FORWARD-LOOKING STATEMENTS

This prospectus includes, and any accompanying prospectus supplement may include, forward-looking statements within the meaning of Section 27A of the Securities Act and the Private Securities Litigation Reform Act of 1995 about us. All statements other than statements of historical fact included in this prospectus or any prospectus supplement are forward-looking statements. Forward-looking statements may be found in this document regarding the financial position, business strategy, possible or assumed future results of operations, and other plans and objectives for our future operations. Except for our obligation to disclose material information under U.S. federal securities laws, we do not undertake any obligation to release publicly any revisions to any forward-looking statements, to report events or circumstances after the date of this prospectus or any prospectus supplement, or to report the occurrence of unanticipated events.

Statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as will, would, should, plans, likely, expects, anticipates, intends, believes, estimates, similar expressions, are forward-looking statements. The following important factors, in addition to those discussed under Risk Factors and elsewhere in this document, could affect the future results of our industry in general, and us in particular, and could cause those results to differ materially from those expressed in or implied by such forward-looking statements.

From time to time, we update the various factors we consider in making our forward-looking statements and the assumptions we use in those statements. However, we undertake no obligation to publicly update or revise any forward-looking events or circumstances that may arise after the date of this prospectus. The following sets forth the various assumptions we use in our forward-looking statements, as well as risks and uncertainties relating to those statements. Certain of the risks and uncertainties may cause actual results to be materially different from projected results contained in forward-looking statements in this prospectus and in our other disclosures. These risks and uncertainties include, but are not limited to, the following:

A downturn in market conditions could affect projected results. Any material changes in oil and natural gas supply and demand, oil and natural gas prices, rig count or other market trends would affect our results and would likely affect the forward-looking information we provided. The oil and natural gas industry is extremely volatile and subject to change based on political and economic factors outside our control. In recent years, worldwide drilling activity increased; however, if an extended regional and/or worldwide recession were to occur, it would result in lower demand and lower prices for oil and natural gas, which would adversely affect drilling and production activity and therefore would affect our revenues and income. We have assumed increases in worldwide demand will continue throughout 2008.

Availability of a skilled workforce could affect our projected results. Due to the high activity in the exploration and production and oilfield service industries there is an increasing shortage of available skilled labor, particularly in our high-growth regions. Our forward-looking statements assume we will be able to recruit and maintain a sufficient skilled workforce for activity levels.

Increases in the prices and availability of our raw materials could affect our results of operations. We use large amounts of raw materials for manufacturing our products. The price of these raw materials has a significant impact on our cost of producing products for sale or producing fixed assets used in our business. We have assumed that the prices of our raw materials will remain within a manageable range and will be readily available. If we are unable to obtain necessary raw materials or if we are unable to minimize the impact of increased raw materials costs through our supply chain initiatives or by passing through these increases to our customers, our margins and results of operations could be adversely affected.

Our long-term growth depends upon technological innovation and commercialization. Our ability to deliver our long-term growth strategy depends in part on the commercialization of new technology. A central aspect of our growth strategy is to develop our products and services, to obtain technologically advanced products through internal research and development and/or acquisitions, to protect proprietary technology from unauthorized use and to expand the markets for new technology through leverage of our worldwide infrastructure. The key to our success will be our ability to commercialize the technology that we have acquired and demonstrate the enhanced value our technology brings to our customers' operations. Our major technological advances include, but are not limited to, those related to

controlled pressure drilling and testing systems, expandable solid tubulars, expandable sand screens and intelligent well completion. Our forward-looking statements have assumed successful commercialization of, and above-average growth from, these new products and services.

Table of Contents

Nonrealization of expected benefits from our 2002 corporate reincorporation could affect our projected results. We are incorporated in Bermuda and we operate through our various subsidiaries in numerous countries throughout the world including the United States. Consequently, we are subject to changes in tax laws, treaties or regulations or the interpretation or enforcement thereof in the U.S., Bermuda or jurisdictions in which we or any of our subsidiaries operates or is resident. Our income tax expense is based upon our interpretation of the tax laws in effect in various countries at the time that the expense was incurred. If the U.S. Internal Revenue Service or other taxing authorities do not agree with our assessment of the effects of such laws, treaties and regulations, this could have a material adverse effect on us including the imposition of a higher effective tax rate on our worldwide earnings or a reclassification of the tax impact of our significant corporate restructuring transactions.

