Item 2.02. Results of Operations and Financial Condition

On January 23, 2007, Centex Corporation, a Nevada corporation (the Corporation), announced its results of operations for the quarter ended December 31, 2006. A copy of the Corporation s press release (the Press Release) announcing these results is being furnished as Exhibit 99.1 hereto and is hereby incorporated in this Item 2.02 in its entirety by reference.

The Press Release refers to certain non-GAAP financial measures, including housing operating earnings and housing operating margin. Management believes that investors understanding of the Corporation s performance is enhanced by including certain of these non-GAAP financial measures to provide a means of comparing results from the Corporation s housing operations, and to separate these operations from activities related to land holdings, options to acquire land and related valuation adjustments. Management uses these non-GAAP financial measures to aid in evaluating the performance of its ongoing housing projects. Many investors are interested in understanding the performance of our business by comparing our results from the principal elements of ongoing operations from one period to the next period. By providing these non-GAAP financial measures together with the reconciliations, we believe we are enhancing investors understanding of our housing operations as well as our land-related activities. Also, several financial analysts who follow the Corporation focus on and publish both historical results and future projections based on these non-GAAP financial measures.

These non-GAAP financial measures are not meant to be considered in isolation or as a substitute for the comparable GAAP measures. There are limitations to these non-GAAP financial measures because they are not prepared in accordance with GAAP and they may not be comparable to similarly titled measures of other companies due to potential differences in methods of calculation and charges being excluded. The Corporation compensates for these limitations by using these non-GAAP financial measures as supplements to the GAAP measures. The non-GAAP financial measures should be read only in conjunction with the Corporation s consolidated financial statements prepared in accordance with GAAP.

Housing Operating Earnings

Housing operating earnings is a non-GAAP financial measure and is defined by the Corporation as housing revenues less housing cost of sales less selling, general and administrative expenses. The Corporation uses housing operating earnings to (a) evaluate historical and prospective financial performance and its performance relative to its competitors, and (b) measure the operational performance of the Corporation s core home building operations. The Corporation believes that the disclosure of housing operating earnings provides useful information to investors because it distinguishes between the results of housing operations and transactions involving land, options to acquire land and related valuation adjustments.

Housing Operating Margin

Housing operating margin is a non-GAAP financial measure and is defined by the Corporation as housing operating earnings divided by total housing revenues. The Corporation uses housing operating margin to (a) evaluate historical and prospective financial performance and its performance relative to its competitors, and (b) measure the operational performance of the Corporation s core home building operations. The Corporation believes that the disclosure of housing operating margin provides useful information to investors because it distinguishes between the results of housing operations and transactions involving land, options to acquire land and related valuation adjustments. Reconciliations of the above non-GAAP financial measures are included in the attachments to the Press Release.
