Mr. Jackson earned B.C.E. and M.C.E. degrees from the City College of New York, an M.B.A. from Columbia University and a Doctorate in Business Policy Studies from Pace University in New York. Mr. Jackson's extensive senior level banking experience, including his extensive lending and real estate experience, coupled with his advanced formal education, has given him front-line exposure to many of the issues facing Carver, as well as valuable insight needed as Chairman of the Asset Liability and Interest Rate Risk Committee.

Susan M. Tohbe is an owner and manager of Peterson County LLC, a real estate investment, development and management company with properties principally located in Connecticut. At Peterson County, Ms. Tohbe directs the financial operations and manages the portfolio of low-income tenant apartment buildings. Prior to joining Peterson County in 2001, Ms. Tohbe was Chief Financial Officer of the Mashantucket Pequot Tribal Nation, the owners of the Foxwoods Resort Casino, several other hotel properties, commercial real estate, a nationwide pharmaceutical distribution network, and other operations which were as diverse as shipbuilding and ferry operations, the construction and operation of the \$200 million Pequot Museum and Research Center. In addition, she oversaw the \$350 million annual government budget, covering the costs of managing the reservation and the health and welfare of the Tribe. Prior to that, Ms. Tohbe held Chief Financial Officer positions at J.M. Huber Corporation in Edison, New Jersey, and The Oakland Tribune in Oakland, California. She also served as a Senior Vice President of Bank of America's World Banking Group, where she was responsible all aspects of the group's financial operations. Ms. Tohbe has served on the boards of the California Public Employees Retirement System (CalPERS), Pacific Gas & Electric Nuclear Decommissioning Trust, Mills College, San Francisco Ballet, and Catalyst. Ms. Tohbe holds an M.B.A and B.A. from the University of California, Berkeley. Ms. Tohbe's extensive experience in running her own company focused on providing housing and real estate development, in addition to her experience as the chief financial officer at several organizations, bring valuable business and leadership skills and financial acumen to the Board in furtherance of its objective of maintaining a membership of experienced and dedicated individuals with diverse backgrounds, perspectives, skills, and other qualities that are beneficial to Carver.

Deborah C. Wright is Chairman, President and Chief Executive Officer of Carver and Carver Federal. Ms. Wright has held the titles President and Chief Executive Officer since June 1, 1999 and the Board of Directors elected her to the post of Chairman in February 2005. Prior to joining Carver in June 1999, Ms. Wright was President and Chief Executive Officer of the Upper Manhattan Empowerment Zone Development Corporation, a position she had held since May 1996. She previously served as Commissioner of the Department of Housing Preservation and Development under Mayor Rudolph W. Giuliani from January 1994 through March 1996. Prior to that appointment, Mayor David N. Dinkins appointed Ms. Wright to the New York City Housing Authority Board, which manages New York City's 189,000 public housing units. Ms. Wright serves on the boards of Kraft Foods Inc., Time Warner Inc., The Partnership for New York City and Sesame Workshop. She is a member of the Board of Managers of the Memorial Sloan-Kettering Cancer Center. Ms. Wright earned A.B., J.D. and M.B.A. degrees from Harvard University. Ms. Wright brings strong and broad financial services and management experience to the Board, as well as a deep understanding of the Company's business, operations, urban consumer and international marketplace, and the economic and regulatory environment in which Carver operates.

Corporate Governance

General

The Board of Directors of the Company is committed to strong and effective corporate governance measures. The Board has developed, and continues to review, policies and practices covering the operation of the Board and its committees, including their composition and responsibilities, the conduct of Board meetings and the structure and role of the Board's committees and related matters, including those discussed below and throughout this proxy statement. Among these measures are the following:

Independence. Under the Company's Bylaws, at least three members of the Board must be independent under the criteria set forth in the Bylaws and, as a company listed on the NASDAQ Global Market, a majority of the Company's Board must be independent under the criteria set forth in its listing requirements. In addition, pursuant to listing requirements of the NASDAQ Stock Market and the respective committee charters, all members of the Finance and Audit Committee, the Nominating/Corporate Governance Committee and the Compensation Committee must be independent.

Board Leadership Structure. The Board of Directors combines the position of Chairman of the Board with the position of Chief Executive Officer, coupled with a lead independent director position, discussed below, to further strengthen the Company's corporate governance structure. The Board of Directors believes this provides an efficient and effective leadership model for the Company. Combining the Chairman of the Board and Chief Executive Officer positions fosters clear accountability, effective decision-making, and alignment on corporate strategy. To assure effective independent oversight, the Board has adopted a number of governance practices, including holding executive sessions of the independent directors, as needed.

Lead Independent Director. The Board of Directors has created the position of lead independent director, whose primary responsibility is to preside over periodic executive sessions of the independent members of the Board of Directors. The lead independent director also prepares the agenda for meetings of the independent directors, serves as a liaison between the independent directors and management and outside advisors, and makes periodic reports to the Board of Directors regarding the actions and recommendations of the independent directors. The independent members of the Board of Directors have designated Robert Holland, Jr. to serve in this position for fiscal year 2011.

Board's Role in Risk Oversight. The Board's role in the Company's risk oversight process includes developing an understanding of banking and risk management (including capital requirements, asset quality control, management requirements, sources of earnings, liquidity, interest rate risk exposure and internal controls to mitigate that exposure), receiving regular reports from members of senior management on areas of material risk to the Company, including operational, financial, legal and regulatory, strategic and reputational risks. The full Board (or the appropriate committee in the case of risks that are reviewed and discussed at committee meetings) receives these reports from the appropriate risk owner within the organization to enable the Board or appropriate committee to understand our risk identification, risk management and risk mitigation strategies. When a committee receives the report, the chairman of the relevant committee reports on the discussion to the full Board at the next Board meeting. This enables the Board and its committees to coordinate the Board's risk oversight role, particularly with respect to risk interrelationships.

Director Terms. Directors generally serve for three-year terms and until their successors are elected and qualified. See Proposal One Election of Directors General.

Table of Contents

Executive Sessions. The Board of Directors holds executive sessions for non-employee directors only at which management is not present. These sessions are presided over by Robert Holland, Jr., the presiding independent director. In addition, the Finance and Audit Committee regularly holds sessions at which management is not present, including sessions with the Company's independent auditors and internal auditors at which management is not present. Each director also has access to any member of management and the Company's independent auditors.

Outside Advisors. The Board and its committees may retain outside advisors and consultants as they, in their discretion, deem appropriate.

Board Self-Evaluation. The Nominating/Corporate Governance Committee, among other things, reviews the Company's and the Board's governance profile. In addition, the Board and its committees regularly review their role and responsibilities, composition and governance practices.

Corporate Governance Principles

The Board of Directors adopted Corporate Governance Principles during the fiscal year ended March 31, 2004. From time to time, the Board anticipates that it will revise the Corporate Governance Principles in response to changing regulatory requirements, evolving best practices and the concerns of the Company's stockholders and other constituents. The Corporate Governance Principles are published on the Company's website at www.carverbank.com in the Corporate Governance section of the Investor Relations webpage.

Director Independence Determination

The Board of Directors has determined that each of its non-management directors is independent according to the Board's independence standards as set out in its Bylaws, Corporate Governance Principles, applicable rules of the SEC and the rules of the NASDAQ Stock Market. They are Dr. Samuel J. Daniel, Robert Holland, Jr., Pazel G. Jackson, Jr., Janet L. Rollé, Robert R. Tarter and Susan M. Tohbe. The Board determined that Deborah C. Wright was not independent because she is currently an executive officer of the Company.

