During November, total net interest income, including investment securities amounted to Ps 129,230 million. Additionally, total net fees and income from services totaled in the month Ps 50,633 million.

In November, there were no provisions for income taxes, due to adjustments to the calculation of total income taxes for the fiscal year 2006.

On the other hand, the increase in bonus plan payment provisions is explained by the increased growth in the number of employees included in the bank's system of variable compensation, the purpose of which is to align the objectives of the bank's management with the shareholders' interests.

According to ASOBANCARIA (Colombia's national banking association), BANCOLOMBIA's market share of the Colombian Financial System in November 2006 was as follows: 17.8% of total deposits, 20.6% of total net loans, 18.2% of total savings accounts, 20.7% of total checking accounts and 14.4% of total time deposits.