Nonrealization of expected benefits from our acquisitions could affect our projected results. We expect to gain certain business, financial and strategic advantages as a result of business acquisitions we undertake, including synergies and operating efficiencies. Our forward-looking statements assume that we will successfully integrate our business acquisitions and realize the benefits of that. An inability to realize expected strategic advantages as a result of the acquisition, would negatively affect the anticipated benefits of the acquisition.

The cyclical nature of or a prolonged downturn in our industry could affect the carrying value of our goodwill. As of March 31, 2008, we had approximately \$3.4 billion of goodwill. Our estimates of the value of our goodwill could be reduced in the future as a result of various factors, some of which are beyond our control. Any reduction in the value of our goodwill may result in an impairment charge and therefore adversely affect our results.

Currency fluctuations could have a material adverse financial impact on our business. A material change in currency rates in our markets could affect our future results as well as affect the carrying values of our assets. World currencies have been subject to much volatility. Our forward-looking statements assume no material impact from future fluctuations in currency exchange rates.

Adverse weather conditions in certain regions could adversely affect our operations. In the summer of 2005, the Gulf of Mexico suffered several significant hurricanes. These hurricanes and associated hurricane threats reduced the number of days on which we and our customers could operate, which resulted in lower revenues than we otherwise would have achieved. In parts of 2006, and particularly in the second quarter of 2007, climatic conditions in Canada were not as favorable to drilling as we anticipated, which limited our results in that region. Similarly, unfavorable weather in Russia and in the North Sea could reduce our operations and revenues from those areas during the relevant period. Our forward-looking statements assume weather patterns in our primary areas of operations will be conducive to our operations.

Political disturbances, war, or terrorist attacks and changes in global trade policies could adversely impact our operations. We have assumed there will be no material political disturbances or terrorist attacks and there will be no material changes in global trade policies. Any further military action undertaken by the U.S. or other countries could adversely affect our results of operations.

U.S. Government and internal investigations could affect our results of operations. We are currently involved in government and internal investigations involving various of our operations. These investigations are ongoing, and we cannot anticipate the timing, outcome or possible impact of these investigations, financial or otherwise. The governmental agencies involved in these investigations have a broad range of civil and criminal penalties they may seek to impose against corporations and individuals for violations of trading sanctions laws, the Foreign Corrupt Practices Act and other federal statutes including, but not limited to, injunctive relief, disgorgement, fines, penalties and modifications to business practices and compliance programs. In recent years, these agencies and authorities have entered into agreements with, and obtained a range of penalties against, several public corporations and individuals in similar investigations, under which civil and criminal penalties were imposed, including in some cases multi-million dollar fines and other penalties and sanctions. Under trading sanctions laws, the Department of Justice (DOJ) may also seek to impose modifications to business practices, including immediate cessation of all business activities in sanctioned countries, and modifications to compliance programs, which may increase compliance costs. Any injunctive relief, disgorgement, fines, penalties, sanctions or imposed modifications to business practices resulting from these investigations could adversely affect our results of operations. Additionally, during the three months ended March 31, 2008, we incurred \$51 million for costs incurred in connection with our exit from sanctioned countries and

\$8 million in connection with complying with these on-going investigations. We will have additional charges related to these matters in future periods, which costs may include labor claims, contractual claims, penalties assessed by customers, and costs, fines, taxes and penalties assessed by the local governments, but we cannot quantify those charges or be certain of the timing of them.

All written and oral forward-looking statements attributable to us are expressly qualified in their entirety by such factors. Finally, our future results will depend upon various other risks and uncertainties, including, but not limited to, those detailed in our other filings with the SEC. For additional information with respect to these factors, see [Where You Can Find More Information](#) above.

THE COMPANY

We are one of the world's leading providers of equipment and services used for the drilling, completion and production of oil and natural gas wells. We were originally incorporated in Delaware in 1972, and as a result of our corporate reorganization in 2002, are now incorporated in Bermuda. Many of our businesses have been operating for more than 50 years.

We operate in approximately 100 countries through approximately 800 service, sales and manufacturing locations, which are located in nearly all of the oil and natural gas producing regions in the world.

RISK FACTORS

There are important factors that could cause our actual results, level of activity or performance to differ materially from our past results of operations or from the results, level of activity or performance implied by the forward-looking statements contained in this prospectus or in any prospectus supplement. In particular, you should carefully consider the risk factors described under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2007, and Quarterly Report on Form 10-Q for the quarter ended March 31, 2008, which are incorporated by reference into this prospectus. Other sections of this prospectus, any prospectus supplement and the documents incorporated by reference may include additional factors which could adversely impact our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time, and it is not possible for us to predict all risk factors, nor can we assess the impact of all risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

USE OF PROCEEDS

The selling shareholders will receive all of the proceeds from the sale of our common shares offered by this prospectus. We will not receive any of the proceeds from the sale of our common shares offered hereby.

