Approximate date of commencement of proposed sale to the public: As soon as practicable after this Registration Statement becomes effective and the consummation of the share exchange described herein.

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If applicable, place an X in the box to designate the appropriate rule provision relied upon in conducting this transaction:

Exchange Act Rule 13e-4(i) (Cross-Border Issuer Tender Offer)

Exchange Act Rule 14d-1(d) (Cross-Border Third-Party Tender Offer)

CALCULATION OF REGISTRATION FEE

Title Of Each Class Of Securities To Be Registered	Amount To Be Registered	Proposed Maximum Offering Price Per Unit(1)	Proposed Maximum Aggregate Offering Price(1)	Amount Of Registration Fee
Common Shares of ASE Industrial Holding Co., Ltd., par value NT\$10 per share (1)	829,328,460(2)	Not Applicable	\$2,102,328,307.99(2)(3)	\$272,440.73(4)

(1) American depositary shares issuable upon deposit of the shares registered hereby have been registered under a separate registration statement on Form F-6 (Registration No. 333-214753). Each American depositary share will represent 2 common shares of ASE Industrial Holding Co., Ltd.

(2) Based upon the estimated number of common shares of ASE Industrial Holding Co., Ltd. that may be issued to U.S. holders of the common shares of ASE in connection with the share exchange described herein, using the share exchange ratios described herein. This estimate is based upon (a) the actual number of shares of the common shares represented by outstanding American depositary shares of ASE as of August 15, 2017, and (b) the estimated number of shares of common shares of Advanced Semiconductor Engineering, Inc. (excluding shares represented by American depositary shares but including the number of shares of ASE Industrial Holding Co., Ltd. that may be sold in the Taiwanese market in respect of the fractional shares that otherwise would be received by U.S. holders of ASE's common shares in the share exchange) as of August 15, 2017, the most recent date for which information with respect to U.S. resident holders can be determined. The securities to be issued in connection with the transaction outside of the United States are not registered under this registration statement.

(3) Pursuant to Rule 457(f) under the Securities Act of 1933, the filing fee was calculated based on the market value of the securities of ASE to be exchanged in the share exchange described herein for securities of ASE Industrial Holding Co., Ltd., calculated pursuant to Rule 457(c) by taking the average of the high and low prices per share of ASE's common shares as reported on the Taiwan Stock Exchange as of January 9, 2018 (converted into U.S. dollars based on NT\$29.47 = US\$1.00, which is the exchange rate set forth in the H.10 statistical release of the Federal Reserve Board as in effect on January 5, 2018, the latest available exchange rate set forth in the H.10 statistical release of the Federal Reserve Board) multiplied by 1,658,656,920, which is the total number of shares of ASE's common shares held of record by U.S. holders on August 15, 2017, the most recent date for which information

with respect to ASE's U.S. record holders can be determined, and multiplying the result by 0.0001245.

- (4) ASE previously paid a registration fee of US\$222,019.64 in connection with the initial filing of the registration statement on Form F-4 (No. 333-214752) previously filed on November 22, 2016.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until this Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this proxy statement/prospectus is subject to completion and amendment. A registration statement relating to the securities described in this proxy statement/prospectus has been filed with the Securities and Exchange Commission. These securities may not be sold nor may offers to buy these securities be accepted prior to the time the registration statement becomes effective. This proxy statement/prospectus shall not constitute an offer to sell or the solicitation of any offer to buy nor shall there be any sale of these securities in any jurisdiction, in which such offer, solicitation or sale would be unlawful prior to registration under the securities laws of any such jurisdiction.

PROXY STATEMENT/PROSPECTUS FOR THE PROPOSED SHARE EXCHANGE

—YOUR VOTE IS IMPORTANT

Dear ASE Shareholders:

We are pleased to report that Advanced Semiconductor Engineering, Inc. (“ASE”) and Siliconware Precision Industries Co., Ltd. (“SPIL”) have entered into a joint share exchange agreement on June 30, 2016 and as supplemented by a supplemental agreement dated December 14, 2017 (the “Joint Share Exchange Agreement”) pursuant to which a holding company, ASE Industrial Holding Co., Ltd. (“HoldCo”), will be formed by means of a statutory share exchange pursuant to the laws of the Republic of China, and HoldCo will (i) acquire all issued shares of ASE in exchange for shares of HoldCo using the share exchange ratio as described below, and (ii) acquire all issued shares of SPIL using the cash consideration as described below (the “Share Exchange”). Upon the consummation of the Share Exchange, ASE and SPIL will become wholly owned subsidiaries of HoldCo concurrently. Subject to the Share Exchange, the Joint Share Exchange Agreement and the other transactions contemplated thereby being approved by shareholders of ASE and SPIL, and upon the satisfaction of the other conditions for completing the Share Exchange, HoldCo will be formed — and the Share Exchange is expected to become effective — on or around April 30, 2018.

Pursuant to the terms and subject to the conditions set forth in the Joint Share Exchange Agreement, at the effective time of the Share Exchange (the “Effective Time”):

(i) for SPIL shareholders:

each SPIL common share, par value NT\$10 per share (“SPIL Common Share”), issued immediately prior to the Effective Time (including SPIL’s treasury shares and the SPIL Common Shares beneficially owned by ASE), will be transferred to HoldCo in consideration for the right to receive NT\$51.2 (representing NT\$55, *minus* a cash dividend and a return of capital reserve of NT\$3.8 per SPIL Common Share distributed by SPIL on July 1, 2016), payable in cash in NT dollars, without interest and net of any applicable withholding taxes (“SPIL Common Shares Cash Consideration”); and

each SPIL American depositary share, currently representing five SPIL Common Shares (“SPIL ADS”) will be cancelled in exchange for the right to receive through JPMorgan Chase Bank, N.A., as depositary for the SPIL ADSs (“SPIL Depositary”), the US dollar equivalent of NT\$256 (representing five times of the SPIL Common Shares Cash Consideration) *minus* (i) all processing fees and expenses per SPIL ADS in relation to the conversion from NT dollars into US dollars, and (ii) US\$0.05 per SPIL ADS cancellation fees pursuant to the terms of the deposit agreement dated January 6, 2015 by and among SPIL, SPIL Depositary and the holders and beneficial owners from time to time of the SPIL ADSs issued thereunder, payable in cash in US dollars, without interest and net of any

applicable withholding taxes (“SPIL ADS Cash Consideration,” together with the SPIL Common Shares Cash Consideration, “Cash Consideration”).

(ii) for ASE shareholders:

each ASE common share (“ASE Common Share”), par value NT\$10 per share, issued immediately prior to the Effective Time (including ASE’s treasury shares), will be transferred to HoldCo in consideration for the right to receive 0.5 HoldCo common shares (“HoldCo Common Shares”), par value NT\$10 per share; and

each ASE American depositary share, currently representing five ASE Common Shares (“ASE ADSs”), will represent the right to receive 1.25 HoldCo American depositary shares, each representing two HoldCo Common Shares (“HoldCo ADSs”) upon surrender for cancellation to Citibank, N.A., as depositary for the ASE ADSs, after the Effective Time. The ratio at which ASE Common Shares will be exchanged for HoldCo Common Shares and ASE ADSs will be exchanged for HoldCo ADSs is hereinafter referred to as the “Exchange Ratio.”

Under Republic of China law, if any fractional HoldCo Common Shares representing less than one common share would otherwise be allotted to former holders of ASE Common Shares in connection with the Share Exchange, those fractional shares will not be issued to those shareholders. Pursuant to the Joint Share Exchange Agreement, ASE will aggregate the fractional entitlements and sell the aggregated ASE Common Shares using the closing price of ASE Common Shares on the Taiwan Stock Exchange (the “TWSE”) on the ninth (9) ROC Trading Day (as defined below) prior to the Effective Time, to an appointee of the Chairman of HoldCo. The cash proceeds from the sale will be distributed to the former holders of ASE Common Shares by HoldCo on a proportionate basis in accordance with their respective fractions at the Effective Time.

If you hold ASE ADSs, you will be able to exchange those ASE ADSs for HoldCo ADSs by delivering your ASE ADSs to Citibank, N.A., as depositary, after the Effective Time. Citibank, N.A., as depositary for the ASE ADSs, will only distribute whole HoldCo ADSs. Citibank, N.A., as depositary for the ASE ADSs, will aggregate the fractional entitlements to HoldCo ADSs and will use commercially reasonable efforts to sell the aggregated HoldCo ADS entitlements in the open market and will distribute the net cash proceeds to the holders of ASE ADSs entitled to them.

Subject to approval at the ASE EGM (as defined below), HoldCo will issue 4,306,143,682 HoldCo Common Shares (based on 8,732,287,364 outstanding ASE Common Shares as of November 30, 2017 and taking into account the cancellation of up to 120,000,000 ASE treasury shares which may be then-outstanding) in connection with the Share Exchange.

ASE Common Shares are listed and traded on the TWSE under the ticker “2311” and ASE ADSs are listed and traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “ASX.” On January 12, 2018, the most recent

practicable trading day prior to the printing of this proxy statement/prospectus, the closing price per ASE Common Share on the TWSE was NT\$38.80 (US\$1.28), and the closing price per ASE ADS on the NYSE was US\$6.66. SPIL Common Shares are listed and traded on the TWSE under the ticker “2325” and SPIL ADSs are listed and traded on the NASDAQ National Market (“NASDAQ”) under the ticker symbol “SPIL.” On January 12, 2018, the most recent practicable trading day prior to the printing of this proxy statement/prospectus, the closing price per SPIL Common Share on the TWSE was NT\$50.30 (US\$1.66), and the closing price per SPIL ADS on NASDAQ was US\$8.39. Following completion of the Share Exchange, ASE anticipates that the HoldCo Common Shares will trade on the TWSE and HoldCo ADSs will trade on the NYSE.

Before the Share Exchange can be completed, ASE shareholders must vote to approve, among other things, the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement, and SPIL shareholders must vote to approve the acquisition by HoldCo of all issued shares of SPIL using the Cash Consideration. If you are an ASE shareholder, ASE is sending you this proxy statement/prospectus to ask you to vote in favor of these matters.

The extraordinary general shareholders’ meeting of ASE shareholders (the “ASE EGM”) is expected to be held on February 12, 2018, at 10:00 A.M. (Taiwan time), at Zhuang Jing Auditorium, 600 Jiachang Road, Nantze Export Processing Zone, Nantze District, Kaohsiung City, Taiwan, Republic of China. At this ASE EGM, ASE shareholders will be asked to approve, among other things, the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement. More information about the proposals to be voted on at this ASE EGM is contained in this proxy statement/prospectus. The board of directors of ASE has unanimously determined that (i) the Exchange Ratio constitutes fair value for each ASE Common Share and each ASE ADS, and

(ii) the Joint Share Exchange Agreement and the transactions contemplated thereby are advisable, fair to and in the best interests of ASE and its shareholders. The board of directors of ASE recommends that ASE shareholders vote “FOR” the approval of the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement and “FOR” the approval of the other proposals to be voted on at this ASE EGM as described in this proxy statement/prospectus.

To attend and vote at the ASE EGM under Republic of China law, holders of ASE Common Shares must follow the procedures outlined in the convocation notice, which will be sent to those holders by ASE. To give voting instructions to the depositary for the ASE ADSs, holders of ASE ADSs must follow the procedures outlined in the notice of the ASE EGM that Citibank, N.A., as depositary for the ASE ADSs, will separately send to those ASE ADS holders.

This proxy statement/prospectus is an important document containing answers to frequently asked questions, a summary description of the transactions contemplated by the Joint Share Exchange Agreement and more detailed information about ASE, SPIL, the Joint Share Exchange Agreement, the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement and the other matters to be voted upon by ASE shareholders as part of the ASE EGM. We urge you to read this proxy statement/prospectus and the documents included as annexes carefully and in their entirety. In particular, you should consider the matters discussed in the section entitled “Risk Factors” beginning on page 66.

Thank you for your cooperation and continued support.

Sincerely,

Jason C.S. Chang

Chairman and Chief Executive Officer

Advanced Semiconductor Engineering, Inc.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the Share Exchange or the securities to be issued in connection therewith, or determined if this proxy statement/prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

As a shareholder (but not as an ADS holder), you may have dissenters' rights in connection with the transactions under the laws of the Republic of China. See page 62 for a complete discussion of your dissenters' rights, if any.

This document is dated January 16, 2018 and is first being delivered to ASE shareholders on or about January 23, 2018.

NOTICE OF EXTRAORDINARY GENERAL MEETING
TO BE HELD ON FEBRUARY 12, 2018

Dear Shareholders:

This is a notice that Advanced Semiconductor Engineering, Inc. (“ASE”) will hold an Extraordinary General Meeting (the “ASE EGM”) on February 12, 2018, at 10:00 A.M. (Taiwan time), and the location is expected to be at Zhuang Jing Auditorium, 600 Jiachang Road, Nantze Export Processing Zone, Nantze District, Kaohsiung City, Taiwan, Republic of China.

At the ASE EGM, we will discuss, and ASE shareholders will vote on, the following proposals:

In connection with ASE:

Proposal 1. To consider and to vote upon the joint share exchange agreement entered into between Advanced Semiconductor Engineering, Inc. and Siliconware Precision Industries Co., Ltd. on June 30, 2016 and as supplemented by the supplemental agreement dated December 14, 2017 (the “Joint Share Exchange Agreement”) and the proposed share exchange and the other transactions contemplated by the Joint Share Exchange Agreement

Proposal 2. To consider and to vote upon the amendment to the Procedures for Lending Funds to Other Parties of Advanced Semiconductor Engineering, Inc.

Proposal 3. To consider and to vote upon the amendment to the Procedures of Making the Endorsement and Guarantees of Advanced Semiconductor Engineering, Inc.

Proposal 4. To consider and to vote upon the amendment to the Procedures for Acquisition or Disposal of Assets of Advanced Semiconductor Engineering, Inc.

In connection with HoldCo:

Proposal 1. To consider and to vote upon the Rules of Procedure for Shareholders' Meetings of ASE Industrial Holding Co., Ltd.

Proposal 2. To consider and to vote upon the adoption of the articles of incorporation of ASE Industrial Holding Co., Ltd.

Proposal 3. To consider and to vote upon the Rules Governing the Election of Directors and Supervisors of ASE Industrial Holding Co., Ltd.

Proposal 4. To consider and elect the members of the board of directors and supervisors of ASE Industrial Holding Co., Ltd.

Proposal 5. To consider and to vote upon the proposal to waive the non-competition clauses applicable to newly elected directors of ASE Industrial Holding Co., Ltd.

Proposal 6. To consider and to vote upon the Procedures for Lending Funds to Other Parties of ASE Industrial Holdings Co. Ltd.

Proposal 7. To consider and to vote upon the Procedures of Making the Endorsement and Guarantees of ASE Industrial Holding Co., Ltd.

Proposal 8. To consider and to vote upon the Procedures for Acquisition or Disposal of Assets of ASE Industrial Holding Co., Ltd.

This proxy statement/prospectus describes certain proposals listed above in more detail. Please refer to the attached document, including the Joint Share Exchange Agreement and all other documents included as annexes, for further information with respect to the business to be transacted at the ASE EGM. We will provide additional information regarding the proposals outlined above (other than Proposal 1 in connection with ASE) which we shall file on a Form 6-K prior to the ASE EGM. You are encouraged to read the entire document carefully before voting. **In particular, see the section entitled “Risk Factors.”**

The record date for the determination of shareholders entitled to vote at the ASE EGM will be January 14, 2018 (Taiwan time) (the “ASE EGM Record Date”). Only ASE shareholders who hold common shares of ASE, par value NT\$10 per share (“ASE Common Shares”), of record on the ASE EGM Record Date are entitled to vote at the ASE EGM, or to exercise the appraisal rights conferred on dissenting shareholders by the laws of the Republic of China. Each ASE Common Share entitles its holder to one vote at the ASE EGM on each of Proposal 1 to Proposal 4 (in connection with ASE) and Proposal 1 to Proposal 3 and Proposal 5 to Proposal 8 (in connection with HoldCo), and Proposal 4 (in connection with HoldCo) will be voted on through cumulative voting. You may exercise voting rights by electronic means or by attending the ASE EGM in person or by proxy using a duly authorized power of attorney in the prescribed form attached to the notice of convocation distributed by ASE prior to the ASE EGM. You may exercise your voting right by electronic means beginning from the fifteenth (15th) calendar day prior to the ASE EGM until the third calendar day prior to the day of the ASE EGM. Shareholders who intend to exercise voting rights electronically must log in to the website maintained by the Taiwan Depository & Clearing Corporation (“TDCC”) (<https://www.stockvote.com.tw>) and proceed in accordance with the instructions provided therein.

If you own American depository shares of ASE (“ASE ADSs”), each representing five ASE Common Shares, Citibank, N.A. (“Citibank”), as depository for the ASE ADSs (the “ASE Depository”), will mail on or around January 23, 2018 (New York time) to holders of ASE ADSs as of January 12, 2018 (New York time), a voting instruction card and notice which outlines the procedures those holders must follow to give proper voting instructions to the ASE Depository. In accordance with and subject to the terms of the amended and restated deposit agreement, dated as of September 29, 2000 and as amended (as so amended, the “ASE Deposit Agreement”), by and among Citibank, as ASE Depository, ASE, and the holders and beneficial owners of ASE ADSs, holders of ASE ADSs have no individual voting rights with respect to the ASE Common Shares represented by their ASE ADSs. Pursuant to the ASE Deposit Agreement, each holder of ASE ADSs is deemed to have authorized and directed the ASE Depository to appoint the Chairman of ASE or his/her designate (the Chairman or his/her designate, the “Voting Representative”), as representative of the ASE Depository, the custodian or the nominee who is registered in the Republic of China as

representative of the holders of ASE ADSs to vote the ASE Common Shares represented by ASE ADSs as more fully described below.

In accordance with and subject to the terms of the ASE Deposit Agreement, if holders of ASE ADSs together holding at least 51% of all the ASE ADSs outstanding as of the record date set by the ASE Depositary for the ASE EGM instruct the ASE Depositary, prior to the ASE ADS voting instructions deadline, to vote in the same manner with respect to any of the proposals to be voted on at the EGM, the ASE Depositary shall notify the Voting Representative and appoint the Voting Representative as the representative of the ASE Depositary and the holders of ASE ADSs to attend the ASE EGM and vote, as to such proposals, all ASE Common Shares represented by ASE ADSs outstanding in the manner so instructed by such holders. If voting instructions are received from an ASE ADS holder by the ASE Depositary as of the ASE ADS voting instructions deadline, which are signed but without further indication as to voting instructions, the ASE Depositary shall deem such holder to have instructed a vote in favor of the items set forth in such instructions.

Furthermore, in accordance with and subject to the terms of the ASE Deposit Agreement, if, for any reason, the ASE Depositary has not, prior to the ASE ADS voting instructions deadline, received instructions from holders of ASE ADSs together holding at least 51% of all ASE ADSs outstanding as of the record date set by the ASE Depositary for the ASE EGM, to vote in the same manner with respect to any of the proposals to be voted on at the EGM, the holders of all ASE ADSs shall be deemed to have authorized and directed the ASE Depositary to give a

discretionary proxy to the Voting Representative, as the representative of the holders of ASE ADSs, to attend the ASE EGM and vote, as to such proposals, all the ASE Common Shares represented by ASE ADSs then outstanding in his/her discretion; provided, however, that the ASE Depositary will not give a discretionary proxy as described if it fails to receive under the terms of the ASE Deposit Agreement a satisfactory opinion from ASE's counsel prior to the ASE EGM. In such circumstances, the Voting Representative shall be free to exercise the votes attaching to the ASE Common Shares represented by ASE in any manner he/she wishes, which may not be in the best interests of the ASE ADS holders. The Voting Representative has informed ASE that he plans as of the date of this proxy statement/prospectus to vote in favor of all of the proposals at the ASE EGM, although he has not entered into any agreement obligating him to do so.

The board of directors of ASE has unanimously determined that the Joint Share Exchange Agreement and the transactions contemplated thereby, including the proposed Share Exchange, are advisable, fair to and in the best interests of ASE and its shareholders. The board of directors of ASE recommends that ASE shareholders vote "FOR" each of the proposals set forth above.

YOUR VOTE IS VERY IMPORTANT REGARDLESS OF THE NUMBER OF SHARES THAT YOU OWN.

The proposed Share Exchange cannot be completed without ASE shareholders approving, among other things, the completion by ASE of the proposed Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement by either (x) the approval of one-half of the shares present at the ASE EGM if at least two-thirds of ASE's outstanding shares attend the ASE EGM, or (y) the approval of two-thirds of the shares present at the ASE EGM if at least one-half of ASE's outstanding shares attend the ASE EGM.

ASE is not asking for a proxy and you are not required to send a proxy to ASE. However, ASE Enterprises Limited, a shareholder of ASE has advised us that it intends to solicit proxies in favor of the authorization and approval of the proposed Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement.

If you have any questions concerning the Joint Share Exchange Agreement or the transactions contemplated by the Joint Share Exchange Agreement, including the proposed Share Exchange, or this proxy statement/prospectus, or would like additional copies or need help voting your ASE Common Shares, please contact ASE Investor Relations Department at +886-2-6636-5678 or ir@aseglobal.com, or Citibank Shareholder Services at 1-877-CITI-ADR (248-4237) for questions related to your ASE ADSs.

On behalf of the Board of Directors

/s/ Jason C.S. Chang
Jason C.S. Chang

Chairman of the Board of Directors

ADDITIONAL INFORMATION

This proxy statement/prospectus contains annexes which include important business and financial information about ASE and SPIL. Additional copies of documents included as annexes hereto are available to you by requesting them in writing or by telephone from ASE at the following address and telephone number:

Advanced Semiconductor Engineering, Inc.
e-mail: ir@aseglobal.com
Tel: +886-2-6636-5678
Room 1901, No. 333, Section 1 Keelung Rd.
Taipei, Taiwan, 110
Republic of China
Attention: Investor Relations

If you would like to request any documents, please do so by February 5, 2018 in order to receive them before the ASE EGM.

For a more detailed description of the information included in the annexes to this proxy statement/prospectus and how you may obtain it, see the section entitled “Where You Can Find More Information.”

ABOUT THIS PROXY STATEMENT/PROSPECTUS

This proxy statement/prospectus, which forms part of a registration statement on Form F-4 filed by ASE and SPIL with the U.S. Securities and Exchange Commission (the “SEC”), constitutes a prospectus of ASE and SPIL, respectively, under the Securities Act of 1933, as amended (the “Securities Act”), with respect to the HoldCo Common Shares to be issued to ASE shareholders in connection with the Share Exchange. This proxy statement/prospectus also constitutes a proxy statement for ASE under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). It also constitutes a notice of meeting with respect to the ASE EGM.

You should rely only on the information contained in or included as annexes to this proxy statement/prospectus. No one has been authorized to provide you with information that is different from that contained in, or included as annexes to, this proxy statement/prospectus. This proxy statement/prospectus is dated January 16, 2018, and you should assume that the information contained in this proxy statement/prospectus is accurate only as of such date. You should also assume that the information included as annexes to this proxy statement/prospectus is only accurate as of the date of such information.

This proxy statement/prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any securities, or the solicitation of a proxy, in any jurisdiction in which or from any person to whom it is unlawful to make any such offer or solicitation in such jurisdiction. Information contained in this proxy statement/prospectus regarding ASE has been provided by ASE and information contained in this proxy statement/prospectus regarding SPIL has been provided by SPIL.

Table of Contents

Definitions

As used in this proxy statement/prospectus, the following defined terms have the following respective meanings:

· “ASE” refers to Advanced Semiconductor Engineering, Inc. and, as the context requires, its subsidiaries;

· “ASE ADS(s)” refers to the American depositary share(s) issued by the ASE Depositary under the ASE Deposit Agreement. Each ASE ADS represents five ASE Common Shares;

· “ASE Common Share(s)” refers to the common share(s) of ASE, par value NT\$10 per share;

· “ASE Depositary” or “Citibank” refers to Citibank, N.A., as depositary for the ASE ADSs under the ASE Deposit Agreement;

· “ASE Deposit Agreement” refers to the Amended and Restated Deposit Agreement, dated as of September 29, 2000, by and among ASE, Citibank and the Holders and Beneficial Owners of ASE ADSs, as amended by Amendment No. 1 to Amended and Restated Deposit Agreement, dated as of April 6, 2006, and by Amendment No. 2 to Amended and Restated Deposit Agreement, dated as of November 27, 2006;

· “ASE Share(s)” refers to ASE Common Share(s) and ASE ADS(s), collectively;

· “Effective Time” refers to the effective time of the Share Exchange;

· “Exchange Act” refers to the U.S. Securities Exchange Act of 1934, as amended;

· “FSC” refers to Financial Supervisory Commission of the ROC;

· “HoldCo” refers to ASE Industrial Holding Co., Ltd., the holding company that will be formed at the Effective Time as the parent company of ASE and SPIL as a result of the Share Exchange;

· “HoldCo ADS(s)” refers to the American depositary share(s) that will be issued to ASE ADS holders upon the consummation of the Share Exchange pursuant to a new American depositary receipt facility to be established by HoldCo with the HoldCo Depositary upon the terms of the HoldCo Deposit Agreement. Each HoldCo ADS will represent two HoldCo Common Shares;

“HoldCo Common Share(s)” refers to the common share(s) of HoldCo, par value NT\$10 per share, that will be issued upon the consummation of the Share Exchange;

“HoldCo Depositary” refers to Citibank, N.A. in its capacity as depositary for the HoldCo ADSs pursuant to the terms of the HoldCo Deposit Agreement;

“HoldCo Deposit Agreement” refers to the deposit agreement for the HoldCo ADSs to be entered into by HoldCo and Citibank, N.A., as HoldCo Depositary, at the Effective Time, and to which the holders and beneficial owners of HoldCo ADSs become parties upon acceptance of HoldCo ADSs;

“HoldCo Shares” refers to HoldCo Common Shares and HoldCo ADSs, collectively;

“IFRS” refers to International Financial Reporting Standards as issued by the International Accounting Standards Board;

“Joint Share Exchange Agreement” refers to the joint share exchange agreement dated June 30, 2016 and as supplemented by the Supplemental Agreement dated December 14, 2017, by and between ASE and SPIL; an English translation of the Joint Share Exchange Agreement is included as Annex A-1 and Annex A-2 to this proxy statement/prospectus;

“NASDAQ” refers to the NASDAQ National Market;

Table of Contents

“non-ROC holder” refers to a non-resident individual or non-resident entity that owns ASE Common Shares or ADSs or HoldCo Common Shares or HoldCo ADSs. As used in the preceding sentence, a “non-resident individual” is a non-ROC national who owns ASE Common Shares or ADSs or HoldCo Common Shares or HoldCo ADSs and is not physically present in the ROC for 183 days or more during any calendar year, and a “non-resident entity” is a corporation or a non-corporate body that owns ASE Common Shares or ASE ADSs or HoldCo Common Shares or HoldCo ADSs, is organized under the laws of a jurisdiction other than the ROC and has no fixed place of business or business agent in the ROC;

“NT\$” and “NT dollars” refers to New Taiwan dollars, the official currency of the ROC;

“NYSE” refers to the New York Stock Exchange;

“PRC” or “China” refers to the People’s Republic of China, excluding, for purposes of this proxy statement/prospectus, Hong Kong, the Macau Special Administrative Region and Taiwan;

“Registrant” refers to either ASE or SPIL;

“ROC” or “Taiwan” refers to the Republic of China;

“ROC Company Law” refers to the Company Law of the ROC;

“ROC Mergers and Acquisitions Act” refers to the Business Mergers and Acquisitions Act of the ROC;

“ROC Securities and Exchange Law” refers to the Securities and Exchange Act of the ROC;

“ROC Trading Day” refers to a day when TWSE is open for business;

“Share Exchange” refers to the transactions pursuant to which ASE will file an application with the TWSE and other competent authorities to establish HoldCo by means of a statutory share exchange, HoldCo will acquire all issued shares of each of ASE and SPIL and ASE and SPIL will become wholly owned subsidiaries of HoldCo concurrently;

“Securities Act” refers to the U.S. Securities Act of 1933, as amended;

“SEC” refers to the U.S. Securities and Exchange Commission;

“SPIL” refers to Siliconware Precision Industries Co., Ltd., and, as the context requires, its subsidiaries;

“SPIL ADS(s)” refers to the American depositary shares issued by the SPIL Depositary under the SPIL Deposit Agreement. Each SPIL ADS represents five SPIL Common Shares;

“SPIL Common Share(s)” refers to the common share(s) of SPIL, par value NT\$10 per share;

“SPIL Depositary” refers to JPMorgan Chase Bank, N.A., as depositary for the SPIL ADSs under the SPIL Deposit Agreement;

“SPIL Deposit Agreement” refers to the Amended and Restated Deposit Agreement, dated as of January 6, 2015, by and among SPIL, JPMorgan Chase Bank, N.A., as SPIL Depositary, and the Holders and Beneficial Owners of SPIL ADSs, as amended;

“Supplemental Agreement” refers to the supplemental agreement dated December 14, 2017 to the joint share exchange agreement entered into between ASE and SPIL on June 30, 2016; an English translation of the Supplemental Agreement is included as Annex A-2 to this proxy statement/prospectus;

“TWSE” refers to the Taiwan Stock Exchange;

“U.S.” refers to the United States of America; and

Table of Contents

- “US\$” and “U.S. dollars” refers to United States dollars, the official currency of the United States of America.

For your convenience, this proxy statement/prospectus contains translations of certain NT dollar amounts into U.S. dollar amounts at a rate of NT\$30.33 to US\$1.00, the exchange rate set forth in the H.10 statistical release of the Federal Reserve Board on September 29, 2017, unless otherwise stated. We make no representation that any NT dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or NT dollars, as the case may be, at any particular rate, or at all.

Questions and Answers about the Share Exchange

Q. Why am I receiving this document?

A. ASE and SPIL have entered into the Joint Share Exchange Agreement pursuant to which a holding company, HoldCo, will be established by means of a statutory share exchange pursuant to the laws of the ROC, and HoldCo will (i) acquire all issued shares of ASE in exchange for shares of HoldCo using the Exchange Ratio as described below, and (ii) acquire all issued SPIL Common Shares using the Cash Consideration as described below. Upon the consummation of the Share Exchange, ASE and SPIL will become wholly owned subsidiaries of HoldCo concurrently.

Before the Share Exchange can be completed, ASE shareholders must vote to approve, among other things, the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement. If you are an ASE shareholder, ASE is sending you this proxy statement/prospectus to ask you to vote in favor of these matters. ASE will hold the ASE EGM on February 12, 2018 to obtain these approvals and the approval of certain other proposals that are not conditions to the completion of the Share Exchange.

This proxy statement/prospectus, which you should read carefully, contains important information about the Joint Share Exchange Agreement, the Share Exchange and the other transactions contemplated by the Joint Share Exchange and other matters being considered at the ASE EGM. The enclosed voting materials allow you to vote your shares without attending the applicable shareholders' meeting. Your vote is very important and we encourage you to submit your vote or proxy as soon as possible.

Q. What will SPIL shareholders receive in the Share Exchange?

A. As of the Effective Time of the Share Exchange:

- each SPIL Common Share, par value NT\$10 per share, issued immediately prior to the Effective Time (including SPIL's treasury shares and the SPIL Common Shares beneficially owned by ASE), will be transferred to HoldCo in consideration for the right to receive NT\$51.2 (representing NT\$55 *minus* a cash dividend and a return of capital reserve of NT\$3.8 per SPIL Common Share distributed by SPIL on July 1, 2016), payable by HoldCo in cash in NT dollars, without interest and net of any applicable withholding taxes; and
- each SPIL ADS will be cancelled in exchange for the right to receive through SPIL Depositary, the US dollar equivalent of NT\$256 (representing five times of the SPIL Common Shares Cash Consideration) *minus* (i) all

processing fees and expenses per SPIL ADS in relation to the conversion from NT dollars into US dollars, and (ii) US\$0.05 per SPIL ADS cancellation fees pursuant to the terms of the SPIL Deposit Agreement, payable by HoldCo in cash in US dollars, without interest and net of any applicable withholding taxes.

Q. What will ASE shareholders receive in the Share Exchange?

A. As of the Effective Time:

each ASE Common Share, par value NT\$10 per share, issued immediately prior to the Effective Time (including ASE's treasury shares), will be transferred to HoldCo in consideration for the right to receive 0.5 HoldCo Common Shares; and

each ASE ADS, currently representing five ASE Common Shares, will, after the Effective Time, represent the right to receive 1.25 HoldCo ADSs, each HoldCo ADS representing two HoldCo Common Shares, upon surrender for cancellation to the ASE Depositary after the Effective Time.

Q: How will fractional entitlements to HoldCo Common Shares be handled in the Share Exchange?

v

Table of Contents

ASE will aggregate the fractional entitlements to HoldCo Common Shares and sell the aggregated HoldCo Common Shares using the closing price of ASE Common Shares on the TWSE on the ninth (9th) ROC Trading Day A: prior to the Effective Time, to an appointee of the Chairman of HoldCo. The cash proceeds from the sale will be distributed to the former holders of ASE Common Shares by HoldCo on a proportionate basis in accordance with their respective fractions at the Effective Time.

Q: How will fractional entitlements to HoldCo ADSs be handled in the Share Exchange?

A: The ASE Depositary (Citibank) will aggregate the fractional entitlements to HoldCo ADSs, use commercially reasonable efforts to sell the aggregated fractional entitlements to HoldCo ADSs on the open market, and remit the net cash proceeds (after deducting applicable taxes, fees and expenses, including sales commissions) to the holders of ASE ADSs entitled to them.

Q. How do the HoldCo Common Shares differ from ASE Common Shares?

A. HoldCo Common Shares will not materially differ from ASE Common Shares from a legal perspective.

Q. How do the HoldCo ADSs differ from ASE ADSs?

A. HoldCo ADSs will not materially differ from ASE ADSs from a legal perspective.

Q. When is the Share Exchange expected to be completed?

A. The Share Exchange is expected to be completed on or promptly after April 30, 2018.

Q. What is the record date for voting at the ASE EGM?

A. The record date for voting at the ASE EGM for ASE Common Shares is on January 14, 2018 (Taiwan time).

Q. How do I vote at the ASE EGM?

A. You may exercise voting rights as a shareholder by electronic means or by attending the ASE EGM, as applicable, in person or by proxy.

You may exercise your voting right by electronic means beginning from the fifteenth (15th) calendar day prior to the ASE EGM, as applicable, until the third calendar day prior to the day of the ASE EGM (the “Electronic Voting Period”). Shareholders who intend to exercise voting rights electronically must login to the website maintained by the TDCC (<https://www.stockvote.com.tw>) and proceed in accordance with the instructions provided therein.

You may exercise your voting rights by attending the ASE EGM in person or by proxy using a duly authorized power of attorney in the prescribed form attached to the notice of convocation distributed by ASE prior to the respective ASE EGM.

Q: How will shares being represented at the ASE EGM by voting cards be treated?

A: The voting cards used for the ASE EGM will describe the proposals to be voted on by shareholders at the ASE EGM, as applicable, including approval of the Share Exchange. The voting cards will allow shareholders to indicate a “for” or “against” vote with respect to each proposal.

Q. May I change my vote?

A. Yes.

If you previously voted through the electronic voting website, you may change or revoke your previous voting by logging in to the electronic voting website anytime within the Electronic Voting Period. If you revoked your electronic voting within the Electronic Voting Period, you may attend the ASE EGM, as applicable, and vote in person.

Table of Contents

If you previously presented a valid proxy or exercised your vote through the electronic voting website but then wish to attend the ASE EGM in person, you are required to revoke your proxy in writing addressed to ASE or revoke your electronic vote by logging in to the electronic voting website at least two (2) calendar days prior to the ASE EGM. Otherwise, the voting right exercised by your proxy or through the electronic voting website will prevail.

Q: How do I vote if I own ASE ADSs?

The ASE Depository will send to holders of ASE ADSs as of January 12, 2018 close of business (New York time), A: a voting instruction card and notice, which outlines the procedures those holders must follow to give proper voting instructions to the ASE Depository.

Q: If I own ASE ADSs, what steps must I take to exchange my ASE ADSs for HoldCo ADSs?

If you hold physical certificates, also known as ASE American depository receipts (“ASE ADRs”), representing ASE ADSs, you will be sent a letter of transmittal after the Effective Time by the ASE Depository, which is to be used A: to surrender your ASE ADSs to the ASE Depository in exchange for HoldCo ADSs. The letter of transmittal will contain instructions explaining the procedure for surrendering the ASE ADSs in exchange for the HoldCo ADSs. YOU SHOULD NOT RETURN ASE ADRs WITH THE ENCLOSED PROXY CARD. The HoldCo ADSs will be issued in uncertificated, book-entry form, unless a physical HoldCo ADR is subsequently requested.

If you hold ASE ADSs in uncertificated form registered directly on the books of the ASE Depository, you will not be required to take any action after the Effective Time. The ASE Depository will, after the Effective Time, exchange your ASE ADSs for the applicable HoldCo ADSs and send you a statement reflecting HoldCo ADSs issued in your name as a result of the Share Exchange and a check for the cash in lieu of any fractional HoldCo ADS to which you are entitled as a result of the Share Exchange.

Beneficial holders of ASE ADSs held in “street name” through a bank, broker or other financial institution with an account in The Depository Trust Company (“DTC”) will not be required to take any action after the Effective Time to exchange ASE ADSs for HoldCo ADSs. After the Effective Time, ASE ADSs held in “street name” will be exchanged by the ASE Depository via DTC for the applicable HoldCo ADSs and delivered in book-entry form via DTC to the applicable banks, brokers and other financial institutions for credit to their clients, the beneficial owners of ASE ADSs.

Q: If I own ASE ADSs, will I be required to pay any service fees to exchange my ASE ADSs for HoldCo ADSs?

A: There is a US\$0.02 cancellation fee per ASE ADS held payable by holders of ASE ADSs to the ASE Depository in connection with the exchange of ASE ADSs for HoldCo ADSs.

Q: How will trading in ASE Common Shares and ASE ADSs be affected by the Share Exchange?

ASE expects that ASE Common Shares will be suspended from trading on the TWSE starting from the eighth (8th) ROC Trading Day prior to the Effective Time of the Share Exchange. ASE expects that HoldCo Common Shares will begin trading in Taiwan during TWSE trading hours, at the Effective Time of the Share Exchange. ASE
A: expects that the ASE ADSs will be suspended from trading on the NYSE starting from the eighth (8th) trading day on the NYSE prior to the Effective Time of the Share Exchange. ASE expects that HoldCo ADSs will begin trading on the NYSE during NYSE trading hours, at the Effective Time of the Share Exchange. You will not be able to trade ASE Common Shares and ASE ADSs during these gaps in trading.

I am a holder of ASE's US\$200,000,000 aggregated principal amount of currency-linked zero coupon convertible bonds due 2018 (the "ASE 2015 Convertible Bonds"). What will be the treatment of my bonds before and after the Share Exchange?

A: Prior to the maturity of the ASE 2015 Convertible Bonds, you may exercise your rights pursuant to the indenture of the ASE 2015 Convertible Bonds. ASE plans to fully repay the ASE 2015 Convertible Bonds on or before the maturity date of such bonds, March 27, 2018. It is expected that on or after the Effective Time, the ASE 2015 Convertible Bonds would no longer be outstanding.

Table of Contents

Q: I am a holder of SPIL’s zero coupon convertible bonds due 2019 (the “SPIL Convertible Bonds”). What will be the treatment of my bonds before and after the Share Exchange?

A: Prior to the Effective Time, you may exercise your rights pursuant to the indenture of the SPIL Convertible Bonds. If you chose to convert your SPIL Convertible Bonds into SPIL Common Shares before the record date of the Share Exchange and become a holder of SPIL Common Shares, your shares will be transferred to HoldCo in consideration for the right to receive the Cash Consideration (subject to additional adjustments according to the terms of the Joint Share Exchange Agreement and applicable laws) payable by HoldCo in cash in NT dollars, without interest and net of any applicable withholding tax.

If the SPIL Convertible Bonds have not been redeemed or repurchased by SPIL and cancelled or converted by you prior to the Effective Time, HoldCo, will become a co-obligor with SPIL pursuant to a supplemental indenture to be entered into among SPIL, HoldCo and the trustee of the SPIL Convertible Bonds and will pay Cash Consideration (subject to additional adjustments according to the terms of the Joint Share Exchange Agreement and applicable laws) to such holders of SPIL Convertible Bonds for each SPIL Common Share you are entitled to receive, without interest and net of any applicable withholding tax, if they exercise their conversion rights after the Effective Time.

You are urged to consult your own tax advisor as to the particular tax consequences of conversion of your SPIL Convertible Bonds, including the effect of any federal, state, local, non-U.S. and other tax laws.

Q. Whom can I call with questions?

A: If you have more questions about the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement, you should contact:

Kenneth Hsiang
Email: ir@aseglobal.com

Summary

The following summary highlights selected information described in more detail elsewhere in this proxy statement/prospectus and the documents included as annexes to this proxy statement/prospectus and may not contain all the information that may be important to you. To understand the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement and the matters being voted on by ASE shareholders and SPIL shareholders at their respective extraordinary shareholders' meeting more fully, and to obtain a more complete description of the legal terms of the Joint Share Exchange Agreement, you should carefully read this entire document, including the annexes, and the documents to which ASE and SPIL refer you. Each item in this summary includes a page reference directing you to a more complete description of that topic. See the section entitled "Where You Can Find More Information."

The Parties (see page 79)

Advanced Semiconductor Engineering, Inc.

ASE is a company limited by shares incorporated under the laws of the ROC. ASE's services include semiconductor packaging, production of interconnect materials, front-end engineering testing, wafer probing and final testing services, as well as integrated solutions for electronics manufacturing services in relation to computers, peripherals, communications, industrial, automotive, and storage and server applications.

ASE Common Shares are traded on the TWSE under the ticker "2311" and ASE ADSs are traded on the NYSE under the symbol "ASX." ASE's principal executive offices are located at 26 Chin Third Road, Nantze Export Processing Zone, Nantze, Kaohsiung, Taiwan, Republic of China, and the telephone number at the above address is +886-7-361-7131.

Siliconware Precision Industries Co., Ltd.

SPIL is a company limited by shares incorporated under the laws of the ROC. SPIL offers a full range of packaging and testing solutions, including advanced packages, substrate packages and lead-frame packages, as well as testing for logic and mixed signal devices. SPIL currently targets customers in the personal computer, communications, consumer integrated circuits and non-commodity memory semiconductor markets.

SPIL Common Shares are traded on TWSE under the ticker “2325” and SPIL ADSs are traded on NASDAQ under the symbol “SPIL.” The principal executive offices of SPIL are located at No. 123, Sec. 3, Da Fong Road, Tantz, Taichung, Taiwan, Republic of China, and the telephone number is +886-4-2534-1525.

ASE Industrial Holding Co., Ltd.

It is expected that HoldCo will be a company limited by shares incorporated under the laws of the ROC and will be formed at the Effective Time. HoldCo will initially serve exclusively as the holding company for ASE, SPIL, as well as their subsidiaries and investees. HoldCo will not have substantive assets or operations.

It is expected that HoldCo Common Shares will be traded on the TWSE and HoldCo ADSs will be traded on the NYSE. It is expected that HoldCo’s principal executive offices will be located at 26 Chin Third Road, Nantze Export Processing Zone, Nantze, Kaohsiung, Taiwan, Republic of China and their telephone number at the above address will be +886-7-361-7173.

The Share Exchange (see page 31)

ASE and SPIL have entered into the Joint Share Exchange Agreement pursuant to which a holding company, HoldCo, will be formed by means of a statutory share exchange pursuant to ROC law, and at the Effective Time, HoldCo will (i) acquire all issued shares of ASE in exchange for shares of HoldCo using the Exchange Ratio as described below, and (ii) acquire all issued shares of SPIL using the Cash Consideration as described below. Upon the consummation of the Share Exchange, ASE and SPIL will become wholly owned subsidiaries of HoldCo

Table of Contents

concurrently. Subject to the Share Exchange and the Joint Share Exchange Agreement being approved by shareholders of ASE and SPIL, respectively, and upon the satisfaction of the other conditions for completing the Share Exchange, HoldCo will be formed — and the Share Exchange is expected to become effective — on or around April 30, 2018.

Pursuant to the terms and subject to the conditions set forth in the Joint Share Exchange Agreement, at the Effective Time:

(i) for SPIL shareholders:

each SPIL Common Share, par value NT\$10 per share, issued immediately prior to the Effective Time (including SPIL's treasury shares and the SPIL Common Shares beneficially owned by ASE), will be transferred to HoldCo in consideration for the right to receive NT\$51.2 (representing NT\$55 *minus* a cash dividend and a return of capital reserve of NT\$3.8 per SPIL Common Share distributed by SPIL on July 1, 2016), payable by HoldCo in cash in NT dollars, without interest and net of any applicable withholding taxes; and

each SPIL ADS will be cancelled in exchange for the right to receive through SPIL Depositary, the US dollar equivalent of NT\$256 (representing five times of the SPIL Common Shares Cash Consideration) *minus* (i) all processing fees and expenses per SPIL ADS in relation to the conversion from NT dollars into US dollars, and (ii) US\$0.05 per SPIL ADS cancellation fees pursuant to the terms of the SPIL Deposit Agreement, payable by HoldCo in cash in US dollars, without interest and net of any applicable withholding taxes.

(ii) for ASE shareholders:

each ASE Common Share, par value NT\$10 per share, issued immediately prior to the Effective Time (including ASE's treasury shares), will be transferred to HoldCo in consideration for the right to receive 0.5 HoldCo Common Shares; and

each ASE ADS, currently representing five ASE Common Shares, will, after the Effective Time, represent the right to receive 1.25 HoldCo ADSs, each HoldCo ADS representing two HoldCo Common Shares, upon surrender for cancellation to the ASE Depositary after the Effective Time.

Under ROC law, if any fractional HoldCo Common Shares representing less than one common share would otherwise be allotted to former holders of ASE Common Shares in connection with the Share Exchange, those fractional shares will not be issued to those shareholders. Pursuant to the Joint Share Exchange Agreement, ASE will aggregate the fractional entitlements and sell the aggregated ASE Common Shares using the closing price of ASE Common Shares on the TWSE on the ninth (9th) ROC Trading Day prior to the Effective Time, to an appointee of the Chairman of

HoldCo. The cash proceeds from the sale will be distributed to the former holders of ASE Common Shares by HoldCo on a proportionate basis in accordance with their respective fractions at the Effective Time.

If you hold physical certificates, also known as ASE American depositary receipts (“ASE ADRs”), representing ASE ADSs, you will be sent a letter of transmittal after the Effective Time by the ASE Depositary, which is to be used to surrender your ASE ADSs to the ASE Depositary in exchange for HoldCo ADSs. The letter of transmittal will contain instructions explaining the procedure for surrendering the ASE ADSs in exchange for the HoldCo ADSs. **YOU SHOULD NOT RETURN ASE ADRs WITH THE ENCLOSED PROXY CARD.** The HoldCo ADSs will be issued in uncertificated, book-entry form, unless a physical HoldCo ADR is subsequently requested.

If you hold ASE ADSs in uncertificated form registered directly on the books of the ASE Depositary, you will not be required to take any action after the Effective Time. The ASE Depositary will, after the Effective Time, exchange your ASE ADSs for the applicable HoldCo ADSs and send you a statement reflecting HoldCo ADSs

Table of Contents

issued in your name as a result of the Share Exchange and a check for the cash in lieu of any fractional HoldCo ADS to which you are entitled as a result of the Share Exchange.

Beneficial holders of ASE ADSs held in “street name” through a bank, broker or other financial institution with an account in DTC will not be required to take any action after the Effective Time to exchange ASE ADSs for HoldCo ADSs. After the Effective Time, ASE ADSs held in “street name” will be exchanged by the ASE Depository via DTC for the applicable HoldCo ADSs and delivered in book-entry form via DTC to the applicable banks, brokers and other financial institutions for credit to their clients the beneficial owners of ASE ADSs.

The ASE Depository will only distribute whole HoldCo ADSs. It will use commercially reasonable efforts to sell the fractional entitlements to HoldCo ADSs and distribute the net cash proceeds to the holders of ASE ADSs entitled to it.

Subject to approval at the ASE EGM, HoldCo will issue 4,306,143,682 HoldCo Common Shares (based on 8,732,287,364 outstanding ASE Common Shares as of November 30, 2017 and taking into account the cancellation of up to 120,000,000 ASE treasury shares which may be then-outstanding) in connection with the Share Exchange.

The following chart depicts the organizational structure of each of ASE and SPIL before the Share Exchange as of the date of this proxy statement/prospectus and immediately after the Effective Time.

Before the Share Exchange as of the date of this proxy statement/prospectus:

Immediately after the Effective Time:

The ASE EGM (see page 80)

Date, Time and Place. The ASE EGM to vote for the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement is expected to be held at 10:00 A.M. (Taiwan Time) on February 12, 2018, at Zhuang Jing Auditorium, 600 Jiachang Road, Nantze Export Processing Zone, Nantze District, Kaohsiung City, Taiwan, Republic of China.

Purpose. The ASE EGM is being held to consider and vote on:

Table of Contents

In connection with ASE

Proposal 1. To consider and to vote upon the joint share exchange agreement entered into between ASE and SPIL on June 30, 2016 and as supplemented by the Supplemental Agreement dated December 14, 2017 (the “Joint Share Exchange Agreement”) and the proposed share exchange and the other transactions contemplated by the Joint Share Exchange Agreement

Proposal 2. To consider and to vote upon the amendment to the Procedures for Lending Funds to Other Parties of ASE

Proposal 3. To consider and to vote upon the amendment to the Procedures of Making the Endorsement and Guarantees of ASE

Proposal 4. To consider and to vote upon the amendment to the Procedures for Acquisition or Disposal of Assets of ASE

In connection with HoldCo

Proposal 1. To consider and to vote upon the Rules of Procedure for Shareholders' Meetings of HoldCo

Proposal 2. To consider and to vote upon the adoption of the articles of incorporation of HoldCo

Proposal 3. To consider and to vote upon the Rules Governing the Election of Directors and Supervisors of HoldCo

Proposal 4. To consider and elect the members of the board of directors and supervisors of HoldCo

Proposal 5. To consider and to vote upon the proposal to waive the non-competition clauses applicable to newly elected directors of HoldCo

Proposal 6. To consider and to vote upon the Procedures for Lending Funds to Other Parties of HoldCo

Proposal 7. To consider and to vote upon the Procedures of Making the Endorsement and Guarantees of HoldCo

Proposal 8. To consider and to vote upon the Procedures for Acquisition or Disposal of Assets of HoldCo

Record Date; Voting Rights. Holders of ASE Common Shares will be entitled to exercise voting rights by electronic means or by attending the ASE EGM in person or by proxy, if they are recorded on ASE's stockholder register on January 14, 2018 ("ASE EGM Record Date"). Only ASE shareholders who hold ASE Common Shares of record on the ASE EGM Record Date are entitled to vote at the ASE EGM, or to exercise the appraisal rights conferred on dissenting shareholders by the laws of the ROC. Each ASE Common Share entitles its holder to one vote at the ASE EGM on each of Proposal 1 to Proposal 4 (in connection with ASE) and Proposal 1 to Proposal 3 and Proposal 5 to Proposal 8 (in connection with HoldCo), and Proposal 4 (in connection with HoldCo) will be voted on through cumulative voting. You may exercise voting rights by electronic means or by attending the ASE EGM in person or by proxy using a duly authorized power of attorney in the prescribed form attached to the notice of convocation distributed by ASE prior to the ASE EGM. You may exercise your voting right by electronic means beginning from the 15th calendar day prior to the ASE EGM until the third calendar day prior to the day of the ASE EGM. Shareholders who intend to exercise their voting rights electronically must log in to the website maintained by the TDCC (<https://www.stockvote.com.tw>) and proceed in accordance with the instructions provided therein.

Holders of ASE ADSs will be entitled to instruct the ASE Depositary (Citibank) as to how to vote the ASE Common Shares represented by ASE ADSs at the ASE EGM in accordance with the procedures set forth in this prospectus, if those holders were recorded on the ASE Depositary's register on January 12, 2018 by close of business (New York time). In accordance with and subject to the terms of the ASE Deposit Agreement, holders of ASE ADSs have no individual voting rights with respect to the ASE Common Shares represented by their ASE ADSs. Pursuant to the ASE Deposit Agreement, each holder of ASE ADSs is deemed to have authorized and directed the ASE Depositary to appoint the Chairman of ASE or his/her designee, as Voting Representative of the ASE Depositary, the custodian or the nominee who is registered in the ROC as representative of the holders of ASE ADSs to vote the ASE Common Shares represented by ASE ADSs as more fully described below.

Table of Contents

In accordance with and subject to the terms of the ASE Deposit Agreement, if holders of ASE ADSs together holding at least 51% of all the ASE ADSs outstanding as of the record date set by the ASE Depositary for the ASE EGM, instruct the ASE Depositary, prior to the ASE ADS voting instructions deadline, to vote in the same manner with respect to any of the proposals to be voted in at the EGM, the ASE Depositary shall notify the Voting Representative and appoint the Voting Representative as the representative of the ASE Depositary and the holders of ASE ADSs to attend the ASE EGM and vote, as to such proposals, all ASE Common Shares represented by ASE ADSs outstanding in the manner so instructed by such holders. If voting instructions are received from an ASE ADS holder by the ASE Depositary as of the ASE ADS voting instructions deadline which are signed but without further indication as to voting instructions, the ASE Depositary shall deem such holder to have instructed a vote in favor of the items set forth in such instructions.

Furthermore, in accordance with and subject to the terms of the ASE Deposit Agreement, if, for any reason, the ASE Depositary has not, prior to the ASE ADS voting instructions deadline, received instructions from holders of ASE ADSs together holding at least 51% of all ASE ADSs outstanding as of the record date set by the ASE Depositary for the ASE EGM, to vote in the same manner with respect to any of the proposals to be voted on at the EGM, the holders of all ASE ADSs shall be deemed to have authorized and directed the ASE Depositary to give a discretionary proxy to the Voting Representative, as the representative of the holders of ASE ADSs, to attend the ASE EGM and vote as to such proposals, all the ASE Common Shares represented by ASE ADSs then outstanding in his discretion; provided, however, that the ASE Depositary will not give a discretionary proxy as described if it fails to receive under the terms of the ASE Deposit Agreement a satisfactory opinion from ASE's counsel prior to the ASE EGM. In such circumstances, the Voting Representative shall be free to exercise the votes attaching to the ASE Common Shares represented by ASE in any manner he wishes, which may not be in the best interests of the ASE ADS holders. The Voting Representative has informed ASE that he plans as of the date of this proxy statement/prospectus to vote in favor of all of the proposals at the ASE EGM, although he has not entered into any agreement obligating him to do so.

Vote Required. The Share Exchange cannot be completed without ASE shareholders approving, among other things, the completion by ASE of the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement by either (x) the approval of one-half of the ASE Common shares present at the ASE EGM if at least two-thirds of the outstanding ASE Common Shares attend the ASE EGM, or (y) the approval of two-thirds of the ASE Common Shares present at the ASE EGM if at least one-half of the outstanding ASE Common Shares attend the ASE EGM. Other than the proposal for the election of directors and supervisors of ASE Industrial Holding Co., Ltd. which is through cumulative voting, each ASE shareholder is entitled to one vote per share for the proposals raised at the ASE EGM.

As of November 30, 2017, there were 8,732,287,364 ASE Common Shares (including those represented by ASE ADSs) outstanding. As of November 30, 2017, ASE directors and executive officers, as a group, beneficially owned and were entitled to vote 2,163,879,853 ASE Common Shares, or approximately 24.8% of the total outstanding share capital of ASE. ASE currently expects that these directors and executive officers will vote their ASE Common Shares that are held at the ASE EGM Record Date in favor of all of the proposals at the ASE EGM, although none of them has entered into any agreement obligating them to do so.

Under ROC law, ASE is prohibited from soliciting proxies, consents or authorizations at its shareholders' meetings, including the ASE EGM at which the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement will be voted upon. However, ASE Enterprises Limited ("ASEE"), a shareholder of ASE beneficially holding approximately 15.7% of the total outstanding share capital of ASE as of the date of this proxy statement/prospectus, has expressed that it plans to vote in favor of all of the proposals at the ASE EGM and intends to solicit proxies in favor of the authorization and approval of the Share Exchange and the other transactions

Table of Contents

contemplated by the Joint Share Exchange Agreement prior to the ASE EGM. ASEE is controlled by ASE's Chairman and Chief Executive Officer Jason C.S. Chang.

Recommendation and Approval of the ASE Board and Reasons for the Share Exchange (see page 38)

The ASE Board recommends that ASE shareholders vote "FOR" each of the proposals to be presented at the ASE EGM.

In the course of reaching its decision to approve the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement, the ASE board of directors (the "ASE Board") considered a number of factors in its deliberations. For a more complete discussion of these factors, see the section entitled "Special Factors —Recommendation and Approval of the ASE Board and Reasons for the Share Exchange."

Interests of ASE in SPIL Common Shares and ADSs (see page 40)

On October 1, 2015, ASE closed its acquisition of, and paid for, 779,000,000 SPIL Common Shares (including those represented by SPIL ADSs) pursuant to the tender offers in the U.S. and in the ROC (the "Initial ASE Tender Offers"). In March and April 2016, ASE acquired an additional 258,300,000 SPIL Common Shares (including those represented by SPIL ADSs) through open market purchases. As of the date of this proxy statement/prospectus, ASE held 988,847,740 SPIL Common Shares and 9,690,452 SPIL ADSs, representing 33.29% of the issue and outstanding share of SPIL.

Except as set forth elsewhere in this proxy statement/prospectus: (a) none of ASE and, to ASE's knowledge, any associate or majority-owned subsidiary of ASE beneficially owns or has a right to acquire any SPIL Common Shares, SPIL ADSs or other equity securities of SPIL; (b) none of ASE and, to ASE's knowledge, any associate or majority-owned subsidiary of ASE has effected any transaction in SPIL Common Shares, SPIL ADSs or other equity securities of SPIL during the past 60 days; and (c) during the two years before the date of this proxy statement/prospectus, there have been no transactions between ASE, its subsidiaries, on the one hand, and SPIL or any of its executive officers, directors, controlling shareholders or affiliates, on the other hand, that would require reporting under SEC rules and regulations.

Opinions of ASE's Independent Expert (see page 41)

On May 25, 2016, Mr. Ji-Sheng Chiu, CPA, of Crowe Horwath (TW) CPAs Firm, an independent expert engaged by ASE, delivered to ASE its written opinion (the “First Crowe Horwath Opinion”) that the cash consideration of NT\$55 per SPIL Common Share to be paid by HoldCo under the Share Exchange and the Exchange Ratio in which ASE Common Shares will be exchanged for HoldCo Common Shares as stipulated in the Joint Share Exchange Memorandum of Understanding (“Joint Share Exchange MOU”) were reasonable and fair. On June 29, 2016, Mr. Ji-Sheng Chiu delivered to ASE a second opinion (the “Second Crowe Horwath Opinion”) that the Cash Consideration (including conditions for adjustments) per SPIL Common Share to be paid by HoldCo in the Share Exchange and the Exchange Ratio in which ASE Common Shares will be exchanged for HoldCo Common Shares as stipulated in the Joint Share Exchange Agreement were reasonable and fair. On January 15, 2018, Mr. Ji-Sheng Chiu delivered to ASE a third opinion (the “Third Crowe Horwath Opinion,” and together with the First Crowe Horwath Opinion and the Second Crowe Horwath Opinion, the “Crowe Horwath Opinions”) that the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares and each SPIL Common Share for NT\$55 in cash (subject to adjustment to NT\$51.2 after deduction of cash dividends distribution of NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share) pursuant to the Share Exchange was reasonable and fair. The Crowe Horwath Opinions will be available for any interested ASE shareholder (or any representative of an ASE shareholder who has been so designated in writing) to inspect and copy at ASE’s principal executive offices during regular business hours.

Financing of the Share Exchange (see page 53)

HoldCo intends to fund the Cash Consideration (including the NT\$51.2 per SPIL Common Share Cash Consideration payable to holders of the SPIL Convertible Bonds that have not been otherwise redeemed or repurchased by the SPIL, or cancelled or converted prior to the Effective Time), which is in an aggregate amount of approximately NT\$173.16 billion (US\$5.71 billion), with a combination of ASE’s cash on hand and debt financing. Subject to the amount of cash on hand at the time when ASE arranges for financing, ASE may arrange bank loans up to NT\$173 billion (US\$5.70 billion) with a combination of a syndication loan of NT\$120 billion (US\$3.96 billion) and a short-term bridge loan of NT\$53 billion (US\$1.75 billion). In a highly confident letter dated November 7, 2016 issued by Citibank Taiwan Limited (“Citibank”) to ASE, Citibank stated that it is highly

Table of Contents

confident of its ability to arrange debt facilities for the Share Exchange up to an amount of US\$3.8 billion equivalent. In another highly confident letter dated November 16, 2016 issued by DBS Bank Ltd., Taipei Branch (“DBS”) to ASE, DBS stated that it is confident of its ability to arrange debt facilities for the Share Exchange up to an amount of NT\$53 billion (US\$1.75 billion). Both highly confident letters contained certain customary conditions to the arrangement of such facilities, including the following material conditions: (i) the applicable bank being appointed as the bookrunner and arranger of the facility, (ii) completion of customary due diligence with the results being satisfactory to the applicable bank, (iii) final agreement on the pricing, terms and conditions for the facility, (iv) negotiation, execution and delivery of financing documentation in form and substance satisfactory to the applicable bank, (v) receipt of all relevant approvals in connection with the Share Exchange, including approval of the credit committee of the applicable bank, (vi) consummation of the Share Exchange on terms and conditions satisfactory to the applicable bank, and (vii) market conditions at the relevant time being satisfactory to the applicable bank.

In addition, on December 8, 2016, the ASE Board approved a capital increase in which ASE offered 300 million new ASE Common Shares, par value NT\$10 per share. The subscription price was later set at NT\$34.3 (US\$1.13) per share and the total amount of proceeds of such capital increase was NT\$10.29 billion (US\$339.27 million). Eighty percent of such new ASE Common Shares was subscribed for by ASE’s existing shareholders on a pro rata basis (the “Rights Offering”), ten percent of such new ASE Common Shares was subscribed for by ASE’s employees and the remaining ten percent of such new ASE Common Shares was sold to the general public in Taiwan. On December 16, 2016, ASE filed with the SEC a registration statement on Form F-3 and a preliminary prospectus supplement in connection with the Rights Offering. On February 3, 2017 and March 28, 2017, ASE filed with the SEC a prospectus supplement on Form 424B5 in connection with the Rights Offering. ASE used the proceeds of the capital increase to reduce or retire existing indebtedness, which improved its capital position and free up its borrowing capacity to facilitate the incurrence of indebtedness to finance the Share Exchange.

Board of Directors and Management of HoldCo Following Completion of the Share Exchange (see page 50)

Under ROC law, since HoldCo has not come into existence before the Effective Time, ASE will hold a shareholders’ meeting for ASE’s shareholders (also the incorporators of HoldCo) to elect members of the board of directors and supervisors for HoldCo. The ASE EGM will function as HoldCo’s incorporators’ meeting by operation of law. Therefore, at the ASE EGM, shareholders of ASE will elect the members of the board of directors and supervisors of HoldCo.

Under the terms of the Joint Share Exchange Agreement, at HoldCo’s incorporators’ meeting, nine to 13 directors and three supervisors will be elected for HoldCo, which terms of such directors and supervisors will start from the Effective Time. SPIL’s Chairman and President are expected to be appointed as directors on HoldCo’s board of directors. After the completion of the Share Exchange, subject to ASE shareholders adopting the HoldCo director and supervisor election proposals, the board of directors of HoldCo is expected to include Jason C.S. Chang (management director, Chairman), Richard H.P. Chang (management director, Vice-Chairman), Bough Lin (management

director), Chi-Wen Tsai (management director), Rutherford Chang (management director), Tien Wu (management director), Joseph Tung (management director), Raymond Lo (management director), Tien-Szu Chen (management director), Jeffrey Chen (management director), and Freddie Liu (non-management director). Alan Cheng, Yuan-Chuang Fung and Fang-Yin Chen are expected to be the supervisors of HoldCo.

From and after the Effective Time, the board of directors of HoldCo will establish an audit committee which will consist of one non-management director, Freddie Liu, who is expected to be independent under Rule 10A-3 of the Exchange Act and financially literate with accounting or related financial management expertise. ASE is currently, and upon completion of the Share Exchange, HoldCo will be, subject to NYSE corporate governance, as applicable to foreign private issuers. It is expected that the audit committee of HoldCo established on the Effective Time would satisfy and comply with the requirements of section 303A.06 of the NYSE Listing Company Manual.

Table of Contents

Certain ROC and U.S. Federal Income Tax Consequences of the Share Exchange (see page 54)

ROC Taxation

Capital gains realized upon the Share Exchange are exempt from ROC income tax. In the view of Baker & McKenzie, by reasonable interpretation of the ROC Mergers and Acquisitions Act based on current rules and regulations promulgated by ROC tax authority, ASE's shareholders should not be subject to ROC securities transaction tax upon the Share Exchange. See the section entitled "Special Factors — Certain ROC and U.S. Federal Income Tax Consequences of the Share Exchange for Holders of ASE Common Shares or ADSs — ROC Taxation" for further discussion.

United States Taxation

Based on certain representations from ASE and assuming ASE has not been a PFIC for any taxable year during which the U.S. Holder has owned ASE Common Shares or ADSs, a U.S. Holder (as defined below) of ASE Common Shares or ASE ADSs is not expected to recognize any gain or loss for U.S. federal income tax purposes upon an exchange of ASE Common Shares or ASE ADSs for HoldCo ADSs (or shares represented by such HoldCo Common Shares or HoldCo ADSs) in the Share Exchange, except with respect to any cash received in respect of fractional HoldCo Common Shares or fractional HoldCo ADSs or paid to dissenting U.S. Holders. See the section entitled "Special Factors — Certain ROC and U.S. Federal Income Tax Consequences of the Share Exchange for Holders of ASE Common Shares or ADSs— United States Taxation" for further discussion.

Accounting Treatment of the Share Exchange (see page 59)

Under IFRS, the Cash Consideration paid by HoldCo pursuant to the Share Exchange will be accounted for by applying the acquisition method of accounting with HoldCo being considered the acquirer of SPIL for accounting purposes. Upon the completion of the Share Exchange, HoldCo would obtain control of SPIL and any equity interest previously held in SPIL accounted for as equity method investments is treated as if it were disposed of and reacquired at fair value on the acquisition date. Accordingly, it is remeasured to its acquisition-date fair value, and any resulting gain or loss compared to its carrying amount is recognized in profit or loss. HoldCo will measure the identifiable assets acquired and the liabilities assumed at their acquisition-date fair values, and recognize goodwill as of the acquisition date measured as the excess of the Cash Consideration and the fair value of the ASE's previously held equity interest in SPIL over the net of the acquisition-date fair value of the identifiable assets acquired and the liabilities assumed. Goodwill is not amortized but is tested for impairment at least annually.

Under IFRS, the exchange of ASE Common Shares for HoldCo Common Shares and the exchange of ASE ADSs for HoldCo ADSs based on the Exchange Ratio will be accounted for as a legal reorganization of entities under common control. ASE and HoldCo are ultimately controlled by the same shareholders both before and after the Share Exchange and that control is not transitory, therefore the Share Exchange under common control will not be accounted for by applying the acquisition method as above. Accordingly, ASE will recognize no gain or loss in connection with the exchange of ASE Common Shares for HoldCo shares upon the Share Exchange under common control, and all assets and liabilities of ASE will be recorded on the books of HoldCo at the carrying amounts.

Regulatory Approvals Required to Complete the Share Exchange (see page 60)

The completion of the Share Exchange is subject to obtaining antitrust and other regulatory approvals in certain jurisdictions, as noted below. ASE and SPIL submitted the required materials to the Taiwan Fair Trade Commission (the "TFTC") on July 29, 2016 and the TFTC issued a no objection letter in respect of the Share Exchange on November 16, 2016. ASE and SPIL submitted the required materials to The Ministry of Commerce People's Republic of China ("MOFCOM") on August 25, 2016. MOFCOM formally accepted the parties' notification materials on December 14, 2016, starting Phase I of the review process. MOFCOM issued notice extending its review to Phase II review on January 12, 2017. MOFCOM issued a notice extending its review to Phase III review on April 12, 2017. On June 5, 2017, ASE withdrew the original submission filed with MOFCOM and re-filed the same application with MOFCOM on June 5, 2017. Phase II of MOFCOM's review began on July 5, 2017. Phase III

Table of Contents

of MOFCOM’s review began on September 30, 2017. On November 24, 2017, MOFCOM approved the proposed combination on the condition that ASE and SPIL maintain independent operations, among other conditions, for 24 months. In addition, the U.S. Federal Trade Commission (“FTC”) issued a subpoena and civil investigative demand relating to the proposed combination on October 26, 2016. On January 17, 2017, ASE and SPIL each certified that it complied with the FTC’s requests for information. On May 15, 2017, ASE received a letter from the FTC confirming that the non-public investigation of the proposed combination had been closed. See the section entitled “Special Factors — Regulatory Approvals Required to Complete the Share Exchange.”

Share Exchange Listing (see page 61)

It is expected that HoldCo Common Shares will be listed on the TWSE and HoldCo ADSs will be listed on the NYSE at the Effective Time of the Share Exchange. As a result of the Share Exchange, ASE Common Shares currently listed on the TWSE and ASE ADSs currently listed on the NYSE will cease to be listed on the TWSE and NYSE, respectively; SPIL Common Shares currently listed on the TWSE and SPIL ADSs currently listed on NASDAQ will cease to be listed on the TWSE and NASDAQ, respectively.

The following is a tentative timetable of the various trading-related events in connection with the completion of the Share Exchange:

Final trading day for ASE Common Shares and SPIL Common Shares on the TWSE	April 17, 2018 (Taiwan time)
Final trading day for ASE ADSs on the NYSE and SPIL ADSs on NASDAQ	April 17, 2018 (New York time)
Effective date of the Share Exchange	April 30, 2018 (Taiwan time)
First trading day for HoldCo Common Shares on the TWSE	April 30, 2018 (Taiwan time)
First trading day for HoldCo ADSs on the NYSE	May 1, 2018 (New York time)

In advance of completion of the Share Exchange, ASE expects to publicly announce the definitive timetable for these trading-related events.

Rights of Dissenting Shareholders (see page 62)

Under ROC law, ASE shareholders may have dissenters' rights of appraisal in connection with the Share Exchange. See the section entitled "Special Factors — Rights of Dissenting Shareholders" for a complete discussion of dissenters' rights.

However, holders of ASE ADSs will not have any appraisal rights in respect of the Share Exchange under the terms of the ASE Deposit Agreement. To be entitled to the appraisal right, ASE ADS holders must have cancelled their ASE ADSs and become holders of ASE Common Shares by close of business day in Taiwan on January 12, 2018, the last business day before January 14, 2018, the first day of the book close period of ASE Common Shares for the purpose of ASE EGM in which the Share Exchange will be voted on. Such book close period from January 14, 2018 to February 12, 2018 was announced in Form 6-K filed by ASE with the SEC on December 20, 2017.

Litigation Related to the Share Exchange (see page 64)

ASE is not aware of any lawsuit that challenges the Share Exchange or any other transactions contemplated under the Joint Share Exchange Agreement.

Expenses Relating to the Share Exchange (see page 64)

All costs and expenses incurred in connection with the Share Exchange, the Joint Share Exchange Agreement and the completion of the transactions contemplated by the Joint Share Exchange Agreement will be paid by the party incurring such costs and expenses, except as otherwise explicitly provided for in the Joint Share Exchange Agreement, whether or not the Share Exchange or any of the other transactions contemplated by the Joint Share Exchange Agreement is completed.

Table of Contents

Comparison of Rights of Shareholders of ASE and HoldCo (see page 64)

From a legal perspective, ASE shareholders receiving HoldCo Common Shares upon the completion of the Share Exchange will not have materially different rights from those they are entitled to as ASE shareholders. See the sections entitled “Special Factors — Comparison of Rights of Shareholders of ASE and HoldCo,” “Description of HoldCo American Depositary Shares,” and “Description of HoldCo Common Shares” for more information.

No Solicitation by SPIL of Acquisition Proposals (see page 88)

Under the terms of the Joint Share Exchange Agreement, SPIL agreed not to offer, agree, enter into or sign with any third party any contract, agreement or other arrangements in respect to certain alternative transactions, subject to certain exceptions as described in the section entitled “The Joint Share Exchange Agreement — Pre-Closing Covenants and Agreements.”

Conditions to Consummation of the Share Exchange (see page 90)

The obligations of ASE, SPIL and HoldCo to consummate the Share Exchange are subject to the satisfaction of the following conditions:

ASE and SPIL will each have obtained unconditional approval of the Share Exchange at their respective general shareholders’ meetings;

receipt of approvals from all relevant competent authorities, including, but not limited to, (i) the TWSE and the SEC (ii) the TFTC and MOFCOM and (iii) the FTC completing its investigation without seeking an injunction prohibiting the Share Exchange (in the case of (ii) and (iii), including approvals or consents of conditions imposed by such authorities that both ASE and SPIL have agreed to accept); and

no order (or agreement with the FTC) is in effect and enforceable prohibiting, enjoining or rendering illegal the consummation of the Share Exchange, and no law shall have been enacted or enforced after the date the Joint Share Exchange Agreement was executed rendering illegal or prohibiting the consummation of the Share Exchange; provided that the enforcement of an order or law shall not include the decision by a governmental entity to extend the waiting period or initiate an investigation under antitrust laws or other applicable law.

In addition, ASE's and HoldCo's obligations to consummate the Share Exchange are subject to the satisfaction or waiver by ASE and HoldCo of the following additional conditions:

all representations and warranties of SPIL are true and accurate as of the date the Joint Share Exchange Agreement was executed and as of the Effective Time, except to the extent that no material adverse effect on SPIL has occurred;

SPIL has performed in all material respects all obligations and undertakings required to be performed by it under the Joint Share Exchange Agreement prior to the Effective Time

no material adverse effect to SPIL shall have occurred prior to the Effective Time; and

prior to the Effective Time, no force majeure events will have occurred which, individually or in aggregate, result in a decrease in SPIL's consolidated net book value by 30% or more, relative to SPIL's net book value in its consolidated audited financial statements as of March 31, 2016.

In addition, SPIL's obligation to consummate the Share Exchange is subject to the satisfaction or waiver of the following additional conditions:

all representations and warranties of ASE are true and accurate as of the date the Joint Share Exchange Agreement was executed and as of the Effective Time, except to the extent that no material adverse effect on ASE has occurred

Table of Contents

all representations and warranties of HoldCo are true and accurate as of the Effective Time, except to the extent that no material adverse effect on HoldCo has occurred

ASE and HoldCo have performed in all material respects all obligations and undertakings required to be performed by each of them under the Joint Share Exchange Agreement prior to the Effective Time

no material adverse effect to ASE will have occurred prior to the Effective Time; and

prior to the Effective Time, no force majeure events will have occurred which, individually or in aggregate, result in a decrease in ASE's consolidated net book value by 30% or more, relative to ASE's net book value in its consolidated audited financial statements as of March 31, 2016.

The consummation of the Share Exchange is subject to the satisfaction or waiver of all the conditions set forth above on or prior to December 31, 2017 (the "Long Stop Date"). Pursuant to the Supplemental Agreement signed by ASE's Chairman and SPIL's Chairman on December 14, 2017, ASE and SPIL agreed to extend the Long Stop Date to October 31, 2018. The Supplemental Agreement will be effective upon the approval by each of ASE's and SPIL's board of directors. If the closing of the Share Exchange cannot be completed due to the failure to satisfy the conditions set forth above on or prior to the Long Stop Date, the Joint Share Exchange Agreement will automatically terminate at midnight on the day immediately following the Long Stop Date.

ASE Board does not intend to waive (where capable of waiver by ASE) any of these or any other conditions unless it determines that the Share Exchange is in the best interest of ASE and ASE shareholders despite the condition(s) not being satisfied in whole or in part.

In addition, the expected timing for the completion of the Share Exchange may be impacted by other conditions described in this proxy statement/prospectus.

Termination of Joint Share Exchange Agreement (see page 91)

The Joint Share Exchange Agreement may be terminated prior to the Effective Time by either ASE or SPIL if any of the following occurs:

a law, judgment, court order or administrative decision issued by a competent authority restricts or prohibits the consummation of the Share Exchange, and such restriction or prohibition has been confirmed and cannot be remedied by amending the Joint Share Exchange Agreement; or

the Joint Share Exchange Agreement and Share Exchange are not approved by ASE's shareholders or SPIL's shareholders at their respective shareholder meetings.

The Joint Share Exchange Agreement may also be terminated at any time prior to the Effective Time by ASE if SPIL has breached or failed to perform any of its representations, warranties, undertakings or obligations under the Joint Share Exchange Agreement and such breach leads to the failure to satisfy the conditions to the consummation of the Share Exchange and is by its nature not capable of being cured, or is not cured by SPIL within 30 business days of receiving written notice of such breach, and is not waived in writing by ASE.

The Joint Share Exchange Agreement may also be terminated at any time prior to the Effective Time by SPIL if ASE has breached or failed to perform any of its representations, warranties, undertakings or obligations under the Joint Share Exchange Agreement and such breach leads to the failure to satisfy the conditions to the consummation of the Share Exchange and is by its nature not capable of being cured, or is not cured by ASE within 30 business days of receiving written notice of such breach, and is not waived in writing by SPIL.

If the Share Exchange is not consummated on or before the Long Stop Date, the Joint Share Exchange Agreement will automatically terminate at midnight on the day immediately following the Long Stop Date.

Table of Contents

Termination Fees Relating to the Share Exchange (see page 89)

SPIL may be required to pay a termination fee of NT\$17 billion (US\$0.6 billion) if the Joint Share Exchange Agreement is terminated due to SPIL's acceptance of a Superior Proposal (as defined in the Joint Share Exchange Agreement and further explained under the caption "The Joint Share Exchange Agreement — Pre-Closing Covenants and Agreements" beginning on page 89). See the section entitled "The Joint Share Exchange Agreement — Pre-Closing Covenants and Agreements" for a more complete description of the circumstances under which SPIL may be required to pay ASE a termination fee.

Remedies and Liquidated Damages (see page 91)

Upon the occurrence of certain prescribed material events of default, in addition to any right of termination and claims for expenses, the non-defaulting party will also be entitled to liquidated damages in the amount of NT\$8.5 billion (US\$0.3 billion) from the defaulting party, subject to adjustments for contributory negligence by the non-defaulting party. See the section entitled "The Joint Share Exchange Agreement — Termination and Events of Default" for a more complete description of the circumstances under which ASE or SPIL may be required to pay the other party liquidated damages.

Market Price Information (see page 75)

ASE Common Shares and SPIL Common Shares are listed on the TWSE under the stock code "2311" and "2325", respectively. ASE ADSs and SPIL ADSs are listed on the NYSE and NASDAQ under the symbols "ASX" and "SPIL", respectively. The following table presents the closing price information for ASE Common Shares, SPIL Common Shares, ASE ADSs and SPIL ADS on (a) May 25, 2016, the last trading day before the public announcement of the execution of the Joint Share Exchange MOU, and (b) January 12, 2018, the latest practicable trading day before the date of this proxy statement/prospectus.

Date	ASE Common Shares		SPIL Common Shares		ASE ADSs		SPIL ADSs	
	NT\$	US\$	NT\$	US\$	US\$	US\$	US\$	US\$
May 25, 2016	33.05	1.09	50.50	1.67	4.89		7.52	
January 12, 2018	38.80	1.28	50.30	1.66	6.66		8.39	

Risk Factors (See Page 66)

In determining whether to vote to approve the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement, you should consider carefully the risk factors described in this document.

Recent Development

In September 2013, ASE issued US\$400.0 million aggregate principal amount of zero coupon convertible bonds due 2018 (“ASE 2013 Convertible Bonds”). The ASE 2013 Convertible Bonds were offered to persons outside of the United States in compliance with Regulation S under the Securities Act. Prior to April 2017, US\$97.8 million aggregate principal amount of the ASE 2013 Convertible Bonds had been converted into ASE Common Shares. As of the third quarter 2017, US\$301.8 million aggregated principal amount of ASE 2013 Convertible Bonds had been converted into ASE Common Shares and US\$0.4 million aggregated principal amount had been redeemed. As of September 30, 2017, there was no outstanding balance for the ASE 2013 Convertible Bonds.

In July 2014, Anstock II Limited offered US\$300.0 million aggregate principal amount of guaranteed bonds due 2017 (the “Green Bonds”). The Green Bonds are unconditionally and irrevocably guaranteed by ASE. The Green Bonds were offered to persons outside of the United States in compliance with Regulation S under the Securities Act. On July 24, 2017, ASE fully repaid the Green Bonds.

In July 2017, the Kaohsiung Prosecutor’s Office indicted ASE’s Chief Operating Officer, Dr. Tien Wu, for alleged insider trading activities in SPIL Common Shares conducted during the period when the Initial ASE Tender Offers, the Second ASE Tender Offers and negotiations of the Joint Share Exchange MOU took place. The alleged offenses were in violations of Article 157-1 of the ROC Securities and Exchange Law. Dr. Tien has retained counsel

Table of Contents

and plans to vigorously defend himself. The ultimate outcome of this case is still pending and ASE is not able to predict the actions the Kaohsiung district court or other regulatory agencies may take in connection with this proceeding. Defending against this proceeding will likely be costly and time consuming and significantly divert management's efforts and resources. See the section entitled "Risk Factors—Risks Relating to Owning HoldCo ADSs— The ongoing proceeding involving Dr. Tien Wu could have an adverse impact on HoldCo's business and cause HoldCo's share price to decline."

Table of Contents

Selected Consolidated Financial Data

Selected Consolidated Financial Data of ASE

The selected consolidated financial data of ASE as of December 31, 2015 and 2016 and for the years ended December 31, 2014, 2015 and 2016 has been derived from ASE's audited consolidated financial statements included in its annual report on Form 20-F for the year ended December 31, 2016 filed with the SEC on April 21, 2017 ("ASE 2016 20-F"), which is included as Annex D-1 to this proxy statement/prospectus. These consolidated financial statements were prepared based on IFRS. The selected consolidated financial data as of December 31, 2012, 2013, 2014 and for the years ended December 31, 2012 and 2013, is derived from ASE's audited consolidated financial statements not included herein.

The information set forth below is only a summary and is not necessarily indicative of the results of future operations of ASE or HoldCo following completion of the Share Exchange, and you should read the following information together with ASE's consolidated financial statements, the related notes, and the section entitled "Item 5 —Operating and Financial Review and Prospects" contained in ASE 2016 20-F, which are included as Annex D-1 hereto. For more information, see the section entitled "Where You Can Find More Information."

The selected historical consolidated statement of operations data for each of the nine-month periods ended September 30, 2016 and 2017 and the consolidated balance sheet data as of December 31, 2016 and September 30, 2017 have been derived from ASE's unaudited condensed consolidated financial statements for the nine-month period ended September 30, 2017 contained in ASE's interim report on Form 6-K furnished with the SEC on December 14, 2017, which is included as Annex D-2 hereto.

In July 2016, ASE acquired preferred shares of Deca Technologies Inc. ("DECA") and accounted it as investments accounted by applying the equity method. In addition, ASE's subsidiary, ASE Test, Inc., acquired common shares of TLJ Intertech Inc. ("TLJ") and Advanced Microelectronic Products Inc. ("AMPI") in May and November 2016, respectively, and accounted them as investments accounted by applying the subsidiary and equity method, respectively. As of September 30, 2017, ASE and ASE Test, Inc. have completed the identification of the difference between the costs of the investments and ASE or ASE Test, Inc.'s share of the net fair value of DECA, TLJ and AMPI's identifiable assets and liabilities. Therefore, according to IFRS, ASE has retrospectively adjusted the comparative financial statements for prior periods. ASE considered such retrospective adjustments to be immaterial from both quantitative and qualitative perspectives. The balance sheet data as of September 30 and December 31, 2016 as well as the statement of comprehensive income data for the nine months ended September 30, 2016 and for the year ended December 31, 2016 in the following table marked as "Retrospectively Adjusted" reflected the impact from the retrospective adjustments.

Notes:

ASE and its subsidiary, ASE Test, Inc., have completed the identification of the difference between the costs of the investments and ASE or ASE Test, Inc.'s share of the net fair value of investees' identifiable assets and liabilities in June and July 2017. Therefore, ASE has retrospectively adjusted the comparative financial statement for the nine months ended September 30, 2016 and for the year ended December 31, 2016, which differs from the results included in ASE's interim report on Form 6-K for the nine months ended September 30, 2016 and ASE 2016 20-F, respectively. See Notes 13 and 28 to the condensed consolidated financial statement as of and for the nine months ended September 30, 2017 contained in ASE's interim report on Form 6-K furnished with the SEC on December 14, 2017, which is included as Annex D-2 hereto.

The denominators for diluted earnings per ASE Common Share and diluted earnings per equivalent ASE ADS are calculated to account for the potential diluted factors, such as the exercise of options and conversion of the ASE 2013 Convertible Bonds and the ASE 2015 Convertible Bonds into ASE Common Shares.

(3)

Dividends per ASE Common Share issued as a cash dividend, a stock dividend and distribution from capital surplus.

Represents the weighted average number of shares after retroactive adjustments to give effect to stock dividends.

(4) ASE Common Shares held by consolidated subsidiaries are classified as "treasury stock," and are deducted from the number of ASE Common Shares outstanding.

Notes:

(1)

ASE and its subsidiary, ASE Test, Inc., have completed the identification of the difference between the costs of the investments and ASE or ASE Test, Inc.'s share of the net fair value of investees' identifiable assets and liabilities in June and July 2017. Therefore, ASE has retrospectively adjusted the comparative financial statement for the nine months ended September 30, 2016 and for the year ended December 31, 2016, which differs from the results included in ASE's interim report on Form 6-K for the nine months ended September 30, 2016 and ASE 2016 20-F, respectively. See Notes 13 and 28 to the condensed consolidated financial statement as of and for the nine months ended September 30, 2017 contained in ASE's interim report on Form 6-K furnished with the SEC on December 14, 2017, which is included as Annex D-2 hereto.

- (2) Including available-for-sale financial assets — non-current and investments accounted for using the equity method.
- (3) Including investment properties, deferred tax assets, other financial assets — non-current and other non-current assets.
- (4) Including short-term bank loans and short-term bills payable.
- (5) Including bonds payable, long-term borrowings (consisting of bank loans and bills payable) and capital lease obligations.
- (6) Including (x) current liabilities other than short-term debts and current portion of long-term debts and (y) non-current liabilities other than long-term debts.

Selected Consolidated Financial Data of SPIL

The selected consolidated financial data of SPIL as of December 31, 2015 and 2016 and for the years ended December 31, 2014, 2015 and 2016 has been derived from SPIL's audited consolidated financial statements included in its annual report on Form 20-F for the year ended December 31, 2016 filed with the SEC on April 11, 2017 ("SPIL 2016 20-F"), which is included as Annex E-1 hereto. The selected consolidated financial data as of December 31, 2012, 2013 and 2014 and for the years ended December 31, 2012 and 2013, is derived from SPIL's audited consolidated financial statements not included herein. These consolidated financial statements were prepared based on IFRS. The information set forth below is not necessarily indicative of future results and should be read in conjunction with "Item 5.

Operating and Financial Review and Prospects” and the consolidated financial statements, related notes and other financial information included in the SPIL 2016 20-F are included as Annex E-1 to this proxy statement/prospectus. For more information, see the section entitled “Where You Can Find More Information.”

The selected historical financial information as of September 30, 2017 and for each of the nine-month periods ended September 30, 2016 and 2017, respectively, have been derived from SPIL’s unaudited consolidated financial statements, prepared in accordance with IFRS and contained in SPIL’s interim report on Form 6-K furnished with the SEC on December 14, 2017, which is included as Annex E-2 hereto.

Ratio of Earnings to Fixed Charges of SPIL

	For the Year Ended December 31,					For the Nine Months Ended	
	2012	2013	2014	2015	2016	September 30, 2016	2017
Ratio of earnings to fixed charges ⁽¹⁾	25.27	18.62	24.70	15.49	15.90	15.36	11.67

Note:

For purposes of calculating the ratio of earnings to fixed charges, earnings consist of income before income tax expenses from continuing operations before adjustment for equity in losses of affiliated companies adding fixed (1) charges and subtracting preference security dividend requirements of consolidated subsidiaries. Fixed charges consist of interest expensed, amortized discounts related to indebtedness, an estimate of the interest within rental expense and preference security dividend requirements of consolidated subsidiaries.

Net book value per share per SPIL Common Share

Based on SPIL's financial statements as of and for the nine months ended September 30, 2017, SPIL's net book value per share as of September 30, 2017, calculated by dividing total shareholders' equity by the number of SPIL Common Shares (including those represented by SPIL ADSs) outstanding, was NT\$21.36 (US\$0.70).

Table of Contents

Selected Unaudited Pro Forma Condensed Combined Financial Data

The following sets forth the unaudited pro forma condensed combined financial data of HoldCo after giving effect to the Share Exchange of acquiring ASE and SPIL based upon the assumptions and adjustments described in the section entitled “Unaudited Pro Forma Condensed Financial Statements”.

The selected unaudited pro forma condensed combined statements of operations for the nine months ended September 30, 2017 and for the year ended December 31, 2016 have been prepared to give effect to the Share Exchange as if it had occurred on January 1, 2016. The selected unaudited pro forma condensed balance sheet as of September 30, 2017 has been prepared to give effect to the Share Exchange as if it had been completed on September 30, 2017.

The selected pro forma condensed combined financial data, which is preliminary in nature, has been derived from, and should be read in conjunction with, the more detailed unaudited pro forma combined financial information of the combined company and the accompanying notes appearing in the section entitled “Unaudited Pro Forma Condensed Financial Statements.” The unaudited pro forma condensed financial statements have been presented in accordance with SEC Regulation S-X Article 11 and are not necessarily indicative of what the combined company’s financial position or results of operations actually would have been had the Share Exchange been completed as of the Effective Time. In addition, the selected unaudited pro forma condensed combined financial data does not purport to project the future financial position or operating results of the combined company.

Comparative Historical and Unaudited Pro Forma Per Share Data

The following tables set forth, as at the dates and for the periods indicated, comparative historical unaudited and pro forma unaudited combined per share financial information for HoldCo's Common Shares. This information should be read in conjunction with, and the information is qualified in its entirety by, the consolidated financial statements and the accompanying notes of ASE and SPIL included in their respective annual reports on Form 20-F and interim reports on Form 6-K, included as Annex D-1, Annex D-2, Annex E-1 and Annex E-2 hereto. See the section entitled "Where You Can Find More Information."

The following pro forma information has been prepared in accordance with the rules and regulations of the SEC and accordingly includes the effects of applying the acquisition method of accounting. This information is based on assumptions that we believe are reasonable under the circumstances. You should not rely on the pro forma combined amounts as they are not necessarily indicative of the operating results or financial position that would have occurred if the Share Exchange had been completed as of the dates indicated, nor are they indicative of the future operating results or financial position of HoldCo.

The pro forma data included in the following tables assume that the Share Exchange had occurred on January 1, 2016 for results of operations purposes and on September 30, 2017 for financial position purposes; and that the Share Exchange is accounted for by applying the acquisition method of accounting with ASE treated as the accounting acquirer and SPIL treated as the acquired company for financial reporting purposes.

Unaudited Pro Forma Condensed Financial Statements

The following sets forth the unaudited pro forma condensed combined financial statements of HoldCo after giving effect to the Share Exchange and assumed borrowing of NT\$95,000.0 million (US\$3,132.2 million) and utilization of the existing cash of NT\$11,441.0 million (US\$377.2 million) to fund the acquisition as described below in Notes 1 and 5 to Pro Forma Assumptions and Adjustments. The “Unaudited Pro Forma Condensed Combined Statements of Operations”, which we refer to in this proxy statement/prospectus as the Pro Forma Statements of Operations, give effect to the Share Exchange as if ASE’s initial acquisitions of SPIL’s 33.29% shareholding and the subsequent acquisition of SPIL’s 66.71% shareholding which constitute acquisitions of 100% shareholding of SPIL had occurred on January 1, 2016. The “Unaudited Pro Forma Condensed Combined Balance Sheet” gives effect to the Share Exchange as if it had been completed on September 30, 2017. The Pro Forma Statements of Operations for the year ended December 31, 2016 combines the results of operations of ASE and SPIL for the year ended December 31, 2016. The Pro Forma Statement of Operations for the nine months ended September 30, 2017 combines the results of operations of ASE and SPIL for the nine months ended September 30, 2017. The historical consolidated financial information has been adjusted in the unaudited pro forma condensed combined financial statements to reflect the pro forma impact of events that are directly attributable to the transactions contemplated by the Joint Share Exchange Agreement, factually supportable and, with respect to the Pro Forma Statements of Operations, are expected to have a continuing impact on the combined results.

The unaudited pro forma condensed combined financial statements have been prepared under IFRS for (i) the Share Exchange of ASE will be accounted as a legal reorganization of entities under common control and all assets and liabilities of ASE will be recorded on the books of HoldCo at the carrying amounts; (ii) the cash consideration paid by HoldCo pursuant to the Share Exchange in respect of SPIL will be accounted for by applying the acquisition method of accounting with ASE treated as the accounting acquirer and SPIL treated as the acquired company for financial reporting purposes. The acquisition method of accounting is dependent upon certain valuations and other studies that are in progress. Accordingly, the pro forma adjustments are preliminary, have been made solely for the purpose of preparing the unaudited pro forma condensed combined financial statements and are subject to revision based on a final determination of fair value as of the date of acquisition. Differences between these preliminary estimates and the final acquisition accounting may have a material impact on the accompanying unaudited pro forma condensed combined financial statements and HoldCo’s future results of operations and financial position.

The unaudited pro forma condensed combined financial statements do not reflect any cost savings or associated costs to achieve such savings from operating efficiencies, synergies, debt refinancing or other restructuring that may result from the Share Exchange. The unaudited pro forma condensed combined financial statements are not necessarily indicative of the operating results or financial position that would have occurred if the Share Exchange had been completed on the dates assumed, nor are they necessarily indicative of the future operating results or financial position of the combined company. In addition, the unaudited pro forma condensed combined financial statements include adjustments which are preliminary and may be revised. There can be no assurance that such revisions will not result in material changes to the information presented.

The unaudited pro forma condensed combined financial statements have been derived from and should be read in conjunction with the consolidated financial statements and the accompanying notes of ASE and SPIL included in their respective annual reports on Form 20-F and interim reports on Form 6-K, included as annexes to this proxy statement/prospectus.

NOTES TO PRO FORMA ASSUMPTIONS AND ADJUSTMENTS

1. Total Share Exchange consideration and financing structure

On June 30, 2016, ASE and SPIL entered into a Joint Share Exchange Agreement pursuant to which HoldCo will be formed by means of a statutory share exchange pursuant to the laws of the Republic of China, and HoldCo will (i) acquire all issued shares of ASE in exchange for shares of HoldCo using the Exchange Ratio, whereby ASE shareholders will receive 0.5 HoldCo Common Shares for each ASE Common Share they hold as described elsewhere in this document, and (ii) acquire all issued shares of SPIL using the Cash Consideration as described below. Upon the consummation of the Share Exchange, ASE and SPIL will become wholly owned subsidiaries of HoldCo concurrently. Subject to the Share Exchange and the Joint Share Exchange Agreement being approved by shareholders of ASE and SPIL, and upon the satisfaction of the other conditions for completing the Share Exchange, HoldCo will be formed and the Share Exchange is expected to become effective.

HoldCo was assumed to issue 4,190,239,051 common shares at NT\$10 par value (or share capital of NT\$41,902.4 million) to ASE shareholders based on the number of issued shares of ASE on September 30, 2017. The estimated cash consideration paid to SPIL shareholders was NT\$159,557.7 million based on the number of issued shares of SPIL on September 30, 2017 at NT\$51.2 per share, whereby NT\$55 per share has been adjusted to NT\$51.2 after excluding the cash dividend distribution and a return of capital reserve of NT\$3.8 per SPIL Common Share distributed by SPIL on July 1, 2016.

The Cash Consideration will be subject to adjustments if SPIL issues shares or pays cash dividends during the period from the execution date of the Joint Share Exchange Agreement to the Effective Time; provided, however, that the Cash Consideration shall not be subject to adjustment if the aggregate amount of the cash dividends distributed by SPIL in fiscal year 2017 is less than 85% of its after-tax net profit for fiscal year 2016. In fiscal year 2017, SPIL made a dividend distribution of NT\$1.75 per share to its shareholder, which represented 55% of its after-tax net profit for fiscal year 2016. Therefore, no adjustments were made to the Cash Consideration.

Since ASE currently owns 33.29% shareholding of SPIL, for the purpose of presenting the accompanying pro forma combined balance sheet as of September 30, 2017, the cash consideration of NT\$106,441.0 million (US\$3,509.4 million), which represented the amount to acquire the remaining 66.71% shareholding, was assumed to be funded by NT\$11,441.0 million (US\$377.2 million) from ASE's existing cash and NT\$95,000.0 million (US\$3,132.2 million) financed from banks recorded as long-term debts. For the purpose of presenting the accompany pro forma combined statements of operations, it was assumed that ASE's initial acquisition of SPIL's 33.29% shareholding and the subsequent acquisition of SPIL's 66.71% shareholding, which together constitute the acquisition of 100% of the shareholding of SPIL, had occurred on January 1, 2016.

2. Preliminary estimated purchase price allocation

The pro forma combined financial statements reflect the following estimated acquisition-date fair value of tangible assets, liabilities, and other intangible assets of SPIL.

	Book Value	Fair Value Adjustments	Fair Value
	(in NT\$ millions)		
Current assets	46,610.1	–	46,610.1
Investments - non-current	7,582.6	–	7,582.6
Property, plant and equipment, net	64,789.6	11,365.7	76,155.3
Intangible assets	123.5	26,300.0	26,423.5
Goodwill	–	54,135.3	54,135.3
Other non-current assets	1,884.9	1,182.3	3,067.2
Short-term debts	3,479.9	–	3,479.9
Current portion of long-term debts	14,651.6	–	14,651.6
Long-term debts	13,753.3	–	13,753.3
Other liabilities	22,531.5	–	22,531.5
Total estimated purchase price consideration	66,574.4	92,983.3	159,557.7

Table of Contents

Purchased property, plant and equipment and identified intangible assets are being depreciated or amortized on a straight-line basis over its weighted-average remaining useful life of approximately ten years.

The estimated fair values and useful lives of assets acquired and liabilities assumed are based on preliminary management estimates and are subject to final valuation adjustments, which may cause some of the amounts ultimately recorded as goodwill to be materially different from those shown on the unaudited pro forma condensed consolidated balance sheets. The acquisition accounting is dependent upon certain valuations and other studies that have yet to progress to a stage where there is sufficient information for definitive measurement. HoldCo intends to complete the valuations and other studies no later than a one-year measurement period following the Effective Time in accordance with IFRS.

For the purposes of this unaudited pro forma financial information, it has been assumed that the fair value evaluation was performed at the Effective Time, September 30, 2017, and the related assumption or calculation was as below.

- (i) Property, plant and equipment, net:

The fair value adjustment of property, plant and equipment is NT\$11,365.7 million (US\$374.7 million).

The weighted-average remaining useful life of property, plant and equipment is approximately 10 years, and the estimated depreciation is NT\$1,657.1 million (US\$54.6 million) and NT\$1,242.9 million (US\$41.0 million) reflected as a pro forma adjustment under operating costs in the Pro Forma Statements of Operations for the year ended December 31, 2016 and for the nine months ended September 30, 2017, respectively. The actual depreciation may differ significantly between periods based upon the final value assigned and the depreciation period used for property, plant and equipment.

- (ii) Intangible assets:

For purposes of these Pro Forma Financial Statements, preliminary identifiable intangible assets consist of an estimated NT\$7,800.0 million (US\$257.2 million) for customer relationships and NT\$18,500.0 million (US\$610.0 million) for patented technology. These identifiable intangible assets are finite-lived intangible assets with useful life of 10 years.

The estimated amortization related to these intangible assets is NT\$1,947.3 million (US\$64.2 million) and NT\$795.9 million (US\$26.2 million) reflected as a pro forma adjustment under operating costs and operating expenses in the Pro

Forma Statement of Operations for the year ended December 31, 2016, respectively, and NT\$1,460.5 million (US\$48.2 million) and NT\$596.9 million (US\$19.7 million) as a pro forma adjustment under operating costs and operating expenses in the Pro Forma Statement of Operations for the nine months ended September 30, 2017, respectively. The actual amortization may differ significantly between periods based upon the final value assigned and the amortization period used for each identifiable intangible asset.

(iii)

Goodwill:

Goodwill is calculated as the difference between the acquisition date fair value of the consideration expected to be transferred and the values assigned to the assets acquired and liabilities assumed.

(iv)

Other non-current assets:

The fair value adjustment of land use rights is NT\$1,182.3 million (US\$39.0 million). The remaining useful life of land use right years are approximately 50 years, and the estimated amortization is NT\$20.6

Table of Contents

million (US\$0.7 million) and NT\$15.4 million (US\$0.5 million) reflected as a pro forma adjustment under operating costs in the Pro Forma Statements of Operations for the year ended December 31, 2016 and for the nine months ended September 30, 2017, respectively.

3. SPIL Acquisition and Share Exchange cost

Total costs related to the SPIL acquisition and the Share Exchange cost are estimated at approximately NT\$806.4 million, including (1) NT\$95.4 million and NT\$377.7 million incurred during the year ended December 31, 2015 and 2016, respectively, and NT\$317.6 million incurred during the nine months ended September 30, 2017, and (2) NT\$15.7 million that have not yet incurred as of September 30, 2017. Such costs include financial, accounting, legal and other consulting fees associated until the completion of the Share Exchange. The costs of NT\$15.7 million (US\$0.5 million) not incurred as of September 30, 2017 has been reflected as a pro forma adjustment to retained earnings and other liabilities on the unaudited pro forma condensed consolidated balance sheets as of September 30, 2017.

4. Interest cost

Interest expense in the Pro Forma Statements of Operations for the year ended December 31, 2016 and for the nine months ended September 30, 2017 has been adjusted as follows based on the expected sources of funding described as follows:

	Principal from January 1, 2016 to September 30, 2017	Effective Interest Rate	Interest Expense for the Year Ended December 31, 2016 Pro Forma Statement of Operations	Interest Expense for the Nine Months Ended September 30, 2017 Pro Forma Statement of Operations
	(in NT\$ million, except for percentages)			
Long-term debts	95,000	1.82%	1,727.3	1,295.6

The cash consideration of NT\$106,441.0 million to acquire the remaining 66.71% shareholding of SPIL as described in Note 1 above was assumed to be funded by NT\$11,441.0 million from ASE's existing cash and NT\$95,000.0 million financed from banks. For the purposes of calculating the pro forma interest expense, it was assumed that the bank loan of NT\$95,000 million was fully drawn-down by HoldCo on January 1, 2016. The floating borrowing rate was assumed to be based on a 1.82 % interest rate for the time span of the bank loan period for interest expense

calculation. However, the final bank loan interest rate may differ from the rates in place when actually drawdown.

For the purposes of calculating the above interest expense, the effective interest rate also includes coordination and arrangement fees. A hypothetical change in interest rates of 0.125% would increase or decrease total interest expense of the Pro Forma Statements of Operations by approximately NT\$118.8 million (US\$3.9 million) and NT\$89.1 million (US\$2.9 million) for the year ended December 31, 2016 and for the nine months ended September 30, 2017, respectively.

For the purposes of this unaudited pro forma financial information, it has been assumed that the interest expense on the debt financing incurred to fund the Share Exchange will not be deductible for tax purposes. This assumption may be subject to change and may not be reflective of the deductions that will be available in future periods after completion of the Share Exchange.

5. Pro Forma Adjustments

Adjustment to recognize depreciation and amortization of the fair value adjustment on property, plant and (a) equipment, patented technology and other noncurrent assets of NT\$3,625.0 million (US\$119.5 million) as described in Note 2 (i) (ii) (iv) above.