Communications with Board of Directors

The Board of Directors welcomes communications from Carver stockholders. Interested parties may contact the Board of Directors at the following address:

Board of Directors
c/o Corporate Secretary
Carver Bancorp, Inc.
75 West 125th Street
New York, NY 10027

Communications may also be sent to individual directors at the above address.

The Company's Secretary has the responsibility to collect mail for directors, forward correspondence directed to an individual director to that director in a timely manner, and to screen correspondence directed to multiple directors or to the full Board in order to forward it to the most appropriate committee chairperson or the full Board given the nature of the correspondence. Communications to the Board or any individual director that relate to the Company's accounting, internal accounting controls or auditing matters will also be referred to the chairman of the Finance and Audit Committee. Other communications will be referred to the appropriate committee chairperson.

Table of Contents

Financial Expert, Audit Committee Independence and Financial Sophistication

The Board of Directors has determined that Robert R. Tarter, Pazel G. Jackson, Jr. and Susan Tohbe each qualifies as an audit committee financial expert and is financially sophisticated, and that each member of the Finance and Audit Committee is independent within the meaning of applicable SEC rules and meets the definition of independence in the NASDAQ Stock Market rules.

Director Selection Process

The Company's Nominating/Corporate Governance Committee is charged with the responsibilities described under Board and Committee Meetings Nominating/Corporate Governance Committee.

Among the Nominating/Corporate Governance Committee's responsibilities is to identify and recommend to the Board candidates for election as directors. The committee considers candidates suggested by its members, other directors and stockholders as necessary in anticipation of upcoming director elections and other potential or expected Board vacancies. The committee is also authorized, at the expense of the Company, to retain search firms to identify candidates, as well as external legal, accounting or other advisors. The committee will provide guidance to search firms it retains about the particular qualifications the Board is then seeking. No search firms or other advisors were retained by the committee in fiscal year 2010.

All director candidates, including stockholder nominees, are evaluated on the same basis. In determining the needs of the Board and the Company, the Nominating/Corporate Governance Committee considers the qualifications of sitting directors and consults with other members of the Board, the Chief Executive Officer and, where appropriate, external advisors. Generally, the committee believes that all directors should exemplify the highest standards of personal and professional integrity should have broad experience in positions with a high degree of responsibility and the ability to commit adequate time and effort to serve as a director. Directors will assume the responsibility of challenging management through their active and constructive participation and questioning in meetings of the Board and its various committees, as well as in less formal contacts with management.

Director candidates, other than sitting directors, are interviewed by members of the committee and by other directors and the Chief Executive Officer, and the results of those interviews are considered by the committee in its deliberations. The Nominating/Corporate Governance Committee also evaluates sitting directors whose terms are nearing expiration, but who may be nominated for re-election, in light of the above considerations and their past contributions to the Board.

The Nominating/Corporate Governance Committee will evaluate director nominations by stockholders that are submitted in accordance with the procedural and informational requirements set forth in the Company's Bylaws and described in this proxy statement under Additional Information Notice of Business to be Conducted at Annual Meeting.

Among the factors that the Nominating/Corporate Governance Committee considers when evaluating the composition of the Board, diversity is critical. For Carver, diversity includes race, ethnicity and gender as well as the diversity of the directors' experience. Included in the qualifications for directors listed in the Company's Corporate Governance Guidelines is whether the candidate has special skills, expertise and background that would complement the attributes of the existing directors, taking into consideration the diverse population of the communities in which Carver operates. Carver's Board is committed to ensuring that it comprises individuals whose backgrounds reflect the diversity represented by our employees, customers and shareholders.

Code of Ethics

The Company has adopted a Code of Ethics, which applies to the Company's directors and employees and sets forth important Company policies and procedures in conducting the Company's business in a legal, ethical and responsible manner. The Company has also adopted a Code of Ethics for Senior Financial Officers, which applies to the Company's chief executive officer, chief financial officer, controller and other persons performing similar functions that supplement the Code of Ethics by providing more specific requirements and guidance on certain topics. Each of the Code of Ethics and Code of Ethics for Senior Financial Officers including future amendments, is available free of charge on Carver's website at www.carverbank.com in the Corporate Governance section of the Investor Relations webpage or by writing to the Secretary, Carver Bancorp, Inc., 75 West 125th Street, New York, New York 10027, or by telephoning (212) 360-8876. The Company intends to post on its website any waiver under the codes granted to any of its directors or executive officers.

Website Access to Governance Documents

The Company's Corporate Governance Principles and the charters for the Finance and Audit, Compensation and Nominating/Corporate Governance Committees are available free of charge on Carver's website at www.carverbank.com in the Corporate Governance section of the Investor Relations webpage or by writing to the Secretary, Carver Bancorp, Inc., 75 West 125th Street, New York, New York 10027, or by telephoning (212) 360-8876.

Board and Committee Meetings

The Board of Directors of Carver holds regularly scheduled meetings during the fiscal year to review significant developments affecting Carver and to act on matters requiring Board approval. It also holds special meetings when an important matter requires Board action between scheduled meetings. Members of senior management regularly attend Board meetings to report on and discuss their areas of responsibility. During fiscal year 2010, the Board met eleven times. No incumbent director attended fewer than 75%, in the aggregate, of the total number of Carver Board meetings held while he or she was a member of the Board during fiscal 2010 and the total number of meetings held by committees on which he or she served during such fiscal year.

Carver's Corporate Governance Principles encourage directors to attend the Company's Annual Meeting of stockholders and all Board meetings and meetings of committees of the Board on which they serve. Carver's Bylaws require that the Company have executive, finance and audit, nominating/corporate governance, compensation and asset liability and interest rate risk committees. The Board has adopted a charter for each of the Nominating/Corporate Governance Committee, the Compensation Committee and the Finance and Audit Committee, each of which may be amended from time to time. The nature and composition of each of the standing committees of the Company are described below.

Executive Committee. Pursuant to Carver's Bylaws, the Executive Committee is authorized to act as appropriate between meetings of the Board. The members of this committee are Directors Robert Holland, Jr. (Chairman), Dr. Samuel Daniel, Pazel G. Jackson, Jr. Robert R. Tarter and Deborah C. Wright. The Executive Committee met two times during fiscal year 2010.

Table of Contents

Nominating/Corporate Governance Committee. As of February 2011, the Nominating/ Corporate Governance Committee consists of Directors Robert Holland, Jr., (Chairman), Dr. Samuel J. Daniel and Janet L. Rollé. All members of the committee have been determined to be independent directors. The Nominating/Corporate Governance Committee's functions include advising the Board on matters of corporate governance and considering qualifications of prospective Board member candidates, including conducting research to identify and recommend nomination of suitable candidates who are willing to serve as members of the Board, reviewing the experience, background, interests, ability and availability of prospective nominees to meet time commitments of the Board and committee responsibilities, considering nominees recommended by stockholders who comply with procedures set forth in the Company's Bylaws and determining whether any prospective member of the Board has any conflicts of interest which may impair the individual's suitability for such service. The committee has the responsibility to monitor current members of the Board pursuant to the same guidelines used to select candidates. The Nominating/Corporate Governance Committee is also responsible for identifying best practices and developing and recommending to the Board a set of corporate governance principles applicable to Carver and for periodically reviewing such principles. The Nominating/Corporate Governance Committee met two times during fiscal year 2010 and recommended the director nominees to the Board of Directors, which accepted these recommendations. The committee also met on June 15, 2010. Only those nominations made by the Nominating/Corporate Governance Committee and approved by the Board will be voted upon at the Annual Meeting. For a description of the proper procedure for stockholder nominations, see Additional Information Notice of Business to be Conducted at Annual Meeting in this proxy statement.

