American Axle & Manufacturing, Inc. Personal Savings Plan For Hourly-Rate Associates

We have audited the accompanying statements of assets available for benefits of American Axle & Manufacturing, Inc. Personal Savings Plan for Hourly-Rate Associates as of December 31, 2002 and 2001 and the related statement of changes in assets available for benefits for the year ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for benefits of the Plan as of December 31, 2002 and 2001 and the changes in assets available for benefits for the year ended December 31, 2002 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements as a whole.

**1. DESCRIPTION OF THE PLAN**

**General** - The following description of the American Axle & Manufacturing, Inc. Personal Savings Plan for Hourly-Rate Associates (the Plan ) provides only general information. Participants should refer to the summary plan description for more complete details of the Plan s provisions. Copies of the summary plan description are available from the Company s human resource department.

The Plan, established March 1, 1994, is a defined contribution plan covering substantially all employees of American Axle & Manufacturing, Inc. (the Company ) who are members of the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America ( UAW ) and the International Association of Machinists and Aerospace Workers ( IAM ). Effective June 3, 2002, Fidelity Investments ( Fidelity ) has been named as the trustee and custodian of the Plan and replaced Bank One and Putnam Fiduciary Trust Company ( Putnam ), respectively. The Plan was amended to include hourly employees of the Company s U.S. subsidiaries and a new array of investment options was made available. The collective bargaining agreements which cover the above employees expire in 2004 and 2005. The Company may amend, modify, suspend or terminate the Plan to the extent not precluded by applicable agreements. No amendment, modification, suspension or termination of the Plan shall have the effect of providing that any amounts then held under the Plan may be used or diverted to any purpose other than for the exclusive benefit of members or their beneficiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ( ERISA ).

**Contributions** - The Plan provides for each participant to contribute from 1% to 40% (1% to 25% in 2001 and prior) of their eligible earnings. The contributions are made on a pre-tax or after-tax basis. Beginning in 2002, employees over age 50 may contribute an additional 1% to 40% as catch-up contributions. Certain limitations exist as defined in the Plan agreement as to maximum contribution amounts. Additionally, employees may transfer funds into the Plan from other qualified plans.

**Vesting** - Each participant is fully vested in the assets credited to their account, and no portion of such account shall be subject to forfeiture. Employee participation is voluntary.

**Investment Options** - Participants may direct investments to be split between any of the investment fund options available.

**Participant Loans** - The Plan allows participants to borrow against their account balances with repayment through payroll deductions. Loans can be from a minimum of \$1,000 to a maximum of \$50,000 or 50%, whichever is less, of the participant s vested account balance.

**2. SIGNIFICANT ACCOUNTING POLICIES**

*General* - The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

*Valuation of Investments* - The Plan's investments are stated at fair value. The shares of registered investment companies are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end. Participant loans are recorded at cost, which approximates fair value.

*Use of Estimates* - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits at the date of the financial statements and the reported amounts of increases or decreases in assets available for benefits during the reporting period. Actual results could differ from those estimates. The Plan invests in various securities including mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of assets available for benefits.