Table of Contents

Adjustment to recognize amortization of fair value adjustment on customer relationships of NT\$795.9 million (b) (US\$26.2 million) as described in Note 2 (ii) above and to reverse of the incurred consulting fee related to the acquisition of SPIL as an equity method investment of NT\$377.7 million (US\$12.4 million).

Adjustment to (i) remove ASE's share of profit of equity method associates in SPIL of NT\$1,725.0 million (c) (US\$56.8 million) and (ii) accrue the interest expense of NT\$1,727.3 million (US\$57.0 million) as described in Note 4 above.

Adjustment to recognize depreciation and amortization of the fair value adjustment on property, plant and (d) equipment, patented technology and other noncurrent assets of NT\$2,718.8 million (US\$89.7 million) as described in Note 2 (i) (ii) (iv).

Adjustment to recognize amortization of fair value adjustment on customer relationships of NT\$596.9 million (e) (US\$19.7 million) as described in Note 2 (ii) above and to reverse the incurred consulting fee related to the acquisition of SPIL as equity method investment of NT\$317.6 million (US\$10.5 million).

Adjustment to (i) remove ASE's share of profit of equity method associates in SPIL of NT\$826.0 million (US\$27.2 (f) million) and (ii) accrue the interest expense of NT\$1,295.6 million (US\$42.8 million) as described in Note 4 above.

(g) Adjustment to remove ASE's investments accounted for using the equity method in SPIL as of September 30, 2017 under the assumption that HoldCo acquired a 100% shareholding in SPIL as of September 30, 2017.

(h) Adjustment to reflect the assumed HoldCo's borrowing for the cash consideration of SPIL in the amount of NT\$95,000 million (US\$3,132.1 million) as described in Note 4 above.

(i) Adjustment to common shares and additional paid in capital in exchange for ASE Common Shares with HoldCo Common Shares using the share exchange ratio as described in Note 1 above and adjust the effect of derecognizing investment of equity method associate of SPIL as of September 30, 2017 to other equity under the assumption that HoldCo acquired 100% shareholding of SPIL as of September 30, 2017.

Table of Contents

Special Factors

Effects of the Share Exchange

Upon the terms and subject to the conditions of the Joint Share Exchange Agreement, and in accordance with the applicable provisions of the ROC Company Law, at the Effective Time, HoldCo will acquire all issued shares of ASE and SPIL, and ASE and SPIL will become wholly owned subsidiaries of HoldCo concurrently.

The following chart depicts the organizational structure of each of ASE and SPIL before the Share Exchange as of the date of this proxy statement/prospectus and immediately after the Effective Time.

Before the Share Exchange as of the date of this proxy statement/prospectus:

Immediately after the Effective Time:

Pursuant to the terms and subject to the conditions set forth in the Joint Share Exchange Agreement, at the Effective Time:

(i) for SPIL shareholders:

each SPIL Common Share, par value NT\$10 per share, issued immediately prior to the Effective Time (including SPIL's treasury shares and the SPIL Common Shares beneficially owned by ASE), will be transferred to HoldCo in consideration for the right to receive NT\$51.2 (representing NT\$55 *minus* a cash dividend and a return of capital reserve of NT\$3.8 per SPIL Common Share distributed by SPIL on July 1, 2016), payable by HoldCo in cash in NT dollars, without interest and net of any applicable withholding taxes; and

each SPIL ADS will be cancelled in exchange for the right to receive through SPIL Depositary, the US dollar equivalent of NT\$256 (representing five times of the SPIL Common Shares Cash Consideration) *minus* (i) all processing fees and expenses per SPIL ADS in relation to the conversion from NT dollars into US dollars, and (ii) US\$0.05 per SPIL ADS cancellation fees pursuant to the terms of the SPIL Deposit Agreement, payable in cash in US dollars, without interest and net of any applicable withholding taxes. Within three ROC business days after the Effective Time, SPIL Depositary will receive the aggregate amount of SPIL ADS Cash Consideration in NT dollars for all issued SPIL ADSs through SPIL's share registrar. SPIL ADS Holders of record will receive the SPIL ADS Cash Consideration through SPIL Depositary upon surrendering their SPIL ADSs for cancellation to SPIL Depositary after the Effective Time.

Table of Contents

At the Effective Time, HoldCo will acquire all issued shares of SPIL, and therefore HoldCo would be entitled to all benefits resulting from its 100% ownership of SPIL, including all of SPIL's net book value and net income or loss. Similarly, HoldCo would also bear all of the risk of losses generated by SPIL's operations and any decrease in the value of SPIL after the Share Exchange. Upon consummation of the Share Exchange, SPIL would become a wholly owned subsidiary of HoldCo. Accordingly, former SPIL shareholders would not have the opportunity to participate in the earnings and growth of SPIL after the Share Exchange and would not have any right to vote on corporate matters. Similarly, former SPIL shareholders would not face the risk of losses generated by SPIL's operations or decline in the value of SPIL after the Share Exchange. Further, the SPIL Common Shares would be delisted from the TWSE and SPIL ADSs would be delisted from NASDAQ and would become eligible for deregistration under the Exchange Act.

(ii) for ASE shareholders:

each ASE Common Share, par value NT\$10 per share, issued immediately prior to the Effective Time (including ASE's treasury shares), will be transferred to HoldCo in consideration for the right to receive 0.5 HoldCo Common Shares; and

each ASE ADS, currently representing five ASE Common Shares, will, after the Effective Time, represent the right to receive 1.25 HoldCo ADSs, each HoldCo ADS representing two HoldCo Common Shares, upon surrender for cancellation to the ASE Depository after the Effective Time.

Under ROC law, if any fractional HoldCo Common Shares representing less than one common share would otherwise be allotted to former holders of ASE Common Shares in connection with the Share Exchange, those fractional shares will not be issued to those shareholders. Pursuant to the Joint Share Exchange Agreement, ASE will aggregate the fractional entitlements and sell the aggregated ASE Common Shares using the closing price of ASE Common Shares on the TWSE on the ninth (9th) ROC Trading Day prior to the Effective Time, to an appointee of the Chairman of HoldCo. The cash proceeds from the sale will be distributed to the former holders of ASE Common Shares by HoldCo on a proportionate basis in accordance with their respective fractions at the Effective Time. Under ROC law, ASE Common Shares and HoldCo Common Shares will be recorded in book-entry by the Taiwan Depository & Clearing Corporation. The HoldCo Common Shares entitlements as a result of the Share Exchange will be automatically recorded at ASE shareholders' Taiwan Depository & Clearing Corporation account at the Effective Time of the Share Exchange, with no need for any additional action on ASE shareholders' part.

Under the ASE Deposit Agreement, the ASE Depository (Citibank) will only distribute whole HoldCo ADSs. The ASE Depository will use commercially reasonable efforts to sell the fractional entitlements to HoldCo ADSs in the open market and will distribute the net cash proceeds to the holders of ASE ADSs entitled to it. After the Share Exchange becomes effective, the ASE Depository will send a notice to all holders of ASE ADSs which specifies the manner in which ASE ADSs may be delivered to the ASE Depository in exchange for HoldCo ADSs. A holder of ASE ADSs who delivers those ASE ADSs in the manner required will receive in exchange the applicable whole number of HoldCo ADSs. There is a US\$0.02 cancellation fee per ASE ADS held, payable by holders of ASE ADSs,

to the ASE Depositary in connection with the exchange of ASE ADSs for HoldCo ADSs.

At the Effective Time, HoldCo will acquire all issued shares of ASE. HoldCo would be entitled to all benefits resulting from its 100% ownership of ASE, including all of ASE's net book value and net income or loss. Similarly, HoldCo would also bear all of the risk of losses generated by ASE's operations and any decrease in the value of ASE after the Share Exchange. Upon consummation of the Share Exchange, ASE would become a wholly owned subsidiary of HoldCo. ASE Common Shares would be delisted from the TWSE and ASE ADSs would be delisted from NYSE and would become eligible for deregistration under the Exchange Act.

Table of Contents

At the Effective Time, former ASE shareholders will receive HoldCo Shares based on the Exchange Ratio. There are no material differences between the rights of holders of ASE Common Shares and the rights of holders of HoldCo Common Shares from a legal perspective. For so long as HoldCo has a class of securities (which include the HoldCo ADSs) listed on the NYSE, HoldCo will be subject to rules regarding corporate governance requirements of NYSE and the Exchange Act, the reporting requirements for foreign private issuers, and the U.S. Sarbanes-Oxley Act of 2002 including, for example, independence requirements for audit committee composition, annual certification requirements and auditor independence rules, unless certain circumstances change. HoldCo will be required to disclose any significant ways in which its corporate governance practices differ from those followed by U.S. domestic companies under NYSE's listing standards. To the extent possible under the ROC law and the arrangement contemplated by the HoldCo Deposit Agreement, HoldCo's corporate governance practices are expected to be comparable to those of ASE.

The issuance of HoldCo Common Shares in connection with the Share Exchange to U.S. holders of ASE Common Shares has been registered under the Securities Act. Accordingly, there will be no restrictions under the Securities Act upon the resale or transfer of such shares by U.S. shareholders of ASE except for those shareholders, if any, who are deemed to be "affiliates" of ASE, as such term is used in Rule 144 under the Securities Act. Persons who may be deemed to be affiliates of ASE generally include individuals who, or entities that, directly or indirectly control, or are controlled by or are under common control with, ASE. With respect to those shareholders who may be deemed to be affiliates of ASE, Rule 144 places certain restrictions on the offer and sale within the United States or to U.S. persons of HoldCo Common Shares that may be received by them pursuant to the Share Exchange. This proxy statement/prospectus does not cover resales of shares of HoldCo Common Shares received by any person who may be deemed to be an affiliate of ASE.

Background of the Share Exchange; Past Contacts; Negotiations

Events leading to the execution of the Joint Share Exchange Agreement described in this "Background of the Share Exchange; Past Contacts; Negotiations" section occurred in various locations that regularly included Taiwan, United States and Hong Kong. As a result, Taiwan Standard Time is used for all dates and times given.

The ASE Board and senior management of ASE regularly review and assess ASE's operations, performance, prospects and strategic direction. Prior to its announcement of the Initial ASE Tender Offers in August 2015, ASE believed that in light of the increase in competition and the consolidation trends in the global semiconductor industry, an investment in SPIL would present attractive opportunities. At that time, in ASE's view, the SPIL Common Shares and SPIL ADSs represented an attractive investment from a financial perspective. In addition, ASE hoped that an investment in SPIL might facilitate future cooperation opportunities with SPIL, in a manner consistent with all applicable laws, in an effort to maintain and promote the competitiveness of ASE.

On August 21, 2015, ASE announced that it planned to commence, on August 24, 2015, the Initial ASE Tender Offers at a price of NT\$45 per SPIL Common Share and NT\$225 per SPIL ADS for 779,000,000 SPIL Common Shares (including those represented by SPIL ADSs), which represented approximately 24.99% of the issued and outstanding share capital of SPIL.

On August 24, 2015, ASE commenced the Initial ASE Tender Offers. On the same day, SPIL announced that it had formed a review committee consisting of its independent directors to evaluate the Initial ASE Tender Offers.

On August 28, 2015, SPIL issued a press release and filed a Solicitation/Recommendation Statement on Schedule 14D-9 (as amended, the "First Schedule 14D-9") with the SEC in which the SPIL Board recommended that SPIL shareholders reject the Initial ASE Tender Offers and not tender any SPIL Common Shares or SPIL ADSs into the Initial ASE Tender Offers.

The First Schedule 14D-9 further disclosed that, on August 28, 2015, SPIL had entered into a letter of intent with Hon Hai Precision Industry Co., Ltd. ("Hon Hai") pursuant to which (i) SPIL would issue 840,600,000 SPIL Common Shares in exchange for 359,230,769 common shares issued by Hon Hai, representing approximately 21.24% and 2.20% of the issued and outstanding share capital of SPIL and Hon Hai, respectively (the "Hon Hai Share Exchange"), and (ii) SPIL and Hon Hai would cooperate on certain commercial matters.

The Hon Hai Share Exchange would have required an increase in the authorized but unissued capital of SPIL (the "Capital Increase") and amendments to SPIL's acquisition and disposition procedures (the "By-Law

Table of Contents

Amendments”), which would have required the approval of SPIL’s shareholders at an extraordinary shareholders’ meeting (the “First EGM”). On August 28, 2015, SPIL called the First EGM to be held on October 15, 2015, and set a record date of September 15, 2015 for the First EGM, which date was prior to the expiration and closing of the Initial ASE Tender Offers. ASE was therefore not eligible to vote its SPIL Common Shares at the First EGM.

ASE publicly opposed the Hon Hai Share Exchange on the basis that it was not in the best interests of SPIL shareholders for various reasons, including that the Hon Hai Share Exchange would result in significant dilution for all SPIL shareholders and would bring no cash to SPIL or its shareholders.

The Initial ASE Tender Offers expired on September 22, 2015. Pursuant to the Initial ASE Tender Offers, there were validly tendered and not validly withdrawn a number of SPIL Common Shares and SPIL ADSs representing approximately 36.83% of the issued and outstanding share capital of SPIL. On September 23, 2015, ASE accepted for purchase SPIL Common Shares and SPIL ADSs representing approximately 24.99% of the issued and outstanding share capital of SPIL.

On September 22, 2015, ASE filed an injunction with the Taichung District Court seeking to enjoin the First EGM. Following the expiration of the Initial ASE Tender Offers, on September 23, 2015, ASE’s Chairman and Chief Executive Officer, Mr. Jason C.S. Chang met with SPIL’s Chairman, Mr. Bough Lin, to express his regret that, due to certain legal limitations, ASE had not been able to discuss the Initial ASE Tender Offers with SPIL prior to its commencement. Mr. Chang also reiterated that the purpose of ASE’s investment was to explore avenues of mutual cooperation in the face of intensifying global competition and industry consolidation and that ASE strongly opposed the proposed Hon Hai Share Exchange.

On September 28, 2015 and October 1, 2015, ASE issued open letters to SPIL shareholders urging them to vote against the proposals to be voted on at the First EGM.

On October 1, 2015, pursuant to the Initial ASE Tender Offers, ASE closed its acquisition of, and paid for, 725,749,060 SPIL Common Shares and 10,650,188 SPIL ADSs, representing approximately 24.99% of the issued and outstanding share capital of SPIL.

Also on October 1, 2015, ASE filed a suit in the Taichung District Court seeking the invalidation of the SPIL Board’s resolution convening the First EGM.

On October 5, 2015, ASE issued a further open letter to SPIL shareholders urging them to vote against the proposals to be voted on at the First EGM, noting that two leading proxy advisors agreed with ASE's recommendation.

On October 13, 2015, the Taichung District Court denied ASE's petition seeking an injunction to enjoin SPIL's First EGM.

On October 15, 2015, SPIL's Capital Increase and By-Law Amendments were not approved by its shareholders at the First EGM.

Also on October 15, 2015, SPIL filed a suit in the Kaohsiung District Court (the "SPIL Kaohsiung Suit") against ASE seeking the invalidation of the Initial ASE Tender Offers and confirmation that ASE did not, in SPIL's view, have the right to be registered as a shareholder in SPIL's shareholder register. ASE indicated publicly that it believed that this lawsuit was without merit. On the same day, ASE withdrew its suit seeking the invalidation of the SPIL Board's resolution convening the First EGM. Subsequently, the Kaohsiung District Court revoked the SPIL Kaohsiung Suit on June 27, 2016.

On October 22, 2015 and on November 2, 2015, Mr. Chang sent letters to Mr. Lin reiterating that the purpose of ASE's investment in SPIL was to establish a basis for possible future cooperation and that ASE wished to discuss and establish specific plans for such cooperation.

On November 4, 2015, Mr. Chang received a letter from Mr. Lin asserting that SPIL did not recognize ASE as a shareholder of SPIL and requesting that ASE provide a written undertaking prior to any discussions with SPIL that (i) if ASE became a shareholder of SPIL, ASE would maintain its financial investor status, and would not intervene and participate in or interfere with SPIL's business operations, and would not nominate any person for appointment

Table of Contents

as a director of SPIL, and (ii) ASE would treat the communications and discussions between both parties as confidential, and would not disclose such information externally without SPIL's consent.

On November 6, 2015, Mr. Chang sent a letter to Mr. Lin stating that ASE had lawfully acquired 779,000,000 SPIL Common Shares (including those represented by SPIL ADSs) upon completion of the Initial ASE Tender Offers and requesting a meeting before November 13, 2015 to discuss specific details of SPIL's proposed undertaking and plans for potential cooperation.

On November 16, 2015, ASE filed an amendment to its report on Schedule 13D indicating that ASE had become increasingly concerned that the combination of SPIL's open animosity to ASE, SPIL's demonstrated willingness to consider ill-conceived transactions, and SPIL's expressed desire to seek out one or more other opportunities with third parties, all posed a very real threat that SPIL would at some future date attempt to adopt one or more further defensive measures that could damage SPIL and ASE's 24.99% interest therein.

The amendment noted that although ASE continued to seek avenues of cooperation with SPIL, and while no decision had been made, ASE believed that it needed to evaluate all possibilities available to it to protect its significant investment in SPIL and to react to any such defensive measures. Such possibilities included potential proposals to SPIL relating to cooperation or other potential transactions, influencing the management of SPIL, or further acquisitions of SPIL Common Shares, whether in the market or through one or more tender offers.

On December 11, 2015, SPIL announced a potential transaction with Tsinghua Unigroup Ltd. ("Tsinghua" and the "Tsinghua Transaction"). Pursuant to the Tsinghua Transaction, if approved by SPIL shareholders, Tsinghua would purchase newly issued SPIL Common Shares by way of private placement at a price of NT\$55 per SPIL Common Share. The Tsinghua Transaction would also have required SPIL shareholder approval. On the same date, SPIL announced that it planned to hold an extraordinary shareholders' meeting on January 28, 2016 for shareholders to vote on the Tsinghua Transaction. Upon completion of the Tsinghua Transaction, Tsinghua would have owned 24.9% of SPIL's then-outstanding Common Shares.

ASE believed that the Tsinghua Transaction was not in the best interests of SPIL's shareholders and was a defensive and dilutive transaction that brought no cash to SPIL's shareholders. On December 14, 2015, in order to protect its significant investment in SPIL in light of the Tsinghua Transaction and the reasons described above in relation to ASE's November 16, 2015 amendment to its report on Schedule 13D, ASE submitted a written proposal to the SPIL Board proposing to acquire 100% of the remaining outstanding SPIL Common Shares for NT\$55 per SPIL Common Share in cash and 100% of the remaining outstanding SPIL ADSs for NT\$275 per SPIL ADS in cash (the "December 14, 2015 Proposal"). The December 14, 2015 Proposal was subject to execution and delivery of a mutually satisfactory definitive share exchange agreement containing customary terms and conditions and contingent on the termination or cancellation of the Tsinghua Transaction in accordance with its terms or applicable laws. ASE requested a written response from the SPIL Board by December 21, 2015 confirming whether or not SPIL was willing to discuss the

December 14, 2015 Proposal.

On December 21, 2015, SPIL issued a press release stating that it would assess the December 14, 2015 Proposal and that it would be discussed at a meeting of the SPIL Board on December 28, 2015.

Based upon the foregoing and other factors, ASE determined that there was no realistic possibility of a cooperative dialogue with SPIL at ASE's existing ownership level in SPIL and that there was a very real risk that SPIL would at some future date attempt to adopt one or more further defensive measures that could further damage the value of ASE's investment. As a result, ASE concluded that it had no viable alternative other than to seek to increase its ownership stake in SPIL. On December 22, 2015, ASE announced that it planned to commence on December 29, 2015 tender offers in the ROC (the "Second ROC Offer") and the United States (the "Second U.S. Offer," together with the Second ROC Offer, the "Second ASE Tender Offers") for up to 770,000,000 SPIL Common Shares, including those represented by SPIL ADSs, at a price of NT\$55 per SPIL Common Share (and NT\$275 per SPIL ADS), which represented approximately 24.71% of the issued and outstanding share capital of SPIL. In addition, ASE disclosed that if the Second ASE Tender Offers were consummated, subject to either (i) SPIL's shareholders not approving the Tsinghua Transaction at the proposed extraordinary shareholders' meeting on January 28, 2016 or (ii) SPIL terminating the Tsinghua Transaction in accordance with its terms or applicable law and cancelling the proposed extraordinary shareholders' meeting, ASE would seek to cause SPIL to enter into a share exchange or other similar business combination with ASE pursuant to which ASE would acquire 100% of the shares of SPIL not owned by ASE (a "Proposed Combination") for the consideration of NT\$55 per SPIL Common

Table of Contents

Share and NT\$275 per SPIL ADS (subject to adjustment if SPIL issued shares or cash dividends prior to the closing of such Proposed Combination). In order to implement a Proposed Combination, if the Second ASE Tender Offers were consummated, ASE intended to seek control of the SPIL Board. On the same date, SPIL issued a press release requesting that ASE cease its plan to commence the Second ASE Tender Offers and provide responses to certain questions as a precondition to any potential discussions on the December 14, 2015 Proposal. SPIL also announced on the same date that it planned to postpone the proposed extraordinary shareholders' meeting that had been scheduled for January 28, 2016 to consider the Tsinghua Transaction.

On December 28, 2015, ASE announced that it intended, as previously announced, to commence the Second ASE Tender Offers on December 29, 2015 and that it believed that the Second ASE Tender Offers did not preclude any discussions with SPIL with respect to the December 14, 2015 Proposal. Accordingly, on December 29, 2015, ASE commenced the Second ASE Tender Offers.

On December 30, 2015, SPIL announced that it would convene meetings of a review committee and the SPIL Board in connection with the Second ASE Tender Offers.

On January 7, 2016, SPIL issued a press release and filed a Solicitation/Recommendation Statement on Schedule 14D-9 (as amended, the "Second Schedule 14D-9") with the SEC announcing the SPIL Board recommendation, which it subsequently amended, that shareholders of SPIL consider the reservations of the review committee and the SPIL Board regarding the Second ASE Tender Offers, and further review the relevant risks before deciding individually whether or not to participate in the Second ASE Tender Offers.

On February 4, 2016, ASE extended the Second ASE Tender Offers until March 17, 2016 in order to permit the TFTC further time to review the Proposed Combination. The Second ASE Tender Offers had previously been scheduled to expire on February 16, 2016.

Between February 17, 2016 and March 9, 2016, ASE published various advertisements in newspapers in the ROC and made a series of shareholder communications in connection with the Second ASE Tender Offers. During this time, SPIL filed a number of amendments to the Second Schedule 14D-9 clarifying the scope of its recommendation in respect of the Second ASE Tender Offers.

On March 17, 2016, ASE announced that the Second ASE Tender Offers were unsuccessful, as ASE did not receive approval from the TFTC for the proposed combination between ASE and SPIL prior to the expiration of the Second ASE Tender Offers. Notwithstanding the failure of the Second ASE Tender Offers, ASE stated that it continued to seek to obtain control of SPIL, with the purpose of effecting an acquisition of 100% of the SPIL Common Shares and SPIL ADSs that ASE did not already own. In addition, ASE stated that it would otherwise continue to seek

opportunities for cooperation with SPIL and would consider other possibilities, including further acquisitions of SPIL Common Shares.

On March 17, 2016, ASE disclosed that the TFTC was continuing to review the Proposed Combination. If the TFTC approved the Proposed Combination, ASE expected to continue to seek the support of SPIL shareholders in order to acquire 100% of the issued and outstanding share capital of SPIL not owned by ASE. ASE further explained that, simultaneously with the acquisition of SPIL, ASE planned to establish a holding company in Taiwan that would hold 100% of the equity interests of both ASE and SPIL such that ASE and SPIL would be wholly owned subsidiaries of such holding company, which would maintain all current operations of ASE and SPIL in Taiwan.

Between March 24, 2016 and April 7, 2016, ASE acquired by way of market purchases additional SPIL Common Shares and SPIL ADSs amounting to an additional 8.29% of the issued and outstanding SPIL Common Shares (including those represented by SPIL ADSs) for an aggregate purchase price of NT\$13.7 billion.

On April 17, 2016, Mr. Lin and Mr. Chang, together with executives of ASE and SPIL, had a meeting at which the possibility of a combination transaction was discussed. During the meeting, Mr. Lin and Mr. Chang discussed whether it would be in the best interests of the two companies and their respective shareholders for ASE and SPIL to explore the possibility of entering into a combination transaction.

Between April 25, 2016 and May 19, 2016, representatives of ASE and SPIL, together with their respective legal and financial advisors, held a series of in-person meetings and conference calls to discuss a variety of issues and explore whether it would be possible to develop the terms of a possible share exchange transaction between

Table of Contents

ASE and SPIL (“Proposed Share Exchange”), including the structure, price, board composition of the new holding company after the Proposed Share Exchange, protection of SPIL’s employee rights and the timing of any announcement. ASE furnished SPIL with proposed draft transaction documents and presentation materials relating to the Proposed Share Exchange, which contemplated SPIL and ASE entering into a share exchange transaction at a price of NT\$55.0 per SPIL Common Share and set forth the other terms of such transaction. There was no agreement with respect to the Proposed Share Exchange by the end of these meetings.

On April 28, 2016, SPIL issued a press release announcing the termination of the Tsinghua Transaction.

On May 26, 2016, the ASE Board held a meeting, in which members of ASE’s senior management participated, to discuss the draft Joint Share Exchange MOU and review the conclusions of ASE’s legal and financial advisors. In connection with the deliberations of the ASE Board, an independent public accounting firm engaged by ASE, Mr. Ji-Sheng Chiu, CPA, delivered to the ASE Board his oral opinion, which was confirmed by delivery of a written opinion dated May 25, 2016, that the cash consideration of NT\$55.00 per SPIL Common Share and the exchange ratio pursuant to which ASE Common Shares would be exchanged for shares in the holding company, were reasonable and fair.

On May 26, 2016, ASE and SPIL issued a joint press release announcing the execution of the Joint Share Exchange MOU and setting a deadline for execution of a definitive Joint Share Exchange Agreement of June 25, 2016. Also on May 26 2016, Mr. Chang sent a letter to Mr. Lin reiterating his support for the proposed combination.

On May 27, 2016, ASE and SPIL clarified by respective press releases that the actual Cash Consideration of NT\$55 per SPIL Common Share included the cash dividend and a returning of capital reserve of NT\$3.8 per SPIL Common Share previously declared by SPIL, and that the adjusted Cash Consideration should be NT\$51.2 per SPIL Share.

On June 3, 2016, Baker & McKenzie sent SPIL’s legal counsel Jones Day a proposed draft of the Joint Share Exchange Agreement, which contemplated, among other things, that ASE would exchange all of ASE’s issued ASE Common Shares for shares in a newly formed holding company, and all issued SPIL Common Shares would be acquired for NT\$55.00 per share in cash and NT\$275 per SPIL ADS (prior to cash dividend and a returning of capital reserve adjustment) .

Between June 3, 2016 and June 24, 2016, representatives of ASE and SPIL, together with representatives of each of their legal and financial advisors, held a series of conference calls and in-person meetings to negotiate the terms of the draft Joint Share Exchange Agreement, including in relation to post-closing commitments of the surviving company, the timetable for the transaction and the requirements relating to obtaining regulatory approvals. During this period, ASE’s legal advisors Davis Polk and Baker & McKenzie exchanged multiple drafts of the draft Joint Share Exchange

Agreement with SPIL's legal advisors Simpson Thacher and Jones Day.

On June 24, 2016, ASE and SPIL executed a supplemental Joint Share Exchange MOU, extending the deadline for ASE and SPIL to execute a definitive agreement to June 30, 2016.

On June 30, 2016, the ASE audit committee unanimously determined that the draft Joint Share Exchange Agreement and the transactions contemplated thereby were advisable, fair to and in the best interests of ASE and its shareholders and approved the draft Joint Share Exchange Agreement and the other transactions contemplated therein. Later that same day, the ASE Board met to discuss the draft Joint Share Exchange Agreement, in which members of ASE senior management participated. Prior to the meeting, members of the ASE Board had been provided with a set of meeting materials, including the draft Joint Share Exchange Agreement and certain financial analyses. In connection with the deliberations of the ASE Board, an independent expert engaged by ASE, Mr. Ji-Sheng Chiu, CPA, delivered to the ASE Board his oral opinion, which was confirmed by delivery of a written opinion dated June 29, 2016, that the consideration in the draft Joint Share Exchange Agreement of NT\$55.00 per SPIL Common Share and NT\$275 per SPIL ADS (prior to cash dividend and a returning of capital reserve adjustment) and the exchange ratio pursuant to which ASE Common Shares would be exchanged for shares in the holding company, were reasonable and fair.

On June 30, 2016, ASE and SPIL issued a joint press release announcing the execution of the Joint Share Exchange Agreement.

Between July 1, 2016 and November 24, 2017, the management teams of both ASE and SPIL had meetings on a regular or ad-hoc basis, to discuss the progress and steps to obtain all necessary governmental approvals required to complete the Share Exchange, including the antitrust clearance or approvals from TFTC, FTC and MOFCOM.

After ASE and SPIL's receipt of MOFCOM's approval in respect of the Share Exchange, between November 24, 2017 to December 14, 2017, representatives of ASE and representatives of SPIL, together with representatives of each of their legal advisors, held an in-person meeting and a series of telephonic to discuss the extension of the Long Stop Date set forth in the Joint Share Exchange Agreement. During this period, ASE's legal advisors Baker & McKenzie exchanged multiple drafts of the draft Supplemental Agreement to the Joint Share Exchange Agreement with SPIL's legal advisors Jones Day. On December 14, 2017, ASE and SPIL executed the Supplemental Agreement to the Joint Share Exchange Agreement, which provided that the definition of the Long Stop Date was revised from "December 31, 2017 or a later date otherwise agreed in writing by both Parties" to "October 31, 2018 or a later date otherwise agreed in writing by both Parties".

On January 15, 2018, Mr. Ji-Sheng Chiu delivered to ASE the Third Crowe Horwath Opinion that the Cash Consideration to be paid by HoldCo in the Share Exchange were fair and reasonable. By a vote at a meeting of the audit committee of ASE held on January 16, 2018 and by a subsequent vote at a meeting of the ASE Board held on the same date, the ASE Board and ASE's audit committee unanimously determined to present the Third Crowe Horwath Opinion in this proxy statement/prospectus and applicable meeting materials for ASE EGM.

Table of Contents

Recommendation and Approval of the ASE Board and Reasons for the Share Exchange

By a vote at a meeting of the audit committee of ASE held on June 30, 2016 and by a subsequent vote at a meeting of the ASE Board held on the same date, the ASE Board and ASE's audit committee unanimously determined that the Joint Share Exchange Agreement and the transactions contemplated thereby were advisable, fair to and in the best interests of ASE and its shareholders and approved the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement. By a vote at a meeting of the audit committee of ASE held on January 16, 2018 and by a subsequent vote at a meeting of the ASE Board held on the same date, the ASE Board and ASE's audit committee unanimously determined to present the Third Crowe Horwath Opinion in this proxy statement/prospectus and applicable meeting materials for ASE EGM. **The ASE Board recommends that ASE shareholders vote "FOR" the approval of the Joint Share Exchange Agreement and the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement and "FOR" the approval of the other proposals to be voted on at the ASE EGM.**

In evaluating the proposed Share Exchange, the ASE Board consulted with ASE's management and legal advisors and independent experts and, in reaching its determination and recommendation, the ASE Board considered a number of factors. The ASE Board also consulted with outside legal counsel regarding its obligations, legal due diligence matters and the terms of the Joint Share Exchange Agreement.

Many of the factors considered supported the conclusion of ASE Board that the Joint Share Exchange Agreement and the transactions contemplated thereby are advisable, fair to and in the best interests of ASE and its shareholders, including the following, subject to the Post-Closing Operation and Corporate Governance section set forth on page 86 herein (not in any relative order of importance):

continuing consolidation trend in the semiconductor industry and the intensifying competitive landscape in the semiconductor packaging and testing industry poses significant risks and uncertainties for ASE's and SPIL's business if each company continues to operate separately;

the expectation that the combination of ASE and SPIL under the holding company structure will allow both companies to better utilize their total capacity to achieve broader service coverage across products and offer more innovative and complete solutions to their customers;

that ASE and SPIL can pool their experience and know-how, as well as their respective existing product footprints for high-quality packaging and testing service solutions, which will allow customers to benefit from best technologies and also create incentives for other packaging and testing service providers to use similar production process;

the expectation that the combination of ASE and SPIL will allow each company to have better insights to semiconductor customers and end markets to enable more accurate forecasting of customer demand and facilitate better planning and capacity investment, which would in turn allow ASE and SPIL the ability to execute and deliver on its business plans throughout the business cycle and in a semiconductor industry that is highly competitive, cyclical and subject to constant and rapid technological change;

the opportunity to further expand ASE's and SPIL's global market reach and customer base leveraging a "dual-brand cross-selling operations" model and expand into other business areas of strategic importance;

the expectation based on estimates by ASE's and SPIL's management that both companies can achieve significant synergies in research and development investments and capital expenditures as a result of reduction of duplicative investments, allowing for significant cost synergies and expended investment budgets;

the expectation that the larger scale organization, greater marketing resources and financial strength of HoldCo will lead to improved opportunities for marketing and cross selling ASE's and SPIL's products after the combination;

the holding company structure will allow HoldCo to focus on devising the group's overall strategy and maximize interests of the group as a whole, while allowing each subsidiary, including ASE and SPIL, to concentrate on its particular business area and operations;

the fact that the new holding company will function as the group's overall resources allocation and strategic planning platform to achieve a more streamlined management structure among the group's distinct business

Table of Contents

concentration area to further improve the group's overall operational efficiency and solidify professional managerial function within each subsidiary to ensure sustainable development of the group;

the fact that ASE's current shareholders will own approximately the same ownership and voting interest in HoldCo following the completion of the Share Exchange;

the First Crowe Horwath Opinion, dated May 25, 2016, the Second Crowe Horwath Opinion, dated June 29, 2016, and the Third Crowe Horwath Opinion, dated January 15, 2018, to the ASE Board, that the Cash Consideration to be paid by HoldCo to SPIL shareholders and the exchange ratio pursuant to which ASE shareholders will exchange their shares for HoldCo Shares pursuant to the Joint Share Exchange Agreement were fair and reasonable, and the fact that the Crowe Horwath Opinions expressed their opinions as to such fairness and reasonableness under ROC law based on a "fair market value" standard, which refers to a price, expressed in terms of cash equivalents, agreed between a hypothetical willing and able buyer and a hypothetical willing and able seller, each acting at arm's length in an open and unrestricted market, when neither is under compulsion to buy or sell and when both have reasonable knowledge of the relevant facts, which ASE believed was a relevant factor to consider in determining the fairness of the Share Exchange. Such opinions were based on and subject to the assumptions made, procedures followed and matters considered in the review undertaken by Mr. Ji-Sheng Chiu, CPA, as more fully described below in the section entitled "— Opinions of ASE's Independent Expert"; and

the review by the ASE Board with its advisors of the structure of the proposed Share Exchange and the financial and other terms of the Joint Share Exchange Agreement, including the parties' representations, warranties and covenants, the conditions to their respective obligations and the termination provisions, as well as the likelihood of the completion of the proposed Share Exchange and the evaluation by the ASE Board of the likely time period necessary to complete the Share Exchange.

In the course of its deliberations, the ASE Board also considered a variety of risks and other potentially negative factors, including the following (not in any relative order of importance):

the possibility that the Share Exchange may not be completed as a result of the failure to obtain the required approval from ASE shareholders or SPIL shareholders, the failure by ASE to obtain financing, or otherwise, or that completion may be unduly delayed for reasons beyond the control of ASE and/or SPIL, including the potential length of the regulatory review process and the risk that applicable antitrust and competition authorities may prohibit or enjoin the Share Exchange or otherwise impose unanticipated conditions on ASE and/or SPIL, in order to obtain clearance for the Share Exchange, and the effect the resulting termination of the Joint Share Exchange Agreement may have on the trading price of the ASE Common Shares and ASE's operating results, including ASE's potential obligation to pay SPIL a liquidated damages in the amount of NT\$8.5 billion (US\$0.3 billion), as described in the section entitled "The Joint Share Exchange Agreement — Pre-Closing Covenants and Agreements";

the possible disruption to ASE's business that may result from the Share Exchange, including the potential for diversion of management and employee attention from other strategic opportunities or operational matters and for

increased employee attrition during the period prior to completion of the Share Exchange, and the potential effect of the Share Exchange on ASE's business and relations with customers and suppliers;

the adverse impact that business uncertainty pending completion of the Share Exchange could have on ASE's ability to attract, retain and motivate key personnel;

the difficulty and costs inherent in consolidating resources in ASE and SPIL under the holding company structure and the risk that anticipated strategic and other benefits to ASE and SPIL following completion of the Share Exchange, including the estimated cost savings and cost synergies described above, will not be realized or will take longer to realize than expected;

the transaction costs to be incurred in connection with the Share Exchange;

that failure to complete the Share Exchange could lead to negative perceptions among investors, potential investors, employees and customers;

operational inefficiencies due to a layered corporate structure and valuation discounts as a result of the adoption of a holding company structure which may have an adverse effect on the trading value of HoldCo Common Shares or HoldCo ADSs; and

Table of Contents

risks of the type and nature described in the sections entitled “Risk Factors” and “Cautionary Statements Regarding Forward-Looking Statements.”

In addition, the ASE Board was fully aware of and has deliberated over the history of prior litigations between ASE and SPIL as described in the section entitled “—Background of the Share Exchange; Past Contacts; Negotiations.” ASE has intended to seek a friendly transaction with SPIL from the very beginning. The purpose of its lawsuits initiated in September and October 2015 against SPIL was to protect its investment in SPIL. Although SPIL filed the SPIL Kaohsiung Suit in October 2015 seeking to invalidate ASE’s investment, the Kaohsiung District Court revoked the SPIL Kaohsiung Suit on June 27, 2016 and the parties eventually agreed to the Share Exchange transaction after friendly and good-faith negotiations. This result is what ASE has always been pursuing and the ASE Board did not view the prior litigations between the two parties as detrimental to an eventual friendly outcome.

The ASE Board considered all of these factors as a whole and, on balance, concluded that overall, the potential benefits of the Share Exchange to ASE and its shareholders outweighed the risks which are mentioned above, and it supported the decision to approve the Share Exchange and the other transactions contemplated by the Joint Share Exchange Agreement. The foregoing discussion of the information and factors considered by the ASE Board is not exhaustive. In view of the wide variety of factors considered by the ASE Board in connection with its evaluation of the proposed Share Exchange and the complexity of these matters, the ASE Board did not consider it practical to, nor did it attempt to, quantify, rank or otherwise assign relative weights to the specific factors that it considered in reaching its decision. Rather, the ASE Board viewed its decisions as being based on the totality of the information presented to it and the factors it considered. The ASE Board evaluated the factors described above, among others, and reached a consensus that the Joint Share Exchange Agreement and the transactions contemplated thereby were advisable, fair to and in the best interests of ASE and its shareholders. In considering the factors described above and any other factors, individual members of the ASE Board may have viewed factors differently or given different weight or merit to different factors.

Interests of ASE in SPIL Common Shares and ADSs

On October 1, 2015, ASE closed its acquisition of, and paid for, 779,000,000 SPIL Common Shares (including those represented by SPIL ADSs) at a price of NT\$45 per SPIL Common Share and NT\$225 per SPIL ADS pursuant to the tender offers in the U.S. and in the ROC.

In March and April 2016, ASE acquired an additional 258,300,000 SPIL Common Shares (including those represented by SPIL ADSs) through open market purchases. The following table sets forth certain information relating to the aforesaid ASE’s open market purchases:

Period

	Total Number of SPIL Common Shares Purchased	Average Price Paid Per SPIL Common Share (in NT\$)	Range of Price Paid Per SPIL Common Share (in NT\$)
March 24, 2016-March 30, 2016	201,547,740	53.16	51.80-54.00
April 1, 2016-April 7, 2016	8,300,000	52.91	50.64-53.00
Total:	209,847,740	-	-

Period	Total Number of SPIL ADSs Purchased	Average Price Paid Per SPIL ADS (in US\$)	Range of Price Paid Per SPIL ADS (in US\$)
March 24, 2016-March 30, 2016	9,690,452	8.13	7.91-8.26
Total:	9,690,452	-	-

As of the date of this proxy statement/prospectus, (a) SPIL had an aggregate of 3,116,361,139 SPIL Common Shares, including 188,916,960 SPIL Common Shares represented by SPIL ADSs, issued and outstanding; and (b) ASE held 988,847,740 SPIL Common Shares and 9,690,452 SPIL ADSs.

Except as set forth elsewhere in this proxy statement/prospectus: (a) none of ASE and, to ASE's knowledge, any associate or majority-owned subsidiary of ASE beneficially owns or has a right to acquire any SPIL Common Shares, SPIL ADSs or other equity securities of SPIL; (b) none of ASE and, to ASE's knowledge, any associate or

Table of Contents

majority-owned subsidiary of ASE has effected any transaction in SPIL Common Shares, SPIL ADSs or other equity securities of SPIL during the past 60 days; and (c) during the two years before the date of this proxy statement/prospectus, there have been no transactions between ASE, its subsidiaries, on the one hand, and SPIL or any of its executive officers, directors, controlling shareholders or affiliates, on the other hand, that would require reporting under SEC rules and regulations.

Certain Financial Projections

ASE does not, as a matter of course, publicly disclose forecasts or internal projections as to future performance, earnings or other results due to, among other reasons, the uncertainty of the underlying assumptions and estimates. No financial projections were prepared by ASE or their advisors in connection with the Share Exchange.

Opinions of ASE's Independent Expert

Crowe Horwath Opinions

On May 25, 2016, Mr. Ji-Sheng Chiu, CPA, of Crowe Horwath (TW) CPAs, an independent expert engaged by ASE, delivered to ASE its written opinion that the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares and each SPIL Common Share for NT\$55 in cash pursuant to the Share Exchange was fair and reasonable. On June 29, 2016, Mr. Ji-Sheng Chiu delivered to ASE another written opinion that the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares and each SPIL Common Share for NT\$55 in cash pursuant to the Share Exchange was fair and reasonable. On January 15, 2018, Mr. Ji-Sheng Chiu delivered to ASE another written opinion that the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares and each SPIL Common Share for NT\$55 in cash (subject to adjustment to NT\$51.2 after deduction of cash dividends distribution if NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share) pursuant to the Share Exchange was fair and reasonable.

ASE selected Mr. Ji-Sheng Chiu of Crowe Horwath (TW) CPAs to act as an independent expert to provide the Crowe Horwath Opinions in connection with the Share Exchange based on Mr. Ji-Sheng Chiu's reputation, experience in the Taiwan market and familiarity with ASE and its business. Mr. Ji-Sheng Chiu is regularly engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, private placements and related financings and valuations for corporate and other purposes for ROC corporations. Mr. Ji-Sheng Chiu in the past has delivered opinions to ASE during the two-year period prior to date of the First Crowe Horwath Opinion in connection with (i) a spin-off transaction involving Universal Scientific Industrial Co., Ltd., a subsidiary of ASE, (ii) the Initial ASE Tender Offers, (iii) a private placement under which ASE sold its shareholdings in Universal Scientific Industrial Co., Ltd. to another subsidiary of ASE for corporate restructuring proposes, (iv) the proposal to SPIL to acquire 100% of

its outstanding shares not owned by ASE in cash dated December 14, 2015 and (v) the Second ASE Tender Offers. Mr. Ji-Sheng Chiu received aggregate compensation of NT\$300,000 (US\$9,891.0) in connection with these prior opinions and was paid an opinion fee of NT\$60,000 (US\$1,978.2) for each of the First Crowe Horwath Opinion, the Second Crowe Horwath Opinion and the Third Crowe Horwath Opinion. Mr. Ji-Sheng Chiu may in the future deliver opinions to ASE, for which services Mr. Ji-Sheng Chiu may receive compensation. No material limitations were imposed by ASE on Mr. Ji-Sheng Chiu's work in connection with the Share Exchange.

The full text of the English translation of the Crowe Horwath Opinions has been included in Annex B-1 and Annex B-2 to this proxy statement/prospectus. The Crowe Horwath Opinions will also be available for any interested ASE shareholder (or any representative of an ASE shareholder who has been so designated in writing) to inspect and copy at ASE's principal executive offices during regular business hours. The Crowe Horwath Opinions outline the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by Mr. Ji-Sheng Chiu in rendering the Crowe Horwath Opinions. The descriptions of the Crowe Horwath Opinions set forth below are qualified in their entirety by reference to the full text of such opinions. Holders of ASE Common Shares or SPIL Common Shares are urged to read the entire opinion carefully in connection with their consideration of the Share Exchange.

The Crowe Horwath Opinions speak only as of the date of each such opinion. The Crowe Horwath Opinions were directed to the ASE Board and are directed only to the fairness of the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares and each SPIL Common Share for NT\$55 in cash pursuant to the Share Exchange. They do not address the underlying business decision of ASE or SPIL to engage in the Share Exchange and do not constitute recommendation as to whether or not any holder of ASE Common Shares should vote in favor of the Share Exchange at any shareholder meeting, or at all. The Crowe Horwath Opinions was one of the many factors considered by the ASE Board in evaluating the Share Exchange and should not be viewed as determinative of the views of the ASE Board with respect to the Share Exchange. The consideration to be paid in the Share Exchange was determined through arm's length negotiations between ASE and SPIL. Mr. Ji-Sheng Chiu did

Table of Contents

not recommend any specific amount of consideration to ASE or the ASE Board or advise that any specific amount of consideration constituted the only appropriate consideration for the Share Exchange.

In connection with rendering the Crowe Horwath Opinions, Mr. Ji-Sheng Chiu reviewed and considered the audited or unaudited financial statements of ASE and SPIL for the years 2014, 2015 and the first quarter of 2016 (for the First Crowe Horwath Opinion and the Second Crowe Horwath Opinion) and the audited or unaudited financial statements of ASE and SPIL for the years 2015, 2016 and the third quarter of 2017 (for the Third Crowe Horwath Opinion), relevant business overviews, financial statements, and other materials Mr. Ji-Sheng Chiu deemed relevant and available to the public from, among other sources, the TWSE's Market Observation Post System, the website of the TWSE, the website of the Taipei Exchange (GreTai Securities Market), the Commerce and Industry Registration Enquiry System of the Department of Commerce, Ministry of Economic Affairs, Taiwan, the Taiwan Economic Journal (TEJ) Database, and comparison, analysis and historical stock price data of ASE, SPIL, and their peers compiled by Bloomberg. In performing its review, Mr. Ji-Sheng Chiu relied upon the accuracy and completeness of all of the financial and other information that was available to Mr. Ji-Sheng Chiu from public sources or that was otherwise reviewed by Mr. Ji-Sheng Chiu, and Mr. Ji-Sheng Chiu assumed such accuracy and completeness for purposes of preparing the Crowe Horwath Opinions.

Mr. Ji-Sheng Chiu expressed no opinion as to the trading values of ASE Common Shares or SPIL Common Shares after the date of each respective Opinion or what the value of ASE Common Shares or SPIL Common Shares will be upon consummation of the Share Exchange. Mr. Ji-Sheng Chiu expressed no opinion as to any of the legal, accounting, and tax matters relating to the Share Exchange. The Crowe Horwath Opinions were necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to Mr. Ji-Sheng Chiu as of, the date of the respective Crowe Horwath Opinions. Events occurring after the date thereof could materially affect the Crowe Horwath Opinions. Mr. Ji-Sheng Chiu has not undertaken to update, revise, reaffirm or withdraw the Crowe Horwath Opinions or otherwise comment upon events occurring after the respective date of the Crowe Horwath Opinions.

In rendering the Crowe Horwath Opinions, Mr. Ji-Sheng Chiu performed a variety of financial analyses. The following is a summary of the material analyses performed by Mr. Ji-Sheng Chiu in each opinion, but it is not a complete description of all the analyses underlying each opinion. The summary includes information presented in tabular format. In order to fully understand the financial analyses, these tables must be read together with the accompanying text. The tables alone do not constitute a complete description of the financial analyses. The preparation of a fairness opinion is a complex process involving subjective judgments as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances. The process, therefore, is not necessarily susceptible to a partial analysis or summary description. Mr. Ji-Sheng Chiu believes that his analyses must be considered as a whole and that selecting portions of the factors and analyses to be considered without considering all factors and analyses could create an incomplete view of the evaluation process underlying his opinions. Also, no company included in Mr. Ji-Sheng Chiu's comparative analyses described below is identical to SPIL and no transaction is identical to the Share Exchange. Accordingly, an analysis of comparable companies or transactions involves complex considerations and judgments concerning differences in financial and operating characteristics of the companies and other factors that could affect the public trading values of SPIL and the companies to which they are being compared.

First Crowe Horwath Opinion

Consideration for ASE Common Shares

Mr. Ji-Sheng Chiu evaluated the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares pursuant to Share Exchange. Mr. Ji-Sheng Chiu used the equity attributable to owners of parent of ASE based on the audited or unaudited consolidated financial statements of ASE (NT\$158,016,614,000 as of March 31, 2016) and the total issued ASE Common Shares based on the latest update from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs, Taiwan (7,918,272,896 as of April 26, 2016) to calculate a net book value per share of NT\$19.956. Under the Share Exchange, 7,918,272,896 ASE Common Shares would result in 3,959,136,448 HoldCo Common Shares as of the Effective Time. The net book value per HoldCo Common Share was calculated based on ASE's equity attributable to owners of parent as of March 31, 2016 to be NT\$39.912 per share. Mr. Ji-Sheng Chiu concluded that the shareholders' equity for the holders of HoldCo Common Shares would not be impaired in any way by the exchange ratio of 0.5 HoldCo Common Shares for each ASE Common Share.

Table of Contents

The fact that the net value of ASE’s equity attributable to owners of parent as of the Effective Time may vary from that as of March 31, 2016 was also considered. However, since the shareholders of ASE will contribute all the ASE Common Shares as of the Effective Time in exchange for all the HoldCo Common Shares, Mr. Ji-Sheng Chiu concluded that the shareholders’ equity for the holders of HoldCo Common Shares will not be affected as a result of the Share Exchange.

Based on this analysis, Mr. Ji-Sheng Chiu concluded that, as of May 25, 2016, the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares pursuant to the Share Exchange was fair and reasonable.

Consideration for SPIL Common Shares

Mr. Ji-Sheng Chiu elected for a market approach as the primary evaluation method while taking into account other non-quantitative factors to evaluate the reasonableness of the proposed exchange of each SPIL Common Share for NT\$55 in cash pursuant to the Share Exchange. Under the market approach, Mr. Ji-Sheng Chiu adopted a (i) market price method that analyzed historical market prices of the SPIL Common Shares; (ii) a price-book ratio method that applied the average price-to-book value ratios of the Comparison Group (as defined below) to SPIL’s book value for the quarter ended March 31, 2016; and (iii) a price-earnings ratio method that applied the average price to earnings per share ratios of the Comparison Group to SPIL’s earnings per share for the four quarters ended March 31, 2016. Mr. Ji-Sheng Chiu determined not to use an income approach, which requires using a company’s estimates for future cash flows, because such an approach involves multiple assumptions and has a relatively higher level of uncertainty and lesser objectivity as compared to other valuation methods. In addition, Mr. Ji-Sheng Chiu determined that a cost approach was not appropriate for evaluation in light of SPIL’s operating model and capital structure, and therefore did not use such an approach.

Of the semiconductor manufacturing companies listed on the TWSE, three industry peers were selected for comparison based on relative similarities in customer attributes, business activities and business mode: ChipMOS TECHNOLOGIES (Bermuda) LTD. (“ChipMOS”); Chipbond Technology Corporation (“Chipbond”); and Powertech Technology Inc. (“Powertech,” and together with ChipMOS and Chipbond, the “Comparison Group”).

In applying the market price method, Mr. Ji-Sheng Chiu used SPIL’s recent public trading prices for SPIL Common Shares to evaluate the average market closing price for 60, 90 and 180 business days (up to and including May 25, 2016) to calculate a range of theoretical values for SPIL Common Shares as follows:

Items	Average Closing Price Theoretical Price Range Prices in NT\$
-------	---

Latest 60 business days	49.18	
Latest 90 business days	50.04	47.13 - 50.04
Latest 180 business days	47.13	

Note: Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal (2015/8/28 - 2016/5/25) all average prices are calculated by simple arithmetic averaging.

As shown in the table above, based on the market price method, the theoretical value per SPIL Common Share falls in the range of NT\$47.13 to NT\$50.04, without taking any adjusting factors into account.

In applying the price-to-book ratio method, Mr. Ji-Sheng Chiu used the book value per SPIL Common Share and the average price-to-book value ratios of the Comparison Group along with average closing prices for 180 days up to, and including, May 25, 2016, to calculate price-to-book value ratios of the Comparison Group and to calculate a range of values for SPIL Common Shares as follows:

Comparing to Peer Companies	Average Closing Prices in Latest 180 Business Days	Net Value per Share for the First Half of 2016	Price to-Book Value Ratio
	Prices in NT\$		
ChipMOS	32.53	21.20	1.53
Chipbond	47.86	36.31	1.32
Powertech	66.98	44.48	1.51

Note: Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal (2015/8/28 - 2016/5/25) all average prices are calculated by simple arithmetic averaging.

Table of Contents

Items	Descriptions
	Prices in NT\$
Range of multipliers	1.32 1.53 times
Net value per SPIL Common Share for the first quarter of 2016	23.23
Theoretical price range	30.66 35.54

As shown in the table above, based on the price-to-book value ratio method, the theoretical price per SPIL Common Share falls in the range of NT\$30.66 to NT\$35.54, without taking any adjusting factors into account.

In applying the price-earnings ratio method, Mr. Ji-Sheng Chiu applied the price to earnings per share ratios of the Comparison Group (based on earnings per share for the four quarters ended March 31, 2016 and the average closing prices for 180 days up to, and including, May 25, 2016) to SPIL's earnings per share for the four quarters ended March 31, 2016, to calculate a range of values for SPIL Common Shares as follows:

Comparing to Peer Companies	Average Closing Prices in Latest 180 Business Days	Earnings per Share in the Four Quarters Ended March 31, 2016	Price-Earnings Ratio
	Prices in NT\$		
ChipMOS	32.53	2.09	15.56
Chipbond	47.86	2.64	18.13
Powertech	66.98	5.37	12.47

Note: Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal (2015/8/28 2016/5/25) all average prices are calculated by simple arithmetic averaging.

Item	Description
	Prices in NT\$
Range of multipliers	12.47 – 18.13 times
Consolidated earnings per SPIL Common Share	2.49
Theoretical price range	31.05 – 45.14

As shown in the table above, based on the price to earnings per share ratio method, the theoretical price range per SPIL Common Share falls in the range of NT\$31.05 to NT\$45.14, without taking any adjusting factors into account.

Mr. Ji-Sheng Chiu, after taking into account certain non-quantitative key factors, weighted each of the three methods described above equally to obtain a theoretical price per SPIL Common Share, as set forth below:

Evaluation Method	Price Range per SPIL Common Share	Weight	Theoretical Price Range per SPIL Common Share
	Prices in NT\$		
Market price method	47.13 - 50.04	33.3%	36.28 - 43.57
Priceto-book ratio method	30.66 - 35.54	33.3%	
Priceto-earnings ratio method	31.05 - 45.14	33.3%	

Mr. Ji-Sheng Chiu then applied an adjustment of 33.24% to account for the average premium paid in mergers involving the global semiconductor industry since the third quarter of 2015. This premium rate was obtained from Bloomberg database by virtue of the following path: “MA”, sorted by (i) period: near 12 months, (ii) trade type: MA, (iii) industry: semiconductor, and (iv) area: global. On May 25, 2016, the Bloomberg database indicated that the quarterly premium of global merger and acquisition cases in semiconductor industry for the four quarters since the third quarter of 2015 was 23.80%, 56.47%, 23.74% and 28.95%, respectively, and the average premium was 33.24%.

The adjusted price range per SPIL Common Share is presented in the table below:

Table of Contents

Evaluation Method	Price Range per SPIL Common Share	Adjusted Price Range per SPIL Common Share
	Prices in NT\$	
The weighted average of the results under the market price, price-to-book and the price-to-earnings methods	36.28 - 43.57	48.34 - 58.05

On the basis of this analysis, Mr. Ji-Sheng Chiu concluded that, as of May 25, 2016, the reasonable price range per SPIL Common Share should be between NT\$48.34 and NT\$58.05 and the proposed exchange of each SPIL Common Share for NT\$55 in cash pursuant to the Share Exchange was fair and reasonable.

Second Crowe Horwath Opinion

Consideration for ASE Common Shares

Mr. Ji-Sheng Chiu evaluated the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares pursuant to the Share Exchange. Mr. Ji-Sheng Chiu used the equity attributable to owners of parent of ASE based on the audited or reviewed consolidated financial statements of ASE (NT\$158,016,614,000 as of March 31, 2016) and the total issued ASE Common Shares based on the latest update from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs, Taiwan (7,918,272,896 as of April 26, 2016) to calculate a net book value per share of NT\$19.956. Under the Share Exchange, 7,918,272,896 ASE Common Shares would result in 3,959,136,448 HoldCo Common Shares as of the Effective Time. The net book value per HoldCo Common Share was calculated based on ASE's equity attributable to owners of parent as of March 31, 2016 to be NT\$39.912 per share. Mr. Ji-Sheng Chiu concluded that the shareholders' equity for the holders of HoldCo Common Shares would not be impaired in any way by the exchange ratio of 0.5 HoldCo Common Shares for each ASE Common Share.

The fact that the net value of ASE's equity attributable to owners of parent as of the Effective Time may vary from that as of March 31, 2016 was also considered. However, since the shareholders of ASE will contribute all the ASE Common Shares as of the Effective Time in exchange for all the HoldCo Common Shares, Mr. Ji-Sheng Chiu concluded that the shareholders' equity for the holders of HoldCo Common Shares will not be affected as a result of the Share Exchange.

Based on this analysis, Mr. Ji-Sheng Chiu concluded that, as of June 29, 2016, the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares pursuant to the Share Exchange was fair and reasonable.

Consideration for SPIL Common Shares

Mr. Ji-Sheng Chiu elected for a market approach as the primary evaluation method while taking into account other non-quantitative factors to evaluate the reasonableness of the proposed exchange of each SPIL Common Share for the Cash Consideration pursuant to the Share Exchange. Under the market approach, Mr. Ji-Sheng Chiu adopted a (i) market price method that analyzed historical market prices of the SPIL Common Shares; (ii) a price-book ratio method that applied the average price-to-book value ratios of the Comparison Group (as defined below) to SPIL's book value for the quarter ended March 31, 2016; and (iii) a price-to-earnings ratio method that applied the average price to earnings per share ratios of the Comparison Group to SPIL's earnings per share for the four quarters ended March 31, 2016. Mr. Ji-Sheng Chiu determined not to use an income approach, which requires using a company's estimates for future cash flows, because such an approach involves multiple assumptions and has a relatively higher level of uncertainty and lesser objectivity as compared to other valuation methods. In addition, Mr. Ji-Sheng Chiu determined that a cost approach was not appropriate for evaluation in light of SPIL's operating model and capital structure, and therefore did not use such an approach.

Of the semiconductor manufacturing companies listed on the TWSE, Mr. Ji-Sheng Chiu selected the Comparison Group for comparison based on relative similarities customer attributes, business activities and business model.

In applying the market price method, Mr. Ji-Sheng Chiu used SPIL's recent public trading prices for SPIL Common Shares to evaluate the average market closing price for 60, 90 and 180 business days (up to, and including, June 29, 2016) to calculate a range of theoretical values for SPIL Common Shares as follows:

Table of Contents

Items	Average Closing Price Prices in NT\$	Theoretical Price Range
Latest 60 business days	46.25	
Latest 90 business days	46.45	45.05 – 46.45
Latest 180 business days	45.05	

Note: Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal (2015/10/5 - 2016/6/29) all average prices are calculated by simple arithmetic averaging.

As shown in the table above, based on the market price method, the theoretical value per SPIL Common Share falls in the range of NT\$45.05 to NT\$46.45, without taking any adjusting factors into account.

In applying the price-to-book ratio method, Mr. Ji-Sheng Chiu used the book value per SPIL Common Share and the average price-to-book value ratios of the Comparison Group along with average closing prices for 180 days up to, and including, June 29, 2016 to calculate price-to-book value ratios of the Comparison Group and to calculate a range of values for SPIL Common Shares as follows:

Comparing to Peer Companies	Average Closing Prices in Latest 180 Business Days Prices in NT\$	Net Value per Share for the First Half of 2016	Price-to-Book Value Ratio
ChipMOS	32.53	21.20	1.53
Chipbond	46.86	36.31	1.29
Powertech	65.31	44.48	1.47

Note: Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal (2015/10/5 - 2016/6/29) all average prices are calculated by simple arithmetic averaging.

Items	Descriptions Prices in NT\$
Range of multipliers	1.29 – 1.53 times
Net value per SPIL Common Share for the first quarter of 2016	23.23
Theoretical price range	29.97 – 35.54

As shown in the table above, based on the price-to-book value ratio method, the theoretical price per SPIL Common Share falls in the range of NT\$29.97 to NT\$35.54, without taking any adjusting factors into account.

In applying the price-to-earnings ratio method, Mr. Ji-Sheng Chiu applied the price to earnings per share ratios of the Comparison Group (based on earnings per share for the four quarters ended March 31, 2016 and the average closing prices for 180 days up to, and including, June 29, 2016) to SPIL's earnings per share for the four quarters ended March 31, 2016 to calculate a range of values for SPIL Common Shares as follows:

Comparing to Peer Companies	Average Closing Prices in Latest 180 Business Days	Earnings per Share in the Four Quarters Ended March 31, 2016	Price-Earnings Ratio
	Prices in NT\$		
ChipMOS	32.53	2.09	15.56
Chipbond	46.86	2.64	17.75
Powertech	65.31	5.37	12.16

Note: Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal (2015/10/5 - 2016/6/29) all average prices are calculated by simple arithmetic averaging.

Item	Description
	Prices in NT\$
Range of multipliers	12.16 – 17.75 times
Consolidated earnings per SPIL Common Share	2.49
Theoretical price range	30.28 – 44.20

Table of Contents

As shown in the table above, based on the price to earnings per share ratio method, the theoretical price range per SPIL Common Share falls in the range of NT\$30.28 to NT\$44.20, without taking any adjusting factors into account.

Mr. Ji-Sheng Chiu, after taking into account certain non-quantitative key factors, weighted each of the three methods described above equally to obtain a theoretical price per SPIL Common Share, as set forth below:

Evaluation Method	Price Range per SPIL Common Share	Weight	Theoretical Price Range per SPIL Common Share
	Prices in NT\$		
Market price method	45.05 – 46.45	33.3%	35.10 – 42.06
Price-to-book ratio method	29.97 – 35.54	33.3%	
Price-to-earnings ratio method	30.28 – 44.20	33.3%	

Mr. Ji-Sheng Chiu then applied an adjustment of 33.86% to account for the average premium paid in mergers involving the global semiconductor industry since the third quarter of 2015. This premium rate was obtained from Bloomberg database by virtue of the following path: “MA”, sorted by (i) period: near 12 months, (ii) trade type: MA, (iii) industry :semiconductor, and (iv) area: global. On June 29, 2016, the Bloomberg database indicated that the quarterly premium of global merger and acquisition cases in semiconductor industry for the four quarters since the third quarter of 2015 was 23.80%, 56.47%, 23.74% and 31.44%, respectively, and the average premium was 33.86%.

The adjusted price range per SPIL Common Share is presented in the table below:

Evaluation Method	Price Range per SPIL Common Share	Adjusted Price Range per SPIL Common Share
	Prices in NT\$	
The weighted average of the results under the market price, price-to-book and the price-to-earnings methods	35.10 – 42.06	46.98 – 56.30

On the basis of this analysis, Mr. Ji-Sheng Chiu concluded that, as of June 29, 2016, the reasonable price range per SPIL Common Share should be between NT\$46.98 and NT\$56.30 and the proposed exchange of each SPIL Common Share for the Cash Consideration pursuant to the Share Exchange was fair and reasonable.

Third Crowe Horwath Opinion

Consideration for ASE Common Shares

Mr. Ji-Sheng Chiu evaluated the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares pursuant to the Share Exchange. Mr. Ji-Sheng Chiu used the equity attributable to owners of parent of ASE based on the audited or reviewed consolidated financial statements of ASE (NT\$185,159,550,000 as of September 30, 2017) and the total issued ASE Common Shares based on the latest update from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs, Taiwan (8,724,619,364 as of October 26, 2017) to calculate a net book value per share of NT\$21.22265. Under the Share Exchange, 8,724,619,364 ASE Common Shares would result in 4,362,309,682 HoldCo Common Shares as of the Effective Time. The net book value per HoldCo Common Share was calculated based on ASE's equity attributable to owners of parent as of September 30, 2017 to be NT\$42.44530 per share. Mr. Ji-Sheng Chiu concluded that the shareholders' equity for the holders of HoldCo Common Shares would not be impaired in any way by the exchange ratio of 0.5 HoldCo Common Shares for each ASE Common Share.

The fact that the net value of ASE's equity attributable to owners of parent as of the Effective Time may vary from that as of September 30, 2017 was also considered. However, since the shareholders of ASE will contribute all the ASE Common Shares as of the Effective Time in exchange for all the HoldCo Common Shares, Mr. Ji-Sheng Chiu concluded that the shareholders' equity for the holders of HoldCo Common Shares will not be affected as a result of the Share Exchange.

Based on this analysis, Mr. Ji-Sheng Chiu concluded that, as of January 15, 2018, the proposed exchange of each ASE Common Share for 0.5 HoldCo Common Shares pursuant to the Share Exchange was fair and reasonable.

Consideration for SPIL Common Shares

Mr. Ji-Sheng Chiu elected for a market approach as the primary evaluation method while taking into account other non-quantitative factors to evaluate the reasonableness of the proposed exchange of each SPIL Common Share for the Cash Consideration pursuant to the Share Exchange. Under the market approach, Mr. Ji-Sheng Chiu adopted a (i) market price method that analyzed historical market prices of the SPIL Common Shares; (ii) a price-to-book ratio method that applied the average price-to-book value ratios of the Comparison Group (as defined below) to SPIL's book value for the quarter ended September 30, 2017; and (iii) a price-to-earnings ratio method that applied the average price to earnings per share ratios of the Comparison Group to SPIL's earnings per share for the four quarters ended September 30, 2017. Mr. Ji-Sheng Chiu determined not to use an income approach, which requires using a company's estimates for future cash flows, because such an approach involves multiple assumptions and has a relatively higher level of uncertainty and lesser objectivity as compared to other valuation methods. In addition, Mr. Ji-Sheng Chiu determined that a cost approach was not appropriate for evaluation in light of SPIL's operating model and capital structure, and therefore did not use such an approach.

Table of Contents

Of the semiconductor manufacturing companies listed on the TWSE, Mr. Ji-Sheng Chiu selected the Comparison Group for comparison based on relative similarities customer attributes, business activities and business model.

In applying the market price method, Mr. Ji-Sheng Chiu used SPIL's recent public trading prices for SPIL Common Shares to evaluate the average market closing price for 60, 90 and 180 business days (up to, and including, January 12, 2018) to calculate a range of theoretical values for SPIL Common Shares as follows:

Unit: NT\$

Items	Average Closing Price	Theoretical Price Range
Latest 60 business days	49.15	
Latest 90 business days	48.77	48.38 ~ 49.15
Latest 180 business days	48.38	

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note: (5/2/2017~1/12/2018); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

As shown in the table above, based on the market price method, the theoretical value per SPIL Common Share falls in the range of NT\$48.38 to NT\$49.15, without taking any adjusting factors into account.

In applying the price-to-book ratio method, Mr. Ji-Sheng Chiu used the book value per SPIL Common Share and the average price-to-book value ratios of the Comparison Group along with average closing prices for 180 days up to, and including, January 12, 2018 to calculate price-to-book value ratios of the Comparison Group and to calculate a range of values for SPIL Common Shares as follows:

Unit: NT\$

Edgar Filing: ADVANCED SEMICONDUCTOR ENGINEERING INC - Form F-4/A

Comparable peers	Average Closing Price in Latest 180 Business Days	Net Value per Share for the Third Quarter of 2017	Price-Book Ratio
ChipMOS	28.87	20.50	1.41
Chipbond	50.89	36.26	1.40
Powertech	91.24	46.91	1.95

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note: (5/2/2017~1/12/2018); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

Items	Descriptions
Range of multipliers	1.40 ~ 1.95
Net value per SPIL Common Share for the third quarter of 2017	21.62
Theoretical price range	30.27 ~ 42.16

As shown in the table above, based on the price-to-book value ratio method, the theoretical price per SPIL Common Share falls in the range of NT\$30.27 to NT\$42.16, without taking any adjusting factors into account.

In applying the price-to-earnings ratio method, Mr. Ji-Sheng Chiu applied the price to earnings per share ratios of the Comparison Group (based on earnings per share for the four quarters ended September 30, 2017 and the average closing prices for 180 days up to, and including, January 12, 2018) to SPIL's earnings per share for the four quarters ended September 30, 2017 to calculate a range of values for SPIL Common Shares as follows:

Table of Contents

Unit: NT\$

Comparable peers	Average Closing Price in Latest 180 Business Days	Earnings per Share in the Four Quarters Ended September 30, 2017	Price-Earnings Ratio
ChipMOS	28.87	3.92	7.36
Chipbond	50.89	3.52	14.46
Powertech	91.24	7.23	12.62

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note: (5/2/2017~1/12/2018); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

Unit: NT\$

Items	Descriptions
Range of multipliers	7.36 ~ 14.46
Consolidated earnings per SPIL Common Share	2.64
Theoretical price range	19.43 ~ 38.17

As shown in the table above, based on the price to earnings per share ratio method, the theoretical price range per SPIL Common Share falls in the range of NT\$19.43 to NT\$38.17, without taking any adjusting factors into account.

Mr. Ji-Sheng Chiu, after taking into account certain non-quantitative key factors with reference to the statistics of Bloomberg and the average premium rate of 30.92% of the global merger and acquisition cases in semiconductor industry since the third quarter of 2017, weighted each of the three methods described above equally to obtain a theoretical price per SPIL Common Share, as set forth below:

Unit: NT\$

Edgar Filing: ADVANCED SEMICONDUCTOR ENGINEERING INC - Form F-4/A

Evaluation Method	Reference Price Range per SPIL Common Share	Weight	Theoretical Price Range per SPIL Common Share	Reference Price Range after Adjustment
Market Price Approach	42.38~ 49.15	1/3		
Price-book Ratio Approach	30.27~42.16	1/3	32.69~ 43.16	42.80~ 56.51
Price-earnings Ratio Approach	19.43~ 38.17	1/3		

On the basis of this analysis, Mr. Ji-Sheng Chiu concluded that, as of January 15, 2018, the reasonable price range per SPIL Common Share should be between NT\$42.80 and NT\$56.51 and the proposed exchange of each SPIL Common Share for NT\$55 in cash (subject to adjustment to NT\$51.2 after deduction of cash dividends distribution if NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share) pursuant to the Share Exchange was fair and reasonable.

Table of Contents

Effects of the Share Exchange on ASE and SPIL

Private Ownership

SPIL ADSs are currently listed on NASDAQ under the symbol “SPIL.” It is expected that, immediately following the completion of the Share Exchange, SPIL will cease to be a publicly traded company and will instead become a privately held company wholly owned directly by HoldCo. Following the completion of the Share Exchange, SPIL ADSs will cease to be listed on NASDAQ, and price quotations with respect to sales of the SPIL ADSs in the public market will no longer be available. In addition, registration of the SPIL ADSs and the underlying SPIL Common Shares under the Exchange Act, will be terminated. After the Effective Time, SPIL will no longer be required to file periodic reports with the SEC or otherwise be subject to the U.S. federal securities laws, including the Sarbanes-Oxley Act, applicable to public companies. After the completion of the Share Exchange, SPIL shareholders will no longer enjoy the rights or protections that the U.S. federal securities laws provide.

Upon completion of the Share Exchange, each SPIL Common Share issued immediately prior to the Effective Time, including the shares beneficially owned by ASE and treasury shares of SPIL will be transferred to HoldCo in exchange for the right to receive the SPIL Common Shares Cash Consideration, and each SPIL ADS, including the ADSs beneficially owned by ASE, will represent the right to receive, through the SPIL ADS Depository, the SPIL ADS Cash Consideration through SPIL ADS Depository, respectively, without interest and net of any applicable withholding taxes. As a result, current holders of SPIL Common Shares and SPIL ADS, will no longer have any equity interest in, or be shareholders or American depository shareholders of SPIL upon completion of the Share Exchange. As a result, holders of SPIL Common Shares and SPIL ADSs will not have the opportunity to participate in the earnings and growth of SPIL and they will not have the right to vote on corporate matters following the completion of the Exchange. Similarly, holders of SPIL Common Shares and SPIL ADSs will not be exposed to the risk of loss in relation to their investment in SPIL.

Directors and Management of the Surviving Company

Upon completion of the Share Exchange, the directors of SPIL will continue to serve as directors for their respective terms, and ASE has undertaken to reelect or appoint the SPIL directors whose terms end in June 2017, if they have not been found to violate their respective fiduciary duties. SPIL’s chairman (being Mr. Bough Lin or his successor), and SPIL’s president (being Mr. Chi-Wen Tsai or his successor), are expected to serve as directors of HoldCo. The directors of SPIL are also authorized to retain the executive officers of the SPIL as long as the fiduciary duties of the directors can be discharged.

Primary Benefits and Detriments of the Share Exchange

The primary benefits of the Share Exchange to the holders of SPIL Common Shares and SPIL ADSs include, without limitation, the following:

the NT\$55 per SPIL Common Share cash consideration and the NT\$275 per SPIL ADS cash consideration offered to the holders of SPIL Common Shares and SPIL ADSs, represent a premium of 8.9% and 12.3%, respectively, over the closing price of NT\$50.5 per SPIL Common Share and \$7.52 per SPIL ADS, respectively, on May 25, 2016, the last trading day before the public announcement of the execution of the Joint Share Exchange MOU, and a premium of 17.4% and 10.3%, respectively, over SPIL's one-month and three-month volume-weighted average price of NT\$46.86 and NT\$49.85, respectively, as quoted by the TWSE on the May 25, 2016, and a premium of 19.7% and 11.6%, respectively, over SPIL's one-month and three-month volume-weighted average price of \$7.06 and \$7.57, respectively, as quoted by NASDAQ on May 25, 2016; and

the all-cash consideration, which will allow SPIL shareholders to immediately realize liquidity for their investment and provide them with certainty of the value of their SPIL Common Shares or SPIL ADSs.

The primary detriments of the Share Exchange to the holders of SPIL Common Shares and SPIL ADSs include, without limitation, the following:

the shareholders and ADS holders will have no ongoing equity participation in SPIL following the Share Exchange, and that they will cease to participate in SPIL's future earnings or growth, if any, or to benefit from increases, if any, in the value of the SPIL Common Shares, and will not participate in any potential future sale of SPIL to a third party or any potential recapitalization of SPIL which could include a dividend to shareholders;

the inability to participate in any potential future sale of part or all of SPIL following the Share Exchange to one or more purchasers at a valuation higher than that being paid in the Share Exchange; and

the taxability of an all cash transaction to SPIL shareholders and ADS holders who are U.S. Holders (as defined below) for U.S. federal income tax purposes.

The primary benefits of the Share Exchange to ASE include the following:

the combination of ASE and SPIL under the holding company structure will allow both companies to better utilize their total capacity to achieve broader service coverage across products and offer more innovative and complete solutions to their customers;

the combination of ASE and SPIL will allow each company to have better insights to semiconductor customers and end markets to enable more accurate forecasting of customer demand and facilitate better planning and capacity

investment, which would in turn allow ASE and SPIL the ability to execute and deliver on its business plans throughout the business cycle and in a semiconductor industry that is highly competitive, cyclical and subject to constant and rapid technological change;

Table of Contents

the expectation that the larger-scale organization, greater marketing resources and financial strength of HoldCo will lead to improved opportunities for marketing and cross-selling ASE's and SPIL's products after the combination; and

ASE's current shareholders will own approximately the same ownership and voting interest in HoldCo following the completion of the Share Exchange.

The primary detriments of the Share Exchange to ASE include the following:

the difficulty and costs inherent in consolidating resources in ASE and SPIL under the holding company structure and the risk that anticipated strategic and other benefits to ASE and SPIL following completion of the Share Exchange, including the estimated cost savings and cost synergies described above, will not be realized or will take longer to realize than expected; and

as to the Cash Consideration paid to SPIL shareholders in the Share Exchange, the financial interests of ASE are different from the financial interests of SPIL shareholders.

SPIL's Net Book Value and Net Earnings

The table below sets out the indirect interest in SPIL's net book value and net earnings for ASE before and after the Share Exchange, based on the historical net book value and net earnings of SPIL as of and for the year ended December 31, 2015.

Name	Ownership Prior to the Share Exchange						Ownership After the Share Exchange					
	Net Book Value			Earnings			Net Book Value			Earnings		
	(in millions)		%	(in millions)		%	(in millions)		%	(in millions)		%
	NT\$	US\$		NT\$	US\$		NT\$	US\$		NT\$	US\$	
ASE	21,113.2	675.2	33.29	2,414.7	77.2	33.29	63,422.0	2,028.2	100.00	7,253.5	232.0	100.00

Alternatives to the Share Exchange

Following the concerns reflected in ASE's November 16, 2015 amendment to its report on Schedule 13D, ASE considered a number of alternative structures and approaches in order to maximize the value of its investment in SPIL. These alternatives involved launching the Second ASE Tender Offers or acquiring additional SPIL Common Shares

through one or more market purchases or through one or more further tender offers. In addition, had the Second ASE Tender Offers been successfully consummated, ASE had intended to seek to discharge the SPIL Board at one or more shareholders' meetings or await the expiration of the current SPIL Board's term and elect new nominees to the SPIL Board, and to subsequently cause the SPIL Board to resolve in favor of a transaction proposed by ASE.

Following the commencement of discussions and negotiations between ASE and SPIL in April 2016, the boards and senior management of ASE and SPIL and their respective advisors considered alternative ways of structuring the transaction, including a direct acquisition by ASE of all SPIL Common Shares and SPIL ADSs. However, the boards and senior management of each of ASE and SPIL concluded that the Share Exchange and establishment of HoldCo was the best way to incentivize healthy internal competition and promote cooperation, improve each company's operating efficiency, economies of scale as well as enhance research and development and innovation, and thereby create an environment of mutual assistance and win-win mentality, strengthening competitiveness and improving the performance of HoldCo, with the main goals of improving the quality of customer service, creating shareholders' value and benefiting the employees.

Plans for SPIL after the Share Exchange

After the Effective Time, ASE and SPIL will become wholly owned subsidiaries of HoldCo. Prior to and upon completion of the Share Exchange, ASE and SPIL will own and continue to conduct their respective businesses that they currently conduct in substantially the same manner.

Other than as described in this proxy statement/prospectus, there are no present plans or proposals that relate to or would result in any of the following:

Table of Contents

an extraordinary corporate transaction involving SPIL's corporate structure, business, or management, such as a merger, reorganization, liquidation or relocation of any material operations;

sale or transfer of a material amount of assets of SPIL or any of its subsidiaries; or

any other material changes in SPIL's business.

Upon the establishment of HoldCo, HoldCo's board will continue to evaluate the entire business and operations of HoldCo from time to time, and may propose or develop plans and proposals which it considers to be in the best interests of HoldCo and its shareholders, including the disposition or acquisition of material assets, alliances, joint ventures, and other forms of cooperation with third parties or other extraordinary transactions.

Board of Directors and Management of HoldCo Following Completion of the Share Exchange

HoldCo will not come into existence before the Effective Time. The ASE EGM will function as the HoldCo incorporators' meeting by operation of law. Therefore, at the ASE EGM, shareholders of ASE will elect the members of the board of directors and supervisors of HoldCo.

Under the terms of the Joint Share Exchange Agreement, at the HoldCo incorporators' meeting, nine to 13 directors and three supervisors will be elected for HoldCo, which terms of such directors and supervisors will start from Effective Time. SPIL's Chairman and President should be appointed as directors of HoldCo. After completion of the Share Exchange, subject to ASE shareholders' adoption of the HoldCo director and supervisor election proposals, the board of directors of HoldCo is expected to include Jason C.S. Chang (management director, Chairman), Richard H.P. Chang (management director, Vice-Chairman), Bough Lin (management director), Chi-Wen Tsai (management director), Rutherford Chang (management director), Tien Wu (management director), Joseph Tung (management director), Raymond Lo (management director), Tien-Szu Chen (management director), Jeffrey Chen (management director) and Freddie Liu (non-management director). Alan Cheng, Yuan-Chuang Fung and Fang-Yin Chen are expected to be the supervisors of HoldCo. It is expected that Jason C.S. Chang will be appointed as Chief Executive Officer and Joseph Tung will be appointed as Chief Financial Officer of HoldCo.

From and after the Effective Time, the board of directors of HoldCo will establish an audit committee, which will consist of one non-management director, Freddie Liu, who is expected to be independent under Rule 10A-3 of the Exchange Act and financially literate with accounting or related financial management expertise. ASE is currently, and upon completion of the Share Exchange, HoldCo will be, subject to NYSE corporate governance requirements, as applicable to foreign private issuers. It is expected that the audit committee of HoldCo established at the Effective Time would satisfy and comply with the requirements of section 303A.06 of the NYSE Listing Company Manual.

The following table sets forth information regarding all of the expected directors, supervisors and senior management of HoldCo as of the Effective Time. In accordance with ROC law, each of our directors and supervisors is elected either in his or her capacity as an individual or as an individual representative of a corporation or government. Persons designated to represent corporate or government shareholders as directors are typically nominated by such shareholders at the annual general meeting and may be replaced as representatives by such shareholders at will. Of HoldCo's directors, it is expected that eight will represent ASEE. The remaining directors and supervisors serve in their capacity as individuals.

Table of Contents

Name	Position	Age	Other Significant Positions Held Outside of the HoldCo
Jason C.S. Chang ⁽¹⁾⁽²⁾	Management director, Chairman and Chief Executive Officer of HoldCo	73	None
Richard H.P. Chang ⁽¹⁾	Management director and Vice-Chairman of HoldCo	70	Chairman, Sino Horizon Holdings Ltd.
Bough Lin ⁽²⁾	Management director of HoldCo	65	None
Chi-Wen Tsai ⁽²⁾	Management director of HoldCo	69	None
Rutherford Chang ⁽³⁾	Management director of HoldCo	37	None
Tien Wu ⁽²⁾	Management director of HoldCo	60	None
Joseph Tung ⁽²⁾	Management director and Chief Financial Officer of HoldCo	59	Independent director, Ta Chong Bank Ltd.
Raymond Lo ⁽²⁾	Management director of HoldCo	63	None
Tien-Szu Chen ⁽²⁾	Management director of HoldCo	56	None
Jeffrey Chen ⁽²⁾	Management director of HoldCo	53	Independent Director and a member of the compensation committee, Mercuries & Associates Holding Ltd; director, Jiangsu Longchen Greentech Co., Ltd.
Freddie Liu	Non-management director and audit committee member of HoldCo	53	Chief strategy officer, TPK Holding Co., Ltd.
Alan Cheng	Supervisor of HoldCo	72	Chairman, HR Silvine Electronics, Inc.
Yuan-Chuang Fung	Supervisor of HoldCo	88	Director, Accton Technology Corporation
Fang-Yin Chen	Supervisor of HoldCo	51	Director and vice president of finance department, Hung Ching Development & Construction Co. Ltd.

(1) Jason C.S. Chang and Richard H.P. Chang are brothers.

(2) Representative of ASEE, a company organized under the laws of Hong Kong, which held 15.7% of ASE's total outstanding shares as of November 30, 2017, and is expected to hold approximately 15.7% of HoldCo's total outstanding shares as of the Effective Time. All of the outstanding shares of ASEE are held through intermediary holding companies and under a revocable trust for the benefit of Jason C.S. Chang and his family.

(3) Rutherford Chang is the son of Jason C.S. Chang.

Jason C.S. Chang is expected to be elected as a management director and Chairman and appointed as Chief Executive Officer of HoldCo. Mr. Chang has served as Chairman of ASE since its founding in March 1984 and as its Chief Executive Officer since May 2003. Mr. Chang holds a bachelor's degree in electrical engineering from National Taiwan University and a master's degree from the Illinois Institute of Technology. He is the brother of Richard H.P. Chang, ASE's Vice-Chairman and President.

Richard H.P. Chang is expected to be elected as a management director and Vice-Chairman of HoldCo. Mr. Chang has served as Vice-Chairman of ASE since November 1999 after having served as President of ASE since its founding in March 1984, and served as Chief Executive Officer of ASE from July 2000 to April 2003. In February 2003, he was again appointed President of ASE upon the retirement of Mr. Leonard Y. Liu. Mr. Chang has also served as the Chairman of Universal Scientific Industrial (Shanghai) Co., Ltd. since June 2008. Mr. Chang holds a bachelor's degree in industrial engineering from Chung Yuan Christian University in Taiwan. He is the brother of Jason C.S. Chang, ASE's Chairman and Chief Executive Officer.

Bough Lin is expected to be elected as a management director of HoldCo. Dr. Lin has served as Chairman and director of SPIL since August 1984. Dr. Lin also serves as a director of Siliconware Investment Co., Ltd., SPIL (B.V.I.) Holding Ltd. and Siliconware U.S.A., Inc., as SPIL's representative. Dr. Lin holds a bachelor's degree in electronic physics from National Chiao Tung University in Taiwan and was also awarded an honorary Ph.D. from National Chiao Tung University in Taiwan.

Table of Contents

Chi-Wen Tsai is expected to be elected as a management director of HoldCo. Mr. Tsai has served as Vice-Chairman, a director and President of SPIL since August 1984. Mr. Tsai also serves as a director of SPIL (Cayman) Holding Ltd., Siliconware Technology (Suzhou) Ltd., Siliconware Electronics (Fujian) Co., Limited and Siliconware U.S.A., Inc., as SPIL's representative. Mr. Tsai holds a bachelor's degree in electrical engineering from the National Taipei Institute of Technology in Taiwan.

Rutherford Chang is expected to be elected as a management director of HoldCo. Mr. Chang has served as a director of ASE since June 2009 and General Manager of China Region of ASE since June 2010. He joined ASE group in March 2005. Mr. Chang holds a bachelor's degree in psychology from Wesleyan University in Connecticut. He is the son of Jason C.S. Chang, ASE's Chairman and Chief Executive Officer.

Tien Wu is expected to be elected as a management director of HoldCo. Dr. Wu has served as a director of ASE since June 2003 and Chief Operating Officer of ASE since April 2006, prior to which he served as the President of Worldwide Marketing and Strategy of the ASE group. Prior to joining ASE Inc. in March 2000, Dr. Wu held various managerial positions with IBM. Dr. Wu holds a bachelor's degree in civil engineering from National Taiwan University in Taiwan, a master's degree and a Ph.D. degree in mechanical engineering and applied mechanics from the University of Pennsylvania. See "Recent Development."

Joseph Tung is expected to be elected as a management director and appointed as the Chief Financial Officer of HoldCo. Mr. Tung has served as a director of ASE since April 1997 and Chief Financial Officer of ASE since December 1994. He is also an independent director of Ta Chong Bank Ltd. since October 2007. Before joining ASE, Mr. Tung was a vice president at Citibank, N.A. Mr. Tung holds a bachelor's degree in economics from the National Chengchi University in Taiwan and a master's degree in business administration from the University of Southern California.

Raymond Lo is expected to be elected as a management director of HoldCo. Mr. Lo has served as a director of ASE since May 2006 and General Manager of ASE's packaging facility in Kaohsiung, Taiwan since April 2006. Before joining ASE group, Mr. Lo was the Director of Quality Assurance at Zeny Electronics Co. Mr. Lo holds a bachelor's degree in electronic physics from the National Chiao Tung University in Taiwan.

Tien-Szu Chen is expected to be elected as a management director of HoldCo. Mr. Chen has served as a director of ASE since June 2015 and General Manager of ASE Chung-Li branch since August 2015. Prior to his current position, Mr. Chen served as ASE's supervisor from June 2006 to June 2015 and as President of Power ASE Technology Inc. from June 2006 to May 2012. He also held several key management positions within the ASE group from June 1988 to June 2006, including President of ASE Chung-Li branch and Senior Vice President of ASE. Prior to joining ASE group in June 1988, Mr. Chen worked at TSMC and Philips Semiconductor Kaohsiung. Mr. Chen holds a bachelor's degree in industrial engineering from Chung Yuan Christian University in Taiwan.

Jeffrey Chen is expected to be elected as a management director of HoldCo. Mr. Chen has served as a director of ASE since June 2003 and as General Manager of China Headquarters of ASE. Prior to joining ASE, he worked in the corporate banking department of Citibank, N.A. in Taipei and as a vice president of corporate finance at Bankers Trust in Taipei. Mr. Chen holds a bachelor's degree in finance and economics from Simon Fraser University in Canada and a master's degree in business administration from the University of British Columbia in Canada.

Freddie Liu is expected to be elected as a non-management director and a member of the audit committee of HoldCo. Mr. Liu also serves as the chief strategy officer of TPK Holding Co., Ltd. and has served as chief financial officer and vice president of TPK Holding Co., Ltd. from September 2009 to August 2017. Prior to joining TPK Holding Co., Ltd., Mr. Liu served as the vice president of finance at ASE from 1997 to 2009. Prior to that, Mr. Liu served as a vice president at Citibank. He received a master's degree in business administration from the University of Michigan.

Alan Cheng is expected to be elected as a supervisor of HoldCo. Mr. Cheng also serves as chairman of HR Silvine Electronics, Inc. and a supervisor at ASE Test, Inc. Mr. Cheng holds a degree in industrial engineering from Chung Yuan Christian University in Taiwan and a master's degree in industrial engineering from Rhode Island University.

Table of Contents

Yuan-Chuang Fang is expected to be elected as a supervisor of HoldCo. Mr. Fung also serves as a director of Accton Technology Corporation and was a director of Claridy Solution, Inc. as well as a general manager of Wang Laboratories Taiwan. Mr. Fung holds a bachelor's degree in engineering from Purdue University.

Fang-Yin Chen is expected to be elected as a supervisor of HoldCo. Mrs. Chen also serves as a director and vice president of finance department of Hung Ching Development & Construction Co. Ltd. Prior to joining Hung Ching Development & Construction Co. Ltd., Mrs. Chen worked at Deloitte Taiwan from September 1988 to June 1992. Mrs. Chen holds a bachelor's degree in Accounting from Tamkang University in Taiwan.

Under ROC law, companies that are newly incorporated by way of a statutory share exchange under the ROC Mergers and Acquisitions Act, including the Share Exchange, may only elect independent directors *after* the new holding company has been incorporated and that a separate shareholders' meeting has to be called upon to elect the independent directors. Therefore, it is expected that HoldCo will hold another shareholders' meeting within a certain period after the Effective Time to elect the independent directors of HoldCo. The newly elected independent directors of HoldCo are expected to satisfy the independence standards under Rule 10A-3 of the Exchange Act as well as the independence standards under TWSE listing rules. It is expected that the three supervisors and the one non-management director previously elected at ASE EGM will retire from HoldCo at the time the new independent directors are elected. The audit committee of HoldCo will also be composed exclusively of the newly elected independent directors. It is expected that the extraordinary shareholders' meeting of HoldCo to elect the new independent directors will take place on or after June 20, 2018.

Financing of the Share Exchange

HoldCo intends to fund the Cash Consideration, which is an aggregate amount of approximately NT\$173.16 billion (US\$5.71 billion) (including the NT\$51.2 per SPIL Common Share Cash Consideration payable to holders of the SPIL Convertible Bonds that have not been otherwise redeemed or repurchased by the SPIL, or cancelled or converted prior to the Effective Time), with a combination of ASE's cash on hand and debt financing. Subject to the amount of cash on hand at the time that ASE arranges for financing, ASE may arrange bank loans up to NT\$173 billion (US\$5.70 billion) with a combination of a syndication loan of NT\$120 billion (US\$3.96 billion) and a short-term bridge loan of NT\$53 billion (US\$1.75 billion). In a highly confident letter dated November 7, 2016, issued by Citibank to ASE, Citibank stated that it is highly confident of its ability to arrange debt facilities for the Share Exchange up to an amount of US\$3.8 billion equivalent. In another highly confident letter dated November 16, 2016, issued by DBS to ASE, DBS stated that it is confident of its ability to arrange debt facilities for the Share Exchange up to an amount of NT\$53 billion (US\$1.75 billion). Both highly confident letters contained certain customary conditions to the arrangement of such facilities, including the following material conditions: (i) the applicable bank being appointed as the bookrunner and arranger of the facility, (ii) completion of customary due diligence with the results being satisfactory to the applicable bank, (iii) final agreement on the pricing, terms and conditions for the facility, (iv) negotiation, execution and delivery of financing documentation in form and substance satisfactory to the applicable bank, (v) receipt of all relevant approvals in connection with the Share Exchange, including approval of the credit committee of the applicable bank, (vi) consummation of the Share Exchange on terms and conditions satisfactory to

the applicable bank, and (vii) market conditions at the relevant time being satisfactory to the applicable bank.

In addition, on December 8, 2016, the ASE Board approved a capital increase in which ASE offered 300 million new ASE Common Shares, par value NT\$10 per share. The subscription price was later set at NT\$34.3 (US\$1.13) per share and the total amount of proceeds of such capital increase was NT\$10.29 billion (US\$339.27 million). Eighty percent of such new ASE Common Shares was subscribed for by ASE's existing shareholders on a pro rata basis, ten percent of such new ASE Common Shares was subscribed for by ASE's employees and the remaining ten percent of such new ASE Common Shares was sold to the general public in Taiwan. On December 16, 2016, ASE filed with the SEC a registration statement on Form F-3 and a preliminary prospectus supplement in connection with the Rights Offering. On February 3, 2017 and March 28, 2017, ASE filed with the SEC a prospectus supplement on Form 424B5 in connection with the Rights Offering. ASE used the proceeds of the capital increase to reduce or retire existing indebtedness, which improved its capital position and free up its borrowing capacity to facilitate the incurrence of indebtedness to finance the Share Exchange.

Table of Contents

Certain ROC and U.S. Federal Income Tax Consequences of the Share Exchange for Holders of ASE Common Shares or ADSs

ROC Taxation

The following is a summary of the principal ROC tax consequences of the Share Exchange and the ownership of HoldCo Common Shares to a non-resident individual or non-resident entity that owns ASE Common Shares and ultimately HoldCo Common Shares (a “non-ROC holder”) on the assumption that HoldCo Common Shares will be listed on the TWSE as scheduled. As used in the preceding sentence, a “non-resident individual” is a non-ROC national who owns ASE Common Shares or HoldCo Common Shares, as the case may be, and is not physically present in the ROC for 183 days or more during any calendar year, and a “non-resident entity” is a corporation or a non-corporate body that owns ASE’s common shares or HoldCo Common Shares, as the case may be, is organized under the law of a jurisdiction other than the ROC and has no fixed place of business or business agent in the ROC.

The statements regarding ROC tax laws set forth below are based on the laws in force and applicable as of the date hereof, which are subject to change, possibly on a retroactive basis.

This summary is not exhaustive of all possible tax considerations, which may apply to a particular non-ROC holder and potential non-ROC holders are advised to satisfy themselves as to the overall tax consequences of the acquisition, ownership and disposition of HoldCo Common Shares, including specifically the tax consequences under ROC law, the laws of the jurisdiction of which they are residents, and any tax treaty between ROC and their country of residence, by consulting their own tax advisors.

Tax Consequences Arising from the Share Exchange

Securities Transaction Tax

In the view of Baker & McKenzie, by reasonable interpretation of the ROC Mergers and Acquisitions Act based on current rules and regulations promulgated by ROC tax authority, ASE’s shareholders should not be subject to the ROC securities transaction tax upon the Share Exchange since such shareholders will receive solely HoldCo Common Shares (including those represented by HoldCo ADSs) as consideration for the Share Exchange. However, we cannot assure you that the ROC tax agency will agree. A transfer of shares in a share exchange is exempted from the securities transaction tax if at least 65% of the total consideration to be paid to shareholders is paid in certain equity shares, such as the HoldCo Common Shares (including those represented by HoldCo ADSs). If, contrary to the view

of Baker & McKenzie, the ROC tax agency successfully takes a different position and interprets the ROC Mergers and Acquisitions Act in a manner that the ROC tax agency considers the Cash Consideration as part of such total consideration, the share consideration paid to ASE shareholders will be lower than the 65% threshold and a securities transaction tax of 0.3% would be imposed on the transaction price of the Share Exchange. HoldCo intends to issue the share consideration to ASE shareholders at the Effective Time without deducting or withholding any ROC securities transaction tax. See the section entitled “Risk Factors — Risks Relating to Owning HoldCo ADSs — A different view of the ROC tax agency from our current treatment of the ROC securities transaction tax might cause tax uncertainties to HoldCo shareholders” for further discussion.

Capital gains

Capital gains realized upon the Share Exchange are exempted from ROC income tax.

Tax Consequences of Owning HoldCo Common Shares

Dividends

Dividends (whether in cash or common shares) declared by HoldCo out of retained earnings and distributed to a non-ROC holder are subject to ROC withholding tax, currently at a rate of 21% (unless a preferable tax rate is provided under a tax treaty between the ROC and the jurisdiction where the non-ROC holder is a resident) on the amount of the distribution (in the case of cash dividends) or on the par value of the distributed common shares (in the case of stock dividends). A 10% undistributed earning tax is imposed on a ROC company for its after-tax earnings generated after January 1, 1998 that are not distributed in the following year. The undistributed earning tax so paid by the ROC company will reduce the retained earnings available for future distributions. When HoldCo declares a dividend out of those retained earnings, an amount in respect of the undistributed earnings tax, up to a

Table of Contents

maximum amount of 5% of the dividend to be distributed, will be credited against the withholding tax imposed on the non-ROC holders.

Distributions of stock dividends out of capital reserves will not be subject to withholding tax, except under limited circumstances.

Capital Gains

Starting from January 1, 2016, capital gains realized upon the sale or other disposition of common shares are exempt from ROC income tax.

Sales of ADSs are not regarded as sales of ROC securities and thus any gains derived from transfers of ADSs by non-ROC holders are not currently subject to ROC income tax.

Securities Transaction Tax

Securities transaction tax will be imposed on the seller at the rate of 0.3% of the transaction price upon a sale of common shares. Transfers of American depositary shares are not subject to the ROC securities transaction tax.

Subscription Rights

Distributions of statutory subscription rights for HoldCo Common Shares in compliance with the ROC Company Law are currently not subject to ROC tax. Sales of statutory subscription rights evidenced by securities are subject to the securities transaction tax, currently at the rate of 0.3% of the gross amount received. Proceeds derived from sales of statutory subscription rights, which are not evidenced by securities, are not subject to securities transaction tax but are subject to income tax at a fixed rate of 20% of the income if the seller is a non-ROC holder regardless of whether the non-ROC holder is an individual or entity. Subject to compliance with ROC laws, HoldCo, in its sole discretion, may determine whether statutory subscription rights are evidenced by securities.

Estate and Gift Tax

ROC estate tax is payable on any property within the ROC left by a deceased non-resident individual, and ROC gift tax is payable on any property within the ROC donated by a non-resident individual. Estate tax and gift tax are currently imposed at the rate of 10%. Under the ROC Estate and Gift Tax Act, common shares issued by ROC companies are deemed located in the ROC without regard to the location of the owner. It is unclear whether a holder of ADSs will be considered to own common shares for this purpose.

Tax Treaty

At present, the ROC has income tax treaties with Indonesia, Singapore, New Zealand, Australia, the United Kingdom, South Africa, the Gambia, Swaziland, Malaysia, Macedonia, the Netherlands, Senegal, Sweden, Belgium, Denmark, Israel, Vietnam, Paraguay, Hungary, France, India, Slovakia, Switzerland, Germany, Thailand, Kiribati, Luxembourg, Austria, Italy, Japan and Poland. These tax treaties may limit the rate of ROC withholding tax on dividends paid with respect to common shares issued by ROC companies. If a non-ROC holder of ADSs successfully proves to the ROC tax agency that he/she is the beneficial owner of common shares, such non-ROC holder will be considered as the beneficial owner of common shares for the purposes of such treaties. Holders of ADSs who wish to apply a reduced withholding tax rate that is provided under a tax treaty should consult their own tax advisers concerning such application. The United States does not have an income tax treaty with the ROC.

United States Taxation

In the opinion of Davis Polk & Wardwell LLP, the following are material U.S. federal income tax consequences to the U.S. Holders described below of the Share Exchange and of owning and disposing of HoldCo ADSs or HoldCo Common Shares received in the Share Exchange, but it does not purport to be a comprehensive description of all tax considerations that may be relevant to a particular person's decision to participate in the Share Exchange or own or dispose of such securities. This discussion applies only to U.S. Holders who hold ASE ADSs or ASE Common Shares, and will hold HoldCo ADSs or HoldCo Common Shares, as capital assets for U.S. federal income tax purposes. Except as otherwise stated, references to ADSs or Common Shares in this discussion refer to ASE ADSs or Common Shares prior to the Share Exchange and HoldCo ADSs or Common Shares thereafter. In addition,

Table of Contents

it does not describe all of the tax consequences that may be relevant in light of a U.S. Holder's particular circumstances, including alternative minimum tax consequences or the Medicare contribution tax on net investment income, and tax consequences applicable to U.S. Holders subject to special rules, such as:

- certain financial institutions;
- dealers or certain traders in securities;
- persons holding ADSs or Common Shares as part of a "straddle" or integrated transaction or similar transaction or persons entering into a constructive sale with respect to ADSs or Common Shares;
- persons whose functional currency for U.S. federal income tax purposes is not the U.S. dollar;
- entities classified as partnerships for U.S. federal income tax purposes;
- tax-exempt entities;
- persons that own or are deemed to own 10% or more of our voting stock;
- persons who acquired or received ADSs or Common Shares pursuant to the exercise of an employee stock option or otherwise as compensation; or
- persons holding ADSs or Common Shares in connection with a trade or business conducted outside the United States.

In addition, this discussion does not address the U.S. federal income tax consequences to a person that will own, actually or constructively, 5% or more of the total voting power or the total value of HoldCo stock immediately after the Share Exchange. Any such person should consult its tax adviser concerning the U.S. federal income tax consequences of the Share Exchange in light of its particular circumstances, including the requirement to enter into a gain recognition agreement with the U.S. Treasury in order to defer the recognition of any gain realized on the Share Exchange.

If an entity that is classified as a partnership for U.S. federal income tax purposes owns HoldCo ADSs or Common Shares, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. Entities classified as partnerships for U.S. federal income tax purposes and their partners should consult their tax advisers as to the particular U.S. federal income tax consequences of the Share Exchange and

owning and disposing of the ADSs or Common Shares.

This discussion is based on the U.S. Internal Revenue Code of 1986, as amended (the “Code”), administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, all as of the date hereof and changes to any of which subsequent to the date of this proxy statement/prospectus may affect the tax consequences described herein, possibly with retroactive effect. This discussion is also based, in part, on representations by ASE, the ASE Depositary and the HoldCo Depositary and assumes that each representation by ASE is and will remain true through the date of the Share Exchange and each obligation under the HoldCo Deposit Agreement and any related agreement will be performed in accordance with their terms.

As used herein, a “U.S. Holder” is a beneficial owner of ASE ADSs, ASE Common Shares, HoldCo ADSs or HoldCo Common Shares that is, for U.S. federal income tax purposes:

- a citizen or individual resident of the United States;

- a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state therein or the District of Columbia; or

- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

In general, a U.S. Holder who owns American depositary shares will be treated as the owner of the underlying common shares represented by those American depositary shares for U.S. federal income tax purposes. Accordingly,

Table of Contents

no gain or loss will be recognized if a U.S. Holder exchanges ADSs for the underlying Common Shares represented by the relevant American depositary shares.