Compensation Committee. The Compensation Committee consists of Directors Dr. Samuel Daniel (Chairman), Janet L. Rollé and Robert R. Tarter. All members have been determined to be independent directors. The Compensation Committee evaluates the performance of the Company's Chief Executive Officer and approves her compensation in consultation with the non-management members of the Board of Directors and, based on recommendations from management, reviews and approves senior management's compensation and approves compensation guidelines for all other officers. The Compensation Committee administers the Company's management recognition, incentive compensation stock option, and stock incentive plans and, in consultation with senior management, reviews and approves compensation policies. The Compensation Committee met five times during fiscal year 2010.

Finance and Audit Committee. The Finance and Audit Committee consists of Directors Robert R. Tarter (Chairman) Pazel G. Jackson, Jr., and Susan M. Tohbe. All members have been determined to be independent directors. The Finance and Audit Committee's primary duties and responsibilities are to:

- monitor the integrity of Carver's financial reporting process and systems of internal controls regarding finance, accounting and legal compliance;
- manage the independence and performance of Carver's independent public auditors and internal auditing function;
- monitor the process for adhering to laws, regulations, the Company's Code of Ethics and the Code of Ethics for Senior Financial Officers; and
- provide an avenue of communication among the independent auditors, management, the internal auditing function and the Board of Directors.

Other specific duties and responsibilities include reviewing Carver's disclosure controls and procedures, internal controls, Carver's periodic filings with the SEC and earnings releases; producing the required audit committee annual report for inclusion in Carver's proxy statement; and overseeing complaints concerning financial matters. The Finance and Audit Committee met nine times during fiscal year 2010, including meetings to review the Company's annual and quarterly financial results prior to their public issuance.

Asset/Liability and Interest Rate Risk Committee. The Asset/Liability and Interest Rate Risk Committee consists of Directors Pazel G. Jackson, Jr. (Chairman), Susan M. Tohbe and Deborah C. Wright. The Asset/Liability and Interest Rate Risk Committee monitors activities related to asset/liability management and interest rate risk, including the approval or ratification of mortgage loans and the establishment of guidelines related to risk, purchase or sale of loans and investments, and management of interest rate, credit and liquidity risk against objectives and risk limitations set forth in Carver Federal's policies. The committee met sixteen times during fiscal year 2010.

Compensation Committee Report

The Compensation Committee has reviewed the Compensation Discussion and Analysis included in this proxy statement and has discussed it with management. Based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement.

Item 11. Executive Compensation.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

Despite a challenging operating environment, Carver continues to service consumers and institutions in historically low to moderate income communities. Carver's commitment to this community continually earns the Company an Outstanding rating from the Office of Thrift Supervision. Our capital position was enhanced by our participation in the U.S. Treasury Department's Capital Purchase Program (CPP) of the Emergency Economic Stimulus Act of 2008. The CPP, part of the Treasury's Troubled Asset Relief Program (TARP), provides cost efficient equity capital for growth. The Company continues to pursue a strategy that satisfies Carver's responsibility to increase shareholder value and to profitably provide services to our customers. As in past years, for fiscal year 2010, the Company used the Net Income metric to determine achievement of fiscal year goals and the annual incentive pool. After careful review of the Company's performance, the Compensation Committee of the Board of Directors (the *Committee* or the *Compensation Committee*) determined that the Company did not meet its fiscal year 2010 Net Income goal and no bonuses were awarded to the Named Executive Officers pursuant to the Company's Incentive Plan.

The Board of Directors of Carver and the Compensation Committee share a strong pay-for-performance philosophy, which seeks to reward the achievement of performance goals and aligns Carver's executives' interests with those of Carver's stockholders. At the same time, Carver strives to attract and retain high performing executives of outstanding skill and capability by endeavoring to provide competitive compensation. The following discussion focuses on the Compensation Committee's philosophy and practices, particularly as it relates to Named Executive Officers (as defined below) for fiscal year 2010 and provides important context for the more detailed disclosure tables and specific compensation amounts provided elsewhere in the proxy statement. The following table lists Carver's Chief Executive Officer and three other most highly compensated executive officers, Chief Financial Officer, Chief Risk Officer and General Counsel, and Chief Lending Officer who served in such capacities during the fiscal year ended March 31, 2010 (the *Named Executive Officers*).

Compensation Philosophy

The Company's success depends on hiring and retaining highly qualified individuals, as each executive has the potential to influence its short and long-term performance. Therefore, the Committee places considerable effort on the design and administration of the Company's compensation program. Carver's competitive position is a critical element in the recruitment and retention of executives and all employees. As a small community bank in New York City, competitive pressures on the ability to attract and retain talent are intense. Most executives and staff are recruited to Carver from money center banks and other larger financial institutions.

The Committee believes that executive compensation should support Carver's unique business strategy and result in a compensation program that:

- Enables Carver to attract and retain top talent by providing competitive award opportunities while at the same time effectively controlling compensation costs.
- Places significant focus on incentive/performance based rewards that are contingent on achievement of Company and individual performance.
- Enhances Carver's long-term stockholder value.

Carver's compensation program is significantly performance-based. As such, executive compensation can and does vary significantly, up or down, based on the Company's performance relative to strategic goals and industry peers. Carver's strategic vision and strategies are translated into specific performance goals, which the Committee considers in assessing performance and making total compensation decisions. To foster teamwork in building long-term performance and stockholder value, executive pay reflects a mix of Company, department and individual performance. Carver's assessment of compensation and performance considers a balanced view of factors critical to understanding the Company's total performance, as follows.

Internal and External Benchmarks – executive performance is measured against the Company's goals for the fiscal year as well as its external peer group, along with economic and industry factors that may impact performance or strategy.

Company and Individual performance – executives are incented to work together as a team to drive overall Company performance; however, each executive is also held accountable and rewarded for achieving individual goals.

Short and Long-Term Performance – compensation reflects a balance of short-term performance (i.e., how the Company meets its annual goals) and long-term performance (i.e., building a platform for sustained, profitable growth over multiple years).

Unique Business Model Carver's legacy is anchored in a 62-year history of commitment to providing capital and financial services, and thereby expanding wealth enhancing opportunities, to consumers and institutions in historically low to moderate income communities. The Company's *Outstanding* rating by the Office of Thrift Supervision following its most recent Community Reinvestment Act examination in February 2009, noted that 55% of Carver's loans were originated in such communities, far exceeding peer institutions.

Benchmarking of Compensation

The Compensation Committee periodically benchmarks compensation of executive officers and directors utilizing published industry surveys and publicly disclosed information from a peer group of publicly traded banks. The frequency of the comprehensive reviews will reflect the competitive landscape as well as the Company's own growth. A comprehensive competitive review by Pearl Meyer & Partners (PM&P) was conducted in 2010.

The peer group below was approved by the Compensation Committee and reviewed by the compensation consultant to reflect banks with a similar business focus and of similar asset size and region to Carver. The peer group is reviewed and updated, as appropriate, as the comparability of banks may change depending on acquisitions and business focus of the Company or peer institutions. The peer group included banks that ranged from \$600 million to \$2.5 billion in assets with a median of \$988 million in assets and remained unchanged from fiscal year 2009. A list of banks in the peer group follows.