SELLING SHAREHOLDERS

The selling shareholders will be named in the accompanying prospectus supplement, along with information regarding the beneficial ownership of our common shares by such selling shareholders as of the date of the prospectus supplement, the number of shares being offered by such selling shareholders and the number of shares beneficially owned by such selling shareholders after the applicable offering. We will not receive any proceeds from the sale of our common shares by the selling shareholders.

PLAN OF DISTRIBUTION

The selling shareholders, or their pledgees, donees, transferees, or any of their successors-in-interest selling shares received from a named selling shareholder as a gift, partnership distribution or other non-sale-related transfer after the date of this prospectus (all of whom may be selling shareholders), may sell some or all of the securities covered by this prospectus from time to time on any stock exchange or automated interdealer quotation system on which the securities are listed, in the over-the-counter market, in privately negotiated transactions or otherwise, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at prices otherwise negotiated. The selling shareholders may sell the securities by one or more of the following methods, without limitation:

block trades in which the broker or dealer so engaged will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker or dealer as principal and resale by the broker or dealer for its own account pursuant to this prospectus;

an exchange distribution in accordance with the rules of any stock exchange on which the securities are listed;

ordinary brokerage transactions and transactions in which the broker solicits purchases;

privately negotiated transactions;

short sales, either directly or with a broker-dealer or affiliate thereof;

through the writing of options on the securities, whether or not the options are listed on an options exchange;

through loans or pledges of the securities to a broker-dealer or an affiliate thereof;

by entering into transactions with third parties who may (or may cause others to) issue securities convertible or exchangeable into, or the return of which is derived in whole or in part from the value of, our common shares;

through the distribution of the securities by any selling shareholder to its partners, members or shareholders;

one or more underwritten offerings on a firm commitment or best efforts basis; and

any combination of any of these methods of sale.

For example, the selling shareholders may engage brokers and dealers, and any broker or dealer may arrange for other brokers or dealers to participate in effecting sales of the securities. These brokers, dealers or underwriters may act as principals, or as an agent of a selling shareholder. Broker-dealers may agree with a selling shareholder to sell a specified number of the securities at a stipulated price per security. If the broker-dealer is unable to sell securities acting as agent for a selling shareholder, it may purchase as principal any unsold securities at the stipulated price. Broker-dealers who acquire securities as principals may thereafter resell the securities from time to time in transactions on any stock exchange or automated interdealer quotation system on which the securities are then listed, at prices and on terms then prevailing at the time of sale, at prices related to the then-current market price or in negotiated transactions. Broker-dealers may use block transactions and sales to and through broker-dealers, including transactions of the nature described above.

From time to time, one or more of the selling shareholders may charge, pledge, hypothecate or grant a security interest in some or all of the securities owned by them. The chargees, pledgees, secured parties or persons to whom the securities have been hypothecated will, upon foreclosure in the event of default, be deemed to be selling shareholders. As and when a selling shareholder takes such actions, the number of securities offered under this

prospectus on behalf of such selling shareholder will decrease. The plan of distribution for that selling shareholder's securities will otherwise remain unchanged.

A selling shareholder may, from time to time, sell the securities short, and, in those instances, this prospectus may be delivered in connection with the short sales, and the securities offered under this prospectus may be used to cover short sales. A selling shareholder may enter into hedging transactions with broker-dealers, and the broker-dealers may engage in short sales of the securities in the course of hedging the positions they assume with that selling shareholder, including, without limitation, in connection with distributions of the securities by those broker-

Table of Contents

dealers. A selling shareholder may enter into option or other transactions with broker-dealers that involve the delivery of the securities offered hereby to the broker-dealers, who may then resell or otherwise transfer those securities. A selling shareholder may also loan the securities offered hereby to a broker-dealer, and the broker-dealer may sell the loaned securities pursuant to this prospectus.

A selling shareholder may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third-party may use securities pledged by the selling shareholder or borrowed from the selling shareholder or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from the selling shareholder in settlement of those derivatives to close out any related open borrowings of stock. The third-party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment to the registration statement of which this prospectus forms a part).

To the extent required under the Securities Act, the aggregate amount of selling shareholders' securities being offered and the terms of the offering, the names of any agents, brokers, dealers or underwriters and any applicable commission with respect to a particular offer will be set forth in an accompanying prospectus supplement. Any underwriters, dealers, brokers or agents participating in the distribution of the securities may receive compensation in the form of underwriting discounts, concessions, commissions or fees from a selling shareholder and/or purchasers of selling shareholders' securities for whom they may act (which compensation as to a particular broker-dealer might be in excess of customary commissions).