The U.S. Treasury has expressed concerns that parties to whom American depositary shares are released before the underlying shares are delivered to the depositary (“pre-release”), or intermediaries in the chain of ownership between holders of American depositary shares and the issuer of the security underlying the American depositary shares, may be taking actions that are inconsistent with the claiming of foreign tax credits by holders of American depositary shares. These actions would also be inconsistent with the claiming of the reduced rate of tax, described below, applicable to dividends received by certain non-corporate holders. Accordingly, the creditability of ROC taxes, and the availability of the reduced tax rate for dividends received by certain non-corporate U.S. Holders, each described below, could be affected by actions taken by such parties or intermediaries.

U.S. Holders should consult their tax advisers concerning the U.S. federal, state, local, and foreign tax consequences of the Share Exchange and of owning and disposing of ADSs or Common Shares in their particular circumstances.

Exchange of ADSs or common shares pursuant to the Joint Share Exchange Agreement

General

Except as otherwise described below under “— Passive Foreign Investment Company Rules,” a U.S. Holder will not recognize any gain or loss for U.S. federal income tax purposes on the exchange of ASE ADSs or ASE Common Shares for HoldCo ADSs or HoldCo Common Shares, respectively, pursuant to the Joint Share Exchange Agreement, except to the extent of cash received in lieu of an entitlement to receive a fractional HoldCo ADS or a fractional HoldCo Common Share (a “fractional entitlement”) or cash received by a dissenting U.S. Holder, as described below. A U.S. Holder’s aggregate tax basis in its HoldCo ADSs or HoldCo Common Shares received pursuant to the Share Exchange will equal the aggregate tax basis that the U.S. Holder had in the ASE ADSs or ASE Common Shares immediately prior to the Share Exchange, less any tax basis that is allocable to a fractional entitlement. A U.S. Holder’s holding period for the HoldCo ADSs or HoldCo Common Shares received in the Share Exchange will include the holding period for the ASE ADSs or ASE Common Shares exchanged.

A U.S. Holder who receives cash in lieu of a fractional entitlement will recognize capital gain or loss in an amount equal to the difference between the amount of cash received and the tax basis allocable to such fractional entitlement. Such capital gain or loss will be long-term capital gain or loss if, as of the date of the Share Exchange, the U.S. Holder’s holding period for the relevant fractional entitlement exceeds one year.

Passive Foreign Investment Company Rules

As indicated in ASE's filings on Form 20-F, ASE believes that it has not been a PFIC for U.S. federal income tax purposes for any taxable year since the ASE ADSs were listed for trading on the NYSE in 2000, and ASE does not expect to be a PFIC for its current taxable year. However, ASE has not considered its PFIC status for any prior taxable year and ASE cannot provide assurance that it has not been a PFIC for any taxable year. Further, as discussed under "Tax Consequences of Owning HoldCo ADSs and HoldCo Common Shares—Passive Foreign Investment Company Rules" below, HoldCo does not expect to be a PFIC for the current taxable year or in the foreseeable future. Under proposed Treasury regulations that are not yet effective but are proposed to be effective from April 11, 1992, if (i) ASE were a PFIC for any taxable year during which a U.S. Holder owned ASE ADSs or ASE Common Shares and (ii) HoldCo is not a PFIC for the taxable year that includes the day after the Share Exchange, then, notwithstanding the general U.S. federal income tax treatment of the Share Exchange described above, the U.S. Holder would be required to recognize any gain realized on the exchange of ASE ADSs or ASE Common Shares for HoldCo ADSs or HoldCo Common Shares. Such gain would be allocated ratably over the U.S. Holder's holding period for the ASE ADSs or HoldCo Common Shares, as the case may be. The amounts allocated to the taxable year of the Share Exchange and to any year before ASE became a PFIC would be taxed as ordinary income. The amount allocated to each other taxable year would be subject to tax at the highest rate in effect for individuals or corporations, as appropriate, for that taxable year, and an interest charge would be imposed on the tax on such amounts. U.S. Holders should consult their tax advisers regarding whether ASE may have been a PFIC in any year during which the U.S. Holder has held ASE ADSs or Common Shares and the U.S. federal income tax consequences of the Share Exchange to the U.S. Holder.

Table of Contents

Dissenting U.S. Holders

Provided that ASE was not a PFIC for any taxable year during which a U.S. Holder who exercises its dissenter's rights (a "dissenting U.S. Holder") owned ASE ADSs or ASE Common Shares, the dissenting U.S. Holder will generally recognize capital gain or loss in an amount equal to the difference between the amount of cash received by such U.S. Holder following the exercise of the dissenter's rights and its tax basis in the ASE Common Shares disposed of. Such capital gain or loss will be long-term capital gain or loss if, as of the date of the disposition, the dissenting U.S. Holder's holding period for the ASE Common Shares exceeds one year. Any gain or loss generally will be U.S.-source gain or loss for foreign tax credit purposes.

Tax Consequences of Owning HoldCo ADSs and HoldCo Common Shares

Except as discussed below under "-Passive Foreign Investment Company Rules," this discussion assumes that HoldCo will not be a PFIC for any taxable year.

Taxation of Distributions

Distributions other than certain *pro rata* distributions of HoldCo Common Shares to all shareholders (including holders of HoldCo ADSs), will be treated as dividends to the extent paid out of HoldCo's current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Because HoldCo doesn't expect to maintain calculations of earnings and profits under U.S. federal income tax principles, it is expected that distributions generally will be reported to U.S. Holders as dividends.

Dividends will be treated as foreign-source income for foreign tax credit purposes and will not be eligible for the dividends-received deduction generally available to U.S. corporations under the Code. Subject to applicable limitations and the discussion above regarding concerns expressed by the U.S. Treasury, dividends paid to certain non-corporate U.S. Holders of ADSs may be eligible for taxation as "qualified dividend income" and therefore may be taxable at the rates applicable to long-term capital gains. Non-corporate U.S. Holders should consult their tax advisers regarding the availability of these favorable rates in their particular circumstances.

Dividends generally will be included in a U.S. Holder's income on the date of the U.S. Holder's or, in the case of ADSs, the depositary's receipt of the dividend. The amount of any dividend paid in new Taiwan dollars will be the U.S. dollar amount of the dividend calculated by reference to the spot rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars on such date. If the dividend is converted into U.S. dollars

on the date of receipt, a U.S. Holder should not be required to recognize foreign currency gain or loss in respect of the dividend. A U.S. Holder may have foreign currency gain or loss if the dividend is converted into U.S. dollars after the date of receipt, and any such gain or loss will generally be U.S.-source ordinary income or loss.

The amount of dividend income will include any amounts withheld by HoldCo in respect of ROC taxes reduced by any credit against withholding on account of the 10% retained earnings tax imposed on HoldCo. Subject to applicable limitations, which vary depending upon the U.S. Holder's circumstances, and subject to the discussion above regarding concerns expressed by the U.S. Treasury, ROC taxes withheld from dividends, reduced by any credit against the withholding tax which is paid by HoldCo on account of the 10% retained earnings tax, generally will be creditable against the U.S. Holder's U.S. federal income tax liability. The rules governing foreign tax credits are complex, and U.S. Holders should consult their tax advisers regarding the creditability of foreign taxes in their particular circumstances. In lieu of claiming a credit, a U.S. Holder may elect to deduct such ROC taxes in computing its taxable income, subject to applicable limitations. An election to deduct foreign taxes instead of claiming foreign tax credits must apply to all foreign taxes paid or accrued in the taxable year.

Sale or Other Taxable Disposition of HoldCo ADSs or HoldCo Common Shares

A U.S. Holder will generally recognize taxable gain or loss on a sale or other disposition of HoldCo ADSs or HoldCo Common Shares equal to the difference between the amount realized on the sale or other taxable disposition and the U.S. Holder's tax basis in the HoldCo ADSs or HoldCo Common Shares. This gain or loss generally will be capital gain or loss, and will be long-term capital gain or loss if at the time of sale or disposition the U.S. Holder has owned the HoldCo ADSs or HoldCo Common Shares for more than one year. Any gain or loss generally will be U.S.-source gain or loss for foreign tax credit purposes. The deductibility of capital losses is subject to limitations.

Table of Contents

Passive Foreign Investment Company Rules

In general, a non-U.S. corporation is a PFIC for any taxable year in which (i) 75% or more of its gross income consists of passive income or (ii) 50% or more of the average quarterly value of its assets consists of assets that produce, or are held for the production of, passive income. For purposes of the above calculations, a non-U.S. corporation that owns directly or indirectly at least 25% by value of the shares of another corporation is treated as if it held its proportionate share of the assets of the other corporation and received directly its proportionate share of the income of the other corporation. Passive income generally includes dividends, interest, royalties and rents. HoldCo does not expect to be a PFIC for its current taxable year or in the foreseeable future. However, because the determination of whether a company is a PFIC is an annual test that is based on the composition of a company's income and assets and the value of its assets from time to time, there can be no assurance that HoldCo will not be a PFIC for any taxable year.

If HoldCo were a PFIC for any taxable year during which a U.S. Holder held HoldCo ADSs or HoldCo Common Shares, gain recognized by a U.S. Holder on a sale or other disposition (including certain pledges) of the HoldCo ADSs or HoldCo Common Shares would be allocated ratably over the U.S. Holder's holding period for the HoldCo ADSs or HoldCo Common Shares. The amounts allocated to the taxable year of the sale or other disposition and to any year before HoldCo became a PFIC would be taxed as ordinary income. The amount allocated to each other taxable year would be subject to tax at the highest rate in effect for individuals or corporations, as appropriate, for that taxable year, and an interest charge would be imposed on the tax on such amounts. In addition, any distribution received by a U.S. Holder on its HoldCo ADSs or HoldCo Common Shares, to the extent that it exceeds 125% of the average of the annual distributions received by the U.S. Holder during the preceding three years or the U.S. Holder's holding period, whichever is shorter, would be subject to taxation in the same manner. Furthermore, if HoldCo were a PFIC for the taxable year in which it paid a dividend or the prior taxable year, the preferential dividend rates discussed above with respect to dividends paid to certain non-corporate U.S. Holders would not apply. Certain elections may be available that would result in alternative treatments (such as mark-to-market treatment) of the HoldCo ADSs or HoldCo Common Shares.

U.S. Holders should consult their tax advisers regarding the U.S. federal income tax consequences of owning and disposing of HoldCo ADSs or HoldCo Common Shares if HoldCo were a PFIC for any taxable year.

Information Reporting and Backup Withholding

Payments of dividends and sales proceeds that are made within the United States or through certain U.S.-related financial intermediaries generally will be subject to information reporting and backup withholding unless (i) the U.S. Holder is a corporation or other exempt recipient and, if required, demonstrates its status or (ii) in the case of backup withholding, the U.S. Holder provides a correct taxpayer identification number and certifies that it is not subject to backup withholding. Any amounts withheld under the backup withholding rules will be allowed as a refund or credit against the U.S. Holder's U.S. federal income tax liability, provided that the required information is timely furnished to

the U.S. Internal Revenue Service.

Foreign Financial Asset Reporting

Certain U.S. Holders who are individuals (or entities formed or availed of to hold certain specified foreign financial assets) may be required to report information relating to their ownership of the HoldCo Common Shares or HoldCo ADSs, unless such Common Shares or ADSs are held in accounts at financial institutions (in which case the accounts may be reportable if maintained by non-U.S. financial institutions). U.S. Holders should consult their tax advisers regarding their reporting obligations with respect to the HoldCo Common Shares or HoldCo ADSs.

Accounting Treatment of the Share Exchange

Under IFRS, the Cash Consideration paid by HoldCo pursuant to the Share Exchange will be accounted for by applying the acquisition method of accounting with HoldCo being considered the acquirer of SPIL for accounting purposes. Upon the completion of the Share Exchange, HoldCo would obtain control of SPIL and any equity interest previously held in SPIL accounted for as equity method investments is treated as if it were disposed of and reacquired at fair value on the acquisition date. Accordingly, it is remeasured to its acquisition-date fair value, and any resulting gain or loss compared to its carrying amount is recognized in profit or loss. HoldCo will measure the identifiable assets acquired and the liabilities assumed at their acquisition date fair values, and recognize goodwill as

Table of Contents

of the acquisition date measured as the excess of the Cash Consideration and the fair value of the ASE's previously held equity interest in SPIL over the net of the acquisition date fair value of the identifiable assets acquired and the liabilities assumed. Goodwill is not amortized but is tested for impairment at least annually.

Under IFRS, the exchange of ASE Common Shares for HoldCo Common Shares and the exchange of ASE ADSs for HoldCo ADSs based on the Exchange Ratio will be accounted for as a legal reorganization of entities under common control. ASE and HoldCo are ultimately controlled by the same shareholders both before and after the Share Exchange and that control is not transitory; therefore, the Share Exchange under common control will not be accounted for by applying the acquisition method as above. Accordingly, ASE will recognize no gain or loss in connection with the exchange of ASE Common Shares for HoldCo shares upon the Share Exchange under common control, and all assets and liabilities of ASE will be recorded on the books of HoldCo at the carrying amounts.

Regulatory Approvals Required to Complete the Share Exchange

ASE and SPIL have each agreed to use their reasonable efforts to obtain all necessary governmental approvals required to complete the Share Exchange. The following is a summary of the regulatory approvals required for the completion of the Share Exchange. As of the date of this proxy statement/prospectus, the TFTC has issued a no objection letter in respect of the Share Exchange. However, there can be no assurance as to if and when regulatory approvals will be obtained in the PRC, or if and when the FTC will complete its investigation without seeking an injunction prohibiting the Share Exchange or as to the conditions or limitations that such regulatory authorities may seek to impose.

Taiwan Fair Trade Commission Approval

Both ASE and SPIL operate in the ROC. Under the ROC Fair Trade Act, transactions involving parties with sales above certain revenue levels cannot be completed until they are reviewed and approved by the TFTC. ASE and SPIL submitted the required materials to the TFTC on July 29, 2016. The TFTC formally accepted the parties' notification materials on September 19, 2016, and issued a no-objection letter in respect of the Share Exchange on November 16, 2016.

United States Antitrust Review

On October 26, 2016, the FTC issued a subpoena and civil investigative demand to ASE and SPIL with respect to the transaction contemplated under the Joint Share Exchange Agreement. On January 17, 2017, ASE and SPIL each

certified that it complied with the FTC's requests for information. On May 15, 2017, ASE received a letter from the FTC confirming that the non-public investigation of the proposed combination had been closed.

The Ministry of Commerce of the People's Republic of China

Under the Chinese Anti-Monopoly Law of 2008 and relevant regulations ("AML"), if the concentration arising from a transaction that reaches the threshold level as set by the State Council, it cannot be completed until it is approved by MOFCOM. ASE and SPIL have sufficient revenues in both China and worldwide to exceed the statutory thresholds and completion of the Share Exchange is therefore conditioned upon MOFCOM's approval. ASE and SPIL submitted the required materials to MOFCOM on August 25, 2016. MOFCOM formally accepted the parties' notification materials on December 14, 2016, starting Phase I of the review process. MOFCOM issued notice extending its review to Phase II review on January 12, 2017. MOFCOM issued a notice extending its review to Phase III review on April 12, 2017. On June 5, 2017, ASE withdrew the original submission filed with MOFCOM and re-filed the same application with MOFCOM on June 5, 2017. Phase II of MOFCOM's review began on July 5, 2017. Phase III of MOFCOM's review began on September 30, 2017. On November 24, 2017, MOFCOM approved the proposed combination on the following four conditions, among others:

HoldCo should maintain the legal personality of ASE and SPIL as independent competitors for a period of 24 months (the "Restriction Period"). During the Restriction Period, ASE and SPIL will each operate independently and compete in the market according to the pre-merger business management model and market practices, including, but not limited to: independent management, independent financial affairs, independent corporate personnel, independent pricing, independent sales, independent production capacities, and independent procurement.

Table of Contents

During the Restriction Period, HoldCo will only exercise limited shareholder rights. Such limitation includes: other than the right to obtain dividend related and financial information from ASE and SPIL, HoldCo should temporarily cease to exercise its other shareholder's rights; notwithstanding the above, HoldCo's Resource Integration & Steering Committee may coordinate the plan, arrangement and the management of research-related projects and consolidate research capacity for ASE and SPIL; HoldCo's Resource Integration & Steering Committee may also coordinate business matters that do not involve semiconductor packaging and testing businesses. HoldCo, on the one hand, and ASE or SPIL, on the other hand, may loan company funds and provide financing to each other in accordance with such party's needs or request.

During the Restriction Period, ASE and SPIL each covenants to provide services to customers on a non-discriminatory basis, and set service price and related transactional terms according to AML, reasonable commercial consideration and normal business operation.

During the Restriction Period, ASE and SPIL each covenants to not limit the customers' choice of alternative suppliers of semiconductor packaging and testing businesses, and will cooperate with customers on requests related to switching such suppliers, under the circumstance that the customers obey the laws and regulations, and do not involve tort and breaking contracts.

All the conditions above are subject to further revisions in the official notice that may be published by MOFCOM from time to time.

Other Jurisdictions

ASE and SPIL derive revenues in other jurisdictions where merger or acquisition control filings or clearances are or may be required. ASE and SPIL have sufficient revenues in South Korea and Germany to meet the statutory thresholds, and completion of the Share Exchange is therefore conditioned upon approval of the Korea Fair Trade Commission ("KFTC") and the German Federal Cartel Office ("FCO"). The KFTC cleared the Initial ASE Tender Offers on November 18, 2015. Under the laws of South Korea, the clearance on the Initial ASE Tender Offers extends to the Share Exchange and no additional filing is required. The FCO cleared the Initial ASE Tender Offers on February 1, 2016 and subsequently confirmed that its February 1, 2016 clearance extends to the Share Exchange on July 26, 2016.

Share Exchange Listing

It is expected that HoldCo Common Shares will be listed on the TWSE and HoldCo ADSs will be listed on the NYSE at the Effective Time. As a result of the Share Exchange, ASE Common Shares currently listed on the TWSE and ASE ADSs currently listed on the NYSE will cease to be listed on the TWSE and the NYSE, respectively; SPIL Common Shares currently listed on the TWSE and SPIL ADSs currently listed on NASDAQ will cease to be listed on

the TWSE and NASDAQ, respectively.

The following is a tentative timetable of the various trading-related events in connection with the completion of the Share Exchange:

Final trading day for ASE Common Shares and SPIL Common Shares on the TWSE	April 17, 2018 (Taiwan time)
Final trading day for ASE ADSs on the NYSE and SPIL ADSs on NASDAQ	April 17, 2018 (New York time)
Effective date of the Share Exchange	April 30, 2018 (Taiwan time)
First trading day for HoldCo Common Shares on the TWSE	April 30, 2018 (Taiwan time)
First trading day for HoldCo ADSs on the NYSE	May 1, 2018 (New York time)

Table of Contents

In advance of completion of the Share Exchange, ASE expects to publicly announce the definitive timetable for these trading-related events.

Rights of Dissenting Shareholders

Under the ROC Company Law and ROC Mergers and Acquisitions Act, when ASE's or SPIL's board proposes the Share Exchange to ASE EGM or the extraordinary shareholders' meeting of SPIL ("SPIL EGM") for approval, ASE's or SPIL's dissenting shareholder ("Dissenting Shareholder") will be entitled to an appraisal right, and to obtain payment of the fair value of all the Dissenting Shareholder's shares ("Dissenting Shares"). Only ASE shareholders who hold ASE Common Shares of record on the ASE EGM Record Date are entitled to vote at the ASE EGM, and to exercise the appraisal rights conferred on dissenting shareholders by the laws of the ROC. To be entitled to the appraisal right, ASE ADS holders must have cancelled their ASE ADSs and become holders of ASE Common Shares by close of business day in Taiwan on January 12, 2018, the last business day before January 14, 2018, the first day of the book close period of ASE Common Shares for the purpose of ASE EGM in which the Share Exchange will be voted on. Such book close period from January 14, 2018 to February 12, 2018 was announced in Form 6-K filed by ASE with the SEC on December 20, 2017.

The Dissenting Shareholder should either (a) deliver a written notice to ASE (or SPIL) stating his/her dissent from the proposal of Share Exchange on or before the ASE EGM (or SPIL EGM), or (b) at the ASE EGM (or SPIL EGM) orally express his/her dissent from the proposal of Share Exchange in person and ensure that such statement is duly recorded in the meeting minutes.

- Dissenting Shareholder must waive its voting right against the Share Exchange in ASE EGM (or SPIL EGM).

Once ASE EGM and SPIL EGM pass the Share Exchange, the Dissenting Shareholder needs to deliver its Dissenting Shares to a licensed share registrar appointed by ASE (or SPIL, as applicable) through the book-entry system. Once the Dissenting Shares are duly delivered, the share registrar will issue a certificate evidencing the receipt of Dissenting Shares to the Dissenting Shareholder.

Dissenting Shareholder needs to deliver to ASE (or SPIL), within 20 calendar days following the ASE EGM (or SPIL EGM), (a) a written notice stating the proposed price for sale of the Dissenting Shares to ASE (or SPIL) (the "Dissenting Shareholder's Price") and (b) the certificate of delivery of Dissenting Shares issued by the appointed share registrar.

Once the Dissenting Shareholder exercises the appraisal right in accordance with the procedure described above, ASE or SPIL should determine whether to (a) accept the Dissenting Shareholder's Price or (b) negotiate the price with the Dissenting Shareholder within 60 calendar days following the ASE EGM or SPIL EGM ("Negotiation Period").

If ASE (or SPIL) and Dissenting Shareholder cannot reach an agreement on the purchase price within the Negotiation Period, ASE (or SPIL) should file a petition with a court of competent jurisdiction in Taiwan for a determination of the fair value of the Dissenting Shares within 30 calendar days after the end of the Negotiation Period (the “Petition Period”). If ASE (or SPIL) fails to pay the Company’s Price (as defined below) within the Negotiation Period or to file the petition with the court within the Petition Period, ASE/SPIL will be deemed to accept the Dissenting Shareholder’s Price and obliged to settle the purchase of Dissenting Shares in accordance with the Dissenting Shareholder’s Price.

According to the majority of the precedents, the court usually considered that the “fair value” should be the closing price of the shares registered on the open market on the date of the shareholders’ meeting which approves the transaction. However, as the court has the full discretion to determine the fair value based on a variety of arguments, the court might hold a view different from the majority of precedents.

If ASE (or SPIL) and Dissenting Shareholder cannot reach an agreement on the purchase price within the 90 calendar days following the ASE EGM (or SPIL EGM), ASE or (SPIL) should determine a fair price to purchase the Dissenting Shares (the “Company’s Price”) and pay the Company Price to the Dissenting Shareholder by end of such 90-calendar-day period.

Table of Contents

ASE or SPIL should, within 30 calendar days after the court decision is concluded, pay to the Dissenting Shareholders (a) the difference between the Company's Price and the fair value as determined by the court, and (b) the interest, calculated by a 5% annual rate, against such difference amount for purchase of the Dissenting Shares.

The relevant portions of Article 12 of the ROC Mergers and Acquisitions Act are as follows, which is included in Annex C to this proxy statement/prospectus:

ROC MERGERS AND ACQUISITIONS ACT – ARTICLE 12

If the following event occurs when a company is undergoing a merger, consolidation, acquisition or division, a shareholder may request the company to repurchase his/her/its shares at the then-fair price of such shares:

In the event that the company is undergoing an acquisition as described in Article 27 of this Act, the shareholder 4. delivers a written objection or an oral objection that has been put into the record and waives his/her/its voting rights before or during the shareholders' meeting;

Any shareholder who has made the request as provided in the preceding paragraph shall submit a written request that specifies the requested repurchase price and deposit the certificates of his/her/its shares within 20 days immediately following the date at which the shareholder resolutions are passed.

The company shall appoint an institution that is permitted by law to provide corporate action services to handle the shares deposited by the dissenting shareholder. The shareholder shall deposit his/her/its shares to such institution and the institution shall issue a certificate that specifies the type and amount of deposited shares to the shareholder; any deposit by book-entry transfer shall be governed by the procedures set forth in the rules and regulations in relation to the centralized securities depository enterprises.

The request of a shareholder as provided in Paragraph 1 shall lose its effect when the company abandons its corporate action as provided in the same paragraph.

If the company and the shareholder reach an agreement with respect to the repurchase price, the company shall pay such repurchase price to the shareholder within 90 days immediately following the date at which the shareholders' resolutions are passed. If no agreement is reached, within 90 days immediately after the date at which the shareholders' resolutions are passed, the company shall pay for the shares of the shareholder with whom it has not reached an

agreement at a price determined by the company as the fair price for such shares; if the company fails to make such payment, the company shall be deemed as having agreed to the repurchase price requested by the shareholder pursuant to Paragraph 2.

If the company fails to reach an agreement with any shareholder with respect to the repurchase price within 60 days immediately following the date at which the shareholders' resolutions are passed, the company shall, within 30 days after the expiry of the 60-day period, file a petition with a court for a ruling to determine the fair price of the shares against all the shareholders with whom it has not reached an agreement as the opposing parties. If the company fails to list any shareholder with whom it has not reached an agreement as an opposing party, or the petition is withdrawn by the company or dismissed by the court, the company shall be deemed as having agreed to the repurchase price requested by the shareholder pursuant to Paragraph 2. However, if the opposing party has already presented his/her/its position in the court or the court's ruling has already been delivered to the opposing party, the company shall not withdraw the petition unless agreed to by the opposing party.

When the company files a petition with the court for a ruling to determine the repurchase price, the company shall attach to the petition the audited and attested financial statements of the company and the fair price assessment report by the certified public accountants, and written copies and photocopies thereof according to the number of opposing parties for the court to distribute to each opposing party.

Before making a ruling with respect to the repurchase price, the court shall allow the company and the opposing parties to have the chance to present their positions. If there are two or more opposing parties, the provisions set out in Articles 41 to 44, as well as Paragraph 2 of Article 401 of the ROC Civil Procedure Code shall apply *mutatis mutandis*.

If any party appeals against the ruling made pursuant to the preceding paragraph, the court shall allow the parties at dispute to have the chance to present their positions before making a decision on the appeal.

Table of Contents

When the ruling with respect to the repurchase price becomes final and binding, the company shall, within 30 days immediately after the ruling becomes final and binding, pay such final repurchase price to the dissenting shareholders, deducting any previous payment and interest accrued since the next day of the expiry of the 90-day period immediately following the date at which the shareholders' resolutions are passed.

The provisions set forth in Article 171 and Paragraphs 1, 2 and 4 of Article 182 of the ROC Non-Contentious Matters Act shall apply *mutatis mutandis*.

The company shall bear the expenses of the petition and the appraiser's compensation.

Holders of ASE ADSs and SPIL ADSs will not have any appraisal rights in respect of the Share Exchange under the terms of the ASE Deposit Agreement and the SPIL Deposit Agreement, as applicable. The ASE Depositary and the SPIL Depositary are not obligated to, and will not, exercise dissenters' rights on behalf of holders of ASE ADSs or SPIL ADSs, as applicable, even if instructed to do so by holders of ASE ADSs or SPIL ADSs. To be entitled to the appraisal right, ASE ADS holders must have cancelled their ASE ADSs and become holders of ASE Common Shares by close of business day in Taiwan on January 12, 2018, the last business day before January 14, 2018, the first day of the book close period of ASE Common Shares for the purpose of ASE EGM in which the Share Exchange will be voted on. Such book close period from January 14, 2018 to February 12, 2018 was announced in Form 6-K filed by ASE with the SEC on December 20, 2017. To be entitled to the appraisal right, SPIL ADS holders must have cancelled their SPIL ADSs and have become holders of SPIL Common Shares by the close of business day in Taiwan on January 12, 2018, the last business day before January 14, 2018, the first day of the book close period of the SPIL Common Shares for the purpose of the SPIL EGM in which the Share Exchange will be voted on. Such book close period from January 14, 2018 to February 12, 2018 was announced in Form 6-K filed by SPIL with the SEC on December 20, 2017.

Litigation Related to the Share Exchange

ASE is not aware of any lawsuit that challenges the Share Exchange or any other transaction contemplated under the Joint Share Exchange Agreement.

Expenses Relating to the Share Exchange

In connection with the Share Exchange, ASE expects to incur the costs, such as independent expert fees of US\$ 4,000, legal fees of US\$11.0 million and auditor fees of US\$3.9 million, in the aggregate amount of approximately US\$14.9

million. In connection with the Share Exchange, SPIL expects to incur the following costs and expenses as of the date of this proxy statement/prospectus.

Description	Amount
Financing fees and expenses and other professional fees	US\$ 11,496
Legal fees and expenses	US\$ 8,000
Miscellaneous (including filing fees, printing fees, proxy solicitation fees and mailing costs)	US\$ 1,128
Total	US\$ 20,624

All costs and expenses incurred in connection with the Share Exchange, the Joint Share Exchange Agreement and the completion of the transactions contemplated by the Joint Share Exchange Agreement will be paid by the party incurring such costs and expenses, except as otherwise explicitly provided for in the Joint Share Exchange Agreement, whether or not the Share Exchange or any other transactions contemplated by the Joint Share Exchange Agreement are completed.

Comparison of Rights of Shareholders of ASE and HoldCo

ASE is, and HoldCo will be, a company limited by shares organized under the laws of the ROC. ASE Common Shares are, and HoldCo Common Shares will be, listed on the TWSE. ASE ADSs are, and HoldCo ADSs representing HoldCo Common Shares will be, listed on the NYSE. In addition, the description of the attributes of common shares in the share capital provisions of the Articles of Incorporation of ASE and HoldCo are substantially similar. As a result, there are no material differences between the rights of holders of ASE Common Shares and of HoldCo Common Shares from a legal perspective.

See the sections entitled “Description of HoldCo American Depositary Shares” and “Description of HoldCo Common Shares” for more information.

Table of Contents

Cautionary Statements Regarding Forward-Looking Statements

This proxy statement/prospectus and the documents included as annexes hereto contain forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 that are not limited to historical facts but reflect ASE's and SPIL's current beliefs, expectations or intentions regarding future events. The words "anticipate," "believe," "ensure," "expect," "if," "intend," "estimate," "probable," "project," "forecasts," "plan," "aim," "will," "could," "should," "would," "potential," "may," "might," "anticipate," "likely," "plan," "positioned," "strategy," "expressions, and the negative thereof, are intended to identify such forward-looking statements. These forward-looking statements, which are subject to numerous factors, risks and uncertainties about ASE and SPIL, may include projections of their respective future business, strategies, financial condition, results of operations and market data. These statements are only predictions based on current expectations and projections about future events. There are important factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those projected, including those set forth in the section entitled "Risk Factors," the risk factors set forth in ASE 2016 20-F and the SPIL 2016 20-F and other documents on file with the SEC and the factors given below:

the failure to obtain approval from ASE shareholders or the approval from SPIL shareholders in connection with the Share Exchange;

· the failure to complete or delay in completing the Share Exchange for other reasons;

· the timing to complete the Share Exchange;

· the risk that a condition to the completion of the Share Exchange may not be satisfied;

the risk that a regulatory approval that may be required for the Share Exchange is delayed, is not obtained, or is obtained subject to conditions that are not anticipated;

ASE's and SPIL's ability to achieve the cost and other synergies and value creation contemplated by the Share Exchange; and

· the diversion of management time on Share Exchange-related issues.

All subsequent written and oral forward-looking statements concerning ASE, SPIL, the transactions contemplated by the Joint Share Exchange Agreement or other matters attributable to ASE or SPIL or any person acting on their behalf are expressly qualified in their entirety by the cautionary statements above. ASE's and SPIL's forward-looking statements are based on assumptions that may not prove to be accurate. Neither ASE nor SPIL can guarantee future results, activity levels, performance or achievements. Moreover, neither ASE nor SPIL assumes responsibility for the

accuracy and completeness of any of these forward-looking statements. ASE and SPIL assume no obligation to update or revise any forward-looking statements as a result of new information, future events or otherwise. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date of this proxy statement/prospectus.

Table of Contents

Risk Factors

In addition to the other information contained in or included as annexes to this prospectus, ASE shareholders should carefully consider the risks described below and in the ASE 2016 20-F and the SPIL 2016 20-F, which are included as Annex D-1 and Annex E-1 to this proxy statement/prospectus, before making a decision on the Share Exchange.

Risks Relating to the Share Exchange

The Share Exchange is subject to conditions, including certain conditions that may not be satisfied, or completed on a timely basis, if at all. Failure to complete the Share Exchange could have material and adverse effects on ASE.

The completion of the Share Exchange is subject to a number of conditions, including, among other things, the approval by ASE shareholders of the proposal on the Joint Share Exchange Agreement and the Share Exchange and the approval by SPIL shareholders of the proposal on the Joint Share Exchange Agreement and the Share Exchange and obtaining antitrust and other regulatory approvals or decisions not to challenge the Share Exchange which may make the completion and timing of the completion of the Share Exchange uncertain. See the section entitled “The Joint Share Exchange Agreement — Conditions to Consummation of the Share Exchange” for a more detailed discussion. Also, the Joint Share Exchange Agreement will be automatically terminated if the Share Exchange has not been consummated by October 31, 2018.

If the Share Exchange is not completed on a timely basis, or at all, ASE’s respective ongoing businesses may be adversely affected and, without realizing any of the benefits of having completed the Share Exchange, ASE will be subject to a number of risks, including the following:

ASE is required to pay their respective costs relating to the Share Exchange, such as legal, accounting, financial advisory and printing fees, even if the Share Exchange is not completed;

time and resources committed by ASE’s management to matters relating to the Share Exchange could otherwise have been devoted to pursuing other beneficial opportunities;

the market prices of ASE Common Shares could decline to the extent that the current market prices of ASE Common Shares reflect a market assumption that the Share Exchange will be completed;

ASE may have to dispose of its 33.29% interest in SPIL at a loss if the Share Exchange is not consummated, which may significantly affect ASE's financial position; and

ASE could be subject to litigation related to any failure to complete the Share Exchange or related to any enforcement proceedings commenced against ASE to perform their respective obligations under the Joint Share Exchange Agreement.

ASE is subject to business uncertainties and contractual restrictions while the proposed Share Exchange is pending, which could adversely affect each party's business and operations.

While the Share Exchange is pending completion, it is possible that certain customers, suppliers and other persons with whom ASE has a business relationship may delay or defer certain business decisions or might decide to seek to terminate, change or renegotiate their business relationships with ASE, as the case may be, as a result of the pending the Share Exchange, which could negatively affect ASE's revenues, earnings and cash flows, as well as the market price of ASE Common Shares, regardless of whether the Share Exchange is completed.

Under the terms of the Joint Share Exchange Agreement, ASE is subject to certain restrictions on the conduct of its business prior to completing the Share Exchange, which may adversely affect its ability to execute certain of its business strategies, including the ability in certain cases to acquire assets.

Table of Contents

The Share Exchange is subject to the receipt of approvals, consents or clearances from domestic and foreign regulatory authorities that may impose conditions that could have an adverse effect on ASE or HoldCo or, if not obtained, could prevent the completion of the Share Exchange.

Before the Share Exchange can be completed, any approvals, consents or clearances, including antitrust approval and clearances, required in connection with the Share Exchange must have been obtained. In deciding whether to grant the required regulatory approval, consent or clearance, the relevant governmental entities will consider the impact of the Share Exchange on competition within their relevant jurisdiction. The terms and conditions of the approvals, consents and clearances that are granted may impose requirements, limitations or costs or place restrictions on the conduct of HoldCo's business.

Under the Joint Share Exchange Agreement, ASE and SPIL have agreed to use their reasonable efforts to obtain such approvals, consents and clearances and therefore may be required to comply with conditions or limitations imposed by governmental authorities. However, no assurance can be given that the applicable regulatory agencies will approve the transaction or that any such transaction can be completed prior to or upon the completion of the Share Exchange, or at all.

There can be no assurance that regulators will not impose unanticipated conditions, terms, obligations or restrictions and that such conditions, terms, obligations or restrictions will not have the effect of delaying the completion of the Share Exchange or imposing additional material costs on or materially limiting the revenues of HoldCo following the completion of the Share Exchange.

There can be no assurance that ASE will be able to secure the funds necessary to pay the cash portion of the Cash Consideration on acceptable terms, in a timely manner, or at all.

ASE intends to fund the Cash Consideration with a combination of cash on hand and debt financing. To this end, Citibank Taiwan Limited and DBS Bank Ltd., Taipei Branch have each issued a highly confident letter stating that it is highly confident that it could arrange debt facilities for the Share Exchange up to US\$3.8 billion and NT\$53 billion (US\$1.74 billion), respectively. However, neither ASE nor any of its subsidiaries has entered into definitive agreements for the debt financing (or any equity issuance or other financing arrangements in lieu thereof). There can be no assurance that ASE will be able to secure the debt financing pursuant to the highly confident letters.

In the event that the debt financing contemplated by the highly confident letters is not available, other financing may not be available on acceptable terms, in a timely manner, or at all. If ASE is unable to secure financing for the Share Exchange, the Share Exchange may not be completed. In the event of a termination of the Joint Share Exchange Agreement due to ASE's failure to obtain the necessary financing to complete the Shares Exchange, ASE and HoldCo

may be jointly and severally liable to pay to SPIL, in addition to the actual damages incurred, liquidated damages in the amount of NT\$8.5 billion (US\$0.3 billion).

The unaudited pro forma condensed combined financial data in this proxy statement/prospectus is presented for illustrative purposes only and may differ materially from the operating results and financial condition of HoldCo following completion of the pro forma events.

The unaudited pro forma condensed combined financial data in this proxy statement/prospectus is presented for illustrative purposes only and is not necessarily indicative of what the combined company's actual financial position or results of operations would have been had the pro forma events been completed on the dates indicated. In addition, the unaudited pro forma condensed combined financial information does not purport to project the future financial position or operating results of HoldCo. The preparation of the pro forma condensed combined financial information is based upon available information and certain assumptions and estimates that ASE and SPIL currently believe are reasonable. The unaudited pro forma condensed combined financial data reflects adjustments, which are based upon preliminary estimates, to allocate the purchase price to SPIL's net assets. The purchase price allocation reflected in this proxy statement/prospectus is preliminary, and the final allocation of the purchase price will be based upon the actual purchase price and the fair value of the assets and liabilities of SPIL as of the Effective Time. In addition, subsequent to the completion of the Share Exchange, there may be further refinements of the purchase price allocation as additional information becomes available. Accordingly, the final purchase accounting adjustments may differ materially from the pro forma adjustments reflected in this proxy statement/prospectus. See the section entitled "Selected Unaudited Pro Forma Condensed Combined Financial Data."

Table of Contents

HoldCo may fail to successfully integrate the resources from ASE and SPIL and realize the anticipated benefits from the Share Exchange.

The success of the Share Exchange and the holding company structure that will be created pursuant to such Share Exchange will depend, in large part, on the ability of HoldCo to realize the anticipated synergies, operational efficiencies and growth opportunities from the Share Exchange. The realization of the anticipated benefits of the holding company structure may be blocked, delayed or reduced as a result of many factors, some of which may be outside our control. These factors include:

the complexities associated with integrating resources with ASE and SPIL continuing to operate independently and failure to leverage the holding company structure to realize operational efficiencies;

unforeseen contingent risks, including lack of required capital resources or increased tax liabilities, relating to the holding company structure that may become apparent in the future;

the considerations discussed in the next risk factor;

unexpected business disruptions; and

failure to attract, develop and retain personnel with necessary expertise.

In addition, there may be valuation discounts as a result of the adoption of a holding company structure which may have an adverse effect on the trading value of HoldCo Common Shares or ADSs. Any of the foregoing could adversely affect ASE's and SPIL's ability to maintain relationships with customers, suppliers, employees and other constituencies or ASE's and SPIL's ability to achieve the anticipated benefits of the Share Exchange or could reduce each of ASE's and SPIL's earnings or otherwise adversely affect the business and financial results of HoldCo.

The independent operations of SPIL after the completion of the Share Exchange may make it difficult to integrate the operations of both companies.

Although SPIL will become a wholly owned subsidiary of HoldCo after the completion of the Share Exchange, under the terms of the Joint Share Exchange Agreement, ASE and SPIL have agreed that SPIL will maintain a high degree of independence with respect to its operations and corporate governance. ASE and SPIL have entered into a number of covenants to ensure SPIL's independence of operation.

For a more detailed description of these and other covenants, please refer to “The Joint Share Exchange Agreement – Post-Closing Operation and Corporate Governance – Independence” and “Annex A: Joint Share Exchange Agreement dated June 30, 2016 (English translation).”

Notwithstanding the agreement to maintain SPIL’s independent operations, under the Joint Share Exchange Agreement, HoldCo is required to assist SPIL’s operations. For example, HoldCo will, to the extent that it is capable, provide guaranties, funding or other support sufficient to enable SPIL to obtain financing from third parties (including, but not limited to, guarantee documentation acceptable to financing parties), in order to meet SPIL’s funding needs, including, but not limited to, capital expenditure and working capital.

There are uncertainties as to the impact of the independence of SPIL in terms of its operation and corporate governance would have on integration plans and future growth opportunities of ASE and SPIL under Holdco.

The future results of HoldCo may suffer if HoldCo does not effectively manage its expanded operations following the completion of the Share Exchange.

Following the completion of the Share Exchange, the size of the business of HoldCo will increase significantly beyond the current size of either ASE’s or SPIL’s business. HoldCo’s future success depends, in part, upon its ability to manage this expanded business, which will pose substantial challenges for management, including challenges related to the management and monitoring of new operations and associated increased costs and complexity. There can be no assurances that HoldCo will be successful or that it will realize the expected operating efficiencies, cost savings and other benefits currently anticipated from the completion of the Share Exchange.

Table of Contents

Since HoldCo will be a holding company, it will depend on limited forms of funding to fund its operations.

As a holding company, HoldCo will have no significant assets other than the shares of its subsidiaries. HoldCo's primary sources of funding and liquidity will be dividends from its subsidiaries, sales of the interests in its subsidiaries and direct borrowings and issuances of equity or debt securities. HoldCo's ability to meet the obligations to its direct creditors and employees and other liquidity needs and regulatory requirements will depend on timely and adequate distributions from its subsidiaries and its ability to sell securities or obtain credit from its lenders.

HoldCo's ability to pay operating and financing expenses and dividends will depend primarily on the receipt of sufficient funds from its principal operating subsidiaries. Statutory provisions regulate HoldCo's operating subsidiaries' ability to pay dividends. If HoldCo's operating subsidiaries are unable to pay dividends to HoldCo in a timely manner and in amounts sufficient to pay for HoldCo's operation and financing expenses or to declare and pay dividends and to meet its other obligations, HoldCo may not be able to pay dividends or it may need to seek other sources of funding.

Furthermore, HoldCo's inability to sell its securities or obtain funds from its lenders on favorable terms, or at all, could also result in HoldCo's inability to meet its liquidity needs and regulatory requirements and may disrupt its operations at the holding company level.

In connection with the Share Exchange, existing ASE shareholders may not trade the ASE Common Shares or ADSs during certain periods.

In connection with the Share Exchange, ASE Common Shares will be suspended from trading on the TWSE, and ASE ADSs will be suspended from trading on the NYSE starting from the eighth (8th) ROC Trading Day before the Effective Time. As a result, holders of ASE Common Shares and ADSs will not be able to trade those shares or ADSs, or HoldCo shares or ADSs they will be entitled to receive when the Share Exchange is completed, during the applicable trading gap. Accordingly, these holders will be subject to the risk of not being able to liquidate their shares during a falling market, whether for ROC equities generally or for ASE Common Shares and ASE ADSs in particular.

There has been no prior market for the HoldCo Common Shares or ADSs.

ASE plans to apply for listing HoldCo Common Shares and HoldCo ADSs and expect that HoldCo Common Shares will begin trading in Taiwan during TWSE trading hours, and HoldCo ADSs will begin trading in the U.S. during NYSE trading hours, on the effective date of the Share Exchange. However, given that HoldCo will be formed as a new entity, there will be no public market for HoldCo Common Shares or HoldCo ADSs prior to their issuance in

connection with the Share Exchange. An active public market in the HoldCo Common Shares or HoldCo ADSs may not develop or be sustained after their issuance.

Risks Relating to Owning HoldCo ADSs

The market for HoldCo ADSs may not be liquid.

Active, liquid trading markets generally result in lower price volatility and more efficient execution of buy and sell orders for investors, compared to less active and less liquid markets. Liquidity of a securities market is often a function of the volume of the underlying shares that are publicly held by unrelated parties.

Although holders of HoldCo ADS will be entitled to withdraw HoldCo Common Shares underlying the ASE ADSs from the depositary at any time, ROC law requires that HoldCo Common Shares be held in an account in the ROC or sold for the benefit of the holder on the TWSE. In connection with any withdrawal of HoldCo Common Shares from the HoldCo ADS facility, the HoldCo ADSs evidencing these common shares will be cancelled. Unless additional ADSs are issued, the effect of withdrawals will be to reduce the number of outstanding ADSs. If a significant number of withdrawals are effected, the liquidity of HoldCo ADSs will be substantially reduced.

HoldCo will be a foreign private issuer, and as such it is exempt from certain provisions applicable to United States domestic public companies.

Table of Contents

Because HoldCo qualifies as a foreign private issuer, it is exempt from certain provisions of the securities rules and regulations in the United States that are applicable to U.S. domestic issuers, including:

- rules under the Exchange Act requiring the filing with the SEC of quarterly reports on Form 10-Q or current reports on Form 8-K;

- sections of the Exchange Act regulating the solicitation of proxies, consents, or authorizations in respect of a security registered under the Exchange Act;

- sections of the Exchange Act requiring insiders to file public reports of their share ownership and trading activities and liability for insiders who profit from trades made in a short period of time; and

- selective disclosure rules by issuers of material nonpublic information under Regulation FD.

HoldCo will be required to file an annual report on Form 20-F within four months of the end of each fiscal year. In addition, HoldCo intends to publish its results on a quarterly basis as press releases, distributed pursuant to the rules and regulations of the NYSE. Press releases relating to financial results and material events will also be furnished to the SEC on Form 6-K. However, the information HoldCo is required to file with or furnish to the SEC will be less extensive and less timely as compared to that required to be filed with the SEC by United States domestic issuers.

As a ROC company listed on the NYSE, HoldCo will be subject to the NYSE corporate governance listing standards. However, HoldCo, as a foreign private issuer, will also be permitted to follow certain home country corporate governance practices instead of those otherwise required under the NYSE's rules for domestic U.S. issuers, provided that HoldCo discloses which requirements it is not following and describe the equivalent home country requirement in its annual report on Form 20-F. Holdco intends to rely on home country practice to exempt out of the requirement for NYSE listed companies to have a majority of independent directors. The Joint Share Exchange Agreement provides that, for the first term of HoldCo's board of directors, HoldCo's incorporators' meeting will elect nine to thirteen non-independent directors and three supervisors who will become independent directors. The articles of incorporation of HoldCo further provides that starting from the second term of its board of directors term, HoldCo shall have thirteen directors, of which three shall be three independent directors and ten non-independent directors.

To the extent that HoldCo chooses to follow its home country corporate governance practice, its shareholders may be afforded less protection than they would otherwise have under the NYSE corporate governance listing standards applicable to U.S. domestic issuers. As a result, you may not be afforded the same protections or information, which would be made available to you, were you to invest in a United States domestic issuer.

The ongoing proceeding involving Dr. Tien Wu may have an adverse impact on HoldCo's business and cause HoldCo's share price to decline.

Dr. Tien Wu, ASE's director and Chief Operating Officer and a nominee for HoldCo's director, is currently undergoing criminal proceedings brought by the Kaohsiung Prosecutor's Office. The indictment alleges that Dr. Tien Wu violated Article 157-1 of the ROC Securities and Exchange Law for insider trading activities involving SPIL Common Shares conducted during the period when the Initial ASE Tender Offers, the Second ASE Tender Offers and negotiations of the Joint Share Exchange MOU took place. No judicial conclusion has been reached yet for this proceeding. Further development of this proceeding may result in regulatory scrutiny from the Taiwan Stock exchange or other regulators on a discretionary basis. If Dr. Tien Wu is sentenced or pleads guilty to the alleged violations, investor confidence in HoldCo could be impaired and HoldCo's capacity to retain or attract clients could be negatively affected. Although neither ASE, SPIL nor any their directors or the nominees for HoldCo's directors is expected to become party to any current or future litigation related to Dr. Tien Wu, there is no assurance that there will not be similar or related litigation in the future.

Although ROC Company law and other relevant regulations do not require a company to discharge any director who receives a sentence by a court for violating Article 157-1 of the ROC Securities and Exchange Law, the Securities and Futures Investors Protection Center may file a civil lawsuit against Dr. Tien Wu to request the court to remove him from HoldCo's board seat based on Article 10-1 of the Securities Investor and Futures Trader Protection Act. There is no assurance that this proceeding or the further scrutiny from regulators will not generate

Table of Contents

publicity or media attention. Any negative publicity in connection to this legal proceeding may adversely affect HoldCo's, ASE's or SPIL's brand and reputation and result in a material adverse impact on their business operations and prospects. As ASE and HoldCo depends on the continued service of its executive officers and is not insured against the loss of service of any of their personnel, HoldCo's or ASE's business operations could suffer if it loses the service of any executive officers, including Dr. Tien Wu, and cannot adequately replace them.

If a non-ROC holder of HoldCo ADSs withdraws and holds HoldCo Common Shares, such holder of HoldCo ADSs will be required to appoint a tax guarantor, local agent and custodian in the ROC and register with the TWSE in order to buy and sell securities on the TWSE.

When a non-ROC holder of HoldCo ADSs elects to withdraw and hold HoldCo Common Shares represented by HoldCo ADSs, such holder of the ADSs will be required to appoint an agent for filing tax returns and making tax payments in the ROC. Such agent will be required to meet the qualifications set by the ROC Ministry of Finance and, upon appointment, becomes the guarantor of the withdrawing holder's tax payment obligations. Evidence of the appointment of a tax guarantor, the approval of such appointment by the ROC tax authorities and tax clearance certificates or evidentiary documents issued by such tax guarantor may be required as conditions to such holder repatriating the profits derived from the sale of HoldCo Common Shares. There is no assurance that a withdrawing holder will be able to appoint, and obtain approval for, a tax guarantor in a timely manner.

In addition, under current ROC law, such withdrawing holder is required to register with the TWSE and appoint a local agent in the ROC to, among other things, open a bank account and open a securities trading account with a local securities brokerage firm, pay taxes, remit funds and exercise such holder's rights as a shareholder. Furthermore, such withdrawing holder must appoint a local bank or a local securities firm to act as custodian for confirmation and settlement of trades, safekeeping of securities and cash proceeds and reporting and declaration of information. Without satisfying these requirements, non-ROC withdrawing holders of HoldCo ADSs would not be able to hold or otherwise subsequently sell HoldCo Common Shares on the TWSE or otherwise.

Pursuant to ROC Mainland Investors Regulations, only qualified domestic institutional investors ("QDIIs") or persons that have otherwise obtained the approval from the Investment Commission of the MOEA and registered with the TWSE are permitted to withdraw and hold shares from a depositary receipt facility. In order to hold such shares, such QDIIs are required to appoint an agent and custodian as required by the Regulations Governing Securities Investment and Futures Trading in Taiwan by Mainland Area Investors. If the aggregate amount of HoldCo shares held by any QDII or shares received by any QDII upon a single withdrawal account or multiple withdrawal accounts for 10.0% of HoldCo's total issued and outstanding shares, such QDII must obtain the prior approval from the MOEA. We cannot assure you that such approval would be granted.

A different view of the ROC tax agency from our current treatment of the ROC securities transaction tax might cause tax uncertainties to HoldCo shareholders

Uncertainty exists as to whether the consideration received by ASE shareholders for the Share Exchange will be subject to the ROC securities transaction tax. In the view of Baker & McKenzie, by reasonable interpretation of the ROC Mergers and Acquisitions Act based on current rules and regulations promulgated by the ROC tax authority, the Share Exchange should be exempted from such tax under the ROC Mergers and Acquisitions Act. HoldCo intends to issue the share consideration to ASE shareholders at the Effective Time without deducting or withholding any ROC securities transaction tax. However, due to lack of precedents, ASE and Baker & McKenzie cannot assure you that the ROC tax agency will not take a different view on this. In the event that the ROC tax agency decides to charge securities transaction tax for the Share Exchange after the Effective Time, HoldCo will pay the tax and could demand reimbursement from former ASE shareholders, i.e., Holdco shareholders at that time.

Restrictions on the ability to deposit HoldCo Common Shares into HoldCo ADS facility may adversely affect the liquidity and price of HoldCo ADSs.

The ability to deposit HoldCo Common Shares into HoldCo ADS facility is restricted by ROC law. A significant number of withdrawals of HoldCo Common Shares underlying HoldCo ADSs would reduce the liquidity of the ADSs by reducing the number of ADSs outstanding. As a result, upon completion of the Share Exchange, the prevailing market price of HoldCo ADSs on the NYSE may differ from the prevailing market price of HoldCo Common Shares on the TWSE. Under current ROC law, no person or entity may deposit HoldCo Common Shares in the HoldCo ADS facility without specific approval of the FSC, unless:

Table of Contents

- (1) HoldCo pays stock dividends on its common shares;
- (2) HoldCo makes a free distribution of its common shares;
- (3) holders of HoldCo ADSs exercise preemptive rights in the event of capital increases; or

(4) to the extent permitted under the HoldCo Deposit Agreement and the relevant custody agreement, investors purchase HoldCo Common Shares, directly or through the depository, on the TWSE, and deliver HoldCo Common Shares to the custodian for deposit into the HoldCo ADS facility, or the shareholders of HoldCo deliver HoldCo Common Shares to the custodian for deposit into the HoldCo ADS facility.

With respect to item (4) above, the HoldCo Depository may issue HoldCo ADSs against the deposit of HoldCo Common Shares only if the total number of HoldCo ADSs outstanding following the deposit will not exceed the number of HoldCo ADSs previously approved by the FSC, plus any HoldCo ADSs issued pursuant to the events described in items (1), (2) and (3) above.

In addition, in the case of a deposit of HoldCo Common Shares requested under item (4) above, the depository will refuse to accept deposit of HoldCo Common Shares if such deposit is not permitted under any legal, regulatory or other restrictions notified by HoldCo to the HoldCo Depository from time to time, which restrictions may include blackout periods during which deposits may not be made, minimum and maximum amounts and frequency of deposits.

Holders of HoldCo ADSs will not have the same voting rights as HoldCo shareholders, which may affect the value of their HoldCo ADSs.

The voting rights of a holder of HoldCo ADSs as to HoldCo Common Shares represented by its HoldCo ADSs will be governed by the HoldCo Deposit Agreement which will take effect at or after the Effective Time and which form has been included as exhibit 4.2 in this proxy statement/prospectus. Holders of HoldCo ADSs will not be able to exercise voting rights on an individual basis. If holders representing at least 51% of the HoldCo ADSs outstanding at the relevant record date instruct the HoldCo Depository to vote in the same manner regarding a resolution, including the election of directors, the HoldCo Depository will cause all HoldCo Common Shares represented by the HoldCo ADSs to be voted in that manner. If the HoldCo Depository does not receive timely instructions representing at least 51% of the HoldCo ADSs outstanding at the relevant record date to vote in the same manner for any resolution, including the election of directors, holders of HoldCo ADSs will be deemed to have instructed the HoldCo Depository or its nominee to authorize all HoldCo Common Shares represented by the HoldCo ADSs to be voted at the discretion of the Chairman of HoldCo or his designee, which may not be in the interest of holders of HoldCo ADSs. Moreover, upon the completion of the Share Exchange, shareholders who own 1% or more of HoldCo outstanding shares are entitled to submit one proposal to be considered at HoldCo annual general meetings of shareholders. However, only holders

representing at least 51% of HoldCo ADSs outstanding at the relevant record date are entitled to submit one proposal to be considered at HoldCo annual general meetings of shareholders. Hence, only one proposal may be submitted on behalf of all HoldCo ADS holders.

The right of holders of HoldCo ADSs to participate in future rights offerings is limited, which could cause dilution to HoldCo ADS holders' holdings.

HoldCo may from time to time distribute rights to its shareholders, including rights to acquire its securities. Under the HoldCo Deposit Agreement, the HoldCo Depositary will not offer holders of HoldCo ADSs those rights unless both the distribution of the rights and the underlying securities to all HoldCo ADS holders are either registered under the Securities Act or exempt from registration under the Securities Act. Although HoldCo may be eligible to take advantage of certain exemptions under the Securities Act available to certain foreign issuers for rights offerings, there are no assurances that HoldCo will be able to establish an exemption from registration under the Securities Act, and we are under no obligation to file a registration statement for any of these rights. Accordingly, holders of HoldCo ADSs may be unable to participate in our rights offerings and may experience dilution of their holdings.

If the HoldCo Depositary is unable to sell rights that are not exercised or not distributed or if the sale is not lawful or reasonably practicable, it will allow the rights to lapse, in which case holders of HoldCo ADSs will receive no value for these rights.

Table of Contents

Changes in exchange controls which restrict your ability to convert proceeds received from your ownership of HoldCo ADSs may have an adverse effect on the value of your investment.

Under current ROC law, the HoldCo Depositary, without obtaining approvals from the Central Bank of the Republic of China (Taiwan) or any other governmental authority or agency of the ROC, may convert NT dollars into other currencies, including U.S. dollars, for:

the proceeds of the sale of HoldCo Common Shares represented by HoldCo ADSs or received as stock dividends from HoldCo Common Shares and deposited into the depositary receipt facility; and

- any cash dividends or distributions received from HoldCo Common Shares represented by HoldCo ADSs.

In addition, the HoldCo Depositary may also convert into NT dollars incoming payments for purchases of HoldCo Common Shares for deposit in the HoldCo ADS facility against the creation of additional HoldCo ADSs. The HoldCo Depositary may be required to obtain foreign exchange approval from the Central Bank of the Republic of China (Taiwan) on a payment-by-payment basis for conversion from NT dollars into foreign currencies of the proceeds from the sale of subscription rights for new HoldCo Common Shares. Although it is expected that the Central Bank of the Republic of China (Taiwan) will grant this approval as a routine matter, there is no assurance that in the future any approval will be obtained in a timely manner, or at all.

Table of Contents

Exchange Rates

The table below sets forth the exchange rates of NT dollars against U.S. dollars set forth in the H.10 statistical release of the Federal Reserve Board for the periods indicated.

	Exchange Rate			
	Average	High	Low	Period End
2012	29.47	30.28	28.96	29.05
2013	29.73	30.20	28.93	29.83
2014	30.38	31.80	29.85	31.60
2015	31.80	33.17	30.37	32.79
2016	32.23	33.74	31.05	32.40
2017	30.40	32.37	29.64	29.64
July	30.39	30.61	30.18	30.20
August	30.23	30.35	30.07	30.13
September	30.13	30.37	29.93	30.33
October	30.25	30.44	30.12	30.12
November	30.08	30.21	29.97	29.98
December	29.95	30.05	29.64	29.64
2018				
January (through January 5, 2018)	29.56	29.60	29.47	29.47

Note: Annual averages were calculated by using the average of the exchange rates on the last day of each month during the relevant year. Monthly averages were calculated by using the average of the daily rates during the relevant month.

On January 5, 2018, the exchange rate set forth in the H.10 statistical release of the Federal Reserve Board was NT\$29.47 to US\$1.00.

We make no representation that any NT dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or NT dollars, as the case may be, at any particular rate, or at all. Fluctuations in the exchange rate between NT dollars and U.S. dollars will affect the U.S. dollar equivalent of the NT dollar price of ASE Common Shares.

Dividends and Dividend Policy

ASE

ASE has historically paid dividends on ASE Common Shares with respect to the results of the preceding year following approval by ASE shareholders at the annual general meeting of shareholders. ASE has paid annual dividends on its common shares since 1989, except in 2002 and 2006 due to the losses it incurred in the 2001 and 2005 fiscal years, respectively.

The following table sets forth the stock dividends ASE paid during each of the years indicated and related information.

	Cash Dividends per ASE Common Share	Stock Dividends per Common Share ⁽¹⁾	Total ASE Common Shares Issued as Stock Dividends	Outstanding ASE Common Shares on Record Date ⁽²⁾	Percentage of Outstanding ASE Common Shares Represented by Stock Dividends
	NT\$	NT\$			
2013	1.05	–	–	7,611,579,786	–
2014	1.29 ⁽³⁾	–	–	7,847,817,646	–
2015	2.00	–	–	7,900,130,996	–
2016	1.60	–	–	7,931,725,946	–

(1) Stock dividends were paid out from retained earnings and capital surplus. Holders of common shares receive as a stock dividend the number of common shares equal to the NT dollar value per common share of the dividend declared multiplied by the number of common shares owned and divided by the par value of NT\$10 per share. Fractional shares are not issued but are paid in cash.

(2) Aggregate number of ASE Common Shares outstanding on the record date applicable to the dividend payment. Includes ASE Common Shares issued in the previous year under our employee bonus plan.

(3) On June 26, 2014, ASE's shareholders approved a cash dividend of NT\$1.30 per share for 2013 earnings. On July 29, 2014, the ASE Board resolved to adjust the cash dividend ratio to NT\$1.29411842 because the number of

outstanding ASE Common Shares had changed as a result of the exercise of share options.

SPIL

SPIL may distribute dividends in any year in which SPIL has current or retained earnings (excluding reserves). SPIL has historically paid dividends on the Shares with respect to the results of the preceding year following approval by SPIL shareholders at the annual general meeting of shareholders. SPIL has paid annual dividends on its Shares since 1995, except in 2002 and 2003 because it incurred losses in 2001 and the shareholders did not resolve to declare a dividend in 2002. SPIL may also make distributions to its shareholders by capitalizing reserves, including the legal reserve and capital surplus if it does not have losses.

The following table sets forth the stock dividends SPIL paid during each of the years indicated and related information.

Table of Contents

	Cash Dividends Per SPIL Common Share	Stock Dividends per SPIL Common Share ⁽¹⁾	Total SPIL Common Shares Issued as Stock Dividends ⁽²⁾	Outstanding SPIL Common Shares at Year-End
	NT\$	NT\$		
2013	1.67 ⁽³⁾	–	–	3,116,361,139
2014	1.80	–	–	3,116,361,139
2015	3.00	–	–	3,116,361,139
2016	3.80 ⁽⁴⁾	–	–	3,116,361,139

Stock dividend is declared in NT dollar amount per common share. The number of shares received by a (1) shareholder equals to the NT dollar amount per common share of dividend declared multiplied by the number of shares owned by the shareholder and divided by the par value of NT\$10 per common share.

(2) Total number of common shares issued as stock dividends include common shares issued from retained earnings and from capital reserve.

(3) Of which NT\$0.30 per share is from capital reserve and NT\$1.37 per common share is from earnings distribution.

(4) Of which NT\$1.0 per share is from our capital reserve and NT\$2.80 per share is from earnings distribution.

Table of Contents

Information about the Companies

ASE

ASE is a company limited by shares incorporated under the laws of the ROC. ASE's services include semiconductor packaging, production of interconnect materials, front-end engineering testing, wafer probing and final testing services, as well as integrated solutions for electronics manufacturing services in relation to computers, peripherals, communications, industrial, automotive, and storage and server applications.

ASE Common Shares are traded on the TWSE under the ticker "2311" and ASE ADSs are traded on the NYSE under the symbol "ASX." ASE's principal executive offices are located at 26 Chin Third Road, Nantze Export Processing Zone, Nantze, Kaohsiung, Taiwan, Republic of China and our telephone number at the above address is +886-7-361-7131.

SPIL

SPIL is a company incorporated under the ROC Company Law as a company limited by shares with its principal business address at No. 123, Sec. 3, Da Fong Road, Tantz, Taichung, Taiwan, Republic of China. The telephone number of SPIL's principal executive office is 886-4-2534-1525. The name, business address, present principal employment and citizenship of each director and executive officer of SPIL are set forth below.

HoldCo

It is expected that HoldCo will be a company limited by shares incorporated under the laws of the ROC and will be formed at the Effective Time. HoldCo will initially serve exclusively as the holding company for the ASE, SPIL, as well as their subsidiaries and investees.

It is expected that HoldCo Common Shares will be traded on the TWSE and HoldCo ADSs will be traded on the NYSE. It is expected that HoldCo's principal executive offices will be located at 26 Chin Third Road, Nantze Export Processing Zone, Nantze, Kaohsiung, Taiwan, Republic of China and its telephone number at the above address will

be +886-7-361-7131.

Extraordinary General Shareholders' Meeting of ASE

General

The date, time and place of the ASE EGM to vote for the Share Exchange is expected to be held at 10:00 A.M. on February 12, 2018 (Taiwan time), at Zhuang Jing Auditorium, 600 Jiachang Road, Nantze Export Processing Zone, Nantze District, Kaohsiung City, Taiwan, Republic of China. Holders of ASE Common Shares will be entitled exercise voting rights by electronic means or by attending the ASE EGM in person or by proxy, if they are recorded on ASE's stockholder register on January 14, 2018. Holders of ASE ADSs will be entitled to instruct the ASE Depository (Citibank), as to how to vote their underlying shares of ASE Common Shares at the ASE EGM in accordance with the procedures set forth in this prospectus, if those holders were recorded on such ASE Depository's register of ASE ADS holders on January 12, 2018.

This proxy statement/prospectus will be filed with the SEC no later than 20 business days prior to the date of the ASE EGM. ASE will publish the notice of convocation for such ASE EGM on the MOPS in Taiwan, and distribute the notice of convocation to all holders of ASE Common Shares by mail at least 15 calendar days prior to the date of the ASE EGM. The ASE Depository will send to holders of ASE ADSs a notice and voting instruction from the depository prior to the date of the ASE EGM. The form of depository notice to holders of ASE ADSs and the form of voting instructions for use by holders of ASE ADSs are included in this proxy statement/prospectus as Exhibit 99.1 and Exhibit 99.2, respectively.

The purpose of the ASE EGM is to vote on the following proposals:

In connection with ASE

Proposal 1. To consider and to vote upon the joint share exchange agreement entered into between ASE and SPIL on June 30, 2016 and as supplemented by the Supplemental Agreement dated December 14, 2017 (the "Joint Share Exchange Agreement") and the proposed share exchange and the other transactions contemplated by the Joint Share Exchange Agreement

Proposal 2. To consider and to vote upon the amendment to the Procedures for Lending Funds to Other Parties of ASE

Proposal 3. To consider and to vote upon the amendment to the Procedures of Making the Endorsement and Guarantees of ASE

Proposal 4. To consider and to vote upon the amendment to the Procedures for Acquisition or Disposal of Assets of ASE

In connection with HoldCo

- Proposal 1. To consider and to vote upon the Rules of Procedure for Shareholders' Meetings of HoldCo

- Proposal 2. To consider and to vote upon the adoption of the articles of incorporation of HoldCo

- Proposal 3. To consider and to vote upon the Rules Governing the Election of Directors and Supervisors of HoldCo

- Proposal 4. To consider and elect the members of the board of directors and supervisors of HoldCo

- Proposal 5. To consider and to vote upon the proposal to waive the non-competition clauses applicable to newly elected directors of HoldCo

- Proposal 6. To consider and to vote upon the Procedures for Lending Funds to Other Parties of HoldCo

- Proposal 7. To consider and to vote upon the Procedures of Making the Endorsement and Guarantees of HoldCo

- Proposal 8. To consider and to vote upon the Procedures for Acquisition or Disposal of Assets of HoldCo

Table of Contents

We will provide additional information regarding the proposals outlined above (other than Proposal 1 in connection with ASE) which we shall file on a Form 6-K prior to the ASE EGM.

Voting

Record Date

Holders of ASE Common Shares will be entitled exercise voting rights by electronic means or by attending the ASE EGM in person or by proxy. You may vote at the ASE EGM of ASE only if you are registered as a holder of one or more of ASE Common Shares in ASE's register of shareholders on January 14, 2018 (Taiwan Time).

As of November 30, 2017, there were 8,727,813,764 ASE Common Shares issued and outstanding, including 552,280,665 ASE Common Shares represented by ASE ADSs. Other than the proposal for the election of directors and supervisors of ASE Industrial Holding Co., Ltd. which is through cumulative voting, each ASE shareholder is entitled to one vote per share for the proposals raised at the ASE EGM.

Vote Required

The required quorum to vote on the Share Exchange and other transactions contemplated by the Joint Share Exchange Agreement at the ASE EGM is a two-third majority of the total issued and outstanding common shares held by shareholders of ASE. The affirmative vote of shareholders representing a majority of the voting rights of the shareholders of ASE represented at the ASE EGM is required to approve the Share Exchange and other transactions contemplated by the Joint Share Exchange Agreement. Alternatively, if such quorum cannot be constituted, the resolution for the Share Exchange and other transactions contemplated by the Joint Share Exchange Agreement may be adopted by an affirmative vote representing at least two-thirds of the voting rights at the ASE EGM of shareholders for which shareholders of at least a majority of issued and outstanding common shares are present. Each shareholder is entitled to one vote per share.

Voting interest by ASE Directors and Officers

As of November 30, 2017, 2,163,879,853 ASE Common Shares, or approximately 24.8% of the outstanding shares entitled to vote, were beneficially owned by ASE's directors and executive officers. To our knowledge, the directors

and executive officers intend to support the Share Exchange proposal at the ASE EGM.

Voting by ASE Depositary

As of November 30, 2017, approximately 6.3% of the total number of outstanding ASE Common Shares having voting rights were represented by ASE ADSs.

At the request of ASE, the ASE Depositary (Citibank) has fixed the close of business in New York on January 12, 2018 as the date for determining those holders of ASE ADSs entitled to give voting instructions to the ASE Depositary. The ASE Depositary will send to holders of ASE ADSs as of that date a voting instruction card and a notice which outlines the procedures those holders must follow to give proper voting instructions to the ASE Depositary.

In accordance with and subject to the terms of ASE Deposit Agreement, holders of ASE ADSs have no individual voting rights with respect to the ASE Common Shares represented by their ASE ADSs. Pursuant to the ASE Deposit Agreement, each holder of ASE ADSs is deemed to have authorized and directed the ASE Depositary to appoint the Chairman of ASE or his/her designee as Voting Representative of the ASE Depositary, the custodian or the nominee who is registered in the ROC as representative of the holders ASE ADSs to vote the ASE Common Shares represented by ASE ADSs, as more fully described below.

In accordance with and subject to the terms of the ASE Deposit Agreement, if holders of ASE ADSs together holding at least 51% of all the ASE ADSs outstanding as of the record date set by the ASE Depositary for the ASE EGM to instruct the ASE Depositary, prior to the ASE ADS voting instructions deadline, to vote in the same manner with respect to any of the proposals to be voted on at the EGM, the ASE Depositary shall notify the Voting Representative and appoint the Voting Representative as the representative of the ASE Depositary and the holders of ASE ADSs to attend the ASE EGM and vote, as to such proposals, all ASE Common Shares represented by ASE ADSs outstanding in the manner so instructed by such holders. If voting instructions are received from an ASE ADS holder by the ASE Depositary as of the ASE ADS voting instructions deadline which are signed but without further

Table of Contents

indication as to voting instructions, the ASE Depositary shall deem such holder to have instructed a vote in favor of the items set forth in such instructions.

In accordance with and subject to the terms of the ASE Deposit Agreement, if, for any reason, the ASE Depositary has not, prior to the ASE ADS voting instructions deadline, received instructions from holders of ASE ADSs together holding at least 51% of all ASE ADSs outstanding as of the record date set by the ASE Depositary for the ASE EGM to vote in the same manner with respect to any of the proposals to be voted on at the EGM, the holders of all ASE ADSs shall be deemed to have authorized and directed the ASE Depositary to give a discretionary proxy to the Voting Representative, as the representative of the holders of ASE ADSs, to attend the ASE EGM and vote, as to such proposals, all the ASE Common Shares represented by ASE ADSs then outstanding in his/her discretion; provided, however, that the ASE Depositary will not give a discretionary proxy as described if it fails to receive under the terms of the ASE Deposit Agreement a satisfactory opinion from ASE's counsel prior to the ASE EGM. In such circumstances, the Voting Representative shall be free to exercise the votes attaching to the ASE Common Shares represented by ASE in any manner he/she wishes, which may not be in the best interests of the ASE ADS holders. The Voting Representative has informed ASE that he plans as of the date of this proxy statement/prospectus to vote in favor of all of the proposals at the ASE EGM, although he has not entered into any agreement obligating him to do so.

Voting Mechanism

Holders of ASE Common Shares are entitled to exercise voting rights by electronic means or by attending the ASE EGM in person or by proxy.

You may exercise your voting right by electronic means during the Electronic Voting Period. Shareholders who intend to exercise voting right electronically must log in to the website maintained by the Taiwan Depositary & Clearing Corporation (<https://www.stockvote.com.tw>) and inputting an exercise code. Internet voting is available only in the Chinese language.

You may also exercise your voting rights by attending the ASE EGM in person or by proxy using a duly authorized power of attorney in the prescribed form attached to the notice of convocation distributed by ASE prior to the ASE EGM.

Revocation

Shareholders who previously exercised their voting right electronically may revoke or submit a subsequent vote via the electronic voting website anytime within the Electronic Voting Period. Once an electronic voting has been revoked, such shareholder may attend the ASE EGM in person or by proxy.

Shareholders who previously presented a valid proxy to ASE or exercised their voting rights electronically but then wish to attend the ASE EGM in person are required to revoke their proxy in writing addressed to ASE or revoke your electronic vote by logging in to the electronic voting website at least two (2) calendar days prior to the ASE EGM. Otherwise, the voting right exercised by their proxy or through the electronic voting website at the ASE EGM will prevail.

Solicitation of Proxies, Consents or Authorizations.

Under ROC law, ASE is prohibited from soliciting proxies, consents or authorizations at its shareholders' meetings, including the ASE EGM at which the Share Exchange and other transactions contemplated by the Joint Share Exchange Agreement will be voted upon.

However, ASEE, a shareholder of ASE beneficially holding approximately 15.7% of the total outstanding share capital of ASE as of the date of this proxy statement/prospectus, is soliciting proxies in favor of the authorization and approval of the Share Exchange and other transactions contemplated by the Joint Share Exchange Agreement prior to the ASE EGM. ASEE is controlled by ASE's Chairman and Chief Executive Officer Jason C.S. Chang. ASEE will pay its own cost of soliciting proxies, including the cost of mailing the proxy statement. In addition to solicitation by use of the mails, proxies may be solicited by each of ASEE's directors and executive officers, each of whom is a participant in this solicitation, in person or by telephone or other means of communication. These persons will not receive additional compensation, but may be reimbursed for reasonable out-of-pocket expenses in connection with this solicitation. ASEE will make arrangements with brokerage houses, custodians, nominees and

Table of Contents

fiduciaries to forward proxy solicitation materials to beneficial owners of shares held of record by them. ASEE will also reimburse these brokerage houses, custodians, nominees and fiduciaries for their reasonable expenses incurred in forwarding the proxy materials.

Table of Contents

The Joint Share Exchange Agreement

Summary of the Joint Share Exchange Agreement

The following section contains a summary of certain provisions of the joint share exchange agreement dated June 30, 2016, as supplemented by the Supplemental Agreement. The following summary is qualified in its entirety by reference to the Joint Share Exchange Agreement itself, which is included in this proxy statement/prospectus as Annex A-1 and Annex A-2. We urge you to read the Joint Share Exchange Agreement carefully and in its entirety, as it is the legal document governing the Share Exchange.

Structure of the Share Exchange

The Share Exchange

Pursuant to the Joint Share Exchange Agreement, all of the issued and outstanding shares of ASE and SPIL will be transferred to a newly formed holding company, HoldCo, incorporated by ASE. HoldCo will issue new shares to ASE shareholders and pay a cash consideration to SPIL shareholders, each as described below. At the Effective Time, ASE and SPIL will become wholly owned subsidiaries of HoldCo, retaining their respective legal personalities.

HoldCo Articles of Incorporation

The Articles of Incorporation appended to the Joint Share Exchange Agreement will be proposed by the ASE board to the meeting of HoldCo's incorporators for adoption. Once the HoldCo incorporators' meeting passes the resolution to adopt the Articles of Incorporation, the Articles of Incorporation will become effective on the date when HoldCo is incorporated (which shall be the Effective Time).

Directors and Officers of HoldCo

Upon completion of the Share Exchange, the directors of SPIL will continue to serve as directors for their respective terms, and ASE has undertaken to reelect or appoint the directors whose terms end in June 2017, if they have not been

found to violate their respective fiduciary duties. SPIL's chairman (being Mr. Lin or his successor) and president (being Mr. Chi-Wen Tsai or his successor) are expected to serve as directors of the HoldCo. The directors of SPIL are also authorized to retain the executive officers of SPIL as long as the fiduciary duties of the directors can be discharged.

Consideration

At the Effective Time: (i) each issued SPIL Common Share immediately prior to the Effective Time (including SPIL's treasury shares), will automatically be transferred to HoldCo and converted into the right to receive NT\$55 in cash; and (ii) each SPIL ADS issued and outstanding immediately prior to the Effective Time, will be surrendered and converted into the right to receive NT\$275.

In addition, at the Effective Time: (i) each issued ASE Common Share (including ASE's treasury shares) immediately prior to the Effective Time, will be exchanged, in accordance with the exchange ratio, for 0.5 HoldCo Common Shares; and (ii) each ASE ADS issued and outstanding immediately prior to the Effective Time, will be surrendered in exchange for, in accordance with the exchange ratio, 1.25 HoldCo ADSs (following the Share Exchange, 1 HoldCo ADS will represent 2 HoldCo Common Shares, in contrast to the current ASE ADS, which represents 5 ASE Common Shares).

Treatment of Treasury Shares and Equity-Linked Securities

At the Effective Time, provided that the ASE 2015 Convertible Bonds and the ASE 2013 Convertible Bonds have not been redeemed, repurchased or repaid by ASE or converted and cancelled by the bondholders, HoldCo shall become the successor to both the ASE 2015 Convertible Bonds and the ASE 2013 Convertible Bonds pursuant to a supplemental indenture to be entered into among ASE, HoldCo and the trustee for each series of bonds. After the Effective time, provided that the ASE 2015 Convertible Bonds and the ASE 2013 Convertible Bonds have not

Table of Contents

been redeemed, repurchased or repaid by ASE or converted and cancelled by the bondholders, ASE shall continue to serve as an obligor under any outstanding ASE 2015 Convertible Bonds and ASE 2013 Convertible Bonds.

Treatment of the SPIL Convertible Bonds

If any of SPIL Convertible Bonds have not been redeemed or repurchased by SPIL and cancelled or converted by holders of the SPIL Convertible Bonds prior to the Effective Time, ASE and HoldCo jointly warrant to SPIL that HoldCo, as co-obligors with SPIL pursuant to a supplemental indenture to be entered into among SPIL, HoldCo and the trustee of the SPIL Convertible Bonds, will pay Cash Consideration (subject to additional adjustments according to the terms of the Joint Share Exchange Agreement and applicable laws), without interest and net of any applicable withholding tax, to such holders of SPIL Convertible Bonds for each SPIL Common Share they are entitled to receive if they exercise their conversion rights after the Effective Time.

Treatment of Fractional Shares

HoldCo will not issue any fractional shares of HoldCo Common Shares or HoldCo ADSs pursuant to the Share Exchange. Instead, ASE will aggregate the fractional entitlements and sell the aggregated ASE Common Shares using the closing price of ASE Common Shares on the TWSE on the trading day immediately preceding the Effective Time. Each holder of ASE Common Shares who otherwise would have received a fraction of a share of HoldCo Common Shares, will be entitled to receive, on a proportionate basis, the cash proceeds from the sale of such fractional shares.

Adjustments to the Consideration

The Cash Consideration of NT\$55 per SPIL Common Share and NT\$275 per SPIL ADS will be adjusted if SPIL issues any shares or cash dividends between the date of the Joint Share Exchange Agreement and the Effective Time, provided, that the Cash Consideration will not be adjusted if SPIL's cash dividends in 2017, in aggregate, are less than 85% of SPIL's after-tax net profit for the year 2016. In 2017, SPIL made a dividend distribution of NT\$1.75 per share, which represented 55% of its after-tax net profit for the year 2016. Therefore, no adjustments were made to the Cash Consideration.

ASE and SPIL will negotiate changes to the Cash Consideration in good faith as a result of the occurrence of certain events set forth below to the extent such events occur prior to the Effective Time and result in a reduction, individually or in aggregate, in SPIL's consolidated net book value by 10% or more compared to SPIL's net book value in its consolidated audited financial statements as of March 31, 2016 (excluding any such decrease resulting from

dividends distributed by SPIL):

issuance of equity-linked securities by SPIL (except for any shares of SPIL issued as a result of the exercise of conversion rights of holders of SPIL Convertible Bonds;

disposal of material assets by SPIL;

occurrence of a major disaster causing a material adverse effect to SPIL, material technical changes or other circumstances affecting SPIL's shareholders' interests or the share price of SPIL Common Shares; and

repurchase of treasury shares by SPIL, except for the repurchase of SPIL Common Shares following the exercise of appraisal rights by SPIL shareholders in connection with the Share Exchange.

As of the date of this proxy statement/prospectus, ASE and SPIL are not aware of any events requiring the parties to adjust the Cash Consideration.

Appraisal Rights

Without prejudice to the appraisal rights described below in the section entitled "Rights of Dissenting Shareholders," if a SPIL shareholder or ASE shareholder exercises its appraisal rights, SPIL or ASE, respectively, will repurchase such shares in accordance with applicable law and regulations.

Table of Contents

Closing of the Share Exchange

Subject to the satisfaction or waiver (as applicable) of the conditions to closing of the Share Exchange, the Share Exchange is expected to occur on a date to be agreed by HoldCo's board of directors, the SPIL Board and the ASE Board, which date will be agreed upon and approved by such parties within 10 days of receipt of the approvals of their respective general shareholders' meetings to effect the Share Exchange.

Within three (3) business days after the Effective Time, HoldCo will pay the full Cash Consideration to a dedicated capital account opened by SPIL's stock transfer agent. ASE and HoldCo shall be jointly and severally liable for such payment obligation.

Representations and Warranties

The Joint Share Exchange Agreement contains various customary representations and warranties that SPIL makes to ASE relating to, among other things:

· SPIL's due incorporation, valid existence and authority to carry on its business operations

· capitalization of SPIL;

· absence of violations of: (i) current laws or regulations of the ROC, (ii) judgments, orders or dispositions by courts, (iii) organizational documents, or (iv) contracts, representations, warranties or other obligations of SPIL, in each case as a result of entry into the Joint Share Exchange Agreement

· authority to enter into the Joint Share Exchange Agreement

· enforceability of the Joint Share Exchange Agreement;

· approval of the SPIL Board and/or shareholders' meeting in connection with the Share Exchange;

· financial statements

· taxes;

- the absence of litigation;
- the absence of undisclosed liabilities
- title to assets;
- absence of new material debts since December 31, 2015;
- intellectual property;
- labor matters;
- environmental matters;
- material contracts;
- absence of default under contracts;
- compliance with laws; and

Table of Contents

- accuracy of materials provided to prepare and file this proxy statement/prospectus.

The Joint Share Exchange Agreement contains various customary representations and warranties that ASE makes to SPIL relating to, among other things:

- ASE's due incorporation, valid existence and authority to carry on its business operations

- capitalization of ASE;

absence of violations of: (i) current laws or regulations of the ROC, (ii) judgments, orders or dispositions by courts, (iii) organizational documents, or (iv) contracts, representations, warranties or other obligations of ASE, in each case as a result of entry into the Joint Share Exchange Agreement

- authority to enter into the Joint Share Exchange Agreement

- enforceability of the Joint Share Exchange Agreement; and

- approval of the ASE Board and/or meeting of ASE's shareholders in connection with the Share Exchange.

The Joint Share Exchange Agreement contains various customary representations and warranties that ASE agrees to cause HoldCo to make to SPIL relating to, among other things:

- HoldCo's due incorporation, valid existence and authority to carry on its business operations

absence of violations of: (i) current laws or regulations of the ROC, (ii) judgments, orders or dispositions by courts, (iii) organizational documents, or (iv) contracts, representations, warranties or other obligations of HoldCo, in each case as a result of entry into the Joint Share Exchange Agreement and

- approval of HoldCo's incorporators' meeting in connection with the Share Exchange.

Many of the representations and warranties of each party in the Joint Share Exchange Agreement are qualified by knowledge, materiality thresholds or "material adverse effect." SPIL's representations and warranties are also qualified by information in disclosure schedules and its publicly available disclosures filed with the Taiwan Financial Supervisory Commission, the TWSE and the SEC.

For purposes of the Joint Share Exchange Agreement, a “material adverse effect” to ASE or SPIL means any change, development, incident, matter, effect or fact that, individually or in aggregate, results in a material adverse effect on SPIL and its subsidiaries, or ASE and its subsidiaries, as applicable, taken as a whole, where “material” means the occurrence of such events that, individually or in the aggregate, result in a decrease in the consolidated net book value of SPIL, or ASE, as applicable, by 10% or more, compared to SPIL’s or ASE’s, as applicable, consolidated audited financial statements as of March 31, 2016; provided that, for the purposes of this definition, in no event will any of the following, individually or in the aggregate, be regarded as having or be taken into account in determining whether there has been a material adverse effect:

- a change in capital market conditions or general economic conditions;

a change in geopolitical conditions occurring after the date the Joint Share Exchange Agreement was executed, or outbreak or escalation of any conflict, or any acts of terrorism or war;

- a force majeure event occurring after the date the Joint Share Exchange Agreement was executed;

- any change in applicable law after the date the Joint Share Exchange Agreement was executed;

- any change of the industry in which the party or its subsidiaries operate;

the failure, in and of itself, to meet any predictions, forecasts, projections or estimates of revenue, profits or other financial or operational targets, or a change of market price, credit rating or trading volume of the party’s securities, provided that the directors of the party have met their duties of care and loyalty;

Table of Contents

the announcement of the execution of the Joint Share Exchange Agreement or the consummation of the Share Exchange, including any transaction-related litigation, any actions required by the covenants in the Joint Share Exchange Agreement, any loss of or change of relationship with any customer, supplier, distributor or other business partners of the party or its subsidiaries, or any loss of any employees or senior management, provided that the directors of the party have met their duties of care and loyalty; and

in the case of ASE only, any internal restructuring of ASE and/or its subsidiaries.

The representations and warranties of each of the parties to the Joint Share Exchange Agreement will terminate upon the Effective Time or termination of the Joint Share Exchange Agreement in accordance with its terms

Pre-Closing Covenants and Agreements

Conduct of Business of SPIL Pending Closing

From the date of execution of the Joint Share Exchange Agreement until the Effective Time, SPIL will not, and will not procure its subsidiaries to, among other matters:

issue any equity-linked securities (other than shares issued as a result of the exercise of conversion rights by holders of SPIL Convertible Bonds); or

directly or indirectly repurchase, individually or through any third party, any shares or equity-linked securities, or reduce its share capital or enter into any plan of dissolution, or make any filings in connection with restructuring, settlement or bankruptcy, except for the repurchase of shares from shareholders exercising appraisal rights or in connection with the redemption of SPIL Convertible Bonds.

Superior Proposals

Except (i) if required by a court judgment, arbitral award, approval or order, administrative decision or burden/condition approved by both ASE and SPIL by competent authorities (including the TWSE, TFTC, FTC, the MOFCOM or the SEC), or (ii) if SPIL receives a Superior Proposal (as described below), SPIL has agreed that between the date of the Joint Share Exchange Agreement and the Effective Time, it will not, and it will not procure its subsidiaries to, and none of its directors, managers, employees, agents or representatives may, offer or agree to enter into, or execute, any contract, agreement or other arrangement with any third party in respect of any of the following

transactions (an “Alternate Transaction”):

any transaction that may involve a spin-off, purchase or sale of SPIL or any other company’s shares of a non-financial investment nature;

a lease of all SPIL’s businesses to a third party, a joint operation with a third party, or the acquisition of the entire business or assets from a third party (except for the acquisition of the entire business or assets from a third party in an aggregate amount less than NT\$500,000,000);

any merger or acquisition that does not involve the issue of shares in HoldCo;

any sale of any or all material assets or businesses of SPIL’s wholly owned subsidiaries; and

any disposal of any interest in any material assets or businesses, or exclusive licenses of material patents or technologies, in each case of SPIL’s wholly owned subsidiaries.

For purposes of the Joint Share Exchange Agreement, “Superior Proposal” means a *bona fide*, unsolicited written offer to SPIL to enter into any Alternate Transaction, made by a party other than ASE, SPIL or any of SPIL’s directors, managers, employees, agents or representatives, where the terms and conditions of such an offer are considered to be more favorable to SPIL and SPIL’s shareholders than the terms and conditions of the Share Exchange, as evidenced by opinions separately issued by a renowned investment bank and law firm appointed by SPIL’s audit committee. If SPIL receives a Superior Proposal from a third party the conditions of which, in the respective opinions of SPIL’s audit committee and the SPIL Board, are more favorable than those of the Share Exchange, SPIL will notify ASE in writing of such superior proposal and furnish ASE with details of the entire Superior Proposal. From the fifth business day following the delivery of such notice to ASE, SPIL will be permitted

Table of Contents

to negotiate with, propose to, inquire with, deliberate with, contact, discuss with, offer to or consult with such third party. ASE and SPIL agree that if SPIL does not consummate the Share Exchange due to its acceptance of a Superior Proposal, SPIL will pay to ASE a termination fee in the amount of NT\$17 billion.

Other Pre-closing Covenant of SPIL

After ASE issues to SPIL, in connection with the payment of entire amount of the cash consideration under the Joint Share Exchange Agreement, the financing plan and a highly confident letter in respect of the financing of the Transaction issued by banks conforming to the market practice, SPIL shall in its SEC filings recommend to its shareholders to vote in favor of approving the Joint Share Exchange Agreement and the Transaction.

Regulatory Approvals

ASE and HoldCo have agreed to use commercially reasonable efforts to, and SPIL has agreed to use reasonable efforts to, in each case, obtain all approvals relating to the Share Exchange from competent authorities. SPIL has agreed to use commercially reasonable efforts to assist ASE and HoldCo in making all filings and notifications and providing all information to competent authorities, including making all required filings with the TFTC, MOFCOM and the FTC. In addition, SPIL, ASE and HoldCo have agreed to comply with the Taiwan Fair Trade Act and all relevant laws.

ASE, HoldCo and SPIL have agreed to act in good faith and with goodwill in deciding, jointly, whether to accept any conditions or burdens imposed by any of the TFTC, the FTC or MOFCOM as a condition to obtaining approvals or avoiding a legal challenge from such authorities. ASE and SPIL have agreed to comply with any such conditions or burdens agreed by ASE and SPIL. Following the Effective Time, ASE, HoldCo and SPIL will comply with any conditions or burdens imposed by the TFTC, the FTC or MOFCOM, which ASE and SPIL have agreed to.

Covenants of ASE Pending Closing

Except (i) if SPIL has materially breached any of its representations, warranties or covenants under the Joint Share Exchange Agreement, (ii) if there is any action taken by SPIL that would prevent the consummation of the Share Exchange without just cause, or (iii) where SPIL's directors have breached their duty of care or loyalty in relation to the Share Exchange, in each case during the period from the execution of the Joint Share Exchange Agreement to the Effective Time, ASE (and, if applicable, HoldCo) have agreed to:

support the candidates for SPIL's 13th board of directors nominated by the SPIL Board when SPIL re-elects its board of directors in June 2017;

not intervene in the operation of SPIL and to support the motions put forward by SPIL's Board at SPIL's shareholders' meeting, including by abstaining from voting on any motion that threatens SPIL's interests and to not solicit proxies or seek to replace SPIL's directors, including by convening an extraordinary general meeting of SPIL shareholders, and no current or former director of ASE or any of its subsidiaries, or their spouses, other relatives and certain other persons may serve as a director of SPIL;

maintain the competition between, and the respective independence of, ASE and SPIL, without the hiring of any of SPIL's employees by ASE; and

not purchase or acquire shares in SPIL or increase its interest in SPIL in any manner that violates applicable law; provided that, for any shares in SPIL acquired by ASE in accordance with applicable law between the date the Joint Share Exchange Agreement was executed and the Effective Time, (i) ASE may dispose of such shares freely for financial purposes, provided that the disposed shares are in aggregate less than 10% of the total issued and outstanding share capital of SPIL, and (ii) ASE may transfer shares of SPIL to persons who do not operate any businesses in the integrated circuit packaging industry; provided that if the transferred shares are in aggregate more than 10% of the total issued and outstanding share capital of SPIL, ASE will obtain SPIL's prior written consent to such a transfer.

(collectively, the "ASE Surviving Covenants")

Table of Contents

Shareholders' Meeting

SPIL and ASE, respectively, will cause an extraordinary general meeting of its shareholders to be duly called and held, on the same date, to approve the Joint Share Exchange Agreement and the Share Exchange. SPIL and ASE will jointly determine the date of such extraordinary general meetings upon receiving antitrust clearance or approvals from any two of the TFTC, MOFCOM and FTC. Such date shall be no later than seventy (70) calendar days after antitrust clearance or approvals from each of the TFTC, MOFCOM and FTC have been obtained.

In addition, from the business day immediately following the date on which the SEC confirms that it has no further comments on the respective SEC filing documents required for SPIL and ASE, each of SPIL and ASE will take all necessary actions to call an extraordinary general meeting of its shareholders. The date of such extraordinary general meetings shall be no later than seventy (70) calendar days after the date on which the SEC confirms that it has no further comments on the respective SEC filings documents required for SPIL and ASE.

Financing

ASE shall, before SPIL's submission of Schedule 13e-3 to the SEC, confirm with SPIL the types and composition of ASE's and HoldCo's funding sources and present proof documentation in respect of funding sources (including, but not limited to, the financing plan and a highly confident letter conforming to the market practice and issued by bank(s) financing the Share Exchange) that can demonstrate ASE's and HoldCo's ability to fully pay for the consideration of the Share Exchange.

Conditions to Consummation of the Share Exchange

The obligations of ASE, SPIL and HoldCo to consummate the Share Exchange are subject to the satisfaction of the following conditions:

ASE and SPIL will each have obtained unconditional approval of the Share Exchange at their respective general shareholders' meetings;

receipt of approvals from all relevant competent authorities, including, but not limited to, (i) the TWSE and the SEC (ii) the TFTC and MOFCOM and (iii) the FTC completing its investigation without seeking an injunction prohibiting the Share Exchange (in the case of (ii) and (iii), including approvals or consents of conditions imposed by such

authorities that both ASE and SPIL have agreed to accept); and

no order (or agreement with the FTC) is in effect and enforceable prohibiting, enjoining or rendering illegal the consummation of the Share Exchange, and no law shall have been enacted or enforced after the date the Joint Share Exchange Agreement was executed rendering illegal or prohibiting the consummation of the Share Exchange; provided that the enforcement of an order or law shall not include the decision by a governmental entity to extend the waiting period or initiate an investigation under antitrust laws or other applicable law.

In addition, ASE's and HoldCo's obligations to consummate the Share Exchange are subject to the satisfaction or waiver by ASE and HoldCo of the following additional conditions:

all representations and warranties of SPIL are true and accurate as of the date the Joint Share Exchange Agreement was executed and as of the Effective Time, except to the extent no material adverse effect on SPIL has occurred;

SPIL has performed in all material respects all obligations and undertakings required to be performed by it under the Joint Share Exchange Agreement prior to the Effective Time

no material adverse effect to SPIL shall have occurred prior to the Effective Time; and

prior to the Effective Time, no force majeure events will have occurred which, individually or in aggregate, result in a decrease in SPIL's consolidated net book value by 30% or more, relative to SPIL's net book value in its consolidated audited financial statements as of March 31, 2016.

Table of Contents

In addition, SPIL's obligation to consummate the Share Exchange is subject to the satisfaction or waiver of the following additional conditions:

all representations and warranties of ASE are true and accurate as of the date the Joint Share Exchange Agreement was executed and as of the Effective Time, except to the extent no material adverse effect on ASE has occurred

all representations and warranties of HoldCo are true and accurate as of the Effective Time, except to the extent no material adverse effect on HoldCo has occurred

ASE and HoldCo have performed in all material respects all obligations and undertakings required to be performed by each of them under the Joint Share Exchange Agreement prior to the Effective Time

no material adverse effect to ASE will have occurred prior to the Effective Time; and

prior to the Effective Time, no force majeure events will have occurred which, individually or in aggregate, result in a decrease in ASE's consolidated net book value by 30% or more, relative to ASE's net book value in its consolidated audited financial statements as of March 31, 2016.

The consummation of the Share Exchange is subject to the satisfaction or waiver of all the conditions set forth above on or prior to the Long Stop Date. If the closing of the Share Exchange cannot be completed due to the failure to satisfy the conditions set forth above on or prior to the Long Stop Date, the Joint Share Exchange Agreement will automatically terminate at midnight on the day immediately following the Long Stop Date.

Termination and Events of Default

Termination of Joint Share Exchange Agreement

The Joint Share Exchange Agreement may be terminated prior to the Effective Time by either ASE or SPIL if any of the following occurs:

a law, judgment, court order or administrative decision issued by a competent authority restricts or prohibits the consummation of the Share Exchange, and such restriction or prohibition has been confirmed and cannot be remedied by amending the Joint Share Exchange Agreement; or

the Joint Share Exchange Agreement and Share Exchange are not approved by ASE's shareholders or SPIL's shareholders at their respective shareholder meetings.

The Joint Share Exchange Agreement may also be terminated at any time prior to the Effective Time by ASE if SPIL has breached or failed to perform any of its representations, warranties, undertakings or obligations under the Joint Share Exchange Agreement and such breach leads to the failure to satisfy the conditions to the consummation and is by its nature not capable of being cured, or is not cured by SPIL within 30 business days of receiving written notice of such breach, and is not waived in writing by ASE.

The Joint Share Exchange Agreement may also be terminated at any time prior to the Effective Time by SPIL if ASE has breached or failed to perform any of its representations, warranties, undertakings or obligations under the Joint Share Exchange Agreement and such breach leads to the failure to satisfy the conditions to the consummation and is by its nature not capable of being cured, or is not cured by ASE within 30 business days of receiving written notice of such breach, and is not waived in writing by SPIL.

If the Share Exchange is not consummated on or before the Long Stop Date, the Joint Share Exchange Agreement will automatically terminate at midnight on the day immediately following the Long Stop Date.

Events of Default and Consequences of Termination

An event of default will occur if ASE, HoldCo or SPIL breach any of their obligations, undertakings, representations or warranties under the Joint Share Exchange Agreement, and such breach is by its nature not capable of being cured or, if such breach is by its nature capable of being cured, the non-defaulting party requests that the defaulting party cure such breach within 15 days and such breach is not cured within 15 days; provided that

Table of Contents

HoldCo and ASE are jointly and severally liable for breaches committed by either party, and a breach of any representation or warranty made prior to the Effective Time will no longer constitute an event of default as of the Effective Time.

Upon the occurrence of an event of default that prevents the consummation of the Share Exchange on or prior to the Long Stop Date, the non-defaulting Party will be entitled to terminate the Joint Share Exchange Agreement and claim from the defaulting party all necessary expenses incurred in connection with entering into the Joint Share Exchange Agreement and the performance of the obligations thereunder, in addition to any rights, remedies and damages under applicable law, subject to any adjustments for the contributory negligence of the non-defaulting party. The percentage of such contributory negligence may be determined by an expert appraiser appointed by both ASE and SPIL without being determined by arbitration. In addition to any right of termination and claims for expenses, upon the occurrence of certain prescribed material events of default, the non-defaulting party will also be entitled to liquidated damages in the amount of NT\$8.5 billion from the defaulting party, subject to adjustments for contributory negligence by the non-defaulting party.

Post-Termination Obligations

Unless ASE terminates the Joint Share Exchange Agreement for breach by SPIL, ASE has agreed to comply with the ASE Surviving Covenants and SPIL has agreed to be bound by the provisions relating to a Superior Proposal, and the payment of the break fee, in each case for six (6) months from the date of termination of the Joint Share Exchange Agreement. In addition, ASE has agreed to maintain its position as solely a financial investor in SPIL without intervening with SPIL's independent operations during such six (6) month period.

Post-Closing Operation and Corporate Governance

Board and Management of HoldCo

The directors of HoldCo will be comprised of nine to thirteen non-independent directors, appointed at a meeting of HoldCo's incorporators, and three supervisors, who will be future independent directors. The Chairman of SPIL and President of SPIL will each be appointed (non-independent) directors of HoldCo. ASE and SPIL will jointly nominate one independent director, when HoldCo appoints independent directors.

Independence

ASE and SPIL have agreed to comply with certain post-closing covenants to ensure the continued independence of SPIL following the consummation of the Share Exchange, including that SPIL will become a wholly owned subsidiary of HoldCo but its independent operations and the competition between ASE and SPIL will be maintained. In addition, subject to applicable law, the duties of SPIL's directors and the interests of HoldCo, HoldCo agrees to comply with the following covenants:

the operations of SPIL will be run by the SPIL Board, who will maintain control over SPIL's organizational documents, personnel, payroll or welfare systems, financial budgets, audit, technology research and development, operations and marketing; and other matters, in each case so as to maintain the independence of SPIL's operations;

any matter relating to SPIL's rights and obligations will be controlled by the SPIL Board or under its authorization, and the operation of SPIL's businesses will be conducted by the SPIL Board or under its direction;

HoldCo will, to the extent that it is capable, provide guaranties, funding or other support sufficient to enable SPIL to obtain financing from third parties (including, but not limited to, guarantee documentation acceptable to financing parties), in order to meet SPIL's funding needs, including but not limited to capital expenditure and working capital;

SPIL's management, employees, current organizational structure, compensation and relevant benefits as of the date of execution of the Joint Share Exchange Agreement will be maintained;

for so long as SPIL is a subsidiary of HoldCo, the SPIL Board will nominate and appoint directors and supervisors of SPIL in its sole discretion (and HoldCo will appoint such candidates), and such directors will

Table of Contents

not be replaced or otherwise removed without the consent of the SPIL Board; and the compensation and benefits of SPIL's directors as of the date of execution of the Joint Share Exchange Agreement will be maintained; and

HoldCo may not dispose of any shares in SPIL without SPIL's consent.

Based on the principle of reciprocity, SPIL will, to the extent that it is capable, provide guaranties, funding or other support sufficient to enable HoldCo to obtain financing from third parties (including, but not limited to, guarantee documentation acceptable to financing parties), in order to meet HoldCo's funding needs, including but not limited to capital expenditure and working capital.

ASE, HoldCo and SPIL have agreed that, following the Effective Time, none of ASE, SPIL or any of the other wholly owned subsidiaries of HoldCo, or any of their directors, managers or agents, without the consent of HoldCo, will offer, agree or enter into any agreement with any third party regarding an Alternate Transaction.

In addition, HoldCo and its subsidiaries (other than ASE and SPIL) will not provide ASE with customer details or competitively sensitive information obtained from SPIL, including but not limited to production and sales costs, product price/quantity and details of suppliers, without the consent of SPIL and in accordance with applicable antitrust laws.

SPIL has the right to initiate arbitration against HoldCo or its subsidiaries if ASE commits an event of default under the Joint Share Exchange Agreement.

Employee Benefits and Rights

HoldCo has agreed that, for all employees of SPIL as of the Effective Time, HoldCo will ensure that, subject to certain exceptions set forth in the Joint Share Exchange Agreement, they continue to receive existing employee benefits, work under the conditions and be subject to the same personnel regulations. The employment rights for employees of SPIL will be protected, except where such employee committed a material breach of applicable law or the personnel regulations of SPIL.

In addition, HoldCo will reserve a portion of HoldCo's employee stock options for SPIL's management and employees. HoldCo will determine the plan and terms for the issue of employee stock options and the proportion to be reserved for employees of SPIL based on the number of employees; each employee's contribution and performance results, and

the profitability of HoldCo's future subsidiaries. SPIL will determine, in accordance with its personnel regulations, the proportion of such HoldCo's employee stock options to be distributed to SPIL's management and its other employees.

ASE and HoldCo have agreed that SPIL's management team may, in its sole discretion and within three months after the completion of the Share Exchange, implement reasonable and appropriate one-off plans to retain members of SPIL's management and/or determine whether or not to accept resignations from SPIL employees who choose to resign after the Effective Time and the terms of such resignations; provided that the SPIL management team does not violate its duty of loyalty or duty of care.