Peer Group*

Berkshire Bancorp Inc.
Brooklyn Federal Bancorp, Inc.
Center Bancorp, Inc.
Chemung Financial Corporation
Clifton Savings Bancorp, Inc.
First of Long Island Corporation
Hudson Valley Holding Corporation
Interinvest Bancshares Corporation
Ocean Shore Holding Company
OceanFirst Financial Corporation
Oneida Financial Corporation
Severn Bancorp, Inc.
State Bancorp, Inc.
Sterling Bancorp
Wilber Corporation

* Note: American Bancorp of New Jersey, Inc., Pamrapo Bancorp, Inc. and Smithtown Bancorp, Inc. were removed from the peer group as a result of their being acquired.

In 2010 it was determined that the competitive total compensation review would solely utilize published industry-specific survey data in order to more fully approximate the Company's asset size and geographic focus. The aforementioned peer group will continue to be used to benchmark industry best practices. PM&P provides comparative data from several northeast banking association surveys as well as published industry surveys and a proprietary database of national banking compensation data. Data reflect banks of similar asset size and region to the Company.

Compensation-Related Governance and Roles of the Committee and Others in Executive Compensation

Participation in Capital Purchase Program

In fiscal year 2009, the Company entered into a Securities Purchase Agreement with the United States Treasury that provides for the Company's participation in the Capital Purchase Program under the TARP (TARP CPP). TARP-CPP participants are required to agree to significant restrictions on executive compensation during the period in which the Treasury holds an equity position in the Company (the CPP Covered Period) as a condition of participation. On February 17, 2009, the American Recovery and Reinvestment Act of 2009 (ARRA) became law. ARRA created compensation-related limitations in addition to the limitations under the CPP discussed above and required the Secretary of the United States Treasury to establish additional standards for executive compensation that will apply beyond the Company's senior executive officers and up to the 20 next most highly compensated employees during the CPP Covered Period. In compliance with such requirements, the Company's senior executive officers or CEO's and the next 20 most highly compensated employees have agreed in writing to accept the compensation restrictions under the TARP and ARRA and thereby limit some of their contractual or legal rights.

Under TARP and ARRA, the following restrictions were in effect as of the end of fiscal year 2009 and fiscal year 2010 and consisted of the following:

Claw back of Bonus and Incentive Compensation if Based on Certain Material Inaccuracies. Incentive compensation paid that is later found to have been based on materially inaccurate financial statements or other materially inaccurate measurements of performance is subject to recovery by the Company. The Company's senior executive officers and next 20 most highly paid employees acknowledge that each incentive program and each compensation or benefit agreement that incorporates incentive compensation was deemed amended to the extent necessary to give effect to such claw-back.

No Compensation Arrangements that Encourage Excessive Risks. The Company is prohibited from entering into compensation arrangements that encourage employees to take unnecessary and excessive risks that threaten the value of the Company. To insure this does not occur, the Company's Compensation Committee is required to meet at least once a year with senior risk officers to review the Company's compensation arrangements in light of the Company's risk management policies and practices. To the extent that such review suggests revisions to any compensation arrangement, the Company agrees to modify promptly the compensation arrangement to eliminate any undue risk. In November 2009, the Compensation Committee met with the Company's Chief Risk Officer and determined that Carver's compensation program does not encourage unnecessary risk taking by executive officers. Carver's short-term and long-term incentive programs use a broad based balance of performance measures with no one measurement dominating the payout determination. This feature greatly mitigates any incentive for an employee to engage in unnecessary or excessive risk. The performance measures include net income, loan and deposit growth, efficiency ratio, SOX 404 compliance, New Markets Tax Credit allocation deployment and individual performance throughout the year. Company and departmental goals are based upon an annual business plan submitted to and approved by the Board of Directors, whereat the Board considers the reasonableness of the plan and its goals. Individual performance is based upon actual performance compared to pre-established performance goals and actual performance compared to adjusting market and other conditions. In this connection, incentive compensation can be reduced to zero based upon individual performance, further ensuring employees are not rewarded for performance that is not in Carver's best long-term interests.

Table of Contents

Limit on Federal Income Tax Deductions. During the CPP Covered Period, the Company is prohibited from taking a federal income tax deduction for compensation paid to senior executive officers in excess of \$500,000 per year.

Limit on Severance. The Company is prohibited from making severance payments resulting from termination of employment for any reason, except for payments for services performed or benefits accrued to the Company's senior executive officers and the next 20 most highly compensated employees during the CPP Covered Period.

Limits on Incentive Compensation. The ARRA standards prohibit the payment or accrual of any bonus, retention award or incentive compensation to the Company's most highly compensated employee (in Carver's case, the Chief Executive Officer) other than awards of long-term restricted stock that (i) do not fully vest during the CPP Coverage Period, (ii) have a value not greater than one-third of the total annual compensation of the employee and (iii) are subject to such other restrictions as determined by the Secretary of the Treasury. The prohibition on bonus, incentive compensation and retention awards does not preclude payments required under written employment contracts entered into on or prior to February 11, 2009.

Compensation Committee Functions. ARRA requires that the Company's Compensation Committee be comprised solely of independent directors and that it meets at least semiannually to discuss and evaluate the Company's employee compensation plans in light of an assessment of any risk posed to the Company from such compensation plans.

Compliance Certifications. ARRA requires a written certification by the Company's Chief Executive Officer and Chief Financial Officer of the Company's compliance with the provisions of ARRA. These certifications must be contained in the Company's Annual Report on Form 10-K that is filed after the relevant Treasury regulations are issued.

Treasury Review of Excessive Bonuses Previously Paid. ARRA directs the Secretary of the Treasury to review all compensation paid to the Company's senior executive officers and the Company's next 20 most highly compensated employees before date of enactment to determine whether any such payments were inconsistent with the purposes of ARRA or were otherwise contrary to the public interest. If the Secretary of the Treasury makes such a finding, the Secretary of the Treasury is directed to negotiate with the TARP CPP recipient and the affected employees for appropriate reimbursements to the Treasury with respect to the compensation and bonuses.

Table of Contents

Limitation on Luxury Expenditures. The Board of Directors must have in place a company-wide policy regarding excessive or luxury expenditures, as identified by the Treasury, which may include excessive expenditures on (i) entertainment or events, (ii) office and facility renovations, (iii) aviation or other transportation services, (iv) other unreasonable expenditures for staff development events, performance initiatives or other similar measures conducted in the normal course of business operations.

Say on Pay. Under ARRA, the SEC promulgated rules requiring a non-binding say on pay vote by shareholders on executive compensation at the annual meeting during the CPP Covered Period. The Company implemented this provision beginning with the fiscal year 2009 proxy statement by including the submission of an Advisory Vote on Compensation of Named Executive Officers.

Role of the Compensation Committee

The Compensation Committee is responsible for discharging the Board of Directors' responsibilities in executive compensation matters and establishing policies that govern employee compensation and equity and long-term incentive compensation plans. The Committee reviews all elements of the Company's Chief Executive Officer and other executive officers' compensation including base salary, annual incentive, long-term/equity incentives, and benefits. Three members of the Board serve on the Committee, each of whom is independent. The Committee met five times during fiscal year 2010 (May 13, 2009, June 11, 2009, November 12, 2009, January 22, 2010 and March 18, 2010). The Chairman of the Committee reported on Committee actions at subsequent meetings of the Board of Directors.

The Committee reviews Chief Executive Officer performance and makes decisions regarding the Chief Executive Officer's compensation in consultation with non-management members of the Board of Directors. Input and data from the Senior Vice President and Chief Human Resources Officer and other management as well as outside consultants and advisors are provided as requested by the Committee. Decisions regarding other executives are made by the Compensation Committee considering recommendations from the Chief Executive Officer and with input from the Senior Vice President and Chief Human Resources Officer and an outside compensation consultant. Decisions by the Compensation Committee with respect to compensation of the Chief Executive Officer are ratified by the full Board of Directors.

