-

**Item 8.01 Other Events.**

*The Company Receives Notice of Allowance for SOLODYN® Patent*

On April 2, 2010, Medicis Pharmaceutical Corporation (the Company) received a second Notice of Allowance from the United States Patent and Trademark Office (USPTO) for the Company's U.S. Application No. 11/166,817, entitled Method For The Treatment Of Acne (the 817 Application). As previously reported, the USPTO initially issued a Notice of Allowance for the 817 Application in October 2009; however, the Company filed a Request for Continued Examination with the USPTO in the 817 Application in November 2009 so that the USPTO could consider references filed in the Reexamination of the Company's U.S. Patent No. 5,908,838. The newly allowed claims under the 817 Application cover methods of using a controlled-release oral dosage form of minocycline to treat acne, including the use of the Company's product SOLODYN® (minocycline HCl, USP) Extended Release Tablets in all five currently available dosage forms.