Expenses

Except as otherwise explicitly provided for in the Joint Share Exchange Agreement, all costs and expenses incurred by the parties in connection with the Share Exchange will be paid by the party incurring such costs and expenses.

Governing Law and Jurisdiction

The Joint Share Exchange Agreement is governed by and is to be construed, in all respects, with the law of ROC, including as to interpretation, effectiveness and performance. The parties have agreed to submit disputes arising out of the Joint Share Exchange Agreement to the Chinese Arbitration Association in Taipei.

Table of Contents

Description of HoldCo Common Shares

The following information relates to the shares of HoldCo Common Shares, including summaries of certain provisions of HoldCo's Articles of Incorporation and of the ROC Company Law.

General

The authorized share capital of HoldCo will be as provided in its Articles of Incorporation, of which such number of shares as to be determined will be issued.

Dividends

In general, HoldCo will not be permitted to distribute dividends or make other distributions to shareholders in any year in which it did not record net income or retained earnings (excluding reserves). The ROC Company Law also requires that 10% of annual net income (less prior years' losses, if any) be set aside as a legal reserve until the accumulated legal reserve equals our paid-in capital. In addition, the Articles of Incorporation of HoldCo, if adopted at the ASE EGM to vote for the Share Exchange and other transactions contemplated by the Joint Share Exchange Agreement, will provide that if HoldCo is profitable, 0.1% (inclusive) to 1% (inclusive) of the profits shall be allocated as compensation to employees and 0.75% (inclusive) or less of the profits should be allocated as compensation to directors; however, provided that HoldCo has accumulated losses, the profit shall be set aside to compensate losses before such allocation. The Articles of Incorporation of HoldCo further provide that the annual net income shall be distributed in the order of sequences below:

making up for losses, if any;

10% being set aside as legal reserve;

allocation or reversal of a special surplus reserve in accordance with laws or regulations set forth by the authorities concerned; and

addition or deduction of the portion of retained earnings that are equity investment gains or losses that have been realized and measured at fair value through other overall gains or losses.

At the ASE EGM, the board of directors of HoldCo will submit to the shareholders for their approval any proposal for the distribution of dividends or the making of any other distribution to shareholders from HoldCo' net income for the preceding fiscal year. All common shares outstanding and fully paid as of the relevant record date are entitled to share equally in any dividend or other distribution so approved. Dividends may be distributed in cash, in the form of common shares or a combination of the two, as determined by the shareholders at the meeting. The Articles of Incorporation of HoldCo, if adopted at the ASE EGM to vote for the Share Exchange and other transactions contemplated by the Joint Share Exchange Agreement, will provide that cash dividend distribution should not be lower than 30% of the total dividend amount and the remainder be distributed as stock dividends.

HoldCo will also be permitted to make distributions to its shareholders in cash or in the form of common shares from reserves if it has no accumulated loss. However, the distribution payable out of HoldCo' legal reserve can only come from the amount exceeding 25% of the total paid-in capital.

Changes in Share Capital

Under ROC Company Law, any change in the authorized share capital of a company limited by shares requires an amendment to its Articles of Incorporation, which in turn requires approval at the shareholders' meeting. In the case of a public company such as HoldCo, it must also obtain the approval of, or submit a report to, the FSC and the Kaohsiung Export Processing Zone Administration. Authorized but unissued common shares may be issued, subject to applicable ROC law, upon terms as the board of directors of HoldCo may determine.

Preemptive Rights

Under the ROC Company Law, when an ROC company issues new shares for cash, existing shareholders who are listed on the shareholders' register as of the record date have preemptive rights to subscribe for the new issue in proportion to their existing shareholdings, while a company's employees, whether or not they are shareholders of the

Table of Contents

company, have rights to subscribe for 10% to 15% of the new issue. Any new shares that remain unsubscribed at the expiration of the subscription period may be freely offered, subject to compliance with applicable ROC law.

In addition, in accordance with the ROC Securities and Exchange Law, a public company that intends to offer new shares for cash must offer to the public at least 10% of the shares to be sold, except under certain circumstances or when exempted by the FSC. This percentage can be increased by a resolution passed at a shareholders' meeting, which would diminish the number of new shares subject to the preemptive rights of existing shareholders.

These preemptive rights provisions do not apply to offerings of new shares through a private placement approved at a shareholders' meeting.

Meetings of Shareholders

HoldCo will be required to hold an annual general meeting of our shareholders within six months following the end of each fiscal year. These meetings are generally held in Kaohsiung, Taiwan. Any shareholder who holds 1% or more of HoldCo' issued shares may submit one written proposal for discussion at our annual general meeting. Extraordinary shareholders' meetings may be convened by resolution of the board of directors or by the board of directors upon the written request of any shareholder or shareholders who have held 3% or more of the outstanding common shares for a period of one year or longer. Shareholders' meetings may also be convened by a supervisor. Notice in writing of meetings of shareholders, stating the place, time and purpose, must be dispatched to each shareholder at least 30 days, in the case of annual general meetings, and 15 days, in the case of extraordinary meetings, before the date set for each meeting. A majority of the holders of all issued common shares present at a shareholders' meeting constitutes a quorum for meetings of shareholders.

Voting Rights

Under the ROC Company Law, except under limited circumstances, shareholders have one vote for each common share held. Under the ROC Company Law, our directors and supervisors are elected at a shareholders' meeting through cumulative voting.

In general, a resolution can be adopted by the holders of at least a majority of our common shares represented at a shareholders' meeting at which the holders of a majority of all issued common shares are present. Under ROC Company Law, the approval by at least a majority of HoldCo Common Shares represented at a shareholders' meeting in which a quorum of at least two-thirds of all issued common shares are represented is required for major corporate

actions (alternatively, ROC Company Law provides that in case of a public company, such as HoldCo, a resolution to approve such major corporate actions may be adopted by the holders of at least two-thirds of the shares represented at a meeting of shareholders at which holders of at least a majority of issued and outstanding shares are present), including:

- amendment to the Articles of Incorporation, including increase of authorized share capital and any changes of the rights of different classes of shares;

- execution, amendment or termination of any contract through which the company leases its entire business to others, or the company appoints others to operate its business or the company operates its business with others on a continuous basis;

- transfer of entire business or assets or a substantial part of its business or assets;

- acquisition of the entire business or assets of any other company, which would have a significant impact on the company's operations;

- distribution of any stock dividend;

- dissolution, merger or spin-off of the company;

- issuance of restricted shares to employees; and

- removal of the directors or supervisors.

Table of Contents

A shareholder may be represented at an annual general or extraordinary meeting by proxy if a valid proxy form is delivered to HoldCo five days before the commencement of the annual general or extraordinary shareholders' meeting. Shareholders may exercise their voting rights by way of electronic means if the voting is made on the website maintained by the Taiwan Depository & Clearing Corporation (<http://www.stockvote.com.tw>) in accordance with the instructions provided therein.

Holders of HoldCo ADSs do not have the right to exercise voting rights with respect to the underlying common shares, except as described in the deposit agreement.

Other Rights of Shareholders

Under the ROC Company Law, dissenting shareholders are entitled to appraisal rights in certain major corporate actions such as a proposed amalgamation by the company. If agreement with the company cannot be reached, dissenting shareholders may seek a court order for the company to redeem all of their shares. Shareholders may exercise their appraisal rights by serving written notice on the company prior to or at the related shareholders' meeting and/or by raising and registering an objection at the shareholders' meeting (see "Special Factors — Rights of Dissenting Shareholders"). In addition to appraisal rights, shareholders have the right to sue for the annulment of any resolution adopted at a shareholders' meeting where the procedures were legally defective within 30 days after the date of the shareholders' meeting. One or more shareholders who have held 3% or more of the issued and outstanding shares of a company for a period of one year or longer may require a supervisor or an independent director (in the event a company's supervisors are replaced by an audit committee as required by ROC Company Law) to bring a derivative action on behalf of the company against a director as a result of the director's unlawful actions or failure to act.

Rights of Holders of Deposited Securities

For rights of holders of deposited securities, please see "Description of HoldCo American Depositary Shares — Voting Rights."

Register of Shareholders and Record Dates

HoldCo's share registrar, President Securities Corp., will maintain HoldCo's register of shareholders at its offices in Kaohsiung, Taiwan. Under the ROC Company Law and the Articles of Incorporation of HoldCo, HoldCo may, by giving advance public notice, set a record date and close the register of shareholders for a specified period in order for it to determine the shareholders or pledgees that are entitled to rights pertaining to its common shares. The specified

period required is as follows:

· annual general meeting—60 days;

· extraordinary shareholders' meeting—30 days; and

· relevant record date—5 days.

Annual Financial Statements

At least ten days before the annual general meeting, HoldCo' annual financial statements, which are prepared in conformity with Taiwan IFRS, must be available at our principal executive office in Kaohsiung, Taiwan for inspection by the shareholders.

Transfer of Common Shares

The transfer of common shares in registered form is effected by endorsement and delivery of the related share certificates but, in order to assert shareholders' rights against HoldCo, the transferee must have his name and address registered on our register of shareholders. Shareholders are required to file their respective specimen seals, also known as chops, with us. Chops are official stamps widely used in Taiwan by individuals and other entities to authenticate the execution of official and commercial documents. The settlement of trading in our common shares is normally carried out on the book-entry system maintained by the Taiwan Depository & Clearing Corporation.

Table of Contents

Acquisition of Common Shares by HoldCo

Under the ROC Securities and Exchange Law, HoldCo may purchase its own common shares for treasury stock in limited circumstances, including:

- to transfer shares to HoldCo' employees;

- to deliver shares upon the conversion or exercise of bonds with warrants, preferred shares with warrants, convertible bonds, convertible preferred shares or warrants issued by HoldCo; and

- to maintain HoldCo's credit and shareholders' equity, provided that the shares so purchased shall be canceled.

HoldCo may purchase its common shares on the TWSE or by means of a public tender offer. These transactions require the approval of a majority of SPIL Board of directors at a meeting in which at least two-thirds of the directors are in attendance. The total amount of common shares purchased for treasury stock may not exceed 10.0% of the total issued shares. In addition, the total cost of the purchased shares shall not exceed the aggregate amount of our retained earnings, any premium from share issuances and the realized portion of HoldCo' capital reserve.

HoldCo may not pledge or hypothecate any of our shares purchased by us. In addition, it may not exercise any shareholders' right attaching to such shares. In the event that HoldCo purchases its shares on the TWSE, its affiliates, directors, supervisors, managers, and their respective spouses and minor children and/or nominees are prohibited from selling any of HoldCo' shares during the period in which HoldCo is purchasing our shares.

Pursuant to the ROC Company Law, an entity in which HoldCo directly or indirectly owns more than 50.0% of the voting shares or paid-in capital, which is referred to as a controlled entity, may not purchase our shares. Also, if our company and a controlled entity jointly own, directly or indirectly, more than 50.0% of the voting shares or paid-in capital of another entity, which is referred to as a third entity, the third entity may not purchase shares in either our company or a controlled entity.

Liquidation Rights

In the event of our liquidation, the assets remaining after payment of all debts, liquidation expenses and taxes will be distributed pro rata to the shareholders in accordance with the relevant provisions of the ROC Company Law and our

Articles of Incorporation.

Transfer Restrictions

Substantial Shareholders

The ROC Securities and Exchange Law currently requires:

each director, supervisor, manager, or substantial shareholder (that is, a shareholder who holds more than 10.0% shares of a company), and their respective spouses, minor children or nominees, to report any change in that person's shareholding to the issuer of the shares and the FSC; and

each director, supervisor, manager, or substantial shareholder, and their respective spouses, minor children or nominees, after acquiring the status of director, supervisor, manager, or substantial shareholder for a period of six months, to report his or her intent to transfer any shares on the TWSE to the FSC at least three days before the intended transfer, unless the number of shares to be transferred does not exceed 10,000 shares.

In addition, the number of shares that can be sold or transferred on the TWSE by any person subject to the restrictions described above on any given day may not exceed:

0.2% of the outstanding shares of the company in the case of a company with no more than 30 million outstanding shares; or

Table of Contents

0.2% of 30 million shares plus 0.1% of the outstanding shares exceeding 30 million shares in the case of a company with more than 30 million outstanding shares; or

in any case, 5.0% of the average trading volume (number of shares) on the TWSE for the ten consecutive trading days preceding the reporting day on which the director, supervisor, manager or substantial shareholder reports the intended share transfer to the FSC.

These restrictions do not apply to sales or transfers of HoldCo ADSs.

Table of Contents

Description of HoldCo American Depositary Shares

Citibank, N.A. has agreed to act as the depository bank for the HoldCo American Depositary Shares. Citibank when acting as depository bank for the HoldCo American Depositary Shares is referred to as the “depository bank” or as the “HoldCo Depository.” Citibank’s depository offices are located at 388 Greenwich Street, New York, New York 10013. The HoldCo American Depositary Shares are referred to as “ADSs” or “HoldCo ADSs” and represent ownership interests in securities that are on deposit with the HoldCo Depository. The HoldCo ADSs may be represented by certificates that are commonly known as “American Depositary Receipts” or “ADRs.” The depository bank typically appoints a custodian to safe keep the securities on deposit. In this case, the custodian is Citibank Taiwan Ltd., located at 9F, No. 16 Nanking East Road, Section 4, Taipei 10553, Taiwan, ROC.

HoldCo will appoint Citibank as depository bank pursuant to a deposit agreement (the “HoldCo Deposit Agreement”). A copy of the HoldCo Deposit Agreement is on file with the SEC under cover of a Registration Statement on Form F-6 (Reg No.333-214753). You may obtain a copy of the HoldCo Deposit Agreement from the SEC’s Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 and from the SEC’s website (www.sec.gov).

The following is a summary description of the material terms of HoldCo ADSs and of your material rights as an owner of HoldCo ADSs. Please remember that summaries by their nature lack the precision of the information summarized and that the rights and obligations of an owner of HoldCo ADSs will be determined by reference to the terms of the HoldCo Deposit Agreement and not by this summary. We urge you to review the HoldCo Deposit Agreement in its entirety. The portions of this summary description that are italicized describe matters that may be relevant to the ownership of HoldCo ADSs but that may not be contained in the HoldCo Deposit Agreement.

Each HoldCo ADS represents the right to receive, and to exercise the beneficial ownership interests in, two HoldCo Common Shares that are on deposit with the HoldCo Depository and/or custodian. An ADS also represents the right to receive, and to exercise the beneficial interests in, any other property received by the HoldCo Depository or the custodian on behalf of the owner of the ADS but that has not been distributed to the owners of HoldCo ADSs because of legal restrictions or practical considerations. The custodian, the HoldCo Depository and their respective nominees will hold all deposited property for the benefit of the holders and beneficial owners of HoldCo ADSs. The deposited property does not constitute the proprietary assets of the HoldCo Depository, the custodian or their nominees. Beneficial ownership in the deposited property will under the terms of the HoldCo Deposit Agreement be vested in the beneficial owners of the HoldCo ADSs. The HoldCo Depository, the custodian and their respective nominees will be the record holders of the deposited property represented by the HoldCo ADSs for the benefit of the holders and beneficial owners of the corresponding HoldCo ADSs. A beneficial owner of HoldCo ADSs may or may not be the holder of HoldCo ADSs. Beneficial owners of HoldCo ADSs will be able to receive, and to exercise beneficial ownership interests in, the deposited property only through the registered holders of the HoldCo ADSs, the registered holders of the HoldCo ADSs (on behalf of the applicable ADS owners) only through the HoldCo Depository, and the HoldCo Depository (on behalf of the owners of the corresponding HoldCo ADSs) directly, or indirectly, through the custodian or their respective nominees, in each case upon the terms of the HoldCo Deposit Agreement.

If you become an owner of HoldCo ADSs, you will become a party to the HoldCo Deposit Agreement and therefore will be bound to its terms and to the terms of any HoldCo American Depositary Receipt (“HoldCo ADR”) that evidences your HoldCo ADSs. The HoldCo Deposit Agreement and the HoldCo ADR specify the rights and obligations of HoldCo as well as your rights and obligations as owner of HoldCo ADSs and those of the HoldCo Depositary. As an ADS holder you appoint the HoldCo Depositary to act on your behalf in certain circumstances. The HoldCo Deposit Agreement and the HoldCo ADRs are governed by New York law. However, the obligations of HoldCo to the holders of common shares will continue to be governed by ROC laws, which may be different from the laws in the United States. In addition, we note that ROC law and regulations may restrict the deposit and withdrawal of the common shares into or from the depositary receipt facilities.

Under the laws and regulations of the ROC, as currently in effect, after the Initial Deposit (as defined below), without obtaining regulatory approval from the FSC, no common shares may be accepted for deposit and no HoldCo ADSs may be issued under the terms of the HoldCo Deposit Agreement except in the following circumstances:

- (1) upon a stock dividend on, or a free distribution of, shares to existing shareholders;

Table of Contents

(2) upon the exercise by existing shareholders of their preemptive rights in connection with capital increases for cash;

(3) subject in each case to receipt of all applicable approvals in the ROC, the issuance of shares by us to holders of bonds in connection with the exercise of conversion rights of such bond holders; and

as permitted under the HoldCo Deposit Agreement, the purchase directly by a person or through the depository of shares on the TWSE or the delivery by any person of shares held by such person for deposit in the depository receipt facility provided that the total number of HoldCo ADSs outstanding after an issuance described in clause (4) does not exceed the number of HoldCo ADSs issued and previously approved by the ROC FSC in connection with the offering plus any HoldCo ADSs created under clauses (1), (2) and (3) described above.

Under the laws and regulations of the ROC, the shares deposited under the HoldCo Deposit Agreement may be withdrawn upon cancellation of the corresponding HoldCo ADSs pursuant to the HoldCo Deposit Agreement subject to the following conditions:

the appointment of an eligible agent in the ROC to open (1) a securities trading account with an ROC brokerage firm with ROC approval and (2) a bank account to pay ROC taxes, remit funds, exercise shareholders' rights and perform such other functions as you may designate upon such withdrawal;

the appointment of a tax guarantor in the ROC; and

the appointment of a custodian bank to hold the securities in safekeeping, make confirmations, settle trades and report relevant information.

In addition, you will be required to register with the TWSE for making investments in the ROC securities market and obtain a foreign investor investment identification prior to withdrawing common shares.

As an owner of HoldCo ADSs, you may hold your HoldCo ADSs by means of a HoldCo ADR registered in your name, or through a brokerage or safekeeping account, or through an account established by the HoldCo Depository in your name reflecting the registration of uncertificated HoldCo ADSs directly on the books of the HoldCo Depository (commonly referred to as the "direct registration system" or "DRS"). The direct registration system reflects the uncertificated (book-entry) registration of ownership of HoldCo ADSs by the HoldCo Depository. Under the direct registration system, ownership of HoldCo ADSs is evidenced by periodic statements issued by the HoldCo Depository to the holders of the HoldCo ADSs. The direct registration system includes automated transfers between the HoldCo Depository and DTC, the central book-entry clearing and settlement system for equity securities in the United States. If you decide to hold your HoldCo ADSs through your brokerage or safekeeping account, you must rely on the procedures of your broker or bank to assert your rights as ADS owner. Banks and brokers typically hold securities such as the HoldCo ADSs through clearing and settlement systems such as DTC. The procedures of such clearing and

settlement systems may limit your ability to exercise your rights as an owner of HoldCo ADSs. Please consult with your broker or bank if you have any questions concerning these limitations and procedures. All HoldCo ADSs held through DTC will be registered in the name of a nominee of DTC. This summary description assumes you have opted to own the HoldCo ADSs directly by means of a HoldCo ADS registered in your name and, as such, we will refer to you as the “holder.” When we refer to “you,” we assume the reader owns HoldCo ADSs and will own HoldCo ADSs at the relevant time.

The registration of the common shares in the name of the HoldCo Depositary or the custodian shall, to the maximum extent permitted by applicable law, vest in the HoldCo Depositary or the custodian the record ownership in the applicable common shares with the beneficial ownership rights and interests in such common shares being at all times vested with the beneficial owners of the HoldCo ADSs representing the common shares. The HoldCo Depositary or the custodian shall at all times be entitled to exercise the beneficial ownership rights in all deposited property, in each case only on behalf of the holders and beneficial owners of the HoldCo ADSs representing the deposited property.

Table of Contents

Dividends and Distributions

As a holder of HoldCo ADSs, you generally have the right to receive the distributions we make on the securities deposited with the custodian. Your receipt of these distributions may be limited, however, by practical considerations and legal limitations. Holders of HoldCo ADSs will receive such distributions under the terms of the HoldCo Deposit Agreement in proportion to the number of HoldCo ADSs held as of the specified record date, after deduction the applicable fees, taxes and expenses.

Distributions of Cash

Whenever HoldCo makes a cash distribution for the securities on deposit with the custodian, it will deposit the funds with the custodian. Upon receipt of confirmation of the deposit of the requisite funds, the HoldCo Depositary will arrange for the funds to be converted into U.S. dollars and for the distribution of the U.S. dollars to the holders, subject to ROC law and regulations.

The conversion into U.S. dollars will take place only if practicable and if the U.S. dollars are transferable to the United States. The HoldCo Depositary will apply the same method for distributing the proceeds of the sale of any property (such as undistributed rights) held by the custodian in respect of securities on deposit.

The distribution of cash will be made net of the fees, expenses, taxes and governmental charges payable by holders under the terms of the HoldCo Deposit Agreement. The HoldCo Depositary will hold any cash amounts it is unable to distribute in a non-interest bearing account for the benefit of the applicable holders and beneficial owners of HoldCo ADSs until the distribution can be effected or the funds that the HoldCo Depositary holds must be escheated as unclaimed property in accordance with the laws of the relevant states of the United States.

Distributions of Shares

Whenever HoldCo makes a free distribution of common shares for the securities on deposit with the custodian, we will deposit the applicable number of common shares with the custodian. Upon receipt of confirmation of such deposit, the HoldCo Depositary will either distribute to holders new HoldCo ADSs representing the common shares deposited or modify the HoldCo ADS-to-common shares ratio, in which case each HoldCo ADS you hold will represent rights and interests in the additional common shares so deposited. Only whole new HoldCo ADSs will be distributed. Fractional entitlements will be sold and the proceeds of such sale will be distributed as in the case of a cash distribution.

The distribution of new HoldCo ADSs or the modification of the HoldCo ADS-to-common share ratio upon a distribution of common shares will be made net of the fees, expenses, taxes and governmental charges payable by holders under the terms of the HoldCo Deposit Agreement. In order to pay such taxes or governmental charges, the HoldCo Depositary may sell all or a portion of the new common shares so distributed.

No such distribution of new HoldCo ADSs will be made if it would violate a law (*i.e.*, the U.S. securities laws) or if it is not operationally practicable. If the HoldCo Depositary does not distribute new HoldCo ADSs as described above, it may sell the common shares received upon the terms described in the HoldCo Deposit Agreement and will distribute the proceeds of the sale as in the case of a distribution of cash.

Distributions of Rights

Whenever HoldCo intends to distribute rights to purchase additional common shares, we will give prior notice to the HoldCo Depositary and we will assist the HoldCo Depositary in determining whether it is lawful and reasonably practicable to distribute rights to purchase additional HoldCo ADSs to holders.

The HoldCo Depositary will establish procedures to distribute rights to purchase additional HoldCo ADSs to holders and to enable such holders to exercise such rights if it is lawful and reasonably practicable to make the rights available to holders of HoldCo ADSs, and if we provide all of the documentation contemplated in the HoldCo Deposit Agreement (such as opinions to address the lawfulness of the transaction). You may have to pay fees, expenses, taxes and other governmental charges to subscribe for the new HoldCo ADSs upon the exercise of your rights. The HoldCo Depositary is not obligated to establish procedures to facilitate the distribution and exercise by holders of rights to purchase new common shares other than in the form of HoldCo ADSs.

Table of Contents

The HoldCo Depositary will *not* distribute the rights to you if:

HoldCo does not timely request that the rights be distributed to you or we request that the rights not be distributed to you; or

HoldCo fails to deliver satisfactory documents to the HoldCo Depositary; or

It is not reasonably practicable to distribute the rights.

The HoldCo Depositary will sell the rights that are not exercised or not distributed if such sale is lawful and reasonably practicable. The proceeds of such sale will be distributed to holders as in the case of a cash distribution. If the HoldCo Depositary is unable to sell the rights, it will allow the rights to lapse.

Elective Distributions

Whenever HoldCo intends to distribute a dividend payable at the election of shareholders either in cash or in additional shares, it will give prior notice thereof to the HoldCo Depositary and will indicate whether we wish the elective distribution to be made available to you. In such case, we will assist the HoldCo Depositary in determining whether such distribution is lawful and reasonably practicable.

The HoldCo Depositary will make the election available to you only if it is reasonably practicable and if we have provided all of the documentation contemplated in the HoldCo Deposit Agreement. In such case, the HoldCo Depositary will establish procedures to enable you to elect to receive either cash or additional HoldCo ADSs, in each case as described in the HoldCo Deposit Agreement.

If the election is not made available to you, you will receive either cash or additional HoldCo ADSs, depending on what a shareholder in the ROC would receive upon failing to make an election, as more fully described in the HoldCo Deposit Agreement.

Other Distributions

Whenever HoldCo intends to distribute property other than cash, common shares or rights to purchase additional common shares, it will notify the HoldCo Depositary in advance and will indicate whether we wish such distribution to be made to you. If so, HoldCo will assist the HoldCo Depositary in determining whether such distribution to holders is lawful and reasonably practicable.

If it is reasonably practicable to distribute such property to you and if HoldCo provides all of the documentation contemplated in the HoldCo Deposit Agreement, the HoldCo Depositary will distribute the property to the holders in a manner it deems practicable.

The distribution will be made net of fees, expenses, taxes and governmental charges payable by holders under the terms of the HoldCo Deposit Agreement. In order to pay such taxes and governmental charges, the HoldCo Depositary may sell all or a portion of the property received.

The HoldCo Depositary will *not* distribute the property to you and will sell the property if:

· HoldCo does not request that the property be distributed to you or if we ask that the property not be distributed to you; or

· HoldCo does not deliver satisfactory documents to the HoldCo Depositary; or

· The HoldCo Depositary determines that all or a portion of the distribution to you is not reasonably practicable.

The proceeds of such a sale will be distributed to holders as in the case of a cash distribution.

Table of Contents

Redemption

Whenever HoldCo decides to redeem any of the securities on deposit with the custodian, it will notify the HoldCo Depositary in advance. If it is practicable and if HoldCo provides all of the documentation contemplated in the HoldCo Deposit Agreement, the HoldCo Depositary will provide notice of the redemption to the holders.

The custodian will be instructed to surrender the shares being redeemed against payment of the applicable redemption price. The HoldCo Depositary will convert the redemption funds received into U.S. dollars upon the terms of the HoldCo Deposit Agreement and will establish procedures to enable holders to receive the net proceeds from the redemption upon surrender of their HoldCo ADSs to the HoldCo Depositary. You may have to pay fees, expenses, taxes and other governmental charges upon the redemption of your HoldCo ADSs. If less than all HoldCo ADSs are being redeemed, the HoldCo ADSs to be retired will be selected by lot or on a pro rata basis, as the HoldCo Depositary may determine.

Changes Affecting Common Shares

The common shares of HoldCo held on deposit for your HoldCo ADSs may change from time to time. For example, there may be a change in nominal or par value, split-up, cancellation, consolidation or any other reclassification of such common shares or a recapitalization, reorganization, merger, consolidation or sale of assets of HoldCo.

If any such change were to occur, your HoldCo ADSs would, to the extent permitted by law, represent the right to receive the property received or exchanged in respect of the common shares held on deposit. The HoldCo Depositary may in such circumstances deliver new HoldCo ADSs to you, amend the HoldCo Deposit Agreement, the HoldCo ADRs and the applicable Registration Statement(s) on Form F-6, call for the exchange of your existing HoldCo ADSs for new HoldCo ADSs and take any other actions that are appropriate to reflect as to the HoldCo ADSs the change affecting the common shares of HoldCo. If the HoldCo Depositary may not lawfully distribute such property to you, the HoldCo Depositary may sell such property and distribute the net proceeds to you as in the case of a cash distribution.

Issuance of HoldCo ADSs upon Deposit of Common Shares

The initial deposit of shares by HoldCo in connection with this Share Exchange will be made by the delivery to the custodian of common shares of HoldCo in book-entry form, which shares will be registered in the name of the depositary or its nominee, as representatives of the holders of the HoldCo ADSs. Any future deposits of new shares for

cash by HoldCo in connection with any new HoldCo ADS offering will be made by the delivery to the custodian of a Certificate of Payment evidencing the right to receive the underlying common shares of HoldCo in book-entry form, which shares will be registered in the name of the depositary or its nominee, as representatives of the holders of the HoldCo ADSs, until the underlying common shares initially evidenced by scripless certificates of payment in the form of a master certificate of payment are listed on the TWSE. In practice, no later than the second ROC business day following the closing day of any new future HoldCo ADSs offering (the "Closing Date"), we will apply to the TWSE for listing of the Individual Scripless Certificate of Payment. Generally, the TWSE will approve the listing of the Individual Scripless Certificates of Payment on the fifth ROC business day following the Closing Date. Immediately upon such listing, the Certificate of Payment we deliver to the depositary's custodian on the Closing Date will be replaced by the Individual Scripless Certificates of Payment. The initial deposit of shares by HoldCo in connection with the Share Exchange are collectively referred to herein as the "Initial Deposit."

Under the ROC Securities and Exchange Law and applicable regulations, we are required to deliver the underlying shares in physical certificate form or scripless form to the custodian within thirty days after receiving approval from the relevant governmental authority of our corporate amendment registration. We are required under the ROC Company Law to file an amendment to our corporate registration within fifteen days after receiving the proceeds from any new offerings of HoldCo ADSs. Prior to the issue of the underlying shares in physical certificate form or scripless form, we will apply for and obtain approval to list the underlying shares on the TWSE. Until the underlying shares have been so issued and delivered, the HoldCo ADSs will represent shares evidenced by the Certificate of Payment (from the Closing Date to the date immediately prior to the listing of the Individual Scripless Certificates of Payment) or the Individual Scripless Certificates of Payment on or after the date of listing of the Individual Scripless Certificates of Payment. In case of a withdrawal of the underlying shares, such holders will be entitled to the same rights as if the depositary were holding the underlying shares in physical certificate form or

Table of Contents

scripless form. The Individual Scripless Certificates of Payment, which are without physical form and are issued only in book-entry form through Taiwan Depository & Clearing Corporation, the book-entry settlement system of the ROC, carry the same rights as those attaching to the shares in respect of dividends and are eligible for trading on the TWSE in the same manner as the shares.

Subject to limitations set forth in the HoldCo Deposit Agreement, after the Initial Deposit, the depository may create HoldCo ADSs on your behalf if you or your broker deposit shares with the custodian. The depository will deliver these HoldCo ADSs to the person you indicate only after you pay any applicable issuance fees and any charges and taxes payable for the transfer of the shares to the custodian and you provide the applicable deposit certification. Your ability to deposit shares and receive HoldCo ADSs may be limited by U.S. and ROC legal considerations applicable at the time of deposit.

Under current ROC law, after the Initial Deposit, no deposits of shares may be made in a depository receipt facility, and no HoldCo ADSs may be issued against such deposits, without specific approval of the FSC, except in connection with the offering and the issuance of additional HoldCo ADSs in connection with (i) dividends on, or free distributions of, shares, (ii) the exercise by holders of existing HoldCo ADSs of their preemptive rights in the event of capital increases for cash, (iii) subject in each case to receipt of all applicable approvals in the ROC, the issuance of shares by HoldCo to holders of convertible bonds in connection with the exercise of conversion rights of such bond holders, and (iv) to the extent that previously issued HoldCo ADSs have been canceled, reissuances of HoldCo ADSs up to an aggregate number of outstanding HoldCo ADSs equal to the total number of HoldCo ADSs (subject to adjustment for the issuances described in clauses (i), (ii) and (iii)) that were originally approved by the FSC and issued in connection with the offering; provided that the depository will refuse to accept common shares for deposit under clause (iv) if such deposit is not permitted under any restriction notified by the company to the depository from time to time, which restriction may specify blackout periods during which deposits may not be made, time periods during which deposits may be made, and minimum size and frequency of deposits.

The depository and the custodian will refuse to accept shares for deposit whenever they are notified in writing that such deposit would result in any violation of applicable laws, including ownership restrictions under the laws of the ROC. In addition, the depository will refuse to accept shares for deposit under clause (iv) of the immediately preceding paragraph if such deposit is not permitted under any restriction notified by HoldCo to the depository from time to time, which restriction may specify blackout periods during which deposits may not be made, time periods during which deposits may be made, and minimum and maximum size and frequency of deposits.

The issuance of HoldCo ADSs may be delayed until the depository or the custodian receives confirmation that all required approvals have been given and that the shares have been duly transferred to the custodian. The depository will only issue HoldCo ADSs in whole numbers.

When you make a deposit of HoldCo Common Shares, you will be responsible for transferring good and valid title to the HoldCo Depositary. As such, you will be deemed to represent and warrant that:

· The HoldCo Common Shares are duly authorized, validly issued, fully paid, non-assessable and legally obtained.

· All preemptive (and similar) rights, if any, with respect to such common shares have been validly waived or exercised.

· You are duly authorized to deposit HoldCo Common Shares.

· The HoldCo Common Shares presented for deposit are free and clear of any lien, encumbrance, security interest, charge, mortgage or adverse claim, and are not, and the HoldCo ADSs issuable upon such deposit will not be, “restricted securities” (as defined in the HoldCo Deposit Agreement).

· The common shares presented for deposit have not been stripped of any rights or entitlements.

If any of the representations or warranties are incorrect in any way, we and the HoldCo Depositary may, at your cost and expense, take any and all actions necessary to correct the consequences of the misrepresentations.

Table of Contents

Transfer, Combination and Split Up of HoldCo ADRs

As a HoldCo ADR holder, you will be entitled to transfer, combine or split up your HoldCo ADRs and the HoldCo ADSs evidenced thereby. For transfers of HoldCo ADRs, you will have to surrender the HoldCo ADRs to be transferred to the HoldCo Depository and also must:

- ensure that the surrendered HoldCo ADR is properly endorsed or otherwise in proper form for transfer;
- provide such proof of identity and genuineness of signatures as the HoldCo Depository deems appropriate;
- provide any transfer stamps required by the State of New York or the United States; and

pay all applicable fees, charges, expenses, taxes and other government charges payable by HoldCo ADR holders pursuant to the terms of the HoldCo Deposit Agreement, upon the transfer of HoldCo ADRs.

To have your HoldCo ADRs either combined or split up, you must surrender the HoldCo ADRs in question to the HoldCo Depository with your request to have them combined or split up, and you must pay all applicable fees, charges and expenses payable by HoldCo ADR holders, pursuant to the terms of the HoldCo Deposit Agreement, upon a combination or split up of HoldCo ADRs.

Withdrawal of Common Shares Upon Cancellation of HoldCo ADSs

On or after approximately the fifth ROC business day from a Closing Date for any future HoldCo ADS offering, with regard to such HoldCo ADSs issued on the Closing Date, subject to the approval from the TWSE of the listing of the Individual Scripless Certificates of Payment and the relevant provisions of the HoldCo Deposit Agreement, a holder may apply to withdraw the underlying shares or, as the case may be, the Individual Scripless Certificates of Payment, or request Citibank, N.A., as Depository, acting pursuant to the HoldCo Deposit Agreement, to sell or cause to be sold on behalf of such holders of the underlying shares or, as the case may be, the Individual Scripless Certificates of Payment. The Individual Scripless Certificates of Payment, which are without physical form and settle through the book-entry system, carry the same rights as those attaching to the underlying shares in respect of dividends and are eligible for trading on the TWSE in the same manner as the underlying shares. Your ability to withdraw the shares may be limited by U.S. and ROC law considerations applicable at the time of withdrawal.

Under current ROC law, if you (other than PRC persons except for qualified domestic institutional investors in the PRC) wish to withdraw and hold underlying shares from a depositary receipt facility, you will be required to appoint an eligible agent in the ROC to open a securities trading account with a local brokerage firm (after receiving an approval from the TWSE) and a bank account (the securities trading account and the bank account are collectively referred to as “ the Accounts”, to pay ROC taxes, remit funds, exercise shareholders’ rights and perform such other functions as you may designate upon such withdrawal. In addition, you will be required to appoint a custodian bank to hold the securities in safekeeping, make confirmation and settle trades and report all relevant information. Without the opening of such Accounts, the withdrawing owner would be unable to hold or subsequently sell the underlying shares withdrawn from the depositary receipt facility on the TWSE or otherwise. In addition, you will be required to register with the TWSE for making investments in the ROC securities market prior to withdrawing shares. These laws may change from time to time. We cannot assure you that current ROC law will remain in effect or that future changes in ROC law will not adversely affect your ability to withdraw our shares from the HoldCo ADS facility.

Holders of HoldCo ADSs withdrawing shares represented by HoldCo ADSs are also required under current ROC law and regulations to appoint an agent in the ROC for filing tax returns and making tax payments. Such agent must meet certain qualifications set by the ROC Financial Supervisory Commission and, upon appointment, becomes a guarantor of such withdrawing owner’s ROC tax obligations. Evidence of the appointment of such agent and the approval of such appointment by the ROC tax authorities may be required as conditions to such withdrawing holder’s repatriation of the proceeds from the sale of the withdrawn shares. There can be no assurance that such withdrawing holder will be able to appoint and obtain approval for such agent in a timely manner.

Subject to the withdrawal of deposited property being permitted under ROC law and regulations, you may also request that our shares or Individual Scripless Certificates of Payment represented by your HoldCo ADSs be sold on your behalf. The depositary may require that you deliver your request for sale in writing. Any sale of our shares will

Table of Contents

be conducted according to applicable ROC law through a securities company in the ROC on the TWSE or in another manner as is permitted under applicable ROC law. Any sale will be at your risk and expense. You may also be required to enter into a separate agreement to cover the terms of the sale of our shares or Individual Scripless Certificates of Payment.

Upon receipt of any proceeds from any sale, subject to any restrictions imposed by ROC law and regulations, the depositary shall convert the proceeds into US dollars and distribute the proceeds to you, net of any fees, expenses, taxes or governmental charges (including, without limitation, any ROC and U.S. taxes) incurred in connection with the sale.

Although sales of HoldCo ADSs by a non-resident individual or a corporation that has no fixed place of business or other permanent establishment or business agent in the territory of the ROC are not currently subject to ROC taxation, sales of HoldCo Common Shares or Individual Scripless Certificates of Payment by such individual or corporation will be subject to a securities transaction tax in the ROC.

In order to withdraw or instruct the sale of the shares or Individual Scripless Certificates of Payment represented by your HoldCo ADSs, you will be required to pay to the depositary the fees for cancellation of HoldCo ADSs and any charges and taxes payable upon the transfer of the shares or Individual Scripless Certificates of Payment being withdrawn and you will be required to provide to the depositary the applicable withdrawal certification. You assume the risk for delivery of all funds and securities upon withdrawal. Once canceled, the HoldCo ADSs will not have any rights under the HoldCo Deposit Agreement.

You will not be entitled to withdraw or instruct the sale of interests in any certificate(s) of payment representing shares underlying HoldCo ADSs until on or about the fifth ROC business day following the Closing Date of a future HoldCo ADS offering.

If you hold a HoldCo ADR registered in your name, the depositary may ask you to provide proof of identity and genuineness of any signature and such other documents as the depositary may deem appropriate before it will cancel your HoldCo ADSs. The withdrawal of the shares or Individual Scripless Certificates of Payment represented by your HoldCo ADSs may be delayed until the depositary receives satisfactory evidence of compliance with all applicable laws and regulations. Please keep in mind that the depositary will only accept HoldCo ADSs for cancellation that represent a whole number of securities on deposit.

ASE currently has, and upon completion of the Share Exchange, HoldCo will have, reporting obligations under ROC law in respect of the HoldCo ADS facility. In order to enable us to gather the information necessary for these reporting obligations, you will be asked to complete and sign a certification upon withdrawal of shares or Individual

Scripless Certificates of Payment from the HoldCo ADS facility. In this certification you will be asked to disclose, among other information, the name, nationality and address of the beneficial owner of the HoldCo ADSs presented for cancellation, the number of shares owned by the beneficial owner and whether certain affiliations exist between the beneficial owner and us. The depository will refuse to release shares or Individual Scripless Certificates of Payment to you until you deliver a completed and signed certification to it.

In addition, the depository shall not deliver interests in certificate(s) of payment or shares to a surrendering holder of HoldCo ADSs unless such holder presents evidence of payment of any securities transaction tax which may be imposed under ROC law unless we shall have advised the depository that no such tax is assessable in connection with the withdrawal of the individual certificate(s) of payment or shares hereunder.

If the shares or Individual Scripless Certificates of Payment are withdrawn from the depository facility, such holder will be required to provide information to enable HoldCo's compliance with its obligations set forth under the laws and regulations of the ROC, including a certification that:

- the holder is or is not a "related person," as such term is defined in the HoldCo Deposit Agreement, to us;

the holder will own a certain number of our shares after cancellation of the HoldCo ADSs surrendered thereby, as well as a certain number of HoldCo ADSs representing our shares after cancellation of the HoldCo ADSs surrendered thereby;

Table of Contents

the holder, or the person on whose account he acts, is the beneficial owner of the HoldCo ADSs surrendered to the HoldCo Depositary thereby;

the name, address and nationality of the beneficial owner of the HoldCo ADSs, as included upon presentation of HoldCo ADSs for cancellation, is true and correct;

the number of HoldCo ADSs surrendered and the number of shares withdrawn, as included upon presentation of HoldCo ADSs for cancellation, is true and correct; and

if the presenter is a broker-dealer, the owner of the account for which he is acting has confirmed the accuracy of the above representations.

In addition, you may be required to certify to other information that we or the HoldCo Depositary may deem necessary or desirable to comply with any ROC disclosure or reporting requirement. *The depositary will refuse to release Shares or the certificate(s) of payment to you until you deliver a completed and signed certification to it.*

You will have the right to withdraw the securities represented by your HoldCo ADSs at any time except for:

Temporary delays that may arise because (i) the transfer books for the common shares or HoldCo ADSs are closed, or (ii) common shares are immobilized on account of a shareholders' meeting or a payment of dividends.

Obligations to pay fees, taxes and similar charges.

Restrictions imposed because of laws or regulations applicable to HoldCo ADSs or the withdrawal of securities on deposit.

Other instructions specifically contemplated by Instruction (1) of the General Instructions to Form F-6 (as may be amended from time to time).

No common shares may be withdrawn upon presentation of HoldCo ADSs (and if applicable, the HoldCo ADRs evidencing such HoldCo ADSs) for cancellation until (i) HoldCo has delivered written confirmation that the number of Shares requested for withdrawal have been listed for trading on the TWSE (such Shares, the "Listed Shares") to the depositary and the custodian, (ii) the Listed Shares have been de-materialised (such Shares, the "De-Materialised Shares," and Shares that are both Listed Shares and De-Materialised Shares, hereinafter referred to as the "Final Shares"), and (iii) an equivalent number of Final Shares are available at the facilities of the custodian. HoldCo has informed the depositary that it is expected newly issued common shares which may be deposited by HoldCo from time to time

which are not listed for trading on the TWSE at the time of such deposit will be listed on the TWSE for trading and will be fully de-materialised, thereby becoming Final Shares, no later than 5 ROC business days calendar days after any such deposit. The depositary will deliver common shares represented by HoldCo ADSs (and if applicable, the HoldCo ADRs representing such HoldCo ADSs) presented for cancellation only to the extent of the number of Final Shares then on deposit with the custodian, the depositary will process presentations of HoldCo ADSs for withdrawal of Final Shares on a first come, first served basis, the depositary will complete requests for cancellation of HoldCo ADSs and withdrawal of the common shares represented only to the extent of the number of Final Shares at such time on deposit with the custodian, the depositary will refuse to complete a request for cancellation of HoldCo ADSs and withdrawal of common shares to the extent the number of common shares requested for withdrawal exceeds the number of Final Shares at such time deposited with the custodian, and the depositary reserves the right to suspend withdrawals of common shares until such time as the requisite number of Final Shares are deposited with the custodian.

The HoldCo Deposit Agreement may not be modified to impair your right to withdraw the securities represented by your HoldCo ADSs except to comply with mandatory provisions of law.

Voting Rights

Except as described below, you generally have no right under the HoldCo Deposit Agreement to instruct the depositary to exercise the voting rights for the Shares represented by your HoldCo ADSs. Instead, by accepting HoldCo ADSs or any beneficial interest in HoldCo ADSs, you will be deemed to have authorized and directed the

Table of Contents

depository to appoint our Chairman or his designee to represent you at our shareholders' meeting and to vote, without liability, the common shares of HoldCo deposited with the custodian according to the terms of the HoldCo ADSs. The voting rights of holders of Shares are described in "Description of HoldCo Common Shares — Voting Rights."

The depository will distribute to you notices of shareholders' meetings received from HoldCo together with information explaining how to instruct the depository to exercise the voting rights of the securities represented by HoldCo ADSs.

If HoldCo fails to timely provide the depository with its notice of meeting or other materials related to any meeting of owners of Shares, the depository will endeavor to cause all the deposited securities represented by HoldCo ADSs to be present at the applicable meeting, insofar as practicable and permitted under applicable law, but will not cause those securities to be voted. *According to the ROC Company Law, except under limited circumstances described below, generally a shareholder's voting rights must, as to all matters brought to a vote of shareholders, be exercised as to all shares held by the shareholder in the same manner, except in the case of an election of directors (including independent directors), which may be conducted by means of cumulative voting or other mechanisms adopted in our Articles of Incorporation. Pursuant to ROC Company Law and our Articles of Incorporation, the election of directors (including independent directors) is by means of cumulative voting.*

If the depository timely receives voting instructions from holders of at least 51% of the outstanding HoldCo ADSs to vote in the same manner regarding one or more resolutions to be considered at the meeting, including the election of directors, the depository will, subject to its receipt of satisfactory opinions of counsel, notify and instruct the Chairman of HoldCo or his designee of the instructions to attend the meeting and vote all the securities represented by the holders' HoldCo ADSs in accordance with the direction received from holders at least 51% of the outstanding HoldCo ADSs.

If HoldCo has timely provided the depository with the materials described in the applicable HoldCo Deposit Agreement and the depository has not timely received instructions from holders of at least 51% of the outstanding HoldCo ADSs to vote in the same direction regarding any resolution to be considered at the meeting, including the election of directors, and, provided the HoldCo Deposit Agreement allows the holder of HoldCo ADSs to exercise its voting right on an individual basis, and any other matter where ROC law does not require a holder of the common shares of HoldCo to vote all common shares of HoldCo in the same manner and subject to its receipt of satisfactory opinions of counsel, and the depository has secured satisfactory opinion of counsel, then you will be deemed to have authorized and directed the depository to give a discretionary proxy to the Chairman of HoldCo or his designee to attend and vote at the meeting the Shares represented by your HoldCo ADSs in any manner such person may wish (which may not be in the interests of holders) unless the Chairman, or such designated person, shall have informed the depository that he does not wish to be so authorized and directed.

Proposal Rights

Holders of one percent or more of the total and issued outstanding common shares of HoldCo will be entitled to submit one written proposal each year for consideration at HoldCo's annual ordinary meeting of stockholders provided that (i) the proposal is in the Chinese language and does not exceed 300 Chinese characters, (ii) the proposal is submitted to us prior to the expiration of the period for submission of proposals (the "Submission Period") announced by us, (iii) only one (1) matter for consideration at our annual ordinary meeting of shareholders is allowed in each proposal, and (iv) the proposing shareholder shall attend, in person or by a proxy, such annual ordinary meeting whereat his or her or its proposal is to be discussed and such proposing shareholder, or his or her or its proxy, shall take part in the discussion of such proposal.

As the holder of HoldCo Common Shares, the depositary is entitled, provided the conditions of ROC law are satisfied, to submit only one (1) proposal each year in respect of all of the common shares held on deposit. Holders and beneficial owners of HoldCo ADSs do not under ROC law have individual rights to submit proposals to us but may be able to submit proposals to us for consideration at the annual ordinary meeting of shareholders if the beneficial owners (i) timely present their HoldCo ADSs to the depositary for cancellation pursuant to the terms of the HoldCo Deposit Agreement and become holders of HoldCo Common Shares in the ROC prior to the expiration of the Submission Period and prior to the applicable shareholder proposal record date, and (ii) otherwise satisfy the conditions of ROC law applicable to the submission of proposals to HoldCo for consideration at an annual ordinary meeting of our shareholders.

Table of Contents

The depositary will, if so requested by (a) beneficial owner(s) as of the applicable HoldCo ADS record date that own(s), individually or as a group, at least 51% of the HoldCo ADSs outstanding as of the applicable HoldCo ADS record date, submit to us for consideration at the annual ordinary meeting of HoldCo shareholders one (1) proposal each year, provided that certain terms and conditions as set forth in the HoldCo Deposit Agreement are met.

The depositary will not be obligated to provide to holders and beneficial owners of HoldCo ADSs any notices relating to the proposal rights, including, without limitation, notice of submission period, or the receipt of any proposal(s) from submitting holders, or of the holdings of any HoldCo ADSs by any persons, except that the depositary shall, upon a HoldCo ADS holder's request, inform such holder of the total number of HoldCo ADSs the issued.

Fees and Charges

As a HoldCo ADS holder, you will be required to pay the following fees under the terms of the HoldCo Deposit Agreement:

Service	Fees
· Issuance of HoldCo ADSs (e.g., an issuance upon a deposit of shares, upon a change in HoldCo ADS(s)-to-shares(s) ratio, or for any other reason), excluding issuances as a result of distributions of shares	Up to U.S. 5¢ per HoldCo ADS issued
· Cancellation of HoldCo ADSs (e.g., a cancellation of HoldCo ADSs for delivery of deposited shares, upon a change in the HoldCo ADS(s)-to-share(s) ratio, or for any other reason)	Up to U.S. 5¢ per HoldCo ADS canceled
· Distribution of cash dividends or other cash distributions (e.g., upon a sale of rights and other entitlements)	Up to U.S. 5¢ per HoldCo ADS held
· Distribution of HoldCo ADSs pursuant to (i) stock dividends or other free stock distributions, or (ii) an exercise of rights to purchase additional HoldCo ADSs	Up to U.S. 5¢ per HoldCo ADS held
· Distribution of securities other than HoldCo ADSs or rights to purchase additional HoldCo ADSs (e.g., spin-off shares)	Up to U.S. 5¢ per HoldCo ADS held
· HoldCo ADS Services	Up to U.S. 5¢ per HoldCo ADS held on the applicable record date(s) established by the HoldCo Depositary

As a HoldCo ADS holder you will also be responsible to pay certain charges such as:

- taxes (including applicable interest and penalties) and other governmental charges;

the registration fees as may from time to time be in effect for the registration of common shares on the share register and applicable to transfers of common shares to or from the name of the custodian, the HoldCo Depositary or any nominees upon the making of deposits and withdrawals, respectively;

- certain cable, telex and facsimile transmission and delivery expenses;

- the expenses and charges incurred by the HoldCo Depositary in the conversion of foreign currency;

the fees and expenses incurred by the HoldCo Depositary in connection with compliance with exchange control regulations and other regulatory requirements applicable to common shares, HoldCo ADSs and HoldCo ADRs; and

Table of Contents

the fees and expenses incurred by the HoldCo Depositary, the custodian or any nominee in connection with the servicing or delivery of deposited property.

HoldCo ADS fees and charges payable upon (i) the issuance of HoldCo ADSs and (ii) cancellation of HoldCo ADSs will be payable by the person to whom the HoldCo ADSs are so issued (in the case of HoldCo ADS issuances) and by the person whose HoldCo ADSs are being cancelled (in the case of HoldCo ADS cancellations). In the case of HoldCo ADSs issued by the HoldCo Depositary into DTC or held via DTC, the HoldCo ADS issuance and cancellation fees and charges will be payable by the DTC participant(s) receiving the HoldCo ADSs or whose HoldCo ADSs are being cancelled, as the case may be, on behalf of the beneficial owner(s) and will be charged by the DTC participant(s) to the account(s) of the applicable beneficial owner(s) in accordance with the procedures and practices of the DTC participant(s) as in effect at the time. HoldCo ADS fees and charges in respect of distributions and the HoldCo ADS service fee are charged to the holders as of the applicable HoldCo ADS record date. In the case of distributions of cash, the amount of the applicable HoldCo ADS fees and charges is deducted from the funds being distributed. In the case of (i) distributions other than cash and (ii) the HoldCo ADS service fee, holders as of the HoldCo ADS record date will be invoiced for the amount of the HoldCo ADS fees and charges and such HoldCo ADS fees and charges may be deducted from distributions made to holders of HoldCo ADSs. For HoldCo ADSs held through DTC, the HoldCo ADS fees and charges for distributions other than cash and the HoldCo ADS service fee may be deducted from distributions made through DTC, and may be charged to the DTC participants in accordance with the procedures and practices prescribed by DTC and the DTC participants in turn charge the amount of such HoldCo ADS fees and charges to the beneficial owners for whom they hold HoldCo ADSs.

In the event of refusal to pay the HoldCo Depositary fees, the HoldCo Depositary may, under the terms of the HoldCo Deposit Agreement, refuse the requested service until payment is received or may set off the amount of the HoldCo Depositary fees from any distribution to be made to the HoldCo ADS holder. Certain of the depositary fees and charges (such as the HoldCo ADS services fee) may become payable shortly after the Closing Date. Note that the fees and charges you may be required to pay may vary over time and may be changed by us and by the HoldCo Depositary. You will receive prior notice of such changes. The HoldCo Depositary may reimburse us for certain expenses incurred by us in respect of the HoldCo ADR program, by making available a portion of the HoldCo ADS fees charged in respect of the HoldCo ADR program or otherwise, upon such terms and conditions as we and the HoldCo Depositary agree from time to time.

The obligation of holders and beneficial owners to pay HoldCo ADS fees and charges shall survive the termination of the HoldCo Deposit Agreement.

Amendments and Termination

HoldCo may agree with the HoldCo Depositary to modify the HoldCo Deposit Agreement at any time without your consent. HoldCo will undertake to give holders 30 days' prior notice of any modifications that would materially prejudice any of their substantial rights under the HoldCo Deposit Agreement. HoldCo will not consider to be

materially prejudicial to your substantial rights any modifications or supplements that are reasonably necessary for the HoldCo ADSs to be registered under the Securities Act or to be eligible for book-entry settlement, in each case without imposing or increasing the fees and charges you are required to pay. In addition, HoldCo may not be able to provide you with prior notice of any modifications or supplements that are required to accommodate compliance with applicable provisions of law.

You will be bound by the modifications to the HoldCo Deposit Agreement if you continue to hold your HoldCo ADSs after the modifications to the HoldCo Deposit Agreement become effective. The HoldCo Deposit Agreement cannot be amended to prevent you from withdrawing the common shares represented by your HoldCo ADSs (except as permitted by law).

We have the right to direct the HoldCo Depositary to terminate the HoldCo Deposit Agreement. Similarly, the HoldCo Depositary may in certain circumstances on its own initiative terminate the HoldCo Deposit Agreement. In either case, the HoldCo Depositary must give notice to the holders at least 30 days before termination. Until termination, your rights under the HoldCo Deposit Agreement will be unaffected.

After termination, the HoldCo Depositary will continue to collect distributions received (but will not distribute any such property until you request the cancellation of your HoldCo ADSs) and may sell the securities held on

Table of Contents

deposit. After the sale, the HoldCo Depositary will hold the proceeds from such sale and any other funds then held for the holders of HoldCo ADSs in a non-interest-bearing account. At that point, the HoldCo Depositary will have no further obligations to holders other than to account for the funds then held for the holders of HoldCo ADSs still outstanding (after deduction of applicable fees, taxes and expenses).

Books of Depositary

The HoldCo Depositary will maintain HoldCo ADS holder records at its depositary office. You may inspect such records at such office during regular business hours but solely for the purpose of communicating with other holders in the interest of business matters relating to the HoldCo ADSs and the HoldCo Deposit Agreement.

The HoldCo Depositary will maintain in New York facilities to record and process the issuance, cancellation, combination, split-up and transfer of HoldCo ADSs. These facilities may be closed from time to time, to the extent not prohibited by law.

Limitations on Obligations and Liabilities

The HoldCo Deposit Agreement limits HoldCo's obligations and the HoldCo Depositary's obligations to you. Please note the following:

HoldCo and the HoldCo Depositary are obligated only to take the actions specifically stated in the HoldCo Deposit Agreement without negligence or bad faith.

The HoldCo Depositary disclaims any liability for any failure to carry out voting instructions, for any manner in which a vote is cast or for the effect of any vote, provided it acts in good faith and in accordance with the terms of the HoldCo Deposit Agreement.

The HoldCo Depositary disclaims any liability for any failure to determine the lawfulness or practicality of any action, for the content of any document forwarded to you on our behalf or for the accuracy of any translation of such a document, for the investment risks associated with investing in common shares, for the validity or worth of the common shares, for any tax consequences that result from the ownership of HoldCo ADSs, for the credit worthiness of any third party, for allowing any rights to lapse under the terms of the HoldCo Deposit Agreement, for the timeliness of any of our notices or for our failure to give notice.

HoldCo and the HoldCo Depositary will not be obligated to perform any act that is inconsistent with the terms of the HoldCo Deposit Agreement.

HoldCo and the HoldCo Depositary disclaim any liability if we or the HoldCo Depositary are prevented or forbidden from or subject to any civil or criminal penalty or restraint on account of, or delayed in, doing or performing any act or thing required by the terms of the HoldCo Deposit Agreement, by reason of any provision, present or future of any law or regulation, or by reason of present or future provision of the Articles of Incorporation of HoldCo, or any provision of or governing the securities on deposit, or by reason of any act of God or war or other circumstances beyond our control.

HoldCo and the HoldCo Depositary disclaim any liability by reason of any exercise of, or failure to exercise, any discretion provided for in the HoldCo Deposit Agreement or in our Articles of Incorporation or in any provisions of or governing the securities on deposit.

HoldCo and the HoldCo Depositary further disclaim any liability for any action or inaction in reliance on the advice or information received from legal counsel, accountants, any person presenting common shares for deposit, any holder of HoldCo ADSs or authorized representatives thereof, or any other person believed by either of us in good faith to be competent to give such advice or information.

HoldCo and the HoldCo Depositary also disclaim liability for the inability by a holder to benefit from any distribution, offering, right or other benefit that is made available to holders of common shares but is not, under the terms of the HoldCo Deposit Agreement, made available to you.

Table of Contents

HoldCo and the HoldCo Depositary may rely without any liability upon any written notice, request or other document believed to be genuine and to have been signed or presented by the proper parties.

HoldCo and the HoldCo Depositary also disclaim liability for any consequential or punitive damages for any breach of the terms of the HoldCo Deposit Agreement.

- No disclaimer of any Securities Act liability is intended by any provision of the HoldCo Deposit Agreement.

Pre-Release Transactions

Subject to the terms and conditions of the HoldCo Deposit Agreement, the HoldCo Depositary may issue to broker/dealers HoldCo ADSs before receiving a deposit of common shares. These transactions are commonly referred to as “pre-release transactions,” and are entered into between the HoldCo Depositary and the applicable broker/dealer. The HoldCo Deposit Agreement limits the aggregate size of pre-release transactions (not to exceed 30% of the common shares on deposit in the aggregate) and imposes a number of conditions on such transactions (i.e., the need to receive collateral, the type of collateral required, the representations required from brokers, etc.). The HoldCo Depositary may retain the compensation received from the pre-release transactions.

Taxes

You will be responsible for the taxes and other governmental charges payable on the HoldCo ADSs and the securities represented by the HoldCo ADSs. HoldCo, the HoldCo Depositary and the custodian may deduct from any distribution the taxes and governmental charges payable by holders and may sell any and all property on deposit to pay the taxes and governmental charges payable by holders. You will be liable for any deficiency if the sale proceeds do not cover the taxes that are due.

The HoldCo Depositary may refuse to issue HoldCo ADSs, to deliver, transfer, split and combine HoldCo ADRs or to release securities on deposit until all taxes and charges are paid by the applicable holder. The HoldCo Depositary and the custodian may take reasonable administrative actions to obtain tax refunds and reduced tax withholding for any distributions on your behalf. However, you may be required to provide to the HoldCo Depositary and to the custodian proof of taxpayer status and residence and such other information as the HoldCo Depositary and the custodian may require to fulfill legal obligations. You are required to indemnify HoldCo, the HoldCo Depositary and the custodian for any claims with respect to taxes based on any tax benefit obtained for you.

Foreign Currency Conversion

The HoldCo Depositary will arrange for the conversion of all foreign currency received into U.S. dollars if such conversion is practical, and it will distribute the U.S. dollars in accordance with the terms of the HoldCo Deposit Agreement (net of any fees and expenses incurred in converting foreign currency, such as fees and expenses incurred in complying with currency exchange controls and other governmental requirements).

If the conversion of foreign currency is not practical or lawful, or if any required approvals are denied or not obtainable at a reasonable cost or within a reasonable period, the HoldCo Depositary may take the following actions in its discretion:

Convert the foreign currency to the extent practical and lawful and distribute the U.S. dollars to the holders for whom the conversion and distribution is lawful and practical.

· Distribute the foreign currency to holders for whom the distribution is lawful and practical.

· Hold the foreign currency (without liability for interest) for the applicable holders.

Governing Law/Waiver of Jury Trial

The HoldCo Deposit Agreement and the HoldCo ADRs will be interpreted in accordance with the laws of the State of New York. The rights of holders of common shares (including common shares represented by HoldCo ADSs) are governed by the laws of the ROC.

Table of Contents

AS A PARTY TO THE HOLDCO DEPOSIT AGREEMENT, YOU WAIVE YOUR RIGHT TO TRIAL BY JURY IN ANY LEGAL PROCEEDING ARISING OUT OF THE HOLDCO DEPOSIT AGREEMENT OR THE HOLDCO ADRs AGAINST US AND/OR THE HOLDCO DEPOSITARY.

Legal Matters

Baker & McKenzie, ROC counsel to ASE, will render an opinion with respect to the validity of the HoldCo Common Shares to be issued in the Share Exchange.

Experts

The consolidated financial statements of ASE, except SPIL, ASE's investment in which is accounted for by use of the equity method, as of December 31, 2015 and 2016 and for each of the three years in the period ended December 31, 2016, included in this proxy statement/prospectus, and the effectiveness of ASE's internal control over financial reporting have been audited by Deloitte & Touche, as stated in their reports appearing herein, which reports (1) express an unqualified opinion on the consolidated financial statements and include an explanatory paragraph referring to the convenience translation of New Taiwan dollar amounts into U.S. dollar amounts and (2) express an unqualified opinion on the effectiveness of internal control over financial reporting. The consolidated financial statements of SPIL, ASE's investment in which is accounted for by use of the equity method, have been audited by PricewaterhouseCoopers, Taiwan, as stated in their report appearing herein. Such financial statements of ASE have been so included in reliance upon the respective reports of such firms given upon their authority as experts in accounting and auditing. All of the foregoing firms are independent registered public accounting firms.

The consolidated financial statements of SPIL as of December 31, 2016 and 2015 and for each of the three years in the period ended December 31, 2016 and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control over Financial Reporting) as of December 31, 2016 included in this Prospectus have been so included in reliance on the report of PricewaterhouseCoopers, Taiwan, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

The audited consolidated financial statements of SPIL have been audited by PricewaterhouseCoopers, Taiwan, an independent registered public accounting firm, whose report thereon appears herein. The audited financial statements of ASE, to the extent they relate to SPIL, have been so included in reliance on the report of such independent registered public accounting firm given on the authority of said firm as experts in auditing and accounting.

Enforceability of Foreign Judgments in the ROC

Upon the completion of the Share Exchange, HoldCo will be, a company limited by shares and incorporated under the ROC Company Law. It is expected that upon the completion of the Share Exchange, the majority HoldCo' directors, executive officers and supervisors and certain other parties named herein will be residents of the ROC and a substantial portion of HoldCo's assets and such persons are located in the ROC. As a result, it may not be possible for investors to effect service of process on HoldCo or such persons outside the ROC, or to enforce against any of their judgments obtained in courts outside of the ROC. ROC counsel has advised that any final judgment obtained against us or such persons in any court other than the courts of the ROC in respect of any legal suit or proceeding arising out of or relating to the Share Exchange will be enforced by the courts of the ROC without further review of the merits only if the court of the ROC in which enforcement is sought is satisfied that:

- the court rendering the judgment has jurisdiction over the subject matter according to the laws of the ROC;

the judgment and the court procedures resulting in the judgment are not contrary to the public order or good morals of the ROC;

if the judgment was rendered by default by the court rendering the judgment, (i) we or such persons were duly served in the jurisdiction of such court within a reasonable period of time in accordance with the laws and regulations of such jurisdiction, or (ii) process was served on us or such persons with judicial assistance of the ROC; and

judgments of the courts of the ROC are recognized in the jurisdiction of the court rendering the judgment on a reciprocal basis.

A party seeking to enforce a foreign judgment in the ROC would, except under limited circumstances, be required to obtain foreign exchange approval from the Central Bank of the Republic of China (Taiwan) for the remittance out of the ROC of any amounts exceeding US\$100,000 or its equivalent recovered in respect of such judgment denominated in a currency other than NT dollars.

Where You Can Find More Information

ASE files annual, quarterly and current reports, proxy statements and other information with the SEC as required under the Exchange Act. ASE is currently, and upon completion of the Share Exchange, HoldCo will be, subject to periodic reporting and other informational requirements of the Exchange Act, as applicable to foreign private issuers. As a “foreign private issuer” and, under the rules adopted under the Exchange Act, ASE is, and upon the completion of the Share Exchange, HoldCo will be, exempted from certain of the requirements of that Exchange Act, including the proxy and information provisions of Section 14 of the Exchange Act and the reporting and liability provisions applicable to officers, directors and significant shareholders under Section 16 of the Exchange Act. ASE files annual reports on Form 20-F with the SEC and also furnishes reports on Form 6-K to the SEC.

You may read and copy any reports, statements or other information filed by ASE or SPIL at the SEC’s Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the Public Reference Room. The SEC also maintains an Internet website that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC, including ASE and SPIL. The address of that site is www.sec.gov.

Investors may also consult ASE’s or SPIL’s website for more information about ASE or SPIL, respectively. ASE’s website is <http://www.aseglobal.com>. SPIL’s website is <http://www.spil.com.tw>.

With the exception of the reports specifically included as annexes to this document as described under “-Documents Included as Annexes,” material contained on or accessible through the SEC’s, ASE’s or SPIL’s website is not incorporated into this proxy statement/prospectus.

ASE and SPIL have filed with the SEC a registration statement on Form F-4 of which this proxy statement/prospectus forms a part. The registration statement registers the HoldCo Common Shares to be issued to ASE shareholders in exchange for its ASE Common Shares in connection with the Share Exchange. A related registration statement on Form F-6 has also been filed with the SEC to register HoldCo ADSs representing HoldCo Common Shares. The registration statements and their exhibits and schedules contain additional relevant information about ASE and SPIL, ASE Common Shares and ASE ADSs. As allowed by SEC rules, this proxy statement/prospectus does not contain all the information you can find in the registration statement on Form F-4 filed by ASE and SPIL and the exhibits to the registration statement.

Documents Included as Annexes

This proxy statement/prospectus includes as annexes the documents listed below that ASE and SPIL have previously filed with the SEC. These documents contain important information about the companies, their respective financial condition and other matters.

Item 20. Indemnification of Officers and Directors

The relationships between each Registrant and its directors and officers are governed by the ROC Civil Code, the ROC Company Law and such Registrant's articles of incorporation. There is no written agreement between either Registrant and its directors and officers governing the rights and obligations of such parties. Each person who was or is party or is threatened to be made a party to, or is involved in any threatened, pending or completed action, suit or proceeding by reason of the fact that such person is or was either Registrant's director or officer, in the absence of willful misconduct or gross negligence on the part of such person in connection with such person's performance of duties as a director or officer, as the case may be, may be indemnified and held harmless by such Registrant to the fullest extent permitted by applicable law.

Item 22.

Undertakings

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement.

(ii) Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum

Table of Contents

aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective
(2) amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) To file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A. of Form 20-F at the start of any delayed offering or throughout a continuous offering.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934, (and where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is included as annexes in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) The undersigned registrant hereby undertakes as follows:

That prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of
(1) Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to the offerings by persons who may be deemed underwriters, in addition to the information called for by the other Items of the applicable form.

That every prospectus (i) that is filed pursuant to the immediately preceding paragraph, or (ii) that purports to meet the requirements of section 10(a)(3) of the Act and is used in connection with an offering of securities subject to Rule 415 (§ 230.415 of this chapter), will be filed as a part of an amendment to the registration statement and will
(2) not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(d) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(e) The undersigned registrant hereby undertakes: (i) to respond to requests for information that is included in the annexes to the prospectus pursuant to Items 4, 10(b), 11, or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means, and (ii) to arrange or provide for a facility in the United States for the purpose of responding to such requests. The undertaking

Table of Contents

in subparagraph (i) above includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(f) The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

Annex A-1

English Translation of Execution Version

Joint Share Exchange Agreement

Preamble

This Joint Share Exchange Agreement (this “**Agreement**”) is entered into on June 30, 2016 (the “**Execution Date**”) by and between:

- (1) Advanced Semiconductor Engineering, Inc. (“**ASE**”), a company incorporated under Republic of China (“**ROC**”) laws, with its address at No. 26, Jingsan Rd, Nanzi District, Kaohsiung City, Taiwan; and
- (2) Siliconware Precision Industries Co., Ltd. (“**SPIL**” or the “**Company**”), a company incorporated under ROC laws, with its address at No. 123, Section 3, Da Fong Road, Tantz District, Taichung City, Taiwan.

WHEREAS ASE and SPIL (each a “**Party**” and collectively the “**Parties**”) agree for ASE to file an application to establish HoldCo (as defined below) by means of a statutory share exchange, and HoldCo will acquire all issued and outstanding shares of both ASE and SPIL. After the closing of the share exchange, ASE and SPIL will become wholly-owned subsidiaries of HoldCo concurrently (the “**Share Exchange**” or “**Transaction**”); and

WHEREAS each Party’s board of directors has passed a resolution approving the Share Exchange.

NOW THEREFORE, IN WITNESS WHEREOF, the Parties have entered into this Agreement as follows:

Definitions

Save for the definitions set forth in the Preamble, in this Agreement:

“HoldCo” means (temporary English name: ASE Industrial Holding Co., Ltd.) to be established by ASE pursuant to Article 1.1 hereof.

“SPIL Foreign Convertible Bonds” means US\$400,000,000 unsecured foreign convertible bonds issued by SPIL on October 31, 2014, due on October 31, 2019, with an outstanding balance of US\$400,000,000, convertible into SPIL’s new common shares, with the final conversion date at October 21, 2019. As the Execution Date occurs during the suspension period for conversion of SPIL Foreign Convertible Bonds, the conversion price per share shall be referred to the conversion price thereof announced by SPIL on July 1, 2016.

“Exchange Ratio” means the exchange of each ordinary share of ASE for 0.5 ordinary share of HoldCo (1 ASE’s American depositary share each representing five ASE common shares to be exchanged for 1.25 HoldCo’s American depositary shares each representing two HoldCo common shares).

A-1-1

Table of Contents

“**Cash Consideration**” means Initial Cash Consideration or Adjusted Cash Consideration, as applicable.

“**Initial Cash Consideration**” means NT\$55 in cash to be exchanged for each SPIL common share.

“**Adjusted Cash Consideration**” means the cash consideration adjusted according to Article 3.2 and Article 4.2 hereof.

“**SEC**” means United States Securities and Exchange Commission.

“**Antitrust Law**” means (1) the ROC Fair Trade Act and laws relating thereto, (2) the U.S. Sherman Act, as amended, the U.S. Clayton Act, as amended, the U.S. Hart-Scott-Rodino Antitrust Improvements Act, as amended, and the U.S. Federal Trade Commission Act, as amended, (3) the Anti-monopoly Law of People’s Republic of China with effectiveness from August 1, 2008, and (4) all other applicable laws issued by government entities for the purposes of prohibiting, restricting or regulating conducts with the purpose or effect of monopolizing, restricting trade or reducing competition through mergers or acquisitions.

“**SPIL Material Adverse Effect Event**” means any changes, developments, incidents, matters, effects or facts, which, individually or in combination with all other such changes, developments, incidents, matters, effects or facts, result in material adverse effects on SPIL and SPIL Subsidiaries, operating as a whole (for the purpose of this definition, “material” shall mean that the occurrence of said events or circumstances, individually or in aggregate, results in a decrease in the consolidated net book value of SPIL by 10% or more as compared to the net book value stated in SPIL’s consolidated audited financial statements as of March 31, 2016); provided that the following changes, developments, incidents, matters, effects or facts shall not, individually or in aggregate, be regarded as having a material adverse effect on SPIL, or be taken into account in determining whether there has been a SPIL Material Adverse Effect, if they are induced or caused by: (1) any change of capital market conditions or economic condition, including a change pertaining to interest rate or exchange rate; (2) any change of geopolitical conditions occurring after the date hereof, or outbreak or escalation of any conflict, or any war or terrorism actions; (3) force majeure occurring after the date hereof; (4) any change of applicable law, regulation or accounting standards (or any official interpretation thereof) proposed, approved or promulgated on or after the date hereof; (5) any change of the industry in which SPIL or a SPIL Subsidiary operates; (6) underperformance in and of itself by SPIL or SPIL Subsidiaries of any internal or public predictions, forecasts, projections or estimates relevant to income, profits or other financial or operational targets before, on or after the date hereof, or change of market price, credit rating or trading volume of its securities, provided that SPIL’s directors have met their duty of care and duty of loyalty; and (7) announcement and contingency of this Agreement or transactions contemplated hereunder (including any transaction-related litigation) of this Agreement, any adoption of actions required or expressly required in the covenants specified in this Agreement, including any loss of or change of relationship with any customer, supplier, distributor or other business partners of SPIL or SPIL

Table of Contents

Subsidiaries, or departure of any employee or senior management, resulting from or relevant to the announcement and contingency of this Agreement or transactions contemplated hereunder, provided that SPIL's directors have met their duty of care and duty of loyalty.

“ASE Material Adverse Effect Event” means any changes, developments, incidents, matters, effects or facts which, individually or in combination with all other such changes, developments, incidents, matters, effects or facts, result in material adverse effects on ASE and ASE's subsidiaries, operating as a whole (for the purposes of this definition, “material” means that the occurrence of said events or circumstances, individually or in aggregate, results in a decrease in the consolidated net book value of ASE by 10% or more as compared to the net book value stated in ASE's consolidated audited financial statements as of March 31, 2016); provided that the following changes, developments, incidents, matters, effects or facts shall not, individually or in aggregate, be regarded as having a material adverse effect on ASE, or be taken into account in determining whether there has been an ASE Material Adverse Effect, if they are induced or caused by: (1) any change of capital market conditions or economic condition, including a change pertaining to interest rate or exchange rate; (2) any change of geopolitical conditions occurring after the date hereof, or outbreak or escalation of any conflict, or any war or terrorism actions; (3) force majeure occurring after the date hereof; (4) any change of applicable law, regulation or accounting standards (or any official interpretation thereof) proposed, approved or promulgated on or after the date hereof; (5) any change of the industry in which ASE or an ASE's subsidiary operates; (6) underperformance in and of itself by ASE or ASE's subsidiaries of any internal or public predictions, forecasts, projections or estimates relevant to income, profits or other financial or operational targets before, on or after the date hereof, or change of market price, credit rating or trading volume of its securities, provided that ASE's directors have met their duty of care and duty of loyalty; (7) announcement and contingency of this Agreement or transactions contemplated hereunder (including any transaction-related litigation) of this Agreement, any adoption of actions required or expressly required in the covenants specified in this Agreement, including any loss of or change of relationship with any customer, supplier, distributor or other business partners of ASE or ASE's subsidiaries, or departure of any employee or senior management, resulting from or relevant to the announcement and contingency of this Agreement or transactions contemplated hereunder, provided that ASE's directors have met their duty of care and duty of loyalty; and (8) internal organizational restructuring of ASE and/or ASE's subsidiaries.

“Long Stop Date” means the expiry day of 18 months after the Execution Date (i.e., December 31, 2017) or a later date otherwise agreed in writing by both Parties.

“Share Exchange Record Date” means the date on which the exchanges of shares shall be completed as contemplated by the boards of directors of HoldCo and both Parties in accordance with the provisions of laws and Article 6.5 of this Agreement.

“Relevant Securities Regulators” means the Taiwan Financial Supervisory Commission, the Taiwan Stock Exchange and the SEC.

Table of Contents

“**Antitrust Law Enforcement Authorities of Relevant Countries or Regions**” means the Taiwan Fair Trade Commission, the United States Federal Trade Commission and the Ministry of Commerce of the People’s Republic of China.

“**SPIL Subsidiaries**” means subsidiaries listed in SPIL’s audited consolidated financial statements as of March 31, 2016.

“**Intellectual Property Rights**” means publicly registered patents, trademarks, copyrights and other intellectual property rights.

“**Material Contracts**” means all material agreements, contracts, representations, covenants, commitments, warranties, guarantees or other obligations that SPIL and SPIL Subsidiaries have entered into or undertaken.

“**Superior Proposal**” means a *bona fide*, unsolicited written offer for an Alternate Transaction (as defined below) to SPIL made by a party other than ASE, SPIL or any of SPIL’s directors, managers, employees, agents or representatives; and the terms and conditions of such an offer are considered to be more favorable to SPIL and all shareholders of SPIL than the terms and conditions of this Transaction by opinions separately issued by a renowned investment bank and law firm appointed by the SPIL’s audit committee.

“**SPIL Employees**” means all employees (including all appointed managers) of SPIL and SPIL Subsidiaries.

“**100% Subsidiaries**” means wholly-owned subsidiaries of HoldCo.

“**Alternate Transaction**” means (1) any transaction that may involve a spin-off, a purchase or sale of shares of non-financial investment nature, or any other transaction of similar nature; (2) a lease of all businesses or an entrustment, a joint operation or an assumption of the entire business or assets from others (except for an assumption of the entire business or assets from others in an aggregated transaction amount of less than NT\$500,000,000); or (3) any merger and acquisition without issuing HoldCo’s shares, any sale of all or material assets or businesses of 100% Subsidiaries, any disposal of interest in material assets or businesses of 100% Subsidiaries, or exclusive licensing of all or material patents or technologies of 100% Subsidiaries.

“**Force Majeure Events**” means judgments or orders of courts, orders or dispositions of relevant competent authorities, wars, hostility, blockade, riots, revolutions, strikes, work suspension, financial crisis, nuclear disasters, fires, hurricanes, earthquakes, tsunamis, plagues or floods, etc., which are not attributable to the Parties, or force majeure or equivalent events.

1. Share Exchange

ASE and SPIL agree that ASE shall file an application to establish HoldCo and effect, jointly with SPIL, the Share Exchange in accordance with the Republic of China Enterprise Mergers and Acquisitions Act and relevant laws and regulations.

A-1-4

Table of Contents

The general shareholders' meetings of both Parties will consider resolutions to approve the transfer of all the issued and outstanding shares of both Parties to HoldCo, and HoldCo will issue new shares to ASE's shareholders, and pay the Cash Consideration to SPIL's shareholders as consideration, based on the Exchange Ratio and Cash Consideration provided under Article 3 hereof.

1.2 ASE and SPIL agree that, upon the completion of the Share Exchange, ASE and SPIL shall each maintain its separate legal entity status and shall each retain its respective legal entity name, and that ASE and SPIL will become wholly-owned subsidiaries of HoldCo concurrently. HoldCo's Articles of Association is attached hereto as Appendix 1.

2. ASE's and SPIL's Capital Structures as of Execution Date

2.1 ASE represents to SPIL that its capital structure as of the Execution Date is as follows:

2.1.1 ASE's paid-in share capital amounts to NT\$79,236,225,960 million, with a total of 7,923,622,596 issued and outstanding common shares (including 5,349,700 shares which remain to be registered for change).

2.1.2 ASE has 120,000,000 treasury shares.

2.1.3 It has a total of US\$600,000,000 issued and outstanding unsecured foreign convertible bonds, specifically:

US\$400,000,000 unsecured foreign convertible bonds issued by ASE on September 5, 2013, with outstanding (1) balance of US\$400,000,000, convertible into ASE's new common shares, due on August 26, 2018, and the conversion price per share as of the Execution Date is NT\$31.93.

US\$200,000,000 unsecured foreign convertible bonds issued by ASE on July 2, 2015, with outstanding balance of (2) US\$200,000,000, convertible into ASE's treasury shares as described under Article 2.1.2 hereof, due on March 17, 2017, and the conversion price per share as of the Execution Date is NT\$54.5465.

2.1.4 ASE has a total of 236,676,850 units of issued but not vested employee stock options, specifically:

185,806,000 units of employee stock options issued by ASE on December 19, 2007, due on December 18, 2017, (1) each unit exercisable for 1 common share, and its exercise price per share as of the Execution Date is NT\$21.10, with the balance of the issued but not vested employee stock options amounting to 53,938,500 units.

(2) 187,719,500 units of employee stock options issued by ASE on May 6, 2010, due on May 5, 2020, each unit exercisable for 1 common share, and

A-1-5

Table of Contents

its exercise price per share as of the Execution Date is NT\$20.4, with the balance of the issued but not vested employee stock options amounting to 84,056,850 units.

12,280,000 units of employee stock options issued by ASE on April 15, 2011, due on April 14, 2021, each unit (3) exercisable for 1 common share, and its exercise price per share as of the Execution Date is NT\$22.6, with the balance of the issued but not vested employee stock options amounting to 7,731,500 units.

94,270,000 units of ASE's employee stock options issued on September 10, 2015, due on September 9, 2025, each (4) unit exercisable for 1 common share, and its exercise price per share as of the Execution Date is NT\$36.5, with the balance of the issued but not vested employee stock options amounting to 90,950,000 units.

2.1.5 Except as set forth in Article 2.1.1 through Article 2.1.4, ASE has no other issued and outstanding equity-linked securities or other treasury shares.

2.2 SPIL represents to ASE that its capital structure as of the Execution Date is as follows:

2.2.1 Its paid-in share capital amounts to NT\$31,163,611,390, with a total of 3,116,361,139 issued and outstanding common shares:

2.2.2 US\$400,000,000 SPIL Foreign Convertible Bonds issued by SPIL on October 31, 2014, with an outstanding balance of US\$400,000,000, convertible into SPIL's newly issued common shares prior to October 21, 2019. As the Execution Date occurs during the suspension period for conversion of SPIL Foreign Convertible Bonds, the conversion price for each share shall be referred to the conversion price thereof announced by SPIL on July 1, 2016.

2.2.3 Except as set forth in Article 2.2.1 and Article 2.2.2, SPIL has no other issued and outstanding equity-linked securities or other treasury shares.

2.3 The number of total shares as agreed by HoldCo to acquire from each of ASE and SPIL on the Share Exchange Record Date will be based on the actual total number of shares issued by ASE and SPIL, respectively, as of the Share Exchange Record Date.

3. Share Exchange Consideration

3.1 The Transaction will result in the exchange of all of ASE's issued and outstanding shares in consideration for newly issued common shares of HoldCo, at an exchange ratio of 1 ASE common share for 0.5 HoldCo common share (the "Exchange Ratio") (1 ASE American depositary share (each ASE American depositary share currently represents five ASE common shares) shall be

A-1-6

Table of Contents

exchanged for 1.25 Holdco American depository shares (each HoldCo American depository share will represent two HoldCo common shares)). The actual number of ASE's shares expected to be exchanged under this Transaction will be based on the total number of shares issued by ASE as of the Share Exchange Record Date.

The Transaction will result in the exchange of each of SPIL's issued and outstanding shares for the Cash Consideration payable by HoldCo. The actual number of SPIL's shares to be exchanged under the Transaction will be based on the total amount of shares issued by SPIL and outstanding as of the Share Exchange Record Date. The Cash Consideration will be subject to adjustments if SPIL issues shares or cash dividends during the period from the Execution Date to the Share Exchange Record Date, provided, however, the Cash Consideration shall not be subject to adjustment if the cash dividends distributed by SPIL in 2017 is less than 85% of its after-tax net profit for the year 2016.

ASE shall, before SPIL's submission of Schedule 13E-3 to the SEC, confirm with SPIL the types and their composition of ASE's and HoldCo's funding sources, and present proof documentation in respect of sources of funding (including, but not limited to, the financing plan and a highly confident letter conforming to market practice issued by bank(s) on the financing of the Transaction) that can demonstrate ASE's and HoldCo's abilities to fully pay the Cash Consideration. In addition, ASE and HoldCo shall, no later than three business days after the Share Exchange Record Date, transfer the entire amount of the Cash Consideration to a dedicated capital account opened by SPIL's stock transfer agency for the purposes of the closing of the Transaction. ASE and HoldCo shall be jointly and severally liable to the foregoing.

The total registered capital of HoldCo is contemplated to be NT\$50,000,000,000, divided into 5,000,000,000 common shares, with a par value of NT\$10, to be issued in installments; the total paid-in share capital of HoldCo as of the Share Exchange Record Date upon initial issuance is temporarily contemplated to be NT\$39,618,112,980 million, divided into 3,961,811,298 shares. Prior to the Share Exchange Record Date, the amount of HoldCo's new shares to be issued upon the Share Exchange shall be adjusted to take into account any increase or decrease in the amount of ASE's issued shares arising from any capital increase, capital decrease or issuance of new shares on vesting, exchange or conversion of equity-linked securities.

Any fractional shares resulting from HoldCo issuing new HoldCo shares to ASE shareholders based on the Exchange Ratio will be subscribed by a person designated by HoldCo's chairman based on ASE's closing price on the trading day immediately before the Share Exchange Record Date on the Taiwan Stock Exchange, calculated based on the Exchange Ratio and such person will pay cash in lieu to such ASE shareholders (rounded down to the nearest NT dollar). HoldCo's board of directors has the sole discretion to implement any changes to the foregoing provisions relating to treatment of fractional shares so long as

Table of Contents

changes are necessary under relevant laws or regulations, or are required for processing purposes.

4. Adjustment to Consideration of Share Exchange

4.1 Both Parties agree that the Exchange Ratio as agreed hereunder shall not be changed unless approved by the competent authority and agreed by the resolutions of the boards of directors of HoldCo and both Parties; and except under the circumstances set forth in Article 4.2 hereof, the Cash Consideration as agreed herein cannot be changed.

4.2 The Parties agree that they shall cause their respective extraordinary general shareholders' meeting (ASE's extraordinary general shareholders' meeting shall be Holdco's promoters' meeting) to adopt a resolution authorizing each Party's and HoldCo's (if applicable) respective board of directors to effect a reasonable adjustment of the Cash Consideration in good faith and by mutual agreement as soon as possible, without the need for a resolution for adjustment at a separately convened general shareholders' meeting (unless as otherwise agreed herein), if any of the events described below occurs during the period from the Execution Date until the Share Exchange Record Date:

4.2.1 Issuance of SPIL's equity-linked securities of any nature (except for any share(s) newly issued as a result of the exercise of conversion rights by holders of SPIL Foreign Convertible Bonds) or other securities convertible into SPIL shares;

4.2.2 SPIL's disposal of material assets;

4.2.3 Occurrence of major disasters causing a SPIL Material Adverse Effect Event, material technical changes or other circumstances affecting SPIL's shareholders' interests or its share prices; or

4.2.4 SPIL's repurchase of treasury shares (except for the repurchase of shares by SPIL subsequent to SPIL shareholders' exercising appraisal rights under law in connection with the Share Exchange).

4.3 For the purposes of Article 4.2.2 and Article 4.23 hereof, "material" shall mean that the occurrence of said events or circumstances, individually or in aggregate, results in an increase or decrease of SPIL's consolidated net book value by 10% or more as compared to the net book value in SPIL's consolidated audited financial statements as of March 31, 2016 (for the avoidance of doubt, excluding a decrease in the net book value in SPIL's consolidated audited financial statements resulted from dividends distributed by SPIL).

4.4 Following the adjustment to the Cash Consideration pursuant to the terms of Article 4 hereof, both Parties shall apply with, notify to or change with the competent authority in accordance with the laws and regulations for the required permission or approval.

Table of Contents

5. Shareholders' Resolutions Approving the Share Exchange

Both Parties shall each prepare relevant documents subject to the procedures and schedules as agreed under Appendix 2 hereto, and hold an extraordinary general shareholders' meeting to approve this Agreement and the Transaction in a share exchange resolution based on the terms of this Agreement on the same date to be jointly agreed upon by both Parties in good faith and goodwill following clearance by two Antitrust Law Enforcement Authorities of Relevant Countries or Regions (but not later than the 70th calendar day following clearance and approval obtained by both Parties from each of the Antitrust Law Enforcement Authorities of Relevant Countries or Regions).

The non-independent directors and supervisors (future independent directors) of HoldCo shall be elected at ASE Extraordinary Shareholders' Meeting (i.e., Holdco's promoters' meeting) in accordance with the arrangements set forth in Article 9 of this Agreement.

6. Conditions Precedent to Share Exchange

6.1 HoldCo and both Parties shall effect the Share Exchange to complete the Transaction pursuant to this Agreement if all the conditions precedent below are satisfied:

6.1.1 The unconditional approval of the Transaction at each Party's respective general shareholders' meeting; and

6.1.2 The approvals or consents (including, but not limited to, approvals or consents of conditions and/or burdens imposed by Antitrust Law Enforcement Authorities of Relevant Countries and Regions that both Parties agree to accept) to consummate the Transaction from all relevant competent authorities (including, but not limited to: the Taiwan Stock Exchange, the SEC, and Antitrust Law Enforcement Authorities of Relevant Countries and Regions) shall have been received.

6.1.3 No governmental entity having competent jurisdiction over the Transaction shall have enacted or enforced any order (whether temporary, preliminary or permanent) that is in effect and enforceable prohibiting, enjoining or rendering illegal the consummation of the Transaction, and no law shall have enacted or enforced after the Execution Date rendering illegal or otherwise prohibiting the consummation of the Transaction. For the avoidance of doubt, the enactment or enforcement of an "order" or "law" shall not include the making of a decision by any governmental entity to extend the waiting period or initiate an investigation pursuant to any Antitrust Law or any law of relevant jurisdictions.

Table of Contents

6.2 The obligations of each of HoldCo and ASE to complete the Transaction is subject to the satisfaction of (or HoldCo's and ASE's consent to the waiver of) all the conditions below:

All of SPIL's representations and warranties contained within this Agreement are true and accurate as of the
6.2.1 Execution Date and as of the Share Exchange Record Date, except to the extent that no SPIL Material Adverse Effect Event shall have occurred.

6.2.2 SPIL has fulfilled the undertakings and obligations that SPIL is obliged to fulfill in all material respects prior to the Share Exchange Record Date pursuant to this Agreement.

6.2.3 No SPIL Material Adverse Effect Event shall have occurred by the Share Exchange Record Date.

Before the Share Exchange Record Date, no Force Majeure Events shall have occurred which, individually or in
6.2.4 aggregate, result in a decrease of SPIL's consolidated net book value by 30% or more as compared to the net book value in SPIL's consolidated audited financial statements as of March 31, 2016.

6.3 SPIL's obligation to complete this Transaction is subject to the satisfaction of (or SPIL's consent to waive) all the conditions below:

All of ASE's representations and warranties contained within this Agreement are true and accurate as of the
Execution Date and as of the Share Exchange Record Date, except to the extent that no ASE Material Adverse
6.3.1 Effect Event shall have occurred; all of HoldCo's representations and warranties contained within this Agreement are true and accurate as of the Share Exchange Record Date, except to the extent that no HoldCo's material adverse effect event shall have occurred.

6.3.2 ASE and/or HoldCo have fulfilled the undertakings and obligations that ASE and/or HoldCo are obliged to fulfill in all material respects prior to the Share Exchange Record Date pursuant to this Agreement.

6.3.3 No ASE Material Adverse Effect Event shall have occurred by the Share Exchange Record Date.

No Force Majeure Events shall have occurred by the Share Exchange Record Date which, individually or in
6.3.4 aggregate, result in a decrease in ASE's consolidated net book value by 30% or more as compared to the net book value in ASE's consolidated audited financial statements as of March 31, 2016.

Table of Contents

6.4 The completion of this Transaction is subject to satisfaction or waiver of all the conditions precedent as set forth in Article 6.1 through 6.3 on or before the Long Stop Date. ASE or SPIL shall not prevent the consummation of this Transaction for any other improper reason. If the closing of the Transaction cannot be completed due to the failure of the conditions precedent as set forth in Article 6.1 through 6.3 hereof to be satisfied on or before the Long Stop Date, this Agreement shall be terminated automatically at 0:00am on the day immediately following the Long Stop Date.

6.5 If all the conditions precedent as set forth in Article 6.1 through 6.3 hereof have been satisfied or waived, the Share Exchange shall be completed on the share exchange record date as agreed by HoldCo's and both Parties' boards of directors in accordance with the laws and regulations and Article 6.5 hereof ("Share Exchange Record Date"). Each Party's and HoldCo's (if applicable) boards of directors shall jointly agree upon and respectively resolve to approve the Share Exchange Record Date within 10 days following the date of approval of their respective general shareholders' meeting to effect the Transaction under Article 5.1 hereof.

7. Representations and Warranties

7.1 ASE represents and warrants to SPIL that the following terms shall be true and correct as of the Execution Date and as of the Share Exchange Record Date:

7.1.1 Valid establishment and existence of the company: ASE is a company limited by shares duly incorporated and validly existing under the ROC Company Act and has obtained all necessary licenses, approvals, permits and other relevant licenses in order to carry on its business operations, except to the extent that failure to obtain such licenses, approvals, permits and other relevant licenses would not give rise to an ASE Material Adverse Effect Event. All the shares issued by ASE have been legally authorized, issued and fully paid.

7.1.2 Validity and effectiveness of this Agreement: the execution and implementation of this Agreement, shall not violate (1) current laws or regulations of the ROC; (2) judgments, orders or dispositions by courts or relevant competent authorities; (3) the articles of incorporation, board resolutions or shareholders' resolutions of ASE; or (4) contracts, agreements, representations, warranties, promises, guarantees, arrangements or other obligations with which ASE shall comply, except to the extent that, in case of (1), (2), (3) or (4), no ASE Material Adverse Effect Event shall have occurred or ASE's ability to fulfill this Agreement is not affected.

As of the Execution Date, subject to (a) pre-merger notification requirements under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (as amended) and regulations or rules promulgated thereunder (the "**HSR Act**"), (b) filing and/or notification under the Antitrust Laws of any jurisdiction

Table of Contents

outside the United States, (c) approval necessary to be obtained from the SEC for the proxy statement, (d) requirements for the purposes of compliance with state or other local securities, acquisitions and “blue sky” laws, and (e) in addition to other authorizations, consents, approvals, orders, permits, notices, reports, notifications, registrations, qualifications and waivers, ASE’s execution hereof, and fulfillment of obligations hereunder, and consummation of the Transaction and other transactions contemplated hereunder have been authorized by the valid and effective resolution of ASE, and this Agreement constitutes a valid and legally binding obligation of ASE, enforceable against ASE in accordance with its terms.

7.1.3 Resolution and authorization by board of directors and/ or shareholders’ meeting: ASE’s board of directors and/or (before the Share Exchange Record Date) shareholders’ meeting have passed resolution(s) approving this Agreement and the Share Exchange and authorized the chairman of ASE or his appointed representative to execute, amend or change this Agreement on behalf of ASE.

7.1.4 All of ASE’s representations in Article 2.1 hereof are true and correct as of the Execution Date.

7.2 ASE causes HoldCo to represent and warrant, and represents and warrants jointly and severally with HoldCo, that the following terms shall be true and correct as of the Share Exchange Record Date:

7.2.1 Valid establishment and existence of the company: HoldCo is a company limited by shares duly incorporated and validly existing under the ROC Company Act and has obtained all necessary licenses, approvals, permits and other relevant licenses in order to carry on its business operations, except to the extent that failure to obtain such licenses, approvals, permits and other relevant licenses would not give rise to a material adverse effect event. All the shares issued by HoldCo have been legally authorized, issued and fully paid.

7.2.2 Validity and effectiveness of this Agreement: the execution and implementation of this Agreement, shall not violate (1) current laws or regulations of the ROC; (2) judgments, orders or dispositions by courts or relevant competent authorities; (3) the articles of incorporation, board resolutions or shareholders’ resolutions of HoldCo; or (4) contracts, agreements, representations, warranties, promises, guarantees, arrangements or other obligations with which ASE shall comply, except to the extent that, in case of (1), (2), (3) or (4), HoldCo’s ability to fulfill this Agreement is not affected. The performance of this Agreement has been authorized by the valid and effective resolution of HoldCo, and this Agreement constitutes a valid and legally binding obligation of HoldCo, enforceable against HoldCo in accordance with its terms.

Table of Contents

7.2.3 Resolution and authorization by board of directors and/or general shareholders' meeting: HoldCo's promoters meeting (if applicable) has passed a resolution approving this Agreement and the Share Exchange.

7.3 Except for (i) the information set forth in Appendix 3 (SPIL Disclosure Letter) and (ii) publicly available information disclosed in accordance with the regulations of the Relevant Securities Regulators, SPIL represents and warrants to ASE that the following terms shall be true and correct as of the Execution Date and as of Share Exchange Record Date (except to the extent that a representation or warranty is by its terms made as of a specified date, in which case such representation or warranty shall be true and correct only as of such date):

7.3.1 Valid establishment and existence of the company: SPIL is a company limited by shares duly incorporated and validly existing under the ROC Company Act and has obtained all necessary licenses, approvals, permits and other relevant licenses in order to carry on its business operations, except to the extent that the failure to obtain such licenses, approvals, permits and other relevant licenses would not cause a SPIL Material Adverse Effect Event to occur. All the shares issued by SPIL have been legally authorized, issued and fully paid.

7.3.2 Validity and effectiveness of this Agreement: the execution and implementation of this Agreement, shall not violate (1) current laws or regulations of the ROC; (2) judgments, orders or dispositions by courts or relevant competent authorities; (3) articles of incorporation, board resolutions or shareholders' resolutions of SPIL; or (4) contracts, agreements, representations, warranties, promises, guarantees, arrangements or other obligations with which SPIL shall comply, except to the extent that, in case of (1), (2), (3) or (4), no SPIL Material Adverse Effect Event shall have occurred or SPIL's ability to fulfill this Agreement is not affected.

As of the Execution Date, subject to (a) pre-merger notification requirements under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (as amended) and regulations or rules promulgated thereunder (the "HSR Act"), (b) filing and/or notification under the Antitrust Laws of any jurisdiction outside the United States, (c) approval necessary to be obtained from the SEC for the proxy statement, (d) requirements for the purposes of compliance with state or other local securities, acquisitions and "blue sky" laws, and (e) in addition to other authorizations, consents, approvals, orders, permits, notices, reports, notifications, registrations, qualifications and waivers, SPIL's execution hereof, and fulfillment of obligations hereunder, and consummation of the Transaction and other transactions contemplated hereunder have been authorized by the valid and effective resolution of SPIL, and this Agreement constitutes a valid and legally binding obligation of SPIL, enforceable against SPIL in accordance with its terms.

Table of Contents

7.3.3 Resolution and authorization by board of directors and/ or shareholders' meeting: SPIL's board of directors and/or (before the Share Exchange Record Date) shareholders' meeting have passed resolution(s) approving this Agreement and the Share Exchange and authorized the chairman of SPIL or his appointed representative to execute, amend or change this Agreement on behalf of SPIL.

7.3.4 All of SPIL's representations in Article 2.2 hereof are true and correct as of the Execution Date.

7.3.5 Financial statements and information: the audited and publicly available financial statements and any other financial statements provided to ASE were prepared in accordance with the applicable international financial reporting standards (Taiwan-IFRSs), and all material issues relating to SPIL and SPIL Subsidiaries were fairly presented, and do not have any fabrications, mistakes or concealments in their content that would cause a SPIL Material Adverse Effect Event to occur. Except as disclosed to ASE in writing, SPIL does not have any debts or other contingent liabilities that would cause a SPIL Material Adverse Effect Event to occur.

7.3.6 Declaration and payment of taxes and charges: except as publicly disclosed in accordance with applicable laws or disclosed in SPIL's audited financial statements as of December 31, 2015, all taxes and charges to be lawfully declared (except for those legally subject to litigation or relief proceedings) have been declared and paid in full within the legally allotted time period without any delays, omissions, fabrications, tax evasions or other violations of relevant tax laws and regulations, orders or explanatory letters that would cause a SPIL Material Adverse Effect Event to occur.

7.3.7 Litigation or contentious matters: except as publicly disclosed in accordance with applicable laws or disclosed in SPIL's audited financial statements as of December 31, 2015, there are no on-going or potential litigation or contentious matters, which is likely to cause a SPIL Material Adverse Effect Event to occur.

7.3.8 Assets and liabilities: SPIL's assets and liabilities of operation have been listed in the financial statements provided to ASE. SPIL has lawful and valid rights over the assets it uses and except as publicly disclosed in accordance with applicable laws or disclosed in SPIL's audited financial statements as of December 31, 2015, its utilization, benefits and disposition are not restrained or limited that would cause a SPIL Material Adverse Effect Event to occur.

7.3.9 No new material debts: except as publicly disclosed in accordance with applicable laws or disclosed in SPIL's audited financial statements as of December 31, 2015 or incurred in the ordinary course of operations, from December 31, 2015 to the Execution Date and the Share Exchange Record Date, no new indebtedness, obligations, burdens or contingent liabilities have

Table of Contents

been incurred that would cause a SPIL Material Adverse Effect Event to occur.

Intellectual property rights: except to the extent that a SPIL Material Adverse Effect Event would be caused to occur, the information contained in SPIL's public filings regarding Intellectual Property Rights is true, accurate and complete, does not contain any concealments or omissions and such Intellectual Property Rights are not subject to mortgages, pledges or other liens or burdens. Except as publicly disclosed in accordance with applicable laws or disclosed in SPIL's audited financial statements as of December 31, 2015, SPIL and SPIL
7.3.10 Subsidiaries own valid Intellectual Property Rights for use in their daily major operations and have valid ownership or use right over the Intellectual Property Rights required for their operations. To SPIL's knowledge, SPIL and SPIL Subsidiaries have not infringed upon, and have not been notified in writing or accused of infringing, upon the intellectual property rights of others, and the validity and/or feasibility of the major Intellectual Property Rights owned by SPIL or SPIL Subsidiaries have not been questioned or objected to by others that would cause a SPIL Material Adverse Effect Event to occur.

Labor relations: except as publicly disclosed in accordance with applicable laws or disclosed in SPIL's audited
7.3.11 financial statements as of December 31, 2015, there are no material labor disputes or any matters as of the Share Exchange Record Date which are in material violation of relevant labor laws subject to dispositions imposed by labor authorities, which would cause a SPIL Material Adverse Effect Event to occur.

Environmental events: If in accordance with the relevant rules and regulations, SPIL and SPIL Subsidiaries shall apply for relevant pollution treatment facility permits and pollution discharge permits, pay pollution
7.3.12 prevention fees or set up professional staff to manage pollution, SPIL and SPIL Subsidiaries have complied with such requirements, and SPIL and SPIL Subsidiaries are not involved in any material environment pollution disputes or subject to dispositions imposed by environmental authorities for material violation of relevant environmental laws that would cause a SPIL Material Adverse Effect Event to occur.

Material contracts: All Material Contracts have been provided in writing or orally disclosed to ASE and are
7.3.13 without any fabrications, concealments or mistakes, and, except as otherwise disclosed, such Material Contracts will not be invalid, terminated, dismissed, or claimed to be in breach as a result of the Transaction that would cause a SPIL Material Adverse Effect Event to occur.

No breach of contract: except as publicly disclosed in accordance with applicable laws or disclosed in SPIL's
7.3.14 audited financial statements as of December 31, 2015, SPIL and SPIL Subsidiaries are not in breach of any

Table of Contents

material entrustment agreement, mortgage, trust, loan or other contracts to which they are parties, which are binding on them, or under which their properties are subject matters; except that any such breach does not cause a SPIL Material Adverse Effect Event to occur or affect the fulfillment of this Agreement by SPIL and SPIL Subsidiaries.