The Committee has the authority and resources to obtain advice and assistance from internal or external legal, human resources, accounting or other experts, advisors, or consultants, as it deems desirable or appropriate. Details on the Committee's role are more fully described in its charter, which has been approved by the Board of Directors. The charter can be viewed on the Company's website at www.carverbank.com.

Interaction with the Compensation Consultant

The Committee utilizes the services of external advisors and consultants throughout the year regarding executive compensation. The Committee utilizes the services of its consultant to conduct periodic comprehensive total compensation studies as well as ongoing updates on market and best practices. This information was requested and utilized as needed to support the Committee's decisions and review processes. The Committee retains the right to hire, fire and seek the services of consulting and advisory firms.

During fiscal year 2010, the Committee relied on the services of PM&P to provide advice and counsel related to executive compensation issues. The Committee had direct access to these advisors and PM&P reports directly to the Committee. PM&P conducted several studies for the Committee during the fiscal year and attended four of its five meetings (in person or by phone) held in fiscal year 2010.

Table of Contents

PM&P reports directly to the Compensation Committee and under the direction of the Committee may work with management on specific issues or assignments as appropriate. During fiscal year 2010, PM&P worked with management to complete the compensation tables presented in the following pages and to insure the Company's incentive programs continue to be in-line with best practices.

Role of Executives in Committee Deliberations

The Compensation Committee occasionally requests one or more members of senior management to be present at Committee meetings where executive compensation and Company or individual performance are discussed and evaluated. Executives are free to provide insight, suggestions or recommendations regarding executive compensation. However, only the Compensation Committee members are allowed to vote on decisions regarding executive compensation.

The Compensation Committee meets with the Chief Executive Officer to discuss her own performance and compensation package, but ultimately decisions regarding her compensation are made solely based upon the Committee's deliberations with input from the compensation consultant, as requested. Decisions regarding executives reporting directly to the Chief Executive Officer are made by the Compensation Committee considering recommendations from the Chief Executive Officer, as well as input from the compensation consultant as requested.

Combined Chairman of the Board and Chief Executive Officer Role

The Board of Directors has appointed Deborah C. Wright to the positions of Chairman of the Board and President, Chief Executive Officer of Carver Bancorp, Inc. and Carver Federal Savings Bank. The Board believes that the Company and its shareholders are well served by having her industry expertise, knowledge and visibility in the combined role. The combining of these positions serves two purposes: (1) provides a uniform voice to our customers, partners, and shareholders, and (2) seamlessly promotes development and execution of our corporate strategy. Additionally, the Board believes the combined role facilitates the information exchange between management and the Board, which we believe to be critical to effective corporate governance.

The Board will continue to review and evaluate the combined roles of Chairman and Chief Executive Officer to ensure this is in the best interest of the Company and its shareholders. Since all of our directors are independent, with the exception of Ms. Wright, and having Mr. Holland serve as our independent Lead Director, shareholders should be assured that the Board will collectively act in the best interest of the Company and its shareholders.

Total Compensation Program Components

Carver's total compensation program consists of four main components: Base Salary, Annual Incentives, Long-term Incentives, and Executive Benefits/Perquisites. The following section summarizes the role of each component, how decisions are made and resulting fiscal year 2010 decisions as they relate to the Named Executive Officers.

Base Salary

The purpose of base salary is to provide competitive base compensation that recognizes the executives' role, responsibilities, experience, performance and past and potential contribution to the Company. The Company targets base salaries at the 50th percentile of the peer group; however, judgment is exercised in determining each executive's situation relative to market. As a result, experienced and/or high performing executives may be paid above the market median and less experienced or average performing executives may be paid below the market median. With the exception of fiscal year 2009 when no executive officer received a salary increase, the Bank has provided salary increases historically at approximately 3% - 4% annually, with limited exceptions to reflect factors including added responsibilities for an executive or marketplace changes in compensation for a particular position.

Table of Contents

Short-Term Incentives

The purpose of the Company's performance-driven Incentive Plan (the Incentive Plan) is to motivate and reward corporate, department and individual performance. Performance goals are set annually and reviewed by the Board and payouts are based on achievement of the predefined goals.

The Compensation Committee has determined that the primary goal and driver of incentive pay awards is achievement of budgeted Net Income based on the fiscal year business plan prepared by management and approved by the Board at the beginning of each fiscal year. Each fiscal year, a funding schedule is developed that translates incentive payouts relative to the fiscal year-end Net Income. If the Company does not achieve a minimum of 80% of target Net Income, the incentive pool is not funded and executives may not receive an annual cash incentive for that fiscal year.

The incentive pool at target performance is defined to provide competitive incentives and to reflect Carver's desired compensation philosophy to place significant focus on incentive/performance based rewards that are contingent on achievement of Company goals.

At 80% of the Net Income threshold, the corporate incentive pool funds at a reduced payout of 50% of target. At maximum/stretch performance, the corporate pool funds at 150% of target. This program design provides a payout relationship that rewards high performance and reduces payouts for lower achievement of goals. Potential payouts and incentive pool funding are modeled each year relative to projected Net Income performance to ensure the pay-for-performance relationship is appropriate. However, the Committee can approve discretionary awards outside of the bonus pool on an individual basis, where the Committee deems it appropriate.

Corporate performance, as measured by Net Income, drives between 40% - 60% of the executives' incentive awards depending on his/her role. The remaining percentage consists of other specific department/strategic goals that reflect critical measures for the fiscal year. For fiscal year 2010, incentives for the Named Executive Officers are comprised of 40% - 50% corporate performance and 50% - 60% department/strategic goals. Annual incentives for additional executives are in similar ranges. The department/strategic goals for the management team in fiscal year 2010 included the following measures:

- Organic loan and deposit growth

- Increased fee income or other items leading to improved return on equity

- Improved efficiency ratio

- Deploy New Markets Tax Credit allocation, generating tax savings for the Company

In addition to corporate and department goals, the Plan's design includes an individual modifier that allows incentive awards to be modified (up or down) to reflect overall individual performance and contributions. As such, an individual incentive award can be increased by 30% for exceptional performance or reduced to 0% for poor performance.

Table of Contents

For fiscal year 2010, the Company's annual target incentive ratios for the Named Executive Officers were as follows:

Executive	Target Incentive Ratio (as % of salary)	Potential Range (with additional 30% upside potential)
Chief Executive Officer, Deborah C. Wright	50%	0% 97.5%
Chief Financial Officer, Chris A. McFadden	30%	0% 58.5%
Chief Risk Officer and General Counsel, Mark A. Ricca	30%	0% 58.5%
Chief Lending Officer, James Bason, Jr.	25%	0% 48.8%

Annual incentives when awarded are not fixed compensation, must be re-earned each year and are based on actual performance. The Compensation Committee reviews the Incentive Plan each year and, if necessary, resets the specific goals and targets for executives to align with business needs and the desired compensation philosophy.

As discussed earlier, for 2010, the Company used the Net Income metric to determine achievement of fiscal year goals and the annual incentive pool. After careful review of the Company's performance, the Committee determined that the Company did not meet its fiscal year 2010 Net Income goal and, as in fiscal year 2009, did not award any bonuses to the Named Executive Officers pursuant to the Company's Incentive Plan.

