listed company CEO must certify to the NYSE each year that he or she is not aware of any violation by the company of NYSE corporate governance listing standards, qualifying the certification to the extent necessary.

As a foreign private issuer, we are not required to comply with this rule; however, our Chief Executive Officer provides certifications under Sections 302 and 906 of the Sarbanes-Oxley Act.

Each listed company CEO must promptly notify the NYSE in writing after any executive officer of the listed company becomes aware of any material non-compliance with any applicable provisions of Section 303A.

We intend to comply with this requirement.

Each listed company must submit an executed Written Affirmation annually to the NYSE. In addition, each listed company must submit an interim Written Affirmation each time a change occurs to the board or any of the committees subject to Section 303A. The annual and interim Written Affirmations must be in the form specified by the NYSE.

We have complied with this requirement to date and intend to continue to comply going forward.