- 7.3.15 Materials of this Agreement: All or any part of information required in order to prepare and file the Registration Statement (as defined in Appendix 2) and documents provided by SPIL to ASE are true and correct in all material respects and do not contain any fabrications, mistakes or concealments that would cause a SPIL Material Adverse Effect Event to occur.
- 7.3.16 Compliance with Laws. SPIL and SPIL Subsidiaries are in compliance with all applicable laws in all material respects without violations that would cause a SPIL Material Adverse Effect Event to occur.

8. Covenants

- 8.1 ASE and/or HoldCo (if applicable) covenant to SPIL that, from the Execution Date until Share Exchange Record Date:

8.1.1 Except to the extent that SPIL has materially breached any of its obligations, undertakings or representations and warranties under this Agreement, or SPIL has any circumstances that would unreasonably prevent the completion of the Share Exchange or where SPIL's directors have breached their duty of care or duty of royalty in respect of the Transaction, the ASE covenants to SPIL that:

- (1) ASE shall support the candidates nominated by SPIL's board of directors to be elected to serve on SPIL's 13th board of directors when SPIL re-elects its board of directors (including independent directors) in June 2017.

(2) ASE shall not intervene SPIL's operation. It shall support the motions put forward by SPIL's board of directors at SPIL's general shareholders' meeting (ASE shall abstain from so acting if ASE has an interest in the motion to SPIL's general shareholders' meeting that threatens SPIL's interest), and shall not solicit proxy forms or replace SPIL's directors in any way including, but not limited to, acting on its own or causing any other party to convene an extraordinary general shareholders' meeting; and unless with SPIL's consent and in compliance with non-compete rules, ASE, ASE's subsidiaries and their current or former directors, supervisors, managers, and/or the spouses and second-degree relatives and other related parties of such directors, supervisors, managers shall not serve as a director of SPIL.

- (3) ASE and SPIL will maintain their competition and respective independence without poaching SPIL's employees.

Table of Contents

(4) ASE shall not purchase or acquire SPIL's shares or increase its shares held in SPIL in any manner violating the laws or regulations of relevant countries or regions; for the shares legally increased by ASE in SPIL from the Execution Date to the Share Exchange Record Date, ASE may dispose of them freely for financial purposes, provided that the shares subject to disposal shall be in aggregate less than 10% of the total issued and outstanding SPIL shares; ASE may transfer shares held in SPIL to designated persons who shall not in the integrated circuit packaging industry; if ASE transfers shares held in SPIL in the amount that is in aggregate more than 10% of the total issued and outstanding SPIL shares, ASE shall have firstly obtained SPIL's consent or transfer the shares to SPIL's designated persons.

8.1.2 Provided it is permissible by laws and regulations, ASE and HoldCo shall use its commercially reasonable efforts to assist in obtaining all approvals relating to the Transaction from competent authorities.

8.1.3 ASE and HoldCo shall comply with the Taiwan Fair Trade Act and all relevant laws to the extent they are applicable to the Transaction.

8.1.4 In its SEC Filings (as defined in Appendix 2 hereto), it will recommend ASE's shareholders to vote in favor of this Agreement and the Share Exchange.

8.1.5 If an Antitrust Law Enforcement Authority of Relevant Country or Region puts forward or proposes during its review of the Transaction to impose any addition conditions and/or burdens on ASE, SPIL and/or HoldCo in its clearance/approval of the Transaction, ASE shall, without breaching the principles of SPIL's independent operations set forth hereunder, act in good faith and goodwill to jointly decide with SPIL on whether or not to accept such conditions and/or burdens, or consult with such Antitrust Law Enforcement Authority of Relevant Country or Region on such conditions and/or burdens.

8.1.6 ASE and HoldCo shall nominate and elect HoldCo's directors and supervisors (future independent directors) pursuant to Article 9 hereof.

8.2 SPIL covenants to ASE that, from the Execution Date until the Share Exchange Record Date:

8.2.1 To the extent permissible under laws and regulations, SPIL shall use its reasonable efforts to assist in obtaining all approvals relating to the Transaction from competent authorities.

8.2.2 Based on the consensus and premises that the laws and regulations will not be violated and ASE and HoldCo will maintain SPIL's independent operations pursuant to this Agreement, SPIL shall use its commercially reasonable efforts, to the extent that the law and regulations of relevant

Table of Contents

countries or regions are not violated, to provide assistance and support to ASE in filing explanations, information and/or notifications to competent authorities (including, but not limited to, filing on a several or joint basis of the relevant documentation to the Taiwan Fair Trade Commission or the Ministry of Commerce of the People's Republic of China, and filing of the relevant documentation on a several basis to the United States Federal Trade Commission), in order for HoldCo and both Parties to receive approval or consent from all relevant competent authorities required to complete the Share Exchange as soon as possible.

8.2.3 SPIL shall comply with the Taiwan Fair Trade Act and all relevant laws to the extent they are applicable to the Transaction.

8.2.4 After ASE issues to SPIL, in connection with the payment of entire amount of Cash Consideration hereunder, the financing plan and a highly confident letter in respect of the financing of the Transaction issued by banks conforming to the market practice, SPIL shall in its SEC Filings (as defined in Appendix 2) recommend to SPIL's shareholders to vote in favor of approving this Agreement and the Share Exchange.

8.2.5 Without the prior written consent of ASE, SPIL shall not nor procure SPIL Subsidiaries to:

(1) Issue any equity-linked securities (except for any share(s) newly issued as a result of the exercise of conversion rights by holders of SPIL Foreign Convertible Bonds).

(2) Except for the repurchase of shares from the shareholders exercising appraisal rights in connection with this Transaction in accordance with laws and regulations and Article 13 hereof or redemption of SPIL Foreign Convertible Bonds as contractually agreed, directly or indirectly repurchase, individually or through any third party, its issued and outstanding shares or equity-linked securities, decrease capital, resolve for dissolution, or file for restructuring, settlement or bankruptcy.

(3) Except subject to affirmative court judgments, arbitration awards or approvals, orders, administrative decisions or approved conditions/burdens or other requirements imposed by competent authorities (including, but not limited to, the Taiwan Stock Exchange, the Taiwan Fair Trade Commission, the United States Federal Trade Commission, the SEC, and the Antitrust Law Enforcement Authorities of Relevant Countries and Regions), none of SPIL or any of its directors, managers, employees, agents or representatives may offer, agree, enter into or sign with any third party any contract, agreement or other arrangements in respect of any following matter: (a) any transaction that may involve a spin-off, a purchase or a sale of shares of non-financial investment nature, or any other transaction of similar nature; (b) a lease of all businesses or an

Table of Contents

entrustment, a joint operation, or an assumption of the entire business or assets from others (except for an assumption of the entire business or assets from others in an aggregated transaction amount less than NT\$500,000,000); or (c) any merger and acquisition without issuing HoldCo's shares, any sale of all or material assets or businesses of 100% Subsidiaries, any disposal of interest in material assets or businesses of 100% Subsidiaries, or exclusive licensing of all or material patents or technologies of 100% Subsidiaries, provided, however, if SPIL receives a Superior Proposal from a third party the conditions of which, in the respective opinions of SPIL's audit committee and board of directors, are more favorable than those of this Transaction, SPIL shall notify ASE in writing the entire content of such Superior Proposal, and from the fifth business day following the delivery of notice to ASE, negotiate with, propose to, inquire, deliberate with, contact, discuss, offer or consult with such third party. Both Parties agree that, if SPIL cannot complete the Share Exchange under this Agreement due to its acceptance of a Superior Proposal as set forth above, SPIL shall pay to ASE the amount of NT\$17 billion as a termination fee for the Transaction.

8.2.6 If Antitrust Law Enforcement Authorities of Relevant Countries or Regions put forward or propose during their review of the Transaction to impose any conditions and/or burdens on ASE, SPIL and/or HoldCo in the clearance/approval of the Transaction, SPIL shall, without breaching the principles of SPIL's independent operations set forth hereunder, act in good faith and goodwill to jointly decide with ASE on whether or not to accept such conditions and/or burdens, or consult with such Antitrust Law Enforcement Authority of Relevant Countries or Regions on such conditions and/or burdens.

8.3 Special Covenants Applicable Subsequent to the Share Exchange Record Date: ASE, HoldCo and SPIL shall accept, comply with and fulfill the conditions and burdens agreed by both Parties and imposed by Antitrust Law Enforcement Authorities of Relevant Countries.

9. Directors of the HoldCo

9.1 HoldCo's promoters' meeting shall elect nine to thirteen seats of non-independent directors and three seats of supervisors (future independent directors).

9.2 Two seats of the non-independent directors of HoldCo shall include SPIL's chairman and president, respectively (and their successors (if any)). Both Parties will jointly determine in writing, with the utmost good faith and sincerity, the nominee for one independent director of HoldCo's board when HoldCo appoints independent directors.

Table of Contents

10. Guarantee of the Benefits and Rights of SPIL's Employees

10.1 HoldCo shall retain all SPIL Employees as of the Share Exchange Record Date. SPIL Employees to be retained after the completion of the Share Exchange will continue to enjoy the existing employee benefits, working conditions and personnel regulations as of the Execution Date. SPIL Employees' rights to employment shall be duly protected, save for where a SPIL Employee commits a material breach of laws or the personnel regulations of SPIL or SPIL Subsidiaries due to matters that are attributable to him/her and must be handled by SPIL in accordance with the relevant personnel regulation. HoldCo shall reserve a portion of its employee stock options for SPIL's employees when HoldCo issues new employee stock options. SPIL's board of directors may reasonably adjust SPIL's employee compensation and benefits by reference to ASE's employee compensation and benefits.

10.2 HoldCo shall set forth the methods to issue its employee stock options and the portion to be reserved for SPIL Employees based on the number of employees and employee's contribution, performance results and profitability of HoldCo's future subsidiaries; and SPIL will determine, in accordance with its personnel regulations, the proportion of such HoldCo's employee stock options to be distributed to SPIL's management and its other employees.

10.3 ASE and HoldCo agree that SPIL's management team may, based on its own discretion and within three months after the completion of the Share Exchange, implement reasonable and appropriate one-off plans to: (1) retain certain management team members of SPIL and/or (2) handle resignation requests from SPIL Employees who choose to terminate employment after the Share Exchange Record Date, provided that the SPIL management team does not violate its duty of loyalty or duty of care.

10.4 HoldCo and both Parties agree to waive the legal liability of each Party's staff (including, but not limited to, directors, managers and employees) in connection with the Transaction that may be incurred prior to the Share Exchange Date, and each Party agrees to mutually exempt, forego, waive all of its recourses in law against the other Party's staff as set forth above in connection with the Transaction that may be incurred prior to the Share Exchange Record Date. HoldCo and both Parties agree to waive the liability of any intermediary, its owner or employee arising from its engagement in the Transaction or provision of advisory and other services to the Parties; provided, however, this Article does not extend to the criminal liability, or legal liability arising from willful misconduct or gross negligence, of any of legal or natural persons as set forth above.

11. Independent Operation of SPIL

11.1 Before the completion of the Share Exchange, ASE and SPIL are companies independent from each other, operate independently and, through healthy competition, improve their individual operating efficiencies and economies of

Table of Contents

scale as well as research innovation achievements, thereby providing customers with more complete services and alleviate concerns of order transfers from customers due to concentration risk. As a result of such independent operation model, the competition restriction concerns or disadvantages to overall economic interests arising from the publicity and consummation of the Transaction can be avoided. Therefore, on the basis that SPIL's independent operation and concurrence of competition and cooperation between both Parties shall be maintained, both Parties agree to file explanations on the arrangement of the Transaction to relevant Antitrust Law Enforcement Authorities of Relevant Countries or Regions, to enable them to approve the Transaction.

After the Share Exchange is completed, HoldCo will become a parent company holding one hundred percent SPIL shares and continue to maintain the independent operation of, and concurrence of competition and cooperation between, both Parties, and SPIL shall retain its legal entity name; provided that the relevant laws and regulations are not violated, and no duty of care or duty of loyalty of SPIL's directors to SPIL is breached, and without violating the interest of HoldCo, HoldCo agrees:

(1) All of SPIL's operations shall be resolved by SPIL's board of directors. SPIL's board of directors shall have independent decision power on SPIL's organizational documents, personnel, payroll or welfare systems, financial budgets, audit, technology research and development, operations and marketing and other matters so as to maintain SPIL's independent operation;

(2) any matter regarding SPIL's rights and obligations shall be completed by SPIL's board of directors or under its authorization, and the operation of SPIL's businesses shall also be conducted by SPIL's board of directors or under its directions;

(3) Based on the principle of reciprocity, HoldCo will, as long as allowed by its capability, provide guarantees, fundings or supports sufficient to cause other financing parties to provide fundings (including, but not limited to, repayment guarantee documentation acceptable to other financing parties) whenever SPIL has funding needs (including, but not limited to, the needs for capital expenditure and working capital in its annual budget/annual plans) in order to meet the financing needs of SPIL; and

(4) HoldCo shall agree that SPIL retain the management team and employees of SPIL and maintain their current organizational structure, compensation and relevant benefits as of the Execution Date. During the existence of SPIL as a subsidiary of HoldCo, SPIL's board of directors shall have full autonomy in deciding and nominating future candidates for directors and supervisors of SPIL (and HoldCo shall appoint such candidates thereupon) (who shall not be replaced or otherwise removed without consent of SPIL's board of directors), and maintain the current compensation and

Table of Contents

relevant benefits of SPIL's directors as of the Execution Date. In addition, HoldCo may in no way dispose of its shares in SPIL without SPIL's consent (including, but not limited to, sale, pledge, or otherwise encumbrance), and SPIL's board of directors may continue to operate independently and determine the organizational structure, compensation and relevant benefits of SPIL, in order to facilitate the maintenance of SPIL's current and future independent business and operation model after the completion of the Share Exchange.

For the avoidance of doubt, upon resolution of each Party's board of directors and general shareholders' meeting (including HoldCo's promoters' meeting) approving this Agreement, the provisions of this Agreement regarding SPIL's independent operation are deemed to comply with the laws and regulations set forth in Article 11.2 hereof without violating the interest of HoldCo.

Based on the principle of reciprocity, SPIL will, as long as allowed by its capability, provide guarantees, fundings or supports sufficient to cause other financing parties to provide fundings (including, but not limited to, 11.3 repayment guarantee documentation acceptable to other financing parties) whenever HoldCo has the funding needs (including, but not limited to, the needs for capital expenditure and working capital in the annual budget/annual plan) in order to meet the financing needs of HoldCo.

11.4 The major organizational structure of HoldCo and major subsidiaries operated by HoldCo after completion of the Share Exchange is shown in Appendix 4 hereto.

After the completion of the Share Exchange, none of 100% Subsidiaries (including, but not limited to, ASE and SPIL) or any of their directors, managers or agents may, before discussion and consensus reached with HoldCo, 11.5 offer, agree to, reach or enter into any agreement with any third party that is not a Party regarding an Alternate Transaction. Upon instruction, if any, of a competent authority regarding restrictions on 100% Subsidiaries entering into Alternate Transactions, Article 11.5 hereof shall be subject to adjustment as per such instruction.

HoldCo and its subsidiaries (other than SPIL) shall not provide to ASE with customers and competition 11.6 information obtained from SPIL, including, but not limited to, production and sales costs, product price/quantity, suppliers and other information, unless otherwise agreed by SPIL and in compliance with Antitrust Law.

Except as set forth herein, in managing SPIL or handling SPIL matters, SPIL directors and/or managers shall not 11.7 violate their duty of loyalty or duty of care to SPIL, and shall protect SPIL without violating the interest of HoldCo.

A-1-22

Table of Contents

11.8 Where SPIL exercises its rights under Article 14.2, Article 14.3, Article 17.4 or other relevant provisions herein, it has the rights to initiate arbitration against HoldCo or its subsidiaries (other than SPIL) for dispute settlement.

12. Principles in Dealing with Treasury Shares and Equity-Linked Securities

12.1 ASE has repurchased treasury shares before the Share Exchange Record Date for the purpose of Share Exchange in cooperation with ASE's issuance of US\$200,000,000 unsecured foreign convertible bonds on July 2, 2015. However, the shares that have not been converted will continue to be owned by ASE and will be converted to the shares of HoldCo as of the Share Exchange Record Date in accordance with the Exchange Ratio for processing afterwards under the original purpose for repurchase of treasury shares or in accordance with relevant laws and regulations. The terms and conditions for conversion shall remain the same as original terms and conditions, except that the conversion price of the unsecured foreign convertible bonds shall be adjusted in accordance with Exchange Ratio.

12.2 For the outstanding balance of US\$400,000,000 unsecured foreign convertible bonds issued by ASE on September 5, 2013, except where the bonds have been redeemed or repurchased and cancelled or converted by the holders by exercising their conversion rights before Share Exchange Record Date, the holders of such unsecured foreign convertible bonds may, after ASE obtains approval from all relevant competent authorities and after Share Exchange Record Date, convert such outstanding balance into newly issued HoldCo common shares. The conversion shall be subject to applicable laws and the indenture of such unsecured foreign convertible bonds and the Exchange Ratio. The conversion of the unsecured foreign convertible bonds into HoldCo common shares does not require separate approval from ASE's board meeting or shareholders' meeting or HoldCo's shareholders' meeting.

12.3 For the stock options issued by ASE upon the approval from relevant competent authorities before the execution of this Agreement, HoldCo will assume ASE's obligations under the stock options as of the Share Exchange Record Date. Except that the exercise price and amount shall be adjusted in accordance with Exchange Ratio herein and that the shares subject to exercise shall be converted into HoldCo's newly issued common shares, all other terms and conditions for issuance will remain the same. The final execution arrangements shall be made by HoldCo in compliance with relevant laws and regulations and subject to the approval of relevant competent authorities.

12.4 ASE shall cause HoldCo to warrant, and warrants severally and jointly with HoldCo, to SPIL that, if any SPIL Foreign Convertible Bonds have not been redeemed or repurchased and cancelled or converted by the bond holders thereof by exercising their conversion rights as of the Share Exchange Record Date, HoldCo will pay the Cash Consideration (subject to adjustments in accordance

Table of Contents

with laws, regulations and/or applicable requirements under Article 4 hereof) to the bond holders thereof exercising their conversion rights after the Share Exchange Record Date. In addition, HoldCo and SPIL shall separately agree to execute a supplemental indenture with the trustee of SPIL Foreign Convertible Bonds whereby HoldCo and SPIL will become co-obligors in respect of the redemption of SPIL Foreign Convertible Bonds and HoldCo agrees to pay the Cash Consideration (subject to adjustment in accordance with laws, regulations and/or applicable requirements under Article 4 hereof) to the bond holders thereof exercising their conversion rights.

13.

Appraisal Rights

If a shareholder of either Party exercises its appraisal rights in relation to the Share Exchange under laws, such
13.1 Party shall repurchase the shares of such dissenting shareholder in accordance with the procedures under the laws or regulations. Shares repurchased pursuant to this Article shall be dealt with under relevant laws and regulations.

14. Events of Default

If a Party fails to perform or breaches any of its obligations, undertakings or representations and warranties under this Agreement (a default by either HoldCo or ASE hereunder shall be deemed to be a joint default by HoldCo and ASE to which HoldCo and ASE shall be jointly and severally liable), and if such failure or breach is by its nature remediable, and the non-defaulting Party requests the defaulting Party in writing to remedy such failure or
14.1 breach within 15 days, the failure to remedy in such period of time after receiving such notice shall constitute an event of default under this Agreement, provided, however, except as otherwise specifically provided in Article 14.3 hereof, any of the representations and warranties made by either Party prior to the Share Exchange Record Date, even though there was failure to perform or breach of any of those representations and warranties, shall be regarded as invalidated as of the Share Exchange Record Date.

If an event of default occurs and such event of default leads to the failure to consummate the Transaction on or before the Long Stop Date, the non-defaulting Party is entitled to terminate or cancel this Agreement and claim from the defaulting Party necessary expenses incurred in entering into this Agreement and the performance of the Transaction hereunder. The foregoing shall be in addition to, not in lieu of, the rights, remedies and damages
14.2 available under laws; provided that if the non-defaulting Party's contributory negligence has contributed to the occurrence of such event of default, relevant costs shall be adjusted based on the proportion of contributory negligence, which may be determined by an expert appraiser appointed by both Parties without arbitration; the foregoing is also applicable, mutatis mutandis, to the offset between losses and gains, if any, of non-defaulting Party from such event of default.

Table of Contents

14.3 If a material event of default (“material event of default” refers to an event of breach under Article 8.1.1, Article 8.1.3, Article 8.1.5, Article 8.1.6, Article 8.2.2, Article 8.2.6, Article 8.3, Article 9, Article 10, Article 11, or the occurrence of a circumstance under Article 14.2) occurs, the non-defaulting Party shall not only be entitled to claim rights pursuant to the relevant provisions herein, but also entitled to claim liquidated damages of NT\$8.5 billion from the defaulting Party. In case of a contributory negligence as set forth in the second sentence of Article 14.2, the liquidated damages shall be adjusted accordingly.

15. Termination of this Agreement

15.1 Prior to the Share Exchange Record Date, unless agreed by ASE and SPIL in writing, a Party can terminate this Agreement by written notice to the other Party in any of the following situations:

15.1.1 Laws, judgments or orders of courts or orders or administrative decisions are issued by relevant competent authorities restricting or prohibiting this Transaction, provided that such restriction or prohibition has been confirmed and cannot be remedied with the adjustment of the content of this Agreement, either Party may terminate this Agreement by a written notice to the other Party.

15.1.2 This Agreement and the Transaction are not approved by either Party’s shareholders at the applicable shareholder meeting convened for such purpose.

15.2 Prior to the Share Exchange Record Date, ASE or SPIL may terminate this Agreement as follows:

15.2.1 If SPIL fails to perform or breaches any of its obligations, undertakings or representations and warranties under this Agreement (1) which leads to the failure to satisfy the conditions set forth in Article 6.2, and (2) such breach is by its nature remediable and cannot be or is not remedied by SPIL within 30 business days after receiving from ASE a written notice on such breach or failure to perform, and (3) which is not waived in writing by ASE, ASE may terminate this Agreement in writing.

15.2.2 If ASE fails to perform or breaches any of its obligations, undertakings or representations and warranties under this Agreement (1) which leads to the failure to satisfy the conditions set forth in Article 6.3, and (2) such breach is by its nature remediable and cannot be or is not remedied by ASE within 30 business days after receiving from SPIL a written notice on such breach or failure to perform, and (3) which is not waived in writing by SPIL, SPIL may terminate this Agreement in writing.

15.3 If the Transaction is not consummated on or before the Long Stop Date, this Agreement shall be terminated automatically at 0:00am on the day immediately following the Long Stop Date.

Table of Contents

After this Agreement is terminated or ceases to exist for any reason, except as otherwise provided by laws and regulations, either Party is entitled to request the other Party to return, within 7 business days after the termination of this Agreement, the documents, data, records, items, plans, trade secrets and any other tangible information that the other Party obtains pursuant to this Agreement. The Parties may retain the copies of such documents and information to the extent necessary to comply with relevant laws and regulations.

Unless terminated under Article 15.2.1, after this Agreement is terminated or ceases to exist for any reason, Article 8.1.1 and Article 8.2.5(3) hereof shall continue and remain the same effect within 6 months after the termination of this Agreement or its cessation to exist for any reason. ASE shall maintain its position as a financial investor without intervening SPIL's independent operation within this six-month period. The Parties shall enter into future cooperation plans by good faith negotiations within this six-month period.

16. Taxation and Expenses

Unless as otherwise agreed in this Agreement, any taxes and expenses incurred in relation to the negotiation, execution or performance of this Agreement (including, but not limited to, legal fees, accounting fees and other consultant fees and any taxes or other relevant fees that shall be paid by HoldCo, either Party or its shareholders in accordance with applicable law) shall be borne by HoldCo, ASE, SPIL and/or their shareholders, respectively.

17. Other Agreements

After the Transaction has been approved by the boards of directors of ASE and SPIL, and relevant information has been made public, in case that ASE and SPIL agree to enter into statutory share exchange with a party other than the Parties, which will result in additional parties participating in the Transaction, the previously completed procedures or legal actions in connection with the Transaction shall be re-conducted by all then-participating parties.

The interpretations, effectiveness and performance of this Agreement shall be governed by ROC law. Any matter not covered herein shall be addressed in accordance with the relevant laws and regulations.

If any provision of this Agreement violates relevant laws and regulations and thereby becomes invalid, the part which is in violation of such laws and regulations shall be invalid while other provisions of this Agreement shall remain valid. If an amendment to any provision of this Agreement is required according to an approval of competent authorities, due to change of law or regulation or as required by a fact, such amendment shall be made jointly upon approval of competent authorities and resolutions of the boards of directors of HoldCo and/or both Parties, and consent of each Party's general shareholders' meeting shall not be required.

Table of Contents

17.4 Disputes arising from this Agreement between ASE (and/or HoldCo) and SPIL shall be resolved by friendly negotiation as a first instance. In case that no agreement can be reached within 30 days after either Party requests in writing for negotiation, ASE (and/or HoldCo) and SPIL shall submit relevant disputes to the Chinese Arbitration Association in Taipei for arbitration in accordance with the Arbitration Law of the ROC. There shall be 3 arbitrators, one of whom shall be appointed by each of ASE (and/or HoldCo) and SPIL, and the presiding arbitrator shall be elected by the said 2 arbitrators. The arbitration shall be conducted in Chinese.

17.5 Except otherwise specifically agreed by both Parties in writing, ASE and SPIL agree that any oral or written discussions, agreements, contracts or undertakings entered into in relation to the Transaction (i.e. the Share Exchange) before this Agreement was executed shall be replaced by this Agreement and thereby be rendered invalid. In the event of any inconsistency in interpretation of meaning between the prior express agreement in writing and this Agreement, this Agreement shall prevail.

17.6 Amendments or alterations of this Agreement shall be made upon mutual written consent of both ASE (and HoldCo, if it has been established) and SPIL.

17.7 Either Party shall not transfer all or part of the rights under this Agreement to any third party or have any third party to assume all or part of the obligations under this Agreement without prior written consent of the other Party. As of the Execution Date, HoldCo has not yet been established; however, except to the extent applicable under law, as from the date that HoldCo's promoters meeting passes a resolution approving this Agreement, this Agreement will become effective upon HoldCo pending future establishment. ASE and HoldCo shall be jointly and severally liable to SPIL for all of HoldCo's obligations and duties to SPIL as agreed herein.

17.8 Before the Share Exchange Record Date, if either Party or HoldCo fails or delays its performance of the obligations under this Agreement due to a Force Majeure Event, it shall not be liable to the other Party. Upon occurrence of a Force Majeure Event, either Party shall notify the other Party within 5 days after it becomes aware of such events. Notwithstanding the foregoing, neither Party shall be exempted from continuing to perform its obligation under this Agreement as soon as possible when the Force Majeure Event shall have thereafter ceased.

17.9 Unless otherwise disclosed under relevant laws or regulations, this Agreement, orders or requirements of courts, competent authorities or stock exchanges or as necessary for the exercise, preservation or performance of the relevant rights and obligations by the Parties under this Agreement, the Parties and HoldCo agree to strictly keep the documents, data, records, items, plans, trade secrets, and other tangible and intangible information, which are of confidential nature and communicated or obtained from the other Party prior to the Share Exchange Record Date for the purposes of this Transaction, as confidential. The confidential

Table of Contents

obligations under this Article 17.9 shall survive the subsequent rescission, cancellation, termination or non-existence, for any reason, of this Agreement, except for any such information (1) which is generally known to the public due to reasons other than violation of this Agreement; (2) whose disclosure is required in order to avoid a violation of relevant laws and regulations; or (3) has been obtained by a Party from a third party who is legally entitled to obtain and disclose such information at the time when it obtains such document or information from the other Party.

17.10 Any notification in relation to this Agreement shall be delivered to the following address by registered letter or delivery in person. The notification shall become effective upon delivered to the following address. In case that the notification cannot be delivered, it shall be regarded as having been delivered when it is mailed at the first time.

Advanced Semiconductor Engineering, Inc.
Attention: Jason C.S. Chang, Chairman
Address: Room 1901, Floor 19, No. 333, Section 1, Keelung Road, Xinyi District, Taipei, Taiwan

Siliconware Precision Industries Co., Ltd.
Attention: Bough Lin, Chairman
Address: No. 123, Sec. 3, Da Fong Rd., Tantz, Taichung, Taiwan

17.11 All of the appendices hereto constitute an integral part of this Agreement with the same effect.

17.12 This Agreement shall become effective after it is signed and delivered by both ASE and SPIL.

17.13 This Agreement is made in duplicate originals, one to be retained by each Party.

Table of Contents

Appendix 1

ASE Industrial Holding Co., Ltd.

Articles of Incorporation

Chapter One: General Principals

Article The Company is called _____, and is registered as a company limited by shares according to the ROC Company Act.

1. The English name of the Company is ASE Industrial Holdings Co., Ltd.

Article The Company is engaged in the following businesses: H201010 General Investment Business

2. The investment made by the Company in other companies as a limited liability shareholder thereof is not subject to the limitation that such investment shall not exceed a certain percentage of the paid-in capital as set forth in the ROC Company Act.

Article The Company may provide external guaranty.

3. The Company's headquarter is located in the Nantze Export Processing Zone, Kaohsiung, Taiwan, R.O.C. and may set up domestic or foreign branches, offices or business establishments as resolved by the Board of Directors, if necessary.

Chapter Two: Shares

Article The Company's total capital is NT\$50 billion divided into 5 billion shares with a par value of NT\$10 per share. Stock options worth of NT\$4 billion are set aside for employee subscription. The Board of Directors is authorized to issue the unissued shares in installments if deemed necessary for business purposes.

6. The share certificates shall be in registered form and have the signatures or seals of at least three directors of the Company and shall be legally authenticated before issuance. In accordance with the provisions set forth in Article 162-2 of the ROC Company Act, the Company may choose to not provide share certificates in print form.

Article No registration of share transfer shall be made within sixty days before each ordinary general shareholders' meeting, or within thirty days before each extraordinary general shareholders' meeting or five days before the record date for dividends, bonuses or other distributions as determined by the Company.

7. 8.

Table of Contents

Article 9. The rules governing stock affairs of the Company shall be made pursuant to the laws and the regulations of the relevant authorities.

Chapter Three: General Shareholders' Meeting

Article 10. General shareholders' meetings include ordinary meetings and extraordinary meetings. Ordinary meetings shall be convened according to law by the Board of Directors once annually according to the law within 6 months after the end of each fiscal year. Extraordinary meetings will be held according to the law whenever necessary.

Article 11. General shareholders' meetings shall be convened by written notice stating the date, place and purpose dispatched to each shareholder at least 30 days, in the case of ordinary meetings, and 15 days, in the case of extraordinary meetings, prior to the date set for such meeting.

Article 12. Unless otherwise required by the ROC Company Act, shareholders' resolutions shall be adopted by at least half of the votes of the shareholders present at a general shareholders' meeting who hold at least half of all issued and outstanding shares of the Company.

Article 13. Each shareholder of the Company shall have one vote per share, unless otherwise provided by Article 179 of the ROC Company Act.

Article 14. Any shareholder, who for any reason is unable to attend general shareholders' meetings, may execute a proxy printed by the Company, in which the authorized matters shall be expressly stated, to authorize a proxy to attend the meeting for him/her. Such proxy shall be submitted to the Company at least 5 days prior to the general shareholders' meeting.

Article 15. The general shareholders' meeting shall be convened by the Board of Directors unless otherwise stipulated in the ROC Company Act, and the person presiding over the meeting will be the Chairman of the Board of Directors (the "Chairman"). If the Chairman is on leave or for any reason cannot discharge his duty, Paragraph 3 of Article 208 of the ROC Company Act should apply. If the general shareholders' meeting is convened by a person entitled to do so other than a member of the Board of Directors, that person shall act as the person presiding over the meeting . If two or more persons are entitled to call the general shareholders' meeting, those persons shall elect one to act as the person presiding over the meeting.

Chapter Four: Director and Supervisor

Article 16. The Company shall have nine to thirteen directors and also three supervisors to be elected by the general shareholders' meeting from

Table of Contents

candidates with legal capacity. Each director or supervisor shall hold office for a term of three years, and may continue to serve in the office if re-elected.

The election of the directors and supervisors of the Company shall be conducted pursuant to Article 198 of the ROC Company Act and relevant regulations.

Article 16-1. Since the second Board of Directors term, the Company shall have thirteen directors, of which there shall be three independent directors and ten non-independent directors, to be elected by the general shareholders' meeting from candidates with legal capacity. Each director shall hold office for a term of three years, and may continue to serve in the office if re-elected.

The election of the directors and supervisors of the Company shall be conducted pursuant to Article 198 of the ROC Company Act and relevant regulations.

When handling the aforementioned election of directors, the election of independent directors and non-independent directors should be held together, provided, however, that the number of independent directors and non-independent directors elected shall be calculated separately; those that receive votes representing more voting rights will be elected as independent directors or non-independent directors.

Upon the expiry of the term of office of the first supervisors of the Company elected, the provisions regarding supervisors under these Articles of Incorporation of the Company shall cease to apply. The Company shall then establish an audit committee in lieu of supervisors in accordance with Article 14-4 of the ROC Securities and Exchange Act to exercise the powers and duties of supervisors stipulated in the ROC Company Act, the ROC Securities and Exchange Act, and other applicable laws and regulations. The audit committee shall comprise solely of the independent directors. The responsibilities, powers and other related matters of the audit committee shall be separately stipulated in rules adopted by the Board of Directors in accordance with applicable laws and regulations.

The election of the Company's independent directors uses the candidate nomination system. Shareholders who hold 1% or more of the Company's issued shares and the Board of Directors may nominate a list of candidates for independent directors. After the Board of Directors examines and confirms the qualifications of the candidate(s) for serving as an independent director, the name(s) is/are sent to the general shareholders' meeting for election. If the general shareholders' meeting is convened by a person entitled to do so other

Table of Contents

than a member of the Board of Directors, after such person examines and confirms the qualifications of the candidate(s) for serving as an independent director, the name(s) is/are sent to the general shareholders' meeting for election. All matters regarding the acceptance method and announcement of the nomination of candidates for independent directors will be handled according to the ROC Company Act, the ROC Securities and Exchange Act, and other relevant laws and regulations.

The remuneration of the Company's independent directors is set at NT\$3 million per person annually. For those that do not serve a full year, the remuneration will be calculated in proportion to the number of days of the term that were actually served. The additional remuneration of the Company's independent directors who are also the members of the Company's Compensation Committee is set at NT\$ 360,000 per person annually. For those that do not serve a full year, the additional remuneration will be calculated in proportion to the number of days of the term that were actually served.

Article 16-2. The Board of Directors is constituted by directors. Their powers and duties are as follows:

- (1). Preparing business plans;
- (2). Preparing surplus distribution or loss make-up proposals;
- (3). Preparing proposals to increase or decrease capital;
- (4). Reviewing material internal rules and contracts;
- (5). Hiring and discharging the general manager;
- (6). Establishing and dissolving branch offices;
- (7). Reviewing budgets and audited financial statements; and
- (8). Other duties and powers granted by or in accordance with the ROC Company Act or shareholders' resolutions.

Article 17. The Board of Directors is constituted by directors, and the Chairman and Vice Chairman are elected by more than half of the directors at a board meeting at which two-thirds or more of the directors are present. If the Chairman is on leave or for any reason cannot discharge his duties, his/her acting proxy shall be elected in accordance with Article 208 of the ROC Company Act.

Table of Contents

Board of Directors meetings shall be convened according to the law by the Chairman according to the law, unless otherwise stipulated by the ROC Company Act. Board of Directors meetings can be held at the place that the Company is headquartered, or at any place that is convenient for the directors to attend and appropriate for the meeting to be convened, or via video conference.

19. *Article* Directors and supervisors shall be notified of Board of Director meetings no later than seven days prior to the meetings. However, in case of any emergency, a Board of Directors meeting may be convened at any time. Notifications of Board of Directors meetings may be in writing or via email or fax.

20. *Article* A director may execute a proxy to appoint another director to attend the Board of Directors meeting and to exercise his/her voting right, but a director can accept only one proxy.

Chapter Five: Manager

21. *Article* This company has one general manager. The appointment, discharge and salary of the general manager shall be managed in accordance with Article 29 of ROC Company Act.

Chapter Six: Accounting

22. *Article* The fiscal year of the Company starts from January 1 and ends on December 31 every year. At the end of each fiscal year, the Board of Directors shall prepare financial and accounting books in accordance with the ROC Company Act and submit them according to law to the ordinary general shareholders' meeting for approval.

23. *Article* If the Company is profitable, 0.1% (inclusive) to 1% (inclusive) of the profits shall be allocated as compensation to employees and 0.75% (inclusive) or less of the profits should be allocated as compensation to directors. While the Company has accumulated losses, the profit shall be set aside to compensate losses before distribution.

The compensation being distributed to employees in the form of stock or cash shall be approved by more than half of the directors at a board meeting at which two-thirds or more of the directors are present and report to the general shareholders' meeting.

"Employees" referred to in paragraph 1 above includes employees of subsidiaries who meet certain qualifications. Such qualifications are to be determined by the Board of Directors.

Appendix 2

Proxy Statements. After the date for general shareholders' meetings of both Parties has been jointly agreed upon by both Parties in good faith and goodwill in accordance with Article 5.1 of this Agreement, ASE and SPIL shall each prepare a proxy statement relating to their respective authorization and approval of this Agreement and the Transaction by their respective general shareholders' meeting, including their respective notice convening an extraordinary shareholders' meeting (each, the "**ASE Proxy Statement**" (in case of ASE) and the "**SPIL Proxy Statement**" (in case of SPIL), and collectively, the "**Proxy Statements**").

Registration Statement. ASE shall prepare the relevant documents, and file with SEC a registration statement on Form F-4 with respect to the HoldCo common shares (the "Registration Statement") and shall use its reasonable best efforts to cause the Registration Statement to be declared effective under the Securities Act of 1933 as promptly as practicable after the Execution Date and to maintain the Registration Statement effective for so long as is necessary to consummate the Transaction.

Schedule 13E-3. Concurrently with the preparation and filing of the Registration Statement and the preparation of the Proxy Statements, SPIL and ASE shall each prepare and file with SEC a Rule 13E-3 Transaction Statement under Section 13(e) of the Securities Exchange Act of 1934 (the "**Exchange Act**") with respect to the Transaction. ASE and SPIL shall cooperate and communicate with each other in preparation of the their respective "Schedules 13E-3" filing (each a "Schedule 13E-3", and collectively, the "**Schedule 13E-3 Filings**"), including, without limitation, furnishing to each other the information required by the Exchange Act to be set forth in a Schedule 13E-3 (the Schedules 13E-3 and the Registration Statement collectively, the "**SEC Filings**").

SEC Comments. ASE and SPIL shall respond as promptly as practicable and reasonable to any comments made by the SEC with respect to the SEC Filings and will provide each other with copies of all correspondence with respect to the SEC Filings as promptly as practicable and reasonable. Both SPIL and ASE agree to not to file or mail any SEC Filings, including any amendment or supplement thereto or any response to SEC's comments, unless each Party has had a reasonable opportunity to review and comment on such SEC Filings and such comments have been reasonably incorporated into such SEC Filings. After the SEC confirms that it has no further comments to the SEC Filings, ASE and SPIL shall mail as promptly as practicable and reasonable the applicable SEC Filings and Proxy Statements, if necessary, to their respective ADR shareholders and thereafter promptly circulate amended, supplemental or supplemented proxy material.

5. Information Supplied. SPIL and ASE shall each promptly furnish all information as may be reasonably requested in connection with the preparation, filing and

Table of Contents

mailing of SEC Filings or the Proxy Statements or any other documents filed or to be filed with SEC in connection with the Transaction.

ASE's and SPIL's Extraordinary General Shareholders' Meetings. From the working day immediately following the date on which SEC confirms that it has no further comments on the SEC Filings, (i) ASE shall (x) cause its board of directors pass a resolution to call an extraordinary general shareholders' meeting (the "**ASE Extraordinary Shareholders' Meeting**") and set a record date and a date of meeting (the date of meeting must be in accordance with Article 5.1 thereof and within 70 calendar days after the next day after SEC confirms that it has no further comments on the SEC Filings) as promptly as practicable after the date on which the ASE Proxy Statement is mailed to the ASE shareholders for the purpose of obtaining shareholder approval of the Transaction, and circulate, in accordance with law, the notice and procedure manual of ASE Extraordinary Shareholders' Meeting after ASE Proxy Statement is mailed to ASE's shareholders and (y) mail or cause to be mailed notice of the ASE Extraordinary Shareholders' Meeting and form of proxy accompanying the ASE Proxy Statement that will be provided to the ASE shareholders in connection with the solicitation of proxies for use at the ASE Extraordinary Shareholders' Meeting and (ii) SPIL shall (x) cause its board of directors pass a resolution to call an extraordinary general shareholders' meeting (the "**SPIL Extraordinary Shareholders' Meeting**") and set a record date and a date of meeting (the date of meeting must be in accordance with Article 5.1 thereof and within 70 calendar days after the next day when SEC confirms after it has no further comments on the SEC Filings) as promptly as practicable after the date on which the SPIL Proxy Statement is mailed to the SPIL's shareholders for the purpose of obtaining shareholder approval of the Transaction, and circulate, in accordance with law, the notice and procedure manual of SPIL Extraordinary Shareholders' Meeting after SPIL Proxy Statement is mailed to SPIL's shareholders and (y) mail or cause to be mailed notice of the SPIL Extraordinary Shareholders' Meeting and form of proxy accompanying the SPIL Proxy Statement that will be provided to the SPIL shareholders in connection with the solicitation of proxies for use at the SPIL Extraordinary Shareholders' Meeting. ASE Extraordinary Shareholders' Meeting and SPIL Extraordinary Shareholders' Meeting shall be held on the same date to approve this Agreement and the Transaction in a share exchange resolution based on the terms of this Agreement in accordance with the Republic of China Enterprise Mergers and Acquisitions Act.

Annex A-2

Supplemental Agreement

to

Joint Share Exchange Agreement

Preamble

This Supplemental Agreement (this “**Agreement**”) to Joint Share Exchange Agreement (as defined below) is entered into on December 14, 2017 (the “**Execution Date**”) by and between:

- Advanced Semiconductor Engineering, Inc. (“**ASE**”), a company incorporated under Republic of China (“**ROC**”) (1) laws, with its address at No. 26, Chin Third Road, Nantze Export Processing Zone, Nantze District, Kaohsiung City, Taiwan; and
- (2) Siliconware Precision Industries Co., Ltd. (“**SPIL**”), a company incorporated under ROC laws, with its address at No. 123, Section 3, Da Fong Road, Tantz District, Taichung City, Taiwan.

WHEREAS ASE and SPIL (collectively, the “**Parties**”) have entered into the Joint Share Exchange Agreement (the “**Joint Share Exchange Agreement**”) on June 30, 2016 whereby ASE will file an application to establish a holding company (“**HoldCo**”) by means of a statutory share exchange, and HoldCo will acquire all issued and outstanding shares of both ASE and SPIL. After the closing of the share exchange, ASE and SPIL will become wholly-owned subsidiaries of HoldCo concurrently (the “**Transaction**” or “**Share Exchange**”).

NOW THEREFORE, IN WITNESS WHEREOF, the Parties have entered into this Agreement for the purpose of completing the Transaction, as follows:

1. Long Stop Date

- 1.1 Both Parties agree to amend the definition of Long Stop Date (the “**Long Stop Date**”) as set forth in the Joint Share Exchange Agreement to read as follows:

Long Stop Date refers to October 31, 2018 or a later date otherwise agreed in writing by both Parties.

2. Other Agreements

2.1 This Agreement shall be deemed to be part of the Joint Share Exchange Agreement, provided that the terms of this Agreement shall prevail in case of discrepancy between this Agreement and the Joint Share Exchange Agreement. The Joint Share Exchange Agreement shall be applicable to matters not covered herein. Capitalized terms undefined herein shall have the meaning ascribed to them in the Joint Share Exchange Agreement.

2.2 The interpretations, effectiveness and performance of this Agreement shall be governed by ROC law. Any matter not covered herein shall be addressed in accordance with Joint Share Exchange Agreement and relevant laws and regulations.

2.3 Pursuant to Article 17.3 of Joint Share Exchange Agreement, this Agreement shall become effective after it is signed and delivered by both Parties and upon approval by their respective board of directors.

Independent Expert Opinion

on the Fairness of the Consideration for Joint Share Exchange in the Joint Share Exchange Memorandum of Understanding between Advanced Semiconductor Engineering, Inc. and Siliconware Precision Industries Co., Ltd.

I. Introduction

Both Advanced Semiconductor Engineering Inc. (“**ASE**”) and Siliconware Precision Industries Co., Ltd. (“**SPIL**”) are the world’s leading companies in semiconductor packaging and testing sector. ASE and SPIL intend to enter into the Joint Share Exchange Memorandum of Understanding (“**MOU**”) to newly establish an investment holding company (“**HoldCo**”) by joint share exchange whereby both ASE and SPIL will become wholly-owned subsidiaries of HoldCo, in order to pursue their operating scale and improve their overall operating performance while taking into account of the flexibility and efficiency of their individual independent operations (“**Share Exchange**”). The Share Exchange will result in the exchange of all of ASE common shares in consideration for newly issued common shares of HoldCo, at an exchange ratio of each ASE common share for 0.5 HoldCo common share. Furthermore, the Share Exchange will result in the exchange of each of SPIL’s issued and outstanding shares for NT\$55 in cash payable by HoldCo. The fairness of the consideration for Share Exchange under MOU is described and evaluated as below.

II. Financial Position

Financial position of ASE and SPIL for the last two years and the first quarter of 2016 are summarized as below:

Item	(1) ASE		
	Year		First quarter
	2014	2015	of 2016
	NT\$(in thousands)		
Total assets	333,984,767	365,287,557	356,490,231

Table of Contents

(1) Audited financial statements of ASE and SPIL for the years of 2014 and 2015 and reviewed financial statements for the first quarter of 2016.

(2) Business overviews, financial statements and other important information for evaluation purposes regarding ASE, SPIL and their peers obtained from Market Observation Post System.

(3) Information from website of the Taiwan Stock Exchange, website of the Taipei Exchange (GreTai Securities Market), Taiwan Economic Journal (TEJ) Database and Bloomberg's complied comparison, analysis and historical stock price data of ASE, SPIL and their peers.

(4) Information on the industry and peers of ASE and SPIL.

IV. Consideration for Share Exchange and Fairness thereof

The consideration for Share Exchange will be at an exchange ratio of each ASE common share for 0.5 HoldCo common share and each of SPIL's issued and outstanding shares for NT\$55 in cash payable by HoldCo. After the completion of the Share Exchange, both ASE and SPIL will become wholly-owned subsidiaries of HoldCo. The fairness of consideration for Share Exchange in respect of each of ASE and SPIL is described and evaluated as below:

(A) ASE

1. ASE shareholders will contribute all the common shares held by them in ASE as of the share exchange record date in consideration of issue of their subscribed common shares required for the establishment of HoldCo. Following consummation of the Share Exchange, ASE will become a wholly-owned subsidiary of HoldCo, and previous ASE shareholders will become HoldCo shareholders. As such, similar to SPIL's cash consideration of NT\$55, ASE will become a wholly-owned subsidiary of HoldCo by exchange of the shares of one single company; theoretically, the rights of previous ASE shareholders will not be affected by the exact Share Exchange ratio.

2. According to ASE's reviewed consolidated financial statements as of March 31, 2016, its equity attributable to owners of parent amounted to NT\$158,016,614,000; based on the latest update from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs, ASE had a total of 7,918,272,896 issued and outstanding common shares as of April 26, 2016. Therefore, its net book value per common share was NT\$19.956. Each ASE common share will be exchanged for 0.5 HoldCo common share resulting in 3,959,136,448 HoldCo common shares as of the share exchange record date. In addition, the net book value per common share as calculated based on ASE's equity attributable to owners of parent to be assumed by HoldCo will be increased in the ratio of 1:0.5. Based on ASE's equity attributable to owners of parent as of March 31, 2016, HoldCo's net book value per common share would be NT\$39.912 per share. For HoldCo common shareholders after the Share Exchange, the shareholders' equity will not be impaired in any way by the Share Exchange ratio.

Net value of ASE's equity attributable to owners of parent as of the share exchange record date may vary from that as of March 31, 2016. However, ASE shareholders will contribute all the common shares held by them in ASE as of 3. the share exchange record date in consideration of and exchange for the common shares required for the establishment of HoldCo. As such, for HoldCo common shareholders after the Share Exchange, the shareholders' equity will not be affected as a result of the Share Exchange.

In summary, it shall be fair and reasonable for all of ASE's issued and outstanding shares to be exchanged for and in consideration of newly issued common shares of HoldCo at an exchange ratio of each ASE common share for 0.5 HoldCo common share resulting in ASE to become a wholly-owned subsidiary of HoldCo.

(B)SPIL

1. Methodologies Used

There are many methods for evaluating stock value. In practice, common methods include: market approach, such as market price approach (focusing on listed target companies; the fair value can be estimated by market price on the stock exchange) and market comparison approach (based on financial

B-1-2

Table of Contents

information of target companies and their peers in the market, using market multiplier such as price-earnings ratio, price-book ratio for analysis and evaluation); income approach; and cost approach.

Among these methods, income approach requires the Company's estimates of future cash flow, involving multiple assumptions and having a higher uncertainty. Given its less objective nature compared to other methods, this method is not used. Cost approach examines and weighs SPIL's business model and capital structure. Therefore, it is not appropriate for valuation and also not used. As such, we intend to use the market approach as primary evaluation method while taking into account of other non-quantitative factors, to evaluate the reasonable consideration of the Share Exchange for SPIL.

2. Selection of Peers

Based on customer attributes, business activities and business model, ChipMOS Technologies (Bermuda) Ltd. ("**ChipMOS**"), Chipbond Technology Corporation ("**Chipbond**") and Powertech Technology Inc. ("**Powertech**") are selected as peers. The following table lists the financial conditions of these 3 peers for the first quarter of 2016:

Items	Peers		
	ChipMOS (8150)	Chipbond (6147)	Powertech (6239)
	NT\$(in thousands)		
Total assets	32,404,046	36,230,116	70,446,410
Total liabilities	13,385,676	11,852,343	27,389,980
Total equity attributable to owners of parent	19,018,370	23,575,971	34,653,945
Share capital	8,957,836	6,492,620	7,791,466
Net value per share- attributable to owners of parent (NT\$) (Note 1)	21.20	36.31	44.48
Operating income	4,724,139	3,733,921	10,618,124
Net profit - attributable to owners of parent	348,423	201,453	940,031
Earnings per share - attributable to owners of parent (NT\$) (Note 2)	2.09	2.64	5.37

Source: Audited or reviewed consolidated financial statements of three peers for the first quarter of 2016

Net value per share is calculated based on the number of common shares of the respective peer obtained from Note 1: the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs.

Note 2: Earnings per share are estimated for the four quarters ended the first quarter of 2016 based on the net profit attributable to owners of parent in the respective peer's consolidated financial statements for the year 2015 and the first quarter of 2016, number of common shares obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs and other financial data.

3. Valuation

(1) Market Price Approach

As SPIL is a listed company with its open market trading prices available for objective reference, this opinion sampled its recent publicly traded prices to evaluate the average closing prices for 60, 90 and 180 business days up to and including the valuation date of May 25, 2016 as follows:

Item	Average closing price NT\$	Theoretical price range
Latest 60 business days	49.18	
Latest 90 business days	50.04	47.13 ~ 50.04
Latest 180 business days	47.13	

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note: (8/28/2015~5/25/2016); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

(2) Price-book Ratio Approach

B-1-3

Table of Contents

The reasonable value per share of SPIL is estimated by calculating the net book value per share based on the financial information of SPIL and sampling the average price-book ratios of publicly traded peers - ChipMOS, Chipbond and Powertech for comparison purposes. The price-book ratios of publicly traded peers are calculated using their closing prices for 180 business days up to and including the valuation date of May 25, 2016 for sampling purposes and based on the total equity attributable to owners of parent in the respective peer's consolidated financial statements for the first quarter of 2016, the number of common shares for respective peer obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs and other financial data. The reasonable reference price of SPIL is imputed as follows:

Comparable peers	AverageNet closing value		Price-book ratio
	price for latest 180 business days	per share for the first business quarter of 2016	
ChipMOS	32.53	21.20	1.53
Chipbond	47.86	36.31	1.32
Powertech	66.98	44.48	1.51

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note: (8/28/2015~5/25/2016); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

Item	Description
	NT\$
Range of multipliers	1.32 ~ 1.53
Net value per share of SPIL for the first quarter of 2016	23.23
Theoretical price range	30.66 ~ 35.54

(3)Price-earnings Ratio Approach

The reasonable value per share of SPIL is estimated by calculating the earnings per share based on the financial information of SPIL and sampling the average price-book ratios of publicly traded peers - ChipMOS, Chipbond and Powertech for comparison purposes. Earnings per share for the four quarters ended the first quarter of 2016 are estimated, and thereby the average price-earnings ratios of publicly traded peers are calculated, using their closing prices for 180 business days up to and including the valuation date of May 25, 2016 for sampling purposes and based on the net profits attributable to owners of parent in the respective peer's consolidated financial statements for 2015 and the first quarter of 2016, the number of common shares for respective peer obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs and other financial data. The reasonable reference price of SPIL is imputed as follows:

Comparable peers	Average closing price for latest 180 business days NT\$	Earnings per share in last four quarters	Price-earnings ratio
ChipMOS	32.53	2.09	15.56
Chipbond	47.86	2.64	18.13
Powertech	66.98	5.37	12.47

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note:(8/28/2015~5/25/2016); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

Item	Description
	NT\$
Range of multipliers	12.47 ~ 18.13
Consolidated earnings per share of SPIL	2.49

B-1-4

Table of Contents

Item	Description NT\$
Theoretical price range	31.05 ~ 45.14

(4) Conclusion

Calculation results of value of common shares under the foregoing evaluation methods are summarized as below. The above three methods have their theoretical and practical basis. Therefore, for avoidance of biases in the evaluation process, the imputation used 33.3% for purposes of weighted averaging by taking into account of other non-quantitative key factors with reference to the statistics of Bloomberg and the average premium rate of 33.24% of the global merger and acquisition cases in semiconductor industry since the third quarter of 2015. On these basis, the reasonable price range per share of SPIL shall be from NT\$48.34 to NT\$58.05. As such, we are of opinion that it shall be fair and reasonable for each SPIL common share in exchange of NT\$55 in cash.

Evaluation method	Reference price range per share NT\$	Weight	Theoretical price range per share	Reference price range after adjustment
Market Price Approach	47.13~50.04	33.3%		
Price-book Ratio Approach	30.66~35.54	33.3%	36.28~43.57	48.34~58.05
Price-earnings Ratio Approach	31.05~45.14	33.3%		

V. Conclusion

In summary, ASE and SPIL are proposed to become wholly-owned subsidiaries of HoldCo by the joint share exchange. In relation to the Share Exchange, I, as the accountant, am of the opinion that it shall be fair and reasonable for each ASE common share in exchange for 0.5 HoldCo common share and each SPIL common share in exchange of NT\$55 in cash.

Statement of Independence

I am engaged to provide opinion of evaluation on the fairness of the joint share exchange, through which ASE and SPIL are proposed to become wholly-owned subsidiaries of HoldCo.

In order to perform the above task, I hereby state that:

1. Neither I nor my spouse is currently employed by ASE, SPIL or the underwriter to undertake any work on regular basis and be compensated at a fixed amount;
2. Neither I nor my spouse has ever served at ASE, SPIL or the underwriter in preceding two years;
3. Neither I nor my spouse serve at an affiliate of ASE, SPIL or the underwriter;
4. I am not the spouse or two or less-degree relative of any responsible officer or manager of ASE, SPIL or the underwriter;
5. Neither I nor my spouse have any investment in or share any interest with ASE, SPIL or the underwriter;
6. I am not an accountant of ASE, SPIL or the underwriter.
7. I am not the current director, supervisor or their spouse or two or less-degree relatives of Taiwan Stock Exchange Corporation; and
8. Neither I nor my spouse serve at a company that conducts business with ASE or SPIL.

I have been upholding the principles of impartiality, objectiveness and independence in issuing the expert evaluation opinion on the fairness of the joint share exchange through which ASE and SPIL are proposed to become wholly-owned subsidiaries of HoldCo.

Annex B-2

**Independent Expert Opinion
on the Fairness of the Consideration for Joint Share Exchange in the Joint Share Exchange Agreement
between Advanced Semiconductor Engineering, Inc. and Siliconware Precision Industries Co., Ltd.**

I. Introduction

Both Advanced Semiconductor Engineering Inc. (“**ASE**”) and Siliconware Precision Industries Co., Ltd. (“**SPIL**”) are the world’s leading companies in semiconductor packaging and testing sector. ASE and SPIL intend to enter into the Joint Share Exchange Agreement to newly establish ASE Industrial Holding Co., Ltd. (“**HoldCo**”) by joint share exchange whereby both ASE and SPIL will become wholly-owned subsidiaries of HoldCo, in order to pursue their operating scale and improve their overall operating performance while taking into account of the flexibility and efficiency of their individual independent operations (“**Share Exchange**”). The Share Exchange will result in the exchange of all of ASE common shares in consideration for newly issued common shares of HoldCo, at an exchange ratio of each ASE common share for 0.5 HoldCo common share. Furthermore, the Share Exchange will result in the exchange of each of SPIL’s issued and outstanding shares for NT\$55 in cash payable by HoldCo (“**Cash Consideration**”). The Cash Consideration is adjusted to NT\$51.2 after deduction of cash dividends distribution of NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share as resolved at SPIL’s annual general shareholder’s meeting for 2016. The fairness of the consideration for the Share Exchange under the Share Exchange Agreement is described and evaluated as below.

II. Financial Position

Financial position of ASE and SPIL for the last two years and the first quarter of 2016 are summarized as below:

Item	(1) ASE		
	Year 2014	2015	First quarter of 2016
	NT\$(in thousands)		
Total assets	333,984,767	365,287,557	356,490,231
Total liabilities	175,546,763	196,867,675	187,752,829
Total equity attributable to owners of parent	150,218,907	156,916,004	158,016,614
Share capital	78,715,179	79,185,660	79,279,129
Operating income	256,591,447	283,302,536	62,371,082

Net profit - attributable to owners 23,636,522 19,478,873 4,163,477

Sources: Audited financial statements of ASE for the years of 2014 and 2015 and reviewed financial statements for the first quarter of 2016.

(2)

SFIL

Item	Year		First quarter of 2016
	2014	2015	
	NT\$(in thousands)		
Total assets	129,756,075	123,245,230	122,855,285
Total liabilities	57,649,456	52,644,588	50,446,781
Total equity attributable to owners of parent	72,106,619	70,600,642	72,408,504
Share capital	31,163,611	31,163,611	31,163,611
Operating income	83,071,441	82,839,922	19,299,310
Net profit - attributable to owners of parent	11,744,414	8,762,257	1,604,028

Sources: Audited financial statements of SFIL for the years of 2014 and 2015 and reviewed financial statements for the first quarter of 2016.

III. Sources of Information

B-2-1

Table of Contents

(1) Audited financial statements of ASE and SPIL for the years of 2014 and 2015 and reviewed financial statements for the first quarter of 2016.

(2) Business overviews, financial statements and other important information for evaluation purposes regarding ASE, SPIL and their peers obtained from Market Observation Post System.

(3) Information from website of the Taiwan Stock Exchange, website of the Taipei Exchange (GreTai Securities Market), Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs, Taiwan Economic Journal (TEJ) Database and Bloomberg's complied comparison, analysis and historical stock price data of ASE, SPIL and their peers.

(4) Information on the industry and peers of ASE and SPIL.

IV. Consideration for Share Exchange and Fairness thereof

The consideration for Share Exchange will be at an exchange ratio of each ASE common share for 0.5 HoldCo common share and each of SPIL's issued and outstanding shares for Cash Consideration of NT\$55 payable by HoldCo. The Cash Consideration is adjusted to NT\$51.2 after deduction of cash dividends distribution of NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share as resolved at SPIL's annual general shareholder's meeting for 2016. After the completion of the Share Exchange, both ASE and SPIL will become wholly-owned subsidiaries of HoldCo. The fairness of consideration for Share Exchange in respect of each of ASE and SPIL is described and evaluated as below:

(A) ASE

ASE shareholders will contribute all the common shares held by them in ASE as of the share exchange record date in consideration of issue of their subscribed common shares required for the establishment of HoldCo. Following consummation of the Share Exchange, ASE will become a wholly-owned subsidiary of HoldCo, and previous ASE shareholders will become HoldCo shareholders. As such, similar to SPIL's Cash Consideration, ASE will become a wholly-owned subsidiary of HoldCo by exchange of the shares of one single company; theoretically, the rights of previous ASE shareholders will not be affected by the exact Share Exchange ratio.

2. According to ASE's reviewed consolidated financial statements as of March 31, 2016, its equity attributable to owners of parent amounted to NT\$158,016,614,000; based on the latest update from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs, ASE had a total of 7,918,272,896 issued and outstanding common shares as of April 26, 2016. Therefore, its net book value per common share was NT\$19.956. Each ASE common share will be exchanged for 0.5 HoldCo common share resulting in 3,959,136,448 HoldCo common shares as of the share exchange record date. In addition, the net book value per common share as calculated based on ASE's equity attributable to owners of parent to be assumed by HoldCo will be increased in the ratio of 1:0.5. Based on ASE's equity attributable to owners of parent as of March

31, 2016, HoldCo's net book value per common share would be NT\$39.912 per share. For HoldCo common shareholders after the Share Exchange, the shareholders' equity will not be impaired in any way by the Share Exchange ratio.

Net value of ASE's equity attributable to owners of parent as of the share exchange record date may vary from that as of March 31, 2016. However, ASE shareholders will contribute all the common shares held by them in ASE as of 3. the share exchange record date in consideration of and exchange for the common shares required for the establishment of HoldCo. As such, for HoldCo common shareholders after the Share Exchange, the shareholders' equity will not be affected as a result of the Share Exchange.

In summary, it shall be fair and reasonable for all of ASE's issued and outstanding shares to be exchanged for and in consideration of newly issued common shares of HoldCo at an exchange ratio of each ASE common share for 0.5 HoldCo common share resulting in ASE to become a wholly-owned subsidiary of HoldCo.

(B)SPIL

B-2-2

Table of Contents

1. Methodologies Used

There are many methods for evaluating stock value. In practice, common methods include: market approach, such as market price approach (focusing on listed target companies; the fair value can be estimated by market price on the stock exchange) and market comparison approach (based on financial information of target companies and their peers in the market, using market multiplier such as price-earnings ratio, price-book ratio for analysis and evaluation); income approach; and cost approach.

Among these methods, income approach requires the Company's estimates of future cash flow, involving multiple assumptions and having a higher uncertainty. Given its less objective nature compared to other methods, this method is not used. Cost approach examines and weighs SPIL's business model and capital structure. Therefore, it is not appropriate for valuation and also not used. As such, we intend to use the market approach as primary evaluation method while taking into account of other non-quantitative factors, to evaluate the reasonable consideration of the Share Exchange for SPIL.

2. Selection of Peers

Based on customer attributes, business activities and business model, ChipMOS Technologies (Bermuda) Ltd. ("**ChipMOS**"), Chipbond Technology Corporation ("**Chipbond**") and Powertech Technology Inc. ("**Powertech**") are selected as peers. The following table lists the financial conditions of these 3 peers for the first quarter of 2016:

Unit:

Items	Peers		
	ChipMOS (8150)	Chipbond (6147)	Powertech (6239)
	NT\$(in thousands)		
Total assets	32,404,046	36,230,116	70,446,410
Total liabilities	13,385,676	11,852,343	27,389,980
Total equity attributable to owners of parent	19,018,370	23,575,971	34,653,945
Share capital	8,957,836	6,492,620	7,791,466
Net value per share- attributable to owners of parent (NT\$) (Note 1)	21.20	36.31	44.48
Operating income	4,724,139	3,733,921	10,618,124
Net profit - attributable to owners of parent	348,423	201,453	940,031
Earnings per share - attributable to owners of parent (NT\$) (Note 2)	2.09	2.64	5.37

Source: Audited or reviewed consolidated financial statements of three peers for the first quarter of 2016

Note Net value per share is calculated based on the number of common shares of the respective peer obtained from 1: the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic

Affairs.

Earnings per share are estimated for the four quarters ended the first quarter of 2016 based on the net profit Note attributable to owners of parent in the respective peer's consolidated financial statements for the year 2015 and 2: the first quarter of 2016, number of common shares obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs and other financial data.

3. Valuation

(1)

Market Price Approach

As SPIL is a listed company with its open market trading prices available for objective reference, this opinion sampled its recent publicly traded prices to evaluate the average closing prices for 60, 90 and 180 business days up to and including the valuation date of June 29, 2016 as follows:

B-2-3

Table of Contents

Item	Average closing price	Theoretical price range
	NT\$	
Latest 60 business days	46.25	
Latest 90 business days	46.45	45.05 ~ 46.45
Latest 180 business days	45.05	

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note:(10/5/2015~6/29/2016); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

(2)

Price-book Ratio Approach

The reasonable value per share of SPIL is estimated by calculating the net book value per share based on the financial information of SPIL and sampling the average price-book ratios of publicly traded peers - ChipMOS, Chipbond and Powertech for comparison purposes. The price-book ratios of publicly traded peers are calculated using their closing prices for 180 business days up to and including the valuation date of June 29, 2016 for sampling purposes and based on the total equity attributable to owners of parent in the respective peer's consolidated financial statements for the first quarter of 2016, the number of common shares for respective peer obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs and other financial data. The reasonable reference price of SPIL is imputed as follows:

Comparable peers	AverageNet closing value price per share for the latest 180 business days of 2016		Price-book ratio
	NT\$	NT\$	
ChipMOS	32.53	21.20	1.53
Chipbond	46.86	36.31	1.29
Powertech	65.31	44.48	1.47

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note:(10/5/2015~6/29/2016); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

Item	Description
	NT\$
Range of multipliers	1.29 ~ 1.53
Net value per share of SPIL for the first quarter of 2016	23.23
Theoretical price range	29.97 ~ 35.54

(3)

Price-earnings Ratio Approach

The reasonable value per share of SPIL is estimated by calculating the earnings per share based on the financial information of SPIL and sampling the average price-book ratios of publicly traded peers - ChipMOS, Chipbond and Powertech for comparison purposes. Earnings per share for the four quarters ended the first quarter of 2016 are estimated, and thereby the average price-earnings ratios of publicly traded peers are calculated, using their closing prices for 180 business days up to and including the valuation date of June 29, 2016 for sampling purposes and based on the net profits attributable to owners of parent in the respective peer's consolidated financial statements for 2015 and the first quarter of 2016, the number of common shares for respective peer obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs and other financial data. The reasonable reference price of SPIL is imputed as follows:

Comparable peers	Average closing price for latest 180 business days	Earnings per share in last four quarters	Price-earnings ratio
ChipMOS	NT\$ 32.53	2.09	15.56

B-2-4

Table of Contents

Comparable peers	Average closing price for latest 180 business days NT\$	Earnings per share in last four quarters	Price-earnings ratio
Chipbond	46.86	2.64	17.75
Powertech	65.31	5.37	12.16

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note:(10/5/2015~6/29/2016); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

Item	Description NT\$
Range of multipliers	12.16 ~ 17.75
Consolidated earnings per share of SPIL	2.49
Theoretical price range	30.28 ~ 44.20

(4)

Summary

Calculation results of value of common shares under the foregoing evaluation methods are summarized as below. The above three methods have their theoretical and practical basis. Therefore, for avoidance of biases in the evaluation process, the imputation used 33.3% for purposes of weighted averaging by taking into account of other non-quantitative key factors with reference to the statistics of Bloomberg and the average premium rate of 33.86% of the global merger and acquisition cases in semiconductor industry since the third quarter of 2015. On these basis, the reasonable price range per share of SPIL shall be from NT\$46.98 to NT\$56.30. As such, we are of opinion that it shall be fair and reasonable for each SPIL common share in exchange of Cash Consideration of NT\$55 (the Cash Consideration is adjusted to NT\$51.2 after deduction of cash dividends distribution of NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share as resolved at SPIL's annual general shareholder's meeting for 2016).

Evaluation method	Reference price range per share NT\$	Weight	Theoretical price range per share	Reference price range after adjustment
Market Price Approach	45.05~ 46.45	33.3%		
Price-book Ratio Approach	29.97~35.54	33.3%	35.10~ 42.06	46.98~ 56.30
Price-earnings Ratio Approach	30.28~ 44.20	33.3%		

V. Conclusion

In summary, ASE and SPIL are proposed to become wholly-owned subsidiaries of HoldCo by the joint share exchange. In relation to the Share Exchange, I, as the accountant, am of the opinion that it shall be fair and reasonable for each ASE common share in exchange for 0.5 HoldCo common share and each SPIL common share in exchange of Cash Consideration of NT\$55 (the Cash Consideration is adjusted to NT\$51.2 after deduction of cash dividends distribution of NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share as resolved at SPIL's annual general shareholder's meeting for 2016).

Statement of Independence

I am engaged to provide opinion of evaluation on the fairness of the joint share exchange, through which ASE and SPIL are proposed to become wholly-owned subsidiaries of HoldCo.

In order to perform the above task, I hereby state that:

1. Neither I nor my spouse is currently employed by ASE, SPIL or the underwriter to undertake any work on regular basis and be compensated at a fixed amount;
2. Neither I nor my spouse has ever served at ASE, SPIL or the underwriter in preceding two years;
3. Neither I nor my spouse serve at an affiliate of ASE, SPIL or the underwriter;
4. I am not the spouse or two or less-degree relative of any responsible officer or manager of ASE, SPIL or the underwriter;
5. Neither I nor my spouse have any investment in or share any interest with ASE, SPIL or the underwriter;
6. I am not an accountant of ASE, SPIL or the underwriter.
7. I am not the current director, supervisor or their spouse or two or less-degree relatives of Taiwan Stock Exchange Corporation; and
8. Neither I nor my spouse serve at a company that conducts business with ASE or SPIL.

I have been upholding the principles of impartiality, objectiveness and independence in issuing the expert evaluation opinion on the fairness of the joint share exchange through which ASE and SPIL are proposed to become wholly-owned subsidiaries of HoldCo.

**Independent Expert Opinion
on the Fairness of the Consideration for Joint Share Exchange in the Joint Share Exchange Agreement
between Advanced Semiconductor Engineering, Inc. and Siliconware Precision Industries Co., Ltd.**

I. Introduction

Both Advanced Semiconductor Engineering Inc. (“**ASE**”) and Siliconware Precision Industries Co., Ltd. (“**SPIL**”) are the world’s leading companies in semiconductor packaging and testing sector. ASE and SPIL intend to enter into the Joint Share Exchange Agreement to newly establish ASE Industrial Holding Co., Ltd. (“**HoldCo**”) by joint share exchange whereby both ASE and SPIL will become wholly-owned subsidiaries of HoldCo, in order to pursue their operating scale and improve their overall operating performance while taking into account of the flexibility and efficiency of their individual independent operations (“**Share Exchange**”). The Share Exchange will result in the exchange of all of ASE common shares in consideration for newly issued common shares of HoldCo, at an exchange ratio of each ASE common share for 0.5 HoldCo common share. Furthermore, the Share Exchange will result in the exchange of each of SPIL’s issued and outstanding shares for NT\$55 in cash payable by HoldCo (“**Cash Consideration**”). The Cash Consideration is adjusted to NT\$51.2 after deduction of cash dividends distribution of NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share as resolved at SPIL’s annual general shareholder’s meeting for 2016. The fairness of the consideration for the Share Exchange under the Share Exchange Agreement is described and evaluated as below.

II. Financial Position

Financial position of ASE and SPIL for the years of 2015, 2016 and the third quarter of 2017 are summarized as below:

(1) ASE

Unit: NT\$ (in thousands)

Item	Year		Third quarter of 2017
	2015	2016	

Edgar Filing: ADVANCED SEMICONDUCTOR ENGINEERING INC - Form F-4/A

Total assets	365,006,200	357,943,079	359,998,771
Total liabilities	196,867,675	188,595,703	162,043,165
Total equity attributable to owners of parent	156,634,647	157,355,206	185,159,550

III.

Sources of Information

(1) Audited financial statements of ASE and SPIL for the years of 2015 and 2016 and reviewed financial statements for the third quarter of 2017.

(2) Business overviews, financial statements and other important information for evaluation purposes regarding ASE, SPIL and their peers obtained from Market Observation Post System.

(3) Information from website of the Taiwan Stock Exchange, website of the Taipei Exchange (GreTai Securities Market), Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs, Taiwan Economic Journal (TEJ) Database and Bloomberg's complied comparison, analysis and historical stock price data of ASE, SPIL and their peers.

- (4) Information on the industry and peers of ASE and SPIL.

B-3-1

Table of Contents

IV. Consideration for Share Exchange and Fairness thereof

The consideration for Share Exchange will be at an exchange ratio of each ASE common share for 0.5 HoldCo common share and each of SPIL's issued and outstanding shares for Cash Consideration of NT\$55 payable by HoldCo. The Cash Consideration is adjusted to NT\$51.2 after deduction of cash dividends distribution of NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share as resolved at SPIL's annual general shareholder's meeting for 2016. After the completion of the Share Exchange, both ASE and SPIL will become wholly-owned subsidiaries of HoldCo. The fairness of consideration for Share Exchange in respect of each of ASE and SPIL is described and evaluated as below:

(A) ASE

1. ASE shareholders will contribute all the common shares held by them in ASE as of the share exchange record date in consideration of issue of their subscribed common shares required for the establishment of HoldCo. Following consummation of the Share Exchange, ASE will become a wholly-owned subsidiary of HoldCo, and previous ASE shareholders will become HoldCo shareholders. As such, similar to SPIL's Cash Consideration, ASE will become a wholly-owned subsidiary of HoldCo by exchange of the shares of one single company; theoretically, the rights of previous ASE shareholders will not be affected by the exact Share Exchange ratio.

According to ASE's reviewed consolidated financial statements as of September 30, 2017, its equity attributable to owners of parent amounted to NT\$185,159,550,000; based on the latest update from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs, ASE had a total of 8,724,619,364 issued and outstanding common shares as of October 26, 2017. Therefore, its net book value per common share was NT\$21.22265. Each ASE common share will be exchanged for 0.5 HoldCo common share 2. resulting in 4,362,309,682 HoldCo common shares as of the share exchange record date. In addition, the net book value per common share as calculated based on ASE's equity attributable to owners of parent to be assumed by HoldCo will be increased in the ratio of 1:0.5. Based on ASE's equity attributable to owners of parent as of September 30, 2017, HoldCo's net book value per common share would be NT\$42.44530 per share. For HoldCo common shareholders after the Share Exchange, the shareholders' equity will not be impaired in any way by the Share Exchange ratio.

3. Net value of ASE's equity attributable to owners of parent as of the share exchange record date may vary from that as of September 30, 2017. However, ASE shareholders will contribute all the common shares held by them in ASE as of the share exchange record date in consideration of and exchange for the common shares required for the establishment of HoldCo. As such, for HoldCo common shareholders after the Share Exchange, the shareholders' equity will not be affected as a result of the Share Exchange.

Table of Contents

In summary, it shall be fair and reasonable for all of ASE's issued and outstanding shares to be exchanged for and in consideration of newly issued common shares of HoldCo at an exchange ratio of each ASE common share for 0.5 HoldCo common share resulting in ASE to become a wholly-owned subsidiary of HoldCo.

(B)

SPIL

1.

Methodologies Used

There are many methods for evaluating stock value. In practice, common methods include: market approach, such as market price approach (focusing on listed target companies; the fair value can be estimated by market price on the stock exchange) and market comparison approach (based on financial information of target companies and their peers in the market, using market multiplier such as price-earnings ratio, price-book ratio for analysis and evaluation); income approach; and cost approach.

Among these methods, income approach requires the Company's estimates of future cash flow, involving multiple assumptions and having a higher uncertainty. Given its less objective nature compared to other methods, this method is not used. Cost approach examines and weighs SPIL's business model and capital structure. Therefore, it is not appropriate for valuation and also not used. As such, we intend to use the market approach as primary evaluation method while taking into account of other non-quantitative factors, to evaluate the reasonable consideration of the Share Exchange for SPIL.

2.

Selection of Peers

Based on customer attributes, business activities and business model, ChipMOS Technologies (Bermuda) Ltd. ("**ChipMOS**"), Chipbond Technology Corporation ("**Chipbond**") and Powertech Technology Inc. ("**Powertech**") are selected as peers. The following table lists the financial conditions of these 3 peers for the third quarter of 2017:

Unit: NT\$ (in thousands)

Items	Peers		
	ChipMOS (8150)	Chipbond (6147)	Powertech (6239)
Total assets	33,810,825	34,360,614	98,534,589
Total liabilities	15,643,365	9,784,128	50,863,106
Total equity attributable to owners of parent	18,167,460	23,720,626	36,551,750
Share capital	8,864,131	6,542,620	7,791,466
Net value per share- attributable to owners of parent (NT\$) (Note 1)	20.50	36.26	46.91

Edgar Filing: ADVANCED SEMICONDUCTOR ENGINEERING INC - Form F-4/A

Operating income	13,532,627	13,551,288	42,916,153
Net profit - attributable to owners of parent	2,863,491	1,475,679	4,196,640
Earnings per share - attributable to owners of parent (NT\$) (Note 2)	3.92	3.52	7.23

Source: Audited or reviewed consolidated financial statements of three peers for the third quarter of 2017.

Note 1: Net value per share is calculated based on the number of common shares of the respective peer obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs.

Note 2: Earnings per share are estimated for the four quarters ended the third quarter of 2017 based on the net profit attributable to owners of parent in their respective peer's financial statements for the fourth quarter of 2016 and consolidated financial statements for the third quarter of 2017, number of common shares are obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs and other financial data.

B-3-3

Table of Contents

3. Valuation

(1) Market Price Approach

As SPIL is a listed company with its open market trading prices available for objective reference, this opinion sampled its recent publicly traded prices to evaluate the average closing prices for 60, 90 and 180 business days up to and including the valuation date of January 12, 2018 as follows:

Unit: NT\$

Item	Average closing price	Theoretical price range
Latest 60 business days	49.15	
Latest 90 business days	48.77	48.38 ~ 49.15
Latest 180 business days	48.38	

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note: (5/2/2017~1/12/2018); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

(2) Price-book Ratio Approach

The reasonable value per share of SPIL is estimated by calculating the net book value per share based on the financial information of SPIL and sampling the average price-book ratios of publicly traded peers - ChipMOS, Chipbond and Powertech for comparison purposes. The price-book ratios of publicly traded peers are calculated using their closing prices for 180 business days up to and including the valuation date of January 12, 2018 for sampling purposes and based on the total equity attributable to owners of parent in the respective peer's consolidated financial statements for the third quarter of 2017, the number of common shares for respective peer obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs and other financial data. The reasonable reference price of SPIL is imputed as follows:

Unit: NT\$

Comparable peers	Average closing price for latest 180 business days	Net value per share for the third quarter of 2017	Price-book ratio
------------------	--	---	------------------

ChipMOS	28.87	20.50	1.41
Chipbond	50.89	36.26	1.40
Powertech	91.24	46.91	1.95

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note:(5/2/2017~1/12/2018); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices.

B-3-4

Table of Contents

Unit: NT\$

Item	Description
Range of multipliers	1.40 ~ 1.95
Net value per share of SPIL for the third quarter of 2017	21.62
Theoretical price range	30.27 ~ 42.16

(3) Price-earnings Ratio Approach

The reasonable value per share of SPIL is estimated by calculating the earnings per share based on the financial information of SPIL and sampling the average price-book ratios of publicly traded peers - ChipMOS, Chipbond and Powertech for comparison purposes. Earnings per share for the four quarters ended the third quarter of 2017 are estimated, and thereby the average price-earnings ratios of publicly traded peers are calculated, using their closing prices for 180 business days up to and including the valuation date of January 12, 2018 for sampling purposes and based on the net profits attributable to owners of parent in their respective peer's financial statements for the fourth quarter of 2016 and consolidated financial statements for the third quarter of 2017, the number of common shares for respective peer obtained from the Commerce and Industry Registration Enquiry System of Department of Commerce, Ministry of Economic Affairs and other financial data. The reasonable reference price of SPIL is imputed as follows:

Unit: NT\$

Comparable peers	Average closing price for latest 180 business days	Earnings per share in last four quarters	Price-earnings ratio
ChipMOS	28.87	3.92	7.36
Chipbond	50.89	3.52	14.46
Powertech	91.24	7.23	12.62

Sources of ex-rights/ex-dividend adjusted closing prices are from compilations of Taiwan Economic Journal Note:(5/2/2017~1/12/2018); all average prices are calculated by simple arithmetic averaging of ex-rights/ex-dividend adjusted closing prices

Table of Contents

Unit: NT\$

Item	Description
Range of multipliers	7.36 ~ 14.46
Consolidated earnings per share of SPIL	2.64
Theoretical price range	19.43 ~ 38.17

(4)

Summary

Calculation results of value of common shares under the foregoing evaluation methods are summarized as below. The above three methods have their theoretical and practical basis. Therefore, for avoidance of biases in the evaluation process, the imputation used 1/3 for purposes of weighted averaging by taking into account of other non-quantitative key factors with reference to the statistics of Bloomberg and the average premium rate of 30.92% of the global merger and acquisition cases in semiconductor industry since the third quarter of 2017. On these basis, the reasonable price range per share of SPIL shall be from NT\$42.80 to NT\$56.51. As such, we are of opinion that it shall be fair and reasonable for each SPIL common share in exchange of Cash Consideration of NT\$55 (the Cash Consideration is adjusted to NT\$51.2 after deduction of cash dividends distribution of NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share as resolved at SPIL's annual general shareholder's meeting for 2016).

Unit: NT\$

Evaluation method	Reference price range per share	Weight	Theoretical price range per share	Reference price range after adjustment
Market Price Approach	42.38~ 49.15	1/3		
Price-book Ratio Approach	30.27~42.16	1/3	32.69~ 43.16	42.80~ 56.51
Price-earnings Ratio Approach	19.43~ 38.17	1/3		

V.

Conclusion

In summary, ASE and SPIL are proposed to become wholly-owned subsidiaries of HoldCo by the joint share exchange. In relation to the Share Exchange, I, as the accountant, am of the opinion that it shall be fair and reasonable for each ASE common share in exchange for 0.5 HoldCo common share and each SPIL common share in exchange of Cash Consideration of NT\$55 (the Cash Consideration is adjusted to NT\$51.2 after deduction of cash dividends distribution of NT\$2.8 per share and capital reserve cash distribution of NT\$1 per share as resolved at SPIL's annual

general shareholder's meeting for 2016).

Annex C

ROC MERGERS AND ACQUISITIONS ACT – ARTICLE 12

If the following event occurs when a company is undergoing a merger, consolidation, acquisition or division, a shareholder may request the company to repurchase his/her/its shares at the then fair price of such shares:

In the event that the company is undergoing an acquisition as described in Article 27 of this Act, the shareholder 4. delivers a written objection or an oral objection that has been put into the record and waives his/her/its voting rights before or during the shareholders' meeting;

Any shareholder who has made the request as provided in the preceding paragraph shall submit a written request that specifies the requested repurchase price and deposit the certificates of his/her/its shares within 20 days immediately following the date at which the shareholder resolutions are passed.

The company shall appoint an institution that is permitted by law to provide corporate action services to handle the shares deposited by the dissenting shareholder. The shareholder shall deposit his/her/its shares to such institution and the institution shall issue a certificate that specifies the type and amount of deposited shares to the shareholder; any deposit by book-entry transfer shall be governed by the procedures set forth in the rules and regulations in relation to the centralized securities depository enterprises.

The request of a shareholder as provided in Paragraph 1 shall lose its effect when the company abandons its corporate action as provided in the same paragraph.

If the company and the shareholder reach an agreement with respect to the repurchase price, the company shall pay such repurchase price to the shareholder within 90 days immediately following the date at which the shareholders' resolutions are passed. If no agreement is reached, within 90 days immediately after the date at which the shareholders' resolutions are passed, the company shall pay for the shares of the shareholder with whom it has not reached an agreement at a price determined by the company as the fair price for such shares; if the company fails to make such payment, the company shall be deemed as having agreed to the repurchase price requested by the shareholder pursuant to Paragraph 2.

If the company fails to reach an agreement with any shareholder with respect to the repurchase price within 60 days immediately following the date at which the shareholders' resolutions are passed, the company shall, within 30 days

after the expiry of the 60-day period, file a petition with a court for a ruling to determine the fair price of the shares against all the shareholders with whom it has not reached an agreement as the opposing parties. If the company fails to list any shareholder with whom it has not reached an agreement as an opposing party, or the petition is withdrawn by the company or dismissed by the court, the company shall be deemed as having agreed to the repurchase price requested by the shareholder pursuant to Paragraph 2. However, if the opposing party has already presented his/her/its position in the court or the court's ruling has already been delivered to the opposing party, the company shall not withdraw the petition unless agreed to by the opposing party.

When the company files a petition with the court for a ruling to determine the repurchase price, the company shall attach to the petition the audited and attested financial statements of the company and the fair price assessment report by the certified public accountants, and written copies and photocopies thereof according to the number of opposing parties for the court to distribute to each opposing party.

Before making a ruling with respect to the repurchase price, the court shall allow the company and the opposing parties to have the chance to present their positions. If there are two or more opposing parties, the provisions set out in Articles 41 to 44, as well as Paragraph 2 of Article 401 of the ROC Civil Procedure Code shall apply *mutatis mutandis*.

If any party appeals against the ruling made pursuant to the preceding paragraph, the court shall allow the parties at dispute to have the chance to present their positions before making a decision on the appeal.

Table of Contents

When the ruling with respect to the repurchase price becomes final and binding, the company shall, within 30 days immediately after the ruling becomes final and binding, pay such final repurchase price to the dissenting shareholders, deducting any previous payment and interest accrued since the next day of the expiry of the 90-day period immediately following the date at which the shareholders' resolutions are passed.

The provisions set forth in Article 171 and Paragraphs 1, 2 and 4 of Article 182 of the ROC Non-Contentious Matters Act shall apply *mutatis mutandis*.

The company shall bear the expenses of the petition and the appraiser's compensation.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This annual report on Form 20-F contains “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Although these forward-looking statements, which may include statements regarding our future results of operations, financial condition or business prospects, are based on our own information and information from other sources we believe to be reliable, you should not place undue reliance on these forward-looking statements, which apply only as of the date of this annual report. The words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “plan” and similar expressions, as they relate to us, are intended to identify these forward-looking statements in this annual report. Our actual results of operations, financial condition or business prospects may differ materially from those expressed or implied in these forward-looking statements for a variety of reasons, including risks associated with cyclical and market conditions in the semiconductor or electronics industry; changes in our regulatory environment, including our ability to comply with new or stricter environmental regulations and to resolve environmental liabilities; demand for the outsourced semiconductor packaging, testing and electronic manufacturing services we offer and for such outsourced services generally; the highly competitive semiconductor or manufacturing industry we are involved in; our ability to introduce new technologies in order to remain competitive; international business activities; our business strategy; our future expansion plans and capital expenditures; the uncertainties as to whether we can complete the share exchange contemplated by the Joint Share Exchange Agreement between us and SPIL; the strained relationship between the ROC and the PRC; general economic and political conditions; the recent global economic crisis; possible disruptions in commercial activities caused by natural or human-induced disasters; fluctuations in foreign currency exchange rates; and other factors. For a discussion of these risks and other factors, see “Item 3. Key Information—Risk Factors.”

SELECTED FINANCIAL DATA

The selected consolidated statements of comprehensive income data and cash flow data for the years ended December 31, 2014, 2015 and 2016, and the selected consolidated balance sheet data as of December 31, 2015 and 2016 set forth below are derived from our audited consolidated financial statements included in this annual report and should be read in conjunction with, and are qualified in their entirety by reference to, these consolidated financial statements, including the notes thereto. The selected consolidated statements of comprehensive income data and cash flow data for the year ended December 31, 2012 and 2013 and the selected consolidated balance sheet data as of December 31, 2012 and 2013 set forth below are derived from our audited consolidated financial statements not included herein.

Our consolidated financial statements have been prepared and presented in accordance with IFRS. Until and including our consolidated financial statements included in our annual report on Form 20-F for the year ended December 31, 2012, we prepared our consolidated financial statements in accordance with ROC GAAP with reconciliations to U.S. GAAP.

We adopted IFRS for certain filings with the SEC, starting from the filing of our annual report on Form 20-F for the year ended December 31, 2013. Historical financial results as of and for the year ended December 31, 2012 included herein have been adjusted and presented in accordance with IFRS, which differs from the results included in our annual report on Form 20-F for the year ended December 31, 2012. Meanwhile, as required by the FSC, we adopted

Taiwan-IFRS for reporting of our annual and interim consolidated financial statements in the ROC beginning on January 1, 2013. Taiwan-IFRS differs from IFRS in certain respects, including, but not limited to the extent that any new or amended standards or interpretations applicable under IFRS may not be timely endorsed by the FSC.

Following our adoption of IFRS for SEC filing purposes, pursuant to the rule amendments adopted by the SEC that became effective on March 4, 2008, we were no longer required to reconcile our consolidated financial statements with U.S. GAAP.

Electronic manufacturing services	7,241.3	8,054.3	9,118.9	9,433.4	11,234.8	346.8
Others	1,974.9	2,014.6	1,797.4	1,327.6	3,454.3	106.6

Table of Contents

We have completed the identification of difference between the cost of the investment and our share of the net fair value of SPIL's identifiable assets and liabilities in September 2016. Therefore, we retrospectively adjusted the comparative financial statement for the year ended December 31, 2015, which differs from the results included in our annual report on Form 20-F for the year ended December 31, 2015. The retrospective adjustments resulted in a decrease of NT\$281.4 million to the investments accounted for using the equity method on the consolidated balance sheet as of December 31, 2015 and share of profit of associates on the consolidated statement of comprehensive income for the year ended December 31, 2015. See Note 13 to our audited consolidated financial statement included in this annual report for more information.

The denominators for diluted earnings per common share and diluted earnings per equivalent ADS are calculated to account for the potential diluted factors, such as the exercise of options and conversion of our convertible bonds into our common shares.

Dividends per common share issued as a cash dividend, a stock dividend and distribution from capital surplus.

Represents the weighted average number of shares after retroactive adjustments to give effect to stock dividends. Common shares held by consolidated subsidiaries are classified as "treasury stock," and are deducted from the number of common shares outstanding.

Including available-for-sale financial assets — non-current and investments accounted for using the equity method.

Including deferred tax assets, other financial assets — non-current and other non-current assets.

Including short-term bank loans and short-term bills payable.

Including bonds payable, long-term borrowings (consisted of bank loans and bills payable) and capital lease obligations.

Including (x) current liabilities other than short-term debts and current portion of long-term debts and (y) non-current liabilities other than long-term debts.

Exchange Rates

Fluctuations in the exchange rate between NT dollars and U.S. dollars will affect the U.S. dollar equivalent of the NT dollar price of our common shares on the TWSE and, as a result, will likely affect the market price of the ADSs. Fluctuations will also affect the U.S. dollar conversion by the depositary under our ADS deposit agreement referred to below of cash dividends paid in NT dollars on, and the NT dollar proceeds received by the depositary from any sale of, common shares represented by ADSs, in each case, according to the terms of the deposit agreement dated September 29, 2000 and as amended and supplemented from time to time among us, Citibank N.A., as depositary, and the holders and beneficial owners from time to time of the ADSs, which we refer to as the deposit agreement.

D-1-8

Table of Contents

The following table sets forth, for the periods indicated, information concerning the number of NT dollars for which one U.S. dollar could be exchanged. The exchange rates reflect the exchange rates set forth in the H.10 statistical release of the Federal Reserve Board.

	Exchange Rate			
	Average ⁽¹⁾	High	Low	Period End
2012	29.47	30.28	28.96	29.05
2013	29.73	30.20	28.93	29.83
2014	30.38	31.80	29.85	31.60
2015	31.80	33.17	30.37	32.79
2016				
October	31.59	31.79	31.36	31.54
November	31.75	32.01	31.41	31.92
December	32.00	32.42	31.72	32.40
2017				
January	31.65	32.37	31.19	31.19
February	30.85	31.17	30.61	30.64
March	30.65	31.03	30.14	30.38
April (through April 14, 2017)	30.47	30.63	30.31	30.31

Annual averages were calculated by using the average of the exchange rates on the last day of each month during (1) the relevant year. Monthly averages were calculated by using the average of the daily rates during the relevant month.

On April 14, 2017, the exchange rate as set forth in the H.10 weekly statistical release by the Federal Reserve Board was NT\$30.31=US\$1.00.

CAPITALIZATION AND INDEBTEDNESS

Not applicable.

REASON FOR THE OFFER AND USE OF PROCEEDS

Not applicable.

RISK FACTORS

Risks Relating to Our Business

Since we are dependent on the highly cyclical semiconductor and electronics industries and conditions in the markets for the end-use applications of our products, our revenues and net income may fluctuate significantly.

Our business is affected by market conditions in the highly cyclical semiconductor and electronics industries. Most of our customers operate in this industry, and variations in order levels from our customers and service fee rates may result in volatility in our revenues and net income. From time to time, the semiconductor and electronics industries have experienced significant, and sometimes prolonged, downturns. As our business is, and will continue to be, dependent on the requirements for independent packaging, testing and electronic manufacturing services, any future downturn in the industry would reduce demand for our services. For example, in the fourth quarter of 2008, the global economic crisis resulted in a significant deterioration in demand for our customers' products, which in turn affected demand for our services and adversely affected our operating results. Although demand has recovered, we expect there to be continued downward pressure on our average selling prices and continued volatility with respect to our sales volumes in the future. If we cannot reduce our costs or adjust our product mix to sufficiently offset any decline in sales volumes, our profitability will suffer, and we may incur losses.

Market conditions in the semiconductor and electronics industries depend to a large degree on conditions in the markets for the end-use applications of various products, such as communications, computing and consumer electronics products. Any deterioration of conditions in the markets for the end-use applications would reduce demand for our services, and would likely have a material adverse effect on our financial condition and results of operations. In 2016, approximately 52.2%, 11.5% and 36.3% of our operating revenues from packaging and testing were attributed to the packaging and testing of semiconductors used in communications, computing and consumer electronics/industrial/automotive/other applications, respectively. In the same year, approximately 50.6%, 16.9%, 18.4%, 7.2% and 6.0% of our operating revenues from electronic manufacturing services were attributed to the communications, computing, consumer electronics applications, industrial and automotive applications, respectively. Across end-use applications, our customers face intense competition and significant shifts in demand, which could put pricing pressure on our services and may adversely affect our revenues and net income.

D-1-9

Table of Contents

A reversal or slowdown in the outsourcing trend for semiconductor packaging and testing services and electronic manufacturing services could adversely affect our growth prospects and profitability.

Semiconductor manufacturers that have their own in-house packaging and testing capabilities, known as integrated device manufacturers and original equipment manufacturers, have increasingly outsourced stages of the production process, including packaging, testing, electronic manufacturing and assembly, to independent companies in order to reduce costs, eliminate product complexity and meet fast-to-market requirements. In addition, the availability of advanced independent semiconductor manufacturing services has also enabled the growth of so-called “fables” semiconductor companies that focus exclusively on design and marketing and outsource their manufacturing, packaging and testing requirements to independent companies. We cannot assure you that these manufacturers and companies will continue to outsource their packaging, testing and manufacturing requirements to third parties like us. Furthermore, during an economic downturn, these integrated device manufacturers typically rely more on their own in-house packaging and testing capabilities, therefore decreasing their need to outsource. A reversal of, or a slowdown in, this outsourcing trend could result in reduced demand for our services and adversely affect our growth prospects and profitability.

Any global economic downturn could adversely affect the demand for our products and services, and a protracted global economic crisis would have a material adverse effect on us.

The global financial markets experienced significant disruptions in 2008 and the United States, Europe and other economies went into recession. The recovery from the lows of 2008 and 2009 was uneven and it is facing new challenges, including a European sovereign debt crisis that began in 2011, a referendum in the United Kingdom in June 2016, in which the majority of voters voted in favor of an exit from the European Union (“Brexit”), and continuing high unemployment rates in much of the world. It is unclear what the long-term impact of the European sovereign debt crisis will be and uncertainty remains over the long-term effects of the expansionary monetary and fiscal policies that have been adopted by the central banks and financial authorities of some of the world’s leading economies. There are also increased uncertainty in the wake of Brexit, which has resulted in downgrade of the credit ratings of the United Kingdom and an increase in volatility in the global financial markets. Any economic downturn or crisis may cause our customers to do the following:

- cancel or reduce planned expenditures for our products and services;
- seek to lower their costs by renegotiating their contracts with us;
- consolidate the number of suppliers they use, which may result in our loss of customers; and

- switch to lower-priced products or services provided by our competitors.

Any uncertainty or significant volatility in global economic conditions may also make it difficult for our customers to accurately forecast and plan future business activities and may have a material adverse effect on us.

If we are unable to compete favorably in the highly competitive markets of semiconductor packaging and testing and electronic manufacturing services, our revenues and net income may decrease.

The markets of semiconductor packaging and testing and electronic manufacturing services are very competitive. We face competition from a number of sources, including other independent semiconductor packaging and testing companies, integrated device manufacturers, and other electronic manufacturing services providers with large-scale manufacturing capabilities who can quickly react to market changes. We believe that the principal competitive factors in our industry are:

- technological expertise;

D-1-10

Table of Contents

the ability to provide total solutions to our customers, including integrated design, manufacturing, packaging and testing and electronic manufacturing services;

· ability to offer interconnect technologies at an optimal scale for our businesses;

· range of package types and testing platforms available;

· the ability to work closely with our customers at the product development stage;

· responsiveness and flexibility;

· fast-to-market product development;

· capacity;

· diversity in facility locations;

· production yield; and

· price.

We face increasing competition, as most of our customers obtain services from more than one source. Rapid technological advances and aggressive pricing strategies by our competitors may continue to increase competition. Our ability to compete depends on factors both within and outside of our control and may be constrained by the distinct characteristics and production requirements of individual products. We cannot assure you that we will be able to continue to improve production efficiency and maintain reasonable profit for all of our products.

In addition, some of our competitors may have superior financial, marketing, manufacturing, research and development and technological resources than we do. For example, the central government of the PRC as well as provincial and municipal governments have provided various incentives to domestic companies in the semiconductor industry, including major semiconductor testing and packaging providers, such as Jiangsu Changjiang Electronics Technology Co., Ltd. Similarly, our customers may face competition from their competitors in the PRC, and such competitors may also receive significant subsidies from the PRC government. As we are downstream suppliers, the impact of such government policies on competition and price pressure of our customers may negatively impact our own business. Increasing competition may lead to declines in product prices and profitability and could have a

material adverse effect on our business, financial condition, results of operations and future prospects.

Our profitability depends on our ability to respond to rapid technological changes in the semiconductor industry.

The semiconductor industry is characterized by rapid increases in the diversity and complexity of semiconductors. As a result, we expect that we will need to constantly offer more sophisticated packaging and testing technologies and processes in order to respond to competitive industry conditions and customer requirements. We have successfully combined our packaging, testing and materials technologies with the expertise of electronic manufacturing services at the systems level to develop our SiP business. Success of a new product depends on a number of factors such as product acceptance by the market. New products are developed in anticipation of future demand. We cannot assure you that the launch of any new product will be successful, or that we will be able to produce sufficient quantities of these products to meet market demand. If we fail to develop, or obtain access to, advances in packaging or testing technologies or processes, we may become less competitive and less profitable. In addition, advances in technology typically lead to declining average selling prices for semiconductors packaged or tested with older technologies or processes. As a result, if we cannot reduce the costs associated with our services, the profitability of a given service and our overall profitability may decrease over time.

Our operating results are subject to significant fluctuations, which could adversely affect the market value of your investment.

Our operating results have varied significantly from period to period and may continue to vary in the future. Downward fluctuations in our operating results may result in decreases in the market price of our common shares and the ADSs. Among the more important factors affecting our quarterly and annual operating results are the following:

D-1-11

Table of Contents

changes in general economic and business conditions, particularly the cyclical nature of the semiconductor and electronics industries and the markets served by our customers;

- our ability to quickly adjust to unanticipated declines or shortfalls in demand and market prices;

- changes in prices for our products or services;

- volume of orders relative to our packaging, testing and manufacturing capacity;

- changes in costs and availability of raw materials, equipment and labor;

- our ability to obtain or develop substitute raw materials with lower cost;

- our ability to successfully develop or market new products or services;

our ability to successfully manage product mix in response to changes in market demand and differences in margin associated with different products;

- timing of capital expenditures in anticipation of future orders;

our ability to acquire or design and produce cost-competitive interconnect materials, and provide integrated solutions for electronic manufacturing services;

fluctuations in the exchange rate between the NT dollar or RMB and foreign currencies, especially the U.S. dollar; and

typhoons, earthquakes, drought, epidemics, tsunamis and other natural disasters, as well as industrial and other incidents such as fires and power outages.

Due to the factors listed above, our future operating results or growth rates may be below the expectations of research analysts and investors. If so, the market price of our common shares and the ADSs, and thus the market value of your investment, may fall.

Due to our high percentage of fixed costs, we may be unable to maintain our gross margin at past levels if we are unable to achieve relatively high capacity utilization rates.

Our operations, in particular our testing operations, are characterized by relatively high fixed costs. We expect to continue to incur substantial depreciation and other expenses in connection with our acquisitions of equipment and facilities. Our profitability depends not only on the pricing levels for our services or products, but also on utilization rates for our machinery and equipment, commonly referred to as “capacity utilization rates.” In particular, increases or decreases in our capacity utilization rates can significantly affect gross margins since the unit cost generally decreases as fixed costs are allocated over a larger number of units. In periods of low demand, we experience relatively low capacity utilization rates in our operations, which leads to reduced margins. For example, in the fourth quarter of 2008, we experienced lower than anticipated utilization rates in our operations due to a significant decline in worldwide demand for our packaging and testing services, which resulted in reduced margins during that period. Although capacity utilization rates have recovered since 2009, we cannot assure you that we will be able to maintain or surpass our past gross margin levels if we cannot consistently achieve or maintain relatively high capacity utilization rates.

If we are unable to manage our expansion or investments effectively, our growth prospects may be limited and our future profitability and core business operations may be adversely affected.

We have significantly expanded our operations through both organic growth and acquisitions in recent years. For example, we acquired the controlling interest of Universal Scientific in 2010 to expand our product offering scope to electronic manufacturing services; we also entered into a joint venture agreement with TDK Corporation in May 2015 to further expand our business in embedded substrates; furthermore, we entered into the Joint Share Exchange Agreement with SPIL in June 2016 to take advantage of the synergy effect of business combination between SPIL and us. We expect that we will continue to expand our operations in the future. The purpose of our expansion is mainly to provide total solutions to existing customers or to attract new customers and broaden our product range for a variety of end-use applications. However, rapid expansion may place a strain on our managerial, technical, financial, operational and other resources. As a result of our expansion, we have implemented and will continue to implement additional operational and financial controls and hire and train additional personnel. Any failure to manage our growth effectively could lead to inefficiencies and redundancies and result in reduced growth prospects and profitability.

D-1-12

Table of Contents

In addition, we have recently made investments in real estate development businesses mostly in China. The PRC property market is volatile and may experience undersupply or oversupply and property price fluctuations. The central and local governments frequently adjust monetary and other fiscal policies to prevent and curtail the overheating of the economy. Such policies may lead to changes in market conditions, including price instability and imbalance of supply and demand in respect of office, residential, retail, entertainment, cultural and intellectual properties. We may continue to make investments in this area in the future and our diversification in this industry may put pressure on our managerial, financial, operational and other resources. Our exposure to risks related to real estate development may also increase over time as a result of our expansion into such a business. There can be no assurance that our investments in such a business will yield the anticipated returns and that our expansion into such a business, including the resulting diversion of management's attention, will not adversely affect our core business operations.