Long-Term Incentive Compensation

The Company believes strongly in the importance of aligning executive incentives with the long-term performance of the Company and interests of stockholders. The purpose of the Company's long-term incentive plan (the Plan) is to promote the Company's growth and profitability, to provide certain officers with an incentive to achieve corporate objectives, to attract and retain individuals of outstanding competence and to provide initial grants to new non-employee directors of the Company. The Plan is also designed to align participants' interests with stockholders of the Company and serves as a retention tool for key members of management.

The Compensation Committee reviews the Plan each year and insures specific goals and targets for executives are aligned with business objectives and the Company's compensation philosophy. As a demonstration of the Company's desire for long-term shareholder alignment, the Committee selected Return on Equity (ROE) as the performance measure for allocating and vesting awards. Similar to the annual incentive plan, if the Company does not achieve threshold performance, or 80% of goal, no long-term incentive awards are granted for that fiscal year.

Long-term incentives may be in the form of cash, stock options and/or restricted stock. Due to the size of the Company, limited trading and low volatility of the Company's stock, and the Company's desire to manage shareholder dilution carefully, the Committee diligently takes steps each year to adjust the Company's programs to remain consistent with industry practice. The Committee will continue to review and adjust, if needed, the effectiveness of its strategy and payout mix each fiscal year.

Regardless of the type of award (stock options, restricted stock, or cash), under the Company's current long-term incentive plan, the awards vest over a five-year period, at 20% each year on the anniversary of the grant date with accelerated vesting in years three or four if the Company meets or exceeds the current peer group's average three-year ROE.

Table of Contents

The long-term incentive plan payout ratios for fiscal year 2010 for the Named Executive Officers are as follows:

Executive	Position	Target Award
Deborah C. Wright	Chairman and Chief Executive Officer	60%
Chris A. McFadden	Executive Vice President and Chief Financial Officer	30%
Mark A. Ricca	Executive Vice President, Chief Risk Officer and General Counsel	30%
James H. Bason, Jr.	Senior Vice President and Chief Lending Officer	25%

As discussed above, the Company used the ROE metric to determine achievement of fiscal year goals and the long-term incentives. After careful review of the Company's performance, the Committee determined that the Company did not meet its fiscal year 2010 ROE goal and, as in fiscal year 2009, the Company did not award long-term incentives to the Named Executive Officers pursuant to the Company's Long-term Incentive Plan.

Executive Officer Compensation

The Company's current compensation structure includes three integrated parts: (1) a grading structure based on the employee's corporate level; (2) an annual cash bonus target and a long-term incentive target based on a recommended performance measure; and (3) an individual performance modifier based on a manager's assessment of an individual's performance.

At each fiscal year-end, a model is used to calculate bonuses as a percentage of base pay for bonus-eligible officers and takes into account the officer's grade level, corporate performance, departmental performance against goals, and individual performance. Departmental and individual performance goals are defined and communicated to managers and employees during the budget and performance appraisal processes, which occur at the beginning of each fiscal year. Long-term incentives are provided to executive officers in the form of restricted stock, stock options or cash. Awards are granted under the plan in effect at the time of the award.

The Committee determined it is in the Company's best interest to recognize exemplary services and to encourage those services to continue to be performed by awarding certain employees restricted stock that would vest over a five-year period in equal allotments. In this connection, the Committee determined it is in the Company's best interest to award on July 22, 2010 the Named Executive Officers Chris A. McFadden and Mark A. Ricca, each 7,500 shares of restricted stock that vests over a five-year period commencing July 22, 2011 in equal allotments of 1,500 shares per year.

On January 16, 2009, the Company completed a financing transaction with the United States Treasury under TARP. As a result of the passage of the American Recovery and Reinvestment Act of 2009, all participants in TARP transactions are required to comply with substantial restrictions on executive compensation. These restrictions impact the terms of the Named Executive Officers' employment agreements and other agreements affecting potential payments upon termination or change in control. See *Recent Legislation and its Impact on Executive Compensation* discussed later in this document.

(1) Ms. Wright: Other compensation includes \$9,800 401k plan match; 9,014 ESOP shares valued at \$8.75 per share on March 31, 2010.

(2) Mr. Ricca joined the Company on November 20, 2008. Other compensation for Mr. Ricca includes \$8,028 401k plan match.

(3) Ms. McFadden joined the Company on September 14, 2009

(4) Mr. Bason: Other compensation includes 2,388 ESOP shares valued at \$8.75 per shares on 3/31/2010.

(5) The amounts in columns (e) and (f) reflect the value of the awards on the date granted in the respective fiscal year ended March 31. Stock awards are based on the closing price on the grant date. Option values are based on their Black-Scholes value, based on the assumptions set forth in Note 13 to the Financial Statements set forth in the Company's Form 10-K for the fiscal year ended March 31, 2010. Values reported previously were based on the

dollar amount recognized for financial statement purposes and included amounts from awards granted in and prior to the respective fiscal year.

- (6) The significant change in the present value of the pension plan benefit is due to using a different rate to calculate the value. In the past an 8% rate was used which coincided with what was used for FAS 35 measurement. This year, the FASB 87 disclosure rate of 5.645% was used to comply with the SEC requirement that a plan sponsor must use the assumptions it uses for generally accepted accounting principles. But for the change in rates, the change in value would have been \$1,305.
- (7) The Company does not currently offer additional perquisites, which in the aggregate exceed \$10,000 per year for any Named Executive Officer.

During fiscal year 2010, no plan-based awards were granted to any of our named executive officers.

Table of Contents**Nonqualified Deferred Compensation Plans**

The Company did not have any non-qualified deferred compensation plans in fiscal year 2010.

Benefits Plans

Pension Plan. The Carver Federal Savings Bank Retirement Income Plan is a noncontributory, tax-qualified defined benefit plan (the Pension Plan). The Pension Plan was amended such that future benefit accruals ceased as of December 31, 2000. Since that date, no new participants were eligible to enter into the Pension Plan and participants as of such date have not been credited with additional years of service or increased compensation. Active employees with at least one year of service on December 31, 2000 are eligible to receive a benefit under the Plan should the Plan be terminated. The amount of the benefit will be calculated based on age, credited years of service and pay at the time the plan was frozen. Employees with more than five years of service on December 31, 2000 who reach retirement age before the Plan is terminated are eligible for a benefit calculated based on the Plan's definitions of earnings and eligibility. Ms. Wright is the only Named Executive Officer in the plan. The present value of Ms. Wright's accumulated benefit in the plan is \$27,886.

401(k) Savings Plan. The Company maintains a 401(k) Savings Plan (401(k) Plan) with a profit sharing feature for all eligible employees of the Company. The Company matches contributions to the 401(k) Plan equal to 100% of pre-tax contributions made by each employee up to a maximum of 4% of their pay, subject to IRS limitations. All such matching contributions are fully vested and non-forfeitable at all times regardless of the years of service with the Bank. To be eligible for the matching contribution, the employee must be 21 years of age and have completed at least three months of service. Under the profit-sharing feature, the Company has the discretion to make a contribution. If the Bank achieves a minimum of 70% of its fiscal year performance goal, the Compensation Committee may authorize an a non-elective contribution to the 401(k) Plan on behalf of each eligible employee of up to 2% of the employee's annual pay, subject to IRS limitations. This non-elective contribution, if made, is awarded regardless of whether the employee makes voluntary contributions to the 401(k) Plan. Non-elective Company contributions vest 20% each year for the first five years of employment and are fully vested thereafter. To be eligible for the non-elective company contribution, the employee must be 21 years of age, have completed at least one year of service and be employed on the last day of the plan year, currently December 31, or have terminated employment for death, disability or retirement. The Company did not award a non-elective contribution for the 401(k) Plan year that ended December 31, 2009.