The selling shareholders and any underwriters, brokers, dealers or agents that participate in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act, and any discounts, concessions, commissions or fees received by them and any profit on the resale of the securities sold by them may be deemed to be underwriting discounts and commissions.

The selling shareholders and other persons participating in the sale or distribution of the securities will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act, and the rules and regulations thereunder, including Regulation M. This regulation may limit the timing of purchases and sales of any of the securities by the selling shareholders and any other person. The anti-manipulation rules under the Exchange Act may apply to sales of securities in the market and to the activities of the selling shareholders and their affiliates. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of the securities to engage in market-making activities with respect to the particular securities being distributed for a period of up to five business days before the distribution. These restrictions may affect the marketability of the securities and the ability of any person or entity to engage in market-making activities with respect to the securities.

We have agreed to indemnify in certain circumstances certain of the selling shareholders against certain liabilities, including liabilities under the Securities Act. Certain of the selling shareholders have agreed to indemnify us in certain circumstances against certain liabilities, including liabilities under the Securities Act.

Certain of the securities offered hereby were originally issued to the selling shareholders pursuant to an exemption from the registration requirements of the Securities Act. We agreed to register the securities under the Securities Act, and to keep the registration statement of which this prospectus is a part effective for a specified period of time.

We will not receive any proceeds from sales of any securities by the selling shareholders. We cannot assure you that the selling shareholders will sell all or any portion of the securities offered hereby.

Item 15. Indemnification of Directors and Officers.

Weatherford International Ltd. is a Bermuda exempted company. Section 98 of the Companies Act 1981 of Bermuda, as amended (the Companies Act), provides generally that a Bermuda company may indemnify its directors, officers and auditors against any liability which by virtue of any rule of law otherwise would be imposed on them in respect to any negligence, default, breach of duty or breach of trust, except in cases where such liability arises from fraud or dishonesty of which such director, officer or auditor may be guilty in relation to the company. Section 98 further provides that a Bermuda company may indemnify its directors, officers and auditors against any liability incurred by them in defending any proceedings, whether civil or criminal, in which judgment is awarded in their favor or in which they are acquitted or granted relief by the Supreme Court of Bermuda pursuant to Section 281 of the Companies Act. Our bye-laws provide that the shareholders waive all claims or rights of action that they might have, individually or in right of the company, against any of the company's directors or officers for any act or failure to act in the performance of such director's or officer's duties, except in respect of any fraud or dishonesty of such director or officer.

Furthermore, we have entered into indemnification agreements with each of our directors and executive officers. The indemnification agreements require us to indemnify our officers and directors, except for liability in respect of their fraud or dishonesty, against expenses (including attorneys' fees and disbursements), judgments, penalties, fines and amounts paid in settlement actually and reasonably incurred in connection with any action, suit, arbitration, alternate dispute resolution mechanism, investigation, administrative hearing or any other proceeding whether civil, criminal, administrative or investigative and whether formal or informal. The indemnification agreements also provide that we must pay all reasonable expenses incurred in advance of a final disposition. David J. Butters and Robert B. Millard, employees of Lehman Brothers Inc., constitute two of the eight members of the Board of Directors of Weatherford. Under the restated certificates of incorporation, as amended to date, of Lehman Brothers and its parent, Lehman Brothers Holdings Inc., both Delaware corporations, Messrs. Butters and Millard, in their capacity as directors of Weatherford, are to be indemnified by Lehman Brothers and Lehman Brothers Holdings to the fullest extent permitted by Delaware law. Messrs. Butters and Millard are serving as directors of Weatherford at the request of Lehman Brothers and Lehman Brothers Holdings.

Section 98A of the Companies Act permits us to purchase and maintain insurance for the benefit of any of our officers or directors in respect of any loss or liability attaching to him in respect of any negligence, default, breach of duty, or breach of trust, whether or not we may otherwise indemnify such officer or director. We have purchased and maintain a directors and officers liability policy for such purposes. Messrs. Butters and Millard are insured against certain liabilities, which they may incur in their capacity as directors pursuant to insurance maintained by Lehman Brothers Holdings.

Item 17. Undertakings.

(a) The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement;

Provided, however, That:

Paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) of this section do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated

by reference in the Registration Statement, or is contained in a form prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(b) The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of such Registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