We may not be successful in pursuing mergers and acquisitions. Any mergers or acquisitions we make may lead to a diversion of management resources.

Our future success may depend on acquiring businesses and technologies, making investments or forming joint ventures that complement, enhance or expand our current product offerings or otherwise offer us growth opportunities. In pursuing such acquisitions, we may face competition from other companies in the semiconductor industry. Our ability to acquire or invest in suitable targets may be limited by applicable laws and regulations in Taiwan, the United States and other jurisdictions where we do business. Even if we are successful in making such acquisitions or investments, we may have to expend substantial amounts of cash, incur debt, assume loss-making divisions and incur other types of expenses. We may also face challenges in successfully integrating any acquired companies into our existing organization or in creating the anticipated cost synergies. Each of these risks could have a material adverse effect on our business, financial condition and results of operations.

The financial performance of our equity method investments could adversely affect our results of operations.

As part of our business strategy, we have and may continue to pursue acquisitions of businesses and assets, strategic alliances and joint ventures. We currently have equity investments in certain entities and the accounting treatment applied for these investments varies depending on a number of factors, including, but not limited to, our percentage ownership and the level of influence we have over the relevant entity. Any losses experienced by these entities could adversely affect our results of operations and the value of our investment. In addition, if these entities were to fail and cease operations, we may lose the entire value of our investment and the stream of any shared profits.

For example, on September 22, 2015, upon the expiration of the Initial SPIL Tender Offer period, we acquired 779,000,000 common shares (including those represented by American depositary shares) of SPIL through the Initial SPIL Tender Offer. We subsequently acquired an additional 258,300,000 common shares of SPIL (including those represented by American depositary shares) through open market purchases in March and April 2016. As of April 21,

2017, we beneficially own 1,037,300,000 common shares of SPIL (calculated as the sum of 988,847,740 common shares of SPIL and 48,452,260 common shares of SPIL underlying 9,690,452 American depositary shares of SPIL), representing 33.29% of the issued and outstanding share capital of SPIL (calculated based on 3,116,361,139 common shares of SPIL (including those represented by American depositary shares) outstanding as of March 31, 2017 as reported in SPIL's annual report on Form 20-F for the year ended December 31, 2016). See "Item 4. Information on the Company— History and Development of the Company—Acquisition of Common Shares and American Depositary Shares of SPIL." Although we are currently a 33.29% shareholder of SPIL, we currently do not control SPIL and do not have the power to direct SPIL or its management. As the investment in SPIL is accounted for using the equity method, to the extent that SPIL has net losses, our financial results will be adversely affected to the extent of our pro rata portion of these losses. In addition, as we currently do not control SPIL and do not have the power to direct SPIL or its management, we do not have access to SPIL's books and records and may not be able to obtain SPIL's financial information on a timely basis. SPIL's reporting time for its financial statements may affect our ability to timely report our own financial statements or meet scheduled announcements for earnings releases.

D-1-13

Table of Contents

There can be no assurance that we will be able to maintain or enhance the value or performance of our investee companies or that we will achieve the returns or benefits sought from such investments. If our interests differ from those of other investors in our investee companies, we may not be able to enjoy synergies with the investee and it may adversely affect our financial results or financial condition.

We may not be successful in our acquisition of 100% of SPIL shares not otherwise owned by us.

On September 22, 2015, upon the expiration of the Initial SPIL Tender Offer period, we acquired 779,000,000 common shares (including those represented by American depositary shares) of SPIL through the Initial SPIL Tender Offer. In December 2015, following an announcement by SPIL that it plans to issue 1,033 million shares, if approved by SPIL shareholders, to a third party pursuant to a share placement agreement, we submitted a written proposal to SPIL's Board proposing to acquire all SPIL shares not otherwise owned by ASE, contingent upon the termination of the share purchase agreement, and later launched the Second SPIL Tender Offer on December 29, 2015 to offer to purchase up to 770,000,000 common shares of SPIL (including those represented by American depositary shares). On March 17, 2016, we announced that the Second SPIL Tender Offer was unsuccessful because the Taiwan Fair Trade Commission (the "TFTC") did not render its decision before the expiration of the Second SPIL Tender Offer. The TFTC subsequently suspended its review on March 23, 2016. Notwithstanding the failure of the Second SPIL Tender Offer, we continued to seek control of SPIL, with the purpose of effecting an acquisition of 100% of the common shares and American depositary shares of SPIL. Under the Joint Share Exchange Agreement, a holding company in Taiwan will be established that would hold 100% of the equity interests of both ASE and SPIL such that ASE and SPIL would be wholly owned subsidiaries of such holding company, which would maintain all current operations of ASE and SPIL in Taiwan. See "Item 4. Information on the Company— History and Development of the Company—Acquisition of Common Shares and American Depositary Shares of SPIL."

The successful consummation of the SPIL Acquisition is subject to a number of factors, including, among other things, obtaining all necessary antitrust or other regulatory approvals in Taiwan, the United States, the PRC and other jurisdictions where we do business. Although we have obtained regulatory approvals in Taiwan, in the event these conditions cannot be satisfied, we may re-evaluate our interest in SPIL and may consider, among other legally permissible alternatives, to dispose our SPIL shares at a loss, which may significantly affect our financial position. Notwithstanding the above, even if we are successful in consummating the SPIL Acquisition, we may face challenges in successfully integrating SPIL into our existing organization or in realizing anticipated benefits and cost synergies. Each of these risks could have a material adverse effect on our business and operations, including our relationship with customers, suppliers, employees and other constituencies, or otherwise adversely affect our financial condition and results of operations.

There may be risks associated with the proposed holding company structure of SPIL Acquisition.

We entered into the Joint Share Exchange Agreement with SPIL in June 2016, pursuant to which ASE Holding, a holding company in Taiwan, will hold 100% of the equity interests in both ASE and SPIL such that ASE and SPIL will become wholly owned subsidiaries of ASE Holding. The proposed holding company will maintain all current operations of ASE and SPIL in Taiwan. The common shares of ASE and SPIL will be delisted from the TWSE. The ADSs of ASE and SPIL will be delisted from NYSE and NASDAQ, respectively, and will become eligible for deregistration under the Exchange Act. Subsequently, the common shares of ASE Holding will be listed on the TWSE, and the ADSs of ASE Holding will be listed on the NYSE. The implementation of such corporate structure restructuring plan may require approvals from relevant regulators and may result in unforeseen contingent risks, including increase in tax liabilities or trading discounts relating to a holding company discount that may become apparent in the future.

The packaging and testing businesses are capital intensive. If we cannot obtain additional capital when we need it, our growth prospects and future profitability may be adversely affected.

The packaging and testing business is capital intensive. We will need capital to fund the expansion of our facilities as well as fund our research and development activities in order to remain competitive. We believe that our existing cash, marketable securities, expected cash flow from operations and existing credit lines under our loan facilities will be sufficient to meet our capital expenditures, working capital, cash obligations under our existing debt and lease arrangements, and other requirements for at least the next twelve months. However, future capacity expansions or market or other developments may cause us to require additional funds. Our ability to obtain external financing in the future is subject to a variety of uncertainties, including:

D-1-14

Table of Contents

- our future financial condition, results of operations and cash flows;
- general market conditions for financing activities by semiconductor or electronics companies; and
- economic, political and other conditions in Taiwan and elsewhere.

If we are unable to obtain funding in a timely manner or on acceptable terms, our results of operations and financial conditions may be materially and adversely affected.

Restrictive covenants and broad default provisions in our existing debt agreements may materially restrict our operations as well as adversely affect our liquidity, financial condition and results of operations.

We are a party to numerous loans and other agreements relating to the incurrence of debt, many of which include restrictive covenants and broad default provisions. In general, covenants in the agreements governing our existing debt, and debt we may incur in the future, may materially restrict our operations, including our ability to incur debt, pay dividends, make certain investments and payments, other than in connection with restructurings of consolidated entities, and encumber or dispose of assets. In addition, any global economic deterioration or ineffective expansion may cause us to incur significant net losses or force us to assume considerable liabilities. We cannot assure you that we will be able to remain in compliance with our financial covenants, which, as a result, may lead to a default. This may thereby restrict our ability to access unutilized credit facilities or the global capital markets to meet our liquidity needs. Furthermore, a default under one agreement by us or one of our subsidiaries may also trigger cross-defaults under our other agreements. In the event of default, we may not be able to cure the default or obtain a waiver on a timely basis. An event of default under any agreement timely governing our existing or future debt, if not cured or waived, could have a material adverse effect on our liquidity, financial condition and results of operations.

We have on occasion failed to comply with certain financial covenants in some of our loan agreements. Such non-compliance may also have, through broadly worded cross-default provisions, resulted in default under some of the agreements governing our other existing debt. For example, we failed to comply with certain financial covenants in some of our loan agreements as a result of our acquisition of the controlling interest of Universal Scientific in February 2010, for which we have timely obtained waivers from our counterparties. If we are unable to timely remedy any of our non-compliance under such loan agreements or obtain applicable waivers or amendments, we would breach our financial covenants and our financial condition would be adversely affected. As of December 31, 2016, we were not in breach of any of the financial covenants under our existing loan agreements, although we cannot provide any assurance that we will not breach any of such financial covenants in the future.

We depend on select personnel and could be affected by the loss of their services.

We depend on the continued service of our executive officers and skilled technical personnel. Our business could suffer if we lose the services of any of these personnel and cannot adequately replace them. Although some of these management personnel have entered into employment agreements with us, they may nevertheless leave before the expiration of these agreements. We are not insured against the loss of the services of any of our personnel. In addition, these proceedings may divert these and other employees' attention from our business operations.

In addition, we may be required to increase substantially the number of these employees in connection with our expansion plans, and there is intense competition for their services in this industry. We may not be able to either retain our present personnel or attract additional qualified personnel as and when needed. In addition, we may need to increase employee compensation levels in order to attract and retain our existing officers and employees and the additional personnel that we expect to require. Furthermore, a portion of the workforce at our facilities in Taiwan are foreign workers employed under work permits, which are subject to government regulations on renewal and other terms. Consequently, our business could also suffer if the Taiwan regulations relating to the employment of foreign workers were to become significantly more restrictive or if we are otherwise unable to attract or retain these workers at a reasonable cost.

D-1-15

Table of Contents

If we are unable to obtain additional packaging and testing equipment or facilities in a timely manner and at a reasonable cost, our competitiveness and future profitability may be adversely affected.

The semiconductor packaging and testing businesses are capital intensive and require significant investment in expensive equipment manufactured by a limited number of suppliers. The market for semiconductor packaging and testing equipment is characterized, from time to time, by intense demand, limited supply and long delivery cycles. Our operations and expansion plans depend on our ability to obtain a significant amount of such equipment from a limited number of suppliers. From time to time we have also leased certain equipment. We have no binding supply agreements with any of our suppliers and acquire our packaging and testing equipment on a purchase order basis, which exposes us to changing market conditions and other substantial risks. For example, shortages of capital equipment could result in an increase in the price of equipment and longer delivery times. Semiconductor packaging and testing also require us to operate sizeable facilities. If we are unable to obtain equipment or facilities in a timely manner, we may be unable to fulfill our customers' orders, which could adversely affect our growth prospects as well as financial condition and results of operations. See "Item 4. Information on the Company—Business Overview—Equipment."

Fluctuations in exchange rates could result in foreign exchange losses.

Currently, the majority of our revenues are denominated in U.S. dollars, with a portion denominated in NT dollars and Japanese yen. Our operating costs and operating expenses, on the other hand, are incurred in several currencies, primarily NT dollars, U.S. dollars, RMB, Japanese yen, Korean won, as well as, to a lesser extent, Singapore dollars and Malaysian ringgit. In addition, a substantial portion of our capital expenditures, primarily for the purchase of packaging and testing equipment, has been, and is expected to continue to be, denominated in U.S. dollars, with the remainder in Japanese yen. Fluctuations in exchange rates, primarily among the U.S. dollar against the NT dollar, the Japanese yen and RMB, will affect our costs and operating margins. In addition, these fluctuations could result in exchange losses and increased costs in NT dollar and other local currency terms. Despite hedging and mitigating techniques implemented by us, fluctuations in exchange rates have affected, and may continue to affect, our financial condition and results of operations. We recognized net foreign exchange losses of NT\$1,222.0 million and NT\$713.2 million in 2014 and 2015, respectively, and net foreign exchange gains of NT\$1,928.4 million (US\$59.5 million) in 2016. We cannot assure you that we will achieve foreign exchange gains in the future. See "Item 11. Quantitative and Qualitative Disclosures about Market Risk—Market Risk—Foreign Currency Exchange Rate Risk."

The loss of a large customer or disruption of our strategic alliance or other commercial arrangements with semiconductor foundries and providers of other complementary semiconductor manufacturing services may result in a decline in our revenues and profitability.

Although we have a large customer base, we have derived and expect to continue to derive a large portion of our revenues from a small group of customers during any particular period due in part to the concentration of market share in the semiconductor and electronics industries. Our five largest customers together accounted for approximately 40.3%, 48.2% and 42.0% of our operating revenues in 2014, 2015 and 2016, respectively. One customer accounted for more than 10.0% of our operating revenues in 2014, 2015 and 2016. The demand for our services from a customer is directly dependent upon that customer's level of business activity, which could vary significantly from year to year. Our key customers typically operate in the cyclical semiconductor and electronic business and, in the past, have varied, and may vary in the future, order levels significantly from period to period. Some of these companies are relatively small, have limited operating histories and financial resources, and are highly exposed to the cyclicity of the industry. We cannot assure you that these customers or any other customers will continue to place orders with us in the future at the same levels as in past periods. The loss of one or more of our significant customers, or reduced orders by any one of them, and our inability to replace these customers or make up for such orders, could adversely affect our revenues and profitability. In addition, we have in the past reduced, and may in the future be requested to reduce, our prices to limit the level of order cancellations. Any price reduction would likely reduce our margins and profitability.

Since 1997, we have maintained a strategic alliance with Taiwan Semiconductor Manufacturing Company Limited, or TSMC, one of the world's largest dedicated semiconductor foundries. TSMC designates us as their non-exclusive preferred provider of packaging and testing services for semiconductors manufactured by TSMC. In addition, we entered into a joint venture agreement with TDK Corporation in May 2015 to further expand our business in embedded substrates. Such strategic alliances, as well as our other commercial arrangements with providers of other complementary semiconductor manufacturing services, enable us to offer total semiconductor manufacturing solutions to our customers. These strategic alliances and other commercial arrangements may not achieve their anticipated commercial benefits and may be terminated at any time. Any failure in successfully maintaining such alliances, any termination of such alliances or our failure to enter into substantially similar strategic alliances or commercial arrangements may adversely affect our competitiveness and our revenues and profitability.

D-1-16

Table of Contents

We rely on a limited number of key customers in certain products for our revenues, and our results of operations may be adversely affected by a reduction of business from our key customers.

Our results of operations also depends on the performance and business of our key customers. Accordingly, risks that could seriously harm our key customers could harm us as well, including:

- loss of market share for our key customers' products;
- recession in our key customers' markets;

failure of their products to gain wide-spread commercial acceptance; and

our key customers' inability to manage their operations efficiently and effectively.

The launch and market acceptance of our individual key customers' products could significantly impact our product and customer mix, resulting in significant volatility in the demand for the solutions we offer and our results of operations. It is also possible that a key customer's market share with respect to its product may decline as its competitors introduce new products, which could adversely affect our results of operations, particularly if we are unable to sell our solutions to such competitors. Furthermore, sales of our key customers' products are subject to seasonal fluctuation.

Our revenues and profitability may decline if we are unable to obtain adequate supplies of raw materials in a timely manner and at a reasonable price.

Our operations, such as packaging operations, substrate operations and electronic manufacturing services, require that we obtain adequate supplies of raw materials on a timely basis. Shortages in the supply of raw materials have in the past resulted in occasional price increases and delivery delays. In addition, the operations of some of our suppliers are vulnerable to natural disasters, such as earthquakes and typhoons, the occurrences of which may deteriorate and prolong the shortage or increase the uncertainty of the supply of raw materials. For example, on March 11, 2011, a major earthquake occurred off the coast of Japan resulting in a large tsunami and radiation leak at the Fukushima nuclear power plant. We experienced a disruption to the supply of raw materials from Japan for about three to four weeks due to the fear of radiation contamination and the reduction or postponement in production by some of our Japanese suppliers. Although the purchase of supplies from Japan has been restored to the previous level, we cannot assure you that we will not suffer long-term from the impact of the earthquake and the tsunami. In addition, further earthquakes, aftershocks thereof or other disasters in Japan or other regions in which we operate may cause a decline in our sales. Any of the above events or developments may have a material adverse effect on our business, results of

operations and financial condition.

Raw materials such as IC substrates are prone to supply shortages since such materials are produced by a limited number of suppliers, such as Kinsus Interconnect Technology Corporation, Nanya Printed Circuit Board Corporation, Unimicron Technology Corp. and LG Innotek Co., Ltd. Our operations conducted through our wholly owned subsidiaries ASE Electronics and ASE Shanghai have improved our ability to obtain IC substrates on a timely basis and at a reasonable cost. In 2016, our interconnect materials operations supplied approximately 29.7% of our consolidated substrate requirements by value. We do not expect that our internal interconnect materials operations will be able to meet all of our interconnect materials requirements. Consequently, we will remain dependent on market supply and demand for our raw materials. In addition, recent fluctuations in prices of precious metals, such as gold, have also affected the price at which we have been able to purchase the principal raw materials we use in our packaging processes. We cannot guarantee that we will not experience shortages in the near future or that we will be able to obtain adequate supplies of raw materials in a timely manner or at a reasonable price. Our revenues and net income could decline if we are unable to obtain adequate supplies of high quality raw materials in a timely manner or if there are significant increases in the costs of raw materials that we cannot pass on to our customers.

D-1-17

Table of Contents

Regulations related to conflict minerals could adversely affect our business, financial condition and results of operations.

The Dodd-Frank Wall Street Reform and Consumer Protection Act contains provisions to improve transparency and accountability concerning the supply of certain minerals, known as conflict minerals, which are defined as cassiterite, columbite-tantalite, gold, wolframite or their derivatives and other minerals determined by the U.S. government to be financing conflict in the Democratic Republic of Congo and adjoining countries. As a result, in August 2012 the SEC adopted annual disclosure and reporting requirements for those companies who use conflict minerals in their products. These rules require companies that manufacture or contract to manufacture products for which conflict minerals are necessary to the functionality or production to begin scrutinizing the origin of conflict minerals in their products starting from January 1, 2013, and file a new form, Form SD, containing the conflict minerals disclosure by May 31 for the prior calendar year, beginning May 31, 2014. We filed a specialized disclosure report on Form SD for the years ended December 31, 2013, 2014 and 2015 on May 30, 2014, June 1, 2015 and May 31, 2016, respectively. Pursuant to the SEC rules governing conflict minerals disclosures, we have engaged an independent auditing firm to conduct audits on our due diligence framework to provide a private sector report for our specialized disclosure report on Form SD for the years ended December 31, 2014, 2015 and 2016. As a result, there will be costs associated with complying with these disclosure requirements, including costs for diligence to determine the sources of conflict minerals used in our products and other potential changes to products, processes or sources of supply as a consequence of such verification activities. The implementation of these rules could adversely affect the sourcing, supply and pricing of materials used in our products. As there may be only a limited number of suppliers offering “conflict free” minerals, we cannot be sure that we will be able to obtain necessary “conflict free” minerals from such suppliers in sufficient quantities or at competitive prices. Also, we may face adverse effects to our reputation if we determine that certain of our products contain minerals not determined to be conflict free or if we are unable to sufficiently verify the origins for all conflict minerals used in our products through the procedures we may implement.

System security risks, data protection breaches or unexpected system outage or failures could harm our business, financial condition and results of operations.

We rely on the efficient and uninterrupted operation of complex information technology applications, systems and networks to operate our business. Our systems are vulnerable to damage or interruption from earthquakes, terrorist attacks, floods, fires, power loss, telecommunications failures, cyber-attacks, computer viruses, computer denial of service attacks or other attempts to harm our system, and similar events. In recent years, the risks that we face from cyber-attacks have increased significantly. Some of these attacks may originate from well-organized, highly skilled organizations. Although there have not been reported major cyber-attacks against our systems in the recent years, any such attack or system or network disruption could result in a loss of our intellectual property, the release of commercially sensitive information, customer or employee personal data. Failures to protect the privacy of customer and employee confidential data against breaches of network security could result in damage to our reputation.

Furthermore, some of our data centers are located in areas with a high risk of major earthquakes. Our data centers are also subject to break-ins, sabotage and intentional acts of vandalism, and to potential disruptions if the operators of these facilities have financial difficulties. Some of our systems are not fully redundant, and our disaster recovery planning cannot account for all eventualities. The occurrence of a natural disaster, a decision to close a facility we are using without adequate notice for financial reasons or other unanticipated problems at our data centers could result in loss of production capabilities and lengthy interruptions in our service. Any damage to or failure of our systems could result in interruptions in our service. Interruptions in our service could materially and adversely affect our business, financial condition and results of operations.

Any environmental claims or failure to comply with any present or future environmental regulations, as well as any fire or other industrial accident, may require us to spend additional funds and may materially and adversely affect our financial condition and results of operations.

We are subject to various laws and regulations relating to the use, storage, discharge and disposal of chemical by-products of, and water used in, our packaging and interconnect materials production processes, and the emission of volatile organic compounds and the discharge and disposal of solid industrial wastes from electronic manufacturing services operations. In the recent years, we have been subject to environmental administrative actions and judicial proceedings related to certain wastewater discharge incidents that occurred at our facilities. As a result of these proceedings, we have been subject to monetary fines as well as sanctions, including orders to suspend or limit our operations and criminal charges against us.

D-1-18

Table of Contents

In December 2013, the Kaohsiung City Environmental Protection Bureau ordered us to suspend the operations at our K7 Plant's wafer-level process where nickel was used for alleged wastewater discharge violations and imposed a NT\$110.1 million fine against us. The NT\$110.1 million fine was later reduced to NT\$109.4 million as ordered by the Kaohsiung City Environmental Protection Bureau. In December 2014, the Kaohsiung City Environmental Protection Bureau lifted the suspension order and approved the full resumption of operations of our K7 Plant after ordering a series of examinations, hearings and trial runs. In September 2015, the fine was further reduced to NT\$102.0 million by the Kaohsiung City Environmental Protection Bureau and we received a refund of NT\$7.3 million in October 2015. Although our K7 Plant has resumed full operation, we may be subject to other new environmental claims, charges or investigations on our K7 Plant or other facilities that may cause similar or more severe interruptions to our business and operations.

With respect to the NT\$102.0 million administrative penalty imposed on us by the Kaohsiung City Environmental Protection Bureau, we appealed to the Kaohsiung High Administrative Court in August 2014 seeking to (i) revoke Kaohsiung City Government's decision, (ii) lift the administrative penalty imposed on us and (iii) demand a refund of the administrative penalty. On March 22, 2016, the Kaohsiung High Administrative Court revoked Kaohsiung City Government's decision and lifted the administrative penalty. Our demand for a refund of the fine was dismissed. We appealed to the Supreme Administrative Court on April 14, 2016 against the Kaohsiung High Administrative Court's unfavorable ruling in dismissing a refund. The outcome of the proceeding cannot be predicted with certainty.

In connection with the same alleged violations at our K7 plant, in October 2014, the Kaohsiung District Court ruled that we were in violation of the ROC Waste Disposal Act and imposed on us a criminal penalty of NT\$3.0 million. We appealed the case to the Taiwan High Court Kaohsiung District Branch in November 2014. In September 2015, the Taiwan High Court Kaohsiung District Branch overturned the decision made by Kaohsiung District Court and found the Company not guilty and repealed the criminal penalty imposed on the Company. The verdict was final and not appealable. For additional details of these administrative actions and judicial proceedings related to our K7 Plant see "Item 4. Information on the Company—Business Overview—Environmental Matters," "Item 4. Information on the Company—Property, Plants and Equipment" and "Item 8. Financial Information—Consolidated Statements and Other Financial Information—Legal Proceedings." Defending against any of these pending or future actions will likely be costly and time-consuming and could significantly divert management's efforts and resources. Any penalties, fines, damages or settlements made in connection with any criminal, civil, and/or administrative investigations and/or lawsuits may have a material adverse effect on our business, results of operations and future prospects.

We have made, and expect to continue to make, expenditures to maintain strict compliance with such environmental laws and regulations. For example, in order to demonstrate our commitment to environmental protection, in December 2013, our board of directors approved contributions to environmental protection efforts in Taiwan in a total amount of not less than NT\$3,000.0 million, to be made in the next 30 years. For the years ended December 31, 2014, 2015 and 2016, we have made contributions in the amount of NT\$100.0 million (US\$3.1 million) each, respectively, through ASE Cultural and Educational Foundation to fund various environmental projects, and our board of directors have resolved in a resolution in January 2017 to contribute NT\$100.0 million (US\$3.1 million) through ASE Cultural and Educational Foundation in environmental projects in 2017. The costs of current and future compliance with environmental laws and regulations could require us to acquire costly equipment or to incur other significant expenses

that may have a material adverse effect on our financial condition and results of operations.

Negative publicity may adversely affect our brand and reputation, which may result in a material adverse impact on our business, results of operations and prospects and cause fluctuations in the price of our common shares and ADSs.

Any negative publicity may damage our brand and reputation, harm our ability to attract and retain customers and result in a material adverse impact on our results of operations and prospects as well as cause fluctuations in the trading price of our common shares and ADSs. In addition, any change in policy or directions in which we carry out our corporate social responsibility or corporate sustainability activities may also have an adverse effect on our reputation. Furthermore, in recent years, we have experienced and may continue to experience negative publicity in connection with administrative penalties and criminal charges related to alleged violations of environmental regulations and laws. For further details, see “—Any environmental claims or failure to comply with any present or future environmental regulations, as well as any fire or other industrial accident, may require us to spend additional funds and may materially and adversely affect our financial condition and results of operations,” “Item 4. Information on the Company—Business Overview—Environmental Matters,” “Item 4. Information on the Company—Property, Plants and Equipment” and “Item 8. Financial Information—Consolidated Statements and Other Financial Information—Legal Proceedings.”

D-1-19

Table of Contents

Climate change and other environmental concerns may negatively affect our business.

There is increasing concern that climate change is occurring and may have dramatic effects on human activity without aggressive remediation steps. A modest change in temperature would result in increased coastal flooding, changing precipitation patterns and increasing risk of extinction for the world's species. Public expectations for reductions in greenhouse gas emissions could result in increased energy, transportation and raw material costs. Scientific examination of, political attention to and rules and regulations on issues surrounding the existence and extent of climate change may result in an increase in the cost of production due to increase in the prices of energy and introduction of energy or carbon tax. Various regulatory developments have been introduced that focus on restricting or managing emissions of carbon dioxide, methane and other greenhouse gases. Enterprises may need to purchase at higher costs emission credits, new equipment or raw materials with lower carbon footprints. These developments and further legislation that is likely to be enacted could negatively affect our operations. Changes in environmental regulations, such as those on the use of perfluorinated compounds, could increase our production costs, which could adversely affect our results of operation and financial condition.

In addition, more frequent droughts and floods, extreme weather conditions and rising sea levels could occur due to climate change. The impact of such changes could be significant as most of our factories are located in islands including Taiwan, Singapore, Korea and Malaysia. For example, transportation suspension caused by extreme weather conditions could harm the distribution of our products. Similarly, our operations depend upon adequate supplies of water, and extended or serious droughts may affect our ability to obtain adequate supplies of water and threaten our production. We cannot predict the economic impact, if any, of disasters or climate change.

Furthermore, increasing climate change and environmental concerns could affect the results of our operations if any of our customers request that we exceed any standards set for environmentally compliant products and services, or if raw materials and/or products are required to meet strict inspection standards with respect to any radioactive contamination as a result of concerns arising from radiation leaking incidents, such as the radiation leak occurred in March 2011 in Japan. If we are unable to offer products that are in compliance with relevant environmental standards, or such products become less reliable due to the lack of reasonably available alternative technologies, it may harm our results of operations.

We may be subject to intellectual property rights disputes, which could materially adversely affect our business.

Our ability to compete successfully and achieve future growth depends, in part, on our ability to develop and protect our proprietary technologies and to secure on commercially acceptable terms certain technologies that we do not own. We cannot assure you that we will be able to independently develop, obtain patents for, protect or secure from any third party, the technologies required. Our failure to successfully obtain such technology may seriously harm our competitive position.

Our ability to compete successfully also depends, in part, on our ability to operate without infringing the proprietary rights of others. We have no means of knowing what patent applications have been filed in the United States or elsewhere until they are granted or published. In particular, the semiconductor and electronics industries are characterized by frequent litigation regarding patent and other intellectual property rights. It is common for patent owners to assert their patents against semiconductor manufacturers. We have received from time to time communication from third parties asserting patents that cover certain of our technologies and alleging infringement of intellectual property rights of others, and we may continue receiving such communication in the future. In the event that any third party makes a valid claim against us or against our customers, we could be required to:

seek to acquire licenses to the infringed technology which may not be available on commercially reasonable terms, if at all;

D-1-20

Table of Contents

·discontinue using certain process technologies, which could cause us to stop manufacturing certain semiconductors;

· pay substantial monetary damages; and/or

· seek to develop non-infringing technologies, which may not be feasible.

Any one of these developments could place substantial financial and administrative burden on us and hinder our business. In February 2006, Tessera filed a suit against us and others alleging patent infringement. In February 2014, ASE Inc. and our U.S. subsidiary, ASE (U.S.) Inc. reached a term sheet agreement with Tessera to fully resolve the remaining legal proceedings between each other, under which we would pay a total of US\$30.0 million to Tessera (which was fully recognized by us in the fourth quarter of 2013) and both Tessera and we would dismiss all pending claims against each other. The final settlement agreement was entered into among the parties in October 2014 and the final settlement amount was reduced to US\$27.0 million. In October 2014, the United States District Court for the Northern District of California dismissed all claims between Tessera and us. We have fully paid the settlement amount in January 2015 and reversed the settlement amount of US\$3.0 million in the fourth quarter of 2014.

Any litigation, whether as plaintiff or defendant and regardless of the outcome, is costly and diverts company resources. Any of the foregoing could harm our competitive position and render us unable to provide some of our services operations.

Our major shareholders may take actions that are not in, or may conflict with, our public shareholders' best interest.

Members of the Chang family own, directly or indirectly, a significant interest in our outstanding common shares. See "Item 7. Major Shareholders and Related Party Transactions—Major Shareholders." Accordingly, these shareholders will continue to have the ability to exercise a significant influence over our business, including matters relating to:

· our management and policies;

· the timing and distribution of dividends; and

· the election of our directors.

Members of the Chang family may take actions that you may not agree with or that are not in our or our public shareholders' best interests.

We are an ROC company and, because the rights of shareholders under ROC law differ from those under U.S. law and the laws of certain other countries, you may have difficulty protecting your shareholder rights.

Our corporate affairs are governed by our Articles of Incorporation and by the laws governing corporations incorporated in the ROC. The rights of shareholders and the responsibilities of management and the members of the board of directors under ROC law are different from those applicable to a corporation incorporated in the United States and certain other countries. As a result, public shareholders of ROC companies may have more difficulty in protecting their interests in connection with actions taken by management or members of the board of directors than they would as public shareholders of a corporation in the United States or certain other countries.

We have made investments in, and are exploring the possibility of expanding our businesses and operations to, or making additional investments in, the PRC, which may expose us to additional political, regulatory, economic and foreign investment risks.

We currently maintain packaging and testing facilities and electronic manufacturing services sites in the PRC. We also made substantial investments in PRC real estate development through our subsidiaries in the PRC. Under PRC laws and regulations, foreign investment projects, such as our subsidiaries, must obtain certain approvals from the relevant governmental authorities in the provinces or special economic zones in which they are located and, in some circumstances, from the relevant authorities in the PRC's central government. Foreign investment projects must also comply with certain regulatory requirements. However, PRC laws and regulations are often subject to varying interpretations and means of enforcement, and additional approvals from the relevant governmental authorities may be required for the operations of our PRC subsidiaries. If required, we cannot assure you that we will be able to obtain these approvals in a timely manner, if at all. Because the PRC government holds significant discretion in determining matters relating to foreign investment, we cannot assure you that the relevant governmental authorities will not take action that is materially adverse to our PRC operations.

D-1-21

Table of Contents

In addition, the PRC stock market is subject to extreme price and volume fluctuations. We are the controlling shareholder of Universal Scientific Shanghai, which is an entity currently listed on the Shanghai Stock Exchange. The PRC securities markets have recently experienced, and may experience in the future, significant price declines and volatility. Any volatility may have a significant effect on Universal Scientific Shanghai's share price and may indirectly affect the market price of our common shares and ADSs.

Our global manufacturing and sales activities subject us to risks associated with legal, political, economic or other conditions or developments in various jurisdictions, including in particular the ROC and the PRC, which could negatively affect our business and financial status and therefore the market value of your investment.

Our principal executive office and our principal production facilities are located in the ROC, and a substantial majority of our net revenues are derived from our operations in the ROC and the PRC. In addition, we have operations worldwide and a significant percentage of our revenue comes from sales to locations outside the ROC or the PRC. Operating in the ROC, PRC and other overseas locations exposes us to changes in policies and laws, as well as the general political and economic conditions, security risks, health conditions and possible disruptions in transportation networks, in the various countries in which we operate, which could result in an adverse effect on our business operations in such countries. If any of our global operations are affected by the legal, political, economic or other conditions in the jurisdiction we operate, our results of operations as well as market price and the liquidity of our ADSs and common shares may be materially and adversely affected.

Any impairment charges may have a material adverse effect on our net income.

Under IFRS, we are required to evaluate our assets, such as equipment, goodwill and investments, for possible impairment at least annually or whenever there is an indication of impairment. If certain criteria are met, we are required to record an impairment charge.

With respect to assets, we recognized impairment charges of NT\$308.1 million, NT\$258.1 million and NT\$888.2 million (US\$27.4 million) in 2014, 2015 and 2016, respectively, primarily as a result of an impairment charge related to buildings and improvement, and impaired equipment and investment. See "Item 5. Operating and Financial Review and Prospects—Operating Results and Trend Information—Critical Accounting Policies and Estimates—Impairment of Tangible and Intangible Assets Other Than Goodwill," "Item 5. Operating and Financial Review and Prospects—Operating Results and Trend Information—Critical Accounting Policies and Estimates—Valuation of Investments" and "Item 5. Operating and Financial Review and Prospects—Operating Results and Trend Information—Critical Accounting Policies and Estimates—Goodwill."

We are unable to estimate the extent and timing of any impairment charges for future years and we cannot give any assurance that impairment charges will not be required in periods subsequent to December 31, 2016. Any impairment charge could have a material adverse effect on our net income. The determination of an impairment charge at any given time is based significantly on our expected results of operations over a number of years in the future. As a result, an impairment charge is more likely to occur during a period in which our operating results and outlook are otherwise already depressed.

Provisions of our outstanding convertible bonds could discourage an acquisition of us by a third party.

In September 2013, we completed the offering of the 2018 Convertible Bonds, and in July 2015, we completed the offering of the 2018 NTD-linked Convertible Bonds. Certain provisions of our convertible bonds could make it more difficult or more expensive for a third party to acquire us. In the event that (1) our common shares cease to be listed on the TWSE; (2) any person or persons acting together acquire control of us if such person or persons do not have, and would not be deemed to have, control of us as of a specified date; (3) we consolidate with or merge into or sell or transfer all or substantially all of our assets to any other person, unless the consolidation, merger, sale or transfer will not result in the other person or persons acquiring control over us or the successor entity; or (4) one or more other persons acquire the legal or beneficial ownership of all or substantially all of our capital stock, holders of these bonds shall have the right to require us to repurchase all or any portion of the principal amount thereof (which is US\$200,000 or any integral multiples thereof) of such holder's bonds. "Control" means the right to appoint and/or remove all or the majority of the members of our board of directors or other governing body, whether obtained directly or indirectly, and whether obtained by ownership of share capital, the possession of voting rights, contract or otherwise. However, a "change of control" will not be deemed to have occurred (i) solely as a result of the issuance or transfer, with the Company's corporation, of any preferred shares in the Company's capital or (ii) if the closing price per common share for any five trading days within the period of 10 consecutive trading days ending immediately after the later of the change of control or the public announcement of the change of control equals or exceeds 110% of the conversion price in effect on each of those five trading days.

D-1-22

Table of Contents

The accounting treatment for our outstanding convertible bonds, including the treatment for conversion option, redemption option and put option embedded in our outstanding convertible bonds, could have a material effect on our reported financial results.

In September 2013, we completed the offering of the 2018 Convertible Bonds. Since the 2018 Convertible Bonds are denominated in U.S. dollars, which is different from our functional currency under IFRS, we separated the conversion option, redemption option and put option embedded in 2018 Convertible Bonds (collectively, the “Bond Options”) and recognized them as a freestanding derivative at fair value through profit or loss. To determine the fair value of the Bond Options of the 2018 Convertible Bonds, we are subject to a mark-to-market accounting on the Bond Options embedded in the 2018 Convertible Bonds. As a result, if the fair value of our common shares rises, mark to market of the Bond Options would lead to losses in our financial statements. For each reporting period over the term of the convertible bonds, a gain (or loss) will be reported in our consolidated statement of comprehensive income to the extent the fair value of the Bond Options changes from the previous period. Changes in fair value of the Bond Options generated a loss for NT\$777.6 million, NT\$112.0 million and a gain for NT\$1,418.7 million (US\$43.8 million) in 2014, 2015 and 2016, respectively. See note 19 to our audited consolidated financial statements included in this annual report.

Any failure to achieve and maintain effective internal controls could have a material adverse effect on our business and results of operations.

We are subject to reporting obligations under the U.S. securities laws. The SEC as required by Section 404 of the Sarbanes-Oxley Act of 2002 adopted rules requiring every public company to include a management report on the effectiveness of such company’s internal control over financial reporting in its annual report. In addition, an independent registered public accounting firm must report on such company’s internal control over financial reporting.

Our management concluded that our internal control over financial reporting was effective as of December 31, 2016 and our independent registered public accounting firm has issued an attestation report concluding that our internal control over financial reporting was effective in all material aspects. As effective internal control over financial reporting is necessary for us to produce reliable financial reports and is important to help prevent fraud, any failure to maintain effective internal control over financial reporting could harm our business and result in a loss of investor confidence in the reliability of our financial statements, which in turn could negatively impact the trading price of our common shares and ADSs. Furthermore, we may need to incur additional costs and use additional management and other resources in an effort to comply with Section 404 of the Sarbanes-Oxley Act and other requirements going forward.

We could potentially face tax uncertainties arising from the decisions, activities, and operations undertaken by us.

There are many business activities that may give rise to tax issues in our daily operations, ranging from procurement, research and development activities, manufacturing to product storage and distribution, among other activities. Additional tax liabilities such as double taxation, inapplicability of tax incentives, tax adjustment and related interest and penalties may arise if all these tax issues are not dealt with properly. The development and evolution of tax laws and regulations present considerable uncertainties in interpretation and enforcement, which could call for more onerous compliance measures and tax audits in the jurisdictions in which we operate. Failure to comply with any change in tax laws could result in unfavorable tax consequences to us and have an adverse impact on our business, financial condition and results of operations.

D-1-23

Table of Contents

Risks Relating to Taiwan, ROC

Strained relations between the ROC and the PRC and disruptions in Taiwan's political environment caused by domestic political events could negatively affect our business and the market value of your investment.

Our principal executive offices and our principal facilities are located in Taiwan and approximately 52.1%, 46.9% and 48.6% of our operating revenues in 2014, 2015 and 2016, respectively, were derived from our operations in Taiwan. Accordingly, our business and financial condition may be affected by changes in local governmental policies and political and social instability.

The ROC has a unique international political status. The government of the PRC asserts sovereignty over all of China, including Taiwan, and does not recognize the legitimacy of the ROC government. Although significant economic and cultural relations have been established in recent years between the ROC and the PRC, relations have often been strained. Any major change in the Taiwanese political environment, including the outcome of presidential or municipal elections, or potential shifts in government policy, may affect the direction of economic and political developments and negatively impact the economic and political environment in Taiwan. Past developments related to the interaction between the ROC and the PRC, domestic political events or election results have on occasion depressed the market prices of the securities of Taiwanese or Taiwan-related companies, including our own. Relations between the ROC and the PRC and other factors affecting the political or economic conditions in Taiwan could have a material adverse effect on our financial condition and results of operations, as well as the market price and the liquidity of our common shares and ADSs.

Currently, we manufacture interconnect materials in the PRC through our wholly owned subsidiary, ASE Shanghai. We also provide packaging and testing services in the PRC through some of our subsidiaries. In addition, we engage in the PRC in real estate development and the manufacture of computer peripherals and electronic components through our subsidiaries in the PRC. See "Item 4. Information on the Company—Organizational Structure—Our Consolidated Subsidiaries." In the past, ROC companies, including ourselves, were prohibited from investing in facilities for the packaging and testing of semiconductors in the PRC. Although the prohibitions have been relaxed since February 2010, the ROC government currently still restricts certain types of investments by ROC companies, including ourselves, in the PRC. We do not know when or if such laws and policies governing investment in the PRC will be amended, and we cannot assure you that such ROC investment laws and policies will permit us to make further investments of certain types in the PRC in the future that we consider beneficial to us. Our growth prospects and profitability may be adversely affected if we are restricted from making certain additional investments in the PRC and are not able to fully capitalize on the growth of the semiconductor industry in the PRC.

As a substantial portion of our business and operations is located in Taiwan, we are vulnerable to earthquakes, typhoons, drought and other natural disasters, as well as power outages and other industrial incidents, which could

severely disrupt the normal operation of our business and adversely affect our results of operations.

Taiwan is susceptible to earthquakes and has experienced severe earthquakes which caused significant property damage and loss of life, particularly in the central and eastern parts of Taiwan. Earthquakes have damaged production facilities and adversely affected the operations of many companies involved in the semiconductor and other industries. For example, in February 2016, an earthquake measuring 6.4 on the Richter magnitude scale occurred in Kaohsiung caused several death and property damages. However, the earthquake did not have a material impact on our operations. We have never experienced structural damage to our facilities or damage to our machinery and equipment as a result of these earthquakes. In the past, however, we have experienced interruptions to our production schedule primarily as a result of power outages caused by earthquakes.

Taiwan is also susceptible to typhoons, which may cause damage and business interruptions to companies with facilities located in Taiwan. For example, on September 14, 2016, Taiwan experienced severe damage from typhoon Meranti that caused severe flooding, extensive property damage and loss of electricity for thousands of households. Taiwan has experienced severe droughts in the past. Although we have not been directly affected by droughts, we are dependent upon water for our packaging and substrates operations and a drought could interrupt such operations. In addition, a drought could interrupt the manufacturing process of the foundries located in Taiwan, in turn disrupting some of our customers' production, which could result in a decline in the demand for our services. In addition, the supply of electrical power in Taiwan, which is primarily provided by Taiwan Power Company, the state-owned electric utility, is susceptible to disruption that could be prolonged and frequent, caused by overload as a result of high demand or other reasons.

D-1-24

Table of Contents

Kaohsiung is one of the major industrial cities in Taiwan. Our testing and packaging businesses have been founded in Kaohsiung and currently our primary testing and packaging operations are located in Kaohsiung. In July 2014, following leaks from underground propene pipes, a series of propene pipeline explosions occurred in the Cian-Jhen and Ling-Ya districts of Kaohsiung. 32 people were killed and 321 others were injured from this incident. Although we have not been directly affected by the explosion, future industrial incidents could negatively affect our operation and result in interruption or delay of our operation or production capacity.

Our production facilities as well as many of our suppliers and customers and providers of complementary semiconductor manufacturing services, including wafer foundries, are located in Taiwan. If our customers are affected by an earthquake, a typhoon, a drought or any other natural disasters, or power outage or other industrial incidents, it could result in a decline in the demand for our services. If our suppliers or providers of complementary semiconductor manufacturing services are affected, our production schedule could be interrupted or delayed. As a result, a major earthquake, typhoon, drought or other natural disaster in Taiwan, or a power outage or other industrial incident could severely disrupt the normal operation of our business and have a material adverse effect on our financial condition and results of operations.

We face risks related to health epidemics and outbreaks of contagious diseases, including H5N1 influenza, H7N9 influenza, H9N2 influenza, Severe Acute Respiratory Syndrome, or SARS, Middle East Respiratory Syndrome, or MERS, Ebola virus and Zika virus.

There have been reports of outbreaks of a highly pathogenic influenza caused by the H5N1, H7N9 and H9N2 viruses, in certain regions of Asia and other parts of the world. In recent years, Ebola virus disease broke out in West Africa, with a number of people having died of the disease in countries such as Guinea, Sierra Leone and Liberia. There are also cases of patients diagnosed with Ebola in the United States and Europe. In addition, Zika virus disease broke out in the Americas in 2015 and is currently ongoing, infecting people throughout South America, Central America, Mexico and the Caribbean. The disease is strongly linked to cases of microcephaly and Guillain–Barré syndrome in Brazil. An outbreak of such contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries. Additionally, a recurrence of SARS, a highly contagious form of atypical pneumonia, similar to the occurrence in 2003, which affected the PRC, Hong Kong, Taiwan, Singapore, Vietnam and certain other countries, and MERS, a viral respiratory infection which affected South Korea in 2015, would also have similar adverse effects. Since most of our operations and customers and suppliers are based in Asia (mainly in Taiwan and the PRC), an outbreak of H5N1 influenza, H7N9 influenza, H9N2 influenza, SARS, MERS, Ebola, Zika virus or other contagious diseases in Asia or elsewhere, or the perception that such an outbreak could occur, and the measures taken by the governments of countries affected, including the ROC and the PRC, could adversely affect our business, financial condition or results of operations.

Escalation of tensions between South Korea and North Korea could have an adverse effect on our operations in South Korea and the market value of our shares.

Relationship between South Korea and North Korea have been tense throughout Korea's modern history. The level of tension between the two Koreas has fluctuated and may increase abruptly as a result of current and future events. In recent years, there have been heightened security concerns stemming from North Korea's nuclear weapons and ballistic missile programs and increased uncertainty regarding North Korea's actions and possible responses from the international community.

Although we do not derive any revenue from, nor sell any products in, North Korea, any further increase in tensions between South Korea and North Korea that may occur, for example, if North Korea experiences a leadership crisis, high-level contacts between South Korea and North Korea break down, or military hostilities occur, could have a material adverse effect on the South Korea economy and on our South Korea subsidiary, our business, financial condition, results of operations and the market value of our common stock.

Any attempt by the U.S. government to withdraw from or materially modify existing international trade agreements could adversely affect our business, financial condition and results of operations.

The United States is undergoing major political changes, which has created uncertainty regarding future U.S. trade policies. During the election campaign, the then president-elect Trump made comments suggesting that he was not supportive of certain existing international trade agreements. At this time, it remains unclear what the new administration would or would not do with respect to these international trade agreements. However, if the new administration takes action to withdraw from or materially modify these international trade agreements, our business, financial condition and results of operations could be adversely affected.

D-1-25

Table of Contents

Risks Relating to Ownership of Our Common Shares and the ADSs

The market for our common shares and the ADSs may not be liquid.

Active, liquid trading markets generally result in lower price volatility and more efficient execution of buy and sell orders for investors, compared to less active and less liquid markets. Liquidity of a securities market is often a function of the volume of the underlying shares that are publicly held by unrelated parties.

There has been no trading market outside the ROC for our common shares and the only trading market for our common shares is the TWSE. The outstanding ADSs are listed on the NYSE. There is no assurance that the market for our common shares or the ADSs will be active or liquid.

Although ADS holders are entitled to withdraw our common shares underlying the ADSs from the depositary at any time, ROC law requires that our common shares be held in an account in the ROC or sold for the benefit of the holder on the TWSE. In connection with any withdrawal of common shares from our ADS facility, the ADSs evidencing these common shares will be cancelled. Unless additional ADSs are issued, the effect of withdrawals will be to reduce the number of outstanding ADSs. If a significant number of withdrawals are effected, the liquidity of our ADSs will be substantially reduced. We cannot assure you that the ADS depositary will be able to arrange for a sale of deposited shares in a timely manner or at a specified price, particularly during periods of illiquidity or volatility.

If a non-ROC holder of ADSs withdraws and holds common shares, such holder of ADSs will be required to appoint a tax guarantor, local agent and custodian in the ROC and register with the TWSE or the Taipei Exchange in order to buy and sell securities on the TWSE.

When a non-ROC holder of ADSs elects to withdraw and hold common shares represented by ADSs, such holder of the ADSs will be required to appoint an agent for filing tax returns and making tax payments in the ROC. Such agent will be required to meet the qualifications set by the ROC Ministry of Finance and, upon appointment, becomes the guarantor of the withdrawing holder's tax payment obligations. Evidence of the appointment of a tax guarantor, the approval of such appointment by the ROC tax authorities and tax clearance certificates or evidentiary documents issued by such tax guarantor may be required as conditions to such holder repatriating the profits derived from the sale of common shares. We cannot assure you that a withdrawing holder will be able to appoint, and obtain approval for, a tax guarantor in a timely manner.

In addition, under current ROC law, such withdrawing holder is required to register with the TWSE or the Taipei Exchange and appoint a local agent in the ROC to, among other things, open a bank account and open a securities trading account with a local securities brokerage firm, pay taxes, remit funds and exercise such holder's rights as a shareholder. Furthermore, such withdrawing holder must appoint a local bank or a local securities firm to act as custodian for confirmation and settlement of trades, safekeeping of securities and cash proceeds and reporting and declaration of information. Without satisfying these requirements, non-ROC withdrawing holders of ADSs would not be able to hold or otherwise subsequently sell our common shares on the TWSE or otherwise.

Pursuant to Mainland Investors Regulations, only QDIIs or persons that have otherwise obtained the approval from the MOEAIC and registered with the TWSE are permitted to withdraw and hold our shares from a depositary receipt facility. In order to hold our shares, such QDIIs are required to appoint an agent and custodian as required by the Mainland Investors Regulations. If the aggregate amount of our shares held by any QDII or shares received by any QDII upon a single withdrawal or in the aggregate accounts for 10.0% of our total issued and outstanding shares, such QDII must obtain the prior approval from the MOEAIC. We cannot assure you that such approval would be granted.

The market value of your investment may fluctuate due to the volatility of the ROC securities market.

The trading price of our ADSs may be affected by the trading price of our common shares on the TWSE. The ROC securities market is smaller and more volatile than the securities markets in the United States and in many European countries. The TWSE has experienced substantial fluctuations in the prices and volumes of sales of listed

D-1-26

Table of Contents

securities and there are currently limits on the range of daily price movements on the TWSE. The TWSE Index peaked at 12,495.3 in February 1990, and subsequently fell to a low of 2,560.5 in October 1990. On March 13, 2000, the Taiwan Stock Exchange Index experienced a 617-point drop, which represented the single largest decrease in the Taiwan Stock Exchange Index in its history. During the period from January 1, 2016 to December 31, 2016, the Taiwan Stock Exchange Index peaked at 9,392.68 on December 9, 2016, and reached a low of 7,664.01 on January 21, 2016. Over the same period, the trading price of our common shares ranged from NT\$39.90 per share to NT\$28.10 per share. On April 14, 2017, the Taiwan Stock Exchange Index closed at 9,732.93, and the closing value of our common shares was NT\$37.85 per share.

The TWSE is particularly volatile during times of political instability, including when relations between Taiwan and the PRC are strained. Several investment funds affiliated with the ROC government have also from time to time purchased securities from the TWSE to support the trading level of the TWSE. Moreover, the TWSE has experienced problems such as market manipulation, insider trading and settlement defaults. The recurrence of these or similar problems could have an adverse effect on the market price and liquidity of the securities of ROC companies, including our common shares and ADSs, in both the domestic and international markets.

Holders of common shares and ADSs may experience dilution if we issue stock bonuses and stock options to employees or sell additional equity or equity-linked securities.

Similar to other ROC technology companies, we issue bonuses from time to time in the form of common shares. Prior to 2009, bonuses issued in the form of our common shares were valued at par. Beginning in 2009, bonuses in the form of our common shares are valued at the closing price of our common shares on the day prior to our shareholders' meeting. In addition, under the ROC Company Law we may, upon approval from our board of directors and the ROC Securities and Futures Bureau of the FSC, establish employee stock option plans provided that shareholders' approval is required if the exercise price of an option would be less than the closing price of our common shares on the TWSE on the grant date of the option. ASE Inc. currently maintains three employee stock option plans pursuant to which our full-time employees, including our domestic and foreign subsidiaries, are eligible to receive stock option grants. As of December 31, 2016, 210,794,600 options granted by ASE Inc. were outstanding. Our board of directors and the FSC approved the 5th employee share option plans in December 2014 and April 2015, respectively, under which 94,270,000 options were granted in September 2015. See "Item 6. Directors, Senior Management and Employees—Compensation—ASE Inc. Employee Bonus and Stock Option Plans." The issuance of our common shares pursuant to stock bonuses or stock options may have a dilutive effect on the holders of outstanding common shares and ADSs.

In addition, the sale of additional equity or equity-linked securities may result in additional dilution to our shareholders. In September 2013, we issued 2018 Convertible Bonds to fund procurement of raw materials from overseas. The bonds are convertible by holders at any time on or after October 16, 2013 and up to (and including) August 26, 2018. As of December 31, 2016, none of the bonds has been converted into our common shares, and the balance of the outstanding bonds was US\$400.0 million. The initial conversion price was NT\$33.085 per common

share, subject to adjustment upon the occurrence of certain events, such as the Capital Increase and cash dividend distribution. As of the date of this annual report, the conversion price is NT\$28.96 per common share. Upon full conversion, the outstanding bonds will be converted into 413,756,906 common shares if based on the current conversion price, representing 5.2% of our outstanding shares at the end of December 31, 2016. Any conversion of bonds, in full or in part, would dilute the ownership interest of our existing shareholders and our earnings per share and could adversely affect the market price of our ADSs. Moreover, in September 2013, we issued 130,000,000 common shares for public subscription, which was effected by way of an increase in our authorized share capital in the amount of NT\$1,300.0 million. The issuance of the zero coupon convertible bonds due 2018 and the Capital Increase could cause dilution to our ADS holders.

Restrictions on the ability to deposit our common shares into our ADS facility may adversely affect the liquidity and price of our ADSs.

The ability to deposit common shares into our ADS facility is restricted by ROC law. A significant number of withdrawals of common shares underlying our ADSs would reduce the liquidity of the ADSs by reducing the number of ADSs outstanding. As a result, the prevailing market price of our ADSs may differ from the prevailing market price of our common shares on the TWSE. Under current ROC law, no person or entity, including you and us, may deposit our common shares in our ADS facility without specific approval of the FSC, unless:

D-1-27

Table of Contents

- (1) we pay stock dividends on our common shares;
- (2) we make a free distribution of common shares;
- (3) holders of ADSs exercise preemptive rights in the event of capital increases; or

(4) to the extent permitted under the deposit agreement and the relevant custody agreement, investors purchase our common shares, directly or through the depositary, on the TWSE, and deliver our common shares to the custodian for deposit into our ADS facility, or our existing shareholders deliver our common shares to the custodian for deposit into our ADS facility.

With respect to item (4) above, the depositary may issue ADSs against the deposit of those common shares only if the total number of ADSs outstanding following the deposit will not exceed the number of ADSs previously approved by the FSC, plus any ADSs issued pursuant to the events described in items (1), (2) and (3) above.

In addition, in the case of a deposit of our common shares requested under item (4) above, the depositary will refuse to accept deposit of our common shares if such deposit is not permitted under any legal, regulatory or other restrictions notified by us to the depositary from time to time, which restrictions may include blackout periods during which deposits may not be made, minimum and maximum amounts and frequency of deposits.

The depositary will not offer holders of ADSs preemptive rights unless the distribution of both the rights and the underlying common shares to our ADS holders are either registered under the Securities Act or exempt from registration under the Securities Act.

Holders of ADSs will not have the same voting rights as our shareholders, which may affect the value of their ADSs.

The voting rights of a holder of ADSs as to our common shares represented by its ADSs are governed by the deposit agreement. Holders of ADSs will not be able to exercise voting rights on an individual basis. If holders representing at least 51% of the ADSs outstanding at the relevant record date instruct the depositary to vote in the same manner regarding a resolution, including the election of directors, the depositary will cause all common shares represented by the ADSs to be voted in that manner. If the depositary does not receive timely instructions representing at least 51% of the ADSs outstanding at the relevant record date to vote in the same manner for any resolution, including the election of directors, holders of ADSs will be deemed to have instructed the depositary or its nominee to authorize all our common shares represented by the ADSs to be voted at the discretion of our chairman or his designee, which may not be in the interest of holders of ADSs. Moreover, while shareholders who own 1% or more of our outstanding shares

are entitled to submit one proposal to be considered at our annual general meetings of shareholders, only holders representing at least 51% of our ADSs outstanding at the relevant record date are entitled to submit one proposal to be considered at our annual general meetings of shareholders. Hence, only one proposal may be submitted on behalf of all ADS holders.

The right of holders of ADSs to participate in our rights offerings is limited, which could cause dilution to your holdings.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. Under the deposit agreement, the depositary will not offer holders of ADSs those rights unless both the distribution of the rights and the underlying securities to all our ADS holders are either registered under the Securities Act or exempt from registration under the Securities Act. Although we may be eligible to take advantage of certain exemptions under the Securities Act available to certain foreign issuers for rights offerings, we can give no assurances that we will be able to establish an exemption from registration under the Securities Act, and we are under no obligation to file a registration statement for any of these rights. Accordingly, holders of ADSs may be unable to participate in our rights offerings and may experience dilution of their holdings.

If the depositary is unable to sell rights that are not exercised or not distributed or if the sale is not lawful or reasonably practicable, it will allow the rights to lapse, in which case holders of ADSs will receive no value for these rights.

For example, in March 2017, we granted rights to the record holders of our existing common shares to subscribe for an aggregate of 240,000,000 of our common shares (the “New Shares”), while the holders of ADSs were not given rights to subscribe for new ADSs and do not have the right to instruct the depositary to subscribe for the New Shares on their behalf. If a holder of ADSs wants the rights corresponding to the common shares underlying such ADSs to be exercised, such holder needs to surrender the ADSs to the depositary and instruct the depositary to deliver the underlying common shares to a securities brokerage account in Taiwan specified by such holder.

D-1-28

Table of Contents

Changes in exchange controls, which restrict your ability to convert proceeds received from your ownership of ADSs, may have an adverse effect on the value of your investment.

Under current ROC law, the depositary, without obtaining approvals from the Central Bank of the Republic of China (Taiwan) or any other governmental authority or agency of the ROC, may convert NT dollars into other currencies, including U.S. dollars, for:

the proceeds of the sale of common shares represented by ADSs or received as stock dividends from our common shares and deposited into the depositary receipt facility; and

any cash dividends or distributions received from our common shares.

In addition, the depositary may also convert into NT dollars incoming payments for purchases of common shares for deposit in the ADS facility against the creation of additional ADSs. The depositary may be required to obtain foreign exchange approval from the Central Bank of the Republic of China (Taiwan) on a payment-by-payment basis for conversion from NT dollars into foreign currencies of the proceeds from the sale of subscription rights for new common shares. Although it is expected that the Central Bank of the Republic of China (Taiwan) will grant this approval as a routine matter, we cannot assure you that in the future any approval will be obtained in a timely manner, or at all.

Under the ROC Foreign Exchange Control Law, the Executive Yuan of the ROC government may, without prior notice but subject to subsequent legislative approval, impose foreign exchange controls in the event of, among other things, a material change in international economic conditions. We cannot assure you that foreign exchange controls or other restrictions will not be introduced in the future.

The value of your investment may be reduced by possible future sales of common shares or ADSs by us or our shareholders.

While we are not aware of any plans by any major shareholders to dispose of significant numbers of common shares, we cannot assure you that one or more existing shareholders or owners of securities convertible or exchangeable into or exercisable for our common shares or ADSs will not dispose of significant numbers of common shares or ADSs. In addition, several of our subsidiaries and affiliates hold common shares, depositary shares representing common shares and options to purchase common shares or ADSs. They may decide to sell those securities in the future. See “Item 7. Major Shareholders and Related Party Transactions—Major Shareholders” for a description of our significant shareholders and affiliates that hold our common shares.

We cannot predict the effect, if any, that future sales of common shares or ADSs, or the availability of common shares or ADSs for future sale, will have on the market price of our common shares or the ADSs prevailing from time to time. Sales of substantial numbers of common shares or ADSs in the public market, or the perception that such sales may occur, could depress the prevailing market prices of our common shares or the ADSs.

Item 4. Information on the Company

HISTORY AND DEVELOPMENT OF THE COMPANY

Advanced Semiconductor Engineering, Inc. was incorporated on March 23, 1984 as a company limited by shares under the ROC Company Law, with facilities in the Nantze Export Processing Zone located in Kaohsiung, Taiwan. Our principal executive offices are located at 26 Chin Third Road, Nantze Export Processing Zone, Nantze, Kaohsiung, Taiwan, ROC and our telephone number at the above address is (886) 7-361-7131. Our common shares have been listed on the TWSE under the symbol “2311” since July 1989, and ADSs representing our common shares have been listed on the NYSE under the symbol “ASX” since September 2000.

D-1-29

Table of Contents

Acquisition of Common Shares and American Depositary Shares of SPIL

In August 2015, we announced an offer to purchase 779,000,000 common shares (including those represented by American depositary shares) of SPIL through concurrent tender offers in the ROC and the U.S., at a price of NT\$45 per SPIL common share and NT\$225 per SPIL American depositary share. The Initial SPIL Tender Offer expired on September 22, 2015, with 1,147,898,165 common shares (including those represented by American depositary shares) validly tendered and not validly withdrawn, exceeding the offer cap, and as a result, after proration, 725,749,060 SPIL common shares and 10,650,188 SPIL American depositary shares were accepted for purchase. On October 1, 2015, we became a shareholder holding approximately 24.99% of the issued and outstanding share capital in SPIL.

In December 2015, following an announcement by SPIL that it plans to issue 1,033 million shares, if approved by SPIL shareholders, to a third party pursuant to a share placement agreement, we submitted a written proposal to SPIL's Board proposing to acquire all SPIL shares not otherwise owned by ASE, contingent upon the termination of the share placement agreement. The board of directors of SPIL did not respond to our acquisition proposal. Subsequently, we launched an offer to purchase 770,000,000 common shares (including those represented by American depositary shares) of SPIL through concurrent tender offers in the ROC and the U.S., at a price of NT\$55 per SPIL common share and NT\$275 per SPIL American depositary share. The Second SPIL Tender Offer expired on March 17, 2016. Because the TFTC did not render a decision before the expiration of the Second SPIL Tender Offer, resulting in the failure to satisfy one of the tender offer conditions, the Second SPIL Tender Offer was not successful. The TFTC subsequently suspended its review on March 23, 2016.

Notwithstanding the failure of the Second SPIL Tender Offer, we continued to seek control of SPIL, with the purpose of effecting an acquisition of 100% of the common shares and American depositary shares of SPIL. Simultaneously with the acquisition of SPIL, we planned to establish a holding company in Taiwan that would hold 100% of the equity interests of both ASE and SPIL such that ASE and SPIL would be wholly owned subsidiaries of such holding company, which would maintain all current operations of ASE and SPIL in Taiwan.

In March and April 2016, we acquired an additional 258,300,000 common shares of SPIL (including those represented by American depositary shares) through open market purchases.

In June 2016, we entered into the Joint Share Exchange Agreement with SPIL, pursuant to which a holding company, ASE Holding will be formed by means of a statutory share exchange pursuant to the laws of the Republic of China, and ASE Holding will (i) acquire all issued shares of ASE in exchange for shares of ASE Holding, and (ii) acquire all issued shares of SPIL using cash consideration (the "Share Exchange"). Upon the consummation of the Share Exchange, ASE and SPIL will become privately held and wholly owned subsidiaries of ASE Holding concurrently. Subject to the Share Exchange, the Joint Share Exchange Agreement and the other transactions contemplated thereby being approved by shareholders of ASE and SPIL, and upon the satisfaction of the other conditions for completing the Share

Exchange, ASE Holding will be formed. The common shares of ASE will be delisted from the TWSE and the ADSs will be delisted from NYSE and will become eligible for deregistration under the Exchange Act. The common shares of ASE Holding will be listed on the TWSE and begin trading in Taiwan during TWSE trading hours on the effective date of the Share Exchange (the “Effective Date”), and the ADSs of ASE Holding will be listed on the NYSE and begin trading in the U.S. during NYSE trading hours on the Effective Date.

Since the description of the attributes of common shares in the share capital provisions of the Articles of Incorporation of ASE and ASE Holding will be substantially similar, there are no material differences between the rights of holders of the common shares of ASE and ASE Holding from a legal perspective. However, the common shares and ADSs of ASE will be suspended from trading on the TWSE and NYSE, respectively, starting from the eighth ROC Trading Day before the Effective Date. The holders of the common shares and ADSs of ASE will not be able to trade those shares or ADSs, or the common shares and ADSs of ASE Holding they will be entitled to receive from the date of such suspension to the Effective Date. Accordingly, these holders will be subject to the risk of not being able to liquidate their shares during this trading gap period.

As of March 31, 2017, SPIL had an aggregate of 3,116,361,139 common shares, including 187,275,560 common shares represented by American depositary shares, issued and outstanding, and we beneficially owned 988,847,740 common shares and 9,690,452 American depositary shares of SPIL. There were no public takeover offers by third parties of ASE’s shares which occurred in 2016.

D-1-30

Table of Contents

USI Group Restructuring

In April 2015, our subsidiary Universal Scientific completed a spin-off of its subsidiaries to USI Inc. As a result of such spin-off, as of April 1, 2015, ASE Inc. held approximately 99.01% of Universal Scientific and approximately 99.17% of USI Inc.

Universal Scientific, USI Inc. and USI Inc.'s directly and indirectly held subsidiaries (collectively, the "USI Group") primarily engage in electronic manufacturing services in relation to computers, consumer electronics, communications, industrial and automotive, among other services and businesses. As part of our corporate reorganization to align each business function to different legal entity groups, the board of directors of ASE Inc. passed a resolution on September 24, 2015 and approved the sale of all ASE Inc.'s shareholding in Universal Scientific to UGTW, an indirectly held subsidiary of USI Inc., which will result in USI Inc. indirectly holding Universal Scientific (the "Universal Scientific Share Transfer"). The Universal Scientific Share Transfer was approved by the Investment Commission of MOEA on February 3, 2016. The majority of ASE Inc.'s shares in Universal Scientific were transferred to UGTW in March 2016, and the remaining shares were transferred in May 2016.

Capital Expenditures

Our principal capital expenditures for the years ended December 31, 2014, 2015 and 2016 have been for machinery and equipment procurements and investments in buildings and improvement in connection with the expansion of our capacity expansion, for which we spent NT\$43,448.6 million, NT\$28,280.8 million and NT\$27,680.9 million (US\$854.3 million), respectively. We had commitments for capital expenditures of approximately US\$204.7 million, of which US\$20.6 million had been paid as of December 31, 2016, mainly in connection with the expansion of our packaging and testing services operations primarily in the ROC and the PRC. Any future expansion of our operating activities could result in additional capital expenditures. We anticipate our capital expenditures in 2017 will be financed through our existing cash, marketable securities, expected cash flow from operations and existing credit lines under our loan facilities and will consist of, among other things, additional machinery and equipment procurements for our capacity expansions. See "Item 5. Operating and Financial Review and Prospects—Liquidity and Capital Resources" for more information. Other than the acquisition of common shares and American depositary shares of SPIL by way of the Initial SPIL Tender Offer, the Share Exchange and through open market purchases, there were no significant financial investments or divestitures in 2014, 2015 and 2016. See "Item 4. Information on the Company—History and Development of the Company—Acquisition of Common Shares and American Depositary Shares of SPIL" for information.

For more information on our history and development, see "—Organizational Structure."

BUSINESS OVERVIEW

ASE is among the world's leading companies in semiconductor packaging and testing sector. Our services include semiconductor packaging, production of interconnect materials, front-end engineering testing, wafer probing and final testing services, as well as integrated solutions for electronic manufacturing services in relation to computers, peripherals, communications, industrial, automotive, and storage and server applications. We believe that, as a result of the following strengths, we are able to compete effectively to meet customers' requirements across a wide range of end-use applications:

- our ability to provide a broad range of cost-effective semiconductor packaging and testing services on a large-scale turnkey basis within key centers of semiconductor manufacturing;

- our expertise in developing and providing cost-effective packaging, interconnect materials and testing technologies and solutions;

- our ability to provide proactive original design manufacturing services using innovative solution-based designs;

- our commitment to investing in capacity expansion and research and development, as well as selective acquisitions, that will benefit customers and our business;

- our geographic presence in key centers of outsourced semiconductor and electronics manufacturing; and

D-1-31

Table of Contents

our long-term relationships with providers of complementary semiconductor manufacturing services, including our strategic alliance with TSMC, one of the world's largest dedicated semiconductor foundries.

We believe that it is still the trend for semiconductor companies to outsource their packaging, testing and manufacturing requirements as semiconductor companies rely on independent providers of foundry, packaging and testing and electronic manufacturing services. In response to the increased pace of new product development and shortened product life and production cycles, semiconductor companies are increasingly seeking both independent packaging and testing companies that can provide turnkey services in order to reduce time-to-market and electronic manufacturing companies with proactive original design capabilities that can provide large-scale production. We believe that our technological expertise and scale and our ability to integrate our broad range of solutions into turnkey services and electronic manufacturing services allow us to benefit from the accelerated outsourcing trend and better serve our existing and potential customers.

We believe that we have benefited, and will continue to benefit, from our geographic location in Taiwan. Taiwan is currently the largest center for outsourced semiconductor manufacturing in the world and has a high concentration of electronic manufacturing service providers. Our close proximity to foundries and other providers of complementary semiconductor manufacturing services is attractive to our customers who wish to take advantage of the efficiencies of a total semiconductor manufacturing solution by outsourcing several stages of their manufacturing requirements. We believe that, as a result, we are well positioned to meet the advanced semiconductor engineering and manufacturing requirements of our customers.

Industry Background

General

Semiconductors are the basic building blocks used to create an increasing variety of electronic products and systems. Continuous improvements in semiconductor process and design technologies have led to smaller, more complex and more reliable semiconductors at a lower cost per function. These improvements have resulted in significant performance and price benefits to manufacturers of electronic products. As a result, semiconductor demand has grown substantially in our primary end-user markets for communications, computing and consumer electronics, and has experienced increased growth in other markets such as automotive products and industrial automation and control systems.

The semiconductor industry is characterized by strong long-term growth, with periodic and sometimes severe cyclical downturns. The Semiconductor Industry Association reported that worldwide sales of semiconductors increased from approximately US\$51.0 billion in 1990 to approximately US\$338.9 billion in 2016. We believe that overall growth

and cyclical fluctuations will continue over the long-term in the semiconductor industry.

Electronic Manufacturing Services

Electronic manufacturing service providers typically achieve large economies of scale in manufacturing by pooling together product design techniques and also provide value-added services such as warranties and repairs. Companies who do not need to manufacture a constant supply of products have increasingly outsourced their manufacturing to these service providers so that they can respond quickly and efficiently to sudden spikes in demand without having to maintain large inventories of products.

Electronic manufacturing services are sought by companies in a wide range of industries including, among others, information, communications, consumer electronics, automotive electronics, medical treatment, industrial applications, aviation, navigation, national defense and transportation. Although affected by global economic fluctuations, we expect the electronic manufacturing services industry to continue to grow in the long-term, and we have enhanced our presence in the industry since 2010 through our acquisition of a controlling interest in Universal Scientific.

Outsourcing Trends in Semiconductor Manufacturing

Historically, semiconductor companies designed, manufactured, packaged and tested semiconductors primarily within their own facilities. However, there is a clear trend in the industry to outsource the manufacturing process. Virtually every significant stage of the manufacturing process can be outsourced. Wafer foundry services, semiconductor packaging and testing services, and electronic manufacturing services are currently the largest segments of the independent semiconductor manufacturing services market.

D-1-32

Table of Contents

The availability of technologically advanced independent manufacturing services has also enabled the growth of “fabless” semiconductor companies that focus on semiconductor design and marketing, while outsourcing their wafer fabrication, packaging and testing requirements to independent companies. We believe that the growth in the number and scale of fabless semiconductor companies that rely solely on independent companies to meet their manufacturing requirements will continue to be a driver of growth for us. Similarly, the availability of technologically advanced independent manufacturing services has encouraged integrated device manufacturers, which traditionally have relied on in-house semiconductor manufacturing capacity, to increasingly outsource their manufacturing requirements to independent semiconductor manufacturing companies.

We believe the outsourcing of semiconductor manufacturing services will increase in the future for many reasons, including the following:

Technological Expertise and Significant Capital Expenditure. Semiconductor manufacturing processes have become highly complex, requiring substantial investment in specialized equipment and facilities and sophisticated engineering and manufacturing expertise. In addition, product life cycles have been shortening, magnifying the need to continuously upgrade or replace manufacturing equipment to accommodate new products. As a result, new investments in in-house facilities are becoming less desirable to integrated device manufacturers because of the high investment costs as well as the inability to achieve sufficient economies of scale and utilization rates necessary to be competitive with the independent service providers. Independent packaging, testing, wafer foundry and electronic manufacturing services companies, on the other hand, are able to realize the benefits of specialization and achieve economies of scale by providing services to a large base of customers across a wide range of products. This enables them to reduce costs and shorten production cycles through high capacity utilization and process expertise. In the process, they are also able to focus on discrete stages of semiconductor manufacturing and deliver services of superior quality.

Some semiconductor companies with in-house operations are under increasing pressure to rationalize these operations by relocating to locations with lower costs or better infrastructure, in order to lower manufacturing costs and shorten production cycle time. We expect semiconductor companies to increasingly outsource their requirements to take advantage of the advanced technology and scale of operations of independent packaging and testing companies and electronic manufacturing services providers.

Focus on Core Competencies. As the semiconductor industry becomes more competitive, semiconductor companies are expected to further outsource their semiconductor manufacturing requirements in order to focus their resources on core competencies, such as semiconductor design and marketing.

Time-to-Market Pressure. The increasingly short product life cycle has accelerated time-to-market pressure for semiconductor companies, leading them to rely increasingly on outsourced suppliers as a key source for effective manufacturing solutions.

Capitalize on the High Growth Rates in Emerging Markets. Emerging markets, and China in particular, have become both major manufacturing centers for the technology industry and growing markets for technology-based products. Thus, in order to gain direct access to the Chinese market, many semiconductor companies are seeking to establish manufacturing facilities in China by partnering with local subcontractors. As a result, certain stages of the semiconductor manufacturing process that were previously handled in-house will be increasingly outsourced in order to improve efficiency.

Trends of Mergers and Acquisitions in the Semiconductor Industry

The global semiconductor industry is highly competitive, and such competitive landscape is changing as a result of a trend toward consolidation within the industry. In particular, packaging and testing service providers in the semiconductor industry have engaged in cross-border mergers and acquisitions in recent years as part of their expansion strategy, which has gradually changed the ecosystem of the semiconductor industry. Examples of mergers and acquisitions in recent years include mergers and acquisitions by and among semiconductor design companies or integrated device manufacturers, including Intel Corporation's acquisition of Altera Corporation, ON Semiconductor Corporation's acquisition of Fairchild Semiconductor International, Inc., NXP Semiconductors N.V.'s acquisition of Freescale Semiconductor, Inc., Avago Technologies Ltd.'s acquisition of Broadcom Corporation and several acquisitions of semiconductor design companies by MediaTek, Inc., and mergers and acquisitions by and among semiconductor packaging and testing companies, including Jiangsu Changjiang Electronics Technology Co., Ltd.'s acquisition of STATS ChipPAC Ltd., Nantong Fujitsu Microelectronics Co., Ltd.'s acquisition of the packaging and testing factory of Advanced Micro Devices, Inc. and Amkor Technology, Inc.'s acquisition of J-Devices Corporation.

Table of Contents

As a result of the aforementioned mergers and acquisitions, our competitors were able to further strengthen their competitive position by expanding their product offerings and combining their financial resources. We expect this consolidation trend to continue in 2017.

Overview of Semiconductor Manufacturing Process

The manufacturing of semiconductors is a complex process that requires increasingly sophisticated engineering and manufacturing expertise. The manufacturing process can be generally divided into the following stages:

We are involved in all stages of the semiconductor manufacturing process except circuit design and wafer fabrication.

Process	Description
1. Circuit Design	The design of a semiconductor is developed by laying out circuit components and interconnections.
2. Engineering Test	Throughout and following the design process, prototype semiconductors undergo engineering testing, which involves software development, electrical design validation and reliability and failure analysis.
3. Wafer Fabrication	Process begins with the generation of a photomask through the definition of the circuit design pattern on a photographic negative, known as a mask, by an electron beam or laser beam writer. These circuit patterns are transferred to the wafers using various advanced processes.

D-1-34

Table of Contents

Process Description

4. Wafer Probe Each individual die is electrically tested, or probed, for defects. Dies that fail this test are marked to be discarded.

5. Packaging (or Assembly) Packaging, also called assembly, is the processing of bare semiconductors into finished semiconductors and serves to protect the die and facilitate electrical connections and heat dissipation. The patterned silicon wafers received from our customers are diced by means of diamond saws into separate dies, also called chips. Basically each die is attached to a leadframe or a laminate (plastic or tape) substrate by epoxy resin. A leadframe is a miniature sheet of metal, generally made of copper and silver alloys, on which the pattern of input/output leads has been cut. On a laminate substrate, typically used in ball grid array, or BGA, packages, the leads take the shape of small bumps or balls. Leads on the leadframe or the substrate are connected by extremely fine gold or copper wires or bumps to the input/output terminals on the chips, through the use of automated machines known as “bonders.” Each chip is then encapsulated, generally in a plastic casing molded from a molding compound, with only the leads protruding from the finished casing, either from the edges of the package as in the case of the leadframe-based packages, or in the form of small bumps on a surface of the package as in the case of BGA or other substrate-based packages.

6. Final Test Final testing is conducted to ensure that the packaged semiconductor meets performance specifications. Final testing involves using sophisticated testing equipment known as testers and customized software to electrically test a number of attributes of packaged semiconductors, including functionality, speed, predicted endurance and power consumption. The final testing of semiconductors is categorized by the functions of the semiconductors tested into logic/mixed-signal/RF/3D IC/discrete final testing and memory final testing. Memory final testing typically requires simpler test software but longer testing time per device tested.

7. Module, Board Assembly and Test Module, board assembly and test refers to the combination of one or more packaged semiconductors with other components in an integrated module or board to enable increased functionality.

8. Material Material refers to the interconnection of materials which connect the input/output on the semiconductor dies to the printed circuit board, such as substrate, leadframe and flip-chip.

Strategy

Our objective is to provide integrated solutions that set industry standards, including packaging, testing services, interconnect materials design and production capabilities, and to lead and facilitate the industry trend toward outsourcing semiconductor manufacturing requirements. The principal elements of our strategy are to:

Table of Contents

Grow Our Packaging Services and Expand Our Range of Offerings

We believe that an important factor to attract leading semiconductor companies as our customers has been our ability to fulfill demand for a broad range of packaging solutions on a large scale. We intend to continue to develop process and product technologies to meet the packaging requirements of clients. Our expertise in packaging technology has enabled us to develop sophisticated solutions such as flip-chip packaging, bump chip carrier packaging, stacked die packaging and fine-pitch wire bonding. We are continuously investing in research and development in response to and in anticipation of migrations in technology and intend to continue to acquire access to new technologies through strategic alliances and licensing arrangements.

The increasing miniaturization of semiconductors and the growing complexity of interconnect technology have also resulted in the convergence of assembly processes at different levels of integration: chip, module, board and system. In response to this miniaturization and growing complexity, we have focused on providing module assembly services and, in addition, our subsidiary Universal Scientific has provided us with access to process and product technologies at the levels of module, board and system assembly and testing, which helps us to better anticipate industry trends and take advantage of potential growth opportunities. We expect to continue to combine our packaging, testing and materials technologies with the expertise of Universal Scientific at the systems level to develop our SiP business.

Strategically Expand and Streamline Production Capacity

To capitalize on the growing demand for packaging and testing services, we intend to strategically expand our production capacity, both through internal growth and selective acquisitions and joint ventures, with a focus on providing cost competitive and innovative packaging and testing services.

We intend to invest in trends that are essential to the development of the industry. We plan to expand our capacity with respect to, but not limited to, 12-inch wafer process, bumping, FC-CSP and SiP products to meet demand for smaller form factors, higher performance and higher packaging density.

In addition, we intend to promote our copper wire solutions to our customers in addition to gold wire. Gold wire is a significant raw material for us. Gold prices, however, are subject to intense fluctuations and have in the past impacted our profitability. We believe that replacing gold wire in some of our packages with copper wire technology will not only improve our profitability but will also enable us to provide more value to our customers by providing lower cost solutions, which could enhance our competitiveness and market share. We are currently the industry leader in terms of copper wire capacity. We thus plan to capitalize on the overall industry trend of copper conversion by maintaining our leadership and focusing on integrating copper wire into a wider range of traditional leadframe-based packages and

higher end substrate-based packages.

We expect to focus our packaging and testing on providing cost competitive services through better management of capacity utilization and efficiency improvements and offer our services on a large scale with the intention of driving more integrated device manufacturer outsourcing in the long-run.

We evaluate acquisition and joint venture opportunities on the basis of access to new markets and technology, the enhancement of our production capacity, improvement of research and development capabilities, economies of scale and management resources, and closer proximity to existing and potential customers. For example, we acquired controlling interests in Universal Scientific in 2010 to broaden our offerings to include integrated solutions for electronic manufacturing services in relation to computers, peripherals, communications, industrial, automotive, and storage and server applications. In addition, in May 2015, we entered into a joint venture agreement with TDK Corporation to invest in ASEEE to further expand our business in embedded substrates. We acquired 779,000,000 common shares (including common shares represented by American depositary shares) of SPIL through the Initial SPIL Tender Offer in September 2015 and additional 258,300,000 common shares of SPIL (including those represented by American depositary shares) in March and April 2016 through open market purchases. We entered into the Joint Share Exchange Agreement with SPIL in June 2016, and upon the consummation of the Share Exchange, which is subject to shareholders' approval of both companies and the satisfaction of other conditions, ASE and SPIL will become wholly owned subsidiaries of ASE Holding concurrently.

D-1-36

Continue to Leverage Our Presence in Key Centers of Semiconductor and Electronics Manufacturing

We intend to continue leveraging our presence in key centers of semiconductor and electronics manufacturing to further grow our business. We have significant packaging, testing and electronic manufacturing services operations in Taiwan, currently one of the leading centers for outsourced semiconductor and electronics manufacturing in the world. This presence enables our engineers to work closely with our customers as well as wafer foundries and other providers of complementary semiconductor and electronic manufacturing services early in the design process, enhances our responsiveness to the requirements of our customers and shortens production cycles. In addition, as a turnkey service provider, we are able to offer our products to our customers and complementary service providers within relatively close geographic proximity. Besides our current operations in Taiwan, we intend to expand our operations in our other subsidiaries.

We have primary operations in the following locations besides our locations in Taiwan:

- PRC — a fast-growing market for semiconductor and electronics manufacturing in the world;
- Korea — an important center for the manufacturing of memory and communications devices;
- Malaysia and Singapore — a center for outsourced semiconductor manufacturing in Southeast Asia;

· Silicon Valley in California — the preeminent center for semiconductor design, with a concentration of fabless customers; and

· Japan — an emerging market for packaging and testing outsourcing services as Japanese integrated device manufacturers increasingly outsource their semiconductor manufacturing requirements.

Strengthen and Develop Strategic Relationships with Our Customers and Providers of Complementary Semiconductor Manufacturing Services

We intend to strengthen existing and develop new strategic relationships with our customers and providers of other complementary semiconductor manufacturing services, such as wafer foundries, as well as equipment vendors, raw material suppliers and technology research institutes, in order to offer our customers total semiconductor manufacturing solutions covering all stages of the manufacturing of their products from design to shipment. In addition, we are working with our customers to co-develop new packaging technologies and designs.

Since 1997, we have maintained a strategic alliance with TSMC, currently one of the world's largest dedicated semiconductor foundries, which designates us as their non-exclusive preferred provider of packaging and testing services for semiconductors manufactured by TSMC. Through our strategic alliance with and close geographic proximity to TSMC, we are able to offer our customers a total semiconductor manufacturing solution that includes access to foundry services in addition to our packaging, testing and direct shipment services.

Principal Products and Services

We offer a broad range of semiconductor packaging and testing services. In addition, we have provided electronic manufacturing services since our acquisition of a controlling interest in Universal Scientific in February 2010. Our package types generally employ either leadframes or substrates as interconnect materials. The semiconductors we package are used in a wide range of end-use applications, including communications, computing, consumer electronics, industrial, automotive and other applications. Our testing services include front-end engineering testing, which is performed during and following the initial circuit design stage of the semiconductor manufacturing process, wafer probe, final testing and other related semiconductor testing services. We focus on packaging and testing semiconductors. We offer our customers turnkey services, which consist of packaging, testing and direct shipment of semiconductors to end users designated by our customers. Our electronic manufacturing services are used in a wide range of end-use applications, including, but not limited to, computers, peripherals, communications, industrial applications, automotive electronics, and storage and server applications. In 2016, our revenues generated from packaging, testing and electronic manufacturing services accounted for 45.6%, 9.8% and 42.0% of our operating revenues, respectively.

D-1-37

Table of Contents

Packaging Services

We offer a broad range of package types to meet the requirements of our customers, including flip-chip BGA, flip-chip CSP, aCSP (advanced chip scale packages), quad flat packages (QFP), thin quad flat packages (TQFP), bump chip carrier (BCC), quad flat no-lead (QFN) packages, aQFN (advanced QFN) and Plastic BGA. In addition, we provide 3D chip packages, such as MAP POP (package on package) and aMAP POP (advanced, laser ablation type), which enable our customers to mount packages more easily. We also offer other forms of stacked die solutions in different package types, e.g., stacked die QFN, hybrid BGAs containing stacked wire bond and FC die. Meanwhile, we are developing the cost-effective solutions to 3D packages, such 2.1D (substrate layer modification) and 2.5D (substrate interposer) to fulfill current low cost and high performance requirement in parallel with 3D packages with TSV (Through Silicon Via) technology. Our first product has been a CMOS image sensor with TSV to minimize the form factor. In addition, to meet current trends toward low cost solutions, we provide copper wire bonding solutions which can be applied to current gold wire products. Furthermore, we also provide high volume manufacturing experience with silver wire bonding for FCCSP Hybrid packages. We believe we are among the leaders in such packaging processes and technologies and are well positioned to lead the technology migration in the semiconductor packaging industry.

We have also been engaging in the production of module-based solutions, including Wi-Fi modules and RF modules, for a number of years. We provide customized module services with SiP solutions to meet customer needs and complex marketing requirements.

Advanced Packages. The semiconductor packaging industry has evolved to meet the requirements of high-performance electronics products. We believe that there will continue to be growing demand for packaging solutions with increased input/output density, smaller size and better heat dissipation characteristic.

We have focused on developing our capabilities in certain packaging solutions, such as aCSP (wafer-level chip scale package), flip-chip BGA, Heat-Spreader FCBGA, flip-chip CSP, Hybrid FCCSP (Flip-Chip + W/B), Flip-Chip PiP (Package in Package), Flip-Chip PoP (Package on Package), aS 3™ (Advanced Single Sided Substrate), HB POP (High-Bandwidth POP), Fan-Out Wafer Level Packaging, SESUB and 2.5D. Flip-chip BGA technology replaces wire bonding with wafer bumping for interconnections within the package. Wafer bumping involves the placing of tiny solder balls, instead of wires, on top of dies for connection to substrates. As compared with more traditional packages, which allow input/output connection only on the boundaries of the dies, flip-chip or wafer-level package solutions significantly enhance the input/output flow by allowing input/output connections over the entire surface of the dies.

Chip scale packages typically have an area no greater than 120% of the silicon die. For wafer level package, the electrical connections are plated or printed directly onto the wafer itself, resulting in a package very close to the size of the silicon die. Wafer-level packages do not include an interposer so they are unlike substrate-based packages,

where the die is usually mounted on an interposer which contains electrical connections in the form of small bumps or balls.

aEASI (Advance Embedded Assembly Substrate Integration) is a technology which allows the embedding thin chips into substrate build-up layers. aEASI can be used in various technologies tailored to clients' demand, such as package solution of miniaturization, and has also been proven to have better electrical/thermal performance. It also provides flexibility in design (such as for MicroSiP) and the electrical contacts to the chips are realized by laser-drilled and metallized micro-vias to replace traditional wire bonding process. aEASI are mainly used in power management applications.

WL MEMs (Wafer-Level MEMs) is advanced assembly for MEMs in wafer-level type instead of current LGA or leadframe types and to use TSV or chip to wafer technology. WL MEMs are mainly used in applications such as pressure, temperature, humidity and gyroscope sensors, among others.

FOWLP (Fan-Out Wafer-Level Packages) provides an extended solution and package type to integrate different functional chips or packages and to have good reduction in resistance and inductance over FCCSP, better thermal performance and smaller form factors of packages. FOWLP can be applied for different stack and SiP solutions.

D-1-38

Table of Contents

We provide numerous technologies to meet various customer demands. The following table sets forth our principal advanced packages.

Package Types	Number of Leads	Description	End-Use Applications
Wafer Level Chip Scale Package (aCSP)	6-120	A wafer level chip scale package that can be directly attached to the circuit board. Provides shortest electrical path from the die pad to the circuit board, thereby enhancing electrical performance.	Cellular phones, personal digital assistants, watches, MP3 players, digital cameras and camcorders.
Flip-Chip Chip Scale Package (FC-CSP, a-fcCSP)	16-750	A lightweight package with a small, thin profile that provides better protection for chips and better solder joint reliability than other comparable package types.	RFICs and memory ICs such as digital cameras, DVDs, devices that utilize WiMAX technology, cellular phones, GPS devices and personal computer peripherals.
Flip-Chip PiP (Package in Package) (FC-CSP PiP)	500-980	System In Package for Flip-Chip+Memory die inside with a better electrical performance package types.	Application processor for smartphone, data modern on portable devices.
Flip-Chip PoP (Package on Package) (FC-CSP PoP)	500-1100	SOC (System On Chip) die for Assembly to Bottom package and then applied for Memory die on top inside with a better electrical performance package types.	High-tier application processor for smartphone, data modern on portable devices.
Flip-Chip BGA/ HF FCBGA(High Performance / Heat Spreader / FCBGA)	16-2916	Using advanced interconnect technology, the flip-chip BGA packages allow higher density of input/output connection over the entire surface of the dies. HF FCBGA is designed for semiconductor high-performance requirement of high density of interconnects.	High-performance networking, graphics and server and data center processor applications.
Hybrid (Flip-Chip and Wire Bonding)	49-608	A package technology that stacks a die on top of a probed good die to integrate ASIC and memory (flash, SRAM and DDR) into one package and interconnects them with wire bonding and molding. This technology suffers from known good die issues (i.e., one bad die will ruin the entire module). Rework is also not an option in hybrid packages.	Digital cameras, smartphones, bluetooth applications and personal digital assistants.
aS3	up to 300	Ultra-thin profile package which is excellent on middle pin count alternative solution; standard BT material and manufacturing equipment; and lower cost via on pad.	High I/O and short wire length package solution in high performance requirement.

Table of Contents

Package Types	Number of Leads	Description	End-Use Applications
Integrated Passive Device (IPD)	~ 20	IPD can provide high performance/high Q-factor inductor and single/double layers for lower cost and turnkey solutions and integrate passives into one IPD chip. IPD requires less involvement in the Surface Mount Technology (“SMT”) process, and is considered to be more compatible with current assembly process and suitable for all package solutions.	Cellular phones, Wi-Fi module, TV and personal digital assistants.
HB (High-Bandwidth)	~ 1000	High-Bandwidth POP can provide a data rate and good signal integrity for Cellular AP, a integration solution for ASIC and Memory, decoupling function for multiple memory mount applications.	Cellular phones and application processors.
POP (Package On Package)	~ 256L Memory		
FOWLP (Fan-out Wafer-Level Package)	~ 1,500+	FOWLP provides an extended solution/package type to integrate most different functional chips or packages and to have good reduction in resistance & inductance over FCCSP, better thermal performance and smaller form factors of packages, and can be applied for different stack or SiP solutions.	Cellular phones, logic devices, power management, RF, Codec, IoT, wearables and networking.

IC Wirebonding. We provide IC wirebonding, including leadframe-based packages and substrate-based packages. Leadframe-based packages are packaged by connecting the die, using wire bonders, to the leadframe with gold wire or copper wire. As packaging technology improves, the number of leads per package increases. In addition, improvements in leadframe-based packages have reduced the footprint of the package on the circuit board and improved the electrical performance of the package. To have higher interconnected density and better electrical performance, semiconductor packages have evolved from leadframe-based packages to substrate-based packages. The key differences of these package types are: the size of the package; the density of electrical connections the package can support; flexibility at lower costs; the thermal and electrical characteristics of the package; and environmentally conscious designs. Substrate-based packages generally employ the BGA design. Whereas traditional leadframe technology places the electrical connection around the perimeter of the package, the BGA package type places the electrical connection at the bottom of the package surface in the form of small bumps or balls. These small bumps or balls are typically distributed evenly across the bottom surface of the package, allowing greater distance between individual leads and higher pin-counts. Our expertise in BGA packages also includes capabilities in stacked-die BGA, which assembles multiple dies into a single package.

3D packaging has recently gained a lot of publicity because of the advent of TSV (Through Silicon Via) based chip stacking. Chip stacking has been implemented for many years, albeit without TSVs. Wire bond die is routinely stacked on leadframes as well as BGA substrates. A more recent implementation is the stacking of packages as package on package (PoP) and the more specialized package in package (PiP). ASE has advanced PoP by the invention of aMAPPoP which provides the package interconnects by exposing a molded in solder ball with a laser via. Aside from being cost effective due to block molding, this PoP also has much lower warpage, greatly improving the stacking yield.

The following table sets forth our principal IC wirebonding packages.

D-1-40

Table of Contents

Package Types	Number of Leads	Description	End-Use Applications
Advanced Quad Flat No-Lead Package (aQFN)	104-276	aQFN allows for leadless, multi-row and fine-pitch leadframe packaging and is characterized by enhanced thermal and electrical performance. aQFN is a cost-effective packaging solution due to its cost-effective materials and simpler packaging process.	Telecommunications products, wireless local access networks, personal digital assistants, digital cameras, low to medium lead count packaging information appliances.
Quad Flat Package (QFP)/Thin Quad Flat Package (TQFP)	44-256	Designed for advanced processors and controllers, application-specific integrated circuits and digital signal processors.	Multimedia applications, cellular phones, personal computers, automotive and industrial products, hard disk drives, communication boards such as ethernet, integrated services digital networks and notebook computers.
Quad Flat No-Lead Package (QFN)/Dual-Row QFN (DR-QFN)/Microchip Carrier (MCC)	12-160	QFN/DRQFN, also known as types of MCC, uses half-encapsulation technology to expose the rear side of the die pad and the tiny fingers, which are used to connect the chip and bonding wire with printed circuit boards. Dual-Row is to increase the lead counts for product requirement.	Cellular phones, wireless local access networks, personal digital assistant devices and digital cameras.
Bump Chip Carrier (BCC)	16-156	BCC packages use plating metal pads to connect with printed circuit boards, creating enhanced thermal and electrical performance.	Cellular phones, wireless local access networks, personal digital assistant devices and digital cameras.
Small Outline Plastic Package (SOP)/Thin Small Outline Plastic Package (TSOP)	8-56	Designed for memory devices including static random access memory, or SRAM, dynamic random access memory, or DRAM, fast static RAM, also called FSRAM, and flash memory devices.	Consumer audio/video and entertainment products, cordless telephones, pagers, fax machines, printers, copiers, personal computer peripherals, automotive parts, telecommunications products, recordable optical disks and hard disk drives.
Small Outline Plastic J-Bend Package (SOJ)	20-44	Designed for memory and low pin-count applications.	DRAM memory devices, microcontrollers, digital analog conversions and audio/video applications.
Plastic Leaded Chip Carrier (PLCC)	28-84	Designed for applications that do not require low-profile packages with high density of interconnects.	Personal computers, scanners, electronic games and monitors.
Plastic Dual In-line Package (PDIP)	8-64	Designed for consumer electronic products.	Telephones, televisions, audio/video applications and computer peripherals.

Table of Contents

Package Types	Number of Leads	Description	End-Use Applications
Plastic BGA	119-1520	Designed for semiconductors which require the enhanced performance provided by plastic BGA, including personal computer chipsets, graphic controllers and microprocessors, application-specific integrated circuits, digital signal processors and memory devices.	Telecommunications products, global positioning systems, notebook computers, disk drives and video cameras.
Stacked-Die BGA	120-1520	Combination of multiple dies in a single package enables package to have multiple functions within a small surface area.	Telecommunications products, local area networks, graphics processor applications, digital cameras and pagers.
Package-on-Package (POP, aMAP POP)	136-904	This technology places one package on top of another to integrate different functionalities while maintaining a compact size. It offers procurement flexibility, low cost of ownership, better total system cost and faster time to market. Designers typically use the topmost package for memory applications and the bottommost package for ASICs. By using this technology, the memory known good die issue can be mitigated and the development cycle time and cost can be reduced.	Cellular phones, personal digital assistants and system boards.
Land Grid Array (LGA)	10-72	Leadless package which is essentially a BGA package without the solder balls. Based on laminate substrate, land grid array packages allow flexible routing and are capable of multichip module functions.	High frequency integrated circuits such as wireless communications products, computers servers, personal computer peripherals and MEMS sensors.

SiP and Modules. We assemble SiP products, which involve the integration of more than one chip into the same package. As miniaturization requirements for electronic devices increase, smaller and lighter SiPs are garnering much attention within the industry. Wafer level integration-passive device technology has become increasingly important. Passive devices such as inductors, capacitors, resistors, filters and diplexers are those components occupying the largest area in printed circuit boards; therefore, miniaturization and integration is key to SiPs. This can be achieved through integrating passive components on an individual substrate using a thin film process known as MCM-D or IPD (Integrated Passive Device). The IPD can then be used as a package substrate or interposer for SiP. This manufacturing method will enhance product performance and also reduce overall costs. The extension of our current RDL (Redistribution) process can be used to build high quality factor (Q) inductor and RF circuits on top of CMOS (Complementary Metal–Oxide–Semiconductor) wafers. IPD is an enabling technology for SiP. It can be used in the following three approaches to enhance product performance: several solutions to replace discrete components such as Balun and Filter, or to integrate certain passive components and act as interposer, or to replace PWB and act as a substrate of the module. We have the ability to offer any of the packaging methodologies related to the above technologies. In addition, we also leverage some of our SMT-based technologies, such as compartment shielding, double sided module and antenna integration.

We also offer module assembly services, which combine one or more packaged semiconductors with other components in an integrated module to enable increased functionality, typically using automated SMT machines and other machinery and equipment for system-level assembly. End-use applications for modules include cellular phones, wireless LAN applications, Bluetooth applications, camera modules, automotive applications, toys, networking, storage, and power management.

D-1-42

Table of Contents

Automotive Electronics. We assemble automotive electronic products based on our leading technology, good quality systems and automation. We provide a variety of products, such as leadframe base, substrate base, Flip-Chip and Wafer-Level packages. We also provide robust package solutions to customers and end-users, including most types of industrial package solutions together with tailor-made solutions to meet customers' and end-users' requirements on automotive specifications.

Having accumulated production experience in using gold wire for automotive devices over several years, we collaborate with certain customers to develop and release copper wire for advanced wafer process (65nm for QFP and 40 nm for BGA) development that will fulfill criteria in AEC-G100 and in the early development of the 28 nm wafer process with hybrid packaging structure (FC bonding + wirebonding). In addition, we offer the FOWLP solution for radar products according to requests from some tier 1 customers.

Interconnect Materials. Interconnect materials connect the input/output on the semiconductor dies to the printed circuit board. Interconnect materials include substrate, which is a multi-layer miniature printed circuit board, and is an important element of the electrical characteristics and overall performance of semiconductors. We produce substrates for use in our packaging operations.

The demand for higher performance semiconductors in smaller packages will continue to spur the development of IC substrates that can support the advancement in circuit design and fabrication. As a result, we believe that the market for substrates will grow and the cost of substrates as a percentage of the total packaging process will increase. In the past, substrates we designed for our customers were produced by independent substrate manufacturers. Since 1997, we have been designing and producing a portion of our interconnect materials in-house. In 2016, our interconnect materials operations supplied approximately 29.7% of our consolidated substrate requirements by value.

The following table sets forth, for the periods indicated, the percentage of our packaging revenues accounted for by each principal type of packaging products or services.

	Year Ended December 31,		
	2014	2015	2016
Bumping, Flip Chip, WLP and SiP	25.0 %	27.1 %	28.6 %
IC Wirebonding ⁽¹⁾	64.4	61.9	61.4
Discrete and other	10.6	11.0	10.0
Total	100.0%	100.0%	100.0%

- (1) Includes leadframe-based packages such as QFP/TQFP, QFN/MCC and PLCC/PDIP and substrate-based packages, such as various BGA package types and LGA.

Testing Services

We provide a complete range of semiconductor testing services, including front-end engineering testing, wafer probing, final testing of logic/mixed-signal/RF/(2.5D/3D) module and SiP/ MEMS/Discrete and other test-related services.

The testing of semiconductors requires technical expertise and knowledge of the specific applications and functions of the semiconductors tested as well as the testing equipment utilized. We believe that our testing services employ technology and expertise which are among the most sophisticated in the semiconductor industry. In addition to maintaining different types of testing equipment, which enables us to test a variety of semiconductor functions, we work closely with our customers to design effective testing solutions on multiple equipment platforms for particular semiconductors.

In recent years, complex, high-performance logic/mixed-signal/RF/(2.5D/3D) module and SiP/MEMS semiconductors have accounted for an increasing portion of our testing revenues.

D-1-43

Table of Contents

Front-End Engineering Testing. We provide front-end engineering testing services, including customized software development, electrical design validation, and reliability and failure analysis.

Customized Software Development. Test engineers develop customized software to test the semiconductors using our equipment. Customized software, developed on specific test platforms, is required to test the conformity of each particular semiconductor type to its unique functionality and specification.

Electrical Design Validation. A prototype of the designed semiconductor is subjected to electrical tests using advanced test equipment and customized software. These tests assess whether the prototype semiconductor complies with a variety of different operating specifications, including functionality, frequency, voltage, current, timing and temperature range.

Reliability Analysis. Reliability analysis is designed to assess the long-term reliability of the semiconductor and its suitability of use for intended applications. Reliability testing can include “burn-in” services, which electrically stress a device, usually at high temperature and voltage, for a period of time long enough to cause the failure of marginal devices.

Failure Analysis. In the event that the prototype semiconductor does not function to specifications during either the electrical design validation or reliability testing processes, it is typically subjected to failure analysis to determine the cause of the failure to perform as anticipated. As part of this analysis, the prototype semiconductor may be subjected to a variety of analyses, including electron beam probing and electrical testing.

Wafer Probing. Wafer probing is the step immediately before the packaging of semiconductors and involves visual inspection and electrical testing of the processed wafer for defects to ensure that it meets our customers’ specifications. Wafer probing services require expertise and testing equipment similar to that used in final testing, and most of our testers can also be used for wafer probing.

Logic/Mixed-signal/RF/(2.5D/3D) module and SiP/Discrete Final Testing. We conduct final tests of a wide variety of logic/mixed-signal/RF/(2.5D/3D) module and SiP/ MEMS /discrete semiconductors, with the number of leads or bumps ranging from the single digits to over ten thousand and operating frequencies of over 12 Gbps for digital semiconductors and 12 GHz for radio frequency semiconductors, which are at the high end of the range for the industry. The products we test include semiconductors used for wired, wireless and mobile communications, home entertainment and personal computer applications, as well as a variety of consumer and application-specific integrated circuits for various specialized applications.