Employee Stock Ownership Plan. Effective upon conversion to a publicly traded company, an Employee Stock Ownership Plan (ESOP) was established for all eligible employees. The ESOP used proceeds from a term loan obtained from a third-party institution to purchase shares of Carver's common stock in the initial public offering to pledge as collateral for the loan. In June 2004, the loan was paid off and the Bank continued to make discretionary contributions to the ESOP by purchasing shares in the open market. This was in accordance with Carver's common stock repurchase program where shares are held in a suspense account for future allocation among the participants based on compensation, as described by the Plan, in the year of allocation. In May 2006, the Compensation Committee approved management's recommendation and voted to freeze the ESOP. Discretionary contributions ceased and no new participants were eligible to enter the ESOP after December 31, 2006.

Table of Contents**Employment and Other Agreements with Executive Officers**

Employment Agreements. As of June 1, 1999, both Carver and Carver Federal entered into employment agreements to secure the services of Deborah C. Wright as President and Chief Executive Officer. The employment agreements are intended to set forth the aggregate compensation and benefits payable to Ms. Wright for all services rendered to them and any of their subsidiaries. Both employment agreements provided for an initial term of three years beginning June 1, 1999 and, pursuant to the terms of the employment agreements, each year thereafter have been extended an additional year following a review of Ms. Wright's performance by the Compensation Committee and the Board of Directors.

In addition, the employment agreements provide for an annual incentive payment based on the achievement of certain performance goals, future grant of stock awards, a supplemental retirement benefit, additional life insurance protection and participation in the various employee benefit plans maintained by Carver and Carver Federal from time to time. The agreements also provide customary corporate indemnification and errors and omissions insurance coverage throughout the term of the agreements and for six years thereafter.

Carver may terminate Ms. Wright's employment at any time for cause as defined in the employment agreements. In the event that Carver terminates Ms. Wright's employment for reasons other than for cause, she would be entitled to a severance benefit equal in value to the cash compensation, retirement and other fringe benefits she would have earned had she remained employed for the remaining term of the agreements. The same severance benefits would be available if Ms. Wright resigns during the term of the employment agreements following a loss of title, office or membership on the Board; a material reduction in her duties, functions or responsibilities; involuntary relocation of her principal place of employment by over 30 miles from its location as of June 1, 1999, other material breaches of contract by Carver that are not cured within 30 days; or, in certain circumstances, a change in control. In the event of a change in control, the remaining term of Ms. Wright's agreement with Carver at any point in time will be three years unless written notice of non-renewal is given by the Board or Ms. Wright.

A portion of the severance benefits payable to Ms. Wright under her employment agreements in the event of a change in control might constitute excess parachute payments under current federal tax laws. Federal tax laws impose a 20% excise tax, payable by the executive, on excess parachute payments. In the event that any amounts paid to Ms. Wright following a change of control would constitute excess parachute payments, Ms. Wright's employment agreement with Carver provides that she will be indemnified for any excise taxes imposed due to such excess parachute payments, and any additional income and employment taxes imposed as a result of such indemnification of excise taxes. Any excess parachute payments and indemnification amounts paid will not be deductible compensation expenses for the Company.

Letter Agreements. The Company entered into letter employment agreements with Ms. McFadden and Messrs Bason and Ricca. Generally, each letter employment agreement provides for at-will employment and compensation in the form of base salary and benefits continuation based on length of service and in certain instances, a one-time payment.

Change in Control Arrangements. In the event of a change in control, pursuant to her employment agreement, Ms. Wright is eligible for three years of base salary and benefits continuation. Pursuant to their letter agreements, as of March 31, 2010, Ms. McFadden and Messrs Ricca and Bason are eligible for 39 weeks of base salary and benefits continuation. Notwithstanding their change in control arrangements, the Company's senior executive officers have agreed in writing to accept the ARRA standards discussed earlier in this document. Under ARRA, during the period in which the Treasury holds an equity position in the Company, the Company is prohibited from paying severance resulting from termination for any reason, except for payments for services performed or benefits accrued.

Recent Legislation and Its Impact On Executive Compensation

On January 16, 2009, the Company completed a financing transaction with the United States Treasury under the TARP. The Company is therefore subject to these restrictions, and would be unable to make any of the payments described above under the caption Potential Payments Upon Termination or Change in Control. To comply with these restrictions, Ms. Wright, Ms. McFadden, Mr. Ricca and Mr. Bason have signed agreements waiving their respective rights to severance payments for so long as the Company is legally prohibited from making such payments.

Under ARRA, all institutions that have received government investments under the TARP are required to comply with new executive compensation restrictions. Among other things, these restrictions prohibit the payment of severance to the Company's senior executive officers upon their departure from the institution for any reason. In addition, for institutions like the Company that have received less than \$25 million under the TARP, the institution's highest paid executive officer may not receive a cash bonus, but may receive a bonus in the form of restricted stock provided that (i) the restricted stock does not vest until the Treasury's investment is redeemed, and (ii) the value of the restricted stock does not exceed one-third of the officer's annual compensation. These restrictions remain in place for so long as the government's investment in the institution is outstanding.

In February 2010, the U.S. Treasury announced the creation of the TARP Community Development Capital Initiative (CDCI), in recognition of the unique role of Community Development Financial Institutions (CDFIs) as lenders in disadvantaged communities. Carver, as a CDFI, applied to participate in the CDCI program. On August 27, 2010, Carver completed an exchange of TARP CCP capital for CDCI capital. All restrictions on executive compensation that applied under TARP CPP remain in force under the CDCI program.

Director Compensation

The Chairman of the Board of Directors is currently the Chief Executive Officer and does not receive any additional compensation for serving as the Board Chairman. The Company's outside directors are paid an annual cash retainer of \$10,000 to serve as a Director of both Carver and Carver Federal and receive a meeting fee of \$600 for Board Meetings attended and \$700 per Executive Committee meeting attended. The chairs of the Asset Liability and Interest Rate Risk Committee (ALCO) and Audit committees receive an annual retainer of \$7,500 and \$5,000, respectively, and a meeting fee of \$650. The chairs of the remaining committees receive an annual retainer of \$1,500 and all committee members including the chairs thereof receive \$475 per committee meeting attended. The Compensation Committee may approve a grant of 1,000 shares of restricted stock and 1,000 stock options, which vest pursuant to the Company's incentive plan in effect at the time of the grant. In 2010, after a competitive study of Non-Employee Director Compensation conducted by PM&P, the Compensation Committee decided to grant annual restricted stock awards in the amount of \$5,000 to each non-employee director. Such grants are effective as of the date of each annual meeting of stockholders. All other compensation elements would remain unchanged.

Table of Contents

The following table sets forth information regarding compensation earned by the non-employee directors of the Company during the last fiscal year.

Impact of Accounting and Tax on the Form of Compensation

The Compensation Committee and the Company consider the accounting and tax (individual and corporate) consequences of the compensation plans prior to making changes to the plans. The Compensation Committee has considered the impact of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 718 (formerly SFAS No. 123R), on the Company s use of equity incentives as a key retention tool. As part of its role, the Compensation Committee also reviews and considers sections of the Internal Revenue Code (IRC), including but not limited to, Golden Parachutes Under IRC Section 280(g) and the deductibility of executive compensation under Section 162(m) which limits deduction of compensation paid to Named Executive Officers to \$1,000,000 unless the compensation is *performance-based* . This applies to base salary, all cash incentive plans and equity grants other than stock options. During fiscal year 2010, no employee received taxable compensation in excess of \$1,000,000 and therefore, deductibility of compensation was not limited by these sections of the IRC.

Option Granting Practices

The timing of the Company s option grants has historically been and continues to be determined upon appointment to the Board, upon hire, or in conjunction with incentive grants after the Company s fiscal year end and approved by the Compensation Committee. In fiscal year 2010, no options were granted to Named Executive Officers. When granted, however, grants vest pursuant to the Company s incentive plan in effect at the time of the grant.

Ownership Guidelines

The Company regularly reviews the ownership levels of its directors and officers and has not established minimum stock ownership guidelines as the Company s directors and the Named Executive Officers collectively own a significant amount of Company Stock.

Table of Contents**Conclusion**

The Compensation Committee retains the discretion to decrease all forms of incentive payouts based on significant individual or Company performance shortfalls. Likewise, the Committee retains the discretion to increase payouts and/or consider special awards for significant achievements, including but not limited to superior asset management, investment or strategic accomplishment and/or consummation of beneficial acquisitions.

Overall, the level and mix of compensation that is finally decided upon is considered within the context of both the objective data from Carver's competitive assessment of compensation and performance, as well as discussion of the subjective factors as outlined above. The Compensation Committee believes that each executive's compensation is within the competitive range of practices when compared to the objective comparative data and reasonable given Company and individual performance.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table sets forth information about the shares of Voting Stock authorized by Carver for issuance under equity compensation plans as of March 31, 2010.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))

Equity compensation plans not approved by security holders			
Total	208,514	\$ 12.03	249,046

The Company's Stock Incentive Plans do not provide for re-pricing of stock options, which is the cancellation of shares in consideration of the exchange for other stock options to be issued at a lower price, and the Company has not acted to re-price stock options.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth, as of February 16, 2011, certain information as to shares of Voting Stock beneficially owned by persons owning in excess of 5% of any class of Carver's outstanding Voting Stock. Carver knows of no person, except as listed below, who beneficially owned more than 5% of any class of the outstanding shares of Carver's Voting Stock as of February 16, 2011. Except as otherwise indicated, the information provided in the following table was obtained from filings with the Securities and Exchange Commission (SEC) and with Carver pursuant to the Securities Exchange Act of 1934, as amended (the Exchange Act). Addresses provided are those listed in the filings as the address of the person authorized to receive notices and communications. For

Applicable law requires that all loans or extensions of credit to executive officers and directors must be made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with the general public and must not involve more than the normal risk of repayment or present other unfavorable features. Carver Federal offers loans to its directors, officers and employees, which loans are made in the ordinary course of business and are not made with more favorable terms nor do they involve more than the normal risk of collectability or present unfavorable features. Furthermore, loans above the greater of \$25,000, or 5% of Carver Federal's capital and surplus (up to \$500,000), to Carver Federal's directors and executive officers must be approved in advance by a majority of the disinterested members of Carver Federal's Board of Directors. As of the date of this proxy statement, neither Carver nor Carver Federal had made any loans or extensions of credit to any of its executive officers or directors.

Item 14. Principal Accounting Fees and Services.***General***

The Finance and Audit Committee of the Board of Directors of Carver has appointed the firm of KPMG LLP as independent auditors for Carver for the fiscal year ending March 31, 2012 and the Board of Directors has determined that it would be desirable to request that stockholders ratify such appointment. Representatives of KPMG LLP are expected to be present at the Annual Meeting. They will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

Stockholder ratification of the appointment of KPMG LLP is not required by Carver's Bylaws or otherwise. However, the Board of Directors is submitting the appointment of the independent registered public accounting firm to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the appointment of KPMG LLP, the Finance and Audit Committee will reconsider whether it should select another independent registered public accounting firm. Even if the selection is ratified, the Finance and Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change is in the best interests of Carver Bancorp, Inc. and its stockholders.

Auditor Fee Information

KPMG's fees billed for the fiscal years ended March 31, 2010 and 2009 were as follows:

Pre-Approval Policy for Services by Independent Auditors

During fiscal year 2010, the Finance and Audit Committee of Carver's Board of Directors pre-approved the engagement of KPMG LLP to provide non-audit services and considered whether, and determined that, the provision of such other services by KPMG LLP is compatible with maintaining KPMG LLP's independence.

In June 2004, the Finance and Audit Committee established a policy to pre-approve all audit and permissible non-audit services provided by KPMG LLP consistent with applicable SEC rules. Under the policy, prior to the engagement of the independent auditors for the next year's audit, management submits an aggregate of services expected to be rendered during that year for each of the four categories of services described above to the Finance and Audit Committee for approval. Prior to engagement, the Finance and Audit Committee pre-approves these services by category of service. The fees are budgeted and the Finance and Audit Committee will receive periodic reports from management on actual fees versus the budget by category of service. During the year, circumstances may arise when it may become necessary to engage the independent auditors for additional services not contemplated in the pre-approval. In those instances, the Finance and Audit Committee requires specific pre-approval before engaging the independent auditor.

The Finance and Audit Committee has delegated pre-approval authority, subject to certain limits, to the chairman of the committee. The chairman is required to report, for informational purposes, any pre-approval decisions to the Finance and Audit Committee at its next regularly scheduled meeting.

Report of the Finance and Audit Committee of the Board of Directors

This report is furnished by the Carver Finance and Audit Committee of the Board of Directors as required by the rules of the SEC under the Exchange Act. The report of the Finance and Audit Committee shall not be deemed to be incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended (Securities Act), or the Exchange Act, except to the extent that Carver specifically incorporates this information by reference, and shall not otherwise be deemed to be filed under the Securities Act or the Exchange Act.

The Board of Directors has adopted a written charter that sets forth the Finance and Audit Committee's duties and responsibilities and reflects applicable rules of the NASDAQ Stock Market and SEC regulations.

All members of the Finance and Audit Committee have been determined to be independent as defined in the listing requirements of the NASDAQ Stock Market. The Board of Directors has determined that Robert R. Tarter, Pazel G. Jackson, Jr. and Susan M. Tohbe each qualify as an audit committee financial expert. The Finance and Audit Committee received the required written disclosures and letter from KPMG LLP, Carver's independent accountants, required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications with the Audit Committee concerning the independent registered public accounting firm's independence. The Finance and Audit Committee reviewed and discussed with the Company's management and KPMG LLP the audited financial statements of the Company contained in the Company's fiscal year 2010 annual report on Form 10-K. The Finance and Audit Committee has also discussed with KPMG LLP the matters required to be discussed pursuant to the Codified Statements on Auditing Standards No. 61, as amended or supplemented.

Table of Contents

Throughout the year, the Finance and Audit Committee had full access to management and the independent and internal auditors for the Company. The Finance and Audit Committee consulted with advisors regarding the Sarbanes-Oxley Act of 2002, the NASDAQ Stock Market's corporate governance listing standards and the corporate governance environment in general and considered any additional requirements of the Finance and Audit Committee as well as additional procedures or matters the Finance and Audit Committee should consider. During fiscal year 2010, the Finance and Audit Committee approved the retention of the Company's independent accounting firm, KPMG LLP, and received the Board's ratification of this decision. The Finance and Audit Committee acts only in an oversight capacity and necessarily relies on the assurances and work of the Company's management and independent auditors who expressed an opinion on the Company's annual financial statements. The Company's management has the primary responsibility for the financial statements and the reporting process, including the systems of internal control.

Based on its review and discussions described in the immediately preceding paragraphs, the Finance and Audit Committee recommended to the Board of Directors that the audited financial statements included in the Company's fiscal year 2010 Annual Report on Form 10-K be included in that report.