Other Test-Related Services. We provide a broad range of additional test-related services, such as:

Electric Interface Board and Mechanical Test Tool Design. Process of designing individualized testing apparatuses such as test load boards, sockets, handler change kits, and probe cards for unique semiconductor devices and packages.

Program Conversion. Process of converting a program from one test platform to different test platforms to reduce testing costs or optimize testing capacity.

Program Efficiency Improvement. Process of optimizing the program code or increasing site count of parallel tests to improve testing throughout.

Burn-in Testing. Burn-in testing is the process of electrically stressing a device, usually at high temperature and voltage, for a period of time to simulate the continuous use of the device to determine whether this use would cause the failure of marginal devices.

Module and SiP Testing. We provide module and SiP testing through integrated bench solution or automatic test equipment to our customers with a complete solution with respect to finger print sensor module, camera module, wireless connectivity devices, global positioning system devices, personal navigation devices and digital video broadcasting devices.

D-1-44

Table of Contents

Tape and Reel. Process which involves transferring semiconductors from a tray or tube into a tape-like carrier for shipment to customers.

Drop Shipment Services. We offer drop shipment services for shipment of semiconductors directly to end users designated by our customers. Drop shipment services are provided mostly in conjunction with logic/mixed-signal/RF/3D IC/discrete testing. We provide drop shipment services to a significant percentage of our testing customers. A substantial portion of our customers at each of our facilities have qualified these facilities for drop shipment services. Since drop shipment eliminates the additional step of inspection by the customer before shipment to the end user, quality of service is a key consideration. We believe that our ability to successfully execute our full range of services, including drop shipment services, is an important factor in maintaining existing customers as well as attracting new customers.

The following table sets forth, for the periods indicated, the percentage of our testing revenues accounted for by each type of testing service.

	Year Ended December 31,					
	2014		2015		2016	
Testing Services:						
Front-end engineering testing	2.9	%	4.2	%	3.6	%
Wafer probing	20.5		20.1		19.7	
Final testing	76.6		75.7		76.7	
Total	100.0%		100.0%		100.0%	

Electronic Manufacturing Services. Since our acquisition of a controlling interest in Universal Scientific in February 2010, we also provide integrated solutions for electronic manufacturing services in relation to computers, peripherals, communications, industrial, automotive, and storage and server applications. The key products and services we offer to our customers, for instance, include:

Computers: motherboards for server & desktop PC; peripheral; port replicator; network attached storage; and technical services;

Communications: Wi-Fi; SiP;

Consumer products: control boards for flat panel devices; SiP;

Automotive electronics: automotive electronic manufacturing services; car LED lighting; regulator/rectifier; and

Industrial products: point-of-sale systems; smart handheld devices.

Seasonality

See “Item 5. Operating and Financial Review and Prospects—Operating Results and Trend Information—Quarterly Operating Revenues, Gross Profit and Gross Margin.”

Sales and Marketing

Sales and Marketing Presence

We maintain sales and marketing offices in Taiwan, the United States, Belgium, Singapore, the PRC, Korea, Malaysia, Japan and a number of other countries. We also have sales representatives operating in certain other countries in which we do not have offices. Our sales and marketing offices in Taiwan are located in Hsinchu and Kaohsiung. We conduct marketing research through our customer service personnel and through our relationships with our customers and suppliers to keep abreast of market trends and developments. We also provide advice in the area of production process technology to our major customers planning the introduction of new products. In placing orders with us, our customers specify which of our facilities these orders will go to. Our customers conduct separate qualification and correlation processes for each of our facilities that they use. See “—Qualification and Correlation by Customers.”

D-1-45

Table of Contents

Customers

Our five largest customers together accounted for approximately 40.3% , 48.2% and 42.0% of our operating revenues in 2014, 2015 and 2016, respectively. One customer accounted for more than 10.0% of our operating revenues in 2014, 2015 and 2016.

We package and test for our customers a wide range of products with end-use applications in the communications, computing, and consumer electronics/industrial/automotive sectors. The following table sets forth a breakdown of the percentage of our operating revenues generated from our packaging and testing services, for the periods indicated, by the principal end-use applications of the products that we packaged and tested.

	Year Ended December 31,		
	2014	2015	2016
Communications	53.3%	54.7%	52.2%
Computing	11.6	11.1	11.5
Consumer electronics/industrial/automotive/other	35.1	34.2	36.3
Total	100.0%	100.0%	100.0%

In addition, we have provided electronic manufacturing services since our acquisition of the controlling interest of Universal Scientific in February 2010. Our electronic manufacturing services provide a wide range of products with end-use applications. The following table sets forth a breakdown of the percentage of our operating revenues generated from our electronic manufacturing services for the periods indicated by the principal end-use applications.

	Year Ended December 31,		
	2014	2015	2016
Communications	55.6 %	53.2 %	50.6 %
Computing	18.0	14.3	16.9
Consumer electronics	8.9	18.7	18.4
Industrial	10.3	8.1	7.2
Automotive	6.3	4.9	6.0
Other	0.9	0.8	0.9
Total	100.0%	100.0%	100.0%

We categorize our operating revenues geographically based on the country in which the customer is headquartered. The following table sets forth, for the periods indicated, the percentage breakdown by geographic regions of our operating revenues.

	Year Ended December 31,		
	2014	2015	2016
United States	67.8 %	72.6 %	65.8 %
Taiwan	14.3	11.5	14.1
Asia	9.4	8.1	10.9
Europe	8.1	7.3	8.5
Other	0.4	0.5	0.7
Total	100.0%	100.0%	100.0%

Qualification and Correlation by Customers

Customers generally require that our facilities undergo a stringent qualification process during which the customer evaluates our operations and production processes, including engineering, delivery control and testing capabilities. The qualification process typically takes up to several weeks, but can take longer depending on the requirements of the customer. In the case of our testing operations, after we have been qualified by a customer and before the customer delivers semiconductors to us for testing in volume, a process known as correlation is undertaken. During the correlation process, the customer provides us with sample semiconductors to be tested and either provides us with the test program or requests that we develop a conversion program. In some cases, the customer also provides us with a data log of results of any testing of the semiconductors that the customer may have conducted previously. The correlation process typically takes up to two weeks, but can take longer depending on the requirements of the customer. We believe our ability to provide turnkey services reduces the amount of time spent by our customers in the qualification and correlation process. As a result, customers utilizing our turnkey services are able to achieve shorter production cycles.

D-1-46

Table of Contents

Pricing

We price our packaging services and electronic manufacturing services, taking into account the actual costs, with reference to prevailing market prices. We price our testing services primarily on the basis of the amount of time, measured in central processing unit seconds, taken by the automated testing equipment to execute the test programs specific to the products being tested, as well as the cost of the equipment, with reference to prevailing market prices. Prices for our packaging, testing and electronic manufacturing services are confirmed at the time orders are received from customers, which is typically several weeks before delivery.

Raw Materials and Suppliers

Packaging

The principal raw materials used in our packaging processes are interconnect materials such as leadframes and substrates, gold wire and molding compound. The silicon die, which is the functional unit of the semiconductor to be packaged, is supplied in the form of silicon wafers. Each silicon wafer contains a number of identical dies. We receive the wafers from the customers or the foundries on a consignment basis. Consequently, we generally do not incur inventory costs relating to the silicon wafers used in our packaging process.

We do not maintain large inventories of leadframes, substrates, gold wire or molding compound, but generally maintain sufficient stock of each principal raw material based on blanket orders and rolling forecasts of near-term requirements received from customers. In addition, several of our principal suppliers dedicate portions of their inventories as reserves to meet our production requirements. However, shortages in the supply of materials experienced by the semiconductor industry have in the past resulted in occasional price adjustments and delivery delays. For example, in the first half of 2000, the industry experienced a shortage in the supply of IC substrates used in BGA packages, which, at the time, were only available from a limited number of suppliers located primarily in Japan. In order to reduce the adverse impact caused by the price fluctuations of raw materials, we have developed substitute raw materials, such as copper, the cost of which is much cheaper than that of gold. However, we cannot guarantee that we will not experience shortages or price increase in the near future or that we will be able to obtain adequate supplies of raw materials in a timely manner and at a reasonable price or to develop any substitute raw materials. In the event of a shortage and/or price increase, we generally inform our customers and work together to accommodate changes in delivery schedules and/or the price increase of raw materials.

We produce substrates for use in our packaging operations. In 2016, our interconnect materials operations supplied approximately 29.7% of our consolidated substrate requirements by value. See “—Principal Products and

Services—Interconnect Materials.”

As a result of the “Directive 2002/95/EC on the restriction of the use of certain hazardous substances in electrical and electronic equipment,” or RoHS, which became effective on July 1, 2006, we have adjusted our purchases of raw materials and our production processes in order to use raw materials that comply with this legislation for part of our production. This legislation restricts the use in the European Union, or EU, of certain substances the EU deems harmful to consumers, which includes certain grades of molding compounds, solder and other raw materials that are used in our products. Manufacturers of electrical and electronic equipment must comply with this legislation in order to sell their products in an EU member state. Any failure by us to comply with regulatory environmental standards such as Directive 2002/95/EC may have a material adverse effect on our results of operations.

Testing

For the functional and burn-in testing of semiconductors, no other raw materials are needed. However, we often design and outsource the manufacturing of test interface products such as load boards, probe cards and burn-in boards.

D-1-47

Table of Contents

Electronic Manufacturing Services

Our manufacturing processes use many raw materials in our electronic manufacturing services. For 2016, raw materials costs accounted for 77.1% of our operating revenues from electronic manufacturing services. Our principal raw materials include, among others, printed circuit boards, integrated chips, ink, semiconductor devices, computer peripherals and related accessories and electronic components. Our principal raw materials varied in the past, depending on the end-use products we provided.

To ensure quality, on-time delivery and pricing competitiveness, we have established both a standardized supplier assessment system and an evaluation mechanism, continued to maintain close working relationships with our suppliers and jointly created a stable and sustainable supply chain. In addition, we adjusted the procurement strategy in line with industry trends as well as the nature of raw materials and decentralized the sources of raw materials to lower our supply concentration risk. However, we cannot assure you that we will not experience any shortages or price increases in the near future. See “Item 3. Key Information—Risk Factors—Risks Relating to Our Business—Our revenues and profitability may decline if we are unable to obtain adequate supplies of raw materials in a timely manner and at a reasonable price.”

Equipment

Packaging

Wire bonding process is important for routing signal out of die to the system for the IC wire-bonding solutions. Thus, wire bonder is the important equipment used for such process. As products become finer and finer pitch, bumping process will replace wire bonding process for the signal routing purpose. Thus, sputter and plater will be the crucial equipment for this type of process.

Wire bonders connect the input/output terminals on the silicon die using extremely fine gold or copper wire to leads on leadframes or substrates. Typically, a wire bonder may be used, with minor modifications, for the packaging of different products. As of January 31, 2017, we operated an aggregate of 15,878 wire bonders, of which 15,789 were fine-pitch wire bonders. As of the same date, 21 of the wire bonders operated by us were consigned by customers and none were leased under operating leases. For the packaging of certain types of substrate-based packages, die bonders are used in place of wire bonders. The number of bonders at a given facility is commonly used as a measure of the packaging capacity of the facility. In addition to bonders, we maintain a variety of other types of packaging equipment, such as wafer grind, wafer mount, wafer saw, automated molding machines, laser markers, solder plate, pad printers, dejunkers, trimmers, formers, substrate saws and scanners. We purchase our packaging equipment from

major international manufactures, including Disco Corporation, Kulicke & Soffa Industries Inc., BE Semiconductor Industries N.V., TOWA CORPORATION, ASM Pacific Technology and Allring Tech Co., Ltd.

Testing

Testing equipment is the most capital intensive component of the testing process. We generally seek to purchase testers from different suppliers with similar functionality and the ability to test a variety of different semiconductors. We purchase testers from major international manufacturers, including Teradyne, Inc., Advantest Ltd., LTX-Credence Corporation, Seiko Epson and Tokyo Electron Limited. Upon acquisition of new testers, we install, configure, calibrate, perform burn-in diagnostic tests on and establish parameters for the testers based on the anticipated requirements of existing and potential customers and considerations relating to market trends. As of January 31, 2017, we operated an aggregate of 3,747 testers, of which 1,102 were consigned by customers and 102 were leased under operating leases. In addition to testers, we maintain a variety of other types of testing equipment, such as automated handlers and probers (special handlers for wafer probing), scanners, reformers and computer workstations for use in software development. Each tester may be attached to a handler or prober. Handlers attach to testers and transport individual packaged semiconductor to the tester interface. Probers similarly attach to the tester and align each individual die on a wafer with the interface to the tester.

For the majority of our testing equipment, we often base our purchases on prior discussions with our customers about their forecast requirements. The balance consists of testing equipment on consignment from customers and which are dedicated exclusively to the testing of these customers' specific products.

D-1-48

Table of Contents

Test programs, which consist of the software that drives the testing of specific semiconductors, are written for a specific testing platform. We sometimes perform test program conversions that enable us to test semiconductors on multiple test platforms. This portability between testers enables us to allocate semiconductors tested across our available test capabilities and thereby improve capacity utilization rates. In cases where a customer requires the testing of a semiconductor product that is not yet fully developed, the customer may provide computer workstations to us to test specific functions. In cases where a customer has specified testing equipment that was not widely applicable to other products that we test, we have required the customer to furnish the equipment on a consignment basis.

Electronic Manufacturing Services

The SMT assembly line is the key facility of our electronic manufacturing operations, and generally includes a printer and one or two high-speed mounters and/or a multi-function mounter. The SMT assembly process primarily consists of the following three manufacturing steps: (i) solder paste stencil printing, (ii) component placement and (iii) solder reflow. High-speed SMT assembly systems offer both economic and technical advantages that may reduce both production cost and time while meeting quality requirements. Thus, SMT has become the most popular assembly method for sophisticated electronic devices. We had 128 SMT lines as of January 31, 2017.

Intellectual Property

As of January 31, 2017, we held 2,020 Taiwan patents, 945 U.S. patents, 996 PRC patents and 17 patents in other countries related to various semiconductor packaging technologies and invention, utility and design on our electronic manufacturing services. In addition, we also filed several trademarks applications in Taiwan, the United States, China and the European Union. For example, “ASE”, “aCSP”, “a-EASI”, “a-fcCSP”, “aQFN” “a-QFN”, “a-TiV”, “iSiP”, “iWLP” and have been registered in Taiwan.

We have also entered into various non-exclusive technology license agreements with other companies involved in the semiconductor manufacturing process, including Fujitsu Limited, Flip Chip International, L.L.C., Mitsui High-Tec, Inc., Infineon Technologies AG, TDK Corporation and Deca Technologies Inc. The technology we license from these companies includes solder bumping, redistribution, ultra CSP assembly, advanced QFN assembly, wafer level packaging and other technologies used in the production of package types, such as BCC, flip-chip BGA, film BGA, aQFN and chip embedding. Our license agreements with Flip Chip International, L.L.C. and SPIL will not expire until the expiration of the patents licensed by the agreement. Our one license agreement with Infineon Technologies AG will expire on November 5, 2017, and another license agreement with Infineon Technologies AG will remain in effect until expiration of the Infineon’s patents licensed by the agreement. Our license agreement with Mitsui High-Tec, Inc. renews automatically each year, and our license agreement with Fujitsu Limited renews automatically each year unless the parties to the agreement agree otherwise. Our license agreement with TDK Corporation will remain in effect until expiration of the TDK’s patents licensed by the agreement. Our license agreement with Deca Technologies

Inc. will expire on January 13, 2026. Our success depends in part on our ability to obtain, maintain and protect our patents, licenses and other intellectual property rights, including rights under our license agreements with third parties.

Quality Control

We believe that our process technology and reputation for high quality and reliable services have been important factors in attracting and retaining leading international semiconductor companies as customers for our services and/or products. We maintain a quality control staff at each of our facilities. Our quality control staff typically includes engineers, technicians and other employees who monitor the processes in order to ensure high quality. Our quality assurance systems impose strict process controls, statistical in-line monitors, supplier control, data review and management, quality controls and corrective action systems. Our quality control employees operate quality control stations along production lines, monitor clean room environments and follow up on quality through outgoing product inspection and interaction with customer service staff. We have established quality control systems that are designed to ensure high quality products/service to customers, high testing reliability and high production yields at our facilities. We also have established an environmental management system in order to ensure that we can comply with the environmental standards of our customers and the countries within which they operate. See “—Raw Materials and Suppliers—Packaging.” In addition, our facilities have been qualified by all of our major customers after satisfying stringent quality standards prescribed by these customers.

D-1-49

Table of Contents

Our packaging and testing operations are undertaken in clean rooms where air purity, temperature and humidity are controlled. To ensure stability and integrity of our operations, we maintain clean rooms at our facilities that meet U.S. Federal Standard 209E class 1,000, 10,000 and 100,000 standards.

ISE Labs' testing facilities in Fremont, California, are considered suitably equipped by the Defense Logistics Agency to perform the MIL-STD-883 tests on monolithic microcircuits in accordance with the requirements of military specification MIL-PRF-38535.

We have also obtained many certifications on our packaging, testing and interconnect materials facilities. Some of these certifications are required by some semiconductor manufacturers as a threshold indicator of company's quality control standards or needed by many countries in connection with sales of industrial products. The table below sets forth the certifications we have for our packaging, testing and interconnect materials.

ISO/TS16949 standards were originally created by the International Automotive Task Force in conjunction with (1) the International Standards Organization, or ISO. These standards provide for continuous improvement with an emphasis on the prevention of defects and reduction of variation and waste in the supply chain.

ISO 9001 quality standards, set by the ISO, are related to quality management systems and designed to help (2) organizations ensure that they meet the needs of customers and other stakeholders while meeting statutory and regulatory requirements related to the product.

(3)

ISO 14001 sets out the criteria for an environmental management system. It can be used by any organization that wants to improve resource efficiency, reduce waste and drive down costs.

(4) ISO 17025 is the main ISO standard used by testing and calibration laboratories.

ISO 14064-1 standard is part of the ISO 14000 series of International Standards for environmental management.

(5) The ISO 14064 standard provides governments, businesses, regions and other organizations with a complementary set of tools for programs to quantify, monitor, report and verify greenhouse gas emissions.

(6) IECQ HSPM QC080000 is a certification designed to manage, reduce and eliminate hazardous substances.

(7) “Sony Green Partner” indicates our compliance with the “Sony Green Package” standard requirements.

OHSAS 18001 is a set of standards designed upon collaboration with occupational health and safety experts and

(8) now offered by many certification organizations as an indication of compliance with certain standards for occupational health and safety.

(9) TOSHMS is the Taiwan Occupational and Health Management System. SA8000 is the most widely recognized global standard for managing human rights in the workspace.

(10) ISO50001 is a standard for an energy management system. It can be used by any organization that wants to reduce energy costs and use energy more efficiently.

(11) ISO 13485 quality management system sets forth the quality requirements for organizations that are required to consistently meet customers’ requirements and regulatory requirements in the medical devices and related services industry.

(12) ISO 28000 is an international standard for security management system dealing with security assurance in a supply chain.

(13) ISO 26262 is an international standard for functional safety of electrical and electronic systems in production automobiles defined by ISO.

Table of Contents

(14) ISO 15408-EAL6 is a framework that outlines the criteria for globally recognized standards and security inspections for IT products. It is designed for products and applications that are targeted for high security-intensive markets, such as the government, banking or defense sectors.

Since our acquisition of a controlling interest in Universal Scientific in February 2010, we began providing electronic manufacturing services, for which we also have strict process controls. The table below sets forth the certifications we have obtained for our electronic manufacturing services facilities.

Location	ISO/TS 16949	ISO 9001	ISO 14001	ISO 14064-1	IECQ QC 080000	TL 9000 ⁽¹⁾	OHSASISO 18001 50001	ISO 17025	ISO 13485

(1) TL 9000 quality management system sets forth the supply chain quality requirements of the global communications industry.

In addition, we have received various vendor awards from our customers for the quality of our products and services.

Competition

The global market for semiconductor packaging and testing markets is highly competitive. We face competition from a number of sources and integrated device manufacturers with in-house packaging and testing capabilities and fabless semiconductor design companies with their own in-house testing capabilities. Some of these integrated device manufacturers have commenced, or may commence, in-house packaging and testing operations in Asia. Substantially all of packaging and testing companies that compete with us have established operations in Taiwan and across the region.

Integrated device manufacturers that use our services continuously evaluate our performance against their own in-house packaging and testing capabilities. These integrated device manufacturers may have access to more sophisticated technologies and greater financial and other resources than we do. We believe, however, that we can offer greater efficiency at lower cost while maintaining equivalent or higher quality for several reasons. First, as we benefit from specialization and economies of scale by providing services to a large base of customers across a wide range of products, we are better able to reduce costs and shorten production cycles through high capacity utilization and process expertise. Second, as a result of our customer base and product offerings, our equipment generally has a longer useful life. Third, as a result of the continuing reduction of investments in in-house packaging and testing capacity and technology at integrated device manufacturers, we are better positioned to meet their packaging and testing requirements on a large scale.

Our packaging and testing business also faces actual and potential competition from companies at other levels of the supply chain, which have the financial resources and technical capabilities to enter and compete effectively with us. For example, TSMC has launched integrated fan-out (“InFO”) technology, which is scheduled to be put into mass production in 2016. InFO is expected to further intensify the competition in the packaging and testing industry.

In addition, we have provided electronic manufacturing services since our acquisition of a controlling interest in Universal Scientific in February 2010. As a result of this, we face significant competition from other electronic manufacturing services providers, such as Hon Hai Precision Ind. Co., Ltd., with comprehensive integration, wide geographic coverage and large production capabilities that enable them to achieve economies of scale. We believe, however, that we can still achieve satisfactory performance in the market given that we have been able to provide products with high quality and we are capable of designing new products by cooperating with our customers.

Environmental Matters

Our operations of packaging, interconnect materials and electronic manufacturing services generate environmental wastes, including gaseous chemical, liquid and solid industrial wastes. We have installed various types of anti-pollution equipment for the treatment of liquid and gaseous chemical waste generated at our facilities. We believe that we have adopted adequate anti-pollution measures for the effective maintenance of environmental protection standards that are consistent with industry practice in the countries in which our facilities are located. In addition, we believe we are in compliance in all material respects with present environmental laws and regulations applicable to our operations and facilities.

D-1-51

Table of Contents

Furthermore, in order to demonstrate our commitment to environmental protection, in December 2013, our board of directors approved contributions to environmental protection efforts in Taiwan in a total amount of not less than NT\$3,000.0 million, to be made in the next 30 years. For the years ended December 31, 2014, 2015 and 2016, we have made contributions in the amount of NT\$100.0 million (US\$3.1 million) each, respectively, through ASE Cultural and Educational Foundation to fund various environmental projects, and our board of directors have resolved in a resolution in January 2017 to contribute NT\$100.0 million (US\$3.1 million) through ASE Cultural and Educational Foundation in environmental projects in 2017.

ASE Inc. Kaohsiung facility

Our operations involving wafer-level process and require wastewater treatment at our K7 Plant have been subject to scrutiny by the Kaohsiung City Environmental Protection Bureau and the Kaohsiung District Prosecutors office as a result of alleged wastewater disposal violations that occurred on October 1, 2013.

In December 2013, the Kaohsiung City Environmental Protection Bureau ordered us to suspend the operations at our K7 Plant's wafer-level process where nickel was used for alleged wastewater discharge violations and imposed a NT\$110.1 million fine against us. The NT\$110.1 million fine was later reduced to NT\$109.4 million as ordered by the Kaohsiung City Environmental Protection Bureau. In December 2014, the Kaohsiung City Environmental Protection Bureau lifted the suspension order and approved the full resumption of operations of our K7 Plant after ordering a series of examinations, hearings and trial runs. In September 2015, the fine was further reduced to NT\$102.0 million by the Kaohsiung City Environmental Protection Bureau and we received a refund of NT\$7.3 million in October 2015. Although our K7 Plant has resumed full operation, we may be subject to other new environmental claims, charges or investigations of our K7 Plant or other facilities that may cause similar or more severe interruptions to our business and operations.

With respect to the NT\$102.0 million administrative penalty imposed on us by the Kaohsiung City Environmental Protection Bureau, we appealed to the Kaohsiung High Administrative Court in August 2014 seeking to (i) revoke Kaohsiung City Government's decision, (ii) lift the administrative penalty imposed on us and (iii) demand a refund of the administrative penalty. On March 22, 2016, the Kaohsiung High Administrative Court revoked Kaohsiung City Government's decision and lifted the administrative penalty. Our demand for a refund of the fine was dismissed. We appealed to the Supreme Administrative Court on April 14, 2016 against the Kaohsiung High Administrative Court's unfavorable ruling in dismissing a refund. The outcome of the proceeding cannot be predicted with certainty.

In connection with the same alleged violations at our K7 plant, in October 2014, the Kaohsiung District Court ruled that we were in violation of the ROC Waste Disposal Act and imposed on us a criminal penalty of NT\$3.0 million. We appealed the case to the Taiwan High Court Kaohsiung District Branch in November 2014. In September 2015, the Taiwan High Court Kaohsiung District Branch overturned the decision made by Kaohsiung District Court and

found the Company not guilty and repealed the criminal penalty imposed on the Company. The verdict was final and not appealable. For additional details of these administrative actions and judicial proceedings related to our K7 Plant see “Item 4. Information on the Company—Property, Plants and Equipment” and see “Item 8. Financial Information—Consolidated Statements and Other Financial Information—Legal Proceedings.” Defending against any of these pending or future actions will likely be costly and time-consuming and could significantly divert management’s efforts and resources.

Any future suspension of operations at K7 Plant or our other facilities may adversely affect our business, financial condition, results of operations and cash flows. See “Item 3. Key Information—Risk Factors—Risks Relating to Our Business—Any environmental claims or failure to comply with any present or future environmental regulations, as well as any fire or other industrial accident, may require us to spend additional funds and may materially and adversely affect our financial condition and results of operations.”

Our estimated environmental capital expenditures for 2017 will be approximately US\$14.7 million, of which 13.9% will be used in climate change adaptation. In order to demonstrate our commitment to fulfill our corporate social responsibility toward environmental protection, in December 2013, our board of directors approved contributions to environmental protection efforts in Taiwan in a total amount of not less than NT\$3,000.0 million, at minimum, to be made in the next 30 years.

D-1-52

Table of Contents

Climate Change Management

Climate change is a key corporate sustainability issue, and we are adapting local and international policies and taking firm actions to mitigate the emissions of greenhouse gases attributable to our business operations. We have also set up a Corporate Sustainability Committee (CSC) to better carry out sustainability efforts corresponding to the sustainability guidance and fulfill our commitments.

We strive to develop and promote a green concept in all facets of our enterprise. We are now committed to ensuring the protection of the earth through our efforts to reduce greenhouse gas emissions, waste and effluent. In addition, from the initial product design stage, we conscientiously incorporate the use of green materials and cleaner production as well as the construction of green buildings and the upgrading of existing ones. For instance, we have maintained a multi-site certification for ISO 14001 and ISO 50001, which regularly examines the effectiveness of our environment and energy management systems and helps to improve our resource efficiency and reduce waste.

We believe that there are opportunities associated with climate change related risks and have implemented the following strategies to evaluate the risks and take advantage of the opportunities:

Management procedures. Since 2013, we have been using the Enterprise Risk Management (ERM) to manage climate change related risks. Consequently, potential risks induced by climate change are identified and assessed in a global scale. We have established a specific monitoring and control mechanism to reduce the adverse impacts of climate change on our business operation. The identified risks are managed by a variety of departments or functions (risk functions) across all parts of our organization.

Identification processes for risks and opportunities. The identification process for risks and opportunities is carried out at both company and asset level linked to multidimensional aspects. Natural disaster, sustainability development and low carbon technology are also the major factors to address climate change related risks. To do so, risk management programs are regularly implemented in our major manufacturing sites as well as all group-level functional departments and assets. Risk identification, assessment and response are three important steps in the ERM cycle. Risks and events that might have an influence on our business objectives are identified and evaluated, in order to decide on appropriate responses.

Prioritize the risks and opportunities identified. In accordance with a matrix analysis, the priority of climate change risks and opportunities are determined by the following criteria: timeframe, likelihood, control effectiveness and magnitude of impact on our sustainable operation. A comprehensive methodology is designed to evaluate the cost of implementation, effectiveness (degree to which a response will reduce impact), feasibility (difficulty) and time needed for implementation. Under a mechanism of prevention, early warning and emergency response to risks of different priorities, we believe that we will be able to effectively keep climate change risks under control.

Along with an increasing awareness of climate change crisis, energy saving and carbon reduction have become a mainstream concept for products or services, especially required by our customers. To meet the needs of customers and greenhouse gas mitigation, we continuously strive to provide high efficiency products as well as invest in the research and development for eco-friendly design. From the initial product design stage, we conscientiously incorporate the use of green materials and cleaner production as well as the construction of green buildings and the upgrading of existing ones.

Since 2012, we have incorporated green design standards and building concepts into the construction of our facilities. Starting in 2014, we have committed to constructing all new manufacturing facilities and office buildings in Taiwan following the most up-to-date green building standards, such as US LEED (Leadership in Energy and Environmental Design) and Taiwan EEWH (Ecology, Energy Saving, Waste Reduction and Health) standards. We have also adopted the green building concept to improve environmental performance of our existing buildings. In addition, we further promote "Green Factory Label Certification" by implementing the green building concept and cleaner production mechanism.

D-1-53

Table of Contents

Insurance

We have insurance policies covering property damage and damage to our production facilities, buildings and machinery. In addition, we have insurance policies covering our public and product liabilities. Significant damage to any of our production facilities would have a material adverse effect on our results of operations.

We are not insured against the loss of key personnel.

ORGANIZATIONAL STRUCTURE

The following chart illustrates our corporate structure including our principal manufacturing subsidiaries as of March 31, 2017. The following chart does not include wholly owned intermediate holding companies, internal trading companies and those companies without active operations.

Our Consolidated Subsidiaries

ASE Test Taiwan

ASE Test Taiwan, which was acquired in 1990, is our wholly owned subsidiary. It is incorporated in Taiwan and is engaged in the testing of integrated circuits.

ASE Test Malaysia

ASE Test Malaysia, which was established in 1991, is our wholly owned subsidiary. It is incorporated in Malaysia and is engaged in the packaging and testing of integrated circuits.

ISE Labs

ISE Labs is our wholly owned subsidiary. It is a semiconductor company specializing in front-end engineering testing that is incorporated in the United States and has its principal facilities located in Fremont, California. We acquired 70.0% of the outstanding shares of ISE Labs in 1999 through ASE Test, and increased our holding to 100.0% through purchases made in 2000 and 2002.

ASE Singapore Pte. Ltd.

ASE Singapore Pte. Ltd., our wholly owned subsidiary, is incorporated in Singapore and provides packaging and testing services. We acquired ASE Singapore Pte. Ltd., which was wholly owned by ISE Lab, through our acquisition of ISE Lab in 1999. In January 2011, ASE Singapore II Pte. Ltd. (formerly, EEMS Test Singapore) merged into ASE Singapore Pte. Ltd. after we acquired ASE Singapore II Pte. Ltd. in August 2010.

ASE Electronics

ASE Material was established in 1997 as an ROC company for the production of interconnect materials, such as substrates, used in the packaging of semiconductors. We initially held a majority stake in ASE Material, but acquired the remaining equity by means of a merger of ASE Material with and into us in August 2004. In August 2006, we spun off the operations originally conducted through ASE Material into our wholly owned subsidiary ASE Electronics. ASE Electronics currently supplies our packaging operations with a substantial portion of our substrate requirements. The facilities of ASE Electronics are primarily located in the Nantze Export Processing Zone near our packaging and testing facilities in Kaohsiung, Taiwan.

D-1-54

Table of Contents

ASE Chung Li and ASE Korea

In July 1999, we purchased Motorola's Semiconductor Products Sector operations in Chung Li, Taiwan and Paju, South Korea for the packaging and testing of semiconductors, thereby forming ASE Chung Li and ASE Korea. In August 2004, we acquired the remaining outstanding shares of ASE Chung Li that we did not already own and merged ASE Chung Li into us.

ASE Japan

ASE Japan, which we acquired from NEC Electronics Corporation in May 2004, is our wholly owned subsidiary. It is incorporated in Japan and is engaged in the packaging and testing of semiconductors.

ASE Shanghai

ASE Shanghai was established in 2001 as a wholly owned subsidiary of ASE Inc. and began operations in June 2004. ASE Shanghai primarily manufactures and supplies interconnect materials for our packaging operations.

ASESH AT

We acquired 100% of GAPTECH, now known as ARESH AT, in January 2007 for a purchase price of US\$60.0 million. ARESH AT is a PRC company based in Shanghai, China that provides packaging and testing services for a wide range of semiconductors.

ASEN

In September 2007, we acquired 60.0% of ASEN, formerly known as NXP Semiconductors Suzhou Ltd., from NXP Semiconductors for a purchase price of US\$21.6 million. NXP Semiconductors holds the remaining 40.0% of ASEN. ASEN is based in Suzhou, China and is engaged in semiconductor packaging and testing.

ASEWH

In May 2008, we acquired 100.0% of the shares of ASEWH from Aimhigh Global Corp. and TCC Steel. ASEWH is based in Weihai, Shandong, China and is engaged in semiconductor packaging and testing.

ASEKS

ASEKS was set up in 2004 and began operating in 2010. ASEKS is based in Kunshan, China and is engaged in semiconductor packaging and testing.

Wuxi Tongzhi

In May 2013, we, through our subsidiary ASESAT, acquired 100.0% of the shares of Wuxi Tongzhi from Toshiba Semiconductor (Wuxi) Co, Ltd. Wuxi Tongzhi is based in Wuxi, China and is engaged in semiconductor packaging and testing.

USI Group

USI Group engages primarily in electronic manufacturing services in relation to computers, consumer electronics, communications, industrial and automotive, among other services and businesses. We purchased 22.6% of the outstanding shares of Universal Scientific in 1999. We subsequently increased our holding to 23.3% in 2000. As of December 31, 2009, we held approximately 18.1% of Universal Scientific's outstanding equity shares, which allowed us to exercise significant influence over Universal Scientific and therefore accounted for this investment by the equity method. In February 2010, we, along with our two subsidiaries, J&R Holding Limited and ASE Test, through a cash and stock tender offer, acquired 641,669,316 common shares of Universal Scientific at NT\$21 per share, amounting to NT\$13,475.1 million in total, resulting in our controlling ownership over Universal Scientific.

Table of Contents

As a result, Universal Scientific became our subsidiary. The shares of Universal Scientific were delisted from the TWSE on June 17, 2010, which were previously listed under the symbol “2350.” In August 2010, we acquired additional 222,243,661 shares of Universal Scientific through another tender offer at NT\$21 per share, amounting to NT\$4,667.1 million in total. In September 2012, as part of our internal business restructuring, our subsidiaries transferred their shareholdings in Universal Scientific to ASE Inc.

In February 2012, Universal Scientific Shanghai completed its IPO on the Shanghai Stock Exchange. The total proceeds from the IPO was approximately RMB811.7 million prior to deducting underwriting discounts and commissions. In November 2014, Universal Scientific Shanghai completed its capital increase by way of domestic private placements through a bidding process, raising a total of RMB2,063.0 million prior to deducting underwriting discounts and commissions. The issue price per share was RMB27.06. As of March 31, 2017, we indirectly held 75.9% of the total outstanding shares of Universal Scientific Shanghai through our subsidiaries USI Inc. and ASE Shanghai.

On February 2, 2015, Universal Scientific’s shareholders passed a resolution at the shareholders’ meeting to spin-off and assign Universal Scientific’s investment businesses with a then-estimated value of NT\$35,537.8 million to USI Inc. In April 2015, Universal Scientific completed a spin-off of its subsidiaries to USI Inc., a company incorporated under ROC law. As part of our business realignment effort, we acquired 990.1 million shares in USI Inc. on the spin-off record date, which resulted in us holding 99.2% of the total then outstanding shares of USI Inc. Following Universal Scientific’s spin-off of its investment businesses to USI Inc., Universal Scientific carried out a capital reduction plan reducing its capital from NT\$16,413.0 million to NT\$400.0 million. As a result of such spin-off, as of April 1, 2015, we held approximately 99.0% of the outstanding common shares of Universal Scientific.

Furthermore, as part of our corporate reorganization to align each business function to different legal entity groups, the board of directors of ASE Inc. passed a resolution on September 24, 2015, to announce our intention to carry out the Universal Scientific Share Transfer. The Universal Scientific Share Transfer was approved by the Investment Commission of MOEA on February 3, 2016. The majority of shares were transferred in March 2016, and the remaining shares were transferred in May 2016. As of March 31, 2017, ASE Inc. indirectly held 75.7% of Universal Scientific. Following the completion of the Universal Scientific Share Transfer, USI Group will operate under the legal entities directly and indirectly held under USI Inc. See “Item 4. Information on the Company—Information on the Company—History and Development of the Company—USI Group Restructuring” for more information.

PROPERTY, PLANTS AND EQUIPMENT

We operate a number of packaging, testing and electronic manufacturing facilities in Asia and the United States. Our facilities provide varying types or levels of services with respect to different end-product focus, customers, technologies and geographic locations. With our diverse facilities we are able to tailor our packaging, testing and electronic manufacturing solutions closely to our customers’ needs. The following table sets forth the location, commencement of operation, primary use, approximate floor space and ownership of our principal facilities as of

January 31, 2017.

Facility	Location	Commencement of Operation	Primary Use	Approximate Floor Space (in sq. ft.)	Owned or Leased
ASE Inc.	Kaohsiung, ROC	March 1984	Our primary packaging facility, which offers complete semiconductor manufacturing solutions in conjunction with ASE Test Taiwan and foundries located in Taiwan. Focuses primarily on packaging services such as flip-chip, wafer bumping and fine-pitch wire bonding.	5,924,000	Land: leased Buildings: owned and leased
	Chung Li, ROC	Acquired in July 1999	An integrated packaging and testing facility that specializes in semiconductors for communications and consumer applications.	4,162,000	Land and buildings: owned

Our major leased property in Kaohsiung consists primarily of leases of land in the Kaohsiung Nantze Export Processing Zone between ASE Inc. and ASE Test Taiwan, as the lessees, and the Export Processing Zones Administration (“the EPZA”), under the Ministry of Economic Affairs. The leases have ten-year or twenty-year terms that will expire through June 2035. No sublease or lending of the land is allowed. The EPZA has the right to adjust the rental price in the event the government revalues the land. The leases are typically renewable with three-month notice prior to the termination date.

ASE Inc. Kaohsiung Facility

In December 2013, the Kaohsiung City Environmental Protection Bureau ordered us to suspend the operations at our K7 Plant's wafer-level process where nickel was used for alleged wastewater discharge violations and imposed a NT\$110.1 million fine against us. The NT\$110.1 million fine was later reduced to NT\$109.4 million as ordered by the Kaohsiung City Environmental Protection Bureau. In December 2014, the Kaohsiung City Environmental Protection Bureau lifted the suspension order and approved the full resumption of operations of our K7 Plant after ordering a series of examinations, hearings and trial runs. In September 2015, the fine was further reduced to NT\$102.0 million by the Kaohsiung City Environmental Protection Bureau and we received a refund of NT\$7.3 million in October 2015.

D-1-59

Table of Contents

With respect to the NT\$102.0 million administrative penalty imposed on us by the Kaohsiung City Environmental Protection Bureau, we appealed to the Kaohsiung High Administrative Court in August 2014 seeking to (i) revoke Kaohsiung City Government's decision, (ii) lift the administrative penalty imposed on us and (iii) demand a refund of the administrative penalty. On March 22, 2016, the Kaohsiung High Administrative Court revoked Kaohsiung City Government's decision and lifted the administrative penalty. Our demand for a refund of the fine was dismissed. We appealed to the Supreme Administrative Court on April 14, 2016 against the Kaohsiung High Administrative Court's unfavorable ruling in dismissing a refund. The outcome of the proceeding cannot be predicted with certainty.

In connection with the same alleged violations at our K7 plant, in October 2014, the Kaohsiung District Court ruled that we were in violation of the ROC Waste Disposal Act and imposed on us a criminal penalty of NT\$3.0 million. We appealed the case to the Taiwan High Court Kaohsiung District Branch in November 2014. In September 2015, the Taiwan High Court Kaohsiung District Branch overturned the decision made by Kaohsiung District Court and found the Company not guilty and repealed the criminal penalty imposed on the Company. The verdict was final and not appealable. For additional details of these administrative actions and judicial proceedings related to our K7 Plant see "—Environmental Matters" and "Item 8. Financial Information—Consolidated Statements and Other Financial Information—Legal Proceedings."

Any future suspension of operations at K7 Plant or our other facilities may adversely affect our business, financial condition, results of operations and cash flows. See "Item 3. Key Information—Risk Factors—Risks Relating to Our Business—Any environmental claims or failure to comply with any present or future environmental regulations, as well as any fire or other industrial accident, may require us to spend additional funds and may materially and adversely affect our financial condition and results of operations."

We currently do not have plans for significant expansion, but will re-evaluate our need for future expansion based on market condition and future demand requirements to meet our expected future growth. For information on the aggregate capacity of our facilities we operate, see "—Business Overview—Equipment."

Item 4A. Unresolved Staff Comments

None.

Item 5. Operating and Financial Review and Prospects

OPERATING RESULTS AND TREND INFORMATION

The following discussion of our business, financial condition and results of operations should be read in conjunction with our consolidated financial statements, which are included elsewhere in this annual report. This discussion contains forward-looking statements that reflect our current views with respect to future events and financial performance. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of any number of factors, such as those set forth under “Item 3. Key Information—Risk Factors” and elsewhere in this annual report. See “Special Note Regarding Forward-Looking Statements.”

Overview

We offer a broad range of semiconductor packaging, testing services and we also offer electronic manufacturing services since our acquisition of a controlling interest in Universal Scientific in February 2010. In addition to offering each service separately, we also offer turnkey services, which includes integrated packaging, testing and direct shipment of semiconductors to end users designated by our customers and solution-based proactive original design manufacturing, with our customers. In addition, we started generating revenues from our real estate business since 2010. Our operating revenues increased from NT\$256,591.4 million in 2014 to NT\$283,302.5 million in 2015 and NT\$274,884.1 million (US\$8,484.1 million) in 2016.

Discussed below are several factors that have had a significant influence on our financial results in recent years.

Pricing and Revenue Mix

We price our services taking into account the actual costs involved in providing these services, with reference to prevailing market prices. The majority of our prices and revenues are denominated in U.S. dollars. Any significant fluctuation in exchange rates, especially between NT dollars and U.S. dollars, will affect our costs and, in turn, our revenues.

D-1-60

Table of Contents

In the case of semiconductor packaging, the cost of the silicon die, typically the most costly component of the packaged semiconductor, is usually not reflected in our costs (or revenues) since it is generally supplied by our customers on a consignment basis.

The semiconductor industry is characterized by a general trend toward declining prices for products and services of a given technology over time. In addition, during periods of intense competition and adverse conditions in the semiconductor industry, the pace of this decline may be more rapid than in other years. The average selling prices of our packaging and testing services have experienced sharp declines during such periods as a result of intense price competition from other market participants that attempt to maintain high capacity utilization levels in the face of reduced demand.

Declines in average selling prices have been partially offset historically by changes in our revenue mix, and typically the selling price is largely dependable on the complexity of the services. In particular, revenues derived from more advanced package types, such as flip-chip BGA, higher density packages with finer lead-to-lead spacing, or pitch, and testing of more complex, high-performance semiconductors have increased as a percentage of total revenues. We intend to continue to focus on package types such as bumping, flip-chip BGA and SiP, developing and offering new technologies in packaging and testing services and expanding our capacity to achieve economies of scale, as well as improving production efficiencies for older technologies, in order to mitigate the effects of declining average selling prices on our profitability.

Our profitability for a specific package type does not depend linearly on its average selling price. Some of our more traditional package types, which typically have low average selling prices, may well command steadier and sometimes higher margins than more advanced package types with higher average selling prices.

High Fixed Costs

Our operations, in particular our testing operations, are characterized by relatively high fixed costs. We expect to continue to incur substantial depreciation and other expenses especially from our acquisitions of packaging and testing equipment and facilities. Our profitability depends in part not only on absolute pricing levels for our products/services, but also on utilization rates on equipment, commonly referred to as “capacity utilization rates.” In particular, increases or decreases in our capacity utilization rates could have a significant effect on gross margins since the unit cost of our products and/or services generally decreases as fixed costs are allocated over a larger number of units. The capacity utilization rates of the machinery and equipment installed at our production facilities typically depend on factors such as the volume and variety of products, the efficiency of our operations in terms of the loading and adjustment of machinery and equipment for different products, the complexity of the different products to be packaged or tested, the amount of time set aside for the maintenance and repair of the machinery and equipment, and the experience and schedule of work shifts of operators.

In 2014, 2015 and 2016, our depreciation, amortization and rental expense included in operating costs as a percentage of operating revenues was 9.9% ,10.0% and 10.3%, respectively. The increase in depreciation, amortization and rental expense as a percentage of operating revenues in 2016 compared to 2015 was primarily a result of a decrease in our electronic manufacturing services revenues. We begin depreciating our equipment when the machinery is placed into service. There may sometimes be a time lag between when our equipment is available for use and when it achieves high levels of utilization. In periods of depressed industry conditions, such as the fourth quarter of 2008, we experienced lower than expected demand from customers, resulting in an increase in depreciation relative to operating revenues. In particular, the capacity utilization rates for our testing equipment are more severely affected during an industry downturn as a result of a decrease in outsourcing demand from integrated device manufacturers, which typically maintain larger in-house testing capacity than in-house packaging capacity.

In addition to purchasing testers, we also lease a portion of our testers, which we believe allows us to better manage our capacity utilization rates and cash flow. Since leased testers can be replaced with more advanced testers upon the expiration of the lease, we believe that these operating leases have enabled us to improve our capacity utilization rates by allowing us to better align our capacity with changes in equipment technology and the needs of our customers. For more information about our testers, including the number of testers under lease, see “Item 4. Information on the Company—Business Overview—Equipment—Testing.”

D-1-61

Table of Contents

Raw Material Costs

Substantially all of our raw material costs are accounted for by packaging, the production of interconnect materials and electronic manufacturing services. In particular, our electronic manufacturing services acquired in 2010 require more significant quantities of raw materials than our packaging and production of interconnect materials. In 2014, 2015 and 2016, raw material cost as a percentage of our operating revenues was 45.6% , 50.0% and 45.5%, respectively.

We have developed copper wire to gradually replace gold wire in the packaging processes in order to benefit from the lower material cost of copper. However, gold wire is still one of the principal raw materials we use in our packaging processes, and the recent volatility in the price of gold has affected our operating costs. In 2016, the spot rate for gold fluctuated from approximately US\$1,073 per ounce to approximately US\$1,370 per ounce according to the statistics published by The London Bullion Market Association. It may be difficult for us to adjust our average selling prices to account for fluctuations in the price of gold. We expect that gold wire will continue to be an important raw material for us and we therefore expect to continue to be subject to significant fluctuations in the price of gold.

Recent Accounting Pronouncements

Adopted standards for current period

In the current year, we have applied the following new, revised or amended standards and interpretations that have been issued and effective: Amendments to IFRSs *Annual Improvements to IFRSs: 2012-2014 Cycle*, Amendments to IFRS 10, IFRS 12 and International Accounting Standard (“IAS”) 28 *Investment Entities: Applying the Consolidation Exception*, Amendments to IFRS 11 *Accounting for Acquisitions of Interests in Joint Operations*, Amendments to IAS 1 *Disclosure Initiative*, Amendments to IAS 16 and IAS 38 *Clarification of Acceptable Methods of Depreciation and Amortization*. The adoption of aforementioned standards or interpretations did not have a significant effect on our accounting policies. Please refer to note 3 to our consolidated financial statements included in this annual report for more information.

Standards not yet adopted

Among the new, revised or amended standards and interpretations that have been issued but are not yet effective, we believe that the adoption of the following standards and interpretations will not have a material effect on our accounting policies: Amendments to IFRSs *Annual Improvements to IFRSs: 2014-2016 Cycle*, Amendments to IFRS 2 *Classification and Measurement of Share-based Payment Transactions*, Amendments to IFRS 4 *Applying IFRS 9*

Financial Instruments with IFRS 4 Insurance Contracts, IFRS 9 Financial Instruments, Amendments to IFRS 9 and IFRS 7 Mandatory Effective Date of IFRS 9 and Transition Disclosures, Amendments to IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture, IFRS 15 Revenue from Contracts with Customers, Amendments to IFRS 15 Clarifications to IFRS 15, IFRS 16 Leases, Amendments to IAS 7 Disclosure Initiative, Amendments to IAS 12 Recognition of Deferred Tax Assets for Unrealized Losses, Amendments to IAS 40 Transfers of investment property and IFRIC 22 Foreign Currency Transactions and Advance Consideration. We are currently evaluating the impact on our financial position and operating results as a result of the initial adoption of the following standards and interpretations: IFRS 9 Financial Instruments, IFRS 15 Revenue from Contracts with Customers, Amendments to IFRS 15 Clarifications to IFRS 15 “Revenue from Contracts with Customers”, Amendments to IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture and IFRS 16 Leases.

Please refer to note 3 to our consolidated financial statements included in this annual report for more information.

Critical Accounting Policies and Estimates

Preparation of our consolidated financial statements requires us to make estimates and judgments in applying our critical accounting policies that have a significant impact on the results we report in our consolidated financial statements. Our principal accounting policies and critical accounting judgments and key sources of estimation uncertainty are set forth in detail in note 4 and note 5, respectively, to our consolidated financial statements included in this annual report. We continually evaluate these estimates and assumptions. Actual results may differ from these estimates under different assumptions and conditions. Significant accounting policies are summarized as follows.

D-1-62

Table of Contents

Revenue Recognition. Revenue is measured at the fair value of the consideration received or receivable take into account of estimated customer returns, rebates and other similar allowances. Revenue from the sale of goods and real estate properties is recognized when the goods and real estate properties are delivered and titles have passed, at the time all the following conditions are satisfied:

· we have transferred to the buyer the significant risks and rewards of ownership of the goods and real estate properties;

· we retain neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods and real estate properties sold;

· the amount of revenue can be reliably measured;

· it is probable that the economic benefits associated with the transaction will flow to us; and

· the costs incurred or to be incurred in respect of the transaction can be reliably measured.

Service income is recognized when services are rendered.

Our customers bear the title and risk of loss for those bare semiconductor wafers that we receive and package into finished semiconductors and/or those packaged semiconductors that we receive and test for performance specifications. Accordingly, the cost of customer-supplied semiconductor materials is not included in our consolidated financial statements.

A sales discount and return allowance is recognized in the period during which the sale is recognized, and is estimated based on historical experience, the management's judgment and relevant factors.

Impairment of Accounts Receivable. We periodically record a provision for doubtful accounts based on our evaluation of the collectability of our accounts receivable. We first assess whether objective evidence of impairment exists individually in each customer for account receivable, then includes in a group basis with historical collective experience and similar credit risk characteristics and collectively assess them for impairment. As of December 31, 2014, 2015 and 2016, the allowance we set aside for doubtful accounts was NT\$84.1 million , NT\$82.9 million and NT\$53.7 million (US\$1.7 million), respectively. Additional allowances may be required in the future if the financial condition of our customers or general economic conditions further deteriorate, and this additional allowance would reduce our net income.

Inventories. Inventories are recorded at cost when acquired and stated at the lower of cost or net realizable values. Inventories are written down to net realizable value item by item, except for those that may be appropriate to group items of similar or related inventories. Materials received from customers for processing, mainly of semiconductor wafers, are excluded from inventories, as title and risk of loss remains with the customers. Net realizable value is the estimated selling prices of inventories less all estimated costs of completion and estimated costs necessary to make the sale. An allowance for loss on decline in market value and obsolescence is provided based on the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. Due to rapid technology advancements, we estimate the net realizable value of inventory for obsolete and unmarketable items at the balance sheet date and then write down the cost of inventories to net realizable value. There may be significant changes in the net realizable value of inventories, since our estimate of demand in a specific time period may vary from the actual demand.

Realization of Deferred Tax Assets. Tax benefits arising from deductible temporary differences, unused tax credits and unused loss carry-forwards are recognized as deferred tax assets to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. We have considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the deferred tax assets. The carrying amounts of deferred tax assets are reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of deferred tax assets to be utilized. A previously unrecognized deferred tax asset is also reviewed at each balance sheet date and recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be utilized. The realizability of deferred tax assets mainly depends on whether sufficient future profits or taxable temporary differences will be available. In cases where the actual future profits generated are less than expected, a material reversal of deferred tax assets may arise, which would be recognized in profit or loss for the period in which such a reversal takes place.

D-1-63

Table of Contents

Impairment of Tangible and Intangible Assets Other than Goodwill. At each balance sheet date, we review the carrying amounts of the tangible and intangible assets, excluding goodwill, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. The process of evaluating the potential impairment of tangible and intangible assets other than goodwill requires significant judgment. We are required to make subjective judgments in determining the independent cash flows, useful lives, expected future revenue and expenses related to a specific asset group, taking its usage patterns and the nature of the semiconductor industry into consideration. Any changes in our estimates caused by changing economic conditions or business strategies could result in significant impairment charges in future periods.

In 2014, 2015 and 2016, we recognized impairment losses of NT\$297.8 million, NT\$258.1 million and NT\$888.2 million (US\$27.4 million), respectively, on property, plant and equipment. See notes 14 and 23 to our consolidated financial statements included in this annual report.

Business Combinations and Acquisition of Material Associate. When we acquire businesses, goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. The allocation of the purchase price requires management to make significant estimates in determining the fair values of assets acquired and liabilities assumed, especially with respect to intangible assets. These estimates are based on historical experience, information obtained from the management of the acquired companies and independent external service providers' reports. These estimates can include, but are not limited to, the cash flows that an asset is expected to generate in the future, the appropriate weighted-average cost of capital, and the synergistic benefits expected to be derived from the acquired business. These estimates are inherently uncertain and unpredictable. In addition, unanticipated events and circumstances may occur, which may affect the accuracy or validity of such estimates.

For the associate accounted for using the equity method, goodwill is included within the carrying amount of the investment as of each investment date as the excess of cost of investments over the share acquired of the net fair value of the associate's identifiable assets acquired and the liabilities assumed at the respective investment dates. It involves critical accounting judgment and estimates when determining aforementioned fair values. We engaged independent external appraiser to identify and evaluate the associate's identifiable tangible assets, intangible assets and liabilities. The scope of such evaluation includes assumptions as current replacement cost of tangible assets, the categories of intangible assets and their expected economic benefits, growth rates and discount rates used in cash flow analysis. The amounts of differences between fair value of identified tangible and intangible assets and the carrying amount at each respective investment dates are depreciated or amortized over their remaining useful lives or expected future economic benefit lives.

For example, we acquired 33.29% shareholdings of SPIL in 2015 and 2016 and identified the differences between the cost of the investment and our share of the net fair value of SPIL's identifiable assets and liabilities in September 2016. We retrospectively adjusted the comparative financial statement for the year ended December 31, 2015. See notes 13 to our consolidated financial statements included in this annual report.

Goodwill. Goodwill is tested for impairment annually and we test for impairment more frequently if an event occurs or circumstances change that would indicate that the cash-generating unit may be impaired. Goodwill is tested for impairment by comparing the carrying amount of the cash-generating unit to which the goodwill has been allocated to its recoverable amount. Recoverable amount is defined as the higher of a cash-generating unit's fair value less costs to sell or its value in use, which is defined as the present value of the expected future cash flows generated by the cash-generating unit. In conducting the future cash flow valuation, we make assumptions about future operating cash flows, the discount rate used to determine present value of future cash flows, and capital expenditures. Future operating cash flows assumptions include sales growth assumptions, which are based on our historical trends and industry trends, and gross margin and operating expense growth assumptions, which are based on the historical relationship of those measures compared to sales and certain cost cutting initiatives. An impairment charge is incurred to the extent the carrying amount exceeds the recoverable amount. As of December 31, 2016, we had goodwill of NT\$10,558.9 million (US\$325.9 million). We did not recognize any impairment loss in 2014, 2015 and 2016. Our conclusion could, however, change in the future if actual results differ from our estimates and judgments under different assumptions and conditions.

D-1-64

Table of Contents

Valuation of Investments. We hold investments in the shareholdings of public and non-public entities. We evaluate these investments periodically for impairment based on market prices, if available, the financial condition of the investees and economic conditions in the industry and estimate of future cash inflows from disposal (net of transaction cost). These assessments usually require a significant amount of judgment, as a significant decline in the market price may be a short-term drop and may not be the best indicator of impairment. Whenever triggering events or changes in circumstances indicate that an investment may be impaired and carrying amount may not be recoverable, we measure the impairment based on the market prices, if available, or using market approach based on the financial result of the investments and estimate of future cash inflows from disposal (net of transaction cost). Several of the investments held by us are recognized as the equity method investments or available-for-sale financial assets. Any significant decline in the estimated future cash flows of the investments or financial assets could affect the value of the investment and indicate that an impairment charge may occur. In 2014, 2015 and 2016, we recognized impairment losses of NT\$10.4 million, nil and NT\$91.9 million (US\$2.8 million), respectively, on our investments. See note 23 to our consolidated financial statements included in this annual report.

Results of Operations

The following table sets forth, for the periods indicated, financial data from our consolidated statements of comprehensive income, expressed as a percentage of operating revenues.

	Year Ended December 31,			
	2014	2015	(Retrospectively	2016
		Adjusted)		
Operating revenues	100.0%	100.0	%	100.0%
Packaging	47.3	41.2		45.6
Testing	10.1	8.9		9.8
Electronic manufacturing services	41.2	48.8		42.0
Others	1.4	1.1		2.6
Operating costs	(79.1)	(82.3)	(80.6)

Table of Contents

The following table sets forth, for the periods indicated, the gross margins for our packaging, testing services and electronic manufacturing services and our total gross margin. Gross margin is calculated by dividing gross profits by operating revenues.

	Year Ended December 31, 2014 2015 2016 (percentage of operating revenues)		
Gross profit			
Packaging	27.2%	26.0%	22.8%
Testing	37.2	35.8	36.9
Electronic manufacturing services	8.6	6.8	9.7
Overall	20.9%	17.7%	19.4%

The following table sets forth, for the periods indicated, a breakdown of our total operating costs and operating expenses, expressed as a percentage of operating revenues.

	Year Ended December 31, 2014 2015 2016 (percentage of operating revenues)		
Operating costs			
Raw materials	45.6%	50.0%	45.5%
Labor	13.0	12.3	13.0
Depreciation, amortization and rental expense	9.9	10.0	10.3
Others	10.6	10.0	11.8
Total operating costs	79.1%	82.3%	80.6%
Operating expenses			
Selling	1.3 %	1.3 %	1.3 %
General and administrative	4.0	3.8	4.2
Research and development	4.0	3.8	4.1
Total operating expenses	9.3 %	8.9 %	9.6 %

Year ended December 31, 2016 Compared to Year Ended December 31, 2015

Operating Revenues. Operating revenues decreased 3.0% to NT\$274,884.1 million (US\$8,484.1 million) in 2016 from NT\$283,302.5 million in 2015, primarily due to a decrease in revenues from our electronic manufacturing services business. Packaging revenues increased 7.4% to NT\$125,282.8 million (US\$3,866.8 million) in 2016 from NT\$116,607.3 million in 2015, primarily due to an increase in demand for our Bumping, Flip Chip, WLP & Sip and

IC wirebonding products. Testing revenues increased 7.3% to NT\$27,031.8 million (US\$834.3 million) in 2016 from NT\$25,191.9 million in 2015, primarily due to an increase in sales volume of our testing business. Revenues from our electronic manufacturing services business decreased 16.5% to NT\$115,395.1 million (US\$3,561.6 million) in 2016 from NT\$138,242.1 million in 2015, primarily due to a decrease in the outsourced orders for communications and consumer products.

Gross Profit. Gross profit increased 6.1% to NT\$53,194.2 million (US\$1,641.8 million) in 2016 from NT\$50,135.2 million in 2015. Our gross profit as a percentage of operating revenues, or gross margin, was 19.4% in 2016 compared to 17.7% in 2015. The increase was primarily due to a decline of our electronic manufacturing services business with a lower gross margin. Raw material costs in 2016 were NT\$125,133.8 million (US\$3,862.2 million) compared to NT\$141,778.8 million in 2015. As a percentage of operating revenues, raw material costs decreased to 45.5% in 2016 from 50.0% in 2015 primarily due to a decrease in orders in our electronic manufacturing services business, which required relatively higher raw material costs compared to our other businesses. Labor cost in 2016 was NT\$35,588.5 million (US\$1,098.4 million) compared to NT\$34,720.4 million in 2015. As a percentage of operating revenues, labor cost increased to 13% in 2016 from 12.3% in 2015 primarily due to the decline of our operating revenues. Depreciation, amortization and rental expenses were NT\$28,117.6 million (US\$867.8 million) in 2016 compared to NT\$28,191.8 million in 2015. As a percentage of operating revenues, depreciation, amortization and rental expenses increased to 10.3% in 2016 from 10.0% in 2015. Our gross margin for our packaging business decreased to 22.8% in 2016 from 26.0% in 2015, primarily due to a decrease in the sale of products with higher gross margins. Our gross margin for our testing business increased to 36.9% in 2016 from 35.8% in 2015 primarily due to a decrease in depreciation expenses as a percentage of testing revenues. Our gross margin for our electronic manufacturing services business increased to 9.7% in 2016 from 6.8% in 2015 primarily due to a decrease in the sale of products with lower gross margins.

Table of Contents

Profit from operations. Profit from operations increased 5.2% to NT\$25,908.2 million (US\$799.6 million) in 2016 compared to NT\$24,633.1 million in 2015. Our profit from operations as a percentage of operating revenues, or operating margin, increased to 9.5% in 2016 from 8.7% in 2015 primarily due to an increase in gross margin. Operating expenses increased 4.9% to NT\$26,485.7 million (US\$817.5 million) in 2016 compared to NT\$25,250.6 million in 2015. The increase in operating expenses was primarily due to an increase in general and administrative expense, as well as research and development expense. General and administrative expense increased 8.7% to NT\$11,662.1 million (US\$359.9 million) in 2016 from NT\$10,724.6 million in 2015, primarily due to an increase in our professional fees incurred in relation to various investment strategies and an increase in salary expenses in connection with the cost related to stock options granted in the fourth quarter of 2015 and recognized in 2016. General and administrative expense as a percentage of our operating revenues was 4.2% in 2016, compared to 3.8% in 2015. Research and development expense increased 4.1% to NT\$11,391.1 million (US\$351.6 million), accounting for 4.1% of operating revenues in 2016, compared to NT\$10,937.5 million, accounting for 3.8% of operating revenues in 2015. This increase in the research and development expense was primarily due to an increase in salary expenses in relation to stock options granted in the fourth quarter of 2015 and recognized in 2016. Selling expense decreased 4.3% to NT\$3,432.5 million (US\$105.9 million) in 2016 from NT\$3,588.5 million in 2015. This decrease was primarily due to a decrease in amortization expenses in connection with intangible assets acquired in prior mergers. Selling expense as a percentage of operating revenues was 1.3% in both 2016 and 2015. We had a net other operating expense of NT\$800.3 million (US\$24.7 million) in 2016 compared to a net other operating expense of NT\$251.5 million in 2015. The increase in net other operating expense was primarily due to an increase in impairment loss on property, plant and equipment.

Non-Operating Expense, Net. We had a net non-operating income of NT\$2,116.9 million (US\$65.4 million) in 2016 compared to a net non-operating income of NT\$378.7 million (adjusted) in 2015. This increase was primarily due to (i) an increase in non-operating income due to the change in the net loss on valuation of financial assets and liabilities and net foreign exchange loss which resulted in an increase in net gain from NT\$1,759.6 million in 2015 to NT\$2,375.9 million (US\$73.3 million) in 2016 and (ii) an increase in non-operating income due to the increase in the income earned from equity method investments from the profit of NT\$126.3 million in 2015 to the profit of NT\$1,512.2 million (US\$46.7 million) in 2016, partially offset by a decrease in non-operating income due to a decrease in dividends income from NT\$397.0 million in 2015 to NT\$26.4 million (US\$0.8 million) in 2016.

Net Profit. Net profit, excluding non-controlling interests, increased 8.3% to NT\$21,361.6 million (US\$659.3 million) in 2016 compared to NT\$19,732.1 million (adjusted) in 2015. Our diluted earnings per ADS decreased to NT\$11.67 (US\$0.36) in 2016 compared to diluted earnings per ADS of NT\$12.38 in 2015. Our income tax expense increased 25% to NT\$5,390.8 million (US\$166.4 million) in 2016 compared to NT\$4,311.1 million in 2015, primarily due to an increase in income tax on undistributed earnings and an increase in income tax of our real estate business which generated more operating revenues in 2016.

Year ended December 31, 2015 Compared to Year Ended December 31, 2014

Operating Revenues. Operating revenues increased 10.4% to NT\$283,302.5 million in 2015 from NT\$256,591.4 million in 2014, primarily due to an increase in revenues from our electronic manufacturing services business. Packaging revenues decreased 3.9% to NT\$116,607.3 million in 2015 from NT\$121,336.5 million in 2014. Testing revenues decreased 2.6% to NT\$25,191.9 million in 2015 from NT\$25,874.7 million in 2014. Revenues from our electronic manufacturing services business increased 30.7% to NT\$138,242.1 million in 2015 from NT\$105,784.4 million in 2014. The decrease in packaging and testing revenues was primarily due to slightly soft demand in the end-application market. The increase in the revenues from our electronic manufacturing services business was primarily due to an increase in the outsourced orders for communications and consumer products.

Gross Profit. Gross profit decreased 6.4% to NT\$50,135.2 million in 2015 from NT\$53,588.5 million in 2014. Our gross profit as a percentage of operating revenues, or gross margin, was 17.7% in 2015 compared to 20.9% in 2014. The decrease was primarily due to the growth in our electronic manufacturing services business with a lower gross margin. Raw material costs in 2015 were NT\$141,778.8 million compared to NT\$116,998.6 million in 2014. As a percentage of operating revenues, raw material costs increased to 50.0% in 2015 from 45.6% in 2014 primarily due to an increase in orders in our electronic manufacturing services business, which required relatively higher raw material costs compared to our other businesses. Depreciation, amortization and rental expenses were NT\$28,191.8 million in 2015 compared to NT\$25,386.7 million in 2014. As a percentage of operating revenues, depreciation, amortization and rental expenses increased to 10.0% in 2015 from 9.9% in 2014 due to a decrease in our packaging and testing revenues. Labor cost in 2015 was NT\$34,720.4 million compared to NT\$33,243.2 million in 2014. As a percentage of operating revenues, labor cost decreased to 12.3% in 2015 from 13.0% in 2014 primarily due to the growth of our operating revenues. Our gross margin for our packaging business decreased to 26.0% in 2015 from 27.2% in 2014 due to an increase in labor costs and depreciation expenses as a percentage of packaging revenue, partially offset by a decrease in raw material costs as a percentage of packaging revenues. Our gross margin for our testing business decreased to 35.8% in 2015 from 37.2% in 2014 primarily due to an increase in depreciation expenses as a percentage of testing revenues. Our gross margin for our electronic manufacturing services business decreased to 6.8% in 2015 from 8.6% in 2014 primarily due to an increase in the sale of products with lower gross margins.

D-1-67

Table of Contents

Profit from operations. Profit from operations decreased 17.5% to NT\$24,633.1 million in 2015 compared to NT\$29,874.5 million in 2014. Our profit from operations as a percentage of operating revenues, or operating margin, decreased to 8.7% in 2015 from 11.6% in 2014 primarily due to a decrease in gross margin. Operating expenses increased 5.5% to NT\$25,250.6 million in 2015 compared to NT\$23,942.7 million in 2014. The increase in operating expenses was primarily due to an increase in general and administrative expense, as well as research and development expense. General and administrative expense increased 5.0% to NT\$10,724.6 million in 2015 from NT\$10,214.8 million in 2014, primarily due to the professional service fees incurred from our strategic investments in 2015, including that incurred for the Initial SPIL Tender Offer and Second SPIL Tender Offer. General and administrative expense as a percentage of our operating revenues was 3.8% in 2015, compared to 4.0% in 2014. Research and development expense increased 6.3% to NT\$10,937.5 million, accounting for 3.8% of operating revenues in 2015, compared to NT\$10,289.7 million, accounting for 4.0% of operating revenues in 2014. This increase in the research and development expense was primarily due to an increase in salary expenses from increased headcounts. Selling expense increased 4.4% to NT\$3,588.5 million in 2015 from NT\$3,438.2 million in 2014. This increase was primarily due to an increase in salary and bonus expenses primarily due to salary raises. Selling expense as a percentage of operating revenues was 1.3% in both 2015 and 2014. We had a net other operating expense of NT\$251.5 million in 2015 compared to a net other operating income of NT\$228.7 million in 2014. The increase in net other operating expense was primarily due to (i) the reversal of the settlement with Tessera in relation to patent infringement claims in the amount of US\$3.0 million in the fourth quarter of 2014 due to the reduction of the final settlement amount from US\$30.0 million to US\$27.0 million and (ii) the receipt of direct reimbursement from Citibank, N.A., the depository bank for our ADR programs, in the amount of US\$4.1 million (net of U.S. withholding tax) in 2014.

Non-Operating Expense, Net. We had a net non-operating income of NT\$378.7 million (adjusted) in 2015 compared to a net non-operating expense of NT\$1,339.4 million in 2014. This increase was primarily due to (i) an increase in non-operating income due to the change in the net gain/loss on valuation of financial assets and liabilities and net foreign exchange gain/loss which resulted in an increase in net gain from NT\$616.9 million in 2014 to NT\$1,759.6 million in 2015, (ii) an increase in non-operating income due to the increase in the income earned from equity method investments from the loss of NT\$121.9 million in 2014 to the profit of NT\$126.2 million (adjusted) in 2015 and (iii) an increase in non-operating income due to an increase in dividends income from NT\$101.3 million in 2014 to NT\$397.0 million in 2015.

Net Profit. Net profit, excluding non-controlling interests, decreased 11.2% to NT\$19,732.1 million (adjusted) in 2015 compared to NT\$22,228.6 million in 2014. Our diluted earnings per ADS decreased to NT\$12.38 in 2015 compared to diluted earnings per ADS of NT\$13.93 in 2014. Our income tax expense decreased 23.9% to NT\$4,311.1 million in 2015 compared to NT\$5,666.0 million in 2014, primarily due to a decrease in the income tax on undistributed earnings.

Quarterly Operating Revenues, Gross Profit and Gross Margin

The following table sets forth our unaudited consolidated operating revenues, gross profit and gross margin for the quarterly periods indicated. The unaudited quarterly results reflect all adjustments, consisting of normal recurring adjustments, that, in the opinion of management, are necessary for a fair presentation of the amounts, on a basis

consistent with the audited consolidated financial statements included elsewhere in this annual report. You should read the following table in conjunction with the audited consolidated financial statements and related notes included elsewhere in this annual report. Our operating revenues, gross profit and gross margin for any quarter are not necessarily indicative of the results for any future period. Our quarterly operating revenues, gross profit and gross margin may fluctuate significantly.

Our results of operations are affected by seasonality. In general, our first quarter operating revenues have historically decreased over the preceding fourth quarter, primarily due to the combined effects of holidays in the United States, Taiwan and elsewhere in Asia. Moreover, the increase or decrease in operating revenues of a particular quarter as compared with the immediately preceding quarter varies significantly. See “Item 3. Key Information—Risk Factors—Risks Relating to Our Business—Our operating results are subject to significant fluctuations, which could adversely affect the market value of your investment.”

Exchange Rate Fluctuations

For quantitative and qualitative disclosure of our exposure to foreign currency exchange rate risk, see “Item 11. Quantitative and Qualitative Disclosures about Market Risk—Market Risk—Foreign Currency Exchange Rate Risk.”

Taxation

The corporate income tax rate in the ROC decreased from 25% to 17%, effective since January 1, 2010. The ROC Statute for Upgrading Industries, which provided various tax incentives including investment tax credits, tax exemptions and tax holidays for companies, expired on December 31, 2009. Under this statute, we had been granted tax holidays covering the portion of our income attributable to eligible machinery and equipment that were procured with cash infusions from our shareholders or after the capitalization of retained earnings through the issuance of stock dividends, and tax credits of 7% for the purchase of qualifying manufacturing equipment. We can continue to enjoy the tax holidays that have been granted to us by the ROC tax authority. On April 16, 2010, the Legislative Yuan of ROC passed the Industrial Innovation Act, effective from January 1, 2010 to December 31, 2019. Under the prevailing Industrial Innovation Act, a profit-seeking enterprise may deduct up to (i) 15% of its research and

D-1-69

Table of Contents

development expenditures from its income tax payable for the fiscal year in which these expenditures are incurred; or (ii) 10% of its research and development expenditures from its income tax payable for the fiscal year in which these expenditures are incurred or the following two years. However, the deduction may not exceed 30% of the income tax payable for that fiscal year. Under the Alternative Minimum Tax Act (the "AMT Act") which took effect on January 2006 and was amended in August 2012, when the amount of the regular income tax calculated pursuant to the AMT Act is below the amount of the alternative minimum tax, or the AMT, a taxpayer is required to pay the difference between the AMT and the said regular income tax, which becomes the AMT payable. Taxable income for calculating the AMT includes most sources of income that are exempted from income tax under various legislations such as tax holidays. However, there are grandfathered treatments for the tax holidays approved by the tax authority before the AMT Act took effect. Under the amended AMT Act, the standard deduction for taxable income that applies to business entities decreased from NT\$2.0 million to NT\$0.5 million and the tax rate that applies to business entities increased from 10% to 12%. The amendment to the AMT Act became effective on January 1, 2013.

As of December 31, 2016, we had two five-year tax holidays on income derived from a portion of our operations in Kaohsiung, Taiwan, which will expire through 2018 and 2022, respectively. In addition, some of our subsidiaries, such as ASE Test Taiwan and ASE Electronics, are entitled to certain tax exemptions on income derived from a portion of their respective operations, which will expire through 2018, 2020 and 2022, respectively. The aggregate tax benefits of such exemptions for the years ended December 31, 2014, 2015 and 2016 were NT\$623.7 million, NT\$538.0 million and NT\$700.3 million (US\$21.6 million), respectively. The effect of such tax exemption on basic earnings per share for the year ended December 31, 2014, 2015 and 2016 were NT\$0.08, NT\$0.07 and, NT\$0.09 (US\$0.00), respectively.

In addition, since we have facilities located in special export zones such as the Nantze Export Processing Zone in Taiwan, we enjoy exemptions from various import duties, commodity taxes and business taxes on imported machinery, equipment, raw materials and components which are directly used for manufacturing finished goods. We also enjoy exemptions from commodity and business taxes on finished goods exported or sold to others within the zones.

Under the ROC Income Tax Act, after January 1998, all earnings generated in a year which are not distributed to shareholders as dividends in the following year will be assessed a 10% undistributed earnings tax. As a result, if we do not distribute all of our annual earnings as either cash or stock dividends in the following year, these undistributed earnings will be subject to the 10% undistributed earnings tax. However, when we declare a dividend out of those undistributed earnings on which the 10% undistributed earnings tax had been paid, up to 5% of such undistributed earnings tax may be credited against the withholding tax imposed on the dividends.

In 2015, our effective income tax rate decreased to 17% from 20% in 2014 primarily due to a decrease in undistributed earnings tax. In 2016, our effective income tax rate increased to 19% from 17% in 2015 primarily due to an increase in undistributed earnings tax and an increase in income tax of our real estate business which generated more operating revenues in 2016. We believe that our future estimated taxable income will be sufficient to utilize our deferred tax assets recorded as of December 31, 2016.

Our non-ROC subsidiaries are subject to taxation in their respective jurisdiction.

Inflation

We do not believe that inflation in Taiwan or elsewhere has had a material impact on our results of operations.

LIQUIDITY AND CAPITAL RESOURCES

We have historically been able to satisfy our working capital needs from our cash flow from operations. We have historically funded our capacity expansion from internally generated cash and, to the extent necessary, the issuance of equity securities and borrowings. If adequate funds are not available on satisfactory terms, we may be forced to curtail our expansion plans. Moreover, our ability to meet our working capital needs from cash flow from operations will be affected by the demand for our packaging, testing services and electronic manufacturing services, which in turn may be affected by several factors. Many of these factors are outside of our control, such as economic downturns and declines in the prices of our services or products caused by a downturn in the industry. See “Item 3. Key Information—Risk Factors—Risks Relating to Our Business—Our operating results are subject to significant fluctuations, which could adversely affect the market value of your investment.” To the extent we do not generate sufficient cash flow from our operations to meet our cash requirements, we will have to rely on external financing.

D-1-70

Table of Contents

Net cash provided by operating activities amounted to NT\$52,107.9 million (US\$1,608.3 million) in 2016 primarily as a result of (i) our operation performance with profit before income tax of NT\$28,025.1 million (US\$865.0 million) and (ii) our non-cash depreciation and amortization in the amount of NT\$29,422.3 million (US\$908.1 million). Net cash provided by operating activities amounted to NT\$57,548.3 million in 2015 primarily as a result of (i) our operation performance with profit before income tax of NT\$25,011.8 million (adjusted) and (ii) our non-cash depreciation and amortization in the amount of NT\$29,518.7 million. Net cash provided by operating activities amounted to NT\$45,863.5 million in 2014, primarily as a result of (i) our operation performance with profit before income tax of NT\$28,535.1 million and (ii) our non-cash depreciation and amortization in the amount of NT\$26,350.8 million. The decrease in net cash provided by operating activities in 2016 compared to 2015 was primarily due to cash outflows from trade receivables, partially offset by cash inflows from a decrease in inventories. The increase in net cash provided by operating activities in 2015 compared to 2014 was primarily due to cash inflows from a decrease in trade receivables, partially offset by cash outflows from a decrease in trade payables.

Net cash used in investing activities amounted to NT\$ 43,159.5 million (US\$ 1,332.1 million) in 2016 primarily due to our acquisition of property, plant and equipment of NT\$ 26,714.2 million (US\$ 824.5 million) and our acquisition of associates and joint ventures of NT\$ 16,041.5 million (US\$ 495.1 million). Net cash used in investing activities amounted to NT\$63,351.4 million in 2015 primarily due to our acquisition of associates and joint ventures of NT\$35,673.1 million and our acquisition of property, plant and equipment of NT\$30,280.1 million. Net cash used in investing activities amounted to NT\$38,817.9 million in 2014, primarily due to our acquisition of property, plant and equipment of NT\$39,599.0 million.

Net cash used in financing activities amounted to NT\$21,087.0 million (US\$650.8 million) in 2016. This amount reflected primarily (i) our distributed cash dividends to owners of the Company in the amount of NT\$12,243.8 million (US\$377.9 million); (ii) our net repayment of short-term bank loans and bills payable and long-term bank loans and bills payable in the amount of NT\$5,630.3 million (US\$173.8 million); (iii) decrease in non-controlling interests in the amount of NT\$3,063.6 million (US\$94.6 million) due to Universal Scientific's restructuring; and (iv) the net repayment of bonds payable in the amount of NT\$1,365.1 million (US\$42.1 million). Net cash provided by financing activities amounted to NT\$8,636.3 million in 2015. This amount reflected primarily (i) our net proceeds from short-term bank loans and bills payable and long-term bank loans and bills payable in the amount of NT\$12,776.2 million; (ii) the net proceeds from the 2018 NTD-linked Convertible Bonds of NT\$6,136.4 million and (iii) our proceeds from partial disposal of interests in subsidiaries of NT\$8,910.3 million, which was partially offset by (i) our distributed cash dividends to owners of the Company in the amount of NT\$15,297.5 million and (ii) our payments for repurchases of treasury shares of NT\$5,333.4 million. Net cash used in financing activities amounted to NT\$2,797.0 million in 2014. This amount reflected primarily (i) our net repayment of short-term borrowings and long-term bank loans in the amount of NT\$12,389.7 million; and (ii) our distributed cash dividends to owners of the Company in the amount of NT\$9,967.2 million, partially offset by (i) our net proceeds from issue of bonds of NT\$8,158.8 million; and (ii) change in non-controlling interests of NT\$9,905.7 million due to Universal Scientific Shanghai's capital increase.

As of December 31, 2016, our primary source of liquidity was NT\$38,392.5 million (US\$1,185.0 million) of cash and cash equivalents and NT\$3,336.5 million (US\$103.0 million) of financial assets—current. Our financial assets—current primarily consisted of structured time deposits and swap contracts. As of December 31, 2016, we had total unused credit lines of NT\$176,185.0 million (US\$5,437.8 million). As of December 31, 2016, we had working capital of NT\$35,820.1 million (US\$1,105.6 million).

As of December 31, 2016, we had total borrowings of NT\$111,651.5 million (US\$3,446.0 million), of which NT\$20,955.5 million (US\$646.8 million) were short-term debts and NT\$90,696.0 million (US\$2,799.2 million) were long-term debts. In 2016, the maximum amount of our short-term debts was NT\$45,182.1 million (US\$1,394.5 million) and the average amount of our short-term debts was NT\$32,688.7 million (US\$1,008.9 million). The fluctuation was primarily because our working capital balance fluctuated during 2016 from time to time. The annual interest rate for borrowings under our short-term bank loans and bills payable ranged from 0.70% to 8.99% as of December 31, 2016. Our short-term bank loans are primarily revolving facilities with a term of one year, each of which may be extended on an annual basis with lender consent. Our long-term debts consist of bank loans, bills payable, bonds payable and capital lease obligations. As of December 31, 2016, we had outstanding long-term debts, less current portion, of NT\$74,354.9 million (US\$2,294.9 million). As of December 31, 2016, the current portion of our long-term debts was NT\$16,341.1 million (US\$504.3million). Our long-term bank loans and bills payable typically carried variable annual interest rates which ranged between 0.74% to 5.39% as of December 31, 2016. For the maturity information and interest rates by currencies, see “Item 11—Quantitative and Qualitative Disclosures about Market Risk—Market Risk—Interest Rate Risk.”

D-1-71

Table of Contents

We have pledged a portion of our assets, with a carrying value of NT\$17,033.3 million (US\$525.7 million) as of December 31, 2016, to secure our obligations under our short-term and long-term facilities.

In August 2011, we issued NT\$8.0 billion 1.45% secured corporate bonds with five year term, guaranteed by the Bank of Taiwan, Mega International Commercial Bank, Taiwan Cooperative Bank, First Bank and Hua Nan Bank. The Corporate Bonds bear an annual simple interest and payment by coupon rate from the issue date. The Corporate Bonds matured and were repaid in August 2016. The net proceeds from the Corporate Bonds were used to repay our previous debts.

In September 2011, Anstock Limited, our wholly owned subsidiary incorporated in the Cayman Islands with limited liability, issued RMB150.0 million 3.125% Guaranteed Bonds due September 22, 2014 and RMB500.0 million 4.250% Guaranteed Bonds due September 20, 2016. The 2014 Bonds and 2016 Bonds were offered to certain non-U.S. persons in compliance with Regulation S under the Securities Act. The 2014 and 2016 Bonds are irrevocably and unconditionally guaranteed on an unsecured and unsubordinated basis by us. The 2014 Bonds matured and were repaid on September 22, 2014. The 2016 Bonds bear interest from and including September 20, 2011 at the rate of 4.250% per annum. Interest on the 2016 Bonds is payable semi-annually in arrears on September 20 and March 20 of each year beginning on March 20, 2012. The 2016 Bonds matured and were repaid on September 20, 2016. The net proceeds from the 2014 and 2016 Bonds were advanced by Anstock Limited to ASES AT in the form of an intercompany RMB loan for working capital and capital expenditure with maturity in September 2016.

In September 2013, we issued US\$400.0 million aggregate principal amount of zero coupon convertible bonds due 2018. The 2018 Convertible Bonds were offered to persons outside of the United States in compliance with Regulation S under the Securities Act. The initial conversion price was NT\$33.085 per common share, subject to certain adjustments, determined on the basis of a fixed exchange rate of NT\$29.956 = US\$1.00 (which represents an approximately 31.3% conversion premium over the closing trading price of our common shares on August 28, 2013 of NT\$25.20 per common share). The conversion price is subject to adjustment upon the occurrence of certain events, such as the Capital Increase and cash dividend distribution. As of the date of this annual report, the conversion price is NT\$28.96 per common share. The bonds will mature on September 5, 2018, unless previously repurchased or converted in accordance with their terms prior to such date. We used the net proceeds to fund procurement of raw materials from overseas. Please refer to note 19 of our consolidated financial statements included in this annual report for more information. As of December 31, 2016, the balance of the outstanding convertible bonds was US\$400.0 million.

In July 2014, Anstock II Limited offered US\$300.0 million aggregate principal amount of guaranteed bonds due 2017. The Green Bonds are unconditionally and irrevocably guaranteed by us. The Green Bonds were offered to persons outside of the United States in compliance with Regulation S under the Securities Act. The Green Bonds bear interest from and including July 24, 2014 at the rate of 2.125% per annum. Interest on the Green Bonds is payable semi-annually in arrears on January 24 and July 24 of each year beginning on January 24, 2015. The Green Bonds will mature on July 24, 2017 unless previously redeemed or repurchased and cancelled. The net proceeds from the Green

Bonds offering were used to fund projects that promote our transition to low-carbon and climate-resilient growth.

In July 2015, we issued US\$200.0 million aggregate principal amount of NTD-linked zero coupon convertible bonds due 2018. The 2018 NTD-linked Convertible Bonds were offered to persons outside of the United States in compliance with Regulation S under the Securities Act. The initial conversion price was NT\$54.5465 per common share, subject to certain adjustments, determined on the basis of a fixed exchange rate of NT\$30.928 = US\$1.00 (which represents an approximately 27.0% conversion premium over the closing trading price of our common shares on June 25, 2015 of NT\$42.95 per common share). The conversion price is subject to adjustment upon the occurrence of certain events, such as the cash dividend distribution. As of the date of this annual report, the conversion price is NT\$49.48 per common share. The bonds will mature on March 27, 2018, unless previously repurchased or converted in accordance with their terms prior to such date. We used the net proceeds to fund procurement of equipment from overseas. Please refer to note 19 of our consolidated financial statements included in this annual report for more information. As of December 31, 2016, the balance of the outstanding convertible bonds was US\$200.0 million.

D-1-72

Table of Contents

In January 2016, we issued NT\$7,000.0 million 1.30% unsecured corporate bonds with five year term and NT\$2,000.0 million 1.50% unsecured corporate bonds with seven year term. The bonds bear an annual simple interest and payment by coupon rate from the issue date. The net proceeds from the bonds were used to repay our previous debts.

In January 2017, we issued NT\$3,700.0 million (US\$114.2 million) 1.25% unsecured corporate bonds with five year term and NT\$4,300.0 million (US\$132.7 million) 1.45% unsecured corporate bonds with seven year term. The bonds bear an annual simple interest and payment by coupon rate from the issue date. The net proceeds from the bonds were used to repay our previous debts.

In March 2017, we granted rights to the record holders of our existing common shares to subscribe for an aggregate of 240,000,000 of our common shares, par value NT\$10.0 per share (the “Rights Offering”). Substantially concurrently with the Rights Offering, we also offered 30,000,000 of our common shares to our employees (the “Employee Offering”) and offered 30,000,000 of our common shares to the public in Taiwan (the “Taiwan Public Offering”, together with the Rights Offering and the Employee Offering, the “Capital Increase”). A total of 300,000,000 of our common shares were offered under the Capital Increase, which were fully subscribed and raised NT\$10,290.0 million (US\$317.6 million). The net proceeds of the Capital Increase were used to repay our previous debts. Both the Employee Offering and the Taiwan Public Offering were made pursuant to an offer exempt from registration with the SEC pursuant to Regulation S of the Securities Act.

We currently have one syndicated loan agreement outstanding. In July 2013, we entered into a US\$400.0 million five-year syndicated credit facility, for which the Bank of Taiwan acted as the agent bank, for the purpose of funding the purchase of machinery and equipment at our facility and funding general operations. As of December 31, 2016, NT\$9,223.5 million (US\$284.7 million) was outstanding under this credit facility. This syndicated loan agreement contains undertakings and restrictive covenants relating to the maintenance of certain financial ratios including: (i) current ratio (current assets to current liabilities) of not less than 100.0%; (ii) leverage ratio (total liabilities to tangible net worth) of not higher than 160.0%; (iii) interest coverage ratio (EBITDA to interest expense) of not less than 280.0%; and (iv) tangible net worth not less than NT\$75,000.0 million.

We have in the past failed to comply with certain financial covenants in some of our loan agreements. Such non-compliance may also have, through broadly worded cross-default provisions, resulted in default under some of the agreements governing our other existing debt. As of December 31, 2016, we were not in breach of any of the financial covenants under our existing loan agreements. If we are unable to timely remedy any of our non-compliance under such loan agreements or obtain applicable waivers or amendments, we would breach our financial covenants and our financial condition would be adversely affected. See “Item 3. Key Information—Risk Factors—Risks Relating to Our Business—Restrictive covenants and broad default provisions in our existing debt agreements may materially restrict our operations as well as adversely affect our liquidity, financial condition and results of operations.”

Our contingent obligations consist of guarantees provided by us to our subsidiaries. As of December 31, 2016, we endorsed and guaranteed the bonds issued by our subsidiaries, Anstock II Limited, in the amount of US\$306.4 million. Other than such guarantees, we have no other contingent obligations.

We have made, and expect to continue to make, substantial capital expenditures in connection with the expansion of our production capacity. The table below sets forth our principal capital expenditures incurred for the periods indicated.

	Year Ended December 31,			US\$
	2014	2015	2016	
	NT\$	NT\$	NT\$	
	(in millions)			
Machinery and equipment	31,735.5	18,318.4	21,978.3	678.3
Building and improvements	11,713.1	9,962.4	5,702.6	176.0
Total	43,448.6	28,280.8	27,680.9	854.3

D-1-73

Table of Contents

We had commitments for capital expenditures of approximately US\$204.7 million, of which US\$20.6 million had been paid as of December 31, 2016, primarily in connection with the expansion of our packaging and testing services operations. We estimate that our environmental capital expenditures for 2017 will be approximately US\$14.7 million, of which 13.9% will be used in climate change adaptation. We may adjust our capital expenditures based on market conditions, the progress of our expansion plans and cash flow from operations. In addition, due to the rapid changes in technology in the semiconductor industry, we frequently need to invest in new machinery and equipment, which may require us to raise additional capital. We cannot assure you that we will be able to raise additional capital should it become necessary on terms acceptable to us or at all. See “Item 3. Key Information—Risk Factors—Risks Relating to Our Business—The packaging and testing businesses are capital intensive. If we cannot obtain additional capital when we need it, our growth prospects and future profitability may be adversely affected.”

We believe that our existing cash, marketable securities, expected cash flow from operations and existing credit lines under our loan facilities will be sufficient to meet our capital expenditures, working capital, cash obligations under our existing debt and lease arrangements, and other requirements for at least the next 12 months. We currently hold cash primarily in U.S. dollars, RMB, New Taiwan dollars, Korean Won and Japanese yen. As of December 31, 2016, we had contractual obligations of NT\$83,793.3 million (US\$2,586.2 million) due in the next three years. We currently expect to meet our payment obligations through the expected cash flow from operations, long-term borrowings and the issuance of additional equity or equity-linked securities. We will continue to evaluate our capital structure and may decide from time to time to increase or decrease our financial leverage through equity offerings or borrowings. The issuance of additional equity or equity-linked securities may result in additional dilution to our shareholders.

From time to time, we evaluate possible investments, acquisitions or divestments and may, if a suitable opportunity arises, make an investment, acquisition or divestment.

Our treasury team, under the supervision of our chief financial officer, is responsible for setting our funding and treasury policies and objectives. Our exposure to financial market risks relates primarily to changes in interest rates and foreign currency exchange rates. To mitigate these risks, we utilize derivative financial instruments, the application of which is primarily to manage these exposures, and not for speculative purposes.

We have, from time to time, entered into interest rate swap transactions to hedge our interest rate exposure. In addition, we have, from time to time, entered into forward exchange contracts, swap contracts, cross currency swap contracts and European foreign currency options contracts to hedge our existing assets and liabilities denominated in foreign currencies. See “Item 11. Quantitative and Qualitative Disclosures about Market Risk” and notes 7 and 32 to our consolidated financial statements included in this annual report.

RESEARCH AND DEVELOPMENT

For 2014, 2015 and 2016, our research and development expenditures totaled approximately NT\$10,289.7 million, NT\$10,937.5 million and NT\$ 11,391.1 million (US\$351.6 million), respectively. These expenditures represented approximately 4.0%, 3.8% and 4.1% of operating revenues in 2014, 2015 and 2016, respectively. We have historically expensed all research and development costs as incurred and none is currently capitalized. As of January 2017, we employed 7,495 employees in research and development.

Packaging

We centralize our research and development efforts in packaging technology in our Kaohsiung, Taiwan facilities. After initial phases of development, we conduct pilot runs in one of our facilities before new technologies or processes are implemented commercially at other sites. Facilities with special product expertise, such as ASE Korea, also conduct research and development of these specialized products and technologies at their sites. One of the areas of emphasis for our research and development efforts is improving the efficiency and technology of our packaging processes and these efforts are expected to continue. We are also putting significant research and development efforts into the development and adoption of innovative technology. We work closely with manufacturers of our packaging equipment and materials in designing and developing the equipment and materials used in our production process. We also collaborate with our significant customers to co-develop new product and process technologies.

D-1-74

Table of Contents

In addition to investing in the development of more advanced packaging technology and improving production efficiency, a significant portion of our research and development efforts is focused on the development of IC substrate production technology for BGA packaging. Substrate is the principal raw material for BGA packages. Development and production of IC substrates involve complex technology. We are currently working closely with certain first-tier substrate suppliers in Asia, primarily including those located in Japan, Taiwan and Korea. We believe that our successful cooperation with substrate suppliers to enhance the overall substrate production capability and to meet future package requirements has enabled us to capture an increasingly important value-added component of the packaging process, helped ensure a stable and cost-effective supply of substrates for our BGA packaging operations and shortened time to market.

Testing

Our research and development efforts in the area of testing have focused primarily on developing testing software and solutions, including logic/mixed-signal/RF/(2.5D/3D) module and SiP /discrete semiconductors, characterization of semiconductors, layout design and electrical simulation for high frequency test board and developing software of parametric test data analysis. We work closely with our customers on the leading edge test technologies, such as 3D IC test and advanced probe test technology such as very fine pitch probe card. Our research and development operations also include an equipment development group, which currently designs testing hardware and software for specific semiconductors to offer our customers cost effective test solutions.

Electronic manufacturing services

To further enhance the quality of our services and products, we focus on developing diversified and innovative products to improve our competitiveness. By leveraging our proprietary research and development expertise, we are able to optimize our product design, engineering and manufacturing capabilities to provide our customers with high performance and cost-effective products and services. During the process of designing, as well as developing the technology for, our software and hardware, our research and development team also dedicates itself to discovering new know-how, and then applying such know-how to create new, advanced and improved products, processes, methodology and services. We are currently investing in the development of products used in electronic manufacturing services in relation to computers and peripherals, communications, industrial, automotive, and storage and server applications.

TREND INFORMATION

Other than as disclosed elsewhere in this annual report, we are not aware of any trends, uncertainties, demands, commitments or events for the period from January 1, 2016 to December 31, 2016 that are reasonably likely to have a material effect on our operating revenues, income, profitability, liquidity or capital resources, or that caused the

disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

OFF-BALANCE SHEET ARRANGEMENTS

There are no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

TABULAR DISCLOSURE OF CONTRACTUAL OBLIGATIONS

The following table sets forth the maturity of our contractual obligations as of December 31, 2016.

	Payments Due by Period				
	Total	Under 1 Year	1 to 3 Years	3 to 5 Years	After 5 Years
	NT\$	NT\$	NT\$	NT\$	NT\$
	(in millions)				
Contractual Obligations:					
Long-term debt ⁽¹⁾	93,736.4	17,353.4	63,468.2	9,123.8	3,791.0
Capital lease obligations ⁽²⁾	581.9	116.4	98.0	367.5	-
Operating leases ⁽³⁾	1,078.4	284.2	237.9	117.8	438.5
Purchase obligations ⁽⁴⁾	2,208.7	2,208.7	-	-	-
Total ⁽⁵⁾⁽⁶⁾⁽⁷⁾⁽⁸⁾	97,631.9	19,964.4	63,828.9	9,609.1	4,229.5

D-1-75

Table of Contents

- (1) Includes long-term borrowings and bonds payable (before the deduction of unamortized arrangement fees, unamortized issuance cost and discounts on bonds payable) and interest payments.
- (2) Represents our commitments under property leases and imputed interest. These obligations are recorded on our consolidated balance sheets under the line item of other non-current liabilities.
- (3) Represents our commitments under leases for land, machinery and equipment such as testers, and office buildings and equipment. See note 35 to our consolidated financial statements included in this annual report.

(4) Represents unpaid commitments for construction. These commitments were not recorded on our consolidated balance sheets as of December 31, 2016. See note 35 to our consolidated financial statements included in this annual report. Total commitments for construction of buildings were approximately NT\$2,718.4 million (US\$83.9 million), of which NT\$509.7 million (US\$15.7 million) had been paid as of December 31, 2016.

(5) Excludes non-binding commitments to purchase machinery and equipment of approximately NT\$3,912.5 million (US\$120.8 million), of which NT\$158.8 million (US\$4.9 million) had been paid as of December 31, 2016. See note 35 to our consolidated financial statements included in this annual report.

(6) Excludes unpaid amounts that we were contracted for the construction related to our real estate business of approximately NT\$1,574.8 million (US\$48.6 million) as of December 31, 2016, since the schedule of payments is difficult to determine. See note 35 to our consolidated financial statements included in this annual report.

(7) Excludes our unfunded defined benefit obligation since the schedule of payments is difficult to determine. Under defined benefit pension plans, we made pension contributions of approximately NT\$807.2 million (US\$24.9 million) in 2016, and we estimate that we will contribute approximately NT\$521.3 million (US\$16.1 million) in 2017. See note 21 to our consolidated financial statements included in this annual report.

(8) Excludes uncertain tax liabilities. We recognized additional taxes payable of NT\$ 552.5 million (US\$17.1 million) and accrued interest and penalties of NT\$16.3 million (US\$0.5 million) related to uncertain tax positions as of or for the year ended December 31, 2016. Because we were unable to make a reasonable estimate of the timing of the tax audits, such balances were not included in the table.

SAFE HARBOR

Please see the section entitled “Special Note Regarding Forward-Looking Statements.”

Item 6. Directors, Senior Management and Employees

DIRECTORS AND SENIOR MANAGEMENT

Directors

Our board of directors is elected by our shareholders in a general meeting at which a quorum, consisting of a majority of all issued and outstanding common shares, not including treasury stocks and common shares held by our subsidiaries, is present. The chairman is elected by the board from among the directors. Our eleven-member board of directors, including three independent directors, is responsible for the management of our business.

We currently have eleven directors, serving a three-year term. The current board of directors began serving on June 24, 2015. Directors may serve any number of consecutive terms and may be removed from office at any time by a resolution adopted at a meeting of shareholders. Normally, all board members are elected at the same meeting of shareholders, except where the posts of one-third or more of the directors are vacant, at which time an extraordinary shareholders’ meeting shall be convened to elect directors to fill the vacancies. We and our subsidiaries do not have service contracts with our directors that provide for benefits upon termination of employment.

Our audit committee currently consists of our independent directors, Shen-Fu Yu, Ta-Lin Hsu and Mei-Yueh Ho, who are independent under Rule 10A-3 and the ROC Securities and Exchange Act and are financially literate with accounting or related financial management expertise. The audit committee has responsibility for, among other things, overseeing the qualifications, independence and performance of our independent auditors and the integrity of our financial statements.

D-1-76

Table of Contents

Our compensation committee currently consists of Shen-Fu Yu and Ta-Lin Hsu, our independent directors, and Hsiao-Ying Ku. Our board of directors established a compensation committee to satisfy the requirements under the ROC Securities Exchange Act. Under ROC securities regulations, a compensation committee should have at least one independent director who is considered independent under ROC securities regulations. We do not assess the independence of our compensation committee member under the independence requirements of the NYSE listing standards but adopt the independence standard as promulgated under the ROC Regulations Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Stock Exchange or Traded Over the Counter. See “Item 16G. Corporate Governance” for more information. Our compensation committee meets at least twice a year. Our board of directors has adopted an compensation committee charter for our compensation committee. The compensation committee has responsibility for, among other things, setting forth and reviewing policies, systems, standards and structures regarding performance evaluation and compensation of the directors, managerial personnel, and evaluating compensation of the directors and managerial personnel.

The following table sets forth information regarding all of our directors as of March 31, 2017. In accordance with ROC law, each of our directors is elected either in his or her capacity as an individual or as an individual representative of a corporation or government. Persons designated to represent corporate or government shareholders as directors are typically nominated by such shareholders at the annual general meeting and may be replaced as representatives by such shareholders at will. Of the current directors, six represent ASE Enterprises Limited. The remaining directors serve in their capacity as individuals.

Table of Contents

Biographies of Directors and Executive Officers

Jason C.S. Chang has served as Chairman of ASE Inc. since its founding in March 1984 and as its Chief Executive Officer since May 2003. Mr. Chang holds a bachelor's degree in electrical engineering from National Taiwan University in Taiwan and a master's degree from the Illinois Institute of Technology. He is the brother of Richard H.P. Chang, our Vice Chairman and President.

Richard H.P. Chang has served as Vice Chairman of ASE Inc. since November 1999 after having served as President of ASE Inc. since its founding in March 1984, and served as Chief Executive Officer of ASE Inc. from July 2000 to April 2003. In February 2003, he was again appointed President of ASE Inc. upon the retirement of Mr. Leonard Y. Liu. Mr. Chang has also served as the Chairman of Universal Scientific Industrial (Shanghai) Co., Ltd. since June 2008. Mr. Chang holds a bachelor's degree in industrial engineering from Chung Yuan Christian University in Taiwan. He is the brother of Jason C.S. Chang, our Chairman and Chief Executive Officer.

Rutherford Chang has served as a director of ASE Inc. since June 2009 and General Manager of China Region of ASE Group. since June 2010. He joined ASE Group in March 2005. Mr. Chang holds a bachelor's degree in psychology from Wesleyan University in Connecticut. He is the son of Jason C.S. Chang, our Chairman and Chief Executive Officer.

Tien Wu has served as a director of ASE Inc. since June 2003 and Chief Operating Officer since April 2006, prior to which he served as the President of Worldwide Marketing and Strategy of the ASE Group. Prior to joining ASE Inc. in March 2000, Mr. Wu held various managerial positions with IBM. Mr. Wu holds a bachelor's degree in civil engineering from National Taiwan University in Taiwan, a master's degree and a doctorate degree in mechanical engineering and applied mechanics from the University of Pennsylvania.

Joseph Tung has served as a director of ASE Inc. since April 1997 and Chief Financial Officer since December 1994. He is also an independent director of Ta Chong Bank Ltd. since October 2007. Before joining ASE Inc., Mr. Tung was a Vice President at Citibank, N.A. Mr. Tung holds a bachelor's degree in economics from the National Chengchi University in Taiwan and a master's degree in business administration from the University of Southern California.

Raymond Lo has served as a director of ASE Inc. since May 2006 and General Manager of our packaging facility in Kaohsiung, Taiwan since April 2006. Mr. Lo also served as a supervisor of ASE Inc. between July 2000 and May 2006. Before joining ASE Group, Mr. Lo was the Director of Quality Assurance at Zeny Electronics Co. Mr. Lo holds a bachelor's degree in electronic physics from the National Chiao Tung University in Taiwan.

Tien-Szu Chen has served as a director of ASE Inc. since June 2015 and General Manager of ASE Inc. Chung-Li branch since August 2015. Prior to his current position, Mr. Chen served as our supervisor from June 2006 to June 2015 and as President of Power ASE Technology Inc. from June 2006 to May 2012. He also held several key management positions within the ASE Group from June 1988 to June 2006, including President of ASE Inc. Chung-Li branch and Senior Vice President of ASE Inc. Prior to joining ASE Group in June 1988, Mr. Chen worked at TSMC and Philips Semiconductor Kaohsiung. Mr. Chen received his bachelor's degree in industrial engineering from Chung Yuan Christian University in Taiwan.

Jeffrey Chen has served as a director of ASE Inc. since June 2003 and General Manager of China Headquarters. Prior to joining ASE Inc., he worked in the corporate banking department of Citibank, N.A. in Taipei and as a Vice President of corporate finance at Bankers Trust in Taipei. Mr. Chen holds a bachelor's degree in finance and economics from Simon Fraser University in Canada and a master's degree in business administration from the University of British Columbia in Canada.

Shen-Fu Yu has served as an independent director of ASE Inc. since June 2009. He is also a director of Arima Lasers Corporation and a supervisor of Dynapack International Technology Corporation, San Fu Chemical Co., Ltd., and Arima Communications. Mr. Yu is also a member of the audit committee and compensation committee of ASE Inc. Mr. Yu also serves on the compensation committee of Elite Material Co., Ltd. He worked at Deloitte & Touche Accounting Firm as a consultant from June 2003 to November 2006. Mr. Yu holds a bachelor's degree in accounting from National Taiwan University in Taiwan and a master's degree in accounting from National Chengchi University in Taiwan.

D-1-79

Table of Contents

Ta-Lin Hsu has served as an independent director of ASE Inc. since June 2009. He is also a member of the audit committee and compensation committee of ASE Inc. He is currently the chairman and founder of H&Q Asia Pacific and chairman of H&Q Taiwan Co. Ltd. Mr. Hsu holds a bachelor's degree in physics from National Taiwan University, a master's degree in electrophysics from the Polytechnic Institute of Brooklyn and a doctorate degree in electrical engineering from the University of California, Berkeley.

Mei-Yueh Ho has served as an independent director and a member of the audit committee of ASE Inc. since June 2015. Ms. Ho is also an independent director and a member of the audit committee of the Bank of Kaohsiung, Ltd., KINPO Electronics Inc., AU Optronics Corp. and Ausnutria Dairy Corporation Ltd. She is also a member of the compensation committee of the Bank of Kaohsiung, Ltd., KINPO Electronics Inc. and Ausnutria Dairy Corporation Ltd. Ms. Ho served as Minister of Ministry of Economic Affairs, ROC from May 2004 to January 2006. She was also Chairperson of the Council for Economic Planning and Development, ROC from May 2007 to May 2008. Ms. Ho holds a bachelor's degree in agricultural chemistry from National Taiwan University in Taiwan.

Chun-Che Lee has served as a General Manager of ASE Electronics Inc. since August 2011, prior to which he was a vice president, director and manager of research and development at ASE Inc. since 1984. Mr. Lee holds a bachelor's degree in aeronautics from Tamkung University in Taiwan.

Songwoon Kim has served as General Manager of ASE (Korea) Inc. since February 2017, after serving as a Senior Vice President of ASE (Korea) Inc. since July 1999. Mr. Kim was a senior Manager of Motorola Korea, Limited before joining ASE (Korea) Inc. when we acquired Motorola Korea, Limited. He holds a bachelor's degree in mechanical engineering from A-Jou University in Korea.

Ung Bae served as General Manager of ASE (Korea) Inc. from July 2008 to February 2017, after serving as Senior Vice President of ASE (Korea) Inc. since July 1999, and retired in February 2017. Mr. Bae was Vice President of Motorola Korea, Limited before joining ASE (Korea) Inc. when we acquired Motorola Korea, Limited. He holds a degree in electronic engineering from In-Ha University in Korea.

Chih-Hsiao Chung has served as General Manager of ASE Japan Co. Ltd. since March 2011, General Manager of Wuxi Tongzhi Microelectronics Co., Ltd. since June 2013, and Chairman and CEO of ASEEE since September 2015. Mr. Chung has also managed the sales and marketing of ASE Japan Co. Ltd. region since April 2007. Before joining ASE Group, Mr. Chung was the Senior Manager of Sale and Marketing at Kimberly Clark Co., Taiwan. He holds a master's degree in business administration from the University of Wisconsin-Madison.

Chiu-Ming Cheng has served as General Manager of ASE Assembly & Test (Shanghai) Limited since September 2012, after serving as Vice President of ASE's Kaohsiung packaging facility since October 2004. He joined ASE Group in April, 1990. Mr. Cheng holds a master's degree in public policy from National Sun Yat-Sen University in Taiwan.

Chih-An Hsu has served as General Manager of ASE (KunShan) Inc. since July 2012, after serving as Vice President of ASE's Chung-Li since July 2006. He joined ASE Group in February 1997. Mr. Hsu holds a bachelor's degree in industrial engineering from National Tsing Hua University in Taiwan.

Yen-Chieh Tsao has served as General Manager of ASE (Weihai), Inc. since October 2013 after serving as Vice President of ASE's Chung-Li since October 2011. Mr. Tsao was the Vice President of Motorola Electronics Taiwan Ltd. prior to joining ASE Group. He holds a bachelor's degree in physics from the Chinese Culture University in Taiwan.

Shih-Kang Hsu has served as Chief Executive Officer of Suzhou ASEN Semiconductors Co., Ltd. since August 2010, after serving as Senior Vice President of ASE (U.S.) Inc. since June 2006. He joined ASE Group in June 2000. Mr. Hsu holds a master's degree in mechanical engineering from Case Western Reserve University.

D-1-80

Table of Contents

Meng-Hui Lin has served as General Manager of ASE (Shanghai) Inc. since Oct 2014. He joined ASE Group in 1994, and has worked in various fields with ASE Group, e.g., IE, quality engineering, process engineering, research & development and manufacturing management. He holds a master's degree in industrial engineering from Texas A&M University.

Kwai Mun Lee has served as President of our Southeast Asia operations, with responsibility for the operations of our Penang, Malaysia and Singapore manufacturing facilities, since March 2006. Before joining the ASE Group, Mr. Lee held senior management positions at Chartered Semiconductor and STATS ChipPAC. He started his career as an engineer at Intel. He holds a degree in engineering from the Swinburne Institute of Technology in Australia.

Lid Jian Chiou has served as General Manager of ASE Singapore Pte. Ltd. since September 2010 after serving as Senior Director of Operations since November 2003. Prior to that, he worked several years with Texas Instruments and Chartered Semiconductor. Mr. Chiou holds a master's degree in business administration from the State University of New York and a bachelor's degree in engineering from the University of Strathclyde in the United Kingdom.

Heng Ee Ooi has served as General Manager of ASE Malaysia since July 2016 after serving as Vice President of operations since July 2015. He joined ASE in July 1994. Before joining ASE, he worked as a process engineer at AMD, Penang. Mr. Ooi holds a bachelor's degree in chemical engineering from Universiti Teknologi Malaysia.

Kenneth Hsiang has served as General Manager of ISE Labs, Inc. since June 2004. Prior to joining ASE Group in November 1999, Mr. Hsiang worked in management positions within finance and strategic analysis in the healthcare and biotech industries in the San Francisco Bay area in California. He also worked for Price Waterhouse LLP as a Certified Public Accountant. Mr. Hsiang received a bachelor's degree in economics & rhetoric from the University of California, Berkeley.

Chen-Yen Wei has served as Chairman of Universal Scientific Industrial Co., Ltd. since July 2014, Chairman of USI Inc. since April 2015, and President of Universal Scientific Industrial (Shanghai) Co., Ltd. since April 2008. He joined Universal Scientific Industrial Co., Ltd. as an engineer in August 1979. He holds a bachelor's degree in communication engineering from National Chiao Tung University in Taiwan.

Feng-Ta Chen has served as General Manager of Universal Global Technology (Shanghai) Co., Ltd. since September 2013. He joined Universal Scientific Industrial Co., Ltd. as a Wireless Product PLM Department head in July 1997. He holds a bachelor's degree in literature from the Chinese Culture University in Taiwan.

Jack Hou has served as General Manager of Universal Global Scientific Industrial Co., Ltd. since January 2010 and Vice President of Automotive & Visual Product Devices and Module Turnkey Management Business Unit of Universal Scientific Industrial Co., Ltd. since April 2012. He joined Universal Scientific Industrial Co., Ltd. as a section manager in February 1994. He holds a master's degree in biomedical engineering from Ohio State University and a master's degree in computer science from the University of Dayton in Ohio.

Ta-I Lin has served as General Manager of Universal Global Technology (Kunshan) Co. Ltd. since August 2011. He joined Universal Scientific Industrial Co., Ltd. as an engineer in August 1987. He holds a bachelor's degree in electrical engineering from National Cheng Kung University in Taiwan and an executive master of business administration from Peking University in China.

Yueh-Ming Lin has served as General Manager of USI Electronics (Shenzhen) Co. Ltd. since January 2015 and Senior Director of Global Operation Management (Shenzhen) Division of USI Electronics (Shenzhen) Co. Ltd. since March 2014. He joined Universal Scientific Industrial Co., Ltd. as a section manager in October 1995. He holds a bachelor's degree in electrical engineering from Feng Chia University in Taiwan.

Omar Anaya Galván has served as General Manager of Universal Scientific Industrial De Mexico S.A. DE C.V. since March 2015. He has worked in the electronics industry for over 25 years and has experience in various technical, quality and manufacturing management roles. He has been working at Universal Scientific Industrial (Shanghai) Co., Ltd. and its directly and indirectly held subsidiaries since March 2003. He holds a bachelor's degree in electronic systems engineering from the Monterrey Institute of Technology and Higher Education in Mexico.

D-1-81

Table of Contents

The business address of our directors and executive officers is our registered office.

COMPENSATION

In 2016, we recorded expenses of approximately NT\$806.8 million (US\$24.9 million) as remuneration to our directors and executive officers. We did not pay any remuneration in kind to our directors or executive officers in 2016. In 2016, we accrued pension costs of NT\$6.9 million (US\$0.2 million) for retirement benefits for our management. According to our Articles of Incorporation, the remuneration of our independent directors is set at NT\$3.0 million (US\$0.09 million) per person per year. We set aside 5.25% to 8.25% of net profit before income tax, employees' compensation and remuneration to the directors as employees' compensation and no more than 0.75% as remuneration to the directors.

We have not provided any loans to or guarantees for the benefit of any of our directors or executive officers. For information regarding our pension and other retirement plans and those of our subsidiaries, see note 21 to our consolidated financial statements included in this annual report.

ASE Inc. Employee Bonus and Stock Option Plans

We award bonuses to employees of ASE Inc. and its subsidiaries who are located in Taiwan based on overall income and individual performance targets. Prior to 2009, these employees were eligible to receive bonuses in the form of our common shares valued at par. Beginning in 2009, employees are eligible to receive bonuses in the form of our common shares valued at the closing price (after adjustment with consideration of the effects on the share price, if any, brought by cash and stock dividends resolved at shareholders' meetings) of our common shares on the day prior to our shareholders' meeting. Actual amounts of bonuses to individual employees are determined based upon the employee meeting specified individual performance objectives. We granted aggregate values of NT\$1,587.3 million, NT\$2,335.6 million and NT\$ 2,033.8 million (US\$62.8 million) as cash bonus to our employees in 2014, 2015 and 2016, respectively.

We currently maintain three option plans, adopted in 2007, 2010 and 2015. The option plan adopted in 2004 expired in May 2015. Pursuant to these plans, our full-time employees, including domestic and foreign subsidiaries, are eligible to receive stock option grants. Each option entitles the holder to purchase one ASE Inc. common share at a price equal to (for the 2007 plan), or not less than (for the 2010 and 2015 plans), the closing market price on the date of the option issuance, such exercise price being subject to retroactive adjustment in the event of certain capital transactions in subsequent periods. Each option is valid for ten years from the date of the grant. 40.0% of the options originally granted vest upon the second anniversary of the grant date, and an additional 10.0% of the options originally granted vest every six months thereafter. Each option expires at the end of the tenth year following its grant date. The options are generally not transferable. As of December 31, 2016, a total of 185,806,000 options had been

granted under the 2007 plan. The original exercise price under the 2007 plan was NT\$30.65 per share (currently adjusted to NT\$21.1 per share). As of December 31, 2016, a total of 199,999,500 options had been granted under the 2010 plan, 187,719,500 of which had an original exercise price of NT\$28.6 per share (currently adjusted to NT\$20.4 per share) and 12,280,000 of which had an original exercise price of NT\$28.75 per share (currently adjusted to NT\$22.6 per share). As of December 31, 2016, a total of 94,270,000 options had been granted under the 2015 plan. The exercise price under the 2015 plan was NT\$36.50 per share.

ASE Mauritius Inc. Share Option Plan

As of December 31, 2016, ASE Mauritius Inc. maintained one option plan adopted in 2007. Under this plan, certain employees of ASE Mauritius Inc. and the ASE Group are granted options to purchase ordinary shares of ASE Mauritius Inc. at an exercise price of US\$1.7, which exercise price was determined by taking into account a fairness opinion rendered by an independent appraiser and was reviewed by our accountants. Each option is valid for ten years from the date of the grant. As of December 31, 2016, a total of 30,000,000 options had been granted under this plan with an exercise price of US\$1.7.

USI Enterprise Limited Share Option Plans

As of December 31, 2016, USI Enterprise Limited maintained three option plans adopted in 2007, 2010 and 2011, under which certain employees of Universal Scientific and our employees were granted options to purchase common shares of USI Enterprise Limited. Each option under these three plans is valid for ten to thirteen years from the date of the grant. As of December 31, 2016, we had 11,958,500 options outstanding with an exercise price of US\$1.53 per share, 6,561,340 options outstanding with an exercise price of US\$2.42 per share and 7,413,000 options outstanding with an exercise price of US\$2.94 per share under these three plans respectively.

Table of Contents

Universal Scientific Shanghai Option Plans

As of December 31, 2016, Universal Scientific Shanghai maintained one option plan adopted in 2015. Under this plan, certain employees of Universal Scientific Shanghai are granted options to purchase ordinary shares of Universal Scientific Shanghai at an exercise price of RMB15.5 per share. Each option is valid for ten years from the date of the grant. As of December 31, 2016, we had 24,997,000 options outstanding under this plan with an exercise price of RMB15.5 per share.

BOARD PRACTICES

General

For a discussion of the term of office of the board of directors, see “—Directors and Senior Management.” No benefits are payable to members of the board or the executive officers upon termination of their relationship with us.

Compensation Committee

For a discussion of our compensation committee, see “—Directors and Senior Management—Directors.”

EMPLOYEES

The following table sets forth certain information concerning our employees as of the dates indicated.

	As of December 31,		
	2014	2015	2016
Total	68,100	65,789	66,711
Function			
Direct labor	38,588	35,770	36,574
Indirect labor (manufacturing)	16,620	16,910	16,724

Indirect labor (administration)	5,941	5,929	5,927
Research and development	6,951	7,180	7,486
Location			
Taiwan	35,382	34,877	35,763
PRC	24,223	22,475	22,369
Korea	2,900	2,701	2,662
Malaysia	2,752	2,982	3,230
Japan	588	502	490
Singapore	1,059	986	869
United States	383	379	392
Others	813	887	936

Eligible employees may participate in our employee share bonus plan and stock option plans and our subsidiaries' share option plans, such as the option plans adopted by ASE Mauritius, USI Enterprise Limited, and Universal Scientific Shanghai. See “—Compensation.”

We have never experienced a work stoppage caused by our employees. We believe that our relationship with our employees is good.

SHARE OWNERSHIP

The following table sets forth certain information with respect to our common shares and options of ASE Inc. exercisable for our common shares held by our directors and executive officers as of March 31, 2017. Percentage of beneficial ownership is based on 8,273,546,046 common shares outstanding as of March 31, 2017.

(1) Including shares directly held and shares beneficially owned through spouse and minor children.

(2) Each option may be converted into one of our common shares. The figures referred herein include options convertible into our common shares scheduled to vest within 60 days as of the date hereof.

Including 1,368,655,773 common shares Jason C.S. Chang beneficially owned through ASE Enterprises Limited, Aintree Limited and JC Holdings Limited and 407,449,072 common shares beneficially owned through Value Tower Limited, respectively, and 112,927,212 common shares Jason C.S. Chang directly owned. See “Item 7. Major Shareholders and Related Party Transactions—Major Shareholders.”

* The sum of the number of common shares held and the number of common shares issuable upon exercise of all options held is less than 1.0% of our total outstanding shares.

D-1-84

Table of Contents

Item 7. Major Shareholders and Related Party Transactions

MAJOR SHAREHOLDERS

The following table sets forth information known to us with respect to the beneficial ownership of our common shares, as of March 31, 2017, by each shareholder known by us to beneficially own more than 5.0% of our total outstanding shares.

Beneficial ownership is determined in accordance with the rules and regulations of the SEC. Percentage of beneficial ownership is based on 8,273,546,046 common shares outstanding as of March 31, 2017. In addition, in computing the number of shares beneficially owned by a person and the percentage ownership of that person, we have included shares that the person has the right to acquire within 60 days, including through the exercise of any option, warrant or other right or the conversion of any other security. These shares, however, are not included in the computation of the percentage ownership of any other person.

Name of Shareholder or Group	Common Shares Beneficially Owned	
	Number	Percentage
Jason C.S. Chang ⁽¹⁾	1,889,032,057	22.83 %

(1) Jason C.S. Chang is our Chairman and Chief Executive Officer. Jason C. S. Chang beneficially owned 1,368,655,773 common shares through ASE Enterprises Limited, Aintree Limited and JC Holdings Limited and 407,449,072 common shares through Value Tower Limited, respectively, and directly owned 112,927,212 common shares. As a result, Jason C.S. Chang beneficially owned 1,889,032,057 common shares, representing 22.83% of our total outstanding shares (based on 8,273,546,046 common shares as of March 31, 2017). ASE Enterprises Limited is a company organized under the laws of Hong Kong. All of the outstanding shares of ASE Enterprises Limited are held by Aintree Limited. Aintree Limited is a company organized under the laws of the British Virgin Islands. All of the shares of Aintree Limited are held by JC Holdings Limited. The shares of JC Holdings Limited are held through intermediary holding companies and under a revocable trust established under the laws of the Bailiwick of Guernsey for the benefit of our Chairman and Chief Executive Officer, Jason C.S. Chang, and his family. Value Tower Limited is a company organized under the laws of the British Virgin Islands. Jason C.S. Chang is the sole shareholder and director of Value Tower Limited. There were no significant changes in the percentage of ownership beneficially owned by Jason C.S. Chang in 2014, 2015 and 2016.

The following table sets forth information relating to our common shares held directly by our consolidated subsidiaries and our equity method investee as of March 31, 2017.

Name of Shareholder	Common Shares Beneficially Owned	
	Number	Percentage
ASE Test ⁽¹⁾	88,200,472	1.07 %
ASE Test Taiwan ⁽²⁾	10,978,776	0.13 %
J&R Holding Limited ⁽³⁾	46,703,763	0.56 %
Hung Ching ⁽⁴⁾	88,261,502	1.07 %

(1) ASE Test is our wholly owned subsidiary. ASE Test's ownership of our common shares is the result of the merger of ASE Chung Li with and into us in August 2004, and subsequent dividends upon shares received in connection with this merger. In order to comply with Singapore Companies Act, a trust was established to hold and dispose our common shares issued to ASE Test, a Singaporean Company, upon completion of the merger. The trustee appointed under such trust arrangement is currently our registered shareholder for our common shares issued to ASE Test. See "—Related Party Transactions."

(2) ASE Test Taiwan is our wholly owned subsidiary. ASE Test Taiwan's ownership of our common shares is mainly the result of the merger of ASE Material with and into us in August 2004, and subsequent dividends upon shares received in connection with this merger. In order to comply with Singapore Companies Act, a trust had been established to hold and dispose our common shares issued to ASE Test Taiwan, which had been a subsidiary of ASE Test, upon completion of the merger. In December 2014, the trust established to hold the common shares issued to ASE Test Taiwan had been terminated because ASE Test Taiwan was no longer a subsidiary owned by ASE Test and therefore no longer subject to Singapore Companies Act requirements. As a result, ASE Test Taiwan directly owned 10,978,776 of our common shares as of March 31, 2017. See "—Related Party Transactions."

Table of Contents

J&R Holding Limited is our wholly owned subsidiary. J&R Holding Limited's ownership of our common shares is (3) the result of the merger of ASE Chung Li with and into us in August 2004, and subsequent dividends upon shares received in connection with this merger.

Hung Ching is our equity method investee. As of March 31, 2017, we held 26.22% of the outstanding shares of (4) Hung Ching. Hung Ching acquired our common shares in open market transactions, subsequent dividends upon the acquired shares and shares purchase pursuant to the rights offered by the Company.

As of March 31, 2017, none of our major shareholders had voting rights different from those of our other shareholders. We are not aware of any arrangement that may at a subsequent date result in a change of control of us. Furthermore, other than disclosed above, we are not aware of any significant changes in the percentage of ownership held by our major shareholders in 2014, 2015 and 2016.

As of March 31, 2017, a total of 8,273,546,046 common shares were outstanding. With certain limited exceptions, holders of common shares that are not ROC persons are required to hold their common shares through a brokerage account in the ROC. As of March 31, 2017, 540,454,720 common shares were registered in the name of a nominee of Citibank, N.A., the depository under our ADS deposit agreement. Citibank, N.A., has advised us that, as of March 31, 2017, 108,090,653 ADSs, representing 540,453,265 common shares, were held of record by Cede & Co., and 290 ADSs, representing 1,450 common shares, were held by 9 other U.S. persons. The remaining 5 common shares held by Citibank, N.A. for the Company are a result of fractional shares distributed during stock distributions on our common shares underlying the ADSs.

RELATED PARTY TRANSACTIONS

In recent years, we have awarded cash bonuses to the employees of our subsidiaries as part of their compensation, based in part on our consolidated net income and the subsidiaries' contribution to our consolidated income. We expect to continue this practice in the future.

In order to comply with Singapore law and other applicable laws and regulations, trusts organized under ROC law were established to hold and dispose of our common shares issued to ASE Test and ASE Test Taiwan in connection with the merger of ASE Chung Li and ASE Material into our company in August 2004. Under Section 76(1)(b)(ii) of Singapore's Companies Act, Chapter 50, ASE Test, a Singapore company, may not purport to acquire, directly or indirectly, shares or units of shares in our company, ASE Test's parent company. Pursuant to the applicable trust agreements, the trustee under each trust is (1) the registered owner of our common shares, (2) authorized to exercise all of the rights as a shareholder of our common shares, (3) authorized to sell our common shares, subject to market conditions, when such common shares become available for resale under ROC law and in accordance with volume limitations under ROC law, at its sole discretion; provided such common shares are sold (i) in compliance with ROC laws and regulations, (ii) in an orderly manner in order to minimize the impact on the trading price of our common shares, and (iii) in a manner consistent with its fiduciary duties owed to ASE Test and (4) able to transfer and deliver

to ASE Test or ASE Test Taiwan the proceeds from the sale of our common shares and any cash dividends distributed, as the case may be. In February 2010, to complete the tender offer to acquire Universal Scientific, ASE Test transferred 141,808,499 shares to the shareholders of Universal Scientific. Neither ASE Test nor ASE Test Taiwan have any rights with respect to our common shares held in trust pursuant to the applicable trust agreements other than the right to receive the proceeds from the sale of such common shares and cash dividends declared while the shares remain in trust. In December 2014, the trust established to hold the common shares issued to ASE Test Taiwan had been terminated because ASE Test Taiwan was no longer a subsidiary owned by ASE Test and therefore no longer subject to Singapore Companies Act requirements. As a result, ASE Test Taiwan directly owned 10,978,776 of our common shares as of March 31, 2017 and the trust established to hold the common shares issued to ASE Test held 88,200,472 of our common shares.

We have historically provided promissory notes as guarantees to some of our subsidiaries. As of December 31, 2016, we endorsed and guaranteed the bonds issued by our subsidiaries, Anstock II Limited, in the amount of US\$306.4 million.

In July 2014, we acquired factory-administration building in Chung Li, Taiwan, from Hung Ching for a consideration of NT\$4,540.1 million.

In 2014, a series of construction projects for which we contracted with Fu Hwa Construction Co., Ltd. for the construction of buildings with green design concept and other projects in Nantze Export Processing Zone, Taiwan, have been completed with a total consideration of NT\$350.0 million.

Table of Contents

In August 2014, we made the donation of NT\$15.0 million to Social Affairs Bureau of Kaohsiung City Government through ASE Cultural and Educational Foundation. In addition, in order to demonstrate our commitment to environmental protection, in December 2013, our board of directors approved contributions to environmental protection efforts in Taiwan in a total amount of not less than NT\$3,000.0 million, to be made in the next 30 years. For the years ended December 31, 2014, 2015 and 2016, we have made contributions in the amount of NT\$100.0 million (US\$3.1 million) each, respectively, through ASE Cultural and Educational Foundation to fund various environmental projects and our board of directors have resolved in a resolution in January 2017 to contribute NT\$100.0 million (US\$3.1 million) through ASE Cultural and Educational Foundation in environmental projects in 2017.

In June 2015, we acquired the K22 and K23 factory-administration building in Nantze Export Processing Zone, Taiwan, from Hung Ching for a consideration of NT\$2,466.0 million.

In 2015 and 2016, we capitalized NT\$504.6 million and NT\$875.0 million (US\$27.0 million), respectively, for the construction of employee dormitory for which we contracted with Fu Hwa Construction Co., Ltd. in Kaohsiung, Taiwan.

In 2016, we acquired patents and acquired specific technology from Deca Technologies Inc. for a consideration of NT\$403.5 million (US\$12.5 million).

INTERESTS OF EXPERTS AND COUNSEL

Not applicable.

Item 8. Financial Information

CONSOLIDATED STATEMENTS AND OTHER FINANCIAL INFORMATION

Consolidated financial statements are set forth under “Item 18. Financial Statements.”

Export Sales

We categorize our revenues geographically based on the country in which the customer is headquartered. Revenues from our export sales were NT\$219,843.7 million, NT\$250,671.4 million and NT\$236,015.4 million (US\$7,284.4 million) in 2014, 2015 and 2016, respectively, which contributed 85.7% , 88.5% and 85.6 % of our total sales volume for those periods, respectively. See “Item 4. Information on the Company—Business Overview—Sales and Marketing” for information on our export sales.

Legal Proceedings

K7 Plant Wastewater Discharge

In December 2013, the Kaohsiung City Environmental Protection Bureau ordered us to suspend the operations at our K7 Plant’s wafer-level process where nickel was used for alleged wastewater discharge violations and imposed a NT\$110.1 million fine against us. The NT\$110.1 million fine was later reduced to NT\$109.4 million as ordered by the Kaohsiung City Environmental Protection Bureau. In December 2014, the Kaohsiung City Environmental Protection Bureau lifted the suspension order and approved the full resumption of operations of our K7 Plant after ordering a series of examinations, hearings and trial runs. In September 2015, the fine was reduced to NT\$102.0 million by the Kaohsiung City Environmental Protection Bureau and we received a refund of NT\$7.3 million in October 2015.

With respect to the NT\$102.0 million administrative penalty imposed on us by the Kaohsiung City Environmental Protection Bureau, we appealed to the Kaohsiung High Administrative Court in August 2014 seeking to (i) revoke Kaohsiung City Government’s decision, (ii) lift the administrative penalty imposed on us and (iii) demand a refund of the administrative penalty. On March 22, 2016, the Kaohsiung High Administrative Court revoked Kaohsiung City Government’s decision and lifted the administrative penalty. Our demand for a refund of the fine was dismissed. We appealed to the Supreme Administrative Court on April 14, 2016 against the Kaohsiung High Administrative Court’s unfavorable ruling in dismissing a refund. The outcome of the proceeding cannot be predicted with certainty.

D-1-87

Table of Contents

In connection with the same alleged violations at our K7 plant, in October 2014, the Kaohsiung District Court ruled that we were in violation of the ROC Waste Disposal Act and imposed on us a criminal penalty of NT\$3.0 million. We appealed the case to the Taiwan High Court Kaohsiung District Branch in November 2014. In September 2015, the Taiwan High Court Kaohsiung District Branch overturned the decision made by Kaohsiung District Court and found the Company not guilty and repealed the criminal penalty imposed on the Company. The verdict was final and not appealable.

The outcome of some of these proceedings is uncertain. Any penalties, fines, damages or settlements made in connection with these criminal, civil, and/or administrative investigations and/or lawsuits may divert management's attention and resources, which may cause a material adverse effect on our results of operations, financial condition and business. We are also unable to quantify the harm to our reputation should any adverse findings be made against us. See "Item 3. Key Information—Risk Factors—Risks Relating to Our Business—Any environmental claims or failure to comply with any present or future environmental regulations, as well as any fire or other industrial accident, may require us to spend additional funds and may materially and adversely affect our financial condition and results of operations," "Item 4. Information on the Company—Business Overview—Environmental Matters" and "Item 4. Information on the Company—Property, Plants and Equipment."

SPIL Litigation Against ASE

On October 15, 2015, in connection with the Initial SPIL Tender Offer, SPIL filed a lawsuit in the Kaohsiung District Court against ASE requesting that the court invalidate the Initial SPIL Tender Offer and confirm that ASE does not have the right to be registered as a shareholder of SPIL. The lawsuit alleged that the Initial SPIL Tender Offer violate certain provisions of the ROC Securities and Exchange Act and certain provisions of the ROC Fair Trade Act and because of these violations the Initial SPIL Tender Offer should be voided. Following a series of pleadings and arguments on the amount of verdict fee that SPIL has to post before the case could be heard, the Kaohsiung District Court ordered SPIL to post a verdict fee in the amount of NT\$219.2 million (US\$6.7 million) and scheduled a hearing on April 29, 2016. SPIL appealed the Kaohsiung District Court's decision on the verdict fee to the Kaohsiung High Court, and, following the Kaohsiung High Court's decision to sustain the Kaohsiung District Court's decision on the amount of the verdict fee, SPIL appealed to the Supreme Court of Taiwan on January 18, 2016. On June 27, 2016, the Kaohsiung District Court dismissed the lawsuit due to SPIL's failure to pay relevant court expenses by the deadline.

Dividends and Dividend Policy

We have historically paid dividends on our common shares with respect to the results of the preceding year following approval by our shareholders at the annual general meeting of shareholders. We have paid annual dividends on our common shares since 1989, except in 2002 and 2006 when we did not pay any dividend due to the losses we incurred in the 2001 and 2005 fiscal years, respectively. On March 30, 2017, our board of directors adopted resolutions to pay

cash dividends of NT\$1.40 per share based on 8,153,712,546 shares, which equal to the number of issued shares shown in the shareholders' roster as of March 28, 2017 minus the number of shares repurchased by us as treasury stocks. This proposal is subject to shareholders' approval at the annual general shareholders meeting in June 2017 and the actual cash dividends per share will be adjusted by any fluctuations in the number of our shares due to, for example, the exercise of share options.

The following table sets forth the stock dividends paid during each of the years indicated and related information.

	Cash Dividends Per Common Share	Stock Dividends Per Common Share ⁽¹⁾	Total Common Shares Issued as Stock Dividends	Outstanding Common Shares on Record Date ⁽²⁾	Percentage of Outstanding Common Shares Represented by Stock Dividends
	NT\$	NT\$			
2009	0.50	-	-	5,474,320,814	-
2010	0.36	1.00	549,497,078	5,500,216,994	10.0 %
2011	0.65	1.15	695,735,660	6,055,261,112	11.5 %
2012	0.65	1.40	931,599,554	6,659,893,672	14.0 %
2013	1.05	-	-	7,611,579,786	-
2014	1.29 ⁽³⁾	-	-	7,847,817,646	-
2015	2.00	-	-	7,900,130,996	-
2016	1.60	-	-	7,931,725,946	-

D-1-88

Table of Contents

Stock dividends were paid out from retained earnings and capital surplus. Holders of common shares receive as a
(1) stock dividend the number of common shares equal to the NT dollar value per common share of the dividend declared multiplied by the number of common shares owned and divided by the par value of NT\$10 per share. Fractional shares are not issued but are paid in cash.

(2) Aggregate number of common shares outstanding on the record date applicable to the dividend payment. Includes common shares issued in the previous year under our employee bonus plan.

On June 26, 2014, our shareholders approved a cash dividend of NT\$1.30 per share for 2013 earnings. On July 29,
(3) 2014, our board of directors resolved to adjust the cash dividend ratio to NT\$1.29411842 because the number of outstanding common shares had changed as a result of the exercise of share options.

In order to meet the needs of our present and future capital expenditures, we anticipate paying both stock and cash dividends in the future. The form, frequency and amount of future cash or stock dividends on our common shares will depend upon our net income, cash flow, financial condition, shareholders' requirement for cash inflow and other factors. According to our Articles of Incorporation, we have a general policy that cash dividend distribution should not be lower than 30% of the total dividend amount and the remainder be distributed as stock dividends. See "Item 10. Additional information—Articles of Incorporation—Dividends and Distributions."

In general, we are not permitted to distribute dividends or make other distributions to shareholders for any year where we did not record net income or retained earnings (excluding reserves). The ROC Company Law also requires that 10% of annual net income (less outstanding taxes and prior years' losses, if any) be set aside as a legal reserve until the accumulated legal reserve equals our paid-in capital.

According to our Articles of Incorporation, the remuneration of our independent directors is set at NT\$3.0 million (US\$0.09 million) per person per year. If our annual net income (after recovering any losses incurred in prior years and deducting the legal reserve and special reserve provisions, making the additions or deductions of the portion of retained earnings that belong to equity investment gains or losses that have been realized through other comprehensive income or losses measured at fair value and deducting other items as required under ROC law, if any) remains, a proposal for the distribution of such amount together with a part or all of the accumulated undistributed profits in the previous years shall be prepared by the board of directors and submit to the shareholders' meeting for resolution. In addition, we set aside 5.25% to 8.25% of net profit before income tax, employees' compensation and remuneration to the directors as employees' compensation and no more than 0.75% as remuneration to the directors. The 5.25% portion is to be distributed to all employees in accordance with our employee compensation distribution rules, while any portion exceeding 5.25% is to be distributed in accordance with rules established by our board of directors to individual employees who have been recognized as having made special contributions to our company. Such employees include those of our subsidiaries.

Holders of ADSs will be entitled to receive dividends, subject to the terms of the deposit agreement, to the same extent as the holders of our common shares. Cash dividends will be paid to the depositary in NT dollars and, except as otherwise provided in the deposit agreement, will be converted by the depositary into U.S. dollars and paid to holders of ADSs according to the terms of the deposit agreement. Stock dividends will be distributed to the depositary and, except as otherwise provided in the deposit agreement, will be distributed by the depositary, in the form of additional ADSs, to holders of ADSs according to the terms of the deposit agreement.

Holders of outstanding common shares on a dividend record date will be entitled to the full dividend declared without regard to any prior or subsequent transfer of common shares. Holders of outstanding ADSs are entitled to receive dividends, subject to the terms of the deposit agreement, to the same extent as the holders of outstanding common shares.

D-1-89

Table of Contents

For information relating to ROC withholding taxes payable on dividends, see “Item 10. Additional Information—Taxation—ROC Taxation—Dividends.”

SIGNIFICANT CHANGES

Other than as disclosed elsewhere in this annual report, we have not experienced any significant changes since the date of the annual financial statements.

Item 9. The Offer and Listing

OFFER AND LISTING DETAILS

Our common shares were first issued in March 1984 and have been listed on the TWSE since July 1989. The TWSE is an auction market where the securities traded are priced according to supply and demand through announced bid and ask prices. As of March 31, 2017, there were an aggregate of 8,273,546,046 of our common shares outstanding. The following table sets forth, for the periods indicated, the high and low closing prices and the average daily volume of trading activity on the TWSE for our common shares and the high and low of the daily closing values of the Taiwan Stock Exchange Index. The closing price for our common shares on the TWSE on April 14, 2017 was NT\$37.85 per share.

	Closing Price per Share		Adjusted Closing Price per Share ⁽¹⁾		Average Daily Trading Volume (in thousands of shares)	Taiwan Stock Exchange Index	
	High	Low	High	Low		High	Low
	NT\$	NT\$	NT\$	NT\$			
2012	31.10	20.15	20.77	12.79	24,667	8,144.0	6,894.7
2013	30.65	23.60	25.76	17.66	24,598	8,623.4	7,616.6
2014	41.00	26.80	36.11	21.91	25,609	9,569.2	8,264.5

As adjusted retroactively by the TWSE to give effect to stock dividends and cash dividends paid in the periods (1) indicated. See “Item 8. Financial Information—Consolidated Statements and Other Financial Information—Dividends and Dividend Policy.”

The performance of the TWSE has in recent years been characterized by extreme price volatility. There are currently limits on the range of daily price movements on the TWSE. In the case of equity securities traded on the TWSE, such as our common shares, fluctuations in the price of a particular security may not exceed a 10.0% change either above or below the previous day’s closing price of such security.

Table of Contents

Our ADSs have been listed on the NYSE under the symbol “ASX” since September 26, 2000. The outstanding ADSs are identified by the CUSIP number 00756M404. As of March 31, 2017, a total of 108,090,943 ADSs were outstanding. The following table sets forth, for the periods indicated, the high and low closing prices and the average daily volume of trading activity on the NYSE for our ADSs and the highest and lowest of the daily closing values of the New York Stock Exchange Index. The closing price for our ADSs on the NYSE on April 13, 2017 was US\$6.25 per ADS.

ARTICLES OF INCORPORATION

General

We are a company limited by shares organized under the laws of the ROC. Our organizational document is our Articles of Incorporation. We have no by-laws.

Our Articles of Incorporation provide, in Article 2, that we may engage in the following types of business:

- the manufacture, assembly, processing, testing and export of various types of integrated circuitry;
- the research, development, design and manufacture, assembly, processing, testing and export of various computers, electronics, communications, information products and their peripheral products;
- general import and export trading (excluding businesses that require trading permits);
- the manufacture of electronic parts and components;
- the manufacture of mechanical and electronic devices and materials (including integrated circuit leadframes, BGA substrates and flip-chip substrates);
- wholesale and retail sales of electronic materials;

- technical support and consulting service for integrated circuit leadframes, BGA substrates and flip-chip substrates;
- leasing; and
- except any business requiring a special permit, any business not prohibited or restricted by law or regulation.

We were incorporated on March 23, 1984 as a company limited by shares under the ROC Company Law. Our authorized share capital registered with the Kaohsiung Export Processing Zones Administration was NT\$95 billion, divided into 9,500 million common shares, 8,273,546,046 of which were outstanding as of March 31, 2017. Our authorized share capital under our Articles of Incorporation is NT\$100 billion, divided into 10 billion common shares. We do not have any equity in the form of preference shares or otherwise outstanding as of the date of this annual report.

Subject to limited exceptions, with the approval of our board of directors and the FSC, we may grant stock options to our employees, provided that NT\$8,000 million of our authorized capital (800 million common shares) is reserved for employee stock options. The total number of shares to be issued under all option plans, together with all restricted shares issued to employees, shall not exceed 15% of our outstanding common shares. Unless otherwise approved by the shareholders' meeting, the exercise price of an option shall not be less than the closing price of our common shares on the TWSE on the grant date of the option. As of March 31, 2017, we had granted 480,075,500 options pursuant to employee stock option plans established on November 22, 2007, April 20, 2010 and April 17, 2015 to our full-time employees, including our domestic and foreign subsidiaries. See "Item 6. Directors, Senior Management and Employees—Compensation—ASE Inc. Employee Bonus and Stock Option Plans."

Directors

Our Articles of Incorporation provide that, we are to have 11 to 15 directors with tenures of three years who are elected at a shareholders' meeting. In addition, three of our directors will be required to be independent directors. Our audit committee replaced the function of supervisors in accordance with the ROC Securities and Exchange Act to exercise the powers and duties of supervisors starting from June 2015.

D-1-92

Table of Contents

There is no minimum amount of shares necessary to stand for election to a directorship. Many of our directors are representatives appointed by corporate shareholders which appoint individual representatives. Re-elections are allowed. The board of directors has certain powers and duties, including devising operations strategy, proposing to distribute dividends or make up losses, proposing to increase or decrease capital, reviewing material internal rules and contracts, hiring and discharging the general manager, establishing and dissolving branch offices, reviewing budgets and financial statements and other duties and powers granted by or in accordance with the ROC Company Law, our Articles of Incorporation or shareholders resolutions.

The board of directors is constituted by the directors, who elect a chairman from among the directors to preside over the meeting of the board. Meetings of the board may be held in the ROC or by videoconference. A director may appoint another director to attend a meeting and vote by proxy, but a director may accept only one proxy.

Dividends and Distributions

In general, we are not permitted to distribute dividends or make other distributions to shareholders in any given year in which we did not record net income or retained earnings (excluding reserves). The ROC Company Law also requires that 10% of annual net income (less prior years' losses, if any, and applicable income taxes) be set aside as a legal reserve until the accumulated legal reserve equals our paid-in capital.

According to our Articles of Incorporation, the remuneration of our independent directors is set at NT\$3.0 million (US\$0.09 million) per person per year. If our annual net income (after recovering any losses incurred in prior years and deducting the legal reserve and special reserve provisions, making the additions or deductions of the portion of retained earnings that belong to equity investment gains or losses that have been realized through other comprehensive income or losses measured at fair value and deducting other items as required under ROC law, if any) remains, a proposal for the distribution of such amount together with a part or all of the accumulated undistributed profits in the previous years shall be prepared by the board of directors and submit to the shareholders' meeting for resolution. In addition, we set aside 5.25% to 8.25% of net profit before income tax, employees' compensation and remuneration to the directors as employees' compensation and no more than 0.75% as remuneration to the directors. The 5.25% portion is to be distributed to all employees in accordance with our employee compensation distribution rules, while any portion exceeding 5.25% is to be distributed in accordance with rules established by our board of directors to individual employees who have been recognized as having made special contributions to our company. Such employees include those of our subsidiaries.

At the annual general meeting of shareholders, our board of directors submits to the shareholders for their approval any proposal for the distribution of dividends or the making of any other distribution to shareholders from our net income for the preceding fiscal year. All common shares outstanding and fully paid as of the relevant record date are entitled to share equally in any dividend or other distribution so approved. Dividends may be distributed in cash, in the form of common shares or a combination of the two, as determined by the shareholders at the meeting. According to our Articles of Incorporation, we have a general policy that cash dividend distribution should not be lower than 30%

of the total dividend amount and the remainder be distributed as stock dividends. See “Item 8. Financial Information—Consolidated Statements and Other Financial Information—Dividends and Dividend Policy.”

We are also permitted to make distributions to our shareholders in cash or in the form of common shares from reserves if we have no accumulated loss. However, the distribution payable out of our legal reserve can only come from the amount exceeding 25% of the total paid-in capital.

For information on the dividends we paid in recent years, see “Item 8. Financial Information—Consolidated Statements and Other Financial Information—Dividends and Dividend Policy.” For information as to ROC taxes on dividends and distributions, see “—Taxation—ROC Taxation—Dividends.”

Changes in Share Capital

Under ROC Company Law, any change in the authorized share capital of a company limited by shares requires an amendment to its Articles of Incorporation, which in turn requires approval at the shareholders’ meeting. In the case of a public company such as ourselves, we must also obtain the approval of, or submit a report to, the FSC and the Kaohsiung Export Processing Zone Administration. Authorized but unissued common shares may be issued, subject to applicable ROC law, upon terms as our board of directors may determine. Our authorized share capital registered with the Kaohsiung Export Processing Zones Administration was NT\$95 billion, divided into 9,500 million common shares with a face value of NT\$10.0 per share as of March 31, 2017. Our authorized share capital under our Articles of Incorporation is NT\$100 billion, divided into 10 billion common shares. There were 500 million common shares included in our authorized shares that are currently not registered with the Kaohsiung Export Processing Zones Administration. We will complete the registration with the Kaohsiung Export Processing Zones Administration if and when our total issued share capital equals or exceeds NT\$95 billion.

Table of Contents

Preemptive Rights

Under the ROC Company Law, when an ROC company issues new shares for cash, existing shareholders who are listed on the shareholders' register as of the record date have preemptive rights to subscribe for the new issue in proportion to their existing shareholdings, while a company's employees, whether or not they are shareholders of the company, have rights to subscribe for 10% to 15% of the new issue. Any new shares that remain unsubscribed at the expiration of the subscription period may be freely offered, subject to compliance with applicable ROC law.

In addition, in accordance with the ROC Securities and Exchange Act, a public company that intends to offer new shares for cash must offer to the public at least 10% of the shares to be sold, except under certain circumstances or when exempted by the FSC. This percentage can be increased by a resolution passed at a shareholders' meeting, which would diminish the number of new shares subject to the preemptive rights of existing shareholders.

These preemptive rights provisions do not apply to offerings of new shares through a private placement approved at a shareholders' meeting.

Meetings of Shareholders

We are required to hold an annual general meeting of our shareholders within six months following the end of each fiscal year. These meetings are generally held in Kaohsiung, Taiwan. Any shareholder who holds 1% or more of our issued and outstanding shares may submit one written proposal for discussion at our annual general meeting. Extraordinary shareholders' meetings may be convened by resolution of the board of directors or by the board of directors upon the written request of any shareholder or shareholders who have held 3% or more of the outstanding common shares for a period of one year or longer. Shareholders' meetings may also be convened by member(s) of the audit committee. Notice in writing of meetings of shareholders, stating the place, time and purpose, must be dispatched to each shareholder at least 30 days, in the case of annual general meetings, and 15 days, in the case of extraordinary meetings, before the date set for each meeting. A majority of the holders of all issued and outstanding common shares present at a shareholders' meeting constitutes a quorum for meetings of shareholders.

Voting Rights

Under the ROC Company Law, except under limited circumstances, shareholders have one vote for each common share held. Under the ROC Company Law, our directors are elected at a shareholders' meeting through cumulative

voting.

In general, a resolution can be adopted by the holders of at least a majority of our common shares represented at a shareholders' meeting at which the holders of a majority of all issued and outstanding common shares are present. Under ROC Company Law, the approval by at least a majority of our common shares represented at a shareholders' meeting in which a quorum of at least two-thirds of all issued and outstanding common shares are represented is required for major corporate actions, including:

- amendment to the Articles of Incorporation, including increase of authorized share capital and any changes of the rights of different classes of shares;

- execution, amendment or termination of any contract through which the company leases its entire business to others, or the company appoints others to operate its business or the company operates its business with others on a continuous basis;

- transfer of entire business or assets or a substantial part of its business or assets;

D-1-94

Table of Contents

acquisition of the entire business or assets of any other company, which would have a significant impact on the company's operations;

distribution of any stock dividend;

dissolution, merger or spin-off of the company;

issuance of restricted shares to employees; and

removal of the directors.

However, in the case of a listed company such as us, the resolution may be adopted by the holders of at least two-thirds of our issued and outstanding common shares represented at a shareholders' meeting at which the holders of at least a majority of all issued and outstanding common shares are present.

A shareholder may be represented at an annual general or extraordinary meeting by proxy if a valid proxy form is delivered to us five days before the commencement of the annual general or extraordinary shareholders' meeting. Shareholders may exercise their voting rights by way of a written ballot or by way of electronic transmission if the voting decision is delivered to us two days before the commencement of the annual general or extraordinary shareholders' meeting.

Holders of ADSs do not have the right to exercise voting rights with respect to the underlying common shares, except as described in the deposit agreement.

Other Rights of Shareholders

Under the ROC Company Law, dissenting shareholders are entitled to appraisal rights in certain major corporate actions such as a proposed amalgamation by the company. If agreement with the company cannot be reached, dissenting shareholders may seek a court order for the company to redeem all of their shares. Shareholders may exercise their appraisal rights by serving written notice on the company prior to or at the related shareholders' meeting and/or by raising and registering an objection at the shareholders' meeting. In addition to appraisal rights, shareholders have the right to sue for the annulment of any resolution adopted at a shareholders' meeting where the procedures were legally defective within 30 days after the date of the shareholders' meeting. One or more shareholders who have held 3% or more of the issued and outstanding shares of a company for a period of one year or longer may require an independent director to bring a derivative action on behalf of the company against a director as a result of the director's unlawful actions or failure to act.

Rights of Holders of Deposited Securities

Except as described below, holders of ADSs generally have no right under the deposit agreement to instruct the depositary to exercise the voting rights for our common shares represented by the ADSs. Instead, by accepting ADSs or any beneficial interest in ADSs, holders of ADSs are deemed to have authorized and directed the depositary to appoint our chairman or his designee to represent them at our shareholders' meetings and to vote our common shares deposited with the custodian according to the terms of the deposit agreement.

The depositary will mail to holders of ADSs any notice of shareholders' meeting received from us together with information explaining how to instruct the depositary to exercise the voting rights of the securities represented by ADSs.

If we fail to timely provide the depositary with an English language translation of our notice of meeting or other materials related to any meeting of owners of common shares, the depositary will endeavor to cause all the deposited securities represented by ADSs to be present at the applicable meeting, insofar as practicable and permitted under applicable law, but will not cause those securities to be voted.

If the depositary timely receives voting instructions from owners of at least 51.0% of the outstanding ADSs to vote in the same direction regarding one or more resolutions to be proposed at the meeting, including election of directors, the depositary will notify our chairman or his designee to attend the meeting and vote all the securities represented by the holders' ADSs in accordance with the direction received from owners of at least 51.0% of the outstanding ADSs.

D-1-95

Table of Contents

If we have timely provided the depositary with the materials described in the deposit agreement and the depositary has not timely received instructions from holders of at least 51.0% of the outstanding ADSs to vote in the same direction regarding any resolution to be considered at the meeting, then, holders of ADSs will be deemed to have authorized and directed the depositary bank to give a discretionary proxy to our chairman or his designee to attend and vote at the meeting our common shares represented by the ADSs in any manner, our chairman or his designee may wish, which may not be in the interests of holders.

The ability of the depositary to carry out voting instructions may be limited by practical and legal limitations and the terms of the securities on deposit. We cannot assure ADS holders that they will receive voting materials in time to enable them to return voting instructions to the depositary in a timely manner.

While shareholders who own 1% or more of our outstanding shares are entitled to submit one proposal to be considered at our annual general meetings, only holders representing at least 51% of our ADSs outstanding at the relevant record date are entitled to submit one proposal to be considered at our annual general meetings. Hence, only one proposal may be submitted on behalf of all ADS holders.

Register of Shareholders and Record Dates

Our share registrar, President Securities Corp., maintains our register of shareholders at its offices in Taipei, Taiwan. Under the ROC Company Law and our Articles of Incorporation, we may, by giving advance public notice, set a record date and close the register of shareholders for a specified period in order for us to determine the shareholders or pledgees that are entitled to rights pertaining to our common share. The specified period required is as follows:

· annual general meeting—60 days;

· extraordinary shareholders' meeting—30 days; and

· relevant record date for distribution of dividends, bonuses or other interests—5 days.

Annual Financial Statements

At least ten days before the annual general meeting, our annual financial statements, which are prepared in conformity with Taiwan IFRS, must be available at our principal executive office in Kaohsiung, Taiwan for inspection by the shareholders.

Transfer of Common Shares

The transfer of common shares in registered form is effected by endorsement and delivery of the related share certificates but, in order to assert shareholders' rights against us, the transferee must have his name and address registered on our register of shareholders. Shareholders are required to file their respective specimen seals, also known as chops, with us. Chops are official stamps widely used in Taiwan by individuals and other entities to authenticate the execution of official and commercial documents. The settlement of trading in our common shares is normally carried out on the book-entry system maintained by the Taiwan Depository & Clearing Corporation.

Acquisition of Common Shares by ASE Inc.

Under the ROC Securities and Exchange Act, we may purchase our own common shares for treasury stock under limited circumstances, including:

- to transfer shares to our employees;

- to deliver shares upon the conversion or exercise of bonds with warrants, preferred shares with warrants, convertible bonds, convertible preferred shares or warrants issued by us; and

- to maintain our credit and our shareholders' equity, provided that the shares so purchased shall be canceled.

We may purchase our common shares on the TWSE or by means of a public tender offer. These transactions require the approval of a majority of our board of directors at a meeting in which at least two-thirds of the directors are in attendance. The total amount of common shares purchased for treasury stock may not exceed 10.0% of the total issued shares. In addition, the total cost of the purchased shares shall not exceed the aggregate amount of our retained earnings, any premium from share issuances and the realized portion of our capital reserve.

Table of Contents

We may not pledge or hypothecate any of our shares purchased by us. In addition, we may not exercise any shareholders' right attaching to such shares. In the event that we purchase our shares on the TWSE, our affiliates, directors, managers, and their respective spouses and minor children and/or nominees are prohibited from selling any of our shares during the period in which we are purchasing our shares.

Pursuant to the ROC Company Law, an entity in which our company directly or indirectly owns more than 50.0% of the voting shares or paid-in capital, which is referred to as a controlled entity, may not purchase our shares. Also, if our company and a controlled entity jointly own, directly or indirectly, more than 50.0% of the voting shares or paid-in capital of another entity, which is referred to as a third entity, the third entity may not purchase shares in either our company or a controlled entity.

Liquidation Rights

In the event of our liquidation, the assets remaining after payment of all debts, liquidation expenses and taxes will be distributed pro rata to the shareholders in accordance with the relevant provisions of the ROC Company Law.

Transfer Restrictions

Substantial Shareholders

The ROC Securities and Exchange Act currently requires:

each director, manager, or substantial shareholder (that is, a shareholder who holds more than 10.0% shares of a company), and their respective spouses, minor children or nominees, to report any change in that person's shareholding to the issuer of the shares and the FSC; and

each director, manager, or substantial shareholder, and their respective spouses, minor children or nominees, after acquiring the status of director, manager, or substantial shareholder for a period of six months, to report his or her intent to transfer any shares on the TWSE to the FSC at least three days before the intended transfer, unless the number of shares to be transferred does not exceed 10,000 shares.

In addition, the number of shares that can be sold or transferred on the TWSE by any person subject to the restrictions described above on any given day may not exceed:

0.2% of the outstanding shares of the company in the case of a company with no more than 30 million outstanding shares; or

0.2% of 30 million shares plus 0.1% of the outstanding shares exceeding 30 million shares in the case of a company with more than 30 million outstanding shares; or

in any case, 5.0% of the average trading volume (number of shares) on the TWSE for the ten consecutive trading days preceding the reporting day on which the director, manager or substantial shareholder reports the intended share transfer to the FSC.

These restrictions do not apply to sales or transfers of our ADSs.

MATERIAL CONTRACT

Joint Share Exchange Agreement between ASE and SPIL

ASE and SPIL have entered into the Joint Share Exchange Agreement pursuant to which a holding company, ASE Holding, will be formed by means of a statutory share exchange, and ASE Holding will (i) acquire all issued shares of ASE in exchange for shares of ASE Holding using the Exchange Ratio as described below, and (ii) acquire all issued shares of SPIL using the Cash Consideration as described below. Upon the consummation of the Share Exchange, ASE and SPIL will become wholly owned subsidiaries of ASE Holding concurrently. Subject to the Share Exchange and the Joint Share Exchange Agreement being approved by shareholders of ASE and SPIL, respectively, and upon the satisfaction of the other conditions for completing the Share Exchange, ASE Holding will be formed.

D-1-97

Table of Contents

Pursuant to the terms and subject to the conditions set forth in the Joint Share Exchange Agreement, at the effective time of the Share Exchange (the “Effective Time”):

i. for SPIL shareholders:

each SPIL common share, par value NT\$10 per share, issued immediately prior to the Effective Time (including SPIL’s treasury shares and the common shares of SPIL beneficially owned by ASE), will be transferred to ASE Holding in consideration for the right to receive NT\$51.2, which represents NT\$55, *minus* a cash dividend and a return of capital reserve of NT\$3.8 per common share of SPIL distributed by SPIL on July 1, 2016, payable in cash in NT dollars, without interest and net of any applicable withholding taxes (“SPIL Common Shares Cash Consideration”); and

each SPIL American depositary share, currently representing five common shares of SPIL will be cancelled in exchange for the right to receive through JPMorgan Chase Bank, N.A., as depositary for the SPIL American depositary shares (“SPIL Depositary”), the US dollar equivalent of NT\$256 (representing five times of the SPIL Common Shares Cash Consideration) *minus* (i) all processing fees and expenses per SPIL American depositary shares in relation to the conversion from NT dollars into US dollars, and (ii) US\$0.05 per SPIL American depositary shares cancellation fees pursuant to the terms of the deposit agreement dated January 6, 2015 by and among SPIL, SPIL Depositary and the holders and beneficial owners from time to time of the SPIL American depositary shares issued thereunder, payable in cash in US dollars, without interest and net of any applicable withholding taxes (“SPIL ADS Cash Consideration,” together with the SPIL Common Shares Cash Consideration, “Cash Consideration”).

The Cash Consideration will be subject to adjustments if SPIL issues shares or pays cash dividends during the period from the execution date of the Joint Share Exchange Agreement to the Effective Time, provided, however, that the Cash Consideration shall not be subject to adjustment if the aggregate amount of the cash dividends distributed by SPIL in fiscal year 2017 is less than 85% of its after-tax net profit for fiscal year 2016.

ii. for ASE shareholders:

each common share of ASE, par value NT\$10 per share, issued immediately prior to the Effective Time (including ASE’s treasury shares), will be transferred to ASE Holding in consideration for the right to receive 0.5 ASE Holding common shares, par value NT\$10 per share; and

each ASE ADS, currently representing five common shares of ASE, will represent the right to receive 1.25 ASE Holding American depositary shares, each representing two ASE Holding common shares upon surrender for cancellation to Citibank, N.A., as depositary for the ASE ADSs, after the Effective Time. The ratio at which the common shares of ASE will be exchanged for the common shares of ASE Holding and ASE ADSs will be exchanged for ASE Holding American depositary shares is hereinafter referred to as the “Exchange Ratio”.

Under Republic of China law, if any fractional ASE Holding common shares representing less than one common share would otherwise be allotted to former holders of ASE common shares in connection with the Share Exchange, those fractional shares will not be issued to those shareholders. Pursuant to the Joint Share Exchange Agreement, ASE will aggregate the fractional entitlements and sell the aggregated ASE common shares using the closing price of ASE common shares on the TWSE on the ninth ROC Trading Day prior to the Effective Time, to an appointee of the Chairman of ASE Holding. The cash proceeds from the sale will be distributed to the former holders of ASE common shares by ASE Holding on a proportionate basis in accordance with their respective fractions at the Effective Time.

D-1-98

Table of Contents

Subject to approval at the extraordinary general shareholders' meeting of ASE shareholders, ASE Holding will issue 3,961,811,298 ASE Holding common shares (based on the number of issued shares of ASE on September 30, 2016) in connection with the Share Exchange.

FOREIGN INVESTMENT IN THE ROC

Historically, foreign investment in the ROC securities market has been restricted. Since 1983, the ROC government has from time to time enacted legislation and adopted regulations to permit foreign investment in the ROC securities market.

On September 30, 2003, the Executive Yuan approved an amendment to the Regulations Governing Investment in Securities by Overseas Chinese and Foreign National, or the Regulations, which took effect on October 2, 2003. Pursuant to the Regulations, the FSC abolished the mechanism of the "qualified foreign institutional investors" and "general foreign investors" as stipulated in the Regulations before the amendment.

Under the Regulations, foreign investors (other than PRC persons) are classified as either "onshore foreign investors" or "offshore foreign investors" according to their respective geographical location. Both onshore and offshore foreign investors are allowed to invest in ROC securities after they register with the TWSE or the Taiwan Futures Exchange. The Regulations further classify foreign investors into foreign institutional investors and foreign individual investors. "Foreign institutional investors" refer to those investors incorporated and registered in accordance with foreign laws outside of the ROC (i.e., offshore foreign institutional investors) or their branches set up and recognized within the ROC (i.e., onshore foreign institutional investors). Offshore overseas Chinese and foreign individual investors may be subject to a maximum investment ceiling that will be separately determined by the FSC, after consultation with the Central Bank of the Republic of China (Taiwan). Currently, there is no maximum investment ceiling for offshore overseas Chinese and foreign individual investors. On the other hand, foreign institutional investors are not subject to any ceiling for investment in the ROC securities market.

Except for certain specified industries, such as telecommunications, investments in ROC-listed companies by foreign investors are not subject to individual or aggregate foreign ownership limits. Custodians for foreign investors are required to submit to the Central Bank of the Republic of China (Taiwan) and the TWSE a monthly report of trading activities and status of assets under custody and other matters. Capital remitted to the ROC under these guidelines may be remitted out of the ROC at any time after the date the capital is remitted to the ROC. Capital gains and income on investments may be remitted out of the ROC at any time.

Foreign investors (other than PRC persons) who wish to make (i) direct investments in the shares of ROC private companies or (ii) investment in 10.0% or more of the equity interest of a ROC company listed on the TWSE or the Taipei Exchange in any single transaction, are required to submit a foreign investment approval application to the

MOEAIC or other applicable government authority. The MOEAIC or such other government authority reviews each foreign investment approval application and approves or disapproves each application after consultation with other governmental agencies (such as the Central Bank of the Republic of China (Taiwan) and the FSC).

Under current ROC law, any non-ROC person possessing a foreign investment approval may remit capital for the approved investment and is entitled to repatriate annual net profits, interest and cash dividends attributable to the approved investment. Dividends attributable to such investment may be repatriated upon submitting certain required documents to the remitting bank, and investment capital and capital gains attributable to such investment may be repatriated after approvals of the MOEAIC or other government authorities have been obtained.

In addition to the general restriction against direct investment by foreign investors in securities of ROC companies, foreign investors (except in certain limited cases) are currently prohibited from investing in certain industries in the ROC pursuant to a “negative list,” as amended by the Executive Yuan. The prohibition on foreign investment in the prohibited industries specified in the negative list is absolute in the absence of a specific exemption from the application of the negative list. Pursuant to the negative list, certain other industries are restricted so that foreign investors (except in limited cases) may invest in these industries only up to a specified level and with the special approval of the relevant competent authority that is responsible for enforcing the relevant legislation that the negative list is intended to implement.

D-1-99

Table of Contents

The FSC announced the PRC Regulations on April 30, 2009. According to the PRC Regulations, a PRC QDII is allowed to invest in ROC securities (including less than 10.0% shareholding of a ROC company listed on the TWSE or the Taipei Exchange) provided that the total investment amount of any QDII does not exceed US\$500 million. The custodians of QDIIs must apply with the TWSE for the remittance amount for each QDII, which cannot exceed US\$100 million, and QDII can only invest in ROC securities at an amount approved by the TWSE. In addition, QDIIs are currently prohibited from investing in certain industries, and their investment in any company of certain other industries is restricted to a certain percentage pursuant to a list promulgated by the FSC and amended from time to time. PRC investors other than QDII are prohibited from making investments in a ROC company listed on the TWSE or the Taipei Exchange if the investment is less than 10.0% of the equity interest of such ROC company.

In addition to investments permitted under the PRC Regulations, PRC investors who wish to make (i) direct investment in the shares of ROC private companies or (ii) investments, individually or in the aggregate, in 10.0% or more of the equity interest of a ROC company listed on the TWSE or the Taipei Exchange, are required to submit an investment approval application to the MOEAIC or other government authority. The MOEAIC or such other government authority reviews each investment approval application and approves or disapproves each application after consultation with other governmental agencies.

In addition to the general restriction against direct investment by PRC investors in securities of ROC companies, PRC investors may only invest in certain industries on the “positive list” promulgated by the Executive Yuan. Furthermore, a PRC investor who wishes to be elected as a ROC company’s director or supervisor shall submit an investment approval application to the MOEAIC or other government authority for approval.

EXCHANGE CONTROLS

ROC Exchange Controls

The ROC Foreign Exchange Control Law and regulations provide that all foreign exchange transactions must be executed by banks designated by the FSC and by the Central Bank of the Republic of China (Taiwan) to engage in such transactions. Current regulations favor trade-related or service-related foreign exchange transactions. Consequently, foreign currency earned from exports of merchandise and services may now be retained and used freely by exporters, and all foreign currency needed for the importation of merchandise and services may be purchased freely from the designated foreign exchange banks.

Apart from trade-related or service-related foreign exchange transactions, ROC companies and individual residents of the ROC reaching the age of 20 years old may, without foreign exchange approval, remit foreign currency of up to US\$50 million (or its equivalent) and US\$5 million (or its equivalent) to and from the ROC, respectively, in each calendar year. The above limits apply to remittances involving either a conversion of NT dollars into a foreign

currency or a conversion of foreign currency into NT dollars. In addition, a requirement is also imposed on all enterprises to register medium- and long-term foreign debt with the Central Bank of the Republic of China (Taiwan).

In addition, foreign persons may, subject to specified requirements but without foreign exchange approval of the Central Bank of the Republic of China (Taiwan), remit to and from the ROC foreign currencies of up to US\$100,000 (or its equivalent) per remittance if the required documentation is provided to the ROC authorities. The above limit applies to remittances involving either a conversion of NT dollars into a foreign currency or a conversion of foreign currency into NT dollars. The above limit does not, however, apply to the conversion of NT dollars into other currencies, including U.S. dollars, from the proceeds of a sale of any underlying shares withdrawn from a depository receipt facility.

TAXATION

ROC Taxation

The following discussion describes the material ROC tax consequences of the ownership and disposition of our common shares or ADSs to a non-resident individual or non-resident entity that owns our common shares or ADSs (referred to here as a “non-ROC holder”). As used in the preceding sentence, a “non-resident individual” is a non-ROC national who owns our common shares or ADSs and is not physically present in the ROC for 183 days or more during any calendar year, and a “non-resident entity” is a corporation or a non-corporate body that owns our common shares or ADSs, is organized under the laws of a jurisdiction other than the ROC and has no fixed place of business or business agent in the ROC.

D-1-100

Table of Contents

Dividends

Dividends (whether in cash or common shares) declared by us out of retained earnings and distributed to a non-ROC holder are subject to ROC withholding tax, currently at the rate of 20% (unless a preferable tax rate is provided under a tax treaty between the ROC and the jurisdiction where the non-ROC holder is a resident) on the amount of the distribution (in the case of cash dividends) or on the par value of the distributed common shares (in the case of stock dividends). A 10% undistributed earnings tax is imposed on a ROC company for its after-tax earnings generated after January 1, 1998 which are not distributed in the following year. The undistributed earnings tax so paid will further reduce the retained earnings available for future distribution. When we declare a dividend out of those retained earnings, an amount in respect of the undistributed earnings tax, up to a maximum amount of 5% of the dividend to be distributed, will be credited against the withholding tax imposed on the non-ROC holders.

Distributions of common shares or cash out of capital reserves will not be subject to withholding tax, except under limited circumstances.

Capital Gains

Starting from January 1, 2016, capital gains realized upon the sale or other disposition of common shares are exempt from ROC income tax.

Sales of ADSs are not regarded as sales of ROC securities and thus any gains derived from transfers of ADSs by non-ROC holders are not currently subject to ROC income tax.

Securities Transaction Tax

Securities transaction tax will be imposed on the seller at the rate of 0.3% of the transaction price upon a sale of common shares. Transfers of ADSs are not subject to ROC securities transaction tax. On April 11, 2017, the amendment to reduce the tax rate for day trading of shares to 0.15% for one year was passed and will come into force after said amendment is promulgated by the President of ROC.

Subscription Rights

Distributions of statutory subscription rights for our common shares in compliance with the ROC Company Law are currently not subject to ROC tax. Sales of statutory subscription rights evidenced by securities are subject to securities transaction tax, currently at the rate of 0.3% of the gross amount received. Holders are exempt from income tax on capital gains from the sale of statutory subscription rights evidenced by securities. Proceeds derived from sales of statutory subscription rights which are not evidenced by securities are not subject to securities transaction tax but are subject to income tax at a fixed rate of 20% of the income if the seller is a non-ROC holder. Subject to compliance with ROC law, we, in our sole discretion, may determine whether statutory subscription rights are evidenced by securities.

Estate and Gift Tax

ROC estate tax is payable on any property within the ROC left by a deceased non-resident individual, and ROC gift tax is payable on any property within the ROC donated by a non-resident individual. Estate tax and gift tax are currently imposed at the rate of 10%. Under the ROC Estate and Gift Tax Act, common shares issued by ROC companies are deemed located in the ROC without regard to the location of the owner. It is unclear whether a holder of ADSs will be considered to own common shares for this purpose.

Tax Treaty

At present, the ROC has income tax treaties with Indonesia, Singapore, New Zealand, Australia, the United Kingdom, South Africa, Gambia, Swaziland, Malaysia, Macedonia, the Netherlands, Senegal, Sweden, Belgium, Denmark, Israel, Vietnam, Paraguay, Hungary, France, India, Slovakia, Switzerland, Germany, Thailand, Kiribati, Luxembourg, Austria, Italy, Japan, Canada and Poland. These tax treaties may limit the rate of ROC withholding tax on dividends paid with respect to common shares issued by ROC companies. A non-ROC holder of ADSs may or may not be considered as the beneficial owner of common shares for the purposes of such treaties. Accordingly, holders of ADSs who wish to apply a reduced withholding tax rate that is provided under a tax treaty should consult their own tax advisers concerning such application. The United States does not have an income tax treaty with the ROC.

D-1-101

Table of Contents

United States Federal Income Taxation

The following discussion describes the material U.S. federal income tax consequences of the ownership and disposition of our common shares or ADSs to those U.S. Holders described below who hold such common shares or ADSs as capital assets for U.S. federal income tax purposes. As used herein, a “U.S. Holder” is a beneficial owner of our common shares or ADSs that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States;

- a corporation, or other entity taxable as a corporation, created or organized under the laws of the United States or of any political subdivision of the United States; or

- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

This discussion assumes that we are not a passive foreign investment company, as discussed below.

This discussion does not address all of the tax consequences that may be relevant in light of a U.S. Holder’s particular circumstances. In particular, it does not address all of the tax consequences that may be relevant to holders subject to special rules, including:

- persons subject to the alternative minimum tax;

- persons subject to taxation under the provisions of the Internal Revenue Code of 1986, as amended (the “Code”), known as the Medicare contribution tax;

- insurance companies;

- tax-exempt entities, including “individual retirement accounts” or “Roth IRAs”;

- dealers or traders in securities who use a mark-to-market method of accounting for U.S. federal income tax purposes;

· certain financial institutions;

· partnerships or other entities classified as partnerships for U.S. federal income tax purposes;

· persons holding common shares or ADSs in connection with a trade or business conducted outside of the U.S.;

· persons who hold or will hold common shares or ADSs as part of a straddle, hedge, conversion transaction, integrated transaction or similar transaction;

· persons whose functional currency for U.S. federal income tax purposes is not the U.S. dollar;

· persons who own or are deemed to own 10% or more of our voting stock; or

· persons who acquired our common shares or ADSs pursuant to the exercise of any employee stock option or otherwise as compensation.

If an entity that is classified as a partnership for U.S. federal income tax purposes holds our common shares or ADSs, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. Partnerships holding our common shares or ADSs and partners in such partnerships should consult their tax advisers as to the particular U.S. federal income tax consequences of holding and disposing of our common shares or ADSs.

D-1-102

Table of Contents

This discussion is based on the Code, final, temporary and proposed Treasury regulations, administrative pronouncements and judicial decisions, all as of the date hereof. These laws and regulations are subject to change, possibly with retroactive effect. This discussion is also based in part on representations by the depositary bank and assumes that each obligation under the Deposit Agreement and any related agreement will be performed in accordance with its terms.

In general, for U.S. federal income tax purposes, a U.S. Holder who owns ADSs should be treated as the owner of the common shares represented by the ADSs. Accordingly, no gain or loss should be recognized if a U.S. holder exchanges ADSs for the common shares represented by those ADSs.

The U.S. Treasury has expressed concerns that parties to whom American depositary shares are released before delivery of shares to the depositary bank (“pre-release”), or intermediaries in the chain of ownership between holders and the issuer of the security underlying the American depositary shares, may be taking actions that are inconsistent with the claiming of foreign tax credits by the holders of American depositary shares. Such actions would also be inconsistent with the claiming of the preferential rates of tax applicable to dividends received by certain non-corporate U.S. holders. Accordingly, the creditability of ROC taxes and the availability of the preferential tax rates for dividends received by certain non-corporate U.S. Holders, both described below, could be affected by actions that may be taken by such parties or intermediaries.

U.S. Holders should consult their tax advisers with regard to the application of the U.S. federal income tax laws to their common shares or ADSs as well as any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

Dividends

Distributions paid on our common shares or ADSs (other than certain *pro rata* distributions of our common shares to all shareholders, including holders of ADSs), including the amount of any ROC taxes withheld thereon, reduced by any credit against the withholding tax on account of the 10% retained earnings tax imposed on us, generally will constitute foreign-source dividend income to the extent paid out of our current or accumulated earnings and profits as determined in accordance with U.S. federal income tax principles. Because we do not maintain calculations of our earnings and profits under U.S. federal income tax principles, we expect that distributions generally will be reported to U.S. Holders as dividends. The amount a U.S. Holder will be required to include in income for any dividend paid in NT dollars will be equal to the U.S. dollar value of the NT dollars paid, calculated by reference to the exchange rate in effect on the date the payment is received by the depositary (in the case of ADSs) or by a U.S. Holder (in the case of common shares), regardless of whether the payment is in fact converted into U.S. dollars on the date of receipt. If a U.S. Holder does not convert the NT dollars so received into U.S. dollars on the date of receipt, any gain or loss recognized on a subsequent sale or other disposition of the NT dollars generally will be U.S.-source ordinary income or loss. The amount of any taxable distribution of property other than cash will be the fair market value of such property on the date of distribution. Dividends will not be eligible for the dividends-received deduction generally

available to U.S. corporations under the Code.

Subject to applicable limitations and the discussion above regarding concerns expressed by the U.S. Treasury, under current law, certain dividends paid by qualified foreign corporations to certain non-corporate U.S. Holders are taxable at the preferential rates applicable to long-term capital gain. A foreign corporation is treated as a qualified foreign corporation with respect to dividends paid by that corporation on shares (or ADSs representing such shares) that are readily tradable on a securities market in the United States, such as the NYSE, where our ADSs are traded. U.S. Holders should consult their tax advisers to determine whether these preferential rates may apply to dividends they receive and whether they are subject to any special rules that limit their ability to be taxed at these preferential rates.

Subject to applicable limitations and restrictions, some of which vary depending upon the U.S. Holder's circumstances, and the discussion above regarding concerns expressed by the U.S. Treasury, the ROC taxes withheld from dividend distributions, reduced by any credit against the withholding tax which is paid by us on account of the 10% retained earnings tax, will be eligible for credit against the U.S. Holder's U.S. federal income tax liability. The limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. The rules governing foreign tax credits are complex and, therefore, U.S. Holders should consult their tax advisers regarding the availability of foreign tax credits in their particular circumstances. Instead of claiming a credit, U.S. Holders may, at their election, deduct otherwise creditable ROC taxes in computing their taxable income, subject to generally applicable limitations under U.S. law. An election to deduct foreign taxes instead of claiming foreign tax credits applies to all taxes paid or accrued in the taxable year to foreign countries and possessions of the United States.

D-1-103

Table of Contents

Certain *pro rata* distributions of common shares by a company to its shareholders, including holders of ADSs, will not be subject to U.S. federal income tax. Accordingly, these distributions will not give rise to U.S. federal income against which the ROC tax imposed on these distributions may be credited. U.S. Holders should consult their tax advisers as to whether any ROC tax imposed on such distributions may be creditable against their U.S. federal income tax on foreign-source income from other sources.

Capital Gains

A U.S. Holder generally will recognize U.S.-source capital gain or loss for U.S. federal income tax purposes on the sale or exchange of our common shares or ADSs, which will be long-term capital gain or loss if our common shares or ADSs were held by the U.S. Holder for more than one year. The amount of gain or loss will be equal to the difference between the U.S. Holder's tax basis in our common shares or ADSs disposed of and the amount realized on disposition, in each case as determined in U.S. dollars. A U.S. Holder's basis in our common shares or ADSs will generally equal the U.S. Holder's cost of such common shares or ADSs. If a U.S. Holder receives our common shares or ADSs in a non-taxable *pro rata* distribution with respect to its ADSs or common shares (the "new securities"), the basis of such new securities must be determined by allocating the basis of the common shares or ADSs with respect to which the new securities were issued (the "old securities") between the old securities and new securities in proportion to their fair market values on the date of distribution. U.S. Holders should consult their tax advisers about the treatment of capital gains, which may be taxed at lower rates than ordinary income for non-corporate taxpayers, and capital losses, the deductibility of which may be limited.

Passive Foreign Investment Company Rules

We believe that we were not a passive foreign investment company, or "PFIC", for U.S. federal income tax purposes for our 2016 taxable year. However, since PFIC status depends upon the composition of a company's income and assets and the market value of its assets (including, among others, less than 25 percent owned equity investments) from time to time, there can be no assurance that we will not be considered a PFIC for any taxable year.

If we were a PFIC for any taxable year during which a U.S. Holder held a common share or an ADS, certain adverse consequences could apply to that U.S. Holder. If we are a PFIC for any taxable year during which a U.S. Holder owns a common share or an ADS, such U.S. Holder will generally be required to file Internal Revenue Service Form 8621 with their annual U.S. federal income tax returns, subject to certain exceptions.

Information Reporting and Backup Withholding

Payments of dividends and sales proceeds that are made within the United States or through certain U.S.-related financial intermediaries generally are subject to information reporting, and may be subject to backup withholding, unless (i) the U.S. Holder is an exempt recipient or (ii) in the case of backup withholding, the U.S. Holder provides a correct taxpayer identification number and certifies that it is not subject to backup withholding.

The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's U.S. federal income tax liability and may entitle it to a refund, provided that the required information is timely furnished to the Internal Revenue Service.

DOCUMENTS ON DISPLAY

We file annual reports on Form 20-F and periodic reports on Form 6-K with the SEC. You can read and copy these reports and other information at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. You can also request copies of the documents, upon payment of a duplicating fee, by writing to the Public Reference Section of the SEC. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the Public Reference Room. The reports and other information we file electronically with the SEC are also available to the public from the SEC's website at <http://www.sec.gov>.

SUBSIDIARY INFORMATION

Not applicable.

Item 11. Quantitative and Qualitative Disclosures about Market Risk

Market Risk

Our exposure to financial market risks relates primarily to changes in interest rates and foreign currency exchange rates.

Interest Rate Risk. Our exposure to interest rate risks relates primarily to our long-term floating rate loans, which is normally incurred to support our corporate activities and capital expenditures. See note 32 to our consolidated financial statements included in this annual report for details on interest rate sensitivity analysis.

We entered into several interest rate swap contracts to mitigate the interest rate risk on our long-term loans. In April 2013, J&R Holding Limited entered into an interest rate swap contract in the amount of RMB240.0 million, which matured in April 2014, with interest receipt based on a floating rate of 1.05% to 2.80% and payment based on a fixed rate of 2.0%. In February 2014, J&R Holding Limited entered into another interest rate swap contract in the amount of RMB240.0 million, which had the maturity schedule in February 2015 but was early settled in May 2014, with interest receipt based on a floating rate of 1.20% to 1.40% and payment based on a fixed rate of 1.35%. We recognized these contracts as hedging derivative liabilities-current with an adjustment to shareholders' equity.

Edgar Filing: ADVANCED SEMICONDUCTOR ENGINEERING INC - Form F-4/A

In October 2015, we entered into an interest rate swap contract in the amount of NT\$1,000.0 million, which matured in October 2016, with interest receipt based on a floating rate of 0.00% to 5.00% and payment based on a fixed rate of 4.60%. We recognized it as financial liabilities held for trading with an adjustment to profit or loss.

The tables below set forth information relating to our significant obligations, including short-term borrowings and long-term borrowings, including bank loans, bills payable, capital lease obligations and bonds payable, that are sensitive to interest rate fluctuations as of December 31, 2016.

	Expected Maturity Date						Total	Fair Value
	2017	2018	2019	2020	2021	Thereafter		
(in millions, except percentages)								
Short-term borrowings:

D-1-105

Table of Contents

Foreign Currency Exchange Rate Risk. Our foreign currency exposure gives rise to market risk associated with exchange rate movements against the NT dollar, our functional currency. Currently, the majority of our revenues are denominated in U.S. dollars, with a portion denominated in NT dollars and Japanese yen. Our costs of revenues and operating expenses are incurred in several currencies, primarily in NT dollars, U.S. dollars, RMB, Japanese yen, Korean won, as well as, to a lesser extent, Singapore dollars and Malaysian ringgit. In addition, a substantial portion of our capital expenditures, primarily for the purchase of packaging and testing equipment, has been, and is expected to continue to be, denominated primarily in U.S. dollars with the remainder in Japanese yen. The majority of our borrowings are denominated in NT dollars, U.S. dollars and RMB. Fluctuations in exchange rates, primarily among the U.S. dollar against the NT dollar, RMB and the Japanese yen, will affect our costs and operating margins and could result in exchange losses and increased costs in NT dollar and other local currency terms. See note 32 to our consolidated financial statements included in this annual report for details on foreign currency exchange rate sensitivity analysis.

Despite hedging and mitigating techniques implemented by us, fluctuations in exchange rates have affected, and may continue to affect, our financial condition and results of operations. We recorded net foreign exchange losses of NT\$1,222.0 million and NT\$713.2 million in 2014 and 2015, respectively, and net foreign exchange gains of NT\$1,928.4 million (US\$59.5 million) in 2016. To protect against reductions in value and the volatility of future cash flows caused by changes in foreign currency exchange rates, we utilize currency forward contracts and swap contracts from time to time to reduce the impact of foreign currency fluctuations on our results of operations. Our policy is to account for these contracts on a mark-to-market rate basis.

The table below sets forth our outstanding forward exchange contracts and swap contracts, for which the expected maturity dates are in 2017, in aggregate terms by type of contract as of December 31, 2016.

Forward Exchange Contracts and Swap Contracts

	Forward Exchange Contracts	Swap Contracts
Buy US\$ against NT\$		
Notional Amount	US\$90 million	US\$1,871.0 million
Weighted Average Strike Price	US\$/NT\$ 31.581	US\$/NT\$ 31.960
Fair Value	US\$1.816 million	US\$4.956 million
Sell US\$ against NT\$		
Notional Amount	US\$190.0 million	US\$61.0 million
Weighted Average Strike Price	US\$/NT\$ 32.102	US\$/NT\$ 32.113
Fair Value	Negative US\$0.700 million	Negative US\$0.245 million
Sell US\$ against RMB		
Notional Amount	US\$70 million	US\$49.9 million
Weighted Average Strike Price	US\$/RMB 6.926	US\$/RMB 7.009

Edgar Filing: ADVANCED SEMICONDUCTOR ENGINEERING INC - Form F-4/A

Fair Value	Negative US\$0.241 million	Negative US\$0.023 million

Table of Contents

Other Market Risk. Our exposure to other market risk relates primarily to our investments in publicly-traded stock, private-placement bonds, open-end mutual funds and limited partnership interests. The value of these investments may fluctuate based on various factors including prevailing market conditions. Moreover, the fair value of investments in unlisted securities may be significantly different from their carrying value. As of December 31, 2016, our investments in publicly traded stock, open-end mutual funds and private-placement bonds classified as financial assets at fair value through profit or loss were NT\$2,540.6 million (US\$78.4 million). As of December 31, 2016, our investments classified as available-for-sale financial assets were NT\$1,295.0 million (US\$40.0 million), primarily consisting of publicly-traded stock, open-end mutual funds and limited partnership interests. If the fair values of these investments fluctuate by 1.0%, our profit before income tax will increase or decrease by approximately NT\$26.0 million (US\$0.8 million) for the same period, and our other comprehensive before income tax will increase or decrease by approximately NT\$13.0 million (US\$0.4 million) for the same period. In addition, we are also exposed to our share price risk through conversion option, redemption option and put option of convertible bonds recognized as financial liabilities held for trading. If our share price increases or decreases by 7.0%, our profit before income tax for the year ended December 31, 2016 will decrease by NT\$510.0 million (US\$15.7 million) or increase by NT\$445.0 million (US\$13.7 million), respectively. Furthermore, fluctuations in gold prices may also affect the price at which we have been able to purchase gold wire. How this will impact the results of our operations depends on whether such costs can be transferred onto our customers.

AMERICAN DEPOSITARY SHARES

Depositary Fees and Charges

Under the terms of the amended and restated deposit agreement dated September 29, 2000 among Citibank, N.A., as depositary, holders and beneficial owners of ADSs and us, which was filed as an exhibit to our registration statement on Form F-6 on September 16, 2003, and its two amendments, which were filed as an exhibit to our registration statement on post-effective amendment No. 1 to Form F-6 on April 3, 2006 and our registration statement on post-effective amendment No. 2 to Form F-6 on October 25, 2006, respectively, for our ADSs, an ADS holder may have to pay the following service fees to the depositary bank:

Service	Fees
Issuance of ADSs	Up to US\$5.00 per 100 ADSs (or fraction thereof) issued
Delivery of deposited securities against surrender of ADSs	Up to US\$5.00 per 100 ADSs (or fraction thereof) surrendered
Distribution of cash dividends or other cash distributions	Up to US\$5.00 per 100 ADSs (or fraction thereof) held, unless prohibited by the exchange upon which the ADSs are listed
Distribution of ADSs pursuant to (i) stock dividends or other free stock distributions, or (ii) exercises of rights to purchase additional ADSs	Up to US\$5.00 per 100 ADSs (or fraction thereof) held, unless prohibited by the exchange upon which the ADSs are listed
Distribution of securities other than ADSs or rights to purchase additional ADSs	Up to US\$5.00 per 100 ADSs (or fraction thereof) held
Depositary Services	Up to US\$5.00 per 100 ADSs (or fraction thereof) held, unless prohibited by the exchange upon which the ADSs are listed
Transfer of ADRs	US\$1.50 per certificate presented for transfer

An ADS holder will also be responsible to pay certain fees and expenses incurred by the depositary bank and certain taxes and governmental charges such as:

· taxes (including applicable interest and penalties) and other governmental charges;

· such registration fees as may from time to time be in effect for the registration of shares or other deposited securities on the share register and applicable to transfers of shares or other deposited securities to or from the name of the custodian, the depositary or any nominees upon the making of deposits and withdrawals, respectively;

such cable, telex and facsimile transmission and delivery expenses as are expressly provided in the Deposit Agreement to be at the expense of the person depositing or withdrawing shares or holders and beneficial owners of ADSs;

the expenses and charges incurred by the depositary in the conversion of foreign currency;

such fees and expenses as are incurred by the depositary in connection with compliance with exchange control regulations and other regulatory requirements applicable to shares, deposited securities, ADSs and ADRs; and

the fees and expenses incurred by the depositary, the custodian or any nominee in connection with the servicing or delivery of deposited securities.

Depositary fees payable upon the issuance and cancellation of ADSs are typically paid to the depositary bank by the brokers (on behalf of their clients) receiving the newly-issued ADSs from the depositary bank and by the brokers (on behalf of their clients) delivering the ADSs to the depositary bank for cancellation. The brokers in turn charge these transaction fees to their clients.

D-1-108

Table of Contents

Depository fees payable in connection with distributions of cash or securities to ADS holders and the depository services fee are charged by the depository bank to the holders of record of ADSs as of the applicable ADS record date. Depository fees payable for cash distributions are generally deducted from the cash being distributed. In case of distributions other than cash (*i.e.*, stock dividends, rights offerings), the depository bank charges the applicable fee to the ADS record date holders concurrent with the distribution. In the case of ADSs registered in the name of the investor (whether certificated or un-certificated in direct registration), the depository bank sends invoices to the applicable record date ADS holders. In case of ADSs held in brokerage and custodian accounts via the central clearing and settlement system, The Depository Trust Company (DTC), the depository bank generally collects its fees through the systems provided by DTC (whose nominee is the registered holder of the ADSs held in DTC) from the brokers and custodians holding ADSs in their DTC accounts. The brokers and custodians who hold their clients' ADSs in DTC accounts in turn charge their clients' accounts the amount of the fees paid to the depository banks.

In the event of refusal to pay depository fees, the depository bank may, under the terms of the Deposit Agreement, refuse the requested service until payment is received or may set-off the amount of the depository fees from any distribution to be made to the ADS holder. Note that the fees and charges you may be required to pay may vary over time and may be changed by us and by the depository bank. You will receive prior notice of such changes.

Depository Payments

In 2016, we received US\$71,991.8 from Citibank, N.A., the depository bank for our ADR programs. The table below sets forth details of the amount we received from Citibank, N.A.

Depository Payments	
Reimbursement of proxy process expenses	US\$11,922.1
Reimbursement of ADR holders identification expenses	US\$9,102.7
Reimbursement of legal fees	US\$30,967.0
Direct reimbursement	US\$H.0

Item 15. Controls and Procedures

Disclosure Controls and Procedures

As of December 31, 2016, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15(d)-15(e) under the Exchange Act. Our management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which by their nature can provide only reasonable assurance regarding management's control objectives. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective for recording, processing, summarizing and reporting, within the time periods specified in the SEC's rules and forms, information required to be disclosed in the reports we file or submit under the Exchange Act, and for accumulating and communicating such information to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) and 15d-15(f) promulgated under the Securities Exchange Act of 1934.

D-1-109

Table of Contents

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2016. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework (2013).

Based on this assessment, management concluded that, as of December 31, 2016, our internal control over financial reporting is effective based on those criteria.

Our independent registered public accounting firm, Deloitte & Touche, independently assessed the effectiveness of our internal control over financial reporting. Deloitte & Touche has issued an attestation report, which is included below.

Report of the Independent Registered Public Accounting Firm

To: the Board of Directors and Shareholders of Advanced Semiconductor Engineering, Inc.

We have audited the internal control over financial reporting of Advanced Semiconductor Engineering, Inc. and its subsidiaries (the "Company") as of December 31, 2016, based on the criteria established in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016, based on the criteria established in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

D-1-110

Table of Contents

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of the Company as of and for the year ended December 31, 2016 and our report dated April 18, 2017 expressed an unqualified opinion on those financial statements based on our audit and the report of the other auditors and included an explanatory paragraph regarding the convenience translation of New Taiwan dollar amounts into U.S. dollar amounts.

/s/ Deloitte & Touche

Taipei, Taiwan

The Republic of China

April 18, 2017

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during the period covered by this annual report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 16. [Reserved]

Item 16A. Audit Committee Financial Expert

Our board of directors determined that Shen-Fu Yu, Ta-Lin Hsu and Mei-Yueh Ho are audit committee financial experts as defined under the applicable rules of the SEC issued pursuant to Section 407 of the Sarbanes-Oxley Act of 2002 and are independent for the purposes of Rule 10A-3 of the Exchange Act.

Item 16B. Code of Ethics

We have adopted a code of ethics that satisfies the requirements of Item 16B of Form 20-F and applies to all employees, officers, supervisors and directors of our Company and subsidiaries, including our Chief Executive Officer, Chief Financial Officer and principal accounting officer. Our board of directors has approved and adopted the amended Code of Business Conduct and Ethics (“the Amended Code”) which came into force with effect from April 28, 2016. The amendments aim to build more robust and effective policies and procedures to enable high ethical standards of business conduct that can be persistently maintained, and mainly addressed revised policies with respect to anti-corruption, fair competition, avoidance of conflict of interest, prohibition against insider trading, anti-money laundering, protection to labor as well as whistleblowing policy and regulatory compliance. The Amended Code continues to apply to all employees, officers, supervisors and directors of our Company and subsidiaries, including our Chief Executive Officer, Chief Financial Officer and principal accounting officer. We have posted our code of ethics on our website at <http://www.aseglobal.com>.

Item 16C. Principal Accountant Fees and Services

Policy on Pre-Approval of Audit and Non-Audit Services of Independent Registered Public Accounting Firm

Our audit committee, which was established on July 22, 2005, pre-approves all audit and non-audit services provided by our independent registered public accounting firm, including audit services, audit-related services, tax services and other services, on a case-by-case basis.

Independent Registered Public Accounting Firm’s Fees

The following table sets forth the aggregate fees by categories specified below in connection with certain professional services rendered by Deloitte & Touche. We did not pay any other fees to our independent registered public accounting firm during the periods indicated below.

	For the Year Ended December 31,			US\$
	2014	2015	2016	
	NT\$	NT\$	NT\$	
Audit fees ⁽¹⁾	158,962.4	161,476.9	165,172.5	5,097.9
Audit-related fees ⁽²⁾	5,000.0	4,000.0	7,450.0	230.0
Tax fees ⁽³⁾	20,160.6	13,020.0	15,264.7	471.1
All other fees ⁽⁴⁾	5,592.2	10,541.6	7,375.0	227.6
Total	189,715.2	189,038.5	195,262.2	6,026.6

Table of Contents

Audit fees are defined as the standard audit and review work that needs to be performed each year in order to issue an opinion on our consolidated financial statements and to issue reports on the local statutory financial statements.

(1) It also includes services that can only be provided by our auditor such as statutory audits required by the Tax Bureau of the ROC and the Customs Bureau of the ROC, consents and comfort letters and any other audit services required for SEC or other regulatory filings.

(2) Audit-related fees consist of assurance and related services by Deloitte & Touche that are reasonably related to the performance of the audit or review of our financial statements and are not reported above under Audit Fees. The service for the fees disclosed under this category relate to cash capital increase and bonds offering.

(3) Tax fees consist of professional services rendered by Deloitte & Touche for tax compliance and tax advice. The services for the fees disclosed under this category include tax return preparation and technical tax advice.

(4) Other fees primarily consist of risk management advisory fee and business operation and process advisory fee, among others.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

Share Repurchase

On November 29, 2010, we announced a share repurchase program, or Third Share Repurchase, to repurchase up to 37.0 million of our common shares at prices between NT\$25.0 to NT\$41.0 per share during the period from November 30, 2010 to January 28, 2011. This share repurchase program concluded on December 6, 2010, when a total of 37.0 million of our common shares had been repurchased pursuant to this program. As of January 19, 2011, all of these common shares we repurchased had been cancelled. On August 15, 2011, we announced a share repurchase program, or Fourth Share Repurchase, to repurchase up to 34.0 million of our common shares at prices between

NT\$20.0 to NT\$45.0 per share during the period from August 16, 2011 to October 15, 2011. This share repurchase program concluded on August 29, 2011, when a total of 34.0 million of our common shares had been repurchased pursuant to this program. On September 1, 2011, we announced a share repurchase program, or Fifth Share Repurchase, to repurchase up to 50.0 million of our common shares at prices between NT\$20.0 to NT\$42.0 per share during the period from September 2, 2011 to November 1, 2011. This share repurchase program concluded on September 16, 2011, when a total of 50.0 million of our common shares had been repurchased pursuant to this program. On September 20, 2011, we announced a share repurchase program, or Sixth Share Repurchase, to repurchase up to 30.0 million of our common shares at prices between NT\$22.0 to NT\$40.0 per share during the period from September 21, 2011 to November 20, 2011. This share repurchase program concluded on November 20, 2011, when a total of 21.475 million of our common shares had been repurchased pursuant to this program. As of January 19, 2012, all of these common shares we repurchased had been cancelled. On February 26, 2015, we announced a share repurchase program, or Seventh Share Repurchase, approved by our board of directors, to repurchase up to 120.0 million of our common shares, which accounts for 1.53% of our total issued shares, at prices between NT\$32.0 to NT\$55.0 per share during the period from March 2, 2015 to April 30, 2015. The program authorized us to repurchase up to NT\$6,600 million worth of our issued common shares in open market transactions. This share repurchase program concluded on March 27, 2015. A total of 120.0 million of our common shares had been repurchased pursuant to this program.

D-1-112

Table of Contents

The table below sets forth certain information about the repurchase of our common shares under these share repurchase programs.

Period	Total Number of Common Shares Purchased	Average Price Paid Per Common Share	Total Number of Common Shares Purchased as Part of Publicly Announced Programs	Maximum Number (or Approximate Dollar Value) of Common Shares that May Yet Be Purchased Under the Programs
Third Share Repurchase

Item 16F. Change In Registrant's Certifying Accountant

Not applicable.

Item 16G. Corporate Governance

As a company listed on the NYSE, we are subject to certain corporate governance rules of the NYSE. The application of the NYSE's corporate governance rules is limited for foreign private issuers, recognizing that they have to comply with domestic requirements. As a foreign private issuer, we must comply with the following NYSE corporate governance rules: 1) satisfy the audit committee requirements of the SEC; 2) chief executive officer must promptly notify the NYSE in writing upon becoming aware of any material non-compliance with applicable NYSE corporate

governance rules; 3) submit annual and interim affirmations to the NYSE regarding compliance with applicable NYSE corporate governance requirements; and 4) provide a brief description of any significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards. The table below sets forth the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.

New York Stock Exchange
Corporate Governance
Rules Applicable to U.S.
Companies

Description of Significant Differences between Our Governance Practices and the
NYSE Corporate Governance Rules Applicable to U.S. Companies

Director independence

Listed companies must have
a majority of independent
directors, as defined under
the NYSE listing standards.

Three members of our board of directors are independent as defined in Rule 10A-3 under the Exchange Act. We do not assess the independence of our directors under the independence requirements of the NYSE listing standards. Pursuant to relevant laws and regulations of the ROC, we have three independent directors on our board of directors that were elected through the candidate nomination system at our annual general meeting on June 23, 2015.

D-1-113

Table of Contents

New York Stock Exchange Corporate Governance Rules Applicable to U.S. Companies

Description of Significant Differences between Our Governance Practices and the NYSE Corporate Governance Rules Applicable to U.S. Companies

To empower non-management directors to serve as a more effective check on management, the non-management directors of each company must meet at regularly scheduled executive sessions without management.

All of our directors attend the meetings of the board of directors. Our non-management directors do not meet at regularly scheduled executive sessions without management. The ROC Company Law does not require companies incorporated in the ROC to have their non-management directors meet at regularly scheduled executive sessions without management.

Nominating/Corporate governance committee

We do not have a nominating/corporate governance committee. The ROC Company Law does not require companies incorporated in the ROC to have a nominating/corporate governance committee. Currently, our board of directors performs the duties of a corporate governance committee and regularly reviews our corporate governance principles and practices.

Listed companies must have a nominating/corporate governance committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.

The ROC Company Law requires that directors be elected by shareholders. Under ROC law and regulations, companies that have independent directors are required to adopt a candidate nomination system for the election of independent directors. Our three independent directors were elected through the candidate nomination system provided in our Articles of Incorporation. All of our non-independent directors were elected directly by our shareholders at our shareholders meetings without a nomination process.

Compensation committee

Listed companies must have a compensation committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.

We established a compensation committee on September 29, 2011 as required by the regulations promulgated by the FSC in March 2011. The charter of such committee contains similar responsibilities as those provided under NYSE listing standards.

In addition to any requirement of Rule 10A-3(b)(1), all compensation committee members must satisfy the independence requirements for independent directors set out in the NYSE listing standards.

We do not assess the independence of our compensation committee member under the independence requirements of the NYSE listing standards but adopt the independence standard as promulgated under the ROC Regulations Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Stock Exchange or Traded Over the Counter.

New York Stock Exchange Corporate Governance Rules Applicable to U.S. Companies

Description of Significant Differences between Our Governance Practices and the NYSE Corporate Governance Rules Applicable to U.S. Companies

Audit committee

Listed companies must have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act.

We have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act and the requirements under ROC Securities and Exchange Act.

The audit committee must have a minimum of three members. In addition to any requirement of Rule 10A-3(b)(1), all audit committee members must satisfy the independence requirements for independent directors set out in the NYSE listing standards.

We currently have three members on our audit committee. Our audit committee members satisfy the independence requirements of Rule 10A-3 under the Exchange Act. We do not assess the independence of our audit committee member under the independence requirements of the NYSE listing standards.

The audit committee must have a written charter that provides for the duties and responsibilities set out in Rule 10A-3 and addresses certain other matters required by the NYSE listing standards.

Our audit committee charter provides for the audit committee to assist our board of directors in its oversight of (i) the integrity of our financial statements, (ii) the qualifications, independence and performance of our independent auditor and (iii) our compliance with legal and regulatory requirements and provides for the duties and responsibilities set out in Rule 10A-3. Our audit committee charter does not address all the matters required by the NYSE listing standards beyond the requirements of Rule 10A-3.

Each listed company must have an internal audit function.

Because the appointment and retention of our independent auditor are the responsibility of our entire board of directors under ROC law and regulations, our audit committee charter provides that the audit committee shall make recommendations to the board of directors with respect to these matters.

We have an internal audit function. Under the ROC Regulations for the Establishment of Internal Control Systems by Public Companies, a public company is required to set out its internal control systems in writing, including internal audit implementation rules, which must be approved by the board of directors. Our entire board of directors and the Chief Executive Officer are responsible for the establishment of the internal audit functions, compliance with the internal audit implementation rules and oversight of our internal control systems, including the appointment and retention of our independent auditor.

Table of Contents

New York Stock Exchange Corporate Governance Rules Applicable to U.S. Companies	Description of Significant Differences between Our Governance Practices and the NYSE Corporate Governance Rules Applicable to U.S. Companies
Equity compensation plans	
Shareholders must be given the opportunity to vote on all equity compensation plans and material revisions thereto, except for employment inducement awards, certain grants, plans and amendments in the context of mergers and acquisitions, and certain specific types of plans.	The board of directors has authority under ROC laws and regulations to approve (i) the distribution of employee compensation and (ii) employee stock option plans by a majority vote of the board of directors at a meeting where at least two-thirds of all directors are present and to grant options to employees pursuant to such plans provided that shareholders' approval is required if the exercise price of an option would be less than the closing price of the common shares on the TWSE on the grant date of the option, subject to the approval of the Securities and Futures Bureau of the FSC, and to approve treasury stock programs and the transfer of shares to employees under such programs by a majority vote of the board of directors in a meeting where at least two-thirds of all directors are present.
Corporate governance guidelines	
Listed companies must adopt and disclose corporate governance guidelines.	We currently comply with the domestic non-binding Corporate Governance Best-Practice Principles for TWSE and Taipei Exchange Listed Companies promulgated by the TWSE and the Taipei Exchange, and we provide an explanation of the differences between our practice and the principles, if any, in our ROC annual report.
Code of ethics for directors, officers and employees	
Listed companies must adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers.	We have adopted a code of ethics that satisfies the requirements of Item 16B of Form 20-F and applies to all employees, officers, supervisors and directors of our company and our subsidiaries and will disclose any waivers of the code as required by Item 16B of Form 20-F. We have posted our code of ethics on our website.
Description of significant differences	
Listed foreign private issuers must disclose any significant ways in which their corporate governance practices differ from those followed by domestic companies under NYSE listing standards.	This table contains the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.
CEO certification	
Each listed company CEO must certify to the NYSE each year that he or she is not aware of any violation by the company of NYSE corporate	As a foreign private issuer, we are not required to comply with this rule; however, our Chief Executive Officer provides certifications under Sections 302 and 906 of the Sarbanes-Oxley Act.

governance listing standards,

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc. (a corporation incorporated under the laws of the Republic of China) and its subsidiaries (collectively, the "Group") as of December 31, 2015 and 2016, and the related consolidated statements of comprehensive income, changes in equity and cash flows for each of the three years in the period ended December 31, 2016, all expressed in New Taiwan dollars. These consolidated financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the consolidated financial statements of Siliconware Precision Industries Co., Ltd. ("SPIL"), the Group's investment in which is accounted for by use of the equity method, as of and for the year ended December 31, 2016. The accompanying consolidated financial statements of the Group included its equity investment in SPIL of NT\$45,898,225 thousand (US\$1,416,612 thousand) constituting 13% of the Group's total assets as of December 31, 2016, and its share of profit in SPIL of NT\$1,725,053 thousand (US\$53,242 thousand) constituting 8% of the Group's net profit for the year ended December 31, 2016. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for SPIL, is based solely on the report of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of the other auditors, such consolidated financial statements present fairly, in all material respects, the financial position of the Group as of December 31, 2015 and 2016, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2016, in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 4 to the consolidated financial

statements. Such U.S. dollar amounts are presented solely for the convenience of the readers.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Group's internal control over financial reporting as of December 31, 2016, based on the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 18, 2017 expressed an unqualified opinion on the Group's internal control over financial reporting based on our audit.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of

Siliconware Precision Industries Co., Ltd.

In our opinion, the consolidated balance sheets and the related consolidated statements of comprehensive income, of changes in equity and of cash flows (not presented herein) present fairly, in all material respects, the financial position of Siliconware Precision Industries Co., Ltd., and its subsidiaries at December 31, 2016 and 2015, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2016 in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.
